LETTER FROM HIS MAJESTY KING EDWARD THE SEVENTH.

THE following text of a letter which His Majesty the King wrote to His people on the occasion of His Coronation (received by His Excellency the Governor from the Right Honorable the Secretary of State for the Colonies) is published for general information.

By His Excellency's Command,

WM. H. IRVINE,
Premier.

Premier's Office,
Melbourne, 13th August, 1902.

"TO MY PEOPLE.

"On the eve of My Coronation, an event which I look upon as one of the most solemn and important in My life, I am anxious to express to My people at home, and in the Colonies, and in India, My heartfelt appreciation of the deep sympathy which they have manifested towards Me during the time that My life was in such imminent danger.

"The postponement of the ceremony owing to My illness caused, I fear, much inconvenience and trouble to those who intended to celebrate it, but their disappointment was borne by them with admirable patience and temper. The prayers of My people for My recovery were heard, and now I offer up My deepest gratitude to Divine Providence for having preserved My life and given Me strength to fulfil the important duties which devolve upon Me as the Sovereign of this great Empire.

"EDWARD R. AND I.

"Buckingham Palace, 8th August, 1902."

POPULATION OF VICTORIA.

ESTIMATED Population of Victoria on 30th June, 1902:—

Second Quarter, 1902.	Males.	Females.	Males.	Females.	Total.
Births	3,986	3,851			
Deaths	2,238	1,692			
Natural increase	1,748	2,159	3,907
Arrivals by sea* (as recorded) ...	13,203	6,964			
Departures by sea* (as recorded) ...	15,231	8,756			
Departures unrec- orded (esti- mated)	1,295	438			
Net loss by emigration	3,323	2,230	5,553
Decrease of Population	1,575	71	1,646
Estimated Population on 31st March, 1902	605,580	602,815	1,208,395
Estimated Population on 30th June, 1902	604,065	602,744	1,206,749

* Including passengers passing through the ports of the State.

NOTE.—During the second quarter of the current year the number of births was 7,837, or 24 more, and the number of deaths 3,930, or 86 more than in the corresponding quarter of the previous year, whilst the natural increase of population (3,907) was 62 less than in the second quarter of 1901.

The recorded arrivals by sea during the quarter numbered 20,167, or 2,470 less, and the recorded departures 23,987, or 1,721 more, than in the previous corresponding quarter. The recorded loss by emigration was thus 3,820, as against a recorded gain of 371 in the second quarter of 1901. Adding to the apparent loss by emigration the usual allowance for unrecorded departures, the actual net loss would appear to have been 5,553, viz.:—3,323 males and 2,230 females, as shown in the table.

The total recorded increase of population during the quarter was only 87, or 4,253 less than in the corresponding quarter of 1901; but after allowing for unrecorded departures, there was a net loss for the quarter of 1,646, of whom 1,575 were males, and 71 were females.

In regard to the apparent origin or destination of migrants, the records (which it must be remarked take account of passengers *en route* as well as migrants proper) show a net loss of 857 to other States of the Commonwealth, and of 2,963 to other countries. The former resulted from an apparent net loss of 27 to Queensland and of 3,321 to Western Australia, largely counterbalanced by a net gain of 1,132 from New South Wales, 122 from South Australia, and 1,237 from Tasmania. The latter is made up of a gain of 265 from New Zealand and 50 from Other British Dominions, less a loss of 454 to the South Seas, 2,161 to the United Kingdom, 481 to South Africa, and 179 to Foreign Ports.

The emigration to the United Kingdom may doubtless be mainly attributed to the general desire, on the part of persons of means and leisure, to attend the Coronation festivities in London. The emigration to Western Australia still continues to be a serious drain on the population of the Eastern States, while that to South Africa, however, is still restricted by the regulations enforced by the Imperial authorities. The recorded net emigration to Western Australia—not only from Victoria, but practically from the whole of Eastern Australasia—during the last twelve and a half years was as follows:—786 in 1890, 1,960 in 1891, 1,714 in 1892, 2,255 in 1893, 10,145 in 1894, 11,127 in 1895, 24,497 in 1896, 11,195 in 1897, 817 in 1898, 2,938 in 1900, 5,333 in 1901, and 6,443 to 30th June, 1902; and that to South Africa in the last seven and a half years was as follows:—1,388 in 1895, 2,881 in 1896, 746 in 1897, 130 in 1898, 192 in 1899, 1,767 in 1900, and 1,139 to 30th June, 1902. During the last quarter the apparent net emigration to South Africa was, as already shown, 484, but allowing for the departure of 493 Victorian members of contingent and the return of 866 from the seat of war, there was a net emigration of civilians to the number of 857, some of whom were from the neighbouring States. This emigration was evidently of persons to whom "permits" (referred to in the last quarterly statement) had been issued by the Commonwealth authorities; the number of such permits issued in Victoria alone in the six months ended 30th June, 1902, having been 1,179.

The numbers of officers and men who left for and returned from the seat of war in South Africa in each year were as follow:—*Departed*:—232 in 1899; 1,170 in 1900; 1,017 in 1901; and 1,136 in 1902. *Returned*:—227 in 1900; 993 in 1901; and 866 to 30th June, 1902. There was thus a balance on that date of 1,489 officers and men who have not returned.

Nevertheless no existing right or interest shall be deemed to be affected by the repeal of the by-laws under which such interest is occupied or enjoyed.

BY-LAW No. 2.—DISPUTED ELECTIONS.

1. If any candidate shall dispute the validity of an election, such candidate shall forward a petition to the chairman, stating his reasons for disputing the election, and such petition must be lodged with the clerk of the board within fourteen days after the election complained of, but no petition shall be entertained unless it be signed by the candidate and not less than ten duly qualified electors.

2. Upon the presentation of any such petition it shall be necessary for the person or persons so petitioning to deposit with the clerk of the board the sum of five pounds, to cover any expenses not hereinafter specially provided for; and the board shall have power to deal with this aforesaid amount in whatever manner they may consider necessary in determining the validity of said petition. Any balance remaining after payment of said expenses to be returned to the depositor. And no petition as above shall be entertained by this board unless such sum shall have been so deposited.

3. Upon the receipt by the chairman of this board of any such petition, the person lodging the same shall be informed at what time the board will investigate such dispute, and shall also be instructed to bring with him whatever documentary or other evidence he may possess bearing on the subject of such disputed election. The member whose election is in dispute shall also receive notice of the time when the dispute is to be investigated.

4. At the time appointed for the hearing of the dispute, the objectors, and also the member objected to, shall produce their miners' rights, and the board shall then proceed to investigate the matter, and shall hear statements in evidence from either party. The hearing of the dispute may be adjourned for any period which may in the opinion of the board be deemed necessary.

5. At the close of the investigation the votes of the members of the board shall be taken in the usual manner, "Aye" or "No," and the majority of either finding shall be declared by the chairman. In the event of the finding being equal, the chairman shall give his casting vote, and such decision shall be final and conclusive in the matter of such disputed election.

6. Should the decision of the board be that the member objected to has not been duly elected, the chairman shall forward to the returning officer a copy of the resolution to that effect.

BY-LAW No. 3.—STANDING ORDERS OF THE GIPPSLAND MINING BOARD.

1. On the assembling of the board after every election the clerk shall read the returning officer's intimation setting forth the names of the persons who have been elected as members of the board, and the division for which they have been returned.

2. Every member on first taking his seat at the board shall enter his name and address in a book to be kept for that purpose.

3. The board having been constituted, the minutes of the previous meeting shall be read by the clerk. No discussion shall be allowed on such minutes, except as to their accuracy as a correct record of the proceedings of the board.

4. The reading of the correspondence received shall then be taken as the next order of the day.

5. That minutes of the proceedings of each meeting of the board shall be taken regularly by the clerk, and entered in a book.

13. When matters referred to a committee of the whole have been considered, the chairman of committees shall report the same to the board.

14. Resolutions agreed to by a committee of the whole may be affirmed or negatived by the board; if negatived, they must be recommitted for further consideration.

32. Whenever the board shall adjourn during the proceedings of any meeting, a record of such adjournment shall be made in the minutes of the proceedings of the board; and when the business of any meeting shall have been concluded, an entry shall be made in the minutes of such meeting, stating the time at which such meeting terminated.

BY-LAW No. 4.—DEFINITION OF CLAIMS.

A claim shall be such a parcel of land as may, in accordance with the provisions of these by-laws, be taken possession of by or for any holder of a miner's right, or by or for any number of persons not exceeding four, each being the holder of a miner's right, acting in conjunction, or any two or more adjoining claims which have been amalgamated in such number, in such manner, and under such conditions as shall be permitted by these by-laws, and for the purpose of this by-law claims shall be divided into three classes, namely, alluvial, quartz, and mineral.

BY-LAW No. 5.—MODE OF TAKING POSSESSION AND OBTAINING REGISTRATION.

Any holder of a miner's right taking possession of a parcel of Crown land for mining purposes, or any number of such parcels adjoining each other, and which may be lawfully amalgamated, shall do so by erecting, or causing to be erected, a post at each angle of the boundary-lines which shall bound such parcel or parcels. Such posts shall not be less than 3 inches in diameter, be firmly fixed in the ground, and extend not less than 3 feet above it, and trenches not less than 5 feet in length and 6 inches in depth, shall be cut at each post, showing the direction of the boundary-lines, except as is otherwise provided for in these by-laws. Registrations of claims shall be obtained in the following manner, viz.:—By making application to the mining registrar of the division in which such claim is situated in the form of Schedule A, and the registrar shall thereupon issue a certificate of registration in the form of Schedule B.

BY-LAW No. 6.—QUARTZ PROSPECTING AREA.

Any holder of a miner's right or miners' rights purposing to prospect or search for auriferous quartz reefs at a distance of not less than 400 yards from the nearest occupied quartz claim shall be entitled to take possession of a parcel of Crown lands not exceeding 500 yards square, and provisionally occupy the same as a quartz-prospecting area for a period not exceeding twelve calendar months, or until the discovery of an auriferous lode or quartz reef therein provided that one or more men are constantly employed thereon, and that such prospecting area does not contain within its boundaries any ground in which payable alluvial gold is known to exist.

Upon the discovery of gold in payable quantities the title to provisional occupation shall be forfeited, and in lieu thereof the prospectors shall be entitled to occupy a claim on the course of the reef as provided for in By-law No. 7. Persons provisionally taking possession of a quartz-prospecting area shall register the same with the mining registrar of the division in which such prospecting area is situated within fourteen days from the time of taking possession thereof, and shall keep posted on some conspicuous place near to their prospecting bore, trench, shaft, drive, or cutting a copy of the certificate of such registration in the form of Schedule 7. No suspension of labour will be permitted during the term that this conditional registration is in force.

BY-LAW No. 7.—PROSPECTING QUARTZ CLAIM.

Upon the discovery of a quartz reef not less than 400 yards from the nearest occupied quartz claim, the prospector may occupy an area along the supposed course of the reef not exceeding 100 yards in length for one man, or 200 yards in length for two men, by 250 yards in width across such course. He shall within fourteen days from the date of such discovery register the same with the mining registrar, and shall within seven days after such registration proceed and continue to work, and, except as hereinafter provided for in By-laws Nos. 12, 21, and 22, if the claim does not exceed 100 yards in length, one man shall be continuously employed on such claim, and if exceeding 100 yards in length, at least, two men shall be so employed. Any holder of a miner's right taking possession of any such claim shall do so by causing to be erected a post at each corner of the claim with a written notice thereon, setting forth that it is a prospecting claim, and stating the name or names of the man or men registered for the claim, such post to be at least 3 inches in diameter, and showing 4 feet above the surface, and firmly fixed in the ground, and to be kept erected, and kept in proper repair during the occupation of such claim.

BY-LAW No. 8.—ORDINARY QUARTZ CLAIMS.

Ordinary quartz claims shall not exceed the following dimensions, viz.:—Fifty yards along the course of the reef by 250 yards across such course for one man; 100 yards by 250 yards for two men; 150 yards by 250 yards for three men; 200 yards by 250 yards for four men.

The measurement of all quartz claims shall be horizontal.

The holder of any such claim shall be responsible for the due performance of the following duties, that is to say:—

He shall register the occupation of the claim with the registrar in the form of Schedule A within seven days after such occupation, and within seven days after such registration shall proceed and continue to work the said claim.

There shall be kept constantly employed on or in connexion with such claim at least one man for every 50 yards or fraction of 50 yards, except as provided for in By-laws Nos. 12, 21, and 22.

BY-LAW No. 9.—AMALGAMATION OF QUARTZ CLAIMS.

Any number of quartz claims which shall adjoin each other on the same line of reef may be amalgamated and occupied as one claim, provided the length of the claims taken together do not exceed 600 yards, and always that the number of men necessary to be employed on or in connexion with the claims if occupied singly, shall be employed on or in connexion with the amalgamated claim, all such amalgamations shall be registered with the mining registrar within seven days after such amalgamation in the form of Schedules D and E.

BY-LAW No. 10.—PROSPECTORS' REWARD CLAIM.

Any holder of a miner's right or miners' rights upon the discovery of a quartz reef, not less than 2 miles from the nearest occupied quartz claim, may occupy as a reward claim an area not exceeding 400 yards along the course of the reef by 250 yards in width across such course. He or they shall within fourteen days from the date of such discovery register the same with the mining registrar and shall within seven days of the making of such registration proceed to work with two men on the claim. After the expiration of twelve calendar months from the date of such registration with the mining registrar, there shall be kept employed on or in connexion with such claim at least one man for every 50 yards along the course of the reef, except as provided for in By-laws 12, 21 and 22.

Any person taking possession of a reward claim shall do so as provided for in By-law No. 7.

BY-LAW No. 11.—EXTENDED AREAS UPON WORKED AND ABANDONED QUARTZ REEFS.

Any person taking up a claim upon a worked and abandoned quartz reef shall be entitled to occupy an area not exceeding 75 yards on the supposed course of the reef by 250 yards in width, across such course, and shall keep constantly employed, on or in connexion with such claim, one man for every 75 yards, or fraction of 75 yards, except as provided for in By-laws Nos. 12, 21, and 22.

The words "worked and abandoned," for the purpose of this by-law, shall mean all abandoned ground within 150 yards of any shafts, tunnels, or other workings, on the same line of reef upon which one or more shafts, tunnels, or other workings shall have been sunk, cut, or opened to an extent of not less than 40 feet, and such workings shall be included within the area taken up as a claim under this by-law.

BY-LAW No. 12.—FORFEITURE OF CLAIMS.

On application being made to the warden by any holder of a miner's right to have any claim or portion thereof forfeited, on the ground that the same has not been fairly worked during the time of occupancy, or that the same has been left unworked for a longer period than fourteen days, or that less than the minimum number of men required by these by-laws has been employed thereon, or for non-registration should the same be declared forfeited by the warden, the applicant shall then be entitled to full possession: Provided that when such application is opposed, and a claim or portion thereof is declared forfeited, it shall be lawful to have any road, timber, mining plant, or other material absolutely beneficial to the applicant valued by two valuers.

For the purpose of determining the amount of the compensation, the person or his agent using such land as aforesaid, and the person or his agent desiring to occupy such land for a mining purpose, shall each, upon the receipt of a written request from either, requesting him to appoint some person to act in his behalf as a valuator, appoint some person accordingly. If at the expiration of fourteen days from the date of the receipt of such written request either party shall have failed to appoint some person who will act in their behalf as a valuator, and who will determine the amount of compensation as aforesaid, within the seven days next ensuing, then a valuator who may have been appointed by either party shall be deemed to have been appointed, and may act alone on behalf of both parties. When both parties appoint a valuator, and such valuator are unable to agree to the amount of compensation to be paid, it shall be competent for such valuator to appoint a third party whom they shall mutually agree to. The decision of any valuator acting alone for both parties, or the decision of a majority of three valutors appointed as herein ordained, as regards the amount of compensation to be paid to the person or his agent using such land as aforesaid by the person occupying it for a mining purpose, shall in either case be final and conclusive to all intents and purposes whatsoever. When such valuator or valutors have ascertained the amount of compensation to be paid as aforesaid, they shall deliver their decision, in writing, in the following form:—

I [or we], the undersigned, having been duly appointed to ascertain and decide upon the amount of compensation to be paid by _____, prior to his occupying for a mining purpose that piece of Crown land lawfully used by _____ situated at _____, marked by posts, and measuring _____, more or less, do hereby, in pursuance of the provisions of By-law _____, decide and award the amount of such compensation to be £ _____ s. _____ d. (_____ pence) shillings and pence).

(Signed)

Address—
Date—

And the amount of such valuation, if any, together with the cost of estimating such value, shall, within seven days from the date of the award, be paid to the original owner, or lodged with the mining registrar; and such payment or lodgment shall be a condition precedent to putting the applicant in possession of such claim.

BY-LAW No. 13.—LEVEL TUNNEL AND ADIT RIGHTS.

All levels, tunnels, or adits used or required outside the boundary of any quartz, cement, or mineral claims shall extend to a distance not exceeding 1,000 yards in length, by a width of 16 feet, and in addition thereto an area of 100 yards in length by 40 yards in width at the entrance of all such levels, tunnels or adits shall be allowed, and held as part of the claim with which they are connected, and the holder of any such level tunnel or adit right shall register the same with the mining registrar within 7 days after taking possession.

Provided always that such area shall not obstruct any water-course, road, or thoroughfare in general use, or interfere with any existing right held under these by-laws: Provided also that the said area be opened to alluvial mining.

BY-LAW No. 14.—DESERTED AND ABANDONED ALLUVIAL AND QUARTZ GROUND.

Ground which having been occupied or held under miners' rights on which there is no plant or machinery, and which shall have been unworked and unoccupied (except as provided in By-laws Nos. 21 and 22) for a period of 31 days, shall be deemed to be and shall be treated as ground absolutely deserted and abandoned; and may, without any adjudication of forfeiture or abandonment, be taken up and registered as a claim, in accordance with the by-laws, by any holder of a miner's right, but subject, nevertheless, to the rights (if any still subsisting) of any previous occupant of such ground.

BY-LAW No. 15.—PROSPECTING, ALLUVIAL, RIVER, CREEK OR SLUICING CLAIMS.

Any person prospecting for new alluvial gold-workings (elsewhere than in the bed of a river or creek, or within one mile of any place where gold has been obtained in payable quantities, or where any prospecting claim is at the time occupied) shall be allowed an area not exceeding 1,000 yards square, provided that there shall be constantly employed on or in connexion therewith at least two men.

Upon the discovery of gold in payable quantities within such prospecting claim, the claim shall be forfeited, and the discoverer shall be entitled to select and occupy in addition to the area that the number of men registered and constantly employed on or in connexion with such prospecting claim will entitle him to an extended area equal to two entire claims of the said class, with an additional ordinary claim for every 5 miles that the said prospecting claim is distant from the nearest gold-workings. If in the bed of a river or creek, the discoverer or discoverers shall be entitled to occupy 400 yards along the course of the stream, by a width of 100 yards across the course of the stream, as a prospecting claim, with an additional length of 50 yards for each man for every 10 miles that the said prospecting claim is distant from the nearest recognised gold-workings, provided that there be employed on or in connexion with such claim at least two men.

Upon the discovery of payable gold, the prospector or prospectors shall (within 21 days, should the distance not exceed 10 miles from the nearest recognised gold-workings, and 30 days should it exceed that distance) register a prospecting claim with the mining registrar of the division, and shall at the same time leave with him, in writing, a full description of the locality in which the discovery has been made, the nature of the workings and its distance from the nearest recognised gold-workings. Any person failing to comply with this regulation shall forfeit all benefit arising from this by-law.

BY-LAW No. 16.—ALLUVIAL ORDINARY CLAIMS.

Ordinary claims, that is alluvial claims, not exceeding 40 feet in depth, shall be an area not exceeding the following dimensions, viz.:-

For one man, 25 yards along the course of the lead, by 50 yards in width.

For two men, 50 yards along the course of the lead, by 50 yards in width.

For three men, 75 yards along the course of the lead, by 50 yards in width.

For four men, 100 yards along the course of the lead, by 50 yards in width.

When the sinking exceeds 40 feet in depth, then the dimensions shall be as follows, viz.:-

For one man, 25 yards along the course of the lead, by 100 yards in width.

For two men, 50 yards along the course of the lead, by 100 yards in width.

For three men, 75 yards along the course of the lead, by 100 yards in width.

For four men, 100 yards along the course of the lead, by 100 yards in width.

When the sinking does not exceed 40 feet in depth no more than sixteen men's ground shall under any circumstances be amalgamated and held as one claim.

When the sinking exceeds 40 feet in depth, no more than 24 men's ground shall under any circumstances be amalgamated and held as one claim.

BY-LAW No. 17.—ORDINARY RIVER AND CREEK CLAIMS.

Ordinary river and creek claims which shall include the bed of a river or creek shall not exceed the following dimensions, viz.:-

70 yards in the direction of the course of the stream, by 100 yards in width, for one man.

140 yards in the direction of the course of the stream, by 100 yards in width, for two men.

210 yards in the direction of the course of the stream, by 100 yards in width, for three men.

280 yards in the direction of the course of the stream, by 100 yards in width, for four men.

The width shall be taken from the centre of the river or creek equally on each side, and in case of any dispute arising the warden shall have the power of deciding what is the centre of the river or creek, as the case may be.

Any two or more river or creek claims which shall adjoin each other, may be amalgamated and occupied as one claim, provided the claims taken together do not exceed 600 yards in length, by 100 yards in width.

BY-LAW No. 18.—SLUICING CLAIMS.

Sluicing claims, that is alluvial claims which are worked by any sluicing process, either box sluicing, ground sluicing, or other sluicing process, shall not exceed the following dimensions, viz.:-

70 yards along the course of the lead, by 100 yards in width, for one man.

140 yards along the course of the lead, by 100 yards in width, for two men.

280 yards along the course of the lead by 100 yards in width, for four men.

BY-LAW No. 19.—AMALGAMATION OF ALLUVIAL RIVER, CREEK, OR SLUICING CLAIMS.

Any two or more alluvial claims which shall adjoin each other in at least half their length or width may be amalgamated and occupied as one claim, provided the length of the claims taken together do not exceed 600 yards in length by 100 yards in width, or 300 yards in length by 200 yards in width, and always that the number of men necessary to be employed on or in connexion with the claims, if occupied singly, shall be employed on or in connexion with the amalgamated claim as in accordance with By-laws Nos. 16 and 17, and where a river or creek claim is amalgamated to one or more alluvial claims of any other class the water privileges of such river or creek claim shall not extend further than if such river or creek claim had not been amalgamated with any other. All such amalgamations shall be registered with the mining registrar within seven days after such amalgamation in the forms of Schedule D and E.

BY-LAW No. 20.—ALLUVIAL ORDINARY RIVER, CREEK, AND SLUICING CLAIMS.

Duties.—The holder of any alluvial ordinary river, creek, and sluicing claims shall be held responsible for the following duties, that is to say:—That the occupation of such claim shall be registered with the mining registrar within seven days after such occupation; and within seven days of such registration there shall be constantly employed on or in connexion with such claim the requisite number of men as provided for in By-laws Nos. 16, 17, and 18.

BY-LAW No. 21.—GENERAL SUSPENSION.

When any person or company requires, after three months' work has been performed on or in connexion with any claim with the requisite number of men, to suspend or partly suspend operations at any time through want of funds, overflow of water, want of water, breakage of machinery, or for any other sufficient cause, which, in case of dispute, shall be settled by the warden, such person or company, or the manager or secretary of such company, duly authorized on his or their behalf, shall make a statutory declaration, setting forth the reasons for which he or they require registration of suspension, and such declaration shall be in the form in Schedule I hereto appended; and on receipt of such declaration the registrar shall register such person or company for permission to suspend or partially suspend operations for any term not exceeding three calendar months, in the form set forth in Schedule K hereto appended; and at the expiration of such term such protection may be renewed for any time not exceeding three months. Provided that before any subsequent renewal of suspension shall be granted, a statutory declaration shall be produced by the applicants, and filed by the mining registrar, stating the reasons for desiring such renewal of suspension; and after the expiration of such suspension, work with the necessary number of hands shall be immediately resumed, and no subsequent suspension shall be allowed until six months' work with the full complement of men shall have been done on the claim from the date of the last suspension; Provided always that such registration shall afford no protection to the parties obtaining the same in any case where the same has been obtained through any wilful misrepresentation of facts; and should work not be resumed as hereinbefore provided, then such ground shall be deemed to be forfeited, and may be taken possession of in the manner provided for in By-law No. 12, except in the case of river, creek, or sluicing claims, which may be suspended during the continuance of floods or want of water.

Any person having a claim or claims suspended under this by-law shall post or cause to be posted on some conspicuous place on the claim or claims a board not less than 10 inches square with the word "suspended" distinctly printed thereon, and the registered number of such suspension.

BY-LAW No. 22.—EXEMPTION FROM FORFEITURE OF CLAIMS.

1. Notwithstanding the provisions made in these by-laws, the lawful occupant of a claim shall not be liable to any penalty, or his claim liable to forfeiture, during the time he is incapacitated from work by illness, or has to attend any court of law, or upon any urgent business; and he may further absent himself from his claim during public holidays, and during 14 days commencing on the 22nd December in each year, without forfeiting his interest; should, however, any dispute arise as to the claim not being represented in accordance with these by-laws, the onus of proof of the cause of absence shall lie with the claimholder.

2. *Claims not forfeited by neglect of hired workmen or tributors.*—No miner holding a claim or portion thereof, or share or interest therein, who employs hired labour to work the same, shall be deemed to have forfeited or abandoned his right, title, or interest in the same through any neglect, absence, or omission on the part of any workmen thereon employed by him; and further, no claim or portion of a claim shall be declared forfeited or be deemed to be abandoned where the same is bona fide worked by the number of miners required by the by-laws

now in force on tribute, that is to say, where a portion of the gross or net proceeds of the claim, as the case may be, is agreed upon to be returned by the tributor or tributors to the owner or owners of the claim, by way of tribute, rent, or royalty. And the owner or owners of such claim shall be deemed to be working the same in a *bond fide* manner as much as if they employed hired workmen for that purpose, and shall enjoy all the rights, privileges, and exemptions contained in the by-laws now in force: Provided always, that if after seven days' notice, in writing, of such neglect, absence, or omission being given to such miner, either personally or by leaving the same at his last known place of residence, or in the event of the owner or owners being absent or not to be found, and such notice having been advertised in one or more newspapers circulating in the division in which the claim is situated, such neglect, absence, or omission, if continued, said miner shall be deemed to have abandoned his claim or portion of claim, or share or interest therein, as the case may be.

BY-LAW No. 23.—WORKED AND ABANDONED GROUND.

Any holder of a miner's right taking up worked and abandoned alluvial ground for the purpose of working it shall be entitled to the following areas, viz.:—

Alluvial.—Ordinary Claims.

Ordinary claims—that is, alluvial claims not exceeding 40 feet in depth—shall be an area of the following dimensions, viz.:—

- For one man, 50 yards along the course of the lead by 50 yards in width.
 - For two men, 100 yards along the course of the lead by 50 yards in width.
 - For three men, 150 yards along the course of the lead by 50 yards in width.
 - For four men, 200 yards along the course of the lead by 50 yards in width.
- When the sinking exceeds 40 feet in depth, then the dimensions shall not exceed the following, viz.:—
- For one man, 50 yards along the course of the lead by 100 yards in width.

Sluicing claims—that is, alluvial claims worked by any sluicing process which does not include the bed of a river or creek, and not exceeding 40 feet in depth—shall not exceed the following dimensions:—

- For one man, 150 yards along the course of the lead by 100 yards in width.
- For two men, 300 yards along the course of the lead by 100 yards in width.
- For three men, 450 yards along the course of the lead by 100 yards in width.
- For four men, 600 yards along the course of the lead by 100 yards in width.

BY-LAW No. 24.—CEMENT CLAIMS (ALLUVIAL).

Cement claims, that is, claims containing cement requiring to be crushed for the purpose of obtaining gold therefrom, shall be classed as an alluvial claim, and shall not exceed the following dimensions, viz.:—Seventy-five yards along the course of the lead by 150 yards in width for one man, and 75 yards along the course of the lead by 150 yards in width for every additional man. The holder of any such claim shall be responsible for the performance of the following duties, that is to say he shall register the occupation of the claim with the mining registrar within seven days after occupation, and within seven days of such registration shall proceed and continue to work the said claim.

There shall be constantly employed on or in connexion with such claim one man for every 75 yards along the course of the lead, except as provided for in By-laws Nos. 21 and 22.

BY-LAW No. 25.—WATER-RACES.

1. Any person intending to divert water and to cut or construct a race for mining purposes shall mark the proposed course thereof with pegs firmly fixed in the ground, 3 inches in diameter, and showing at least 3 feet above the surface, and at intervals not exceeding 100 yards. He shall then be deemed to be in possession of such proposed course; and shall register the same within fourteen days with the mining registrar, in the form of Schedule M: but if he shall not within fourteen days from the date of such registration begin to form such race, or, having begun, shall not continue the formation thereof, he shall forfeit his title to any portion of the proposed course of the race which has not been cut or constructed; and on application being made to the warden, and the same being declared forfeited by him, the applicant may be put in possession thereof.

2. The owner of any race used for mining purposes shall be entitled to hold, in addition to the site of such race, 5 feet on each side thereof.

3. The head of any race cut for the purpose of diverting water from any river or creek shall not be shifted to the prejudice of any existing race.

4. The owner of any race shall build and maintain efficient bridges where any road, path, or track in ordinary use crosses such race.

BY-LAW No. 26.—TAIL-RACES.

The holder of any claim using a tail-race in connexion with such claim shall be entitled to occupy an area, for the site of such tail-race, not exceeding one mile in length by a width of 27 feet for a distance of 20 yards from the upper end of such tail-race, and a width of 12 feet for the remaining portion thereof. Nevertheless, no person shall be entitled to occupy any greater length of tail-race than is necessary for his requirements: always provided that should any other claimholder wish to use such tail-race for the same purpose, he may do so by paying the owners thereof a fair share of the cost of construction, and also by contributing a fair share of the cost of keeping said tail-race in repair.

BY-LAW No. 27.—GENERAL PROVISIONS FOR RACES, DRAINS, AND TAIL-RACES.

Any person or persons shall be entitled to cut and construct any race, tail-race, or drain for mining purposes through any claim or claims held by any other person or persons, or under, over, or across any other race, tail-race, or drain. Should, however, the holder of any claim through which it is proposed to construct a race, tail-race, or drain object, then the party proposing to cut such race, tail-race, or drain may do so by having the damage caused to the owner or owners of such claim by the cutting of such race, tail-race, or drain valued by two valuers; such valuers to be appointed, and decide as to the amount of compensation to be paid as provided in By-law No. 47. Provided also that, if any race, tail-race, or drain should at any time prove an obstruction to the proper working or mining of any ground (occupied at the time of the construction of such race, tail-race, or drain, or subsequently thereto), the owner or owners of such race, tail-race, or drain may be required to move such race, tail-race, or drain, on payment of compensation, as provided aforesaid; or, at the option of either party, the dispute in respect of such race, tail-race, or drain may be brought before the warden, or any court of competent jurisdiction for adjudication.

BY-LAW No. 28.—RIGHT TO DIVERT WATER.

1. Rights to divert water shall be divided into three classes viz.:—River and creek water-rights, bank water-rights, and motive-power water-rights.

2. River and creek water-rights shall in all cases be superior to the others.

3. Bank water-rights shall be superior to motive-power rights, except where motive power is used for drainage purposes only, and in connexion with a river or creek claim when motive-power rights shall be superior to bank water-rights. River and creek and motive-power water-rights taken up in connexion with a river or creek claim or machine site shall be deemed to belong to the claim or area with which they were first occupied, and shall not be used in or extended to any other claim or machine site.

4. The superiority of water-rights of the same class shall be by priority of registration.

5. If the use of a water-right race, tail-race or drain be abandoned for any period exceeding one month at a time, when water is available, or during the occupation of the claim or machine site taken up for mining purposes in connexion with said water-right, race, tail-race or drain, the right shall be deemed to be forfeited; any miner may, on application to the warden, be placed in possession thereof. When any water-right, tail-race, or drain be abandoned for any period exceeding six calendar months, when water is available, it shall be deemed to be and shall be treated as absolutely deserted and abandoned, and may, without any adjudication of forfeiture or abandonment be taken up and registered as a water-right, race, tail-race, or drain in accordance with the by-laws, by any holder of a miner's right, but subject nevertheless to the rights (if any still subsisting) of any previous occupant of such water-right, race, tail-race or drain.

6. The alteration of the course of a race at any time shall not in any way affect any water-right or any privilege attached to such race.

7. If the water flowing in any river or creek is insufficient to supply all the water-rights derived from such river or creek, the owner of any water-right shall, on receipt of a water notice from the owner of any superior water-right (in the form of Schedule L) cease to divert and shall make available to the superior water-right his supply of water or such portion thereof as shall be necessary to make up the supply of the superior water-right, and shall not resume such diversion until a supply in excess of the quantity allowed to such superior right shall be available.

8. The holder of any water-right shall not be entitled to demand a supply of water at a higher level than is sufficient for his purposes.

9. Any person registering a water-right shall be deemed to be in the use and occupation of such water-right during the time he may be cutting or constructing the race through which the water is to flow.

10. Quantity of water to be left in rivers or creeks. The holders of water-rights shall not be entitled to take the water from any river or creek when by doing so they will reduce the quantity to less than one sluice head.

BY-LAW No. 29.—HOW AND WHERE WATER TO BE GAUGED.

Any person or persons diverting or using water for mining purposes shall use a gauge or measurement to be called a sluice-head, which sluice-head shall be such a quantity of water as shall pass through a box 6 feet long, to be placed level in the race with an aperture 16 inches wide and 2½ inches deep with a pressure

not exceeding 6 inches; and every person diverting and using such water as aforesaid shall cause a gate or hatch to be placed at the head of the race or at the source from which the water used by him or them is taken. Provided always that in case where water is obtained from several sources the gate or hatch shall be placed in the race as near as possible to the head, but below the point of confluence from all the sources from which the water conveyed in the race is obtained. Within twenty-four hours after receiving a written notice (in the form of Schedule H) from any person entitled to receive a supply of water from the same source, the person or persons receiving such notice shall there-after run such water through the above-mentioned gauge.

BY-LAW NO. 30.—PROTECTION TO SPRINGS.

No person shall be allowed to open a drain or tunnel into any spring in the Gippsland Mining District, unless at a distance of not less than 100 yards from any drain or tunnel which may have been previously opened, and from which any occupied race derives a supply of water, unless with the consent of the owner of such last-mentioned race, drain, or tunnel.

Any spring, water-hole, or other depository of water may be reserved for domestic purposes on the following conditions, viz:—

Application shall be made to the mining registrar for the registration thereof (in the form of Schedule G) by not less than five holders of miners' rights or business licences, and a copy of the certificate of such registration shall be posted in a conspicuous place near such water; nevertheless, any surplus water that may overflow from such reserved spring, water-hole, or other depository of water, or any water that may be in excess of the requirements of those for whose use such water is reserved, may be registered, diverted, and used for mining and other purposes.

BY-LAW NO. 31.—CAUSING CLAIMS TO BE FLOODED PROHIBITED.

No person shall back the water of any river, creek, race, or water-course into or upon any claim or other mining tenement, or otherwise cause the same to be flooded either wilfully or by neglect.

BY-LAW NO. 32.—PROTECTION TO RACES AND CLAIMS.

No person shall permit any water used on or in connexion with any claim or race to flow upon or into any other claim, race, or tail-race. All claim-holders shall keep all tailings or sludge from their claim clear of any other claim, race, or tail-race, unless with the consent of the owner thereof.

BY-LAW NO. 33.—RESERVOIRS.

1. Any person desirous of constructing a reservoir shall take possession of the site or area thereof by erecting a post firmly fixed in the ground, 3 inches in diameter, and showing at least 3 feet above the surface at each angle, and shall register the same with the mining registrar within seven days after taking possession.

2. The embankments of all reservoirs having a storage capacity of more than 500,000 gallons, constructed for the purpose of storing water, shall be formed of earth, with or without a facing of other material, and shall be of the following dimensions and according to the following scale, viz:—The base of embankment shall be 4 feet wide in addition to 5 feet for every foot it is in height. The front of the embankment shall have a slope not less than 3 feet for every foot it is in height, and the back shall have a slope of not less than 2 feet for every foot in height. The top of the embankment when finished shall not be less than 4 feet in width. There shall also be a by-wash formed at least 4 feet below the level of the top of the embankment, which shall not be less than 8 feet wide; and if the storage capacity of the reservoir exceed 1,000,000 gallons, then the width of the by-wash shall not be less than 12 feet.

BY-LAW NO. 34.—REMOVAL OF TIMBER FROM ABANDONED SHAFTS AND DRIVES.

No person shall remove from any shaft, drive, or other underground works, props or supports the removal of which may endanger that claim or any other adjacent claim held under these by-laws.

BY-LAW NO. 35.—ROADS, TRAMWAYS, TIMBER-SHOOTS, AND FURNACE-FLUES.

Any claim-holder requiring to construct a road, tramway, timber-shoot, or furnace-flue out and beyond the limits of his claim, may occupy a site for such, provided that for roads and tramways the area shall not exceed 2 miles in length by 20 feet in width, subject to the following conditions, viz:—He shall define the area so occupied by posts firmly fixed in the ground, 3 inches in diameter, and showing at least 3 feet above the surface, and not more than 200 yards apart, and shall register the same within 48 hours from the time of occupation. When any such area shall not have been used for the purposes for which it has been registered for a period of four consecutive weeks, it shall be deemed to be abandoned: Provided always that such area shall not be liable to forfeiture during the working of the claim held in connexion therewith, or during the period for which a suspension from the working of such claim may have been lawfully obtained. And provided also that free right of ingress and egress be permitted to the public for all purposes except those for which such road, tramway, timber-shoot, or furnace-flue was constructed; and such claim-holder shall be entitled to cut, construct, and use such road, tramway, timber-shoot, or furnace-flue upon any claim held and enjoyed by any other person under these by-laws: Provided he cut and construct and use such road, tramway, timber-shoot, or furnace-flue in such manner that it will not interfere with mining operations being carried on in the claim through which it may be cut, constructed, or used: Provided in event of

such road, tramway, timber-shoot, or furnace-flue interfering with mining operations such claim-holder shall pay compensation to such person. Any dispute relative thereto shall be referred to the warden for adjudication, or may be dealt with in accordance with the provisions contained in By-law No. 47.

BY-LAW NO. 36.—THE FRONTAGE SYSTEM.—PROSPECTING CLAIMS.

Any person discovering a lead of gold at a greater depth than 40 feet below the surface shall be entitled to hold for a prospecting claim an area not exceeding 800 yards along the course of such lead by a width of 200 yards.

BY-LAW NO. 37.—ORDINARY FRONTAGE CLAIMS.

Dry frontage claims shall mean alluvial claims exceeding 40 feet in depth the drainage of which (if any) does not amount to 1,200 gallons of water per 24 hours.

Wet frontage claims shall mean alluvial claims exceeding 40 feet in depth the drainage of which is at least 1,200 gallons of water per 24 hours.

A frontage claim occupied on a supposed lead shall not exceed 100 feet in length by a width not exceeding 1 mile. The holder of any such claim may defer the working thereof until the lead is discovered without rendering the claim liable to forfeiture, provided he allows the registrar to mark on his miner's right the progressive number of the claim and date of registration; and shall within two days post a notice on some conspicuous part of the claim stating the progressive number of the claim, the name of the person registered therefor, and the date of registration; and shall, within 48 hours after the lead is discovered and the claims laid off by the surveyor, commence and carry on work upon the claim laid off for him in the usual manner of proper and efficient mining.

Upon the discovery of the lead, all claims previously occupied shall be deemed to be forfeited, and the holders thereof shall be entitled to occupy, in lieu thereof, claims as laid off by the surveyor according to their priority of registration, excepting where any claim-holder on such undiscovered lead has sunk a shaft at least two-thirds of the depth of the prospecting-shaft previous to the discovery of the lead, in which case such claim-holder shall be entitled to hold the parcel in which the shaft is situated, together with the number of adjoining parcels equal to the number of men constantly employed in sinking the shaft.

The extent of ground which one miner's right shall entitle the holder thereof to take possession of and occupy on a discovered frontage lead shall be determined by the depth of the lead below the surface of the ground in the nearest shaft being worked on such lead, and in the event of none being worked, from the most reliable data obtainable, shall be in accordance with the following scale:—

On dry frontage leads where the depth of sinking exceeds—

- 40 feet and does not exceed 100 feet, 50 feet on the course of the lead by a width of 1 mile;
- 100 feet and does not exceed 150 feet, 65 feet on the course of the lead by a width of 1 mile;
- 150 feet and does not exceed 200 feet, 75 feet on the course of the lead by a width of 1 mile;
- 200 feet and does not exceed 250 feet, 85 feet on the course of the lead by a width of 1 mile;
- 250 feet and does not exceed 300 feet, 95 feet on the course of the lead by a width of 1 mile;
- 300 feet and does not exceed 350 feet, 105 feet on the course of the lead by a width of 1 mile;

until gold in payable quantities has been found in the claim, after which the width shall not exceed 200 yards.

On wet frontage leads, where the depth of sinking exceeds 40 feet and does not exceed 100 feet, 90 feet on the course of the lead by a width of 1 mile; 100 feet and not exceeding 150 feet, 110 feet on the course of the lead by a width not exceeding 1 mile; and so on; 30 feet being added to the length of the claim for every 50 feet additional in depth of sinking until gold in payable quantities has been found in the claim; thereupon the owners of such claim shall cease to be entitled to occupy a greater width than 600 yards on the course of the lead, for a distance of 100 yards above and below the point where gold in payable quantities shall have been found in such claim, and shall within 48 hours from the time of the application of any person, being the holder of a miner's right, requiring them to define the boundary lines of the reduced width of each portion of such claim, do so, in the same manner as is prescribed in By-law No. 5 as the mode of taking possession of claims.

On dry frontage leads no more than 30 men's ground shall under any circumstances be amalgamated and held as one claim.

On wet frontage leads no more than 80 men's ground shall under any circumstances be amalgamated and held as one claim.

BY-LAW NO. 38.—MINERAL PROSPECTING AREA.

1. Any person or persons, being the holder or holders of a miner's right or miners' rights, proposing to prospect or search for minerals other than gold at a distance not less than 1,000 yards from the nearest occupied mineral claim, shall be entitled to take possession of a parcel of Crown lands not exceeding 1,000 yards square, and provisionally occupy the same as a mineral prospecting area for a period not exceeding twelve calendar months, or until the discovery of a payable lode thereon, providing that one or more men shall be constantly employed thereon.

2. Upon the discovery of a payable lode the title to provisional occupation shall be forfeited, and in lieu thereof the prospector shall be entitled to occupy a claim on the course of the lode, as provided for in By-law No. 39.

3. Persons taking possession of a mineral prospecting area shall register the same with the mining registrar of the division in which such prospecting area is situated, within fourteen days from the time of taking possession thereof, and keep posted on

some conspicuous place near to their bore, trench, shaft, drive, or cutting a copy of the certificate of such registration in the form of schedule.

4. No suspension of labour will be permitted during the term that this conditional registration shall be in force.

5. Any person or persons the holder or holders of a miner's right or miners' rights may enter upon this area to prospect for gold, but no other mineral, and nothing that appears in this by-law can be construed to prevent any holder or holders of miners' rights from pegging out and occupying an auriferous claim on this area.

BY-LAW No. 39.—MINERAL PROSPECTING CLAIMS.

Any person, on the discovery of a mineral lode (other than gold) not less than 1,000 yards from the nearest occupied mineral claim, may occupy as a prospecting claim an area not exceeding 150 yards in length by 300 yards in width for one man, and 150 yards in length by 300 yards in width for every additional man up to four. Any person taking possession of such claim shall do so in the manner provided for in By-law No. 7. He shall also, within fourteen days from the date of such discovery, register the same with the mining registrar: and shall, within seven days after such registration, proceed and continue to work, and, except as provided for in By-laws No. 12, 21, 22, with one man for every 150 yards in length on such claim.

BY-LAW No. 40.—MINERAL ORDINARY CLAIMS.

Ordinary mineral claims shall not exceed the following dimensions, viz.—75 yards along the course of the lode by 300 yards in width for one man, and 75 yards in length by 300 yards in width for every additional man up to four. The measurement of all lodes shall be horizontal. The holder, or holders, of any such claim shall register the occupation of the claim with the mining registrar in the form of Schedule A within seven days of such occupation, and within seven days after such registration shall proceed and continue to work the said claim. There shall be constantly kept employed on, or in connexion with, such claim at least one man for every 75 yards, or portion of 75 yards, in length, except as provided for in By-laws No. 12, 21, and 22.

BY-LAW No. 41.—AMALGAMATION OF MINERAL CLAIMS.

Any two or more mineral claims which shall adjoin each other on the same lode may be amalgamated and occupied as one claim, provided the length of the claims taken together do not exceed 900 yards, and always that the number of men necessary to be employed on, or in connexion with, the claims if occupied singly, shall be employed on, or in connexion with, the amalgamated claim. All such amalgamations shall be registered with the mining registrar within seven days after such amalgamation, in the form of Schedules D and E.

BY-LAW No. 42.—PROTECTION OF AURIFEROUS EARTH, QUARTZ, TIMBER, AND OTHER SUBSTANCES THAT MAY BE STACKED AND STORED.

Any person or persons shall be at liberty to hold possession of any earth, quartz, or other substance containing gold or other minerals that have been raised, stacked, or stored by him or them, or of which he or they may be the owner or owners, provided that the same shall not have been stacked or stored on any ground occupied by any other person or on any road or thoroughfare, or be within 30 feet of any shaft or other workings; and unless such quartz, earth, timber, or other substance as aforesaid shall be stacked or stored upon a claim or ground in lawful occupation of such person or persons, owner or owners, he or they shall register such substance with the mining registrar of the division in which the same shall be stacked or stored, and shall post or cause to be posted a copy of such registration on the said stack or store, and such registration shall not hold good for a longer period than six calendar months unless renewed at the end of that period; and no person or persons shall remove any quartz, earth, timber, or other substance stacked and stored and registered in accordance with this by-law without the consent of the registered owner or owners of the same; but should such owner or owners neglect or fail to register as aforesaid or otherwise fail to comply with the provisions of the by-law or neglect or fail to remove the same within the registered period as aforesaid, such quartz, earth, timber, or other substance, unless stacked or stored upon a claim or ground, in lawful possession of the owner or owners thereof, shall be deemed to be forfeited and abandoned, and may be taken possession of by any other person or persons who shall have lawfully taken possession of the ground upon which such quartz, earth, timber, or other substance may have been stacked or stored.

BY-LAW No. 43.—REGISTRATION AND TRANSFER OF SHARES.

After a claim, or other mining tenement, shall have been registered, in which there are more shareholders than one, the owners thereof may divide their interest in such claim, or other mining tenement, into any number of shares that may be agreed upon. The shares to be consecutively numbered 1, 2, 3, &c., with the names of the shareholders opposite their respective shares; and may make application to the mining registrar for registration thereof in the form of Schedule O. Each shareholder, upon making application, shall receive from the registrar a certificate in the form of Schedule P. The number of shares in any company may be increased from time to time in like manner.

BY-LAW No. 44.—ABANDONMENT OF SHARES.

Any person or persons holding a share or shares in a registered claim, or other mining tenement, may abandon the same, provided that previous to such abandonment the same shareholder shall pay all liabilities due in respect of such share or shares, give to his partner or partners, and also to the registrar, notice, in writing, of his intention, and shall publish in four consecutive issues of any newspaper circulating in the district a copy of said notice in which such claim or other mining

tenement is situated: and the registrar, after having been satisfied that notice has been given in each of the ways aforesaid, shall forthwith cancel the registration by which such share has been held, and the said shareholder shall thereupon be released from all future liability in respect of such share; Provided always that such abandonment shall not be deemed or taken to interfere with, set aside, or cancel any debt, agreement, engagement, or contract which may at the date of such abandonment exist between the said shareholder and his co-partner or co-partners, or any debt or liability the subject of a lien upon such share or shares.

BY-LAW No. 45.—REDEMPTION OF TITLES.

When the owner of any claim or other mining tenement renders his title to such claim or mining tenement, or any portion thereof, liable to forfeiture through the non-fulfilment of any of the provisions of these by-laws, his subsequent fulfilment of the aforesaid provisions shall redeem his title to any portion of such claim or mining tenement which may have been liable to forfeiture as aforesaid, provided no legal process has been commenced to obtain possession of such claim during the existence of the cause of forfeiture.

BY-LAW No. 46.—SITES FOR MACHINERY.

Any person desirous of erecting a quartz mill driven by steam or water power, may occupy for such purpose an area not exceeding 2 acres, the length of which shall not exceed twice the width thereof. All such areas must be marked by a post at each angle 3 inches in diameter, showing at least 3 feet above the surface, and firmly fixed in the ground, and shall be registered with the mining registrar within seven days after taking possession, and a copy of such registration kept posted in a conspicuous part of the area until the erection of such machinery: but no person shall be entitled to occupy any such area on the supposed course of any known quartz reef. Any person having occupied any such area, and shall fail to erect any such machinery thereon within six months from the date of occupation, shall forfeit all title to such area, and on application being made to the warden, and the same being declared forfeited by him, the applicant may be put in possession thereof.

BY-LAW No. 47.—COMPENSATION HOW AND WHEN MADE.

When any person shall desire to occupy for a mining purpose any Crown land which is lawfully and *bona fide* used as a yard, garden, cultivated field, or orchard, or upon which any house, out-house, shed or other building, or any artificial dam or reservoir shall be standing, upon payment of compensation as herein-after provided and subject to the following conditions, he may do so in accordance with the provisions of these by-laws.

Any person desiring to occupy for a mining purpose any such Crown lands as hereinbefore mentioned, shall do so provisionally by fixing posts defining the area he desires to occupy as aforesaid, in the same manner as is prescribed for occupying claims or easements. If such person shall be prevented from fixing such posts by a person using such land as aforesaid, in such case it shall be sufficient if such person shall define the area aforesaid as near to the manner aforesaid as the circumstances will permit, and register the provisional occupation of such land with the registrar within forty-eight hours of the time of fixing such posts.

For the purpose of determining the amount of such compensation, the person or his agent using such land as aforesaid and the person or his agent desiring to occupy such land for a mining purpose, shall each upon the receipt of a written request from either, requesting him to appoint some person to act in his behalf as a valuator, appoint some person accordingly. If at the expiration of fourteen days from the date of the receipt of such written request either party shall have failed to appoint some person who will act in their behalf as a valuator, and who will determine the amount of compensation as aforesaid, within the seven days next ensuing, then a valuator who may have been appointed by either party shall be deemed to have been appointed and may act alone on behalf of both parties. When both parties appoint a valuator, and such valuator are unable to agree to the amount of compensation to be paid, it shall be competent for such valuator to appoint a third party whom they shall mutually agree to. The decision of any valuator acting alone or of two valutors acting for both parties, or the decision of a majority of three valutors appointed as herein ordained, as regards the amount of compensation to be paid to the person or his agent using such land as aforesaid by the person occupying it for a mining purpose, shall in either case be final and conclusive to all intents and purposes whatsoever. When such valuator or valutors have ascertained the amount of compensation to be paid as aforesaid, they shall deliver their decision, in writing, in the following form:—

I [or we], the undersigned, having been duly appointed to ascertain and decide upon the amount of compensation to be paid by _____, prior to his occupying for a mining purpose that piece of Crown land lawfully used by _____ situated at _____, marked by posts, and measuring _____ more or less, do hereby, in pursuance of the provisions of By-law _____, decide and award the amount of such compensation to be £ _____ s. _____ d. (_____ pounds _____ shilling _____ pence).

CAPTAIN POST, of the New Zealand Government s.s. *Tutanekai*, reports that, when rounding Portland Island on the 8th inst., he noticed heavy breakers about 2 miles S.S.E. of Portland Island light, also a considerable amount of discoloured water. The principal lightkeeper told him afterwards that at times the sea breaks even further out than was noticed on that occasion. Deep-draught ships should therefore give the island a wide berth.
