## SHIRE OF MOORABBIN.

## PROPOSED SEVERANCE AND CONSTITUTION OF A NEW MUNICIPALITY.

IN pursuance of the provisions of the *Local Government Act 1915* (No. 2636, section 46), the substance and prayer of a petition in accordance with the said Act, which has been presented to His Excellency the Governor, are published, viz.:—

The petitioners purport to constitute a majority of the ratepayers in the portion of the shire of Moorabbin which is described in their petition, and they desire that the area so described may be severed from the shire of Moorabbin, and constituted a new municipality under the name and title of "The Borough of Sandringham."

Area described in petition:—Commencing at a point on the shore of Port Phillip Bay in a line with the centre of New-street; thence north along New-street to South-road; thence east by a line and along the said South-road to Bluff-road at the north-east angle of section 16 parish of Moorabbin; thence south by Bluff-road to Bay-road at the south-east angle of section 23, parish of Moorabbin; thence east by Bay-road to Reserve-road at the north-west angle of section 44, parish of Moorabbin; thence south by Reserve-road to Balcombe-road at the south-west angle of section 47, parish of Moorabbin; thence east by Balcombe-road to Cromer-road at the north-east angle of section 49b, parish of Moorabbin; thence south by Cromer-road and a line to a point in line with the centre of Cromer-road on the shore of Port Phillip Bay; thence south-westerly, westerly, and north-westerly by that shore to the commencing point in line with the centre of New-street.

The petitioners state that by the constitution of the borough better supervision could be exercised over the area as to expenditure for maintenance, drainage, lighting, and other works, particularly with regard to health matters and the large seaside public reserves situated within the area.

The area of the proposed new borough is 3,347 acres, with a population of 6,094, and a 2s. rate would yield approximately £7,703, which, it is stated by the petitioners, would be ample to adequately maintain the new borough.

The petitioners therefore pray that His Excellency in Council may be pleased to sever the area above described and constitute it a separate municipality under the name and title of "The Borough of Sandringham," such municipality to be subdivided into four wards.

Notices for the petitioners may be served on Mr. B. J. Ferdinando, accountant, 231 Flinders-lane, Melbourne.

12. For every public water trough supplied with water from the works of the Trust, the sum of One shilling (1s.) per annum shall be paid.
13. All public water troughs must be fitted with approved self-acting taps to prevent overflow; such taps to be approved by the secretary for the time being of the said Trust.
14. It shall be unlawful for any person to have an overflow waste pipe from any private bath.
15. The Trust may by notice, in writing, intimate to any owner or occupier using water for other than domestic purposes solely that the water supplied is to be charged by measure, and may by such notice require such owner or occupier to provide a meter within fourteen days after the receipt of such notice; and thereupon such owner or occupier shall, within the time specified, at his own expense, provide a meter.
16. No meter shall be affixed until it shall have been examined and approved, and a certificate from the Board of Works or other authorized person be produced for the inspection of the secretary of the Trust for the time being that such meter is in proper order.

19. If any person refuse or delay to have such meter properly repaired and put in correct working order after having been required by any officer of the Trust so to do, the Trust may shut off the supply of water from the premises of such person, either by cutting the service-pipe or otherwise, until such meter shall have been properly repaired and certified by some officer of the Trust as being in proper working order.
20. Any person supplied with water by the Trust who shall wilfully or negligently allow the same to run to waste, or who shall use or allow the water to be used in an unauthorized manner, or who is in arrears with the payment of his water rate, the Trust may, after one hour's notice, cut off the supply of water from the premises of such person either by cutting the pipes by or through which the water is supplied or by any other means that are available, and may cease to supply such premises with water so long as the Trust may think fit.
21. It shall be lawful for any person appointed by the Trust for such purpose to request permission from any owner or occupier to make an inspection of the water service to ascertain if water is being allowed to run to waste, and, if such occupier or owner refuse permission for such inspection, the Trust may, if it think fit, refuse to supply such premises with water; and such refusal on their part will in no way relieve the owner or occupier from payment of any rate or rates as may be levied on such property.
22. If the person appointed for such inspection shall ascertain that any owner or occupier is allowing water to waste by reason of leaky taps or otherwise, he shall be empowered to authorize the repair of such taps or pipes and to notify such owner or occupier that the waste of water must at once cease.
23. No person shall affix any service-pipe to any pipe of the Trust, or alter or repair or in any way interfere with any pipe of the Trust or any service-pipe, cock, or fitting connected with the pipes of the Trust until he shall have obtained from the Trust permission to execute such works, and such permission shall be at and during the pleasure of the Trust, who may at any time cancel such permission.
24. Any person, whether licensed or permitted as aforesaid or not, who shall require to affix any service-pipe to any pipe of the Trust, or to make any repairs to pipes under the control of the Trust, shall give notice to the secretary of his intention so to do.
25. All connexions from the Trust mains to property shall be made at the expense of the owner or occupier of the property to be supplied, and all repairs or renewals shall, when necessary, be made by the owner or occupier, and such pipes shall at all times be under the control of the Trust.
26. All connexions, pipes, and fittings shall be of the best quality, and approved by the secretary and chairman of the Trust.
27. The service-pipes from the main being the property of the owner or occupier of the tenements supplied by such service-pipes, the occupier (if any), and, if none, the owner, shall, upon receiving notice that his service-pipe requires repairing, immediately proceed to repair the same, and he shall be responsible for any loss of water or other damage which shall be caused by reason of such service-pipe being leaky or otherwise out of repair or broken, and the Trust may stop the water from flowing into such premises in any way it may seem fit until such repairs have been effected.
28. Fire plugs shall not be used except for the purpose of extinguishing fires unless any other use of them be allowed by the Trust, and they shall at all times be under the control of an officer of the Trust.
29. Any person watering any street or footpath by means of a hose except under the direction of an officer of the Trust shall be guilty of an offence against these Regulations.
30. For any breach of these Regulations a penalty not exceeding Five pounds (£5) shall be imposed.
31. His Excellency the Governor of Victoria.  
 Sir A. J. Peacock | Mr. McLeod  
 Mr. Lawson | Mr. Hutchinson.

**W**HEREAS by Division 2 of Part III. of the *Water Act 1915* the Governor in Council is empowered to make Regulations for the election of Commissioners of Waterworks Trusts: Now therefore His Excellency the Governor of the State of Victoria, acting by and with the advice of the Executive Council thereof, and in pursuance of the provisions of the now in part recited Act, doth for the purposes aforesaid make the following Regulations for the election of Commissioners of the Hepburn Waterworks Trust.

1. *Interpretation of Terms.*—In these Regulations "the Trust" or "the said Trust" shall mean the Hepburn Waterworks Trust. "Minister" shall mean the Minister of Water Supply.

2. *Period for which Commissioners shall Hold Office.*—The period for which the Commissioners shall hold office shall be three years, and shall date on and from the date of election.

3. *Extraordinary Vacancies, how Filled.*—Should any vacancy in the office of Commissioner be occasioned by death, disqualification, or any other cause whatever, the same shall be filled up by election under these Regulations, within one month after the vacancy has occurred, and the person elected to fill such vacancy shall hold the office of Commissioner during the unexpired portion of the term of office of the Commissioner whose seat shall have become vacant.

4. *Date of First and Subsequent Election of Commissioners.*—The first election of Commissioners under these Regulations shall be held on the 7th day of February, 1917, and the ordinary election of Commissioners shall be held on the 7th day of February in each succeeding triennial year. Provided that whenever such date shall fall upon a Sunday or any day set apart as a public holiday such election shall be held upon the day next following.

5. *Voters' List to be Prepared.*—For the purposes of the first election of Commissioners a voters' list shall be prepared in like manner to that provided by section 117 of the *Water Act 1915* in so far as circumstances will admit, on or before the 4th day of January, 1917, by the Secretary to the Trust, certified by him as correct, and such list shall be the list of voters for the said election of Commissioners, and shall remain in force, and shall be used at any subsequent election of Commissioners that may be held prior to a fresh voters' list being made out as hereinafter provided.

6. *Voters' List to be Prepared Annually.*—Before the last day of February in each year a voters' list shall be made out in the manner prescribed by section 117 of the *Water Act 1915*, which shall, upon approval of the Commissioners under the common seal of the Trust, be the list of voters for the election of Commissioners for the twelve months next ensuing.

7. *Form of Voters' List.*—*First Schedule.*—Such voters' list shall be in the form in the First Schedule hereto, and shall contain, in regular numerical sequence and alphabetical order of surname, the christian name or names, surname, and address (so far as these may be known) of every ratepayer within that portion of the municipal district of the Shire of Glenlyon included within the district of the Waterworks Trust.

In making out such list of voters, if the property in respect of which any ratepayer is entitled to vote is only in part within the Waterworks District, then the number of votes of such ratepayer in respect of such property shall be reduced in the proportion which such part bears to the whole property of such ratepayer rated in the municipal district.

8. *Minister to appoint Returning Officer for First Election.*—*Chairman of Trust to be Returning Officer at Subsequent Elections.*—For the purpose of the first election herein mentioned the Minister shall appoint some fit and proper person to be returning officer; but for every subsequent election (whether ordinary or extraordinary) the Chairman of the Trust holding office as such on the day immediately preceding the date of election shall be the returning officer; but if at the time of any election the office of Chairman of the Trust should become vacant the Commissioners of the Trust may, by resolution, appoint one of their

number to be returning officer; and the returning officer may appoint a deputy to assist him or to act in his room at any election, and such deputy may do all things which the returning officer is hereby authorized or required to do.

9. *Notice of Election.*—*Nomination of Candidates.*—*Second Schedule.*—Fourteen clear days before any election of Commissioners under these Regulations, the returning officer shall give public notice of such election by advertisement inserted in some newspaper generally circulating in the Hepburn township, and by such notice shall require all candidates at such election to be nominated in some place within the said township to be named in such notice in manner hereinafter mentioned, between the hours of Ten o'clock in the forenoon and Four o'clock in the afternoon, on some day before a day (hereinafter called the day of nomination) not less than four nor more than seven days after the time of giving such notice, and named therein, and any person desirous of becoming a candidate shall, before Four o'clock in the afternoon of the day next preceding the nomination day, cause to be delivered at the place aforesaid to the returning officer a nomination paper, in the form of the Second Schedule, or to the like effect, stating therein both his christian and surname, together with the other particulars required in and by the said Schedule; and such nomination paper shall be signed by not less than three persons duly qualified to vote at such elections, as well as by the candidate. And no person who shall not have been so nominated shall, within the provisions of these Regulations, be deemed to be a candidate at any election of Commissioners.

10. *Qualifications of Commissioners.*—No person shall be eligible for election as a Commissioner unless he is liable to be rated under the *Water Act 1915* in respect of property within the district of the Trust.

11. *Where Number of Candidates does not exceed Number of Commissioners to be Elected.*—If, at the expiration of the time limited as hereinbefore provided for the nomination of candidates, the number of persons who have become candidates as aforesaid does not exceed the number of Commissioners to be elected, the returning officer shall then declare such candidates to be duly elected, and they shall be deemed to be then duly elected accordingly.

12. *Where Number of Candidates exceeds the Number of Commissioners to be Elected.*—*Third Schedule.*—*Notice of Poll.*—*Hours of Polling.*—If, at the expiration of the time limited for the nomination of candidates, the number of candidates exceeds the number of Commissioners to be elected, then the returning officer shall forthwith cause the ballot-papers to be printed, with the christian names and surnames of all the candidates in full in the form of the Third Schedule hereto, and shall also give public notice by advertisement in some newspaper circulating in the Hepburn township, stating the names of the persons so nominated, and that a poll will be taken for the election of such Commissioners upon a day named in such notice, at such place within the said township as the returning officer shall in and by such notice appoint; and such poll shall take place accordingly, and shall commence at Eight o'clock in the forenoon, and close at Four o'clock in the afternoon.

13. *Retirement of Candidates before Polling Day.*—If, at any election, after a poll shall have been appointed as aforesaid any candidate for such election, and two of the persons having signed the paper nominating him as aforesaid, are desirous that he should retire from such candidature, such candidate and the persons aforesaid may sign and deliver to the returning officer, not later than four clear days before the day of polling, a notice in the form of the Fourth Schedule hereto, stating that such candidate so retires; and the said candidate or his agent shall thereupon publish in some newspaper generally circulating in the Hepburn township a copy of such notice, and the returning officer, on sufficient proof of such publication aforesaid, if the number of candidates is by such retirement reduced to the number of persons to be elected at such election shall, on the day appointed for the election, declare the remaining candidates duly elected; and, if the said number is not so reduced, shall omit the name of the person so retiring from the ballot-papers to be used at the said election, and, if such papers are already printed, shall erase such name therefrom; and such person shall not be capable of being elected at such election.

14. *Polling Booth may be Hired.*—At such election the returning officer shall provide a suitable place for taking a poll, and may, if necessary, cause to be hired and used as a polling booth any room which he may deem to be suitable at the place appointed for taking the poll, and may divide such room into compartments as to him may seem most convenient.

15. *Returning Officer to Preside at Polling Booth.*—The returning officer or his deputy shall preside at the polling booth for taking the poll.

16. *Scrutineers may be Appointed.*—Each candidate shall be entitled to appoint, in writing, one scrutineer to be present in the polling booth, and the said returning officer or his deputy, and the said scrutineers, and any voters not exceeding four in number, actually engaged in voting, shall alone be permitted at any one time to enter or remain in the polling booth.

17. *Pencils to be Provided.*—The returning officer or his deputy shall provide pencils in the polling booth for the use of the voters, and also a locked box, to be called the ballot-box, with a cleft or opening therein capable of receiving the ballot-papers, and such box shall be opened and exhibited to the scrutineers before the polling begins; and the box shall then be locked, and shall stand on a table opposite the returning officer or deputy returning officer, who shall keep the key of such box.

18. *Mode of Voting.*—The returning officer shall deliver to every voter who requires the same a ballot-paper, or if such voter appears by the roll to be entitled to give more votes than one, then so many ballot-papers as may be equal to the number of votes which such voter so appears to be entitled to give, such ballot-papers being in the form of the Third Schedule hereto, and initialed by the returning officer; and, every such voter shall, without leaving the booth, strike out from all or any of such papers the name of every candidate for whom he does not intend to vote. And in case any voter is unable to read or write, the returning officer or his deputy, if so required, shall, in view of such one of the scrutineers as the voter may desire, strike out the name or names of such candidate or candidates as such voter may designate; and after such name or names have been so struck out, the ballot-paper or ballot-papers (as the case may be) shall forthwith be deposited in the said box. Provided that all the ballot-papers to which any person may be entitled at the polling booth shall be demanded and received by him at one and the same time; and no person having once demanded and received any such ballot-paper or papers, and voted by the same, shall at the same election receive any further ballot-papers, or exercise any further right of voting.

19. *Ballot-papers to be Numbered.*—Before delivering any ballot-paper to the voter, the returning officer or his deputy shall write upon the back of each such ballot-paper, as near as practicable to the lower edge thereof, the number set opposite to the voter's name in the roll, and shall thereupon, upon a copy of such roll, check off such voter's name as having voted, and mark against such name the number of ballot-papers delivered to such voter.

20. *Informal Ballot-papers.*—If any voter suffer to remain upon his ballot-paper a greater number of names not struck out than the number of Commissioners to be elected, the vote given on and by such paper shall be void and of no effect.

21. *What Question may be Asked.*—At any election of Commissioners the returning officer may, if he see fit, or if required to do so by any candidate or scrutineer, put to any person tendering his vote the question following:—

“Are you the person whose name appears as (A.B.) in the roll now in force for this Trust, being enrolled therein in respect of property described to be situated in (here specify the street or other place described in the roll)?”

And no other question shall be put to any person tendering his vote; and no person who shall refuse to answer such question, or who shall not answer the same absolutely in the affirmative, shall receive a ballot-paper or be permitted to vote.

22. *False Answer, Polling Twice, and Personation.*—Every person who shall wilfully make a false answer to the question aforesaid, or who shall poll more than once, or offer to poll more than once at the same election, or who shall depart or attempt to depart from any polling booth after having received a ballot-paper, without having deposited the same in the ballot-box, as hereinbefore provided, or who shall personate any other person for the purpose of polling at such election, shall be guilty of a breach of these Regulations; but nothing contained in this clause shall apply to any person only by reason of his exercising the right of voting as often as it appears by the roll he is entitled so to do.

23. *Result of Polling, how Ascertained.*—Immediately on the close of the poll, the returning officer shall, in the presence of and subject to the inspection of so many of the scrutineers of the candidates as please to be present, proceed to ascertain the number of votes for each candidate; and such returning officer shall abstain from inspecting the number written as aforesaid on any ballot-paper, and take care that the same is not seen by any person before being sealed up as herein provided; and the returning officer shall seal up the ballot-papers deposited in the booth, and as soon as conveniently may be on or after the day of the poll, publicly declare the candidates, not exceeding the number of

vacancies to be filled up, who have received the greatest number of votes to have been duly elected Commissioners of the Trust, and if two or more candidates have received an equal number of votes, the returning officer shall determine by lot the candidate to hold office.

24. *Ballot-papers, how Disposed of.*—The returning officer shall forthwith after the declaration of the poll indorse with a description of the contents thereof, and sign the sealed parcel of ballot-papers, and forward the same to the Secretary of the Trust, to be by him safely and secretly kept for six months then next ensuing, and then by him caused to be destroyed in the presence of three Commissioners of the Trust.

25. *Minister to Determine Question Arising upon First Election.*—If any question arise as to the due election of any Commissioner at the first election, the returning officer shall, at the request of any voter or candidate, submit such question, in writing, to the Minister, who shall decide the same; and such decision shall be final and binding.

26. *Questions arising upon Subsequent Election to be Determined by the Trust.*—If any question arise as to the due election of any Commissioner at any subsequent election (whether ordinary or extraordinary), such question shall be determined by the Commissioners of the Trust at the first ordinary meeting held after the election; but no Commissioner in respect of whose election such question shall have arisen shall act as a Commissioner at such meeting, or be entitled to take any part in the proceedings thereof, or in any manner or at any time to act as a Commissioner until such question shall have been so determined; and the majority of the Commissioners whose election is not in dispute shall form a quorum.

27. *Appeal to Minister from Determination of Trust.*—In event of any voter or candidate feeling aggrieved by the determination of the Trust with reference to any such question as last aforesaid, he may appeal therefrom to the Minister within fourteen days from the date upon which the Commissioners shall have determined the question, and the Minister may make such inquiry as to the merits of the question as may appear to him to be necessary, and determine such question in such manner as to him may appear just; and such determination of the Minister shall be final and binding.

28. *Failure to Elect deemed to create Extraordinary Vacancies.*—If at any election of Commissioners any vacancies less than the whole number which should have been filled up at such election are not filled up, then the vacancies which are not so filled shall severally be deemed extraordinary vacancies and to have occurred on the day appointed for such election. Provided always that the Commissioners eventually elected or appointed to fill such vacancies shall go out of office as if elected at such election.

29. *Expenses of Election to be paid by Trust.*—The expenses incurred by the returning officer, or under his direction, in connexion with any election shall be defrayed by the Trust.

30. *Penalty for Breach of Regulations.*—Any person guilty of a breach of any of the provisions of these Regulations shall be liable to a penalty not exceeding Ten pounds, to be recovered in a summary manner before justices of the peace.

31. *Interpretation.*—In these Regulations words importing the masculine gender shall be deemed and taken to include females, unless there is something in the context repugnant to or inconsistent with this interpretation.

## Marine Act 1915.

AMENDMENT OF REGULATIONS RELATING TO  
THE EXAMINATION OF ENGINEERS.

**I**N pursuance of the powers conferred upon it by the *Marine Act 1915*, the Marine Board of Victoria, with the consent of His Excellency the Governor of Victoria, acting by and with the advice of the Executive Council thereof, doth hereby make the following regulations, that is to say—

1. (a) These regulations may be cited as the "Marine Engineer Regulations 1916," and shall be read and construed as one with "The Regulations for the Examination of Engineers" made by the Board on the 11th day of July, 1902, and published in the *Government Gazette* on the 29th day of July, 1902 (as the same have from time to time been amended), hereinafter referred to as the "Principal Regulations," and shall come into operation on the 1st day of April, 1917.

(b) The Regulations mentioned in the Schedule hereto, to the extent to which the same are thereby expressed to be repealed, are from the coming into operation of these present regulations hereby repealed.

2. *Testimonials: Sea Service.*—For paragraph 5 of the Principal Regulations there shall be substituted the following, namely:—

5. *Testimonials: Sea Service.*—Testimonials as to service at sea must testify to the applicant's sobriety, experience, ability, and general good conduct, and should cover the whole of the applicant's sea service; no application will be accepted in any case where the applicant does not produce satisfactory testimonials for at least the last eighteen months' service at sea preceding the date of application to be examined. They must be signed by the Master and Chief Engineer (or in the case of testimonials to Chief Engineers, by the Master and Superintending Engineer), and must clearly state whether the applicant was on regular watch and in regular charge of a watch on the main engines or boilers. It is desirable that testimonials of candidates should be indorsed by the Superintending Engineer. No time spent in clerical work will be allowed to count.

3. *Failure.*—To paragraph 13 of the Principal Regulations there shall be added the following, namely:—

Failure in a number of elementary questions involving fundamental principles, or in questions ignorance of which might lead an engineer to do something actually unsafe in the management of any part of a ship's machinery, will be regarded as failure in practical knowledge.

4. *Second Class Engineer.*—For paragraph 23 of the Principal Regulations there shall be substituted the following, namely:—

23. *Second Class Engineer.*—A candidate for a Second Class Engineer's Certificate must not be less than 21 years of age.

(a) He must have served as an apprentice engineer for four years at least, and prove that during the period of his apprenticeship he has been employed in the manner set forth in paragraph (28A) of the Principal Regulations.

Journeyman's time will be considered as equivalent to apprenticeship.

Every applicant must produce testimonials of ability as a practical engineer to the satisfaction of the Board.

If the candidate has served as an apprentice engineer or as journeyman, under the conditions above prescribed, for less than four years, he will be required to make up the deficiency or to complete this period of four years by service as engineer at sea on regular watch on the main engines or boilers (1) of a foreign-going steam-ship of not less than 66 nominal horse-power, or (2) of a home-trade steam-ship of not less than 66 nominal horse-power, such service to be counted as equivalent in the case of (1) to two-thirds, and in the case of (2) to four-ninths, of service as apprentice engineer or as journeyman.

If the candidate has not served at all as apprentice engineer or as journeyman, he will be required to have served at sea, in lieu thereof, as engineer on regular watch on the main engines or boilers, six years in a foreign-going steam-ship of not less than 66 nominal horse-power, or nine years in a home-trade steam-ship of not less than 66 nominal horse-power.

(b) In addition to the apprenticeship as above described, or the alternative sea service, the applicant must have served eighteen months at sea as engineer on regular watch on the main engines or boilers of a foreign-going steam-ship of not less than 66 nominal horse-power, or twenty-seven months in a home-trade steam-ship of not less than 66 nominal horse-power.

(See also paragraphs 35, 36, 38, and 39 of the Principal Regulations.)

(c) He must write a legible hand, and have a good knowledge of arithmetic up to and including vulgar and decimal fractions and square root. He must also be able to apply these rules to questions relating to safety valves, coal consumption, consumption of stores, capacities of tanks, bunkers, &c., and other similar problems; and be able to calculate the suitable working pressure for a steam boiler of given dimensions, and the stress per square inch on crank and tunnel shafts and other parts of the machinery when the necessary data are furnished.

(d) He must be able to pass a creditable examination as to the various designs of paddle and screw engines in general use, including turbines; as to the details of the different working parts, external and internal, and the use of each part.

(e) He must have a satisfactory knowledge of the methods of construction of engines and boilers as used in the workshop, and of the attention required by the different parts of the machinery on board ship.

(f) He must be able to give a satisfactory description of boilers, and the methods of staying them, together with the use and management of the different valves, cocks, pipes, and connexions.

(g) He must understand the precautions necessary to be taken when raising steam in boilers and when opening stop valves to admit steam to pipes, &c.

(h) He must understand how to make good the results of ordinary wear and tear to the machinery, how to correct defects from accident, decay, &c., and how a temporary or permanent repair could be effected in case of derangement or total breakdown.

(i) He must understand the use of the water gauge, pressure gauge, barometer, thermometer, and salinometer, and the principles on which they are constructed.

(j) He must be able to state the causes, effects, and usual remedies for incrustation and corrosion.

(k) He must be able to explain the methods of testing and altering the setting of the slide valves, and methods of testing the fairness of shafts and adjusting them.

(l) He must understand the construction and working of evaporators, feed filters, and feed heaters.

(m) He must understand the construction and working of centrifugal, bucket, and plunger pumps, and the principles on which they act.

(n) He must understand the construction and working of steering engines, electric light engines and dynamos, electric motors, refrigerating machinery, hydraulic machinery, and such internal combustion engines as are used to drive ships' launches, emergency and auxiliary machinery on board ship.

(o) He must possess a creditable knowledge of the prominent facts relating to combustion, heat, and steam.

(p) He must be able to take off and calculate indicator diagrams and understand the distribution of the steam in the cylinder as shown thereby.

(q) He must be able to make a dimensioned working sketch or drawing of some simple part of the machinery.

5. *First Class Engineer.*—For paragraph 24 of the Principal Regulations there shall be substituted the following, namely:—

24. *First Class Engineer.*—A candidate for a First Class Engineer's Certificate must be not less than 22½ years of age.

A more extended knowledge of the subjects named in paragraph 23 will be required, and, in addition to the qualifications specified for a Second Class Engineer,

(a) He must—

(1) have served at sea for 18 months, with a Second Class Certificate of Competency or Service, on regular watch on the main engines or boilers of a foreign-going steam-ship of not less than 99 nominal horse-power, as senior engineer in charge of the whole watch (see paragraph 30 of the Principal Regulations); or

(2) have served at sea for 2 years and 3 months, with a Second Class Certificate of Competency or Service as first engineer of a home-trade steam-ship of not less than 99 nominal horse-power; or 3 years with a Second Class Certificate of Competency or Service as second engineer of a home-trade steam-ship of not less than 99 nominal horse-power; or

(3) have served 3 years and 9 months with a Second Class Certificate of Competency or Service as third or fourth engineer of a home-trade steam-ship of not less than 99 nominal horse-power, and during the entire period have been the senior engineer in charge of the whole of a watch on the main engines and boilers (*see also* paragraphs 35, 36, 38, and 39 of the Principal Regulations); or

(4) possess, or be entitled to, a First Class Certificate of Service.

(b) His knowledge of arithmetic must include the mensuration of superficies and solids and the extraction of square and cube roots, and the application of these rules to questions relating to the power, duty, and economy of engines and boilers, and to the stresses in rods, shafts, and levers of the engine. He should also be able to calculate the effect of the application of the lever, pulley, inclined plane, and other mechanical powers.

(c) He will be required to make an intelligible hand sketch, or a working drawing, of one or more of the principal parts of a steam-engine or boiler, and to mark upon it all the necessary dimensions in figures, so that the sketch or drawing could be worked from. (Appendix D.)

(d) He must be able to take off and calculate indicator diagrams, and to recognise and know how to correct defects in the distribution of the steam as shown thereby.

(e) He must be able to calculate safety-valve pressures and the strength of the boiler shell and riveting, and of the furnaces, flat surfaces, and stays.

(f) He must be able to state the general proportions borne by the principal parts of the machinery to each other, and to calculate the direct stress, the torsional stress, and the bending stress in round bars, and the direct stress and the bending stress in rectangular bars with given loads.

(g) He must be able to explain the method of testing and altering the setting of the slide valves, and to sketch approximately the difference any alteration in the slide valve will make in the indicator diagram.

(h) He must be conversant with surface condensation, superheating, and the working of steam expansively.

(i) He must understand the construction and working of, and be able to maintain in working condition, the auxiliary machinery which is placed under his charge, viz., refrigerating machinery, electric light engines and dynamos, electric motors, hydraulic machinery, the various descriptions of steering engines, and internal combustion engines as used in launches and for auxiliary and emergency machinery on board ship, &c.

(j) He must know how to provide against defects and breakdowns of the machinery, and be able to direct and carry out any ordinary repairs that may be required either to the engines or the boilers.

#### 6. Workshop Service—

(1) To paragraph (28A) of the Principal Regulations there shall be added the following, namely:—

This paragraph applies only to works at which the making and/or repairing of steam-engines, boilers, &c., forms part of the regular business for which the works exist. Service at works where the repairing of steam-engines, boilers, &c., is merely incidental to the running of plant, however large, which is used for the production of power for other machinery, &c., should be dealt with under paragraph 29, each case being considered on its merits.

(2) To paragraph 28 of the Principal Regulations there shall be added the following, namely:—

Workshop service in India is in no case to be taken as equivalent to more than four-fifths of the same period of service in the United Kingdom.

7. *Qualifying Service Defined.*—For paragraph 30 of the Principal Regulations there shall be substituted the following, namely:—

30. *Qualifying Service Defined.*—In the case of candidates for First Class Certificates qualifying service means, as a rule, service on regular watch on the main engines or boilers as senior engineer in charge of the whole watch. When, however, three or four engineers are on watch at the same time, the service of the two seniors may be allowed to count, and when not less than six engineers are on watch together, that of the three seniors, provided a certificate from the Superintending Engineer is produced stating the number of engineers on watch, the rank held by the applicant, and that he was in full charge of a watch on a definite section of the main engines or boilers. During the whole of the period claimed, candidates must have been in possession of Second Class Certificates.

In the case of candidates for Second Class Certificates qualifying service means service as engineer on regular watch on the main engines or boilers. In no case will time spent in clerical work be allowed to count.

All candidates, including those for First Class who have not been in charge of the whole of a watch, but qualify as herein provided as the second or third senior of the watch, and have been in charge of a section of the machinery only, will be required to have served at sea on regular watch on both the main engines and the boilers, not less than six months being spent on each.

8. *River and Bay Service.*—For paragraph 35 of the Principal Regulations there shall be substituted the following, namely:—

35. *River and Bay Service.*—Service as engineer on regular watch on a river and bay steam-ship of not less than 66 nominal horse-power may be accepted under the following conditions:—

(a) The service will only count half as much as sea service, *i.e.*, every two months of river and bay service is only equivalent to one month's foreign-going sea service.

(b) Candidates for Second Class Certificates must prove, in addition to the river and bay service, at least three months' qualifying service at sea in a foreign-going steam-ship of not less than 66 nominal horse-power, or four and a half months' similar service in the home trade.

(c) Candidates for First Class Certificates must prove, in addition to river and bay service in vessels of not less than 99 nominal horse-power, at least six months' qualifying service at sea, with a Second Class Engineer's Certificate, in foreign-going vessels of not less than 99 nominal horse-power, or nine months' similar service in the home trade.

9. *Service in Dredgers, Fishing Boats, Tugs, and Pilot Vessels.*—To paragraph 38 of the Principal Regulations there shall be added the following, namely:—

Where an engineer is employed on a fishing or other vessel, and is required to do stoking or other work not usually performed by an engineer in the Mercantile Marine, such service cannot be accepted as qualifying.

The Examiner of Engineers will in all cases satisfy himself that service on fishing boats, when claimed as qualifying for a certificate as engineer, is of a similar nature to that performed by engineers in the Mercantile Marine.

10. *Elementary Questions.*—For paragraph 50 of the Principal Regulations there shall be substituted the following, namely:—

50. *Elementary Questions.*—All applicants presenting themselves for examination for First and Second Class Certificates of Competency will be required to give written answers to ten elementary questions, which will not necessarily be taken from "Elementary Questions for the First Examinations of Engineers for Certificates of Competency and of Masters and Mates for Certificates in Steam," forming Appendix C to the Principal Regulations, but may be new questions somewhat similar in form and covering much the same ground.

**11. Technical Schools.—**

(1) Time spent after the age of 15 at a technical day school (recognised by the Board as suitable) where there is an engineering laboratory, may be taken into account and accepted as equivalent to artisan service, at the ratio of three years in the technical school to two in artisan service, provided that the applicant has taken the full engineering course and can produce the Principal's Certificate for regular attendance at all the approved classes and for satisfactory progress; and provided also that the remaining portion of the time has been spent in works where steam-engines, boilers, &c., are made or repaired, in accordance with the scale of values indicated above.

(2) A candidate for either a Second Class or a First Class Certificate who, within two years from the date of application to be examined, has attended an approved course comprising general mathematical and scientific instruction at a technical school recognised by the Board as suitable for the training of marine engineers, will be allowed to count time so spent as equivalent to sea service in the ratio of three months at the technical school to two months at sea. Time so spent cannot be accepted as equivalent to more than one-sixth of the total sea service required for either certificate, but a candidate who has been allowed to count such time on examination for a Second Class Certificate will not be debarred from counting similar subsequent time on examination for a First Class Certificate.

(3) Each candidate who claims remission of sea service on account of attendance at a recognised marine technical school must produce his class notebooks when he makes application to be examined. These books will be forwarded to the Examiner of Engineers, in order that he may satisfy himself that the candidate has followed the approved course of instruction, and that the remission of sea service claimed may be allowed accordingly.

Application for examination of candidates claiming remission of sea service should be made at least a week before they desire to sit.

## REGULATION XXXV.

## DISTRICT HIGH SCHOOLS.

*Establishment of District High Schools.*

1. District high schools shall be of two types—high schools, and agricultural high schools.

2. A district high school may be established by the Minister of Public Instruction upon the following conditions:—

- (a) At least 75 pupils shall furnish a written undertaking to complete one of the courses mentioned in clause 21 below, and, of these pupils, at least 50 shall have satisfactorily completed the work of Grade VIII. of the elementary school course, or have reached an equivalent standard of education.
- (b) An area of land which, in the opinion of the Minister is sufficient and suitable as a site for a high school and, in the case of an agricultural high school, an additional area of not less than 40 acres for a school farm, must be provided, and the title vested in the Minister. The area of 40 acres must be situated in a position convenient to the agricultural high school.
- (c) A local contribution of a sum of money to be approved by the Minister must be guaranteed.

*Advisory Councils.*

3. (a) For each district high school, the Governor in Council may appoint an advisory council.
- (b) The approval of the Minister must be obtained before any arrangements are made for the appointment of an advisory council. Except as provided below or otherwise directed by the Minister, the advisory council shall consist of not fewer than five nor more than nine members.
- (c) The council shall include:—
  - i. Three members, who shall be nominated by the parents and guardians of pupils attending the school;
  - ii. One member of the municipal council of the district in which the school is situated;
  - iii. The district inspector of schools;
  - iv. Four members who should represent the leading interests of the district.

5. Whenever during the triennial period for which an advisory council is appointed a vacancy occurs through death, resignation, forfeiture of seat or other cause, the council may nominate some suitable person to fill such vacancy. If the nomination is approved by the Minister, such person shall hold office until the triennial period has expired for which the council was appointed.

5A. The Governor in Council may at any time remove any member of the council and fill up any vacancy however occurring in the office of any member of the council.

6. Three members of the council shall form a quorum.

7. Advisory councils shall meet at least six times in each year, and any member absent without reasonable excuse from three consecutive meetings to which he has been duly summoned by letter at least three days in advance, shall thereby forfeit his seat on the council.

8. The Minister may, whenever it be deemed advisable, appoint as members of the advisory council of a district high school the members of the council of any technical school with which the Director may decide to associate the district high school.

9. It shall be the duty of the head master to summon the advisory council to its first meeting within a reasonable time after appointment for the purpose of electing officers and arranging for the carrying out of the duties of the council.

10. Except as otherwise approved by the Minister the duties of the advisory council for a district high school shall be—

- (a) To exercise a general oversight over the buildings and grounds, and to report to the Minister the condition thereof when necessary.
- (b) To promote measures for the beautifying and improvement of the school grounds, the establishment and maintenance of the school gardens and agricultural plots, the decoration and equipment of the school rooms, and the formation of a school library and museum.
- (c) To take measures to foster and promote local interest in the school, and to extend its usefulness to the community.
- (d) To advise the Minister in all matters pertaining to the school, more especially in any suggested developments in the course of study, and in efforts made to secure suitable employment for exit pupils, so as to bring the school closely into touch with the industrial and other special interests of the district.
- (e) To arrange, in conjunction with the head master, for suitable board and lodging at reasonable rates for the accommodation of resident pupils, and to exercise general supervision over such pupils.
- (f) To expend the allowance granted to the school, and in the case of agricultural high schools the maintenance allowance for the farm, and to exercise such supervision as the Minister may authorize over the farm operations.
- (g) The advisory council of any agricultural high school may nominate qualified pupils for free instruction in the agricultural course in that school, provided that the number of pupils so nominated in any year shall not exceed ten per cent. of the total number of pupils paying full fees enrolled in that year.

(h) Advisory councils of district high schools shall have all the powers assigned by Regulations XIX., XX., and XXV. to school committees in elementary schools as regards—

- i. School entertainments;
- ii. Religious instruction;
- iii. Use of school buildings;
- iv. Works that may be done under the direction of school committees;
- v. Relations to teachers.

11. Advisory councils are authorized to incur expenditure on the high school buildings and grounds in accordance with instructions issued by the Minister to an amount not exceeding £20 in each year. Payments will be made by the Education Department upon presentation of claims setting forth clearly the character of the work done, and certified by the chairman or the secretary of the council.

12. The accounts for each advisory council will be made up to the 30th June in each year, when all unexpended balances will lapse.

*Qualifications for admission, fees, and holidays.*

13. The qualifications for enrolment shall be as follows:—

- (b) They must furnish a written undertaking to complete one of the courses mentioned in Clause 21 below.
- (c) They must furnish satisfactory evidence that they are of good general health, and are likely to profit by a further course of study.

14. During their course in a district high school, pupils shall be required to attend lessons regularly and punctually, and to make satisfactory progress in the subjects prescribed for their course.

15. The fees to be paid by the pupils over the age of fourteen years shall be £6 per annum, payable for each term in advance.

16. (a) The Minister may remit the fees in the case of a pupil whose parents are not in a position to pay them, provided that such pupil shows special aptitude and promise as certified to by an inspector of schools, or by the head master of the district high school which the pupil is attending.

(b) If he considers the circumstances warrant it the Minister may make grants in aid of school requisites up to £2 per annum, or of travelling expenses up to £5 per annum, or of maintenance up to £26 per annum, to any pupil in a district high school, but no grant in aid of maintenance shall be made in respect of any pupil who has not obtained the Merit Certificate or an approved equivalent, and as a general rule except where it is necessary for the pupil to reside apart from his parents. In every case of a grant under this clause the parents or guardians of the pupil concerned must show by statutory declaration their income during the previous year.

Applications for grants under this clause must be made on the prescribed form before the end of February in each year. As a rule, no grant shall be made except in necessitous cases where pupils show special aptitude and promise.

18. No pupil shall be enrolled after the expiration of four weeks from the commencement of the first term unless with the special sanction of the Director. Pupils may, however, be transferred from one district high school to another, or from a higher elementary school, higher elementary classes, or a central school to a district high school, or *vice versa*, under the same conditions as regards transfer notes as are provided in the case of pupils attending elementary schools.

19. Subject to the approval of the inspectors of secondary schools at their visits to the school, the classification of pupils, whether at their entrance or at any subsequent period of their attendance at a district high school, shall be determined by the head master of such school.

*Courses of Study in District High Schools.*

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.
