THE Chairman and Commissioners of the Hamilton Waterworks Trust, the Waterworks District of which has been proclaimed an Urban District for the purposes of the Water Acts, do hereby, pursuant to and in exercise of the powers and authorities conferred by such Acts, make the following By-law, viz. :—

By-law No. 22.

The following are the rates and charges which the occupiers or owners of lands and tenements liable to be rated or other persons shall pay for the year 1925 in respect of water supplied by the Trust in the said Urban District :—

1. For every house or other tenement fronting any street wherein the water pipes of the Trust have been laid, and not being occupied land, a rate of Two shillings in the pound on the amount of the municipal valuation of such house or other tenement, and the land, if any, valued therewith shall be paid, the minimum amount to be so paid to be Twenty shillings. In cases where water is supplied to land upon which there is no building, the rate shall be Two shillings in the pound, according to the municipal valuation of such land. In no case, however, shall a rate of less than Ten shillings (10s.) be paid.

2. For land upon which there is no building, and to which water is not laid on, but which land fronts any street wherein water pipes of the Trust have been laid, the rate shall be Two shillings (2s.) in the pound on the amount of the municipal valuation thereof. In no case, however, shall a rate of less than Ten shillings be paid.

3. For houses proved to the satisfaction of the Trust to have remained unoccupied for a period of not less than six calendar months, the rate per house shall be two-thirds of the amount which would be payable (half-yearly in advance) if such house had not been so unoccupied; but in no case shall the rate be less than Thirteen shillings.

4. The foregoing rates are hereby made payable half-yearly in advance, one moiety on the 1st January, 1925, and one moiety on the 1st July, 1925.

5. For water supplied for domestic or other than domestic purposes by the Trust by measure the charge shall (except where otherwise agreed by the Trust, and save as hereinafter provided in the By-law) be One shilling and sixpence (1s. 6d.) per 1,000 gallons up to such quantity as would be equal to the amount of the assessed rate payable in respect of the premises so supplied; and for all water consumed in excess of such quantity a charge of Two shillings per 1,000 gallons shall be made.

6. The charge for private water troughs shall be Twenty shillings per annum (to include water rate payable when the value of the property on which such trough is situated does not exceed Ten pounds). When such rate exceeds Ten pounds there shall be no charge additional to the rate assessed on the property except where, in the opinion of the Trust, a meter is necessary or advisable, in which case the consumer shall be charged and must pay at the rate charged for water supplied by measure. The minimum charge shall be Twenty shillings.

7. Water supplied to public gardens and parks shall be charged for by measurement at Sixpence per 1,000 gallons, and water supplied to show grounds, old cricket ground, and bowling green shall be charged for by measurement at One shilling and sixpence per 1,000 gallons; any quantity supplied in excess of the full measure of a unit of 1,000 gallons shall be charged for as 1,000 gallons. 9. For the supply of water during the erection of a new building or alterations to or additions to existing buildings the charge shall be, for a stone or brick building, Five shillings per centum on the cost of the stone or brick building, including plastering, or the same shall be fixed by agreement with the Trust. For the supply of water for the erection of a wooden building with plastered walls, the charge shall be Two shillings and sixpence for each room or passage and Five shillings for each chimney. For a supply of water for wooden buildings where no plaster is used, the charge shall be Five shillings for each chimney in such building. All payments shall be made in advance. No person shall take or use any water for or in connexion with the erection of any new buildings or alterations to or additions to existing buildings till he has obtained the receipt of the Trust's officer for payment of the amount payable for the use of such water, or the consent in writing of the Trust or its officer. Any persons offending against the provisions thereof shall be liable to a penalty not exceeding Five pounds for such offence. All charges shall be additional to all rates or other charges payable by the owner or occupier of the premises upon which the building is being erected, and shall in the first instance be payable by the builder or contractor, and if unpaid by the builder or contractor shall be charged to and paid by the owner of the premises whereon such building is being erected; but such charge to the owner shall not prejudice the right of the Trust to proceed at its option against either the builder or the contractor or the owner or occupier for the amount payable.

10. The occupier of two or more tenements liable to be rated, one of which is supplied with water by measure, shall be entitled on the payments of the rates on such tenements respectively, to use without further charge such a quantity of water by meter as shall not exceed at the current charge for water supplied for domestic purposes by measure the amount of such rates, provided that the tenement or tenements if not supplied by measure shall not be connected with the pipes of the Trust. No water shall be supplied to any such engine or boiler until a meter shall have been affixed to the supply pipe of such engine or boiler to the satisfaction of the engineer of the Trust, and no water will be supplied to any engine unless such engine is fitted with mechanical appliances to circulate and re-use the water to the satisfaction of the Trust's officer.

12. The minimum quantity of water to be charged for half-yearly in each case where water is supplied by measure other than domestic purposes shall (except where otherwise provided or implied in this By-law) may be 10,000 gallons, and such water shall (where it is not otherwise provided herein in this By-law or otherwise specially agreed by the Trust) be charged at the rate of Two shillings per 1,000 gallons.

13. Supplies of water for purposes not specified herein are to be paid for at such charges as the Trust shall in each case determine, and the preliminary payments appointed by the Trust on account of such charge shall be made at the office of the Trust before a supply shall be taken or used.

14. Such person or persons as the Commissioners of the Hamilton Waterworks Trust may from time to time appoint for the purpose shall be authorized to demand, receive, collect, and recover the rates and charges aforesaid and each of them.

15. In construction of this By-law the word "person" shall be deemed to extend to and include a corporation, whether aggregate or sole, and the word "Trust" shall mean the "Hamilton Waterworks Trust."
