11. The allowance of £4 per annum for school requisites on behalf of holders of Junior and of Teaching scholarships attending district high schools and higher elementary schools and of holders of Junior Technical scholarships is payable to the head-master at the beginning of the school year. The head-master should, early in the first term, submit a claim for the allowance on the prescribed amount form. As soon as he receives the allowance, he should purchase the necessary school-books, &c., and supply them to the scholarship holders concerned. He should keep a book showing how he expends the allowance in each case. If, after payment of money for school-books, games, &c., there should remain any balance from the £4, such balance should be paid by the head-master to the scholarship holder or to his parent or guardian at the end of the year; but, if the holder resigns his scholarship before the end of the year, the balance should be returned at once to the Department.

#### Examination Fees.

12. Each candidate for a Junior, a Teaching, or a Junior Technical scholarship is required to pay, at the time of application, an entry fee of Two shillings and sixpence. A candidate for one of these scholarships may obtain a list of the marks gained by him in each subject of the examination on payment of an additional fee of Two shillings and sixpence.

13. Candidates for Senior scholarships under clause 7 (a) are not required to pay any fee; but each candidate under clause 7 (b) only is required to pay to the University of Melbourne a fee at the rate of Five shillings per subject where such subject is taken solely for the purpose of the examination for Senior scholarships. In the case of a candidate who enters for a subject or subjects of the School Leaving Certificate examination (honors standard) and pays the ordinary fee, no extra fee is charged in respect of such subject or subjects if taken also for the purpose of the examination for Senior scholarships.

#### Senior Scholarships.

14. The approved course of study mentioned in clause 9 must qualify for matriculation by the end of the year in which the candidate competes for a Senior scholarship. Except in special cases where a modification is required in the interests of a candidate's future work at the University, this course must include, in the first year (that is, the year preceding that in which the candidate competes for a Senior scholarship), at least two subjects (pass standard) of the School Leaving examination and either three subjects; not previously passed, of the School Intermediate examination or two other subjects of higher standard, and, in the second year (that is, the year in which the candidate competes for a Senior scholarship), four subjects of the School Leaving examination of which three must be of honors standard. If the fourth subject of the second year of the course (i.e., the subject not being taken at the competitive examination for Senior scholarships) is not of School Leaving honors standard or is not being taken for the first time, it must be of a higher standard than previously taken. The condition that candidates must make satisfactory progress in the fourth subject must be strictly observed. The principal or head-master should submit early in the first term of each year a list, on a prescribed form, of the pupils of his school who intend to compete for Senior scholarships at the examination in the following December, together with a statement showing when the pupil passed the School Intermediate examination and also the course of study (including University Public examination results) taken during the preceding two years and that proposed to be taken during

the current year. The school examination papers of candidates in the second year of the course should be preserved for reference. In the case of each candidate, the principal or headmaster should forward, not later than the third Monday in December, a complete copy of the questions set at the last school examination in the fourth subject (i.e., the subject not being taken at the competitive examination for Senior scholarships) of the second year of the course, together with the number of marks allotted for each question or part of a question. The candidate's answers to these questions, the number of marks obtained by the candidate in each question or part of a question, and the total number of marks obtained in the subject should also be forwarded. The packet containing these examination papers and particulars should also include a list showing the name of each candidate concerned, together with the name of the fourth subject of study. If the candidate has also entered for the University Public examination in the fourth subject, a notification to this effect together with the candidate's number should also be forwarded. The packet should be endorsed with the name of the school and the words "Examination for Senior Scholarships—Fourth Subject."

15. Holders of Senior scholarships who desire to attend a district high school or a registered secondary school for another year before entering upon their course at the University of Melbourne may receive the Minister's authority for suspension, provided that they will not be more than 18½ years of age on the first day of January of the year in which they propose to enter upon their course at the University.

16. As a general rule, a Senior scholarship is not tenable in more than one course of study, and expires as soon as the holder completes the final year of the course upon which he entered at the University when he was awarded the scholarship. Exceptions to this rule are the following cases:—

- (a) A holder who has completed the course for the degree of Bachelor of Arts or Bachelor of Science may have his scholarship continued for a fourth year to enable him to qualify for the Diploma of Education.
- (b) A holder who has completed the course for the degree of Bachelor of Science may have his scholarship continued for a fourth year to enable him to qualify for the Diploma of Analytical Chemistry or for the degree of Master of Science.

If a holder desires to have his Senior scholarship continued for the purpose of completing one of these additional courses, he should notify his desire at the commencement of his scholarship; and, as soon as he has completed the course for the degree of Bachelor of Arts or Bachelor of Science, forward an application, stating full particulars, for the necessary permission.

#### Junior Technical Scholarships.

17. Winners of Junior Technical scholarships must be prepared to complete the full course of study prescribed for them, and will not be allowed to compete for Junior or Teaching scholarships.

#### Senior Technical Scholarships.

18. One of the conditions under which Senior Technical scholarships in evening courses are tenable is that the holder shall be in regular employment in the same kind of work as that in which the scholarship is granted. In the event of any of these scholarship holders failing to satisfy this condition, the Principal of the technical school should at once notify the Department.

19. In cases where holders of Senior Technical scholarships in evening courses change their employment, the Principal of the technical school should at once notify the Department.

20. A Senior Technical scholarship is not tenable in more than one course of study and expires as soon as the holder completes the final year of the course in which he was originally awarded his scholarship.

21. As a general rule, a holder, in order to have his Senior Technical scholarship continued each year, must complete all necessary examinations during each year of his course.

22. The courses approved for the purpose of Senior Technical scholarships tenable at technical schools are as follow:—

If a student is in need of assistance, he should apply to the Registrar of the University for a loan out of the fund.
