	<p>CONTRACTS Nos. 1908/647 to 649. Schedule No. 4.</p> <p>CASTINGS (IRON, BRASS, GUN METAL, AND STEEL.) (Manufactured within the Commonwealth.)</p> <p>Contract from 1st July, 1908, to 30th June, 1911.</p> <p>1908/647—Holden and Lewis ... Security £40 1908/648—W. Richardson and Co. ... „ £7 1908/649—Clemenger Bros. and Co. ... „ £13</p> <p>SPECIFICATION FOR CASTINGS.</p> <p>1. Castings of a special character other than those provided for under this Schedule may be obtained locally without infringing this Contract.</p> <p>2. All castings are to be clean, sharp, free from surface scale, shell, cold shuts, blow holes, honey-comb, cinder, or any other imperfections, and are to be sound in every respect, and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be ordered, such heads and runners to be cut off by the Contractor before delivery is made, and the charge for the casting must be at the net weight only, trimmed and clean.</p> <p>3. Whenever specially ordered, the iron castings shall be run from the very best "cold-blast iron" of such particular brand, quality, and mixture as may be described in the order; or of such other substituted mixture as may be approved or directed by the officer of the Department ordering, so as to produce a hard, close, soft, or other description of metal, at the option and to the satisfaction of the officer ordering.</p> <p>4. Whenever castings are required, and, in the opinion of the officer ordering, they can be moulded from the broken originals, the Contractor will be bound to mould from such broken originals without requiring the Government to supply a wooden or other pattern for same, and without being allowed any extra rate.</p> <p>5. All patterns lent by the Government will be delivered to the Contractor at his works, and all such patterns must be returned by and at the expense of the Contractor in good order and condition, and must be delivered together with the castings. In the event of the non-return of any of the patterns, or of their being damaged, the price, which will be fixed by the officer ordering, shall be paid by the Contractor, or may be deducted from any money due to the Contractor or from his security money.</p> <p>6. The Contractor shall, during the currency of this contract, furnish the officer ordering with the address or addresses of the place or places at which the steel castings are being manufactured by the Contractor, and the officer ordering, or any person appointed by him from time to time shall at all times during business hours have free access to such place or places, and shall be afforded every facility for inspecting the castings while in process of manufacture.</p> <p>7. No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the Castings, &c., tendered for in this schedule shall not exceed 48 per week, and every such person shall be paid such wages and shall be employed subject to such conditions as are or may be determined by the Iron and Brassmoulders Board under the Factories and Shops Act; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.</p> <p style="text-align: center;">TESTS FOR CASTING—STEEL.</p> <p>8. The steel castings supplied under this schedule shall be annealed until a piece cut from them or a test piece made from the same cast will bend 1 inch in 6 inches, thus:  and stand being brought back to its original shape without showing signs of fracture.</p> <p>9. The Contractor shall, if called upon to do so, supply a test bar 6 inches long by 2 inches square, which will be drawn out under the hammer, and then subjected to a tensile test; the minimum breaking strain to be 25 tons per square inch, with elongation of ten per cent.</p> <p style="text-align: center;">TESTS FOR CASTINGS—IRON.</p> <p>10. When required, three iron test bars 3 ft. 6 in. long, 2 inches deep and 1 inch wide, shall be supplied, cast on edge in dry mould, and cast from the same metal as the casting; these bars to be tested as follows:—The lower side of the casting to be placed downwards upon rigid bearings with a 3 feet span, each bar to deflect not less than 3-10ths of an inch, with a load of 25 cwts. in centre, having a bearing not more than 1 inch wide upon the bar, to break with a minimum load of 25 cwts., and an average upon three bars of not less than 30 cwts.</p>			<p>£ s. d.</p>

CONTRACT No. 1908/656.

Schedule No. 6.

CLOCKS.

Contract from 1st July, 1908, to 30th June, 1911.

1908/656—T. Gaunt & Co.—Security, £11

The Clocks to be guaranteed accurate timekeepers.

To be properly packed, when required, without extra charge.

To Sample at General Post Office.

1	Clocks—Office, Eight-day, superior, chain, 12-in. dial, and plate glass each	3	2	0	T. Gaunt and Co.
---	---	---	---	---	------------------

CONTRACT No. 1906/339.

Schedule No. 5.

CLOTHING FOR DEPARTMENTAL MESSENGERS.

(To be made up within the Commonwealth.)

Contract from 1st July, 1906, to 30th June, 1909.

1906/339—Alfred Bowley and Co.—Deposit £5.

Sample Serge at Tender Board Offices.

All material must be Fox's No. 4 serge, indigo dyed, and must be provided by the contractor at his own expense.

The uniform is to be in strict accordance with samples, well fitted, well made, and hand or machine sewn (but the machine sewing must be confined to the seams of garments only, no stitching, or fellings, or pockets must be done except by hand), and in every respect subject to the approval of the officer ordering.

Any article not fitting or bad in workmanship will be rejected.

Should the contractor fail to furnish the articles when required, it will be competent for the officer ordering to obtain the same elsewhere at the contractor's risk, and any expense incurred over and above the contract price will be deducted from the contractor's account, or from the security money.

No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the articles tendered for in this schedule shall not exceed 48 per week, and every such person shall be paid such wages and shall be employed subject to such conditions as are or may be determined by the Clothing Board under the Factories and Shops Acts; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

CONTRACTS Nos. 1906/340 TO 342.

Schedule No. 6.

CLOTHING FOR REFORMATORY SCHOOLS.

(Manufactured within the Commonwealth.)

Contract from 1st July, 1906, to 30th June, 1909.

All Items to Samples at Tender Board Offices.

1906/340—Alfred Bowley and Co. ... Deposit £18
 1906/341—Ball and Welch Propy. Ld. ... £5
 1906/342—The Phoenix Clothing Co. ... £7

All items must be made up in the Commonwealth, and as regards Items 1, 2, and 3, 4, 7, and 10, the material must be of Commonwealth manufacture.

No subcontracting will be allowed: all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the clothing tendered for in this schedule shall not exceed 48 per week, and every such person shall be paid at the rates fixed by the Special Board under the Factories and Shops Act to fix the prices or rates paid for the manufacture of the respective articles enumerated in this schedule; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

A complete set of samples under this schedule will be lent for the guidance of the contractor in making up the garments, which must be returned, on the termination of the contract, to the Secretary to the Tender Board, in good order and condition.

All woollen materials must be thoroughly shrink.

CONTRACTS NOS. 1908/681 TO 683.

Schedule No. 12.

DRUGS, MEDICINES, ETC.

Contract from 1st July, 1908, to 30th June, 1911.

1908/681—Rocke, Tompsitt, and Co. ... Security £100

1908/682—Duerdin and Sainsbury ... " £9

1908/683—Felton, Grimwade and Co. ... " £10

Oils, tinctures, decoctions, infusions, and liquid preparations generally must be delivered in oval glass bottles. Fuming and other acids, spirits of ammonia, and deliquescent salts must be delivered in bottles having ground-glass stoppers when so ordered.

ANNEXES TO CONTRACTS—continued.

Item No.	Description of Articles.	Rate.	Contractors.	
		£ s. d.		
DRUGS, MEDICINES, ETC.—continued.				
In cases where special manufactures are mentioned in the schedule, the contractor will be bound to supply the goods in the original packages, having thereon the maker's label or other trade mark, as a guarantee of the genuineness of the goods so supplied.				
All articles must be of the best quality of the several kinds, and all preparations and compounds are to be those of the new "British Pharmacopœia," unless otherwise specially ordered.

CONTRACT No. 1907/352.

Schedule No. 19.

HATS—MEN'S AND BOYS'.

(Manufactured within the Commonwealth.)

Contract from 1st July, 1907, to 30th June, 1910.
1907/352—Lincoln, Stuart, & Co. Py. Ld.—Deposit £36
All Items to Sample at Tender Board Offices.
Item No. 1 is a New Sample.

No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the hats tendered for in this schedule shall not exceed 48 hours per week, and every such person shall be paid at a minimum wage for a man of £2 5s. per week, and for a woman £1 per week respectively; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use), in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement, and in all other respects, failing which they may be replaced at the contractor's expense, and the cost of same will be deducted as in Condition No. 7.

Samples for items 2 and 3 under this schedule will be lent for the guidance of the contractor, which must be returned, on the termination of the contract, to the Secretary to the Tender Board, in good order and condition, failing which they may be replaced at the contractor's expense, and the cost of same deducted as in Condition No. 7.

CONTRACTS Nos. 1908/724 TO 728.
Schedule No. 22.

LEATHER.

(Manufactured within the Commonwealth.)

Contract from 1st July, 1908, to 30th June, 1911.

- 1908/724—J. Kennon and Sons ... Security £173
- 1908/725—Herbert Burgess ... £13
- 1908/726—Michaelis, Hallenstein Py. Ld. ... £120
- 1908/727—Lloyd Bros. and Maginnis ... £35
- 1908/728—Hicks, Atkinson, and Sons ... £8

All articles marked (*) to sample at Tender Board Offices.

Sub-Schedule A.

SPECIFICATION.

All Leather must be of the best quality, free from adulterants or excessive dressing of any kind, and must not be unduly blemished by brands, cuts, &c.

No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the articles tendered for in this schedule shall not exceed 48 per week, and every such person shall be paid such wages and shall be employed subject to such conditions as are or may be determined by the Tanners Board under the Factories and Shops Act; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement

Schedule No. 32.
ANNEX TO CONTRACT NO. 1907/1384.

OVERCOATS AND CLOAKS (WATER-PROOF) FOR THE POLICE.

Made from cloth proofed within the Commonwealth.
(To samples at Tender Board Office.)

Contract from 1st January, 1907, to 30th June, 1909.
Barnet, Glass, and Co.—Security, £85.

No subletting will be allowed, all work must be carried out in the factory of the contractor, and the hours of employment of any person engaged in the making up of the Coats and Cloaks, and the proofing of the material of which the garments tendered for in this Schedule are made, shall not exceed 48 per week, and every such person shall be paid at a minimum wage for a man of £2 5s., and for a woman of £1 per week respectively, and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions in the opinion of the Treasurer will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct; and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

The Coats and Cloaks must be cut to sizes, and made in accordance with samples at the Tender Board Office. The best para rubber solution must be used in sticking down seams, &c. All Coats and Cloaks must be indelibly marked and numbered as required; all garments shall be subject to approval of the Chief Commissioner of Police, or such other officer as he may appoint, and any garment of inferior quality as regards weight, colour, texture, proofing, or in any other respect, or not fitting, or bad in workmanship will be rejected.

Delivery must be made at the Police Depot, St. Kilda-road, within six months of the date of the order, failing which a fine of One Shilling (1s.) per garment per day may be enforced at the option of the Tender Board on report from the Chief Commissioner of Police, the amount to be deducted from the contractor's account or from the security money.

QUALITY OF MATERIAL.

Outer Fabric.—The outer fabric must be all wool and must be smooth and unteazled, containing 80 threads per inch in the warp, and 120 threads per inch in the woof, and must weigh not less than 4½ ounces per square yard.

Waterproofing.—The waterproofing must consist of a layer of best quality fully vulcanized para rubber, white or of light colour containing not more than 10 per cent. of foreign matter and no free sulphur; must be of uniform thickness, free from thin spots, rendering the cloth so watertight that water to the depth of 6 inches standing in it for 24 hours will not percolate through; and must weigh not less than 6 ounces per square yard.

Inner Lining.—The inner lining must be all wool and of the same texture and weight as the outer fabric.

The colour of the cloth is to be true to sample, and is to be fast in shade, even if in this respect the sample may be faulty.

The material in any Coat or Cloak may be submitted to such tests as may be deemed proper for the purpose of ascertaining that it is in accordance with sample and specification, and a portion may be cut out of any garment for testing purposes. The contractor to bear cost of repairing same. Should any garment, on being subjected to test, prove inferior, the whole supply may be rejected.

CONTRACTS Nos. 1908/778 TO 782.

Schedule No. 31.

SADDLERY, LEATHERWARE
GOODS, ETC.

Contract from 1st July, 1908, to 30th June, 1911.

1908/778—W. H. Hunter and Co.	Security	£25
1908/779—T. Moore and Sons	"	£5
1908/780—Thomas Evans Ppy. Ltd.	"	£5
1908/781—J. Kennon and Sons	"	£5
1908/782—Hicks, Atkinson, and Sons	"	£5

All Articles marked (*) to Sample at Tender Board Offices.
Items 10, 30, and 53 are new samples.

As regards supplies for the Defence Department, an officer may be appointed to inspect any article in process of manufacture at the factory of the Contractor. Should any emergency arise which would necessitate the Defence Department ordering a larger supply of any articles in this Schedule than the Contractor can deliver within a given time, the Department may purchase them elsewhere without infringing this Contract.

All Leather work must be of the best quality of its kind, and all stitching must be done by hand.

A.—Saddles, Bridles, &c.

No subletting will be allowed: all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the Saddlery, &c., tendered for in this schedule shall not exceed 48 per week, and every such person shall be paid such wages and employed subject to such conditions as are or may be determined for the various articles by the Saddlery and Leather Goods Board respectively, under the Factories and Shops Acts, and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

CONTRACTS NOS. 1904/381 AND 382.

Schedule No. 30.

SAFES (FIREPROOF).

(Manufactured within the Commonwealth.)

Contract from 1st July, 1907, to 30th June, 1910.

1907/381—Thomas Pitt and Co. ... Deposit £12
 1907/382—W. Willis and Co. £24

No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the Fireproof Safes, &c., tendered for in this Schedule shall not exceed 48 per week, and every such person shall be paid at a minimum wage of 8s. per day; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

All Safes and Boxes must be of the best make, subject to test.

Tenderers to insert maker's name of the safes and boxes, also the number of the maker's list they offer to supply. Safes must have ½-inch steel doors, No. 10 gauge steel for outside body, No. 14 gauge steel for inside lining, with bolts, Chubb's locks, and duplicate keys. The fireproof packing to be not less than 3 inches thick, irrespective of steel plates. Locks on doors of safes must be protected by chilled-steel armour plate.

The Boxes must be made with 14-gauge steel for outside body and 16-gauge steel for inside lining, with Chubb's locks and duplicate keys. Fireproof packing same thickness as in safes. The locks on doors of boxes must also be protected by chilled-steel armour plate, as in the case of safes.

4	" " Same as Item 2, of Galvanized Iron	6 15 0	Briscoe and Co. Ltd.
3	" " Same as Item 1, of Galvanized Iron (capacity 200 gallons) weighing not less than 2 cwt.	purchase 3 10 0	Briscoe and Co. Ltd.
SUB-SCHEDULE B. (Manufactured within the Commonwealth).			
Under this Sub-Schedule tanks for use outside the Melbourne District may be purchased locally without infringing this Contract.			
No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the Tanks tendered for in this sub-schedule shall not exceed 48 per week, and every such person shall be paid such wages, and shall be employed subject to such conditions as are or may be determined by the Tinsmiths Board under the Factories and Shops Act, and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the Contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement, and in all other respects.			
1	Tanks—G.I. corrugated, "Queen's Head," "Orb," or other approved brand, as ordered, 24 gauge; lapped 3 inches at vertical joints, and $1\frac{1}{2}$ corrugations for horizontal joints, double riveted G.I. rivets and washers and soldered, solder must be well sweated in. The tanks must be provided with a cover (26 gauge) properly panned on, with a moveable manhole cover 18in. diameter, also properly panned on; an overflow pipe and a length of waste pipe equal in length to the height of the tank; a brass turnover tap with padlock and two keys complete, equal to sample. Provision must be made in the cover for inlet pipe, and in the tank for a G.I. socket properly soldered and bossed in to receive tap. Capacity, 500 gallons, 6ft. x 4ft. All tanks must be perfectly water-tight and clean	each

<p>Contract from 1st July, 1906, to 30th June, 1909. 1906/389.—James Moore and Sons Ppy. Ltd. Deposit £100 1906/390.—Millar's Karri and Jarrah Coy. 1902 Ltd. " £45 1906/391.—T. Anthony and Co. " £5</p>			
<p>Items marked asterisk (*) to sample at Tender Board office. All timber to be free from large knots, shakes, heart sap, gum veins, or any other imperfection; and must be thoroughly sound. When timber which is rated at per superficial foot of one inch thick is asked for and supplied of a greater or less thickness than one inch it shall be paid for proportionately. Actual measurements only will be paid for. This contract is not to be considered broken, infringed, or vitiated by the purchase locally of any of these items for country stations. No subletting will be allowed; all work must be carried out by the contractor; the hours of employment of any person engaged therein shall not exceed 48 per week, and every such person shall be paid such wages and shall be employed subject to such conditions as are or may be determined by the Woodworkers Board, or where no such wage is provided at a minimum wage of not less than £2 10s. for skilled workmen, and for labourers £2 2s. per week respectively; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters, in the factory, mill, or yard (and in each part of the factory, mill, or yard where several parts are in use) in which timber is prepared under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.</p>

CONTRACTS NOS. 1906/392 TO 395, AND 1908/810 AND 811.

Schedules Nos. 25 and 42, Sub-Schedule Q.

TINWARE, ETC.

(Manufactured within the Commonwealth.)

Contract from 1st July, 1906, to 30th June, 1909.

- 1906/392—John Fisher, jun. ... } Deposit £12
- †1908/810—John Fisher, jun. ... }
- 1906/394—Watton and Kemp ... } " £12
- 1906/395—A. P. Allan ... } " £5
- †1908/811—A. P. Allan Ppy. Ltd. ... }

All Items to Sample at Tender Board Offices.

Items 20 and 33 are to New Samples.

For the Hospitals for the Insane the tinware goods are to be made of D xxx best charcoal tin, and the galvanized-iron goods of Tenax steel, Orb brand, except for item 40, the supplies for which must be made of black iron galvanized. Brass wire is to be used for the brass and tin domestics, tinned wire for the remainder of the tinware, and galvanized wire for the galvanized goods. The joints of the wire in all cases must not be near the seams of the article, even though in this respect the samples may be faulty. All items, with the exception of Nos. 2, 3, 4, 33, 38, 40, 44, and 45, are to sample for Hospitals for the Insane.

Cash Boxes to be stamped "G.P.O." &c., as required.

The contractor will be allowed a reasonable time, and, in the case of orders for the larger institutions, a period of one month from the receipt of each order to complete the delivery.

No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the tinware tendered for in this Schedule shall not exceed 48 per week, and every such person shall be paid at a minimum wage of not less than £2 8s. per week or such rates as may be fixed by the determination of the Tinsmiths Board under the Factories and Shops Act; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

SPECIFICATION FOR VENETIAN BLINDS.

OUTSIDE VENETIAN BLINDS.

Frames.—The frames to be constructed of clear pine, wrought throughout, with 1-in. jambs and soffits dove-tailed at joints, and $\frac{3}{4}$ -in. front and back linings, securely put together. The outside linings to be finished all round with small clear pine moulding mitred at angles, and the frames to be accurately fitted to openings with any cutting to shape required, and to be securely screwed to plugs in reveals. The head linings to be made to form casings of sufficient depth to entirely cover the blinds when drawn up, and the fronts of same to be divided into ornamental panels of approved patterns by means of selected mouldings planted on; the lower edges of outside head linings to be scalloped to approved pattern.

Blinds.—The laths, pulley bearers, and top and bottom laths of clean clear pine wrought throughout, and all laths to be $2\frac{1}{2}$ inches wide and spaced not more than 2 inches apart; pulley bearers to be $1\frac{1}{2}$ inch thick, to be properly mortised to receive pulleys, and to be neatly grooved for cords; top and bottom laths to be $\frac{3}{8}$ inch thick and intermediate laths $\frac{1}{2}$ inch thick, and all edges to be neatly rounded.

Blinds to be hung with all necessary brass pulleys, lignum vitæ or other approved drums, approved linen web ladder tapes, and 4-lb. best patent white cords, and to be provided with Young's patent cord-holders, or, when ordered, 6-in. double brass plate hooks. Blinds to be provided with brass pulleys, so that they may be raised and regulated from inside the rooms: Blinds up to 3 ft. 6 in. in width to have two lines of tapes and cords, and over that width three lines.

Painting.—The whole of the woodwork of blinds and frames to be primed with red lead and raw linseed oil, and to be then painted three coats of the best oil colour, composed of white lead, raw linseed oil, colour, turpentine, and dryers; the painting to be rubbed down with glass paper between the coats, and to be finished in selected tints. The last coat but one to be slightly darker than the tint selected for the finishing coat, and the last coat to be a coat of flatting. The whole to be once varnished with the best English pale copal varnish.

Repairing, &c., old blinds.—Repairing old blinds is to include taking down, washing, painting two coats of oil colour as before described and once varnishing both blinds and frames, providing and fixing approved new linen web ladder tapes and 4-lb. best patent white cords, and securely refixing and putting in working order.

INSIDE VENETIAN BLINDS.

Inside Venetian Blinds to be as above described for Outside Blinds, except that they are to be made of California red pine without frames.

Repairing, &c., old blinds.—Repairing old blinds is to include taking down, washing, painting two coats of oil colour as before described and once varnishing, providing and fixing approved new linen web ladder tapes and 4-lb. best patent cords, and securely refixing and putting in working order. Any old galvanized iron brackets to be made thoroughly secure, and new galvanized iron brackets to be supplied and fixed where required.

MATERIALS FOR ABOVE.

Materials.—The clear pine and red California pine for all blinds are to be sound, dry, and well seasoned; and the whole of the materials are to be of the best of their respective kinds, free from all defects equal to samples to be seen at the Department of Public Works, and to be subject to the approval of the Superintending Officer. Blinds to be made generally to correspond with samples to be seen at the Public Offices.

Fitting and fixing.—Where the building for which the blinds are required is within a radius of 8 miles from the General Post Office the contractor will be required, when ordered to fix the blinds, to take his own dimensions, to properly fix the blinds either under soffits of windows or on approved galvanized-iron brackets, securely screwed, and to make good any damage done to the buildings.

Packing for transit to country.—Where the building for which the blinds are required is beyond a radius of 8 miles from the General Post Office the contractor will be required, when ordered to pack the blinds for transit to the country, to provide proper packing cases and to securely pack the blinds, and to deliver them complete and perfect and ready for fixing at such railway station or other forwarding agency in Melbourne as may be directed.

Generally.—All blinds must be examined and passed by an officer of the Public Works Department before they are paid for.

All blinds to be made and painted on the contractor's premises, which must be within a reasonable distance of the city of Melbourne; and every facility must be afforded the officers of the Public Works Department for examining the work at any time previous to its delivery.

The contract for repairing, &c., only applies to buildings within the radius above mentioned.

The Government reserves the right, when erecting new buildings or when making additions or repairs to buildings outside the radius above mentioned, of including any Venetian Blinds required in the general contract for such building, additions, or repairs.

Signature of Tenderer _____

All Items to Samples at Tender Board Offices.			
All supplies for the Agriculture Department shall be subject to the approval of the Secretary for Agriculture, or any other officer authorized by him.			
Sub-Schedule A.— <i>Wrappers—Branded.</i>			
(Made up in Victoria).			
The price quoted must cover cost of branding the Wrappers with port and grade marks, or any other brand, as may be required.			
The Agriculture Department guarantees to take the quantity specified in the tender. The contractor will, however, be bound to supply an additional 25 per cent., if required, at schedule rates, and also have the option of supplying any further requirements during the period of the contract at contract rates. In the event, however, of the Contractor refusing to supply the extra requirements over and above the 25 per cent., fresh tenders may be invited.			
No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the making up of the wrappers tendered for in this schedule shall not exceed 48 per week, and every such person shall be paid at a minimum wage of not less than £1 16s. for a man and 10s. for a woman per week respectively; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

COPPER.				
<p><i>Name of Manufacturer—The Societe Anonyme des Usines a Cuivre, &c.</i></p> <p><i>Chemical Analysis.—The copper rods must contain not less than 99.25 per cent. of copper, and .15 per cent. to .35 per cent. must consist of arsenic. The Contractor shall supply an analysis whenever required to do so from time to time.</i></p> <p><i>Freedom from Defects.—The rods must be clean, smooth, uniform in diameter, and free from surface defects.</i></p> <p><i>Branding.—Each rod shall be stamped with the manufacturer's name near one end.</i></p> <p><i>Mechanical Tests.—The Chief Storekeeper may select and test, up to 2 per cent. of each diameter, such of the rods as he may think proper. All test pieces shall be in the same condition as when severed from the rods, and must comply with the following tests:—</i></p> <p><i>Tensile Test.—The tensile strength must be not less than 14 tons per square inch, with an elongation of not less than 40 per cent. on the standard test piece having a gauge length of not less than eight times the diameter (as shown on diagram marked "A" on sheet at back of book).</i></p> <p><i>Hammering or Crushing-down Test.—A piece of rod 1 inch long shall be placed on end, and hammered or crushed down to a thickness of $\frac{3}{8}$ inch without showing either crack or flaw on the circumference of the resulting disc.</i></p> <p><i>Rejection.—Should the copper rod fail to comply in every particular with the above conditions, the lot from which the test pieces were selected will be rejected.</i></p>

ROLLED IRON.					
AUSTRALIAN.					
<p><i>The Contractor shall during the currency of this Contract furnish the Chief Storekeeper with the address or addresses of the place or places at which the Rolled Iron is being manufactured by the Contractor, and the Chief Storekeeper, or any person appointed by him from time to time, shall at all times during business hours have free access to such place or places, and shall be afforded every facility for inspecting the Rolled Iron while in process of manufacture.</i></p> <p><i>The whole of the Scrap for the manufacture of the Rolled Iron under this Contract must be purchased by the Contractor from the Corporation, and except as hereinafter provided shall be paid for by the Contractor at a fixed rate of £2 per ton delivered in trucks at Spencer-street Railway Station, and the rates set opposite to items numbered respectively 648 and 649 in this Schedule must include the cost of the said Scrap.</i></p> <p><i>To cover waste in the case of the Double Rolled Iron, the Contractor shall purchase as aforesaid 25 per centum of Scrap in excess of any quantity of Double Rolled Iron which may be ordered from time to time. To cover waste in the case of the Treble Rolled Iron, the Contractor shall purchase, as aforesaid, 30 per centum of Scrap in excess of any quantity of Treble Rolled Iron which may be ordered from time to time. Provided in the event of the Contractor requiring for the purposes of this Contract any quantity of Scrap exceeding the respective percentages as aforesaid, then in every such case he shall pay for such excess at the rate of £2 10s. per ton. Payment at the rate or rates aforesaid shall be made by the Contractor to the Chief Accountant of the Victorian Railways (within 48 hours after demand) for any Scrap which may be supplied to the Contractor from time to time as hereinbefore provided, and, failing payment as aforesaid, the Corporation shall be entitled to deduct any amount owing for the said Scrap from any money due, or which may become due, to the Contractor under this Contract.</i></p> <p><i>The Rolled Iron shall be entirely manufactured from the Scrap purchased from the Corporation as aforesaid, and will be paid for by the Corporation on the basis of the net weight of such Rolled Iron, when supplied and delivered in strict accordance with all the provisions and requirements of the annexed Conditions of Contract and this Schedule, and to the satisfaction in every respect of the Chief Storekeeper.</i></p> <p><i>All bars shall be cut to the lengths required, and have crop and bad ends cut off, and the Rolled Iron delivered shall be sound throughout and fit for use. Only the net weight of Rolled Iron delivered (after crop and bad ends have been cut off) will be paid for.</i></p>

Item No. and Description.	Estimated Requirements for 2 Years.	Rate per—	Rate.	Name of Contractor.
<p style="text-align: center;">MILD STEEL (PLATES, SECTIONS, AND BARS).</p> <p><i>Quality of Material.—The Plates, Sections, and Bars shall be manufactured from Acid or Basic Open Hearth Steel made from selected material, and must not show on analysis more than .06 per cent. of Sulphur or of Phosphorus. The Contractor shall supply an analysis whenever required to do so from time to time.</i></p> <p><i>Freedom from Defects.—The Plates, Sections, and Bars must be free from cracks, surface flaws, lamination, and all other defects, cut square, and finished in a workmanlike manner. No Plate, Section, or Bar must be more than 2½ per cent. over or 2½ per cent. under the calculated weight.</i></p> <p><i>Branding.—Each Plate, Section or Bar shall bear the proper trade marks or brands, and shall be of any size or section ordered.</i></p> <p><i>Mechanical Tests.—The tensile strength and ductility shall be determined from standard test pieces, cut lengthwise or crosswise, from the rolled material. When material is annealed or otherwise treated before despatch, the test pieces shall be similarly and simultaneously treated with the material before testing.</i></p> <p><i>Any straightening of the test pieces which may be required shall be done cold.</i></p> <p><i>Tensile Tests.—Plates and Sectional Material.—A standard test piece (as shown on diagram marked "B" at back of book) having a gauge length of 8 inches, and for round bars (as shown on diagram marked "A" at back of book) must show a tensile breaking strength of from 26 to 30 tons per square inch with an elongation of not less than 20 per cent. Where bars are above 1 inch in diameter, and are tested full size as rolled, or are turned down, and the resulting test piece is above 1 inch diameter, a standard test piece (as shown on diagram marked "C" at back of book) having a gauge length of not less than four times the diameter may be used, in which case the elongation shall be not less than 24 per cent. For material under 5-16 inch in thickness, bend tests only are required.</i></p> <p><i>Bend Tests.—Cold Bends: Test pieces shall be sheared or cut lengthwise from Plates, Sections, or Bars, and shall be not less than 1½ inches wide, but for small Plates, Sections, or Bars, the whole Section may be used.</i></p> <p><i>Temper Bends.—The test pieces shall be similar to those used for cold bend tests.—For temper bend tests the test pieces shall be heated to a blood red and quenched in water at a temperature not exceeding 80 degrees Fahr. The colour shall be judged indoor in the shade.</i></p> <p><i>In all cold or temper bend tests the sheared edges may be removed by milling, planing, grinding, or other method. The test pieces shall not be annealed unless the material from which they are cut is similarly annealed, in which cases the test pieces shall be similarly and simultaneously treated with the material before testing.</i></p> <p><i>For both cold and temper bends the test piece must withstand, without fracture, being doubled over until the internal radius is not greater than 1½ times the thickness of the test piece, and the sides are parallel.</i></p> <p><i>For small sectional material these bend tests may be made from the flattened bar.</i></p>				

Item No. and Description.	Estimated Requirements for 2 Years.	—	Rate per—	Rate.	Name of Contractor.
<p>MILD STEEL (PLATES, SECTIONS, AND BARS)— continued.</p>					
<p><i>Rejection.—Should the material fail to comply in every particular with the above conditions, the lot from which the test pieces were selected will be rejected.</i></p>

STEEL BLOOMS FOR BUILT-UP LOCOMOTIVE CRANK AXLES.				
<p><i>Quality.—The Steel Blooms are to be of the very best quality, suitable for locomotive crank axles, and to be perfectly sound, free from blow-holes, flaws, or any other defects. The Blooms are to be of the shape as shown on the diagrams on Litho. No. 103/08 at back of book, with sufficient material allowed for machining by the Corporation to the finished sizes. They will be made into axles by the Corporation, and each axle when finished will be branded with the initials of the firm supplying the Blooms. All the Blooms are to be annealed by the manufacturer.</i></p>				
<p><i>Tensile Strength.—The steel in the Blooms, Items Nos. 739b, 739c, 739d, 739l, 739m, 739n, 739o, 739p, 739q, 739r, 739s, 739t, 739v, 739w, and 739x, must have a tensile strength of not less than 30 tons per square inch with elongation of at least 25 per cent. in a length of 2 inches, and in Items Nos. 739e, 739u, and 739y not less than 38 tons per square inch with elongation of at least 18 per cent. in a length of 2 inches.</i></p>

IRON CASTINGS.					
<p><i>The Contractor shall during the currency of this contract furnish the Chief Storekeeper with the address or addresses of the place or places at which the Iron Castings are being manufactured by the Contractor, and the Chief Storekeeper or any person appointed by him from time to time shall at all times during business hours have free access to such place or places, and shall be afforded every facility for inspecting the castings while in process of manufacture.</i></p>					
<p><i>The castings are to be clean, sharp, free from surface scale, shell, cold shuts, blow holes, honeycomb, cinder, or any other imperfections, and are to be sound in every respect, and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be ordered, and no extra charge will be allowed for same, and the Contractor will be required to remove the head or runner from the casting where possible in the opinion of the Chief Storekeeper, and charge the casting at the net weight only, trimmed and clean. In cases where it is necessary to cut off the head in a lathe or machine, such head will be cut off by the Corporation, and will be returned to the Railway Station nearest to the Contractor's works, and delivered to the Contractor at the said Railway Station free of cost or carriage.</i></p>					
<p><i>Whenever specially ordered, the castings shall be run from the very best "cold-blast iron" of such particular brand, quality, and mixture as may be described in the order; or of such other substituted mixture as may be approved or directed by the Chief Storekeeper, so as to produce a hard, close, soft, or other description of metal, at the option and to the satisfaction of the Chief Storekeeper.</i></p>					
<p><i>All patterns lent by the Corporation will be delivered to the Contractor at the Railway Station nearest to his works, and all such patterns must be returned to the aforesaid station by and at the expense of the Contractor in good order and condition, and must be delivered together with the castings. In the event of the non-return of any of the patterns, or of their being damaged, the price, to be fixed by the Chief Storekeeper, shall be paid by the Contractor, or may be deducted from any money due to the Contractor by the Corporation.</i></p>

IRON CASTINGS—continued.					
<p><i>Whenever only one or two castings are required under item No. 747, and, in the opinion of the Chief Storekeeper, they can be moulded from the broken originals, the Contractor will be bound to mould from such broken originals without requiring the Corporation to supply a wooden or other pattern for same, and without being allowed any extra rate.</i></p> <p><i>The whole of the patterns (other than those which may be lent to the Contractor by the Corporation in connexion with any special castings which may be ordered under item No. 748) for any castings ordered under items numbered 748 and 749 shall be provided by and at the sole expense of the Contractor, and the cost of the same shall be deemed to be included in the rate set opposite to those items. All the castings are to be of the best description, and must be dipped in a mixture of hot Trinidad asphalt and coal tar in the proportions and in the manner adopted by the Melbourne and Metropolitan Board of Works.</i></p> <p><i>No casting of less than 2 lbs. weight will be ordered under this contract.</i></p>					
747. Very best description of Sand Castings, as specified, to patterns supplied by Corporation, moulded in boxes, and dried if ordered	100 tons	A.	ton	10 8 4	Davies and Baird
748. Special Water Supply Castings of the following standard sizes, or any combination thereof:—3", 4", 6", 9", and 12", consisting of $\frac{1}{8}$, $\frac{1}{4}$, or $\frac{1}{2}$ bends, tee pieces, cross pieces and thimbles, hatch boxes, pillar hydrant bends and tees, washouts and fireplug tees, also all fire-plugs and covers, valve covers, and reducing pieces of all irregular sizes; the thickness of metal and dimensions of pipe faucets and overall dimensions to be to the Melbourne and Metropolitan Board of Works' Standard. Any special Water Supply Castings other than those above referred to in this item which may be ordered, and the patterns for which may be lent to the Contractor by the Corporation, shall also be supplied under and at the rate set opposite to this item	20 tons	A	ton	10 8 4	
749. All special Water Supply Castings other than those included in or covered by the next preceding Item, and for which the Contractor shall supply patterns	5 "	A	do.	10 8 4	Davies and Baird
STEEL CASTINGS.					
<p><i>The Contractor shall, during the currency of this contract, furnish the Chief Storekeeper with the address or addresses of the place or places at which the Steel Castings are being manufactured by the Contractor, and the Chief Storekeeper, or any person appointed by him from time to time, shall at all times during business hours have free access to such place or places, and shall be afforded every facility for inspecting the castings while in process of manufacture.</i></p>					

Item No. and Description.	Estimated Requirements for 2 Years.	—	Rate per—	Rate	Name of Contractor.
<p>STEEL CASTINGS—continued.</p>					
<p><i>The castings are to be clean, sharp, free from surface scale, shell, cold shuts, blow holes, honey-comb, cinder, or any other imperfections, and are to be sound in every respect, and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be ordered, and no extra charge will be made or allowed for same, and the Contractor will be required to remove the head or runner from the casting, where possible, in the opinion of the Chief Storekeeper, and charge the casting at the net weight only, trimmed and clean. In cases where it is necessary to cut off the head in a lathe or machine, such head will be cut off by the Corporation, and will be returned to the Railway Station nearest to the Contractor's works, and delivered to the Contractor at the said Railway Station free of cost or carriage.</i></p> <p><i>The Castings supplied under this Schedule shall be annealed until a piece cut from them or a test piece made from the same cast will bend 1 inch in 6 inches, thus:  and stand being brought back to its original shape without showing signs of fracture.</i></p> <p><i>The Contractor shall, if called upon to do so, supply a test bar 6 inches long by 2 inches square, which will be drawn out under the hammer, and then subjected to a tensile test; the minimum breaking strain to be 25 tons per square inch, with elongation of 10 per cent.</i></p> <p><i>Subject to the provisions of the next following clause, the Corporation will supply all patterns, and deliver the same to the Contractor, free of cost, at the Railway Station nearest his works. All patterns, &c., supplied by the Corporation must be returned by the Contractor in good order, and must be delivered together with the castings.</i></p> <p><i>Whenever only one or two castings are required, and they can, in the opinion of the Chief Storekeeper, be moulded from the broken originals, the Contractor will be bound to mould from such broken originals without requiring the Corporation to supply a wooden or other pattern for same, and without being allowed any extra rate.</i></p> <p><i>No casting less than 2 lbs. weight will be ordered under this contract.</i></p>

SERGE AND VENETIAN CLOTH.				
<p><i>All the Serge and Venetian Cloth must be dyed with Indigo dye.</i></p> <p><i>All the Serge and Venetian Cloth must be thoroughly dry when delivered, and must be clean scoured, and free from grease, soap, grass seeds, burrs, and all other imperfections and must be thoroughly shrunk.</i></p> <p><i>The colour of the Serge and Venetian Cloth must be true to sample and must be fast in shade, whether the sample be fast or not.</i></p>				

Item No. and Description.	Estimated Requirements for 2 Years.	Rate per—	Rate.	Name of Contractor.
SERGE AND VENETIAN CLOTH—continued.				
<p><i>The Serge or Venetian Cloth supplied from time to time will be subject to such tests as the Chief Storekeeper may think proper. The dye will be liable to be tested by lengthened exposure of the Serge or Venetian Cloth to the weather, or otherwise. For the purposes of any such tests as aforesaid the Chief Storekeeper shall be entitled, whenever he shall think proper, to cut off from any piece of Serge or Venetian Cloth supplied under this contract a portion not exceeding 9 in. in length, and to destroy such portion, and for the purposes of such tests as aforesaid the Chief Storekeeper shall further be entitled, whenever he shall think proper, to wash and dry any piece of Serge or Venetian Cloth supplied under this contract, and in the event of any Serge or Venetian Cloth being rejected, as the result of such tests, the Contractor shall not be entitled to any payment or equivalent for any Serge or Venetian Cloth destroyed or damaged in making such tests.</i></p> <p><i>One thread of pale blue must be woven into the full width of the heading of each piece of Serge and Venetian Cloth supplied. Any piece of Serge or Venetian Cloth rejected by the Chief Storekeeper will have a small piece (comprising portion of the one pale blue thread hereinbefore referred to) removed from the heading, and no piece of Serge or Venetian Cloth from the heading of which a small piece has been so removed will be subsequently received by the Chief Storekeeper under this contract.</i></p>				£ s. d.

TYPE FOR DATING MACHINES.						
*1682. Type	160 lbs.	A.	lb.	0 8 6	R. Collic and Co.	
TIMBER, VARIOUS.						
DIMENSIONS.						
(Applicable to all Items, Nos. 1683 to 1839).						
The timber must be supplied in such sections and shapes as may be ordered, and must be of the first quality, thoroughly seasoned, free from knots, shakes, heart, sap, and all other imperfections, thoroughly sound, and close grained or free, as may be required.						
No allowance will be made for waste in sawing the timber to taper or other peculiar sections or shapes.						
Timber supplied for use at the Newport Locomotive Workshops shall be delivered in such exact lengths as may be ordered, or in such lengths as will cut thereto without waste.						
Timber supplied for use elsewhere than at the Newport Locomotive Workshops, if ordered for stock, will, subject to the Conditions of Contract, be accepted in lengths approximate to those ordered, and if ordered for use on any particular work, then, in the event of any lengths longer than those ordered being delivered and accepted, only the actual lengths as ordered will be paid for, and, in the event of any lengths shorter than those ordered being delivered, they will only be accepted if such shorter lengths are suitable for the particular work, such shorter lengths to be then paid for, on the basis of their actual net lengths.						
INSPECTION.—(TIMBER FOR USE OTHER THAN AT NEWPORT LOCOMOTIVE WORKSHOPS).						
(Applicable to all Items, Nos. 1683 to 1839).						
The timber other than that required for use at Newport Locomotive Workshops will be inspected at any railway station at which such Timber shall have been delivered as provided for in clause 8 of the annexed Conditions of Contract, and will be liable to rejection at such railway station in manner provided in clause 11 of the said Conditions of Contract. The Contractor shall in respect of each delivery of such Timber give to the Chief Storekeeper reasonable notice, so that the inspection of the Timber may be arranged for.						
INSPECTION.—(TIMBER FOR USE AT NEWPORT LOCOMOTIVE WORKSHOPS).						
As regards items to be supplied by H. Beecham & Co., J. Stone, and Jas. Moore & Sons Propy. Ltd., for use at Newport Locomotive Workshops the Corporation shall have the option of inspecting either at the Contractor's yard or at Newport Workshops, as indicated by the order.						
As regards items to be supplied by J. Henty & Co. for use at Newport Locomotive Workshops the inspection will in every case be made at Newport.						
As regards items to be supplied by Millars' Karri & Jarrah (1902) Ltd. for use at Newport Locomotive Workshops the inspection shall be made at the Contractor's yard or at the River Yarra wharves.						

Item No. and Description.	Estimated Requirements for 2 Years.	—	Rate per—	Rate.	Name of Contractor.
				£ s. d.	
TIMBER, VARIOUS— <i>continued.</i>					
If the timber is to be inspected at Newport it will be liable to rejection at Newport in manner provided in clause 11 of the said Conditions of Contract.					
Notwithstanding anything to the contrary contained in the said clause 11, the Contractor will not be required in respect of any Timber so rejected at Newport to pay carriage on the same from the railway station at which such Timber so rejected shall have been delivered as aforesaid to Newport. In the event of the Contractor requiring such rejected Timber to be carried by rail from Newport to the railway station at which the same was delivered as aforesaid or to any other railway station or siding, full railway freight will be charged therefor.					
If the inspection is to be made at the Contractor's yard or River Yarra wharves, the timber will be there inspected, passed and branded by the Receiving Officer, and the Contractor shall, unless directed to the contrary by the Receiving Officer, within twenty-four hours after such inspection, passing and branding, deliver to the Corporation at Spencer-street Railway Station the whole of the Timber so inspected, passed and branded, and failing such delivery within the twenty-four hours aforesaid, the Chief Storekeeper, notwithstanding such inspection, passing and branding, by the Receiving Officer, will be entitled and shall have full power to reject either at the Contractor's yard or after its arrival at Newport, the whole or any portion of the Timber in respect of which such failure shall have occurred.					
The Contractor shall have the Timber ordered ready for inspection within forty-eight hours after service of the order upon the Contractor, or within such other time as the Chief Storekeeper may fix in writing as fair and reasonable, and the Contractor shall at his own cost have the Timber turned over and properly exhibited to the Receiving Officer, so that he may inspect the same to his complete satisfaction.

TASMANIAN STRINGY BARK.					
<p><i>The Contractor shall in respect of each delivery of the timber give to the Chief Storekeeper reasonable notice, so that the inspection of the timber may be arranged for.</i></p>					
<p><i>The timber other than that required for use at Newport will be inspected at any railway station at which such timber shall have been delivered, as provided for in clause 8 of the annexed Conditions of Contract, and will be liable to rejection at such railway station in manner provided in clause 11 of the said Conditions of Contract. No timber required for use at Newport will be inspected until it shall have been received at Newport, and it will then be liable to rejection at Newport in manner provided in clause 11 of the said Conditions of Contract. Notwithstanding anything to the contrary contained in the said clause 11, the Contractor will not be required in respect of any timber so rejected at Newport to pay carriage on the same from the railway station at which such timber so rejected shall have been delivered as aforesaid to Newport. In the event of the Contractor requiring such rejected timber to be carried by rail from Newport to the railway station at which the same was delivered as aforesaid or to any other railway station or siding, full railway freight will be charged therefor.</i></p>					
<p><i>The timber must be supplied in such lengths, sections, or shapes as may be ordered, and must be of the first quality, thoroughly seasoned, free from knots, shakes, heart, sap, and all other imperfections, thoroughly sound, and close grained or free, as may be required.</i></p>					
<p><i>Timber supplied for use at the Newport Locomotive Workshops shall be delivered in such exact lengths as may be ordered, or in such lengths as will cut thereto without waste.</i></p>					
<p><i>Timber supplied for use elsewhere than at the Newport Locomotive Workshops, if ordered for stock, will, subject to the Conditions of Contract, be accepted in lengths approximate to those ordered, and if ordered for use on any particular work, then, in the event of any lengths longer than those ordered being delivered and accepted, only the actual lengths as ordered will be paid for, and, in the event of any lengths shorter than those ordered being delivered, they will only be accepted if such shorter lengths are suitable for the particular work, such shorter lengths to be then paid for on the basis of their actual net lengths.</i></p>					
<p><i>The Contractor shall have a responsible agent in Melbourne to represent him in all matters connected with this Contract. At all times during the currency of this Contract the Contractor shall keep the Chief Storekeeper advised as to the name and address of the said responsible agent for the time being.</i></p>

STONEWARE DRAIN PIPES, ETC.					
<i>Delivered, properly loaded and stacked, in trucks at South Brunswick Railway Station.</i>					
<i>The pipes shall be of salt glazed vitrified stoneware; they shall be made of plastic clay, thoroughly worked, containing a large proportion of silica, but free of limestone or lime. Each pipe shall be of uniform and suitable composition, and shall ring with a well-defined sound when struck with a wooden mallet. The pipes shall be well burnt, completely vitrified, and free from splits, cracks, inequalities, and all other defects, and shall be uniformly and thoroughly glazed over the whole of the inside and outside with salt glaze. All pipes, bends, and junctions shall be made to the exact forms, angles, and dimensions ordered. The pipes must have their spigot and socket ends accurately formed at right angles to the direction of the bore, which shall be of uniform circular section throughout. All straight pipes and junctions must measure 2½ inches net from the bottom of the socket to the end of the spigot, unless otherwise ordered, and all bends must measure 2½ inches along the circumference of the central radius. All pipes may be tested by the Chief Storekeeper in such manner as he may think proper, and any pipes which fail to pass any such test will be rejected. Items marked (M) will require to be tested by the Melbourne and Metropolitan Board of Works, and must bear that Board's test mark before delivery.</i>

MINERAL LUBRICATING OILS.

The Oils must, in the opinion of the Chief Storekeeper, be in every way in accordance with the samples, suitable for lubrication of locomotive engines, and carriages and waggons, and free from all impurities and foreign matters, objectionable acids, gumminess, or other defects. The three (3) classes of Oil required are referred to respectively as "Class No. 1," "Class No. 2," and "Class No. 3," and shall be supplied in casks distinctly branded "Class 1," "Class 2," or "Class 3," as the case may be, and each of such classes must comply with the Conditions set against it hereunder as follows:—

	FLASH POINT.	CONGEALING POINT.	VISCOSITY IN SECONDS PER 50 C. C. VOLUME.
Class No. 1 ..	Must not flash at a lower temperature than 550 degrees Fahrenheit.	Must not solidify at a higher temperature than 40 degrees Fahrenheit.	Must not exceed 114 at a temperature of 74 degrees Fahrenheit and must not be less than 2.5 at 212 degrees Fahrenheit.
Class No. 2 ..	Must not flash at a lower temperature than 500 degrees Fahrenheit.	Must not solidify at a higher temperature than 30 degrees Fahrenheit.	Must not exceed 130 at a temperature of 74 degrees Fahrenheit and must not be less than 2 at 212 degrees Fahrenheit.
Class No. 3 (for Carriages, Waggon, and Tenders, &c.)	Must not flash at a lower temperature than 320 degrees Fahrenheit.	Must not solidify at a higher temperature than 26 degrees Fahrenheit.	Must not exceed 15 at a temperature of 74 degrees Fahrenheit and must not be less than 2 at 140 degrees Fahrenheit.

The flash test will be determined by an "Abel's" Close Test Instrument; the fluidity at low temperature by a "Tagliabue's" Instrument; and the viscosity by a "Redwood's" Viscometer (viscosity of filtered water being 1). The tests will be made with instruments similar to those exhibited in the Contractor's Room, No. 1 Railway Offices, Spencer-street. All tests of the Oils will be made by the Chief Mechanical Engineer, whose decision shall be final.

Item No. and Description.	Estimated Requirements for 2 Years.	Rate per—	Rate.	Name of Contractor.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is essential for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent and reliable data collection processes to support informed decision-making.

3. The third part of the document focuses on the role of technology in data management and analysis. It discusses how modern software solutions can streamline data collection, storage, and reporting, thereby improving efficiency and accuracy.

4. The fourth part of the document addresses the challenges associated with data management, such as data quality, security, and privacy. It provides strategies to mitigate these risks and ensure that data is used responsibly and ethically.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It stresses the importance of ongoing monitoring and evaluation to ensure that data management practices remain effective and aligned with the organization's goals.
