For every house or other tenement fronting any street wherein the water pipes of the Trust have been laid and not being occupied land, a rate of Two shillings and sixpence in the pound on the amount of the municipal valuation of such house or other tenement and the land, if any, valued therewith, shall be paid; the minimum amount so paid to be Two pounds ten shillings. In cases where water is supplied to lands upon which there is no building, the rate shall be Two shillings and sixpence in the pound according to the municipal valuation of such land. In no case, however, shall the rate be less than twelve shillings and sixpence.
2. For land upon which there is no building, and to which water is not laid on, but which land fronts any street wherein water pipes of the Trust have been laid, the rate shall be Two shillings and sixpence in the pound on the amount of the municipal valuation thereof. In no case, however, shall a rate of less than Twelve shillings and sixpence be paid.
3. For houses proved to the satisfaction of the Trust to have remained unoccupied for a period of not less than six calendar months, the rate per house shall be two-thirds of the amount which would be payable (half-yearly in advance) if such house had not been so unoccupied; but in no case shall the rate be less than Thirty-seven shillings.
4. The foregoing rates are hereby made payable in advance, in two moieties on 1st January, 1928, and 1st July, 1928.
5. For water supplied for domestic or other than domestic purposes by the Trust by measure the charge shall (except where otherwise agreed by the Trust, and save as hereinafter provided in the By-law) be One shilling and sixpence per 1,000 gallons up to such quantity as would be equal to the amount of the assessed rate payable in respect of the premises so supplied; and for all water consumed in excess of such quantity a charge of Two shillings per 1,000 gallons shall be made.
6. The charge for private water troughs shall be Twenty shillings per annum (to include water rate payable when the value of the property on which such trough is situated does not exceed £10). When such rate exceeds Ten pounds there shall be no charge additional to the rate assessed on the property, except where, in the opinion of the Trust, a meter is necessary or advisable, in which case the consumer shall be charged and must pay at the rate charged for water supplied by measure. The minimum charge shall be Twenty shillings.
7. Water supplied to public gardens and parks shall be charged for by measurement at Sixpence per 1,000 gallons, and water supplied to show grounds, cricket ground, or bowling green shall be charged for by measurement at One shilling and sixpence per 1,000 gallons; any quantity supplied in excess of the full measure of a unit of 1,000 gallons shall be charged for as 1,000 gallons. For the supply of water for the erection of a wooden building with plastered walls, the charge shall be Two shillings and sixpence for each room or passage and Five shillings for each chimney. For a supply of water for wooden buildings where no plaster is used, the charge shall be Five shillings for each chimney in such building. All payments shall be made in advance. No person shall take or use any water for or in connexion with the erection of any new buildings, or alterations to, or additions to existing buildings till he has obtained the receipt of the Trust's officer for payment of the amount payable for the use of such water, or the consent in writing of the Trust or its officer. Any persons offending against the provisions thereof shall be liable to a penalty not exceeding £5 for such offence. All charges shall be additional to all rates or other charges payable by the owner or occupier of the premises upon which the building is being erected, and shall in the first instance be payable by

the builder or contractor, and if unpaid by the builder or contractor shall be charged to and paid by the owner of the premises whereon such building is being erected; but such charge to the owner shall not prejudice the right of the Trust to proceed at its option against either the builder or the contractor or the owner or occupier for the amount payable.

10. The occupier of two or more tenements liable to be rated, one of which is supplied with water by measure, shall be entitled on the payments of the rates on such tenements respectively, to use without further charge such a quantity of water by meter as shall not exceed at the current charge for water supplied for domestic purposes by measure the amount of such rates, provided that the tenement or tenements, if not supplied by measure, shall not be connected with the pipes of the Trust. The occupier of two or more tenements, each of which is supplied with water by measure, shall be entitled to use without further charge such a quantity of water at either or both such tenements as shall not exceed at the current charge for water supplied for domestic purposes by measure (the amount of such rates) the amount at which such tenements if not supplied by measure would be rated.

11. For the water used or supplied for gas engines, oil engines, or steam boilers, the charge shall be by measure, the minimum amount to be charged and paid shall be Twenty shillings to be paid and payable in advance in each case. No water shall be supplied to any such engine or boiler until a meter shall have been affixed to the supply pipe of such engine or boiler to the satisfaction of the engineers of the Trust, and no water will be supplied to any engine unless such engine is fitted with mechanical appliances to circulate and re-use the water to the satisfaction of the Trust's officer.

12. The minimum quantity of water to be charged for half-yearly in each case where water is supplied by measure other than domesticated purposes shall (except where otherwise provided or implied in this By-law) be 10,000 gallons; and such water shall (where it is not otherwise provided herein in this By-law or otherwise specially agreed by the Trust) be charged at the rate of Two shillings per 1,000 gallons.

13. Supplies of water for purposes not specified herein are to be paid for at such charges as the Trust shall in each case determine, and the preliminary payments appointed by the Trust on account of such charge shall be made at the office of the Trust before a supply shall be taken or used.

14. When water is supplied for use on any land exceeding five acres in area, such water will be supplied by measure only, and the owner or occupier of such land must provide a meter.

15. The service pipes from the main, being the property of the owners or occupiers of the tenements supplied for such service pipes, the owner or occupier shall, in every instance in which damage is caused by reason of such service pipe being leaky or otherwise out of repair or broken, be guilty of an offence. If any person neglect to repair any such service pipe conveying water from the pipes of the Trust into the premises of such person after having received notice from the proper officer of the Trust that such service pipe requires repairing, the Trust may stop the water flowing into the premises either by cutting off the service pipe or otherwise, as the Trust may see fit, until the necessary repairs have been effected. The Trust may, at any time when found necessary, repair or renew any pipes and stop-cocks laid for conveying a supply of water to any tenement, and may charge the owner thereof with the cost of providing and laying, repairing, or renewing the same, and such cost shall be a debt due by such owner to the Trust, and shall be recoverable in any court of competent jurisdiction.

16. Such person or persons as the Commissioners of the Coleraine and Casterton Waterworks Trust may from time to time appoint for the purpose shall be authorized to demand, receive, collect, and recover the rates and charges aforesaid and each of them.

17. In construction of this By-law the word "person" shall be deemed to extend to and include a corporation whether aggregate or sole, and the word "Trust" shall mean the Coleraine and Casterton Waterworks Trust.

the owner or occupier of the premises upon which the building is being erected, and shall in the first instance be payable by the builder or contractor, and if unpaid by the builder or contractor shall be charged to and paid by the owner of the premises whereon such building is being erected; but such charge to the owner shall not prejudice the right of the Trust to proceed at its option against either the builder or the contractor or the owner or occupier for the amount payable.

10. The occupier of two or more tenements liable to be rated, one of which is supplied with water by measure, shall be entitled on the payments of the rates on such tenements respectively, to use without further charge such a quantity of water by meter as shall not exceed at the current charge for water supplied for domestic purposes by measure the amount of such rates, provided that the tenement or tenements, if not supplied by measure, shall not be connected with the pipes of the Trust. The occupier of two or more tenements, each of which is supplied with water by measure, shall be entitled to use without further charge such a quantity of water at either or both such tenements as shall not exceed at the current charge for water supplied for domestic purposes by measure (the amount of such rates) the amount at which such tenements if not supplied by measure would be rated.

11. For the water used or supplied for gas engines, oil engines, or steam boilers, the charge shall be by measure, the minimum amount to be charged and paid shall be Twenty shillings to be paid and payable in advance in each case. No water shall be supplied to any such engine or boiler until a meter shall have been affixed to the supply pipe of such engine, or boiler to the satisfaction of the engineers of the Trust, and no water will be supplied to any engine unless such engine is fitted with mechanical appliances to circulate and re-use the water to the satisfaction of the Trust's officer.

12. The minimum quantity of water to be charged for half-yearly in each case where water is supplied by measure other than domesticated purposes shall (except where otherwise provided or implied in this By-law) be 10,000 gallons, and such water shall (where it is not otherwise provided herein in this By-law or otherwise specially agreed by the Trust) be charged at the rate of Two shillings per 1,000 gallons.

13. Supplies of water for purposes not specified herein are to be paid for at such charges as the Trust shall in each case determine, and the preliminary payments appointed by the Trust on account of such charge shall be made at the office of the Trust before a supply shall be taken or used.

14. When water is supplied for use on any land exceeding five acres in area, such water will be supplied by measure only, and the owner or occupier of such land must provide a meter.

15. The service pipes from the main, being the property of the owners or occupiers of the tenements supplied for such service pipes, the owner or occupier shall, in every instance in which damage is caused by reason of such service pipe being leaky or otherwise out of repair or broken, be guilty of an offence. If any person neglect to repair any such service pipe conveying water from the pipes of the Trust into the premises of such person after having received notice from the proper officer of the Trust that such service pipe requires repairing, the Trust may stop the water flowing into the premises either by cutting off the service pipe or otherwise, as the Trust may see fit, until the necessary repairs have been effected. The Trust may, at any time when found necessary, repair or renew any pipes and stop-cocks laid for conveying a supply of water to any tenement, and may charge the owner thereof with the cost of providing and laying, repairing, or renewing the same, and such cost shall be a debt due by such owner to the Trust, and shall be recoverable in any court of competent jurisdiction.

16. Such person or persons as the Commissioners of the Coleraine and Casterton Waterworks Trust may from time to time appoint for the purpose shall be authorized to demand, receive, collect, and recover the rates and charges aforesaid and each of them.

17. In construction of this By-law the word "person" shall be deemed to extend to and include a corporation whether aggregate or sole, and the word "Trust" shall mean the "Coleraine and Casterton Waterworks Trust."

COUNTRY ROADS BOARD.

At the Executive Council Chamber, Melbourne, the
twenty-first day of September, 1927.

PRESENT:

His Excellency the Governor of Victoria.

Mr. Disney

Mr. Webber.

Country Roads Act 1915 (No. 2635) and Developmental Roads
Act 1918 (No. 2944).

ORDER APPROVING OF A DEVIATION FROM A
DEVELOPMENTAL ROAD IN THE SHIRE OF OXLEY.

WHEREAS the Country Roads Board constituted under the Country Roads Act 1915 (No. 2635) has represented to His Excellency the Governor in Council that it appears to it desirable that the deviation hereinafter referred to from the existing Tolmie-Whitfield road in the Shire of Oxley (declared to be a developmental road under the Developmental Roads Act which declaration was confirmed by the Order in Council published in the Government Gazette of the 3rd September, 1919, on page 3012) should be made by the said Board: And whereas the said Board in accordance with the requirements of section 19 of the said first cited Act has caused to be prepared a map plan and estimate showing the points between which and on and through what land the said deviation is proposed to be made and the cost of acquiring the land and constructing the said deviation: And whereas on an inspection of the said map and plan and a consideration of the said estimate His Excellency the Governor in Council is satisfied that there are funds legally available for acquiring the land and constructing the said deviation: Now therefore be it known by this present Order that His Excellency the Governor of the State of Victoria with the advice of the Executive Council thereof doth hereby approve of the said road being made, that is to say:—

All that piece of land in the Parish of Whitfield South and being a roadway generally one chain wide, the western boundary of which commences at a point on the western boundary of allotment 11, section 2, of the said parish distant 213 deg. 20 min. 143 links from the north-western angle of the said allotment; thence generally south-westerly through that allotment, across a Government road, and through allotment 12, section 2, to a point on the western boundary of the allotment last named distant 150 deg. 27 min. 1,108 links and 121 deg. 43 min. 501.4 links from the north-western angle of the said allotment 12.

NOTE.—The route of the portions of the roadway above described is more particularly delineated and shown coloured red on survey plan No. 1978, lodged in the office of the Country Roads Board.

DECLARATION OF A DEVIATION FROM THE MOR-
COALVILLE ROAD IN THE SHIRE OF NARRACAN
AND DISCONTINUANCE OF PART OF OLD ROAD.

WHEREAS by section 58 of the Country Roads Act 1915 (No. 2635) as amended by section 15 of the Developmental Roads Act 1918 (No. 2944) it is amongst other things enacted that when the Country Roads Board under the provisions of the Country Roads Acts has by Resolution declared a deviation to be a developmental road the said Board may also declare that such deviation shall be in lieu of any existing road or part thereof named in such Resolution and that upon publication in the Government Gazette of the Order of the Governor in Council confirming such Resolution the existing road or part thereof shall cease to be a developmental road or be discontinued as provided in the Resolution: And whereas the said Board has by Resolution declared the deviation on the land described in the First Schedule to such Resolution to be a developmental road and has also declared that such deviation shall be in lieu of the existing road being the land described in the Second Schedule to such Resolution and that such part of the said existing road shall be discontinued: Now therefore His Excellency the Governor of the State of Victoria by and with the advice of the Executive Council thereof doth hereby confirm the said Resolution.

Resolution for Declaration of Deviation and Closing of Part
of Old Road:

Whereas the land the site of the road the course of which is below set out was taken by the Board under the provisions of the Country Roads Act 1915 and the Developmental Roads Act 1918 for the purpose of constructing such road deviation which road deviation has now been laid out and formed on the same: And whereas the said Board (being the Country Roads Board incorporated under the said Act) thinks that the road aforesaid is fit to be used as a public highway such Board at a meeting now holden acting under the authority conferred upon it by section 58 of the said first cited Act doth

by this present Resolution hereby declare the said road deviation the course of which is described in the First Schedule hereto with the commencing and terminating points thereof respectively specified to be part of a developmental road within the meaning and for the purposes of the Developmental Roads Act 1918: And the said Board doth also declare that such deviation shall be in lieu of the existing road or part thereof described in the Second Schedule hereto and further that such part of the existing road shall be discontinued accordingly.
