Schedules as above, giving an estimate of the articles required, and printed forms of tender, may be obtained from the Secretary to the Tender Board, by whom also the samples will be shown, and any information or explanation afforded to persons tendering.

Separate tenders will be received for each schedule or sub-schedule, but they must include the whole of the articles therein mentioned, and a separate price must be stated for each article.

The total amount of tender must be stated in words as well as in figures.

Tenders having alterations or erasures therein will not be entertained.

Tenders must be accompanied by the preliminary deposit as shown above in bank notes, or a bank draft in favour of the Secretary to the Tender Board (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

Security will be required, either in Victorian Government debentures, Melbourne Savings Bank Deposit in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

Persons failing to take up their contracts will be disqualified from tendering for Government supplies for a period of twelve months.

Tenders, enclosed in a separate envelope, and having the words "Tender for —" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

CONDITIONS OF CONTRACT.

1. The Government will not be bound to order from the contractor all the articles enumerated in the schedules, but only those articles, and such quantities of those articles, as it may be found necessary to order. Should the Government, however, require a larger supply of any article than the quantity stated in the schedules, the contractor will nevertheless be bound to supply the same at contract rates.

2. The supplies are to be the same as sample where so stated, and of the particular manufacture indicated in the schedule of tenders. In the case of different makers' goods, the contractor will be required to supply the kind ordered. The supplies are to be the best quality of their several kinds or manufacture. A preference will, however, be given to goods of Victorian manufacture, provided the quality is equal to the particular manufacture indicated in the schedule.

3. The value of all packages, cases, casks, &c., whether bulk be broken or not, must be included in the prices stated in the contractor's tender; all such packages, &c., to be considered the property of the Government, and no charges or expenses whatsoever beyond the price tendered and set out in the schedule will be allowed to the contractor for any articles or packages, cases, casks, &c. The net weight or quantity only will be paid for. Contractors must provide, without extra charge, whatever labour may be required in the packing of stores.

4. All orders for supplies will emanate from the departments requiring the goods. The goods shall be delivered as may be directed by the officer ordering the supply. At the time of delivering the supplies the contractor shall produce the order for the same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the stores accepted, and shall return the order to the contractor.

5. Supplies ordered for delivery in Melbourne and Williamstown districts are to be delivered free of all charges (whether cartage, freight, &c.), and, for the purposes of these contracts, Melbourne district will include a radius of six miles from the General Post Office; and Williamstown district will include the town of Williamstown, Hobson's Bay, and the River Yarra.

6. Arrangements as to time of delivery and inspection of goods will be made by the officers ordering the goods.

7. Orders must receive prompt execution; and, in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order, or within such other time as the order may specify for delivery, it will be competent for the officers named in Condition 6, or the head of the department to whom the goods are to be supplied, on giving the contractor twenty-four hours' notice, to purchase the supplies, or any like supplies that are suitable for the service, at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account, or from the security money.

8. The contractor will be required to furnish his account in the prescribed form as soon as possible after delivery of the full quantities of goods ordered, the account being accompanied by the receipted delivery orders on which it is based. The prices quoted in the orders cannot be increased.

9. The acceptance of the supplies shall be subject to the approval of the officer authorized to take delivery of the stores, or such other officer as shall be named in the conditions. The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four hours after objection is made, give notice thereof, in writing, to the officer rejecting the goods. If, after the delivery of the supplies has been taken, any deficiency or defect is discovered therein, such stores may be returned to the contractor.

10. When a contractor is required to make delivery of goods at a railway station for transmission by rail, he shall obtain a receipt for the goods in duplicate on the Stores and Transport consignment note, at the same time handing in a triplicate of the form as an authority for the carrier to act as agent for and charge the freight to the Stores and Transport Department. He shall as soon as possible, and not later than twenty-four hours thereafter, deliver at the Tender Board Offices the original, the duplicate to be retained by himself. Should the goods thus forwarded be rejected, the contractor must bear the cost of replacing such goods, for which service the departmental consignment note is not to be used. Any infringement of this condition may subject the contractor to such mulct as the Tender Board may recommend under clause 13 of these conditions.

11. Delivery will not be deemed to have been made until the goods have been approved of. In case of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the supplies rejected or returned, otherwise purchases will be effected at the contractor's risk, and the extra expense deducted as in Condition 7.

12. The members of boards of survey will be appointed by the Treasurer of the Colony for the time being, and the decision of the board is to be considered as final. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it, or any like supply

that is suitable for the service, will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as in Condition 7.

13. A repetition of irregularity in the quantity or quality of the supplies, or of delay in delivering or replacing them when required, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds, as the said Treasurer may direct, and the amount may be deducted as in Condition 7. It will also be in the power of the said Treasurer, upon such repetition, to terminate the contract forthwith, and forfeit the whole or any portion of the security money.

14. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognised by the Government.

15. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by the importation of stores for the Government service, or by any contracts or purchases made by the Imperial Commissariat or the Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Departments of Public Works and Defence, or on account of other Governments, or for the Telegraph or Railway Departments, or for supplies to the Aborigines, or for connexions and fittings of Diamond Drills; or by any article being made at and supplied for the use of any Government establishment; or by the consumption of the surplus stock of any Government establishment.

16. In the event of any alteration in the Tariff affecting any of the items included in these contracts, the Government, or the contractor, as the case may be, may give two months' notice of the termination of the contract to the opposite party, it being understood that such notice can only be given from the first day of the month, and within the period for which the contract is made.

17. Under no circumstances other than those mentioned in clause 16 will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited; and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

18. Where specially indicated in the schedules no subletting will be allowed. All work must be carried out in the factory of the contractor, and the hours of employment of any person engaged in the manufacture of the articles tendered for in those schedules are not to exceed forty-eight per week, and at the minimum wage specified in the schedules concerned. Any infringement of this condition will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding £50 (Fifty pounds), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money.

| Mean of ten years ... | 1,170 | 733 | 66.4 | 29.866 | .90 |

The births of 949 children, viz., 499 boys and 450 girls, were registered in Greater Melbourne during the month of February. This number was only 4 more than that in February, 1895, but was 221 below the average of the month during the previous ten years, and 237 below that average if allowance be made for the increase of population. The births have fallen off by one-third as compared with 1890 or 1892.

The deaths registered in February numbered 629, viz., 321 of males and 308 of females; the births thus exceeded the deaths by 320, or 51 per cent. The deaths were more numerous than in the corresponding month of the two preceding years, but were fewer than in that of any other of the previous ten years; they were also fewer than the average of February during the previous ten years by 104, or, allowing for increase of population, fewer than that average by 114.

To every 1,000 of the population of the district the proportion of births registered was equivalent to 26.76, and of deaths registered 17.74 per annum.

The highest temperature in the shade recorded at Melbourne Observatory during the month was 102.3° on the 17th, and the lowest was 49.2° on the 2nd. The mean temperature of the month (65.9°) was half a degree below the average. The greatest range of the thermometer in any one day (36.4°) took place on the 17th, and the least range (1.4°) on the 22nd. The mean daily range was 16.5°. The highest atmospheric pressure recorded was 30.185 inches on the 22nd, and the lowest was 29.642 inches on the 18th. The mean atmospheric pressure (29.930 inches) was nearly a twentieth of an inch above the average.

Rain fell on 8 days, the amount of rainfall being 3.08 inches. This amount, which was in marked contrast to the low rainfall of the month in the six preceding years, as shown above, was by far the highest for February during the last sixteen years, the next highest being 2.74 in 1885, and 2.67 in 1887; it was, moreover, 2½ inches above the average of the last ten years, but 2½ inches below the maximum ever recorded for the month, viz., 5.42 inches in February, 1875.

Males contributed 51 per cent. and females 49 per cent. to the mortality of the month. Children under five years of age contributed 42 per cent. to that mortality, as against 40 per cent. in February, 1895; 40 per cent. in February, 1894; 49 per cent. in February, 1893; 49 per cent. in February, 1892; 49 per cent. in February, 1891; and 48 per cent. in February, 1890.

Forty-one deaths of persons who had attained or passed the age of 75 years were recorded during the month. Of these, a gentleman and a female, each aged 75, died of apoplexy; a shepherd, aged 75, of insanity; a wheelwright, aged 75, of heart disease; a female, aged 75, of pneumonia; two females, each aged 76, of diarrhoea and pneumonia respectively; a cabinetmaker,

CLASS VIII.—ILL-DEFINED AND NOT SPECIFIED CAUSES.

Debility, atrophy, inanition, 80.

As compared with the corresponding month in the previous year, the deaths in the month under review show an increase of 57 under the head of local diseases, 17 under developmental diseases, 11 under violence, 8 under diet, and 5 under constitutional diseases; whereas there was a falling-off of 9 under the head of zymotic, of 10 under the head of ill-defined, and of 3 under parasitic diseases. Under the class local diseases, the deaths from diseases of the digestive system rose from 106 to 145 (chiefly under the complaint of enteritis), of the respiratory system (chiefly pneumonia) from 36 to 47, of the circulatory system from 35 to 43, and of the nervous system from 32 to 60; but those from diseases of the urinary organs fell from 30 to 20. Under the class developmental diseases, deaths from premature birth rose from 15 to 19, from other malformations from 3 to 7, and from old age from 11 to 18. The increase under the head of diet diseases was confined to infants who died of want of breast milk, which was the cause of death in 11 cases in the month under review as compared with only 3 in February, 1895; but, as against this, deaths from atrophy and debility (chiefly of young children) fell from 37 to 30. The small falling-off under the zymotic class was the net result of a diminution in the deaths from diphtheria from 8 to nil, from septic diseases from 8 to 3, and from typhoid fever from 30 to 27—less an increase in those from diarrhoeal diseases from 16 to 23. The increase under violence was chiefly due to sunstroke, which resulted fatally in as many as 9 cases in the month under review as compared with only 1 in the corresponding month of 1895.

The following is a statement of the deaths set down to influenza and typhoid fever in each month of the years 1890 to 1895, and the first two months of 1896, from which may be traced the rise and fall of the mortality at various periods of the year. It will be noticed that the recent epidemic of influenza, which caused 109 deaths in the last five months of 1895, has now quite subsided; also, that more deaths were set down to typhoid fever in February both in 1895 and 1896 than in the corresponding month for any previous year since 1891.

SHIRE OF PHILLIP ISLAND.

NOTICE is hereby given that it is the intention of the Council of the Shire of Phillip Island, under section 428 of the *Local Government Act 1890*, to apply to the Governor in Council to grant to the executors of the late John Duerdin (Mrs. Eliza Jane Duerdin and Mr. Henry Hedderwick), of 414 Little Collins-street, Melbourne, a licence to close with unlocked swing-gates, for a period of five years, the following roads running through the property owned by the above trustees and executors, viz.:-

1. The road between allotments 78 and 79, parish of Corinella, which commences at its intersection with the road on the eastern boundary of allotments 78 and 79, and extends to the beach of Western Port Bay.

2. The road between allotments 74 and 75, parish of Corinella, which commences at its intersection with the road on the eastern boundary of allotments 74 and 75, and extends to the beach of Western Port Bay.

3. The road between allotments 70 and 71, parish of Corinella, which commences at its intersection with the road on the eastern boundary of allotments 70 and 71, and extends to the beach of Western Port Bay. The gates will be erected at the eastern end of the aforesaid roads at their intersection with the road running north and south on the eastern boundary of the said allotments 70, 71, 74, 75, 78, and 79.

The following are the reasons for the aforesaid application:—
1. That the roads above mentioned are not required for public traffic, the traffic is so slight that the temporary closing of the above roads by means of unlocked swing-gates will not be injurious to the public.

2. The lands adjoining on each side of the said roads belong to the executors and trustees of the late John Duerdin (Mrs. Eliza Jane Duerdin and Mr. Henry Hedderwick), and, therefore, the temporary closing of the aforesaid roads will not create any inconvenience.
