Vermin and Noxious Weeds Act 1922 (No. 3195).

REGULATION PROVIDING FOR ALLOWANCES TO BE PAID TO CHIEF INSPECTORS, INSPECTORS, AND WITNESSES FOR ATTENDANCE AT COURT OF PETTY SESSIONS AND FOR OTHER PURPOSES.

HIS Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, hereby directs that the following allowances be made to Chief Inspectors, Inspectors, witnesses, and others for attendance at Courts of Petty Sessions and for other purposes under the provisions of the *Vermin and Noxious Weeds Act 1922 (No. 3195)* :—

(1) To an Inspector for attendance at Court, or when employed outside his district—12s. per diem.

This rate is to cover the expense of three meals and lodging over night. The allowance for each meal and for bed shall be one-fourth of the daily rate. The allowance for breakfast, dinner, or tea shall not be granted to any officer unless he commence travelling earlier than or be absent from his head-quarters later than the time or times respectively described hereunder, namely :—

- Breakfast, 7.30 a.m.
- Dinner, 1.30 p.m.
- Tea, 7 p.m.

(2) To an Inspector for attendance at a Court within his district away from head-quarters—

An allowance on the conditions as set out in clause (1).

(3) To a Foreman or Workman for attendance at Court as a witness—

Such sum as is equivalent to his wages, together with an allowance for meals and lodging, as set out in clause (1).

(4) To any other witness for attendance at Court—

Such sum as may be granted by the Court, not exceeding £1 is. per diem.

(5) To a Chief Inspector when acting as a prosecuting officer—

The allowances or rates fixed by the Regulations under the Public Service Act.

TRAVELLING EXPENSES.

Officers and witnesses shall travel by railway whenever practicable, and claim the actual cost of fares. Whenever travelling by railway is not practicable, officers and witnesses shall be repaid the actual cost of the necessary and most economical means of conveyance upon furnishing receipts for such payment.

If own bicycle, motor bicycle, or motor car is used, an allowance of 3d. (threepence), 6d. (sixpence), and 10d. (tenpence) a mile respectively shall be allowed, provided that the amount claimed does not exceed the cost of travelling by the most economical mode of conveyance.

NOTE.—Where wages are paid to foremen or workmen and are also allowed by the Court, such amount so allowed must be forwarded to the Superintendent.

MELBOURNE AND METROPOLITAN BOARD OF WORKS.

NOTICE is hereby given that, after the publication of this advertisement in four consecutive ordinary numbers of the *Government Gazette* and in four numbers of one of the daily newspapers published in the metropolis, the Melbourne and Metropolitan Board of Works will proceed to compulsorily take (unless the same is in the meantime acquired by the Board from the owner or owners or other persons interested by mutual agreement) the land mentioned and described below.

The nature of the works in respect of which the land is proposed to be taken is the construction of an aqueduct and the laying of pipes and other incidental works in connexion with the general water supply to the metropolis, as more fully appears on the plan of the proposed works hereafter mentioned.

A plan of the proposed works will be open for inspection at the offices of the Board, 110 Spencer-street, Melbourne, from the date hereof until the 3rd day of July, 1925, during office hours.

The quantity of land which the Board requires for the purpose of such works and other particulars are set forth below.

The consent of the Governor in Council was duly obtained in terms of the Board's Principal Act (No. 2696), on the 12th day of May, 1925.

(3) The relative positions of the yards lairs and holding pens on the one hand and of buildings containing rooms wherein meat is handled or stored on the other, shall as far as practicable be such that—

- (a) due regard being given to the direction of prevailing winds the said buildings shall not be situated to the lee of the said yards, lairs or holding pens; and

Air-borne effluvia.

Drainage.

- (b) due regard being given to the levels of the ground surface the drainage from the said buildings shall not be directed towards the said yards lairs or holding pens nor shall the drainage from the latter flow towards the said buildings.

*Subdivision (2)—Planning.***Yards lairs and holding pens.**

21. (1) Separate yards lairs and holding pens shall be provided for cattle sheep or lambs and pigs respectively and be so arranged as to prevent contact of animals of different kinds with each other. If a double dividing fence be adopted the included interval shall be at least $2\frac{1}{2}$ feet in width.

(2) Fenced off passageways shall be provided to afford communication from yards and lairs with the corresponding holding pens which shall be connected with the entrances to the cattle-stunning pens pig-stunning or pig-sticking pens and sheep-slaughtering rooms by means of fenced races or lanes (having control gates at each end) at least 30 feet in length having widths tapering (from entrance to exit) from 5 feet to $3\frac{1}{2}$ feet for large cattle and a width of not less than 2 feet for small cattle or for pigs.

**Buildings.
"Separate"
and "Block"
systems.**

22. The planning of the principal buildings shall—

- (1) conform in principle to that of the separate system in which the chief buildings such as slaughterhouses and hanging rooms are aerially separated from each other but connected by covered ventilating passageways permanently open at the ends. Application of the block system in so far as this latter entails attachment of such chief buildings to each other will not be considered except in the case of establishments which are in the opinion of the Commission or Council so small as to warrant a dispensation either in whole or in part of the principle of the separate system and then only provided the slaughtering and dressing room the hanging room the offal and fat room the paunch house and the tripery are separated from each other by complete walls or partitions containing no openings other than such as the Commission or the Council shall decide to be absolutely necessary;

Stock entrances and exits.

- (2) contain provision for the approach or entrance for cattle to the stunning-pen and slaughtering-room being sufficiently remote in the opinion of the Commission or the Council from the hanging setting or pre-cooling room and from any meat chilling or freezing chambers and not through the latter nor through any room containing meat or offal and—

- (3) for the exits for carcasses from the hanging setting or pre-cooling room being sufficiently remote in the opinion of the Commission or the Council from the stunning-pens and slaughtering room and not through such pens nor over the floor of any such room nor through any room containing offal or condemned meat;

Extensibility.

- (4) be such as shall readily admit of the future extension of the principal buildings conformably to the standard herein required;

Carcasses kept on hooks.

- (5) be such that every carcass may be kept on the hooks from the time of its leaving the dressing floor until it leaves the premises and that transfer of meat from the slaughterhouse to the hanging pre-cooling or refrigerating rooms shall be made by means of mechanical arrangements so as to reduce the actual handling of carcasses to a minimum;

Chilling and refrigeration.

- (6) be such in case of proposed installation of plant and rooms for the chilling (cooling to a temperature above freezing point) or refrigerating (cooling to a temperature below freezing point) of meat as to secure as far as practicable a circulation of clean cold dry air in such rooms and round about the carcasses and for reducing to the minimum practicable risk of leakage or other condition that may contribute to the rise of chilling or refrigerating temperatures;

**Floor areas for—
Animals.
Carcasses.**

- (7) be such that the floor areas of the principal buildings shall be based on the following minima allowances:—

(a) for large cattle—

yards lairs and holding pens—at least 30 square feet per head;

stunning pen—not exceeding 2 ft. 7 in. in width x 9 feet in length;

slaughtering and dressing floor—not less than 180 square feet per beast on the floor or carcass being dressed thereon, provided that where the number of beasts or carcasses on such floor at one and the same time exceeds one the floor area per beast or carcass thereon shall be at least 100 square feet;

hanging setting or pre-cooling room—24 sq. feet for every carcass of beef hanging at one and the same time therein unless the official meat inspection

be completed before carcasses are taken to the hanging setting or pre-cooling room in which case the allowance may be reduced to a minimum of 18 square feet;

- (b) for small cattle and pigs:—
 yards lairs and holding pens—at least 8 square feet per head;
 pig-stunning or sticking pen—not less than 64 square feet;
 pig hanging room:—6 square feet for every carcass hanging at one and the same time therein, unless under the conditions of meat inspection mentioned above in which case the allowance may be reduced to a minimum of 4 square feet;
 sheep and lamb slaughtering and dressing floor—not less than 24 square feet per beast being slaughtered and carcass being dressed at one and the same time;
 sheep and lamb hanging setting or pre-cooling room—6 square feet for every carcass hanging at one and the same time therein unless the official meat inspection be completed before the carcasses are taken to the hanging room in which case the allowance may be reduced to a minimum of 4 square feet—

Provided that in all cases the arrangements shall be such that all carcasses suspended in hanging or pre-cooling rooms shall be surrounded with fresh air;

- (8) be such that in addition to the stunning pens slaughtering dressing and hanging setting or pre-cooling rooms ample provision will be made for the accommodation of offal and fat in an offal and fat room and of paunches in a paunch house as well as provision in the shape of sheds for hides skins feet horns and bones also of a changing room of sufficient size for the accommodation of the clothing personal effects and trade tools of the persons employed a lavatory affording ample washing facilities for such persons together with sufficient closet and urinal accommodation and also a shelter for dogs required to be constantly chained when not in use for yarding purposes;
- (9) be such that when required by the Commission or the Council to be provided there may be also erected conformably to the standard herein required—
 a meat inspector's office;
 a shower-bath room supplied with a hot and cold water service;
 a mess room and a room or rooms for accommodation of the clothing of persons engaged in slaughtering or in dressing carcasses on the premises;
 an isolation-pen and slaughter-chambers for animals suspected of being or actually affected with disease; and
 a chamber into which condemned carcasses shall be removed and kept prior to their disposal in manner provided by or under the Act; and
- (10) be such that no living or sleeping room store stables cow-stall cow-bail pig-sty or fowlhouse and no closet urinal blood-pit catchpit or dungstead or any other sanitary convenience shall be included in beneath or above any of the pens floors rooms chambers or sheds before mentioned nor except in such air-disconnected situations and at such distances from other buildings as may be approved.

Offal fat, &c. buildings.

Dog shelter.

Contingent special requirements.

Isolation from certain classes of apartments.

Subdivision (3)—Construction.

23. (1) The walls of all buildings shall be firmly founded and provided with effective damp-proof courses. Those of the slaughtering and dressing-rooms for large cattle shall be solidly built of brick masonry concrete (plain or reinforced). Those of the slaughtering and dressing rooms for small cattle and pigs and all other rooms may subject to the conditions hereinafter set out be constructed of wood or iron.

(2) The internal surfaces of all the external walls partitions and doors of pig-pens stunning or sticking pens isolation pens slaughtering and dressing rooms offal and fat rooms paunch houses triperies and condemned meat rooms shall be impervious and as plain even smooth and as easily cleansed as practicable.

In the case of brick masonry or concrete walls this may be attained by rendering them with suitably proportioned durable and well applied cement and in the case of those constructed of wood by lining them with rubbed slate, slabs or with galvanized sheet iron or other material to be approved the sheets being attached to a solid backing and closely joined.

Angles. The internal angles of the pens and rooms designated above in this Subdivision shall be well rounded out from floor to walls and from wall to wall. Rendering of walls with cement shall only be done whilst they are still green.

(3) In the case of brick masonry or concrete walls the lining hereby required shall extend for a height of at least six (6) feet from the floor line. In the case of smaller walls in hanging setting or pre-cooling rooms the said lining may be limited to a height of not less than three (3) feet from the floor line and the wall continued thence upwards in the form of louvre-boards or blades free from crevices or projections and presenting smooth surfaces rendered impervious by being together with the frames coated with paint or other material free from poisonous ingredients and from decomposable organic matter such as size or glue. The hanging rails and hooks and the rail track system shall be kept back a distance of not less than twenty-four (24) inches from the internal face of the walls throughout the room except where the rails have necessarily to pass into or out of the room. In the case of walls constructed of wood the impervious surface of lining hereinbefore required shall extend to the full height of the room.

Heights. (4) The heights of walls as measured from the floor surface shall be in the case of—

- (a) slaughtering dressing and hanging setting or pre-cooling rooms for large cattle not less than 16 feet;
- (b) slaughtering dressing and hanging setting or pre-cooling rooms for small cattle and pigs not less than 10 feet; and
- (c) cold storage rooms not less than 12 feet for large and 8 feet for small cattle unless otherwise approved.

Splaying and rounding. Where linings or wall facings stop short of the ceilings or tops of the walls in pursuance of these Regulations their upper edges shall be steeply splayed outwards and downwards. The sills of louvred openings shall be likewise splayed. In the case of brick or masonry or concrete walls the angles of the jambs of every doorway and traffic opening shall be bullnosed or otherwise well rounded.

(5) In the case of sheds or shelters for hides skins heads feet horns or bones provided the same are kept away from the walls the latter may have the limited lining and louvre-blade upper structure hereinbefore provisionally allowed for hanging or pre-cooling rooms.

Stunning pen for large cattle. (6) In every stunning-pen for large cattle the lining or facing of every wall and door shall be of a material and thickness proof against damage by animals' horns. The sliding doors thereof shall be impervious on all faces, and when the doors are lined the lining shall be attached to solid backing and be closely jointed. Such doors shall run in grooves formed of steel channel or other approved guides be furnished with end and side friction-rollers and be counter-balanced. All guides and boxings shall be formed so as to be readily accessible for inspection and cleansing.

Fences. (7) The fences of yards lairs pens races or other enclosures shall have their bottom rails six (6) inches clear of the floor surface of such enclosures. For sheep catching-pens the enclosing and division walls and gates may be formed of metal tubing or other construction affording surfaces impervious plain and smooth and which are capable of being easily cleansed.

Man-escape openings. (8) Man-escape openings shall be formed wherever necessary in all fences to yards and races for large cattle.

PAVING AND FLOORS.

Roadways. 24. (1) Roadways on the premises shall be formed graded metalled and well drained to an approved outlet or outlets.

Filling material. (2) Only material of a wholesome character shall be used for filling or levelling-up purposes throughout the premises.

Floor levels. (3) Excepting necessary approaches thereto the surface of every floor or pavement shall be at least three (3) inches above the level of the adjacent ground surface and in all cases where such surface is liable to be fouled it shall have a self-draining gradient to the drains.

Steps. In other respects the necessity for provision of steps shall be reduced to a minimum and where sloped ways are provided they shall not have steeper inclinations than 1 vertical in 5 horizontal.

Large cattle : yards lairs holding-pens. (4) Yards and lairs for large cattle need not be paved except when specially required by the Commission or by a Council to be so protected. Holding pens and all enclosures for holding cattle gathered for the day's slaughter and preparatorily for the admission of the animals to the races leading to the slaughter-house shall be paved with firmly bedded stone setts or with selected flat-faced bricks all joints being well grouted in cement mortar or with other approved material all surfaces being so graded as to readily allow the surface drainage to flow therefrom to open exterior channels formed constructed graded and discharging to an outfall to the satisfaction of the Commission or the Council.

Pig-sties. (5) Floors of pig-sties lairs and -pens may be formed of hard square sound well burnt flat-faced bricks laid with broken joints on a bed of 4 inches of Portland cement concrete having thin joints well grouted in cement mortar

or of other approved construction the surface being graded forwards from the back wall of the sty and to an exterior open channel formed in the margin (not in the centre) of an external passageway and leading to the inlet of a dirt-trap situated outside the sty enclosure. Bedding may take the form of open wooden batten-work the lower scantlings being placed so as not when in position on the floor to obstruct drainage flow the whole being formed in sections of easily handled dimensions and well coated with coal-tar thinned with kerosene and applied hot. False bedding.

(6) The floors of races from pig-sties -lairs and -pens shall be paved as provided for in the case of pig-sties but where inclined shall not have a steeper gradient than 1 in 5 and in order to afford foothold the upper edges of the bricks may be upset provided the depressions so formed are graded outwards right and left to marginal drainage channels formed in the race and discharging to the foul-water drainage system through a dirt-trap. Races.

(7) Where inclined races proposed for the traffic of cattle are formed of woodwork the floor planks shall have transverse edges chamfered and shall be fixed with open joints and coated in the manner above described for the false floors or bedding of sties and the Commission or the Council may require the surface of the ground beneath such races to be paved and drained. Races with wooden floors.

(8) Floors of stunning pens for large cattle shall be formed of bluestone setts firmly bedded on Portland cement concrete laid with as thin joints as practicable grouted with fine cement mortar and shall have fine-axed surfaces graded so as to have a transverse fall of about one in five towards the gratings of the blood-gutter in the dressing floor or such other form of construction as may be approved by the Commission or the Council. A well lighted platform shall be provided over the stunning-pen for large cattle in such a position as to facilitate the slaughterman's operations to the utmost. Large cattle stunning pens.

(9) Floors of pig-stunning or pig-sticking pens and dressing floors for large cattle shall be formed of sawn bluestone of approved thickness bedded laid and jointed as required in the case of stunning pens for large cattle. Pig-stunning pen.
Beef dressing floors.

(10) For the beef-dressing floors all necessary pryth-holes about $\frac{1}{4}$ inch in diameter by $\frac{1}{4}$ inch in depth shall be punched in the slabs of stone before these are laid.

(11) In the case of floors for the slaughter and dressing of sheep and lambs for hanging setting and pre-cooling rooms for offal and fat rooms paunch houses triperies and other similar buildings liable to be fouled a floor covering of mineral asphalt of best quality in the powder form laid upon a bed of 4 inches of Portland cement concrete and consolidated with hot irons shall be provided or such other floors as may be approved by the Commission or the Council. If bricks are used for the floor surface in these rooms or in the sheds for hides and similar articles they shall be specially selected hard square sound well burnt and even in size. Frogs of bricks shall nowhere be exposed. Granolithic paving bedded upon 4-inch thickness of Portland cement concrete of approved proportions upon a layer of fine ashes previously well watered and rolled or other approved form of construction may be used. Sheep slaughter and dressing floors, &c.

(12) All joints in flooring as in work in all other parts of the premises shall be well filled with the jointing material but shall be as thin as practicable. Floor joints.

(13) All floors shall be laid to finish with even surfaces and be evenly graded the fall being as far as practicable directed outwards and so that the drainage therefrom may flow by the shortest possible course to the drainage system outside the buildings. Surface grades.

(14) False floors or mats of wood for the service of the slaughterman may be provided subject to the provisions already made in respect of convenience of size impermeability and non-obstruction of drainage in the case of wooden bedding for pig-sty floors. False floors.

(15) Doors sills shall be formed of hard stone or of such other material as may be specially approved by the Commission or by the Council. Door sills.

(16) Wherever the surface of the ground round about the buildings is or is liable to be subject to damage by traffic it shall be paved or tarmacadamised to even surfaces and self draining gradients to the satisfaction of the Commission or the Council. This provision shall apply to all dungsteads or other similar places of deposit for refuse. All paving liable to be polluted with decomposable organic matter shall be drained to the foul-water drains. Traffic surfaces and dungsteads to be paved and drained.

(17) As far as practicable roof-trusses shall be of single span and without intermediate supports that entail obstruction to drainage of floors or interference with lighting or supervision. Roof trusses of single span.

(18) For the slaughtering and dressing hanging setting or pre-cooling offal and fat rooms paunch house tripery and condemned meat room ceilings shall be provided of such material and construction as will tend to moderate the temperatures of those rooms in hot weather as far as practicable. The spaces between the ceilings and the roof coverings shall be effectually ventilated and shall not communicate with the room. Ceilings.

(19) Every lair and holding pen shall have a portion of its area roofed so as to afford shelter for at least twice the greatest number of cattle (of the several kinds) and of pigs confined therein and to be slaughtered in any one day. Roofs over yards and lairs

Subdivision (4)—Lighting.

Diffusion of light without glare.

25. (1) Every lair pen and room throughout the premises shall be adequately provided with windows or sky-lights or other means to be approved for the admission of daylight to and for its diffusion within such lair pen and room yet so as in the rooms used for slaughtering dressing or hanging purposes to avoid the introduction of undue glare about the workmen or the incidence of the direct rays of the sun upon the meat.

Lighting of chilling and cold storage rooms.

(2) In chilling-rooms cold stores and bacon-cellars where bulkhead electric glow lamps or other approved system is not provided daylight shall be admitted by means of thick dim glass arranged in double sheets with an intervening air insulation or alternatively glass bricks may be used.

Night-lighting.

Naked gas-lights shall not be used for illuminating such rooms.
(3) Provision for adequately lighting the premises by night shall also be made to the satisfaction of an authorized officer if any operations are to be conducted later in the day than half an hour after sunset.

Subdivision (5)—Ventilation.

Ventilation thorough and continuous.

26. (1) Every building throughout the premises shall be amply provided with means to be approved for the thorough and continuous ventilation of such building having regard to the purpose or purposes for which such building is to be used. Such means shall be provided as will independently of all doorways effect at least three times in every hour the complete exchange of the whole atmosphere of each such building independently of other buildings by the admission of fresh air and the discharge of tainted air.

Air ducts.

Where ducts are provided for such purpose they shall have their interior surfaces as smooth and free of obstruction as possible have as straight and direct courses as practicable the necessity for bends being avoided to the utmost and where change of direction is unavoidable this shall be effected by means of curves of bold sweep. Every branch duct shall at its junction with a main duct be inclined towards the direction of the air current in the main duct at an angle not exceeding 30 degrees to secure confluence of air-flow in both ducts. Ventilating appliances of different rooms shall not inter-communicate directly or indirectly unless the direction of the flow of air in such appliances be under complete control. Air-ducts in chilling or refrigerating chambers shall have their interior surfaces formed of material not liable to decay from the effects of condensed moisture. All necessary hoods aprons and upcast shafts tubes or ducts shall be provided for the direct escape to the outer air of vapour from rooms such as pig-scalding and washing rooms and triperies and other rooms wherein such vapour is liberated.

Louvred openings.

(2) Louvred openings provided for ventilating purposes shall have their boards or blades carried by metal pivots turning in approved sockets and furnished with all necessary fiddle-sticks and pull-handles or other means of adjustment. When such blades are formed of iron the latter shall be galvanized of stout gauge and well stiffened.

Upcast shafts.

(3) All up-cast shafts tubes or ducts shall be capped with plain cowls obstructing the flow of air in such shafts tubes or ducts as little as practicable. All ventilation shafts tubes or ducts or other openings and fittings connected therewith shall be so formed and constructed of such materials as to be readily accessible for inspection and cleansing.

Subdivision (6)—Fittings and Appliances.

Handling of carcasses.

27. (1) All requisite fittings shall be provided for reducing the actual handling of carcasses as far as practicable and all necessary hooks for the hanging up of carcasses and edible offal. Hooks shall not be attached directly to woodwork or other absorptive material and shall together with all rollers rails bars switches hangers droppers stays bridging gut-spikes hoists choppers sausage filling machine conveyors and other such appliances be capable of being readily cleansed. All chutes for conveyance or discharge of hides skins offal or other animal matter or refuse shall be as far as practicable of curvilinear form in cross-section and present internally and externally hard smooth impervious and durable surfaces free from projecting rivet heads or other obstruction. They shall have as short straight and direct courses as practicable any unavoidable change of direction being effected by means of curves of bold sweep. They shall be inclined at such slopes only as will readily admit of the gravitation of the material to be conveyed or discharged and shall be accessible for cleansing purposes.

Benches and tables, &c.

(2) All benches tables and similar articles shall be so formed and constructed as to admit of their being readily drained and cleansed and the spaces beneath them shall not be wholly or partially enclosed.

Vats and tubs.

(3) Vats tubs and similar receptacles shall unless sealed beneath against access of offensive matter be blocked up to at least 6 inches above the floor surface on bearers so arranged as to admit of free flow of drainage and of cleansing of the space beneath such receptacles.

Lavatory basins.

(4) All lavatory basins shall have overflows accessible for cleansing shall be set in tops or benches of impervious material such as rubbed slate and shall have all necessary cocks plugs and chains.

(5) All digesters vats or other receptacles used for the treatment or preparation of edible products shall be placed in compartments separated from those used for the treatment or preparation of inedible products, and there shall be no connexion by means of pipes or otherwise between the digesters vats or receptacles or compartments containing edible and those containing inedible products. Separation of edible and inedible offal.

(6) In case provision of a condemned carcass room is required by the Commission or the Council sanitarily constructed trucks of sufficient capacities and appropriately and distinctly marked and fitted with locks and keys to the satisfaction of an authorized officer shall be provided for the collection and transport of diseased meat. Condemned meat trucks.

(7) Food and water troughs for animals shall be of iron or concrete and accessible all round for cleansing purposes. Food and water troughs.

Subdivision (7)—Blood and Offal.

28. (1) All blood from killing operations shall be received and collected in clean utensils or be conveyed in impervious gutters or channels having a rapid fall to an impervious and covered blood-pit tank or other receptacle situated outside the killing room. Offal receptacles.

(2) Offal intended for use as food shall immediately on removal from the carcass be collected in clean impervious receptacles. Offal not intended to be so used and not intended for industrial purposes shall be removed in similar but separate receptacles. Paunch and bowel contents and such like matter shall be temporarily deposited in an impervious dung-pit protected against access of flies. Blood pits and dung pits.

(3) Blood-pits offal bins or tanks dung pits and such receptacles shall wherever practicable be situated above ground be protected by roofs against the entry of rain or flies be connected with the foul water system of drainage by means of dirt-traps of approved design and be capable of being readily cleansed.

(4) All such matter as blood refuse offal and paunch and bowel contents shall be removed from the premises on the day on which the same was removed from the carcass or if dealt with on the premises shall be dealt with in a manner satisfactory to the Commission or the Council and no pit bin tank or other receptacle for holding such matter shall have a capacity greater than is needed for accommodating the day's output of such matter. Limited capacity of pits tanks &c., for offal collection.

(5) Tram or trolley ways and rolling stock for conveyance of blood offal manure or offensive matter shall be so arranged as to reduce to a minimum the spilling or splashing of such material *en route* and so as to avoid the creation of spaces incapable of being readily cleansed. Tram and trolley ways.

(6) In any case the method of ultimate disposal of blood offal manure or offensive matter shall be only such as shall be approved by the Commission or by the Council. Disposal of blood and offal.

Subdivision (8)—Drainage.

29. (1) The whole of the premises shall be effectually drained. All waste pipes shall be adequately trapped and ventilated.

(2) Every drain shall be laid in as straight and direct a course as possible and the necessity for any change of direction shall be avoided as far as possible consistently with these Regulations. Every such change of direction shall be effected by means of an easy curve. Every branch drain shall at its junction with a main drain have its main axis inclined to the direction of flow in the main drain as at small an angle as practicable so as to secure confluence of flow in both drains. All branch drains shall be as short as possible. Laying of drains.

(3) Every drain shall be readily accessible for inspection and cleansing. No drain shall be laid beneath a building or other abattoir or slaughterhouse enclosure unless such course be unavoidable in which case it shall be formed of properly coated cast-iron pipes having caulked leaden joints or of glazed stoneware pipes having joints formed of Portland cement or rock asphalt and encased all round in Portland cement concrete 6 (six) inches thick. Unless with the approval of the Commission or the Council no foul-water drain shall be nearer to any well containing water that is intended to be or that is likely to be used for human consumption unless the horizontal distance between the drain and the well is at least 2 feet for every 4 feet in the total depth of the well. Accessibility of drains.

(4) All drains shall be firmly bedded for their full length shall be evenly laid to gradients to the satisfaction of the Commission or the Council and in cases where the desired gradient is not obtainable or in any case the Commission or the Council may require drains for conveyance of foul liquids to be furnished with flushing tanks of automatic type and of adequate capacities. Protection of wells.

(5) All drains shall when in the opinion of an authorized officer such a course is necessary be protected against damage by tree roots. Bedding of drains.

(6) The internal surfaces of all drains including fittings such as traps shall be hard smooth durable non-corrodible impervious and as free from obstruction and as self-cleansing as practicable. Flushing of drains.

(7) Underground drains except where hereinbefore allowed to be formed of cast-iron shall be formed of glazed stoneware pipes laid in a bed of concrete and jointed with gasket and Portland cement mortar or rock asphalt. Exclusion of roots. Self cleansing. Underground drains.

- Dirt-traps.** (8) Dirt-traps shall be provided in all drains liable to be obstructed by pieces of flesh wool hair bristles fibre manure surface grit or other solid trades-refuse. All traps shall be formed with smooth impervious non-corrodible surfaces shall be simple in form self-cleansing afford adequate seal and be properly ventilated.
- Grease traps.** (9) Grease traps with necessary baffles movable duplicate screens syphon-outlet and discharge chamber thereto or other approved arrangements shall be provided wherever necessary for preventing entrance of fat or grease to drains sewers or drainage purification works.
- Rainwater down-pipes to be air-disconnected.** (10) Rainwater down-pipes shall be provided with proper heads properly secured and water-tight joints and where delivering to underground drains shall be air-disconnected from the latter by means of iron or stone-ware shoes properly supported and connected.
- Inspection openings.** (11) Every closed drain shall be provided with a necessary inspection-opening and with a man-hole if required by the Commission or the Council. The position of every inspection opening shall be permanently and distinctly marked on the ground.
- Drain ventilation.** (12) Every drain shall be thoroughly ventilated throughout its length. Every exhaust ventilator shall have its outlet placed well above the highest level of every adjoining roof.
- Bridging.** (13) All drains crossed by lines of traffic shall be protected by the provision of suitable bridging for such traffic.
- Cross-section form.** (14) All drains shall as far as practicable be formed to simple curvilinear profile in cross-section. Blood and blood-water drains shall have rebates formed along their upper margins for the reception of bearers runners or guides of angle-iron which shall be properly secured to the solid work for the reception of the frames of gratings of iron. Such grating shall be formed in conveniently portable sections the grating bars being not more than $\frac{1}{2}$ inch diameter nor spaced more than $\frac{1}{2}$ inch apart the ends being shouldered and riveted to the frame. Gratings to gully traps shall be fixed.
- Blood and washing water drains.** (15) The blood and blood-water drains shall be placed conveniently close to the spot where killing operations are conducted and so that the blood may flow into its proper drain by the shortest practicable route.
- Blood catch pit or tank.** (16) The drainage from the killing and offal rooms shall be directed outside the building into a water-tight and covered iron wheel-tank standing on an area paved graded and drained to the catchpit or into a watertight and covered catchpit provided with a grating and trap or into such other receptacle as may be approved. There shall be no gully-pit nor silt-trap in any killing or hanging-room.
- Settling pit.** (17) The drainage from the hanging room floor and from every polluted surface shall be directed by a surface drain to a settling pit situated outside the buildings and provided with an overflow outlet and scour valves in a position near the main drain of the premises.

Subdivision (9)—Drainage—Its Treatment and Disposal.

Plan and data requisite. 30. (1) Where land treatment preceded by preliminary artificial processes is intended as an agency for purification a contour plan of the land together with full particulars concerning the general character of the soil and subsoil and depth of the former its condition as regards natural drainage and the area available shall be furnished to the Commission or the Council together with estimates of the probable maximum daily output of the drainage to be treated. *Vide footnote hereunder.

Treatment of foul drainage. (2) When in the opinion of the Commission or of the Council the drainage is of a particularly strong character such provision for its purification shall be made as may in the circumstances of each case be determined or approved by the Commission or the Council.

In ordinary cases the following directions shall be complied with :—

- Stormwater diversion.** (a) divert the stormwaters to the public channels ;
- Drainage reticulation system.** (b) collect the foul drainage in a specially ventilated system of pipe drains provided with all necessary flushing tanks trapped inlets silt buckets inspection openings bends curved branches junctions water-tight joints dead ends and other equipment and fittings ;
- Precipitation basin.** (c) connect the main drain with a small watertight basin accessible for inspection furnished with a silt bucket containing some precipitant such as briquettes or pieces of sulphate or per-sulphate of iron proportionate in quantity to the volume rate of flow of drainage the solution flowing thence being directed into a channel provided with baffles so as to cause the drainage and the chemical precipitant to become thoroughly mixed ;
- Settling tank.** (d) provide a settling tank in duplicate units of total capacity equal to the maximum quantity of drainage resulting from one day's work, the units being used in alternation, that is to say, one is to be used whilst the contents of the other are held up therein for sedimentation and decantation. Conduct the chemically treated drainage into this tank by means of the channel last mentioned in paragraph (c) of this Regulation. Such tank

* Attention is directed to the provisions of the *Septic Tank Regulations 1924*, and particularly to Schedule Form A of "Application for Permission to Install/Alter a Septic Tank System."

shall be lined with specially approved smooth impervious material and its floor shall slope sharply to a sludge collecting sump formed at the inlet end of the tank.

- (e) the day following its collection withdraw the supernatant clarified liquid from the settling tank by means of a syphon or a floating arm into a small regulating basin whence the liquid may be discharged to a suitable distributor over a percolator bacterial bed of capacity properly related to the quality and quantity of the diurnal output of foul water. In the event of the drainage purification works having to receive the drainage resulting from the slaughter of an animal infected with disease such last mentioned drainage shall be detained in a small quiescent sedimentation basin and there be disinfected with fresh chlorinated lime or it may be dealt with in any other manner approved by the Commission or a Council. All such tanks, basins, or beds shall if so required by the Commission or the Council to be done be covered in and ventilated, or other approved means taken for preventing dispersion of effluvia so as to cause nuisance or injury to health.

Subdivision (10)—Water Supply.

31. (1) An abundant supply of wholesome water at such working pressure as to command the whole of the interior surfaces if the buildings shall be constantly available. The supply shall be adequate to provide the water necessarily required in the slaughtering chilling refrigerating cleansing flushing and dust-laying operations and for drinking purposes.
- (2) The water shall be laid on to the yards lairs and holding pens and to every part of the buildings and to every polluted area required by the Commission or by Council to be paved. Water pipes and taps shall be provided in each compartment in size and number proportionate to requirements and so distributed as to be conveniently available for use for the purposes above mentioned. The supply of water to drinking troughs for animals shall be automatically controlled.

Subdivision (11)—Closets Urinals and Changing Room.

32. Each closet or urinal or group of such and each changing room shall be isolated by an air space of at least 10 feet horizontal width all round such closet urinal or group and changing room.

Changing Room.

33. The floor of every changing and dressing room shall be formed of impervious material graded for drainage to an exterior drain inlet. REGULATIONS FOR THE CARE, PROTECTION, AND MANAGEMENT OF PORTION OF THE FORESHORE RESERVE AT KALIMNA AND LAKES ENTRANCE, IN THE PARISH OF COLQUIHOUN.

THE Council of the Shire of Tambo, the duly appointed Committee of Management of portion of the Foreshore Reserve, Kalimna and Lakes Entrance, in the Parish of Colquhoun, having framed the following regulations for the care, protection, and management thereof, and for the preservation of good order and decency therein, and also for the collection and receipt of tolls, entrance fees, and other charges for entering therein or thereupon, submit the said regulations to the Board of Land and Works, to be made by such Board, in pursuance of the powers conferred by section 181 of the *Land Act 1915*:—

1. The Reserve shall be open to the public at all hours on all days throughout the year, except on such days (not exceeding twelve days in any one year) as the Reserve or portion thereof may be set apart for fêtes, sports, or holiday amusements (such as regattas, swimming carnivals, &c.), on any of which occasions a sum not exceeding Two shillings may be charged and taken for the admission of every adult to the Reserve or portion thereof which is so set apart.

2. No person shall enter or remain in the Reserve who may offend against decency as regards dress, language, or conduct.

3. No person shall damage in any way the trees, shrubs, or flowers in the Reserve, nor shall fires be lighted therein without the permission of the Committee of Management.

4. No person shall climb or jump over the gates or fences in or around the Reserve, stick bills thereon, or cut names on, or in any way damage or injure any of the buildings, gates, fences, seats, or trees in the Reserve; nor leave or deposit any glass, paper, or rubbish; nor roll or throw stones or any missiles of any kind therein.

5. No person shall put in the Reserve any cattle, horses, sheep, goats, pigs, or other animals without the permission, in writing, of the Committee of Management first obtained. Provided always that the moneys received for agistment shall be expended in the maintenance and improvement of the Reserve, and that an account thereof shall be furnished annually to the Board of Land and Works.

The Committee of Management shall have full power and authority to impound any cattle found trespassing on the Reserve, and shall be taken to be the occupier of the Reserve (with all power incidental to that status) within the meaning of any law for the time being in force relating to the impounding of cattle. For the purposes of this clause "cattle" shall mean cattle as interpreted by section 3 of the *Pounds Act 1915*.

6. No person shall camp in the Reserve without the permission, in writing, of the Committee of Management is first obtained, and such fees as fixed by the said Committee from time to time for the privilege be paid.

7. (a) No person shall erect in the Reserve any dwelling, nor any booth or other structure for the purpose of offering for sale any article, nor make alterations or additions to existing structures, without the permission in writing of the Committee of Management be first obtained, and then only after plans and specifications have been submitted to and approved by the said Committee, and subject to the payment of such fees for licence as the Committee may from time to time appoint, such fees not to exceed Five pounds (£5) for any dwelling, and to be payable in advance to the shire secretary, Bruthen, on the first day of January each year for the ensuing twelve months.

(b) Such structures as are at the date of making these regulations erected on or within the Reserve shall be subject to the payment of licence fees as if erected after the coming into force of these regulations, provided no such fees exceed Five pounds annually for any dwelling.

(c) Licensees of sites must not sub-let their sites or any erection thereon, without the consent of the Committee of Management be first obtained, and then only subject to such special conditions as the said Committee deem fair to impose.

(d) In the event of the transfer of the site, the said transfer must be approved by the Committee of Management before being finalized, and the said Committee may make a nominal charge for the registration of such transfer.

8. No person shall take part in any public entertainment of any sort in the Reserve without the permission, in writing, of the Committee of Management is first obtained.

9. No person shall spit or expectorate on the paths, or on any structure or erection in the Reserve.

10. No person shall bet publicly in any part of the Reserve, and any person infringing this Regulation shall be liable to expulsion from the enclosures and Reserve.

11. No person shall play, practise, or engage in any game or sport within the Reserve on Sundays.

12. Persons renting or hiring any stand, building, erection, or enclosure on the occasions of any fêtes, sports, or holiday amusements, may be required to deposit any sum which the Committee of Management may at any time determine, not exceeding Ten pounds (£10), by way of guarantee that due care shall be taken of such stand, building, erection, or enclosure, and such Committee in its absolute discretion may make good any damage or injury sustained by such stand, building, erection, or enclosure, or anything contained therein, during such occupancy or hiring, and deduct the cost of making good such loss or damage from the sum of money deposited by way of guarantee, and all persons so renting or hiring shall abide by these regulations and by any order given by the Committee of Management.

13. No person, except labourers and workmen employed in the Reserve, shall enter any plots therein which may be enclosed for plantations of young trees or shrubs.

Every person offending against these regulations shall, in accordance with the provisions of section 181 of the *Land Act 1915*, for each offence be liable to a penalty of not more than Five pounds (£5), and every person who knowingly and wilfully offends against any such regulations, and who, after he has been warned by any bailiff of Crown lands or by any member of the Police Force, does not desist from so offending, may be forthwith apprehended by such bailiff or member of the Police Force and taken before some Justice, and shall be liable to a penalty of not more than Ten pounds (£10).

Dated at Bruthen this sixteenth day of April, 1925, and the seal of the Shire of Tambo was hereunto affixed in the presence of—

(SEAL) JOSEPH R. COATE, President.
W. HICKS, Councillor.
JOHN HOWLETT, Councillor.
CLIFFORD F. LOXLEY, Secretary.

The Board of Land and Works, in pursuance of the powers conferred by the *Land Act 1915*, section 181, doth hereby make the foregoing regulations in respect of the Foreshore Reserve at Lakes Entrance, which is under the control of the Council of the Shire of Tambo as a Committee of Management.

The common seal of the Board of Land and Works was hereunto affixed this 3rd day of June, 1925, in the presence of—

Department of Lands and Survey,
Melbourne, 5th June, 1925.

A. DOWNWARD,
Commissioner of Crown Lands and Survey.

LIST OF CROWN LANDS AVAILABLE (OTHER THAN MALLEE LANDS).

THE undermentioned areas are available for application, as provided by various sections of the Land Act 1915, and all applications received on or before the 20th June, 1925, will be deemed to have been simultaneously made, but any application lodged after such date may be considered if received in time for inclusion in the advertisement of the cases to be heard at the Local Land Board.

Applications on proper form, accompanied by 5s. duty stamp uncanceled (registration fee), may be delivered or forwarded by post to the Local Land Officer or to any Crown Lands Office in Victoria.

Applicants may obtain from Local Land Officers, or the Inquiry Office, Lands Department, Melbourne, a certificate authorizing the issue by the Railway Department of a return ticket at concession fares to enable them to inspect available areas or to attend Local Land Boards. Specially reduced rates are also allowed for a selector when granted an allotment for removal of his family and belongings to the land.

Marked plans of any particular areas, application forms, and any further information, may be obtained from the Inquiry Office, Lands Department, Melbourne, and Land Officers, Alexandra, Ararat, Bairnsdale, Ballarat, Beechworth, Benalla, Bendigo, Geelong, Hamilton, Horsham, Melbourne, Mildura, Omeo, Sale, Seymour, Stawell, St. Arnaud, and Warracknabeal.

LEASING RAILWAY LANDS.

Applications are invited for letting on building lease for business purposes land at or near stations. Terms up to 21 years. For particulars, apply Estate Officer, Spencer-street, Melbourne, or to local stationmasters or roadmasters.

No tenders will necessarily be accepted.

E. C. EYERS, Secretary.

Melbourne, 3rd June, 1925.

CARTAGE OF COAL, BRIQUETTES, AND BULKY STORES (METROPOLITAN).

TENDERS will be received until Eleven o'clock a.m. on Friday, 19th June, 1925, for cartage and delivery of coal, briquettes, machinery, contractors' plant, and bulky material within the metropolitan area, as may be required by the Government of Victoria, or by the Commonwealth Government, if ordered, from 1st July, 1925, to 30th June, 1926, as per Schedules Nos. 1 and 2 respectively.

A deposit of £5 in bank notes or bank draft, payable to the order of the Secretary to the Tender Board (cheques will in no case be received), must accompany each tender, which will be returned to unsuccessful tenderers within ten days, on their application. Such deposit to be forfeited in the event of the tenderer, after the time fixed for closing of tenders, withdrawing or attempting to withdraw his tender, or of the successful tenderer failing to complete the security within the prescribed period.

Security of £10 will be required with each sub-schedule, either in Victorian Government debentures, Savings Bank deposit book, or bank deposit receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised or another tender accepted.

Tenders may be accepted or rejected for each sub-schedule separately.

Tenders must express the prices in words as well as in figures, and without alterations or erasures.

Full particulars, forms of tender, conditions of contract, &c., may be obtained at the office of the Secretary to the Tender Board, Gisborne-street, Melbourne.

The lowest or any tender will not necessarily be accepted.

Tenders, enclosed in an envelope, and having the words "Tender for Cartage" written thereon, must be deposited in the tender-box at the Pay Office, Treasury, Melbourne; or, if sent by post, postage must be prepaid, and tenders addressed to the Chairman of the Tender Board, Pay Office, Treasury, Melbourne, which office they must reach by first post on the date of closing of the tenders.

CONDITIONS OF CONTRACT.

1. The prices quoted cover all charges, including labour, bags, hire of cranes or other appliances required in the performance of the service. Bags must be removed by the contractor when empty, and if not removed within a reasonable time or within the time named by the officer requiring the service, no claim will be entertained for cost of same.

2. Accounts in all cases must be rendered *monthly* to the department requiring the service, and must be supported by weighbridge tickets or railway consignment notes; and in the case of coal, the mine consignment notes. In the event of a weighbridge ticket or consignment notes not being available or obtainable, the weight vouched for by the department requiring the delivery shall be accepted by the contractor as the weight of the particular consignment. Accounts shall be subject to any deductions for damage sustained to the articles whilst in the custody of the carrier. Weighbridge charges to be borne by contractor.

3. In the event of goods forwarded by rail or steamer not being unloaded within reasonable time, and in accordance with the Railway Department or Harbor Trust Regulations relating to same, the contractor shall be held liable for any loss, including cost of demurrage, if any. Such cost to be deducted from any account due to the contractor or from the security money.

4. The contractor must have an office connected with telephone and within the radius of the city proper.

5. Four hours will be deemed sufficient notice, and in the event of the contractor failing to perform the service when ordered, and to the satisfaction of the officer requiring the service, such service will be performed at his risk and expense, and any extra expense incurred shall be deducted from any account due to the contractor or from the security money.

6. Contractors are not at liberty to transfer their contract, under cover of power of attorney, coupled with an interest or otherwise, and no such transfer will be recognised by the Government.

7. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the security money will in that case be absolutely forfeited, and, in addition, the contractor may be held liable for any loss which the Government may sustain in consequence of such failure.

8. The vehicles in which goods, &c., are carried must be in thorough working order, and, if required, with good waterproof covers. Horses to be sound and staunch, and subject to the approval of the officer requiring the service.

9. This contract is not to be considered as being broken, infringed, or vitiated by any Department using its own labour or vehicles for the cartage of any material set forth in the contract, or in the event of urgency or emergency, performing the service.

10. A refusal to execute orders, irregularity or delay in delivering the goods when required, or failure to produce weighbridge tickets or consignment notes on delivery in accordance with clause 2, or for any breach of Railway or Harbor Trust Regulations, will subject the contractor, upon report from the Tender Board, to such mulct as the Treasurer may direct, and the amount may be deducted from any account due to the contractor or from the security money.

11. In the event of any dispute arising as to matters or things contained in the contract or schedule the same shall be settled by the Tender Board, and the Board's decision shall be binding, final, and conclusive.

A. J. PEACOCK,
Treasurer.

The Treasury,
Melbourne, 3rd June, 1925.

PURCHASE AND REMOVAL OF RAGS.

TENDERS will be received until Eleven o'clock a.m. on Friday, 19th June, 1925, from persons willing to purchase Rags in such quantities as the contractor may be required to remove from the various Hospitals for the Insane and from the Penal Establishment at Pentridge, from 1st July, 1925, to 30th June, 1926.

Printed forms of tender, conditions of contract, &c., may be obtained at the office of the Secretary to the Tender Board, Gisborne-street, Melbourne.

The rate quoted must be at per cwt., and for the whole quantity from the whole of the institutions enumerated.

It is necessary that tenderers should possess a Noxious Trade Licence.

Tenders must be accompanied by the preliminary deposit of £10 in bank notes, or a bank draft in favour of the Secretary to the Tender Board, which will be detained from the successful tenderer as security for the due fulfilment of the contract. *Cheques, Savings Bank deposit books, fixed deposit receipts, State or Commonwealth Treasury bonds or Government debentures, or references to securities on existing contracts will in no case be received or entertained as preliminary deposits.* Preliminary deposits will be returned within ten days to unsuccessful tenderers on their application.

The amount of the deposit required with each tender must be enclosed and the amount must be carefully written in and the designation stated, whether marked cheque, bank draft, or bank notes, as the case may be.

The contract must be signed within five days of acceptance of the tender, failing which the service may be again advertised or another tender accepted.

Tenderers failing to take up their accepted tenders may be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

Tenders, enclosed in an envelope, marked "Tender for Purchase of Rags," must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne, or, if sent by post, postage must be prepaid and tenders addressed to the Chairman of the Tender Board, Treasury, Melbourne, which office they must reach by first post on the date of closing of tenders.

CONDITIONS OF CONTRACT.

1. Delivery of the Rags from Ararat, Ballarat, Beechworth, and Sunbury must be taken at Spencer-street Railway Station, and for Yarra Bend, Mont Park, Royal Park, Kew, and Pentridge at the institutions themselves.

2. Bags will be supplied by the institutions requiring the service, and must be returned by the contractor as soon as emptied.

3. The rags must be removed at such time or times as may be stated in the order issued to the contractor.

4. The contractor shall bear the cost of removing the rags, and of the return of the empty bags from and to Spencer-street, Yarra Bend, Mont Park, Royal Park, Kew, and Pentridge; railway freight from the institutions will be covered by a Stores and Transport consignment note issued by the institution concerned when forwarding the rags.

5. The contractor shall be duly notified of each consignment, and shall bear any cost that may be incurred for demurrage, or for any delay in taking delivery of the rags consigned.

6. In the event of the contractor failing to remove the rags at the times directed, the officer of the Department ordering the removal is hereby empowered to send them to any store in Melbourne, there to be stored at the contractor's risk and expense, and, on report to the Tender Board, the amount will be deducted from the security money.

7. Payment is to be made on the net weight of the rags when bagged. No allowance will be made for any foreign material that may be mixed with them. All practical care will, however, be exercised to keep them free from such impurity.

8. The contractor must make payment within one month of delivery to the officer of the Department ordering the removal of the rags.

9. Under no circumstances will a contractor be permitted to abandon his contract.

Treasurer.

The Treasury,
Melbourne, 3rd June, 1925.

CARTAGE (COUNTRY).

TENDERS will be received until Eleven o'clock a.m. on Friday, 19th June, 1925, for cartage and delivery at Ararat, Bairnsdale, Ballarat, Beechworth, Bendigo, Castlemaine, Geelong, Hamilton, Horsham, Mildara, Stawell, Sunbury, and Warrnambool, of such goods and furniture as may be forwarded to and from the railway and various Government Departments by the Stores and Transport Department for and on behalf of the Government of Victoria, also for the Commonwealth Government for its offices situated in Victoria if required, from 1st July, 1925, to the 30th June, 1926.

A deposit of £10 in bank notes or bank draft, payable to the order of the Secretary to the Tender Board (cheques will in no case be received), must accompany each tender, which will be retained from the successful tenderer as security for the due fulfilment of the contract. Such deposit to be forfeited in the event of the tenderer withdrawing his tender before notification of the acceptance of the tender or in the event of the successful tenderer failing to sign and complete his contract within the prescribed period. The deposits will be returned to unsuccessful tenderers within ten days, on their application.

Tenders may be accepted or rejected for each place separately.

Tenders must express the prices in words as well as in figures, and without alterations or erasures.

Full particulars, forms of tender, and conditions of contract may be obtained at the office of the Secretary to the Tender Board, Gisborne-street, Melbourne, and at the police stations at the places named.

The lowest or any tender will not necessarily be accepted.

Tenders, enclosed in an envelope, and having the words "Tender for Cartage" written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne; or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Pay Office, Treasury, Melbourne, which office they must reach by first post on the date of closing of tenders.

CONDITIONS OF CONTRACT.

1. The prices quoted cover all descriptions of parcels and goods, including furniture, &c.

2. A separate charge is to be made for each consignment, such charge to be for the gross weight thereof, irrespective of the number of packages. Accounts in all cases to be made out by weight only, and to be rendered monthly, supported by the waybills properly receipted, subject to any deductions for damage sustained to the goods whilst in the custody of the carrier.

3. For removals of officers' furniture and effects, a separate charge must be made per van per hour, including loading and reloading as required, and a certificate from the officer concerned must accompany the voucher setting forth the number of hours employed before payment can be made. Provided that with the prior consent of the Tender Board officers' furniture and effects may be removed in the manner and by the persons approved of by the Board. Transport sling vans are not to be requisitioned without the authority of the Secretary of the Tender Board.

4. The contractor shall in all cases, against each separate charge in his accounts, quote the number of the consignment note, which should be found on each consignment or package forwarded by the contractors or departments, and the weight. Should the number not be on the package then the name of the consignor should be quoted and a description of the parcel given in lieu thereof. Any infringement of this condition will render the contractor, on report, liable to such fine as the Tender Board may recommend, and the amount will be deducted from any account due to the contractor or from the security money.

5. Contractors are not at liberty to transfer their contracts, under cover of power of attorney, coupled with an interest or otherwise, and no such transfer will be recognised by the Government.

6. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the security money will in that case be absolutely forfeited, and, in addition, the contractor may be held liable for any loss which the Government may sustain in consequence of such failure.

TENDERS FOR WIRE FOR THE MANUFACTURE OF WIRE NETTING.

TENDERS will be received until Eleven o'clock a.m. on Friday, the 19th June, 1925, for the supply of 300 tons of wire, for the manufacture of wire netting required by the Victorian Government, as per Schedule No. 89. The price tendered must be for delivery at the Wire Netting Factory at the Penal Establishment, Pentridge.

Particulars as to date of first and subsequent deliveries to be inserted in the tender forms where provided.

Security.—10 per cent. on total amount of tender accepted.

Schedules as above, with full particulars, specifications, &c., may be obtained from the Secretary to the Tender Board, Gisborne-street, Melbourne, by whom any information will be afforded to persons tendering.

Tenders must be accompanied by the preliminary deposit of £25, in bank notes, or a bank draft in favour of the Secretary to the Tender Board. Cheques, Savings Bank deposit books, fixed deposit receipts, State or Commonwealth Treasury bonds or Government debentures, or references to securities on existing contracts will in no case be received or entertained as preliminary deposits. Preliminary deposits will be returned within ten days to unsuccessful tenderers on their application.

Security will be required, either in Victorian Government Debentures, Savings Bank Deposit Book, or Bank Deposit Receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Preference will be given by the Tender Board, provided the quality of the wire offered is satisfactory, and the rates charged are considered reasonable—

- (a) to tenders for wire manufactured within the Commonwealth;
- (b) to tenders for wire manufactured within any other part of the British Empire.

The Government will not necessarily accept the lowest or any tender.

Tenders, enclosed in a separate envelope, and having the words "Tender for wire" written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne; or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Pay Office, Treasury, Melbourne, which office they must reach by first post on the date of closing of tenders.

PRIVATE ADVERTISEMENTS.

CITY OF CAMBERWELL.

BUILDING BY-LAW No. 48.

A By-law of the City of Camberwell made under the provisions of the Local Government Acts and numbered 48 for—

- (1) Prescribing areas within the municipal district as residential areas and prohibiting or regulating within the whole or any part of such residential area the use of any land or the erection (including adaptation for use) or the use of any building or land for the purposes of such classes of trades, industries, manufactures, businesses, or public amusements as are specified in the By-law.
- (2) Prescribing the minimum area and the minimum depth and width of frontage of land upon which any dwelling house, or any shop, or any shop and dwelling house combined may thereafter be erected.
- (3) Providing that every dwelling-house thereafter erected shall have attached thereto for the exclusive use of the occupiers thereof a prescribed area of open land.
- (4) Prescribing the minimum area to be covered by any dwelling-house or any dwelling-house and shop combined.
- (5) Prescribing the distances of buildings from boundaries.
- (6) Requiring the pulling down and removal of buildings.
- (7) Authorizing the Council to pull down and remove buildings.
- (8) Repealing portions of By-law 46 inconsistent with or repugnant to this By-law.

IN pursuance of the powers conferred by the Local Government Acts, the Mayor, Councillors, and Citizens of the City of Camberwell order as follows:—

REPEAL.

The following parts, sections, clauses, and schedules of By-law 46 in regard to buildings made by the Council of the City of Camberwell on the 19th day of November, 1923, and gazetted on the 27th February, 1924, are hereby repealed:—

- Purposes—Clauses (f), (g), (j), and sub-section iii of clause (h).
 Part II.—Sections 1, 2, 3.
 Part III.—Sections 1, 2, 3, 4.
 Part IV.—Division 2, section 8.
 Part VI.—Sections 1, 2, 3, 4, 5, 6, 7.
 Part XVII. (3).—Section 18, sub-sections (b) and (c).
 Part XVIII.—Clause 3.
 Part XIX.—Sections 3 and 4.
 Second Schedule.
 Third Schedule.

OPERATION.

This By-law, with the exception of the provisions of Part III., shall apply to and have operation throughout the whole of the City of Camberwell.

DATE OF COMING INTO FORCE.

This By-law shall come into operation and have effect immediately upon its publication in the *Victoria Government Gazette*.

PART I.

MINIMUM AREA, DEPTH AND WIDTH OF FRONTAGE; OPEN SPACES, ETC.

It is hereby prescribed that the minimum area and the minimum depth and width of frontage of land upon which any dwelling-house, or any shop or any dwelling-house and shop combined may be erected shall be as follows:—

1. (a) *Dwelling-houses*.—That the land on which a dwelling-house may be built or erected shall have a superficial area of not less than 7,700 square feet, a width or frontage to some street or road of not less than 55 feet, measured at right angles to the sides thereof and a depth of not less than 140 feet. Provided, however, that where any land is subdivided into allotments after the date of this By-law coming into force every allotment at the corner of two intersecting streets—exceeding 25 feet in width (whether such street or streets were laid out prior to such date or not)—shall have a superficial area of not less than 8,400 square feet, a width or frontage of not less than 60 feet, and a depth of 140 feet.

(b) *Exceptions*.—The provisions of section 1 (a) shall not, however, be held to debar any person from building a dwelling-house upon an allotment of land having a superficial area of not less than 6,000 square feet, a width or frontage to some street or road of not less than 50 feet, and a depth of 120 feet, provided such allotment is shown on a plan of subdivision sealed by the Council prior to the date of this By-law coming into force, nor to any land subdivided into allotments prior to the 22nd day of March, 1922. In such cases the minimum superficial area may be not less than 4,000 square feet, the minimum width or frontage not less than 33 feet, and the minimum depth not less than 120 feet.

(c) Provided also that in any case where there remains between two dwelling-houses or between any dwelling-house and the side of any cross or intersecting street in existence at the before-mentioned date, an allotment of land of a less frontage than 33 feet and a less area than 4,000 square feet on which no dwelling-house has been built or erected or from which a dwelling-house has been removed or has been destroyed by fire or other cause, the Council may, on application being made by the owner thereof in writing, exempt such allotment from the foregoing conditions and permit a dwelling-house to be erected thereon if otherwise in accordance with the provisions of any By-law in regard to buildings in force in the municipality and subject to such other conditions as the Council may impose.

2. (a) *Shops and Dwellings and Shops Combined.*—That the land on which any shop or dwelling-house and shop combined may be erected or built shall have a superficial area of not less than 2,520 square feet, a width or frontage to some street or road of not less than 18 feet measured at right angles to the sides thereof, and a depth of not less than 140 feet.

(b) The provisions of section 2 of this part shall not, however, be held to debar any person building a shop or a dwelling and shop combined upon an allotment of land having a superficial area of not less than 2,160 square feet, a width or frontage to some street or road of not less than 18 feet, and a depth of not less than 120 feet, provided such allotment is shown on a plan of subdivision sealed by the Council prior to the date of this By-law coming into force; nor to an allotment of land having a superficial area of 1,920 square feet, a width or frontage to some street or road of 16 feet, and a depth of 120 feet, provided such allotment is shown on a plan of subdivision sealed by the Council prior to the 27th day of February, 1924.

3. *Area and Frontage not to be Reduced.*—Neither the area nor the frontage of any land on which a dwelling-house, shop, or dwelling-house and shop combined has been built or erected (whether such dwelling-house, shop, or dwelling-house and shop combined was built or erected before or after the coming into force of this By-law) shall be reduced below the minimum area, frontage, and depth by this By-law prescribed, and the provisions of the foregoing sections shall also apply to the re-subdivision of any existing allotment of land into two or more smaller allotments.

4. *Depth May be Reduced.*—Allotments may, however, be of any depth not less than 80 feet, provided the frontage is correspondingly increased to give the required area.

5. *Open Space.*—(a) *As to Dwelling-houses.*—Every dwelling-house hereafter erected shall have attached thereto for the exclusive use of the occupier thereof an area of open land equal to not less than one half the total area of the allotment on which the same stands. Nor shall any addition or alteration be made to any dwelling-house already erected or that may hereafter be erected that would reduce such open space to a less area than one half of the total area of the allotment. Verandahs and outbuildings shall, in the calculation of space occupied be included as part of the dwelling-house to which they belong.

(b) *As to Shops and Dwelling-houses and Shops Combined.*—Every shop or dwelling-house and shop combined hereafter built or erected shall have attached thereto for the exclusive use of the occupier thereof an open space or yard—free from all buildings—of not less than 920 square feet. No passageway under 4 feet in width shall be computed as a part of such open space. Shops without dwelling rooms attached may, however, by special permission of the Council, and if situated in a sewered area, cover the whole of the land on which they stand and in such cases the provisions as to yard space shall not apply.

PART II.

- (10) All the land fronting to or abutting on the west side of Burke-road, from the north side of Turner-street to the south side of Toorak-road, to a depth of 140 feet.

2. The use of any land, or the erection (including adaptation for use), or the use of any building for the purposes of all or any classes of trades, industries, manufactures, businesses, or public amusements is hereby prohibited within the whole of such residential areas. Such prohibition shall, however, not apply to any building used or occupied as chambers or consulting rooms by members of any learned profession, provided that such buildings are not nearer than 20 feet to the building line of any street or road, nor to any single worker who carries on his profession or occupation in a private dwelling-house and does not use mechanical power.

3. Nothing, however, hereinbefore contained shall preclude the continuance of the use of any land or any building for any purpose for which the same was used immediately before the coming into operation of this By-law, or the enlargement, re-building, or extension of any building used for any such purpose, whether or not such enlargement, re-building, or extension involve the use of adjoining land which immediately before the coming into operation of this By-law was in the same ownership, or for such other purposes as the Council thinks reasonable in the circumstances.

PART III.

PAYMENT OF FEES AND PERMIT.

1. No builder or other person shall commence to erect, build, or construct any new building, erection, or structure, or alter, add to, reinstate or demolish and pull down, any existing building, erection, or structure without having first obtained from the Surveyor permission in writing to commence such work and without having first paid to the proper officer of the Council the fees in respect thereof as set forth in the First Schedule of By-law 46, having regard to the class of building, erection, structure, addition, alteration, reinstatement, or demolition to be carried out.

2. Such permission shall only remain in force and have effect for six calendar months from the date such permission is granted.

PART IV.

DISTANCES OF BUILDINGS FROM BOUNDARIES.

1. *Dwelling-houses.*—No person shall erect, build, or construct, or cause to be built, erected, or constructed, any building that is to be used or that is intended or adapted to be used as a dwelling-house only, or make any additions to any existing building unless such building or erection or addition complies with the following conditions:—

- (a) Every such building shall be detached from any other building in separate occupation.
- (b) Shall be distant not less than 20 feet from the building line of any street or road unless the line of buildings in any street or road has been otherwise fixed by the Council. Provided, however, that where such building is built or erected on any land situated at the corner of any two streets the distance of such building from the building line of the cross or intersecting street need only be 10 feet in the case of an allotment having a frontage of 60 feet or over, and 8 feet in the case of an allotment having a frontage of less than 60 feet.
- (c) Shall be distant not less than 4 feet from the side and rear boundaries of the land on which the same stands or from the boundary of land not in the same possession or occupation, and 8 feet distant from any other building. Provided, however, that if such building exceeds 18 feet in height the distance from the boundaries shall be increased by 1 foot for every additional 5 feet in height. The condition as to distance between buildings shall, however, not apply in cases where any building on adjoining land was in existence prior to the date of this By-law coming into force, nor where the wall of a shop has been built up to the boundary line. In such cases it shall be sufficient if the new building is kept a distance of 4 feet from the boundary line, irrespective of the position of any existing building on land not in the same possession or occupation.

2. *Dwelling and Shop Combined.*—Combined shops and dwellings may be built up to the building line of the street or road on which they abut and up to the side boundaries of the land on which they stand, provided—

- (a) That such buildings are not within a residential area.
- (b) That the whole of the external walls are constructed of brick, stone, concrete, or other approved fire-resisting material.
- (c) That such buildings are in conformity with the provisions of By-law 46.
- (d) That the roof is covered with fire-resisting material.
- (e) That such buildings are efficiently lighted and ventilated to the satisfaction of the Surveyor.
- (f) That the internal dimensions of the shop portion of the building is not less than: Height, 12 feet between floor and ceiling; width, 16 ft. 2 in., measured at right angles to the side walls; floor area, 260 square feet. Such minimum floor area shall be for a shop in one occupation only and shall not be subdivided by any internal wall or partition for the purpose of sub-letting a portion thereof.

3. *Single Story Lock-up Shops.*—In addition to the conditions set out in the preceding clauses, the following special conditions shall apply in the case of shops without dwelling rooms attached:—

- (a) If such shop form part of a larger building or is one of a row or terrace not exceeding one story in height and is intended to be used for separate occupation, it shall in every case be fire isolated from the other portions of such larger building and from any adjoining shop or shops both as to walls and ceiling, and all party walls shall be carried up to form parapet walls, as provided under By-law 46.

- (b) All the conditions as to dimensions of shop and floor area set out in clause (f) of the preceding section shall apply to shops of this class.
- (c) In addition to the shop itself, one room, to be used as a workroom or retiring room, may be provided, but such room shall not be used as a bedroom or for residential purposes.
- (d) That such shop and room are efficiently lighted and ventilated to the satisfaction of the Surveyor.
- (e) That all necessary sanitary and lavatory accommodation is provided to the satisfaction of the Surveyor.
4. *Large Shops, &c.*—Notwithstanding anything hereinbefore contained, large shops, suites of chambers, halls, emporiums, factories, and other similar buildings without dwelling rooms attached may, in sewered areas, be built or erected so as to cover the whole of the land appurtenant thereto if built in accordance with the following conditions:—
- (a) That such buildings are not within a residential area.
- (b) That such buildings are in conformity with the provisions of By-law 46.
- (c) That the whole of the external walls are constructed of brick, stone, concrete, or other approved fire-resisting materials.
- (d) That the roof is covered with fire-resisting material.
- (e) That such buildings are efficiently lighted and ventilated to the satisfaction of the Surveyor.
- (f) That all necessary sanitary and lavatory accommodation is provided to the satisfaction of the Surveyor.

PART V.

MINIMUM AREA TO BE COVERED BY ANY DWELLING-HOUSE OR ANY DWELLING-HOUSE AND SHOP COMBINED.

1. *Dwelling-house* (area 1,000 square feet).—Every building built, erected, or constructed upon any land within the municipal district that is used or intended or adapted to be used as a dwelling-house only, except where built upon any land fronting or abutting on any of the streets or roads, or portions of streets or roads, set out in the First Schedule hereto, and to a depth of 140 feet therefrom, shall cover on the ground floor not less than 1,000 square feet in superficial area.
2. *Dwelling-house* (area 1,500 square feet).—Every building built, erected, or constructed upon any land fronting or abutting on any of the streets or roads, or portions of streets or roads, set out in the First Schedule hereto, and to a depth of 140 feet therefrom, and that is used, or intended or adapted to be used as a dwelling-house only, shall cover on the ground floor not less than 1,500 square feet in superficial area.
3. *Dwelling-house and Shop Combined*.—Every building built, erected, or constructed upon any land fronting or abutting on any of the streets or roads, or portions of streets or roads, where it is lawful to build such class of buildings, and to a distance of 140 feet therefrom, and that is used, or intended or adapted to be used, as a dwelling-house and shop combined, shall cover on the ground floor not less than 850 square feet in superficial area.
4. *Ascertainment of Area*.—In the ascertainment of area covered, the area of verandahs forming a part of the main building, but not exceeding 100 square feet in area, and the thickness of the external walls, will be allowed as part of the area covered, but no detached outbuildings or verandah area in excess of 100 square feet shall be so included.
5. *Council to Have Discretionary Power*.—Notwithstanding anything hereinbefore contained, it shall be in the discretion of the Council, on written application being made, to permit of the building, erection, or construction of any dwelling-house, or dwelling-house and shop combined, of a less area than is hereinbefore prescribed if in its opinion there is special reason for so doing and subject to any special conditions that the Council may impose.

PART VI.

MISCELLANEOUS.

1. *Fences, &c.*—That Part XVI. (3) of By-law 46, sub-section (b), be amended by striking out the words "spaced not more than 9 feet apart", and that sub-section (c) be amended by inserting the words "spaced not more than 9 feet apart" after the words "sectional area."
2. *Drains*.—Drains shall be provided at all new buildings, to the satisfaction of the Surveyor, for the interception of storm-water and surface drainage from the site or curtilage of such building and water discharged from roofs and its conveyance to the nearest street, lane, or drainage easement onto which such drainage may lawfully be discharged. The position of such drains and the material of which they are to be constructed shall be shown on the block plan to be lodged with the Surveyor under the provisions of By-law 46.

3. *Enforcement of By-law*.—If any person, after the coming into force of this By-law, builds, erects, or constructs, adds to or alters, or causes to be built, erected, constructed, altered or added to, any building, erection, or structure that is erected, used, or adapted for use, contrary to the provisions of this By-law, the Council may—

- (a) Give to the owner or builder or to the occupier of such building, or leave upon the site of such building, a notice, in writing, under the seal of the Council, requiring the owner, builder, or occupier to bring such building, erection, or structure into conformity with the provisions of this By-law, or alternatively requiring the pulling down or removal of such building, erection, or structure within a time limited in such notice.
- (b) Should default be made in complying with such notice within the time limited, and notwithstanding the imposition or recovery of any penalty, it shall be lawful for the Council, through its Surveyor, to enter upon such building and upon the site thereof, or upon any premises, with a sufficient number of workmen, and to demolish and pull down the said building, erection, or structure, and to do any other act that may be necessary for the purposes, and to remove the materials thereof to some convenient place, and to recover from the owner or occupier the cost incurred in so doing in any court of competent jurisdiction: or the Council may, in its discretion, cause such materials to be sold in such manner as it sees fit.
- (c) All expenses incurred by the Council or its Surveyor in doing such acts as are hereby authorized, together with all fees and/or penalties due to the Council, may be deducted and retained by the Council out of the proceeds of such sale. Any surplus that may remain after the payment of the afore-mentioned costs and expenses shall be paid over to the person who, in the opinion of the Council, is entitled thereto upon written application being made for same.
4. *Penalties*.—Any person who is guilty of any wilful act or default contrary to any of the provisions of this By-law or of By-law 46 shall be liable, on conviction, to a penalty of not less than Twenty shillings and not exceeding Twenty pounds for each and every offence, and in the case of a continuing offence to a further penalty of not more than Ten pounds for each day on which an offence against the By-law is continued after written notice has been given to the offender by the Council of the commission of the offence or after a conviction or order of any court, as the case may be.

SHIRE OF HEIDELBERG.

By-Law No. 79.

Double Pan System.

A By-law of the Shire of Heidelberg made under the provisions of the Health Act 1919, and numbered 79, regulating the cleansing, &c., of closet pans under the Double Pan System.

IN pursuance of the powers conferred by the Health Act 1919, the Council of the Shire of Heidelberg, in the name and on the behalf of the President, Councillors, and Ratepayers of the said Shire hereby order as follows:—

1. All former By-laws so far as they relate to the matters and things provided for in this By-law are hereby repealed.
2. This By-law shall come into full force and operation on the approval of the Governor-in-Council and immediately after its publication in the *Government Gazette*.
3. This By-law shall apply to and have operation in the unsewered areas throughout the Shire of Heidelberg, save and except as to those portions of the Greensborough Riding outside the Townships of Greensborough and Diamond Creek, such Townships being defined for the purposes of this By-law by the plans prepared by the Council for the water supply of the aforesaid Townships.
4. The owner or occupier of any premises in which there is a closet or privy shall cause the space under such seat of each closet or privy on such premises to be prepared, and shall permit the same to be used for the double pan service hereinafter provided for, and shall cause the closet or privy to be kept in a fit state for such service.
5. The Council shall cause every closet or privy to be supplied and kept supplied with two pans for the reception of nightsoil, and a lid to closely fit the same, and shall cause one or other of such pans to be kept under the seat aforesaid.
6. The owner or occupier aforesaid, or other person having the control or management of the premises, shall cause to be kept in every closet or privy belonging thereto, an appliance or apparatus which when closed effectually covers the seat of such closet or privy, and whereby disinfecting or deodorizing fluid is automatically discharged into the pan in such closet or privy.
7. The owner or occupier aforesaid, or other person having the control or management of the premises, shall from time to time after the said closet or privy has been used, close or cause to be closed this said appliance or apparatus, and keep such appliance or apparatus closed on the seat of such closet or privy.

8. The owner or occupier aforesaid, or other person having the control or management of the premises, shall cause to be kept in such appliance or apparatus, a supply of disinfecting and deodorizing fluid efficient for disinfecting and deodorizing the contents of such pan.

9. The Council shall at least once a week cause the pan in use to be closed with the lid and removed with its contents from the premises during the day or night and the other pan to be left in its place.

10. Before leaving any pan in a closet or privy, the Council shall cause the same to be cleansed and tar-painted inside or by some equally efficient means.

11. The owner or occupier aforesaid, or other person having the control or management of the premises shall not contract for the removal of nightsoil from such premises except in accordance with this By-law.

12. The Council shall have power in lieu of making a rate to make a charge on such owner or occupier for the pans supplied and for the removal of nightsoil and other work herein directed, the amount in default of payment to be recovered in any court of petty sessions.

13. If any person, or the Council, or its contractor commit a breach of this By-law he or they shall for every such breach be liable to a penalty not exceeding Twenty pounds, and to a penalty not exceeding Five pounds for each day during which such breach shall be committed or continued.

The resolution for passing this By-law was agreed to by the Council on the 17th day of February, 1925.

Confirmed on the 17th day of March, 1925.

(SEAL) W. J. WINSOR, President.
E. L. VAN, Councillor.
H. J. PRICE, Shire Secretary.

Submitted to the Commission of Public Health on the 5th day of May, 1925.

T. DIMELOW,
Secretary to the Commission.

Approved by the Governor-in-Council,
on the 26th day of May, 1925.
