VICTORIAN RAILWAYS.

VICTORIAN RAILWAYS COMMISSIONERS.

BY-LAW No. 267.

THE VICTORIAN RAILWAYS COMMISSIONERS, in pursuance of the powers conferred in that behalf under the provisions of the Railways Acts, do hereby make the following By-law, and do hereby repeal so much of the provisions of all previous By-laws as conflicts therewith :—

COMMERCIAL TRAVELLERS' SAMPLES.

1. Commercial Travellers' Samples shall mean articles of merchandise for exhibition as samples and not for sale or disposal, consigned by :—

- (a) Commercial travellers representing exclusively *wholesale firms or companies* who hold a permit issued by the General Passenger and Freight Agent, or a certificate issued by the Commercial Travellers' Association, or—
- (b) Commercial travellers representing *combined wholesale and retail firms or companies* who have signed an approved undertaking (Appendix "C"), and whose travellers hold a permit from the General Passenger and Freight Agent, or a certificate issued by the Commercial Travellers' Association.

2. The samples must be contained in approved tins, hampers or leather sample trunks, each weighing not more than 2 cwt. nor measuring more than 30 cubic feet.

3. Each tin, hamper or leather trunk shall have the name of the firm or company and home station legibly painted thereon in 2-inch letters, and the name of the traveller in 1-inch letters at each end.

In the case of tins and leather trunks a painted space, measuring not less than 5 inches square, or a space of similar dimensions enclosed by painted lines shall be provided at one end to accommodate the railway parcels label to be placed at the right-hand corner under the names of the firm or company and traveller.

For the same purpose hampers must be provided with a tin or leather plate of the above dimensions, to be attached in the position indicated in the preceding paragraph.

If samples be contained in paper or fabric coverings or suit cases, or other receptacles usually used for personal luggage, or in containers in which articles of merchandise are generally packed, ordinary parcels rates will be charged, provided that commercial travellers holding the permit or certificate specified in clause 1 may carry not more than two suit cases. If both suit cases be used for the carriage of samples the name of the firm or company and home station and name of traveller must be legibly painted on the side or end of each suit case; if one of the suit cases be used for the carriage of luggage the information regarding name of the firm, &c., is not necessary on the case so used.

Only one suit case containing samples can be taken by the traveller in the compartment in which he is travelling; the second suit case, if used for the carriage of samples, must be placed in the Guard's van.

Permits.

4. Upon production of an authority from the firm or company concerned, the General Passenger and Freight Agent will issue samples permits, which will be available for the duration of the travellers' tickets, to commercial travellers who are not members of the Commercial Travellers' Association engaged in the exclusively wholesale trade; and also to commercial travellers engaged in the combined wholesale and retail trade on the approved undertaking being signed by the principals of the firms or companies which the travellers represent, and the deposit as security of a sum of One hundred pounds, in cases where Interstate samples are carried and the sum of Fifty pounds in cases where samples are carried in one State only. A deposit of 5s. will be collected on each permit and this deposit less 1s. booking fee will be refunded if the permit be surrendered to the issuing officer during its currency, or within seven (7) days of its expiry. Unless the permit be returned or satisfactorily accounted for another permit will not be issued.

Weight Allowance.

5. Commercial travellers who are in possession of permits or certificates (as prescribed in clause 1) holding first-class tickets will be allowed 2 cwt. of samples free; those who hold second-class tickets will be allowed 1½ cwt. free. Such allowance includes personal luggage.

Assistants.

The same allowance shall be made to assistants travelling with commercial travellers on production of a permit from the General Passenger and Freight Agent.

Excess Samples.

6. Commercial travellers holding the following descriptions of periodical tickets may pay for excess samples at the following rates, for the period covered by their tickets, viz. :—

	*Per cwt.
Yearly ticket-holders ..	£10 12 0 per annum
Half-yearly ticket-holders ..	7 18 0 per half-year
Quarterly ticket-holders ..	4 12 0 per quarter

* Any portion of 1 cwt. shall be charged for as 1 cwt.

The maximum weight for any traveller shall be 17 cwt. inclusive of free luggage allowance; any excess of this weight to be charged for at full parcels rates on outwards and homeward journeys.

All samples in excess of the free allowance or in excess of the weight paid for at the periodical rates, as the case may be, will be charged for at full parcels rates on the bulk weight on the outwards journey by goods or passenger train, and returned free on the corresponding homeward journey over the identical route by which they were sent on the outwards journey. The duplicate of the consignment note for the outwards journey, upon which the total weight of the samples shall be entered by the Railway staff, must be produced by the traveller as authority for the free waybilling of the excess samples on the homeward journey; and such consignment note is to be endorsed by the waybilling-staff on the homeward journey "Free carriage allowed. See waybill No. Date. From. to." In cases where the homeward journey is made by an alternative route, full parcels rates shall be charged for the whole of such homeward journey.

Carriage.

7. The free allowance of samples will be carried by any ordinary passenger train, and, provided there is room in the brake-van, and the train will not be delayed thereby, excess samples may also be forwarded by the same train, otherwise they will be forwarded by a following train. The Commissioners reserve the right to limit the quantity of samples which may be carried by any passenger train if the conditions render it necessary.

The provisions of this clause do not apply to samples tendered for despatch at Spencer-street after the departure of the early passenger trains on Saturday mornings, and such samples will only be received at and forwarded from the Melbourne Goods Sheds.

8. Samples must be consigned on the prescribed consignment note at the Parcels Office at least thirty minutes before the time fixed for the departure of the passenger train by which the samples are to be conveyed, every information being given as to whether the traveller accompanies them or not. Samples consigned by goods train must be delivered at the Goods Sheds before the hours published as the closing time for the receipt of goods for despatch by the goods train by which they are to be conveyed. ^{Method of Consigning.}

The Commissioners have two rates for the carriage of commercial travellers' samples at either of which rates such samples may be consigned at the sender's option; one the ordinary rate, termed the Commissioners' Risk Rate, when the Commissioners take the ordinary liability of a common carrier; the other a lower rate, termed the Owner's Risk Rate, which is adopted when the sender undertakes or agrees to relieve the Commissioners from all liability in the case of detention, loss, injury, delay or damage, except upon proof that such detention, loss, injury, delay, or damage arose through the wilful misconduct of the Commissioners' servants.

The rates chargeable for the carriage by passenger or goods train of commercial travellers' samples consigned at the Commissioners' Risk Rate are the General Parcels Rates specified in the Passenger Fares and Coaching Rates Book, and the rates chargeable for the carriage of such samples consigned at the Owner's Risk Rate are the free and excess rates specified in these regulations.

9. Commercial travellers holding all-lines or sectional periodical tickets for the journey may book their excess samples through on a straight "up" or "down" route (but not for circular journeys), and the journey may be broken for a period not exceeding fourteen (14) days. A receipt (on prescribed receipt form) for the charges, which must be prepaid, and on which shall be shown the stations at which the journey will be broken, shall be issued the traveller at the original despatching station. A duplicate of the Break-of-Journey Note shall be forwarded by the issuing station to the General Passenger and Freight Agent with a weekly return, and the original is to be issued to the traveller and collected and forwarded to the General Passenger and Freight Agent by the station waybilling the samples to the final destination. At stations where the journey is broken the samples shall be carefully reweighed. They will be waybilled through to the final destination by the station of the original departure, the remark "journey broken" being made on the waybill and signed by the waybilling clerk. The samples shall also be waybilled to the first station at which the journey is broken and the traveller shall sign for his samples at each station where he breaks his journey when taking delivery, and on presenting the samples again for transmission shall hand the consignment-note to the station-master, who will issue a separate parcels waybill for the next stage of the journey. ^{Break of Journey.}

Charges will be computed separately for branch lines.

Samples cannot be booked from one main line to another when the journey has to be broken at Melbourne. If it be intended to break the journey at Melbourne, the samples must be booked to that station and rebooked when resuming the journey.

10. Unless otherwise provided, commercial travellers other than half-yearly or yearly ticket-holders must travel by the train by which their samples are carried. ^{Accompanying Samples.}

Cloak Room charges.

11. Where any samples are deposited in any cloak-room the ordinary cloak-room charges and conditions specified in the regulations relating to cloak-room charges will apply, provided that no charge will be imposed on any samples deposited by commercial travellers if such samples are removed within forty-eight hours in the case of holders of yearly and half-yearly tickets, or in the case of holders of other tickets, within twelve hours from the time when the same are deposited as aforesaid, and that the samples remain during the period covered by such free cloak-room storage at Owners' Risk.

Machine Samples.

12. Bicycles, typewriters, cash registers, bacon slicers, and other similar machines are not considered as ordinarily coming under the heading of Commercial Travellers' Samples; but, in bona fide cases, where the machines are provided for exhibition as samples, a special permit may, at discretion, be issued at the office of the General Passenger and Freight Agent entitling commercial travellers to carry not more than two machines. The permit must be presented on each occasion the articles are consigned. The weight of the articles shall be included in the recognized luggage allowance, and the machines must be contained in cases of suitable size.

Sale or disposal.

13. These regulations apply only to goods used bona fide as samples. If the goods, or any portion of them, be sold, or otherwise disposed of, ordinary parcels rates will be charged on the weight originally consigned; and if any samples be not booked in accordance with these regulations they shall be charged full parcels rates.

Tickets.

14. The benefit of these regulations shall not apply to holders of holiday or week end excursion, cheap excursion, or any other form of concession tickets, but shall apply to the holders of single tickets, which must be produced with the consignment note.

Repacking on railway premises.

15. The opening of samples by commercial travellers in Railway Luggage or Parcels Rooms or Goods Sheds for the purpose of repacking samples or abstracting or adding to the contents of receptacles shall not be allowed.

Interstate traffic.

16. The foregoing regulations also apply to Interstate traffic between Victoria, New South Wales and South Australia, except where they conflict with the following in which case the latter shall have effect :—

(a) *Inter-capital journeys*—

1. Application for a permit must be made by the firm or company concerned to the proper officer in the State concerned at least seven days before the date on which the samples are required to be conveyed.

2. A permit, in the form of Appendices "A" and "B" will be issued by the proper officer in the respective States for one return journey only at any one time.

3. The permit must be presented by the approved representative with the railway ticket and consignment note when the samples are delivered for carriage at the despatching station, both on the forward and return journeys.

In the event of the samples carried on the forward journey not being returned by rail to the original despatching station, the amount of the freight which would have been payable if such goods had been consigned with the railway authority concerned on the forward journey for carriage as an ordinary parcel or parcels shall be paid, and, in the event of the samples delivered for carriage on the return journey not being precisely the same samples as were carried on the forward journey, or, if any discrepancy exists in the weight of the samples delivered for carriage on the return journey, as compared with the quantity carried on the forward journey, ordinary freight charges

shall be imposed for the carriage of the samples both on the forward and on the return journeys, as if such goods had been consigned with the Commissioners as an ordinary parcel or parcels; and the onus of proof that a breach of the regulations has not been committed or that an attempt has not been made to commit a breach of the regulations shall rest with the firm or company concerned and which has given the approved undertaking where such undertaking is required and on whose behalf the samples are being carried.

4. These regulations shall also apply to the carriage of articles of merchandise for exhibition as samples and not for sale or disposal consigned with the Commissioners for carriage between the capital cities of Victoria, New South Wales, and South Australia by an approved representative of a *retail firm or company*, provided that such firm or company has executed the prescribed undertaking (Appendix "C") and has obtained for its representative a permit (Appendix "B") issued by the proper authority in the State concerned. A permit will not be issued to more than two representatives of any one retail firm or company for any one particular journey.

(b) *Other than Inter-capital journeys—*

A local permit available for travel in the other State concerned will be issued by the proper officer in the State where the journey is commenced to commercial travellers representing (a) exclusively wholesale firms or companies, or (b) combined wholesale and retail firms or companies, proceeding outside that State to make a series of journeys in Victoria, New South Wales, or South Australia.

(c) *General.*

17. Interstate traffic to or from Queensland, Western Australia, and the Commonwealth Railways shall be subject to the local regulations on such systems for the portion of the journey thereon.

18. Samples must accompany the commercial travellers on Interstate journeys.

19. No Interstate periodical rate is provided for excess samples.

BALLAN WATERWORKS TRUST.

RATING BY-LAW FOR 1925.

THE Commissioners of the Ballan Waterworks Trust do hereby, pursuant to and in exercise of the powers and authorities conferred by the Water Acts, make the following By-law:—

Rating By-law for 1925.

The following are the rates and charges which the occupiers or owners of lands and tenements within the Trust District shall pay for water supplied by the Trust for the year 1925:—

1. For every vacant piece of land which has a separate annual municipal value of any amount, and past which any water main is laid, the sum of Ten shillings (10s.) per annum.
2. For any shop which has a separate annual municipal value of any amount not supplied with water, and past which any water main is laid, the sum of Ten shillings (10s.) per annum.
3. For every house or tenement of under Fifteen pounds (£15) annual municipal value, the sum of One pound five shillings (£1 5s.) per annum.
4. For every house or tenement of Fifteen pounds (£15) and under Twenty pounds (£20) annual municipal value, the sum of One pound ten shillings (£1 10s.) per annum.
5. For every house or tenement of Twenty pounds (£20) and under Twenty-five pounds (£25) annual municipal value, the sum of One pound fifteen shillings (£1 15s.) per annum.
6. For every house or tenement of Twenty-five pounds (£25) and under Thirty-five pounds (£35) annual municipal value, the sum of Two pounds fifteen shillings (£2 15s.) per annum.
7. For every house or tenement of Thirty-five pounds (£35) and under Sixty pounds (£60) annual municipal value, the sum of Three pounds fifteen shillings (£3 15s.) per annum.
8. For every house or tenement of Sixty pounds (£60) and under One hundred pounds (£100) annual municipal value, the sum of Four pounds five shillings (£4 5s.) per annum.
9. For every house or tenement of One hundred pounds (£100) and over annual municipal value, the sum of Four pounds fifteen shillings (£4 15s.) per annum.
10. For water supplied to any house or tenement upon which no annual municipal value is made, the sum of One pound five shillings (£1 5s.) per annum.
11. All water supplied by the Trust by measurement shall be charged for at the rate of One shilling and threepence (1s. 3d.) per thousand (1,000) gallons, but in no case shall the amount to be paid be less than that which would be payable for the premises under its municipal assessment.
12. For every public water trough supplied with water from the works of the Trust, the sum of One shilling (1s.) per annum shall be paid.
13. All public water troughs must be fitted with approved self-acting taps to prevent overflow; such taps to be approved by the secretary for the time being of the said Trust.
14. It shall be unlawful for any person to have an overflow waste pipe from any private bath.
15. The Trust may by notice, in writing, intimate to any owner or occupier using water for other than domestic purposes solely that the water supplied is to be charged by measure, and may by such notice require such owner or occupier to provide a meter within fourteen days after the receipt of such notice; and thereupon such owner or occupier shall, within the time specified, at his own expense, provide a meter.
16. No meter shall be affixed until it shall have been examined and approved, and a certificate from the Board of Works or other authorized person be produced for the inspection of the secretary of the Trust for the time being that such meter is in proper order.
17. Every person requiring to remove or alter the position of any meter shall give six days' notice, in writing, to that effect to the Trust, and a registration of the quantity of water used shall be taken before such removal or alteration is made.
18. If any person who has provided any meter fail to give the notice required of any repairs required for such meter he shall be liable to a penalty not exceeding Five pounds (£5).
19. If any person refuse or delay to have such meter properly repaired and put in correct working order after having been required by any officer of the Trust so to do, the Trust may shut off the supply of water from the premises of such person, either by cutting the service-pipe or otherwise, until such meter shall have been properly repaired and certified by some officer of the Trust as being in proper working order.
20. Any person supplied with water by the Trust who shall permit or suffer water to run to waste, shall be liable to a penalty, or who shall use or allow the water to be used in an unauthorized manner, or who is in arrears with the payment of his water rate, the Trust may, after one hour's notice, cut off the supply of water from the premises of such person either by cutting the pipes by or through which the water is supplied or by any other means that are available, and may cease to supply such premises with water so long as the Trust may think fit.
21. It shall be lawful for any person appointed by the Trust for such purpose to request permission from any owner or occupier to make an inspection of the water service to ascertain if the water is being allowed to run to waste, and, if such owner or occupier refuse permission for such inspection, the Trust may, if it think fit, refuse to supply such premises with water; and such refusal on their part will in no way relieve the owner or occupier from payment of any rate or rates as may be levied on such property.

22. If the person appointed for such inspection shall ascertain that any owner or occupier is allowing water to waste by reason of leaky taps or otherwise, he shall be empowered to authorize the repair of such taps or pipes and to notify such owner or occupier that the waste of water must at once cease.

23. No person shall affix any service-pipe to any pipe of the Trust, or alter or repair or in any way interfere with any pipe of the Trust or any service-pipe, cock, or fitting connected with the pipes of the Trust until he shall have obtained from the Trust permission to execute such work, and such permission shall be at and during the pleasure of the Trust, who may at any time cancel such permission.

24. Any person, whether licensed or permitted as aforesaid or not, who shall require to affix any service-pipe to any pipe of the Trust, or to make any repairs to pipes under the control of the Trust, shall give notice to the secretary of his intention to do so.

25. All connexions from the Trust mains to property shall be made at the expense of the owner or occupier of the property to be supplied, and all repairs or renewals shall, when necessary, be made by the owner or occupier, and such pipes shall at all times be under the control of the Trust.

26. All connexions, pipes, and fittings shall be of the best quality, and approved by the secretary and chairman of the Trust.

27. The service-pipes from the main being the property of the owner or occupier of the tenements supplied by such service-pipes, the occupier (if any), and, if none, the owner, shall, upon receiving notice that his service-pipe requires repairing, immediately proceed to repair the same, and he shall be responsible for any loss of water or other damage which shall be caused by reason of such service-pipe being leaky or otherwise out of repair or broken, and the Trust may stop the water from flowing into such premises in any way it may seem fit until such repairs have been effected.

28. Fire plugs shall not be used except for the purpose of extinguishing fires unless any other use of them be allowed by the Trust, and they shall at all times be under the control of an officer of the Trust.

29. Any person watering any street or footpath by means of a hose except under the direction of an officer of the Trust shall be guilty of an offence against these Regulations.

30. For any breach of these Regulations a penalty not exceeding Five pounds (£5) shall be imposed.

31. The above-mentioned rate is made for one year, commencing on the 1st day of January, 1925, and ending on the 31st day of December, 1925, and shall be payable in two instalments; the first instalment shall be due and payable on the 1st day of May, 1925, and the second instalment on the 1st day of November, 1925. Such person or persons as the Commissioners of the Ballan Waterworks Trust may from time to time appoint for that purpose shall be authorized to demand and receive and collect and recover the said rate.
