## GENERAL ELECTORAL LISTS, 1895-6.—ISSUE OF ELECTORS' RIGHTS.

IT is hereby notified that the General Lists of Non-ratepaying Electors for the Legislative Council and Legislative Assembly must be prepared during the week ending the 2nd December proximo (as the 1st December will fall on a Sunday), and that persons who have not already enrolled may do so by obtaining Electors' Rights from the Registrars for their respective Divisions, or their Deputies, before or on that date.

Intending applicants for Electors' Rights are cautioned to apply early to the Registrar. The law requires the prescribed questions as to an applicant's qualification to be answered in writing; therefore, if application be postponed until the last day allowed for the purpose, as is too frequently the case, much inconvenience will be occasioned, with the possible result that those who so delay will be deprived of the opportunity for enrolment.

Each applicant should provide himself with the stamp (6d.) necessary for payment for the Right.

Intending applicants are further cautioned to carefully ascertain whether they are fully qualified under the law; inasmuch as a penalty on conviction is imposed upon persons knowingly and wilfully obtaining Electors' Rights when not qualified.

No person whose name is on, or entitled to be on, any Roll of Ratepaying Electors for any Division of a Province may obtain an Elector's Right for such province; and no person whose name

is already on the new List of Ratepaying Electors (now being prepared) for any Division of an Electoral District may obtain an Elector's Right for such District.

Foreigners who desire to obtain Electors' Rights must, if not already naturalized in Victoria, obtain from the Chief Secretary letters of naturalization before doing so, or before the sitting of the Revision Courts appointed to be held during February next if they desire enrolment as Ratepaying Electors.

‡ Census figures.

The births and deaths in Greater Melbourne, together with the mean temperature in the shade, the mean atmospheric pressure and the amount of rainfall, during the month of October, of each of the ten years 1885-94, were as follows:—

The births of 1,057 children, viz., 549 boys and 508 girls, were registered in Greater Melbourne during the month of October, or 51 less than in the preceding month. The births have fallen off by one-third since 1891, and were much fewer in the month under review than in the corresponding month of any previous year since 1887; they were, moreover, 214 below the average of the month during the previous ten years, and 235 below that average if allowance be made for the increase of population.

The deaths registered in October numbered 572, viz., 284 of males and 288 of females; the births thus exceeded the deaths by 485, or 85 per cent. The deaths exceeded those in September by 23, and were more numerous than those recorded for October in any of the previous ten years except 1889, 1890, and 1891. They were, however, 18 below the average of those ten years, in consequence of the average having been swelled by an exceptionally high mortality in October, 1891, and 28 below it if allowance be made for the increase of population.

To every 1,000 of the population of the district the proportion of births registered was equivalent to 28.35, and of deaths registered 15.34 per annum.

The highest temperature in the shade recorded at Melbourne Observatory during the month was 86.6° on the 12th, and the lowest was 39.1° on the 4th. Although the mean temperature of the month (58.7°) was as much as 1.6° above the average, it was twice exceeded in the previous ten years, viz., in October, 1894 and 1889. The greatest range of the thermometer in any one day (40.0°) took place on the 19th, and the least range (4.0°) on the 13th; the mean daily range was 20.8°. The highest atmospheric pressure recorded was 30.226 inches on the 15th, and the lowest was 29.480 inches on the 7th. The mean atmospheric pressure (29.915 inches) was one thirty-second of an inch above the average.

Rain fell on 8 days, the amount of rainfall being 57 inches. The average rainfall in October during the previous ten years was 2.76 inches, or nearly five times as much as in the month under notice. During the first ten months of the current year the rainfall was only 14.62 inches, as compared with an average of 20.43 inches.

The sexes contributed 24 per cent. in October, 1894; 28 per cent. in October, 1893; 26 per cent. in October, 1892; 27 per cent. in October, 1891; 31 per cent. in October, 1890; and 40 per cent. in October, 1889. Thus the proportional mortality of children, as compared with that of persons of all ages, has fallen off by one-half since 1889.

Sixty deaths of persons who had attained or passed the age of 75 years were recorded during the month. Influenza, which has recently appeared in an epidemic form, caused 33 deaths in the month under review as compared with 26 in the preceding one, results which were much more serious than in any previous months since the great outbreak in 1891. Of other zymotic diseases, diphtheria and septic diseases were also more fatal in the month under notice than in the previous one, the deaths from the former having increased from 1 to 6, and from the latter from 4 to 10 (including 5 cases of puerperal fever). Under the head of constitutional diseases, deaths from cancer rose from 27 to 38, but those from phthisis fell from 84 to 71; whilst under the head of developmental diseases, those from old age fell from 19 to 14. In the local class, there was a slight increase on the whole, there having been an increase under the sub-heads of diseases of the nervous and digestive systems, but a decrease under those of the circulatory and urinary systems. As in the previous month, attention has still to be drawn to the continuance of a high rate of mortality from puerperal fever and childbirth; no fewer than 12 deaths having been set down thereto in October, or the same number as in August last, but higher than in any other month during the current year. Since the beginning of the year the total number of such deaths was 79; being equivalent to 1 death of a mother to every 140 births registered in the same period, as compared with an average of 1 to every 182. As regards climatic influences on the mortality, it may be pointed out that the mean temperature of the month was exceptionally high and the rainfall abnormally low.

The following is a statement of the deaths set down to influenza in each month of the years 1890 to 1894, and the first ten months of 1895, from which may be traced the rise and fall of the mortality at various periods of the year. It will be noticed that it is usually most fatal in September or October:—

Tenders, enclosed in a separate envelope, and having the words "Tender for Victorian Steam Coal at ——" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

## CONDITIONS OF CONTRACT.

1. As the exact quantity of the coal which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated in the schedule, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at the contract rates.

2. The coal to be supplied must have been screened at the pit's mouth, and must be of the best quality. No other coal will be received. In case of the rejection or return of any supplies the contractor shall bear the whole cost of replacing the supplies so rejected or returned.

3. The orders will be issued by the departments requiring the coal.

4. Coal shall be delivered as may be directed by the officer ordering the supply.

5. At the time of delivering the supplies the contractor shall produce the order for the same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the coal accepted and shall return the order to the contractor.

6. If after the delivery of the supplies has been taken any deficiency or defect is discovered therein, such supplies may be returned to the contractor.

7. The pit certificate to be produced upon request.

8. The contractor will be bound to deliver the coal for vessels into the ships' bunkers. (Dredges are not included in this condition.)

9. When baskets are used in the delivery of coal they are all to be of one size, and the contractor will be bound to tare the baskets when so required by the officer taking delivery. In other cases the contractor will be bound to satisfy the officer receiving that the weight or quantity is correct.

10. Coal to be put on board at a rate of not less than ten (10) tons per hour.

11. In the event of the officer ordering the coal not requiring the same to be put into the ship's bunkers, as required by condition No. 8, a rebate of 1s. per ton to be made by the contractor.

12. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality the same is to be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered as final.

13. If the board of survey shall decide that the coal is of inferior quality, the delay in delivering the quality specified in condition No. 2 will subject the contractor to a mulct assessed according to the actual loss sustained by such delay, and it will also be in the power of the Treasurer of the Colony for the time being to terminate the contract forthwith and forfeit the whole or any portion of the security money.

14. Steam vessels are to be supplied with coal on demand. No more delay will be allowed than is sufficient to give the necessary orders and get the hulk or vessel alongside. Bad weather to be the only excuse. When there is not a necessity for an immediate supply, a day's notice will be given.

15. As soon as the orders shall have been completed the contractor will be required to furnish to the department supplied his accounts in the prescribed form, with the receipted delivery orders attached thereto.

16. A refusal to execute orders, or repetition of irregularity in the quality or quantity of the supplies, or in delay of delivering or replacing them when required, will subject the contractor to such mulct, not exceeding £50, as the said Treasurer may direct, such mulct to be deducted from the contractor's account or the security money. It will also be in the power of the Treasurer, upon such refusal or repetition, to terminate the contract forthwith and forfeit the whole or any portion of the security money.

17. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

18. In the event of a general strike occurring at the collieries, any contract entered into under these conditions after the expiry of one calendar month from notice being given may be suspended, such contract to come into full force and effect again ten (10) days after such cause of suspension shall be discontinued.

19. The contracts entered into under this notice are not to be considered as being broken, infringed, or violated by any purchase of any other coal by the Defence Department for the use of torpedo boats and the *Cerberus*.

20. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

21. No subletting will be allowed. All work must be carried out by the contractor, and the hours of employment of any person engaged therein are not to exceed forty-eight per week, and at a minimum wage of 7s. 6d. (clear of all deductions) per day of eight hours for miners, and 6s. 8d. per day for labourers. Any infringement of this condition will subject the contractor, upon report from the Tender Board, to such mulct not exceeding Fifty pounds (£50) as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money.

Every licence granted under section 123 of the *Land Act 1890* shall be subject to the conditions set forth in the schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under section 7 of the *Vermin Destruction Act 1890*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

#### Conditions:

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1890*, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1890*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence-fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the *Land Act 1890* may think fit. 5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.

9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

12. The ring-barking of the timber upon the land by the licensee is expressly forbidden, nor is he entitled to destroy or cut and take away any such timber; and should he be found destroying, felling, or removing live or dead timber without a licence authorizing him so to do, he will be prosecuted according to law.

13. The licensee shall destroy all thistles on the land, and on the half width of adjoining roads, and shall be responsible for the destruction of thistles under the Thistle Act in like manner as holders of freehold lands.
