

SUPPLEMENT

TO THE

VICTORIA

GOVERNMENT GAZETTE

OF FRIDAY, JUNE 19, 1896.

Published by Authority.

No. 68.]

THURSDAY, JUNE 25.

[1896.

SCHEDULE OF RATES CONTRACTS

FOR THE

SUPPLY OF STORES

TO THE

VICTORIAN RAILWAYS,

{ 1896-7 }
{ 1896-9 }

See following Schedules numbered 5867 to 5947i.

R. G. KENT,
By order of the Victorian Railways Commissioners.

23/6/96.

June 25, 1896.

2780

Contract No. 5867.

McLean Bros. and Rigg Limited, Contractor.

SUPPLY AND DELIVERY OF

GENERAL IRONMONGERY,

As ordered, from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Items marked * to be supplied to sample exhibited by Corporation, and which may be seen on application to the Railway Storekeeper.

Item.	Description of Stores.	Rate per
1	Adzes—Carpenters', plain or pin polled, as ordered, any No. ordered	£ s. d. 0 2 9 each
2	Anvils—Smiths', Peter Wright's, any size ordered	1 4 0 cwt.

Contract No. 5868.

Morris and Meeks, Contractor.

SUPPLY AND DELIVERY OF IRON AND STEEL.

As ordered, from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

GENERAL.—The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

STEEL.—To be manufactured by Thomas Turtton and Sons, Chas. Cammell and Co., Sorby, Vickers, Stubbs, or any other approved maker as ordered, and to bear trade marks or brands.

MILD STEEL.—From the Steel Company of Scotland, Dalzells, or other approved maker, and to bear trade marks or brands.

The mild steel is to be capable of being bent, punched, sheared, or welded without showing signs of deterioration, and is to be capable of withstanding the following tests:—

- (a) Tensile.—To stand a minimum strain of 22 tons per square inch of section, and a maximum strain of 28 tons per square inch of section.
(b) A strip 8 inches x 1 inch x $\frac{1}{4}$ inch cut from bar or plate heated to a red heat and cooled in water to stand bending thus  without showing signs of fracture.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Items marked * to be supplied to sample exhibited by Corporation, and which may be seen on application to the Railway Storekeeper.

Item.	Description of Stores.	Rate per
-------	------------------------	-------------

NOTE.—Each Tenderer may tender to supply each and every item scheduled, or he may tender to supply items numbered 319, 320, 328, and 343 only. The Corporation may, in its absolute discretion, accept any tender or tenders (1) in respect of each and every item scheduled, or, (2) in respect of each and every item scheduled, except items numbered 319, 320, 328, and 343, or, (3) in respect of items numbered 319, 320, 328, and 343 only.

Contract No. 5885a.

John Zevenboom and Co., Contractor.

SUPPLY AND DELIVERY OF

BRUSHWARE.

As ordered, from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Items marked * to be supplied to sample exhibited by Corporation, and which may be seen on application to the Railway Storekeeper.

Items marked thus, † ‡ (†), to be supplied to samples furnished by Tenderer with his tender.

Item.	Description of Stores.	Rate per
-------	------------------------	----------

594 to 616A, see Contract No. 5885c.

PAINTERS' TOOLS, ETC.

NOTE.—The brushes as scheduled to the end of this Schedule are of three classes, namely, Victorian Manufacture, G. B. Kent's, and Hamilton's, the two last-named being English manufactures.

Tenderers may tender to supply one or more of the said classes complete as scheduled, provided that each Tenderer who tenders for any item of any of the said classes shall tender for all the items of that class. The Corporation may in its absolute discretion accept any Tender in respect of one or more of the said classes tendered for.

Tenderer shall indicate the class or classes, as afore-said, which he tenders to supply, by inserting the rate or rates tendered against the items of the class or classes tendered for.

Items marked thus, †, to be supplied to sample furnished by Tenderer, with his tender, for Nos. 617 to 647 (8 samples).

For missing items, see Contract 5885b.

Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Item.	Description of Stores.	Rate per
889 to 914—See Contract 5897b.		
<p>NOTE.—CLASSES 1 TO 5.—Each tenderer has the option of tendering to supply the Varnishes, &c., of one or more of the undermentioned classes, numbered 1 to 5. A rate must be inserted by tenderer for each and every item of each class in which any item is tendered for. The Corporation may in its absolute discretion accept any tender or tenders in respect of one or more of the classes comprised in the said tender or tenders. (See Clause 3 of Conditions of Tendering, and Clause 2 of Conditions of Contract.)</p>		
<p>CLASS 6.—So far as Class 6 is concerned, tenderer has the option of tendering, under the heading of Class 6, to supply one or more of any of the items comprised in Classes 1 to 5 of any other maker or makers or manufacture to be named by tenderer at his own discretion, and the Corporation may in its absolute discretion accept any tender or tenders in respect of one or more of the items comprised in the said tender or tenders.</p>		
<p>ESTIMATED QUANTITIES.—The estimated quantities for each one of the undermentioned classes, numbered 1 to 5, comprises the total estimated quantities of each and every description of Varnish which may be required by the Corporation for the three (3) years ending 30th June, 1899; or in other words a grand total of the estimated quantities quoted for items numbered 889 to 953 would be five (5) times the actual estimated requirements.</p>

**SUPPLY AND DELIVERY OF
CEMENT.**

As ordered, from 1st July, 1896, to 30th June, 1897.

SPECIFICATION.

GENERAL.—The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

CEMENT to be of approved brand, closely packed in casks, containing 375 lbs. net, or, if of Victorian Manufacture, in bags as scheduled below. No repacked or damaged casks to be delivered.

Samples may be taken, by a receiving officer appointed by the Corporation, from three casks or bags in each hundred by opening or boring with an auger.

The cement thus taken must comply with the following conditions:—

(1) Its constituents, to be found by analysis, shall be—

Lime	...	58 to 61 p.c.
Silica	...	20 to 27 "
Alumina	...	5 to 10 "
Oxide of Iron	...	Not more than 6 p.c.
Magnesia	...	" 3 "
Sulphuric Acid	...	" 2 "

(2) Its specific gravity must not be less than 3.

(3) It must be well burnt and finely ground so that 90 p.c. shall be capable of passing through a sieve of 32 gauge wire, 2,500 meshes to square inch.

(4) When mixed neat into five briquettes it must, after immersion in water for seven days, give an average tensile strength of 350 lbs. to square inch and not more than 500 lbs. to square inch. After 28 days in water the average tensile strength of five briquettes mixed neat must not be less than 450 lbs. or more than 700 lbs. to the square inch.

(5) Pats mixed neat on glass kept in a moist heat of 90° Fahr. till set and then placed in a bath of water 100° Fahr. or in air must show no sign of blowing or cracking.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, bags, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Contract No. 5903.

Luke Nolan, Contractor.

SUPPLY AND DELIVERY OF EARTHENWARE DRAIN PIPES.

As ordered, from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

GENERAL.—The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

EARTHENWARE DRAIN PIPES.—The drain pipes are to be of the kind known as salt-glazed vitrified stoneware. They shall be made of plastic clay, containing a large proportion of silica, and free from limestone or lime. The clay is to be thoroughly well worked. The pipes to be well burnt, completely vitrified, and free from splints, cracks, or other defects. Each pipe, bend, or junction shall be uniformly and thoroughly glazed over the whole of the interior and exterior surfaces with salt glaze. The straight pipes, bends, and junctions shall be made to the exact form and dimensions ordered. The whole to be truly cylindrical. The branches to be truly set to the angle ordered. The socket of the oblique branches shall be as near as possible to the body of the pipe. The measurement of the pipes will be at the net length of 24 inches, as laid in the works, from the bottom of the socket to the end of the spigot for all straight pipes, and for the bends the length measured along the circumference of the central radius in the same manner.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Contract No. 5904.**T. Mitchell and Co., Contractor.****SUPPLY AND DELIVERY OF
IRON TANKS.****As ordered, from 1st July, 1896, to 30th June, 1899.****SPECIFICATION.**

The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Contract No. 5905.

Davies and Baird, Contractor.

**SUPPLY AND DELIVERY OF
IRON CASTINGS (FURNACE BARS AND BRAKE BLOCKS).**

As ordered, from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

GENERAL.—The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

IRON CASTINGS.—The castings are to be clean, sharp, free from surface scale, shell, cold shuts, blow holes, honeycomb, cinder, or any other imperfections, and are to be sound in every respect, and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be requested, and no extra charge shall be made or allowed for same, and the Contractor will be required to remove the head or runner from the casting, where possible in the opinion of the Chief Mechanical Engineer, and charge the casting at the net weight only, trimmed and clean. In cases where it is necessary to cut off the head in a lathe or machine, such head will be cut off by the Corporation, and returned to the Railway Station nearest to the Contractor's works, and will be delivered to the Contractor at the said Railway Station free of cost or carriage.

The Corporation will supply all patterns, and deliver the same to the Contractor, free of cost, at the Railway Station nearest to his works. All patterns, &c., supplied by the Corporation must be returned by the Contractor in good order, and delivered together with the castings (see Clause 9 of Conditions of Contract).

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

1049	Brake Blocks	...	5 19 11 $\frac{3}{4}$	do.

Contract No. 5906.**J. and T. Muir, Contractor.****SUPPLY AND DELIVERY OF
IRON CASTINGS**

(Excepting Furnace Bars and Brake Blocks).

As ordered, from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

GENERAL.—The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

IRON CASTINGS.—1. Whenever specially ordered, the castings shall be run from the very best "cold-blast iron," and of such particular brand, quality, and mixture as may be described in the order; or of such other substituted mixture as may be approved or directed by the Chief Mechanical Engineer or Engineer for Existing Lines, so as to produce a hard, close, soft, or other description of metal, at the option and to the satisfaction of the Chief Mechanical Engineer or the Engineer for Existing Lines.

2. The castings are to be clean, sharp, free from surface scale, shell, cold shuts, blow holes, honeycomb, cinder, or any other imperfections, and are to be sound in every respect, and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be requested, and no extra charge shall be made or allowed for same, and the Contractor will be required to remove the head or runner from the casting, where possible, in the opinion of the Chief Mechanical Engineer or the Engineer for Existing Lines, and charge the casting at the net weight only, trimmed and clean. In cases where it is necessary to cut off the head in a lathe or machine, such head will be cut off by the Corporation, and returned to the Railway Station nearest to the Contractor's works, and will be delivered to the Contractor at the said Railway Station free of cost or carriage.

3. Subject to the provisions of Clauses 4, 5, and 6 of this Specification, the Corporation will supply all patterns, and deliver the same to the Contractor, free of cost, at the Railway Station nearest to his works. All patterns, loam-boards, &c., supplied by the Corporation must be returned by the Contractor in good order, and delivered together with the castings. (See Clause 9 of Conditions of Contract.)

4. Whenever ordered, the castings are to be moulded in loam without a pattern, and loam rate will be paid according to Schedule, but no extra charge will be allowed for patterns, strickles, or loam-boards.

5. All Water Supply castings must be moulded in loam whenever required, and a loam pattern made, and no extra rate or charge will be allowed for the loam pattern beyond the rate stated in Schedule. Contractor shall supply all patterns for Water Supply castings at his own cost.

6. Whenever only one or two castings are required, and, in the opinion of the Chief Mechanical Engineer or Engineer for Existing Lines, they can be moulded from the broken originals, the Contractor will be bound to mould from such broken originals without requiring the Corporation to supply a wooden or other pattern for same, and without being allowed any extra rate.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Item.	Description of Stores.	Rate per		
		£	s.	d.
1050	Castings, other than those provided for below, to pattern supplied by Corporation, or moulded in loam as ordered (see Clauses 3 and 4 of Specification)	11	0	0 ton
1051	Very best description of Sand Castings, as specified, to patterns supplied by Corporation, moulded in boxes, and dried if ordered	9	16	8 do.
1052	Water Supply Castings—Best description of Bends, T pieces, and other irregular castings in connexion with water supply, with grooved faucets, all to Victorian Water Supply standard. Contractor to supply all patterns, loam-boards, &c.; and dip all castings in a mixture of hot Trinidad asphalt and tar, Victorian Water Supply proportion	9	0	0 do.

2838-

Contract No. 5907.

Davies and Baird, Contractor.

**SUPPLY AND DELIVERY OF
STEEL CASTINGS.**

As ordered, from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

GENERAL.—The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

STEEL CASTINGS.—1. The castings are to be clean, sharp, free from surface scale, shell; cold shuts, blow holes, honeycombs, cinder, or any other imperfections, and are to be sound in every respect, and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be requested, and no extra charge shall be made or allowed for same, and the Contractor will be required to remove the head or runner from the casting, where possible, in the opinion of the Chief Mechanical Engineer or the Engineer for Existing Lines, and charge the casting at the net weight only, trimmed and clean. In cases where it is necessary to cut off the head in a lathe or machine, such head will be cut off by the Corporation, and returned to the Railway Station nearest to the Contractor's works, and will be delivered to the Contractor at the said Railway Station free of cost or carriage.

2. The castings to be annealed until a piece cut from them or a test piece made from the same cast will bend 1 inch in 6 inches, thus:  and stand being brought back to its original shape without fracture.

3. The Contractor shall, if called upon to do so, supply a test bar six (6) inches long by two (2) inches square, which will be drawn out under the hammer, and then subjected to a tensile test; the minimum breaking strain to be twenty-five (25) tons per square inch, with elongation of ten (10) per cent.

4. Subject to the provisions of Clause 5 of this Specification the Corporation will supply all patterns, and deliver the same to the Contractor, free of cost, at the Railway Station nearest to his works. All patterns, &c., supplied by the Corporation must be returned by the Contractor in good order, and delivered together with the castings (see Clause 9 of Conditions of Contract).

5. Whenever only one or two castings are required, and they can, in the opinion of the Chief Mechanical Engineer or the Engineer for Existing Lines, be moulded from the broken originals, the Contractor will be bound to mould from such broken originals without requiring the Corporation to supply a wooden or other pattern for same, and without being allowed any extra rate.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

NOTES.—1. Any canvas shown by the Corporation will only be as a guide to Tenderers as to the quality required, and must not be in any way regarded as the contract sample. Tenderers must submit with their tenders samples of the canvas they undertake to supply.

2. The Corporation prefers that the canvas be manufactured with coloured thread in centre of the canvas and also on each side of the canvas, one and a quarter inches ($1\frac{1}{4}$ ") from the selvedge, such threads to extend the full length of each bolt of canvas. Other things being equal, in considering the tenders, preference will be given to canvas which complies with the particulars set forth in this note.

Contract No. 5922.**McLean Bros. and Rigg Limited, Contractor.****SUPPLY AND DELIVERY OF
TELEGRAPH WIRE.**

As ordered, from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

GENERAL.—The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the Stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

GALVANIZED TELEGRAPH WIRE.—The wire is to be uniformly annealed, soft, pliable, free from scale, inequalities, flaws, splits, and other defects, and must be uniformly cylindrical.

The wire is to be drawn in continuous pieces of not less than 90 lbs. nor more than 120 lbs. No piece of wire shall contain any weld, joint, or splice whatever, either in the rod before it is drawn or in the finished wire.

The wire to be well galvanized. It will be tested as under:—

Samples taken from any coil or coils will be placed in a solution of sulphate of copper, saturated at 60° Fahr., and allowed to remain there for one minute, when they will be withdrawn and wiped clean. The galvanizing must admit of this being performed four times without there being any sign of a reddish deposit of metallic copper on the wire, which would be the case if the coating of zinc were too thin.

The diameter of the wire to be 171 mils, and no greater difference than 5 (five) mils under or above will be accepted.

To prove its ductility, the wire must be capable of bearing 21 twists in six inches without breaking or showing any sign of splitting.

The weight of wire per mile to be 400 lbs., with a maximum resistance of 13½ ohms.

The wire must bear a weight of not less than 1,300 lbs. without breaking.

If, after the examination of any particular parcel of wire, 10 per cent. of such wire fails, in the opinion of the Telegraph Superintendent, to meet the requirements of the foregoing stipulations, the whole of such parcel shall be rejected, and no such parcel, or any part thereof, shall on any account be again presented for examination and testing, and this stipulation shall be deemed to be, and shall be treated as, an essential condition of the contract.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Contract No. 5924.**John Slater and Co., Contractor.****SUPPLY AND DELIVERY OF
ELECTRIC LIGHT MATERIAL.**

As ordered, from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, bags, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Items marked * to be supplied to sample exhibited by Corporation, and which may be seen on application to the Railway Storekeeper.

Contract No. 5927.**John Sharp and Sons, Contractor.****SUPPLY AND DELIVERY OF
TIMBER, ETC.**

As ordered, from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

GENERAL.—The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

TIMBER.—All timber to be thoroughly seasoned, free from knots, shakes, heart, sap, or any imperfection, and to be thoroughly sound, and close-grained or free, as may be required. All boards under 1 inch will be measured and paid for by the superficial foot on the face. All timber (excepting where otherwise stipulated in the Schedule) 1 inch thick and upwards will be measured and paid for by the superficial foot of 1 inch thick.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Contract No. 5928.

James Moore, Contractor.

SUPPLY AND DELIVERY OF CARPENTERS' WORK.

As ordered, from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

GENERAL.—The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

LADDERS.—The Ladders are to be of Red or Yellow Baltic Fir, free from large or loose knots, and perfectly straight in grain, sound and free from heart and sap. The rounds are to be cleft, of young and fresh Hickory, English Ash, or English Oak, straight in grain, and turned to $1\frac{1}{4}$ inch diameter in centre, and for $\frac{1}{2}$ -inch holes at ends. The sides of the Ladders are to be bored to receive the rounds, and the holes are to be tapered outwards, so as to admit of the round being opened and wedged. All the rounds are to well fill the holes, and be wedged with glue into the sides, previously having received a coat of wet white lead. Every eighth round a tie-bolt $\frac{1}{2}$ inch diameter with collar at each end $1\frac{1}{2}$ inch diameter is to be inserted below the round with nut and washer at each end, the rounds to be 9 inches apart centre to centre. The Ladders are to be finished with three coats of good lead and oil paint, of such colour as may be ordered.

The 36-foot Ladders are to be spread at bottom 18 inches clear between the sides, which are to be $4\frac{1}{2}$ inches x $2\frac{3}{4}$ inches; and at top $9\frac{1}{2}$ inches clear, with sides $2\frac{3}{4}$ inches x $1\frac{1}{2}$ inches.

The 30-foot Ladders 18 inches clear at bottom, with sides $4\frac{1}{2}$ inches x $2\frac{1}{2}$ inches; and at top $10\frac{1}{2}$ inches clear, with sides $2\frac{3}{4}$ inches x $1\frac{1}{2}$ inches.

The 24-foot Ladders 16 inches clear at bottom, with sides $4\frac{1}{2}$ inches x 2 inches; at top 10 inches clear, with sides $2\frac{3}{4}$ inches x $1\frac{1}{2}$ inches.

The 20-foot Ladders 15 inches clear at bottom, with sides $3\frac{3}{4}$ inches x 2 inches; at top 10 inches clear, with sides $2\frac{3}{4}$ inches x $1\frac{1}{2}$ inches.

The 16-foot Ladders 14 inches clear at bottom, with sides $3\frac{1}{2}$ x $1\frac{1}{2}$ inches; and at top 10 inches clear, with sides $2\frac{3}{4}$ inches x $1\frac{1}{2}$ inches.

The 14-foot Ladders 13 inches clear at bottom, with sides $3\frac{1}{2}$ inches x $1\frac{1}{2}$ inches, and at top 10 inches clear, with sides $2\frac{3}{4}$ inches x $1\frac{1}{2}$ inches.

The 12-foot Ladders 13 inches clear at bottom, with sides $3\frac{1}{2}$ x $1\frac{1}{2}$ inches; and at top 10 inches clear, with sides $2\frac{3}{4}$ x $1\frac{1}{2}$ inches.

The 10-foot Ladders 13 inches clear at bottom, with sides $3\frac{1}{2}$ inches x $1\frac{1}{2}$ inches; and at top 10 inches clear, with sides $2\frac{3}{4}$ x $1\frac{1}{2}$ inches.

The 8-foot Ladders 12 inches clear at bottom, with sides $3\frac{1}{2}$ inches x $1\frac{1}{2}$ inches, and at top 9 inches clear, with sides $2\frac{3}{4}$ inches x $1\frac{1}{2}$ inches.

All the Ladders over 14 feet long are to be parallel in the sides to one-third of the height from the bottom; that is, the sides are to be of the same section one-third up as at bottom.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Contract No. 5935b.

Alex. Cowan and Sons Limited, Contractor.

**SUPPLY AND DELIVERY OF
TRYPOGRAPH AND TYPEWRITING MATERIAL.**

As ordered from 1st July, 1896, to 30th June, 1899.

SPECIFICATION.

The stores shall be in accordance with sample where sample is provided for, and shall be in every respect of the very best description, quality, and manufacture. Except where a particular manufacture, maker, make, brand, or kind is set forth in the following Schedule, the stores set forth in the said Schedule shall be of approved manufacture, maker, make, brand, or kind. The stores shall be subject to the test, examination, and approval of the Railway Storekeeper, the Engineer-in-Chief, the Engineer for Existing Lines, the Chief Mechanical Engineer, the Traffic Manager, or the Telegraph Superintendent, as the case may be.

Schedule of Quantities and Rates.

Subject to omissions, extras, additions, enlargements, reductions, deviations, or alterations, as provided by Conditions of Contract. Rates to include all packing, loading, unloading, and all packages, drums, wrappings, tins, barrels, casks, kegs, jars, cases, &c., whether bulk be broken or not, and all weighing, delivery, materials, carriage, and freight (subject to the provisions of Clause 4 of Conditions of Contract), tools, machinery, implements, labour, and every contingent expense.

Items marked * to be supplied to sample exhibited by Corporation, and which may be seen on application to the Railway Storekeeper.

Items marked † to be supplied to sample furnished by Tenderer with his Tender.

NOTE.—The following schedule is divided into three (3) classes, namely—(1) Trypograph Material, (2) Trypograph Papers, and (3) Typewriting Material. Each Tenderer has the option of tendering to supply one or more of the above classes. A rate must be inserted by Tenderer for each and every item of each class in which any item is tendered for. The Corporation may in its absolute discretion accept any tender or tenders in respect of one or more of the classes comprised in the said tender or tenders.

CLASS 1.—TRYPOGRAPH MATERIAL.

1556 to 1563, see Contract 5935A.

CLASS 2.—TRYPOGRAPH PAPERS.

				£	s.	d.	
*1564	Paper—Cyclostyle, Gestetner's Patent, or other approved	maker, 16" x 8½"	...	3	6	0	ream
1565	" Trypograph, Stencil	3	15	0	do.
1566	" Mimeograph	0	3	3	quire
*1567	" Trypograph, Printing, Foolscap	0	4	0	thousand sheets
*1568	" " printed to sample A	0	1	6	do.
*1569	" " " B	0	2	7	do.
*1570	" " " C	0	2	7	do.

CLASS 3.—TYPEWRITING MATERIAL.

1571 to 1576, see Contract 5935A.

(Tenderer to submit sample of each item in Class 3.)
