[No. 4 of 1895.]

SHIPPING BEACONS, BULLER RIVER, WESTPORT.

THE Westport Harbor Board have notified their intention to shift the beacon gradually during the construction of the inner training-wall on the south-west side of the Buller River, below the lagoon. The river beacons, prior to moving, stood in line S.E. $\frac{1}{2}$ S. and N.W. $\frac{1}{2}$ N. magnetic. The front beacon, which now stands on a railway wagon for the sake of portability, has been moved to the north-eastward, changing the bearing of the river beacons to N.W. $\frac{1}{2}$ W. magnetic, inward; and it is intended to continue this gradual moving of the river beacons until the wall has proceeded a certain distance. Shipmasters working the port will therefore be guided simply by the beacons as formerly, irrespective, however, of any compass bearings being given. When the wall has been constructed as far as it is intended at present to carry it, the beacons will be set, and their respective compass bearings given. A further Notice to Mariners on the subject will then be published.

MELBOURNE AND METROPOLITAN BOARD OF WORKS.

BY-LAW No. 5.*

REGULATIONS for the construction and use of Sewers and Drains within the area under the control of the Melbourne and Metropolitan Board of Works.

NOTE.—The sections quoted are those contained in the "Melbourne and Metropolitan Board of Works Act 1890."

Preamble.—Whereas by the Melbourne and Metropolitan Board of Works Act 1890 (hereinafter called "the Act") it is amongst other things enacted—that, subject to the provisions of the Act, and in order to secure the efficient maintenance of the main and general sewerage of the metropolis, the Board created by the Act, and hereinafter called "the Board," may from time to time make by-laws in relation to the levels, dimensions, construction, maintenance, ventilation, and cleansing of sewers; subject, however, to the approval of the Governor in Council before any by-law as to the construction, ventilation, or cleansing of sewers shall be of force or effect, and that the Board may by any such by-laws prescribe the form of any notices or orders under the Act, which notices or orders may be used in the form so prescribed or to the like effect, varied as the circumstances may require, and shall be sufficient in law, and that by such by-laws the Board, with the approval of the Governor in Council, may impose reasonable penalties, not in any case exceeding the sum of Twenty pounds, for the violation of any such by-laws or regulations:

And whereas by Part III. of the Act provision is made with regard to main sewerage and drainage, and the sewerage and drainage of private premises, and by section 100 thereof it is provided that every person intending to make or branch any sewer or drain into a sewer vested in the Board shall, seven clear days before commencing any works for that purpose, make written application to the Board, accompanied by a plan showing such particulars as may be required by any by-law or resolution of the Board, and that no such work shall be commenced until the sanction in writing of the Board has been given:

And whereas it is expedient that regulations with regard to the construction of sewers and drains in the metropolis, more especially in relation to their connexion with the main sewers and to water-closets, sinks, traps, and other house sewerage fittings, appliances, and apparatus, should be prescribed; and that the same, and also the terms and conditions upon which the sanctions, permissions, authorities, and consents which the Board is empowered to give for connecting private sewers and drains with the sewers and drains of the Board and otherwise will be accorded and given, should be declared and known:

Now, therefore, the Board do hereby, pursuant to and in exercise of the power and authority conferred upon it as aforesaid, make the following by-law (that is to say):—

GENERAL.

1. The sewerage system of the metropolis consists of main and lateral conduits of salt-glazed vitrified stoneware, Portland cement concrete, brickwork in cement, wrought iron, cast iron, or of these materials combined in various ways.—[Section 79.]

They are designed to carry off all the water passing through water-closets, lavatories, baths, and urinals; all chamber slops; water used in cooking, washing food, clothes, floors, &c., and generally from sinks in kitchens, cellars, and sculleries, from stables, cow-houses, and other out offices, together with all liquid refuse which in the opinion of the Board will not prejudicially affect the sewers, sewerage machinery, or the sewage farm.

Washings from paved yards will only be admitted as herein-after provided.

2. All connexions of plumbing work, drains, or sewers with the sewerage system of the metropolis, and all work connected in any way with the drainage of any premises, shall be executed in accordance with these rules and regulations.—[Section 100.]

CONSTRUCTION OF SEWERS AND DRAINS.

3. The Board will construct, maintain, and repair all the main and lateral sewers. The drains must be constructed, maintained, repaired, and cleansed by or at the cost of the owners.—[Section 79.]

All the works of sewerage and drainage will be carried out in accordance with the provisions of Part III. of the Act, being sections 76 to 119 thereof, both inclusive.

In case of any obstruction taking place in a combined drain, draining two or more premises, the Board will determine between the respective owners of the premises so drained by whom and in what proportion the cost of removing any such obstruction shall be paid; and the proportion so determined must be paid by and will be recoverable from each such owner at the instance of such one or more of the other owners as shall have paid for the work, or of the Board if the work shall have been done by it.

Every person who by a notice from the Board issued in accordance with the Act shall be required to do or not to do anything, including therefore a requirement to make any sewer or drain, or branches, works, or arrangements for the better sewerage or draining of his house, building, or ground, and who fails to comply with such notice, will, under the provisions of section 105 of the Act, become guilty of an offence against the Act, and for every such offence he will be liable, unless other penalty be prescribed, besides any costs or expenses which may be incurred in taking proceedings against him, as well as any costs or expenses which may be incurred in remedying any default of his, to a penalty not exceeding Twenty pounds, and to a penalty not exceeding Five pounds, nor less than One pound, for each day during which such offence is continued by him, and

such penalty will be recoverable, notwithstanding that the Board may not have chosen to exercise any power given to it by the Act to remedy such default.—[Section 105.]

With a view to obviate the incurring of liability to such penalties, and to insure uniformity and efficiency of work by reason of its being done by skilled and experienced workmen, supervised by the Board's inspectors, and for economy, because of the cheaper price at which fittings and apparatus can be obtained under contracts for large quantities thereof by the Board, the Board will, in exercise of its powers, contract and agree with the owners of houses, buildings, or ground that the constructing, altering, or enlarging any sewer or drain connected with such premises shall be done by the Board on payment of the cost of the same by the owners; and the Board will, in like manner, on payment of all expenses and cost, undertake to perform any work which may be required to be done by any notice issued by the Board to any owner.—[Section 105.]

LICENSED PLUMBERS.

4. No consent will be given to any person, firm, or corporation to do any kind of work connected with the laying of house drains or plumbing, or making any repairs, additions to, or alterations of any drain or plumbing work connected or designed to be connected with the sewerage system, unless through an employer or working plumber licensed by the Board.—[Section 99.]

The conditions upon which the Board will consent to the making or branching, or the causing to be made or branched, any sewer, or to the making or causing to be made any opening into any sewer, vested in the Board, or to the fixing of any fittings or apparatus, or to the doing of any other work in connexion with the sewers or drains within the metropolis, are and shall be:—

(1) That every person contracting or undertaking to do any such work by the agency of workmen employed by or under him must himself be the holder of a licence from the Board called an "Employer's Licence," or of a licence from the Board called a "Working Plumber's Licence."

(2) That no person shall be engaged or employed as a workman in the actual performance of any such work unless he is the holder of a "Working Plumber's Licence" from the Board.

The conditions upon which "Employers' Licences" and "Working Plumbers' Licences" will be issued by the Board are:—

(1) That every such licence will be subject to suspension or cancellation at the will of the Board; and that all such licences will be granted to expire on the 30th day of June of each year.

(2) "Employers' Licences" will qualify their holders to carry out work under the Board's Regulations, by the agency of licensed working plumbers; but such licences will not authorize their holders to do practical work under the said Regulations, unless they be also themselves holders of "Working Plumbers' Licences."

(3) A special condition of every licence issued to an employer shall be that, if a licensed workman in his employment upon any such work prove, according to the judgment of the Board's inspecting officer, to be incapable as a workman, or transgress the Regulations of the Board, and the "Working Plumber's Licence" of such workman be for any such cause suspended or cancelled by the Board, and notice of such suspension or cancellation, in the Form A to this By-law annexed, or to the like effect, be given by the Board in writing, by registered letter, addressed in accordance with the registered address in the licence issued to the said employer, the employer shall cease to employ such workman upon any such work immediately after and during the continuance of such suspension or cancellation. And any holder of an "Employer's Licence" who shall neglect or fail to comply with this condition shall be liable to a penalty not exceeding Ten pounds, and to a continuing penalty of not more than Two pounds nor less than One pound for every day during which such neglect or failure shall continue after service of the hereinbefore mentioned notice upon such employer. And the "Employer's Licence" of such employer shall thereupon become liable to suspension or cancellation by the Board. [Form A.]

"Working Plumbers' Licences" will be issued to candidates who shall have successfully passed an examination by examiners appointed by the Board in the following subjects (that is to say):—

Materials.—The use of lead, tin, copper, and their alloys, wrought and cast iron, stoneware, bricks, tiles, Portland cement, and other materials used by the plumber and drainer.

Plumbing Practice.—As to solder and soldering, lead burning, lead laying, pipe and joint making, pipe bending, and general plumbers' practice.

Water Supply Work.—Knowledge of the Board's Water Supply By-laws, general water supply work, water supply fittings, hot-water connexions.

Sewerage Work.—Knowledge of the Board's Sewerage Regulations, construction and use of traps, soil, waste and vent pipes, house fittings, water-closets, kitchen sinks, baths, lavatories, housemaids' sinks, urinals, latrines, and other sewerage apparatus and appliances.

General Principles of Sanitary Work.—Flushing, ventilation, disconnection.

Candidates for examination in plumbing practice must provide themselves with their own tools, and must submit samples of work done by themselves, and also make any pipe, bend, joint, or other plumbing appliance which may be required to satisfy the examiners.

* Re-published in lieu of the By-law in *Gazette* of 1st February, 1895, page 447.

Candidates for "Working Plumbers' Licences" must give notice in writing to the Secretary of the Board of their intention to submit themselves to examination at such time as shall be appointed for the same by the Board's examiners.

Every candidate who shall have successfully passed the before-mentioned examination, and given proof to the satisfaction of the examiners of practical ability as a plumber, will be furnished with a licence from the Board to do practical work as a plumber upon and in connexion with the sewers, drains, and all necessary fittings, appliances, and apparatus appurtenant thereto within the metropolis, subject to and in accordance with the Board's Regulations. And he will likewise be furnished with a certificate from the Board that he is duly qualified to do work in connexion with the water supply and sewerage systems under the control of the Board, and in accordance with the Board's Regulations.

"Working Plumbers' Licences" will, at the discretion of the Board, be issued without previous examination to any practical plumber who shall be the holder of and shall produce a licence from any other sewerage or water supply authority equal in value to the standard established by the Board's examination according to the judgment of the Board's examiners, which shall be final, subject only to review by the Board.

Prior to the issue of any "Employer's Licence," or "Working Plumber's Licence," the person to whom the same is to be issued must sign a register containing a declaration that he accepts such licence subject to and in conformity with the conditions thereof and with the Regulations of the Board, and that he will conform to and comply therewith.

The holder of an "Employer's Licence," or of a "Working Plumber's Licence," is hereinafter called a "licensee."

CONSENTS.

5. Application for the Board's consent to connect with the sewerage system, or to do plumbing work connected therewith, must be made in writing by a licensee for the owner of the property to be drained or his authorized agent. Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be made in Form B hereto attached, or to the like effect. No consent shall be deemed to authorize anything not stated in the application, and for any misrepresentation in such application the licence of the applicant may be suspended for such time as the Board shall order; and if such misrepresentation appears to be wilful his licence shall be cancelled.—[Section 99. Form B.]

Consents to make connexions with the sewerage system will be issued only when the plumbing in the property to be connected is in accordance with the rules for plumbing hereinafter prescribed, and has been inspected and approved of by an inspector of plumbing appointed by the Board for the purpose, or, in case of new buildings, when a proper plan of the plumbing has been approved of in writing by the Board, which shall define the position of the Y branch in the sewer to which the work must be connected. All connexions with the drains or sewers, and all plumbing connected therewith, shall be made under the direction of the Engineer-in-Chief or other superintending officer of the Board.—[Section 100.]

PLAN OF PLUMBING.

6. Seven days before a consent is issued for doing plumbing work in a property or before any alterations or additions are made, excepting necessary repairs, a plan and description of the work, signed by a licensee on forms to be furnished for the purpose, shall be filed in the office of the Board; and no such work shall be commenced until such plan and description shall be sanctioned, and no alterations shall be made in any way in the plan or any work without a special consent in writing from the Board. Such plan will be furnished by the Board upon application and payment for the same as follows:—

Plan of drainage, including survey, &c., for every house	5s. 0d.
Plan of any alterations or additions	2s. 6d.
Copy of drainage plan	2s. 6d.

—[Sections 100 and 101.]

Where the work is done by the Board, a plan of the work done, when it is completed, will be forwarded to the owner for his information, and the cost of making such plan shall be included in and form part of the cost of the work which shall be paid for to the Board by the owner.

INSPECTION.

7. The plumber is to give notice to the Board when any work is ready for inspection, and all work must be left uncovered and convenient for examination until inspected and approved of by an inspector appointed by the Board. Such inspection shall be made within twenty-four hours of such notification being received at the office of the Board, except on Saturday, when forty-eight hours must be allowed. The inspecting officer may apply the ether, peppermint, water, or smoke test, and the plumber shall furnish all the necessary tools, labour, and assistance for such tests. The plumber shall remove or repair any defective material or labour when so ordered by the inspecting officer.—[Section 107.]

Any drain pipe, soil pipe, trap, water-closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with these regulations, or which shall, in the opinion of the Board, be or become of bad or defective quality, shall, upon notice in writing from the Board, be removed or repaired in the

manner determined and within the time fixed by the Board; and the Board will, if it think fit, remove or repair the said defective fitting, and charge the owner or occupier of the premises with the cost incurred.—[Section 111.]

STATEMENT OF WORK DONE.

8. The plumber shall, on the completion of the work, file in the office of the Board, on forms furnished for the purpose, a correct statement of the work done under the consent furnished for the same.—[Section 99.]

INJURY TO SEWERS.

9. No municipal council, corporation, firm, or person shall interfere with, break up, or remove any gully, ventilating shaft, man-hole, lamp-hole, flush-tank, catch-basin, or any part of the sewerage system, except by a special permit in writing of the Board, or throw or deposit, or cause to be thrown or deposited, in any drain or sewer, opening or receptacle connected with the sewerage system, any garbage, offal, dead animals, vegetable parings, ashes, cinders, rags, or any other matter or thing except the materials which, according to section 1 of these Regulations, the sewers and drains are designed to receive.—[Sections 92, 93, and 98.]

SUB-SOIL DRAINAGE.

10. Every person who shall erect a new building shall cause the sub-soil of the site of such building to be effectually drained by means of suitable earthenware pipes properly laid to a suitable out-fall, whenever the dampness of the site renders such a precaution necessary in the opinion of the Board.

He shall not lay any such pipes in such a manner or in such a position as to connect directly with any drain or sewer, but shall discharge into an open shaft made of earthenware pipes, and fitted with a dirt box which shall communicate with the sewer by a proper trap with a ventilating pipe on the sewer side.

CELLAR DRAINAGE.

11. Where any house heretofore built shall have its lowest floor at a lower level than the sewer of the Board into which such house would otherwise drain, pending pulling down or alteration of such house, the owner shall cause the drainage from such lowest floor to be raised by means of a syphon, or some automatic method approved by the Board, so that it shall discharge into a drain communicating with the sewer of the Board. The water seal of the trap in the drain pipe leading from the cellar shall be constantly maintained by means of an automatic flushing cistern.—[Sections 107 and 109.]

PLUMBING RULES.—GENERAL.

12. All materials used must be of good quality and free from all defects. The work must be executed in a thorough and workmanlike manner, and to the satisfaction of the Board.

The drain outside of the house or building, or from isolated water-closets, to the street sewer shall be of first-quality salt-glazed vitrified stoneware pipes, unless laid less than 2 feet from the surface to the centre line of the pipe, in yards or places liable to heavy traffic, when it shall be of heavy cast or wrought iron. Heavy cast-iron pipes must be used if the ground has been made up or filled in, or adjoins a cellar.

PIPES.

13. All drain pipes are to be at least 4 inches in diameter, except where otherwise ordered by the Board. Where the drain pipes are laid more than 10 feet from the surface, the pipes must be taken to one of the Board's store yards, unless obtained from there, to be there tested by an officer appointed by the Board in the machines provided for the purpose.

All cast-iron pipes must be sound, free from holes or cracks, and coated with tar or asphaltum.

The following weights will be accepted as standards:—

2 inch diameter	5½ lbs. per lineal foot.
3 " "	9½ " " "
4 " "	13 " " "
5 " "	17 " " "
6 " "	20 " " "

All wrought-iron pipes must be of approved standard weight and quality, and galvanized or coated to the satisfaction of the Board.

All fittings used in connexion with such pipe shall correspond with it in weight and quality. All junctions must be curved; right-angled junctions must not be made. Where lead pipe is used to connect fixtures with vertical soil or waste pipes, or to connect traps with vertical vent pipes, such pipes must not be lighter than of 7-lb. lead, but where, in the opinion of the Board, a heavier weight may be required, its instructions shall be complied with.

The arrangements of soil and waste pipes must be as direct as possible.

The drain pipes shall be laid on an even grade of not less than 1 in 40 if a 4-in. pipe be used, or of 1 in 60 if a 6-in. pipe be used, unless by special permission of the Board, in which case special provision must be made for regular and efficient flushing. As far as possible, all drains shall be laid in straight lines; where changes of direction occur, they shall be made either by suitably curved pipes or in man-holes.

PIPE TRENCHES.

14. The trenches for the drains from all properties shall be dug so as to meet the public sewers at the position of the Y branches indicated by the Board. The material thrown from the trench shall be placed so as not to obstruct and so as to cause the least inconvenience to the public. Proper barriers and lights must be maintained on the banks of the trench to guard the public against accident during the progress of the

work. In refilling the trench the earth shall be carefully rammed or flooded, so as to keep the pipe in position and avoid settling. No stone shall be used in refilling until there has been a depth of at least 2 feet of earth or gravel placed over the pipe.

PIPE LAYING.

15. The cover of the Y branch on the sewer shall be carefully removed so as not to injure the socket.

The first length of the pipe attached to the Y branch shall be curved and set so as to give a good fall into the sewer.

The joints of the stoneware pipes shall be made with Stamford joints, or cement joints with gaskets.

Joints of iron pipes shall be made with gasket and lead if cast-iron pipes be used, or screwed joints with white lead if wrought iron be used.

The ends of all private drains not immediately connected with the plumbing fixtures shall be securely closed with water-tight imperishable materials. If lead pipe, the end must be soldered; if wrought-iron pipe, a plug must be screwed on the end; if cast-iron pipe, a cast-iron plug must be caulked in with lead.

All pipes shall be carefully bedded in the solid ground. If the ground, in the opinion of the Board, is not sufficiently solid, cast-iron pipes must be used, or stone-ware pipes bedded in concrete composed of 1 of Portland cement, 2 of clean sand, and 5 of stone of 1½-in. gauge or gravel improved by the inspector.

Where there is a sewer in a street or right-of-way adjoining, every property must be separately and independently connected with it.

Whenever possible, such connexion must be made directly at the rear of, or in the front of, the house.

Where there is no sewer in the street, or it is necessary to construct a private drain to connect either one or several properties with a sewer in an adjoining street, the drain must be laid under the roadway or right-of-way, and not through the yards or under the houses if possible to avoid it.

Sub-soil drains shall be of earthenware field pipes.

CESSPOOLS, OVERFLOWS.

16. No cesspool, overflow, or privy vault shall be connected with any drain or sewer.

DRAINS, SOIL AND WASTE PIPES.

17. At the head of every connecting drain, at or near the boundary of the premises or building, a boundary trap must be fixed, with or without a man-hole. All the drains must, where ever considered necessary by the Board, join in a man-hole at least 3 feet long and 2 feet wide, fitted with an open grating. The portions of the drains crossing the floor of the man-hole must be connected with the boundary trap, either in a straight line or by curved junctions in the floor of the man-hole. The boundary trap must be provided with a seal 2½ inches deep, and an inspection cap on the sewer side of the trap.

All soil pipes shall be at least 4 inches diameter.

The soil and waste pipes and traps must, where practicable, be exposed to the view at all times, where necessary, for ready inspection and for convenience of repairing. When unavoidably placed within partitions, or recesses of walls, soil and waste pipes must be covered with woodwork so fastened with screws as to be readily removed.

No soil or waste pipe shall be fixed within any building or tenement unless the special authority of the Board has been previously obtained.

No material may be used within the building for soil or waste pipes other than wrought or cast iron pipes with securely screwed or leaded joints, or lead pipes with soldered or white joints. Cement or putty joints, tin or sheet iron pipes, whether galvanized or not, shall not be used.

In all cases the upward extension from the soil pipe for ventilation must pass in as direct a manner as possible above, and if necessary through, the roof.

Traps must be ventilated, and waste and soil pipes must have an approved fall.

Where an open grating is inadvisable, the man-hole must be provided with a fresh air inlet, fitted with a mica flap valve, and the man-hole must be fitted with an iron air-tight cover. A ventilation pipe of such size and materials, and so placed as the Board may desire, shall be provided and fixed wherever considered necessary.—[Section 79.]

Separate internal wastes shall be provided for each of the following classes of polluted waters, viz. :—

- (1) Dirty water from baths, pantry and china closet sinks, lavatories, and wash troughs, and other waters with a small proportion of soap and dirt.
- (2) Greasy water from kitchen and scullery sinks.
- (3) Sludge waters from manufactures, stables, cow-houses, cab-stands, and other specially polluted surfaces for which consents have been granted by the Board.
- (4) Urinal water from housemaids' slop sinks, public and private urinals.
- (5) Soil water from closets, and other water containing faecal matter.

Each one of these separate waste pipes, except for soil water, must be connected with the drains through a gully or disconnector trap.

A main waste-pipe, into which lavatories, baths, or kitchen sinks discharge, must be at least 2 inches in diameter, with at least 1½-in. branches.

JOINTS.

18. All joints in iron drain pipes, soil pipes, and waste pipes, except where screw joints are used, must be so filled with gasket and lead and caulked as to make them gas tight.

All connexions of lead pipes with iron pipes must be made with a brass sleeve or ferrule of the same size as the lead pipe put in the socket of the branch of the iron pipe and caulked with lead.

The lead pipe must be attached to the ferrule by a wiped joint.

All connexions of lead waste and vent pipes shall be made by means of wiped joints.

INSPECTION.

19. Before the fixtures are placed in connexion with the plumbing of any house or building, and before the soil pipe is connected with the sewer, the outlet of the soil pipe and all openings into it below the top shall be hermetically sealed, the pipe shall then be filled with water to the top, and every joint carefully examined for leaks. Work already in place will be examined by the peppermint or ether test. Defective pipes must be removed and replaced by sound ones, and all defective joints made tight, and every part of the work made to conform to these Rules and Regulations, and subject to the approval of an inspector of plumbing appointed by the Board.

TRAPS.

20. Every water-closet, urinal, lavatory, slop sink, kitchen sink, bath, and every tub or set of tubs, must be separately and effectively trapped.

Traps must be placed as near the fixtures as possible, and in no case shall a trap be more than 2 feet from a fixture.

All lead traps must be drawn.

Traps of three (3) classes will be used—

- (a) "Traps," for intercepting gases only, to be of round section and self-cleansing form, but not so easy as to empty by momentum or suction.
- (b) "Silt traps," for intercepting both gases and solids, to have slightly tapered sides, flat bottoms, and rounded not sharp angles, and provided with trays fitted with handles for catching and removing solids.
- (c) "Grease traps," for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, must be of such form as may from time to time be approved.

The term "gully" will be applied to traps (a) and (b) in cases where they are to be used externally, and fitted with dished tops and gratings. In such cases the dish must be in one piece with the trap or jointed thereto spigot and faucet, and the depth of the dish from the top to the grating must not be less than half the diameter of the pipe, and the grating must be removable.

The term "disconnector" will be applied to traps in cases where provision has been made for inlet ventilation to the pipe or pipes discharging therein.

Where soil pipes from pedestal or other closets are to be disconnected from the house-drain, a Y piece for the air inlet must be fixed, and the term "Y disconnector trap" will be used.

All traps must have a water seal of at least half the diameter of the outlet pipe, but in no case less than 2½ inches.

The P form of traps, with wastes above the floor, and joints visible and accessible all round, must be used in all internal fittings where possible.

The S form of trap or waste under floors must not be used, except with special permission and facilities for periodical inspection.

In detached closets and urinals, approved S forms in earthenware, with joints visible and accessible all round, may be used.

Sinks in all food-packing houses, butchers' shops, lard-rendering establishments, hotels, restaurants, boarding-houses, and laundries, or wherever ordered by the Board, shall be provided with suitable approved grease traps. Wash-rooms for carriages must have silt traps provided, with proper means of intercepting mud.

Stables, dairies, cab-stands, markets, &c., and paved back yards for which drainage consents have been granted, must be provided with suitable approved silt traps.

VENT PIPES.

21. Every vent pipe extending upwards from a soil or waste pipe must extend, to such a height as may be deemed necessary by the Board, at least 2 feet above the highest part of the roof or coping. It must be of undiminished size without return bend with basket end or educt or induct cowls as ordered. It must not open near a window, a chimney, nor an air shaft which ventilates living rooms.

All vent pipes, in an extension of a main building, must be extended, to such a height as may be deemed necessary by the Board, above the roof of the main building, when otherwise they would open within 30 feet of the windows of the main house or of the adjoining house.

The main drain leading to the boundary trap is to be vented at its upper end by a pipe or shaft erected vertically to such a height that the mouth of the pipe or shaft shall be at least 6 feet higher than any window or door situated within a distance of 30 feet therefrom. Branch drains need not be vented if the gully traps are within less than 15 feet from the main drain, or unless otherwise ordered by the Board, and then must be vented according to such order.

Traps must be prevented from syphonage, or the waste pipe leading from them be ventilated by a special pipe taken from such a position that the vent pipe entrance will not be fouled by the discharge of the trap.

The vents must not be less than 2 inches for water-closets, and not less than 1½ inches for other traps. The combined vertical vent pipes for traps of water-closets in buildings must be at least 3 inches in diameter, with branches 2 inches diameter to each trap, and for traps of other fixtures not less than 2 inches in diameter, unless the trap is smaller, in which case the diameter of the branch vent pipe must be at least equal to the diameter of the trap.

In all cases vent pipes must be of cast or wrought iron or lead inside a building, dipped and folded galvanized-iron vent pipes may be used where they are entirely outside a building, and shall be connected with the traps with brass or lead ferrules.

Vent pipes must extend 2 feet at least above the highest part of the roof or coping. The extension must not be reduced in diameter. The various vent pipes may be branched into a soil or waste pipe of the same class above the inlet from the highest fixture. They may be combined by branching together those which serve several traps of the same class.

These vent pipes must always have a continuous slope, to avoid collecting water by condensation.

No vent pipe shall be used as a waste or soil pipe.

No brick, earthenware, or house chimney flue shall be used as a sewer ventilator, nor to ventilate any drain, soil, or waste pipe.

All inlets to drains or openings for ventilating shall be efficiently protected by proper gratings of ample area. The aggregate area of the apertures in any grating covering a ventilation opening shall not be less than the sectional area of the pipe or drain to which such grating is fixed. All openings for ventilation made in accordance with these regulations, or by order of the Board, shall at all times be kept open and perfectly free from obstruction.

SAFES, OVERFLOWS, ETC.

22. Every lead safe under a water-closet, urinal, lavatory, bath, refrigerator, sink, or other fixture must be drained by a special pipe not directly connected with any waste pipe, soil pipe, drain, or sewer. They must be provided at the outlet into the open air with flap valves of brass or other approved metal.

The drip pipe from refrigerators shall not be connected with the soil or waste pipes, drains, or sewers.

No steam exhaust, blow-off, or drip pipe shall be connected with a drain or sewer, or with any soil or waste pipe. Such pipes must discharge into the rain-water channels.

RAIN WATER AND PAVED YARDS.

23. Rain-water conductors must not be connected with the sewers. All stables, dairies, paved yards, market-places, cab-stands, or other places for which the Board may from time to time grant consent to be connected with the sewers or drains, must be properly graded, cemented, flagged, or well paved, and properly drained, and must be trapped with an approved gully silt trap, connected with the drain inside the boundary trap.

WATER-CLOSETS.

24. Every water-closet in a building shall, where practicable, be constructed in such a position that one of its sides at least shall be an external wall. Every water-closet, that is every closet consisting of a single or not more than two soil-pipes, constructed in connexion with a building, whether the situation of such water-closet be or be not within the building, shall have in the walls of such water-closet a window of not less dimensions than 2 square feet in aperture, exclusive of frame, and, where practicable, opening directly into the external air.

In addition to such window such water-closet must be provided with adequate means of constant ventilation by at least one air brick built in an external wall of such water-closet, or by an air shaft, or by some other effectual method or appliance for ventilation.

Every water-closet in connexion with a building shall be furnished with a separate flushing cistern of at least 3 gallons capacity, which shall be so constructed, fitted, and placed as to admit of the supply of water for use in such water-closet without any direct communication between any service-pipe upon the premises and any part of such water-closet other than such cistern or flushing box. A suitable apparatus must be provided for the effectual application of water to the basin of the water-closet, and for the effectual flushing and cleansing of such basin, and for the prompt and effective removal therefrom of any solid or liquid filth which may from time to time be deposited therein. Such water-closet shall be furnished with a basin of non-absorbent material of such shape, capacity, and mode of construction as to receive and contain a sufficient quantity of water, and to allow all filth which may from time to time be deposited in such basin to fall free of the sides thereof and directly into the water received and contained in the basin.

Latrines, or a group of closets, may, by special permission, be supplied from one flushing tank of approved size; but water-closets on different floors must not be flushed from one tank. In houses occupied by different tenants in separate rooms, or suites of rooms, there must be a separate cistern to each water-closet. In no case will water-closet accommodation be allowed in the cellar or basement. Water-closets of the description known as "pan closets" are absolutely prohibited. At any time after the date fixed by notice from the Board to the owner of any house, building, or ground, requiring him to connect the same with any sewer of the Board, no privy closet, other than a water-closet approved by the Board, shall be used in such house or building or upon such ground.

The water-closet fitting must be entirely open to inspection, and with no enclosures.

STRAINERS.

25. The entrance to exit pipes to all fixtures except water-closets shall be furnished with suitable permanently attached strainers.

URINALS.

26. Internal cradle urinals must be small, free from projecting ornament, and of non-absorbent material. The waste pipe shall be of potteryware or lead, and, after being trapped, deliver out into the open air over a gully trap or into a disconnector trap, keeping the waste pipe as short and free from bends as possible. The urinal must be provided with approved flushing apparatus. The floor under urinals must be covered with non-absorbent material.

In hotels, clubs, restaurants, theatres, and other public places, enamelled slate or other approved water troughs shall be provided, sunk in an impervious floor under the range of urinals, and kept full of flowing water by approved flushing apparatus. The floors of the urinals must be tiled or paved with a fall towards the trough. The walls behind and screens between urinals must be of non-absorbent material, and of approved height; the screens must also be free from the floor for a portion of the width of the divisions. They must project at least 1ft. 6in., and be not less than 2 feet apart.

HOUSEMAIDS' SLOP SINKS.

27. The waste pipe from a slop sink must be of at least 8-lb. lead, and must be carried independently out to the open air, with a quick fall, and into a full-bore ventilated 3-in. down pipe to the ground, where a gully trap or disconnector trap must take the waste to the drain, and must be trapped with 3-in. trap, having a 24-in. seal and a brass cleaning screw under the water line, well opened out into a deep cone to receive the sink basin. The trap must be fitted with a 2-in. vent pipe. The sink must be of approved material. Draw-off taps must not be used directly over slop sinks unless at least 2 feet above the sink. Slop sinks must be provided with approved flushing arrangements.

KITCHEN AND SCULLERY SINKS OR TROUGHS.

28. Unless where otherwise specially approved kitchen and scullery sinks and troughs must discharge into the open air over a gully trap. The trap and waste pipes must be not less than 1½ inches diameter.

The brass strainer must be sunk in a hollow cone to the level of the trough.

BATHS AND LAVATORIES.

29. The waste pipe must be at least 1½ inches diameter, of 8-lb. lead pipe, trapped with a deep syphon trap, with a cleansing screw provided with a 2-in. vent pipe. The waste pipe must be carried separately to the open air and delivered over a gully trap, or into a disconnector trap.

The waste pipe and trap from single lavatories must be at least 1 inch in diameter, but the area of the grating must be sufficient to fill the waste pipe full bore. The waste pipe must be as short as possible, and discharge into the open air.

CONSENT OF BOARD.

30. Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of or from the Board is necessary, whether special, in writing, or otherwise, with regard to any act, matter, or thing mentioned in this By-law, the same may be given by and under the hand of the Chairman of the Board or of the Engineer-in-Chief, personally, or through an inspecting officer appointed under him, who severally shall be competent to give the same and on behalf of the Board to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given. The giving of the same shall notify his having done so at the next following meeting of the Sewerage Committee of the Board, with a view to report thereof to the Board for confirmation where necessary.

PENALTY.

31. Any person offending against any provision of this By-law, for violation of which no special penalty is hereinbefore prescribed, shall be liable for every such offence to a penalty not exceeding Twenty pounds, or may be proceeded against under the 165th section of the Act as an offender against the Act.—[Sections 99, 110, 113, and 165.]

The foregoing By-law was made and passed by the Melbourne and Metropolitan Board of Works, and the common seal of the said Board was hereunto affixed the eleventh day of December, One thousand eight hundred and ninety-four in the presence of—

SHIRE OF NUMURKAH WATERWORKS TRUST.—RATING REGULATION FOR 1894.

THE Chairman and Commissioners of the Shire of Numurkah Waterworks Trust, in pursuance of the powers conferred by the *Water Act 1890*, do make the following Regulation:—

REGULATION No. 18.

1. This Regulation shall apply to the Urban District of Numurkah, as such district is proclaimed and defined in a certain Order in Council bearing date the 23rd June, 1890.

2. The rates hereinafter specified are those which the owners and occupiers of lands and tenements liable to be rated within the said Urban District shall pay in respect of the year 1894 in respect of water supplied for domestic purposes.

3. On every house or tenement of the annual value of Thirteen pounds ten shillings or under, according to the municipal valuation for the time being of such house or tenement, the sum of Twenty shillings; on every house or tenement above the annual value of Thirteen pounds ten shillings, a rate of One shilling and sixpence in the pound sterling on the amount of the municipal valuation for the time being, provided that no owner or occupier shall be rated in respect of more than one vacant allotment.

4. Such rates shall be payable in two equal instalments on the 1st day of January, 1894, and the 1st day of July, 1894.

5. Such person or persons as the Commissioners of the said Trust may from time to time appoint for that purpose shall be authorized to demand and receive the said rate.

The foregoing Regulation was made by the Chairman and Commissioners of the Shire of Numurkah Waterworks Trust on the 3rd day of November, 1893.

The seal of the Trust was hereto affixed in the presence of—

Department of Water Supply,
Melbourne, 13th February, 1895.

MACEDON WATERWORKS TRUST.—POSTPONE- MENT OF SINKING FUND ON LOAN.

At the Executive Council Chamber, Melbourne, the thirteenth day of February, 1895.

PRESENT:

His Excellency the Governor.

Mr. Turner	Mr. Outhbert
Mr. Peacock	Mr. McCulloch
Mr. Best	Mr. Vale.

WHEREAS by section 96 of the *Water Act 1890* (No. 1156) it is enacted that the Governor in Council may, if he think fit, make an Order that the provisions of Part II. of the said Act, with regard to the formation of a sinking fund by any Waterworks Trust which has obtained a loan, shall not apply in the case of any such Trust specified in such Order for a period of five years or any shorter period (to be specified in such Order) from the date of the Order in Council granting the loan:

And whereas by an Order in Council bearing date the 5th December, 1892, a loan of Two thousand six hundred pounds sterling (£2,600) was granted to the Macedon Waterworks Trust:

Now therefore His Excellency the Governor, acting by and with the advice of the Executive Council, doth order that the provisions of Part II. of the said *Water Act 1890*, with regard to the formation of a sinking fund by the said Waterworks Trust, shall not apply in respect of the said loan of Two thousand six hundred pounds sterling (£2,600) until the 5th December, 1897.

And the Honorable Henry Foster, Her Majesty's Minister of Water Supply for Victoria, shall give the necessary directions herein accordingly.

THOS. BRISBANE,
Acting Clerk of the Executive Council.

Fire Brigades Act 1890.

REGULATIONS OF THE METROPOLITAN FIRE BRIGADES BOARD AMENDED.

At the Executive Council Chamber, Melbourne, the thirteenth day of February, 1895.

PRESENT:

His Excellency the Governor.

Mr. Turner	Mr. Outhbert
Mr. Peacock	Mr. McCulloch
Mr. Best	Mr. Vale.

WHEREAS by section 39 of the *Fire Brigades Act 1890* (54 Vict. No. 1200) it is enacted that the Governor in Council may, as to the whole or any part of Victoria, make regulations for the purposes therein specified: And whereas by section 40 of the said Act it is further enacted that after the first meeting of the Metropolitan Fire Brigades Board all regulations as to the Metropolitan Fire District shall be prepared by such Board and submitted to the Minister for approval prior to being made by the Governor in Council: And whereas the Regulations following have been prepared by the Metropolitan Fire Brigades Board, and submitted to the Minister for approval in the manner provided by the now in part recited Act: Now therefore His Excellency the Governor of Victoria, acting with the advice of the Executive Council thereof, doth hereby rescind the Regulations made by Order bearing date the 14th day of April, 1892, for the establishment of Permanent Fire Brigades and for the payment of Salaries or Wages to Members thereof, and doth make the Regulations following in lieu thereof, that is to say:—

REGULATIONS FOR THE ESTABLISHMENT OF PERMANENT FIRE BRIGADES AND FOR THE PAYMENT OF SALARIES OR WAGES TO MEMBERS THEREOF.

Permanent Force.

1. Applications for appointment as firemen must be in candidates' own handwriting, addressed to the chief officer of the Metropolitan Fire Brigade.
2. Candidates must be physically strong men, free from any defect in limb, hearing, or sight, and will be required to undergo a medical examination by such legally-qualified practitioners as the Board may appoint. The appointment of firemen will finally depend on the result of the medical examination.

3. Candidates must not be less than 21 years of age (unless under special circumstances as to physique or qualifications) nor more than 32 years, unless they have been previously and recently engaged as active and efficient firemen, or are otherwise thoroughly competent. In such cases the limit may be extended to 40 years. They must not be less than five feet six inches (5ft. 6in.) in height nor less than 37 inches in natural measurement of chest.

4. Candidates will be required to produce testimonials as to character and ability. They will also be required to produce certificate of birth or other satisfactory proof of age.

5. Eligible candidates, when finally approved, will be accepted as members of the brigade on probation only, the term of which must not be less than one month. At the end of such probation the probationer, if he has given satisfaction to the chief officer and has proved himself suitable, may be appointed by the Board as a permanent fireman.

6. The engagement of any member will be for one month, and continue at a monthly hiring until discharged.

7. All engagements or appointments made by the Board may be cancelled or annulled without any reason being assigned.

8. No member of the permanent force will be allowed to engage in any business outside the brigade, unless with the special permission of the Board. Every member will be required to devote his whole time to the service of the Board.

9. Firemen appointed on and after the 1st of January, 1894, will receive salaries at the rate of £90 per annum, and upon the completion of one year's service to the satisfaction of the Board shall receive an increment of £7 for the second year and a like sum for the third year.

Senior firemen or engine-drivers will on appointment receive salaries at the rate of £120 per annum, and upon completion of one year's service to the satisfaction of the Board shall receive an increment of £10.

Foremen will on appointment receive salaries at the rate of £130 per annum, with annual increment of £10 until a maximum of £150 is reached.

District superintendents and engineers will on appointment receive salaries at the rate of £150 per annum, with annual increments of £15 until a maximum of £180 is reached.

The deputy chief officer will receive such salary as the Board may from time to time determine, but such salary shall not exceed the sum of £500 per annum.

The chief officer will receive such salary as the Board may from time to time determine, but such salary shall not exceed the sum of £1,000 per annum.

Special pay may be paid to members of the brigade for special work, such pay not to exceed in any case £26 per annum.

10. All members of the permanent force may be allowed 72 hours' (one day) leave in each week and an annual leave for 24 hours (three days). In the case of district superintendents and engineers, the annual leave allowed may be 168 hours (seven days); and in the case of the deputy chief officer the annual leave allowed may be 336 hours (14 days), provided always that the chief officer may for sufficient reason, either from stress of work or other cause, cancel any or all leave at any time.

The chief officer will be granted leave at the pleasure of the Board.

Auxiliary Force.

1. Applications for appointment as firemen in the auxiliary force must be made in candidates' own handwriting to the chief officer of the Metropolitan Fire Brigade.

2. Candidates must be physically strong men, free from any defect in limb, hearing, or sight, and not subject to fits or nervousness. They must be generally intelligent men, capable of acquiring instruction, and able to read and write.

3. Candidates must be of suitable age and of good physique, and must be approved by chief officer of the Metropolitan Fire Brigade.

4. Candidates will be required to give the names of at least two reliable and respectable persons, who must be able to testify as to the habits and character of applicants, and, if necessary, they will be required to produce satisfactory proof of age.

5. Candidates must belong to such trade or occupation as will fit them for the duties of a fireman and for the work of fire extinction.

6. Candidates will be required to serve at least one month on probation, and if found suitable will be appointed to the auxiliary force.

7. Auxiliary firemen will receive pay in accordance with the following scale, viz.:—

District superintendents,	£50 per annum.
Foremen, a retaining fee of	15s. per month.
Firemen, a retaining fee of	10s. per month.

In addition to the retaining fees, pay will be allowed for attendance at fires in accordance with the following schedule:—

Foremen—for first hour,	6s.
" for second hour,	3s.
" for each subsequent hour,	1s. 6d.
Firemen—for first hour,	5s.
" for second hour,	2s. 6d.
" for each subsequent hour,	1s.

No pay will be granted for attendance at drills, false alarms fires with but trifling damage, or chimney fires, unless under special circumstances, and no fireman will be entitled to receive pay under this schedule for services at any fire unless he shall have received orders to attend such fire from his superiors.

8. The engagement of every member will be for three (3) months, and so continued until discharged.

And the Honorable Alexander James Peacock, Her Majesty's Chief Secretary for Victoria, shall give the necessary directions herein accordingly.

THOS. BRISBANE,
Acting Clerk of the Executive Council.

ANNEX TO CONTRACT No. 15.

Wm. Detmold, 277 and 279 Flinders-lane, Melbourne.

Schedule No. 15.

Schedule of ENVELOPES (adhesive) required for the Government Printing Office, Melbourne, Victoria, from 1st July, 1895, to the 30th June, 1896.

A crown inside an oval border, inscribed with the word Victoria, is to be embossed, as per sample, on the flaps of all envelopes against which the word "embossed" is placed.

Envelopes, banded in twenty-fives, to be packed in strong paper in parcels of 250, with label specifying schedule item number, description, and size; and are to be finally packed in strong wooden cases, which, in regard to sizes 10½ x 4½, 8½ x 3½, 5½ x 3½, and 5½ x 3½, are respectively to contain 15,000, 25,000, 30,000, and 50,000. Where lesser numbers are required, each case is to be of suitable dimensions. The schedule item number, description, quantity, and size of contents to be stencilled in characters not less than two inches in depth on the outside of each case. The cases of each variety of envelope to be of uniform size.

Pure gum arabic is to be used in the manufacture of the envelopes.

Delivery of the quantities indicated must be made on the 18th September, 1895.

All envelopes must be equal in quality, make, and in every other respect to, and of the same colour as, the sample.

Estimated Population on the 31st December, 1894 ...			607,260	571,844	1,179,104

* The minus sign indicates decrease.

NOTE.—During the year 1894, the recorded births numbered 34,263, or fewer by 2,289, and the recorded deaths 15,434, or fewer by 1,074, than in the previous year. The excess of births over deaths was thus 18,829, viz., 8,604 of males and 10,225 of females, as compared with 20,044 in 1893.

The recorded arrivals by sea numbered 84,261, but as the recorded departures by sea numbered 90,110, there was an apparent loss by excess of emigration over immigration of 5,849. Allowing for unrecorded departures by sea, however, estimated at 7,882, the actual loss is found to have been 13,731. This is 320 greater than the loss in 1893, and 1,446 greater than that in 1892; whilst the total loss in the last three years was 39,427. Although the annual returns continue to indicate a downward tendency, the return for the last quarter of 1894 shows an excess

of recorded arrivals over recorded departures of 1,311, resulting from an influx—possibly of a temporary character—of 1,752 males, less an efflux of 441 females. This is the first time the total immigrants have been in excess since the last quarter of 1891.

From the date of the Census (5th April, 1891) to the end of 1894, the allowance for unrecorded departures has been 24,134, viz., 13,804 males and 5,330 females. Had no such allowance been made, the apparent population at the end of 1894 would have been 1,203,238, viz., 626,064 males and 577,174 females. No allowance, however, has been made for overland emigration, as its direction or extent cannot be ascertained.

In 1894, the recorded arrivals from, were more numerous than the recorded departures for New South Wales by 6,195, South Australia by 1,081, Tasmania by 1,034, and South Seas by 157. On the other hand, the recorded departures were the more numerous in the case of Western Australia by 10,145, New Zealand by 1,496, United Kingdom by 1,068, Queensland by 811, and Foreign Countries by 796. The net emigration to South and Western Australia (which cannot well be separated) was the largest yet recorded, being three and a half times as large as in 1893, and half as large again as in 1892. The unusual occurrence of a stream of emigrants to the United Kingdom still continued, although in a minor degree than in the previous year. The tide of emigration, which in 1892 and 1893 was in favour of New South Wales, has again turned in favour of this colony.

At the end of 1894, the estimated population of New South Wales was 1,251,450, viz., 672,950 males and 578,500 females; whilst the increase during the year was estimated at 28,080, made up of 23,708 arising from excess of births over deaths, 7,003 by excess of arrivals over departures by sea, less an estimated loss of 2,633 by overland emigration.

The figures of births and deaths, as shown in the table, and consequently those of population, may be slightly altered when the returns of the deputy registrars are finally examined.

The births of 1,154 children, viz., 613 boys and 541 girls, were registered in Greater Melbourne during the month of January. In the month of December, 1,023 births were registered, or 126 less than in the month under review. The births were 65 below the average of the month during the previous ten years, but 137 below that average, if allowance be made for the increase of population.

The deaths registered in January numbered 617, viz., 335 of males and 282 of females; the births thus exceeded the deaths by 537, or 87 per cent. The deaths were fewer than those in December by 52, and below the average of January during the previous ten years by 228. If, however, allowance be made for the increase of population, they will be found to have been under that average by 278.

To every 1,000 of the population of the district, the proportion of births registered was 2.59, and of deaths registered 1.39.

The highest temperature in the shade recorded at Melbourne Observatory during the month was 99.0° on the 24th, and the lowest was 49.5° on the 16th. The mean temperature of the month (66.9°) was a shade below the average. The greatest range of the thermometer in any one day (35.6°) took place on the 2nd, and the least range (1.0°) on the 4th; the mean daily range was 20.5°. The highest atmospheric pressure recorded was 30.092 inches on the 15th, and the lowest was 29.337 inches on the 24th. The mean atmospheric pressure (29.866 inches) was slightly above the average.

Rain fell on 4 days, the amount of rainfall being 1.81 inches. The average rainfall in January during the previous ten years was 1.73 inches, or about a twelfth of an inch lower than in the month under notice.

Males contributed 54 per cent., and females 46 per cent., to the mortality of the month. Children under 5 years of age contributed 43 per cent. to that mortality, as against 42 per cent. in January, 1894; 50 per cent. in January, 1893; 53 per cent. in January, 1892; 50 per cent. in January, 1891; 48 per cent. in January, 1890; and 57 per cent. in January, 1889.

Fifty deaths of persons who had attained or passed the age of 75 years were recorded during the month. Of these, a gentleman, aged 75, died of cystitis; a labourer, aged 75, was suffocated by a piece of meat; a male of no occupation, aged 76, died of dysentery; a gentleman, aged 76, of phthisis; a carrier, aged 76, of apoplexy; a gentleman, aged 76, of heart disease and dropsy; a female, aged 76, of senile gangrene; another, aged 76, of heart disease; and another, aged 76, of bronchitis; an engineer, aged 76, of gastritis; a civil servant, aged 76, of hernia; a bootmaker, aged 77, of cancer of the tongue; a female, aged 77, of congestion of the lungs; a male of no occupation, aged 77, of Bright's disease; a female, aged 78, of cancer; one, aged 78, of phthisis; one, aged 78, of syncope; a labourer, aged 78, of nephritis; a saltmaker, aged 79, of diarrhoea; an ex-County Court Judge, aged 79, of apoplexy; a housekeeper, aged 79, of cerebral tumour; a gardener, aged 79, of cystitis; a female, aged 80, of hemiplegia; two females, each aged 80, of heart disease; a shepherd, aged 80, of pneumonia; a gentleman, aged 80, of pleurisy; a publican, aged 80, of hernia; a hawker, aged 82, of bronchitis; a female, aged 83, of heart disease; a soldier, aged 83, of bronchitis; a labourer, aged 84, of gastro-enteritis; a gardener, aged 85, of diarrhoea; a wood carver, aged 85, of hemiplegia; a jeweller, aged 86, of nephritis; a female, aged 87, of apoplexy; a hairdresser, aged 88, of apoplexy; a gentleman, aged 89, of heart disease; a carpenter, aged 90, of diarrhoea; an architect, aged 94, of cancer in the eye; two females, each aged 75, a female and a blacksmith, each aged 77, a gardener, aged 81, a female, aged 84, a builder and a female, each aged 86, a female, aged 89, and a bootmaker, aged 93, of old age.

Twenty-five deaths were set down to external causes during the month, of which 18 were ascribed to accident, 1 to homicide, and 6 to suicide. The following are the particulars of the accidental deaths:—A platelayer, aged 32, and a gauger, aged 50, were passed over by railway trains; a grazier, aged 29, died of rupture of the intestines, through being crushed by a horse; a labourer, aged 59, of injury to the spine; and a gold miner, aged 60, of a broken neck, the result of falling down stairs; a hawker, aged 27, of injuries received through diving off a derrick; a male child, aged 1 year, of scalds; a male child, aged 9 months, of snake bite; a boy, aged 3, was drowned at West Melbourne; a bootmaker, aged 30, at Port Melbourne; a boy, aged 9, and a storeman, aged 58, were accidentally drowned in Hobson's Bay; a confectioner, aged 32, a fireman, aged 36, and a male of occupation unknown, aged 44, were found drowned—the two former in the River Yarra, and the last at South Melbourne; an engineer, aged 31, a labourer, aged 60, and a labourer, aged 75, were suffocated—the last through a piece of meat becoming impacted in his throat. The homicidal death was that of a new-born female infant, who was suffocated. The suicidal deaths were those of a female, aged 37, and a labourer, aged 40, who cut their throats; an accountant, aged 29, a cook, aged 55, and a labourer, aged 59, who drowned themselves; and a farmer, aged 58, who hanged himself.

One hundred and eighteen deaths, or 19 per cent. of the whole, took place in public institutions, viz.:—45 in the Melbourne Hospital, 20 in the Alfred Hospital, 2 in the Homoeopathic Hospital, 6 in the Children's Hospital, 8 in the Women's Hospital, 6 in the Immigrants' Home, 10 in the Benevolent Asylum, 6 in the Yarra Bend Lunatic Asylum, 2 in the Metropolitan Lunatic Asylum, 4 in the Austin Hospital, 2 in the Melbourne Gaol, 1 in the Eye and Ear Hospital, 1 in the Protestant Refuge, 4 in the Convent of the Little Sisters of the Poor, and 1 in the Infant Asylum.

The deaths of children under five years of age numbered 268, of which 139, or 52 per cent., were of males, and 129, or 48 per cent., were of females. Of those who died, 205 were under one year of age, 39 were between one and two, and 10 were between two and three, 11 were between three and four, and 3 were between four and five.

The persons who died at a more advanced age than five years numbered 349. Of these, 196, or 56 per cent., were males, and 153, or 44 per cent., were females; 9 were between five and ten, 6 were between ten and fifteen, 13 were between fifteen and twenty, 24 were between twenty and twenty-five, 38 were between twenty-five and thirty, 30 were between thirty and thirty-five, 23 were between thirty-five and forty, 21 were between forty and forty-five, 13 were between forty-five and fifty, 16 were between fifty and fifty-five, 30 were between fifty-five and sixty, 23 were between sixty and sixty-five, 29 were between sixty-five and seventy, 24 were between seventy and seventy-five, 26 were between seventy-five and eighty, 12 were between eighty and eighty-five, 9 were between eighty-five and ninety, and 3 were between ninety and ninety-five.

The following table shows the causes of death of persons of both sexes under and over five years of age, and the proportions per cent. of deaths from each cause, in Greater Melbourne during the month under review:—

CLASS VIII.—ILL-DEFINED AND NOT SPECIFIED CAUSES.

- Debility, atrophy, inanition, 45; tumour, 1.

Under the head of Zymotic Diseases the mortality in the month under review, as compared with the previous one, diminished by 6; deaths from diarrhoeal diseases having fallen from 42 to 25, and those from whooping-cough from 17 to 13; as against which, however, those from typhoid fever rose from 16 to 26, and those from scarlet fever from 2 to 6. Developmental diseases, also, caused a lower mortality by 12—due chiefly to deaths from old age having fallen from 31 to 14, although, as a set-off, those from premature birth rose from 17 to 24. In connexion with this increase in infantile mortality, an increase from 29 to 45 also occurred in the deaths—mostly of infants—asccribed to atrophy and debility, an ill-defined cause. Deaths from local diseases were fewer in January than in December by 31, resulting chiefly from a falling off in those from diseases of the digestive system from 129 to 112, of the respiratory system from 52 to 41, and of the nervous system from 60 to 49, less an increase in those from diseases of the circulatory system from 44 to 50, and of parturition (confined to cases of abortion and miscarriage) from 2 to 6. Moreover, deaths from accident or negligence fell from 36 to 18, the falling off being chiefly in cases of fracture, &c., and drowning.

The following is a statement of the deaths set down to typhoid fever and diphtheria in each month of the years 1890 to 4, and the first month of 1895:—

REGULATIONS FOR THE CARE, PROTECTION, AND
MANAGEMENT OF A RESERVE FOR PUBLIC
RECREATION IN THE BOROUGH OF STAWELL.

THE Council of the Borough of Stawell, the duly appointed Committee of Management of the Reserve for Public Recreation in Section 24, Borough of Stawell, having framed the following Regulations for the care, protection, and management thereof, and for the preservation of good order and decency therein, and also for the collection and receipt of tolls, entrance fees, or other charges for entering therein or thereupon, submit the said Regulations to the Board of Land and Works, to be made by such Board in pursuance of the powers conferred by section 136 of the *Land Act 1890*—

REGULATIONS.

1. The reserve shall be open to the public free of charge from sunrise to sunset, except on such days (not exceeding twelve in any one year), as the reserve may be set apart for fêtes, sports, or shows, on any of which occasions a sum not exceeding One shilling (1s.) may be charged and taken for the admission of every adult to the reserve.
 2. No person shall enter or remain in the reserve who may offend against decency as regards dress, language, or conduct; and no society, club, pic-nic party, or other combined body shall be allowed to use the reserve without the written consent of the committee of management.
 3. No person shall climb or jump over the fences or gates, stick bills thereon, cut boughs on the fences, trees, or seats, or in any way damage any of the buildings, gates, fences, or other property in or around the reserve, or leave or roll stones therein, or pollute any water in the reserve, or remove therefrom any soil, sand, or manure.
 4. No person shall interfere with the trees, shrubs, or other property in the reserve, or throw stones or other missiles, or commit any nuisance therein, or leave therein any bottles, orange peel, paper, cast-off clothing, or any litter.
 5. No person shall erect any booth or other structure in the reserve, or hawk or offer for sale therein any goods or articles of any description, without having first obtained the written permission of the committee of management; and no person shall light any fires in the reserve without the special permission in writing of the committee of management.
 6. No person, except labourers or workmen employed in the reserve, shall enter any plots therein which may be enclosed for plantations of young trees or shrubs.
 7. No person shall bring into the reserve any dog for coursing or other purposes of sport, and all dogs so brought in, and all goats and poultry found therein, shall be liable to be destroyed.
- Every person offending against these Regulations shall, in accordance with section 136 of the *Land Act 1890*, on conviction before any justice, forfeit and pay a penalty not exceeding Five pounds for each offence; and every person who knowingly and wilfully offends against any such Regulations, and who, after he has been warned by any bailiff of Crown lands or any constable, does not desist from so offending, may be forthwith apprehended by such bailiff or constable and taken before some justice of the peace, and shall, on conviction, forfeit and pay a penalty not exceeding Ten pounds.

SPECIAL MALLEE ALLOTMENTS.—MALLEE LANDS AVAILABLE FOR APPLICATION IN THE PARISH OF PIANGIL, COUNTY OF TATCHERA.

THE undermentioned mallee allotments, being subdivisions of Mallee Blocks 20A and 20B, are now available for application under section 157, *Land Act 1890*, as amended by the *Land Act 1891*.

Plans showing position of the land can be obtained at the Crown Lands Offices, Melbourne, Bendigo, Horsham, Warracknabeal, St. Arnaud, and Kerang.

On these allotments the mallee has been cut. Applicants for same must be prepared to pay Five shillings (5s.) per acre for the clearing done. Of this amount One shilling and threepence (1s. 3d.) per acre must be paid immediately on land being recommended by Local Land Board, and the balance in three half-yearly instalments of One shilling and threepence (1s. 3d.) each, with interest added at the rate of Six (6) per cent. per annum.

No application for these allotments can be entertained only under above-mentioned condition.

This land is the nearest to the Murray River, and is reported to be of excellent quality.

R. W. BEST,

Commissioner of Crown Lands and Survey,
Being the Responsible Minister of the Crown
administering the said Act.

Department of Lands and Survey,
Melbourne, 20th February, 1895.

Applications must be made on the usual form, which can be obtained at any Land Office in the district, or the Head Office, Melbourne, and forwarded to any Land Officer, accompanied by a certificate of registration to be obtained from any Receiver and Paymaster on payment of a fee of £1:

The land is situated at Piangil, near the Murray River, about midway between Swan Hill and Narrung, and immediately opposite Tooleybuc.

Swan Hill railway station is 25 miles from the nearest point of the land and 30 miles from the most distant.

The tenure of the lease is eight years and eleven months from the 1st January, 1895. Rental is Sixpence per acre per annum, and lessees will be required to cultivate and otherwise improve their land, and also to destroy all vermin thereon.

All applications for the land will be considered by a Local Land Board; and the allotments will be recommended the applicants deemed most likely to prove suitable and *bona fide* settlers. Not more than one allotment will be granted to any one person.

No person will be considered eligible who has previously selected an area which, if added to any area in these subdivisions, would exceed 640 acres.

Applicants must specify on the application form which allotment they wish to apply for.

Incoming lessee to pay the value of improvements (if any) on these allotments.

Land Act 1890, Part II., as amended by the *Land Act 1891*.

MALLEE LANDS AVAILABLE FOR APPLICATION IN THE PARISHES OF PIANGIL AND PIANGIL WEST, COUNTY OF TATCHERA.

THE undermentioned Mallee Allotments, being subdivisions of Mallee Blocks Nos. 20A and 20B, are now available for application under section 157, *Land Act 1890*, as amended by the *Land Act 1891*.

Plans of the land can be obtained at the Crown Lands Offices, Melbourne, Bendigo, St. Arnaud, Horsham, and Kerang; and can also be inspected at the Post Offices at Swan Hill, Lake Boga, Mystic Park, and Kaneira; and at the offices of the Receiver and Paymaster at Charlton and Wycheproof.

Plan and special conditions may be seen at this office.

A deposit of £10 is required as a guarantee everything will be kept in repair.

R. W. BEST,

Commissioner of Crown Lands and Survey.

Lands Department,
Melbourne, 21st February, 1895.

TENDERS FOR GRAZING LANDS.

Tenders must be sent in on proper form, which can be obtained on application to the Lands Department, Melbourne, or any of the Survey Offices in the country.

Tenders must be placed in the Crown Lands Office Tender-box not later than Twelve noon on Friday, 22nd March, 1895.

NOTE.—The fee for the period from 1st April, 1895, to 30th June, 1895, and fee of Five shillings for Licence, must accompany each Tender.

No tender will be accepted unless the fees referred to above are forwarded with the tender.

TENDERS will be received by the Board of Land and Works up to Noon of Friday, 22nd March, 1895, for the occupation, for grazing purposes only, of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 123 of the *Land Act 1890* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under section 7 of the *Vermin Destruction Act 1890*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

Conditions:

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1890*, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1890*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence-fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the *Land Act 1890* may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

3. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same without the permission or sanction of the licensee or any one claiming under her, him, or them.

4. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate or to fence any portion thereof.

6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof; but nothing herein contained shall be deemed to confer the right to any renewal.

7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.

9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

10. This licence may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

11. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

12. The ring-barking of the timber upon the land by the licensee is expressly forbidden, nor is he entitled to destroy or cut and take away any such timber; and should he be found destroying, felling, or removing live or dead timber without a licence authorizing him so to do he will be prosecuted according to law.

13. The licensee shall destroy all thistles on the land, and on the half width of adjoining roads, and shall be responsible for the destruction of thistles under the Thistle Act in like manner as holders of freehold lands.

Special Conditions:

1. The period of occupation will be from 1st April, 1895, to 30th June, 1895.

2. The licence-fee must be paid in advance. The fee for the period from 1st April, 1895, to 30th June, 1895—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Tenders to be for so much per lot and block per annum.

4. Separate tenders must be lodged for each block.

5. Tenders to be indorsed—"Tender for Lot 1, Block 405," or "Lot 2, Block 736," or "Lot 3, Block 2192," as the case may be.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name and ordinary postal address.

8. The areas are given as more or less, and all appropriated, alienated, or licensed land (if any) within the boundaries is excluded.

Plans can be seen and information may be obtained in this office.

In the matter of *The Metropolitan Gas Company's Act 1878*.

WE, John Grice, of the city of Melbourne, merchant, Joseph Major Pratt, of the same city, Member of the Legislative Council, and Thomas Vasey, also of the same city, gentlemen, do severally solemnly and sincerely declare as follows:—

That the said John Grice and Joseph Major Pratt are two of the directors of the Metropolitan Gas Company, and the said Thomas Vasey is the secretary of the said company.

That the nominal capital of the company is Eight hundred and fifty-seven thousand two hundred and ten pounds, divided into One hundred and seventy-one thousand four hundred and forty-two shares of Five pounds each, and the amount paid up thereon is Eight hundred and fifty-seven thousand two hundred and ten pounds.

That the amount which the company is legally authorized to borrow on debentures is the sum of Eight hundred and fifty-seven thousand two hundred and ten pounds.

That the total amount raised by the company on debentures and unpaid does not exceed the amount which the said company is by *The Melbourne Gas Company's Act 1878* authorized to borrow.

That in estimating the total amount raised as mentioned in the last preceding paragraph all principal sums have been included which are now outstanding on the debentures, bonds, and mortgages referred to in the fifty-fifth section of the said Act.

And we severally make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act of the Parliament of Victoria rendering persons making a false declaration punishable for wilful and corrupt perjury.

JOHN GRICE.
