At the Law Courts, Melbourne, the eleventh day of

PRESENT:

The Honorable Sir William Hill Irvine, Lieutenant-Governor

Mr. Eggleston
Mr. Downward

Colonel Bouchier.

WHEREAS by the Factories and Shops Acts it is enacted that the Governor in Council may, by Order published in the *Government Gazette* from time to time, make, alter, and revoke Regulations for the purpose therein mentioned, and generally for carrying into effect the provisions of the said Acts: Now therefore the Lieutenant-Governor, as Deputy for His Excellency the Governor of Victoria, by and with the advice of the Executive Council thereof, doth by this Order revoke the Regulations for granting certificates to engine-drivers and boiler attendants made on the sixth day of June, 1922, under the provisions of the Factories and Shops Acts, and doth make the following Regulations in lieu thereof, that is to say:—

CHAPTER V.

The Granting of Certificates to Engine-drivers and Boiler Attendants
by the Board of Examiners for Engine-drivers.

EXAMINATIONS.

1. Examinations will be conducted at such times and places as may from time to time be notified in the *Government Gazette*, and in a newspaper or newspapers published or circulated in the locality, and candidates will be examined according to priority of receipt of notice required by clause 2.

PRELIMINARY REQUIREMENTS.

2. Each applicant for a certificate must forward to the Secretary for Mines, Melbourne, notice, in writing, of his intention to present himself for examination, such notice to be given not less than seven clear days prior to the date of examination.

The notice must be accompanied by cash, post-office order, or postal note, to the value of 10s., together with the documents as prescribed by these Regulations.

Should the applicant pass the prescribed examination the deposit shall, in each instance, go towards payment of the fee for certificate; in the event, however, of the failure of the candidate to attend the examination without a reason satisfactory to the Board or to pass the examination, such amount shall be forfeited and paid to the Consolidated Revenue.

3. A candidate must, if possible, produce original testimonials or certificates, signed by his employers, and if required by the Board, signed by the engine-driver whom he has been assisting, or by the principal of the educational institution where he has been receiving instruction, and such documents must specify clearly and distinctly the class of steam-engines he has driven, or assisted to drive, or class of steam boilers he has attended or assisted to attend. The diameter of the cylinders of the steam-engines driven must be stated on the testimonials. In cases where a candidate is unable, from any sufficient cause, to produce testimonials from his employers, or from the engine-driver whom he has been assisting, or from the principal of the educational institution where he has been receiving instruction, the Board may accept a statutory declaration or other sufficient proof that such candidate drove or assisted to drive a steam-engine or engines for a period of twelve months, or attended, or assisted to attend, a steam-boiler or boilers for a period of six months, as evidence of his having had the necessary experience to entitle him to be examined.

4. Every candidate for a certificate of competency or service must satisfy the Board that his knowledge of the English language is sufficient to enable him to perform the duties required as the holder of a certificate, and shall—

- (a) make a statutory declaration that the testimonials or certified copies thereof he produces are genuine and true and correct in every particular, such declaration and testimonials or certified copies thereof to be presented to and retained by the Board;
- (b) produce written evidence of character;
- (c) produce evidence that he is not subject to any mental or bodily infirmity likely to interfere with the efficient discharge of his duties;
- (d) state his full name, also the place and date of his birth, which shall be inserted in any certificate issued to him; and
- (e) prior to his examination for a certificate of a higher class, produce any certificate issued to him under these Regulations, such latter certificate to be surrendered to the Board in the event of the higher class one being granted.

5. If a candidate fails to pass the examination prescribed he shall not again present himself until a period of not less than three months shall have elapsed from the date of his last examination.

Fees to be Charged.

6. The fees to be paid for certificates shall be—

	£	s.	d.
For a 1st class certificate of competency as an engine-driver	1	5	0
For a 2nd class certificate of competency as an engine-driver	1	0	0
For a 3rd class certificate of competency as an engine-driver	1	0	0
For any certificate of service as an engine-driver	1	0	0
For a certificate of competency or of service as a boiler attendant	0	10	0
For a copy of any certificate (if lost)	0	10	0
For a certificate of registration issued under clause 29 of these Regulations	0	10	0
For alteration of a 1st class non-condensing certificate to an open certificate	0	10	0

No certificate shall be issued until full payment of the fee required shall have been made to the Secretary for Mines.

CERTIFICATE OF COMPETENCY TO DRIVE STEAM-ENGINES.

1st Class Certificate.

7. A 1st class certificate shall entitle the person to whom it is issued to drive any steam-engine in or in connexion with a factory, unless such certificate be qualified as provided for in clause 16.

8. An applicant for a 1st class certificate must, except as hereinafter provided, produce to the Board satisfactory evidence—

- (a) (1) that he has been the holder of a 2nd class certificate under the Factories and Shops Acts, a 3rd class certificate under the Mines Acts, or a corresponding certificate issued in any other State of the Commonwealth or New Zealand, for a period of not less than twelve months, and that he has during that period had charge of and driven for a period of not less than six months and for at least twelve hours per week a steam-engine of a class which he, as the holder of one of such certificates, is entitled to drive, or that he has had at least twelve months' experience in assisting to drive a 1st class steam-engine for at least twelve hours per week; or
- (2) that he has been in charge of and has efficiently managed and driven a steam-engine the cylinder of which is more than 12 inches in diameter, or a double-cylinder steam-engine the cylinders of which have a combined area equal to that of a single cylinder of more than 12 inches in diameter for a period of not less than 12 months, and for at least 24 hours per week; or
- (3) that he has served an apprenticeship to an engineer for five years, and during the period of his apprenticeship has been employed in the making or repairing of steam-engines, or, if he has not served such apprenticeship, that for not less than five years he has been employed as journeyman mechanic in some factory in the making or repairing of steam-engines, and in either case that he has had not less than six months' experience and for at least twelve hours per week in assisting to drive a steam-engine the cylinder of which is more than 12 inches in diameter, or a double-cylinder engine the cylinders of which have a combined area equal to that of a single cylinder of more than 12 inches in diameter; or

- (4) That he has been the holder of a 2nd class certificate under the Factories and Shops Act for a period of twelve months, and that he has had not less than six months' instruction in assisting to drive a 1st class engine actually under steam for at least twelve hours per week or an aggregate minimum period of 300 hours at any educational institution approved by the Board; or
- (5) that he holds the Naval rating of stoker petty officer, leading stoker, or chief stoker; a certificate of service with character and ability assessed as "Very Good" and "Satisfactory" respectively; a certificate that he has passed through a three months' mechanical training course; and an auxiliary watch certificate; and
- (b) that he is at the date of examination not under the age of nineteen (19) years nor over the age of fifty (50) years. The latter age not to apply to persons who had experience in driving steam-engines previous to their attaining the age of fifty (50) years.

In addition to producing this evidence the applicant must pass an examination as to the construction of the various steam-engines, steam-boilers, and their accessories, in general use, and as to the details of different working parts, external and internal, and the use of such parts, and be able to explain how to correct defects, and what action is necessary in the ordinary emergencies which may arise in connexion with steam-engines and steam-boilers.

9. A 1st class certificate will be granted to a candidate who satisfies the Board by the production of his certificate that he has passed an examination equivalent to the examination of a 1st class certificate of competency under these Regulations before some authority recognised by the Governor in Council for that purpose in accordance with the Factories and Shops Acts (see clause 19).

2nd Class Certificate.

10. A 2nd class certificate shall entitle the person to whom it is issued to drive any steam-engine in or in connexion with a factory, the cylinder of which does not exceed 12 inches in diameter, or a double-cylinder steam-engine, the combined area of the cylinders of which does not exceed that of a cylinder 12 inches in diameter, unless such certificate be qualified as provided for in clause 16.
