2. Every occupier and every person having the management and control of any house or premises within the aforesaid area or portions of the said shire, and to which house or premises this By-law is applicable, shall construct or cause to be constructed thereon a proper privy in the form of an earth closet, which shall consist of a suitable privy building, the floor of which is at no point less than 3 inches above the surrounding ground surface, and shall have requisite apparatus for the application of dry earth or other deodorizing material to the contents thereof, and shall be constructed and placed so as to afford easy means of access for the purpose of removing the pan, and emptying and cleansing the same. Every privy attached to any school, licensed public-house, hotel, factory, work-room, or common lodging-house shall be paved with some non-absorbent material, having a fall or inclination from the rise of the seat towards the back of the building of half an inch to the foot.

11. All water supplied by the Trust by measurement shall be charged for at the rate of One shilling and threepence (1s. 3d.) per thousand (1,000) gallons, but in no case shall the amount to be paid be less than which would be payable for the premises under its municipal assessment.
12. For every public water trough supplied with water from the works of the Trust, the sum of One shilling (1s.) per annum shall be paid.
13. All public water troughs must be fitted with approved self-acting taps to prevent overflow; such taps to be approved by the secretary for the time being of the said Trust.
14. It shall be unlawful for any person to have an overflow waste pipe from any private bath.
15. The Trust may by notice, in writing, intimate to any owner or occupier using water for other than domestic purposes solely that the water supplied is to be charged by measure, and may by such notice require such owner or occupier to provide a meter within fourteen days after the receipt of such notice; and thereupon such owner or occupier shall, within the time specified, at his own expense, provide a meter.
16. No meter shall be affixed until it shall have been examined and approved, and a certificate from the Board of Works or other authorized person be produced for the inspection of the secretary of the Trust for the time being that such meter is in proper order.

19. If any person refuse or delay to have such meter properly repaired and put in correct working order after having been required by any officer of the Trust so to do, the Trust may shut off the supply of water from the premises of such person, either by cutting the service-pipe or otherwise, until such meter shall have been properly repaired and certified by some officer of the Trust as being in proper working order.
20. Any person supplied with water by the Trust who shall wilfully or negligently allow the same to run to waste, or who shall use or allow the water to be used in an unauthorized manner, or who is in arrears with the payment of his water rate, the Trust may, after one hour's notice, cut off the supply of water from the premises of such person either by cutting the pipes by or through which the water is supplied or by any other means that are available, and may cease to supply such premises with water so long as the Trust may think fit.
21. It shall be lawful for any person appointed by the Trust for such purpose to request permission from any owner or occupier to make an inspection of the water service to ascertain if the water is being allowed to run to waste, and, if such

occupier or owner refuse permission for such inspection, the Trust may, if it think fit, refuse to supply such premises with water; and such refusal on their part will in no way relieve the owner or occupier from payment of any rate or rates as may be levied on such property.

22. If the person appointed for such inspection shall ascertain that any owner or occupier is allowing water to waste by reason of leaky taps or otherwise, he shall be empowered to authorize the repair of such taps or pipes and to notify such owner or occupier that the waste of water must at once cease.

23. No person shall affix any service-pipe to any pipe of the Trust, or alter or repair or in any way interfere with any pipe of the Trust or any service-pipe, cock, or fitting connected with the pipes of the Trust until he shall have obtained from the Trust permission to execute such works, and such permission shall be at and during the pleasure of the Trust, who may at any time cancel such permission.

24. Any person; whether licensed or permitted as aforesaid or not, who shall require to affix any service-pipe to any pipe of the Trust, or to make any repairs to pipes under the control of the Trust, shall give notice to the secretary of his intention so to do.

25. All connexions from the Trust mains to property shall be made at the expense of the owner or occupier of the property to be supplied, and all repairs or renewals shall, when necessary, be made by the owner or occupier, and such pipes shall at all times be under the control of the Trust.

26. All connexions, pipes, and fittings shall be of the best quality, and approved by the secretary and chairman of the Trust.

27. The service-pipes from the main being the property of the owner or occupier of the tenements supplied by such service-pipes, the occupier (if any), and, if none, the owner, shall, upon receiving notice that his service-pipe requires repairing, immediately proceed to repair the same, and he shall be responsible for any loss of water or other damage which shall be caused by reason of such service-pipe being leaky or otherwise out of repair or broken, and the Trust may stop the water from flowing into such premises in any way it may seem fit until such repairs have been effected.

28. Fire plugs shall not be used except for the purpose of extinguishing fires unless any other use of them be allowed by the Trust, and they shall at all times be under the control of an officer of the Trust.

29. Any person watering any street or footpath by means of a hose except under the direction of an officer of the Trust shall be guilty of an offence against these Regulations.

30. For any breach of these Regulations a penalty not exceeding Five pounds (£5) shall be imposed.

31. The above-mentioned rate is made for one year, commencing on the 1st day of January, 1920, and ending on the 31st day of December, 1920, and shall be payable in two instalments; the first instalment shall be due and payable on the 1st day of May, 1920, and the second instalment on the 1st day of November, 1920. Such person or persons as the Commissioners of the Ballan Waterworks Trust may from time to time appoint for that purpose shall be authorized to demand and receive and collect and recover the said rate.

Rating By-law for 1920.

The following are the rates and charges which the occupiers or owners of lands and tenements liable to be rated shall pay for the year 1920, in respect of water supplied by the said Trust within the Urban District:—

(8) For every water trough, a charge of Twenty (20) shillings shall be made; but on unoccupied lands, if the owner or occupier desires a trough, his rate payment shall be reckoned part of that One pound (£1).

NOTES.

- (1) None of these blocks will be allotted until applications are in hand sufficient to justify the Commission in allotting the whole of the land.
- (2) Each lease will contain a special provision combining the successful applicants dry block with the irrigable block now held by him, the two blocks to be treated as one holding and not to be separately negotiable.
