CONTRACTS NOS. 1911/448 TO 1911/450.

Schedule No. 5.

CASTINGS (IRON, BRASS, GUN METAL, AND STEEL).

(Manufactured within the Commonwealth.)

Contract from 1st July, 1911, to 30th June, 1914.

1911/448—H. M. Clemenger Security £30
 1911/449—Holden and Lewis " £20
 1911/450—John Danks and Son Pty. Ltd. .. £10

SPECIFICATION FOR CASTINGS.

1. Castings of a special character other than those provided for under this Schedule may be obtained locally without infringing this Contract.

2. All castings are to be clean, sharp, free from surface scale, shell cold shuts, blow holes, honey-comb, cinder, or any other imperfections, and are to be sound in every respect, and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be ordered, such heads and runners to be cut off by the Contractor before delivery is made, and the charge for the casting must be at the net weight only, trimmed and clean.

3. Whenever specially ordered, the iron castings shall be run from the very best "cold-blast iron" of such particular brand, quality, and mixture as may be described in the order; or of such other substituted mixture as may be approved or directed by the officer of the Department ordering, so as to produce a hard, close, soft, or other description of metal, at the option and to the satisfaction of the officer ordering.

4. Whenever castings are required, and, in the opinion of the officer ordering, they can be moulded from the broken originals, the Contractor will be bound to mould from such broken originals without requiring the Government to supply a wooden or other pattern for same, and without being allowed any extra rate.

5. All patterns lent by the Government will be delivered to the Contractor at his works, and all such patterns must be returned by and at the expense of the Contractor in good order and condition, and must be delivered together with the castings. In the event of the non-return of any of the patterns, or of their being damaged, the price, which will be fixed by the officer ordering, shall be paid by the Contractor, or may be deducted from any money due to the Contractor or from his security money.

6. The Contractor shall, during the currency of this contract, furnish the officer ordering with the address or addresses of the place or places at which the steel castings are being manufactured by the Contractor, and the officer ordering, or any person appointed by him from time to time shall at all times during business hours have free access to such place or places, and shall be afforded every facility for inspecting the castings while in process of manufacture.

No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the Castings, &c., tendered for in this schedule shall not exceed 48 per week, and every such person shall be paid such wages and shall be employed subject to such conditions as are or may be determined by the Iron and Brasmoulders Board under the Factories and Shops Act; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects. The Contractor shall, before any account is passed for payment for services rendered, furnish a statutory declaration that all the workmen under this contract have been employed in accordance with clause 7 of these conditions, and have been paid not less than the minimum rate of wages for such workmen as is provided for under that clause.		
	TESTS FOR CASTING—STEEL.		
	8. The steel castings supplied under this schedule shall be annealed until a piece cut from them or a test piece made from the same cast will bend 1 inch in 6 inches, thus:  and stand being brought back to its original shape without showing signs of fracture.		
	9. The Contractor shall, if called upon to do so, supply a test bar 6 inches long by 2 inches square, which will be drawn out under the hammer, and then subjected to a tensile test; the minimum breaking strain to be 25 tons per square inch, with elongation of ten per cent.		
	TESTS FOR CASTINGS—IRON:		
	10. When required, three iron test bars 3 ft. 6 in. long, 2 inches deep and 1 inch wide, shall be supplied, cast on edge in dry mould, and cast from the same metal as the casting; these bars to be tested as follows:—The lower side of the casting to be placed downwards upon rigid bearings with a 3 feet span, each bar to deflect not less than 3-10ths of an inch, with a load of 25 cwt. in centre, having a bearing not more than 1 inch wide upon the bar, to break with a minimum load of 25 cwt., and an average upon three bars of not less than 30 cwt.

Oils, tinctures, decoctions, infusions, and liquid preparations generally must be delivered in oval glass bottles. Fuming and other acids, spirits of ammonia, and deliquescent salts must be delivered in bottles having ground-glass stoppers when so ordered.			
In cases where special manufactures are mentioned in the schedule, the contractor will be bound to supply the goods in the original packages, having thereon the maker's label or other trade mark, as a guarantee of the genuineness of the goods so supplied.			
All articles must be of the best quality of the several kinds, and all preparations and compounds are to be those of the new "British Pharmacopœia," unless otherwise specially ordered.

Samples of the filters must be adjusted and fixed on the premises of the Tenderer at the time of tendering, for inspection and test, if necessary, as to their quality and efficiency.			
Preference will be given to Filters which are germ proof, i.e., to such Filters as shall, when used as directed in the specification accompanying the tender, produce as the result of filtration a germ-free effluent, and the tender must be accompanied by a certificate from an accredited bacteriologist to that effect.			
Tenderers are recommended to submit their Filters to the University Bacteriological Laboratory for certificate, and preference will be given to tenders accompanied by such a certificate.			
Tenders must also be accompanied by precise and detailed directions for use, the carrying out of which will insure a pure filtrate.			
To be properly packed for transit, when required, without extra charge.

LEATHER.

(Manufactured within the Commonwealth.)

SPECIFICATION.

All Leather must be of the best quality, free from adulterants or excessive dressing of any kind, and must not be unduly blemished by brands, cuts, &c.

No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the articles tendered for in this schedule shall not exceed 48 per week, and every such person shall be paid such wages and shall be employed subject to such conditions as are or may be determined by the Tanners Board under the Factories and Shops Act; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

LOCKS AND KEYS.

(Manufactured within the Commonwealth.)

All Articles to Sample.

No subletting will be allowed; all work must be carried out in the factory of the contractor, the hours of employment of any person engaged in the manufacture of the Locks, &c., tendered for in this sub-schedule shall not exceed 48 per week, and every such person shall be paid at a minimum wage of not less than 10s. per day, and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money; and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

The Contractor shall, before any account is passed for payment for services rendered, furnish a statutory declaration that all the workmen under this contract have been employed in accordance with clause 12 of these conditions, and have been paid not less than the minimum rate of wages for such workman as is provided for under that clause.

Articles marked Asterisk (*) to sample at Tender Board Offices.

All oils must be of the best quality, perfectly free from sediment or other deleterious substances, and subject to the approval of the officer ordering. With the exception of items 3, 20, 27, 31, 32, 33, and 38, oils must be supplied, if so required, in 5 or 10 gallon drums, and no extra charge will be allowed for such drums. Kerosene drums or other receptacles, however, under this Schedule remain the property of the Contractor. Castor Oil must be supplied in tins containing 4½ gallons, or 4 tins containing 17 gallons to the case. Kerosene not in bulk must be supplied in cases at 8 or 8½ gallons to the case, each full tin containing 4 or 4½ gallons. When single tins are ordered, cases must also be provided. Kerosene for outlying districts may be purchased locally without infringing this contract.

A sample of the Batching Oil intended for supply must be submitted for the approval of the Inspector-General of Penal Establishments before delivery of each consignment is made.

In the case of the Cylinder Oils the prices are for various grades.

† Except for supplies for State Coal Mine.

	OIL—KEROSENE. (For Light-houses only.) (Imported.) Contract from 1st July, 1911, to 30th June, 1914. 1911/563—James Service and Co.—Security, £25. The Oil must be supplied in tinned iron drums, each to hold 10 gallons, or in cases and tins similar to those used for kerosene, or in casks, as the Department may elect. The Oil to be supplied under this schedule is to be of the best possible quality; the greatest care must be taken in its preparation, and it must be perfectly free from Sulphuric Acid. The Oil must have a specific gravity of not less than '810 nor greater than '820 at 60° Fahrenheit, its flashing point not lower than 200° Fahrenheit. The illuminating power of the Oil supplied must be equal to that of the best Colza Oil when consumed in a Trinity House Argand lamp. The Oil supplied must be of a quality equal to that of the sample provided by the Ports and Harbors Department. The Oil must be supplied and delivered in two or more shipments annually, but the contractor must deliver not less than half the total annual quantity on or before the 30th November, and the balance on or before the 30th April of each year. The Oil must be delivered at the Dockyard, Williamstown, and shall be subject to the approval of the Engineer in Charge of Ports and Harbors, or any other officer whom he may authorize to accept delivery. The Oil supplied must be strictly in accordance with the above Specification.

	<i>White Lead, &c.</i>		
	In packages, as ordered.		
	<i>Specification for White Lead.</i>		
	The White Lead must be finely ground in the best quality of pure linseed oil, the proportion of which must not exceed seven and one half per cent. of the weight.		
	The surface of the lead when exposed to the air without water on the top of the lead shall not become brittle or crumbly after seven days' exposure.		
	The White Lead is to be of the best quality. The process by which it is made shall be branded on the packages in which the White Lead is delivered.		
	White Lead made by the Stack Process shall consist of Lead carbonate, and not less than 25 per cent. (25%) of Lead hydrate, as determined by analysis on the pigment freed from oil. The proportion of lead in dry white lead after the removal of the oil, when calculated to metallic lead shall not be less than seventy-eight (78) per cent. equal to oxide of lead eighty-four (84) per cent.		
	Quantities of White Lead for testing may be taken out of any of the drums or kegs supplied, and then mixed together and analyzed.

	TENTS AND FLYS—(CALICO AND DUCK).		
	(Manufactured within the Commonwealth.)		
	Contract from 1st September, 1909, to 30th June, 1912.		
	All items to sample at Tender Board Offices.		
	SPECIFICATIONS.		
	All Tents and Flys, which must be complete with necessary ropes and of the sizes mentioned hereunder, shall be supplied strictly in accordance with the samples at the Tender Board Office, well made and machine stitched, except eyelet holes, which must be hand stitched.		
	The Duck Tents and Flys must be made of pure flax linen duck. Item 3 must have ridge band and door flap, with clasps, and Item 6 a ridge band, as shown on the samples.		
	All supplies shall be subject to the approval of the Secretary for Public Works, or such other officer as may be appointed, and if defective in workmanship or inferior in quality of material will be absolutely rejected.		
	The contractor will be required, in order to meet emergencies, to keep 100 each of items 1 and 4 in stock, and supply same on demand when required.		
	No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the Tents and Flys tendered for in this Schedule shall not exceed 48 per week; and every such person shall be paid at a minimum wage of not less than 48s. per week for a man, and £1 for a woman respectively; and a copy of these conditions shall be kept conspicuously and continually posted, in legible Roman characters, in the factory (and in each part of the factory where several rooms are in use) in which the articles are stitched and made up under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money; and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

CONTRACTS Nos. 1909/396 AND 1909/397.				
Schedule No. 24.				
TINWARE, ETC.				
(Commonwealth Manufacture.)				
Contract from 1st July, 1909, to 30th June, 1912.				
1909/396—John Fisher, jun. and Co. Security, £28				
1909/397—Kemp and Sheehan £5				
All Items to Sample (at Tender Board Offices).				
All Measurements are insides.				
For the Hospitals for the Insane the tinware goods are to be made of Dxxxx best charcoal tin, and the galvanized-iron goods of Queen's Head, Orb, or Redcliffe brand, of No. 20 standard gauge iron, except for item 40, the supplies for which must be made of black iron galvanized. Brass wire is to be used for the brass and tin domestics, tinned wire for the remainder of the tinware, and galvanized wire for the galvanized goods. The joints of the wire in all cases must not be near the seams of the article, even though in this respect the samples may be faulty. All items, with the exception of Nos. 2, 3, 4, 33, 38, 40, 43, 44, and 45, are to sample for Hospitals for the Insane.				
Cash Boxes to be stamped "G.P.O.," &c., as required.				
The contractor will be allowed a reasonable time, and, in the case of orders for the larger institutions, a period of one month from the receipt of each order to complete the delivery.

CONTRACT No. 1911/631.

Schedule No. 49.

VENETIAN BLINDS.

Contract from 1st July, 1911, to 30th June, 1914.

1911/631.—Carr and Sons Security. £5.

No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the manufacture of the Venetian Blinds, &c., tendered for in this Schedule shall not exceed 48 per week, and every such person shall be paid at a minimum wage of not less than 9s. per day, or such other wages, and subject to such conditions as are or may be determined by any special Board which may be appointed during the currency of the contract under the Factories and Shops Acts; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulet, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

In the event of the orders not receiving prompt execution, i.e., within a reasonable time from the date of the order, it shall be in the power of the Tender Board, on report from the Secretary for Public Works, to inflict such penalty per day as it may consider necessary to inflict.

The Contractor shall, before any account is passed for payment for service rendered, furnish a statutory declaration that all the workmen under this contract have been employed in accordance with the above clause of the conditions, and have been paid not less than the minimum rate of wages for such workmen as is provided for under that clause.

All work in connexion with Blinds must be carried out strictly in accordance with the specifications printed on the following page.

SPECIFICATION FOR VENETIAN BLINDS.

OUTSIDE VENETIAN BLINDS.

Frames.—The frames to be constructed of clear pine, wrought throughout, with 1-in. jambs and soffits dove-tailed at joints, and $\frac{3}{4}$ -in. front and back linings, securely put together. The outside linings to be finished all round with small clear pine moulding mitred at angles, and the frames to be accurately fitted to openings with any cutting to shape required, and to be securely screwed to plugs in reveals. The head linings to be made to form casings of sufficient depth to entirely cover the blinds when drawn up, and the fronts of same to be divided into ornamental panels of approved patterns by means of selected mouldings planted on; the lower edges of outside head linings to be escalloped to approved pattern.

Blinds.—The laths, pulley bearers, and top and bottom laths of clean clear pine wrought throughout, and all laths to be $2\frac{1}{2}$ inches wide and spaced not more than 2 inches apart; pulley bearers to be $1\frac{1}{2}$ inch thick, to be properly mortised to receive pulleys, and to be neatly grooved for cords; top and bottom laths to be $\frac{5}{8}$ inch thick and intermediate laths $\frac{5}{16}$ inch thick, and all edges to be neatly rounded.

Blinds to be hung with all necessary brass pulleys, lignum vitæ or other approved drums, approved linen web ladder tapes, and 4-lb. best patent white cords, and to be provided with Young's patent cord-holders, or, when ordered, 6-in. double brass plate hooks. Blinds to be provided with brass pulleys, so that they may be raised and regulated from inside the rooms. Blinds up to 3 ft. 6 in. in width to have two lines of tapes and cords, and over that width three lines.

Painting.—The whole of the woodwork of blinds and frames to be primed with red lead and raw linseed oil, and to be then painted three coats of the best oil colour, composed of white lead, raw linseed oil, colour, turpentine, and dryers; the painting to be rubbed down with glass paper between the coats, and to be finished in selected tints. The last coat but one to be slightly darker than the tint selected for the finishing coat, and the last coat to be a coat of flatting. The whole to be once varnished with the best English pale copal varnish.

Repairing, &c., old blinds.—Repairing old blinds is to include taking down, washing, painting two coats of oil colour as before described and once varnishing both blinds and frames, providing and fixing approved new linen web ladder tapes and 4-lb. best patent white cords, and securely refixing and putting in working order.

INSIDE VENETIAN BLINDS.

Inside Venetian Blinds to be as above described for Outside Blinds, except that they are to be made of California red pine without frames.

Repairing, &c., old blinds.—Repairing old blinds is to include taking down, washing, painting two coats of oil colour as before described and once varnishing, providing and fixing approved new linen web ladder tapes and 4-lb. best patent cords, and securely refixing and putting in working order. Any old galvanized iron brackets to be made thoroughly secure, and new galvanized iron brackets to be supplied and fixed where required.

MATERIALS FOR ABOVE.

Materials.—The clear pine and red California pine for all blinds are to be sound, dry, and well seasoned; and the whole of the materials are to be of the best of their respective kinds, free from all defects equal to samples to be seen at the Department of Public Works, and to be subject to the approval of the Superintending Officer. Blinds to be made generally to correspond with samples to be seen at the Public Offices.

Fitting and fixing.—Where the building for which the blinds are required is within a radius of 8 miles from the General Post Office the contractor will be required, when ordered to fix the blinds, to take his own dimensions, to properly fix the blinds either under soffits of windows or on approved galvanized-iron brackets, securely screwed, and to make good any damage done to the buildings.

Packing for transit to country.—Where the building for which the blinds are required is beyond a radius of 8 miles from the General Post Office the contractor will be required, when ordered to pack the blinds for transit to the country, to provide proper packing cases and to securely pack the blinds, and to deliver them complete and perfect and ready for fixing at such railway station or other forwarding agency in Melbourne as may be directed.

Generally.—All blinds must be examined and passed by an officer of the Public Works Department before they are paid for.

All blinds to be made and painted on the contractor's premises, which must be within a reasonable distance of the city of Melbourne; and every facility must be afforded the officers of the Public Works Department for examining the work at any time previous to its delivery.

The contract for repairing, &c., only applies to buildings within the radius above mentioned.

The Government reserves the right, when erecting new buildings or when making additions or repairs to buildings outside the radius above mentioned, of including any Venetian Blinds required in the general contract for such building, additions, or repairs.

	The price quoted must cover cost of branding the Wrappers with name of exporting steamer, or any other brand, as may be required. All supplies to be delivered by Contractor at the Government Cool Stores within 30 hours after receipt of order.		
	The Agriculture Department guarantees to take the quantity specified hereunder. The contractor will, however, be bound to supply an additional 25 per cent., if required, at schedule rates, and also have the option of supplying any further requirements during the period of the contract at contract rates. In the event, however, of the Contractor refusing to supply the extra requirements over and above the 25 per cent., fresh tenders may be invited.		
	No subletting will be allowed; all work must be carried out in the factory of the contractor; the hours of employment of any person engaged in the making up of the wrappers tendered for in this schedule shall not exceed 48 per week, and every such person shall be paid at a minimum wage of not less than £2 2s. for a man and 16s. for a woman per week respectively, unless other wages and conditions may be determined by any Special Board under the Factories and Shops Acts which may be appointed for this trade during the currency of the contract, when every such person shall be employed at such wages and subject to such conditions as may thus be determined; and a copy of these conditions shall be kept conspicuously and continually posted in legible Roman characters in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.		
	The contractor shall, before any account is passed for payment for services rendered, furnish a statutory declaration that all the workmen under this contract have been employed in accordance with the above clause of these conditions, and have been paid not less than the minimum rate of wages for such workmen as is provided for under that clause.
