COUNTRY ROADS BOARD.

At the Executive Council Chamber, Melbourne, the
twenty-eighth day of September, 1926.

PRESENT:

His Excellency the Governor of Victoria.

Mr. Allan	Colonel Bouchier
Sir A. J. Peacock	Mr. McGregor
Dr. Argyle	Dr. Harris
Mr. Eggleston	Mr. McDonald.

Country Roads Act 1915 (No. 2635) and Developmental Roads
Act 1918 (No. 2944).

ORDER APPROVING OF A DEVIATION FROM A MAIN
ROAD IN THE SHIRE OF COLAC.

WHEREAS the Country Roads Board constituted under the Country Roads Act 1915 (No. 2635) has represented to His Excellency the Governor in Council that it appears to it desirable that the deviation hereinafter referred to from the existing Colac-Beech Forest road in the Shire of Colac (declared to be a main road under the said Act which declaration was confirmed by the Order in Council published in the Government Gazette of the 24th June, 1925, on page 2186) should be made by the said Board: And whereas the said Board in accordance with the requirements of section 19 of the said cited Act has caused to be prepared a map plan and estimate showing the points between which and on and through what land the said deviation is proposed to be made and the cost of acquiring the land and constructing the said deviation: And whereas on an inspection of the said map and plan and a consideration of the said estimate His Excellency the Governor in Council is satisfied that there are funds legally available for acquiring the land and constructing the said deviation: Now therefore be it known by this present Order that His Excellency the Governor of the State of Victoria with the advice of the Executive Council thereof doth hereby approve of the said road being made, that is to say:—

All that piece of land in the Parish of Barongarook, and being a roadway generally one chain wide, the north-eastern boundary of which commences at a point on the northern boundary of allotment 31C of the said parish, distant 244 deg. 34 min. 456.3 links from the north-eastern angle of the said allotment; thence south-easterly through the said allotment, generally easterly and north-easterly through allotment 31D, generally south-easterly and north-easterly through Crown lands, south-easterly along a Government road, generally south-easterly through the said Crown lands, south-easterly across the Government road, generally north-easterly through allotment 30, generally south-easterly through Crown lands, south-easterly across a one-chain road, generally south-easterly and southerly through allotment 65D, south-westerly across a three-chain road, generally south-westerly through Crown lands, south-westerly across a three-chain road, generally south-westerly through Crown lands, generally south-easterly through allotment 43, south-easterly across a one-chain road and south-easterly through allotment 41 to a point on the eastern boundary of the said allotment, distant 179 deg. 32 min. 1,625.6 links from the north-eastern angle thereof. Also—

All that piece of land in Camping Reserve south-east of allotment 41, Parish of Barongarook, the boundaries of which are as follow:—Commencing at the south-eastern angle of the western portion of the said reserve; thence by lines bearing respectively 354 deg. 46 min. 840 links, 181 deg. 1 min. 201.5 links, 199 deg. 4 min. 333.9 links, 161 deg. 12 min. 337.4 links, and 90 deg. 0 min.: 80.6 links to the point of commencement.

NOTE.—The route of the portion of the roadway above described is more particularly delineated and shown coloured red on survey plan No. 1883, lodged in the office of the Country Roads Board.

ORDER APPROVING OF A NEW DEVELOPMENTAL
ROAD IN THE SHIRE OF WARRAGUL.

WHEREAS the Country Roads Board constituted under the Country Roads Act 1915 (No. 2635) has represented to His Excellency the Governor in Council that it appears to it desirable that the new road hereinafter referred to in the Shire of Warragul should be made by the said Board: And whereas the said Board in accordance with the requirements of section 19 of the said cited Act has caused to be prepared a map plan and estimate showing the points between which and on and through what land the said new road is proposed to be made and the cost of acquiring the land and constructing the said new road: And whereas on an inspection of the said map and plan and a consideration of the said estimate His Excellency the Governor in Council is satisfied that there are funds legally available for acquiring the land and constructing the said new road: Now therefore be it known by this present Order that His Excellency the Governor of the State of Vic-

toria with the advice of the Executive Council thereof doth hereby approve of the said road being made, that is to say:—

Sea View-Korumburra Road in the Shire of Warragul.—All that piece of land in the Parish of Allambee and being a roadway one chain or more in width, the north-western boundary of which commences at a point on the northern boundary of the Government road through allotment 3 of the said parish, distant 231 deg. 1 min. 242.3 links from an angle in the said Government road boundary formed by the intersection of lines bearing 51 deg. 1 min. and 70 deg. 15 min.; thence generally south-westerly through the said allotment and Government road, generally southerly across that road, southerly and south-westerly through allotment 13, south-westerly recrossing the said Government road, generally southerly and south-westerly through allotment 4, south-westerly along the Government road east of the allotment last named, westerly and south-westerly through the said allotment 4, southerly across a one-chain Government road and southerly and south-easterly through allotment 7A of the said parish to a point on the eastern boundary of the allotment last named, distant 221 deg. 56 min. 328 links from the north-eastern angle of the said allotment 7A.

NOTE.—The route of the portion of the roadway above described is more particularly delineated and shown coloured red on survey plan No. 1865, lodged in the office of the Country Roads Board.

And the Honorable George Louis Goudie, His Majesty's Commissioner of Public Works for the State of Victoria, shall give the necessary directions herein accordingly.

F. W. MABBOTT,
Clerk of the Executive Council.

Water Acts.

STATE RIVERS AND WATER SUPPLY COMMISSION.

MAFFRA IRRIGATION AND WATER SUPPLY DISTRICT.—
DISTRICT CONSTITUTED.

At the Executive Council Chamber, Melbourne, the
twenty-eighth day of September, 1926.

PRESENT:

His Excellency the Governor of Victoria.

Mr. Allan	Colonel Bouchier
Sir A. J. Peacock	Mr. McGregor
Dr. Argyle	Dr. Harris
Mr. Eggleston	Mr. McDonald.

UNDER the powers conferred by the Water Acts and all other powers enabling him in that behalf, His Excellency the Governor of the State of Victoria, with the advice of the Executive Council of the said State, on the recommendation of the State Rivers and Water Supply Commission, doth hereby declare, order, and direct as follows:—

1. That the area included within the boundaries defined in the Schedule hereto shall be and the same is hereby constituted an Irrigation and Water Supply District (and as on and from the first day of October, 1926, such area shall be deemed to be so constituted).
2. That the boundaries of such district shall be those set out and described in the aforesaid Schedule.
3. That the name of such district shall be Maffra Irrigation and Water Supply District.
4. That the scheme of local works for the service of such district consists of a system of channels and appurtenant works.
5. That the estimated cost of such works, including portion of the cost of Glenmaggie Weir and main channels for the supply of this and other districts, is £100,000.

5. No person shall climb or jump over the gates or fences in or around the Reserve, stick bills thereon, or cut names on or in any way damage or injure any of the buildings, gates, fences, seats, or trees in the Reserve, nor leave or deposit any glass, paper, or rubbish, nor roll or throw stones or any missiles of any kind therein.
6. No person shall put in the Reserve any cattle, horses, sheep, goats, pigs, or other animals without permission in writing of the Committee first obtained. Provided always that the moneys received for agistment or in respect of any licence or permit issued hereunder shall be expended in the maintenance and improvement of the Reserve, and that an account thereof shall be furnished annually to the Board of Land and Works.
7. No person shall bring into the Reserve any dog unless controlled by a chain or cord, without the permission in writing of the Committee first obtained.
8. No person shall camp in the Reserve, nor erect therein any dwelling, nor any booth or other structure for the purpose of offering for sale any article, without the permission in writing of the Committee first obtained.
9. No person shall take part in any public entertainment of any sort in the Reserve without the permission in writing of the Committee first obtained.
10. No person shall spit or expetorate on the paths or on any structure or erection in the Reserve.
11. No person shall bet publicly in any part of the Reserve, and every person infringing this Regulation shall be liable to expulsion from the enclosures and Reserve.
12. No person shall play, practise, or engage in any game or sport within the Reserve on Sundays.
13. Persons renting or hiring any stand, building, erection, or enclosure on the occasions of any fêtes, sports, or holiday amusements may be required to deposit any sum which the Committee may at any time determine, not exceeding Ten pounds, by way of guarantee that due care shall be taken of such stand, building, erection, or enclosure, and such Committee in its absolute discretion may make good any damage or injury sustained by such stand, building, erection, or enclosure, or anything contained therein, during such occupancy or hiring, and deduct the cost of making good such loss or damage from the sum of money deposited by way of guarantee, and all persons so hiring or renting shall abide by these Regulations and by any order given by the Committee.
14. No person, except labourers or workmen employed in the Reserve, shall enter any plots therein which may be enclosed for plantations of young trees or shrubs.
15. No person shall erect a bathing-box or boathouse or other building in the Reserve without the permission of the Committee in writing, and such permission may be granted in such form and subject to such fees, terms, and conditions as may be imposed by the Committee in any Regulations made by it hereunder for that purpose. No person shall sublet any bathing-box or boathouse, or transfer same, without written authority from the Committee. No person shall use or cause to be used any bathing-box or boathouse or other building for residential purposes.

Every person offending against these Regulations shall, in accordance with the provisions of section 181 of the *Land Act 1915*, for each offence be liable to a penalty of not more than Five pounds (£5), and every person who knowingly and willfully offends against any such Regulations, and who, after he has been warned by any bailiff of Crown lands or by any member of the Police Force, does not desist from so offending, may be forthwith apprehended by such bailiff or member of the Police Force and taken before some Justice, and shall be liable to a penalty of not more than Ten pounds (£10).

Dated at Queenscliff this fourth day of September, One thousand nine hundred and twenty-six.

(SEAL) LEWIS KLUG, Mayor.
A. W. POLLOCK, Councillor.
G. W. DROSTEN, F.A.I.S., Town Clerk.

The Board of Land and Works, in pursuance of the powers conferred by the *Land Act 1915*, section 181, doth hereby make the foregoing Regulations in respect of the Point Lonsdale Foreshore Reserve.

The common seal of the Board of Land and Works was hereto affixed this 28th day of September, 1926, in the presence of—

(SEAL) A. DOWNWARD, President.
(Corr. C.73102.) H. O. ALLAN, Member.

RETIREMENT AND APPOINTMENT OF MANAGERS OF COMMONS.

IT is hereby notified, for the information of all persons entitled to depasture stock on commons, that successors to the individual managers thereof who will retire on the 31st December, 1926, should be elected before the close of the year by the persons interested at public meetings duly convened for the purpose.

The names, in full, of the gentlemen who may be elected for one (1), two (2), or three (3) years should be transmitted to the Department of Lands and Survey.

A. DOWNWARD,
Commissioner of Crown Lands and Survey.

Department of Lands and Survey,

LEASING RAILWAY LANDS.

Applications are invited for letting on building lease for business purposes land at or near stations. Terms up to 21 years. For particulars, apply Estate Officer, Spencer-street, Melbourne, or to local stationmasters or roadmasters.

No tenders will necessarily be accepted.

E. C. EYERS, Secretary.

Melbourne, 6th October, 1926.

TENDERS FOR GRAZING LANDS.

FOR THE PERIOD 1st NOVEMBER, 1926, TO 30th SEPTEMBER, 1927, EXCEPT WHERE OTHERWISE STATED.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Crown Lands Office Tender-box on or before Noon on Monday, 1st November, 1926.

NOTE.—No tender will be accepted unless the fee for the full period and fee of Five shillings for licence are forwarded.

TENDERS will be received on or before Noon on Monday, 1st November, 1926, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 121 of the *Land Act* 1915 shall be subject to the conditions set forth in the Schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 121st section of the *Land Act* 1915, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 123 of the *Land Act* 1915 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognized.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling or other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all noxious weeds on the land, and on the half-width of the adjoining roads, and shall be responsible for the destruction of noxious weeds under the *Vermin and Noxious Weeds Act* 1922 in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. The licensee shall thoroughly and effectively protect the land within the boundaries of his licensed area from fire, and shall extinguish any fire which may break out on such area or may spread to it. In the event of the area being damaged by

fire, the licence may be forfeited, unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants, were in any way responsible for such fire.

19. The licensee shall not interfere in any way with any survey marks on the land hereby licensed.

SPECIAL CONDITIONS.

1. The period of occupation will, except where otherwise specified, be for eleven (11) months from 1st November, 1926, to 30th September, 1927.

2. The fee for the full period—for which the licence will be issued, and the fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name, occupation, and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing owned by him within one month, or to require the incoming tenant to pay for it in accordance with the provisions of section 124, Land Act 1915.

This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the incoming tenant will be held responsible for the care and maintenance of any improvements.

Plans can be seen and information may be obtained in this office.

Section 121, Land Act 1915, provides—

1. Where a licensee under section 121 of the Land Act 1915 has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

PRIVATE ADVERTISEMENTS.

SHIRE OF CORIO.

BY-LAW No. 17.

A BY-LAW of the Shire of Corio made under sections 197 and 198 of the *Local Government Act 1915*, and sections 8 to 20 of the *Local Government Act 1918*, and numbered 17, for—

- (a) Regulating and restraining the erection and construction of buildings, erections or hoardings, or of fences abutting on or within ten feet of any street or road.
- (b) Requiring the pulling down and removal of buildings, erections or hoardings, or of fences abutting on or within ten feet of any street or road.
- (c) Authorizing the Council to pull down and remove buildings, erections or hoardings or fences erected or constructed contrary to this By-law, or not pulled down or removed as required by or under this By-law, and to sell the materials and apply the proceeds in reimbursing the expenses of pulling down and removing such buildings, erections, hoardings or fences, and in paying into the Municipal Fund any fees or penalties due by the owner thereof.
- (d) Appointing fees which may be charged and received by the Council of the Municipality for any act done or to be done by any of its officers under this By-law and for any permit or licence to be issued by the Council.
- (e) Prescribing the minimum area and minimum depth and width of frontage of land on which any dwelling house or any shop or any dwelling house and shop combined may hereafter be erected.
- (f) Providing that every dwelling house hereafter erected shall have attached thereto for the exclusive use of the occupiers thereof a prescribed area of open land.
- (g) Providing with respect to buildings hereafter erected for—
 - (1) Regulating or limiting the height of buildings.
 - (2) The ventilation and lighting of buildings.
 - (3) The minimum size of any dwelling room.
 - (4) The minimum area to be covered by any dwelling house or any shop or any dwelling house and shop combined.
- (h) Prohibiting or restraining the use of combustible materials in the construction, alteration, repair or renewal of buildings, roofs or chimneys, flues, smoke vents or stove pipes.
- (i) Regulating the distance from any other building at which it shall be lawful to construct any building.
- (j) Regulating the height, thickness, construction or materials of the party walls of buildings adjoining each other, and of the external walls of buildings and of chimneys, and the material for and the mode of enclosing same.
- (k) Regulating the erection of tents.
- (l) Requiring any work or thing to be executed or done of such materials within such time or in such manner as may be directed or approved in any particular case by the Council or any officer or person authorized by the Council.
- (m) Leaving any matter or thing to be from time to time determined, applied, dispensed with or regulated by the Council by resolution or by any officer authorized in that behalf by the Council either generally or for any class of cases or in any particular case.

In pursuance of the powers conferred by the *Local Government Acts*, the President, Councillors, and Ratepayers of the Shire of Corio order as follows:—

INTRODUCTORY.

1. Except where a different intention is expressed herein or by resolution of the Council this By-law shall have force and effect only throughout the following part of the Municipal District, that is to say: The Moorpanyal Riding.
2. This By-law shall come into operation on its confirmation by the Governor in Council immediately after its publication in the *Victoria Government Gazette*.
3. From and after the date of this By-law coming into operation, By-laws No. 12 and 15 of the Shire of Corio shall be and the same are hereby repealed.
4. Nothing in this By-law contained shall be construed so as to relieve any person from the necessity of complying with all relevant By-laws or Regulations made and in force under the *Health Acts*.

PART I.

DEFINITIONS.

In this By-law and the Schedule thereto, save where the context is inconsistent therewith—

Alteration.

"Alteration" means any work made or done for any purpose in, to or on a building (except that of necessary repairs not affecting the construction of any external, cross or party wall), or any change in the purpose for which any building or erection of any part thereof shall be used.

Approved.

"Approved" shall mean approved by the Council in writing (or in the case where the Surveyor is authorized by the Council so to do) approved by the Surveyor in writing.

Area.

"Area" applied to a building means the sum of the superficies of the horizontal sections of each floor or story made at the point of the greatest surface of each floor inclusive of the external walls, and such portions of the party walls as belong to the building.

Build.

"Build" shall mean and include "erect, build, or construct" or "cause to be built, erected, or constructed."

Building.

"Building" shall mean and include where the context so admits, erection, structure tent, sleep-out, bungalow, detached room, out-building, hoarding, and every structure of whatever kind and every part of such structure and any addition or alteration thereto.

Building Line.

"Building line" means a line beyond which property owners or others have no legal or vested right to extend a building or any part thereof without the approval of the Council.

Council.

"Council" means the Council of the Municipality.

Dwelling House.

"Dwelling house" means a building used or adapted to be used wholly or principally for human habitation.

Fire Resisting.

"Fire Resisting" used with reference to any materials includes—

- (a) Brickwork constructed of good bricks well burnt, hard and sound, properly bonded and solidly put together with good lime or cement mortar.
- (b) Any stone suitable for building purposes by reason of its solidity or durability.
- (c) Sheet metals when used for roof coverings.
- (d) Iron and steel (when used for columns, girders, or wall framing), encased in cement, concrete, or other incombustible or non-conducting external coating.
- (e) Slate, tiles, brick, and terra cotta, when used for covering or corbels.
- (f) Concrete composed of broken bricks, stone chippings, or ballast and lime cement or calcined gypsum.
- (g) The use of redgum or jarrah will be allowed for special purposes, such as for stairs (internal or external) if in thickness of at least 2 inches and protected, in the case of internal stairs, with ceilings and soffits of plaster, corrugated galvanized iron, &c.

Frontages.

"Frontages"—Frontages to streets or roads shall be measured at 90 degrees (square) to the depth and not on an oblique-angled or curved road frontage.

Heights.

"Heights" in relation to stories shall mean—

- (a) In the case of the topmost story the measurement between the floor and the ceiling thereof or between the floor and the under surface of the tie of the roof, or, if there is no tie, then up to the level of half the vertical height of the rafters, or other support of the roof.
- (b) In the case of every story other than the topmost story the measurements between its floor and the floor above.

Hoarding.

"Hoarding" includes any erection or structure used or that may be used for the purpose of writing, painting, pasting or posting thereon notices, advertisements, placards, or other printed, painted or written matter, provided that the height measured from the level of the ground to the highest point of such structures is not less than 6 feet, but shall not apply to a hoarding erected in a street for the purpose of carrying on building operations only or dwelling house or shop or any fence 7 feet or under in height, or to "To Let" or "For Sale" boards not exceeding 30 square feet in area.

Right-of-way. Lane.

"Lane" and "Right-of-way" mean a street or road less than 33 feet wide.

Main Rooms.

"Main rooms" shall be deemed to mean and include all rooms used or which, in the opinion of the Council or the Surveyor, shall be intended to be used as bedrooms, dining-room or ordinary living rooms, including kitchens.

New Building.

"New building" includes—

- (a) Any building erected or commenced to be erected after the date of this By-law coming into force.
- (b) Any building which for more than half its cubical contents has been taken down or destroyed by fire, tempest, or otherwise, and is re-erected or commenced to be re-erected after the date of this By-law coming into force.
- (c) Any space between walls and/or buildings which is roofed or commenced to be roofed.

"Party wall" means a wall built to be used as a separation of two or more buildings, or a wall forming part of a building built upon the dividing line between adjoining premises for their common use.

Person.

"Person" includes corporation.

Reinforced Concrete.

"Reinforced concrete" means a form of construction in which cement concrete is reinforced with iron or steel, these materials being so combined that the iron or steel will take up and resist the whole of tensional stresses and assist in the resistance to shear, while the concrete will take up and resist the compressional stresses and assist in resistance to shear.

Surveyor.

"Surveyor" means the building surveyor or acting building surveyor for the time being of the Municipality or other officer having for the time being the administration of this By-law.

Shop.

"Shop" means a building in which goods are regularly offered or exposed for sale, or in which meals or refreshments are regularly offered or provided for payment, and also includes the saloons or shops of barbers and hairdressers and offices of agents and auctioneers and other businesses or trades. A bona fide private boarding-house shall not be included in this definition by reason only of the fact that meals or refreshments are occasionally supplied for payment to persons other than boarders.

Square.

"Square" applied to the measurements of any area means the space of 100 square feet.

Street, Road.

"Street" and "Road" mean and include "street" and "road" and "private street" and "private road" as respectively defined in the *Local Government Act 1915*, section 3.

Surface.

"Surface" or "ground level" means the mean level of the ground as determined by the Surveyor.

Classes of Buildings.

For the purposes of this By-law buildings shall be divided into two classes—

Class 1.—"Domestic class," which includes all buildings subject to small vibration and light loading of floors, such as dwelling houses, residential shops, offices, hotels, private schools, club-houses, and any other building not being a public building or of the warehouse class.

Class 2.—"Warehouse class," which includes all buildings subject to vibration and heavy loading of floors, such as warehouses, factories, mills and places for the storage and manufacture of goods, and any other building not being of the domestic class and public building class which includes all building such as theatres, churches, chapels, assembly halls, museums, libraries, public schools, hospitals, lecture rooms and other like buildings, not being of the domestic class.

PART II.**NOTICE OF INTENTION TO BUILD OR DEMOLISH AND LODGMENT OF PLANS.***Notice to be Given.*

1. No person shall erect, build, construct, remove, or make any alteration or addition to or cause to be erected, built, constructed, or removed, or made, any alteration or addition to

any building without first delivering at the office of the Surveyor a written notice of such intention, and until the plans have been approved in writing by the Surveyor, and without producing to the Surveyor—

Plans and Specifications.

- (a) Properly prepared plans and specifications of such building, addition or alteration, together with a tracing or copy of the plans of such building, addition or alteration, and also details and dimensions, sizes, and qualities of all materials, and enumerating any old materials proposed to be used in the construction of same.

Block Plan.

- (b) Block plan showing the relation of the building to adjoining buildings and boundaries, also to kerb line of channel or upper edge of pitches where no kerb exists.

Purpose.

- (c) A statement in writing of the purpose for which the building is intended to be used, and

Drainage.

- (d) The proposed method of drainage.

Further Particulars.

- (e) Such further particulars in writing regarding the same as shall be necessary to enable the Council or its Surveyor to determine if all the provisions of this By-law applicable thereto are being complied with.

Tracing Retained.

2. The tracing or copy of the plans and details of materials shall be retained by the Surveyor, and the original plans and specifications, when approved, shall be returned to the owner or his agent.

Plans to be kept at Building.

3. Such plans and specifications shall be kept at the building therein referred to, and shall be available for inspection by the Surveyor or the accredited officer of the Council at all reasonable times on demand during the construction or erection or alteration or addition, as the case may be, and for fourteen days after the completion thereof.

Permits and Fees.

4. No person shall commence any building, or any addition, alteration to any building, or demolish any building without having first obtained from the Surveyor a written permit for the commencement of same, and having paid to the Treasurer fees in accordance with the scale set out in the first schedule hereto.

Area of New Building.

5. The decision of the Surveyor as to the area of a new building or value of an addition shall be final and conclusive.

Permit is to Lapse in Six Months.

6. A permit obtained pursuant to this By-law shall lapse and be deemed to be of no effect at the expiration of six months from its grant unless extended by resolution of the Council, or unless the works covered by such permission shall have been duly completed.

Surveyor may Enter and Inspect.

7. The Surveyor at all reasonable times during the progress and after the completion of any building or addition or alteration to any building affected by this By-law may, and he is hereby authorized to enter and inspect such building or addition or alteration.

Surveyor may Stop Work if Contrary to By-law.

8. The Surveyor may at all times stop the progress of any building and withdraw or suspend any permission given by the Council under this By-law in the event of his not being satisfied that all the provisions of this By-law are being complied with, and any person who continues or builds or erects or works on the site after notice from the Surveyor to desist shall be guilty of an offence against this By-law.

Demolition or Removal of Building.

9. When a building is to be demolished or removed, the owner or contractor shall give twenty-four hours' notice to the Surveyor of such intended demolition or removal.

Method of Demolition.

10. In carrying out the work of demolition, story after story shall be completely removed. No material shall be placed upon the floor of such building in course of demolition; but the bricks, timbers, and other structural parts of each story shall be lowered to the ground immediately upon displacement and removed, except where special permission is granted by the Surveyor.

External Walls.

11. No portion of any external wall abutting on any street shall be pulled down between the hours of eight o'clock in the morning and six o'clock in the afternoon, except by consent of the Surveyor.

Nuisance to be Avoided.

12. Provision shall be made so as to avoid all nuisance from dust or falling refuse by playing water on same by means of a rose or other approved method.

Certificate of Surveyor.

13. No person shall use or occupy or permit, suffer or allow any building to be used or occupied unless and until the same shall comply in all respects with the provisions of this By-law and the Surveyor has issued a certificate in writing to that effect.

PART III.

AREA, FRONTAGES, ETC.

Distance from Building Line.

1. No building which is intended to be used or which shall be used as a dwelling house and no addition to any building shall be built, constructed, or erected within a distance of fifteen feet measured horizontally from the building line of the street or road the building is intended to or shall front.

Distance from Side Boundary.

2. Except as hereinafter provided no building which is intended to be used, or which shall be used as a dwelling house, and no addition to any building which is intended to be used or which shall be used as a dwelling house, shall be built, constructed, or erected—

(a) Within a distance of Five feet measured horizontally of any street, road, lane, or right-of-way at the side of any such building; or

(b) Within a distance of Five feet measured horizontally of land not in the same possession or occupation; or

(c) Within a distance of Ten feet measured horizontally of another building with an external wall of wood.

Minimum Area of Land.

3. No person shall erect, build, construct, or cause to be erected, built, or constructed any building or erection which shall or may, in the opinion of the Council or the Surveyor, be intended to be used as a dwelling house unless the site or curtilage of such building has a superficial area at least 5,000 square feet, and has a frontage to a street or road of not less than 50 lineal feet, and has a depth of not less than 100 feet.

Provided that when any allotment of land smaller in area than that hereinbefore prescribed was, in the opinion of the Council, owned by any person prior to the coming into operation of this By-law and not part of an allotment of which a portion has been alienated or excised since the coming into operation of this By-law, and in the opinion of the Council further land cannot be obtained to increase the area of such land, or such allotment is shown on any plan of subdivision heretofore approved by the Council, the Council, on application, in writing, may by resolution carried by a majority of the whole of the number of the members of the Council, at a meeting of which due notice has been given, permit a dwelling house, which shall in all other respects comply with this By-law to be erected upon such land.

Space at Rear of Dwelling.

4. Every dwelling house shall have attached thereto for the exclusive use of the occupier thereof, an area of open land not less than 2,000 square feet.

Area Covered by Dwelling.

5. The dwelling house and other buildings to be erected, built, or constructed upon any site or curtilage shall, except in the cases of corner sites, cover not more than one-fourth of the superficial area of such site or curtilage.

Corner Sites.

6. The dwelling house and other buildings to be erected, built, or constructed upon any corner site or curtilage fronting to two streets or roads shall cover not more than one-third of the superficial area of such site or curtilage.

Building to have Clear Access to Street.

7. No building shall be erected in such a position that it shall lie between another building not being an out-building or any part thereof and a street, unless such other building has a direct and unobstructed access to some other street at least 50 feet wide, nor shall any building not being an out-building be erected in such a position that another building or any part thereof shall be between such building and a street, unless such building has a direct and unobstructed access to some other street at least 50 feet wide.

Semi-detached Houses.

8. Two, but not more, buildings or houses may be erected together in one block provided that the external walls of such buildings shall be of brick, stone, or concrete, and provided that they shall be separated from each other by a wall of concrete or of brick or stone at least eight-and-a-half inches in thickness. Each building or dwelling house in a block shall be subject to the provisions of this By-law applicable to its class, save that the site or curtilage of each of such buildings shall have a superficial area of at least 4,200 square feet, and a frontage of at least 35 lineal feet to a street or road, and a depth of at least 120 lineal feet, provided that an open space of not less than 7 feet 6 inches shall be preserved between each side boundary and the nearest point of the houses.

No Semi-detached Wooden Houses.

9. No semi-detached wooden houses shall be permitted to be built.

Dwelling to have at Least Three Rooms.

10. No dwelling house shall consist of less than three main rooms and a bathroom of a total area of not less than 400 square feet, and no building or rooms thereof shall be occupied for living purposes until at least three main rooms shall have been completed according to the plans and specifications submitted to and approved by the Council.

Computing Distances.

11. For the purpose of computing distances from any building the farthest outside edge of the verandah spouting or any other projection shall be taken as the point from which measurements are to be taken.

Land not to be Reduced in Area.

12. No land upon which any dwelling house has been erected shall thereafter be reduced in area, so that the allotment so reduced shall contravene any of the provisions of this By-law.

Two-story Dwellings.

13. No dwelling house exceeding two stories in height, and no semi-detached two-story house shall be erected, provided that attic rooms approved by the Surveyor will not be considered a story.

SHOPS.

Minimum Area for Shops.

14. No person shall erect, build, construct, or cause to be erected, built, or constructed any building or erection which shall be or be intended, in the opinion of the Council or Surveyor, to be used as a shop or shop and dwelling, unless the site or curtilage of such building has a superficial area of at least 2,000 square feet, and has a depth of not less than 100 feet, and a frontage to a street or road of 20 feet.

Provided that when any allotment of land smaller in area than that hereinbefore prescribed was, in the opinion of the Council, owned by any person prior to the coming into operation of this By-law, and not part of an allotment of which a portion has been alienated or excised since the coming into operation of this By-law, and in the opinion of the Council further land cannot be obtained to increase the area of such land, or such allotment is shown on any plan of subdivision heretofore approved by the Council, the Council, on application in writing, may, by resolution carried by a majority of the whole of the number of the members of the Council at a meeting of which due notice has been given, permit a shop or combined shop and dwelling which shall comply with the Building Regulations, to be erected upon such land.

Open Space at Rear of Shop.

15. Every building or erection which shall be or, in the opinion of the Council or Surveyor may be intended to be used as a shop or shop and dwelling, shall have attached thereto for the exclusive use of the occupiers thereof an area of open land not less than 600 square feet.

Provision for Light and Air.

16. No shop shall be erected immediately in front of an existing dwelling unless provision be made for light, air, and access to the satisfaction of the Building Surveyor.

Shop and Dwelling in Separate Occupation to have Separate Entrance.

17. No person shall erect or cause to be erected any building being a shop and dwelling in separate occupations unless a separate entrance to the street be provided for the sole use of the occupants of the dwelling house. Further provided, that any shop and dwelling ceasing to be in one occupation the dwelling shall be subject to the provisions of such separate entrance.

No Alteration where such would Contravene By-law.

18. No alteration shall be made in the occupation of any existing shop with a dwelling attached where the effect of such alteration is such that the building so altered or land occupied with any dwelling house so altered, or the occupation of such dwelling attached to such shop contravenes any of the provisions of this By-law, and no such alterations shall be made without the consent of the Council having been obtained.

OUT-BUILDINGS.

Certain Buildings may be on Boundary.

19. Workshops and Out-buildings (except stables, cow-sheds, and fowl-houses) of not more than one square in area, and not exceeding 8 feet in height, and not containing a fire-place may be erected on any boundary, save and except the frontage to any road or street being a public highway, if the roof thereof is covered with galvanized corrugated sheet iron or other approved fire-resisting material, provided that such out-buildings are situated at the rear of and distant at least 10 feet from the rear of any building used as a dwelling house on the same allotment or any allotment adjoining.

No Wooden Building Extended Within Ten Feet of Out-buildings.

20. No wooden building or dwelling may be extended in such a manner that such out-buildings and dwellings shall thereafter be within 10 feet of each other; but this provision shall not prevent the owner of a building or dwelling on land adjoining that on which such out-building has previously been erected in different occupation from extending such building or dwelling, subject to the provisions of this By-law.

Out-buildings of more than One Square.

21. Out-buildings exceeding one square in area, including roofed structures and erections for storage of timber or other materials, shall be subject to all the conditions and limitations imposed in regard to wooden buildings, except as provided elsewhere in this By-law, with regard to certain buildings which shall be built for purposes other than a dwelling house and not otherwise herein particularly defined.

Out-buildings exceeding Five Squares or Fifteen Feet High.

22. No such building of a larger floor area than five (5) squares or more than 15 feet high shall be erected of material other than brick or stone unless the external walls are constructed of galvanized iron and are at a distance at least 30 feet from the building line of any street, and at a distance of at least the height of the wall of such building from the boundary of land not in the same occupation, and no building of this class of a greater area than fifteen squares (1,500 square feet), ground floor area only being computed, and of more than ground and first floor may be erected or added to in iron or wood so that at any time the total area of such building shall exceed 1,500 square feet on any one floor. This provision as to limit of area shall not apply to buildings erected at a distance of 100 feet or more from the building line of any street if approved by the Surveyor.

In all other respects such iron or wooden buildings must not be nearer than 15 feet to the building line of any street and 5 feet from the boundary of land not in the same occupation, and if not more than five squares may be built of galvanized iron or good sound weatherboards abutting on to a right-of-way not less than 10 feet wide, provided the walls are not nearer than the height of such wall, including the vertical portion of a gable-end roof to any land not in the same occupation.

Stables.

23. No stable, unless built of brick, stone, or concrete may be erected nearer than 20 feet to any dwelling nor than 10 feet to the boundary of land not in the same occupation, and no stable, whether of brick, stone, or other material, may have doors, windows, or other openings at a distance nearer than 20 feet from any dwelling, nor within 5 feet of land not in the same occupation.

Fowl-houses.

24. Fowl-houses of not more than two squares in area, and not more than 6 feet in height may be erected at rear of any dwelling on the boundary of land not in the same occupation, provided that the nearest portion of such fowl-house is at least 15 feet from the building line of any street and 25 feet from any dwelling house, church, schoolroom, hall, or factory. The walls and roof covering of such fowl-houses must be of iron or other fire-resisting material approved by the Surveyor. In all other respects they must comply with the regulations for wooden buildings generally, and not be nearer to the boundary of land not in the same occupation than 5 feet.

25. Fowl-houses of larger area may be erected on the boundary if at a distance of at least 50 feet from any street and 25 feet from any dwelling house, provided the roof and walls are covered with galvanized iron or other fire-resisting material approved by the Surveyor, and not more than 7 feet high.

PART IV.

MATERIALS.

Good Quality.

1. All materials, used in any building must be of good quality, and shall be subject to the approval of the Surveyor, and the Surveyor shall have power to condemn, and to order the removal of, or to remove at the expense of the owner any material which, in his opinion, is not suitable to use for the purpose for which he may consider it is intended to use same, and no person shall use any material so condemned for any building, alteration, or addition.

Second-hand Material.

2. No old or second-hand material may be used unless approved in writing by the surveyor or building inspector.

Bricks.

3. Bricks used in any building must be good, hard, and well burnt. When old bricks are used in any wall they shall be thoroughly cleaned before being so used, and shall be whole and good, hard, well-burnt bricks.

No. 154.—14696.—3

Sand.

4. Sand used for mortar in any building shall be clean and sharp, free from loam, dirt, and salt, or organic matter.

Lime Mortar.

5. Lime mortar shall be composed of freshly-burnt lime and sand in the proportion of at least one part by measure of lime, and not more than three parts by measure of sand. All lime intended to be used for mortar shall be thoroughly burnt, of good quality, and be properly slacked before being mixed with sand. Cement mortar, one part cement to five of sand, may be substituted for lime mortar.

Cement.

6. Cement mortar shall be composed of good Portland cement or other cement of equal quality approved of by the Surveyor, mixed with clean, sharp sand in the proportion of at least one part by measure of cement, and not more than four parts by measure of sand, and shall be used before initial setting has commenced.

Concrete.

7. Concrete for foundations shall be composed of clean-broken stone or other hard material approved by the Surveyor broken to a gauge not exceeding 2 inches and sand well mixed on a wooden floor or in an approved concrete mixer, with freshly-burnt lime, hydraulic lime or Portland cement in the proportions of one part by measure of lime to not more than five parts, or one part of cement to not more than six parts of the other materials.

REINFORCED CONCRETE.

Conditions for Use.

8. In all cases where reinforced concrete is employed whether in buildings as a whole or specified portions of buildings required or not required by this part of this By-law to be fire-proof or fire-resisting, the reinforced concrete work shall be designed in accordance with the rules and carried out under the conditions hereinafter contained.

Drawings to be Filed.

9. Before the actual carrying out of the work or any portion thereof, complete drawings of such work or portion shall be filed with the surveyor showing all details of the construction and the size, spacing, and arrangement of all the reinforcing members.

Loading Tests.

10. Every agreement with a builder for the carrying out of reinforced concrete work shall contain provisions whereby the builder shall be responsible for the efficiency of the execution of such work, and also provisions empowering the architect or owner to apply actual loading tests to such work in accordance with the stipulated loads to be carried in each case. The Surveyor shall have the power to require that such loading tests shall be actually applied in such cases as he may think fit.

Efficient Supervision.

11. No reinforced concrete work will be permitted to be carried out except under the immediate and continuous direction and supervision of an engineer or foreman, who can produce to the Surveyor satisfactory evidence that he had not less than two years' previous experience in the actual execution of this form of construction, whether in buildings or engineering structures.

Cement Concrete.

12. The cement concrete employed in reinforced concrete work shall be so proportioned that there shall be used not less than one cask of Portland cement, weighing 375 lb. net, for each 13 cubic feet of net-finished concrete measured in place.

Steel to be Clean.

13. The steel employed in reinforced concrete work shall be clean and free from paint, soil, grease, or tar of any kind, and shall also be free from scaly rust.

Stress Intensities.

14. The following stress intensities upon the several materials will be permitted as a maximum, provided that the calculation of external forces has been made in accordance with the rules hereinbefore provided, viz.:

- (a) For all steel reinforcing members employed substantially as they come from rolls—
 - In tension or compression, 15,000 lb. per square inch.
 - In shear, 10,000 lb. per square inch.
- (b) For all steel reinforcing members where forged or welded—
 - In tension or compression, 15,000 lb. per square inch.
 - In shear, 10,000 lb. per square inch.
- (c) For the adhesion between the concrete and the steel, 70 lb. per square inch.
- (d) For concrete—
 - In compression, 500 lb. per square inch.
 - In shear, 70 lb. per square inch.
 - In tension, nil.

Requirements in Design.

15. The detailed design of all parts of the reinforced concrete work subject to cross bending or direct stresses shall proceed upon the basis of the latest methods, subject, however, to the following requirements:—

- (a) The steel shall take all the tensile stresses.
- (b) The ratio of the modulus of elasticity of steel to that of concrete shall be taken as fifteen.
- (c) Where the concrete is of insufficient section to take up the shearing stresses sufficient steel shear bars shall be provided to take up the residue of the shearing stresses.
- (d) In columns all main reinforcing bars shall be held together by horizontal steel ligatures spaced not further apart than twenty diameters of the main bars.
- (e) The extremities of all tension bars employed in all girders shall be coggled or swelled in all cases where such bars exceed ½ inch in diameter.

Conditions during Construction.

16. In the execution of reinforced concrete work no concrete in any column or main girder shall be left uncompleted at the end of the day. Whenever concreting operations are resumed the surfaces of completed work against which fresh concrete is to be placed must be thoroughly washed clean and grouted with neat cement. No concrete work shall be carried out during any period when the shade temperature is higher than 100 degrees Fahrenheit nor lower than 35 degrees Fahrenheit.

Minimum Thickness of Concrete upon Outside Steel.

17. The steel reinforcements shall be wholly embedded in and surrounded with cement concrete. The following shall be the minimum thickness of concrete upon the exposed sides of edges of all steel reinforcements, viz.:—

- In floor, slabs or plates—¾ inch.
- In girders and ribs—1 inch.
- In columns—1½ inches.

Such thickness being exclusive of any plastering, veneer, or other surface treatment.

Minimum Thickness of Concrete.

18. The following shall be the minimum thickness of concrete in any portions of the work required by this By-law to be fire-resisting, viz.:—

- In floor plates not exceeding 6 feet net span—3 inches.
- In floor plates not exceeding 8 feet net span—4 inches.
- In floor plates not exceeding 10 feet net span—5 inches.
- In floor plates exceeding 10 feet net span—6 inches.
- In external walls not exceeding 15 feet net span—4½ inches.
- In external walls exceeding 15 feet net span—6 inches.
- In partitions—2½ inches.

No internal wall shall be deemed to be fire-resisting unless 4½ inches in thickness. Such respective thicknesses shall be exclusive of any plastering, veneer, or other surface treatment.

Mixture.

19. Concrete shall be composed of a mixture of not less than one part of Portland cement to two parts of sand and four parts of broken stone or approved aggregate of not more than ¾-inch gauge.

Placing.

20. Concrete shall be placed in position as rapidly as possible after mixing. Any concrete that has partially set shall be rejected and in no circumstance shall concrete remain more than fifteen minutes before being placed.

TIMBER.

21. All timber and wooden beams used in any building shall be good sound material, free from rot, large or loose knots, shakes, or any other imperfections whereby the strength may be impaired, and shall be of such sizes, dimensions, and spaces as set forth in clause 25, Part 5, of this By-law.

PART V.

CONSTRUCTION.

Architecture.

1. The architecture of all buildings shall be to the approval of the Surveyor.

Foundations.

2. The foundation or footings of buildings other than wood shall not be less in width than 8 inches wider than the wall standing thereon, and shall not be less in depth than an average of 18 inches below the natural surface of the ground.

Lime concrete foundation will not be permitted to be used except in the case of Domestic Class Buildings not more than two stories in height, and only with the consent of the Council.

External Walls.

3. All external walls shall consist of brick, stone, concrete, reinforced concrete, or other hard fire-resisting material approved by the Council, provided that any building used or intended to be used solely as a dwelling house may have walls constructed of wood subject to the conditions set out in this By-law for buildings wholly or partly in wood.

Construction of Walls.

4. Every wall constructed of brick, stone, or other similar materials shall be properly bonded and solidly put together with mortar, and no part of such wall shall overhang any part underneath it except to the extent of 9 inches and as approved by the Surveyor, and provided that the projection is well and solidly corbelled out, and that the inside of the wall carrying such corbelling is carried up vertically in continuation of the lower face thereof. All return walls shall be properly bonded together.

Damp Course.

5. Every wall or fireplace of brick, stone, or similar material shall have a damp-proof course or courses of asphalt or other approved impervious material above the surface of the ground below the lowest floor, and in cases where it is not desirable to place the same throughout the building at the one uniform level, then the said damp-proof course must be laid in horizontal layers connected at the end by a vertical course of the same materials.

Hollow Walls.

6. External walls may be constructed as hollow walls if constructed in accordance with the following rules:—

- (a) The inner and outer parts of the wall shall be separated by a cavity which shall throughout be of a width not exceeding 2 inches.
- (b) The inner and outer parts of the wall shall be securely tied together with suitable bonding ties of adequate strength formed of galvanized iron, glazed stoneware, or other approved material. Such ties shall be placed at distances apart not exceeding 2 feet 3 inches horizontally and 13½ inches vertically.
- (c) The thickness of each part of the wall shall throughout be not less than 4½ inches.

No hollow wall 11 inches or less in thickness shall be greater in superficial extent than three squares in any one story unless strengthened by a partition wall, fireplace, or projecting pier to the satisfaction of the Surveyor.

- (d) The aggregate thickness of the two parts, excluding the width of the cavity, shall throughout be not less than the minimum thickness prescribed for solid walls of the same height and length.
- (e) Provided that nothing herein contained shall prevent a cavity of not more than 1 inch across being filled in with material impervious to moisture, in which case the bonding ties may be omitted provided no portion of the wall is less than 9 inches thick.

Hollow Concrete Walls.

7. Hollow concrete blocks may be used for the construction of walls of buildings for one story provided the thickness for walls required by these regulations does not exceed 9 inches.

The thickness of concrete at the front and back of such blocks shall not be less than 2½ inches thick, with 4-inch cavity and the thickness of the cross-ties shall not be less than 2 inches for the full height of the block.

Ties shall be spaced not more than 15 inches apart. Concrete blocks shall not be used green, and unless special permission be obtained no block shall be used within fourteen days of the date of construction.

The blocks shall be bedded and jointed in cement mortar. 8. External and party walls of buildings of the Domestic Class shall be of not less thickness than the thickness specified in Tables A and B.

9. If any story except in building of the warehouse class exceeds in height eighteen times the thickness prescribed for the walls of such story, the thickness of each external and party wall throughout such story shall be increased by one-eighteenth part of the height of the story, and the thickness of each external and party wall below that story shall be increased to that thickness, but any such additional thickness may be confined to piers, properly distributed, of which the collective widths amount to one-fourth part of the length of the wall. No increase in thickness of brick walls shall be less than 4½ inches.

10. The height of any story except warehouse class may be twenty times the thickness of the walls prescribed for such story if built with cement mortar.

Thickness of Walls under Certain Conditions.

11. Walls under 75 feet in length may be constructed 9 inches thick, provided they are strengthened with 4½-in. piers equally spaced, of which the collective widths amount to one-fifth of the length of the wall. The height shall not exceed 12 feet when built with lime mortar, or 13 feet 6 inches when built in cement mortar.

12. The thickness of walls under 20 feet in length may be two-thirds the thickness required for external or party walls as stated in the Tables A and B for Domestic Class, and C and D for Warehouse and Public Building Class, but in no case less than 9 inches.

13. If in any story of a building of the Warehouse Class the thickness of the wall as determined by the provisions of the regulations under this part of this By-law is less than one-sixteenth part of the height of such story, the thickness of the wall shall be increased to one-sixteenth part of the height of the story, and the thickness of each external and party wall below that story shall be increased to that thickness, but any such additional thickness may be confined to piers properly distributed, of which the collective widths amount to one-fifth part of the length of the wall. No increase in thickness of brick walls shall be less than 4½ inches.

14. The height of any story of the Warehouse Class built in cement mortar may be eighteen times the thickness prescribed for such story.

Lengths—How Measured.

15. Walls are deemed to be divided into distinct lengths by return walls, and the length of every wall is measured from the face of one return wall to the face of another, provided that such return walls are external party or cross walls of the thickness required by regulations under this part of this By-law, and bonded into the walls so deemed to be divided.

Cross-walls.

16. The thickness of a cross-wall shall not be less than two-thirds of the thickness hereinbefore required for an external or party wall of the same dimensions and belonging to the same class of buildings, but never less than 9 inches, and no wall subdividing shall be deemed to be a cross-wall unless it is carried up to the plate level of the topmost story, and unless in each story the aggregate extent of the vertical faces or elevation of all the recesses, and that of all the openings therein taken together, does not exceed one-half of the whole extent of the vertical face or elevation of the wall. If a cross-wall is carried on a girder across the ground story and is supported by piers to the satisfaction of the surveyor, it shall be deemed to be a cross-wall in accordance with this regulation. But in one-story buildings of the Domestic Class, 4½-in. cross-walls will be permitted, provided the unsupported length of any wall does not exceed 25 feet.

Cross-wall Becoming External Wall.

17. Wherever a cross-wall becomes in any part an external wall, the external portion of such cross-wall shall be of the thickness required for an external wall of the same height and length and belonging to the same class of buildings, but no portion of such cross-wall shall be of less thickness than is required for the external portion thereof.

Internal Walls.

18. All internal bearing walls and partition walls and foundations thereto shall be constructed in such manner as may be approved by the surveyor.

Isolated Piers.

19. Not isolated brick or stone piers shall exceed in height eight times the least dimension of same, if built of lime mortar, and twelve times if built of cement mortar.

Parapet to Walls on Boundary.

20. Where the external wall of any building is erected on the boundary of the land on which the same stands, or where the overhanging eaves or gutter of any building would be within 2 feet of such boundary, then the external wall of such building shall be carried up to form a parapet 15 inches at the least in height above the roof or above the highest part of any flat or gutter, as the case may be.

Parapet Warehouse Class.

21. In buildings of the Warehouse Class the thickness of such parapet shall be equal to the thickness of such wall in the topmost story, and in any other building of a thickness of 8½ inches at the least.

Party Walls.

22. Every party wall shall be carried up for a height of 15 inches above the roof, measured at right angles to the slope thereof, or 15 inches above the highest part of any flat or gutter, as they case may be, and of a thickness (in buildings of the Warehouse Class) equal to the thickness of such wall in the topmost story, and in any other building of a thickness of 8½ inches at the least. Provided, however, that in the case of domestic buildings where not more than two buildings are erected under one roof, it shall be sufficient if the party wall is carried up at least 8½ inches in thickness to the underside of the roof covering, and such roof covering of iron, slate, or other material must be bedded in good mortar to the satisfaction of the surveyor, and the top of such party wall shall not be hidden from view until it has been approved by the surveyor.

23. Every party wall shall be carried up of the thickness aforesaid above any turret, dormer, lantern light or other erection of combustible materials fixed upon the roof or flat of any building within 4 feet from such party wall and shall extend at least 15 inches higher and wider on each side than such erection; and every party wall shall be carried up above any part of any roof opposite thereto and within 4 feet therefrom.

BUILDINGS WHOLLY OR PARTLY IN WOOD.

24. The external walls of all wooden buildings shall not exceed in height 15 feet, measured from the floor level to the top of the wall plates.

The following conditions shall apply as to scantlings and spacings of timber. The scantlings are the minimum sizes permissible:—

Stumps.—Redgum, ironbark, or box of not less end area than 24 square inches and spaced not more than 4 feet apart, sunk not less than 18 inches below natural surface of ground. The building inspector shall be notified when stumps are put in.

Sole Plates.—Redgum, 12 inches x 6 inches x 2 inches.

Bearers.—4 inches x 3 inches. Not more than 6 feet apart. All wall bearers and bearers supporting floor joists shall throughout their lengths be supported by stumps placed immediately under each bearer, a stump to occur at the intersection of all walls.

Floor Joists.—4 inches x 2 inches spaced 18 inches.

Floor and Wall Plates.—4 inches x 2 inches. All top and bottom wall plates must be checked with at least ¼-in. check by the width of the stud to receive each stud and prevent lateral movement of such stud in all walls—alternatively; all plates shall be morticed at least 1 inch by the width of the stud and stud shall be tenoned with tenon not less than 1 inch by a depth of 1½ inches to engage such mortice. All plates shall be scarfed with scarf joints not less than 4 inches in length and adequately secured each to each.

Vermin Plate.—4 inches x 2 inches hardwood.

Studs.—4 inches x 1½ inches, 18-in. centres.

Top Plates.—Wooden buildings, 4 inches x 2 inches; brick buildings, 4 inches x 1½ inches.

Pole Plate.—3 inches x 1½ inches fixed on top of ceiling joists.

Rafters.—4 inches x 1½ inches, 18-in. centres, or for iron roof 2-ft. 6-in. centres.

Purlins.—3 inches x 1½ inches, 30-in. centres for iron roof.

Ceiling Joists.—4 inches x 1½ inches, 18-in. centres.

Ceiling Hangers.—9 inches x 1½ inches not more than 7 feet apart.

Collar Ties.—4 inches x 1½ inches.

Ridge.—7 inches x 1½ inches.

Hips.—9 inches x 1½ inches.

Fascia.—9 inches x 1 inch.

Flooring Boards.—6 inches x ¾ inch.

Weatherboards.—1½-in. lap.

Wash-houses, W.C.s, and wood-sheds not under main roof, to be of 3-in. x 2-in. framing.

Timber Below Ground.

25. Such timber as shall be used for any buildings and permanently placed more or less below the surface of the ground shall first, and whilst in a dry condition, be thoroughly coated with hot tar or other approved preservative for the whole extent of such surface as shall be placed below the ground level, and for a distance of at least 6 inches above such level.

Vermin Plates.

26. Vermin plates must be used in the construction of all wooden buildings except sheds.

Rough Cast.

27. Stucco or rough cast work will not be allowed in walls and gables unless such walls and gables are first covered with waterproof material to the satisfaction of the Surveyor.

INTERIORS OF WALLS.

28. The interior surfaces of all walls and ceilings of every building which is intended to be used or shall or may be used as a dwelling-house shall be constructed of lath and plaster or of approved wood or fire-resisting materials.

ROOFS.

29. The roof of every building shall be constructed of tiles, slates, metal, or other incombustible material approved by the Surveyor.

*BUILDINGS OF THE PUBLIC BUILDING CLASS.**Public Buildings.*

30. Public buildings which correspond in form and structure either in whole or in part with buildings of the Domestic Building Class shall be governed to such extent by the provisions relating to such class.

If they correspond in form and structure either in whole or in part with buildings of the Warehouse Class, they shall be governed to such extent by the provisions relating thereto.

*UNITED BUILDINGS.**Buildings not to be United.*

31. Buildings shall not be united except where they are wholly in one occupation, but doorways will be allowed in party structures opening on to staircases, landings, or passages provided they are protected with iron-cased or tin-clad doors; such doors shall be hung so as not to block the egress space of the landings or passages.

32. Buildings shall not be united if, when so united and considered as one building only, they would not be in conformity with these regulations.

Buildings Ceasing to be in One Occupation.

33. Whenever any buildings which have been united cease to be in one occupation all openings made for the purpose of uniting the same in any party wall between the buildings or in any external wall where such wall is over 8½ inches in thickness shall be stopped with similar material to that of which the wall is constructed, or material approved by the surveyor and not less than 13 inches thick. Openings in all other walls to be stopped as above the full thickness of the wall, and any timber not in conformity with regulations under this part of this By-law placed in the wall shall be removed.

34. Whenever any buildings which have been united cease to be in one occupation the owner thereof, or if the buildings are the property of different owners then each of such owners, shall forthwith give notice to the Surveyor, and shall cause any openings made in the party or external wall to be stopped up as aforesaid.

Buildings Deemed to be United.

35. Buildings shall be deemed to be united when any opening fitted with an approved door is made in the party wall or the external walls dividing such buildings, or when such buildings are so connected that there is access from one building to the other without passing into the open air, provided that buildings shall not be deemed to be united when they are only connected by an open gangway.

*ALTERATIONS, ADDITIONS, ETC.**Alterations and Additions.*

36. Except with the consent of the Surveyor no alteration shall be made in any building in such manner that when so altered it will by reason of such alteration not be in conformity with the provisions of this By-law relating to new buildings.

Rebuilding Party or External Walls.

37. Unless in any case the Surveyor otherwise allows where a party or external wall not in conformity with this By-law has been taken down, burnt, or destroyed to the extent of

one-half thereof (measured in superficial feet) every remaining portion of the old wall not in conformity with this By-law shall either be made to conform therewith or be taken down before the rebuilding thereof.

Additions, Alterations, Must Conform to By-Law.

38. Every addition to or alteration of a building and any other work made or done for any purpose into or upon a building (except that of necessary repairs not affecting the construction of any external cross or party wall) shall, so far as regards such addition or alteration or other work, be subject to the provisions of this By-law relating to new buildings.

PART VI.

VENTILATION, LIGHTING, AND DRAINAGE.

Height of Rooms.

1. The main rooms in any building hereafter built or rebuilt shall be in every part not less than 10 feet from floor to ceiling, and the minimum height for wash-houses and bath-rooms shall be 9 feet.

Attic Rooms.

2. Provided that in the case of buildings of more than one story hereafter built or rebuilt, living rooms wholly or partially in the roof may be less than 10 feet in height from floor to ceiling throughout not more than two-thirds of the area.

Minimum Area of Rooms.

3. No main room shall have less floor area than 100 square feet.

Area of Light.

4. Every main room and bathroom in a building intended to be used as a dwelling-house shall have one or more windows opening directly into external air, with a total superficies of glass clear of sash frames free from obstruction to light equal to at least one-tenth of the floor area of the room, and so constructed that a substantial part of the windows equal to at least one-twentieth of the floor area can be opened for ventilation. The requirements of this sub-clause may under special circumstances be dispensed with or modified by the Council, but in such cases other approved provision for lighting or ventilation must be made.

Ventilators.

5. All rooms shall be ventilated by ventilators communicating directly with the outside air placed near the ceiling of each room, and of an area satisfactory to the Surveyor.

Application to Shops.

6. The provisions of this clause in reference to the height, lighting, and ventilation of main rooms in dwellings shall, as far as applicable, be extended and apply to all shops, save that the windows need not be constructed so as to open if other approved provision for ventilation be made.

Floors.

7. Floors shall be fixed level, and in all buildings the floor immediately above the ground if of wood shall have a space of not less than 6 inches between the ground and the underside of the floor joists.

Space under Floors.

8. The space under the ground floor of every building shall have a sufficiency of openings through all walls under the floor to thoroughly ventilate the same.

Drains.

9. In the construction of all buildings and all additions thereto, before the several walls of such buildings are built to the height of 10 feet from their foundation, the drains must have been properly built and made good, that is to say, to the best outlet that can be obtained, so as to render all such drains available for the drainage of the lowest floor of such building or addition thereto, and also of its area, and the drains under and from every building for drainage purposes must be constructed with glazed earthenware pottery pipes jointed with good cement, and having inside diameter of not less than 4 inches. And every such drain within the walls of such building shall be wholly covered over, under the lowest floor independently thereof, and every such drain within the walls of such building must be built so as to render the drain airtight, and shall be properly tapped and ventilated.

Drains Below Floors.

10. In no case shall the soil below the floor of any building be left undrained or so that the water may remain stagnant on any portion thereof. Where the site of a building is, in the opinion of the surveyor, insanitary, the surface of the ground enclosed by the walls of any building is to be covered with approved tarred composition, paving, or concrete at least 2 inches in thickness, rolled or rammed, and finished so as to be impervious to water and foul exhalations; and in all cases the foundations or footings of such buildings shall be of lime or cement concrete, constructed to the satisfaction of the surveyor, or the Council may prohibit the construction of any building or erection intended for human habitation on such site.

Living Rooms over Stables.

11. Every living room constructed over a stable shall be separated from such stable by a floor rendered impervious to foul air in such manner as the Surveyor may approve.

Water not to be Allowed to Drop on any Public Way.

12. Roofs and gutters and flashings of any building or erection, and of any projection therefrom, and also balconies, verandahs, and shop fronts, must be so arranged and constructed and supplied with gutters and pipes which must be maintained so as to prevent the water therefrom dropping or running over any public way, and all such rain water pipes and eaves, gutters and flashings are to be made of metal.

Permit May Be Refused if Drainage not Satisfactory.

13. The Council may refuse permission to build or erect any building, erection, or tent or addition unless and until it is satisfied that the proposed building, erection, or tent or addition and the site and curtilage thereof can be properly drained.

PART VII.

TENTS, BUNGALOWS, DETACHED ROOMS, ETC.

This part applies to all tents, bungalows, and detached rooms of any description used as dwelling rooms or sleeping places.

Definition of Tent.

1. In this part "tent" shall mean and include temporary shelters, the roof and walls whereof are composed wholly of canvas, cotton, or other similar non-rigid woven material.

Bungalow Detached Room.

2. "Bungalow" and "detached room" shall mean and include any permanent or semi-permanent building, structure, or erection, used or intended to be used as a dwelling or sleeping place.

Distance from Other Buildings.

3. No person shall build any tent, bungalow, or detached room nearer than 10 feet to the boundary of the allotment on which the same is to be erected, or nearer than 15 feet to any other building or structure.

Roof.

4. The roof of any bungalow or detached room shall consist of galvanized corrugated iron or other roofing material approved by the Surveyor, and shall project not less than 18 inches beyond the walls of such bungalow or detached room.

Ventilation.

5. Every bungalow or detached room shall have openings in the walls thereof allowing the free ingress and egress of air and such openings shall be equal in area to not less than one-fourth of the total wall space, provided that such openings may be covered by fly wire or netting of not less than 1-16th-in. gauze.

Floor and Walls.

6. Every bungalow and detached room shall be properly floored with a wooden floor, and shall have walls not less than 7 feet high, covered with wood or other impervious material for at least half their height from the floor.

Spaces and Areas.

7. Unless inconsistent with this part the provisions of this By-law relating to buildings wholly or partly in wood and to distances from other buildings and boundaries shall apply to bungalows and detached rooms.

No Tent on Allotment unless Dwelling House Erected thereon.

8. No tent, bungalow, or detached room shall be erected on any allotment of land on which there is not already erected a dwelling-house which complies with the provisions of this By-law relating to dwelling-houses, and such tent, bungalow, or detached room shall be erected only at the rear of or at the side of such dwelling-house.

Areas.

9. No tent, bungalow, or detached room shall be erected on any allotment on which there is less than 3,000 square feet of space exclusive of buildings, and not more than one tent, bungalow, or detached room for every 1,000 square feet of space in excess of 3,000 square feet, not more than two such buildings in all, provided that no tent, bungalow, or detached room shall be erected on any allotment where such building, if erected, would reduce the area of such allotment, exclusive of buildings to less than three-quarters of the total area thereof.

Not to be Sub-leased except in Conjunction with Dwellings.

10. No tent, bungalow, or detached room erected in pursuance of the provisions of this By-law shall be leased or sub-leased, except in conjunction with the dwelling-house erected on the same allotment, and shall not be used save for the accommodation of an inmate or inmates of the household of the occupier of such dwelling-house.

PART VIII.

REMOVED BUILDINGS.

Written Permits to be Obtained.

1. No building or erection shall be removed into and erected or re-erected in the municipality, or removed from any one part of the municipality to and erected or re-erected in another part thereof unless the owner or person carrying out the removal first obtain written permission from the Council so to do.

Notice to be Given.

2. Before such permission shall be granted not less than 10 (ten) clear days' notice in writing shall be given to the Council or the Surveyor of the desire to remove and erect or re-erect such building or erection. Such notice shall contain or be accompanied by the following:—

- (A) Particulars of the situation of the building which it is proposed to remove.
- (B) Particulars of the situation of and a plan of the land upon which it is proposed to erect or re-erect or place such building, showing the proposed position thereon, and a tracing copy of such plan to be retained by the Council.
- (C) A plan giving the dimensions of the building and any proposed alterations or additions thereto, and a tracing copy of such plan to be retained by the Council.
- (D) A specification giving particulars of the construction of the existing building and of the alterations and additions (if any) which it is intended to make when the building is erected or re-erected.
- (E) Evidence satisfactory to the Council that such house has not been condemned as dilapidated, insanitary, or unfit for human habitation, and a certificate from the health officer of the municipality from which the building is proposed to be removed that within six months prior to date of removal no case of disease of an infectious or contagious nature has occurred therein.
- (F) Such further particulars in writing regarding the same as shall be sufficient to enable the Council or its surveyor to determine if all the provisions of any Act of Parliament, By-law, or Regulation applicable thereto, are or will be complied with.
- (G) The fee prescribed in the First Schedule for inspection by the surveyor.

Must Comply with Provisions for New Buildings.

3. No written permission shall be given unless such removed building, when erected or re-erected, shall comply with the provisions of this By-law as applicable to new buildings.

No Condemned Building May be Brought in.

4. No building or erection that has been condemned as dilapidated, insanitary, or unfit for human habitation shall be removed into or re-erected within the municipality.

Infectious Disease.

5. No building or erection in which any case of infectious or contagious disease has occurred during the preceding six months shall be removed into or re-erected within the municipality.

Certificate of Surveyor.

6. No removed building shall be occupied until the Surveyor shall have certified in writing that all the provisions of this By-law have been observed and complied with in respect of such building.

Alteration of Position of Building on Same Allotment.

7. Nothing herein contained shall prevent the alteration of the position of any building within the boundaries of the land on which the same stands, provided that in its altered position it shall comply in all respects with this By-law, and that in the progress of such removal the building be not taken on to any street, road, or public place.

PART IX.

CONSTRUCTION OF PUBLIC BUILDINGS.

Public Buildings.

1. Every public building and all additions and alterations by which increased accommodation is to be provided in existing public buildings (including the walls, roof, floors, galleries, and staircases and every structure and work constructed or done in connexion with or for the purpose of the same) shall be constructed in accordance with the regulations in this part of the By-law, and in such manner as may be approved by the Surveyor, or in the event of disagreement, as may be determined by the Referees.

Stairs to be Enclosed.

2. All stairs for use of the public shall be supported to the approval of the Surveyor, and the stairs or stair hall shall be enclosed by walls of brick not less than 9 inches thick or of reinforced concrete not less than 4 1/2 inches thick.

Egress Space.

3. No staircase, internal corridor, or passageway for the use of the public shall be less than 3 ft. 4 in. wide in the clear. When doors open on to corridors the corridors shall be increased to such width as will allow them to be 3 ft. 6 in. wide in the clear when doors are open.

Computation of Egress Space.

4. When permanent fixed seating is not provided the egress space required shall be computed from the available floor area after deductions for fixtures as hereunder:—

Floor area in square feet.	Number of exits.	Aggregate widths.
From 0 to 400	One	From 0 to 250 square feet the width of exit shall be 3 ft 6 in.; an increase of width of 6 inches for every additional 50 square feet of floor area shall be made up to 400 square feet
From 400 to 1,500	Two	The aggregate widths of exits from 400 to 900 square feet shall be 7 feet; an increase of 5 inches shall be made for every additional 100 square feet of floor area in excess of 900 square feet
From 1,500 to 3,000	Three	
From 3,000 to 4,000	Four	

Number of Exits.

5. When floor area exceeds 4,000 square feet the number of exits and aggregate widths thereof shall be subject to the approval of the Surveyor.

Egress Space where Seating Accommodation Provided.

6. When permanent fixed seating is provided the egress space required may be based on the actual seating accommodation provided, i.e., number of seats where divided, and allowing 18 linear inches for each person where seating is continuous. For every 100 persons accommodated on this basis egress space to the amount of 5 feet will be required, and for every additional 100 or part of 100 persons an additional egress space of 20 inches or proportionate part thereof shall be provided subject to the number of exits being supplied as required by the table under this part of this By-law.

Where Standing Room Provided.

7. Where standing room is provided the total widths of the respective exits as required above shall be increased at the rate of 5 inches for every 100 square feet of floor area so occupied.

Accommodation on Different Levels.

8. In all cases where a portion of the public is to be accommodated over or at a higher level than others of the public a separate means of exit of requisite dimensions and communicating with the street or open space shall be provided from each floor or level.

Exit from Platform or Stage.

9. When a platform or stage is more than 3 feet above level of the auditorium or contains 400 or more superficial feet of floor, separate means of exit from the said platform or stage shall be provided.

The width of all exits shall be the multiple of 20 inches, and no exits shall be less than 3 feet 4 inches in width.

Doors.

10. Doors shall be constructed in two leaves, fitted with approved fastenings. All doors shall open outwards. Doors abutting on a street shall be recessed so as not to encroach on the public way. No door shall be hung so as to open immediately on to a flight of steps or to obstruct when open any passage, stairway, or landing. All doors for entrances shall, when opened inwards, be locked back flush with the wall into a recess in such a manner as to require a key to release them.

Internal Approaches to Doorways.

11. No aisle or gangway between seating shall be less than 2 feet 6 inches wide. The aggregate width of the same shall be equal to egress space required. No corridor or passage shall be less in width than the egress space required for doors opening thereon, and shall be not less than 8 feet in height.

Stairways and Landings.

12. All stairways shall be constructed of fire resisting materials throughout. All stairs shall be in straight flight and with half space or quarter space landings at intervals of not more than fifteen or less than three risers, and have a continuous hand rail at a height of about 3 feet above centre of treads. Every stairway shall have a clear headway or not less than 7 feet.

Central Handrail Steps.

13. A central handrail shall be provided when the width of the stairway exceeds 7 feet; newel posts at head shall be 6 feet in height. The steps of each flight shall be of uniform dimensions throughout, with treads not less than 11 or more than 12 inches wide exclusive of nosing, and risers not more than 7 or less than 5 inches high.

Natural Ventilation.

14. An allowance of at least 2 square inches for every 4 square feet of floor area shall be provided for inlet and outlet ventilation. Inlet ventilators shall not exceed 50 square inches in area, and be fitted with regulating valves; the lower edge of inlet ventilators on the internal face shall be from 6 feet 6 inches to 7 feet above floor line. Outlet ventilators shall not exceed 250 square inches in area.

Such ventilators, both inlet and outlet, shall be of a type and form approved by the Surveyor.

In single-story buildings, and the topmost story of other buildings, one-third of the required ventilation area shall be by means of wall vents, and the remaining two-thirds by galvanized iron shafts fitted with approved cowls.

No opening into the roof space shall be made.

Mechanical Ventilation.

15. A mechanical system of ventilation, approved by the Surveyor, shall be installed in all cases where natural ventilation is impracticable, and, if desired, may be installed in addition to natural ventilation.

Every person who shall erect or construct any means of mechanical ventilation in any public building, or shall alter any means of mechanical ventilation provided for in any public building, shall comply with the following requirements:—

The source of air supply shall be free from dust or other injurious particles, and, if necessary, shall be washed and screened.

The exhausts shall be placed as far as possible from the source of supply.

The allowance of air per person per minute shall be 20 to 25 cubic feet.

Fire Extinguishing Appliances.

16. Water supply service and fire-fighting appliances as the Surveyor shall deem requisite and necessary shall be provided.

Sanitary Accommodation.

17. Adequate sanitary accommodation shall be provided as the Council may prescribe.

Places of Public Amusement.

18. Every building hereafter erected or altered to be used as a place of public amusement involving the use of a stage with movable or shifting scenery, curtains and machinery shall be of fire-resisting construction throughout, except the flooring boards.

19. Every building hereafter erected or altered to be used as a public building shall have all walls, partitions, floors, and staircases constructed of fire-resisting material. All spaces used for storage shall have floors of fire-resisting construction above the same. The floors of buildings not exceeding two stories in height may be of timber construction.

Cellars and basements shall not be reckoned as a story if the floors immediately above the same are of fire-resisting construction.

Hotels.

20. Every building hereafter erected as an hotel, lodging house, refuge, apartment house, club, sanitarium, or similar institution, shall, if more than three stories in height, have all walls, partitions, floors, ceilings, and staircases constructed of fire-resisting materials other than wood. If such buildings consist of three stories or less, all walls and partitions shall be constructed of fire-resisting materials. Cellars and basements shall not be reckoned as a story if the floors immediately above the same are of fire-resisting construction.

Number of Floors; Ordinary Construction.

21. No building of whatever class shall hereafter be erected or altered to contain more than four stories with floors of non-fire-resisting construction. All other floors shall have fire-resisting floors.

Use of Floor Boards.

22. Nothing herein contained shall prevent the use of wood flooring boards to cover floors of fire-resisting materials, provided that the space occupied by battens or sleepers, to which such boards may be secured, is filled solid to within 2 inches of the under-side of the flooring boards with concrete.

PART X.

VERANDAHS, PROJECTIONS, SIGNS, HOARDINGS, AND FENCES.

Verandahs.

1. No person shall erect, or cause or permit to be erected, any portico or verandah over the footway of any street in the municipality without first obtaining the consent of the Council in writing, and such portico or verandah shall be of the shape, figure, dimensions, and materials as set forth on the plans and specifications, for the time being, adopted by resolution of the Council, but the lowest part of such portico or verandah shall in no case be of less height than 8 feet 6 inches above the level of the outer edge of the footway.

Opening in Roof on Verandah.

2. No opening shall be made in the roof of such verandah for the purpose of affording light, unless such opening be properly framed and glazed with approved glass, protected underneath with a fine mesh wire netting or armoured glass to the satisfaction of the Council.

Projections.

3. No coping, cornice, string course, fascia, window-dressing, portico, balcony, balconette, bridge connecting building balustrade, and architectural projection or decoration shall project beyond the building line of any street or alley unless it be of brick, stone, tile, artificial stone, slate, cement or fire-resisting material other than wood.

4. No projection shall extend more than 3 inches beyond the building line at any height less than 10 feet from the level of the public footpath.

Porch, Landing, &c.

5. Every porch, gangway, outside landing, and outside step shall be of fire-resisting material, and shall not project beyond the building line of any street or alley.

Balcony, Cornice, &c.

6. Every balcony, cornice or other projection of or from any external wall shall be tailed into the wall of the building, and weighed or tied down to the satisfaction of the Surveyor, and no cornice, window or balcony shall, without special permission of the Council, exceed 3 feet in projection over the public way in streets over 33 feet in width or more than 2 feet in streets of 33 or less feet in width.

Shop Fronts.

7. No shop front shall exceed two stories in height above the level of the pavement of the public footpath in front of the shop. No part of the woodwork of any shop front shall be fixed nearer than 4 inches to the centre of the party wall where the adjoining premises are separated by a party wall, or nearer than 4 inches to the face of the wall of the adjoining premises where the adjoining premises have a separate wall, unless a pier or corbel of stone, brick, or other incombustible material 4 inches wide at the least, be placed as high as such woodwork and projecting throughout at least an inch in front thereof between the woodwork and the centre of the party wall or the separate wall, as the case may be.

Shop Windows.

8. Shop windows intended to be used for the display of goods or business advertisements shall consist of plate glass jointed and fixed in metal frames, the level of the sill of such frames to be not higher than 30 inches nor within 12 inches of the level of the footpath at the building line.

9. Woodwork wholly encased with metal not less than 22 gauge may be fixed flush with the face of the wall.

Hoardings, Signs.

10. Save as hereinafter provided, no person shall erect, alter, or add to any hoarding, signboard, or erection for advertising purposes, or attach, fix, or paint on any hoarding, rock, cliff, building, fence, or tree, any advertisement without first obtaining the consent in writing of the Council, and unless such hoarding, signboard, erection, or advertisement is erected, built or constructed, designed, altered or added to in accordance with a plan and specification prepared by such person previously approved of by the Council. All applications for consent of the Council under this clause shall be in writing signed by the applicant, and accompanied by a proper plan and specification, together with the fees prescribed in the First Schedule hereto.

11. No hoarding, signboard, or erection shall be within a distance from the building line of any street or road equal to the greatest height of such hoarding, signboard, or erection, and the lowest part of such hoarding, other than the main supports thereof, shall not be less than 3 feet from the level of the land.

12. No hoarding shall exceed 20 feet in height.

13. No hoarding shall be erected over any building or in front of any dwelling house.

Signboard, Hanging Lamp, &c.

14. No signboard, hanging lamp, or gaspipe fixture shall be erected on or attached to any building or verandah unless the permission in writing of the Council be first obtained. Each signboard, hanging lamp, or gaspipe shall be of material, construction, and design approved by the Surveyor, and shall be in no part less than 8 feet 6 inches above the level of the footpath. No signboard shall exceed in depth 3 feet, nor, unless attached to a verandah, project over the footpath.

Sign as Disfigurement to.

15. No person shall exhibit any advertisements in any place in such manner or by such means as to affect injuriously the amenities of a public park or pleasure promenade, or disfigure the natural beauty of any landscape within the Municipal District of Corio. This and the five last preceding clauses of this By-law shall apply to and have operation throughout the whole of the Municipal District.

Fences.

16. No paling fence and no close fence of iron or other materials exceeding 4 feet 6 inches in height above the footpath level shall be erected abutting on or within 10 feet or any street or road, except that in the case of a corner allotment this clause shall apply only to the fence abutting on one of the streets and the first 30 feet of the other fence, measured from the intersection of the building lines of the two streets.

Unightly or Dangerous Fence.

17. When, in the opinion of the Council, any fence abutting on or within 10 feet of any street or road within the Municipal District is in a dangerous or unightly state, the Council may, by notice in writing to be served on the owner of such fence, require such owner forthwith to take down, secure, or repair such fence as the case may require.

Every Fence to Have a Plinth.

18. Every fence to be hereafter erected abutting on or within 10 feet of any street or road shall have affixed thereto a suitable base or plinth, unless, in the opinion of the Council, it is unnecessary.

PART XI.

CLOSETS AND URINALS.

Closets not Connected with Septic Tank System.

1. No privy, closet, or urinal shall be erected at a less distance than 15 feet from any dwelling house on the same allotment or allotments adjoining, or at a less distance than 9 feet from a street, or 4 feet from the boundary of land not in the same possession, and each privy, closet, or urinal shall be properly screened from the public view. Provided that in case where there is a right-of-way abutting on such allotment, the privy, closet, or urinal may be erected on the boundary between such allotment and the right-of-way, but in the case of a wall of such privy, closet, or urinal so erected being built or erected on such boundary, no trap-door or other opening above the ground shall be formed or remain in such wall. Nothing in this regulation shall apply to any closet or urinal forming part of a main building and connected with underground sewerage system.

2. No closet or urinal shall be erected or remain in front of any dwelling or building facing a public highway.

Privy or Closet to be in Accordance with By-law.

3. No person shall build for use as a privy or closet any building, unless the same has been built, constructed, or erected in accordance with the specifications set out in Schedule 2 hereto, or in accordance with a plan certified to by the Surveyor as equivalent thereto.

Septic Tanks.

4. No person shall build, construct, or put in any septic tank or septic tank installation or other work or works for the reception, screening, disintegration, precipitation, settlement, clarification, oxidation, or purification of drainage matter, without the consent in writing of the Surveyor, subject to review by the Council, and such consent shall be given only upon written application by the person desiring such consent, and such application shall be supported by plan, drawings, and specifications in duplicate of such septic tank or septic tank installation, which shall fully disclose the situation of the proposed work relatively to the nearest habitable building, human food store, public thoroughfare, well bore, or other source of water supply; also the nature of the intended process of treating the drainage or residual solids, liquids, or gases thereof, so that nuisance or injury to health shall not be caused thereby, also the form, materials, dimensions, levels, and the extent of the work and the data concerning the character, volume, and extreme rates of flow of the drainage upon which the design thus disclosed shall have been based. A fee of 5s. must be lodged with the application.

The duplicates above referred to may be on tracing cloth.

PART XII.

CHIMNEYS, FLUES, FIREPLACES, AND HEATING APPARATUS.

Foundations, Footings, &c.

1. Chimneys shall be built on solid foundations and with footing similar to the footings of the wall against which they are built, unless they are carried on iron girders with direct bearings upon party, external, or cross walls to the satisfaction of the Surveyor, or on corbels of brick, stone, or other incombustible material, if the work so corbelled out does not project from the wall more than the thickness of the wall, measured immediately below the corbel. Chimneys may be corbelled out 14 inches from walls 9 inches in thickness on corbels of stone or other incombustible material not less than 10 inches in depth and of the full width of the jambs.

Chimneys, &c., with Soot Doors.

2. Chimneys and flues having proper soot doors of not less than 40 square inches may be constructed at such angle as is approved by the Surveyor, but in no other case shall any flue be inclined at a less angle than 45 degrees to the horizon, and every angle shall be properly rounded.

Position of Soot Doors.

3. All soot doors shall be distant at least 15 inches from any woodwork.

Arches.

4. An arch of brick or stone of sufficient strength shall be built over the opening of every chimney to support the breast thereof. Every camber arch shall have the abutments tied in by an iron bar, or bars of sufficient strength turned up or down at the ends and built into the jamb for at least 4½ inches on each side.

Flues.

5. A flue shall not be adapted to or used for any new oven, furnace, steam boiler, or other fire, used for any purpose of trade or business, or to or for the range or cooking apparatus of any hotel, tavern, or eating-house, unless the flue is surrounded with brickwork at least 9 inches thick or reinforced concrete 6 inches thick from the floor of the story on which such oven, furnace, steam boiler, or other fire is situate to 12 inches above the roof.

Flues in Connexion with Engines.

6. A flue shall not be used in connexion with a steam boiler or hot-air engine, unless the flue is at least 20 feet in height, measured from the level of the floor on which such engine is placed.

Lining, &c., of Flues.

7. The inside of every flue, and also the outside where passing through any floor or roof or space enclosed by the roof or behind or against any woodwork, shall be rendered or pargetted, or lined with fire-resisting piping or stone ware.

Jambs.

8. The jambs of every fireplace opening shall be at least 9 inches on each side of the opening thereof.

Incombustible Material in Certain Cases.

9. The breast of every chimney shall be of incombustible material, at least 4 inches in thickness, and the brickwork surrounding every smoke flue shall be at least 4½ inches in thickness. Provided that where a ventilating flue is carried up with a smoke flue, they may be separated by a properly constructed iron wythe of cast iron not less than 1 inch in thickness.

Backs of Fireplaces.

10. The back of every fireplace opening in party or internal walls from the hearth up to a height of 12 inches above the lintel or arch shall be brickwork at least 9 inches thick or reinforced concrete 6 inches thick. No flue shall be within 2 inches of the centre line of any party walls.

Thickness of Flues.

11. The thickness of the upper side of every flue, when its course makes with the horizon an angle of less than 45 degrees, shall be at least 9 inches.

Height.

12. Every chimney, smoke flue, or chimney shaft shall be carried up in brick or stonework at least 4 inches thick throughout to a height of not less than 3 feet above the roof, flat, or gutter adjoining thereto, measured at the highest point in the line of junction with such roof, flat, or gutter.

Top Courses.

13. The highest six courses of every chimney stack or shaft shall be built in cement mortar.

Chimney Shafts.

14. The brickwork or stonework of any chimney shaft, except that of the furnace of any steam engine, brewery, distillery, or manufactory, shall not be built higher above the roof flat, or gutter adjoining thereto, than a height equal to six times the least width of such chimney shaft, at the level of such highest point in the line of junction, unless such chimney shaft is built with, and bonded to another chimney shaft not in the same line with the first, or otherwise rendered secure.

Slabs:

15. There shall be laid level with the floor of every story, before the opening of every chimney, a slab of stone, slate, or other incombustible substance, at the least 6 inches longer on each side than the width of such opening, and at the least 14 inches wide in front of the breast thereof.

How to be Laid.

16. On every floor, except the lowest floor, such slab shall be laid wholly on stone or iron bearers or upon brick trimmers, or other incombustible material, but on the lowest floor it may be bedded on concrete covering the site, or on solid materials placed on such concrete.

Hearths, &c.

17. The hearth, or slab, of every chimney shall be bedded wholly on brick, stone, or other incombustible substance, and shall, together with such substance, be solid for a thickness of 6 inches at least beneath the upper surface of such hearth or slab.

Flues in Party Walls.

18. A flue shall not be built in, or against, any party structure or existing wall, unless it is surrounded with good, sound brickwork or other approved material, at least 4½ inches in thickness, properly bonded to the satisfaction of the Surveyor.

Cutting away Chimney Breast.

19. A chimney breast or shaft, built with or in any party wall, shall not be cut away unless the Surveyor certifies that it can be done without injuriously affecting the stability of any building.

Cutting into Chimney Shaft.

20. A chimney shaft, jamb, breast, or flue shall not be cut into, except for the purpose of repair or doing one or more of the following things:—

- (a) Letting in or removing or altering flues, pipes, or funnels for the conveyance of smoke, hot air, or steam.
- (b) Forming openings for soot doors, each opening to be fitted with a close iron door and frames.
- (c) Making openings for the insertion of ventilating valves, subject to the following restriction:—That an opening shall not be made nearer than 12 inches to any timber or combustible substance.

Position of Timber Work.

21. Timber or woodwork shall not be placed—

- (a) under any chimney opening within 6 inches from the upper surface of the hearth of such chimney opening;
- (b) within 2 inches from the face of the brickwork or stonework about any chimney or flue, unless the face of such brickwork or stonework is rendered.

Position of Wooden Plugs.

22. Wooden plugs shall not be driven nearer than 3 inches to the inside of any flue or chimney opening, nor any iron hold-fast or other iron fastening nearer than 2 inches thereto.

Ironwork.

23. No iron or steel joists, or other ironwork, shall be placed in any flue, except in so far as the same may be required for ensuring stability, or allowed by or under any other regulation under this Division of this Part of this By-law.

Gas Fires, Bath Heaters, &c.

24. Every gas fire, gas cooking-stove, or bath-heater shall be provided with a vent pipe not less than 3 inches in diameter, extending at least 12 inches above the roof, and fitted with an approved hood, vent pipes to have an air space of not less than 1½ inches round same.

Floor Above Furnaces or Ovens.

25. The floor or roof over any room or enclosed space in which a furnace is fixed, and any floor within 18 inches from the crown of an oven, shall be constructed of fire-resisting materials.

Setting of Stoves.

26. Every stove, other than a self-setting range, shall, unless the Surveyor is satisfied that the same is impracticable, be set solid in brickwork or concrete, and so as to leave no cavities at the back or sides of such stove or chimney-piece in which soot may accumulate.

PART XIII.

EXEMPTED BUILDINGS.

Ferries, Aviaries, &c.

1. This By-law shall not apply to any fence, greenhouse, greenhouse ferries, aviary, or to outbuildings, which outbuildings are on an area of not less than 5 acres used for agricultural or similar purposes only, or to temporary and removable offices and sheds used by builders during the construction of any building at or about the site of such building for a period not exceeding six months, or to any dwelling-house erected on an area which, including the curtilage, orchard, and garden belonging thereto, is not less than 5 acres.

Government-Buildings, &c.

2. This By-law shall not apply to any building of the Government of the Commonwealth of Australia, the State of Victoria, the Melbourne and Metropolitan Board of Works, or of the municipality.

PART XIV.

SPECIAL AREA.

No person shall erect, build, or construct, or cause to be erected, built, or constructed, any buildings or structure, the external walls of which shall be other than brick, stone, or concrete, on land described in Schedule No. 3.

PART XV.

REFEREES:

Appointment.

1. The Council shall appoint a referee, as provided by the *Local Government Act 1918*, to act with a referee appointed by Governor in Council, and exercise the powers as provided in the said Act.

When Referees may be Called Upon.

2. If any doubt, difference, or dissatisfaction in respect of any matter as to which provision is made by or under this By-law arises between any parties concerned, or between any party and the Surveyor for the municipality as to—

- (a) any act done, or to be done, in pursuance of this By-law;
- (b) the effect of the provisions of this By-law;
- (c) the mode in which the provisions and directions of this By-law are or ought to be carried into effect;
- (d) whether the requirements implied in terms of qualification applied to sites, to soils, to materials, or to workmanship or otherwise, and denoting good, sound, fireproof, fit, proper, or sufficient, are fulfilled in certain cases;
- (e) the expenses to be borne by the respective owners of premises parted by the same party walls, or the proportions thereof;
- (f) the proportions of the expense to be borne by the occupier or by the owner of premises in respect of any works executed; or
- (g) any other matter whatever.

Any party concerned may require the referees on appeal to determine such matter upon a requisition by notice in writing to the shire secretary setting forth, either generally or otherwise, the matter in respect of which the determination of the referees is required, together with a fee of £4 4s. and the referees shall, subject to the *Local Government Act 1918*, hear and determine same.

PART XVI.

ENFORCEMENT OF BY-LAW AND PENALTIES.

No Building may be Erected except in Compliance with this By-law.

1. No person shall erect, build, or construct, remove, or make any alteration or addition to, or cause to be erected, built, or constructed, removed, or made any alteration or addition to, any building contrary to the provisions of this By-law.

Provisions may be Dispensed With in Certain Cases.

2. Any matter or thing arising under this By-law may be from time to time determined, applied, dispensed with, or regulated by the Council by special resolution, either generally, or for any class of cases, or in any particular case. *Wide section 198 (3) (f) of the Local Government Act 1915, No. 2686.*

Re-erected Buildings.

3. Any building which shall be re-erected or commenced to be re-erected, wholly or partially, shall be subject to this By-law to the same extent as if it were a new building.

Penalty for Breach.

4. Any person who shall by any wilful act or default be guilty of any breach of any of the provisions of this By-law, or shall fail to duly comply with any notice thereunder, shall be liable for every such offence to a penalty of not less than One pound, and not exceeding Twenty pounds. And if such offence is a continuing one, to a further penalty not exceeding One pound per day for each day such offence is continued.

Certificate of Surveyor—Ruinous and Unsafe Buildings.

5. If the Surveyor shall certify in writing to the Council that any building has been removed into, or erected, or re-erected, within the municipality, or occupied contrary to any of the provisions of this By-law, or that any building is in such a dilapidated, ruinous, or unsafe condition as to be dangerous to the public safety, the Council, or any officer thereof, or other authorized agent, may give to the owner, occupier, or builder, or leave upon the site of such building a notice in writing requiring such owner to alter, or repair, or to remove, or pull down, such building within such time as is limited by such notice, and such owner, occupier, or builder shall comply with such notice within the time therein limited.

Notice to Make Building Conform to Regulations.

6. If any building shall be wholly or partly built or erected, added to, or altered contrary to, or not in conformity with the provisions of this By-law, the Council, or any officer thereof, or other authorized agent, may give to the owner, occupier, or builder, or leave upon the site of such building, notice in writing to bring such building into conformity with the said provisions, or requiring the pulling down or removal of such building, within such time as is limited in such notice, and such owner, occupier, or builder shall comply with such notice within the time therein limited.

Power of Council where Building or Erection Contrary to By-laws.

7. If default shall be made in complying with any notice mentioned in the last two preceding clauses, then, notwithstanding the imposition or recovery of any penalty, it shall be lawful for the said Council, by its Surveyor, officer, or other authorized agent or agents to enter upon any building, and on the site thereof with a sufficient number of workmen, and for that purpose, to break down any fence surrounding the land on which building is situate, and to demolish and pull down the said building or any part or parts thereof, and to do any other act that may be necessary for the purpose, and to remove the materials thereof to some convenient place, and if the Council, in its discretion, thinks fit to sell the same in such manner as it thinks fit, and all expenses incurred by the Council, its Surveyor, officer, or other authorized agent or agents, in demolishing and pulling down the said building, or any part thereof, and selling the same, and in doing other acts as aforesaid, and all fees and penalties due by the owner, occupier, or builder thereof, may be deducted and retained by the Council out of the proceeds of such sale, and the Council shall restore the surplus (if any) arising from such sale to such owner, occupier, or builder, or other person legally entitled thereto on demand, and any deficiency shall be made good and paid by the owner, occupier, or builder, to the Council on demand.

Local Government Act 1915.

SHIRE OF HEIDELBERG.

NOTICE TO ALL WHOM IT MAY CONCERN.

WHEREAS the Council of the Municipality of the Shire of Heidelberg, in the State of Victoria, deem it expedient to execute a certain work or undertaking for the purpose of providing a place of recreation, for the purposes whereof it is, in the opinion of the Council, necessary and desirable that the said Council exercise its power of taking land compulsorily within the municipal district of the said Council, as provided by the *Local Government Act 1915*, and the said Council has caused its surveyor to prepare such specifications, maps, plans, sections, and elevations of the said work or undertaking as are necessary, and in which are expressed the nature and extent of such work or undertaking, and the exact site and measurements thereof, and on and through what lands the said work or undertaking is proposed to be placed; and the names of the owners or reputed owners, lessees or reputed lessees; and the occupiers of such lands so proposed to be taken so far as known, and the said specifications, maps, plans, sections, and elevations so prepared have been approved by the said Council.

In pursuance of the provisions of the *Local Government Act 1915*, the said Council doth hereby publish and give notice that the description shortly of the purport of the said work or undertaking, and of the said specifications, maps, plans, sections, and elevations, is as follows:—

The creation of a pleasure ground and place of public resort, &c., within the Heidelberg Riding, described as follows:—All those pieces or parcels of land being lots 3, 4, 5, 6, 7, 8, 9, 12, 13, 14, 15, 16, 17, and 18 of block H, lodged plan No. 4227, part of Crown portion 3, Parish of Keelbundoora, County of Bourke.

And the said Council doth hereby give notice that the land through which the same is proposed to be placed or to be extended, and which it is necessary and desirable to take compulsorily, is:—All that piece of land being part of lots 17 and 18, block H, lodged plan No. 4227, part of Crown portion 3, Parish of Keelbundoora, County of Bourke; having a frontage of 58 feet to Alfred-street, with a depth of 131 feet 7 inches along James-street, in the name of Elizabeth Mary James, of St. Helliers-street, Heidelberg.

And the said Council doth hereby give further notice that the said specifications, maps, plans, sections, and elevations are deposited at the office of the said Council, corner of Studley-road and Barkly-place, Heidelberg, and are there open for inspection and perusal on all the days and between the hours the Municipal Office is appointed to be open for the space of forty clear days from the date of the publication of this notice in the *Government Gazette*. And the said Council doth hereby call upon all persons interested in or affected by the said proposed work or undertaking to set forth, in writing, addressed to the said Council or the Shire Secretary thereof, at the Shire Hall, at the corner of Studley-road and Barkly-place, Heidelberg, within forty clear days from the date of this publication of this notice as aforesaid, all objections which they may have to the said work or undertaking.

Dated this twenty-first day of September, One thousand nine hundred and twenty-six.

The corporate seal of the President, Councillors, and Ratepayers of the Shire of Heidelberg was hereto affixed by me—

(SEAL) J. J. PRICE, Shire Secretary.

in the presence of—

JOHN COATE, President.

THE "VICTORIA GOVERNMENT GAZETTE."

SUBSCRIPTIONS.—The Subscription, including Postage, is £1 10s. 4d. per annum, or 7s. 7d. per quarter, payable in advance.

Subscriptions are required to commence and terminate with a month.

A lesser period than three months cannot be subscribed for.

Subscribers do not receive the Acts of Parliament with the Gazette.

ADVERTISEMENTS are charged at the rate of EIGHTPENCE per line throughout.

The title (£5 Reward, Dissolution of Partnership, &c.) forms one or more lines, as a heading.

On an average, eleven words make a line, but for the description of a brand consisting of more than one letter, &c., placed perpendicularly, thus B, each additional letter under B

the first is charged as a line.

All communications should be addressed to "The Government Printer, Melbourne."

Every signature must likewise be counted as a line.

The final words of a paragraph, though only portion of a line, must be counted as one line.

Signatures (in particular) and proper names must be written very plainly in the text, ONE SIDE ONLY of each slip of paper should be WRITTEN UPON.

ALL DOCUMENTS illegibly written will be returned unpublished, and, where brands occur unprovided for by the ordinary letters of the alphabet, a worded explanatory description must be furnished.

THE GOVERNMENT GAZETTE is published on WEDNESDAY EVENING in each week, and Notices for insertion will be received by the Government Printer at or before TWO p.m. at ordinary rates, and late advertisements between TWO p.m. and FIVE p.m. at double rates, on the day preceding the day of publication.

Single copies of the GOVERNMENT GAZETTE are Sixpence, posted Sevenpence, each.

No GAZETTES prior to January, 1908, in stock.

* * * ALL PAYMENTS ARE REQUIRED IN ADVANCE. Remittances should be made by postal note, money order, or draft in favour of the Government Printer. Advertisements unaccompanied by a remittance sufficient to cover the cost of insertion will be returned unpublished.
