Where the number of factories are bracketed the information has been combined in order to conceal the contents of individual schedules.

* The figures since 1896 include the equivalent of cream received from farmers, reckoning 1½ gallons of milk to every 1 lb. of cream. According to the Agricultural Statistics, the number of dairy cows (wet and dry) in 1900-1 on farms (including dairy farms) was 473,108, for more than one-fourth of which the quantity of milk yielded was returned, viz.:—42,848,928 gallons, or an average of 332.9 per cow; applying this average to all the cows, the total milk yield of the colony in 1900 is equivalent to 157,497,600 gallons, exclusive of the yield of individual cows kept for private use.

† Figures furnished by Customs Department.

‡ Greasy wool.—Previous to 1897 some mills returned the quantity of greasy wool, and others that of scoured wool. The equivalent in scoured wool in 1897 was 1,530,595 lbs.; in 1898, 1,317,953 lbs.; in 1899, 1,094,680 lbs.; and in 1900, 1,831,000 lbs.

Note.—In 1895, for the first time, the particulars of creameries (except as regards their number) were included; whilst the hands, plant, land, and buildings employed in connexion with the sale and distribution of gas and electricity—formerly included—were eliminated. If the same basis as in 1894 were followed, the number of establishments in 1895 would have been 2,742; horse-power, 35,267; hands employed—males 35,500, females 9,782; value of machinery and plant £3,564,000, of lands £2,757,000, and of buildings and improvements, £3,920,000. The returns for 1896 have been compiled in accordance with the statement at head of the first page. If the same basis as in 1895 had been followed, the number of establishments in 1896 would have been 2,389; horse-power, 38,470^f and 27,931^a; hands employed—males 37,789, females 11,057; value of machinery and plant £4,990,420, of lands £2,917,060, and of buildings and improvements £4,293,510. The collection in 1895 was, moreover, more complete than in 1894, especially in the city of Melbourne. The number of establishments returned for 1896, which would not have been included under the old basis, was about 131, employing 2,125 hands (viz., 499 males and 1,626 females), but on the other hand 210 small factories, employing 523 hands (viz., 509 males and 14 females), were rejected. The latter were for the most part establishments which were formerly included for comparative purposes, although their hands had fallen below the prescribed number.

* Prior to 1895 the returns were furnished as for the year ended March in the year following, but it is believed that practically the information related to the calendar years, as indicated.
 † The letter (f) indicates full capacity, and (a) actually used.
 ‡ In the years previous to 1897 the amount under this head was over-stated by £410,000, owing to an error to that extent in the figures returned by the Metropolitan Gas Company.
 § Exclusive of Royal Mint, which was included in former years. In 1898, 58 hands (males) were employed in the Mint, the value of machinery being £30,000 and buildings £38,000.
 || The reduction in the value of lands in the last two years is partly due to a writing down of land values, and partly to the more careful method of valuation in Melbourne City, where a total reduction of £310,000 occurred. The value of one property alone was reduced in 1900 by over £200,000, chiefly on account of the adoption of the municipal instead of the book valuation.

* Box. † Military Barracks and Light-houses included. ‡ Blackwood.

Printed forms of tender, showing estimates of requirements and conditions of contract, may be obtained from the Secretary, Tender Board, Treasury, Melbourne, or from the officer in charge of police at any of the above-mentioned places, by whom also any information or explanation will be afforded to persons tendering.

The price, which must be expressed in words as well as in figures, and without alterations, erasures, or discrepancies, must be per ton of 40 cubic feet for firewood, including delivery at the offices and all charges. Prices should only be quoted for requirements where estimates are shown above.

Tenders, which should be upon the printed form, will be received for either one or more of the above-mentioned places, and tenders for such places may be accepted or rejected separately; but if all lengths of firewood be included in one tender it may be accepted for one length only, if advisable.

Tenderers must specify the kind or kinds of firewood they offer to supply.

Telegrams, or tenders not complying with the terms of advertisement, will not be entertained.

The successful tenderer will be required to enter into a bond for £10, with two approved sureties for the due performance of the contract, within ten days after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to again hold contracts for Government supplies.

Tenders must be enclosed in an envelope, marked "Tender for Firewood at ..." as the case may be, and deposited in the Tender-Box, Pay Office, Treasury, Melbourne; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Treasury, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by Gazette notice, and by letter to accepted tenderers.

CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. All the firewood supplied under these contracts must be split out of large timber, and must be perfectly sound, dry, and of the kind or kinds specified in the tender: neither burnt wood, heartwood, small branches, nor outside pieces of bark will be received. The billets must be not less than 4 inches nor more than 6 inches in diameter. The long wood to be not less than 9 inches nor more than 18 inches in diameter. Delivery to be made on the written order of the chief officer of the Department requiring the supply. The ton of firewood consists of 40 cubic feet. If the firewood is obtained from a State forest timber reserve, or ordinary Crown lands, persons cutting and removing same must be provided with proper Crown licences for the particular areas concerned.

3. The orders for wood will be issued half-yearly (except in cases where the storage is small, when they will be issued quarterly); but the contractor must have 24 hours' notice before purchases are made at his risk.
4. The contractor for wood will be bound to place it in stacks for measurement on such ground as may be pointed out. The stacks are to be 2 feet wide (or 4 feet 6 inches for long wood) by 5 feet high, with space between each stack for measuring; and the billets (or lengths) are all to lie the same way, viz., crossways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack and to the satisfaction of the officer receiving the supply. In the event of any inconvenience being felt, either through delay in delivery or of stacking the wood, the Department concerned will purchase the same or re-stack that delivered, at the contractor's risk, from whose account any expense incurred thereby will be deducted.
5. The officer receiving the supply shall have full power to reject any wood which he may consider not in accordance with the contract, notice of which will be given to the contractor in writing, stating the reason. The contractor may, however, claim a survey; but in that case he must, within 48 hours after objection is made, give notice thereof in writing to the officer rejecting the wood.
6. The board of survey will be composed of persons appointed by the Honorable the Treasurer, and the decision of the board of survey is to be considered as final.
7. If the board of survey shall decide that the supply is not of proper quality, it must be immediately replaced by the contractor; failing which, it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 4.
8. Accounts for firewood to be rendered to the Department receiving the supply immediately upon completion of the order, which must be attached to the accounts. Payment will be made at the receipt and pay office of the district, or at the Treasury, Melbourne, as the contractor may require.
9. In the event of any irregularity on the part of the contractor being repeated, it will be competent for the Government, in case such irregularity should be established to the satisfaction of the Tender Board, to cancel the contract forthwith.
10. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.
11. Under no circumstances will a contractor be permitted to abandon his contract.
12. No subletting will be allowed; all work must be carried out by the contractor, and the hours of employment of any person engaged in cutting or supplying the firewood tendered for in this schedule are not to exceed 48 per week, and every such person shall be paid at a minimum wage of not less than 6s. a day; and a copy of these conditions shall be kept conspicuously and continually posted, in legible Roman characters, on the premises of the contractor. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from any accounts which are or may be due to the contractor, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

CONDITIONS OF CONTRACT.

6. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise, and no such transfer will be recognised by the Government.

7. Accounts to be rendered to the Department concerned immediately upon completion of the order, which must be attached to the accounts. Payment will be made at the receipt and pay office of the district, or at the Treasury, Melbourne, as the contractor may require.

8. Under no circumstances will a contractor be permitted to abandon his contract, but should the Local Municipality during the period for which the contract is made decide to perform such sanitary work, the Tender Board may determine such contract by giving one month's notice in writing to the contractor.

9. In the event of any irregularity on the part of the contractor being repeated, it will be competent for the Government, in case such irregularity should be established to the satisfaction of the Tender Board, to cancel the contract forthwith.
