GOVERNMENT NOTICE.

WARNING.—SARDINES: DEFINITION OF.

THE attention of the public is invited to the decision given by the Chief Metropolitan Magistrate, sitting at Bow-street Police Court, London, in relation to the trade description of "Sardines," which held that—

"The trade description 'Sardine' was not, at the passing of the *Merchandise Marks Act 1887*, a trade description lawfully and generally applied to goods of a particular class, that is to say, to any small fish suitable for packing, but that it was a trade description which was only lawfully and generally applied to one definite and particular kind of fish, viz., the pilchard."

On appeal to the King's Bench Division of the High Court of Justice, the decision was upheld.

The trade and all concerned are hereby warned that the term "Sardine" can lawfully be applied only to the immature pilchard, and that fish other than the immature pilchard imported into the State of Victoria, and described as "Sardines," will contravene the provisions of the *Goods Act 1915* of Victoria, 6 Geo. V. No. 2663.

Crimes Act 1915, Part II., Division 2.—Juvenile Offenders.

REGULATIONS.

*At the Executive Council Chamber, Melbourne,
the thirteenth day of June, 1916.*

PRESENT:

His Excellency the Governor of Victoria.

Sir A. J. Peacock | Mr. McLeod.

WHEREAS by the *Crimes Act 1915* it is amongst other things enacted that the Governor in Council may from time to time, by Order to be published in the *Government Gazette*, make, alter, and repeal Regulations for the purposes set forth in section 368 of Part II. of the said Act: Now therefore the Governor in Council doth by this Order make the following Regulations, and doth by the same Order repeal all previous Regulations made pursuant to the provisions of section 368 of the *Crimes Act 1890*.

1. All Regulations of the Governor in Council heretofore made pursuant to the provisions of Part II., Division 2 of the *Crimes Act 1890* shall be and the same are hereby repealed, provided that all acts, matters, and things done under such repealed Regulations shall not be affected by such repeal.

2. In these Regulations "secretary" means the secretary for the time being of the Department for Reformatory Schools. "School" means any school approved by the Governor in Council as a Reformatory School. "The Act" means the *Crimes Act 1915* (Part II., Division 2).

Officers in Charge.

3. The officer in charge of a school shall, upon their admission, classify the children committed to his care as he thinks fit, with due regard to the conduct, age, and moral and physical characteristics of each child.

4. The officer in charge of a school shall prepare a time-table for the working of such school, and shall be responsible for its due observance. Four hours in each day of the week, except Saturday and Sunday, shall be set apart for secular instruction, subject to the provisions of the *Education Act 1915*.

5. The officer in charge of a school is required to keep a diary, in which shall be entered a short statement of the daily routine and a record of any unusual event that occurs in connexion with the institution, and of the number of children therein.

6. Except as hereinafter provided, no officer in charge of a school shall be absent therefrom for more than twenty-four hours at any one time, nor shall grant leave of absence to any officer, attendant, or instructor for more than that period, provided that on Sundays and public holidays the officer in charge may make such arrangements as he thinks fit for the absence on those days of himself or of any officer, instructor, or attendant, as the requirements of the school under his control permits. Leave of absence for a longer period than twenty-four hours must be applied for in the manner indicated by the Public Service Regulations. Leave of absence may be granted to attendants and instructors for three weeks during the year, at such times as are convenient to the service.

7. The officer in charge and the next in command of a school shall not both be absent at the same time, except when urgent public duty renders such absence necessary. If at any time the absence of such officer is rendered necessary

by public duty, the fact and time of such absence, and the reasons therefor, shall be stated in the diary aforesaid.

Duties of Officers and Servants.

8. Every officer or servant in any school shall promptly obey any lawful order given him by his superior officer. If any officer or servant feels aggrieved in consequence of any such order, he may make complaint by letter through the officer in charge to the secretary, provided that any such complaint must be made within one week of the occurrence forming the ground thereof.

9. It shall be lawful for the officer in charge of any school to suspend any officer or servant who, in the opinion of such officer in charge, is guilty of gross misconduct or neglect of duty, but the details of the case shall be at once reported to the permanent head of the Department, who will confirm or disallow the suspension.

10. In reformatories for boys every male officer and instructor shall be present at morning inspection.

11. Hospital nurses employed in reformatory schools must obey the directions of the medical attendants of such schools as to the treatment and nursing of the sick. Leave of absence must not be granted to hospital nurses by the officer in charge without the consent of the medical officer.

12. Resident officers, servants, and attendants in any school shall, in case of sickness, be provided with personal medical attendance and medicines. If any such officer, servant, or attendant declines the service of the medical officer of the school, or, except in consultation with such medical officer, obtains that of any other medical practitioner during an illness, no further claim can be made on that occasion to the services of such medical officer. All questions as to the incapacity, through sickness, of any officer, servant, or attendant to perform duty shall be decided by the medical officer; and no leave of absence or exemption from duty on account of sickness shall be given to any such officer, servant, or attendant unless the recommendation in writing of such medical officer in that behalf has been previously obtained.

13. With the permission of the Minister, the family of any person employed in any school may reside on the premises of such school for such time and subject to such conditions as the Minister thinks fit.

Admission, Licensing, Transfer, and Discharge of Children.

14. Upon the admission of any child committed under the provisions of the Act, the officer in charge shall forthwith endeavour to elicit from such child full particulars as to his parents, and all other relatives, schooling, religious training, occupations, and past career generally, and whether such child has previously been an inmate of any industrial or reformatory school, or a ward of the Department for Reformatory Schools, and the statement of such child shall be taken down in writing, and attached to the order by which such child was committed as aforesaid to the reformatory school.

15. All orders received by the officers in charge of any reformatory school by which children have been committed, together with a return giving full particulars of all children admitted to or discharged from such school during each week, shall be sent to the office of the secretary of the said Department on Monday of the next ensuing week. The fact of a child having been previously committed to the care of the Department shall be specially recorded in such return. Whenever the

date of the birth of any child committed under any such order becomes material for any purpose, and is not mentioned or implied in the order, or has not been obtained, such date shall be assumed to be the first day of July, which shall be adopted in all calculations as to age.

16. Every ward of the Department shall be examined by the medical officer of the school to which he has been sent as soon as possible after his admission, and shall be again examined by such medical officer immediately prior to his discharge from such school, and the state of the health of such ward, and the result of such examinations, shall be recorded in a book to be kept for that purpose.

17. Any ward of the Department who has been placed at service shall be received temporarily into the school upon leaving his situation, and any child who has ceased to be a ward may be similarly received at the discretion of the officer in charge.

18. Those wards who have become eligible for service, in accordance with the scheme of classification adopted for the school, may be placed at service, subject to the conditions set forth in the first schedule to these Regulations, or apprenticed to some trade either on land or sea. Any child who has been ordered to be transferred to any school under section 340 of the Act may, at the discretion of the officer in charge, be placed out or apprenticed as aforesaid without being actually sent to such school, and without reference to the scheme of classification.

19. Every ward placed at service shall, upon leaving the school where he has been placed or detained, be made acquainted with the terms upon which he is being placed at service, and shall be warned that, in the event of his being sent back to such school for misconduct, he will be liable to be punished and kept to hard work; and such ward should also be made to understand that only one outfit will be provided for him, unless from sickness, accident, destruction or any other special cause, the superintendent or matron thinks fit to authorize a special issue, and also that any deficiency in his kit will, on his again leaving for service, be made good from any wages or other moneys of such ward put to his credit in the books of the Department.

20. Whenever any ward of the Department returns to any school from service, the officer in charge shall ascertain the clothing or kit that he will require on again leaving for service, and the probable cost thereof, and the money to his credit in the books of the Department shall, so far as is necessary, be made available for the purchase of such requisite clothing or kit, unless the officer in charge directs a further issue from store. An account of the money so expended must be shown to such ward.

21. Whenever any ward of the Department is placed in the custody of any suitable person under section 347, sub-section 6 of the Act, such person shall enter into a bond in the form contained in the second schedule to these Regulations, or to the like effect.

22. When any ward of the Department is placed at service or in the custody of any person, or apprenticed or transferred to another school, such ward shall be rationed for the day of his leaving, and, if necessary, take with him so much of such rations as can be provided for ready consumption.

23. The officer in charge of every school shall keep a book, to be called the "After-Career Book," in which he shall make a record of the letters to and from the children of the school who have been discharged or transferred therefrom, or have been otherwise dealt with by the superintendent or

matron under the Act, together with all events of interest which come to the knowledge of such officer concerning them, in order to provide material upon which to base information as to the results achieved by the system adopted.

Education and Training.

24. All officers in charge of schools, and all teachers employed therein, are required specially to direct their attention to the moral and religious instruction of the children in their charge, and at all times carefully to check impropriety of speech or manner in them, and to teach them their duty to God and man, and that they should do their duty from right motives without regard to consequences. Above all, there should be impressed upon them the necessity of being honest and truthful. The strictest propriety of speech and manner is insisted upon, and must be observed by all officers and servants in their intercourse with the children and each other.

25. Religious instruction shall be given in all schools under the Protestant, Roman Catholic, and Jewish denominations. Every child shall be taught the religious creed of whichever of the denominations aforesaid he is stated to belong to in the particulars attached to the order of committal. In any case where it is subsequently ascertained that the child belongs to a denomination other than that so stated, the school records shall be altered accordingly, and the evidence upon which such correction has been made shall be put in writing, and attached to the order of committal. Every such alteration in the school records of a child's religion shall be reported for the information of the Minister.

Such religious instruction as is practicable shall be given in the school separately to the children of each of the said denominations.

26. All persons entitled to admission to any school under the provisions of Part 5 of that portion of the Act relating to juvenile offenders shall have access to the school, and the children of their own denomination, on such days and hours as may from time to time be arranged by the superintendent or matron.

27. Religious instruction must be imparted to the children in every school for at least half-an-hour daily. Officers sent in charge of children to a place of worship shall remain with them, and not leave them until their return to the school.

28. No books shall be used by or for the children in any school until approved by the officer in charge. All tracts, books, and publications whatsoever which visitors are desirous of distributing or giving to the children, or any of them, shall be left with the said officer.

29. Every trade instructor, whether male or female, shall keep a book showing daily the following things:—

- (a) The number of children at work under his instruction.
- (b) The number of hours at work.
- (c) The quantity of material (if any) received by him from the store, and its expenditure under his direction.
- (d) The number of articles manufactured.

Such book shall be submitted weekly to the officer in charge.

Rewards and Punishment.

30. The officer in charge may award to each child appointed by him as monitor, who shall satisfactorily perform his duties, a sum not exceeding Two shillings and sixpence per month, provided that the total amount paid to such monitors in any school does not exceed Twenty shillings in

any one month. Provision for these payments shall be made in the monthly contingency account, and a book showing the receipts and expenditure under this head shall be kept.

31. The officer in charge of any school may punish, or cause to be punished, any child guilty of misconduct, and in a school the head teacher may inflict corporal punishment to the extent of six strokes with a strap. All complaints and punishments whatever shall be carefully recorded in the books prescribed for that purpose, and such books shall be laid before the members of the visiting committee, and shall be produced to the inspector on the occasion of their respective visits. The discipline of the school shall be maintained, not only by punishment, but by a well considered system of rewards and encouragement.

32. Corporal punishment shall be administered as seldom as possible, and shall only be resorted to when absolutely necessary for discipline, and not for first offences, unless of a grave nature. Such corporal punishment shall be inflicted not otherwise than with a leather strap, on the breech, back, or hand, and shall not exceed twelve strokes at a time. No corporal punishment shall be inflicted personally by the officer in charge.

33. In any case of misconduct of any child detained in any reformatory school the officer in charge of such school may, if he should deem it necessary or expedient, order such child to be confined in a light cell as a punishment, provided that the period of confinement at any one time shall not exceed twenty-four hours.

34. When any child in any reformatory school has been guilty of any grave moral or other offence, which, in the opinion of the officer in charge, renders necessary or expedient the isolation of such ward from all other wards in such school, a light cell may be used for purpose of such isolation and separation, and full particulars of the offence and the time of such isolation shall be recorded in the punishment books and immediately reported to the secretary.

35. In all cases in which corporal punishment is inflicted care must be taken that the health of the child so punished will not suffer by its infliction.

Absconding.

36. In the event of any child absconding from a reformatory school, information must be at once given to the local police, and every effort made to secure the return of such ward to the school. On the return of such absconder, notification must be promptly forwarded to the local police.

Visiting and Correspondence.

37. The relatives and friends of any child detained in any school may visit such child when permitted by the officer in charge. The names and addresses of all relatives and friends so visiting or seeking to visit shall be recorded in a book kept for that purpose, and in case of any such request being refused, the reasons for such refusal shall be recorded.

38. Every child in any school may be permitted to write once a month to any of his relatives or friends. All such letters and the replies thereto, and all correspondence between the children and their friends or relatives shall be perused and, if approved, initialed by the officer in charge. Any such letter or correspondence, or any portion thereof, that is objectionable shall be retained or obliterated by the officer in charge.

39. In case the parent of any child detained in any reformatory school is unknown, officers in charge shall with reasonable diligence endeavour to ascertain the whereabouts of such parent, or any information likely to lead to the recovery of

maintenance; and such information as may be obtained shall be communicated in writing to the secretary with as little delay as possible.

Sickness, Accidents, and Deaths.

40. When any child detained in any reformatory school is at any time apparently in ill-health, it shall be the duty of the officer in charge of such school to give information thereof to the medical officer without delay, to insure prompt and proper treatment. When any ward is so ill as, in the opinion of such medical officer, to render death probable, intimation must be sent at once, by the speediest means available, to the father, mother, or other near relatives of such ward, if known, and to the secretary. A return of the number of sick children in any school for each month, with a statement of the illness from which they have respectively suffered, is to be sent by the medical officer to the secretary not later than the first week of the month next ensuing.

41. A book shall be kept in every reformatory school, in which shall be recorded every visit to such school by the medical officer thereof for the purpose of the medical examination of children committed to the care of the Department upon their admission to such school, and in case any of such children require medical treatment, the medical officer shall also enter in such book a description of the treatment he deems necessary.

42. Every case of a severe accident, to, or a severe and infectious disease of, or the death of, any child detained in any school, or the outbreak of any epidemic therein, shall be immediately reported by the officer in charge, in writing, to the secretary. The report shall state fully all particulars and the nature and cause, as far as possible, of such accident or disease, or the cause and time of death, or the cause of the outbreak of epidemic. Every death shall be duly recorded in the proper books of the Department. Any outbreak of an epidemic shall be at once reported to the Minister by the secretary.

Clothing.

43. The kit of every child detained in a reformatory school shall consist of the articles contained in the first part of the third schedule to these regulations, and shall at all times include such articles. The annual allowance of the various articles which constitute the kit shall not exceed the quantities thereof specified in the second part of the said schedule.

44. Every child detained in a reformatory school on first going out to service shall be provided with an outfit of new clothing according to the fourth schedule to these regulations. After this outfit no clothing shall be issued to children placed at service unless under clause 19 of these regulations.

45. Clothing worn by children on admission, if in a fit condition, may be applied to general school purposes at the discretion of the officer in charge.

46. The clothing issued to children for school wear shall bear the name of the wearer.

47. The officer in charge of any school shall, as far as practicable, cause to be manufactured the clothing and articles required for use therein, and the outfits of wards of such school placed at service. For such articles as cannot be manufactured in the school, the officer in charge shall make his requisition to the Department in sufficient time to enable the articles to be obtained elsewhere.

Care of Stores, Stocks, and Provisions.

48. The officer in charge of every school is responsible, and will be held accountable, for the safety and safe custody of all stores, stock, and

produce committed to his charge, and also for the correctness as to quantity and quality of all stores, stock, produce, and all other things received by him, or under his authority, under any contract, and also for any waste or loss which may arise from his carelessness or neglect, or that of any person bound to obey his orders. It shall be the duty of such officer to see that issues of all issuable stores, stock, produce, and all things of an issuable nature, are economically made, in accordance with these regulations, and under his authority, and that all receipts and issues of all such stocks, stores, produce, and other things are duly recorded and acknowledged in the proper books. The storekeeper in any school shall be responsible to the officer in charge for a strict compliance with this regulation, and no issue shall be made by such storekeeper, except upon the written order of the officer in charge.

49. Stores and material are classified as expendible and in-expendible. Expendible stores must be written off the store books when issued. All other articles used in any school shall be termed in-expendible stores. In-expendible stores are not to be issued until branded, and are to remain charged in a book to be called the in-expendible stores book, and may not be written off unless by the authority of the Minister, on the recommendation of a duly appointed Board of Survey. An account must be kept in the in-expendible stores book with the officers to whom issues of in-expendible stores are made.

50. All officers and other persons employed in any school, to whose charge or custody any in-expendible stores or stocks are intrusted by the Department, shall use the strictest diligence and economy in the care and safeguard and proper use of such stores or stocks. The value of any articles that are either damaged, or destroyed, or lost, or not accounted for, may be deducted from the pay of the officer or other person to whom the same have been intrusted. Storekeepers must obtain the receipt of the persons to whom such stores or stock have been issued in the in-expendible stores book.

51. The officer in charge shall submit to the secretary requisitions in proper form for stores and stock required. One month's supply in advance of requirements should be kept in hand, and any unreasonable delay in making supplies should be reported to the secretary.

52. All stock of every description and farm produce, whether supplied to, or produced in or by any school, shall be forthwith entered in the store books, and accounted for in the stock and produce returns. Every increase or decrease of stock must be thus entered, and brought to account. No stock shall be used except for Government purposes. Articles which have been produced in any school are to be issued in the manner and to the extent provided by the regulations; and, all such issues must be accounted for in the prescribed manner. Any surplus produce shall be disposed of as the Minister directs.

53. Provisions shall be issued in every school in accordance with the dietary scale set forth in the fifth schedule to these regulations. If at any time the scheduled quantity of any article is greater than required, the officer in charge may either issue a less quantity, or discontinue the issue thereof for such period as is necessary. Any variation of the scale shall be duly entered in the diary by the officer in charge.

54. The officer in charge of a school is required to ascertain, upon the receipt of all articles supplied in pursuance of any contract or otherwise, that the same are of a suitable and proper quality for their respective uses, and supplied in accordance with the conditions of the contract, if any.

He must also see that all issues to the cook are of full weight and quantity, and that the children to be rationed for the day are entitled to such rations, and that the issues of food to the kitchen are correct in quantity, and properly cooked, and that all receipts and issues as aforesaid are duly and correctly recorded by the storekeeper in the proper books and returns.

55. The officer in charge of every school shall forward monthly to the secretary a return of all articles of food received and issued by him during the preceding month.

56. Medical comforts in accordance with the sixth schedule hereto will be issued to any child or children detained in any school upon the recommendation of the medical officer, and the medical officer's certificate will be necessary to the accounts.

57. Fuel and light will be supplied to those officers and servants employed in any school who are authorized to receive the same in accordance with the seventh schedule hereto, and will be provided for in like manner as stores are required to be issued by the regulations. The officer in charge of such school is required to see that due economy is exercised in the issue, and use thereof, and in case a less quantity will suffice for any person than that specified in the aforesaid schedule the officer in charge shall see that the issue is reduced accordingly.

Requisitions, Orders, and Accounts.

58. Officers in charge of schools shall forward to the secretary all requisitions which require Ministerial approval on the 1st of June and 1st of December in each year. Such requisitions shall be prepared with strict regard to economy. No special requisition shall be forwarded, except in urgent cases, the causes being fully explained.

59. Orders may be issued on contractors for articles provided in requisition; but in any urgent case the secretary may authorize the purchase of any stores, stock, articles, or other things authorized by these regulations to be made, either under clause 61 of Stores and Transport Regulations, or in anticipation of Ministerial approval.

60. Accounts of every school are to be completed and forwarded to the secretary's office with as little delay as possible after being received. Monthly accounts are due on the 5th of the month following that for which the charges are made. A loss occasioned by negligence or carelessness in the preparation or payment of accounts, or by a breach of this regulation, or the general regulations relating to public accounts, must be made good by the officer causing such loss.

61. Daily or special returns are due at the secretary's office by noon of each day; weekly returns on Tuesdays; monthly returns on the 5th of each month; quarterly returns on the 15th January, April, July, and October; half-yearly returns on the 15th January and July; and annual returns as specially directed. When either of the days named falls on a Sunday or public holiday, the returns will be due on the following day.

62. Correspondence upon departmental business by officers in charge of schools is to be registered in the school, and signed by the officer in charge. Papers received from the secretary's office should be returned, and all communications dealt with with due expedition. Communications for the permanent head of the Department are to be forwarded, under cover, to the office of the secretary, for registration and transmission.

Miscellaneous.

63. Forage not produced at the school requiring it is to be provided for in the same manner as stores, and in all cases issued in accordance with the authorized scale. Other articles for the issue of which no scale is provided are to be made use of with due regard to economy, and, where practicable, a scale should be fixed by the officer in charge.

64. Purchases at contractor's risk may be made by officers in charge, in strict accordance with the conditions of contract. Before making such purchases, officers are required to examine the conditions of the contract in respect of which the purchases are to be made, and to themselves either perform or tender performance to the contractor of such acts, performance of which on their part is required by the conditions of the contract, and also to give notice in writing to the contractor of their intention to purchase at his risk.

65. In all schools strict economy must be observed in incurring expenditure for transport. No officer shall be allowed the cost of travelling except when employed on Government business. Officers travelling in charge of children will have second class tickets issued to them, and are required to ride with children in the same compartment.

66. Expenditure for necessary repairs, the cost of which does not exceed £2 in amount, may be incurred by officers in charge without previously obtaining authority for the purpose. Where the probable cost of any such repairs exceeds £2 in amount, the authority of the Minister must be obtained by application in writing before the liability is incurred.

The account for any such expenditure, whether previously authorized or not, must be rendered to the secretary directly the work has been executed; and, when authority has been obtained as aforesaid, the number of the correspondence covering such authority must be quoted.

67. The regulations respecting Public Accounts, the Public Service Regulations, the Stores and Transport Regulations, and the clauses of the *Audit Act 1915* relating to stores, accounts, and the like, are to be carefully studied and complied with by all officers of the Department, and the provisions of the *Public Service Act 1915*, the *Neglected Children's Act 1915*, and the *Crimes Act 1915* are to be made known to all those who are required to comply with or give effect to any portions thereof.

68. All officers and servants, on joining a school, must make themselves acquainted with these regulations, as ignorance of any regulation will not be accepted as an excuse for non-compliance therewith. If any contingency should arise for which these regulations do not provide, the officer in charge may deal with it as he deems advisable.

Private Reformatory Schools.

69. The regulations provided for the management of Government reformatory schools shall, so far as they are practicable, be obligatory on the managers of every private reformatory school within the meaning of the *Crimes Act 1915*. The following books, in accordance with the Forms 1 to 6 in the eighth schedule to these regulations, shall be kept in every private reformatory school, and shall be open at all times to the inspector, viz.:

1. Admission and discharge book.
2. Children's register.
3. Children's statement (on admission) book.
4. Request book.
5. Punishment book (day-book and ledger).
6. After-career book.

Inspection and Visiting.

70. The inspector shall inspect every reformatory school established in accordance with the provisions of the *Crimes Act 1915* at least once in every twelve months, and all books and records of such school shall be furnished to him, and he shall have access to them at all reasonable times.

71. A committee, to be called the "Visiting Committee," shall be appointed for every reformatory school, such committee to consist of not less than five (5) nor more than nine (9) members, a majority of whom shall be resident in the locality. When any such school as aforesaid has been established by or for any religious denomination or denominations, such committee shall consist exclusively of members of such denomination or denominations. The visiting committee shall act as a council of advice to the officer in charge of such school, and shall, collectively or individually, have free access to the school to which it is appointed, and shall have power to inquire into the welfare and training of all children detained therein.

72. The visiting committee shall furnish to the secretary a report of its proceedings annually, and at such other times as it may think fit, or as the Minister may require. The annual report shall embrace remarks on the state of the school, and on the working generally of the scheme adopted for the purpose of dealing with the children detained therein.

Form of Recognisance.

73. When any child has been committed to a reformatory school, but has, without being taken to such school, been committed to bail of some person under the provisions of section 356 of the *Crimes Act 1915*, the recognisance of such person thereby required taken by the Judge, chairman, or justices committing such child as aforesaid shall be in the form contained in the ninth schedule, or to the like effect.

Miscellaneous.

74. When a child committed to any reformatory school has been committed to bail of any person without being taken to such school, under the provisions of section 356 of the Act, it shall be the duty of such person to attend carefully to the moral and religious training of such child, and, if within the age at which attendance at school is compulsory, then to comply with the requirements of the *Education Act 1915*.

75. All moneys received on account of wages earned by wards of the Department for Reformatory Schools while at service shall, upon collection, be paid into an account opened in a State Savings Bank, in the name of the Department, and no withdrawals therefrom can be made without the signatures of the secretary and the accountant for the time being. The balance of such earnings shall, except as provided in section 364, sub-sections 1 and 2, of Act No. 2637, be paid over to such wards upon the expiry of the control of the Department, or previously, at the discretion and on the written authority of the superintendent or matron.

76. The method of keeping accounts and moneys payable under the provisions of Act No. 2637 and previous enactments shall be in accordance with that prescribed under the *Audit Act*.

77. When any boy apparently under the age of sixteen is convicted of any offence punishable on summary conviction for which imprisonment may be awarded, and the justices, by virtue of section 366 of the Act, order such boy to be privately whipped, in no case shall the number of strokes specified in such order exceed twelve.

Neglected Children's Act 1915.

REGULATIONS.

*At the Executive Council Chamber, Melbourne,
the thirteenth day of June, 1916.*

PRESENT:

His Excellency the Governor of Victoria.

Sir A. J. Peacock | Mr. McLeod.

WHEREAS by the *Neglected Children's Act* 1915 it is amongst other things enacted that the Governor in Council may from time to time, by Order to be published in the *Government Gazette*, make, alter, and repeal regulations for the purposes set forth in section 88 of Part XI. of the said Act: Now therefore the Governor in Council doth by this present Order make the following regulations, and doth by the same Order repeal all previous regulations made pursuant to the provisions of section 88 of the *Neglected Children's Act* 1890.

1. All regulations of the Governor in Council heretofore made pursuant to the provisions of the *Neglected Children's Act* 1890 shall be and the same are hereby repealed, provided that all acts, matters, and things done under such repealed regulations shall not be affected by such repeal.

2. In these Regulations:—"School" means Industrial school, and includes receiving depôt. "The Act" means the *Neglected Children's Act* 1915. "Department" means the Department for Neglected Children. "The Secretary" means the Secretary of the Department for Neglected Children.

Orders.

3. Every order committing a child to the care of the Department for Neglected Children shall be in such of the forms as are contained in the First Schedule to these regulations, or to the like effect, as is applicable to such committal.

4. Every order committing a child to the care of a private person or institution under the provisions of Part VIII. of the Act shall be in the form contained in the Second Schedule to these Regulations, or to the like effect.

5. Every such order as aforesaid, as well as every order of committal in the form of the Second Schedule to the Act shall have appended thereto, in the form contained in the Third Schedule to these Regulations, so much information concerning the child committed by such order upon the matters therein mentioned as it is possible to obtain.

6. Every school shall be placed in the charge of a superintendent or of a matron. Such superintendent or matron, as the case may be, shall be appointed by the Governor in Council, and every such appointment shall be published in the *Government Gazette*.

7. When any child is apprehended by any constable or person authorized by the Governor in Council, without warrant, under circumstances which make such child a neglected child under the provisions of the Act, in such case, until the charge of such child being a neglected child is heard and disposed of by a Children's Court, such constable or person shall, when practicable or expedient, place such child in a school, or in the care of a person or institution authorized under Part VIII. of the Act. If this course is not practicable

or expedient, it shall be lawful for such constable or person to make such arrangements as are deemed necessary or proper for the care and maintenance of such child by a suitable person or persons, or for such constable, being married, to place such child in his own dwelling, under the care and supervision of himself and his wife, and to provide for its care and maintenance at a reasonable charge.

8. After any child has been apprehended and placed in a school pending the hearing and disposal of the charge of such child being a neglected child, should it become apparent to the superintendent or matron of such school that such child is grossly immoral or depraved, and that it is desirable to isolate such child from all other children in such school, and should the means to make such isolation effectual be insufficient therein, it shall be lawful for such superintendent or matron to cause such child to be placed in the nearest reformatory school occupied by and used for children of the same sex, pending the hearing and disposal of such charge as aforesaid.

9. Every child committed or transferred to the care of the Department shall, unless otherwise ordered by a competent authority, be taken to the nearest school occupied by and used for children of the same sex, and the superintendent or matron in charge of such school shall receive and detain such child until the manner of his disposal is determined by the secretary.

Officers in Charge.

10. The officer in charge of any school shall classify the children committed to his care as he thinks fit, provided that in any classification due regard be had to the conduct, age, and moral and physical characteristics of such children. Every child committed to the care of such officer shall be classified as aforesaid upon his admission.

11. The officer in charge of any school shall prepare a time-table for the working of such school, and shall be responsible for its due observance. Four hours in each day of the week, except Saturday and Sunday, shall be set apart for secular instruction of the same kind as is imparted in the State schools, subject to the provisions of the *Education Act* 1915.

12. The officer in charge of any school is required to keep a diary, in which shall be entered a short statement of the daily routine, and a record of any unusual event that occurs in connexion with the school, and of the number of children therein.

13. Except as hereinafter provided, the officer in charge of any school shall not be absent therefrom for more than twenty-four hours at any one time, and shall not grant leave of absence to any officer, attendant, or instructor, for more than that period, provided that on Sundays and public holidays the officer in charge may make such arrangements as he thinks fit for the absence on those days of himself, or of any officer, instructor, or attendant, as the requirements of the school under his control may permit. Leave of absence for a longer period than twenty-four hours must be applied for in the manner indicated by the Public Service Regulations. Leave of absence may be granted to instructors and attendants for a period of three weeks during the year, at such times as may be convenient to the service.

14. The officer in charge and the next in command of any school shall not both be absent at the same time, except when urgent public duty renders such absence necessary. If at any time the absence of such officers is rendered necessary by public duty, the fact and time of such absence, and the reasons therefor, shall be stated in the diary aforesaid.

Duties of Officers and Servants.

15. Every officer and servant in any school shall promptly obey every lawful order given by his superior officer. If any officer or servant feels aggrieved in consequence of any such order, he may make complaint by letter, through the officer in charge, to the head of the Department, provided that any such complaint must be made within one week of the occurrence forming the ground thereof.

16. It shall be lawful for the officer in charge of any school to suspend any officer or servant who, in the opinion of such officer in charge, is guilty of neglect of duty or of gross misconduct, and such suspension shall be at once reported to the permanent head of the department in the usual course.

17. Resident officers, servants, and attendants in any school shall, in case of sickness, be provided with personal medical attendance and medicines. If any such officer, servant, or attendant declines the services of the medical officer of the dépôt or school, or except in consultation with such medical officer, obtains those of any other medical practitioner during an illness, no further claim can be made on that occasion to the services of such medical officer. All questions as to the incapacity through sickness of any officer, servant, or attendant to perform duty shall be decided by the medical officer, and no leave of absence or exemption from duty on account of sickness shall be given to any such officer, servant, or attendant, unless the recommendation in writing of such medical officer in that behalf has been previously obtained.

18. With the permission of the Minister, the family of any person employed in any school may reside on the premises of such school for such time and subject to such conditions as the Minister thinks fit.

Admission, Licensing, and Discharge of Children.

19. Upon the admission of any child committed to the care of the Department to any school, the officer in charge of such school shall forthwith endeavour to elicit from such child full particulars as to his parents and all other relatives, schooling, religious training, occupations, and past career generally, and whether such child has previously been an inmate of any industrial school or reformatory, or a ward of the Department. The statement of such child shall be taken down in writing, and attached to the order by which such child was so committed.

20. All orders received by the officer in charge of any school, by which children have been committed to the care of the Department, shall be sent to the secretary's office not later than the day next after the receipt thereof. A return giving full particulars of all children admitted to or discharged from such school during each week, shall be sent to the secretary's office on Monday of the next ensuing week. The fact of a child having been previously committed to the care of the Department shall be specially recorded in such return. Whenever the date of the birth of any child committed under any such order becomes material for any purpose, or has not been obtained, and is not mentioned or implied in the order, such date shall be assumed to be, except in the case of infants in arms, the first day of July, which shall be adopted in all calculations as to age.

21. Every ward of the Department shall be examined by the medical officer of the school to which he has been sent, as soon as possible after his admission, and such ward shall be again examined by such medical officer immediately prior to his discharge from such school, and the state of

the health of such child as the result of such examinations shall be recorded in a book to be kept for that purpose.

22. Any ward of the Department who has been placed at service shall be received temporarily into a school upon leaving his situation, and any child who has ceased to be a ward may be similarly received at the discretion of the officer in charge.

23. Every ward placed at service shall, upon leaving the school where he has been detained, be made acquainted with the terms upon which he is being placed at service, and such ward shall be warned that, in the event of his being sent back to such school for misconduct, he will be liable to be punished and kept to hard work; and such ward should also be made to understand that only one outfit will be provided for him, unless from sickness, accidental destruction, or any other special cause the officer in charge thinks fit to authorize a special issue, and also that any deficiency in his kit will, on his again leaving for service, be made good from any wages or other moneys of such ward to his credit in the books of the Department.

24. Whenever any ward of the Department returns to any school from service, the officer in charge shall ascertain the clothing or kit that he will require on again leaving for service, and the probable cost thereof; and the money to the credit of such ward in the books of the Department shall, so far as is necessary, be made available for the purchase of such requisite clothing or kit, unless the officer in charge directs a further issue from store. An account of the money so expended must be shown to such ward.

25. When any ward of the Department is boarded out, placed either at service, or in the custody of any person, or transferred to any reformatory school, such ward shall be rationed for the day of his leaving, and, if necessary, take with him so much of such rations as can be provided ready for consumption.

Education and Training.

26. All officers in charge of schools, and all teachers employed therein, are required specially to direct their attention to the moral and religious instruction of the children in their charge, and at all times carefully to check impropriety of speech or manner in them, and to teach them their duty to God, and man, and that they should do their duty from right motives, without regard to consequences. Above all, there should be impressed upon them the necessity of being honest and truthful. The strictest propriety of expression and manner must be observed by all officers and servants in their intercourse with the children and each other.

27. Religious instruction shall be given in all schools under the Protestant, Roman Catholic, and Jewish denominations. Every child shall be taught the religious creed of whichever of the denominations aforesaid he is stated to belong to in the particulars annexed to the order of committal. In any case where it has been subsequently ascertained that the child belongs to a religious denomination other than that so stated, the school records shall be altered accordingly, and evidence upon which such correction has been made shall be put in writing and attached to the order of committal. Every such alteration in the school records of a child's religion shall be reported for the information of the Minister.

Such religious instruction as is practicable shall be given separately to the children of each of the said denominations.

28. All persons entitled to admission to any school under the provisions of Part VI. of the Act shall have access to the schools and the children of their own denominations on such days and hours as from time to time are fixed for religious instruction.

29. No books shall be used by or for the children in any school until approved by the officer in charge. All tracts, books, and publications whatsoever which visitors may be desirous of distributing or giving to the children, or any of them, shall be left with the said officer.

30. Female wards in any schools who are over fourteen years of age shall be taught all the duties of domestic servants and seamstresses, and, as far as practicable, the use of the sewing machine.

31. The officer in charge of any school may punish, or cause to be punished, any child guilty of misconduct to the extent of six (6) strokes with a strap. All complaints and punishments whatever shall be carefully recorded and entered in the books prescribed by the secretary for that purpose, and such books shall be laid before the members of the Visiting Committee when visiting, and shall be produced to the inspector whenever he visits. The discipline of the school shall be maintained, not only by punishment, but by a well considered system of rewards and encouragements.

32. Corporal punishment shall be administered as seldom as possible, and shall be only resorted to when absolutely necessary for discipline. Such corporal punishment shall be inflicted not otherwise than with a leather strap, on the breech, back, or hand, and shall not exceed twelve strokes at a time.

33. When any ward of the Department in any school has been guilty of any grave moral or other offence, which, in the opinion of the officer in charge, renders necessary or expedient the isolation and separation of such ward from all other wards in such school, a light cell may be used for the purpose of such isolation and separation, and full particulars of the offence and the time of such isolation shall be recorded in the punishment books and also immediately reported to the secretary.

34. In all cases in which corporal punishment is inflicted, care must be taken that the health of the child so punished will not suffer by its infliction.

35. In the event of any ward of the Department absconding, information must be at once given to the local police, and every effort made to secure the return of such ward to the school, and notification of the return of such absconder must also be promptly forwarded to the police.

36. The relatives and friends of any ward of the Department placed or detained in any school may visit such ward, with the permission and at the discretion of the officer in charge. The names and addresses of all relatives and friends so visiting or seeking to visit shall be recorded in a book kept for that purpose, and in case permission to visit any such ward is refused by the said officer, such refusal, and the reason therefor, shall also be recorded in the said book.

37. Every ward of the Department placed or detained in any school may be permitted to write once a month to any of his relatives or friends. All such letters and the replies thereto, and all correspondence between such wards and their friends or relatives shall be perused, and, if approved, initialed by the officer in charge. Any such letter or correspondence, or any portion thereof that is objectionable, shall be retained or obliterated by the officer in charge.

38. In case the parent, as defined in section 58 of the Act, of any ward of the Department placed or detained in any school is unknown, the officer

in charge of such school shall, with reasonable diligence, endeavour to ascertain the whereabouts of such parent, and any information likely to lead to the recovery of maintenance, and such information, when obtained, shall be communicated in writing to the secretary with as little delay as possible.

Sickness and Accident.

39. When any ward of the Department placed or detained in any school is at any time apparently in ill-health, it shall be the duty of the officer in charge of such school to give information thereof to the medical officer without delay to insure prompt and proper treatment. When any ward is so ill as, in the opinion of such medical officer, to render death probable, intimation must be sent at once, by the speediest means available, to the father, mother, or other near relative of such ward, if known, and to the secretary. A return of the number of sick wards in any school for each month, with a statement of the illness from which they have respectively suffered, signed by the medical officer, is to be sent to the secretary not later than the first week of the month next ensuing.

40. A book shall be provided in every school in which shall be recorded every visit to such school by the medical officer thereof for the purpose of the medical examination of children committed to the care of the Department upon their admission of such school, and if any child requires medical treatment, such medical officer shall also enter in such book a description of the treatment he deems necessary, and generally how such child should be dealt with, having regard to the child's condition of health and constitution.

41. Every case of a serious accident to, or of a severe or infectious disease of, or the death of any ward of the Department placed or detained in any school, or the outbreak of any epidemic therein, shall be immediately reported by the officer in charge in writing to the secretary. The report shall state fully all particulars, and the nature and cause as far as can be ascertained of such accident or disease, or the cause and time of death, or the cause of the outbreak of such epidemic. Every death shall be duly recorded in the proper books of the Department. Any outbreak of an epidemic shall be at once reported to the Minister by the secretary.

Clothing.

42. Every ward of the Department in any school being placed at service shall on first going out be provided with an outfit of new clothing according to the fourth schedule hereto. After such first outfit no clothing shall be issued to wards placed at service except as provided by clause 24 of these Regulations.

43. Clothing worn by children on admission, if in a fit condition may be applied to general school purposes at the discretion of the officer in charge.

Care of Stores and Stock.

44. The officer in charge of any school shall cause to be manufactured, as far as practicable, the clothing and articles required for use therein, and the outfits of wards dealt with under section 30 of the Act. All materials issued from store for the manufacture of clothing or other articles shall be accounted for in the manufacturing ledger, which shall be drawn in such form as will readily disclose the quantities and descriptions of the respective articles so manufactured. All such manufactures shall be duly acknowledged and recorded in the stores' books.

45. The officer in charge of any school is responsible, and will be held accountable, for the safety and safe custody of all stores, stock, and produce committed to his charge; and also for the correctness as to quantity and quality of all stores, stock, produce, and all other things received by him, or under his authority, under any contract, and also for any waste or loss arising from his carelessness or neglect, or that of any person bound to obey his orders. It is the duty of such officer to see that issues of all issuable stores, stock, produce, and all things of an issuable nature are economically made in accordance with these Regulations, and under his authority, and that all receipts and issues of all such stock, stores, produce, and other things are duly recorded and acknowledged in the proper books. The storekeeper in any school is responsible to the officer in charge for a strict compliance with this regulation, and no issue shall be made by such storekeeper except upon the written order of the officer in charge.

46. Stores and materials are classified as expendible and inexpendible. Expendible stores may be written off the store-book when issued. Materials issued for manufacturing purposes must be accounted for in the manufacturing ledger. Inexpendible stores are not to be issued until branded, and are to remain charged in a book, to be called the "Inexpendible Stores Book," until written off by the authority of the Minister on the recommendation of a duly appointed Board of Survey. An account must be kept in the "Inexpendible Stores Book" with the officers to whom issues of inexpendible stores are made.

47. All officers and other persons employed in any school to whose charge or custody any inexpendible stores or stock are entrusted shall use the strictest diligence in the care and safeguard and proper use of such stores or stock, and see that the same are cleanly kept and in proper repair. The value of any of such articles damaged, destroyed, lost, or not accounted for, may be deducted from the pay of the officer or other person to whom the same have been entrusted. Storekeepers must obtain the receipt of the person to whose custody such stores or stock have been charged in the "Inexpendible Stores Book."

48. The officer in charge shall submit to the secretary requisitions in proper form for stores and stock required. One month's supply should be kept in hand in advance of requirements; and any unreasonable delay in making supplies should be reported to the secretary.

49. All stock of every description, and farm produce, whether supplied to or produced in or by any school, shall be forthwith entered in the store books, and accounted for in the stock and produce returns. Every increase or decrease of stock must be thus entered and brought to account. No stock shall be used except for Government purposes. Articles which have been produced in any school are to be issued only for duly authorized purposes in the manner and to the extent provided by these regulations; and all such issues must be accounted for in the prescribed manner. Any surplus produce may be disposed of as the Minister directs.

50. Provisions shall be issued in every school in accordance with the dietary scale set forth in the fifth schedule to these regulations. If at any time the scheduled quantity of any article is greater than required, the officer in charge may either issue a less quantity or discontinue the issue thereof for such period as is necessary. Any such reduction in quantity or discontinuance of issue shall be duly entered in his diary by the officer in charge.

51. The officer in charge of a school is required to ascertain, upon the receipt of all articles supplied in pursuance of any contract or otherwise, that the same are of a suitable and proper quality for their respective uses, and supplied in accordance with the conditions of the contract, if any. He must also see that all issues from the store of the school, to the cook therein are of full weight and quantity, and that the children to be rationed for the day are entitled to such rations, and that the issues of food to the kitchen of such school are correct in quantity, and are properly cooked, and that all receipts and issues, as aforesaid, are duly and correctly recorded by the storekeeper in the proper books and returns.

52. The officer in charge of every school shall forward monthly to the secretary a return, in the form contained in the sixth schedule hereto, of all articles of food received and issued by him during the month next preceding that of his return.

53. Medical comforts in accordance with the seventh schedule hereto will be issued to any child or children detained in any school upon the recommendation of the medical officer in attendance upon such school, and the medical officer's certificate will be necessary to the accounts.

54. Fuel and light will be supplied to those officers and servants employed in any school who are authorized to receive the same in accordance with the eighth schedule hereto, and will be provided for in like manner as stores are required to be issued by the regulations. The officer in charge of such school is required to see that due economy in the issue and use thereof is exercised by such persons and those whose duty it is to make such issues, and in case a less quantity will suffice for any person than that specified in the aforesaid schedule, the officer in charge shall see that the issue shall be limited thereto.

Requisitions, Accounts, Repairs, &c.

55. Officers in charge of schools shall forward to the secretary all requisitions which require Ministerial approval on the 1st of June and 1st of December in each year. Such requisitions shall be prepared with strict regard to economy. No special requisitions shall be forwarded unless in urgent cases, when the causes which render them necessary must be fully explained.

56. Orders may be issued to contractors only for articles provided on requisition, but in any urgent case the secretary may authorize any purchase of stores, stock, articles, or other things authorized by these regulations to be made either under clause 61 of Stores and Transport Regulations, or in anticipation of Ministerial approval.

57. Accounts of every school are to be completed and forwarded to the secretary's office with as little delay as possible after being received, and monthly accounts are due on the 5th of the month next following that for which the charges are made. A loss occasioned by negligence or carelessness in the preparation or payment of accounts, or by a breach of this Regulation or the general Regulations relating to public accounts, must be made good by the officer causing such loss.

58. Daily or special returns are due at the secretary's office by noon of each day; weekly returns on Tuesdays; monthly returns on the 5th of each month; quarterly returns on the 15th January, April, July, and October; half-yearly returns on the 15th January and July; and annual returns as specially directed. When either of the days named falls on a Sunday or public holiday, the returns will be due on the following day.

59. Correspondence upon departmental business by officers in charge of schools is to be registered in the school, and signed by the officer in charge. Papers received from the secretary's office should be returned, and all communications dealt with expeditiously.

Communications for the permanent head of the department are to be forwarded, under cover, to the office of the secretary, for registration and transmission.

60. Forage not produced at the school requiring it is to be provided for in the same manner as stores, and in all cases issued in accordance with the authorized scale. Other articles for the issue of which no scale is provided are to be made use of with due regard to economy, and, where practicable, a scale should be fixed by the officers in charge.

61. Purchases at contractor's risk may be made by officers in charge, but only in strict accordance with the conditions of contract. Before making such purchases officers will examine the conditions of the contract in respect of which purchases are to be made, and will themselves either perform or tender performance to the contractor of such acts, performance of which on their part is required by the conditions of contract, and will also give notice in writing to the contractor of their intention to purchase at his risk.

62. In all schools strict economy must be observed in incurring expenditure for transport. No officers shall be allowed the cost of travelling except when employed on Government business. Officers travelling in charge of children will have second-class tickets issued to them, and are required to ride with the children in the same compartment.

63. Expenditure for necessary repairs, the cost of which does not exceed £2 in amount, may be incurred by officers in charge without previously obtaining authority for the purpose. Where the probable cost of any such repairs exceeds £2 in amount, the authority of the secretary must be obtained by application in writing before the liability is incurred. The account for any such expenditure, whether previously authorized or not, must be rendered to the secretary directly the work has been executed; and where authority has been obtained as aforesaid, the number of the correspondence covering such authority must be quoted.

64. The regulations respecting Public Accounts, the Public Service, and the Stores and Transport Regulations, and the clauses of the *Audit Act 1915* relating to stores, accounts, and the like, are to be carefully studied and complied with by all officers of the Department, and the provisions of the *Public Service Act 1915*, the *Neglected Children's Act 1915*, and the *Crimes Act 1915* are to be made known to all those who are required to comply with or give effect to any portions thereof.

65. All officers and servants on joining a school must make themselves acquainted with these regulations, as ignorance of any regulation will not be accepted as an excuse for non-compliance therewith. If any contingency should arise for which such regulations do not provide, the officer in charge may deal with it as he deems advisable, having regard to the spirit of these regulations.

Visiting Committees.

66. A committee to be called the "visiting committee" shall be appointed for every school, such committee to consist of not less than five (5), nor more than nine (9) members, a majority of whom shall be resident in the locality. When any such school as aforesaid has been established by or for any religious denomination or denominations, such

committee shall consist exclusively of members of such denomination or denominations.

The visiting committee shall act as a council of advice to the officer in charge of such school, and shall, collectively or individually, have free access to the school to which it is appointed, and to all books and records kept therein, or relating thereto, at all reasonable hours, and shall have power to inquire into the welfare and training of all wards of the department placed or detained therein, and of the inmates in such school.

67. The committee shall furnish to the ministerial head of the Department a report of its proceedings annually, and at such other times as it thinks fit, or as the Minister requires. The annual report shall embrace remarks on the state of the school, and the working generally of the scheme adopted therein for the purpose of dealing with the wards of the Department under the provisions of section 30 of the Act.

State Ward's Fund.

68. The following deduction shall be made from moneys which, by virtue of the Act, shall come into the hands or under the control of the secretary, on account of any person of whose estate the secretary is guardian, other than the earnings of such person:—

Such weekly sum for the maintenance of such person as the Minister may direct, to be paid out of interest, if sufficient, or out of the capital, or out of both capital and interest of such moneys if the interest thereon be insufficient; provided that such weekly sum shall not exceed the actual cost to the Department of the maintenance of such person, less any sums which may otherwise be recovered for such maintenance.

69. The secretary shall pay all such moneys as aforesaid to the Receiver of Revenue in the form contained in the ninth schedule to these regulations, and the Receiver of Revenue shall place such amounts to the "State Ward's Fund," and shall, subject to the deductions aforesaid, lodge the amount in a State Savings Bank, the interest thereon being credited to the ward concerned.

70. All moneys received on account of earnings of wards of the Department shall, upon collection, be paid into an account opened in a State Savings Bank in the name of the Department, and all withdrawals therefrom shall require the signatures of the secretary and of the accountant for the time being. The balance of such earnings shall, except as provided in section 84, sub-sections 1 and 2 of the Act, be paid over to such wards upon the expiration of the control of the Department, or previously, at the discretion of the secretary.

Collection of Maintenance.

71. Subject to the exception contained in section 60 of the Act, the Governor in Council may appoint such, and so many persons as may be deemed fit and necessary to assist in recovering moneys payable by parents for the maintenance of their children, who have been committed to the care of the Department under the Act, or to a reformatory school under the Act, or under the *Crimes Act 1915*, or by parents liable to contribute to the maintenance of their children under any previous Act.

72. Every such person so authorized to assist in the recovery of such moneys shall pay the same weekly to the Clerk of Petty Sessions, or other Collector of Imposts duly authorized to receive the same. Such persons shall be paid at the following rates:—

On any sum not exceeding £2	...	20 per cent.
On any sum not exceeding £4	...	10 "
On any sum upwards of £4	...	5 "

Any such payment shall be paid monthly on the certificate of the person authorized as aforesaid to receive such moneys.

73. Immediately any constable or peace officer shall have ascertained that the parent of any ward of the Department, or of any inmate liable for the payment of any money for maintenance of such ward or inmate, has left the district of which such constable or police officer has charge, or in which he is on duty, he shall endeavour with his utmost diligence to ascertain to what police district such parent has removed, and shall upon ascertaining to what district such parent has removed, forthwith report the same, and full information of such removal by such parent as aforesaid to the clerk of petty sessions or other collector of imposts in and for the district of which such constable or police officer has charge as aforesaid, and such clerk or other collector of imposts upon receiving such report shall without delay transfer, or cause to be transferred, any order in his hands for the payment of such maintenance to the clerk of petty sessions, or other collector of imposts in and for the police district to which such parent liable for maintenance is reported as aforesaid to have removed.

74. Clerks of courts or other collectors of imposts or persons appointed to receive maintenance moneys from parents shall keep an account current with each parent, in a book in the form contained in the tenth schedule hereto, wherein an entry shall be made every four weeks showing the balance of such account then due, if any, and shall every four weeks forward to the Department a return showing the state of each such account current in their books. Such return shall be in the form contained in the eleventh schedule hereto, and shall be referred by the secretary to the Auditor-General for comparison with the amount paid by the clerk into the Treasury.

75. No clerk of courts, collector of imposts, or person appointed to receive maintenance moneys from parents shall allow more than four weeks' arrears of such moneys to accumulate without causing a summons to be issued for the recovery thereof.

Private Industrial Schools.

76. The foregoing regulations, Nos. 10 to 65 inclusive shall, so far as applicable, be obligatory in all private industrial schools established by private contributions, and heretofore approved by the Governor in Council as industrial schools.

The following books shall be kept therein in the forms set forth respectively in the twelfth schedule hereto:—

1. Admission and discharge book.
2. Children's register.
3. Punishment books (day book and ledger).

Such books shall at all reasonable times be available, and produced to the inspector.

Persons or Institutions Approved under Part VIII.

77. No child committed to the care of any private institution under Part VIII. of the Act shall be maintained within such institution for a longer period than twelve months except with the approval of the Minister, but shall within such period, or when required by the Minister, be dealt with by the manager of such institution in some one of the ways in which every ward of the Department may be dealt with by the secretary under section 30 of the Act.

A register shall be kept of the children placed in the charge of such institution in the form contained in the thirteenth schedule hereto; and

when any child has been dealt with by the manager of such institution in any one of the ways in which every ward of the Department may be dealt with under section 30 of the Act, and has left the said institution, entries shall be made in such register so as to show at all times the name or names, and the full address or addresses, of the person or persons with whom, and the conditions under which, such child has been boarded out, placed, or apprenticed. The register shall be submitted for perusal by the inspector when required.

78. The inspector personally, or one of the visiting officers under his instructions, may, on the information, or at the request of any friend or relative of any child committed to the care of any private person, under Part VIII. of the Act, visit such child, and inspect the place where such child is or resides.

79. When, under and by virtue of section 67 of the Act, the father of any child or the mother of any child, being the guardian of such child, is desirous of committing the care of such child to any person or institution approved by the Governor in Council as a person or institution to whose care neglected children may be committed, and such person or institution is willing to accept the care of such child, the writing of such commitment as required by the Act shall be in the form contained in the fourteenth schedule hereto.

Inspection.

80. The inspector shall inspect every school established in accordance with the provisions of the *Neglected Children's Act* 1915, or by private contribution, and heretofore approved by the Governor in Council as an industrial school, at least once in every twelve months; and all books and records of such schools shall be furnished to him, and he shall have access to the same at all reasonable times.

81. The inspector shall ascertain from time to time through the officers of the Department under his direction, by visitation or otherwise, the condition and general welfare of the wards of the Department boarded out, placed, or apprenticed under section 30, sub-sections 2, 3, 4 and 5 of the Act.

82. The inspector, or some officer of the Department appointed for the purpose, shall visit any child committed to the care of any person or institution under the provisions of Part VIII. of the Act, when required by the Minister so to do, and inspect the place where such child is or resides. The inspector or other visiting officer shall report to the Minister upon such visit and inspection, and upon all matters connected therewith.

Foster Homes and Visitation.

83. In the following regulations, and in the schedules thereunder the following terms have the meanings hereby respectively assigned to them:—

- i. "Foster parent" means the person with whom any ward of the Department is boarded out under section 30, sub-section 2 of the Act.
- ii. "Foster home" means the residence of such person where such ward is boarded out.
- iii. "Foster child" shall mean a ward of the Department boarded out as aforesaid.

84. For the purpose of visiting wards of the Department boarded out, placed, or apprenticed under the provisions of section 30 of the Act, the secretary shall divide the State into such districts as he deems convenient, and shall make all arrangements necessary for the visiting of wards in every such district, and for the inspection of

the places where they may be or reside, by means of committees, or other suitable honorary agencies appointed for such district. A register of such districts shall be made and kept in the secretary's office.

85. The committee appointed for the purpose of visiting and inspecting in any district may consist either of ladies or gentlemen resident in the district, provided that no committee shall contain less than three ladies. Every appointment of any person as a member of the committee, whether original or substituted, or of the member to act as correspondent of such committee, shall be made by the Minister on the nomination of the secretary, who shall in regard to vacancies on existing committees be guided by the recommendation of the committee.

86. Every committee shall represent, as far as practicable; all the religious denominations established in the district.

87. No person deriving directly or indirectly any pecuniary or other personal *profit* from the boarding out, placing, or apprenticing of any ward of the Department shall be eligible for appointment to, or having been appointed, shall remain a member of, a committee, except with the consent of the Minister.

88. Every committee is requested, as far as possible, to observe and to enforce all regulations and the conditions contained in the schedules hereto respecting the boarding out, placing, or apprenticing the wards of the Department in its district, so far as such regulations and conditions are applicable.

89. No ward of the Department of the age of seven years or upwards, who has been transferred from a reformatory school to the care of the Department, or has been residing in a brothel, or associating or dwelling with a prostitute, shall be boarded out, without information being supplied to the person with whom such ward is intended to be boarded, of such transfer or residence as aforesaid.

90. Every committee may advise the persons with whom the wards of the Department have been boarded out, placed, or apprenticed, as it deems necessary with respect to such wards, and when the committee deems prompt action necessary in any case, as, for instance, the removal of a child from one person to another, it may take such steps as to it seems necessary or convenient. A report of such action shall, as soon thereafter as possible, be made to the secretary.

91. Every foster child shall be seen at least once in every six weeks by a member of the committee for the district in which such child is or resides and the residence and home of the foster parent shall be visited by some member of the committee at least once during every quarter. Such member of the committee shall forward a report, in writing, in the form contained in the fifteenth schedule hereto.

92. Every child placed at service may be visited by a member of the committee once a quarter, but not oftener, unless, in exceptional cases, further visiting is deemed desirable. A report on the behaviour and general welfare of the child shall be sent to the secretary half-yearly, and shall be in the form of the sixteenth schedule hereto.

93. The visitors should strive to impress on the children the importance of fidelity to the persons with whom they are boarded out, placed, or apprenticed, and discourage the habit of gossiping or talking about the private affairs of such persons. They should, as far as may be convenient and practicable, permit and encourage the children at all times to seek unreservedly their advice or assistance.

94. In any emergency demanding prompt action with reference to any ward of the Department, the committee of the district in which such ward is or resides may, if it be considered desirable, call on the police to take such steps as the circumstances may require. In special cases of less urgency, the secretary shall be communicated with as speedily as possible.

95. Protestant children shall be boarded out, placed with, or apprenticed to Protestant persons only, and Roman Catholic children with or to Roman Catholics only; and children of other creeds are to be dealt with in a similar manner. Provided that, if within two (2) months after becoming eligible for service there is application for a ward from fit persons of the same religious creed, or, if under special circumstances, it is deemed expedient for the welfare of any ward, such ward may be placed or boarded out with an approved applicant or person of some other creed, who shall undertake to provide facilities for the due performance of, and instruction in, the religious duties of the denomination to which such ward belongs.

96. Applicants for foster children must be women of good moral character and good health, and, if married, their husbands must be of good moral character, and of the same religion as themselves. Provided that, under special circumstances, at the discretion of the secretary, male children may be boarded as aforesaid with male persons. No child will be boarded as aforesaid with any applicant in receipt of charitable assistance from any benevolent asylum or charitable institution of society.

97. Applications for foster children shall be made to the committee for the district in which the applicant is or resides in the form contained in the seventeenth schedule hereto, or to the like effect, and shall be accompanied by the certificate of a clergyman, in the form contained in the said schedule, resident or having a charge in the district where the applicant resides. Such applications as aforesaid shall not be dealt with by the Department unless recommended by the said committee.

98. Every foster parent shall comply with the boarding-out conditions set forth in the eighteenth schedule hereto.

99. In every district in which foster children are boarded out a medical officer may be appointed. Applications may be obtained by the committee and submitted to the Minister, by whom the appointment shall be made. All appointments shall be for the term of twelve months, and may be renewed without inviting fresh applications unless the Minister otherwise directs. The duty of the medical officer will be to visit such children not less than once in every three (3) months, and to attend to them in illness or in case of accidents, either at the residences of the foster parents, or at his own residence or surgery, as may be necessary, and to supply all medicines and medical appliances which may, in such cases, be actually necessary. It shall be the duty of such medical officer to report to the committee any deficiency of accommodation, any defects in the sanitary conditions or surroundings of the residences of the foster parents, insufficient supply of food or clothing to, or absence of cleanliness of the foster children; and generally any illtreatment to them, or any cause of complaint touching all or any of such matters, or anything incidental thereto that may come under his notice.

100. An allowance for such medical attendance and supervision as aforesaid shall be paid by the State at the rate of one pound (£1) per annum for a foster home containing one child; thirty shillings (30s.) per annum for foster homes containing two

(2) children; and forty shillings (40s.) per annum for foster homes containing three (3) or more children. Payment at the rate of £1 per child per annum may, however, at the discretion of the secretary, be paid in any scattered district in which the foster homes do not exceed ten (10) in number, nor the total number of children twenty (20).

101. The Minister may remove or direct the removal of children boarded at any foster home at any time he considers it necessary or expedient.

102. All applications for children to be placed at service under section 30, sub-section 3 of the Act shall be made in the form contained in the nineteenth schedule hereto, or to the like effect, and shall be accompanied by a certificate of a clergyman, in the form contained in the said schedule, resident or having a charge in the district where the applicant resides. Every person with whom a child is placed at service shall be bound by the service conditions set forth in the twentieth schedule hereto.

103. Every foster child, on leaving its foster home to be placed at service, shall, on first going out, be furnished with an outfit by the foster parent, to which the Department may contribute a sum not exceeding £2, as the secretary thinks proper. If such foster child should subsequently require any addition to its stock of clothing, the same may be issued or purchased by the Department, and the money, or a sufficient part thereof to the child's credit in the books of the Department, may be applied, at the discretion of the secretary, to defray the cost thereof.

104. Relatives of children boarded out or placed at service shall not be allowed access to them except with the special permission of the secretary. Such information as it may be desirable to give will be furnished on application to the secretary.

105. To facilitate the placing at service, or, in special cases where it shall appear desirable, the boarding out of boys of school age under the *Education Act 1915*, State school teachers may, with the approval of the secretary, act in the place of visiting committees, and shall exercise the powers given to, and, as far as possible, discharge the duties devolving upon, such committees.

106. The right to remove children, whenever it may be deemed necessary to do so, is in all cases reserved to the Minister.

107. Persons taking charge of children under sub-section 5 of section 30 of the Act may receive them subject to the boarding-out conditions set forth in the eighteenth schedule hereto, or to the service conditions set forth in the twentieth schedule hereto, or generally according to such conditions as may be deemed by the secretary expedient for and applicable to the particular case.

108. Every person desirous of having placed in his or her custody any ward of the Department under section 30, sub-section 5, of the Act, may make application, in writing, to the secretary for that purpose. Upon such application being approved, such person shall sign either a receipt in the form contained in the first part of the twenty-first schedule hereto, or an undertaking in the form contained in the second part of the said schedule, or in such other form as may be deemed applicable to the particular case.

109. The foregoing regulations relating to boarding out shall apply to the placing out of children to be wet-nursed so far as the same may be applicable.

110. Children shall be placed out to be wet-nursed under the conditions contained in the twenty-second schedule hereto.

CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the Land Acts, except under the 121st section of the Land Act 1915, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the Land Act 1915, or for mining purposes.

2. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 123 of the Land Act 1915 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the Government Gazette, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

Plans can be seen and information may be obtained in this office.

Section 121, *Land Act 1915*, provides—

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.
