Actual measurements only will be paid for.

So far as the work done in the Commonwealth is concerned, no subletting will be allowed; all work must be carried out by the contractor: the hours of employment of any person engaged therein shall not exceed 48 per week, and every such person shall be paid such wages and shall be employed subject to such conditions as are or may be determined by the Woodworkers Board, or where no such wage is provided at a minimum wage of £2 10s. for skilled workmen and for labourers £2 2s., per week respectively; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory, mill, or yard (and in each part of the factory or mill where several parts are in use) in which timber is prepared under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.
