PROPOSED FISH POINT IRRIGATION AND WATER SUPPLY DISTRICT.

PURSUANT to the provisions of the Water Acts, I hereby declare that the lands included in the area defined hereunder, and shown on a plan lodged in the office of the State Rivers and Water Supply Commission, Melbourne, ought to be constituted an Irrigation and Water Supply District.

The area hereinbefore referred to is defined as follows:—

Commencing at the most easterly angle of allotment 5, section II., Parish of Boga, County of Tatchera; thence south-westerly by the south-eastern boundaries of allotments 5, 5A, and 5B, lines connecting those boundaries and a line in continuation of the last-mentioned boundary, to the north-eastern boundary of allotment 21 of said section II.; thence south-easterly by that boundary to the most easterly angle of said allotment 21; thence westerly by the southern boundary of that allotment and a line in continuation of that boundary to the eastern boundary of allotment 4 of section I.; thence southerly by that boundary and south-westerly by the eastern boundary of allotment 4A of the same section to the south-eastern angle of said allotment 4A; thence generally westerly by the southern boundaries of that allotment and allotment A (Murrabit P.R.) to a three-chain road running northerly through said allotment A; thence northerly by the eastern boundaries of that road and a one-chain road in continuation thereof to the southern boundary of allotment 9C of said section I.; thence westerly by the southern boundaries of allotments 9C, 9E, 9, and 9B, all of said section I., a line connecting those boundaries and a line in continuation of the last-mentioned boundary to the eastern boundary of allotment A²; thence southerly by the eastern boundary of that allotment to its south-eastern angle, all in the Parish of Boga; thence by a line bearing south to the shore of Lake Boga; thence generally westerly by the shore of that lake to a point bearing south from the south-eastern angle of allotment 7D, section I., Parish of Kunat Kunat; thence by a line bearing north to the last-mentioned angle; thence generally northerly by the eastern boundaries of allotments 7D and 7C and a line connecting those boundaries to the most northerly angle of said allotment 7C, section I.; thence by a line bearing north to the Little Murray River; thence generally easterly by that river to a point due north of the most easterly angle of allotment 6, section I., Parish of Boga; thence by a line bearing south to that angle; thence south-westerly by the south-eastern boundaries of allotments 6, 5, 20, and 21, all of said section I., and lines connecting those boundaries, to a point in line with the north-eastern boundary of allotment 4A, section II.; thence south-easterly by a line and that boundary, and a line in continuation thereof, to the south-eastern boundary of allotment 4 of the same section; thence north-easterly by that boundary to the most easterly angle of said allotment 4; thence south-easterly by the north-eastern boundary of allotment 5 of said section II., all in the Parish of Boga, to the point of commencement.

The scheme of local works proposed for such district consists of off-take works at Lake Tutchewop and a system of channels and appurtenant works.

The estimated cost of such works, including portion of the cost of works for the distribution of water made available by Torrumbarry Weir for the supply of this and other districts, is £8,400.

The quantity of water proposed to be assigned to such district is twenty (20) cubic feet per second.

The sources of supply are to be the River Murray at Torrumbarry Weir and the Loddon River at Kerang Weir, by way of Lake Tutchewop, which is one of the Kerang North-West Lakes Works.

The season at which such supply is to be received is to be from 1st September in each year to the 1st May in the following year.

Given under my Hand, at Melbourne, in the State of Victoria, on this 25th day of November, 1925.

REGULATIONS—PART I, CHAPTER IV.—SURVEY.

At the Executive Council Chamber, Melbourne the eighteenth day of May, 1926.

PRESENT:

His Excellency the Lieutenant-Governor of Victoria.

Mr. Allan
Dr. Argyle

Mr. Downward
Mr. Mackrell

WHEREAS regulations were made by the Governor in Council on the 3rd August, 1920, and 27th September, 1922, respectively, providing for the mode in which any land and boundaries should be surveyed and boundaries adjusted: And whereas by section 192 of the *Land Act 1915* (No. 2676), it is amongst other things enacted that the Governor in Council shall have power to make rules, regulations, and orders for the purpose of altering or rescinding such regulations: Now therefore His Excellency the Lieutenant-Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth by this order rescind the above-named regulations and make the following regulations in lieu thereof, to take effect from 1st June, 1926, that is to say:—

CHAPTER IV.—SURVEY.

1. The methods to be employed in effecting surveys shall be those set forth in the Regulations of the Surveyors Board for the Guidance of Surveyors employed under the Land Acts.

2. In all surveys of subdivisions of township lands permanent reference marks shall be put in at the intersections of all streets or roads, and 10 links from one side thereof, such marks to consist of iron pins 18 inches in length by 1 inch square at top, or iron piping of similar length, and are to be driven under the surface of the ground, the position of such pins to be shown on plan and on field notes.

3. Every allotment shall, where it is practicable, contain at least two right angles, and be quadrilateral, and shall not have a shorter depth than double its frontage except where prevented by a boundary or natural feature, nor shall any allotment be allowed to cross a road or water-course that should reasonably form a boundary. If a narrow strip of land not less than 50 links in width be left between any allotment and a water frontage, the shortest side of the allotment shall front such strip of land, and where such strip is required for a road, way it shall be not less than $1\frac{1}{2}$ chains in width. If an allotment abuts on a main road, the shortest side shall, where practicable, face such road. The boundary lines of allotments within a defined parish shall conform to the locally established meridian of that parish, or as nearly thereto as circumstances will permit. Any departure from these instructions will necessitate a special report to be sent in with the plan.

4. Every allotment shall, where it is practicable, be surveyed as provided for in preceding clause; and no allotment shall be surveyed in a position or in a form which would, in the event of its being held separately, cut off access to water from any Crown land, or interfere with the profitable occupation of the same.

5. When a creek is the boundary of an allotment, the traverse of the creek shall form part of the geometrical figure used in calculating the area, and the areas of the portions lying between the traverse lines and the creek shall be computed from the offsets and insets, the average length of which shall not exceed 1 chain, or be taken out by the planimeter from a careful plot on an enlarged scale. Allotments fronting creek or river reserves shall have their frontages defined by metes and bounds, and marked in the ordinary manner unless otherwise directed. When a stream which carries with it a permanent reserve is found to have altered its course, the old bed shall be shown on plan and field notes, and a report furnished.

6. The subject of the selection of roads being one of vital importance, the attention of surveyors is specially directed to the following instructions in reference thereto:—Every surveyor acting under the Department shall as occasion arises communicate with the municipal council or councils who may be interested in any road survey, and request the co-operation of their engineer in selecting the best routes for leading lines

of road through the unappropriated portions of the district. In the event of any municipal council neglecting or refusing to comply with his request, the surveyor shall proceed to select the best lines according to his own judgment; but the failure of the municipal authorities to co-operate shall not relieve him from the responsibility of making proper provision for all necessary roads; and in no case shall he survey a detached selection so as to block an existing track, or in a position likely to interfere with the public convenience, or block access to back country, until he has satisfied himself as to the road requirements of the locality in these respects, and make proper provision therefor. In cases where a difference of opinion may arise between himself and the municipal engineers, or where the surveyor has doubts in his own mind as to the proper course to pursue, he shall refer to the District Surveyor, and be guided by his directions. He shall also from time to time report to the District Surveyor any road which he may consider it desirable to survey, and if the District Surveyor deem it necessary, in the public interest, to traverse any track, leading feature, or permanently survey any line of road in advance of settlement, he shall consult the Surveyor-General or Assistant Surveyor-General.

7. In addition to the necessary main roads, carefully selected accommodation roads leading thereto or to permanent streams shall be provided for as required or at intervals of from a mile to a mile and a half.

8. Every allotment shall have a road frontage, and wherever a road is shown on a plan it shall be laid off on the ground.

9. Surveyors shall be held responsible for any inconvenience that may arise either to the public or individuals through the improper blocking of existing tracks, the omission of necessary roads, or the selection of impracticable roads where practicable ones are possible.

10. In all cases where his measurements differ from those of any previous surveys, the surveyor shall furnish a special report with reference thereto.

11. Field books shall be the property of the Department, and shall be given up whenever demanded.

Plans.

12. The surveyor shall supply a plan of the allotment, showing all features correctly and the course within its boundaries of any stream, race, road, track, and the position of any water-hole, dam, hut, fence, garden, old gold workings, and any other information that may help to distinguish the allotment. He shall also state on the plan whether the bearings of the boundary lines have reference to the true or the magnetic meridian, and how determined; or, if taken from an adjacent survey, the datum line adopted shall be shown on the face of the plan. The scale of the plan, where the area of the allotment is 100 acres or less, shall be 8 chains to 1 inch; where the area is over 100 acres, 20 chains to 1 inch, unless a larger scale be required to show distinctly the matters hereinbefore directed to be shown. All plans shall be dated, below signature, as of the day when the survey was completed, and be certified as follows:—"I certify that this survey has been effected and marked on the ground in accordance with regulations, and that this plan is correct."

All plans on being completed shall be transmitted to the Department through the Land Officer for the district.

The types of plans issued with these Regulations shall be strictly adhered to.

Adjustment of Boundaries.

13. Whenever it may be necessary to adjust the boundaries of any surveyed land, the Surveyor-General shall on such adjustment certify as to the correct boundaries and area of the land or any portion or portions thereof, and for every such certificate there shall be charged such fee as he may direct.

Survey Fees.

14. The survey fee payable on account of any portion of Crown land which has been recommended or is to be granted to any applicant shall be in accordance with the following Schedule of Fees and Scale applicable to the class of country in which such portion is situated, and the Surveyor-General shall determine the scale which shall apply to each district or locality of the State, and every such applicant shall pay the fee prescribed by these Regulations, even though the land has been previously surveyed and may or may not require further survey.

15. Schedules of Fees for Survey are as follow:—

" between 20 and 100 acres		7 6
" under 20 acres		5 0

(s) Surveys not specified above shall be the subject of special arrangement.

16. Whenever it shall appear to the Surveyor-General or the Assistant Surveyor-General that the survey of any allotment is exceptionally difficult or expensive from its isolated position or any other cause, such extra charge as he may deem fit may be imposed for the survey.

17. No survey shall be held to be a survey under the direction of the Board of Land and Works within the meaning of the 169th section of the Land Act 1915 until the Surveyor-General or the Assistant Surveyor-General shall be satisfied of its accuracy, and the applicant shall be responsible for the payment of any further sum that may be required for the survey of the allotment, or for any modification of the plan thereof, where such modification is not caused by the neglect of the authorized surveyor.

18. The Land Officer shall issue to the successful applicant an order for the payment to the Receiver of Revenue of the amount chargeable to such applicant for survey, and on payment being reported the District Surveyor will issue an order for the necessary survey. Should the said charge not be paid within one month from the date of such notification the application shall be deemed to be abandoned.

19. All moneys paid on the orders of the Land Officers towards the expense of surveys shall be deposited by the applicants for the land at the Treasury and credited to Revenue No. 7 Fees Lands.

20. Accounts passed against deposits placed to Revenue No. 7 Fees Lands shall be signed by the Land Officer ordering the collection of the money, or his successor in office, and shall be countersigned by the District Surveyor.

21. In any case where the whole of the fee collected shall not have been expended on the survey the Land Officer shall report the fact to the Surveyor-General, the Assistant Surveyor-General or District Surveyor immediately on certifying the surveyor's account, and such balance as may remain shall be disposed of as the Surveyor-General or Assistant Surveyor-General may direct.

22. Subject to the approval of the Minister of Lands when the survey fees required for any area exceed the sum of £10 a sum of £5 may be paid by the applicant and the balance in equal half-yearly instalments extending over the term of six years, except in cases of selection by discharged soldiers, when the whole fee may be paid in twelve equal half-yearly instalments. Such instalments shall be added to and form part of the licence fees, rent, or instalments of any land under licence or lease, and shall be recoverable accordingly.

23. The deposit shall be paid to Revenue No. 7 Fees Lands. The balance of the amount due to the Surveyor shall be drawn from the Survey Fees Vote.

24. Every surveyor, before being authorized to effect surveys for the permanent alienation or appropriation of any land under any Land Act, shall deposit with the Board of Land and Works the sum of £50 as a guarantee for the faithful discharge of his duties; and in the event of his failing to perform the duties to the satisfaction of the Surveyor-General, or of his neglecting or refusing to rectify any defects or errors in his surveys when called upon to do so, the Board may, on the Surveyor-General certifying that the surveyor has failed to perform his duties to his satisfaction, forfeit such deposit, and order the whole or any part thereof to be applied to the rectification of such defects or errors or in satisfaction of any claim made against the Department by reason of such conduct on the part of the surveyor. In the event of a surveyor having performed his duties satisfactorily such deposit shall be returned to him on his services being dispensed with, or on his resigning, after giving reasonable notice of his wishing to be relieved.

25. The Surveyor-General shall define the limits of the division within which any authorized surveyor may be employed, and the latter will generally be entrusted with the survey operations required therein, but no exclusive claim to all the work in such division shall be thereby conferred. Any other surveyor may be employed therein should circumstances render such a course expedient.

26. Every authorized surveyor may from time to time and at any time be required, by the District Surveyor or other inspecting officer, to run, in his presence, with his own men and instruments, check lines over any surveys performed by him; and in the event of any errors or defects being discovered in such surveys he shall rectify the same at his own expense and pay cost of inspection.

27. Periodical examinations of the instruments used by authorized surveyors shall be made by the District Surveyors or such other officers as the Surveyor-General or the Assistant Surveyor-General may direct, and any instrument condemned on such examination shall not be again used in the work of the Department.

28. Every authorized surveyor shall keep a record of the dates of all orders for surveys received by him, and such orders shall be executed with care and judgment according to the relative priority of their dates; and all orders shall be executed with as little delay as possible.

29. If, from some unavoidable cause, a survey is delayed over two months, a special report from the surveyor shall accompany the plan, explaining the cause of delay; and the Land Officer shall furnish to the District Surveyor monthly reports of orders issued and surveys effected.

30. Every authorized surveyor shall, when so directed, at his own expense, attend Local Land Boards before which applications are heard in respect to lands he may have surveyed.

31. Surveys shall be executed in person by the surveyor receiving the order, or by a licensed surveyor acting directly under his supervision. In the latter case, the plan shall bear the signatures of both. Sub-contracting of every kind is strictly prohibited.

32. If, from any cause, an authorized surveyor shall find himself unable to carry out his instructions, he shall immediately inform the District Surveyor or officer from whom he received his instructions.

33. Every authorized surveyor shall be required to furnish any information the Department of Lands and Survey may consider necessary relating to lands surveyed by him, as a part of his duties, without extra fee.

34. Any authorized or licensed surveyor who shall wilfully or from carelessness ignore the Survey Regulations, or neglect to comply with any orders or instructions he may from time to time receive from the Surveyor-General, the Assistant Surveyor-General, or District Surveyor relative to his duties, shall be liable to be at once dispensed with; and, in addition to the penalty provided under clause 26 hereof, may be disqualified for future employment, and reported to the Surveyors Board.

35. No Crown grant for any allotment shall be issued by the Department of Lands and Survey unless the Surveyor-General or the Assistant Surveyor-General be satisfied that the boundaries thereof have been correctly defined on the ground.

And the Honorable Sir A. J. Peacock, for and on behalf of His Majesty's Commissioner of Crown Lands and Survey, shall give the necessary directions herein accordingly.

Security.—Ten per cent. on total amount of tender accepted, except where otherwise specified in the tender form, but in no case will security of less than £5 be received.

Schedules as above, with full particulars, may be obtained from the Secretary to the Tender Board, by whom also the samples will be shown and any information afforded to persons tendering.

If the tenderer is in a position to supply a suitable substitute of Commonwealth production or manufacture in place of the sample at the Tender Board Office he may tender for such substitute under column A in the schedule, but he must submit with his tender a sample of the article offered.

Preference will be given by the Tender Board, provided the quality of the articles offered is satisfactory, and the rates charged are considered reasonable—

(a) to tenders for articles manufactured within the Commonwealth;

(b) to tenders for articles manufactured within any other part of the British Empire.

In all cases the country of origin of the articles offered must be stated, and the total cost of each item extended in the columns provided.

Tenders must be accompanied by the preliminary deposit, as shown above, in bank notes, or a bank draft in favour of the Secretary to the Tender Board. *Cheques, Savings Bank deposit books, fixed deposit receipts, State or Commonwealth Treasury bonds or Government debentures, or references to securities on existing contracts will in no case be received or entertained as preliminary deposits.* Preliminary deposits will be returned within ten days to unsuccessful tenderers on their application.

The amount of the deposit required with each tender must be enclosed and the amount must be carefully written in and the designation stated, whether marked cheque, bank draft, or bank notes, as the case may be.

Security will be required, either in Victorian or Commonwealth Government debentures, Savings Bank deposit, book, or bank deposit receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

In the event of tenderers withdrawing their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender. It is also stipulated that if a tenderer be a member of a firm and such firm be interested in the contract, then his tender is to be in the name of the firm and not in that of the individual; and that for a breach of this condition the preliminary deposit will be forfeited and the tender declared informal.

Tenders, enclosed in a separate envelope, and having the words "Tender for —" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne; or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Pay Office, Treasury, Melbourne, which office they must reach by first post on the date of closing of tenders.
