## NOTICE TO MARINERS.—SOUTH AUSTRALIA.

THE following Notice to Mariners, which has been received from Marine Board, Port Adelaide, is published for general information.

C. W. MACLEAN,  
Port Officer.

Department of Ports and Harbors,  
Melbourne, 4th June, 1903.

[No. 3 of 1903.]

GULF ST. VINCENT—PORT ADELAIDE RIVER.—LIGHT'S PASSAGE  
HARBOR WORKS.

MASTERS of vessels, pilots, and others are informed that during the construction of the training wall near the entrance to the Port Adelaide River, lights will be exhibited from the piles which have been erected, as follows:—

An ordinary ship's riding light will be shown from the pile furthest to seaward, viz., abreast of the remains of the old pile light-house, and two others at distances of about half-a-mile between each on the starboard hand from seaward. The outer one abreast of the old pile light-house stands in about 12 feet and the other two in 6 feet and 3 feet respectively.

Four beacons for dredging marks will also be erected on the flats south and eastward of No. 1 leading beacons. These beacons will be surmounted by a head in the shape of the letter X. When the dredgers are working at night, these beacons will be lighted as follows:—The southern pair, one light on each; the northern pair, two white lights vertical, 3 feet apart, on each.

As these beacons and lights are on the flats, well out of the channel, no difficulty to navigation is anticipated. Steamers passing dredgers, barges, and pile-drivers, or any work in progress, are required to slow down. (See By-law 8th September, 1892.)

This affects Admiralty Chart No. 1750.

ARTHUR SEARCY,  
President of the Marine Board.

Marine Board Offices,  
Port Adelaide, 15th May, 1903.

SHIRE OF NUMURKAH WATERWORKS TRUST.—  
URBAN DISTRICT OF STRATHMERTON.

THE Chairman and Commissioners of the Shire of Numurkah Waterworks Trust, in pursuance of the powers conferred by the Water Acts, do make the following Regulation:—

REGULATION No. 46.

1. This Regulation shall apply to the Urban District of Strathmerton, as such district is proclaimed and defined by an Order in Council bearing date the 2nd September, 1901.

2. The water supplied under this Regulation for other than domestic purposes shall be by measure, and the charges for all water so supplied shall be paid half-yearly, or as may be agreed upon.

3. For water supplied by the Trust, by measurement (except in cases of special agreement with the Trust), a charge of One shilling for every one thousand (1,000) gallons shall be made.

4. For a temporary supply during the erection of new buildings, Ten shillings per cent. on the amount of contract, and extras for brickwork, stonework, and plastering.

5. The minimum quantity of water to be charged for per half-year to the various owners or occupiers hereinafter mentioned shall be as follows:—

In respect of steam-boilers, for each inch of the diameter of the largest cylinder, 4,000 gallons. In respect of livery and carriers' stables, for each stall, 1,000 gallons. In all other cases the minimum shall be a quantity which, at One shilling per one thousand (1,000) gallons, equals the amount of the assessed rate which would be payable for the premises so supplied, if supplied otherwise than by measure.

6. The Trust may, by notice in writing, intimate to any owner or occupier using water for other than domestic purposes solely, that the water supplied is to be charged for by measure, and may, by such notice, require such owner or occupier to provide a meter within one month after the receipt of such notice, and thereupon such owner or occupier shall, within the time specified, at his own expense, provide a meter.

7. Such meter shall be submitted to and examined by the authorized officer of the Trust, who, if he shall find the same correct and in proper working order, shall give his certificate to that effect, and the meter, when fixed, shall be maintained and kept in proper working order by such owner or occupier. The meter must be so placed as to be open for inspection, and so as to be protected from injury, and with means of access thereto. The keys of the meter shall be in possession of the Trust. No meter shall be connected with more than one separate and distinct inlet-pipe leading from the service-pipe, unless otherwise permitted by order of the Trust.

8. If any meter should cease registering, or be reported by the inspector as out of repair, or registering inaccurately, the Trust shall estimate and charge for the water consumed during the period such meter was not in working order, and until it is repaired and refixed, either by taking an average of the quantity used during the previous quarter, or during the corresponding period of the previous year; or the Trust may insert a check-meter on the service-pipe, and charge upon estimate from the registering thereof.

9. No meter shall be affixed unless the dial of the same is capable of registering one million (1,000,000) gallons, and no meter shall continue to be used if it is found to be inaccurate.

10. If any person refuse or delay to have such meter properly repaired and put in correct working order, after having been required by any officer of the Trust so to do, the Trust may shut off the supply of water from the premises of such person, either by cutting the service-pipe or otherwise, until such meter shall have been properly repaired and certified by some officer of the Trust as being in proper working order.

11. If any plumber fix or refix any meter upon any premises supplied with water by the Trust without having first obtained a certificate from the Trust that the said meter has been examined and found in correct working condition, he shall be liable to a penalty not exceeding Five pounds.

12. If any person remove or alter the position of or in any way interfere with any meter without giving six days' notice, in writing, to the Trust, he shall for each such offence be liable to a penalty not exceeding Ten pounds over and above the damage which he may be found liable to pay in any action at law at the suit of the Trust, and in the event of continuing the offence to a further penalty of One pound for each day the offence is continued after notice of the offence from the Trust.

13. Any person who, having been served with the notice mentioned in clause 6 of this Regulation, shall refuse or neglect to provide a meter within the time in such notice specified, shall be liable to a penalty not exceeding Two pounds for every day after the expiration of the time mentioned in the notice on which he shall still refuse or neglect to comply with the terms of such notice.

14. The Trust may contract with any owner or occupier of premises, or of any lands or tenements, who is entitled to be supplied with water from its works, or who is desirous of being so supplied, for the provision and laying on of a service-pipe from the pipes of the Trust to the boundaries of such land, premises, or tenements abutting on the street or road in which are the pipes of the Trust.

15. Fire-plugs shall not be used except for the purpose of extinguishing fires, unless any other use of them be allowed in writing by the Trust, and they shall at all times be under the control of the officers of the Trust.

16. All service-pipes, with the necessary stop-cocks, shall be supplied and fixed at the cost of the person or persons requiring the same, under the direction and supervision of such officer or servant as the Trust may appoint, and no service-pipe shall be laid at a depth below the surface of the ground of less than 10 inches.

17. Excepting with the permission of the Trust, not more than one house or tenement shall be supplied from a single

water service. The Trust may in special cases consent to two or more tenements being supplied from one water service, but in such cases the sub-services shall be so arranged that the supply to each house shall be independent of the supply to the remaining houses, and be controlled by a stop-cock on such sub-service, and any person offending against the provisions of this section shall be liable to a penalty not exceeding Two pounds.

18. No extensions of private services will be allowed except by consent of the Trust.

19. The service-pipes from the main, being the property of the owners or occupiers of the tenements supplied by such service-pipes, the occupier (if any), and if none, the owner, shall, upon receiving notice that his service-pipe requires repairing, immediately proceed to repair the same, and he shall be responsible for any loss of water or other damage which shall be caused by reason of such service-pipe being leaky or otherwise out of repair or broken, and in default be liable to a penalty not exceeding Five pounds, and in the event of continuing the offence to a further penalty of Two pounds for each day after receipt of such notice, and the Trust may stop the water from flowing into such premises, either by cutting of the service-pipe or otherwise as to the Trust may seem fit, until the necessary repairs shall have been effected.

20. Any person supplied with water by the Trust who shall wilfully or negligently allow the same to run to waste shall be liable for each offence to a penalty not exceeding Five pounds, and in the event of continuing the offence to a further penalty of Two pounds for each day after notice of the offence from the Trust.

21. Tenders must be placed in the Crown Lands Office Tender-box not later than Twelve noon on Friday, 26th June, 1903.

NOTE.—No tender will be accepted unless the fee for the period from 1st July, 1903, to 30th June, 1904, and fee of Five shillings for licence, are forwarded with the tender.

TENDERS will be received by the Board of Land and Works up to Twelve noon on Friday, 26th June, 1903, for the occupation, for grazing purposes only, of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 187 of the *Land Act 1901* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

#### Conditions:

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 187th section of the *Land Act 1901*, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1901*, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

6A. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

That where improvements are authorized under section 181 of the *Land Act 1891* the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

7. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

8. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

9. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

10. The ring-barking of the timber upon the land by the licensee is expressly forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

11. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

12. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act 1896* in like manner as holders of freehold lands.

13. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

14. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

#### Special Conditions.

1. The period of occupation may be for twelve months—from 1st July, 1903, to 30th June, 1904.

2. The fee for the period from 1st July, 1903, to 30th June, 1904—for which the licence will be issued, and fee for licence must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Tenders to be for so much per lot and block per annum.

4. Separate tenders must be lodged for each block.

5. Tenders to be indorsed—"Tender for Lot 1, Block 798," or "Lot 2, Block 2175," or "Lot 3, Block 2710," as the case may be.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name and ordinary postal address.

8. The areas are given as more or less, and all appropriated, alienated, or licensed land (if any) within the boundaries is excluded.
