No. 62.]

FRIDAY, MAY 15.

[1925.]

Factories and Shops Acts.

DETERMINATION OF THE POTTERY BOARD.

NOTE.—This Determination on the 21st May, 1925, applied to the whole of the State of Victoria.

IN accordance with the provisions of the Factories and Shops Acts, the Wages Board appointed to “determine the lowest prices or rates which may be paid to any persons employed in the trade of making pottery, tiles (other than cement tiles), or pipes, and digging the clay used in connexion therewith,” has made the following Determination, namely:—

- (1) That this Determination shall come into force and be operative on and after the 21st May, 1925.
- (2)

APPRENTICES OR IMPROVERS.

WAGES PER WEEK OF 48 HOURS.

PIECE-WORK WHICH MAY BE FIXED BY AN EMPLOYER.

(7) The Board determines, under the provisions of Section 144 of the *Factories and Shops Act 1915*, that any employer may fix and pay piece-work prices to any person employed in the *glazed pipes and salt-glazed ware, general pottery, tile, and terra-cotta sections of the trade at work for which piece-work prices have not been specified above*, provided that any such employer shall base such piece-work prices on the earnings of an average worker working under like conditions, and such piece-work prices shall be fixed so that an average worker can earn not less than the wages rates that are fixed by the Board for such work.

D. GRANT,
Chairman.

GEO. E. PARR,
Secretary.

Melbourne, 5th May, 1925.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for ensuring transparency and accountability in financial reporting.

2. The second part of the document outlines the various methods and techniques used to collect and analyze data. It highlights the need for consistent and reliable data collection processes to ensure the validity of the results.

3. The third part of the document describes the different types of data that are collected and analyzed. It includes information on both quantitative and qualitative data, as well as the various sources from which the data is obtained.

4. The fourth part of the document discusses the various statistical methods and techniques used to analyze the data. It covers topics such as hypothesis testing, regression analysis, and correlation analysis, among others.

5. The fifth part of the document discusses the various ways in which the results of the analysis can be presented and communicated. It includes information on the use of tables, graphs, and charts to effectively convey the findings.

6. The sixth part of the document discusses the various factors that can influence the results of the analysis. It includes information on the potential for bias and error, as well as the importance of controlling for these factors.

7. The seventh part of the document discusses the various ways in which the results of the analysis can be used to inform decision-making. It includes information on the use of the results to identify trends and patterns, as well as to develop strategies and policies.

8. The eighth part of the document discusses the various ways in which the results of the analysis can be used to improve the quality of the data collection process. It includes information on the use of the results to identify areas for improvement and to develop more effective data collection methods.

9. The ninth part of the document discusses the various ways in which the results of the analysis can be used to improve the quality of the data analysis process. It includes information on the use of the results to identify areas for improvement and to develop more effective data analysis methods.

10. The tenth part of the document discusses the various ways in which the results of the analysis can be used to improve the quality of the data reporting process. It includes information on the use of the results to identify areas for improvement and to develop more effective data reporting methods.
