For every unoccupied piece or allotment of land the municipal value of which does not exceed Five pounds per annum, the sum of Seven shillings and sixpence (7s. 6d.). When such value is over Five pounds, a rate of One shilling and sixpence in the pound.

When water is supplied by measure for domestic or other than domestic purposes, a charge of One shilling and sixpence per 1,000 gallons shall be made, and the minimum quantity to be charged for shall be the quantity which, at the price named, would be equal to the rate payable in respect of such property if the water were supplied otherwise than by measure.

When the water is supplied solely for other than domestic purposes, the charge shall be One shilling and sixpence per 1,000 gallons, and the minimum quantity to be supplied during the year ending 31st of December shall be 10,000 gallons. The charge hereby made shall be payable on demand of the Trust.

The Trust may, by notice in writing, intimate to any owner or occupier using water for other than domestic purposes solely, that the water supplied is to be charged for by measure, and may, by such notice, require such owner or occupier to provide a meter within a month after the receipt of such notice, and thereupon such owner or occupier shall, within the time specified, at his own expense, provide a meter.

When water is supplied for use on any land exceeding 5 acres in area, such water will be supplied by measure only, and the owner or occupier of such land must provide a meter.

In all cases not herein provided for the Trust shall make such special provision as may be deemed necessary.

The service pipes from the mains, being the property of the owner or occupiers of the tenements supplied by such service pipes, the owner or occupier shall, in every instance in which damage caused by reason of such service pipe being leaky or otherwise out of repair, or broken, be guilty of an offence.

If any person neglect to repair such service pipe conveying water from the pipes of the Trust into the premises of such person, after having received notice from the proper officer of the Trust that such service pipe requires repairing, the Trust may stop the water flowing into the premises either by cutting off the service pipe or otherwise, as the Trust may see fit, until the necessary repairs have been effected.

The Trust may at any time, when found necessary, repair or renew any pipes and stop-cocks laid for conveying a supply of water to any tenement, and may charge the owner thereof with the cost of providing and laying, repairing, or renewing the same, and such cost shall be a debt due by such owner to the Trust, and shall be recoverable in any Court of competent jurisdiction.

The foregoing rates are made payable on the first day of March, 1928.

Such person or persons as the Commissioners of the said Trust may from time to time appoint shall be authorized to demand and receive the said rates and charges.
