[1912.]

THE WEARING OF ORDERS, MINIATURE DECORATIONS, AND MEDALS WITH EVENING DRESS.

THE subjoined Despatch, which has been received by His Excellency the Governor from the Right Honourable the Secretary of State for the Colonies, and its enclosure, are published for general information.

W. A. WATT,  
Premier.

Premier's Office,  
Melbourne, 17th August, 1912.

Victoria.

Circular.

Regulations, 13th June, 1912.

Downing-street, 3rd July, 1912.

SIR,

I HAVE the honour to transmit to you for your information Regulations issued from the Lord Chamberlain's Office defining the occasions when Orders, Miniature Decorations, and Medals are to be worn with Evening Dress.

2. I have received a ruling from the same source to the effect that it is incorrect for a civilian to wear in miniature the insignia of a Knight Grand Cross, Knight Grand Commander, Knight Commander or Commander of the Orders of the Bath, Star of India, Saint Michael and Saint George, Indian Empire, and Royal Victorian Order. The Regulations which exist with regard to the wearing in miniature of insignia of the higher classes of Orders are only applicable to naval and military officers.

3. The new Regulations do not specially provide for the procedure in the various Government Houses of the over-sea possessions of the Crown, which are, of course, supposed to reflect exactly the practice of His Majesty's Court; but it will be well that you should guide yourself by the practice laid down for observing due courtesy in the case of Ambassadors and Ministers accredited to the Court of St. James.

I have the honour to be, Sir,

Your most obedient humble servant,

L. HARCOURT.

The Officer Administering the Government of Victoria.  
No. 124.—August 21, 1912.—11046.—1.

BY HIS MAJESTY'S COMMANDS THE FOLLOWING REGULATIONS WILL SUPERSEDE THOSE ISSUED IN MAY, 1911, DEFINING THE OCCASIONS WHEN ORDERS, MINIATURE DECORATIONS, AND MEDALS ARE TO BE WORN WITH EVENING DRESS.

1. At all Parties and Dinners when any Member of the Royal Family is present, Riband, Stars, and Miniature Decorations and Medals will be worn.

2. At all Parties and Dinners given in the houses of Ambassadors and Ministers accredited to this Court, Riband, Stars, and Miniature Decorations and Medals will be worn. The Decoration of the Country concerned should be worn in preference to the English one, and if both are worn, the former should take precedence of the latter.

For informal or private dinners at an Embassy or Legation, when the Ambassador or Minister does not wish decorations to be worn, the Ambassador or Minister will be asked to make a notification to that effect on the invitation card.

3. On official occasions at the house of the Lord Lieutenant of a County within his county, and at all parties and dinners given by the Lord Mayor at the Mansion House and Guildhall, Riband, Stars, and Miniature Decorations and Medals will be worn.

4. At all Parties and Dinners of an official nature given in the houses of Cabinet Ministers, Ex-Cabinet Ministers, Knights of the Garter, Knights of the Thistle, Knights of St. Patrick, or Great Officers of the Household, Stars, not Riband,\* will be worn.

5. At all Official Dinners and Receptions, including those of the City Livery Companies and City Corporations, Regimental Dinners, Official Naval Dinners, and all public Dinners given in aid of Charitable Institutions, Stars, not Riband,\* will be worn.

6. At unofficial Dinner Parties or Evening Receptions in private houses, Knights of the Garter, Knights of the Thistle, or Knights of St. Patrick should wear a Star only.

7. These are the only occasions on which Decorations and Medals will be worn with Evening Dress.

N.B.—\* The expression "Stars, not Riband," means:—

For Knights Grand Cross, Stars, no Riband.

For Members of the Order of Merit, Badge and Riband round the neck.

For Knights-Commanders, Stars, no Badge round the neck.

For C.V.O.'s, Badge and Riband round the neck.

For all Classes, Miniature Medals and Decorations.

Lord Chamberlain's Office, St. James's Palace, S.W.,  
13th June, 1912.

*Ballarat—Stawell—Horsham line.*—On 31st August, 2nd, 3rd, 4th, 5th, 6th, and 7th September, a special express train will leave Horsham for Melbourne at 2.15 a.m., stop at Murtoa (2.47), Stawell (3.52), Ararat (4.30), Beaufort (5.32), Ballarat (7), and arrive Melbourne at 9.49 a.m. On 30th and 31st August, 2nd, 3rd, 4th, and 7th September, the 4.13 p.m. train Ararat to Melbourne will run in two divisions, the first leaving Ararat at 3.55 p.m., stopping only Beaufort, Ballarat, Ballarat East, Bacchus Marsh, Melton, and Deer Park, and reach Melbourne at 9.28 p.m. The second division will leave Ararat at 4.20 p.m., stopping at usual stations. On 31st August, the 10.50 a.m. train Ballarat to Melbourne will run in two divisions,

the first leaving at 10.55 a.m., stopping only Ballarat East, Ballan, and Bacchus Marsh, and reaching Melbourne at 1.51 p.m. The second division will leave at 11.20 a.m., stop at all usual stations, and reach Melbourne at 2.42 p.m. On 31st August, 2nd, 3rd, 4th, 5th, 6th, and 7th September, the 6.45 a.m. train from Ballarat will be altered to leave at 7 a.m. instead, and reach Melbourne at 9.49 instead of 9.26 a.m. On 2nd, 3rd, 4th, 7th, and 9th September, a second division of 7.40 a.m. down train will leave Melbourne for Ararat at 8.10 a.m., stopping at same stations as 7.40 a.m. Only passengers for stations beyond Ararat and for Portland, Waubra, Linton, and Cressy lines may travel by 7.40 a.m., and those for all stations up to Ararat are to travel by 8.10 a.m. on these dates. On 7th September, a special express will leave Melbourne for Horsham at 4.10 p.m., taking passengers for Ballarat, Beaufort, Ararat, Stawell, and Horsham. The usual 4.30 p.m. Adelaide express will leave at 4.40 p.m. on that date. On 30th and 31st August, 2nd, 3rd, 4th, 5th, and 6th September, the 5.8 p.m. Ballarat train will be run on to Horsham, and on 7th, 9th, 10th, and 11th September, to Stawell. Passengers for these stations will require to travel by this train instead of the 4.30 p.m. Adelaide express on these dates.

**Bacchus Marsh—Melton line.**—From 2nd to 7th September inclusive an extra train will leave Bacchus Marsh for Melbourne at 8.17 a.m., stopping all stations. The up express train will not pick up passengers at Bacchus Marsh or stop at Parwan, Melton, Rockbank, or Deer Park; the 8.17 a.m. special will take these passengers on above dates.

**Hopetoun—Warracknabeal line.**—On Monday, 2nd September, an extra train will leave Hopetoun at 8.30 a.m.; Beulah at 9.15 a.m.; and Warracknabeal at 10.25 a.m. for Murtoa, connecting with the ordinary train for Melbourne; and on Monday, 2nd September, the usual 9.30 a.m. train from Warracknabeal will leave for Murtoa at 10.25 a.m. instead, connecting with the usual train from Murtoa to Melbourne.

**Port Fairy line.**—On 30th and 31st August, 2nd, 3rd, and 7th September, two divisions of the evening train will leave Camperdown for Melbourne at 5.35 and 5.50 p.m., the first stopping only at Colac, Birregurra, Moriac, and Geelong; the second stopping at usual stations. On 7th September the 11 a.m. train Melbourne to Geelong and the 3.25 p.m. train Melbourne to Colac will both be run on to Camperdown, stopping all stations between Geelong and Camperdown for passengers returning from show. On Saturday, 7th September, a special train will leave Melbourne for Geelong at 6.40 p.m., stopping only at Werribee and North Geelong.

**Werribee—Laverton line.**—From 2nd till 7th September inclusive, an extra train will leave Werribee at 8.40 a.m., and Laverton at 8.52 a.m. for Melbourne. Passengers are recommended to travel by this train in preference to the train following from Geelong.

E. B. JONES, Acting Secretary.

## THE MELBOURNE AND METROPOLITAN BOARD OF WORKS.

### REGULATIONS.

THE Melbourne and Metropolitan Board of Works (hereinafter called the Board) pursuant to and in exercise and execution of the powers and authorities conferred on such Board by the Melbourne and Metropolitan Board of Works Acts and by any Acts incorporated therewith, and in exercise and execution of any other powers and authorities in any wise enabling the said Board in that behalf, doth hereby make and prescribe the following Regulations, that is to say:—

1. From and after the date of these Regulations coming into operation, the Regulations known as or contained in By-law No. 9 shall be and the same are hereby repealed, and in lieu thereof the following shall be the Regulations relating to water-closets, drains, appliances, apparatus, and connexions with sewers of the Board, and otherwise incidental thereto within the area under the control of the Board, provided that such repeal shall not affect any licence issued or any act or thing authorized and commenced to be done under the provisions of the said former Regulations.

2. All connexions of plumbing work, drains, or sewers with the sewers of the Board, and all work connected in any way with the drainage of any premises, shall be executed in accordance with these Rules and Regulations.

3. All drains in and from properties to and as far as the point of connexion of the branch drain with the sewer must be repaired and cleansed by, or at the cost of, the occupier.

4. **Preparation of Plans and Method of Carrying out House Connexion Work.**—All the works of sewerage and drainage must be carried out in accordance with the provisions of the Acts.

In case of any obstruction taking place in a combined drain the Board will determine between the respective owners or occupiers of the premises drained thereby by whom and in what proportion the cost of removing any such obstruction shall be paid.

Every person who, by a notice from the Board, issued in accordance with the Acts, shall be required to do or not to do anything, including a requirement to make any sewer or drain, or branches, works, or arrangements for the better sewerage or draining of his house, building, or ground, and who fails to comply with such notice, will become guilty of an offence against the Acts, and for every such offence, unless some other penalty be prescribed by the Acts, he will be liable to a penalty not exceeding Twenty pounds, and to a penalty not exceeding Five pounds nor less than One pound for each day during which such offence is continued by him, besides any costs or expenses which may be incurred in taking proceedings against him, as well as any costs or expenses which may be incurred in remedying any default of his, and such penalty, costs, and expenses will be recoverable, notwithstanding that the Board may not have chosen to exercise any power given to it by the Acts to remedy such default.

With a view to obviate the incurring of liability to such penalties, the Board will, in exercise of its powers and duties, contract and agree with the owners of houses, buildings, or ground to perform any work which may be required to be done by any notice issued by the Board to any owner, on terms hereinafter stated.

The owner of each and every property which or any part of which abuts on any street or part of a street in which a sewer has been laid, if there be any houses or buildings on such property, shall within such time as shall be specified in the Further General Notice which the Board shall have caused to be served upon him, or within such further time as the Board may allow, provide such proper water-closet or water-closets, drains, appliances, apparatus, and connexions with such sewer of the Board as are then prescribed by Regulations of the Board.

Within one month after the date specified in the said Further General Notice, or within such further time as the Board may either before or after the expiration of one month allow, every such owner shall—

- (a) submit for the approval of the Board a plan in duplicate, one copy to be subsequently returned to the owner approved or amended as the case may be, for providing such property with such water-closet or water-closets and such drains, appliances, apparatus, and connexions fitted and laid in such manner as may be prescribed by the Regulations of the Board or any modification thereof which the Engineer-in-Chief of the Board on written application made to him shall in writing under his hand approve, and such owner shall in writing undertake to carry out such plan within one month or such further time as the Board may in writing allow if the same is approved by the Board.

(b) submit for the approval of the Board a plan in duplicate as aforesaid, and in writing request the Board if it approves thereof to give an estimate of the cost and expense thereof, and thereupon the Board will do so; or in writing request the Board to prepare a plan as aforesaid and give an estimate of the cost and expense thereof, and thereupon the Board will do so. As soon as the Board gives such estimate such owner shall in writing undertake to carry out such plan within one month, or such further time as the Board may allow, or shall in writing request the Board to carry out the same at the cost and expense of the said owner for the estimated amount, and thereupon the Board will do so.

If within such one month or such further time any such owner have not complied with any of the foregoing requirements, or if after undertaking so to do any such owner have not within the limited time provided such water-closet or water-closets and such drains, appliances, apparatus, and connexions as aforesaid, then the Board may order such owner to comply with such of the requirements of the said Further General Notice as it deems to be necessary or may carry out such undertaking (as the case may be), and such order shall be deemed to be an order within the meaning of section 110 of the principal Act.

In the event of the Board carrying out the work of providing such water-closet or water-closets and such drains, appliances, apparatus, and connexions, the Board will, at its own cost and expense, keep and maintain the same in good repair for a period of twelve months from the time of completing the said work, unless the necessity for such repair is caused by the wilful act or negligence of the owner or occupier.

At the request in writing of any tenement owner, in such form as may be from time to time prescribed by the Board, and subject to and in agreement with the undermentioned conditions, the Board may at its discretion direct that tenders for the work be publicly invited by newspaper advertisement, such tenders to be for the performance of the work of connecting the tenement with the Board's sewer, and providing all sanitary and other requisites to comply with the Board's order or the tenement owner's sanitary requirements in accordance with plan prepared or approved by the Board, and specification and conditions of contract relating thereto prepared therefor by the Board at the expense of the tenement owner, and for maintaining the work done in good repair for twelve months from and after the date of the Engineer-in-Chief's certificate that the work has been completed. And the Board will accept such tender as under all the circumstances shall appear to the Board most advantageous to the tenement owner. And upon completion of the contract and on the certificate by the Engineer-in-Chief of it having been completed to his satisfaction and of the costs and expenses of and incidental to the performance of such contract work, such tenement owner shall pay to the Board such costs and expenses so certified forthwith, or, if he shall so desire, in instalments with interest as prescribed by section 6 of Act 1491.

The Board may cause the works hereinbefore mentioned to be inspected while in progress and from time to time during their execution the Engineer-in-Chief of the Board or such other officer as the Board may appoint for the purpose may in writing order such reasonable alterations therein or additions thereto as to the said Engineer-in-Chief or other officer may seem necessary.

In all cases in which the Board provides any water-closet or water-closets or drains, appliances, apparatus, and connexions pursuant to the requirement of any owner as hereinbefore provided, or performs any works, matters, or things under section 110 of the principal Act or under section 5 of the *Melbourne and Metropolitan Board of Works Act 1897*, No. 1491, the costs and expenses thereof, with interest at the rate of Five pounds per centum per annum, shall be recoverable after the expiration of one month from the time that the Engineer-in-Chief of the Board, or such other officer as the Board may appoint for the purpose, certifies in writing to the Board that the same have been provided or performed and the amount of the costs and expenses thereof.

Until paid, such costs, expenses, and interest shall be and remain a charge upon the property in respect to which they were incurred, and may at the expiration of seven days after demand in writing therefor, be recovered at any time from the owner thereof for the time being.

At the request of the owner, the Board will accept payment of such costs and expenses by forty quarterly instalments, bearing interest on such portion as from time to time remains unpaid at the rate of Five pounds per centum per annum.

Such request must be made in writing and signed by the owner, and must be lodged with the Board within one month from the time of such owner being notified in writing by the Board of the amount of such costs and expenses. The first quarterly instalment shall be payable

immediately on the expiration of the said month. But the said owner may at any time pay to the Board such portion as then remains unpaid of such costs and expenses, together with interest thereon at the said rate, to the date of such payment.

In the event of any of the instalments or interest not being paid within fourteen days after the due date thereof, the whole amount then unpaid of the costs and expenses shall, if the Board so desires, become due, payable, and recoverable with interest at the rate of Five pounds per centum per annum, as prescribed by the Act.

Payment of any instalment and interest may be recovered in the manner provided by section 162 of the principal Act.

The certificate of the Engineer-in-Chief, or such other officer as aforesaid, in writing, shall be *prima facie* evidence in any court that the water-closet or water-closets or drains, appliances, apparatus, and connexions have been provided, or the works, matters, or things have been performed (as the case may be), and *prima facie* evidence as to the amount of costs, expenses, and interest recoverable in respect thereof.

5. *Applications for Consents, &c.*—Application for the Board's consent to connect with the sewerage system, or to do plumbing work connected therewith, must be made in writing by the owner of the property to be drained, or his authorized agent. Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be made in Form "A" appended hereto, or to the like effect. For any wilful misrepresentation in such application the owner or authorized agent as aforesaid shall be guilty of an offence against these Regulations. No consent shall be deemed to authorize anything not stated therein.

Any approval by the Board of a plan under clause 4 of these Regulations, or any consent to connect any premises with any sewer of the Board, shall not be deemed to authorize or to confer or grant the right to lay a drain through any land intervening between the premises proposed to be connected and such sewer of the Board, and any owner or applicant for the approval of such plan or consent shall satisfy himself as to his legal right to drain through such intervening land, and shall be solely responsible for any trespass or damage thereon or thereto.

Consents to make connexions with the sewerage system will be issued only when the plumbing in the property to be connected is planned to be made in accordance with the rules for plumbing hereinafter prescribed, and after such plan has been inspected and approved of by the inspector appointed by the Board for the purpose, or, in case of new buildings, when a proper plan of the plumbing and of the drainage of the building into the Y branch of which the Board shall have fixed the position has been approved of in writing by the Board. All connexions with the drains or sewers, and all plumbing connexions therewith, shall be made under the direction of the Engineer-in-Chief or the superintending officer of the Board.

Consent will not be given for the performance of any such work except upon condition that no person shall be engaged or employed as a workman in the actual performance of any plumbing work unless he be the holder of a "Working Plumber's Licence" from the Board. Any person who shall at any time, or at any place, make up, form, affix, alter, or repair any fitting, pipe, bend, trap, or other thing connected or intended to be connected with the Board's sewerage system, unless he be the holder of a licence from the Board authorizing him to do such work, shall be liable to a penalty not exceeding Ten pounds.

Any person, whether licensed as aforesaid or not, who shall alter, remove, or in any way interfere with any drain, fitting, pipe, bend, trap, or other thing connected with the Board's sewerage system, unless the Board's written consent has been previously issued to do such work at the premises concerned, shall be liable to a penalty not exceeding Ten pounds.

6. *Plumbers' Licences.*—The conditions upon which "Working Plumbers' Licences" will be issued by the Board are—

(a) That every such licence will be subject to suspension or cancellation at the will of the Board; and that all such licences will be granted to expire on the thirtieth day of June of each year.

(b) A special condition of every consent issued to an owner or agent shall be that if a licensed plumber, in his employment upon any such work, prove according to the judgment of the Board's inspecting officer to be incapable as a workman, or transgress the Regulations of the Board, and the "Working Plumber's Licence" of such workman be for any such cause suspended or cancelled by the Board, and notice of such suspension or cancellation in the Form "B" to these Regulations annexed, or to the like effect, be given by the Board in writing, by registered letter addressed to the said owner or agent, the said owner or agent shall cease to employ such workman upon any such work immediately after and during the continuance of such suspension or cancellation. And any such owner or agent who shall neglect or fail to comply with this condition shall be guilty of an offence against these Regulations.

(c) First-class "Working Plumbers' Licences" will be issued to candidates who shall have successfully passed an examination by examiners appointed by the Board in the following subjects, that is to say:—

**MATERIALS.**—The use of lead, tin, copper, and their alloys, wrought and cast-iron, stoneware, bricks, tiles, Portland cement, and other materials used by the plumber and drainer.

**PLUMBING PRACTICE.**—As to solder and soldering, lead burning, lead laying, pipe and joint making, pipe bending and general plumbers' practice.

**WATER SUPPLY WORK.**—Knowledge of the Board's Water Supply By-laws, general water supply works, water supply fittings, hot water connexions.

**SEWERAGE WORK.**—Knowledge of the Board's Sewerage Regulations, construction and use of traps, soil, waste, and vent pipes, house fittings, water-closets, kitchen sinks, baths, lavatories, house-maids' sinks, urinals, latrines, and other sewerage apparatus and appliances.

**GENERAL PRINCIPLES OF SANITARY WORK.**—Flushing, ventilation, disconnexion.

Candidates for examination in plumbing practice must provide themselves with their own tools, and may be required to submit samples of work done by themselves, and also to make any pipe, bend, joint, or other plumbing appliance which may be required to satisfy the examiners.

(d) Candidates for "Working Plumbers' Licences" must give notice in writing to the Secretary of the Board of their intention to submit themselves to examination at such time as shall be appointed for the same by the Board's examiners.

Every candidate who shall have successfully passed the before-mentioned examination, and given proof to the satisfaction of the examiners of practical ability as a plumber, will be furnished with a first-class licence from the Board to do practical work as a working plumber upon and in connexion with the sewers, drains, and all necessary fittings, appliances, and apparatus appurtenant thereto within the metropolis, subject to and in accordance with the Board's Regulations. And he will likewise be furnished with a certificate from the Board that he is duly qualified to do work in connexion with the water supply and sewerage systems under the control of the Board, and in accordance with the Board's Regulations.

Every candidate who shall have successfully passed the examination in plumbing practice only will be furnished with a second-class licence.

"Working Plumbers' Licences" will at the discretion of the Board be issued without previous examination to any practical plumber who shall be the holder of and shall produce a licence from any other sewerage or water supply authority equal in value to the standard established by the Board's examination according to the judgment of the Board's examiners, which shall be final, subject only to review by the Board.

Prior to the issue of any "Working Plumber's Licence," the person to whom the same is to be issued must sign a register containing a declaration that he accepts such licence subject to and in conformity with the conditions thereof and with the Regulations of the Board, and that he will conform to and comply therewith.

Whilst none but the holders of "Working Plumbers' Licences" are allowed to be engaged or employed in the performance of plumbing work for sewerage, the holders of licences for water supply work may do water supply work necessary to the sanitary work, such as fixing cisterns and water-closets in outside buildings where lead is not used, and work for water supply.

7. **Plans of Drainage.**—Copies of the Board's plans will be furnished by the Board, upon application and payment for the same as follow:—

Plan of drainage, including survey, &c.—for every house or building a minimum charge of 5s., and an additional charge of 5s. for every water-closet more than one appurtenant to such house or building.

Plan of any alteration or addition to original plan—a charge of 2s. 6d.; except in cases where there may be additional closets, when the charge will be 5s. for each such additional closet.

Copy of plan of Completed Drainage will be supplied on payment of the cost of same at the rate of 2s. 6d. per hour, according to the time occupied thereon by the draftsman, with minimum charge of 2s. 6d.

No fee will be charged for plan when the plan submitted by owner can be altered to suit the Board's requirements without involving much labour or time.

In order to facilitate owners submitting plans in accordance with sub-section 6A of section 5 of Act No. 1491, the Board will supply block plans of individual tenements of limited area with the position of sewer and approximate position of branch to which the house drain must be connected marked in red, together with the approximate depth of the Board's sewer, at the rate of 1s. for each municipal valuation.

Block plans of single tenements of extensive area, or of group of houses, showing the position and depths of the Board's sewer, will be supplied on payment of the cost of same at the rate of 2s. 6d. per hour, according to the time occupied thereon by the draftsman.

8. **Inspection.**—The owner or his authorized agent, or the plumber or contractor carrying out the work, must give at least twenty-four hours' notice to the Board of his intention to commence work, and also when any work is ready for inspection. All work must be left uncovered and convenient for examination until inspected and approved of by an inspector appointed by the Board. Such inspection shall be made within twenty-four hours of such notification being received at the office of the Board, except when notification is received on Saturdays, when sixty hours must be allowed.

The inspecting officer may apply the ether, peppermint, water, or smoke test, and the plumber shall furnish all the necessary tools, labour, and assistance for such tests. The owner or his authorized agent shall remove or repair any defect when so ordered by the inspecting officer, and if he neglect or fail to do so he shall be liable, upon conviction, to a penalty not exceeding Five pounds and to a penalty not exceeding One pound for every day thereafter during which such neglect or failure shall continue.

Before the fittings are connected with the plumbing of any house or building, or after, if so ordered, and before the soil or waste pipe is connected with the sewer, the outlet of the soil or waste pipe and all openings into it below the top shall be hermetically sealed. The pipe shall then be filled with water to such height as the superintending officer of the Board shall require, and every joint carefully examined for leaks. Work already in place may be examined by the peppermint or other test. Defective pipes must be removed and replaced by sound ones, and all defective joints made tight, and every part of the work made to conform to these Regulations and subject to the approval of an officer appointed by the Board.

House drains, whether laid by the Board's workmen or others, must be thoroughly tested in every case before being passed by the Board's officers. When being tested with water there must be a head of at least six (6) feet above every part of the drain.

Before a licensed plumber commences to clear a stoppage in a drain he must notify the Board in writing of the time when he intends to clear the stoppage, so that an inspector may attend and pass the work in accordance with the provisions of section 106 of the principal Act.

9. **Defective Fittings.**—Any drain pipe, soil pipe, trap, water-closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with these Regulations, or which shall, in the opinion of the Board, be or become bad or of defective quality, shall, upon notice in writing from the Board to the owner or occupier of the property, be by such owner or occupier removed or repaired in the manner determined and within the time fixed by the Board; and in case such owner or occupier fails to comply with the requirements of such notice he shall be liable to prosecution and penalty for an offence against the Act, or the Board will, if it think fit, remove or repair the said defective fitting, and charge such owner or occupier of the premises with the cost so incurred and will proceed for recovery of the same in manner provided by the said Act.

10. **Construction of Reticulation.**—Roads, lanes, passages, alleys, or courts which the owners or occupiers of two or more houses or buildings adjoining thereto, or properties abutting thereon have the right to use, or do commonly use, as a means of access to or drainage from such houses, buildings, or properties, are streets, and in them the Board may make sewers that shall vest in it and be public sewers into which, with consent of the Board as owner of the sewers, any person may branch his private drain.

The Board is not under any obligation as to the streets in which sewers shall be made, and it may decide what streets it will or will not make sewers in.

11. **Quality of Materials.**—All materials used must be of good quality and free from defects. The work must be executed in a thorough and workmanlike manner, and to the satisfaction of the Board. No sanitary fitting shall be allowed to be connected to the sewers of the Board unless it be of a type previously approved by the Board or unless special permission has been given by the Engineer-in-Chief for connexion of such fitting.

The utmost care must be exercised on all house connexion work to ensure that only materials which are in accordance with the Board's By-laws and Regulations are used.

11A. *Stoppages in Drains.*—Occupiers of premises are responsible for clearing stoppages in drains within their premises or between their premises and the sewers into which the branches lead.

11B. *Alterations in Plans or Works.*—Alterations in approved plans or to works previously approved will be made only on application of the owner or authorized agent.

12. *Drains.*—The drainage of each house is to be arranged for separately, unless in cases of properties belonging to the same owner, or where, in the Board's opinion, special reasons exist for draining by a combined operation.

Owners desiring to have the drainage of their properties combined must sign a request for a combined drain.

Not more than two houses shall be combined except by the permission of the Engineer-in-Chief.

When the drainage of more than two properties is combined, an inspection chamber must be provided if shown on plan or ordered.

Where several properties are connected with a private reticulation pipe, there shall be a boundary trap at the building line, and the drain to each individual house shall have its own boundary trap.

At the head of every connecting branch to the Board's sewers, at or near the boundary of the premises, a boundary trap must be fixed, with or without a manhole, as may be ordered by the Board. All the drains must, wherever considered necessary by the Board, join in a manhole at least three feet (3 feet) long and two feet (2 feet) wide, fitted with a closed cover if for inspection purposes only, or with an open grating if for ventilation purposes. The portions of the drains crossing the floor of the manhole must be connected with the boundary trap either in a straight line or by curved junctions in the floor of the manhole. The boundary trap must be provided with an inspection cap on the sewer side of the trap.

Where an open grating is inadvisable, the manhole must be provided with a closed cover with a fresh air inlet fitted with a ventilation pipe of such size and materials and so placed as the Board may direct.

The drains outside of the house or building, or from isolated water-closets, to the street sewer, shall be of first quality salt-glazed, vitrified, stoneware pipes, unless laid less than 2 feet deep from the surface to the centre line of the pipe in yards or places liable to heavy traffic, when they shall be of heavy cast or wrought iron. Heavy cast-iron pipes must be used if the ground has been made up or filled in, or adjoins a cellar.

Where the drainage of more than two houses aggregating over £80 valuation is combined, a chamber manhole must, wherever ordered by the Engineer-in-Chief, be provided at the boundary trap at the building line, and either an induct vent taken into the chamber manhole with an educt vent at the head of the drain, or an educt vent taken off the chamber manhole with an inspection shaft cover at the upper end. If so desired the boundary trap from the house at the upper end of the system may be omitted, and the main system vented by an educt vent on that property.

Heavy boundary trap covers must be used in all areas subject to vehicular traffic, and in special cases where ordered.

Portland cement concrete must be used in each of the following cases:—

- (a) Around and under gully basins, and must be properly finished off in cement mortar.
- (b) Around the top of educt vent and induct vent pipe sockets where exposed.
- (c) Around boundary trap covers and tops of disconnector traps where the surface is not paved.
- (d) Under and around bends rising vertically off oblique branches, and under bases of all drainage traps.

No cesspool overflow or privy-vault shall be connected with any drain or sewer.

13. *Pipe Trenches.*—The trenches for the drains from all properties shall be dug so as to meet the public sewers at the position of the V branches indicated by the Board. The material from the trench shall be placed so as not to obstruct, and so as to cause the least possible inconvenience to the public. Proper barriers and lights must be maintained on the banks of the trench during the progress of the work, to guard the public against accident. In refilling the trench the earth shall be rammed or flooded carefully, so as to keep the pipe in position and avoid settling. No stone shall be used in refilling until there has been a depth of at least 2 feet of earth or gravel placed over the pipe.

14. *Subsoil Drainage.*—Every person who shall erect a new building shall, wherever, in the opinion of the Board, the dampness of the site renders such a precaution necessary, cause the subsoil of the site of such building to be effectually drained by means of suitable earthenware field pipes properly laid to a suitable outfall.

Where the soil around the foundations is damp, trenches must be dug either round the building or in the cellar. In these trenches drain pipes must be laid with joints covered with tarred canvas, with as much fall as can be obtained on even grades, and packed round with broken stones.

No such pipes shall be laid in such a manner or in such a position as to connect directly with any drain or sewer, but shall discharge into a manhole or open shaft made of earthenware pipes, and fitted with a dirt box which shall communicate with the sewer by a proper trap with a ventilating pipe on the sewer side. The "proper" trap must be one the seal of which is to be maintained by a pull and chain cistern, unless some waste pipe connect with it.

15. *Basement and Cellar Drainage.*—No water-closet, urinal, lavatory, sink, silt, or other trap, or any other fitting shall be placed in any basement or cellar below 10 feet above low water mark of Hobson's Bay, as fixed by the Board's datum.

No water-closet or urinal shall be placed in any cellar, basement, room, or apartment, unless at least 5 feet of the walls of such cellar, basement, room, or apartment are above the surrounding land. In all cases where it is proposed to place a water-closet or urinal below the level of the surrounding land, plans and sections showing provision for light and ventilation must be lodged with the application for approval of plan under Regulation 4 hereof.

Where any house shall have its lowest floor, cellar, or basement at a lower level than the sewer of the Board into which such house would otherwise drain, the owner shall, pending pulling down or alteration of such house, cause the drainage from such lowest floor, cellar, or basement to be raised by means of a syphon, or some other method approved by the Board, so that it shall discharge into a drain communicating with the sewer of the Board.

Where, in the opinion of the Board, a cellar or basement is so situated that it can be drained by gravitation to the Board's sewers free from any risk of back-flow in the event of the sewers becoming surcharged, the Board may permit such connexion, provided a sluice valve be fixed between the cellar or basement connexion and the boundary trap, to be kept closed as hereinafter mentioned, and provided the owner apply in writing for same, and furnish the Board with an undertaking that such connexion is made at his risk, and indemnify the Board against all damage in connexion therewith. In such cases the soffit of the pipe draining the cellar shall at its highest point be at least 2 feet below the cellar or basement at its lowest point.

Sluice valves must be kept closed, and only opened when it is necessary to allow an accumulation of water to drain to sewers. Spindles of sluice valves must be fitted with permanently attached extension rods of sufficient length and diameter to enable the valves to be opened or closed from above the level of ground floor of building.

16. *Rain Water.*—Rain water conductors must not be connected with the sewers unless approved by the Board.

16A. *Stables, &c.*—All stables, dairies, paved yards, market places, cab stands, receptacles for sludge water from manufactories, areas where milk-cans are washed, and all polluted areas, must be paved with approved material, graded, and drained to the satisfaction of the Board, and the drain therefrom must be trapped with an approved silt trap connected with the drain inside the boundary trap. The joints of stable floors and paved areas connected with the sewers of the Board must be filled to full depth with either (1) good cement mortar in the proportion of one part of cement to not more than three parts of clean sharp sand, or (2) an admixture of pitch, distilled tar, and sand, mixed as directed, or (3) with other jointing material which may be approved by the Board.

All stables and cowsheds in actual use must be paved and graded to the satisfaction of the Board, and connected with the Board's sewers. The drainage of those not in use must be provided for, but they need not be connected with the sewers while they are unused.

The drainage from stable floors must discharge over an approved silt trap, which must be provided with a top of brickwork or Portland cement concrete, and fitted with a heavy grating.

16B. *Manure Bins.*—Manure bins must be provided for all stables or cow-yards, where the local Council's By-laws demand their construction, or where the locality is closely built on.

All manure bins must have the inside surfaces rendered with cement mortar, and must be made impervious throughout. Walls of new manure bins must, unless otherwise approved, be at least 9 inches in thickness, built of brickwork laid in cement mortar.

If an outlet pipe be provided for a manure bin, it must be properly connected with the Board's sewers.

Branches in house drains must be provided in all cases where manure bins exist, for their connexion whenever the Board shall deem it necessary.

16C. *Paved Yards.*—If foul water enter a street from an area used for washing vehicles or other things needing to be cleansed with water, the portion where washing is done shall be paved and the foul water led to a silt trap connected with the sewers.

17. *Laying Drains.*—All drain pipes must be at least 4 inches in diameter, except where otherwise ordered by the Board; and, unless obtained from the Board's store yard, must be taken to one of the Board's depôts to be tested by the officer appointed by the Board, in the machines provided for the purpose.

The cover of the Y branch on the sewer shall be carefully removed so as not to injure the socket.

The first length of the pipe attached to the Y branch shall be curved and set so as to give a good fall into the sewer.

All pipes shall be carefully bedded on the barrel in the solid ground.

Where, in the opinion of the Board, it is necessary, cast-iron pipes must be used or stoneware pipes bedded in concrete of dimensions approved by the Engineer-in-Chief, such concrete to be composed of 1 of Portland cement, 2 of clean sand, and 5 of stone of 1½-in. gauge or gravel approved by the inspector.

Stoneware pipe drains must not be laid less than 2 feet deep from the surface to the centre line of the pipe. Where this amount of covering cannot be obtained, the stoneware pipes must be entirely surrounded with not less than 6 inches of Portland cement concrete, or the surface of ground must be raised to the satisfaction of the Board's inspector.

All stoneware pipe drains under buildings and near roots of trees must be surrounded with not less than 6 inches of Portland cement concrete.

Jump-ups, where allowed, must be bedded on, and surrounded with 6 inches of Portland cement concrete to full height of drop.

Where there is no sewer in the street, and it is necessary to construct a private drain to connect either one or several properties with a sewer in an adjoining street, the drain must, if possible, be laid under the roadway or right-of-way, instead of through the yards or under the houses.

The drain pipes shall be laid on an even grade of not less than 1 in 40 if a 4-in. pipe be used, or of 1 in 60 if a 6-in. pipe be used, unless by special permission of the Board, in which case special provision must be made for regular and efficient flushing.

As far as possible, all drains shall be laid in straight lines; where changes of direction occur, they shall be made either by suitably curved pipes or in manholes.

Stoneware drain pipes may be substituted for cast-iron drain pipes in every case except where the ground is soft or liable to heavy traffic; but in all cases where stoneware is substituted for cast-iron the pipes must be entirely surrounded by not less than 6 inches of Portland cement concrete, whether inside or outside of buildings.

All drain pipes carried through walls must have a space of about 3 inches clear left over the pipes.

If a pipe be cut out to clear a stoppage, or if a pipe be broken, it must be replaced by a new pipe. The old pipe must not be patched up.

All cast-iron pipes must be sound, free from holes or cracks, and coated with tar or asphaltum.

The following weights will be accepted as standards for cast-iron drainage pipes:—

- 4-in. diameter, 16 lbs. per lineal foot.
- 5-in. diameter, 20 lbs. per lineal foot.
- 6-in. diameter, 23½ lbs. per lineal foot.

All fittings used in connexion with such pipes shall correspond with them in weight and quality. All junctions must be curved; right-angled junctions must not be made.

Where outside closet buildings require repairing or removing, the necessary work within the space covered by the closet buildings must be carried out before the water-closet branch is laid; but other portions of the drain may be laid, provided provision be made for effectually testing the closet branch when laid.

Wherever a paved, asphalted, or tar-paved yard or space has been broken in connexion with house drainage, the surface where so broken must be restored as nearly as possible to the same condition as it was in previously, unless otherwise required by the owner.

18. *Joints.—Drainage.*—All joints in iron drain pipes, soil pipes, and waste pipes, except where screw joints are used, must be so filled with gasket and lead and caulked as to make them gas and water tight.

All connexions of lead pipes with iron pipes must be made with a brass sleeve or ferrule of the same size as the lead pipe, put in the socket of the branch of the iron pipe, and caulked with lead. The lead pipe must be attached to the sleeve or ferrule by a wiped joint.

Joints of stoneware pipes shall be made with Stamford joints, or cement joints with gaskets.

Joints of iron pipes shall be made with gasket and lead if cast-iron pipes be used, or with screwed joints and white lead if wrought-iron be used.

The ends of all private drains not immediately connected with the plumbing fixtures shall be securely closed with watertight imperishable materials. If stoneware, a stoneware or cast-iron disc must be cemented in; if wrought-iron, a plug must be screwed on the end; if cast-iron, a cast-iron plug must be caulked in with lead.

Connexions of galvanized sheet-iron vent pipes to cast-iron do not require a brass sleeve, unless ordered by the Engineer-in-Chief.

19. *Vent Pipes.—Drainage.*—The main drain leading to the boundary trap must be vented at its upper end by a pipe or shaft erected vertically to such a height that the mouth of the pipe or shaft shall be at least 6 feet higher than any window, door, or other opening, situated within a distance of 30 feet therefrom. If the drain cannot be vented at the upper end, the system of ventilation must be reversed.

Branch drains need not be vented if the drainage traps be within 15 feet from the main drain, measured along line of pipes, including drop, from the centre line of main drain to the centre of outlet side of water seal of drainage trap, unless otherwise ordered by the Board, in which case they must be vented according to such order.

Every vent pipe extending upwards from a soil or drain pipe must be carried to such a height as may be deemed necessary by the Board, and in any case at least 2 feet above the highest part of the roof or coping.

Every vent pipe must be of undiminished size, without return bend, with basket end, or educt or induct cowls as ordered, and it must not open near a window, a chimney, or an air shaft which ventilates living rooms.

All vent pipes in an extension of a main building, when otherwise they would open within 30 feet of the windows, doors, or other openings into the main building or the adjoining building, must be extended to such a height above the roof of the main building as may be deemed necessary by the Board.

All the main educt vents on house drains shall be of the same diameter as the drains unless special permission be given to vary their dimensions.

No chimney flue shall be used as a sewer ventilator, or to ventilate any drain, soil, or waste pipe.

All inlets to drains or openings for ventilating shall be efficiently protected by proper gratings of ample area. The aggregate area of the apertures in any grating covering a ventilation opening shall not be less than the sectional area of the pipe or drain to which such grating is fixed. All openings for ventilation made in accordance with these Regulations, or upon order of the Board, shall at all times be kept open and perfectly free from obstruction.

All galvanized sheet-iron vent pipes used to ventilate the drainage system, or used as anti-syphonage pipes to soil or waste pipes from closets, slop-sinks, or urinals, must be coated with hot tar or asphaltum inside before erection.

All drainage sheet-iron vent pipes must be double galvanized.

Whenever vent pipes from drains are not more than 12 feet above the offset they will not require staying; if longer they must be stayed with ½-in. galvanized wrought-iron pipe.

When a galvanized sheet-iron pipe, with or without an offset, is carried up above the brick wall of a building, a galvanized wrought-iron pipe clip shall be used, leaded to the wall near the top wherever possible, and bolted against vent pipe. All band iron clips of vent pipes to brick walls must be fastened with nuts and bolts, leaded in.

A length of 20 feet of straight vent pipe without offset may be fixed without stays.

There shall be at least one pipe hook or clip to each 6-ft. length of vent pipe.

When vent pipes terminate more than 6 feet from chimney opening at the same level, the ordinary rules as to height are to apply; but when the distance is 6 feet and under the vent pipe must terminate 2 feet below the chimney opening. Vents must, as far as possible, be kept away from chimneys.

When it is not possible to carry a vent pipe above the parapet or ridge the pipe must be carried up as high as it will stand without staying, provided it is 30 feet from a window or door. When it is at a less distance than this it must be carried up 6 feet higher than any window or door opening within a radius of 30 feet of the vent pipe, and have sufficient stays to support it.

Wooden blocks for vent pipes will not be allowed on walls; where used on posts they must be of redgum or jarrah.

When a sufficiently strong support cannot be obtained for the induct vent pipe, a plated and strutted redgum or jarrah post, sunk 2 feet in the ground, of dimensions not less than 4 inches x 4 inches, must be fixed to support it.

In any case of cellar drainage ventilation where, in the opinion of the Engineer-in-Chief, the length of the drain connecting the premises with the sewer and the shortness of the distance between the cellar and the boundary trap

shall render such a course advisable; the vent pipe may be taken from the sewer side of the boundary trap and the ventilation shaft must be entirely outside the building. But if the vent pipe be taken from the house side of the boundary trap the ventilating shaft may be inside the building.

When ground or level vents are used with boundary trap they must be not less than 30 feet away from any door or window.

20. *Traps—Drainage.*—Traps of three (3) classes shall be used—

- (a) "Traps" for intercepting gases only, to be of round section and self-cleansing form, but not so easy as to empty by momentum or suction.
- (b) "Silt traps" for intercepting both gases and solids, to have slightly tapered sides, flat bottom, and rounded, not sharp, angles, and provided with trays fitted with handles for catching and removing solids.
- (c) "Grease traps," for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, to be of such form as may from time to time be approved.

The term "gully" is applied to traps (a) and (b) in cases where they are to be used externally, and fitted with dished tops and gratings. In such cases the dish must be in one piece with the trap, or jointed thereto spigot and faucet, and the depth of the dish from the top to the grating must not be less than 6 inches, and the grating must be removable.

The term "disconnecter" is applied to traps in cases where provision has to be made for inlet ventilation to the pipe or pipes discharging therein.

All traps must have a water-seal of at least half the diameter of the outlet pipe, but in no case of less than 2½ inches.

Unless a slop sink be fixed inside the building a gully trap must be provided in the yard of every house, placed as near as possible to the back of the kitchen door, with a tap placed over it at a height of about 2 feet, except in cases where the owner desires the tap to be placed higher.

Gully trap basins and tops of silt traps must be surrounded with brickwork or concrete neatly rendered inside with cement mortar. The internal diameter of brickwork around gully traps, measured from face of cement rendering, must not be less than 15 inches, and must be neatly rounded to meet the gully top. The walls at rear of gully and silt traps, if of brick or stone, must be cement-rendered to height of tap; if traps abut against a wooden wall, a sheet galvanized-iron apron must be fixed.

Gratings to gully traps must not be less than 6½ inches overall, with openings of suitable outlet capacity.

All gratings must be fixed down in an approved manner with bitumen or wedges of lead.

When open boundary trap covers are specified inspection shaft covers must be used, and an e duct vent must be provided; unless otherwise ordered by the Engineer-in-Chief.

When the connecting drain is considerably deeper than the depth at which the boundary trap will be required to be placed to provide for existing or future cellars or subsoil water, the boundary trap, instead of being connected directly to the connecting drain, may, if approved, be connected to a jump-up or vertical extension from the same.

21. *Water Supply.*—All water-closets and other plumbing fixtures must be provided with a sufficient supply of water for flushing purposes to keep them at all times in a proper and cleanly condition.

Subject to the provision of section 183 of the *Water Act 1905*, that it shall not be compulsory upon the Board to supply any water to any person whomsoever—and to the power of the Board, under the said Act, to from time to time make, alter, and repeal By-laws for determining the rates to be paid for water supplied to lands and tenements; water will be supplied by the Board for water-closets and other sanitary appliances on the following conditions, namely:—

Every owner of property who shall desire, or who shall have been ordered by the Board, to provide sanitary appliances for his property and to connect the same with the sewers of the Board must, prior to or at commencement of the work of making such connexion, provide piping approved by the Board for the conveyance of water, and cause the same to be joined to the most convenient water supply main, or, with permission of the Board, to some pipe already joined thereto, which piping must be of capacity sufficient to supply all sanitary fittings, on the premises freely and continuously, and convey to the flushing cistern of each water-closet upon the property enough water to fill such cistern within five minutes, and he shall cause such piping to be connected with such cistern prior to the completion of the work.

If the work of making such connexion be done by the Board the cost of such piping and of so joining the same shall be charged to, and be paid to the Board by, such owner as part of the cost of making such connexion.

But if the cost of the new water supply work exceed three pounds, such cost must be paid by the owner on completion of the work.

After completion of such connexion, or if the work be done by the Board, from and after twelve months from date of such completion, such owner shall keep the said piping from becoming, whether by reason of corrosion or other cause; of insufficient capacity to convey to the flushing cistern enough water to fill the same within five minutes as aforesaid. And any such owner who shall fail or neglect to do so for more than seven days after having had notice in writing from the Board requiring him to have such piping cleansed or otherwise rendered sufficient to fill such cistern within the said time shall be guilty of an offence against these Regulations.

The entire length of the water supply piping from its connexion with the water supply main to the water-closet flushing cistern or other sanitary appliance must be, in the opinion of the Engineer-in-Chief or the Engineer of Water Supply, suitable in regard to material, condition, and capacity to convey a sufficiency of water for the sanitary requirements of the particular tenement.

If the Engineer-in-Chief or Engineer of Water Supply deem it necessary in any case, the piping to supply the water-closet flushing cistern must be separate piping from that which conveys water to the tenement for other purposes.

No water service-pipe shall be laid to supply any sanitary fitting in any property in any sewerage area unless such fitting be connected with the sewers of the Board; or unless the special permission of the Board in writing shall have been previously given to lay on such water supply.

The piping to convey a supply of water to the tenement for sanitary uses shall not, for the purpose of obtaining such supply, be joined to the piping which conveys water to another tenement for general purposes.

In cases where, at the time of these Regulations coming into operation, more tenements than one are supplied from one and the same service, the Engineer-in-Chief or the Engineer of Water Supply may assent to the extension of piping from the water-closet of one tenement to that of another tenement, provided that the water supply to each water-closet be controlled by a separate stop-tap. But when any tenement so supplied with water shall cease to be so supplied, and shall have for itself a separate supply of water for general purposes, the piping for supply of water to the water-closet at such tenement must be disconnected from that furnishing such supply to the water-closet of any other tenement, and must be connected with the pipe affording water supply to the tenement to which it appertains.

The Board, if it see fit, will give permission to so arrange in special cases that the water supply to more than one tenement may pass from the water main into a single pipe (herein called a "trunk service"), which must be laid in a street with branch piping therefrom to each tenement, and on each such branch there must be a stop-tap, but in any such case no such branch shall be fixed in excess of the number or of the diameter proportioned to the trunk service set forth in the subjoined table, namely:—

Diameter.	No. of 1-in. Branches only.	No. of ½-in. Branches only.	No. of ¼-in. Branches only.
2-in.	—	—	2
1-in.	—	2	or 5
¾-in.	2	or 4	or 10
½-in.	3	or 6	or 15
2-in.	6	or 12	or 30

Where a house is supplied through meter, an independent service or an extension from the existing service, taken from the main side of the meter, will be allowed to the closets or urinals. Such independent service or extension must be so laid that, in the opinion of the Engineer-in-Chief or Engineer of Water Supply, there shall not be any risk of branches being taken from it for any other purpose. Or a check meter may be fixed on the closet service, and the water registered through it will not be charged for (unless the Board shall hereafter order otherwise), provided that there be no automatic flushing-cistern fixed. The allowance of 10s. per closet, provided in By-law No. 8, will not be made in any of these cases.

All plumbers' notices for laying on water for water-closets or making any alterations when the tenement is supplied through meter must distinctly state whether such supply to the closets is or is not to pass through the meter.

Water supply pipes to storage tanks for internal closets must be ½ inch diameter for tanks up to 20 gallons, and ¾ inch for tanks of larger size, and be provided with high-pressure ball-taps; except where the height of the storage tank is not sufficient to allow of high-pressure ball-taps being used, when low-pressure ball-taps may, with the consent of the Engineer-in-Chief, be fixed to 3-gallon cisterns.

Outlets from storage tanks must not be less than ¾ inch when supplying one or two cisterns, and 1 inch for three to six cisterns. Whenever a larger number than six cisterns is fixed, the size of the outlet must be increased. The

overflow from storage tanks must be  $\frac{1}{2}$  inch in diameter, and a stop-tap must be fixed on the rising supply pipe to tank.

Where any deviation from these instructions is desired, in special circumstances, an application in writing (in addition to the plumber's notice) must be made and must distinctly state the reasons why such deviation is required, and pending the consent of the Board the work must not be undertaken.

In all water-closets a piece of lead pipe not less than 12 inches in length must be used between the flushing cistern and the supply pipe.

22. *Plumbing Rules—General.*—Separate internal wastes shall be provided for each of the following classes of polluted waters, viz:—

- (1) Dirty water from baths, pantry, and china closet sinks, lavatories, and wash troughs, and other waters with a small proportion of soap and dirt.
- (2) Greasy water from kitchen and scullery sinks, where grease traps are required.
- (3) Soil water from closets, and other water containing faecal matter, and urinal water from housemaids' slop, sinks and public and private urinals.

Each of these separate waste pipes, except those for soil water, and in special cases where permission has been granted those for urinal and slop-sink water, must be connected with the drains through a gully or disconnector trap. No waste pipe shall be laid in the ground outside any building unless by special permission.

No material shall be used within the building for soil, vent, or waste pipes other than wrought or cast iron pipes with securely screwed or leaded joints, or lead pipes with wiped joints. Cement or putty joints, or tin or sheet-iron pipes, whether galvanized or not, shall not be used.

In all cases the upward extension from the soil pipe for ventilation must pass in as direct a manner as possible above, and if necessary, through the roof.

The following are the minimum sizes of soil, waste, and vent pipes, and weights of lead, soil, waste, and vent pipes which must be used throughout, unless otherwise specially ordered by the superintending officer:—

Fitting.	Diameter of Waste Pipe.	Minimum Weight of Lead Waste Pipe.	Diameter of Vent Pipe.	Minimum Weight of Lead Vent Pipe.
One Wash Basin ...	1½ in. to 1¾ in.	6 lbs.	1½ in. ...	6 lbs.
Row of Wash Basins ...	1½ in. to 2 in.	6 "	1½ in. to 2 in. ...	6 "
Wash Basin Overflow	1½ in. to 1¾ in.	6 "	...	...
One Bath ...	1½ in. to 2 in.	6 "	1½ in. ...	6 lbs.
Combined Waste for Baths	2 in. to 3 in.	6 "	2 in. ...	6 "
Bath Overflows ...	1½ in. to 2 in.	6 "	...	...
Wash Tub ...	1½ in. to 2 in.	6 "	1½ in. ...	6 lbs.
Set of Tubs ...	2 in. ...	6 "	1½ in. ...	6 "
Kitchen Sink ...	2 in. ...	6 "	1½ in. ...	6 "
Pantry Sink ...	1½ in. to 2 in.	6 "	1½ in. ...	6 "
Slop Sink ...	2 in. to 3 in.	7 "	2 in. to 3 in. ...	7 "
One Urinal ...	1½ in. to 1¾ in.	7 "	1½ in. to 1¾ in. ...	7 "
Row of Urinals ...	1½ in. to 2 in.	7 "	1½ in. ...	7 "
Soil Pipes ...	4 in. ...	7 "	2 in. to 3 in. ...	7 "

All cast-iron pipes must be sound, free from holes and cracks, and coated with tar or asphaltum.

The following weights will be accepted as standards:—

- 2 inch diameter,  $\frac{5}{8}$  lbs. per lineal foot.
- 3 inch diameter,  $\frac{3}{4}$  lbs. per lineal foot.
- 4 inch diameter,  $1\frac{1}{4}$  lbs. per lineal foot.

All wrought-iron pipes must be of approved standard weight and quality, and galvanized or coated to the satisfaction of the Board.

All fittings used in connexion with such pipes shall correspond with them in weight and quality. All junctions must be curved; right-angled junctions must not be made.

Where lead pipe is used for waste or vent pipes, such pipes must not be lighter than of 6 lb. lead; but where, in the opinion of the Board, a heavier weight may be required, such heavier weight as the Board shall desire must be used.

No cast-iron pipe laid in the ground or fixed above the ground shall for the first nine feet above the ground be less than the standard weights given in these Regulations,

but for cast-iron soil, waste, and vent pipes in other positions, and for glass enamelled pipes, the following modifications of the Regulations will be allowed, viz:—

- Cast-iron soil and waste pipes, minimum thickness,  $\frac{1}{4}$  inch.
- Cast-iron ventilation pipes, 2-inch, 3-inch, and 4-inch diameter, minimum thickness,  $\frac{3}{16}$  inch.
- Glass enamelled pipe, if not under heavy pressure, may be  $\frac{3}{16}$  inch in thickness, without coating, for 3-inch or 4-inch soil or waste pipes. Glass enamelled pipes shall be measured without the enamel.

All soil pipes shall be at least 4-inches diameter.

Where lead or cast-iron soil, waste, or vent pipes are fixed outside a wall for upstairs fittings, the cast-iron pipes must be carried up above the level of the highest fitting attached to the pipe.

Galvanized sheet iron vent pipe must not be fixed at a lower level than the topmost fitting on the stack of waste pipe.

Sufficient inspection and cleaning eyes must be provided in such positions on cast or wrought-iron wastes as to be easy of access for proper cleansing of these wastes.

Where inspection-openings are provided to soil and waste pipes, preference must be given to insertion cloth washers before red lead.

The soil, waste, and vent pipes, and traps must, where practicable, be exposed to view at all times, for ready inspection and for convenience of repairing. When unavoidably placed within partitions or recesses of walls, soil, waste, or vent pipes must be covered with woodwork so fastened with screws as to be readily removable.

The arrangements of soil and waste pipes must be as direct as possible.

The following are the minimum gradients to be adopted:—

Sizes of Pipes.	Gradients.	Sizes of Pipes.	Gradients.
6-in.	1 in 60 ...	—	—
4-in.	1 in 40 ...	1½-in.	1 in 15
3-in.	1 in 30 ...	1¼-in.	1 in 12
2-in.	1 in 20 ...	1-in.	1 in 10

No variation will be allowed except by permission of the Engineer-in-Chief.

The area of openings in gratings to any waste must not be less than will fully charge the waste pipe to which it is attached; and must be in accordance with the Board's standard drawings.

Sheet-iron waste pipes to wooden troughs must be connected with a lead outlet with lead flange wiped to it; the sheet-iron waste then to be slipped on and soldered to the lead outlet. Waste pipes under galvanized-iron wash troughs without wood casing must be supported as directed by the inspector.

A main waste pipe into which lavatories, baths, or sinks discharge must be at least two inches (2-in.) in diameter.

Wastes in outhouses entirely disconnected from living rooms and kitchens may be of 22 gauge galvanized iron for baths and wash-troughs.

22-gauge galvanized iron must be the minimum for all waste pipes outside of buildings.

External vent pipes of galvanized iron must be of not less gauge than the following:—

- 1½ in., 2 in., and 2½ in. diameter, 22 gauge galvanized iron.
- 3 in. and 4 in. diameter, 20 gauge galvanized iron.
- 6 in. diameter, 18 gauge galvanized iron.

Vent pipes, if inside a building, must in all cases be of cast or wrought iron or lead. Grooved or riveted double galvanized iron vent pipes may be used where they are entirely outside a building, and these must be connected with the traps or waste pipes with brass-ferrules, or other joints approved by the Engineer-in-Chief.

The various vent pipes may be branched into a soil or waste pipe of the same class above the level of the highest fixture. They may be combined by branching together those which serve several traps of the same class.

Vent pipes must always have a continuous slope, to avoid collecting water by condensation.

Vent pipes shall not be used as waste or soil pipes.

Galvanized sheet-iron vent pipes may be used inside stables or open sheds in place of cast-iron pipes, except where liable to blows from vehicles or to other external damage.

In all cases where the vertical stack of soil pipe provides for closets, four feet or more above ground level a short length of pipe, with inspection opening cover clamped to a flange on the pipe with bolts and nuts and fixed close to the ground, must be fixed.

Lead pipes must not be used under ground floors where they are inaccessible or in the soil. In such places cast or wrought-iron must be used.

McClellan's trap vent may be used only in special cases where it is impossible to prevent syphonage in any other way.

Anti-syphonage vent pipes of fittings discharging into gully or disconnector traps must be carried above the eaves of the building, unless special permission to the contrary be granted by the Engineer-in-Chief. These vent pipes must be branched to the waste or soil pipe as near as possible to the trap.

Where an additional branch is required to a galvanized sheet-iron vent pipe already fixed, a brass saddle piece, bolted and soldered to the existing vent, must be used.

Waste pipes from disconnected fittings (except urinals and slop sinks) need not be ventilated unless they exceed 12 feet inclined, or 18 feet vertical, in length (or their equivalent), and branch wastes to such fittings, if connected with a ventilated main waste, provided there be no other fittings attached to the line of waste, may be 12 feet in length without being ventilated, unless syphonage occurs in a trap, in which case a vent pipe must be supplied to the waste of that trap.

Concealed standing wastes are not allowed.

Spacing of lead tacks must be arranged as nearly as possible thus:—

• 4-in. vertical lead pipes, 2 ft. 6 in. centres.

• 4-in. horizontal lead pipes, 2 feet centres.

• Less than 4-in. vertical lead pipes, 3 feet centres.

• Less than 4-in. horizontal pipes, 2 ft. 3 in. centres.

One pair of tacks fixed opposite is sufficient for lead flush pipes for cisterns with lugs; in other cases an extra tack must be fixed as near to the cistern as possible.

Where water might otherwise percolate to the floor, baths, troughs, and the like fittings must be flashed with sheet lead of not less than 4 lbs. per square foot, or other approved material. All flashings must be turned up walls at least four inches, properly secured, and made watertight. (This clause does not apply to the sinks, which are specially provided for under Regulation 28.)

Whenever a fitting is abolished, the soil, waste, vent, and water supply pipes to such fitting must be removed, or if allowed by the Board to remain the ends of pipes must be sealed with watertight imperishable materials. Wrought-iron pipe must be sealed with screwed plug; cast-iron pipe must have cast-iron plug caulked in with lead; lead pipe must have end securely closed with properly wiped joint; stoneware pipe must have a stoneware disc cemented in.

23. *Joints—Plumbing.*—All connexions of lead waste and vent pipes shall be made by means of wiped joints.

All connexions of galvanized sheet-iron pipes to cast-iron pipes shall be made with molten lead and be lightly caulked.

Brass sockets or sleeves must be used in connecting galvanized sheet-iron to wrought-iron pipes; and proper brass sleeves must be used in connecting galvanized sheet-iron pipes to lead pipes. Sheet-iron pipe must not be soldered to lead pipe.

In connecting galvanized wrought-iron waste pipes the ends of the pipes must be butted by means of short sockets, or the pipes must be sufficiently threaded to allow of the butting being done.

The flushing pipe from cistern to water-closet must be connected by a lead cap-piece with red-lead packing.

Vent pipes must be connected to the vent horn of the water-closet trap by a lead cap-piece with red-lead packing.

24. *Trapping Fittings.*—Every water-closet, urinal, lavatory, slop or other sink, bath, and wash trough or set of wash troughs, must be separately and effectively trapped, unless otherwise specially allowed by the Engineer-in-Chief.

Traps must be placed as near the fittings as possible, and in no case shall a trap be more than two feet from a fitting, unless specially allowed by the Engineer-in-Chief.

In the event of trap syphonage, it must be prevented by a special pipe connected to the waste pipe at a point not less than three and not more than twelve inches from the highest part of the trap, and on that side of the water seal which is nearest to the soil or waste pipe.

All lead traps must be of 7 lbs. drawn lead.

All traps must have a water seal of at least half the diameter of the outlet pipe, but in no case of less than two and a half inches.

The P form of traps, with wastes above floors, and with joints visible and accessible all round, must be used in all internal fittings where possible.

The S form of traps, with wastes under floors, shall only be used by special permission. Where used, facilities for periodical inspection must be provided.

In detached closets and urinals, approved S forms in earthenware, with joints visible and accessible all round, may be used.

All fittings inside a main building and also in buildings directly attached to a main building with doors or windows opening directly into living rooms, work-rooms, or kitchens, must be trapped, unless otherwise allowed by the Engineer-in-Chief.

Baths, lavatories, wash-troughs, and clean water sinks may remain untrapped when fixed under any of the following conditions, provided the length of the waste pipe, measured in the case of troughs from centre of furthest inlet to end of outlet, does not exceed six feet:—

(a) When fixed on verandah which is attached to main building, but not enclosed in front; or,

(b) When fixed in an apartment not forming part of main building, and entered only from open verandah, but having no opening communicating directly with main building; or,

(c) When fixed in an outbuilding not used as a living room, or for cooking, and not connected directly by openings with the main building.

Kitchen sinks may remain untrapped when fixed under any of the foregoing conditions, provided the length of waste pipe does not exceed three feet.

24A. *Grease Traps.*—Every grease trap shall be fixed outside the premises wherever possible, and (if not portable) must be of stoneware and attached directly to the drain or disconnector trap.

The sizes of grease traps in ordinary cases must be as nearly as possible the following, viz., portable galvanized iron or copper—21 inches in length; stoneware—27 inches in length.

Wherever a galvanized iron or copper grease trap is used inside a building, it must be fitted so as to be easily movable.

The size of grease trap discharge pipes, except in special cases, must not be less than 3 inches for galvanized iron and copper, and 4 inches for stoneware.

All large grease traps which are built in brick or slate must have provision made for inlet and outlet ventilation.

Sinks in all such places as food-packing houses, butchers' shops, lard-rendering establishments, hotels, restaurants, boarding-houses, and laundries, and wherever ordered by the Board, shall be provided with suitable approved grease traps.

25. *Water-closets and Latrines.*—At any time after the date fixed by notice from the Board to the owner of any house, building, or ground, requiring him to connect the same with any sewer of the Board, or after such further time as shall be allowed by the Board for the purpose of such connexion, no privy closet other than a water-closet approved by the Board shall be used in such house or building or upon such ground.

Every internal water-closet shall be constructed in such a position that one of its sides at least shall be an external wall, which shall abut immediately upon the street or upon a yard or garden or open space of not less than 100 square feet of superficial area measured horizontally at a point below the floor of such closet. Such water-closet shall not be constructed so that it is entered directly from any room used for the purpose of human habitation or for the manufacture, preparation, or storing of food for man, or used as a factory, work-shop, or work-place. Such water-closet shall be constructed so that on any side on which it would abut on a room intended for human habitation or used for the manufacture, preparation, or storage of food for man, or used as a factory, work-shop, or work-place, it shall be enclosed by an air-tight partition of brick or other approved material extending the entire height from floor to ceiling.

Such water-closet apartment must be entered only from a well-lighted and well-ventilated hall, passage, lobby, or staircase; or, if proposed to be fixed in or adjoining a room used for the purpose of human habitation, or as a factory, work-shop, or work-place, must be cut off from such room, factory, work-shop, or work-place by a separate enclosure adjoining the closet apartment. Such enclosure must have a floor area of at least twenty square feet per closet, and must be enclosed on all sides with air-tight partitions extending from floor to ceiling, or ceiled over with an air-tight ceiling at an approved height from floor.

Such hall, passage, lobby, staircase, or enclosure must be provided with a window having an area of at least two square feet, opening directly into the external air. If such method of lighting enclosure be impracticable, other methods of naturally lighting same must be provided.

Such water-closet apartment must be provided with a window of such dimensions that an area of at least two square feet, exclusive of frame, shall open directly into the external air.

In addition to a window, such water-closet apartment, and such hall, passage, lobby, staircase, or enclosure must be provided with independent adequate means of constant inlet and outlet ventilation, by means of air-bricks built in external wall of such water-closet apartment, hall, passage, lobby, staircase, or enclosure, or by

combination of an air-brick and an air shaft, louvred openings, or by some other effectual method or appliance for ventilation. The effective area provided for outlet ventilation of each water-closet apartment, hall, passage, lobby, staircase, or enclosure must not be less than twenty-seven square inches, and where the level of the floor of closet is lower than the outside surface of the ground, exhaust ventilation must be provided by means of a tube, at least six inches in diameter, carried up through roof, and furnished with cowl.

The water-closet shall be furnished with a basin of non-absorbent material of such shape, capacity, and mode of construction as to receive and contain a sufficient quantity of water, and to allow all filth which may from time to time be deposited in such basin to fall free of the sides thereof and directly into the water received and contained in the basin. To prevent fouling the pan, the closet seat openings must not be larger than 10½ inches x 9 inches and seats with holes so large as to cause fouling of the pan must not be used. Pans must measure at least 12 inches between the lowest edge of the front and back faces of flushing rims.

Closet pans and fittings thereto must be entirely open to inspection, and without any enclosure.

A suitable apparatus must be provided for the effective application of water to the basin of the water-closet, and for the effective flushing and cleansing of such basin, and for the prompt and effective removal therefrom of any solid or liquid filth which may from time to time be deposited therein.

Every closet pan shall be furnished with a separate flushing cistern, or other apparatus approved by the Board, of at least three gallons capacity, which shall be so constructed, fitted, and placed as to admit of the supply of water for use in such closet pan without any direct communication with any service pipe upon the premises.

The flushing cistern must be fixed at such a height as will effectually flush the pan, but in no case must a cistern be fixed at a less height than 5 ft. 9 in. from the floor to the top of the cistern. Every cistern must be fixed so that the ball tap shall be accessible. Cisterns of all closets must have a separate stop tap to each. Cistern boards must be in one piece, not less than 10 inches deep and 1½ inches thick.

All water-closets inside a main building must be vented either by a soil vent pipe or, if considered necessary by the Engineer-in-Chief, by back venting the trap at a point near the crown of the trap where directed.

In every case where there is more than one closet on an upstairs floor, provision must be made for ventilating in an approved manner to prevent syphonage, and so as to have a current of air continually passing through the soil pipes.

Where there are more than three closets on the ground floor special provision must be made to prevent syphonage.

Where the branch from the closet to the main soil pipe is not more than 3 feet in length, and such closet is the only one attached to the soil pipe, the branch may be allowed to remain without any further venting.

Where flap seats are required for water-closets with separate pans and traps, cast-iron brackets must be provided, screwed to, or built into, the back wall of the closet and supported in front by an iron support secured to the floor.

Internal water-closets must be provided with storage tanks capable of holding six gallons of water for each occupant of the building. These tanks may be of 22-gauge galvanized sheet-iron or 24-gauge corrugated iron. The storage tanks may be placed in the closet room itself, on the roof over a flat or gutter, or in an accessible place between the ceiling and roof, in which latter case a galvanized sheet-iron or lead safe with overflow must be fixed under the storage tank. If the owner desire not to provide storage tanks, he must make a request in writing accepting all responsibility in the matter.

In wooden closet buildings the stumps, sole plates, bottom plates, and plinths must be of redgum or jarrah. Such closets must be made rigid, and not attached to fences.

On tiled floors closet pans must be secured to approved wooden plugs fixed in the floor. In brick, concreted, tar-paved, or asphalted floors a redgum or jarrah block, not less than than 12 inches x 12 inches x 3 inches (bevelled) but in no case smaller than the base of the pan, must be provided, to which the pan must be secured.

In hotels and lodging-houses one water-closet must be provided for every ten lodgers the house can accommodate, placed in suitable positions for males and females separately; and, in hotels, urinal conveniences also must be provided for the public frequenting the premises: In all other cases water-closets must be provided where required, and in accordance with orders issued by the Board.

A pedestal pan must be used wherever a combined water-closet, housemaid's slop-sink, and internal urinal is required, and in such cases must be provided with hinged tip-up seat. A lead safe of a suitable area must be fixed under the pan.

Where external closets are to be used as urinals the floors of such closets must be of an approved impervious material, and the pan provided with a hinged seat.

Latrine water-closets and water-closets of the description known as "pan closets" are prohibited.

26. *Urinals*.—Internal cradle urinals must be small, free from projecting ornament, and of non-absorbent material. The waste-pipes shall be of pottery-ware, lead, or glass-enamelled or coated cast-iron, and be kept as short and free from bends as possible. The waste-pipes must be trapped, if necessary, and must deliver out into the open air over a gully trap, or into a disconnector trap, except where special permission is given to do otherwise. The urinals must be provided with approved flushing apparatus.

The floors under urinals must be covered with non-absorbent material. The floors of the urinals must be tiled or paved with a fall towards a drain against the wall. The walls behind, and screens between, urinals must be of non-absorbent material, and of approved height. The screens must also be free from the floor for a portion of the width of the divisions, must project at least 1½ feet, and be not less than 2 feet apart. Other forms of urinals will only be allowed if specially approved by the Engineer-in-Chief.

The following materials will be considered impervious:—

- (1) For urinal walls—Glazed tiles, brickwork rendered with Portland cement mortar composed of equal parts of cement and sand, slate, marble, white or brown glazed fire clay, salt-glazed stoneware, enamelled cast-iron, and 6-lbs. sheet lead when joined to a lead floor.
- (2) For urinal floors—Glazed tiles, Portland cement mortar composed of equal parts of cement and sand, slate, marble, asphalt, and sheet lead.

Urinals inside a building must only be fixed in well-lighted and well-ventilated rooms having at least one external wall, and separated from other portion of building by a well-lighted and well-ventilated passage or air-chamber.

The positions, approaches, arrangement of lighting, ventilation, &c., for internal urinals must comply as nearly as possible with the Regulations as to internal closets.

In outside urinals where a floor or urinal disconnecting trap is used, the waste pipe from a single urinal must discharge under the grating.

Outside urinals may discharge into open channels leading to disconnector traps without further trap.

Open channels must not be provided for urinals inside main buildings except where approved by the Engineer-in-Chief, and where there is ample ventilation and light. Wherever inside urinals are provided, the traps must be fitted with ventilating pipes having an internal diameter of not less than 1½ inches.

By permission of the Engineer-in-Chief, and provided the waste pipe be properly trapped and vented, urinal wastes may be connected directly to the drain, if no soil pipe be convenient, or if it would be expensive to lead them to a disconnector trap.

Wherever inside urinals are provided with wastes and traps, and drippings may become a nuisance, provision must be made to prevent the nuisance by one of the following methods:—

- (a) By a urinal floor trap with the floor graded to the trap where the floor is tiled, cemented, or covered with asphaltum.
- (b) By a suitable sunken tray, trapped and connected with the waste, where the floor is covered with lead.

In either case suitable provision must be made for retaining the seal of the floor trap, and for flushing the surface of tray.

A separate trap must be provided to each urinal basin.

26A. *Urinal Cisterns*.—Flush pipes for automatic flushing cisterns generally must not exceed—

- 1-gallon cistern, ¾-in. diameter.
- 2-gallon cistern, 1-in. diameter, with branches as directed by the Engineer-in-Chief.
- 3-gallon cistern, 1¼-in. diameter, with branches as directed by the Engineer-in-Chief.

The height of cisterns must, except by special permission, be at least 8 feet from the floor to the top of the cistern. The cistern must be so fixed that the ball tap shall be accessible.

Pull and chain flushing cisterns, or other approved apparatus operated by hand, must be fixed on all urinals, except where automatic flushing cisterns are ordered by the Board.

The discharge must be equal to one gallon for each urinal stall, except where otherwise allowed by the Engineer-in-Chief.

In a combination of two urinals, one 2-gallon cistern may be used.

A separate stop tap must be provided for each urinal cistern.

Where the sparge pipe system of flushing urinals is adopted, such sparge pipes must be of brass or copper, with gun-metal fittings.

27. *Housemaids' Slop Sinks*.—Slop sinks must be of approved material, and be provided with approved flushing arrangements.

The discharge from a bath waste may be utilized for flushing a housemaid's slop sink, but nevertheless a 2-gallon flushing cistern must also be provided for the same purpose.

The waste pipe from a slop sink must be independently carried out to the open air, with a quick fall, into a full-bore ventilated 2½-in. down-pipe to the ground level, where a gully trap or disconnector trap must take the waste to the drain, or branched into a soil pipe as near the fitting as possible; and the sink must be trapped with a trap well opened out into a deep cone to receive the sink basin, and having a 2½-in. seal, and also a brass cleaning screw under the water line. Draw-off taps must not be used directly over slop sinks unless at least 18 inches above the sink.

Wherever a slop sink is connected to a soil pipe it may be treated in the same way as a closet as regards the ventilation.

All insanitary slop sinks must be abolished.

28. *Kitchen and Scullery Sinks and Troughs*.—Unless where otherwise specially approved, kitchen and scullery sinks and wash troughs must discharge into the open air over a gully trap, or into a disconnector trap. The trap, main, and branch waste pipes must be not less than 2 inches in diameter.

The brass strainer must be sunk to the level of the trough. The grating openings must be of ample size to fill the waste pipe full bore.

Where sinks and draining boards thereto abut against walls or partitions of living rooms they must, except by special permission, have suitable lead flashing of not less than 5 lbs. lead carried up the walls not less than 4 inches, and securely fastened and made watertight. In all new buildings sinks must be fixed on brackets, and the space between floor and the under portion of sink must be entirely open, without any enclosure.

Where the distance between the outlets on troughs exceeds 21 inches, and lead pipe is used, the pipe must be supported either by a lead tack wiped on the top of the pipe, or by a wooden block screwed to the bottom of the trough and clamped to the pipe. The pipe passing through the trough must have a lead flange wiped on.

Wherever the end of wash-trough abuts against brickwork of washing copper, the space between the end of trough and the brickwork must be made thoroughly watertight.

The use of unlined wooden boxes as kitchen or scullery sinks is prohibited. Before their connexion with the Board's sewers will be permitted, wooden boxes must be lined inside with sheet lead, weighing not less than 6 lbs. per square foot, or with sheet copper, weighing not less than 1½ lbs. per square foot.

29. *Baths and Lavatories*.—The waste pipe from a bath or set of lavatories must be at least 1½ inch diameter, trapped with a deep syphon trap with a cleansing screw, and provided with 1½-in. vent pipe for the bath and 1½-in. vent pipe for lavatory. The waste pipe must be carried separately to the open air, and delivered over a gully trap, or into a disconnector trap.

The waste pipe and trap from a single lavatory newly placed must be at least 1½ inches in diameter, and the area of the grating must be sufficient for the water to effectually scour the waste pipe. The waste pipe must be as short as possible, and discharge over a gully trap or into a disconnector trap.

From two to six lavatories must have at least a 1½-inch combined waste pipe; and from seven to twelve, a 2-inch waste.

In all internal lavatories where syphoning occurs, separate trap ventilation must be provided. In ranges of lavatories in external buildings or rooms isolated from the main building the waste may be ventilated by a single pipe at its upper end.

Tip-up basins will not be allowed to be connected with the sewers unless they are already in existence and are allowed to be retained as existing fittings; the waste pipes from such basins must be 2 inches in diameter.

Where it is necessary to fix new wastes to galvanized-iron baths, the bottoms of which are unsupported, efficient supports for the baths must be provided before the wastes are fixed.

Where a bath trap is fixed on the outside of a wall it must in no case be more than 2 feet from outlet of bath, unless with special permission of the Engineer-in-Chief.

Where pedestal baths are to be fixed, and it is not desired to flush them, they must be fixed with a space of at least 6 inches clear of walls.

30. *Safes, Overflows, &c.*—Unless where otherwise allowed by the Engineer-in-Chief, every safe under a water-closet, urinal, lavatory, bath, refrigerator, sink, or other fixture, must be drained by a special pipe not directly connected with any waste pipe, soil pipe, drain, or sewer. It must be provided at the outlet into the open air with flap valves of brass or other approved metal.

Pipes draining safes may discharge into the open air only when the discharge will not cause any inconvenience or nuisance. In all other cases the pipes must be brought to the ground surface or be arranged to discharge where they will not prove a source of annoyance or inconvenience.

Pipes for bath safes must be of 2 inches diameter, and those from closet and urinal safes must be of 1½ inches or 1½ inches, as directed.

A brass grating must be fixed to the inlet of each safe pipe.

No steam exhaust, blow-off, or drip pipe shall be connected with a drain or sewer, or with any soil or waste pipe. Such pipes must discharge into the rain-water channels.

Wherever it is not intended to cover the entire floor of closet the lead must extend beyond the face of the pan, and be so placed that the feet of the person using the closet may not rest on the roll.

On special application of the owner, lead safes already in position may be retained as existing fittings.

It is not compulsory to fix a lead safe or other impervious material under any fitting on an upstairs floor except for a slop sink, urinal, or water-closet used as a urinal. Lead safes are recommended, however, under baths and closets upstairs.

Existing bath floors must be regraded, if necessary, in the opinion of the Board's inspecting officer, and a proper waste pipe and flap-valve must be fixed.

On ground floors where cisterns are fixed over tiled, tar-paved, or asphalted floors graded to drain outside of the room, the overflow may discharge on to them provided no damage is likely to arise therefrom.

Overflows from cisterns, wherever possible, must be taken through external walls, and must discharge inside the owner's property; but in exceptional cases permission may be given to discharge into a slop-sink or other fitting or on to a lead safe which has a drainage pipe attached.

31. *Existing Fittings*.—Existing fittings and appliances, which the owner may desire to retain unaltered, and which, in the opinion of the Engineer-in-Chief, will be inoffensive, may, by the consent of the Board, remain unaltered until the Board shall otherwise order.

Existing fittings and appliances which are offensive must be removed at once, and all fittings not in accordance with these Regulations shall only remain at the distinct request of the owner, and must be removed at any time the Board so orders.

These requests must be made by the owner or his agent on the form obtainable at the Board's office.

32. *Gratings*.—The entrances to exit pipes to all fixtures except water-closets shall be furnished with suitable permanently attached gratings.

33. *Consent, Sanction, &c., of the Board*.—Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of or from the Board is necessary, whether special, in writing, or otherwise, with regard to any act, matter, or thing mentioned in these Regulations, the same may be given by and under the hand of the Chairman of the Board, or of the Engineer-in-Chief, personally or through an inspecting officer appointed under him, who severally shall be competent to give the same and authorized on behalf of the Board to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given.

34. *Variation of Regulations*.—No variation from these Regulations will be allowed except by the special approval of the Board obtained previously to the proposed variation being carried out.

35. *Penalty*.—Where anything is by these Regulations directed to be done, or forbidden to be done, or where any authority is given to the Board or any of its officers to direct or to forbid anything to be done, and such act so directed to be done remains undone, or such act so forbidden to be done is done, in every such case the person making default as to said direction and prohibition respectively shall be guilty of an offence against these Regulations.

Every person guilty of an offence against these Regulations shall be liable for every such offence, besides any costs or expenses which may be incurred in the taking of proceedings against such person guilty of such offence as well as any costs or expenses which may be incurred in remedying such default as particularly provided for in these Regulations, to a penalty not exceeding £20, and to a penalty not exceeding £5 nor less than £1 for each day during which such offence is continued by such person, and such penalty shall be recoverable notwithstanding

that the Board may not have chosen to exercise any power given to it by the said Melbourne and Metropolitan Board of Works Acts or by these Regulations to remedy such default.

The foregoing Regulations were made and prescribed by The Melbourne and Metropolitan Board of Works, and the common seal of the said Board was hereunto affixed the third day of July, One thousand nine hundred and twelve, in the presence of—

Land Surveyors Act 1895.

## EXAMINATION OF LAND SURVEYORS.

THE Surveyors Board appointed under the Land Surveyors Act 1895 hereby gives notice that the next examination will commence on Monday, 23rd September, 1912.

All applications from intending candidates must be in the hands of the Secretary by the 9th September, 1912. Regulations for the examination of Land Surveyors are published hereunder.

By order,

R. J. GRAY,

Acting Secretary to the Board.

Public Offices, Treasury Gardens,  
Melbourne, 12th August, 1912.

## REGULATIONS FOR THE EXAMINATION OF LAND SURVEYORS.

1. Examination of candidates for certificates as surveyors will be held in Melbourne in the months of March and September of each year, and at such other times as may be deemed advisable.

2. A candidate shall forward to the Secretary of the Board—

(a) Notice of his intention to present himself for examination, with documentary evidence of having complied with the preliminary conditions specified hereunder, all of which must reach the

Secretary at least ten days before the date fixed for the examination, due notice of which will be given in the *Government Gazette*.

(b) An examination fee of £2 2s., which must be paid on or before the date of examination.

## PRELIMINARY CONDITIONS.

3. A candidate shall satisfy the Board that he will be of the full age of twenty years at the time of examination, but no certificate will be issued until the candidate shall have attained the age of 21 years.

4. A candidate shall produce satisfactory evidence as to character.

5. (a) A candidate shall have served under articles, or other similar agreement, with some qualified surveyor or surveyors, for a period of four years, three of which must have been in the field; and shall produce satisfactory evidence of having received such education as will qualify him for the proper exercise of his profession.

(b) Or he shall have passed at any University recognised by an Australasian University the matriculation examination, or such other examination as shall, in the opinion of the Board, be equivalent thereto; and shall have been professionally employed with some qualified surveyor or surveyors for not less than three years, two of which must have been in the field.

(c) Or shall have taken the degree of Bachelor in Engineering at any University recognised by an Australasian University, and have been professionally employed in the field for a period of two years with a qualified surveyor or surveyors.

6. In addition to evidence of service, a candidate shall produce in the following form, or to like effect, a certificate from a qualified surveyor or surveyors, with whom he has served, that he is competent to undertake surveys:—

Form of Certificate for presentation to the Board of Examiners.

I, A.B., a qualified land surveyor, hereby certify that C.D. has been professionally and continuously employed with me as \_\_\_\_\_, in the practice of land surveying, for the period of \_\_\_\_\_ from \_\_\_\_\_ to \_\_\_\_\_, or has served under articles or other similar agreement for a period of \_\_\_\_\_ years of which have been in the field, and that he is fully competent to undertake surveys.

[Here describe the survey work on which C.D. was engaged.]

(Signed)

A.B.

(Date.)

NOTE.—For this purpose a "qualified surveyor" shall mean any person entitled to practise as a land surveyor in any part of the British Empire, where the standard of examination is, in the opinion of the Board, equivalent to that prescribed by these Regulations.

7. A candidate shall produce his original field notes and plan plotted by him therefrom of the survey of an area of not less than 40 acres, one of the boundaries of which shall be a water-course or other natural feature of an irregular road.

The field notes, plan, and survey must be certified by the candidate to be entirely his own work.

8. Each candidate presenting himself for examination shall provide himself with a book of logarithms, 40-20 scale, a parallel ruler, protractor, and necessary appliances for plan-drawing, except paper.

9. If the foregoing preliminary conditions are complied with to the satisfaction of the Board, the candidate will be admitted to examination.

## SUBJECTS OF EXAMINATION.

10. A candidate shall undergo an examination which shall embrace the following subjects:—

*Mathematics.*

(a) Trigonometry, plane and spherical; geometry and algebra. These subjects will be treated as far as they are applicable to surveying.

*Computation.*

(b) Reduction of traverses, computation connected with triangulation and the setting out of roads and curves; adjustment of discrepancies in surveys; computation of areas, including such as have irregular and curved boundaries.

*Principles and Practice of Surveying.*

(c) Detail of field practice, including the keeping of field notes, topographical, trigonometrical, and underground surveying, setting out of areas, re-determination of boundaries, laying out of roads, setting out curves, plotting by co-ordinates and from field notes, stadia surveying, barometric and other measurement of heights, surveying under Transfer of Land Act, writing descriptions of boundaries.

(Candidates may be required to effect surveys under supervision.)

*Engineering Surveys.*

- (d) Levelling and contouring; grading, setting-out, and measurement of earthworks, including practical tests.

*Use of Instruments.*

- (e) Principles of construction, adjustment and use of the following instruments:—Theodolite, plane-table, sextant, tachometer, level, compass, clinometer, barometer, thermometer, and steel band.

*Field Astronomy, Geodesy, &c.*

- (f) Determination (including practical tests) of time, latitude, and azimuth; the use of ephemerides, elementary geodesy, including spherical excess and convergence of meridians; declination of the magnetic needle.

*Drawing.*

- (g) Plan-drawing, drawing of sections and contours, compilation of plans, projection of maps and charts.

*Miscellaneous.*

- (h) Elementary physics, elementary geology, elementary forestry.

[The scope of the examination in elementary physics will be that covered by "Balfour Stewart's Elementary Physics," Fourth Edition, omitting chapters 8, 10, and 11, and the scope of the examination in elementary geology will be that covered by "Geikie's Class-book of Geology," Fourth Edition.]

11. Candidates producing satisfactory evidence of having passed the matriculation or senior examination at a University, or of having completed a course of the degree of Bachelor in Engineering at any University recognised by an Australasian University, may be exempted from working out papers in elementary geometry, trigonometry, and algebra, and will be credited with 60 per centum of the maximum marks allotted those papers. Candidates holding certificates or diplomas from any University recognised by an Australasian University or from recognised public technical schools may be exempted from working out papers in physics and geology, and will be credited with 60 per centum of the maximum marks allotted those papers.

## CERTIFICATES OF COMPETENCY.

12. A candidate qualifying and passing the examination held under these Regulations shall be entitled to a certificate that he is qualified for the position of a land surveyor in Victoria.

13. A surveyor applying to the Board for a certificate of competency without examination on the grounds of his holding a licence and certificate entitling him to practise in any of the other Australian States or in the Dominion of New Zealand, shall produce such licence or certificate of competency from the Board of the State or Dominion in which he is licensed or authorized to survey, together with satisfactory evidence as to character; provided that, should such licence or certificate have been issued upon examination held prior to September, 1895, or in virtue of a certificate issued prior to September, 1895, he shall further produce a written recommendation or a certificate, dated not more than twelve months previously, from such Board; provided also, that any surveyor prevented by absence from the State or Dominion in which he obtained his licence or certificate from obtaining the recommendation of the Board of that State or Dominion, may be granted a certificate on passing such examination under these Regulations as the Board may require. Each application shall be accompanied by a fee of £2 2s.

14. The Board may grant a certificate of competency or a letter of recommendation to any surveyor holding a Victorian certificate dated prior to September, 1895, and desiring to be registered in another State or the Dominion of New Zealand, either without examination or on such *viva voce* examination as in the opinion of the Board may be necessary. Application for such certificate shall be accompanied by a fee of £5 2s.

## REGISTRATION OF ARTICLES OF INDENTURE.

15. Articles of indenture or other similar agreement for the tuition of surveying by a qualified surveyor under which pupils are serving at the date upon which these Regulations shall commence and take effect, shall be forwarded to the Secretary for registration within six months of such date. And all such articles or agreements made thereafter shall be forwarded to the Secretary for registration within three months of the date of commencement of service thereunder. Applications for registration shall be accompanied by evidence of the pupil having passed at any University recognised by an Australasian University the matriculation examination or such other examination as shall, in the opinion of the Board, be equivalent thereto. The fee for each registration shall be Five shillings. Transfers of articles or agreements shall be registered within three months of such transfers.

16. On and after March, 1913 (except as hereinafter provided), no candidate shall be eligible for examination unless he shall have passed the University or other examination as set forth in the preceding clause; provided that, subject to his passing a special examination prescribed by the Board which shall include English, arithmetic, geometry, and algebra, a candidate who has not passed the University or other examination as set forth in the preceding clause may be admitted to examination if—

- (a) His articles of indenture or other similar agreement were executed prior to the date upon which these Regulations shall commence and take effect; or  
(b) He failed at an examination held prior to March, 1913; or  
(c) He produces certificates of six years' satisfactory field service.

## LICENCES TO SURVEY.

17. The Board may issue a licence to any person to whom it has issued a certificate of competency, or who holds a certificate of competency issued by any reciprocating Board of Examiners for land surveyors in Australasia subsequent to 1st January, 1896, and who is still entitled to practise as a land surveyor in the State or Colony where he obtained his certificate, or to any surveyor holding a certificate of competency issued by the Department of Land and Survey prior to 1st January, 1896, or who holds a licence to practise as surveyor under the Transfer of Land Act issued by the Surveyor-General prior to 1st January, 1896. Each application shall be accompanied by the fee (£1 1s.), the declaration as prescribed by the *Land Surveyors Act* 1895, and satisfactory evidence as to character.

Adopted at a meeting of the Surveyors Board, held 6th October, 1910.

## RULES, REGULATIONS, AND SCALE OF FEES OF THE WINCHELSEA PUBLIC CEMETERY.

## RULES AND REGULATIONS OF THE WINCHELSEA PUBLIC CEMETERY.

IN pursuance of the powers conferred by the *Cemeteries Act* 1890, the Trustees of the Winchelsea Public Cemetery make the following Rules and Regulations (that is to say):—

1. These Rules and Regulations shall come into force immediately after their publication in the *Government Gazette*, and from and after such publication all Rules and Regulations heretofore made shall be and are hereby rescinded.

2. All fees and charges shall be paid when applications are made or orders are given.

3. Any person desiring ground for a private grave shall apply to the Trustees thereof, who, if the application is approved and the prescribed fees are paid, will issue a burial right (Schedule B), which shall give the holder and his representatives the exclusive right of burial or interment in the portion of the ground allotted thereby, as a family or private burial place, and the right on obtaining the permission of the Trustees, as hereafter mentioned, to erect and maintain any monument, cenotaph, tablet, or other erection therein.

4. Any person desiring to construct a vault, grave, tombstone, or other erection shall apply to the Trustees for permission to do so, and submit a plan or drawing, with a copy of any proposed inscription or epitaph, and no such erection shall be made without the written approval of the Trustees.

5. No interment shall be permitted until an application has been made, the particulars required in the form Schedule A given, an order obtained, and a certificate from a Coroner, Justice of the Peace, or Registrar of Deaths has been delivered to the Secretary (gatekeeper or sexton).

6. Application for an order for interment shall be made at least eight working hours before the time fixed for the burial.

7. No coffin shall be buried within four feet of the ordinary level of the ground unless it contains the body of a child under the age of twelve years, when it shall be not less than three feet below the ordinary level of the ground, and a layer of earth at least six inches thick shall be left undisturbed above and around any coffin previously buried in the same grave.

8. The hours for burials shall be:—On week days—September to April inclusive, 10 a.m. to 6 p.m.; May to August inclusive, 10 a.m. to 4 p.m. On Sundays throughout the year, from 8 a.m. to 10 a.m., or from 2 to 3 p.m.

9. No re-interment or removal from another cemetery or another grave will be permitted until there be submitted a certified copy of the original certificate of the Coroner, Justice of the Peace, or Registrar of Deaths, and the licence for disinterment of the Minister of the Crown authorized in that behalf.

10. The Trustees will cause all ordinary graves to be dug; but any person having paid the fee for a private grave, and requiring a brick grave or vault, shall be permitted to construct the same subject to the approval of the Trustees, but every coffin placed therein shall be bricked in, cemented, and covered by a slab of stone, slate, or iron securely cemented.

11. No private grave shall be re-opened or any interment permitted therein without the consent, in writing, of the person entitled to give the same.

12. No person employed by the Trustees shall accept any gratuity whatever in the discharge of his duty, nor shall he be allowed to be pecuniarily interested in any work in the Cemetery other than that for which he receives payment, or for which he has special authority from the Trustees.

13. The Cemetery shall, unless otherwise ordered, be open to the public from 7 a.m. to sunset daily throughout the year.

14. No person shall be permitted to pluck any flower or take any tree, shrub, or plant from the Cemetery unless with the previous authority of the Trustees.

15. No smoking shall be allowed, nor any firearms discharged, within the Cemetery.

16. No dogs shall be allowed in the Cemetery.

PRESENT:

His Excellency the Governor of Victoria.

Mr. Watt | Mr. Edgar.  
Mr. Brown

WHEREAS by the *Mines Act 1907* it is among other things enacted that the Governor in Council may, by an Order published in the *Government Gazette*, constitute, within the mining district of Bendigo, Sludge Abatement Trusts for carrying out, subject to the Mines Acts, within the boundaries of the district specified by the constituting order the purposes for which the Sludge Abatement Board in the said Act referred to is appointed, which include, among other things, the regulation of hydraulic mining, dredging, sluicing, or other form of mining by which mineralized or impure water, sludge, or mining débris is discharged into any water-course, lake, or reservoir, and for preventing injury to any such water-course, lake, or reservoir, or to any land liable to be injured by such water, sludge, or mining débris. And whereas the Governor in Council has deemed it desirable to constitute a Sludge Abatement Trust within the mining district of Bendigo for that portion of the same as is hereinafter described. Now therefore His Excellency the Governor of the State of Victoria, with the advice of the Executive Council thereof, and in pursuance of the provisions of the said Act, doth hereby constitute and appoint a Sludge Abatement Trust under and by the name hereinafter assigned, to be a Sludge Abatement Trust within and for the district (the same being within the mining district of Bendigo) hereinafter described, and doth hereby specify, order, and appoint as follows:—

1. The boundaries of the district of the Sludge Abatement Trust hereby constituted (hereinafter referred to as the "Trust") shall be those set out in the Schedule hereto.

2. The Trust hereby constituted shall consist of four members, to be appointed by the Governor in Council.

3. The classes of bodies or of persons which the members of the Trust are to represent are the following:—

- (1) The Councils of the Municipalities of Bendigo, Eaglehawk, Huntly, Marong, and Strathfieldsay, which are to be represented by one of the members of the Trust.

No. 124. — AUGUST 21, 1912. — 11046. — 3.

(2) The owners of land (whether agricultural or grazing land, or land used for residential purposes) within the district of the Trust, injured or liable to be injured by pollution, or injury caused by sluicing, dredging, or other mining operations carried on within the district of the Trust, who are to be represented by one member of the Trust.

(3) The registered companies carrying on mining operations within the district of the Trust, which are to be represented by one member of the Trust.

(4) All other bodies or persons carrying on mining operations within the district of the Trust, who are to be represented by one of the members of the Trust.

4. The corporate name of the Trust shall be the "Bendigo Creek Sludge Abatement Trust."

5. Three shall be the number of members to constitute or form a quorum of the Trust.

SCHEDULE HEREINBEFORE REFERRED TO.

Commencing at the intersection of the Bendigo Creek and the east boundary of the parish of Huntly (at Bullocky Bridge); thence by a line bearing north-west (magnetic) to the watershed of the Bendigo Creek; thence westerly, southerly, easterly, and northerly by the watershed of the said Bendigo Creek and tributaries to the east boundary of the parish of Huntly aforesaid, and north by that boundary to the commencing point.

And the Honorable Peter McBride, His Majesty's Minister of Mines for the State of Victoria, shall give the necessary directions herein accordingly.

F. W. MABBOTT,  
Clerk of the Executive Council.

SHIRE OF POOWONG AND JEETHO.

Closer Settlement Acts.

FARM ALLOTMENTS IN THE TONGALA ESTATE, NEAR KYABRAM, AVAILABLE FOR APPLICATION UNDER CONDITIONAL PURCHASE LEASE.

THE several allotments included in the Schedule hereunder are declared available as Farm Allotments until Saturday, 31st August, 1912. Applications must be made on the prescribed forms, and lodged with the Secretary, Closer Settlement Branch, Lands Department, accompanied by the deposit, as shown in Schedule hereunder, for the most valuable allotment applied for. The deposit includes registration fee of 5s. and lease fee of £1.

Conditional Purchase Lease.

The leases issued to successful applicants may be for such a term of years, not exceeding 31½, as may be agreed upon between the lessee and the Board.

An applicant may apply for more than one allotment, but will only be required to lodge one deposit, being the amount chargeable on the most valuable allotment applied for.

No conditional purchase lease of a Farm Allotment can be granted to any person who is already the holder of land of the value of £2,500 (township land excepted), or who would thereby become the holder of land exceeding such value.

Improvements to the value of at least two instalments of the purchase money must be effected on each farm allotment before the end of the first year from the date of the lease, and 19 per cent. of the purchase money before the end of the third year, and a further 10 per cent. before the end of the sixth year.

The lessee must reside on the allotment. (Personal residence by a wife, or any child not less than eighteen years of age of lessee, may be considered personal residence by the lessee, with the approval of the Board.)

The lessee cannot transfer, assign, mortgage, or sublet the whole or any part of his allotment within the first six years of the lease.

The Crown grant may be issued to the lessee at the end of any half-year after the first twelve years have expired on payment of the balance of purchase money.

The amount of deposit (less £1 5s.) will be deducted from the capital value, and the half-yearly instalments calculated on the balance of purchase money.

Payments in advance may be made at any time at the option of the lessee, and proportionate reduction of interest secured thereby.

The balance of purchase money, with interest at 4½ per cent., must be paid by 63 or a lesser number of half-yearly instalments, calculated according to any of the tables under Division 3 of Part I. of the *Savings Banks Act 1890 Amendment Act 1896*, the first of such instalments being payable six months after the date of the lease. Each instalment will include interest upon the balance of the purchase money remaining unpaid.

Plans and further information may be obtained from the Closer Settlement Branch, Crown Lands Office.

## ALLOTMENTS IN THE CORNELIA CREEK ESTATE, STRATHALLAN PORTION, NEAR ROCHESTER, AVAILABLE FOR APPLICATION UNDER CONDITIONAL PURCHASE LEASE.

THE several allotments included in the Schedule hereunder are declared available as Farm and Agricultural Labourers' Allotments until Thursday, 5th September, 1912. Applications must be made on the prescribed forms, and lodged with the Secretary, Closer Settlement Branch, Lands Department, accompanied by the deposit, as shown in Schedule hereunder, for the most valuable allotment applied for. The deposit includes registration fee of 5s. and lease fee of £1. A Local Land Board to deal with the applications will be held at Rochester, on Tuesday, 10th September, 1912, at 10 a.m.

*Conditional Purchase Lease.*

The leases issued to successful applicants may be for such a term of years, not exceeding 31½, as may be agreed upon between the lessee and the Board.

An applicant may apply for more than one allotment, but will only be required to lodge one deposit, being the amount chargeable on the most valuable allotment applied for.

No conditional purchase lease of a Farm Allotment can be granted to any person who is already the holder of land of the value of £2,500 (township land excepted), or who would thereby become the holder of land exceeding such value.

Improvements to the value of at least two instalments of the purchase money must be effected on each farm allotment before the end of the first year from the date of the lease, and 10 per cent. of the purchase money before the end of the third year, and a further 10 per cent. before the end of the sixth year.

The lessee must reside on the estate. (Personal residence by a wife, or any child not less than eighteen years of age of lessee, may be considered personal residence by the lessee, with the approval of the Board.)

No conditional purchase lease of an Agricultural Labourer's allotment can be granted to any person who is already the holder of land of the value of £200, or who would thereby become the holder of land exceeding such value.

The lessee must enclose his allotment with a substantial and sufficient fence within two years from the date of his lease unless sooner called upon under the provisions of the *Fences Act 1890*.

The lessee must reside on the estate within four months from the date of his lease. (Personal residence by a wife, or any child not less than eighteen years of age of lessee, may be considered personal residence by the lessee, with the approval of the Board.) A substantial dwelling-house of a value of at least Thirty pounds must be erected on the allotment within one year from the date of his lease.

The lessee cannot transfer, assign, mortgage, or sublet the whole or any part of his allotment within the first six years of the lease.

The Crown grant may be issued to the lessee at the end of any half-year after the first twelve years have expired, on payment of the balance of purchase money.

The amount of deposit (less £1 5s.) will be deducted from the capital value, and the half-yearly instalments calculated on the balance of purchase money.

Payments in advance may be made at any time at the option of the lessee, and proportionate reduction of interest secured thereby.

The balance of purchase money, with interest at 4½ per cent., must be paid by 63 or a lesser number of half-yearly instalments, calculated according to any of the tables under Division 3 of Part I. of the *Savings Banks Act 1890 Amendment Act 1896*, the first of such instalments being payable six months after the date of the lease. Each instalment will include interest upon the balance of the purchase money remaining unpaid.

Advances of money to assist in effecting improvements may be granted by the Board, such advances to be repaid in half-yearly instalments extending over fifteen years, bearing interest at 5 per cent. The half-yearly payment will be at the rate of £4 15s. 7d. for every £100 advanced.

Plans and further information may be obtained from the Closer Settlement Branch, Crown Lands Office.

WHITE CLIFFS IRRIGATION AREA.

HOMESTEAD ALLOTMENTS AVAILABLE FOR SELECTION UNDER CONDITIONAL PURCHASE LEASES.

THE land is situated at White Cliffs, on the Murray River, about 6 to 10 miles from Mildura, and is from  $\frac{1}{4}$  mile to 3 miles from Merbein Railway Station.

Applications (with uncancelled Victorian duty stamp of 5s., or postal note for same amount, affixed) must be made on the usual form, and delivered or forwarded by post to any Local Land Office, or to the Secretary for Lands, Melbourne, on or before Friday, 23rd August, 1912.

The amount to be paid for each allotment is shown on Schedule hereto.

Every application must be accompanied by a deposit equal to the first instalment of the purchase money and the lease fee £1.

An applicant can, however, apply for more than one allotment, and will only be required to lodge the deposit payable in respect of the most valuable allotment applied for, together with a registration fee of 5s. with every application made.

Only one allotment can be granted to any one person.

No conditional purchase lease of a Homestead allotment can be granted to any person who is already the holder of any land, the area of which, if added to the area of the Homestead allotment, exceeds 640 acres if 1st class land, or like proportions of 2nd, 3rd, or 4th class land.

Improvements must be effected on each Homestead allotment as follows:—

To the value of not less than £50 within one year from the date of the lease, and additional improvements to the value of not less than £50 each year before the end of the second and third years from the date of the lease.

The lessee must permanently reside on the allotment for at least eight months during each year.

Personal residence by the lessee's wife, or any of his children over 18 years of age, may, with the approval of the Minister of Lands, be considered personal residence by the lessee.

The term of the lease is 31  $\frac{1}{2}$  years, and the lessee cannot transfer, assign, mortgage, or sublet the whole or any part of his allotment within the first six years of the lease.

The Crown grant may be issued on expiry of the lease, provided all conditions have been complied with, and the full purchase money has been paid.

All applications received will be dealt with by a Local Land Board. The date and place of hearing will be hereafter notified.

The irrigation charge will be £1 2s. 6d per acre per annum for the year 1912-13, and afterwards the full charge required to meet all costs of supplying the water will be collected.

Plans may be obtained at the Inquiry Office, Lands Department, Melbourne.

Applicants may obtain from a Local Land Officer, or the Inquiry Office, Lands Department, Melbourne, a certificate authorizing the issue, by the Railway Department, of a ticket at excursion fares to enable them to inspect the land, or to attend the Local Land Board.

Commissioner of Crown Lands and Survey,  
Department of Lands and Survey,  
Melbourne, 15th August, 1912.

**FORTNIGHTLY LIST OF CROWN LANDS AVAILABLE.**

**T**HE undermentioned areas are available for application as provided by various sections of the Land Acts, and all applications received on or before Wednesday, the 18th September, 1912, will be deemed to have been simultaneously made; but any application lodged after such date may be considered if received in time for inclusion in the advertisement of the cases to be heard at the Local Land Board.

Applications on proper forms, accompanied by 5s. duty stamp (uncancelled registration fee), may be delivered or forwarded by post to the Local Land Officer or to any Crown Lands office in Victoria.

Applicants may obtain from Local Land Officers, or the Enquiry Office, Lands Department, Melbourne, a certificate authorizing the issue by the Railway Department of a return ticket at concession fares to enable them to inspect available areas or to attend Local Land Boards.

Specially reduced rates are also allowed for a selector when granted an allotment for removal of his family and belongings to the land.

Marked plans of any particular area, application forms, a pamphlet explaining various sections of the Land Acts, and any further information may be obtained from the Enquiry Office, Lands Department, Melbourne, and Land Officers, Alexandra, Ararat, Bairnsdale, Ballarat, Beechworth, Benalla, Bendigo, Geelong, Hamilton, Horsham, Melbourne, Omeo, Sale, Seymour, Stawell, St. Arnaud, and Warracknabeal.

Department of Crown Lands and Survey, Melbourne, 21st August, 1912.

H. MCKENZIE,

Commissioner of Crown Lands and Survey.

TENDERS FOR THE SERVICE OF 1912-13.

GENERAL STORES (SUPPLEMENTARY).

FRESH Tenders will be received until Eleven o'clock a.m. on Thursday, 29th August, 1912, from persons willing to furnish the undermentioned articles, in such quantities as may be ordered by the Victorian Government, or by the Federal Government, for its offices situated in Victoria, for the periods indicated hereunder, commencing 1st July, 1912.

Schedule of Articles.	Years.	Preliminary Deposit.
22. Painters' and Glaziers' Materials ...	3	£ 5

Security.—10 per cent. on total amount of tender accepted, except when otherwise specified in the tender form, but in no case will security of less than £5 be received.

Schedules as above, with full particulars, may be obtained from the Secretary to the Tender Board, by whom also the samples will be shown and any information afforded to persons tendering.

Tenders must be accompanied by the preliminary deposit, as shown above, in bank notes, or a bank draft in favour of the Secretary to the Tender Board (cheques will in no case be received).

The Government will not necessarily accept the lowest or any tender.

Tenders, enclosed in a separate envelope, and having the words "Tender for—" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

The Conditions of Contract and stipulations of advertisement are those published in the *Government Gazette* of 28th February, 1912, page 991.

Printed forms of tender, showing estimates of requirements and conditions of contract, may be obtained from the Secretary, Tender Board, Treasury, Melbourne, or from the officer in charge of police at any of the above-mentioned places, by whom also any information or explanation will be afforded to persons tendering.

The price, which must be expressed in words as well as in figures, and without alterations, erasures, or discrepancies, must be per ton of 40 cubic feet for firewood, including delivery at the offices and all charges. Prices should only be quoted for requirements where estimates are shown above.

Tenders, which must be upon the printed form, will be received for either one or more of the above-mentioned places, and tenders for such places may be accepted or rejected separately; but if all lengths of firewood be included in one tender it may be accepted for one length only, if advisable.

Where the kind or kinds of wood is not mentioned in the tender form, tenderers must specify the kind or kinds of firewood they offer to supply.

Telegrams, or tenders not complying with the terms of advertisement, will not be entertained.

The successful tenderer will be required to enter into a bond for £10, with two approved sureties for the due performance of the contract, within ten days after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to again hold contracts for Government supplies.

Tenders must be enclosed in an envelope, marked "Tender for Firewood at \_\_\_\_\_," as the case may be, and deposited in the Tender-Box, Pay Office, Treasury, Melbourne; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Treasury, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by Gazette notice and by letter to accepted tenderers.

## CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.
2. All the firewood supplied under these contracts must be split out of large timber, and must be perfectly sound, dry, and of the kind or kinds specified in the tender: neither burnt wood, heartwood, small branches, nor outside pieces of bark will be received. The billets must be not less than 4 inches nor more than 6 inches in diameter. The long wood to be not less than 9 inches nor more than 18 inches in diameter. Delivery to be made on the written order of the chief officer of the Department requiring the supply. The ton of firewood consists of 40 cubic feet. If the firewood is obtained from a State forest timber reserve, or ordinary Crown lands, persons cutting or removing same must be provided with a licence or permit from the State Forests Department.
3. Orders will be issued half-yearly (except in cases where the storage is small, when they will be issued quarterly); but the contractor must have 24 hours' notice before purchases are made at his risk.
4. The contractor will be bound to place the firewood in stacks for measurement on such ground as may be pointed out. The stacks are to be 2 feet wide (or 4 feet 6 inches for long wood) by 5 feet high, with space between each stack for measuring; and the billets (or lengths) are all to lie the same way, viz., crossways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack and to the satisfaction of the officer receiving the supply. In the event of any inconvenience being felt, either through delay in delivery or of stacking the wood, the Department concerned will purchase the same or re-stack that delivered, at the risk of the contractor, from whose account any expense incurred thereby will be deducted.
5. The officer receiving the supply shall have full power to reject any wood which he may consider not in accordance with the contract, notice of which will be given to the contractor in writing, stating the reason. The contractor may, however, claim a survey; but in that case he must, within 48 hours after objection is made, give notice thereof in writing to the officer rejecting the wood.
6. The board of survey will be composed of persons appointed by the Honorable the Treasurer, and the decision of the board of survey is to be considered as final.
7. If the board of survey shall decide that the supply is not of proper quality, it must be immediately replaced by the contractor; failing which, it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 4.
8. Accounts for firewood to be rendered to the Department receiving the supply immediately upon completion of the order, which must be attached to the account. Payment will be made at the receipt and pay office of the district, or at the Treasury, Melbourne, as the contractor may desire.
9. In the event of any irregularity on the part of the contractor being repeated, it will be competent for the Government, in case such irregularity should be established to the satisfaction of the Tender Board, to cancel the contract forthwith.
10. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.
11. Under no circumstances will a contractor be permitted to abandon his contract.
12. No subletting will be allowed; all work must be carried out by the contractor, and the hours of employment of any person engaged in any business or occupation connected with the preparation of the firewood for sale or connected with the sale or distribution of the firewood tendered for in this schedule shall not exceed 48 per week, and every such person shall be paid such wages and employed subject to such conditions as are or may be determined by the Wood, Hay, Chaff, and Coal Board under the Factories and Shops Acts; and a copy of these conditions shall be kept conspicuously and continually posted, in legible Roman characters, on the premises of the contractor. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from any accounts which are or may be due to the contractor, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.
13. The Contractor shall, before any account is passed for payment for supplies made, furnish a statutory declaration that all the workmen under this contract have been employed in accordance with clause 12 of these Conditions, and have been paid not less than the minimum rate of wages for such workmen as is provided for under that clause.

Treasury,  
Melbourne, 31st July, 1912.

W. A. WATT,  
Treasurer.

## TENDERS FOR GRAZING LANDS.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Crown Lands Office Tender-box on or before Tuesday, 27th August, 1912.

NOTE.—No tender will be accepted unless the fee for the period as shown in the head-lines, and fee of Five shillings for licence, are forwarded.

**T**ENDERS will be received on or before Tuesday, 27th August, 1912, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 187 of the *Land Act 1901* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

## Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the Land Acts, except under the 187th section of the *Land Act 1901*, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1901*, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the Land Acts may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee; his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 189 of the *Land Act 1901* the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act 1890* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants were in any way responsible therefor.

#### Special Conditions.

1. The period of occupation will, except where otherwise specified, be for thirteen months from the 1st September, 1912, to 30th September, 1913.

2. The fee for the period as shown in the head-lines— for which the licence will be issued, and fee for licence— must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. *Tenders to be addressed to the Secretary for Lands* (Tender Box), Melbourne.

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing within one month, or to require the incoming tenant to pay for it in accordance with the provisions of section 190, *Land Act 1901*.

Plans can be seen and information may be obtained in this office.

Section 13, *Land Act 1904*, provides:—

1. Where a licensee under section 187 of the *Land Act 1901* has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

#### RUSHWORTH AND COLBINABBIN RAILWAY CONSTRUCTION TRUST.

#### NOTICE OF INTENTION TO BORROW MONEY PURSUANT TO SECTION 43 OF ACT NO. 1288.

TAKE notice that the Rushworth and Colbinabbin Railway Construction Trust propose to borrow (upon the credit of the Rushworth and Colbinabbin Railway Construction Fund, and of the rates which the above Trust is by the Railway Land Acquisition Act authorized to make, levy, and receive) the sum of Five thousand five hundred pounds, such sum to be raised by the issue of fifty-five debentures of One hundred pounds each, redeemable in twenty years.

It is further proposed that the rate of interest to be named in such debentures shall be four and a half per cent. per annum, payable half-yearly.

The interest will be payable at the Commercial Bank of Australia Limited, Melbourne.

The manner in which the loan is to be liquidated is by the formation of a sinking fund, in which a sum of not less than two (2) per cent. of the principal sum is to be invested annually in Victorian Government Three Per Cent. Stock or re-purchase of debentures until, in either case, complete liquidation of the loan.

The loan is to be applied for the following purpose:—To purchase land, &c., required for the Rushworth to Colbinabbin line of railway, and making compensation to all

persons interested in any lands used in connexion with, or likely to be affected, by the construction of the said line of railway, and for the purpose of repaying any money obtained by the Trust under section 31 of Act No. 1288 as amended by section 2 of Act No. 1605, and the interest thereon, and paying all costs, charges, and expenses incurred by the said Trust.

#### In the matter of the Metropolitan Gas Company's Act 1878.

WE, John Grice, of the City of Melbourne, gentleman; the Honorable Joseph Major Pratt, of the said city, gentleman; and John Hinde, also of the same city, gentleman, do severally, solemnly, and sincerely declare as follows:—

That the said John Grice and Joseph Major Pratt are two of the directors of The Metropolitan Gas Company, and the said John Hinde is the secretary of the said company.

That the nominal capital of the said company is Eight hundred and fifty-seven thousand two hundred and ten pounds, divided into One hundred and seventy-one thousand four hundred and forty-two shares of Five pounds each, and the amount paid up thereon is Eight hundred and fifty-seven thousand two hundred and ten pounds.

That the amount which the company is legally authorized to borrow on debentures is the sum of Eight hundred and fifty-seven thousand two hundred and ten pounds.

That the total amount raised by the company on debentures and unpaid does not exceed the amount which the said company is by the Metropolitan Gas Company's Act 1878 authorized to borrow.

That none of the debentures, bonds, and mortgages referred to in the 55th section of the said Act are now outstanding, the same respectively having been paid off.

And we severally make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act of the Parliament of Victoria rendering persons making a false declaration punishable for wilful and corrupt perjury.
