WHEREAS by the *Lifts Regulation Act 1906* it is enacted that the Governor in Council may, by Order published in the *Government Gazette* from time to time, make regulations for the purposes therein mentioned: Now therefore His Excellency the Governor of Victoria, with the advice of the Executive Council thereof, doth by this order repeal the Regulations made on the 2nd July, 1912, and doth make the following Regulations (that is to say):—

(1) Parts II., III., IV., and V. of these Regulations shall apply to—

- (a) All lifts erected after the 1st day of July, 1912.
- (b) All lifts which after the 1st day of July, 1912, are re-constructed or materially altered.
- (c) Every part of any lift which requires renewal after the 1st day of July, 1912.

(2) Parts I. and VI. of these Regulations shall apply to all lifts in use on and after the first day of July, 1912.

PART I.

(3) No lift shall be erected, re-erected, or materially altered unless a permit, in the form A annexed, has first been obtained from the Inspector.

(4) Every applicant for such permit shall file at the Factories Office complete plans, drawings, and specifications, showing correct measurements and describing fully the whole machine and its position in the building, unless only alterations are intended, in which case it will be sufficient if the alterations are described.

(5) Before granting such permit the Inspector may require any alterations in design to be made which appear to him to be necessary for the safe working of the lift, and may, upon being satisfied, grant such permit.

(6) All work done and all machines, apparatus, and material used in connexion with any lift shall be subject to the final approval of the Inspector, who shall, as often as appears to him necessary, inspect and test every lift and part.

(7) No lift which comprises a platform or car shall be erected in such a position as will leave a road for persons to pass under the platform or car.

(8) In these Regulations the word "Inspector" wherever used shall be taken to mean the Chief Inspector of Factories.

PART II.

GENERAL RULES APPLYING TO ALL LIFTS.

Lubrication.

(9) Every lift shall be provided with efficient means for lubricating all working parts.

Overhead Construction.

(11) All overhead construction shall be of sufficient strength and stability to bear at least four times the load to be put upon it.

(12) All overhead gear shall be supported on steel joists.
 (13) In the well, immediately under the overhead sheaves, of any suspended lift there shall be built a substantial platform or grating with means of access from outside the well.

Guides.

(14) All guides, whether for cars or for counter weights, shall be of steel.

Enclosures, Doors, and Gates.

(15) All enclosures, doors, and gates shall be made, where possible, at least 5 feet 6 inches in height.

 (17) The lift well of any passenger or goods lift shall, on any side in which there is a car entrance, be without projection and (doorways excepted) be enclosed throughout the travel of the car.

Roof to Car.

(18) All lifts (other than goods lifts carrying less than 3 cwt.) shall have a substantial roof fitted to the car.

Lifting Ropes.

(19) Every suspended lift (other than a whip or crane or goods lift to carry less than 3 cwt.), shall be provided with at least four metallic lifting ropes. Provided that all lifts registered and running on 1st July, 1912, with only two lifting ropes shall be allowed to continue without extra ropes.

(20) When the number is four, each such rope, when new, shall have a breaking strain of at least five times the maximum load and weight of the car.

(21) When the number is more than four, such ropes, when new, shall have a breaking strain of at least twenty times the maximum load and weight of the car.

(22) In the case of whips or cranes, or goods lifts carrying less than 3 cwt., where one rope only is provided, such rope, when new, shall have a breaking strain of at least ten times the maximum load to be carried.

(23) All balance-weight ropes shall have a proportion of strength to load similar to that of the lift in each case.

(24) The method of binding all lifting ropes and balance-weight ropes around eyes shall be by splicing only.

Diameter of Pulleys, Drums, and Sheaves.

(25) The minimum ratio of the diameter of any pulley, drum, or sheave to the diameter of the rope wound on it, shall be as under:—

- For power driven lifts carrying less than 3 cwt., and for whips or cranes, 14 to 1.
- For hand-power lifts, 8 to 1.

Factor of Safety of Suspended Lifts.

(26) Every part (other than a lifting or balance-weight rope) of a suspended lift shall, when new, have a breaking strain of at least the following proportions:—

- Where material used is cast-iron, at least ten times the maximum strain to be put upon it.
- Where material used is wood, at least eight times the maximum strain to be put upon it.
- Where material used is wrought-iron, brass, or steel, at least five times the maximum strain to be put upon it.

Speed.

(27) Lifts operated by lift attendants shall be so constructed as to be incapable of being driven at a rate exceeding 300 feet per minute. Automatic and other lifts shall be so constructed as to be incapable of being driven at a rate exceeding 200 feet per minute.

Lighting of Lift Wells.

(28) Every lift well shall be so lighted as not to endanger the safety of persons using or operating the lift. The Inspector may, if he considers the lighting insufficient, order suitable lighting to be provided.

Whip Hatches.

(29) All whip hatches on floors to or from which goods are delivered or discharged shall be provided with flaps or rolling platforms, or other suitable contrivance.

Safety Gear.

(30) All lifts, excepting direct acting ram lifts, parcels lifts, and dinner lifts, shall be provided with efficient safety gear. Such gear must be automatic and positive in action.

(31) The Inspector may in any case where, on inquiry, he is satisfied such should be done, exempt from the operation of this section any carriage lift.

(32) The Inspector may at any time test any safety gear, and may, if he choose, do so in the following manner:—The car shall be fully loaded, raised to any height he directs, and suspended by hempen rope. The lifting ropes shall be either detached or slackened sufficiently. The hempen rope shall then be cut.

Notice as to Load, &c.

(33) Every passenger lift shall have a prominent notice stating the maximum number of passengers allowed, and such number of passengers shall not at any time be exceeded.

(34) Every goods lift shall have a prominent notice stating—

- (a) The maximum load of such lift.
- (b) That no person, other than the lift attendant and the person attending to the goods, shall be permitted in the lift car at any time.

(35) Such load shall not at any time be exceeded, nor shall any person, other than the lift attendant and the person attending to the goods, be permitted in the lift car.

Doors.

(36) Doors of such construction that it will be impossible to open them from the outside without a key (which must not at any time be left in the door) shall be fitted to all entrances to every passenger lift, with the exception of automatic lifts. On passenger lifts where the car has one entrance only the door may be omitted if, in the opinion of the Inspector, the lift well is so constructed that the omission of the door would not endanger life and limb.

Signal Bells.

(37) Signal bells, or similar apparatus, which may be operated from any floor, and which work in conjunction with an indicator in the car, shall be provided on all passenger lifts.

Automatic Gate-closing Gear.

(38) Every goods lift shall be provided with gear which, on the car leaving any floor, automatically closes the door or gate at that floor.

Maintenance of Lifts.

(39) All lifts shall be maintained in conformity with the Regulations, and in proper working condition.

(42) All parts of lift and safety gear shall be kept clean and free from accumulations of rubbish, dust, and dirt, to the approval of the Inspector.

(43) All hydraulic lifts shall have the ram kept in such condition that the gland does not allow water to pass. This is to be effected without unduly pinching the ram.

(44) All controlling mechanism must be kept in such condition that creeping is impossible.

(45) All controlling, lifting, or balance-weight ropes that show indications of excessive wear, splintering, stranding, or bunching must be at once discarded and replaced by new ropes.

Inspection of Lifts.

(46) Every lift shall be inspected at least once in each year, and the owners of, or persons using, such lift shall take all necessary measures to facilitate any inspection.

(47) If the Inspector considers that everything is satisfactory, he shall issue a certificate to that effect.

PART III.

Hydraulic Lifts.

(48) All cylinders, rams, pipes, valves, or other apparatus subject to hydraulic pressure, shall be tested to three times the proposed working pressure per square inch, and a certificate, under the maker's hand, that they have been successfully tested to stand that pressure, shall be furnished to the Inspector before they are put into use.

(49) The whole of the above machinery shall be tested to twice the working pressure in the presence of the Inspector after erection and before being used.

(50) When any material alteration, addition to, or re-instatement of existing machinery or pipes, is made, a similar test shall be made in the presence of the Inspector before use.

(51) To prevent overrunning, all hydraulic machinery having rams working in cylinders shall, in addition to valves or tappet gear, be provided with permanent stops (or other approved means) by which the rams will be prevented from being forced out of the cylinders.

(52) An independent screw-down pressure stop valve and exhaust cock shall be fitted to every machine.

(53) A back-pressure valve, non-return valve, or other similar apparatus of approved kind, shall be fitted to every service-pipe. This valve shall be placed as close to the controlling valve as possible.

(54) In low pressure lifts a relief valve, loaded to lift when the pressure in the service-pipe exceeds 10 per cent. increase of pressure over the ordinary working pressure, shall be fitted, in all cases, where the service-pipe exceeds one inch in diameter.

(55) All hydraulic cylinders shall be fitted with air and drain pipes.

(56) Ample provision shall be made so that cylinders can be efficiently drained and washed out. Means shall also be provided for preventing water syphoning out of cylinders.

(57) Only piping made specially for hydraulic pressures shall be used; ordinary steam or water piping will not be allowed for pressure work. Standard flanges shall be screwed on and seated for jointing material. A tee piece shall be provided for testing purposes if required by the Inspector.

(58) No direct acting lift shall be fitted with flying balance-weights unless the ram of such lift is fitted with one or more tie-bolts carried from the bottom of the ram to the girders of the car platform. All hydraulic and other types of balance to be approved by the Inspector.

(59) The controlling valve must be of an efficient type, and tested, and shall cut off automatically at either limit of travel. The valve must also be made to shut off the water in the case of breakage of the hand-line. Provision must be made to prevent any material passing to the plunger and jamming in the holes thereof. Provision shall also be made that will preclude any possibility of the plunger blowing out, should it become parted.

PART IV.

Electric Lifts.

(60) The location of the electric apparatus shall be such that it shall not be subject to moisture or dampness of any description.

(61) The whole of the electrical attachments and apparatus shall be entirely and thoroughly insulated from body or earth in an efficient manner.

(62) Electrical tests effected and approved by the Electrical Inspectors of the Melbourne City Council, or of the Fire Underwriters' Association of Victoria, shall be deemed sufficient and satisfactory.

(63) The supply main shall be suitably insulated and fixed, and shall be of sufficient sectional area to carry the maximum current permissible under the rules of the Fire Underwriters Association of Victoria.

(64) The whole of the machinery and apparatus intended for use shall be seen and tested by the Inspector before it is put into use.

(65) At the nearest point of entrance to the building the supply mains shall be connected to suitable and efficient double pole fuses or circuit breakers, and also a double pole quick break switch.

(66) The said double pole fuses or circuit breakers shall be accurate, and shall be such that the circuit shall be broken should the current exceed the normal carrying capacity of the main cables by 50 per cent.

(67) Sufficient space for the over-running of the cage shall be provided at the top and bottom of the lift well at the approval of the Inspector, and such space at the top shall be not less than 3 feet, measuring from the top of the car beam to the underside of the overhead girders or ceiling joists.

(68) An automatic stop, which will instantly break the circuit should the over-run of the car exceed 12 inches, shall be fitted to every goods or passenger lift. This stop must be operated by the car.

(69) All electric lifting apparatus shall be provided with limit stops, or other approved means, to prevent over-winding. These stops must be attached to the lift machine in drum-winding gears, and must operate by the car in friction-driven gears.

(70) The electrical controlling gear must be of an efficient type, and shall automatically slow down and cut off at either limit of travel. It must operate in a satisfactory manner without causing excessive strain in any part of the apparatus. The electric controls must so operate as to obviate any excessive and deleterious sparking, and must be provided with locks or other means that will hold the controls in the "stop" position.

(71) All drums of electric lifts shall either be grooved so as to conveniently embrace the lifting ropes, or be arranged so as to prevent any over-riding or jamming of such ropes.

(72) In positively-driven gear, with the ropes permanently attached to the drum, the anchoring of the ropes shall be performed in an efficient manner, and shall be such that not less than one and a half turns of each rope shall be round the drum when the lift cage is at the top or bottom limit.

(73) All drum-driven lifts shall be fitted with an automatic device so arranged that should the lifting ropes from any cause whatsoever become slack the current shall be immediately and automatically cut off.

(74) All counter-balance weights must be landed as the Inspector may direct.

(75) All lift machines shall be provided with an efficient brake gear, operated in a manner approved by the Inspector.

(76) Suitable buffer springs must be provided, to come into operation if the lift over-runs more than three inches. These springs must be capable of stopping the lift from full speed at full load without exceeding their safe working deflection.

PART V.

Belt-driven or other Power Lifts.

(77) Every belt-driven or other power lift shall be fitted with efficient brake gear, to operate on the worm shaft automatically, when the machine is stopped. Where the angle of any worm is more than the angle of reversibility, efficient provision shall be made to prevent rotation, so that any tendency of the car to descend, except under power, is obviated. Two limit stops shall be provided, one controlled by the hand rope, and one an integral part of the lift gear.

(78) The use of direct spur-gearing or direct friction drive shall not be allowed where it is intended that an attendant or passengers are to travel in the car.

(79) The striking or reversing gear shall operate by means of one hand rope or rod, and shall be such as to preclude any possibility of two belts being on the fast pulley simultaneously. Provision shall be made for maintaining the belts in their several proper positions.

(80) Every drum-winding lift in which any person travels shall be provided with gear, so that, should the lifting ropes by any means become slack, the machine shall automatically stop.

PART VI.

Fees.

(81) The owner, lessee, or occupier of any building in or in connexion with which there is a lift in use shall, on the 1st day of July in each year, or on the day such lift first comes into use, pay to the Inspector for inspection and certificate of inspection—

For each lift (mechanical power), 12s. 6d.
For each lift (hand power), 7s. 6d.

(82) In the case of a lift which comes into use after the first day of January in any year, the fee shall be half the above rates.

(83) No person shall be called upon to pay more than £5 in respect of any number of lifts within one enclosure for any period of twelve months.

ECHUCA ESTATE.

ALLOTMENTS IN THE ECHUCA ESTATE AVAILABLE FOR APPLICATION UNDER CONDITIONAL PURCHASE LEASE.

THE several allotments included in the schedule hereunder are declared available as Farm Allotments until Saturday, 30th August, 1913. Applications must be made on the prescribed forms, and lodged with the Secretary, Closer Settlement Branch, Lands Department, accompanied by the deposit, as shown in Schedule hereunder, for the most valuable allotment applied for. The deposit includes registration fee of 5s. and lease fee of £1. A Local Land Board to deal with the applications will be held at Echuca on Friday, 5th September, 1913, at 10 a.m.

Terms, Conditions, &c.

The leases issued to successful applicants may be for such a term of years, not exceeding 31½, as may be agreed upon between the lessee and the State Rivers and Water Supply Commission.

An applicant may apply for more than one allotment, but will only be required to lodge one deposit, being the amount chargeable on the most valuable allotment applied for. Applicants must be at least 18 years of age.

No conditional purchase lease of a Farm Allotment can be granted to any person who is already the holder of land of the value of £2,500 (township land excepted), or who would thereby become the holder of land exceeding such value.

Improvements to the value of at least two instalments of the purchase money must be effected on each farm allotment before the end of the first year from the date of the lease, and 10 per cent. of the purchase money before the end of the third year, and a further 10 per cent. before the end of the sixth year.

The lessee must reside on the estate. (Personal residence by the lessee's wife, or any child not less than eighteen years of age of lessee, may be considered personal residence by the lessee, with the approval of the Commission.) In special cases the Commission has power to allow persons other than those above mentioned to reside for a limited period in lieu of lessee.

The lessee cannot transfer, assign, mortgage, or sublet the whole or any part of his allotment within the first six years of the lease.

Leases will be subject to a condition providing for resumption of land required for necessary drains or channels through any allotment.

Lessees are not permitted to destroy or remove timber from the land unless by written consent of the Commission.

The amount of deposit (less £1 5s.) will be deducted from the capital value, and the half-yearly instalments calculated on the balance of purchase money.

Payments in advance may be made at any time at the option of the lessee, and proportionate reduction of interest secured thereby.

The balance of purchase money, with interest at 4½ per cent., must be paid by 63 or a lesser number of half-yearly instalments calculated according to any of the tables under Division 3 of Part I. of the Savings Banks Act 1890 Amendment Act 1896 the first of such instalments being payable six months after the date of the lease. Each instalment will include interest upon the balance of the purchase money remaining unpaid.

The Crown grant may be issued to the lessee at the end of any half-year after the first twelve years have expired, on payment of the balance of purchase money, and will be subject to a condition that the owner for the time being of the land, or a member of his family over eighteen years of age, or any person approved by the Governor in Council, shall reside thereon for at least eight months in every year, and that a breach of this condition may lead to the forfeiture of the land to the Crown.

Plans and further information may be obtained from the Closer Settlement Branch, Crown Lands Office.

Land Act 1911, Section 22.

MALLEE LANDS AVAILABLE FOR APPLICATION AS SELECTION PURCHASE ALLOTMENTS.

The land is situated on the east side of the Mildura Railway line, between Ouyen and the north end of Lake Tyrrell.

Applications (with uncancelled Victorian duty stamp of 5s., or postal note for same amount, affixed) must be made on the usual form, and delivered or forwarded by post to any Local Land Office, or to the Secretary for Lands, Melbourne, on or before Saturday, 30th August, 1913.

Not more than one allotment can be included in any application, but any number of applications may be lodged, with the prescribed fee in each case.

Applicants will be hereafter notified as to the date and place of hearing of their applications by Local Land Board.

The land will be granted under selection purchase lease, and at the end of six years, if the residence, cultivation improvement, and all other conditions have been complied with, the lease will be endorsed under the seal of the Board of Land and Works to the effect that such conditions have been complied with, and at any time within the remaining period of 14 or 34 years (as the case may be) a Crown Grant will be issued on payment of the full amount of the purchase money.

The survey fee must be paid within 28 days of demand, and will range from £9 to £11 per allotment.

The lease will contain (inter alia) conditions to the effect as follows:—

That substantial and permanent improvements shall be made on the land if in the second class to the value of 2s. 6d. per acre before the end of the second year from the date of the lease, another 2s. 6d. per acre before the end of each year of the third and fourth years, and the balance of 7s. 6d. per acre before the end of the sixth year of the lease.

If in the third class improvements to the value of 5s. per acre must be made on the land before the end of the third year from the date of the lease, and the balance of 5s. per acre before the end of the sixth year of the lease.

The first half-year's rent and lease-fee must be paid prior to issue of lease.

That the lessee shall go into residence on the land within twelve months after the date of the lease, and shall reside for at least three years and nine months on, or within five miles of, the land during the first six years of the term of the lease, and shall also clear and cultivate at least one-fourth of his allotment within two years of obtaining a permit to occupy the land.

That the lessee shall not transfer, assign, mortgage, or sublet, or part with the possession or grant the use of the whole or any part of the allotment during the first six years of the term of the lease, and that after the first six years of the term of the lease the lessee shall not sell, transfer, assign, mortgage, or sublet the whole, or any part of the allotment unless and until the lease has been endorsed under the seal of the Board to the effect that all the conditions and covenants of the lease during the first six years thereof have been complied with.

No person who already holds or has previously selected the area of Mallee land allowed by classification will be eligible to apply.

The total area of Mallee land which may be selected is 640 acres if in the first class, or 1,000 acres if in the second class, or 1,280 acres if in the third class. Any further area (limited as by the next succeeding paragraph) can be obtained only by purchase from other persons.

That a special condition shall be inserted in the lease and the Crown Grant, providing that the land referred to therein shall at all times be maintained and used for the purpose of residence or agriculture and grazing, and that no person will be permitted to subsequently acquire or hold, or have an interest in, more than 1,000 acres, if the land be in the first class, or more than 1,600 acres, if the land be in any other class.

That the lessee or grantee or owner shall preserve the timber on, or plant an area of, not less than 3 per cent. of the total extent of his holding. (N.B.—Along the exposed boundary lines, viz., the western and southern, would be preferable.)

No person, unless specially authorized, will be permitted to clear timber from any portion of areas retained for the purposes of roads and windbreaks.

Plans may be obtained at the Enquiry Office, Lands Department, Melbourne, and at Land Offices, Alexandra, Ararat, Bairnsdale, Ballarat, Beechworth, Benalla, Bendigo, Geelong, Hamilton, Horsham, Omeo, St. Arnaud, Stawell, Seymour, Sale, and Warracknabeal, and may be inspected at the principal railway stations throughout the State.

Applicants may obtain from a Local Land Officer, or the Enquiry Office, Lands Department, Melbourne, a certificate authorizing the issue, by the Railway Department, of a ticket over the Victorian Railways only, at excursion fares, to enable them to inspect the land, or to attend the Local Land Board.

Printed forms of tender, showing estimates of requirements and conditions of contract, may be obtained from the Secretary, Tender Board, Treasury, Melbourne, or from the officer in charge of police at any of the above-mentioned places, by whom also any information or explanation will be afforded to persons tendering.

The price, which must be expressed in words as well as in figures, and without alterations, erasures, or discrepancies, must be per ton of 40 cubic feet for firewood, including delivery at the offices and all charges. Prices should only be quoted for requirements where estimates are shown above.

Tenders, which must be upon the printed form, will be received for either one or more of the above-mentioned places, and tenders for such places may be accepted or rejected separately; but if all lengths of firewood be included in one tender it may be accepted for one length only, if advisable.

Where the kind or kinds of wood is not mentioned in the tender form, tenderers must specify the kind or kinds of firewood they offer to supply.

Telegrams, or tenders not complying with the terms of advertisement, will not be entertained.

The successful tenderer will be required to enter into a bond for £10, with two approved sureties for the due performance of the contract, within ten days after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to again hold contracts for Government supplies.

Tenders must be enclosed in an envelope, marked "Tender for Firewood at _____" as the case may be, and deposited in the Tender-Box, Pay Office, Treasury, Melbourne; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Treasury, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by Gazette notice and by letter to accepted tenderers.

CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.
2. All the firewood supplied under these contracts must be split out of large timber, and must be perfectly sound, dry, and of the kind or kinds specified in the tender; neither burnt wood, heartwood, small branches, nor outside pieces of bark will be received. The billets must be not less than 4 inches nor more than 6 inches in diameter. The long wood to be not less than 9 inches nor more than 18 inches in diameter. Delivery to be made on the written order of the chief officer of the Department requiring the supply. The ton of firewood consists of 40 cubic feet. If the firewood is obtained from a State forest timber reserve, or ordinary Crown lands, persons cutting or removing same must be provided with a licence or permit from the State Forests Department.
3. Orders will be issued half-yearly (except in cases where the storage is small, when they will be issued quarterly); but the contractor must have 24 hours' notice before purchases are made at his risk.
4. The contractor will be bound to place the firewood in stacks for measurement on such ground as may be pointed out. The stacks are to be 2 feet wide (or 4 feet 6 inches for long wood) by 5 feet high, with space between each stack for measuring; and the billets (or lengths) are all to lie the same way, viz., crossways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack and to the satisfaction of the officer receiving the supply. In the event of any inconvenience being felt, either through delay in delivery or of stacking the wood, the Department concerned will purchase the same or re-stack that delivered, at the risk of the contractor, from whose account any expense incurred thereby will be deducted.
5. The officer receiving the supply shall have full power to reject any wood which he may consider not in accordance with the contract, notice of which will be given to the contractor in writing, stating the reason. The contractor may, however, claim a survey; but in that case he must, within 48 hours after objection is made, give notice thereof in writing to the officer rejecting the wood.
6. The board of survey will be composed of persons appointed by the Honorable the Treasurer, and the decision of the board of survey is to be considered as final.
7. If the board of survey shall decide that the supply is not of proper quality, it must be immediately replaced by the contractor; failing which, it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 4.
8. Accounts for firewood to be rendered to the Department receiving the supply immediately upon completion of the order, which must be attached to the account. Payment will be made at the receipt and pay office of the district, or at the Treasury, Melbourne, as the contractor may desire.
9. In the event of any irregularity on the part of the contractor being repeated, it will be competent for the Government, in case such irregularity should be established to the satisfaction of the Tender Board, to cancel the contract forthwith.
10. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.
11. Under no circumstances will a contractor be permitted to abandon his contract.
12. No subletting will be allowed; all work must be carried out by the contractor, and the hours of employment of any person engaged in any business or occupation connected with the preparation of the firewood for sale or connected with the sale or distribution of the firewood tendered for in this schedule shall not exceed 48 per week, and every such person shall be paid such wages and employed subject to such conditions as are or may be determined by the Wood, Hay, Chaff, and Coal Board under the Factories and Shops Acts; and a copy of these conditions shall be kept conspicuously and continually posted, in legible Roman characters, on the premises of the contractor. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from any accounts which are or may be due to the contractor, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.
13. The Contractor shall, before any account is passed for payment for supplies made, furnish a statutory declaration that all the workmen under this contract have been employed in accordance with clause 12 of these Conditions, and have been paid not less than the minimum rate of wages for such workmen as is provided for under that clause.

Tenders should be placed in the Crown Lands Office Tender-box on or before Wednesday, 10th September, 1913.

NOTE.—No tender will be accepted unless the fee for the period as shown in the head-lines, and fee of Five shillings for licence, are forwarded.

TENDERS will be received on or before Wednesday, 10th September, 1913, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 187 of the *Land Act 1901* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 187th section of the *Land Act 1901*, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1901*, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 189 of the *Land Act 1901* the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licence shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act 1890* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants were in any way responsible therefor.

Special Conditions.

1. The period of occupation will, except where otherwise specified, be for twelve months and twenty days from 11th September, 1913, to 30th September, 1914.

2. The fee for the period as shown in the head-lines— for which the licence will be issued, and fee for licence— must accompany the tender, otherwise the offer of the next-highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. *Tenders to be addressed to the Secretary for Lands* (Tender-box), Melbourne.

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing within one month or to require the incoming tenant to pay for it in accordance with the provisions of section 190, *Land Act 1901*.

Plans can be seen and information may be obtained in this office.

Section 13, *Land Act 1904*, provides:—

1. Where a licensee under section 187 of the *Land Act 1901* has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals, for damages arising from trespass by such cattle, sheep, or other animals.
