BY-LAW No. 276.

THE VICTORIAN RAILWAYS COMMISSIONERS in pursuance of the powers conferred in that behalf under the provisions of the Railways Acts do hereby make the following By-law and do hereby repeal so much of the provisions of all previous By-laws as conflicts therewith:—

Unauthorized Reservation of Seats in Trains.—When a seat in a carriage or other vehicle is in fact unoccupied and has not been personally appropriated by any person for his own use a person shall not—

- (a) by means of any false verbal representation; or
- (b) by placing any article of any kind upon or about the seat; or
- (c) by means of any act or device which is calculated to deceive; or
- (d) by means of any other false pretence of any kind

deceive or attempt to deceive another person into the belief that a third person has in fact personally appropriated the seat for his own use.

Any person guilty of a breach of this By-law shall be liable to a penalty not exceeding Two pounds.

In witness whereof the Common Seal of the Victorian Railways Commissioners was affixed hereto this 2nd day of December, in the year of our Lord One thousand nine hundred and twenty-five, in the presence of—

(SEAL) HAROLD W. CLAPP, } Victorian
 W. M. SHANNON, } Railways
 T. B. MOLOMBY, } Commissioners.

Confirmed by the Governor in Council,
the 7th day of December, 1925.

F. W. MABBOTT,
Clerk of the Executive Council.

Local Government Act 1915.

SHIRE OF WERRIBEE.

PROPOSED SEVERANCE FROM SHIRE OF WERRIBEE AND
ANNEXATION TO CITY OF WILLIAMSTOWN.

IN pursuance of the provisions of the *Local Government Act* 1915 (No. 2686, section 46), the substance and prayer of a petition in accordance with the 36th and 44th sections of the said Act, which has been presented to His Excellency the Governor in Council, are published, viz:—

The petitioners purport to constitute a majority of the rate-payers in the portion of the Shire of Werribee described in the petition, and they desire that the area so described may be severed from the Shire of Werribee and annexed to the City of Williamstown.

Area Described in Petition.

Commencing at the intersection of the shore of Port Phillip Bay with the southern boundary of Crown portion seven, Parish of Deutgam; thence westerly to the western boundary of Crown allotment three, section six; thence northerly to the Geelong railway line; thence north-east along the railway line to the Kororoit Creek; thence northerly along the creek to the southern boundary of Crown allotment A, section four, Parish of Cut-Paw-Paw; thence easterly along the southern boundary of the said Crown allotment and a direct line to the boundary of the City of Williamstown at the east boundary of Crown

allotment B, section six; thence southerly along the Williamstown boundary to Port Phillip Bay; thence along the shore of Port Phillip Bay to the commencing point.

The petitioners state that—

- (1) A large portion of the area has been subdivided and settled as a suburban area, and it is the natural position for the expansion of the City of Williamstown.
- (2) The area is rapidly becoming entirely a residential area.
- (3) The area is immediately adjacent to the City of Williamstown, and is distant 15 miles from the Town of Werribee.
- (4) There is no direct means of communication between the area and the Town of Werribee, the only means being via Newport, whereas there is both railway and road access to the City of Williamstown.

The petitioners therefore humbly pray that His Excellency the Governor in Council may be pleased to sever the area above described from the Shire of Werribee, and annex such area to the City of Williamstown.

Notices for the petitioners may be served on Messrs. Crisp and Crisp, solicitors, 314 Collins-street, Melbourne.

GEO. L. GOUDIE,
Commissioner of Public Works.

MELBOURNE AND METROPOLITAN BOARD OF WORKS.

The following Notice was gazetted 1^o on 2nd December, 1925.

NOTICE is hereby given that, after the publication of this advertisement in four consecutive ordinary numbers of the Government Gazette and in four numbers of one of the daily newspapers published in the metropolis, the Melbourne and Metropolitan Board of Works will proceed to compulsorily take (unless the same is in the meantime acquired by the Board from the owner or owners or other persons interested by mutual agreement) the land mentioned and described below.

The nature of the works in respect of which the land is proposed to be taken is the construction, laying and maintenance of a water main and pipe line, and other incidental works in connexion with the general water supply to the metropolis, as more fully appears on the plan of the proposed works hereafter mentioned.

A plan of the proposed works will be open for inspection at the offices of the Board, 110 Spencer-street, Melbourne, from the date hereof until the 24th day of December, 1925, during office hours.

The quantity of land which the Board requires for the purpose of such works and other particulars are set forth below.

The consent of the Governor in Council was duly obtained in terms of the Board's Principal Act (No. 2696), on the 16th November, 1925.

STATE RIVERS AND WATER SUPPLY COMMISSION.

THE following By-laws made by the State Rivers and Water Supply Commission were approved by the Governor in Council on the 15th day of December, 1925.

F. W. MABBOTT,
Clerk of the Executive Council.

BY-LAW No. 1644.—GENERAL RATE.—EUREKA WATERWORKS DISTRICT.

THE State Rivers and Water Supply Commission, in pursuance and exercise of the powers conferred by the Water Acts, doth hereby make the By-law following:—

1. All previous By-laws and Regulations relating to the subject-matter herein shall be and the same are hereby revoked, but not so as to relieve, discharge, or absolve any person from liability to pay any rate or charge made in accordance with the provisions of the revoked By-laws or Regulations for payment of which rate or charge such person may have become liable prior to or at the date of this By-law coming into operation; or to abrogate or diminish the power of the said Commission to recover and enforce payment of any such rate or charge, or to annul or stay any proceedings taken or business initiated as in conformity with the provisions of the By-laws or Regulations hereby revoked prior to the date of this By-law coming into operation, but the same respectively may be contained and carried to completion.

2. The following general rate is hereby made under the provisions of the Water Acts, and shall be levied upon the occupiers or owners of all lands within the Eureka Waterworks District, except within the Urban District thereof:—

For the supply of water for the domestic and ordinary use of persons dwelling upon such lands, and for watering cattle or other stock:—

- (1) Of all lands in the First Division, as shown coloured red on a plan signed and sealed by the Commission, and lodged at the office of such Commission at Melbourne, and authenticated copies of which are also lodged at the office of the Commission at Birchip, and the Post Office at Chinkapook—a rate of Forty-eight pence in the pound of the rateable value of such lands, with a minimum amount of rate in respect of such lands of Eighteen pounds thirteen shillings and fourpence for each holding of six hundred and forty acres in extent, and with a proportionate sum as a minimum for any holding of a greater or less area.
- (2) Of all lands in the Second Division, as shown coloured green on the aforesaid plan—a rate of Twenty-four pence in the pound of the rateable value of such lands.
- (3) Of all lands in the Third Division, as shown coloured brown on the aforesaid plan—a rate of Twelve pence in the pound of the rateable value of such lands.

3. Such rate is made and shall be levied for the year beginning with the 1st day of July, 1925, and ending with the 30th day of June, 1926, and shall be payable on the 18th day of December, 1925, at the office of the said Commission, at Birchip.

4. Such person or persons as the said Commission may from time to time appoint for that purpose shall be and is or are hereby authorized to demand, receive, collect, and recover the said rate.

5. For making and levying such rate the value of the lands set out in the valuation made, in accordance with the provisions of the *Water Act* 1915, by Frank Bassett, valuer, returned on the 6th day of November, 1925, and adopted by the said Commission on the 9th day of November, 1925, shall be deemed and taken to be the rateable value of such lands unless altered or amended as provided by the *Water Act* 1915, and if so altered or amended then the net annual value of such lands set out in such altered or amended valuation.

The foregoing By-law was made by the State Rivers and Water Supply Commission on the 7th day of December, 1925, and the common seal of the said Commission was hereunto affixed the 9th day of December, 1925, in the presence of—

(SEAL) WM. CATTANACH, Chairman.
J. S. DETHRIDGE, Commissioner.
E. SHAW, Commissioner.

RATE AND CHARGE FOR WATER SUPPLIED.—BY-LAW No. 1645.—STANHOPE URBAN DIVISION WITHIN THE STANHOPE IRRIGATION AND WATER SUPPLY DISTRICT.

THE State Rivers and Water Supply Commission, in pursuance and exercise of the powers conferred by the Water Acts, doth hereby make the By-law following:—

1. All previous By-laws and Regulations relating to the subject-matter herein shall be and the same are hereby revoked, but not so as to relieve, discharge, or absolve any person from liability to pay any rate or charge made in accordance with the provisions of the revoked By-laws or Regulations for payment of which rate or charge such person may have become liable prior to or at the date of this By-law coming into operation; or to abrogate or diminish the power of the said Commission to recover and enforce payment of any such rate or charge, or to annul or stay any proceedings taken or business initiated as in conformity with the provisions of the By-laws or Regulations hereby revoked prior to the date of this By-law coming into operation, but the same respectively may be continued and carried to completion.

2. The following rates for the supply of water for domestic purposes otherwise than by measure are hereby made, and shall be levied upon the occupiers or owners of lands and tenements within the Stanhope Urban Division within the Stanhope Irrigation and Water Supply District.

- (1) Of any tenement (other than land on which there is no building) situate in a street in which a pipe for the supply of water has been laid down—A rate of Forty-eight pence in the pound of the valuation of such tenement. Provided that the rate for the supply of water as aforesaid to such tenement shall not be less than the sum of Seventy shillings per year.
- (2) Of lands on which there is no building situate in a street in which a pipe for the supply of water has been laid down—a rate of Forty-eight pence in the pound of the valuation of such lands. Provided that the rate for the supply of water as aforesaid to such lands shall not be less than the sum of Twenty shillings per year.
- (3) Of any tenement or land on which there is no building situate otherwise than in a street in which a pipe for the supply of water has been laid down, and which tenement or land is not supplied with water by reticulation from such pipe, and being within a quarter of a mile of any stand-pipe for the supply of water—One-half of the before-mentioned rates; and where such tenement or land is over a quarter of a mile from such stand-pipe and within half a mile thereof—One-fourth of the before-mentioned rates.

3. Such rates are made and shall be levied for the year beginning with the 1st day of July, 1925, and ending with the 30th day of June, 1926, and shall be payable on the 18th day of December, 1925, at the office of the said Commission, at Tongala.

4. For making and levying such rates the valuation for the time being of such lands and tenements for the municipal rate of the municipality in the municipal district of which such lands and tenements are situate, shall be deemed and taken to be the valuation of such lands and tenements respectively; but if any of such lands and tenements are not included in a valuation in force for the municipality in whose district they are situate, or if there is no such valuation, the net annual value thereof may for all the purposes of such rates be determined by a police magistrate.

5. For water supplied by the Commission for domestic as well as for other than domestic purposes by measure (except in cases of special agreement with the Commission) the minimum quantity of water to be charged for in respect of all lands and tenements shall be the quantity for which the charge at Fifteen pence per 1,000 gallons would be equal to the amount of the rate which would be payable for the lands and tenements so supplied if supplied otherwise than by measure. All water supplied by measure by the Commission in excess of such aforesaid quantity shall be charged for at the rate of Fifteen pence per 1,000 gallons.

6. Such person or persons as the State Rivers and Water Supply Commission may from time to time appoint for that purpose shall be and is or are hereby authorized to demand, receive, collect, and recover the said rates and charges for water supplied.

The foregoing By-law was made by the State Rivers and Water Supply Commission on the 7th day of December, 1925, and the common seal of the said Commission was hereunto affixed the 9th day of December, 1925, in the presence of—

(SEAL) WM. CATTANACH, Chairman.
J. S. DETHRIDGE, Commissioner.
E. SHAW, Commissioner.

DEVENISH WATERWORKS TRUST.

RATING BY-LAW FOR DEVENISH WATERWORKS TRUST FOR 1925.

By-law No. 1.

THE Chairman and Commissioners of the Devenish Waterworks Trust, in pursuance of the powers conferred by the Water Acts, do hereby make the following By-law.

The following rates and charges are those which the occupiers and owners of lands and tenements liable to be rated shall pay for the year 1925, in respect of water supplied by the Trust within the Urban District of Devenish, as such District has been proclaimed and defined:—

1. A rate of One shilling and sixpence in the pound sterling on the annual municipal value of all rateable property valued at Twenty-six pounds and upwards.
2. In respect of properties the annual municipal value is less than Twenty-six pounds, upon which are houses and tenements used wholly or partly as domiciles, a rate of One pound thirteen shillings and fourpence.
3. A rate of Three shillings and fourpence upon each allotment or piece of land vacant or not built upon.
4. For water supplied by measure from the works of the Trust, Two shillings and sixpence for every one thousand gallons, provided that the minimum charge would not be less than the assessed rate which would be payable for the premises so supplied if supplied otherwise than by measure (and except in cases where the Trust has made special arrangements).
5. For every water trough supplied with water from the works of the Trust, the sum of Two pounds.
6. A minimum of Ten shillings and a maximum of Two pounds for every person using a hose for garden or stable watering during the year.
7. Such rates and charges are hereby made payable in advance on the first day of December, 1925.
8. Such person or persons as the Commissioners of the said Trust may from time to time appoint are hereby authorized to demand, collect, and recover the said rates and charges.

The foregoing By-law No. 1 was made by the Chairman and Commissioners of the Devenish Waterworks Trust the fourteenth day of October, 1925.

The seal of the Trust was hereto affixed this 24th day of November, 1925, in the presence of—

(SEAL) JAMES DAY, Chairman.
FRANK WOODS, Commissioner.
T. KELLY, Secretary.

HAMILTON WATERWORKS TRUST.

RATING BY-LAW FOR 1926.

THE Chairman and Commissioners of the Hamilton Waterworks Trust, the Waterworks District of which has been proclaimed an Urban District for the purposes of the Water Acts, do hereby, pursuant to and in exercise of the powers and authorities conferred by such Acts, make the following By-law, viz.:—

By-law No. 23.

The following are the rates and charges which the occupiers or owners of lands and tenements liable to be rated or other persons shall pay for the year 1926 in respect of water supplied by the Trust in the said Urban District:—

1. For every house or other tenement fronting any street wherein the water pipes of the Trust have been laid, and not being occupied land, a rate of Two shillings in the pound on the amount of the municipal valuation of such house or other tenement and the land, if any, valued therewith shall be paid, the minimum amount to be so paid to be Twenty shillings. In cases where water is supplied to land upon which there is no building, the rate shall be Two shillings in the pound, according to the municipal valuation of such land. In no case, however, shall a rate of less than Ten shillings (10s.) be paid.
2. For land upon which there is no building and to which water is not laid on, but which land fronts any street wherein water pipes of the Trust have been laid, the rate shall be Two shillings (2s.) in the pound on the amount of the municipal valuation thereof. In no case, however, shall a rate of less than Ten shillings be paid.
3. For houses proved to the satisfaction of the Trust to have remained unoccupied for a period of not less than six calendar months, the rate per house shall be two-thirds of the amount which would be payable (half-yearly in advance) if such house had not been so unoccupied, but in no case shall the rate be less than Thirteen shillings.
4. The foregoing rates are hereby made payable half-yearly in advance, one moiety on the 1st January, 1926, and one moiety on the 1st July, 1926.
5. For water supplied for domestic or other than domestic purposes by the Trust by measure, the charge shall (except where otherwise agreed by the Trust, and save as hereinafter provided in the By-law), be One shilling and sixpence 1s. 6d. per 1,000 gallons up to such quantity as would be equal to the amount of the assessed rate payable in respect of the premises so supplied; and for all water consumed in excess of such quantity a charge of Two shillings per 1,000 gallons shall be made.
6. The charge for private water troughs shall be Twenty shillings per annum (to include water rate payable when the value of the property on which such trough is situated does not exceed Ten pounds). When such rate exceeds Ten pounds there shall be no charge additional to the rate assessed on the property except where, in the opinion of the Trust, a meter is necessary or advisable, in which case the consumer shall be charged and must pay at the rate charged for water supplied by measure. The minimum charge shall be Twenty shillings.
7. Water supplied to public gardens and parks shall be charged for by measurement at 6d. per 1,000 gallons, and water supplied to show grounds, old cricket ground, and bowling green shall be charged for by measurement at One shilling and Sixpence per 1,000 gallons; any quantity supplied in excess of the full measure of a unit of 1,000 gallons shall be charged for as 1,000 gallons. All water so supplied must be through a meter and paid for half-yearly.
8. The charge for water supplied from any stand-pipe or hydrant shall be Sixpence for any quantity up to 200 gallons, and Sixpence for each additional 200 gallons or portion of 200 gallons.
9. For the supply of water during the erection of a new building or alterations to or additions to existing buildings, the charge shall be, for a stone or brick building, Five shillings per centum on the cost of the stone or brick building, including plastering, or the same shall be fixed by agreement with the Trust. For the supply of water for the erection of a wooden building with plastered walls, the charge shall be Two shillings and sixpence for each room or passage, and Five shillings for each chimney. For a supply of water for wooden buildings where no plaster is used, the charge shall be Five shillings for each chimney in such building. All payments shall be made in advance. No person shall take and use water for or in connexion with the erection of any new buildings or alterations to or additions to existing buildings till he has obtained the receipt of the Trust's officer for payment of the amount payable for the use of such water, or the consent in writing of the Trust or its officer. Any person offending against the provisions thereof shall be liable to a penalty not exceeding Five pounds for such offence. All charges shall be

additional to all rates or other charges payable by the owner or occupier of the premises upon which the building is being erected, and shall in the first instance be payable by the builder or contractor, and if unpaid by the builder or contractor shall be charged to and paid by the owner of the premises whereon such building is being erected, but such charge to the owner shall not prejudice the right of the Trust to proceed at its option against either the builder or the contractor or the owner or occupier for the amount payable.

10. The occupier of two or more tenements liable to be rated one of which is supplied by measure with water, shall be entitled, on the payments of the rates on such tenements respectively, to use without further charge such a quantity of water by meter as shall not exceed at the current charge for water supplied for domestic purposes by measure the amount of such rates, provided that the tenement or tenements if not supplied by measure shall not be connected with the pipes of the Trust. The occupier of two or more tenements, each of which is supplied with water by measure, shall be entitled to use without further charge such a quantity of water at either or both such tenements as shall not exceed at the current charge for water supplied for domestic purposes by measure (the amount of such rates) the amount at which such tenements if not supplied by measure would be rated.

11. The water used or supplied for gas engines, oil engines, or steam boilers the charge shall be by measure, the minimum amount to be charged and paid shall be Twenty shillings, to be paid and payable in advance in each case. No water shall be supplied to any such engine or boiler until a meter shall have been affixed to the supply pipe of such engine or boiler to the satisfaction of the engineer of the Trust, and no water will be supplied to any engine unless such engine is fitted with mechanical appliances to circulate and re-use the water to the satisfaction of the Trust's officer.

12. The minimum quantity of water to be charged for half-yearly in each case where water is supplied by measure other than domestic purposes shall (except where otherwise provided or implied in this By-law) be 10,000 gallons, and such water shall (where it is not otherwise provided herein in this By-law or otherwise specially agreed by the Trust), be charged at the rate of Two shillings per 1,000 gallons.

13. Supplies of water for purposes not specified herein are to be paid for at such charges as the Trust shall in each case determine, and the preliminary payments appointed by the Trust on account of such charge shall be made at the office of the Trust before a supply shall be taken or used.

14. Such person or persons as the Commissioners of the Hamilton Waterworks Trust may from time to time appoint for the purpose shall be authorized to demand, receive, collect, and recover the rates and charges aforesaid and each of them.

15. In construction of this By-law the word "person" shall be deemed to extend to and include a corporation, whether aggregate or sole, and the word "Trust" shall mean the "Hamilton Waterworks Trust."

Passed the 12th day of November, One thousand nine hundred and twenty-five.

A. KENNEDY, Commissioner.
A. WALLS, Secretary.

KORUMBURRA WATERWORKS TRUST.

RATING BY-LAW FOR 1926, No. 21.

THE Commissioners of the Korumburra Waterworks Trust, a portion of the Waterworks District of which has been proclaimed an Urban District for the purpose of the Water Acts, pursuant to and in exercise of the powers and authorities conferred by the said Acts, do hereby make the following By-law:—

BY-LAW No. 21.

1. The rates and charges hereinafter specified are those which the occupiers or owners of land, houses and tenements situated within the Urban District of the Trust and liable to be rated, shall pay for the year ending the 31st December, 1926. Such rates and charges shall be deemed to be due and payable in advance on the first day of January, 1926, but the Trust may accept payment of the same by two instalments payable on the 1st January and the 1st July of the said year, without prejudice to its right to recover the whole year's rate. The rates and charges are as follow, that is to say:—

- (a) On every house or tenement of the annual municipal value of £22 or under, situated on any street or road in which water supply pipes are laid, or, if not so situated, supplied with water from such pipes by reticulation, Fifteen shillings.

(b) On every house or tenement above the annual municipal value of £22, situated on any street or road in which water supply pipes are laid, or, if not so situated, supplied with water from such pipes by reticulation, a rate of Eightpence in the pound on the valuation: Provided that any land in excess of two roods, rated in one assessment with a house or tenement under this or the preceding clause, shall be subject, in addition, to the minimum rate imposed by clause (c) hereunder.

(c) On every vacant piece of land (being any area in one contiguous holding) situated on any street or road in which water supply pipes are laid, a rate of Eightpence in the pound on the annual municipal valuation, with a minimum charge of Six shillings.

(d) On every piece of land supplied with water, whether rated with a house or not, on which there is a trough or other facility for watering stock, a rate of Eightpence in the pound on the annual municipal valuation, with a minimum charge of Ten shillings.

(e) On all land and tenements situated elsewhere than in a street in which water supply pipes are laid down, but being within a quarter of a mile of a stand-pipe of the Trust, a charge of one-half of the rates above specified; and on all such land and tenements situated over a quarter of a mile, but within half a mile from any such stand-pipe, a charge of one-quarter of the rates above specified.

(f) For water supplied by measure, One shilling per 1,000 gallons for all water used in excess of the quantity allowed on the ordinary rate; such allowance to be 1,000 gallons for every shilling of the rate amount.

2. The Trust may require a meter to be affixed to the service pipe of any consumer; and upon a consumer being requested in writing from the Trust so to do, he or she shall forthwith arrange for a meter to be installed at his or her own cost. Should the consumer fail to comply with the request within one month after receiving notice the Trust may cut off the water.

3. For special services the Trust may supply water, by agreement, at special rates.

4. The secretary of the Trust for the time being is hereby authorized to demand, collect, and recover, on behalf of the Trust, the rates and charges imposed by this By-law.

The foregoing By-law was made and passed by the Commissioners of the Korumburra Waterworks Trust on the 26th day of November, 1925, and the seal of the Trust was affixed hereto in the presence of—

(SEAL) J. H. BROWN, Chairman.
TAL. ADKINS, Commissioner.
JAS. G. DUFFY, Commissioner.
F. P. HUNGERFORD, Trust Secretary.

TRARALGON WATERWORKS TRUST.

RATING BY-LAW FOR THE YEAR 1926.

A BY-LAW for making a rate for the year 1926 on the rateable property within the Waterworks District of the Traralgon Waterworks Trust, which District has, for the purpose of the Water Acts, been proclaimed an Urban District, also for dealing with the charges for the sale of water by measure from the works of the Trust.

A rate of One shilling and sixpence in the pound shall be paid on the annual value of all rateable property in the Waterworks District, according to the valuation for the time being of all lands and tenements for the municipal rate for the Shire of Traralgon, but no such rate for tenements shall be less than One pound five shillings (£1 5s.).

For every unoccupied piece or allotment of land, the municipal value of which does not exceed Five pounds per annum, the sum of Seven shillings and sixpence (7s. 6d.). When such value is over Five pounds, a rate of One shilling and sixpence in the pound.

When water is supplied by measure for domestic or other than domestic purposes, a charge of One shilling and sixpence per 1,000 gallons shall be made, and the minimum quantity to be charged for shall be the quantity which, at the price named, would be equal to the rate payable in respect of such property if the water were supplied otherwise than by measure.

When the water is supplied solely for other than domestic purposes, the charges shall be One shilling and sixpence per 1,000 gallons, and the minimum quantity to be supplied during the year ending the 31st of December shall be 10,000 gallons. The charge hereby made shall be payable on demand of the Trust.

On buildings in course of erection where water is required for building purposes a minimum charge will be made of Ten shillings per cent. on the total cost of the work in the case of bricks or concrete buildings, and Two shillings and sixpence per cent. in the case of wooden buildings, such amounts to be payable in advance.

The Trust may, by notice in writing, intimate to any owner or occupier using water for other than domestic purposes solely that the water supplied is to be charged for by measure, and may, by such notice, require such owner or occupier to provide a meter within one month after the receipt of such notice, and thereupon such owner or occupier shall within the time specified, at his own expense, provide a meter.

When water is supplied for use on any land exceeding five acres in area such water will be supplied by measure only, and the owner or occupier of such land must provide a meter.

In all cases not herein provided for the Trust shall make such special provision as may be deemed necessary.

The service pipes from the mains, being the property of the owners or occupiers of the tenements supplied by such service pipes, the owner or occupier shall, in every instance in which damage is caused by reason of such service pipe being leaky or otherwise out of repair, or broken, be guilty of an offence.

If any person neglect to repair any such service pipe conveying water from the pipes of the Trust into the premises of such person, after having received notice from the proper officer of the Trust that such service pipe requires repairing, the Trust may stop the water flowing into the premises either by cutting off the service pipe or otherwise, as the Trust may see fit, until the necessary repairs have been effected.

The Trust may at any time, when found necessary, repair or renew any pipes and stop-cocks laid for conveying a supply of water to any tenement, and may charge the owner thereof with the cost of providing and laying, repairing, or renewing the same, and such cost shall be a debt due by such owner to the Trust, and shall be recoverable in any Court of competent jurisdiction.

The foregoing rates are made payable on the first day of March, 1926.

Such person or persons as the Commissioners of the said Trust may from time to time appoint shall be authorized to demand and receive the said rates and charges.

Passed on the 13th day of November, 1925.

YARRA JUNCTION WATERWORKS TRUST.

RATING BY-LAW FOR 1926, No. 3.

IN pursuance of the powers and authorities conferred by the Water Acts, the Commissioners of the Yarra Junction Waterworks Trust doth hereby make the following By-law:—

1. The following are the rates and charges which the occupiers or owners of lands and tenements liable to be rated within the Waterworks District of the said Trust shall pay for the year 1926 in respect of water supplied by the Trust, and such rates shall be payable, in advance, on the 1st day of January, 1926:—

2. On all properties of an annual valuation of £16 or over, the sum equivalent to a rate of Two shillings and sixpence in the pound.

3. On all properties of an annual valuation under £16, the sum of £2 minimum.

4. On all vacant lands, the sum of Two shillings and sixpence in the pound on the annual valuation, provided the sum paid shall not be less than 15s.

5. The charge for water by measure shall be Two shillings for every 1,000 gallons.

6. Where water is laid on to a vacant block of land, the minimum charge, if trough with ball-tap is provided, shall be Two pounds; without ball-tap, Four pounds.

7. The minimum charge for septic tanks shall be as follows:—

For private houses, the sum of One pound.
For boarding-houses, the sum of Two pounds.

8. Water supplied for other than domestic purposes shall be by special agreement, at such price as may be fixed by the Trust.

9. Such person or persons as the Commissioners of the Yarra Junction Waterworks Trust may from time to time appoint for the purpose shall be authorized to demand, receive, collect, and recover the said rates and charges.

The foregoing By-law was made by the Commissioners of the Yarra Junction Waterworks Trust this 5th day of October, 1925, and the seal of the said Trust was hereto affixed in the presence of—

J. MACKLEY, Chairman.
F. H. MESSENGER, Commissioner.

GEELONG WATERWORKS AND SEWERAGE TRUST.

BY-LAW No 51.

By-law relating to the Levels, Dimensions, Construction, Maintenance, Ventilation, and Cleansing of Sewers.

THE Geelong Waterworks and Sewerage Trust (hereinafter called the Trust), in order to secure the efficient maintenance of the main and general sewerage of the Geelong drainage area, and pursuant to and in exercise and execution of the powers and authorities conferred upon or vested in the Trust by the Geelong Waterworks and Sewerage Acts, or by any other Acts incorporated therewith (hereinafter called "the Act"), and in exercise and execution of any other powers and authorities in any wise enabling the Trust in that behalf, doth hereby make the By-law following:—

1. By-law No. 37 relating to the levels, dimensions, construction, maintenance, ventilation, and cleansing of sewers shall be, and the same is hereby revoked, but not so as to relieve, discharge, or absolve any person from liability to pay any rate or charge made in accordance with the provisions of the said By-law, for payment of which rate or charge such persons shall become liable prior to or at the date of this By-law coming into operation; nor to abrogate or diminish the power of the Trust to recover and enforce payment of any such rate or charge; nor to annul or stay any proceedings taken, prosecution commenced, or business initiated as in conformity with the provisions of the said By-law; prior to the date of this By-law coming into operation, but the same respectively may be continued and carried to completion, and all offences against any provision of the said By-law committed before the date of this By-law coming into operation, may be prosecuted for and punished as if this By-law had not been made.

GENERAL.

2. No person shall interfere with, break-up, remove, or build over with any building, wall, fence, or other structure, any sewer or trap, ventilating shaft, manhole, lamp-hole, flush tank, catch basin, or any part of the Trust's sewerage system without the previous consent in writing of the Trust.

3. No person shall throw or deposit, or cause to be thrown or deposited, in any drain or sewer, or opening or receptacle connected with the sewerage system, any garbage, offal, dead animals, vegetable parings, ashes, cinders, rags, refuse from manufactories, trade wastes, or any other matter or thing which, in the opinion of the Trust, may cause a stoppage in or injuriously affect the sewers or sewerage machinery.

4. No person shall cause or permit any waste water or fluid or other trade wastes, containing any substance or matter of a solid nature, to flow or pass, or to be carried from any manufactory or business or other premises of such person into any sewer of the Trust, or any drain or pipe communicating therewith, without first discharging into a pit so constructed as to intercept all such substance or matter of a solid nature, and prevent the same from passing into any such sewer of the Trust or drain or pipe communicating therewith.

5. No person shall cause or permit to be discharged into any drain or sewer of the Trust any solid or liquid likely to cause the generation of gases, injurious to the Trust's sewers or sewerage machinery.

6. No person shall cause or permit any waste water or fluid or other trade wastes to flow or pass or be carried from any manufactory or business or other premises of any such person into any sewer of the Trust, or any drain or pipe communicating therewith, unless and until the temperature of such waste water or fluid or trade wastes shall have been first reduced to or below one hundred and ten degrees Fahrenheit, and unless and until such waste water or fluid or trade wastes shall have been completely neutralized as to acidity; and unless and until such person shall have first made and provided suitable apparatus, means, or appliances for properly sedimenting and filtering such waste water or fluid or trade wastes before the same shall flow or pass or be carried into such sewer or drain as aforesaid.

7. No person shall cause or permit to flow or pass or be carried from any manufactory or business or other premises of any such person into any sewer of the Trust or any drain or pipe communicating therewith, any benzene, naphtha, ether, carbon bi-sulphide, or other inflammable materials which will not readily mix with water.

8. No person shall cause or permit the admission to any drain or sewer of the Trust of any land drainage surface or otherwise, or rain water from roofs, yards, streets, or other surfaces, whether by inlets specially designed to admit it or by any other inlets or openings so placed that such water may get access thereto.

PREPARATION OF PLANS AND EXECUTION OF HOUSE CONNEXION WORKS.

9. All connexions of plumbing work, drains, or sewers with the sewers of the Trust, and all work connected in any way with the drainage of any premises, shall be executed in accordance with this By-law.

10. All drains in and from properties to and as far as the point of connexion of the branch drain with the sewer must be repaired and cleansed by, or at the cost of, the owner.

11. All the works of the sewerage and/or drainage must be carried out in accordance with the provisions of the Act and By-laws or Regulations thereunder.

In the case of any obstruction taking place in a combined drain the Trust will determine between the respective owners or occupants of the premises drained thereby by whom and in what proportion the cost of removing any such obstruction shall be paid.

Every person who, by a notice from the Trust, issued in accordance with the Act, or any By-law or Regulation thereunder, shall be required to do or not do anything, including a requirement to make any sewer or drain, or branches, works, or arrangements for the better sewerage and/or draining of his house, building, or ground, and who fails to comply with such notice, shall be guilty of an offence.

APPLICATIONS FOR CONSENTS, ETC.

12. Application for the Trust's consent to connect with the sewerage system, or to do plumbing work connected therewith, must be made in writing by the owner of the property to be drained, or his authorized agent. Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be made in Form "A" appended hereto, or to the like effect. For any wilful misrepresentation in such application the owner or authorized agent as aforesaid shall be guilty of an offence against this By-law. No consent shall be deemed to authorize anything not stated therein.

Any approval by the Trust or proper officer of the Trust of a plan under section forty-one of the Act, or any consent to connect any premises with a sewer of the Trust, shall not be deemed to authorize or to confer or grant the right to lay a drain through any land intervening between the premises proposed to be connected and such sewer of the Trust, and any owner or applicant for the approval of such plan or consent shall satisfy himself as to his legal right to drain through such intervening land, and shall be solely responsible for any trespass or damage thereon or thereto.

Consents to make connexions with the sewerage system will be issued only when the plumbing in the property to be connected is planned to be made in accordance with the rules for plumbing hereinafter prescribed, and after such plan has been inspected and approved by the proper officer of the Trust or the purpose, or, in the case of new buildings, when a proper plan of the plumbing and of the drainage of the building into the branch of which the Trust shall have fixed the position, has been approved in writing by the Trust.

All connexions with the drains or sewers, and all plumbing connexions therewith, shall be made under the direction of the Engineer-in-Chief and/or the Inspector of the Trust.

Consent will not be given for the performance of any such work except upon condition that no person shall be engaged or employed as a workman in the actual performance of any work unless he be the holder of a "Working Plumber's Licence" or "Drainer's Licence" from the Trust. Any person who shall at any time, or at any place, make up, form, affix, alter or repair any fitting, pipe, bend, trap, or other thing connected or intended to be connected with the Trust's sewerage system, unless he be the holder of a licence from the Trust authorizing him to do such work, shall be liable to a penalty not exceeding Ten pounds.

Any person, whether licensed as aforesaid or not, who shall alter, remove, or in any way interfere with any drain, fitting, pipe, bend, trap, or other thing connected with the Trust's sewerage system, unless the Trust's written consent has been previously issued to do such work at the premises concerned, shall be liable to a penalty not exceeding Ten pounds.

WORKING PLUMBERS' LICENCES.

13. The conditions upon which "Working Plumbers' Licences" will be issued by the Trust are:—

(a) That every such licence will be subject to suspension or cancellation at the will of the Trust, and that all such licences will be granted to expire on the 31st day of December of each year. Application for a renewal of every such licence must be lodged on or before 30th November in each year. A minimum charge of 2s. 6d. will be made on all applications for renewals received after 30th November in each year.

(b) A special condition of every consent issued to an owner or agent shall be that if a licensed plumber, in his employment upon any such work, prove, according to the judgment of the Trust's inspecting officer, to be incapable as a workman, or transgress the By-laws or Regulations of the Trust, and the "Working Plumber's Licence" of such workman be for any such cause suspended or cancelled by the Trust, and notice of such suspension or cancellation, in the Form "B" to this By-law annexed, or to the like effect, be given by the Trust in writing, by registered letter addressed to the said owner or agent, the said owner or agent shall cease to employ such workman upon any such work immediately after and during the continuance of such suspension or cancellation. And any such owner or agent who shall neglect or fail to comply with this condition shall be guilty of an offence against this By-law.

(c) No candidate shall be permitted to submit himself for examination unless his age exceeds eighteen years at date of examination.

The Trust without stating any reasons may refuse to permit any intending candidate to submit himself for examination.

"Working Plumbers' Licences" will be issued to candidates who shall have successfully passed an examination by the Trust in the following subjects, that is to say:—

Materials.—The use of lead, tin, copper, and their alloys, wrought and cast iron, stoneware or cement concrete, brick, tiles, portland cement, and other materials used by the plumber and the drainer.

Plumbing Practice.—As to solder and soldering, lead burning, lead laying, pipe and joint making, pipe bending, and general plumber's practice.

Water Supply Work.—Knowledge of the Act and Water Supply By-laws, general water supply works, water supply fittings, hot water connexions.

Sewerage Work.—Knowledge of the Act and Sewerage By-laws or Regulations thereunder, in so far as the same relate to the work and duties of plumbers or others in regard to the construction, maintenance, and protection of the general sewerage system, construction and use of traps, soil, waste, and vent pipes, house fittings, water closets, kitchen sinks, baths, lavatories, housemaids' sinks, urinals, latrines, and other sewerage apparatus and appliances.

GENERAL PRINCIPLES OF SANITARY WORK.

Flushing, Ventilation, Disconnexion.

Candidates for examination in plumbing practice must provide themselves with their own tools, and may be required to submit samples of work done by themselves, and also to make any pipe, bend, joint, or other plumbing appliances which may be required to satisfy the Trust.

Candidates for Working Plumbers' Licences must give notice in writing to the secretary of the Trust in Form "B 1" to this By-law annexed, of their intention to submit themselves to examination at such time as shall be appointed for the same by the Trust. Every candidate who shall have successfully passed the before-mentioned examination, and given proof of practical ability as a plumber, will be furnished with a licence from the Trust to do practical work as a working plumber upon and in connexion with the sewers, drains, and all fittings, appliances, and apparatus appurtenant thereto within the Geelong drainage area, subject to and in accordance with the Trust's By-laws or Regulations. And he will likewise be furnished with a certificate from the Trust that he is duly qualified to do work in connexion with the sewerage system under the control of the Trust, and in accordance with the Trust's Regulations.

"Working Plumbers' Licences" will, at the discretion of the Trust be issued without previous examination to any practical plumber who shall be the holder of, and shall produce, a licence from any other sewerage or water supply authority, equal in value to the standard established by the Trust's examination, according to the judgment of the Trust, which shall be final subject only to review by the Trust.

Prior to the issue of any "Working Plumber's Licence" the person to whom the same is to be issued must sign a register containing a declaration that he accepts such licence subject to and in conformity with the conditions thereof, and By-laws or Regulations of the Trust, and that he will conform to and comply therewith.

Whilst none but the holders of "Working Plumbers' Licences" are allowed to be engaged or employed in the performance of plumbing work for sewerage, the holders of licences for water supply work may do water supply work necessary to the sanitary work, such as fixing cistern and water closets in outside buildings where lead is not used, and work for water supply.

DRAINERS' LICENCES.

14. No candidate shall be permitted to submit himself for examination unless his age exceeds eighteen years at date of examination.

The Trust without stating any reason may refuse to permit any intending candidate to submit himself for examination.

Drainers' licences will be issued to candidates who have successfully passed an examination in the following subjects:—

Plans.—How to read plans, meaning of scales—the scales commonly used in drainage plans; meaning of elevation, plan, and section drawings.

Levels, &c.—Laying off levels for drains; the straight edge, spirit level, and boning rods; tools generally used in drain laying; preparing bottom of trench to receive pipes.

Excavating, Timbering, and Refilling.—Protecting the trench by timbering; different treatment of different soils, as loam, clay, loose and wet sand, &c.; tunnelling and tunnel timbering; precautions when near buildings; importance of care in refilling trenches and tunnels.

Drain Laying.—Junctions to sewers, laying and jointing of stoneware pipes, cement joints, bitumen joints, self-fitting joints, drains under houses and in soft ground; cast-iron drains, laying and jointing; method of pointing stoneware and cast-iron drains; minimum depth below surface for safety.

Drainage Details.—The boundary or main disconnecting trap; diminishing of pipes by various methods; gully traps or sinks; self-cleansing form and arresting form; and where each should be used; the reflux gully trap; grease or grease interceptor trap; cottage pans and S trap; pedestal W.C.; access eyes and access pipes; cast-iron drainage details.

Materials.—Self-glazed stoneware; qualities of lime, mortar, and cement mortar, and where each should be used; concrete, proportioning, mixing, and usage; brick; brick bond for junction pits, manholes, &c.; cast-iron pipes.

Hints on Work.—Laying off work; drain-testing by water, smoke, &c.; clearing of chokages.

The conditions under which working plumbers' licences will be issued will also apply to drainers' licences.

PLAN OF DRAINAGE.

15. Copies of the Trusts plans will be furnished by the Trust upon application, and payment for the same as follows:—

Plan of drainage, including survey, &c., for every house or building a minimum charge of 5s., and an additional minimum charge of 5s. for every water closet more than one appurtenant to such house or building.

Plan of any alteration or additional to original plan—a minimum charge of 2s. 6d.; except in cases where there may be additional closets, when the minimum charge will be 5s. for each such additional closet.

Copy of plan of completed drainage will be supplied on payment of a minimum charge of 2s. 6d. for each water closet appurtenant to the house or building.

INSPECTION.

16. The owner or his authorized agent, or the plumber, drainer, or contractor carrying out the work, must give at least 24 hours' notice in writing to the Trust of his intention to commence work, and also when any work is ready for inspection. All work must be left uncovered and convenient for examination until inspected and approved by an inspecting officer appointed by the Trust.

Such inspection shall be made within 24 hours of such notification being received at the office of the Trust, except when notification is received on Saturdays, when 60 hours must be allowed.

The inspecting officer may apply the ether, peppermint, water, or smoke test, and the plumber or drainer shall furnish all the necessary tools, labour, and assistance for such tests.

The owner or his authorized agent shall remove or repair any defect when so ordered by the inspecting officer, and if he neglect or fail to do so he shall be liable, upon conviction, to a penalty not exceeding Five pounds, and to a penalty not exceeding One pound for every day thereafter during which such neglect or failure shall continue.

Before the fittings are connected with the plumbing of any house or building, or after, if so ordered, and before the soil or paste pipe is connected with the sewer, the outlet of the soil or waste pipe and all openings into it below the top shall be hermetically sealed. The pipes shall then be filled with water to such height as the inspecting officer of the Trust shall require, and every joint carefully examined for leaks. Work already in place may be examined by the peppermint or other test. Defective pipes must be removed and replaced by sound ones, and all defective joints made tight, and every part of the work made to conform to this By-law, and subject to the approval of an inspecting officer of the Trust.

House drains, whether laid by the Trust's workmen or others, must be thoroughly tested in every case before being passed by the Trust's inspecting officers. When being tested with water there must be a head of at least six (6) feet above every part of the drain.

Before a licensed plumber or drainer commences to clear a stoppage in a drain he must notify the Trust in writing of the time when he intends to clear the stoppage, so that an inspector may attend and pass the work in accordance with the provisions of the Act.

DEFECTIVE FITTINGS.

17. Any drain pipe, soil pipe, trap, water closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with this By-law, or which shall, in the opinion of the Trust, be or become bad, or of defective quality, shall, upon notice in writing from the Trust to the owner or occupier of the property, be by such owner or occupier removed or repaired in the manner determined, and within the time fixed by the Trust; and in case such owner or occupier fails

to comply with the requirements of such notice he shall be liable to prosecution, and penalty for an offence against the Act, or the Trust will, if it think fit, remove or repair the said defective fitting, and charge such owner or occupier of the premises with the cost so incurred, and will proceed for recovery of the same in manner provided by the said Act.

QUALITY OF MATERIALS.

18. All materials used must be of good quality and free from defects. The work must be executed in a thorough and workmanlike manner, and to the satisfaction of the Trust. No sanitary fitting shall be allowed to be connected to the sewers of the Trust unless it be of a type previously approved by the Trust, or unless special permission has been given by the Engineer-in-Chief for connexion of such fitting.

The utmost care must be exercised on all house connexion work to ensure that only materials which are in accordance with the Trust's By-laws and Regulations are used.

STOPPAGE IN DRAINS.

19. Owners and occupiers of premises are responsible for clearing stoppages in drains within their premises or between their premises and the sewers into which the branches lead.

DRAINS.

20. The drainage of each house is to be arranged for separately, unless in cases of properties belonging to the same owner, or where, in the Trust's opinion, special reasons exist for draining by a combined operation.

Owners desiring to have the drainage of their properties combined must sign a request for a combined drain.

Not more than two houses shall be combined except by the permission of the Engineer-in-Chief.

When the drainage of more than two properties is combined an inspection chamber must be provided if shown on plan or ordered.

Where several properties are connected with a private reticulation pipe the Trust may order that the drain to each individual house shall have its own boundary trap.

At the head of every connecting branch to the Trust's sewers, at or near the boundary of the premises, a boundary trap must be fixed with or without a manhole, as may be ordered by the Trust. All the drains must, wherever considered necessary by the Trust, join in a manhole at least three (3) feet long and two (2) feet wide, fitted with a closed cover if for inspection purposes only, or with an open grating if for ventilation purposes. The portions of the drains crossing the floor of the manhole must be connected with the boundary trap, either in a straight line or by curved junctions in the floor of the manhole. The boundary trap must be provided with an inspection cap on the sewer side of the trap.

Where an open grating is inadvisable, the manhole must be provided with closed cover, with a fresh air inlet fitted with a ventilation pipe of such size and materials, and so placed as the Trust may direct.

The drains outside of the house or building, or from isolated water closets, to the street sewer shall be constructed of pipes of approved quality and manufacture.

Cast-iron pipes jointed with lead, as is usual in water pipes or other approved pipes, surrounded with at least six (6) inches of portland cement concrete must be used, such concrete to be composed of 1 part portland cement, 2 parts of clean sand, and 4 parts of stone of 1½-in. gauge, or gravel approved by the inspector.

(a) In yards or places liable to heavy traffic, where the cover over the drain is less than two (2) feet six (6) inches.

(b) In cases where the construction of drains under buildings is unavoidable.

(c) Where drains and fittings are to be laid and fixed at a distance of less than six (6) feet from any cellar, water tank, or other excavation.

PIPE TRENCHES.

21. The trenches for the drains from all properties shall be dug so as to meet the public sewers at the position of the branches indicated by the Trust. The material from the trench shall be placed so as not to obstruct and so as to cause the least possible inconvenience to the public. Proper barriers and lights must be maintained on the banks of the trench during the progress of the work, to guard the public against accident. In refilling the trench the earth must be rammed or flooded carefully, so as to keep the pipe in position and avoid settling. No stone shall be used in refilling until there has been a depth of at least 2 feet of earth or gravel placed over the pipe.

SUBSOIL DRAINAGE.

22. Every person who shall erect a new building shall, wherever in the opinion of the Trust the dampness of the site renders such a precaution necessary, cause the subsoil of the site of such building to be effectually drained by means of suitable earthenware field pipes properly laid to a suitable outfall.

Where the soil around the foundation is damp, trenches must be dug either around the building or in the cellar. In these trenches drain pipes must be laid with joints covered with tarred canvas, with as much fall as can be obtained on even grades, and packed around with broken stones.

No such pipes shall be laid in such a manner or in such a position as to connect directly with any drain or sewer of the Trust.

BASEMENT AND CELLAR DRAINAGE.

23. No water closet or urinal shall be placed in any cellar, basement, room, or apartment unless at least 5 feet of the walls of such cellar, basement, room, or apartment are above the surrounding land. In all cases where it is proposed to place a water closet or urinal below the level of the surrounding land, plans and sections showing provision for light and ventilation must be lodged with the application for approval of plan under section 41 of the Act.

Where any house shall have its lowest floor, cellar, or basement at a lower level than the sewer of the Trust into which such house would otherwise drain, the owner shall pending pulling down or alteration of such house, cause the drainage from such lowest floor, cellar, or basement to be raised by means of a syphon, or some other method approved by the Trust, so that it shall discharge into a drain communicating with the sewer of the Trust.

Where, in the opinion of the Trust, a cellar or basement is so situated that it can be drained by gravitation to the Trust's sewers free from any risk of backflow in the event of the sewers becoming surcharged, the Trust may permit such connexion, provided a sluice valve be fixed between the cellar or basement connexion and the boundary trap, to be kept closed as hereinafter mentioned; and provided, the owner apply in writing for same, and furnish the Trust with an undertaking that such connexion is made at his risk, and indemnify the Trust against all damage in connexion therewith. In such cases the soffit of the pipe draining the cellar shall at its highest point be at least 2 feet below the cellar or basement at its lowest point.

Sluice valves must be kept closed, and only opened when it is necessary to allow an accumulation of water to drain to sewers. Spindles of sluice valves must be fitted with permanently attached extension rods of sufficient length and diameter to enable the valves to be opened or closed from above the level of the ground floor or building.

RAIN WATER.

24. Rain water conductors must not be connected with the sewers.

STABLES, ETC.

25. All stables, dairies, paved yards, market places, cab stands, receptacles for sludge water from manufactories, areas where milk cans are washed, and all polluted areas must be paved with approved material graded and drained to the satisfaction of the Trust and the drain therefrom must be trapped with an approved silt trap connected with the drain inside the boundary trap. The joints of stable floors and paved areas connected with the sewers of the Trust must be filled to full depth with either (1) good cement mortar in the proportion of one part of cement to not more than three parts of clean sharp sand, or (2) an admixture of pitch, distilled tar, and sand, mixed as directed, or (3) with other jointing material which may be approved by the Trust.

All stables and cowsheds in actual use must be paved and graded to the satisfaction of the Trust, and connected with the Trust's sewers. The drainage of those not in use must be provided for, but they need not be connected with the sewers while they are unused.

The drainage from stable floors must discharge over an approved silt trap, which must be provided with a top of brickwork or portland cement concrete, and fitted with a heavy grating.

MANURE BINS.

26. Manure bins must be provided for all stables or cowyards where the local Council's by-laws demand their construction, or where the locality is closely built on.

All manure bins must have the inside surfaces rendered with cement mortar, and must be made impervious throughout. Walls of new manure bins must, unless otherwise approved, be at least 9 inches in thickness, built of brickwork laid in cement mortar.

If an outlet pipe be provided for a manure bin, it must be properly connected with the Trust's sewers.

Branches in house drains must be provided in all cases where manure bins exist, for their connexion whenever the Trust shall deem it necessary.

LAYING DRAINS.

27. All drain pipes must be at least 4 inches in diameter, except where otherwise ordered by the Trust.

Unless obtained from the Trust's Storeyard all drain pipes must be taken to one of the Trust's depôts to be tested by the officer appointed by the Trust, in the machines provided for the purpose.

The cover of the branch on the sewer shall be carefully removed so as not to injure the socket.

The first length of the pipe attached to the branch shall be curved and set so as to give a good fall into the sewer.

All pipes shall be carefully bedded on the barrel in the solid ground.

Where in the opinion of the Trust it is necessary, cast iron pipes must be used or stoneware or cement concrete pipes bedded in concrete of dimensions approved by the Engineer-in-

Chief, such concrete to be composed of 1 part of portland cement, 2 parts of clean sand, and 4 parts of stone of one and a half inch gauge or gravel approved by the Inspector.

Stoneware or cement concrete pipe drains must not be laid less than 2 feet deep from the surface to the centre line of the pipe. Where this amount of covering cannot be obtained, the stoneware or cement concrete pipes must be entirely surrounded with not less than 4 inches of portland cement concrete, or the surface of the ground must be raised to the satisfaction of the Trust's inspecting officer.

All stoneware or cement concrete pipe drains under buildings and or near roots of trees must be surrounded with not less than four inches of portland cement concrete.

Jump-ups, where allowed, must be bedded on, and surrounded with 4 inches of portland cement concrete to full height of drop.

The drain pipes shall be laid on an even grade of not less than 1 in 40 if a 4-in. pipe be used, or of 1 in 60 if a 6-in. pipe be used, unless by special permission of the Trust, in which case special provision must be made for regular and efficient flushing.

As far as possible, all drains shall be laid in straight lines; where changes of direction occur they shall be made either by suitably curved pipes or in manholes.

Stoneware or cement concrete drain pipes may be substituted for cast iron drain pipes in every case except where the ground is soft or liable to heavy traffic; but in all cases where stoneware or cement concrete is substituted for cast iron the pipes must be entirely surrounded by not less than 4 inches of portland cement concrete, whether inside or outside of buildings.

All drain pipes carried through walls must have a space about 3 inches clear left over the pipes.

If a pipe be cut out to clear a stoppage, or if a pipe be broken, it must be replaced by a new pipe. The old pipe must not be patched up.

All cast iron pipes must be sound, free from holes or cracks, and coated with tar or asphaltum.

The following weights will be accepted as standards for cast-iron drainage pipes:—

4-in. diameter, 16 lbs. per lineal foot.

5-in. diameter, 20 lbs. per lineal foot.

6-in. diameter, 23½ lbs. per lineal foot.

All fittings used in connexion with such pipes shall correspond with them in weight and quality. All junctions must be curved; right-angled junctions must not be made.

Where outside closet buildings require repairing or removing, the necessary work within the space covered by the closet buildings must be carried out before the water closet branch is laid; but other portions of the drain may be laid provided provision be made for effectually testing the closet branch when laid.

Whenever a paved, asphalted, or tar paved yard or space has been broken in connexion with house drainage, the surface where so broken must be restored as nearly as possible to the same condition as it was in previously, unless otherwise required by the owner.

JOINTS—DRAINAGE.

28. Cast iron pipes shall be jointed with gasket and lead, and caulked as to make the joints gas and water tight. Wrought iron pipes shall be screw jointed with white lead.

All connexions of lead pipes with iron pipes must be made with a brass sleeve or ferrule of the same size as the lead pipe, put in the socket of the branch of the iron pipe, and caulked with lead. The lead pipe must be attached to the sleeve or ferrule by a wiped joint.

Joints of stoneware or cement concrete pipes shall be made with Stamford joints or cement joints with gaskets.

The ends of all private drains not immediately connected with the plumbing fixtures shall be securely closed with water tight, imperishable materials. If stoneware or cement concrete, a stoneware, cement concrete, or cast iron disc must be cemented in; if wrought iron, a plug must be screwed on the end; if cast iron, a cast iron plug must be caulked in with lead.

Connexions of galvanized sheet iron vent pipes to cast-iron do not require a brass sleeve, unless ordered by the Engineer-in-Chief.

VENT PIPES—DRAINS.

29. The main drain leading to the boundary trap must be vented at its upper end by a pipe or shaft erected vertically to such a height that the mouth of the pipe or shaft shall be at least 6 (six) feet higher than any window, door, or other opening situated within a distance of 30 (thirty) feet therefrom. If the drain cannot be vented at the upper end, the system of ventilation must be reversed.

Branch drains need not be vented if the drainage traps be within 15 (fifteen) feet of the main drain.

Every vent extending upwards from a soil or drain pipe must be carried to such a height as may be deemed necessary by the Trust, and in any case at least 2 (two) feet above the highest part of the roof or coping.

Every vent pipe must be of undiminished size, without return bend, with basket end, or duct or induct cowls as ordered, and it must not open near a window, a chimney, or an air shaft which ventilates living rooms.

All vent pipes in an extension of a main building, when otherwise they would open within 30 (thirty) feet of the windows, doors, or other openings into the main building or the adjoining building, must be extended to such a height above the roof of the main building as may be deemed necessary by the Trust.

All the main educt vents on house drains shall be of the same diameter as the drains unless special permission be given to vary their dimensions.

Where two or more educt vents are fixed on the same system of drains the diameter of each (with the exception of that on the longest line) may be reduced to 3 (three) inches with induct vent of 4 (four) inch diameter.

No chimney flue shall be used as a sewer ventilator, or to ventilate any drain, soil, or waste pipe.

Ground or level vents may be permitted in special cases.

All inlets to drains or openings for ventilating shall be efficiently protected by proper gratings of ample area. The aggregate area of the apertures in any grating covering a ventilation opening shall not be less than the sectional area of the pipe or drain to which such grating is fixed. All openings for ventilation made in accordance with this By-law, or upon order of the Trust, shall at all times be kept open and perfectly free from obstruction.

All galvanized sheet iron vent pipes used to ventilate the drainage system, or used as anti-syphonage pipes to soil or waste pipes from closets, slop sinks, or urinals, must be coated with hot tar or asphaltum inside before erection.

All drainage sheet iron vent pipes must be double galvanized.

Whenever vent pipes from drains are not more than 12 (twelve) feet above the offset they will not require staying; if longer they must be stayed with ½ (half) inch galvanized wrought-iron pipe.

When a galvanized sheet-iron pipe, with or without an offset, is carried up above the brick wall of a building, a galvanized wrought-iron pipe clip shall be used, leaded to the wall near the top wherever possible and bolted against vent pipe. All band iron clips of vent pipes to brick walls must be fastened with nuts and bolts, leaded in.

A length of 20 (twenty) feet of straight vent pipe without offset may be fixed without stays.

There shall be at least one pipe hook or clip to each 6 (six) feet length of vent pipe.

When vent pipes terminate more than 6 (six) feet from chimney opening, at the same level, the ordinary rules as to height are to apply; but when the distance is 6 (six) feet and under, the vent pipe must terminate 2 (two) feet below the chimney opening. Vents must, as far as possible, be kept away from chimneys.

When it is not possible to carry a vent pipe above the parapet or ridge the pipe must be carried up as high as it will stand without staying, provided it is 30 (thirty) feet from a window or door. When it is at a less distance than this it must be carried up 6 (six) feet higher than any window or door opening within a radius of 30 (thirty) feet of the vent pipe, and have sufficient stays to support it.

Wooden blocks for vent pipes will not be allowed on walls; when used on posts they must be of red gum or jarrah.

When a sufficiently strong support cannot be obtained for the induct vent pipe, a plated and strutted red gum or jarrah post, sunk 2 (two) feet in the ground, of dimensions not less than 4 (four) inches x 4 (four) inches must be fixed to support it.

In any case of cellar drainage ventilation where, in the opinion of the Engineer-in-Chief, the length of the drain connecting the premises with the sewer and the shortness of the distance between the cellar and the boundary trap shall render such a course advisable, the vent pipe may be taken from the sewer side of the boundary trap and the ventilation shaft must be entirely outside the building. But if the vent pipe be taken from the house side of the boundary trap the ventilating shaft may be inside the building.

TRAPS—DRAINAGE.

30. Traps of three (3) classes shall be used—

- (a) "Traps" for intercepting gases only to be of round section and self-cleansing form, but not so easy as to empty by momentum or suction.
- (b) Silt traps" for intercepting both gases and solids, to have slightly tapered sides, flat bottom, and rounded, not sharp angles, and provided with trays fitted with handles for catching and removing solids.
- (c) "Grease traps" for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, to be of such form as may from time to time be approved.

The term "gully" is applied to traps (a) and (b) in cases where they are to be used externally, and fitted with dished tops and gratings. In such case the dish must be in one piece with the trap, or jointed there to spigot and socket, and the depth of the dish from the top to the grating must not be less than six (6) inches.

The term "disconnecter" is applied to traps in cases where provision has to be made for inlet ventilation to the pipe or pipes discharging therein.

All traps must have a water-seal of at least half the diameter of the outlet pipe, but in no case of less than two and a half (2½) inches.

Unless a slop-sink be fixed inside the building a gully trap must be provided in the yard of every house, placed as near as possible to the back or kitchen door, with a tap placed over it at a height of about two (2) feet, except in cases where the owner desires the tap to be placed higher.

Gully trap basins and tops of silt traps must be surrounded with brickwork or concrete neatly rendered inside with cement mortar. The internal diameter of brickwork around gully traps measured from face to cement rendering must not be less than fifteen (15) inches, and must be neatly rounded to meet the gully top. The walls at rear of gully and silt traps if of brick or stone must be cement rendered to height of tap; if traps abut against a wooden wall, sheet galvanized-iron apron must be fixed.

Unless otherwise instructed the top of all traps must be at least six (6) inches above the surface of the surrounding ground.

Gratings to gully traps must not be less than six and seven-eighths (6 $\frac{7}{8}$) inches over all, with openings of suitable outlet capacity.

All gratings must be fixed down in an approved manner with bitumen or wedges of lead.

When the connecting drain is considerably deeper than the depth at which the boundary trap will be required to be placed to provide for existing or future cellars, the boundary trap, instead of being connected directly to the connecting drain may, if approved, be connected to a jump-up or vertical extension from the same.

WATER SUPPLY.

31. All water closets and other plumbing fixtures must be provided with a sufficient supply of water for flushing purposes to keep them at all times in a proper and cleanly condition.

Every owner of property who shall desire, or who shall have been ordered by the Trust, to provide sanitary appliances for his property, and to connect the same with the sewers of the Trust, must, prior to or at the commencement of the work of making such connexion, provide piping approved by the Trust for the conveyance of water, and cause the same to be joined to the most convenient water supply main, or with the permission of the Trust, to some pipe already joined thereto, which piping must be of capacity sufficient to supply all sanitary fittings on the premises freely and continuously, and convey to the flushing cistern of each water closet upon the property enough water to fill such cistern within five (5) minutes, and he shall cause such piping to be connected with such cistern prior to the completion of the work.

No water service-pipe shall be laid to supply any sanitary fittings in any property in the drainage area unless such fitting be connected with the sewers of the Trust, or unless the special permission of the Trust in writing shall have been previously given to lay on such water supply.

The piping to convey a supply of water to the tenement for sanitary uses shall not, for the purpose of obtaining such supply, be joined to the piping which conveys water to another tenement for general purposes.

Where houses have separate supplies for general purposes, extensions from one house to another for sanitary purposes will not be allowed.

All new houses must have separate services from the main.

Where more houses than one are at present supplied from one service, extensions from one closet to another will be allowed, provided the service-pipe, in the opinion of the Engineer-in-Chief, is large enough and sufficiently clean to afford a good supply for flushing purposes, and the service to each closet be controlled by a separate stop tap. But should it be desired to lay on a new service for general purposes to any house now supplied by extensions from another, the service to the closet must be disconnected from the extension and supplied from the new service.

A combined or trunk service for the supply of more than one house will be allowed, provided it be laid in a thoroughfare or right-of-way with a separate stop tap on the branch to each tenement.

The maximum number of branch services of any of the diameters given in the table below that will be allowed from the trunk is as follows:—

Diameter of Trunk Service.	No. of 1 inch Branches only.	No. of $\frac{3}{4}$ inch Branches only.	No. of $\frac{1}{2}$ inch Branches only.
$\frac{3}{4}$ inch	—	—	2
1 inch	—	—	or 5
$1\frac{1}{4}$ inch	2	or 4	or 10
$1\frac{1}{2}$ inch	3	or 6	or 15
2 inch	6	or 12	or 30

Where a house is supplied through meter, an independent service or an extension from the existing service, taken from the main side of the meter may be allowed to the closets or urinals. Such independent service or extension must be so laid that, in the opinion of the Engineer-in-Chief there shall not be any risk of branches being taken from it for any other purpose; and a check meter shall be fixed on the closet service, and the water registered through it will be charged for, but a deduction will be made equal to Seven (7) shillings per annum on account of each water closet on such premises the supply of water for flushing whereof shall pass through and be recorded by such check meter provide always the total deduction allowed to any consumer shall not in any case exceed Twenty-one (21) shillings in respect to such premises.

Every consumer of water who shall receive his supply of water through a meter, and shall pay for such supply by measure an amount exceeding the sum which he would be required to pay upon the rating of his premises shall, out of such excess, be allowed, so far as such excess will admit thereof, a deduction equal to Seven (7) shillings per annum on account of each water closet on his premises, the supply of water for the flushing whereof shall pass through, and be recorded by such meter, provided always the total deduction allowed to any such consumer shall not in any case exceed Twenty-one (21) shillings in respect to such premises.

All plumbers' notices for laying on water for water closets or making any alterations when the tenement is supplied through meter must distinctly state whether such supply to the closets is or is not to pass through the meter.

Automatic flushing cisterns will only be allowed to be installed when the water supply is by measure.

Water supply pipes to storage tanks for internal closets must be half ($\frac{1}{2}$) inch diameter for tanks up to twenty (20) gallons, and three-quarter ($\frac{3}{4}$) inch for tanks of larger size, and be provided with high pressure ball-taps, except where the height of the storage tank is not sufficient to allow of high-pressure ball-taps being used when low-pressure ball-taps may, with the consent of the Engineer-in-Chief, be fixed to two-gallon cisterns.

Outlets from storage tanks must not be less than three-quarter ($\frac{3}{4}$) inch when supplying one (1) or two (2) cisterns, and one (1) inch for three (3) to six (6) cisterns. Whenever a larger number than six (6) cisterns is fixed, the size of the outlet must be increased. The overflow from storage tanks must be one and one-half ($1\frac{1}{2}$) inches in diameter, and a stop-tap must be fixed on the rising supply pipe to tank.

Where any deviation from these provisions is desired, in special circumstances an application in writing (in addition to the plumber's notice) must be made and must distinctly state the reason why such deviation is required, and pending the consent of the Trust the work must not be undertaken.

In all water closets a piece of lead pipe not less than twelve (1) inches in length must be used between the flushing cistern and the supply pipe.

PLUMBING RULES—GENERAL.

32. Separate internal wastes shall be provided for each of the following classes of polluted water, viz.:—

- (1) Dirty water from baths, pantry, and china closet sinks, lavatories, and wash troughs, and other wastes with a small proportion of soap and dirt.
- (2) Greasy water from kitchen and scullery sinks, where grease traps are required.
- (3) Soil water from closets, and other water containing fecal matter, and urinal water from housemaids' slop sinks and public and private urinals.

Each of these separate waste pipes except those for soil water, and in special cases where permission has been granted those for urinal and slop-sink water, must be connected with the drains through a gully or disconnector trap. The ends of all waste pipes discharging into gully basin to finish flush with the internal face of the basin.

No waste pipe shall be laid in the ground outside any building unless by special permission.

No material shall be used within the building for soil, vent, or waste pipes other than wrought or cast-iron pipes with wipid joints, or lead pipes with wipid joints. Cement or putty joints, or tin or sheet-iron pipes, whether galvanized or not, shall not be used.

In all cases the upward extension from the soil pipe for ventilation must pass in as direct a manner as possible above, and, if necessary, through the roof.

The following are the minimum sizes of soil, waste, and vent pipes, and weights of lead, soil, waste, and vent pipes, which must be used throughout, unless otherwise specially ordered by the superintending officer:—

Fitting.	Diameter of Waste Pipe.	Minimum Weight of Lead Waste Pipe.	Diameter of Vent Pipe.	Minimum Weight of Lead Vent Pipe.
	Inches.	Lbs.	Inches.	Lbs.
One wash basin ..	$1\frac{1}{2}$ to $1\frac{1}{2}$	6	$1\frac{1}{2}$	6
Row of wash basins ..	$1\frac{1}{2}$ to 2	6	$1\frac{1}{2}$	6
Wash basin overflow ..	$1\frac{1}{2}$ to $1\frac{1}{2}$	6
One bath ..	2	6	$1\frac{1}{2}$	6
Combined waste for baths ..	$2\frac{1}{2}$ to 3	6	2 to $2\frac{1}{2}$	6
Bath overflows ..	$1\frac{1}{2}$ to 2	6
Wash tub ..	2	6	$1\frac{1}{2}$	6
Set of tubs ..	2	6	$1\frac{1}{2}$ to 2	6
Kitchen sink ..	2	6	2	6
Pantry sink ..	2	6	2	6
Slop sink ..	$2\frac{1}{2}$ to 3	7	2 to $2\frac{1}{2}$	7
One urinal ..	$1\frac{1}{2}$	7	$1\frac{1}{2}$	7
Row of urinals ..	2	7	$1\frac{1}{2}$ to 2	7
Soil pipes ..	4	7	2 to 3	7

All cast-iron pipes must be sound, free from holes and cracks, and coated with tar or asphaltum.

The following weights will be accepted as standards:
 Two (2) inch diameter, five and one half (5½) lb. per lineal foot.
 Three (3) inch diameter eight (8) lb. per lineal foot.
 Four (4) inch diameter, thirteen and one quarter (13¼) lb. per lineal foot.

All wrought-iron pipes must be of approved standard weight and quality, and galvanized or coated to the satisfaction of the Trust.

All fittings used in connexion with such pipes shall correspond with them in weight and quality. All junctions must be curved, right-angled junctions must not be made.

Where lead pipe is used for waste or vent pipes, such pipes must not be lighter than of six (6) lb. lead; but where, in the opinion of the Engineer-in-Chief, a heavier weight may be required, such heavier weight, as the Engineer-in-Chief shall desire, must be used.

No cast-iron pipe laid in the ground or fixed above the ground shall, for the first 9 feet above the ground be less than the standard weights given in this By-law, but for cast-iron soil, waste, and vent pipes in other positions, and for glass enamelled pipes, the following modifications of this By-law will be allowed, viz.:—

Cast-iron soil and waste pipes, minimum thickness, one quarter (¼) inch. Cast-iron ventilation pipes, two (2) inch, three (3) inch, and four (4) inch diameter, minimum thickness three-sixteenths (3/16th) inch.

Glass enamelled pipe, if not under heavy pressure, may be three-sixteenths (3/16th) inch in thickness, without coating, for three (3) inch or four (4) inch soil or waste pipes. Glass enamelled pipes shall be measured without enamel.

All soil pipes shall be at least four (4) inches in diameter. Where lead or cast-iron soil, waste, or vent pipes are fixed outside a wall for upstairs fittings, the cast-iron pipes must be carried above the level of the highest fitting attached to the pipe.

Galvanized sheet-iron vent pipe must not be fixed at a lower level than the topmost fitting on the stack of waste pipe.

Galvanized W.J. waste or vent pipes on brick, stone, or concrete walls must be fastened with bolted clips leaded into the walls.

Sufficient inspection and cleaning eyes must be provided in such positions on cast or wrought iron wastes as to be easy of access for proper cleansing of these wastes.

Where inspection openings are provided to soil and waste pipes, preference must be given to insertion cloth washers before red lead.

The soil, waste, and vent pipes and traps must, where practicable, be exposed to view at all times for ready inspection and for convenience of repairing. When unavoidably placed within partitions or recesses of walls, soil, waste, or vent pipes must be covered with woodwork so fastened with screws as to be readily removable. When placed under floors the boards to be screwed down with two (2) inch brass screws.

The arrangements of soil and waste pipes must be as direct as possible.

The following are the minimum gradients to be adopted:—

Sizes of Pipes.	Gradients.	Size of Pipes.	Gradients.
Six (6) inch ...	1 in 60	One and a half (1½) inch ...	1 in 15
Four (4) inch ...	1 in 40	One and a quarter (1¼) inch ...	1 in 12
Three (3) inch ...	1 in 30	One (1) inch ...	1 in 10
Two (2) inch ...	1 in 20		

No variation will be allowed except by permission of the Engineer-in-Chief.

The area of openings in gratings to any waste must not be less than will fully charge the waste pipe to which it is attached, and must be in accordance with the Trust's standard drawings.

A main waste pipe into which lavatories, baths, or sinks discharge must be at least two (2) inches in diameter.

External vent pipes of galvanized iron must be of not less gauge than the following:—

- Diameter—
- 1½-in., 2-in., and 2½-in.—22-gauge galvanized iron.
- 3-in. and 4-in.—20-gauge galvanized iron.
- 6-in.—18-gauge galvanized iron.

Vent pipes, if inside a building, must in all cases be of cast or wrought iron or lead. Grooved or riveted double galvanized iron vent pipes may be used where they are entirely outside a building, and these must be connected with the traps or waste pipes with brass ferrules or other joints approved by the Engineer-in-Chief.

The various vent pipes may be branched into a soil or waste pipe of the same class above the level of the highest fixture. They may be combined by branching together those which serve several traps of the same class.

Vent pipes must always have a continuous slope, to avoid collecting water by condensation.

Vent pipes shall not be used as waste or soil pipes. Galvanized sheet-iron vent pipes may be used inside stables or open sheds in place of cast-iron pipes, except where liable to blows from vehicles or to other external damage.

In all cases where the vertical stack of soil pipe provides for closets four (4) feet or more above ground level, a short length of pipe, with inspection opening cover close to the ground, clamped to a flange on the pipe with bolts, must be fixed.

Lead pipes must not be used under ground floors where they are inaccessible or in the soil. In such places cast or wrought iron must be used.

Anti-syphonage vent pipes or fittings discharging into gully or disconnector traps must be carried above the eaves of the building, unless special permission to the contrary be granted by the Engineer-in-Chief. These vent pipes must be branched to the waste or soil pipe, as near as possible to the trap. For anti-syphonage vents to disconnected fittings other than sloop hoppers or urinals, the use of twenty-four (24) gauge galvanized sheet-iron will be permitted.

Where an additional branch is required to a galvanized sheet-iron vent pipe already fixed, a brass saddle-piece bolted and soldered to the existing vent must be used.

Waste pipes from disconnected fittings (except urinals and sloop sinks) need not be ventilated unless they exceed twelve (12) feet inclined, or eighteen (18) feet vertical, in length (or their equivalent), and branch wastes to such fittings, if connected with the ventilated main waste, provided there be no other fittings attached to the line of waste, may be twelve (12) feet in length without being ventilated, unless syphonage occurs in a trap, in which case a vent pipe must be supplied to the waste of that trap.

Concealed standing wastes are not allowed. Spacing of lead tacks must be arranged as nearly as possible thus:—

Four (4) inch vertical lead pipes, two (2) feet six (6) inch centres.

Four (4) inch horizontal lead pipes, two (2) feet centres.

Less than four (4) inch vertical lead pipes, three (3) feet centres.

Less than four (4) inch horizontal pipes, two (2) feet three (3) inch centres.

One pair of tacks fixed opposite is sufficient for lead flush pipes for cisterns with lugs; in other cases an extra tack must be fixed as near to the cistern as possible.

Where water might otherwise percolate to the floor, baths, troughs, and the like fittings must be flashed with sheet lead of not less than four (4) lb. per square foot, or other approved material. All flashings must be turned up walls at least four (4) inches, properly secured and made water-tight. This provision shall not apply to the sinks, which are specially provided for under clause forty (40) of this By-law.

Whenever a fitting is abolished, the soil, waste, vent, and water supply pipes to such fitting must be removed, or if allowed by the Trust to remain, the ends of the pipes must be sealed with water-tight, imperishable materials. Wrought-iron pipe must be sealed with screwed plug; a cast-iron pipe must have cast-iron plug caulked in with lead; lead pipe must have end securely closed with properly wiped joint; stoneware or cement concrete pipe must have a disc cemented in.

JOINTS—PLUMBING.

33. All connexions of lead waste and vent pipe shall be made by means of wiped joints.

All connexions of galvanized sheet-iron pipes to cast-iron pipes shall be made with molten lead and be lightly caulked.

Brass sockets or sleeves must be used in connecting galvanized sheet-iron to wrought-iron pipes; and proper brass sleeves must be used in connecting galvanized sheet-iron pipes to lead pipes. Sheet-iron pipes must not be soldered to lead pipes.

In connecting galvanized wrought-iron waste pipes the ends of the pipes must be butted by means of short sockets of a minimum length of one and one half (1½) inch or the pipes must be sufficiently threaded to allow of the butting being done.

The flushing pipe from cistern to water closet must be connected by a lead cap-piece with red lead packing.

Vent pipes must be connected to the vent horn of the water closet tap by a lead cap-piece with red lead packing.

TRAPPING FITTINGS.

34. Every water closet, urinal, lavatory, sloop or other sink, bath, and wash trough, or set of wash troughs, must be separately and effectively trapped.

Traps must be placed as near to the fittings as possible, and in no case shall a trap be more than two (2) feet from a fitting unless specially allowed by the Engineer-in-Chief.

In the event of trap syphonage, it must be prevented by a special pipe connected to the waste pipe at a point not less than three (3) nor more than twelve (12) inches from the highest part of the trap, and on that side of the water seal which is nearest to the soil or waste pipe.

All lead traps must be of seven (7) lb. drawn lead. All traps must have a water seal of at least half the diameter of the outlet pipe, but in no case of less than two and a half (2½) inches.

The "P" form of traps, with wastes above floors and with joints visible and accessible all round, must be used in all internal fittings where possible.

The "S" form of traps, with wastes under floors, shall only be used by special permission. Where used, facilities for periodical inspection must be provided.

In detached closets and urinals, approved "S" forms in earthenware, with joints visible and accessible all round may be used.

All fittings inside of main building and also in buildings directly attached to a main building with doors or windows opening directly into living rooms, work rooms, or kitchens must be trapped.

GREASE TRAPS.

35. Every grease trap shall be fixed outside the premises, wherever possible, and (if not portable) must be of stoneware or cement concrete and attached directly to the drain or disconnector trap.

The size of grease traps in ordinary cases must be as nearly as possible the following, viz.:—Portable copper, twenty-one (21) inches in length; stoneware or cement concrete, twenty-seven (27) inches in length.

Wherever a copper grease trap is used inside a building it must be fitted so as to be easily movable.

The size of grease trap discharge pipes, except in special cases, must not be less than three (3) inches for copper, and four (4) inches for stoneware or cement concrete.

All large grease traps which are built in brick or slate must have provision made for inlet and outlet ventilation.

Sinks and all such places as food packing houses, butchers' shops, lard rendering establishments, hotels, restaurants, boarding-houses, and laundries, and wherever ordered by the Engineer-in-Chief, shall be provided with suitable approved grease traps.

WATER CLOSETS AND LATRINES.

36. The area of any water closet must be not less than thirteen and one half (13½) square feet, with a minimum internal dimension of three (3) feet inside measurements. The minimum height to be not less than seven (7) feet six (6) inches at back, and six (6) feet six (6) inches at front. The floors of all water closets must be constructed of concrete tiles or other approved impervious and non-absorbent material. Seats must be either flap or hinged tip-up. Existing wood floors, if sound, may be allowed to remain.

Partition walls between closets used by males and females respectively, and closets walls abutting on any room intended for human habitation or for the manufacture, preparation, or storing of food for man, or used as a factory, workshop, or work place shall be airtight and constructed of brick or other approved material extending the entire height from floor to ceiling. Where such partition walls are of wood or other thin material they are to be arranged and constructed so as to form a hollow wall, which is to be packed with sawdust, well rammed.

Every internal water closet shall be constructed in such a position that one of its sides at least shall be an external wall which shall abut immediately upon the street or upon a yard or garden or open space of not less than 100 square feet of superficial area, measured horizontally at a point below the floor of such closet.

Such water closet shall not be constructed so that it is entered directly from any room used for the purpose of human habitation, or for the manufacture, preparation, or storing of food for man, or used as a factory, workshop, or work place. Such water closet shall be constructed so that on any side on which it would abut on a room intended for human habitation or use for the manufacture, preparation, or storage of food for man, or used as a factory, workshop, or work place, it shall be enclosed by an airtight partition of brick or other approved material extending the entire height from floor to ceiling.

Such water closet apartment must be entered only from a well-lighted and well-ventilated hall, passage, lobby, or staircase; or, if proposed to be fixed in or adjoining a room used for the purpose of human habitation, or as a factory, workshop, or work place, must be cut off from such room, factory, workshop, or work place by a separate enclosure adjoining the closet apartment. Such enclosure must have a floor area of at least twenty (20) square feet per closet, and must be enclosed on all sides with airtight partitions extending from floor to ceiling or ceiled over with an airtight ceiling at an approved height from floor.

Such halls, passage, lobby, staircase, or enclosure must be provided with a window having an area of at least two square feet opening directly into the external air. If such method of lighting enclosure be impracticable, other methods of naturally lighting same must be provided.

Such water closet apartment must be provided with a window of such dimensions that an area of at least two (2) square feet, exclusive of frame, shall open directly into the external air.

In addition to a window, such water closet apartment and such hall, passage, lobby, staircase or enclosure must be provided with independent, adequate means of constant inlet and outlet ventilation, by means of air bricks built in external wall of such water closet apartment, hall, passage, lobby, staircase, or enclosure, or by combination of an air brick, and air shaft,

louvred openings, or by some other effectual method or appliance for ventilation. The effective area provided for outlet ventilation of each water closet apartment, hall, passage, lobby, staircase or enclosure, must not be less than twenty-seven (27) square inches, and where the level of the floor of closet is lower than the outside surface of the ground, exhaust ventilation must be provided by means of a tube at least six (6) inches in diameter carried up through roof and furnished with cowl. The louvre vent in external closets may be omitted, subject to ventilation being provided by raising the door from the floor, leaving a space of not less than three inches high and saw-toothing the top of the door.

The water closet shall be furnished with a basin of non-absorbent material of such shape, capacity, and mode of construction as to receive and contain a sufficient quantity of water, and to allow all filth which may from time to time be deposited in such basin to fall free of the sides thereof and direct into the water received and contained in the basin.

To prevent fouling of pan, the closet seat openings must not be larger than ten and one quarter (10¼) inches x nine (9) inches, and seats with holes so large as to cause fouling of the pan must not be used.

Pans must measure at least twelve (12) inches between the lowest edge of the front and back faces of flushing rims.

Closet pans and fittings thereto must be entirely open to inspection without any enclosure.

A suitable apparatus must be provided for the effective application of water to the basin of the water closet, and for the effective flushing and cleansing of such basin, and for the prompt and effective removal therefrom of any solid or liquid filth which may from time to time be deposited therein.

Every closet pan shall be furnished with a separate flushing cistern or other apparatus approved by the Trust of at least two (2) gallons capacity, which shall be so constructed, fitted, and placed as to admit of the supply of water for use in such closet pan without any direct communication with any service pipe upon the premises.

The flush pipe from such cistern shall in no case be less than one and one quarter (1¼) inches internal diameter, and shall be fitted as straight as possible under the circumstances. The bottom of every such cistern shall be at least five (5) feet above the closet seat, but in cases where this distance cannot be obtained in existing buildings without structural alteration, four (4) feet will be allowed, but the internal diameter of the down pipe must then be one and one half (1½) inches. Every cistern must be fixed so that the ball-tap shall be accessible. Cisterns of all closets must have a separate stop-tap to each. Cistern boards must be in one piece, not less than ten (10) inches deep and one and one quarter (1¼) inches thick.

All water closets inside a main building must be vented either by a soil vent pipe or, if considered necessary, by the Engineer-in-Chief, by back venting the trap at a point near the crown of the trap where directed. Where a closet branch does not exceed fifteen (15) feet in length a two (2) inch back vent may be substituted for soil vent pipe.

In every case where there is more than one closet on an upstairs floor, provision must be made for ventilating in an approved manner to prevent syphonage, and so as to have a current of air continually passing through the soil pipes.

Where there are more than three closets on the ground floor, special provision must be made to prevent syphonage.

Where the branch from the closet to the main soil pipe is not more than three (3) feet in length, and such closet is the only one attached to the soil pipe, the branch may be allowed to remain without any further venting.

Where flap seats are required for water closets, with separate pans and traps, cast-iron brackets must be provided, screwed to, or built into, the back wall of the closet and supported in front by an iron support secured to the floor.

Internal water closets must be provided with storage tanks capable of holding six (6) gallons of water for each occupant of the building. These tanks may be of 22-gauge galvanized sheet-iron, or 24-gauge corrugated-iron. The storage tanks may be placed in the closet room itself, on the roof over a flat or gutter, or an accessible place between the ceiling and the roof, in which latter case a galvanized sheet-iron or lead safe, with overflow, must be fixed under the storage tank. If the owner desires not to provide storage tanks, he must make a request, in writing, accepting all responsibility in the matter.

In wooden closet buildings the stumps, sole plates, bottom plates and plinths must be of redgum or jarrah. Such closets must be made rigid and not attached to fences.

On tiled floors closet pans must be secured to approved wooden plugs fixed in the floor. In brick or concreted floors a redgum or jarrah block not less than twelve (12) inches x twelve (12) inches x three (3) inches (bevelled) but in no case smaller than the base of the pan must be provided, to which the pan must be secured.

In hotels and lodging-houses one water closet must be provided for every ten lodgers the house can accommodate, placed in suitable positions for males and females separately, and in hotels urinal conveniences also must be provided for the public

frequenting the premises. In all other cases water closets must be provided where required, and in accordance with orders issued by the Trust.

A pedestal pan must be used wherever combined water closet, housemaids' slop sink, and internal urinals are required, and in such cases must be provided with hinged tip-up seat. A lead safe of suitable area must be fixed under the pan.

URINALS.

37. Internal cradle urinals must be small, free from projecting ornament, and of non-absorbent material. The waste pipes shall be of pottery ware, lead, or glass enamelled, or coated cast-iron, and be kept as short and free from bends as possible. The waste pipes must be trapped, and deliver out into the open air over a gully trap or into a disconnector trap, except where special permission is given to do otherwise. The urinals must be provided with approved flushing apparatus.

The floors under urinals must be covered with non-absorbent material. The floors of the urinals must be tiled or paved with a fall toward a drain against the wall. The walls behind, and screens between urinals, must be of non-absorbent material, and of approved height. The screens must also be free from the floor for a portion of the width of the division, must project at least one and one half ($1\frac{1}{2}$) feet and be not less than two (2) feet apart. Other forms of urinals will only be allowed if specially approved by the Engineer-in-Chief.

The following materials will be considered impervious:—

- (1) For urinal walls—glazed tiles, brickwork rendered with Portland cement, mortar composed of equal parts of cement and sand, slate, marble, white or brown-glazed fireclay, salt-glazed stoneware, enamel cast-iron, and six (6) lb. sheet lead when joined to a lead floor.
- (2) For urinal floors—glazed tiles, Portland cement mortar, composed of equal parts of cement and sand, slate, marble, and sheet lead.

Urinals inside a building must only be fixed in well-lighted and well-ventilated rooms having at least one external wall and separated from other portion of building by a well-lighted and well-ventilated passage or air chamber.

The positions, approaches, arrangement of lighting, ventilation, &c., for internal urinals, must comply as nearly as possible with this By-law as to internal closets.

In outside urinals, where a floor or urinal disconnecting trap is used, the waste pipe from a single urinal must discharge under the grating.

Outside urinals may discharge into open channels leading to disconnector traps without further trap.

Open channels must not be provided for urinals inside main buildings, except where approved by the Engineer-in-Chief, and where there is ample ventilation and light. Wherever inside urinals are provided the traps must be fitted with ventilating pipes having an internal diameter of not less than one and one quarter ($1\frac{1}{4}$) inches.

By permission of the Engineer-in-Chief, and provided the waste pipe be properly trapped and vented, urinal wastes may be connected directly to the drain, if no soil pipe be convenient, or if it would be expensive to lead them to a disconnector trap.

Wherever inside urinals are provided with wastes and traps, and drippings may become a nuisance, provision must be made to prevent the nuisance by one of the following methods:—

- (a) By a urinal floor trap, with the floor graded to the trap where the floor is tiled or cemented.
- (b) By a suitable sunken tray, trapped and connected with the waste, where the floor is covered with lead.

In either case suitable provision must be made for retaining the seal of the floor trap, and for flushing the surface of tray. A separate trap must be provided to each urinal basin.

URINAL CISTERNS.

38. Flush pipes for cisterns generally must not exceed:—

- | | |
|--|--|
| 1-gallon cistern, $\frac{3}{4}$ -in. dia. | } With branches as directed
by the Engineer-in-Chief. |
| 2-gallon cistern, 1-in. dia. | |
| 3-gallon cistern, $1\frac{1}{4}$ -in. dia. | |

The height of cisterns must, except by special permission, be at least six (6) feet six (6) inches from the floor to the bottom of the cistern. The cistern must be so fixed that the ball-tap shall be accessible.

Pull and chain flushing cisterns, or other approved apparatus operated by hand, must be fixed on all urinals.

The discharge must be equal to one gallon for each urinal stall, except where otherwise allowed by the Engineer-in-Chief.

In a combination of two urinals, one 2-gallon cistern may be used.

A separate stop-tap must be provided for each urinal cistern. Where the sparge pipe system of flushing urinals is adopted, such sparge pipes must be of brass or copper, with gun-metal fittings.

HOUSEMAID'S SLOP SINKS.

39. Slop sinks must be of approved material, and be provided with approved flushing arrangements.

The waste pipes from a slop sink must be independently carried out into the open air, with a quick fall, into a full bore ventilated two and one half ($2\frac{1}{2}$) inch down pipe to the ground level, where a gully trap or disconnector trap must take the waste to the drain, or branched into a soil pipe as near the fitting as possible; and the sink must be trapped with a trap well opened out into a deep cone to receive the sink basin, and having a two and one half ($2\frac{1}{2}$) inch seal, and also a brass cleaning screw under the water line. Draw-off traps must not be used directly over slop sinks, unless at least eighteen (18) inches above the sink.

Wherever a slop sink is connected to a soil pipe it may be treated in the same way as a closet as regards the ventilation. All insanitary slop sinks must be abolished.

KITCHEN AND SCULLERY SINKS AND TROUGHS.

40. Unless where otherwise specially approved, kitchen and scullery sinks and wash troughs must discharge into the open air over a gully trap or into a disconnector trap. The trap, main, and branch waste pipes must be not less than two (2) inches in diameter.

The brass strainer must be sunk to the level of the trough. The grating openings must be of ample size to fill the waste pipe full bore.

Where sinks and draining boards thereto abut against walls or partitions of living rooms they must, except by special permission, have suitable lead flashing of not less than five (5) lb. lead carried up the walls not less than four (4) inches, and securely fastened and made water tight. In all buildings where sinks are to be fixed they must be fixed on a frame of three (3) inch x two (2) inch wrought hardwood or oregon or other approved material of equal strength firmly supported on brackets of same material.

Where the distance between the outlets on troughs exceeds twenty-one (21) inches, and lead pipe is used, the pipe must be supported either by a lead tack wiped on the top of the pipe or by wooden block screwed to the bottom of the trough and clamped to the pipe. The pipe passing through the trough must have a lead flange wiped on.

Wherever the end of wash troughs abuts against brickwork of washing copper, the space between the end of trough and the brickwork must be made thoroughly watertight. Troughs, unless otherwise approved by the Engineer-in-Chief, to be supported on frame, halved, fitted and screwed together, legs to be of three (3) inch x three (3) inch wrought jarrah or hardwood, bottom and top plates all round to be of three (3) inch x two (2) inch hardwood. Set of two (2) to have two (2) sets of legs; set of three (3), three sets of legs with one additional cross piece of three (3) inch x two (2) inch jarrah or hardwood.

The use of unlined wooden boxes as kitchen or scullery sinks is prohibited. Before their connexion with Trust's sewers will be permitted, wooden boxes must be lined inside with sheet lead weighing no less than six (6) lb. per square foot, or with sheet copper weighing not less than one and one half ($1\frac{1}{2}$) lb. per square foot.

BATHS AND LAVATORIES.

41. The waste pipe from a bath or set of lavatories must be at least two (2) inches diameter, trapped with a deep syphon trap with a cleansing screw, and provided with a one and one half ($1\frac{1}{2}$) inch vent pipe for the bath, one and one quarter ($1\frac{1}{4}$) inch vent pipe for lavatory. The waste pipe must be carried separately to the open air, and delivered over a gully trap or into a disconnector trap.

The waste pipe and trap from a single lavatory newly placed must be at least one and one-quarter ($1\frac{1}{4}$) inches in diameter, and the area of the grating must be sufficient for the water to effectually scour the waste pipe. The waste pipe must be as short as possible, and discharge over a gully trap or into a disconnector trap.

From two (2) to six (6) lavatories must have at least one and one-half ($1\frac{1}{2}$) inch combined waste pipe; and from seven (7) to twelve (12) a two (2) inch waste.

In all internal lavatories, where syphoning occurs, separate trap ventilation must be provided. In ranges of lavatories in external buildings or rooms isolated from the main building the waste may be ventilated by single pipe at its upper end.

Tip-up basins will not be allowed to be connected with the sewers unless they are already in existence, and are allowed to be retained as existing fittings; the waste pipes from such basins must be two (2) inches in diameter.

Where it is necessary to fix new wastes to galvanized-iron baths, the bottoms of which are unsupported, efficient supports for the baths must be provided before the wastes are fixed.

Where a bath trap is fixed on the outside of a wall it must be in no case more than two (2) feet from outlet of bath, unless with special permission of the Engineer-in-Chief.

Where pedestal baths are to be fixed, and it is not desired to flash them, they must be fixed with a space of at least six (6) inches clear of walls.

SAFES, OVERFLOWS, ETC.

42. Unless where otherwise allowed by the Engineer-in-Chief, every safe under a water closet, urinal, lavatory, bath, refrigerator, sink, or other fixture must be drained by special pipe not directly connected with any waste pipe, soil pipe, drain, or sewer. It must be provided at the outlet into the open air, with flap valves of brass or other approved metal.

Pipes draining safes may discharge into the open air only when the discharge will not cause any inconvenience or nuisance. In all other cases the pipes must be brought to the ground surface, or be arranged to discharge where they will not prove a source of annoyance or inconvenience.

Pipes for bath safes must be of two (2) inches diameter, and those from closet and urinal safes must be of one and one quarter (1 1/4) inches or one and one half (1 1/2) inches, as directed.

A brass grating must be fixed to the inlet of each safe pipe. No steam exhaust, blow-off, or drip pipe shall be connected with the drain or sewer, or with any soil or waste pipe. Such pipes must discharge into the rain water channels.

On special application in writing of the owner, lead safes already in position may be retained as existing fittings.

It shall be compulsory to fix a lead safe or other impervious material under any fitting on an upstairs floor. The weight of lead in all cases to be not less than five (5) lb. per square foot.

Existing bath floors must be regraded if necessary in the opinion of the Trust's inspecting officer, and a proper waste pipe and flap valve must be fixed.

On ground floors where cisterns are fixed over concrete or tiled floors graded to drain outside of the room, the overflow may discharge on to them provided no damage is likely to arise therefrom.

Overflows from cisterns, wherever possible, must be taken through external walls, and must discharge inside the owner's property, but in exceptional cases permission may be given to discharge into a slop sink or other fitting or on to a lead safe which has a drainage pipe attached.

EXISTING FITTINGS.

43. Existing fittings and appliances which are offensive must be removed at once, and all fittings not in accordance with this By-law shall only remain at the distinct request in writing of the owner, and must be removed at any time the Trust so orders.

GRATINGS.

44. The entrance to exit pipes to all fixtures, except water closets, shall be furnished with suitable permanently attached gratings.

CONSENT, SANCTION, ETC., OF THE TRUST.

45. Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of or from the Trust is necessary, whether special, in writing, or otherwise, with regard to any act, matter, or thing mentioned in this By-law, the same may be given by and under the hand of the Chairman of the Trust, or of the Engineer-in-Chief, personally or through an inspecting officer appointed under him, who severally shall be competent to give the same, and authorized on behalf of the Trust, to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given.

VARIATION OF REGULATIONS.

46. No variation from the Regulations contained in this By-law will be allowed except by the special written approval of the Trust obtained previously to the proposed variation being carried out.

OFFENCES AND PENALTIES.

47. Where anything is by this By-law directed to be done, or forbidden to be done, or where any authority is given to the Trust or any of its officers to direct or to forbid anything to be done, and such act so directed to be done remains undone, or such act so forbidden to be done is done, then and in every such case the person making default as to said direction or prohibition respectively, shall be guilty of an offence against this By-law.

Every person guilty of an offence against this By-law, not otherwise specially provided for by or under the authority hereof, shall be liable for every such offence, besides any costs or expenses which may be incurred in the taking of proceedings against such person guilty of such offence as well as any costs or expenses which may be incurred in remedying such default, as particularly provided for in this By-law or the act, to a penalty not exceeding Ten (10) pounds, and to a further penalty of One (1) pound for each day during which such offence is continued by such person after notice of the offence shall have been given by the Trust to him, and such penalty shall be recoverable, notwithstanding that the Trust may not have chosen to exercise any power given to it by the Act or by this By-law to remedy such default.

INTERPRETATION.

48. In the construction of this By-law the meaning which in the Act is assigned to any word shall be the meaning of the same word where occurring in this By-law, unless inconsistent with the subject matter or context.

The foregoing By-law was made and passed by the Geelong Waterworks and Sewerage Trust on the nineteenth day of November, 1925, and the common seal of the said Trust was hereunto affixed on the date aforesaid in the presence of—

ISAAC HODGES, Chairman.
 J. P. McCABE DOYLE,
 (SEAL) H. F. CHRISTOPHER, } Commissioners.
 J. CAIRNS,
 P. G. REILLY, A.I.C.A., Secretary.

Drainage Plan No.

FORM A.—SEWERAGE.

GEELONG WATERWORKS AND SEWERAGE TRUST.

Application for Consent to Connect with the Trust's Sewerage System, or to do Plumbing Work in connexion therewith.

On receipt of consent, notice of intention to start work must be delivered at the office of the Trust at least 48 hours prior to commencing operations.

I hereby apply to the Geelong Waterworks and Sewerage Trust for consent to do the work hereunder mentioned:—

- Precise location of property—
- Description of premises—
- Name and address of owner—
- Name of occupier—
- Name and address of licensed plumber employed to do the work—
- Name and address of licensed drainer employed to do the work—
- Work for which consent is applied—
- Signature of owner or authorized agent—
- Address—
- Date— 19

Only licensed plumbers and drainers are permitted to carry out work applied for in this application.

Drainage Plan No.

FORM B.—SEWERAGE.

GEELONG WATERWORKS AND SEWERAGE TRUST.

Notice to Owner or Agent of Cancellation or Suspension of Plumber's or Drainer's Licence.
 (By-law No. 37, Clause 13b.)

To
 You are hereby notified that the Working Plumber's or Drainer's (as case may be) Licence issued to and held by who is now or has been engaged in or upon the works covered by the above plan has been cancelled or suspended as from the day of 19

You must therefore at once cease to employ the said upon the said works or any other works relating to the sewerage or water supply system under the control of the Trust during the period of cancellation or suspension of the said licence.

Dated this day of 19
 By order of the Trust, Secretary.

FORM B1.—SEWERAGE.

GEELONG WATERWORKS AND SEWERAGE TRUST.

Application for Working Plumber's Licence.

Date—

- Name in full—
- Date of birth—
- Present address—
- Occupation—

I desire to make application for a Working Plumber's Licence and hereby declare that the information supplied by me is true. I agree to be bound by the conditions, by-laws, regulation or rules relating to plumbers or plumbing in connexion with the water supply or sewerage works of the Trust as are now or may hereafter be prescribed by the Geelong Waterworks and Sewerage Trust.

COLLECTION, REMOVAL, AND DISPOSAL OF NIGHTSOIL.

Closets.

- | | |
|--|---|
| Application. | 4. This Part shall not apply to closets connected with a public sewerage system or an approved septic tank system. |
| Suitable sanitary conveniences to be provided for use of occupiers of all premises. | 5. All premises unless connected with a public sewerage system or an approved septic tank system, or which are exempted by the Council, shall have thereon suitable sanitary conveniences for the use of the occupiers of such premises. |
| Position of pan-closets. | 6. No pan-closet shall be erected or constructed on any premises except in such a position as will admit of all nightsoil being from time to time removed from such pan-closet and from such premises without being carried through any dwelling house or public building or through any building or premises in which any person may be employed or may be intended to be employed in any manufacture, trade, or business.
Provided that if the Council is satisfied that in respect of any particular premises it is impracticable to conform strictly with the requirements of this clause the Council shall specify in writing its requirements in the case of such particular premises. |
| Pan-closet to be completely air-disconnected. | 7. Every pan-closet shall be completely air-disconnected from—
(a) every room used for residential or living purposes; or in which any food is stored, prepared, cooked, or served;
(b) every building wherein persons may reside or are or may be employed,
and shall not be within—
(i) 50 feet of any source of water supply within the meaning of the <i>Health Act 1919</i> ;
(ii) 50 feet of any building in which milk or cream is prepared or stored for sale.
Provided always if the size of the allotment does not so permit, the pan-closet shall be placed in such position as the Council in writing may direct consistently with the observance of the aforesaid respective distances as far as practicable.
Subject to the provisions of these Regulations every pan-closet shall be situated conveniently for access by the persons requiring to use it. |
| Prescribed minimum distance of pan-closet from sources of water supply and buildings containing milk or cream. | |
| Permission to construct pan-closet is requisite. | 8. On and after the coming into operation of these Regulations no person shall construct a new pan-closet nor alter the construction of an existing pan-closet on any premises in any city, town, borough, or township unless written notice shall first have been given to the Council by such person so as to admit of the officer charged with such duty inspecting the premises and in the case of a new pan-closet fixing the position of such pan-closet. |
| Construction of pan-closets. | 9. Such notice shall state the design, arrangement, dimensions, and material to be used in the erection or alteration of such pan-closet, which shall conform with the following requirements, viz.:—
Every pan-closet shall have—
(a) its internal dimensions not less than 3 feet 6 inches in width, 5 feet in length, by 7 feet in height from floor line to wall-plate level;
(b) weather-proof walls formed of brick, stone, concrete, or wood or other approved material, and at least two of its walls shall be exposed to the air and the door shall be in one of such walls;
(c) weather-proof roof formed of slates, tiles, galvanized iron, or other approved material;
(d) a properly fitting door capable of being fastened from the inside when shut;
(e) an impervious floor of brick and cement, concrete, flagstone, or other approved material having its surface impervious, horizontal beneath the seat with a gradient downwards from the riser to the front wall half an inch per foot, and shall be nowhere less than 3 inches above the surrounding ground level; |
| Walls. | |
| Roof. | |
| Door. | |
| Floor. | |

- (f) a seat with an ovoidal opening of suitable dimensions, and such opening shall be at least $3\frac{1}{2}$ inches behind the riser and at least 1 inch forward from the back of the pan mouth when this receptacle is in position for use. The upper rim of the pan shall not be more than $1\frac{1}{2}$ inches from the under surface of the seat.

The seat opening shall be provided with a hinged fly-proof cover or lid.

- (g) access to the pan for the purpose of removal from either the interior or the exterior of closet building; the pan door shall be hinged and strongly made, and shall be so placed that when required the pan may be conveniently removed or replaced in its proper position. It shall be kept secured when in the shut position by means of a suitable fastening, and it shall be kept shut when not required for the prescribed removal or replacement of pan; Access.
- (h) the space under the seat fitted with guides and stops so that the pan may be easily introduced into its proper position; Pan guides and stops.
- (i) the space under the seat when the pan door and the lid covering the opening in the seat are shut, fly-proof, and a fly-proof air-grating situated in the lowermost part of an external wall having a clear airway of at least 12 square inches and an upcast outlet ventilator not less than 12 square inches in cross sectional area extending from beneath the soffit of the seat to above the roof; Interior of pan cabinet.
- (j) every outlet ventilator shaft as aforesaid extending vertically to such a height that the mouth of the shaft shall be at least 6 feet higher than any adjacent window, door, or other opening of any habitable or occupied room. Outlet ventilator to be remote from windows of houses.

10. The proprietor of any premises upon which there is any pan closet which is not in accordance with the provisions of these Regulations shall, when required by the Council, alter, demolish, or remove such pan-closet and provide a pan-closet which is in accordance therewith. Pan-closet to be in accordance with these regulations.

11. Every pan closet to which these Regulations apply shall be kept provided with a pan in accordance with the requirements of the Council's By-law. Pan to be provided.

12. The Council shall, at least once a week, cause the pan in use to be closed with a tight-fitting lid and removed with its contents from the premises and another pan, thoroughly cleansed and in good order, to be left in its place. Periodic removal of pans.

NIGHTSOIL.

13. All nightsoil collected by the Council or by its contractor shall be disposed of in an efficient and approved manner at an approved dépôt. Disposal of nightsoil.

14. No land shall be used as a nightsoil dépôt unless it complies with the prescribed requirements. Dépôt to comply with prescribed requirements.

15. In any case where considered necessary by the Council or the Commission as the case may be the land wherein nightsoil is deposited shall be adequately protected by means of catchwater drains or other approved means against incursion of storm waters. Site to be protected against incursion of storm waters.

16. No land shall be used for the deposit of nightsoil unless it is above flood-level and provision is made for the interception of drainage therefrom and for the effective disinfection or purification of such drainage before it is allowed to flow beyond the boundary of such land; nor unless such land is so kept and maintained as not to be a nuisance, dangerous to health, or offensive. Provision to be made for interception of drainage from site and for the effective disinfection and purification of such drainage.

17. No nightsoil shall be placed deposited spread or disposed of in any catchment area of any public or domestic water supply or on or in any land at a distance of less than—

- (a) 880 yards from any dam reservoir river or open channel containing or conveying water of a public or domestic water supply; Prescribed minimum distances of nightsoil burial sites from sources of water supply and buildings containing milk or cream.
- (b) 440 yards from any building or place in which cows the milk or milk products of which are sold are milked or in which milk or cream is cooled or stored for sale.

Nightsoil not to be deposited in any orchard while fruit is on the trees.

18. No person shall deposit nightsoil in any orchard while fruit is on the trees nor shall any person plant vegetables or seeds of vegetables in or on land wherein any nightsoil has been deposited until three months shall have elapsed since the last deposit of nightsoil in such land.

Trenches to be properly constructed.

19. No person shall deposit nightsoil in or on any approved land unless in a trench properly constructed in accordance with the By-laws of the Council nor in or on any land situated in any Shire to which the provisions of sub-section (1) of section 45 of the *Health Act 1919* shall have been applied.

Isolation zone.

20. No nightsoil or other offensive matter shall be deposited within 50 feet of any boundary fence or line of land used as a nightsoil dépôt.

Used trenches to have at least one year's rest.

21. No land in which nightsoil has been deposited shall be used a second time for the same purpose until such nightsoil is completely nitrified, but in no case within one year of the last deposit.

Land used for nightsoil disposal not to be used within three months thereafter for pasturing cattle.

22. No person shall use or permit or suffer to be used any land in which nightsoil has under these Regulations or otherwise been deposited for the grazing or accommodation of cattle within three months from the date of the last deposit therein of any nightsoil.

Such land in every case not otherwise provided for herein shall be protected against entrance of cattle.

Ground used for nightsoil disposal to be grassed or otherwise planted.

23. Land in which nightsoil has been deposited shall be seasonably planted or sown with seed of grass or any forage or cereal crops or other such form of vegetable life as the Council shall direct or approve.

Other methods of disposal of nightsoil are permissible.

24. Nothing in these Regulations shall prevent any Council from disposing of nightsoil by any means of desiccation incineration destructive distillation or by any means of treatment with absorbent compounds or chemicals or by discharging into a sewer connected with any public sewerage system or with an approved septic tank system or by any other method provided that such method shall first be approved in writing with or without conditions by the Commission.

Water supply and cleansing plant to be adequate.

25. An adequate supply of water and an approved plant of adequate capacity for cleansing all pans and vehicles and apparatus by an approved method shall be provided at every nightsoil dépôt.

URINALS.

Urinals to be provided if required by Commission or Council.

26. The proprietor shall when required by the Commission or the Council (as the case may be) provide adequate approved urinal accommodation constructed in such a manner and provided with such receptacles as may be directed by the Commission or the Council.

General applicability of these Regulations and councils' by-laws to urinals.

27. The positions and ventilation of urinals and the conditions regarding number size removal transport emptying cleansing coating and replacements of pans required for use in urinals shall as nearly as possible conform with the provisions prescribed by these Regulations or By-laws of the Council as applying to pan-closets.

PUBLIC SANITARY CONVENIENCES.

Screening of sanitary conveniences.

28. The interior of all closets and urinals shall be properly and effectively screened from the public view.

Separation of sexes.

29. Public closets and approaches thereto intended for use by persons of different sex shall be decently separated for the sexes.

Conveniences to be conveniently placed and maintained in cleanly condition.

30. Closets and urinals established by the Council for public accommodation shall be placed in positions conveniently accessible to the public and maintained in proper repair and condition and in a cleanly state.

Conveniences not to be fouled or damaged.

31. No person shall foul any portion of such public closet or urinal nor stand upon any portion thereof other than the floor nor derange or interfere with or damage any portion of the structure or fittings of any such sanitary convenience nor waste nor remove therefrom any toilet paper or deodorant provided therein.

Not to be defaced or written upon.

32. No person except by authority of the Council shall write upon paint print stencil place or affix any letter figure device poster sign or advertisement or otherwise deface the structure or fittings of any such sanitary convenience.

To be adequately lighted after dark if open to public.

33. All closets and urinals to which the public have access after dark, whether situated on private premises or otherwise, shall during such time be kept adequately lighted.

Attendant to be employed by council.

34. The Council shall employ a suitable attendant or attendants as circumstances shall require for the proper oversight of such public sanitary conveniences aforesaid and for the administration and enforcement of the provisions herein concerning the same.

PART III.

COLLECTION, REMOVAL, AND DISPOSAL OF REFUSE.

35. The proprietor of every house building or premises in any city town, borough or township shall provide and keep thereon a receptacle or receptacles for temporarily storing and holding all refuse produced or accumulated in or about such house building or premises. Such receptacle or receptacles shall be of such material shape size and dimensions as may be specified by the Council in any By-law. Proprietor to provide receptacles.
36. The Council shall cause the contents of such receptacle to be removed at least once in each week or at such greater frequency as may be required by the Council. Contents of receptacles to be removed at least once a week.
37. All refuse collected by the Council or by its contractor shall be disposed of in an efficient and approved manner at an approved tip incinerator or destructor. Refuse to be disposed of in approved manner.
38. No site shall be approved as a tip for depositing refuse unless it complies with the prescribed requirements of the Commission or Council. Site of tip to be approved.
39. In any case where considered necessary by the Council or Commission as the case may be the land wherein or whereon refuse is deposited shall be adequately protected by means of catchwater drains or other approved means against incursion of storm waters. Catch-water drains.

VOTING BY POST AT MUNICIPAL ELECTIONS.

Division 13 of Part V. of *The Constitution Act Amendment Act 1915* (No. 2632), as amended by Division 2 of Part II. of the *Electoral Act 1923* (No. 3331), made applicable to Municipal Elections of Councillors under the provisions of section 148 of the *Local Government Act 1915* (No. 2686).

At the Executive Council Chamber, Melbourne, the seventh day of December, 1925.

PRESENT:

His Excellency the Governor of Victoria.

Mr. Allan
Dr. Argyle

Mr. Eggleston
Mr. Goudie.

HIS Excellency the Governor of the State of Victoria, with the advice of the Executive Council thereof, and pursuant to the petition of the Council of the Shire of Blackburn and Mitcham, doth by this Order, under the provisions of section 148 of the *Local Government Act 1915* (No. 2686), direct that the provisions of Division 13 of Part V. of *The Constitution Act Amendment Act 1915*, as amended by Division 2 of Part II. of the *Electoral Act 1923* (No. 3331), applicable and severally hereinafter set out, shall apply to the election of councillors for the said municipality, with the alterations of such provisions as are shown below, the same being alterations deemed necessary for the purpose of carrying into effect such provisions as so applied.

VOTING BY POST.

Obtaining of Forms of Application for Postal Ballot-papers.

271. (1) Any ratepayer for any municipality in which an election is about to be held whose name appears on the voters' roll for such municipality who satisfies the returning officer—

- (a) that he resides at least 5 miles from the nearest polling place at which he is entitled to vote; or
- (b) that he has reason to believe that on the polling day during the hours of polling he will not be within 5 miles of the nearest polling place at which he is entitled to vote; or
- (c) that on account of ill health or infirmity he will be prevented from voting personally at any such polling place,

may before the polling day make application in the form in the 25th Schedule or to the like effect to the returning officer for such municipality for a postal ballot-paper enabling him to vote through the post at such election instead of attending personally to tender his vote thereat.

(2) In the case of an application on the ground that he has reason to believe that on the polling day, during the hours of polling, he will not be within 5 miles of the nearest polling place at which he is entitled to vote, the applicant shall state in his application the reason for such belief.

Application to be Signed in Presence of Authorized Witness.

(3) With respect to applications for postal ballot-papers the following provisions shall have effect:—

- (a) The following directions with respect to such applications shall be substantially observed:—
 - (i) When so much of the form of application as precedes the places for the signature has been filled in and otherwise completed, the ratepayer shall exhibit his form of application to an authorized witness;
 - (ii) The ratepayer shall then, in the presence of the authorized witness, sign his name in his own handwriting on the form of application in the place provided for the signature of the ratepayer; and
 - (iii) The authorized witness shall then sign his name in his own handwriting in the place provided for the signature of the authorized witness, and shall add the title under which he acts as an authorized witness, his residence, and the date;
- (b) An authorized witness shall not witness the signature of any ratepayer on any application for a postal ballot-paper unless the authorized witness—
 - (i) has satisfied himself as to the identity of the ratepayer;
 - (ii) has seen the ratepayer sign the application in the ratepayer's own handwriting; and
 - (iii) knows that the statements contained in the application are true, or has satisfied himself (whether by inquiry from the ratepayer or otherwise) that the said statements are true.

Authorized Witness Not to Induce, &c., Persons to Apply for Postal Ballot-papers.

(c) An authorized witness shall not persuade or induce, or associate himself with any person in persuading or inducing any person to make application for a postal ballot-paper.

Authorized Witness Not to Visit Ratepayer to Witness Signature to Application except on Account of Ill Health or Infirmity.

(d) An authorized witness shall not—

- (i) visit any ratepayer for the purpose of witnessing the signature of such ratepayer to his application for a postal ballot-paper; or
- (ii) witness the signature of any ratepayer to any such application in any place other than the ordinary residence or place of business of the authorized witness:

Provided that if any ratepayer desires to make application for a postal ballot-paper, and is unable on account of ill health or infirmity to present himself before an authorized witness, any member of the Police Force or other authorized witness, when so requested by any such ratepayer in writing, may visit such ratepayer for the purpose of witnessing his signature to such application.

Penalty.

(e) Any authorized witness guilty of any contravention of or failure to observe any of the provisions of this subsection shall be liable to a penalty of not more than One hundred pounds, or to imprisonment for a term of not more than three months.

(f) A list containing the names of all applicants for postal ballot-papers and the respective addresses to which they have been requested to be sent, shall be posted for public inspection outside the office of the returning officer of the district for which they are issued.

On Application, Returning Officer to Supply Postal Ballot-paper.

273. (1) (a) On receiving from any ratepayer an application for a postal ballot-paper, the returning officer having ascertained that the name of the applicant is upon the voters' roll to be used at the election for the municipality specified in the application, and that the applicant is not prohibited from voting, and if satisfied that the application is properly signed by the applicant and is properly witnessed, and that the applicant is entitled according to the statements contained in his application to a postal ballot-paper, shall deliver to the applicant or post to him at the postal address named in the application a postal ballot-paper (with a counterfoil attached), or if such voter appears by the roll to be entitled to give more votes than one, then so many ballot-papers as may be equal to the number of votes not exceeding three which such voter so appears to be entitled to give in the form of the 26th Schedule or to the like effect, together with an envelope addressed to such returning officer at the polling place at which he intends to preside. Such envelope shall be marked "Postal Ballot-paper."

(b) If the returning officer is not satisfied that the application is properly signed by the applicant, or that the application is properly witnessed, or that the applicant is entitled to vote by post, he shall forthwith post to the applicant a notice in the form of the 27th Schedule or to the like effect.

Folding of Ballot-paper.

(2) Each ballot-paper before being enclosed shall be folded to the counterfoil.

Effect of Immaterial Error.

274. No application for a postal ballot-paper shall, if properly signed by the applicant and properly witnessed, be deemed insufficient or invalid by reason only that in such application there is an omission or incorrect or insufficient description or misdescription in respect of any of the particulars required by law to be contained therein, if the returning officer is satisfied that the applicant is entitled to a postal ballot-paper.

Initialing and Numbering of Ballot-papers.

275. (1) The returning officer shall—

- (a) initial each postal ballot-paper issued;
- (b) write on the back thereof the number and figures and special mark required by section 141 of the *Local Government Act 1915*, and in the manner thereby respectively prescribed;
- (c) keep and number the applications therefor in consecutive order, writing the corresponding number on the counterfoil of the ballot-paper.

(2) On the counterfoil the returning officer shall also write the number on the voters' roll of the ratepayer to whom the postal ballot-paper is issued.

Record of Issue of Voting by Postal Ballot-paper.

276. (1) The returning officer shall on the voters' rolls to be used at the election for the municipality to which such postal ballot-paper relates note opposite the applicant's name wherever it appears the fact that such postal ballot-paper has been issued to such applicant, and the date of such issue.

Notification to Presiding Officers.

(2) In case there is not time to note the fact of the issue of any postal ballot-paper on every such roll on which such applicant's name appears which is to be used at the election, the returning officer shall in such manner as he thinks fit immediately notify such issue to the deputy returning officer at every polling place for such municipality at which a roll is to be used on which such applicant's name appears.

Mode of Voting by Means of Postal Ballot-papers.

277. The following directions for regulating voting by means of postal ballot-papers shall be substantially observed:—

- (1) The elector shall exhibit his postal ballot-paper (in blank) to an authorized witness;
- (2) The elector shall, in the presence of the authorized witness, write the surname of the candidate for whom he votes, but so that the witness cannot see the vote;
- (3) In the case of more candidates than one having the same surname the elector shall also insert in the ballot-paper the christian or other names of the candidate for whom he votes, and if the surname and christian or other names of two or more candidates are the same they shall be distinguished by the addition of their residence and occupation;
- (4) If the elector's sight is so impaired that he is unable to vote without assistance, the authorized witness, at the request of the elector, shall mark his vote on the ballot-paper, and shall (if the elector so desires) mark the same in the presence of another person;
- (5) The elector shall then refold the ballot-paper and fasten the same;
- (6) The elector shall then sign his name in his own handwriting on the counterfoil in the place provided for the signature of the voter;
- (7) The authorized witness shall then sign his name in his own handwriting in the place provided for the signature of the witness, and shall add the title under which he acts as an authorized witness, his residence, and the date;
- (8) The elector shall then place the ballot-paper with the counterfoil attached into the envelope addressed to the returning officer, fasten the envelope in the presence of the authorized witness, and post it.

Duty of Authorized Witness.

278. (1) The authorized witness shall—
- (a) see that the foregoing directions are substantially complied with;
 - (b) refrain from looking at the vote given by the elector, except where the elector cannot vote without assistance and the elector requests his assistance;
 - (c) not disclose any knowledge officially acquired by him touching the vote of the elector, save in answer to some question which he is legally bound to answer, or in compliance with the express provisions of the law relating to municipal elections.

Witnessing Signature to Postal Ballot-paper or Counterfoil.

- (2) An authorized witness shall not—
- (a) visit any elector for the purpose of witnessing the signature of such elector to his postal ballot-paper;
 - (b) witness the signature of any elector to his postal ballot-paper in any place other than the ordinary residence or place of business of the authorized witness; or
 - (c) witness the signature of any elector to his postal ballot-paper unless the authorized witness has satisfied himself as to the identity of the elector, and has seen the elector sign the counterfoil in the elector's own handwriting.

Provided that if any elector has received a postal ballot-paper, and is unable, on account of ill health or infirmity, to present himself before an authorized witness, any member of the Police Force or other authorized witness, when so requested by any such elector in writing, may visit such elector for the purpose of witnessing his signature to such postal ballot-paper.

Penalty.

(3) Any authorized witness guilty of any contravention of any of the provisions of this section shall be liable to a penalty of not more than One hundred pounds, or to imprisonment, with or without hard labour, for a term of not more than three months.

Mistakes in Spelling Immaterial.

279. No postal ballot-paper shall be rejected because of any mistake in spelling the name of a candidate if the intention is clear.

Ratepayer who has Received Postal Ballot-paper Not to Vote Personally Without Giving up Such Paper.

280. (1) No ratepayer to whom a postal ballot-paper for any election has been sent shall be entitled to vote personally at any poll unless he previously gives up such postal ballot-paper in blank form to the returning officer or deputy at the polling place at which he is entitled to vote.

(2) Such officer shall immediately cancel such postal ballot-paper and retain it.

Provision when Elector Claims to Vote, although Postal Ballot-paper already issued.

281. (1) If any elector to whom a postal ballot-paper appears to have been sent states that he has not received such postal ballot-paper and claims to vote personally at any polling-place within the municipality to which such postal ballot-paper relates the returning officer or deputy at such booth may take from such elector a declaration in the form of the Twenty-eight Schedule or to the like effect. Thereupon such elector shall be entitled to vote personally at such poll and his vote shall be taken in the ordinary way.

(2) If such vote is received by the deputy returning officer he shall immediately advise the returning officer of the fact of such elector having voted personally and shall forward the declaration to the returning officer with the ballot-papers, and if any postal ballot-paper purports to have been received from the same elector such postal ballot-paper shall be rejected at the counting of the votes and the returning officer shall state thereon the reason of such rejection.

Additional Question to be put on Tender of Vote Personally.

282. (1) The returning officer or deputy shall before any person personally tendering his vote at any election for any municipality receives a ballot-paper (but not afterwards), put to such person the following question in addition to any others he may lawfully put:—

Have you received a postal ballot-paper enabling you to vote at the election for a councillor or councillors for the Shire of Blackburn and Mitcham to-day? [In the case of an adjourned poll the day from which the poll was adjourned should also be named in the question.]

Refusal, &c., to Answer.

(2) If any person having tendered his vote when such question is put as aforesaid or refuses or omits distinctly to answer the same, or if he answers the question in the affirmative but does not deliver up his postal ballot-paper in blank form he shall be and be deemed prohibited from voting then and afterwards at such election, and shall be guilty of an offence, and shall be liable to a penalty of not more than Twenty pounds or to imprisonment with or without hard labour for a term of not less than one month.

Penalty for False Answer.

(3) If any person wilfully makes a false answer to such question put as aforesaid he shall be guilty of an offence, and shall be liable to a penalty of not more than Fifty pounds or to imprisonment with or without hard labour for a term of not more than three months.

Inclusion of Votes through the Post at Close of Poll.

283. When immediately upon the close of any poll the returning officer is proceeding to ascertain the number of votes for each candidate, the returning officer shall produce unopened all envelopes containing postal ballot-papers received by him through the post up to the close of the poll, and such envelopes shall be opened in the presence of the scrutineers present and poll clerk (if any) but of no other person and shall be dealt with as follows, namely:—

- (a) The returning officer shall produce all applications for postal ballot-papers;
- (b) The returning officer without unfolding each postal ballot-paper or allowing it to be inspected shall compare the signature of the voter on the counterfoil with the signature to the application and allow the scrutineers to inspect the same and the returning officer shall determine whether or not the signature on the postal ballot-paper is that of the applicant;
- (c) If the postal ballot-paper is allowed by the returning officer he shall tear off the counterfoil without seeing the names of the candidate or candidates voted for, and shall insert the folded postal ballot-paper in a ballot-box separate from that used during the polling; and when all such postal ballot-papers have been so inserted the counting of the votes recorded therein shall commence;
- (d) Any postal ballot-paper not witnessed as required by this Act shall be disallowed by the returning officer;
- (e) The returning officer shall attach all the counterfoils together;
- (f) The list of the number of votes received by each candidate shall show separately the votes tendered personally and the votes given by postal ballot-papers;
- (g) If the returning officer disallows a postal ballot-paper then such ballot-paper shall be included in the sealed parcel of ballot-papers set aside for separate custody and shall be transmitted to the clerk of the municipality.

Certain Offences to be Bribery.

285. The following persons shall be deemed guilty of bribery:—

- (a) Every person who directly or indirectly makes overtures to any person for the acquiring by gift or purchase or who acquires by gift or purchase from any person any postal ballot-paper; and
- (b) Every ratepayer who directly or indirectly makes overtures to any person for the giving away or parting with the possession of or selling any postal ballot-paper or who gives away any such paper or who sells or (except as in this Division provided) parts with the possession of any postal ballot-paper.

Making False Application a Misdemeanour.

286. If in any application for a postal ballot-paper any person makes any false statement or if any person applies for a postal ballot-paper to which some other person is entitled he shall be guilty of a misdemeanour and shall be liable to imprisonment with or without hard labour for a term of not more than two years.

False Declaration Perjury.

287. Any person who wilfully makes and subscribes any declaration for the purposes of this Division the same being untrue or false in any particular shall be deemed to be guilty of wilful and corrupt perjury.

Inducing Disclosure of Vote by Post, &c., an Offence.

288. Any person who—

- (a) directly or indirectly requires induces or attempts to induce any person to show by producing his postal ballot-paper for whom he intends to vote at any election; or
- (b) unless authorized by this Division writes the name or names of any candidate or candidates in any postal ballot-paper not issued to such person; or
- (c) opens any envelope addressed to a returning officer not being duly authorized so to do by such returning officer—

shall be guilty of an offence and shall be liable to imprisonment with or without hard labour for a term of not more than one year.

Inducing Persons to Vote for any Particular Candidate.

289. (1) Any person who requires induces or attempts to induce any person in his employment to obtain a postal ballot-paper with the intention of influencing such person by bribery or intimidation to record his vote in favour of any particular candidate he shall be guilty of an offence and shall be liable to a penalty of not more than Fifty pounds to be recovered in a summary way before a court of petty sessions by any person who sues for the same.

(2) Bribery or intimidation shall for the purposes of this section include any promise or threat either expressed implied or understood of any benefit or disadvantage to accrue directly or indirectly to such person from such first-mentioned person.

Authorized Witnesses.

290. The following persons being resident in Victoria shall be authorized witnesses in and for Victoria within the meaning of this Division:—

- (a) All returning officers and electoral registrars appointed under any Act relating to elections for the Legislative Council or the Legislative Assembly; all postmasters or postmistresses or persons in charge of post offices; all police magistrates; all justices; all commissioners for taking declarations and affidavits; all head teachers of State schools; all members of the Police Force; all clerks of petty sessions; all railway stationmasters; all councillors of and the clerk or secretary of any city, town, borough, or shire; all barristers and solicitors; and all legally qualified medical practitioners
- (b) All persons or classes of persons employed in the Public Service of Victoria who are appointed by the Governor in Council to be authorized witnesses within the meaning of this Division.

No Person who is a Candidate at any Election shall be an Authorized Witness at any Election.

57. Act 3331.

 Mr. Allan | Mr. Eggleston
 Dr. Argyle | Mr. Goudie.

HIS Excellency the Governor of the State of Victoria, with the advice of the Executive Council thereof, and pursuant to the petition of the Council of the Municipality of the Shire of Blackburn and Mitcham, doth by this Order, under the provisions of section 148 of the *Local Government Act 1915* (No. 2686) as amended by section 3 of the *Local Government Act 1918* (No. 2981), direct that the provisions of Division 14 of Part V of *The Constitution Act Amendment Act 1915*, applicable and severally hereinafter set out, shall apply to the election of councillors for the said municipality, with the alterations of such provisions as are shown below, the same being alterations deemed necessary for the purpose of carrying into effect such provisions as so applied.

The Constitution Act Amendment Act 1915.

COMPULSORY PREFERENTIAL VOTING.

(Part V.—Division 14.)

How Votes to be Marked by Voter.

292. (1) When at any election for the municipality a person receives a ballot-paper instead of striking out the name of any candidate for whom he does not intend to vote he shall mark his vote on the ballot-paper by placing the figure 1 opposite the name of the candidate for whom he votes as his first preference and shall give contingent votes for all the remaining candidates by placing figures 2, 3, 4 (and so on as the case requires) opposite their names so as to indicate by such numerical sequence the order of his preference.

(2) The candidate opposite whose name the figure 1 is so placed shall be deemed to be the candidate to whom the elector gives his vote for the purpose of the election.

Marking of Ballot-paper where only Two Candidates.

293. Notwithstanding anything contained in this Division, at any election where there are only two candidates—

- (a) the requirements of this Division as to the marking of ballot-papers by electors shall be deemed to be sufficiently complied with in the case of any ballot-paper marked so as to indicate the elector's first preference only; and
- (b) in the case of a postal ballot-paper the elector's first preference shall be deemed to be sufficiently indicated if the surname of only one candidate is written thereon.

Invalid Ballot-papers.

294. (1) A ballot-paper shall under this Division be rejected at the close of the poll if it does not indicate the elector's first preference for one candidate and in the case of any election where there are more than two candidates his contingent votes for all the remaining candidates.

Ballot-papers Not Invalid.

(2) Except as otherwise expressly provided a ballot-paper shall not be rejected for any reason other than the reasons enumerated in this section but shall be given effect to according to the elector's intention so far as his intention is clear.

Returning Officer to ascertain Results of Polling.

295. The returning officer (for the riding) shall in manner hereinafter provided ascertain the total number of votes given for each candidate.

Procedure where only Two Candidates.

296. At elections where there are only two candidates section one hundred and forty-four of the *Local Government Act 1915* shall have full force and effect.

Procedure where more than Two Candidates.

297. At elections where there are more than two candidates the procedure by the returning officer and deputy returning officers for each riding to ascertain the number of votes for each candidate shall be as follows:—

(1) Immediately upon the close of the poll the returning officer and every deputy returning officer at the polling place at which each presides shall in the presence and subject to the

inspection of such of the scrutineers as choose to be present and the poll clerk (if any) and of no other persons—

- (a) open the ballot-box at the polling booth at which he presides; and
- (b) arrange the ballot-papers by placing in separate parcels all those on which a first preference is indicated for the same candidate and the full contingent votes are also given for all the remaining candidates omitting ballot-papers which require to be rejected; and
- (c) count all such first preference votes given for each candidate respectively; and
- (d) make and keep a record of the number of votes counted from each ballot-box; and
- (e) abstain himself from inspecting the writing upon the back of the ballot-papers and take care that the same is not seen by any person.

(2) Each deputy returning officer shall—

- (a) certify a list of the number of such first preference votes given for each candidate at the polling place at which he presides and transmit such certified list to the returning officer together with the ballot-papers and copy of voters' roll as required by section 144 of the *Local Government Act 1915*.

(3) The returning officer shall—

- (a) make out in respect of the polling booth at which he presides a list of first preference votes given for each candidate; and
- (b) seal up in separate parcels in respect of the said polling booth the ballot-papers and voters' rolls in like manner as is required in the case of deputy returning officers.

(4) The returning officer shall as soon as practicable—

- (a) ascertain from the certified lists received from deputy returning officers the number of first preference votes given for each candidate; and
- (b) add the first preference votes so given for each candidate to the votes counted by himself in favour of each such candidate so as to ascertain for the whole shire the number of first preference votes polled by each candidate respectively.

(5) The candidate who has received the greatest number of first preference votes shall if such number constitutes an absolute majority of votes (including the casting vote of the returning officer if necessary) be declared by the returning officer duly elected.

Counting of Votes by Returning Officer.

(6) If no candidate has an absolute majority of votes the returning officer shall upon receipt of the several sealed parcels from the deputy returning officers declare the candidate who has obtained the fewest first preference votes to be a defeated candidate, and with the assistance of such officers as he deems necessary shall (notwithstanding anything contained in the Act) in the presence and subject to the inspection of such of the scrutineers as choose to be present and the poll clerk (if any) but of no other persons then—

- (a) open all the sealed parcels containing used ballot-papers as well as the sealed parcel of used ballot-papers made up by himself; and
- (b) arrange such ballot-papers by placing in separate parcels all those on which a first preference is indicated for the same candidate and the full contingent votes are also given for all the remaining candidates omitting ballot-papers which require to be rejected; and the ballot-papers counted to such defeated candidate shall be distributed among the non-defeated candidates next in order of the voters' preference.

(7) After such distribution the number of votes given to each non-defeated candidate shall again be ascertained.

(8) If no candidate then has an absolute majority of votes the process of declaring the candidate who has the fewest votes to be defeated and distributing his ballot-papers amongst the non-defeated candidates next in order of the voters' preference shall be repeated and the votes recounted after every such redistribution until one candidate has obtained an absolute majority of votes, and such candidate shall then be declared duly elected.

Casting Vote for Exclusion during Progress of Count.

(9) If on any count two or more candidates have an equal number of votes and one of them has to be declared defeated the returning officer shall decide which is to be declared defeated.

Adjournment of Count of Votes to be Announced.

(10) If on the polling day the count of the votes by the returning officer cannot be completed he shall adjourn such count and inform the scrutineers and the officers appointed to assist him at such count as regards the time and place when and where such count will be continued and conducted by him.

(11) The count of the votes may from time to time be adjourned as the returning officer may deem necessary until it has been duly completed; and each adjournment shall be announced by the returning officer to the scrutineers and the officers assisting him.

Before Adjournment Ballot-papers, &c., to be Sealed in Ballot-boxes.

(12) Before every adjournment of the count of the votes—

(a) all ballot-papers and other documents connected with such count shall be placed in one or more ballot-boxes; and

(b) the returning officer shall then in the presence of such scrutineers and officers as are present seal such ballot-boxes or boxes; and before re-commencing the count the seal on such ballot-box or boxes shall be exhibited unbroken to such of the scrutineers and officers as are present.

(13) In declaring a candidate duly elected under this section the provisions of sub-section (5) of section 144 of the *Local Government Act 1915* shall have full force and effect.

Separate Parcels to be Enclosed in Packets according to Class and Sealed, &c.

298. At the conclusion of the count of votes the returning officer shall comply with the provisions of section 145 of the *Local Government Act 1915*.

Deposit Moneys.

299. The moneys paid to the returning officer by or on behalf of the candidates shall be dealt with in manner provided by section 154 of the *Local Government Act 1915* as altered as if in the said section for the word "votes" wherever occurring there were substituted the words "first preference votes."

Voting by Post.

300. When an elector votes by post, then (in lieu of writing on his ballot-paper the surname of the candidate for whom he votes) such elector shall in the presence of the person authorized to witness his signature, but so that the witness cannot see the vote—

(a) first write on the ballot-paper the surname of the candidate for whom he votes in the first instance and mark the figure 1 against such surname; and

(b) also write the surnames of all the remaining candidates underneath such name and record contingent votes for such remaining candidates numbering them 2, 3, 4, and so on in the order of his preference.

(2) Any instructions to electors required by the Act relating to voting by post to be printed on postal ballot-papers shall for the purposes only of this section be altered so far as is necessary to make them correspond with the provisions of this section, and shall as so altered be printed on the ballot-papers accordingly.

COMMITTEE OF MANAGEMENT OF A RESERVE FOR
PUBLIC RECREATION IN THE TOWN OF EDDING-
TON.

WHEREAS by section 184 of the *Land Act* 1915 it is provided that it shall be lawful for the Governor in Council or the Board of Land and Works to appoint and remove any number of persons, not less than three, or any municipal council, or the governing body of any corporation, to be a Committee of Management of any specified Crown land reserved either temporarily or permanently for any of the purposes set out in section 10 of the *Land Act* 1915 and not conveyed to or vested in trustees : Now therefore the Board of Land and Works doth hereby appoint James Donald Peter Forbes, as a Member of the Committee of Management, for the period ending 11th May, 1928, of the reserve for Public Recreation in the Town of Eddington, in the room of George Robert Nixon, resigned.

In witness whereof the common seal of the Board of Land and Works was hereunto affixed this 10th day of December, One thousand nine hundred and twenty-five in the presence of—

(Rs.1730) (SEAL) A. DOWNWARD, President.
W. McIVER, Member.

MALEE LANDS AVAILABLE FOR APPLICATION
UNDER SELECTION PURCHASE LEASE, SECTION
198, LAND ACT 1915, IN THE PARISH OF KIA.

THE land is situated along the Ouyen-Mildura railway line. The northern allotments are served by the railway station at Trinita, and the southern allotments by the railway station at Kiamal, the furthest distance of any allotment from either station being from 4 to 4½ miles.

The land is available for general selection, but no person who has not reached the age of eighteen is eligible to apply.

Applications (with uncanceled Victorian duty stamp of 5s., or postal note for the same amount, affixed) must be made on the usual form, and delivered or forwarded by post to any local Land Officer or to the Under-Secretary for Lands, Lands Department, Melbourne, on or before 16th January, 1926.

Applicants may apply for one or more allotments on one application form.

Applicants will be hereafter notified as to the date and place of hearing of their applications by Local Land Board.

The land will be granted under selection purchase lease, and at the end of six years, if the residence, cultivation, improvements, and all other conditions have been complied with, the lease will be endorsed under the seal of the Board of Land and Works to the effect that such conditions have been complied

with, and at any time within the remaining period of 14 or 34 years, as the case may be, a Crown grant will be issued on payment of the full amount of the purchase money.

The survey fee is £13 15s. per allotment.

A deposit of £5 will be accepted on account of survey fee, the balance to be paid with half-yearly rents in equal half-yearly instalments during the first six years of the lease.

In accordance with section 16, *Land Act* 1920, provision for water storage must be made on the land to the extent of approximately 4 cubic yards per acre within two years from date of lease.

The lease will contain (*inter alia*) conditions to the effect as follows:—

That substantial and permanent improvements shall be made on the land. If in the third class, to the value of Five shillings per acre before the end of the third year from the date of the lease, and the balance of Five shillings per acre before the end of the sixth year of the lease. If in the fourth class, improvements to the value of Two shillings and sixpence per acre must be made on the land before the end of the third year from the date of the lease, and the balance of Two shillings and sixpence per acre before the end of the sixth year of the lease.

That the lessee shall go into residence on the land within twelve months after the date of the lease, and shall reside for at least three years and nine months on, or within 5 miles of, the land during the first six years of the term of the lease, and shall also clear and cultivate at least one-fourth of his allotment within two years from the date of the lease.

That the lessee shall not transfer, assign, mortgage, or sublet or part with the possession, or grant the use of the whole or any part of the allotment during the first six years of the term of the lease, and that after the first six years of the term of the lease the lessee shall not sell, transfer, assign, mortgage, or sublet the whole or any part of the allotment unless and until the lease has been endorsed under the seal of the Board to the effect that all the conditions and covenants of the lease during the first six years thereof have been complied with.

That a special condition shall be inserted in the lease providing that the land referred to therein shall at all times be maintained and used for the purpose of residence or agriculture and grazing, and that no person will be permitted to subsequently acquire or hold, or have an interest in any area in the Mallee country in excess of that quantity of land as set out in section 20 of the *Land Act* 1921.

That the lessee or grantee or owner shall preserve the timber on, or plant an area of not less than three per cent. of the total extent of his holding. (N.B.—Along the exposed boundary lines, viz., the western and southern, would be preferable.)

The value per acre on each allotment set out in the Schedule hereto includes loading for Water Supply and Road purposes.

Plans can be obtained at the Inquiry Office, Lands Department, Melbourne, and at Lands Offices, St. Arnaud, Bendigo, Horsham, and Mildura.

Intending applicants may obtain warrants from any Land Officer authorizing the issue of a railway ticket at half fares for the purpose of inspecting the land.

PRIVATE ADVERTISEMENTS.

CITY OF BALLAARAT.

NOTICE OF MAKING OF BUILDING BY-LAW.

NOTICE is hereby given that the Council of the City of Ballaarat, in pursuance of the powers conferred by the Local Government Acts, and with the approval of the Governor in Council, has made a By-law under the said Acts, numbered 108, for—

- (a) Regulating and restraining the erection and construction of buildings, erections, and hoardings.
- (b) Requiring the pulling down and removal of buildings, erections, and hoardings.
- (c) Authorizing the council to pull down and remove buildings, erections, and hoardings erected or constructed contrary to this By-law, or not pulled down or removed as required by or under this By-law, and to sell the materials and apply the proceeds in reimbursing the expenses of pulling down and removing such buildings, erections, and hoardings, and in paying into the municipal fund any fees or penalties due by the owner thereof.
- (d) Appointing fees which may be charged and received by the council for any act done or to be done by any of its officers under such By-law, and for any permit or licence to be issued by the council.
- (e) Providing that every dwelling-house thereafter erected shall have attached thereto, for the exclusive use of the occupiers thereof, a prescribed area of open land.
- (f) Providing, with respect to buildings thereafter erected, for ventilation and lighting thereof.
- (g) Requiring any work or thing to be executed or done of such materials within such time or in such manner as may be directed or approved in any particular case by the council, or any officer or person authorized in that behalf by the council.
- (h) Prescribing areas within the municipal district as residential areas, and prohibiting or regulating within the whole or any part of any such residential area the use of any land, or the erection (including adaptation for use), or the use of any building for the purposes of such classes of trades, industries, manufactures, businesses, or public amusements as are specified in this By-law.
- (i) Prescribing the minimum area and minimum depth and width of frontage of land upon which any dwelling-house may hereafter be erected.

The said By-law repeals certain regulations and By-laws of the City of Ballaarat and Town of Ballaarat East relating to buildings, and contains provisions relating to the classification of buildings, notice of intention to build, plans, detailed provisions as to buildings generally, and the construction thereof, and as to open spaces, size of allotments, residential and noxious trade areas, small shops, position of buildings relative to boundaries, concrete buildings, frame-building construction, concrete-cased steel construction, reinforced-concrete construction, dilapidated, insanitary, ruinous, or dangerous buildings, removal of buildings, hoardings, and signboards, determination and regulation of matters by the council, enforcement of By-law and penalties, and as to fees payable under the By-law.

A copy of the said By-law is open for inspection, free of charge, during office hours, at the office of the council, Town Hall, Ballaarat. The said By-law has been sealed by the council, and was approved by the Governor in Council at a meeting of the Executive Council held on the thirtieth day of November, 1925.

Dated this 14th day of December, One thousand nine hundred and twenty-five.

By order,

MINING NOTICES.

LAMPEH (SIAM) TIN MINES NO LIABILITY.

AN Extraordinary Meeting of shareholders in the above-named company is hereby convened, and will be held at the Board Room, 31 Queen-street, Melbourne, on Thursday, the twenty-fourth day of December, One thousand nine hundred and twenty-five, at Twelve o'clock noon, when the subjoined resolutions will be proposed:—

1. That of the 200,000 shares of One pound each, constituting the nominal capital of the company, 60,000 of the unissued shares shall henceforth be called preference shares, and that 140,000 (being the 100,000 issued shares and 40,000 of the unissued shares) shall be called ordinary shares. That the said preference shares shall confer on the holders thereof—

- (a) The right to a fixed cumulative preferential dividend at the rate of Ten pounds per centum per annum on the capital for the time being paid up or credited as paid up thereon;
- (b) The right whenever the surplus profits of any year (available for dividend) remaining after payment of such preferential dividend to the close of that year to participate in the surplus profits of the year (available for dividend) rateably with the holders of the ordinary shares and on the basis of the number of such shares without regard to the value thereof or the amount paid up thereon; and
- (c) The right in a winding up to payment off of the capital paid up or credited as paid up on such preference shares and all arrears of preferential dividend whether earned or declared or not up to the commencement of the winding up in priority to the capital paid up or credited as paid up on ordinary shares, and to participate in any surplus assets which may remain after paying off the capital paid up or credited as paid up on ordinary shares *pari passu* with the ordinary shares in proportion to the amounts paid up or credited as paid up on all such shares.

2. That the rules and regulations of the company be altered in manner following:—

- (a) By striking out Rule 6 and inserting instead thereof the following:—

6. The capital of the company is £200,000, divided into 200,000 shares of One pound each, of which said shares 60,000 are preference shares and 140,000 are ordinary shares. The preference shares confer on the holders thereof—

- (a) The right to a fixed cumulative preferential dividend at the rate of Ten pounds per centum per annum on the capital for the time being paid up or credited as paid up thereon;
- (b) The right whenever the surplus profits of any year (available for dividend) remaining after payment of such preferential dividend to the close of that year, to participate in the surplus profits of the year (available for dividend) rateably with the holders of the ordinary shares in proportion to the number thereof without regard to the amount paid up thereon; and
- (c) The right in a winding up to payment off of capital paid up or credited as paid up on such preference shares and any arrears of preferential dividend, whether earned or declared or not up to the commencement of the winding up in priority to the capital paid up or credited as paid up on ordinary shares and to participate in any surplus assets which may remain after paying off the capital paid up or credited as paid up on ordinary shares *pari passu* with the ordinary shares in proportion to the amounts paid up or credited as paid up on all such shares.

(b) By adding at the end of Rule 6 the following rule:—

6. (a) The capital of the company being divided into different classes of shares all or any of the rights and privileges attached to each class may be modified, abrogated, or dealt with by agreement between the company, and any person purporting to contract on behalf of that class provided such agreement is (a) ratified in writing by the holders of at least three-fourths of the nominal value of the issued shares of that class, or (b) confirmed by a resolution passed at an extraordinary meeting of the company by three-fourths of the holders of the shares of that class, and all the provisions hereinafter contained as to meetings shall *mutatis mutandis* apply to every such meeting except that the quorum thereof shall be members holding or representing by proxy three-fourths of the issued shares of that class.

(c) By striking out Rule 47 and inserting instead thereof the following:—

47. Subject as aforesaid the profits of the company which it shall from time to time be determined to divide in respect of any year or other period shall be applied first in paying the fixed cumulative preferential dividend on the capital paid up or credited as paid up on the preference shares to the close of such year or any arrears of such such dividend, and secondly, in paying a dividend for such year rateably on all the shares in the company whether preference or ordinary.

(d) By striking out of Rule 52 the words "in proportion to the number of their shares without regard to the value thereof or the amount paid up thereon" and inserting instead thereof the words "in accordance with their rights and interests".

(e) By striking out Rule 54.

3. That the minutes of the meeting be confirmed.
