## CHANGE IN THE ROYAL STYLE AND TITLES.

THE Governor directs the publication of the following Proclamation relating to an alteration of the Royal Style and Titles, viz. :—

BY THE KING.

### A PROCLAMATION.

GEORGE R.I.

WHEREAS by the *Royal and Parliamentary Titles Act 1927*, it is enacted that it shall be lawful for Us by Our Royal Proclamation under the Great Seal of the Realm issued within six months after the passing of the said Act to make such alteration in the style and titles at present appertaining to the Crown as to Us may seem fit:

And whereas Our present style and titles are, in the Latin tongue, "Georgius V. Dei Gratia Britanniarum et terrarum transmarinarum quae in ditone sunt Britannica Rex, Fidei Defensor, Indiae Imperator", and in the English tongue, "George V. by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas King, Defender of the Faith, Emperor of India":

And whereas We have received a recommendation from the representatives of Our Governments in Conference assembled that Our style and titles should be altered as in manner hereinafter appearing:

We have thought fit, and We do hereby appoint and declare, by and with the advice of Our Privy Council, that henceforth so far as conveniently may be, on all occasions and in all instruments wherein Our style and titles are used, the following alteration shall be made in the style and titles at present appertaining to the Crown, that is to say, in the Latin tongue, for the word "Britanniarum" there shall be substituted the words "Magnaë Britanniae, Hiberniae", and in the English tongue for the words "the United Kingdom of Great Britain and Ireland and of" the words "Great Britain, Ireland and".

Given at Our Court at Buckingham Palace, this thirteenth day of May, in the year of our Lord One thousand nine hundred and twenty-seven, and in the eighteenth year of Our reign.

GOD SAVE THE KING!

E. J. HOGAN,  
Premier.

## PROCEDURE TO BE OBSERVED IN REGARD TO THE LEGALIZATION OF DOCUMENTS BY THE TURKISH AUTHORITIES.

THE following copy of a note received from the Turkish Embassy, through the Secretary of State for Dominion Affairs, relative to the procedure to be observed in regard to the legalization of documents by the Turkish authorities, is published for general information.

8th July, 1927.

A. T. LEWIS,  
Secretary to the Law Department.

### TRANSLATION (D.F.N.).

The Embassy of the Turkish Republic has the honour to inform H.B.M.'s Ministry of Foreign Affairs that, according to the terms of a communication from the Republican Government, in order to make a power of attorney (procuration) valid for the purposes of the Turkish judicial authorities, it must be drawn up by a notary public and legalized by the Turkish Consulate, or else directly drawn up by a Consulate of the Republic.

In addition, any document which may have to be produced before a Turkish tribunal must be accompanied by a translation made by a Consulate of the Republic, or by a notary public in Turkey.

The Embassy of the Turkish Republic requests H.B.M.'s Ministry of Foreign Affairs to be good enough to inform the competent authorities to the above effect, and has the honour, &c.

Turkey Embassy,  
69 Portland-place, London W.1,  
2nd February, 1927.

State Electricity Commission Acts.

VICTORIA.

STATE ELECTRICITY COMMISSION OF VICTORIA.

WHEREAS pursuant to the *State Electricity Commission Act 1922* (No. 3265) application has been made to the Commission by the Municipal Council of the Shire of Flinders for the supply of electricity by the Commission to persons or bodies of persons corporate or unincorporate other than undertakers or public statutory corporations within the following area, comprising parts of the municipal district of that shire, that is to say, within the Townships of Sorrento and Portsea: And whereas the Commission, having as required by that Act inquired into the subject-matter thereof, and determined a scale of charge to be made for electricity supplied in accordance with the application, is satisfied that the probable demand for electricity within the area will be such that the annual revenue obtainable from the supply of electricity according to the scale of charges so determined will be sufficient to pay the total annual cost to the Commission of or incidental to the supply, and had reported to the Minister the result of such inquiry and determination, and has recommended that the necessary works be provided and constructed by the Commission in connexion with the undertaking above referred to for the supply of electricity by the Commission: It is recommended for the approval of His Excellency the Governor in Council that the necessary works be provided and constructed by the Commission for and in respect of the supply of electricity by the Commission in accordance with the application above recited.

F. W. MABBOTT,  
Clerk of the Executive Council.

## Mines Act 1915.

REGULATIONS RELATING TO MINING LEASES, TAILINGS LICENCES, AND WATER RIGHT LICENCES.

CLAUSE RESCINDED, CLAUSE SUBSTITUTED.

At the State Parliament House, Melbourne, the sixth day of July, 1927.

PRESENT:

His Excellency the Governor of Victoria.

Mr. Hogan	Mr. Jones
Mr. Tunnecliffe	Mr. Beckett
Mr. Lemmon	Mr. Disney
Mr. Bailey	Mr. Williams
Mr. Prendergast	Mr. Cain
Mr. Slater	Mr. Webber.

HIS Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, and in pursuance of the powers conferred by the *Mines Act* 1915 (6 Geo. V., No. 2698), doth hereby rescind clause 37 of the Regulations relating to Mining Leases, Tailings Licences, and Water Right Licences made on the 7th August, 1916, and doth substitute therefor the following:—

## GRANT OR REFUSAL OF APPLICATION.

37. The Governor in Council shall, on the recommendation of the Minister, determine—

- the grant or refusal of an application; and
- the quantity and shape of the land to be granted; and
- the exceptions, reservations, covenants, conditions, and provisos to be contained in a lease or licence; and
- whether thereunder any, and if any, what rate of royalty shall be payable to the Crown on minerals won from the land.

Provided that the clause now rescinded shall continue to have full force and effect until the coming into operation of the clause now made.

And the Honorable J. P. Jones, His Majesty's Minister of Mines for the State of Victoria, shall give the necessary directions herein accordingly.

F. W. MABBOTT,  
Clerk of the Executive Council.

## Closer Settlement Acts and Discharged Soldiers Settlement Acts.

## ADDITION TO REGULATIONS.

At the State Parliament House, Melbourne, the sixth day of July, 1927.

## PRESENT:

His Excellency the Governor of Victoria.

Mr. Hogan	Mr. Jones
Mr. Tunnecliffe	Mr. Beckett
Mr. Lemmon	Mr. Disney
Mr. Bailey	Mr. Williams
Mr. Prendergast	Mr. Cain
Mr. Slater	Mr. Webber.

IN pursuance of the provisions of the *Closer Settlement Act 1915*, and the *Discharged Soldiers Settlement Act 1917*, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby order as follows:—

The addition to the Regulations under the *Closer Settlement Acts* made on 8th March, 1927, and the addition to the Regulations under the *Discharged Soldiers Settlement Act*, made on the 20th January, 1920, so far as relates to clause 30 thereof, are hereby repealed, and the following shall be substituted therefor:—

## CLOSER SETTLEMENT AND DISCHARGED SOLDIERS SETTLEMENT ACTS.

## Public Halls.

1. The Governor in Council, on the recommendation of the Board, made after due inquiry, and in pursuance of section 25 of the *Closer Settlement Act 1922* (No. 3253), upon application in the form contained in schedule "A" hereto, made by a settler on behalf of the majority of the settlers in his district, may make available from lands under the Land Acts an area thereof not exceeding 1 acre in extent for the purpose of the erection thereon of a public hall, and offices and conveniences connected therewith.

2. The Governor in Council, upon a similar recommendation and application, and for the said purpose, may set apart allotments of land of the same area from lands acquired under the *Closer Settlement Acts* and the *Discharged Soldiers Settlement Acts*, and being disposed of to lessees or discharged soldiers under such Acts.

3. When any land has been made available, or set apart, as provided in Regulations 1 and 2, the erection thereon of the public hall, and offices and conveniences connected therewith, shall not be commenced until trustees thereof have been appointed in the manner hereafter provided.

4. The Secretary of the Returned Soldiers Association, the Board's Inspector, or the Lands Officer shall, by written notice to each settler, or by advertisement inserted in some newspaper circulating in the district in which the site of the proposed public hall is situate, duly convene a meeting of settlers at which not less than three nor more than ten trustees shall be elected by vote of the majority of the settlers there present.

5. For the purposes of this Part of these Regulations, a "Settler" shall mean and include any settler under the Land Acts, the *Closer Settlement Acts*, and the *Discharged Soldiers Settlement Acts*, or under any of the said Acts upon lands situate within a 10 miles radius of the site of the proposed public hall.

6. Upon the election of such trustees as aforesaid, the Minister may cause or permit buildings for the purpose aforesaid to be erected upon such land or allotment of land.

7. After the erection of any such public hall, and offices and conveniences connected therewith, the land upon which the same are so erected may be sold in fee simple by the Governor in Council to the trustees elected as aforesaid, or appointed by the Governor in Council, pursuant to section 22 of the *Closer Settlement Act 1922* (No. 2987), upon such terms and subject to such conditions and stipulations as are provided in these Regulations, and the prescribed agreement for sale.

8. When a sale of the site of such public hall has been approved on terms by the Governor in Council, with the consent of the *Closer Settlement Board*, pursuant to section 92 of the *Closer Settlement Act 1915*, the trustees aforesaid shall be required to execute an agreement for such sale in the form contained in Schedule "B" hereto.

9. If the said trustees, or any of them, refuse, or are unwilling to execute, the aforesaid agreement, then the sale so approved shall not be proceeded with, and the *Closer Settlement Board* may thereupon by its servants or agents enter into possession and control of such land and public hall, and dispose of such rents and profits as may be derived therefrom towards the payment of the cost of erection of such public hall and interest thereon.

10. Where the *Closer Settlement Board* has entered into possession and control of any public hall, pursuant to regulation 9, it shall continue therein until the trustees, whether original or substituted, unanimously consent to execute the said agreement, and upon so executing the same, they shall be given possession and control of such public hall, subject to the conditions of the said agreement.

11. As soon as conveniently may be after payment by the trustees of the purchase money for the said site and buildings, and interest thereon, and upon compliance by them with all conditions of sale, the Governor in Council may, pursuant to section 93 of the *Closer Settlement Act 1915*, issue, or cause to be issued, to the trustees for the time being thereof a Crown grant of the said land or allotment of land, and the said Crown grant shall contain such conditions, provisions, and reservations as to subdivision, transfer, use, and repurchase as the Governor in Council may think fit.

## SCHEDULE "B."

## Agreement for Sale.

Agreement made the ..... day of ..... between One thousand nine hundred and ..... between His Excellency ..... Governor of the State of Victoria and its Dependencies, in the Commonwealth of Australia, by and with the advice of the Executive Council of the said State (hereinafter called the Governor in Council) of the first part, the *Closer Settlement Board* (hereinafter called the Board) of the second part, and

(hereinafter called the trustees) of the third part.

Whereas it is provided by section 15 of the *Discharged Soldiers Settlement Act 1919* (No. 3039) that where land whether before or after the commencement of such Act has been acquired under the *Closer Settlement Acts* or the *Discharged Soldiers Settlement Acts*, and is being disposed of to discharged soldiers pursuant to the last-mentioned Acts, the Governor in Council, on the recommendation of the Board, made after due inquiry, may set apart allotments of such lands for the purpose of the erection on such allotments of public halls and offices and conveniences connected therewith. And whereas it is provided by section 25 of the *Closer Settlement Act 1922* (No. 3253) that notwithstanding anything in the Land Acts any Crown land thereunder may, on compliance with the requirements in the said section prescribed, be deemed to be land subject to the *Closer Settlement Acts*, and as such be made available for the purpose aforementioned, and dealt with in like manner thereto. And whereas it is further provided by section 25 of the said *Closer Settlement Act 1922* (No. 3253) that where any land under the Land Acts is made available as aforesaid, or where land has been

acquired, whether before or after the commencement of such Act under the Closer Settlement Acts, and is being disposed of to lessees pursuant to the last-mentioned Acts, the Governor in Council may, on the like recommendation, set apart any such land so made available or an allotment of such acquired land for a similar purpose. And whereas by virtue of the provisions of the said Acts the Minister may on any such land or allotment of land being set apart as aforesaid permit or cause buildings for the said purpose to be erected thereon accordingly. And whereas it is further provided by the said section 15 of the *Discharged Soldiers Settlement Act 1919* (No. 3039) and the said section 25 of the *Closer Settlement Act 1922* (No. 3253) that after the erection of any such public hall on any such land or allotment of land the said land or allotment may, subject to the provisions of section 93 of the *Closer Settlement Act 1915*, be sold in fee simple as a site for a public hall to trustees appointed in the prescribed manner by settlers under the Acts aforesaid or any of them upon lands in the neighbourhood of such public hall. And whereas in pursuance of the provisions aforesaid the Governor in Council has set apart the land described in the Schedule hereto for the purpose of a public hall and offices and conveniences connected therewith at \_\_\_\_\_, and the Minister of Lands has caused buildings to be erected on the said land accordingly, and the Governor in Council, with the consent of the Board, has pursuant to the said section 93 of the *Closer Settlement Act 1915* approved of the sale of the said land in fee simple as a site for a public hall at the price and upon the terms hereinafter mentioned, to the trustees, who have been duly appointed in the prescribed manner by settlers as aforesaid, or by the Governor in Council pursuant to the provisions of section 22 of the *Closer Settlement Act 1918* (No. 2937). And whereas possession of the said land has been given to the trustees, now it is hereby agreed as follows:—

1. The purchase money for the said land, together with the buildings erected thereon, shall be the sum of £ \_\_\_\_\_, being the price fixed by the Board as the cost of the land and all expenses incurred under the said Acts in connexion therewith.

2. The trustees shall pay to the Board on account of the purchase money (less the sum of £ \_\_\_\_\_ already paid by them to the Board by way of deposit) and interest thereon on so much thereof as shall from time to time remain owing and unpaid hereunder computed from the \_\_\_\_\_ day of \_\_\_\_\_ 19\_\_\_\_, at the rate of Five pounds per centum per annum, the equal half-yearly instalments of £ \_\_\_\_\_ each on every \_\_\_\_\_ day of the month of \_\_\_\_\_, and in each year up to and inclusive of the \_\_\_\_\_ day of the month of \_\_\_\_\_, One thousand nine hundred and \_\_\_\_\_, and on the \_\_\_\_\_ day of the month of \_\_\_\_\_, One thousand nine hundred and \_\_\_\_\_, the balance which shall then be owing and unpaid on account of the purchase money and interest hereunder.

3. So long as any instalment of the purchase money or interest remains owing hereunder the trustees shall not alter the construction of any buildings on the said land or in any way pull down or remove the same or any part or parts thereof without the consent in writing of the Board.

4. The trustees shall not subdivide the land except in accordance with a design approved by the Board, nor shall they use the land without the consent of the Governor in Council for any purpose other than that for which it is sold, and the trustees shall at all times keep and maintain the buildings erected thereon in good and substantial repair, and shall permit the servants and officers of the Board at all reasonable times to enter into and upon the said land and premises to view and inspect the state and condition thereof.

5. The trustees shall forthwith insure and, so long as any instalments of purchase money or interest shall remain owing, keep insured against loss or damage by fire, with the Board all buildings which for the time being shall be erected on the said land and which shall be of a nature and kind capable of being insured to the amount of the purchase money and interest remaining unpaid, or of the full value of such buildings. In the event of any breach or non-observance of this clause the Board shall be at liberty to effect such insurance and continue the same for such period as may be deemed fit, and the costs and expenses so incurred shall be and remain until repaid by the trustees a charge upon the said land and shall bear interest as if an instalment of purchase money overdue.

6. Until the whole of the purchase money has been repaid the trustees shall not expend, disburse, or in any way use any of the rents or profits derived from the hiring, letting, or other use of the said land or buildings upon anything whatsoever, save upon the payment of the instalments of purchase money and interest as herein provided, without the consent in writing of the Board's Inspector first had and obtained.

7. Should the trustees fail to observe or comply with any of the foregoing conditions or stipulations on their part to be performed, all moneys paid hereunder shall be forfeited to the Board and the Governor in Council may rescind the sale, and thereupon the Board may take possession of and retain the said land and premises or the Governor in Council may resell the same.

8. Upon payment of the full amount of the purchase money and interest the trustees shall be entitled to a Crown grant of the said land, subject to such restrictions, conditions, and reservations as to subdivision, transfer, use, and repurchase as the Governor in Council thinks fit.

9. The trustees shall be at liberty at any time to pay off the balance of purchase money then owing, or may on any of the aforesaid half-yearly dates pay off any portion of the purchase money in excess of the half-yearly payments hereinbefore provided for, and in which latter event the number of instalments and the amount of the final instalment shall be adjusted accordingly.

In witness whereof His Excellency Governor of the said State and its Dependencies has hereunto set his hand and caused the Seal of the said State to be hereunto affixed, and the Board has hereunto affixed its Common Seal, and the trustees have set their hands and seals the day and year first above written.

*The Schedule hereinbefore Referred to.*

The surface and down to a depth of 50 feet below the surface of all that piece of land being \_\_\_\_\_, in the Parish of \_\_\_\_\_, County of \_\_\_\_\_, containing by admeasurement 1 acre more or less and shown with the measurements and abutments thereof on the plan drawn in the margin hereof.

The Common Seal of the Closer Settlement Board was hereunto affixed in the presence of—

Signed, sealed, and delivered by the above-named \_\_\_\_\_ in the presence of—  
Chairman.  
Secretary.

(Repeat for each trustee.)

And the Honorable H. S. Bailey, His Majesty's Commissioner of Crown Lands and Survey for the State of Victoria, shall give the necessary directions herein accordingly.

Mr. Hogan	Mr. Jones
Mr. Tunnecliffe	Mr. Beckett
Mr. Lemmon	Mr. Disney
Mr. Bailey	Mr. Williams
Mr. Prendergast	Mr. Cain
Mr. Slater	Mr. Webber.

**WHEREAS** by Part 1 of the *Stock Diseases Act 1915* among other things the Governor in Council is empowered from time to time to make Orders and Regulations for the purpose therein mentioned: And whereas by Order in Council dated the 31st day of May, 1927, Regulations were made proclaiming certain portions of the State of Victoria to be Quarantine Districts for Stock (Pigs): And whereas it is desired to amend the said Regulations as regards such Quarantine Districts and further to provide for the control of stock (Pigs) in such Districts: Now therefore His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby, in exercise of the powers conferred by the above-mentioned Act, and every other power enabling him in that behalf, order as follows (that is to say):

**QUARANTINE DISTRICTS.**

1. To the places named in the Schedule of the Regulations dated the 31st day of May, 1927, there shall be added the following:—

Bendigo City,	Maryborough Borough,

**PRESENT:**

His Excellency the Governor of Victoria.	
Mr. Lemmon	Mr. Slater.

*Country Roads Act 1915 (No. 2635) and Developmental Roads Act 1918 (No. 2944).*

**ORDER APPROVING OF A DEVIATION FROM A MAIN ROAD IN THE SHIRE OF YEA.**

**WHEREAS** the Country Roads Board constituted under the *Country Roads Act 1915* (No. 2635) has represented to His Excellency the Governor in Council that it appears to it desirable that the deviation hereinafter referred to from the existing Yea-Glenburn road in the Shire of Yea (declared to be a main road under the said Act which declaration was confirmed by the Order in Council published in the *Government Gazette* of the 9th December, 1914, on page 5530) should be made by the said Board: And whereas the said Board in accordance with the requirements of section 19 of the said cited Act has caused to be prepared a map plan and estimate showing the points between which and on and through what land the said deviation is proposed to be made and the cost of acquiring the land and constructing the said deviation: And whereas on an inspection of the said map and plan and a consideration of the said estimate His Excellency the Governor in Council is satisfied that there are funds legally available for acquiring the land and constructing the said deviation: Now therefore be it known by this present Order that His Excellency the Governor of the State of Victoria with the advice of the Executive Council thereof doth hereby approve of the said road being made, that is to say:—

All that piece of land in the Parish of Billian and being a roadway generally one and a half chains wide, the western boundary of which commences at a point on the eastern boundary of allotment 1, section A, of the said parish, distant 147 deg. 26 min. 1.153.5 links from the north-eastern angle of the said allotment; thence north-westerly, westerly, north-westerly, and generally north-easterly through that allotment and north-westerly through allotment 1A, section A, to a point on the eastern boundary of that allotment, distant 311 deg. 38 min. 827 links from the south-eastern angle of the said allotment 1A.

**NOTE.**—The route of the portion of the roadway above described is more particularly delineated and shown coloured red on survey plan No. 1957, lodged in the office of the Country Roads Board.

**ORDER APPROVING OF A NEW MAIN ROAD IN THE SHIRE OF HUNTLY.**

**WHEREAS** the Country Roads Board constituted under the *Country Roads Act 1915* (No. 2635) has represented to His Excellency the Governor in Council that it appears to it desirable that the new main road hereinafter referred to in the Shire of Huntly should be made by the said Board: And whereas the said Board in accordance with the requirements of section 19 of the said cited Act has caused to be prepared a map plan and estimate showing the points between which and on and through what land the said new road is proposed to be made and the cost of acquiring the land and constructing the said new road: And whereas on an inspection of the said map and plan and a consideration of the said estimate His Excellency the Governor in Council is satisfied that there are funds legally available for acquiring the land and constructing the said new road: Now therefore be it known by this present Order that His Excellency the Governor of the State of Victoria with the advice of the Executive Council thereof doth hereby approve of the said road being made, that is to say:—

*Bendigo-Echuca Road in the Shire of Huntly.*—All that piece of land in the Parishes of Bagshot, Ellesmere, and Goornong, and being a roadway of irregular width, the southern boundary of which commences at a point on the southern boundary of allotment 17, section 5, of the parish first named, distant 90 deg. 0 min. 1,248 links from the south-western angle of the said allotment; thence north-easterly through that allotment and allotments 18, 14, 15, 9, 10, and 11, section 5, Parish of Bagshot, the State Forest, and allotment 88, Parish of Ellesmere, allotments 3a, 3c, 1c, 1A, and 2, section 7, Parish of Goornong, allotments 2, 3, 3b, and 1, section 3, allotment 1, section 4, and allotment 1, section 2, of the parish last named to a point on the eastern boundary of that allotment, distant 1 deg. 1 min. 5,880 links from the south-eastern angle of the said allotment 1 of section 4.

**NOTE.**—The route of the portion of the roadway above described is more particularly delineated and shown coloured red on survey plan No. 1971, lodged in the office of the Country Roads Board.

ORDER APPROVING OF A DEVIATION FROM A  
DEVELOPMENTAL ROAD IN THE SHIRES OF  
BROADMEADOWS AND BULLA.

WHEREAS the Country Roads Board constituted under the *Country Roads Act 1915* (No. 2635) has represented to His Excellency the Governor in Council that it appears to it desirable that the deviation hereinafter referred to from the existing Konagaderra road in the Shires of Broadmeadows and Bulla (declared to be a developmental road under the Developmental Roads Act which declaration was confirmed by the Order in Council published in the *Government Gazette* of the 1st April, 1921, on page 1111) should be made by the said Board: And whereas the said Board in accordance with the requirements of section 19 of the said first cited Act has caused to be prepared a map 'plan and estimate showing the points between which and on and through what land the said deviation is proposed to be made and the cost of acquiring the land and constructing the said deviation: And whereas on an inspection of the said map and plan and a consideration of the said estimate His Excellency the Governor in Council is satisfied that there are funds legally available for acquiring the land and constructing the said deviation: Now therefore be it known by this present Order that His Excellency the Governor of the State of Victoria with the advice of the Executive

Council thereof doth hereby approve of the said road being made, that is to say:—

All that piece of land in the Parish of Mickleham and being a roadway generally one chain wide, the western boundary of which commences at a point on the western boundary of allotment 6 of the said parish, distant 202 deg. 0 min. 67.2 links from the north-western angle of the said allotment; thence south-easterly and generally south-westerly through that allotment to a point on the said western boundary distant 202 deg. 0 min. 2,203.5 links, 203 deg. 25 min. 724.5 links, 204 deg. 39 min. 630.5 links, and 181 deg. 3½ min. 1,796.7 links from the said north-western angle.

NOTE.—The route of the portion of the roadway above described is more particularly delineated and shown coloured red on survey plan No. 1961, lodged in the office of the Country Roads Board.

And the Honorable John Percy Jones, His Majesty's Commissioner of Public Works for the State of Victoria, shall give the necessary directions herein accordingly.

F. W. MABBOTT,  
Clerk of the Executive Council.

## REGULATIONS FOR THE CARE, PROTECTION, AND MANAGEMENT OF PORTION OF THE RESERVE FOR PUBLIC PURPOSES IN THE PARISH OF KIRRAK, KNOWN AS "INVERLOCH FORESHORE RESERVE."

WE, Peter John Ledwidge, Bertie Stanton, Joseph David Holmes, John Vincent Drew, Alfred Percival Cuttriss, Thomas Henderson, John Hamilton, William Edward Ramsay, John Robert Darling, Talbot Adkins, and Samuel Abraham, the majority of the duly appointed Committee of Management of portion of the Reserve for Public Purposes in the Parish of Kirrak, as is indicated by pink tint on plan marked

14.1.1915 with Lands Department, Correspondence Rs.771, and known as "Inverloch Foreshore Reserve," having framed the following Regulations for the care, protection, and management thereof, and for the preservation of good order and decency therein, and also for the collection and receipt of tolls, entrance fees and other charges for entering therein or thereupon, submit the said Regulations to the Board of Land and Works, to be made by such Board in pursuance of the powers conferred by section 181 of the *Land Act 1915*:—

## REGULATIONS.

1. No person offending against decency as regards dress, language, or conduct shall remain on the reserve.
2. No person shall damage in any way the trees, marram grass, or any other vegetation on the reserve, nor light any fires or burn any materials therein.
3. No person shall erect any dwelling-house or tent on the reserve, nor any booth or other structure, nor offer for sale any article therein, without permission in writing of the Committee of Management first obtained.
4. No person shall moor and/or use any boat on the reserve without the permission of the Committee of Management first obtained.
5. No person shall erect any bathing-box or any boat-house on the reserve without the permission, in writing, of the Committee of Management first obtained, and such permission may be granted subject to such terms, fees, and conditions as may be deemed advisable by the Committee of Management.
6. No person shall bring in or on to the reserve, nor use any diving stand made of iron or any other metal or metals.
7. All persons using the convenience provided by the Committee of Management on the reserve shall pay such charges for the use of same as shall from time to time be fixed by the Committee of Management.
8. No person shall play or perform on any band of music or take part in any entertainment of any kind on the reserve without the permission, in writing, of the Committee of Management first obtained.
9. No assemblies for fêtes or concerts, or for the purpose of public worship, preaching, or public speaking of any kind, or meetings of a like character, shall take place on the reserve without the permission in writing of the Committee of Management first obtained.

10. No person shall preach or declaim, harangue, or deliver any address of any kind to members of the public on the reserve without the permission, in writing, of the Committee of Management first obtained.

11. No person shall discharge any firearms or air-guns in the reserve.

12. No person shall use or cause to be used any bathing-box or boat-house for residential purposes.

13. No person or persons shall deposit, or cause to be deposited, waste paper or bottles, or any other litter on any part of the reserve except in the receptacles provided for that purpose.

14. No person or persons shall break glass of any kind on the reserve, or leave thereon anything that would injure any person.

15. Persons renting or hiring any stand, building, erection, or any enclosure on the occasion of any fêtes, sports, or holiday amusements may be required to deposit any sum which the Committee of Management may determine at any time, not exceeding Ten pounds, by way of guarantee that due care shall be taken of such stand, building, erection, or enclosure, and such Committee in its absolute discretion may make good any damage or injury sustained by such stand, building, erection, or enclosure, or anything contained therein, during such occupancy or hiring, and deduct the cost of making good such loss or damage from the sum of money deposited by way of guarantee, and all persons so renting or hiring shall abide by these Regulations, and by any order given by the Committee of Management.

Every person offending against these Regulations shall, in accordance with the provisions of section 181 of the *Land Act 1915* for each offence be liable to a penalty of not more than Five pounds (£5), and every person who knowingly and wilfully offends against any such Regulations, and who after he has been warned by any Bailiff of Crown lands or by any member of the police force, does not desist from so offending may be forthwith apprehended by such Bailiff or member of the police force, and taken before some justice, and shall be liable to a penalty of not more than Ten pounds (£10).

## The Closer Settlement Act 1915.

## CHILDERS GROUP SETTLEMENT.

(Mountainous Areas Scheme.)

THE Farm Allotment mentioned in the Schedule hereunder is hereby proclaimed available for application, and may be taken up under Conditional Purchase Lease, subject to the mountainous areas provisions:—

## TERMS, CONDITIONS, ETC.

Applications must be made on the prescribed form and lodged with the Secretary, Closer Settlement Board, Public Offices, Melbourne, or with the officer conducting the Inquiry Board. An applicant may apply for more than one allotment, but only one can be granted to any one person. The sum of One pound five shillings (£1 5s.) Lease fee and fee for Registration must accompany the application.

The capital value, including interest at 5 per cent. per annum, is repayable by half-yearly instalments of 6 per cent. per annum over a term of 36½ years. The first 10 years will be free as provided hereunder and term of Lease extended accordingly.

Improvements must be effected to the value of at least two instalments of the purchase money before the end of the first year from the date of lease, and 10 per cent. of the purchase money before the end of the third year, and a further 10 per cent. before the end of the sixth year.

The lessee must reside on his allotment until the land becomes freehold. A Crown grant may issue after twelve years, provided the full amount of the purchase money is paid, if the conditions of lease have been complied with.

Advances to a maximum amount of £625 may be made for the purchase of stock and implements, erection of buildings, fencing, clearing, &c.

The lessee cannot transfer, assign, mortgage, or sublet the whole or any part of his allotment within the first three years of the lease.

## MOUNTAINOUS AREAS PROVISIONS.

No instalment of purchase money shall be payable during the first ten years, provided the lessee complies with conditions and the allotment is satisfactorily worked. The lessee shall during each and every year of the free period reduce at least one-tenth part of the allotment to a state of clean grass or cultivation and maintain same.

Interest at the rate of 5 per cent. per annum shall be added to the capital value of the allotment and shall be repaid as part of the instalments of purchase money, and notwithstanding any provision in any Act, no transfer of the interest in the lease shall be approved by the Board unless the deferred interest to the date of transfer has been paid.

- (n) Regulating or prohibiting the writing, painting, printing, stencilling, placing, or affixing of any letter, figure, device, poster, sign, or advertisement upon any footpath, street, or road, or upon any building, fence, or other property vested in the municipality or under the control and management of the Council thereof.
- (o) Regulating, restricting, or preventing the exhibition of advertisements in such places and in such manner, or by such means as to affect injuriously the amenities of a public park or pleasure promenade, or to disfigure the natural beauty of a landscape.
- (p) Regulating and controlling all advertisements attached or affixed to, or painted on any hoardings, or on any building, or on any fence, rock, cliff, or tree.
- (q) Regulating sewerage and drainage.
- (r) Leaving any matter or thing to be from time to time determined, applied, dispensed with, or regulated by the Council by resolution, or by any officer authorized in that behalf by the Council, either generally or for any class of cases, or in any particular case.
- (s) Repealing By-laws, regulations, and parts thereof, respectively, heretofore in force in the municipality, inconsistent with or repugnant to this By-law.

IN pursuance of the powers conferred by the Local Government Acts and every other power it thereunto enabling, the Mayor, Councillors, and Citizens of the City of Camberwell order as follows:—

## REPEAL.

(1) By-law No. 40, made by the Council on the 11th day of September, 1916, and By-law No. 46, made by the Council on the 19th day of November, 1923, and By-law No. 48, made by the Council on the 11th day of May, 1925, are hereby repealed, but this repeal shall not revive or give any force or effect to any By-law or regulation repealed by such By-laws.

## OPERATION.

(2) This By-law shall apply to and have operation throughout the whole of the municipal district of the City of Camberwell.

## DATE OF COMING INTO FORCE.

(3) This By-law shall come into operation and have effect immediately upon its publication in the *Victoria Government Gazette*.

## PART I.

## DEFINITIONS.

(1) In this By-law, unless repugnant to or inconsistent with the context or subject-matter—

“Approved” means approved by the surveyor.

“Area,” when applied to a building, means the superficies of a horizontal section thereof made at a point of its greatest surface inclusive of the external walls and of such portion of the party walls as belong to the building.

“Builder” means the master builder or other person employed to execute any work, or, if there is no master builder or other person so employed, then the owner of the building or other person for whom or by whose orders such work is to be done.

“Building” means any structure capable of affording protection or shelter, either roofed or intended or adapted to be roofed, and whether enclosed by walls or not; and whether such structure be completed, or in course of construction; but does not include any greenhouse, aviary, fence, or other similar building or erection.

“Building line” means a line beyond which property-owners or others have no legal or vested right to extend a building or any part thereof without the consent of the Council.

“Cement concrete” means an approved mixture of high-grade Portland cement, clean, sharp sand, and aggregate consisting of fragments of hard stone or gravel, thoroughly clean, and entirely free from combustible matter, furnace slag, coke breeze, or any material containing any trace of sulphur.

“Concrete Cased Steel” means a form of construction in which the steel is designed to support or resist the whole of the load and stresses of whatever kind arising in the structure, such steel being encased in and entirely covered with cement concrete, such concrete being designed as taking no part in the support of and resistance to the loads and stresses.

“Council” means the Council of the City of Camberwell.

“Cubical extent,” applied to the measurement of a building, means the space contained within the external surface of its walls, the upper surface of the floor of its lowest story, and the ceiling or tie of its topmost story.

“Dwelling-house” means a building used or constructed or adapted to be used wholly or principally for human habitation.

“Dwelling-room” shall be deemed to mean and include every room used or intended or adapted to be used as a bedroom, dining-room, living-room, or kitchen.

“Factor of Safety” means the ratio of ultimate load to safe load.

“Fire resisting,” used with reference to any material, includes—

For general purposes—

- (a) Brickwork constructed of good bricks, well burnt, hard and sound, properly bonded and solidly put together with good lime or cement mortar.
- (b) Any stone suitable for building purposes by reason of its solidity and durability.
- (c) Iron, steel, copper, and other approved metal.
- (d) Concrete cased steel or iron as hereinbefore provided.
- (e) Slate, tiles, brick, and terra cotta when used for coverings or corbels.
- (f) Flagstones and reinforced plates when used for floors over arches, such flagstones not being exposed on the underside and not being supported at the ends only.
- (g) Concrete of broken stone, broken bricks, or ballast in combination with sand and lime cement or calcined gypsum in approved proportions.
- (h) Reinforced concrete.

## For special purposes—

In the case of doors, windows, and shutters and their frames—Redgum, jarrah, or other approved timber not less than 2 inches thick (nominal), the frames being bedded solid to the walls or partitions.

In the case of stairs and landings.—Redgum, jarrah, or other approved timber; the treads, risers, strings and bearers being not less than 2 inches (nominal) thick, and the ceilings and soffits (if any) being of plaster or cement, approved asbestos sheeting, tongued and grooved jarrah or other approved timber not less than seven-eighths of an inch thick, or iron not less than number 26 gauge; jarrah, redgum, or other approved timber, when used for beams or posts, or in combination with iron or steel, the iron or steel (if any) being protected by plastering or other incombustible or non-conducting external coating not less than 2 inches in thickness.

In the case of floors—brick, tile, terra cotta, concrete not less than  $4\frac{1}{2}$  inches thick in combination with iron or steel, and reinforced concrete not less than 3 inches thick.

In the case of verandahs, outside landings, treads, strings, and risers of outside stairs, outside steps, and porches—redgum, jarrah, or other approved timber not less than 2 inches thick (nominal).

In the case of internal partitions forming party structures, enclosing walls to lifts, staircases, and passages—reinforced concrete not less than 4 inches thick; terra cotta not less than 6 inches thick; brickwork, concrete, or other approved incombustible material not less than  $8\frac{1}{4}$  inches thick.

In the case of glazing for vertical party structures and fixed borrowed lights in partitions of fire-resisting construction—two thicknesses of wired glass not less than  $\frac{1}{4}$  inch in thickness, fixed not less than 2 inches apart in panels not exceeding 30 inches by 24 inches; the panels to be secured in approved metal frames.

In the case of horizontal party structures—floor lights of glass not less than three-quarters ( $\frac{3}{4}$ ) of an inch in thickness nor more than 4 inches square, set in approved metal or other incombustible frames. This paragraph shall apply to floors of lobbies, passages, and landings only.

In the case of roof coverings—slates, tiles, terra cotta, reinforced concrete, sheet metal of not less than 26 gauge, and approved combination of cement and asbestos not less than 3-16ths in thickness.

Any material from time to time approved by the Council by resolution or by the surveyor.

“Foundation,” applied to a wall, means the solid ground thereunder, or artificially-formed support thereof.

“Frame construction” means a form of construction in which the design provides that the vertical forces due to the weight of the structure itself and the internal loading are carried down to the foundations by means of columns in such manner that the walls are not required to assist in supporting such loads.

“Frontage” means the boundary line of any street or road, on which an allotment of land abuts, or to which any building faces or fronts.

“Height,” in relation to any building, means measurement taken from the level of the footway (if any), or, when there is no such footway, from the level of the ground immediately in front of the centre of the face of the building to the level of the top of the parapet, or, where there is no parapet, to the level of the top of the external wall or (in the case of a gabled building) to the base of the gable.

“Height,” in relation to stories, shall mean:—

(a) In the case of the topmost story, the measurement between the floor and the ceiling thereof, or (if there is no ceiling), between the floor and the under surface of the tie of the roof, or, if there is no tie, then up to the level of half the vertical height of the rafters or other support of the roof.

(b) In the case of every story other than the topmost story, the measurement between its floor and the floor above.

“Hoarding” includes any erection or structure erected, or constructed, or used for the purpose of writing, printing, painting, pasting, or posting thereon notices, advertisements, placards, or other printed, painted, or written matter, and any erection or structure being of a height greater than six feet six inches (6 ft. 6 in.) measured from the level of the adjoining street to the level of the highest point of such erection or structure upon which notices, advertisements, placards, or other printed, painted, or written matter are printed, written, painted, pasted, or posted; but does not include any structure erected or constructed in a street for the purpose of carrying on building operations only or a dwelling-house or shop or any fence 6 ft. 6 in. or under in height.

“Level of ground” means the mean level of the ground as determined by the surveyor.

“Municipality” shall mean the municipal district of the City of Camberwell.

“New building” includes:—

(a) Any building commenced after the date of this By-law coming into force.

(b) Any building which for more than one-third its cubical extent has been taken down or destroyed by fire, tempest, or otherwise, and is re-erected or commenced to be re-erected wholly or partially on the same site after the date of this By-law coming into force.

(c) Any building or erection removed or transported, wholly or in sections, into the municipal district or from one part of the municipal district to another part of the same after the date of this By-law coming into force.

(d) Any addition to, or alteration of, any building after the date of this By-law coming into force.

“Person” shall include a corporation.

“Prescribed” means prescribed by this By-law or by the Council or the surveyor (as the case may be) pursuant to this By-law.

“Reinforced concrete” means a form of construction in which cement concrete is reinforced with iron or steel, these materials being so combined that the iron or steel will take up and resist the whole of the tensional stresses, and assist in the resistance to shear, while the concrete will take up and resist the compressional stresses and assist in resistance to shear.

“Square,” applied to the measurement of an area, means the space of 100 square feet.

## Stories—

“Basement story” means any story of a building which is under the ground story.

“Ground story” means the story of a building to which there is a main entrance from the outside at or near the level of the ground.

“First story” means that story of a building which is next above the ground story, the successive stories above the first story being the second story, the third story, and so on to the topmost story.

“Topmost story” means the uppermost story in a building, whether constructed partly in the roof or not.

“Surveyor” means the Building Surveyor or other officer for the time being authorized to discharge the duties of Building Surveyor of the municipality.

“Treasurer” means the Treasurer for the time being of the municipality.

“Temporary building” means any building, office, or shed used by builders during the erection of any building, or by contractors carrying out works for any public body or corporation, and readily removable on completion of such building or works, but shall not include any building used with, or intended to be used with, any permanent building, although such building may rest on sleepers or plates and not be permanently fixed to the ground.

## Walls—

“Cross wall” means an internal wall not being less than two-thirds the thickness of the external or party walls, and in no case less than 9 inches in thickness, built in connexion with any external or party walls and bonding them together.

“External wall” means any outer wall or vertical enclosure of any building not being a party wall.

“Internal wall” means any partition wall not being a party wall or a cross wall designed for the purpose of dividing the space within the external walls of any building into rooms or apartments.

“Party wall” means a wall built to be used as a separation of two or more buildings or a wall forming part of a building built upon the dividing line between adjoining premises for their common use.

"Party structure" means any partition wall or any partition floor separating vertically or horizontally stories or rooms in separate occupation and approached by distinct staircases or separate entrances from without or separating a shop from the remaining portion of a building or separating a building from a public way leading to premises in other occupation. An external fire-escape stairs shall not be deemed a separate entrance when doors opening on to such stairs are capable of being opened from the inside only.

Words importing the plural shall include the singular, and words importing the singular shall include the plural.  
For the purpose of this By-law, buildings shall be divided into three classes:—

Class "A."—"Domestic Class"—which includes all buildings subject to small vibration and light loading of floors, such as dwelling-houses, residential shops, lock-up shops, offices, hotels, private schools, club-houses, and any other building not being a public building or a building of the warehouse class.

Class "B."—"Warehouse Class"—which includes all buildings subject to vibration and heavy loading of floors, such as warehouses, factories, mills, and places for the manufacture and storage of goods and any other building not being of the domestic class or public building class.

Class "C."—"Public Building Class"—which includes all buildings designed to accommodate an assemblage of people, such as theatres, churches, chapels, assembly halls, museums, libraries, public schools, public hospitals, lecture rooms, and other like buildings.

## PART II.

### SECTION 1.

#### *Minimum Area, Depth, and Width of Frontage, Open Spaces, &c.*

It is hereby prescribed that the minimum area and the minimum depth and width of frontage of land upon which any dwelling-house, or any shop, or any dwelling-house and shop combined may hereafter be erected, shall be as follows:—

1. (a) *Dwelling-houses.*—Save as hereinafter provided, the minimum area of land upon which any dwelling-house may hereafter be erected (hereinafter called the said land) is 7,000 square feet; the minimum width of frontage of the said land to some street or road is 50 feet; and the minimum depth of the said land is 140 feet. Provided that, in the case of any land fronting or abutting on any of the streets or roads, or portions of streets or roads, set out in the Second Schedule hereto, the minimum area of the said land is 7,700 square feet; the minimum width of frontage of the said land to some street or road is 55 feet; and the minimum depth of the said land is 140 feet.

Provided, also, that in the case of land subdivided after the 10th day of June, 1925, where any allotment thereof has a frontage to two or more streets of not less than 25 feet in width, the minimum area of the said land is 8,400 square feet; the minimum width of frontage of the said land to some street or road, is 60 feet; and the minimum depth of the said land is 140 feet.

(b) *Exceptions.*—In the case of land subdivided into allotments prior to the 10th day of October, 1917, the minimum area of the said land is 4,000 square feet, the minimum width of frontage of the said land to some street or road is 33 feet, and the minimum depth of the said land is 120 feet.

In the case of land shown on any plan of subdivision sealed by the Council after the 10th day of October, 1917, and prior to the 10th day of June, 1925, the minimum area of the said land is 6,000 square feet, the minimum width of frontage of the said land to some street or road is 50 feet, and the minimum depth of the said land is 120 feet.

Land may, however, be subdivided into allotments of a less depth than is hereinbefore mentioned, provided the width of frontage is proportionately increased to give the required area; but in no case shall any allotment of land be of a less depth than 80 feet.

2 (a) *Shops, and Dwelling-houses and Shops Combined.*—Save as hereinafter provided, the minimum area of land upon which any shop, or dwelling-house and shop combined, may, after the 10th day of June, 1925, be erected (hereinafter called "the said land"), is 2,520 square feet; the minimum width of frontage of the said land to some street or road is 18 feet; and the minimum depth of the said land is 140 feet.

(b) *Exceptions.*—In the case of any land shown on any plan of subdivision sealed by the Council after the 10th day of October, 1917, and prior to the 27th day of February, 1924, the minimum area of the said land is 1,920 square feet; the minimum width of frontage of the said land to some street or road is 16 feet; and the minimum depth of the said land is 120 feet.

In the case of land shown on any plan of subdivision sealed by the Council after the 27th day of February, 1924, and prior to the 10th day of June, 1925, the minimum area of the said land is 2,160 square feet; the minimum width of frontage of the said land to some street or road is 18 feet; and the minimum depth is 120 feet.

Land may, however, be subdivided into allotments of a less depth than is hereinbefore mentioned, provided the width of frontage is proportionately increased to give the required area, but in no case shall any allotment of land be of a less depth than 80 feet.

3. For the purposes of this part of this By-law, the width of frontage shall be measured by taking the shortest distance between the terminal points of the sides of the said land, where such sides meet the line of the street, and the depth shall be measured at right angles to the middle point of the frontage.

4. *Open Space.*—Every dwelling-house hereafter erected shall have attached thereto, for the exclusive use of the occupiers thereof, an area of open land equal to not less than one-half the total area of the allotment, on portion of which the dwelling-house stands. Nor shall any addition or alteration be made to any dwelling-house hereafter erected that would reduce such open space to a less area than one-half of the total area of the allotment. Verandahs and outbuildings shall, in the calculation of space occupied, be included as part of the dwelling-house to which they belong.

5. The Council, by resolution, may, from time to time, in any particular case, dispense with any of the requirements of this section of this part of this By-law.

### SECTION 2.

#### *Minimum Area to be Covered by any Dwelling-house or any Dwelling-house and Shop Combined.*

(1) *Dwelling-house.*—Area 1,000 square feet. Every building hereafter erected or constructed upon any land within the municipal district that is used or intended or adapted to be used as a dwelling-house, except only where built upon any land fronting or abutting on any of the streets or roads, or portions of streets or roads, set out in the Second Schedule hereto, and wholly or partly within 140 feet therefrom, shall cover on the ground floor not less than 1,000 square feet in superficial area.

(2) *Dwelling-house.*—Area 1,500 square feet. Every building hereafter erected or constructed upon any land fronting or abutting on any of the streets or roads or portions of streets or roads set out in the Second Schedule hereto, and wholly or partly within 140 feet therefrom, and that is used, or intended or adapted to be used, as a dwelling-house only, shall cover on the ground floor not less than 1,500 square feet in superficial area.

(3) *Dwelling-house and Shop Combined.*—Every building hereafter erected or constructed upon any land fronting or abutting on any of the streets or roads or portions of streets or roads, where it is lawful to build such class of buildings, and wholly or partly within 140 feet therefrom, and that is used or intended or adapted to be used, as a dwelling-house and shop combined, shall cover on the ground floor not less than 850 square feet in superficial area.

(4) *Ascertainment of Area.*—In the ascertainment of area covered the area of verandah forming a part of the main building, but not exceeding 100 square feet in area, and the thickness of the external walls will be allowed as part of the area covered, but no detached outbuildings or verandah area in excess of 100 square feet shall be included.

(5) The Council, by resolution, may from time to time, in any particular case, dispense with any of the requirements of this Section of this part of this By-law.

### PART III.

2. The use of any land, or the erection (including adaptation for use) or the use of any building for the purposes of all classes of trades, industries, manufactures, business or public amusements, is hereby prohibited within the whole of such residential areas.

Such prohibition shall, however, not apply to any single worker who carries on a trade, industry, manufacture, or business in a private dwelling-house, and does not use mechanical power.

3. Nothing, however, hereinbefore contained shall preclude the continuance of the use of any land or any building for any purpose for which the same was used immediately before the coming into operation of this By-law, or the enlargement, rebuilding, or extension of any building used for any such purpose, whether or not such enlargement, rebuilding, or extension involve the use of adjoining land which, immediately before the coming into operation of this By-law, was in the same ownership, or for such other purposes as the Council thinks reasonable in the circumstances.

#### PART IV.

##### NOTICE OF INTENTION TO BUILD OR DEMOLISH, AND LODGMENT OF PLANS.

*Notice to be Given.*—Six (6) days at least before the commencement of any building, erection, or structure, or of any addition to or alteration of any existing building, or the reinstatement of any building after being partially destroyed by fire or by any other cause, the builder shall—

(a) *Notice.*—Deliver at the office of the surveyor a written notice of intention to build, or add to or alter any existing building, or to reinstate any building (as the case may be).

(b) *Plans and Specifications.*—Produce to the surveyor for his approval properly prepared plans and specifications of such building, erection, structure, addition, alteration, or reinstatement, and also a block plan drawn in ink to scale, showing the boundaries and dimensions of the allotment of land, and clearly indicating whether such allotment of land is at the intersection of two streets or not, also the position and dimensions of the proposed building, erection, structure, addition, alteration, or reinstatement, and the position and distance of such building in relation to such boundaries, and to any other existing buildings on the same or on adjoining allotments.

(c) *Copy of Plans.*—Furnish the surveyor with a tracing or copy of all such plans, with full details of sizes, dimensions, and quantities of all materials intended to be used, and also enumerating any old material proposed to be used in the construction of such building, erection, structure, addition, alteration, or reinstatement.

2. *Originals to be Returned.*—The original plan and specification, when approved and signed by the surveyor, will be returned to the builder or his agent, but the tracing or copy of the plans, detail of material, and block plan will be retained by the surveyor on behalf of the Council.

3. *Plans Not to be Varied.*—No variation or alteration from the plan and specification which has been approved by the surveyor shall be made by the builder without the consent in writing of the surveyor having been first obtained.

4. *Demolition of Buildings.*—When a building is about to be demolished or removed, the owner or contractor shall give to the surveyor twenty-four hours' notice in writing of such intended demolition or removal.

5. *Method of Demolition.*—In carrying out the work of demolition story after story shall be completely removed. No material shall be placed upon the floors of such building whilst in course of demolition, but the bricks, timbers, and other structural parts of each story shall be lowered to the ground immediately on displacement, and removed, unless special exemption in writing from this condition is granted by the surveyor.

6. *External Walls.*—No portion of any external wall abutting on any street or road shall be pulled down or demolished except with the written consent of the surveyor.

7. *Nuisance to be Avoided.*—During the demolition of any brick or masonry walls or other works the material shall be kept well sprayed with water to prevent any nuisance from dust or falling debris.

#### (2) PAYMENT OF FEES AND PERMIT.

8. *Permit.*—No builder or other person shall commence to erect, build, or construct any new building, erection, or structure, or alter, add to, reinstate or demolish and pull down, any existing building, erection or structure without having first obtained from the surveyor permission in writing to commence such work, and without having first paid to the proper officer of the Council the fees in respect thereof as set forth in the First Schedule hereto, having regard to the class of building, erection, structure, addition, alteration, reinstatement, or demolition to be carried out.

Such permission shall only remain in force and have effect for six calendar months from the date on which such permission was granted.

#### (3) DUTIES OF SURVEYOR.

9. *Surveyor to Cause By-law to be Observed.*—The surveyor shall, upon receipt of any such notice as aforesaid, and also upon any work being observed by or made known to him which is affected by the provisions of this By-law, but in respect of which no notice has been given, and also from time to time during the progress of any work affected by such provisions as often as may be necessary for securing the due observance of such provisions, inspect any such building, erection, structure, or work, and cause all such provisions to be duly observed.

10. *Power to Enter and Inspect.*—The surveyor or the building inspector at all reasonable times during the progress, and during the thirty days next after the completion of any building, erection, structure, or work affected by any of the provisions of this By-law, or by any terms or conditions on which the observance of any such provisions may have been dispensed with, may enter and inspect such building, structure, or work.

11. *General Power of Entry.*—The surveyor, for the purpose of ascertaining whether any building, structure, or erection is in such a situation or possesses such characteristics as are required in order to exempt it from the operations of any of the provisions of this By-law, may at all reasonable times and after reasonable notice enter any premises, and he may do therein all such things as are reasonably necessary for that purpose.

#### PART V.

##### GENERAL PROVISIONS AS TO BUILDINGS.

1. *Exemptions.*—The following buildings shall be exempt from the provisions of this By-law:—

(a) All Government, railway, and municipal buildings.

(b) Temporary offices and sheds used by builders on or about the site of any building being erected, repaired, altered, or reinstated, or used by contractors in carrying out works for any public body or corporation, and used exclusively for the purpose of such building or work. Such exemption shall, however, only continue during the time occupied in completing such building or work, and in any case shall not exceed a period of six months, except by special permission of the Council.

(c) Any building the plans of which were passed by the surveyor prior to the date of this By-law coming into force, provided that such building is completed within six calendar months from the date on which the plans were passed by the surveyor, or such further time as may be allowed in writing by the surveyor.

2. *Distance from Boundary.*—Wherever in this By-law any distance from a boundary is provided for, such distance shall be measured horizontally from the boundary to the line of the outer edge of the overhanging eaves or to the outer edge of any verandah, whichever is nearer to the boundary, and in every case to the point of greatest projection of the building.

3. *Old Buildings in Contravention of By-law.*—No building in existence prior to the date of this By-law coming into force shall be altered or added to in such a way as to contravene the provisions of this By-law.

4. *New Classes of Materials.*—The Council may permit the use of any new material or methods of construction which may be approved by the surveyor as being equal to or superior to those provided for in this By-law.

5. *Efficient Drainage of Site.*—No building to be used or that is adapted to be used as a dwelling-house shall be built or erected upon any land liable to be flooded or inundated by water from any water-course, nor upon any land the surface of which does not admit of being efficiently drained at all times by gravitation into some adjoining street, lane, right-of-way, or channel, and where necessary the ground under any building shall be filled to the satisfaction of the surveyor with suitable material to prevent the lodgment of water.

6. *Drains.*—Drains shall be provided at all new buildings to the satisfaction of the surveyor, for the interception and collection of storm-water and surface drainage from the site or curtilage of such building, and of water discharged from roofs and for its conveyance to the nearest street, lane, or drainage easement on to or through or over which such drainage may lawfully be discharged.

The position of such drains and the material of which they are to be constructed shall be shown on the block plan to be lodged with the surveyor under the provisions of this By-law.

7. *Dampness of Site.*—Where the surveyor considers it necessary, he may direct that the ground surface of the site of any building shall be properly asphalted or covered with a layer of cement concrete, not less than 4 inches in thickness, or covered with some other approved damp-resisting material.

The floors and walls of all basements and cellars shall be rendered impervious to moisture by such means as may be approved of by the surveyor.

8. *Subsoil Drainage.*—Where the surveyor considers it necessary owing to the dampness of the site of any new building, he may direct that the subsoil shall be drained by means of suitable earthenware field pipes properly laid to an approved outfall. The water from such drains shall be disposed of by pumping, or by such other effective means as may be approved of by the surveyor.

9. *Prohibited Sites.*—No building shall be erected on or adjoining to any land impregnated or contaminated with faecal, animal, or vegetable matter or other refuse until same has been removed or rendered innocuous to the satisfaction of the Council's medical officer of health.

10. *Shops in Front of Existing Building.*—No shop shall be built or erected in front of any existing dwelling-house unless the following conditions are complied with:—

(a) That the consent of the Council is first obtained to the erection of such shop.

(b) That such shop is connected to the existing building so that when completed the whole shall form one building and be in one occupation.

(c) That such addition or alteration shall be carried out in such manner as may be approved by the surveyor, so that ample light and ventilation is provided for the original portion of the building.

11. *Shop and Dwelling.*—In every case where a shop and dwelling is built or erected as one building, but is to be used or is intended or adapted to be used for separate occupations, there shall be provided for the sole use of the occupants of the dwelling-house portion of the building a separate entrance from the street.

12. *Workroom Attached to Shop but Separately Occupied.*—In every case where a room is built at the rear of a lock-up shop which is to be used or which is intended or adapted to be used as a workroom, but is to be separately occupied, there shall be provided for the sole use of the occupants of such workroom a separate entrance from the street.

13. *Dwelling Room.*—Every dwelling room shall contain not less than 800 cubic feet of space.

14. *Height of Rooms.*—Every dwelling room except attic rooms wholly or partly in the roof shall be in every part at least 10 feet in height from the floor to the ceiling.

15. *Attic Room.*—Every dwelling room built wholly or partly in the roof of any building shall be for not less than one-half of its area nine (9) feet in height from the floor to the ceiling, or, if there is no ceiling, then from the floor to the underside of the rafters, and the walls of such room shall in no part be less than six (6) feet in height measured vertically.

16. *Rooms Over Stables.*—Every dwelling room built or constructed over or adjoining a stable shall be separated therefrom by a floor or wall rendered impervious to foul air in such manner as may be approved by the surveyor.

17. *Buildings Provided with Kitchen, Bathroom, and Wash-house.*—In every building intended or adapted to be used as a dwelling-house, and provided with a bathroom and wash-house or laundry, the bathroom shall be fitted with a bath and all necessary appliances for bathing, and the walls thereof for a minimum height of 6 feet above the floor shall be covered with glazed tiles or a combination of cement and plaster worked to a glass surface, or with other approved material. The wash-house may either form part of the main building, or be detached therefrom, but if it form part of the main building it shall be arranged either so that it does not open directly into any living room, or, if it does so open into any living room, it shall be separated therefrom by a close-fitting door which will prevent smoke, steam, or fumes having access thereto. The height between the floor and ceiling of any such wash-house or laundry shall be not less than eight (8) feet measured vertically in any part thereof.

No bathroom shall be erected as an adjunct to a wash-house or laundry, except where there is a bathroom in the main building, in connexion with which the wash-house or laundry is used or adapted to be used.

18. *Waste Pipes from Sinks, &c.*—In unsewered areas, all sinks, water troughs, baths and lavatory basins shall be provided with properly constructed waste pipes of lead or 24-gauge galvanized iron, with well-soldered joints, and of such internal diameter as may be approved by the surveyor, so fixed as to discharge into drains outside the building.

19. *Drains.*—(a) All covered or underground drains conveying household drainage or sewage shall be efficiently trapped or air-disconnected from the discharge pipes from the house. Such drains shall be constructed of wrought or cast-iron pipes, or glazed stoneware pipes, or cement pipes of an internal diameter of not less than 4 inches, laid with a sufficient fall to the best outlet obtainable. Every such drain, if of iron, shall have the joints made with lead, and if of stoneware or cement the joints shall be made with Portland cement mortar in such manner as to make the drains airtight, and, in each case, to the approval of the surveyor.

(b) Open drains for conveying household drainage or sewage shall be of hard-burnt bricks, semi-circular stoneware pipes, or drainage tiles bedded in and jointed with mortar (composed of Portland cement and sand), so that all joints shall be watertight.

(c) All drains shall be of a sufficient capacity to carry all the drainage from the premises, and shall be laid to a regular fall or inclination, and shall be kept clean and free from all accumulation of filth.

(d) No open drain shall be laid under the floor of any house, shop, or other premises, but this shall not apply to agricultural drains for the drainage of the soil.

20. *Manholes.*—All buildings, where ceiled, shall be provided with properly-framed manholes, not less than 24 inches by 18 inches, to permit of access to all parts of the space between the roof covering and ceiling. Such manhole openings shall be provided with suitable covers.

21. *Outside Steps.*—All outside steps shall have a minimum tread or ten (10) inches, with a go of nine (9) inches, and the height of each step shall not exceed a rise of eight (8) inches. Where such steps are constructed of wood, the treads and strings shall be of redgum, jarrah, or of such other timber as may be approved by the surveyor, of a minimum thickness of two (2) inches. Treads shall be housed not less than  $\frac{1}{4}$  inch into the strings.

22. *Stairs.*—Stairs shall be so planned as to be as far as possible without winders, and shall have a head-room of not less than seven (7) feet measured vertically, nor less than six feet 6 inches (6 ft. 6 in.) measured at right angles to the pitch of the stairs. Treads shall be of a minimum width of ten (10) inches, with a go of nine (9) inches, and the height of each step shall not exceed a rise of eight (8) inches. Treads shall be not less than  $1\frac{1}{4}$  inches in thickness, risers not less than 1 inch in thickness, and strings not less than nine (9) inches in width and two (2) inches in thickness. All treads and risers shall be housed into strings not less than  $\frac{1}{4}$  inch, and all steps blocked.

23. *Ramps.*—In cases where ramps are provided instead of steps, the inclination of such ramp shall not be greater than 1 in 6, and if such ramp is made of wood the floor shall be close boarded or close battened.

24. *Hand-rails.*—Where, in the opinion of the surveyor, such are necessary, all verandahs, landings, steps, and ramps shall be provided with suitable hand-rails, balustrades, or other protections.

25. *Roof covering.*—The roof of every building, and every turret, dormer, lantern light, skylight, or other erection placed on the flat or roof thereof shall be covered externally with slates, tiles, terra cotta, sheet metal of not less than 26-gauge, approved combinations of cement and asbestos either in sheets or slates, or other approved incombustible material.

Cornices and barge boards to dormers not exceeding twelve (12) inches in depth, and the doors, door frames, window and sash frames of such dormers, turrets, lantern lights, skylights, or other erections may be of wood.

Tested and approved bituminous compositions may be used on flat wood boarded roofs and on all roofs of fire-resisting construction.

In the case of detached buildings, or where otherwise permitted by the surveyor, the roof coverings may be of approved roofing felt, not less than 3-ply in thickness, securely cemented or fastened to a foundation of close-jointed T. and G. flooring boards, not less than  $\frac{3}{4}$  inch in thickness, covering the whole area of the roof.

The use of wooden shingles as a roof covering is prohibited.

26. *Pitch of Roofs.*—The plane of the surface of the roof of any building shall not incline upward from the external or party walls at a greater angle than 45 degrees with the horizontal. This condition shall not, however, apply to towers, turrets, spires, or the more perpendicular side of saw-tooth roofs, and in the case of roofs covered with tiles or slates the inclination from the horizontal shall be not less than 25 degrees.

27. *Gutters and Downpipes.*—Gutters or spouting constructed of 26-gauge galvanized iron or cast iron, and of a size suitable for the roof area discharging into such gutters, shall be securely fixed along the eaves of all roofs, graded to outlets and connected to surface drains by suitable sized downpipes constructed of 26-gauge galvanized iron or cast iron.

28. *Gas Brackets.*—All gas burners shall be placed at least three (3) feet distant from any ceiling or woodwork unless the same is properly protected by shields, in which case the distance shall be not less than 18 inches. No swinging or folding gas bracket shall be placed against any stud, partition, or woodwork.

No gas bracket on any lath and plaster partition or woodwork shall be less than 5 inches in length measured from the plaster surface or woodwork, and shall be at least 2 inches from any door or window casing.

29. *Electric Fittings.*—All electric apparatus and wiring for lighting, heating, or power supply or other application of electricity shall be in accordance with such regulations as may be in force for the time being.

30. *Completion of Buildings.*—Every building that is commenced to be built, erected, or constructed shall be proceeded with continuously until completed in accordance with the plans and specifications submitted to and approved by the surveyor under Part IV. of this By-law, provided that the Council may permit the completion of any building being suspended for such period as it may determine in any case that it is satisfied that there is any special reason for such delay.

## PART VI.

### DISTANCE OF BUILDINGS FROM BOUNDARIES.

1. *Dwelling-houses.*—No person shall erect or construct or cause to be erected or constructed, any building that is intended or adapted to be used as a dwelling-house only, or make any addition or alteration to any existing dwelling-house or to any other building, so as to adapt it to be used as a dwelling-house, unless such building or erection or addition or alteration complies with the following conditions:—

Every such building—

(a) Shall be detached from any other building occupied by any person other than the person for whom such building is erected;

- (b) Shall be distant not less than 20 feet from the building line of any street or road unless the line of buildings in any street or road has been otherwise fixed by the Council. Provided, however, that where such building is erected or constructed or added to as aforesaid on any land situated at the corner of any two streets the distance of such building from the building line of one of such streets need only be 10 feet, in case of an allotment having a frontage of 60 feet or over to one of such streets, and 8 feet in the case of an allotment having a frontage of less than 60 feet to one of such streets;
- (c) Shall be distant not less than 4 feet from the side and rear boundaries of the land on which the same stands, or is erected or constructed or added to as aforesaid, or intended to be so erected or constructed or added to, or from the boundary of land not in the possession or occupation of the same person as that for whom such building is being so erected or constructed, or added to. Provided that if such building exceeds 18 feet in height, the distance from such boundaries shall be increased by one foot for every additional 5 feet or part thereof above 18 feet in height;
- (d) Shall be distant 8 feet from any other building erected since the coming into force of this By-law.
- Provided that, where the wall of a shop has been built up to within 4 feet of the boundary line, it shall be sufficient if such building is 4 feet from such boundary line, irrespective of the position of such shop.

2. *Dwelling and Shop Combined.*—Combined dwelling-houses and shops may be built up to the building line of the street or road and up to the side boundaries of the land on which they stand, provided—

- (a) That such buildings are not within a residential area;
- (b) That the whole of the external walls are constructed of brick, stone, concrete, or other approved fire-resisting material;
- (c) That such buildings are in conformity with the provisions of this By-law;
- (d) That the roof of such building is covered with fire-resisting material;
- (e) That such buildings are efficiently lighted and ventilated to the satisfaction of the surveyor;
- (f) That the internal dimensions of the shop portion of the said building is not less than—Height, 12 feet between floor and ceiling; width, 16 ft. 2 in., measured at right angles to the side walls; floor area, 260 square feet. Such minimum floor area shall be for a shop in one occupation only, and shall not be subdivided by any internal wall or partition for the purpose of sub-letting a portion thereof.

3. *Single-story Lock-up Shops.*—In addition to the conditions set out in the preceding clauses, the following special conditions shall apply in the case of shops to which no dwelling-rooms are attached:—

- (a) If any such shop form part of a larger building or is one of a row or terrace of shops not exceeding one story in height, and is adapted or intended to be used for separate occupation, it shall in every case be fire isolated from the other portions of such larger buildings, and from any adjoining shop or shops, both as to walls and ceiling, and all party walls shall be carried up to form parapet walls, as provided under this By-law.
- (b) All the conditions as to dimensions of shop and floor area set out in paragraph (f) of the preceding clause shall apply to shops of this class.
- (c) In addition to the shop itself, one room, to be used as a workroom or refiring room, may be provided, but such room shall not be used as a bedroom or for residential purposes.
- (d) Such shop and room shall be efficiently lighted and ventilated to the satisfaction of the surveyor.
- (e) All necessary sanitary and lavatory accommodation shall be provided to the satisfaction of the surveyor.

4. *Large Shops, &c.*—Notwithstanding anything hereinbefore contained, large shops, suites of chambers, halls, emporiums, factories, and other similar buildings without dwelling-rooms attached may, in sewered areas, be built or erected so as to cover the whole of the land appurtenant thereto, if built in accordance with the following conditions:—

- (a) That such buildings are not within a residential area.
- (b) That such buildings are in conformity with the provisions of this By-law.
- (c) That the whole of the external walls are constructed of brick, stone, concrete, or other approved fire-resisting materials.
- (d) That the roof is covered with fire-resisting material.
- (e) That such buildings are efficiently lighted and ventilated to the satisfaction of the surveyor.
- (f) That all necessary sanitary and lavatory accommodation is provided to the satisfaction of the surveyor.

5. *Stables, &c.*—Stables containing not more than two stalls may be built in any part of the municipal district, provided—

- (a) The external walls are built of brick, stone, concrete, or, if framed in wood, the walls are covered with galvanized corrugated iron not less than 26-gauge, sound weatherboards not less than  $\frac{3}{4}$  inch in thickness, or other approved material, and the roof is covered with slates, tiles, iron, or other approved fire-resisting material;
- (b) The external walls do not exceed 15 feet in height from the level of the ground to the top plate of the wall or the under side of the eaves;
- (c) The floor is laid with hard bricks, bluestone pitchers, or wood blocks jointed in cement mortar or with cement concrete or other approved impervious material;
- (d) The building, of whatever material constructed—
- (i) Is distant not less than 100 feet from the building line of the street or road to which such property has a frontage;
  - (ii) Is distant not less than 20 feet from any other street or road of a greater width than 25 feet;
  - (iii) Is distant not less than 5 feet from the boundary of any land not in the same occupation, or from any street or road of a less width than 25 feet, or if less than 5 feet distant from the boundary of any land not in the same occupation or from any street or road of a less width than 25 feet, the external wall of the building adjoining such boundary or street, is built of brick, stone, or concrete not less than  $8\frac{1}{2}$  inches in thickness carried up to a height of 12 inches above its own roof or gutter to form a parapet;
  - (iv) Is distant not less than thirty (30) feet from any other building used as a dwelling-house, whether on the same allotment of land or on any adjoining allotment.
- (e) Manure pits built of impervious material shall be provided in connexion with all stables (unless when this condition is dispensed with by the Council), and shall be subject to the same conditions as stables in regard to distance from boundaries and other buildings, and shall be suitably covered to the satisfaction of the Council's Health Inspector.
- (f) On the application in writing of the owner of any land, the Council may, by resolution, in any particular case, dispense with any of the requirements of this part of this By-law, in so far as they regulate or restrain the erection and construction of buildings.

6. *Workshops, Sheds, &c.*—Workshops (except such as would be designated "factories" under the Factories Act), sheds, and similar structures may be built in any part of the municipal district, provided that such structures—

- (a) Are distant not less than twenty-five (25) feet from any building used as a dwelling-house on land owned or occupied by a person other than the owner or occupier of the land upon which such structure stands;
- (b) Are distant not less than seventy-five (75) feet from the building line of the street or road to which such property has a frontage;
- (c) Are distant not less than twenty (20) feet from any other street or road of a greater width than twenty-five (25) feet;
- (d) Are distant not less than five (5) feet from the boundary of the adjoining allotment of land, and from any street or road of a less width than 25 feet; or, if less than 5 feet from such boundary, the external wall adjoining such boundary—in the case of a building having a superficial area of two squares or less, and having walls not exceeding 10 feet in height from the ground level—is covered with sound galvanized iron of not less than 26-gauge, or other approved fire-resisting material, and, in the case of a building exceeding two squares in superficial area, or with walls exceeding 10 feet in height—the external wall adjoining such boundary is built of brick, stone, or concrete not less than  $8\frac{1}{2}$  inches in thickness, carried up to a height of 12 inches above its own roof or gutter to form a parapet.

7. *Wash-houses.*—Detached wash-houses not exceeding  $1\frac{1}{2}$  squares in superficial area may be built as appurtenant to any dwelling-house, and, if distant 10 feet or more from the main building, shall comply with all the conditions in regard to sheds, as provided in the preceding clause 6, but, if built within a distance of 10 feet from the main building, then such wash-house shall comply with all the conditions as to distance from boundaries as apply to the main building.

8. *Motor Garages.*—Motor garages may be built appurtenant to a dwelling-house in any part of the municipal district, provided that any such motor garage—

- (a) Is distant not less than 10 feet from any other building used as a dwelling-house, whether on the same land or on any adjoining allotment of land;

- (b) Is distant not less than 20 feet from the building line of the street or road to which such property has a frontage; but in no case shall any portion of such garage project in advance of or be nearer to the building line of the street or road than the line of the front wall or the outer edge of the verandah of the main building to which it is appurtenant;
- (c) Is distant not less than 12 feet from any other street or road of a greater width than 25 feet;
- (d) Is distant not less than 5 feet from the boundary of any adjoining allotment of land, and from any street or road of a less width than 25 feet.

Where any such motor garage does not exceed 3 squares in superficial area, nor the walls 10 feet in height above the ground level, and the external wall adjoining such boundary is covered with approved fire-resisting material, such motor garage may be built at a distance less than 5 feet from such boundary.

The external walls of buildings of a greater superficial area than the foregoing, or with walls exceeding 10 feet in height, shall be built of brick, stone, or concrete, and shall also comply with all other conditions applying to buildings of these materials.

Provided, however, that, if such motor garage is built at a less distance than 10 feet from any dwelling-house, factory, or shop, or is attached to, or forms part of, any such building, then such garage shall comply with all the conditions as to distances from boundaries and from other buildings as apply to the main building itself.

The floors of all motor garages shall be constructed of approved incombustible material.

9. *Conservatories, Greenhouses, &c.*—Conservatories, greenhouses, aviaries, &c., may be built in any part of the municipal district, provided that such buildings—

- (a) Are distant not less than 20 feet from the building line of the street or road to which the land upon which it is intended to erect such buildings has a frontage;
- (b) Are constructed of a design and of material approved by the surveyor, to whom the plans and specifications and proposed situation of the building must be submitted prior to the work being commenced.

10. *Sleep-outs, Tents, &c.*—Detached rooms and tents to be used for sleeping-out purposes may be built, erected, or constructed in any part of the municipal district as appurtenant to any dwelling-house for the sole use of the occupiers of such dwelling-house. Such buildings may be covered and roofed with any material approved by the surveyor, provided such buildings—

- (a) Do not exceed  $1\frac{1}{2}$  squares in superficial area, nor 10 feet in height, and do not contain a fireplace;
- (b) Are distant not less than 50 feet from the building line of the street or road to which the land upon which it is intended to erect such buildings has a frontage;
- (c) Are distant not less than 20 feet from any other street or road exceeding 25 feet in width;
- (d) Are distant not less than 5 feet from any other boundary of such land;
- (e) Are suitably floored.

In the case of tents, they must be provided with a canvas fly or a false roof of material approved by the surveyor, separated from the roof of the tent by an open space of at least 6 inches.

11. *Fowl-houses.*—Fowl-houses and other similar structures may be built at the rear of any dwelling-house, provided that—

- (a) Such structures do not exceed one square in superficial area, and 8 feet in height;
- (b) Such structures are distant not less than 75 feet from the building line of the street or road to which the land upon which it is intended to erect such structures has a frontage, and 20 feet from any other street or road exceeding 25 feet in width, and, if built on the boundary of any adjoining allotment of land, the wall of such structure abutting on such boundary is covered with sound galvanized corrugated iron or other approved material;
- (c) The whole of such structure is covered and roofed with material approved of by the surveyor;
- (d) Such structures are distant not less than 40 feet from any dwelling-house, whether on the same land or on adjoining land.

The foregoing provisions shall not be deemed to apply to fowl-houses or runs on any land used as a poultry farm, in which case the situation and construction of any structures shall be such as may be approved by the surveyor.

12. *Privies, Closets, and Urinals.*—Privies, closets, and urinals not forming part of a main building and not connected to an underground sewerage system may be built in the yard or area appurtenant to any other building, provided that—

- (a) Such privy, closet, or urinal is distant not less than 75 feet from the building line of the street or road to which the land upon which it is intended to erect it has a frontage, and 20 feet from any other street or road exceeding 25 feet in width, and, if built within 5 feet of the boundary of any adjoining allotment of land, is separated therefrom by a wall of brick, stone, or concrete not less than 8 $\frac{1}{2}$  inches in thickness, carried up to a height of 12 inches above the level of the roof as a parapet wall;

- (b) Such privy, closet, or urinal is distant not less than 20 feet from any other building used as a dwelling-house, whether on the same land or on adjoining land;
- (c) Such privy, closet, or urinal is properly screened from public view.

## PART VII.

### EXCAVATIONS, FOUNDATIONS, AND FOOTINGS.

1. *Footings.*—Every building constructed of material other than wood shall have foundations of brick or stone laid in mortar, concrete, reinforced concrete, steel or iron grillage encased in concrete, or piles. Artificial foundations shall be designed so as to reduce the pressure per square foot to the safe bearing capacity of the soil. All foundations must be approved by the surveyor before the commencement of any erection or construction thereon.

2. *Sustaining Power of Foundations.*—Where no test of the sustaining power of the soil has been made, the bearing capacity per square foot shall be limited to—

Firm clay	...	...	...	3 tons.
Hard clay	...	...	...	4 tons.
Firm dry sand	...	...	...	3 tons.
Compact sand	...	...	...	4 tons.
Sound shale rock	...	...	...	10 tons.
Hard rock	...	...	...	20 tons.

The surveyor shall have power to require the builder to test the bearing capacity of the soil in any case where he deems such test necessary, and the decision of the surveyor as to the bearing capacity of the soil shall be final.

3. *Pile Foundations.*—If pile foundations are specified, the owner of the building shall make, or cause to be made, borings of the soil to determine the position of a suitable underlying stratum of hard material, and the piles shall be driven to reach such stratum, or to such depth short of such stratum as the surveyor approves. Heads of all piles are to be protected against splitting when being driven, are to be sawn off to a uniform level, and covered with a grillage of hardwood timber, concrete, reinforced concrete, or stone.

4. *All Walls to Have Footings.*—Every wall other than a wall carried on a girder or on arches, and every pier, stanchion, and column shall have footings, unless otherwise allowed by the surveyor.

5. *Excavation.*—All excavations for footings shall be taken out down to a solid bottom, approved by the surveyor, and to an average depth of not less than 18 inches below the natural surface of the ground, except in cases where otherwise permitted by the surveyor.

6. *Inspection of Trenches.*—No person shall commence to place any footing in position until at least twenty-four hours' notice in writing has been given to the surveyor that the trenches are ready for inspection, but if the trenches on inspection are, in the opinion of the surveyor, not ready, and additional inspections become necessary, such fees as are set out in the First Schedule shall be paid for each additional inspection.

7. *Dimensions of Footings.*—The width of the bottom of the footings of every wall shall be not less than one and a half times the thickness of the wall standing thereon at the level of the ground floor. The diminution of such footings shall be formed in regular off-sets on each side of the wall.

*Height of Footings.*—The height from the bottom of the footing to the base of the wall shall be not less than two-thirds of the thickness of the wall at the ground floor level, but in no case less than 6 inches.

Instead of a stepped footing, a rectangular foundation of cement concrete may be used, subject to the following conditions:—

- (a) That such foundation is not less than 8 inches wider than the thickness of the wall standing thereon at the ground floor level, and that such additional width extends equally on each side of such wall, but where an adjoining wall interferes the projection on that side may be omitted to the extent of such interference.
- (b) That the height of such foundation is not less than the following:—
- Six (6) inches in height for a wall 11 inches or less in thickness.
- Nine (9) inches in height for a wall 14 inches in thickness.
- Twelve (12) inches in height for a wall 18 inches or over in thickness.

8. *Solid Foundations.*—The foundations of all walls shall be carried up in solid work from the top of the footings to the underside of the floor plate or bearer of the ground floor, and of a width not less than 4 inches greater than the thickness of the wall standing thereon; except in the case of 11-inch cavity walls, where the projection may be reduced to 3 inches.

In the case of external walls, such projection shall be on the inner side of the wall, and for internal walls the extra thickness shall project equally on each side of the wall.

## PART VIII.

## 1. HEIGHT OF BUILDINGS.

1. *Height of Buildings.*—The height of buildings dealt with in this part of this By-law shall be measured from the level of the footway immediately in front of the centre of the face of the building to the level of the top of the parapet or of the eaves.

2. *Rebuilding After Fire.*—In the event of destruction by fire of any building which exceeds the maximum height permitted by this By-law, such building may be rebuilt to its original height, subject to its construction being in all respects in accordance with the provisions of this By-law.

3. *Streets Under 33 Feet in Width.*—Where the width of any street or road is less than 33 feet, no building shall be altered or erected to exceed in height four times the width of such street or road to which it fronts, and in no case shall any such building exceed a maximum height of 82 ft. 6 in.

4. *Streets Over 33 Feet in Width.*—Where the width of any street or road is over thirty-three (33) feet the height of buildings fronting such street or road may be increased by 6 inches for every foot of width by which the said street exceeds thirty-three (33) feet, but no building shall exceed a maximum height of 110 feet.

5. *Exceptions.*—The foregoing limitations shall not apply to a church or chapel, or to ornamental towers, turrets, or domes, or architectural features or decorations. No dwelling-house shall exceed in height twice the width of the street which it fronts, and shall not in any case exceed in height 110 feet.

6. *Buildings Abutting on Two Streets.*—For the purpose of determining the height of any building abutting on two streets, the building shall be deemed to front the wider street.

7. *Width of Streets—How Determined.*—The width of streets or roads, if not proclaimed or gazetted, shall be determined by measuring at right angles across the said street from building line to building line as defined by the surveyor.

8. *Roof of Buildings of Maximum Height.*—All buildings, which exceed in height three-fourths of the maximum height allowed by these conditions shall have a roof of approved fire-resisting construction. Such roof shall be flat, or of a pitch not exceeding one in six.

## 2. LOADS.

9. *Dead Loads.*—The "dead load" of a building means the actual weight of walls, floors, roofs, partitions, and all permanent construction of such building.

10. *Live Loads.*—The "live load" of a building means all loads other than the dead load thereof.

11. *Calculation of Loads.*—For the purpose of calculating the loads on pillars, floor systems, and foundations in buildings, the live load on floors shall be estimated as not less than the following dead loads:—

- (a) For dwelling-houses, hotels, lodging-houses, and similar buildings, 70 lb. per superficial foot.
- (b) For office buildings, 84 lb. per superficial foot.
- (c) For places of assembly, workshops, retail shops, and similar buildings, 140 lb. per superficial foot.
- (d) For buildings of the warehouse class, not less than 168 lb. per superficial foot.
- (e) For buildings subject to heavy shocks, loads to be determined by calculation and approved by the surveyor.

12. *Loads on Roofs.*—The live load on pitched roofs shall be estimated at 20 lb. per superficial foot measured on the surface of such roof, and on flat roofs at 70 lb. per superficial foot.

13. *Loads on Pillars.*—For the purpose of determining the extreme load to be carried on pillars and foundations in buildings of more than two stories in height, a reduction of the live load shall be allowed as follows:—

- (a) For roof and top story the live load shall be calculated in full, to the approval of the surveyor.
- (b) For the next succeeding lower story a reduction of 5 per centum from the live load fixed by this division of this part of this By-law.
- (c) For the next succeeding lower story a reduction of 10 per centum from the live load as so fixed.
- (d) For each succeeding lower story the amount of the reduction shall be 5 per centum more than for the story immediately above.

## PART IX.

1. *Construction of External Walls.*—No building shall be built or erected on land fronting to, or abutting upon, any of the streets or roads, or portions of streets or roads, set out in the Third Schedule to this By-law, and for a distance of 140 feet on each side thereof, unless such buildings are enclosed by walls of brick or stone laid in mortar, or concrete, or other approved hard and incombustible material. The foregoing restriction shall, however, not apply to outhouses, stables, or motor garages, nor to additions or alterations to existing wooden buildings. But such buildings or alterations shall be constructed or erected in compliance with the other provisions of this By-law.

2. *Construction.*—Every such wall shall be properly bonded and put together with mortar, and no part of such wall shall overhang any part underneath it except to the extent of

9 inches, and unless such projection is well and solidly corbelled out, and that the inner surface of such wall is carried up vertically in continuation of the portion of the wall below the corbelling out. Such corbelling will, however, only be allowed where approved by the surveyor. All return and party walls shall be properly bonded with the main or external walls, to the approval of the surveyor.

3. *Internal Walls.*—Notwithstanding anything herein contained, internal or partition walls in buildings of the domestic class or the warehouse class may be built in brickwork or concrete not less than 4½ inches in thickness, or such walls may be of timber studding covered with lath and plaster or other fire-resisting material approved by the surveyor, but the use of brick nogging for such walls is prohibited.

Such walls shall not exceed one story in height, unless of brick, built-in cement, mortar, or of concrete; nor shall such walls be deemed to be return or party walls.

4. *Walls Not Built in Horizontal Courses.*—Any wall built of hard and incombustible material, including mass concrete, not laid in horizontal beds or courses, shall be of such thickness as may be approved by the surveyor, but in no case less than one-third greater in thickness than is prescribed in this part by this By-law.

5. *Facing.*—Ashlar facing shall not be less than 4 inches in thickness, and shall be securely anchored or bonded to the backing of brickwork or concrete, as the case may be.

Such facing shall be measured as part of the thickness of the wall, provided it is constructed to bond in not less than half-brick thickness.

6. *Hollow Walls.*—External walls of domestic buildings and the basements of buildings of the warehouse and public building classes shall not be constructed as hollow walls unless the following provisions are complied with:—

- (a) The inner and outer parts of the wall shall be separated by a cavity which shall throughout be of a width not exceeding 2 inches.
- (b) The inner and outer parts of the wall shall be securely tied together with suitable bonding ties of adequate strength, formed of galvanized iron, glazed stoneware, or other approved material. Such ties shall be spaced apart not more than 27 inches horizontally, and every fourth course of brickwork vertically.
- (c) All hollow walls shall be bonded longitudinally by the inlaying of hoop-iron or other approved reinforcing material, one strand to each half brick in thickness of wall, and at least two tiers for each story. The strands shall be laid for the full length of wall, turned up and down at ends and openings, and interlaced at angles.
- (d) The thickness of each part of the wall shall be throughout not less than 4½ inches.
- (e) No hollow wall 11 inches or less in thickness shall be of greater superficial extent than 3 squares in any one story, unless strengthened by a partition wall, fireplace, or projecting pier to the approval of the surveyor.
- (f) The aggregate thickness of the two parts, excluding the width of the cavity, shall throughout be not less than the minimum thickness prescribed for solid walls of the same height and length.

Nothing herein contained shall prevent a cavity of not more than 1 inch across being filled in with materials impervious to moisture, in which case the bonding ties may be omitted, provided no portion of the wall is less than 9 inches thick.

7. *Concrete Blocks.*—Hollow concrete blocks may be used for the construction of walls of buildings not exceeding one story in height, provided that such walls are not required by this By-law to be more than 9 inches in thickness.

The thickness of the concrete at face and back of such blocks shall be not less than two and a half (2½) inches, with a four (4) inch cavity between, and the thickness of the cross ties shall be not less than two (2) inches, for the full height of the block.

Ties shall be spaced not more than fifteen (15) inches apart. Blocks requiring to be built up of special sections shall be rebated, dove-tailed, or tongued together to the approval of the surveyor.

Concrete blocks shall not be used green, and, unless special permission is obtained from the surveyor, no block shall be used within fourteen days from the date it was made.

The blocks shall be bedded and jointed in cement mortar. Joists and beams shall not be let into hollow concrete walls.

8. *Walls Divided into Lengths.*—Walls are to be deemed to be divided into distinct lengths by return walls, which are external walls, party walls, or cross walls of the thickness required under this By-law, and bonded into the walls so deemed to be divided, and the length of every wall is to be measured from the face of one to the face of another of such return walls.

9. *Underpinning.*—The underpinning of walls and chimneys shall be built with brick or stone bedded in cement mortar or in cement concrete to the full thickness and length of the old work, or of an additional thickness if, in the opinion of the surveyor, the increased height of the wall or chimney so requires, and shall rest on solid ground or a solid sub-structure as a foundation, and the whole of the work shall be carried out to the approval of the surveyor.

10. *Thickening Existing Walls.*—No existing wall shall be increased in thickness without the approval of the surveyor having been first obtained. Such thickening shall be carried out in brick or stone work in cement mortar, and shall be properly bonded to the existing work to the approval of the surveyor.

11. *Alteration of Glass.*—If a building is converted into or used as a building of another class than that for which it was originally designed, it shall, when so converted or used, comply with all conditions prescribed for such other class, subject to any modification sanctioned by the surveyor.

12. *Buildings of the Domestic Class.*—External and party walls of buildings of the domestic class shall be of not less thickness than is set out in the following tables A and B:—

13. *Conditions in Respect of Stories Exceeding Certain Height.*—If in any story of a building of the domestic class the thickness of the wall, as determined under this part of this By-law would be less than one-eighteenth part of the height of such story, the thickness of such wall shall be increased to one-eighteenth part of the height of such story, and the thickness of each external and party wall below that story shall be increased to not less than that thickness, but any additional thickness may be confined to piers properly distributed, of which the collective widths amount to one-fourth part of the length of the wall. No increase in thickness of brick walls shall, however, be less than 4½ inches.

14. *Walls Built in Cement Mortar.*—The height of any story may be twenty times the thickness of the walls prescribed for such story if built with cement mortar.

15. *Walls Over 50 feet in Length.*—Walls over 50 feet in length may be constructed of the thickness set out in Table A for walls not exceeding 50 feet, provided the building is constructed with alternate floors and roof of fire-resisting construction. The roof shall be flat, except in the case of spans not exceeding thirty-three (33) feet, when it may have a slope of not more than one part vertical to six parts horizontal.

16. All buildings, excepting public buildings and such buildings as are defined to be of the warehouse class, shall, as respect the thickness of their walls, be subject to the foregoing conditions.

17. *Buildings of the Warehouse Class.*—The external and party walls of buildings of the warehouse class shall be made of not less thickness than the thicknesses set out in Tables C and D.

	8	27, 27, 22½, 22½, 22½, 18, 18, 13½

18. *Single-story Building.*—Walls under 75 feet in length may be constructed 9 inches thick, provided that they are strengthened by piers projecting 4½ inches from the face of the wall and equally spaced, of which the collective widths amount to one-fifth part of the total length of the wall. The height of such walls shall not exceed 12 feet if built with lime mortar, or 13 ft. 6 in. if built with cement mortar.

19. *Walls Under 20 feet in Length.*—The thickness of walls under 20 feet in length may be two-thirds the thickness required for external or party walls, as set out in Tables A and C, but in no case less than 9 inches.

20. *Walls Over 75 feet in Length.*—Walls exceeding 75 feet in length may be built one grade lower than set out in Table D, provided they are strengthened by piers projecting 4½ inches from the face of the wall and equally spaced, of which the collective widths amount to one-fifth of the length of the walls. Walls over 75 feet in length may be constructed of the thickness stated in Table C for walls not exceeding 50 feet, provided the building is constructed with alternate floors and roof of fire-resisting construction.

The roof shall be flat, except in the case of spans not exceeding 33 feet, when it may have a slope of not more than one part vertical to six parts horizontal. Fire-resisting floors shall not be necessary in the case of two-story buildings.

21. *Stories Exceeding a Certain Height.*—If in any story of a building of the warehouse class the thickness of the wall as determined under this part of this By-law would be less than one-sixteenth part of the height of such story, the thickness of such wall shall be increased to one-sixteenth part of the height of the story, and the thickness of each external and party wall below that story shall be increased to not less than that thickness, but any such additional thickness may be confined to piers properly distributed, of which the collective widths amount to one-fifth part of the length of the wall. No increase in thickness of brick walls shall be less than 4½ inches.

22. *Walls Built in Cement Mortar.*—The height of any story built in cement mortar may be eighteen times the thickness prescribed for such story.

23. *Cross Walls.*—The thickness of a cross wall shall be not less than two-thirds of the thickness hereinbefore required for an external or party wall of the same dimensions, and belonging to the same class of buildings, but in no case shall be less than 9 inches, and no wall subdividing a building shall be deemed to be a cross wall unless it is carried up to the plate

level of the topmost story, and unless in each story the aggregate superficial area of all recesses and openings taken together does not exceed one-half of the total superficial area of the wall. If a cross wall is carried on a girder across the ground story, and is supported by piers to the satisfaction of the surveyor, it shall be deemed to be a cross wall in accordance with this By-law. In one-story buildings of the domestic class, cross walls  $4\frac{1}{2}$  inches thick will be permitted, provided the unsupported length of the wall does not exceed 25 feet.

24. *Cross Wall Becoming an External Wall.*—Wherever a cross wall becomes in any part an external wall, the whole of such wall shall be of the thickness required for an external wall of the same height and length and belonging to the same class of building.

25. *Internal Walls and Partitions.*—All internal bearing walls, partition walls, and their foundations shall be constructed to the approval of the surveyor.

26. *Basement Walls.*—Walls in basements shall be of sufficient strength to act as retaining walls where necessary.

27. *Piers.*—No isolated brick or stone pier shall exceed in height eight times its least dimensions if built of lime mortar, and twelve times if built with cement mortar.

28. *Public Buildings Class.*—Public buildings which, in the opinion of the surveyor, correspond in form and structure, either in whole or in part, with the domestic building class, shall be governed to such extent by the provision relating to such class. If, in the opinion of the surveyor, they correspond in form and structure, either in whole or in part, with buildings of the warehouse class, they shall be governed to such extent by the provisions relating to such class.

## PART X.

### 1. DETAILS OF CONSTRUCTION OF BUILDINGS.

Unless where otherwise sanctioned in this By-law, all buildings, erections, and structures shall comply with the following conditions:—

1. No building of the warehouse class shall be more than 350,000 cubic feet in content unless divided, to the approval of the surveyor, by walls of the same thickness as is hereinbefore provided for cross walls, or by floors of fire-resisting construction, in such manner that no division thereof is greater than 350,000 cubic feet in content, and unless an approved sprinkler installation is provided, in which case any division thereof may be increased to 400,000 cubic feet.

2. Staircases and lift wells connecting two or more divisions shall be fire-isolated by brick walls not less than 9 inches thick, or reinforced concrete walls not less than  $4\frac{1}{2}$  inches thick. Doors opening on to same shall be approved iron-cased or tin-clad doors. Borrowed lights may be inserted in the enclosing walls of lifts and staircases when stairs are constructed of fire-resisting materials; such lights shall be double glazed with wire glass or approved glass prisms set in fixed fire-proof frames. No one opening shall exceed 15 square feet in area, or contain less than three panels, each of which shall be of equal area. The total area of openings shall not exceed 20 per centum of the area of well in each story.

3. Buildings of approved fire-resisting construction shall not be limited as regards cubical content.

4. Where additional cubical content is desirable in any building which is to be used for any trade or manufacture, and the Council is satisfied that proper arrangements have been made, or will be made and maintained, as far as is reasonably practicable, for lessening danger from fire, the Council may, by resolution, if it sees fit, give its consent to such building containing additional cubical content.

Such consent shall, however, only remain in force whilst the said building is actually used for the purpose of the trade or manufacture in respect of which the consent was granted.

5. No buildings shall be united without the consent of the Council except where they are wholly in one occupation, but doorways will be allowed in party structures opening on to staircases, landings, or passages, provided they are protected with iron-cased or tin-clad doors; such doors shall be hung so as not to block the egress space of the landings or passages. Buildings shall not be united, if, when so united and considered as one building only, they would not be in conformity with the provisions of this By-law.

6. Buildings shall be deemed to be united when any opening fitted with an approved door is made in any party wall or in the external walls dividing such buildings, or when such buildings are connected so that there is access from one building to the other without passing into the open air, provided that such buildings shall not be deemed to be united when they are only connected by an open gangway.

7. Whenever any buildings that have been united cease to be in one occupation, the owner, or, if the buildings are the property of different owners, then each of such owners shall forthwith notify the surveyor thereof, and shall cause all openings in any party walls or in any external walls (as the case may be) to be built up with brick or stonework not less than the original wall in thickness, and any timber not in conformity with this By-law placed in the walls shall be removed.

8. No opening shall be made in any party wall, divisional wall, or in any external wall dividing buildings of the warehouse class which, if taken together, would exceed in cubical content the dimensions hereinbefore set out, except under the following conditions:—

(a) No single opening shall exceed 60 superficial feet in area, and the combined widths of such opening or openings, if there are more than one, shall not exceed one-half the length of the wall on each floor of the building in which they occur.

(b) Such openings shall have the floor jambs and heads formed of brick, stone, iron, or reinforced concrete, and be closed by approved doors of fire-resisting material fitted to rebated frames without woodwork of any kind or hung to slide.

All such doors, sliding doors, or shutters shall be fitted with bolts or other fastenings capable of being opened from either side, and shall be constructed, fitted, and maintained in an efficient condition in all respects to the approval of the surveyor.

### 2. PARAPET WALLS.

9. Every external wall built within 4 feet of land in other occupation, or within 4 feet of any adjoining building, or of any street, lane, or passage, shall be carried up so as to form a parapet 15 inches at the least above the highest part of the adjoining gutter, except in buildings of the warehouse class, in which case the height shall be not less than 24 inches, but where the external wall finishes as a gable the height of such parapet shall be measured at right angles to the slope of the roof. The thickness of the parapet so carried up shall be not less than 9 inches.

10. No parapet shall exceed, in height, six times its least thickness if built with lime mortar, and eight times if built with cement mortar.

11. Notwithstanding, however, anything hereinbefore contained, the Council may, by resolution, either generally or in any particular case, permit a parapet to be dispensed with, and also in relation to external walls abutting on any street or road of not less than 40 feet in width, allow the eaves of the building to overhang the street, subject to such special conditions as, in its opinion, the circumstances require.

12. Vases, urns, terminal statues, and other similar features shall be fixed to the approval of the surveyor.

13. Every party wall shall be carried up in a building of the warehouse class with a thickness equal to the thickness of such wall in the topmost story, but in no case need it be more than 14 inches in thickness, and in any other building 9 inches in thickness.

The height of such wall above the highest part of the gutter shall, in a building of the warehouse class, be not less than 24 inches, and in any other building not less than 15 inches, measured vertically. In cases where the top of the party wall runs parallel to the slope of the roof, the height shall be measured at right angles to such slope.

14. Every parapet wall, and every party wall, shall be carried up of the thickness aforesaid, above any dormer, lantern light, skylight, or other erection of combustible materials fixed upon the roof or flat of any building within 4 feet from such party wall, and shall extend at least 12 inches higher and wider on each side than such erection.

### 3. RECESSES AND OPENINGS.

15. Recesses and openings may be made in external walls, provided—

(a) That the backs of such recesses are not less than  $8\frac{1}{2}$  inches in thickness;

(b) That the area of such recesses in any story does not exceed one-half the whole area of the wall in the story in which they are made if segmental arch or lintel construction is used, and three-fifths if approved semi-arch or continuous lintel construction is used;

(c) That the aggregate widths of such recesses in any story taken together do not exceed three-quarters of the whole length of the wall of the story in which they are made if segmental arch or lintel construction is used, and four-fifths if approved semi-arch or continuous lintel construction is used;

(d) That the area of openings in any story does not exceed one-half of the whole area of the wall in any story in which they are made if segmental arch construction is used, and three-fifths if approved semi-arch or lintel construction is used. Piers between openings in any wall shall not be less than one-third of the area of such wall in case of segmental-arch construction, or one-fourth in case of semi-arch or continuous lintel construction;

(e) The surveyor may allow the omission of arches and lintels when the recesses are not more than  $4\frac{1}{2}$  inches in depth, and the thickness of the recessed portion of the wall is equal to the thickness required for the next higher story; and he may also allow wider recesses and openings subject to the sectional area being maintained;

(f) No opening shall be made in an external wall abutting on land in other occupation without the consent in writing of the adjoining owner.

## 16. Recesses may be made in party walls, provided—

- (a) That the backs of such recesses are at least 13 inches in thickness;
- (b) That over each recess so formed an arch of at least two rings of brickwork of the full depth of the recess is turned on every story except in the cases of recesses formed for lifts, but where a recess does not exceed 5 inches in depth corbelling in brick or stone may be substituted for the arching;
- (c) That the area of such recesses taken together does not exceed one-half of the whole area of the wall of the story in which they are made;
- (d) That such recesses do not come nearer than  $1\frac{3}{4}$  inches to the inner face of the external wall;
- (e) Openings in party walls shall be subject to the same conditions as apply to openings in external walls as hereinbefore provided.

The word "area," as used in this and the next preceding section, means the area of the vertical face or elevation of the wall opening or recess to which it refers.

17. *Chases*.—No chase shall be made in any external or party wall of a greater width than 14 inches nor more than  $\frac{1}{4}$  inches in depth from the face of the wall, nor so as to leave less than  $\frac{3}{4}$  inches in thickness at the back or opposite side thereof, and no chase shall be made within a distance of 7 feet from any other chase on the same side of the wall, nor within 13 inches from the nearest external wall. No chase shall be made in a wall less than  $1\frac{3}{4}$  inches in thickness.

18. *Projections*.—Every coping, cornice, string course, fascia, window dressing, portico, balconette, bridge connecting buildings, balustrade, and architectural projection or decoration shall be of brick, tile, stone, artificial stone, slate, cement, or other fire-resisting material other than wood.

No projection shall extend beyond the building line at any height less than 10 feet from the level of the public footway.

Every porch, gangway, outside landing, and outside steps shall be of fire-resisting material, and shall in no case project beyond the building line of any street, lane, or right-of-way.

Verandahs and balconies within 4 feet of any adjoining building or ground in other occupation shall be separated therefrom by a brick wall not less than  $\frac{3}{4}$  inches in thickness, or by a wall of reinforced concrete not less than 4 inches in thickness, projecting at least 4 inches beyond the woodwork thereof, unless such verandahs or balconies are constructed throughout of fire-resisting materials.

19. *Cornices, &c.*—Every cornice, balconette, or other projection shall be tiled into the wall of the building and weighted or tied down to the approval of the surveyor.

20. *Projection of Balcony, &c.*—No balcony, balconette, or window shall project over any street or road more than 4 feet in streets exceeding 40 feet in width, nor more than 2 feet in streets 40 feet or less in width, without the special sanction of the Council, given by resolution.

21. *Projection of Cornice*.—No cornice over a shop front shall exceed 12 inches in projection over any public way in streets exceeding 40 feet in width, nor more than 8 inches in streets 40 feet or less in width, unless otherwise sanctioned by the surveyor, in cases where the materials and form of construction are approved by him.

22. *Woodwork of Shop Fronts*.—No shop front shall exceed two stories in height above the level of the footpath in front of the shop. No part of the woodwork of any shop shall be fixed nearer than  $\frac{1}{4}$  inches to the centre of any party wall, or nearer than  $\frac{1}{4}$  inches to the outer face of any external wall, and such wall shall project not less than 1 inch in front of such woodwork. Provided that where the window framing is of metal or of woodwork cased in metal of not less than 22-gauge no projection of the wall will be required.

23. *Oriel Windows*.—Projecting oriel windows or turrets may be constructed, provided that—

- (a) No part of any such projections shall extend more than 3 feet beyond the building line in streets over 40 feet in width, nor more than 2 feet in streets 40 feet or under in width;
- (b) No part of any such projection shall be less than 10 feet above the level of the footway of the street immediately below such projection;
- (c) No part of any such projection (where it overhangs a street or road) shall be nearer than 4 feet to the centre of the nearest party wall, nor to any adjoining building or land not in the same occupation;
- (d) The total width of any such projections taken together shall not exceed three-fifths of the length of the wall of the building on the level of the floor on which such projections are made;
- (e) Every such projection shall be constructed to the approval of the surveyor.

24. *Sets of Chambers*.—Where separate sets of chambers or rooms tenanted by different persons are contained in a building exceeding 3,600 square feet in area, each shall be deemed to be a separate building, and, when considered necessary by the surveyor, they shall be divided accordingly, so far as they adjoin vertically, by party walls, and, so far as they adjoin horizontally, each alternate floor shall be of fire-resisting material.

25. *Damp Course*.—Every wall and every fireplace constructed of brick, stone, or other similar materials (except reinforced concrete construction) shall have a damp-proof course of durable material, impervious to water, laid in a position approved by the surveyor; but such damp-proof course may be stepped vertically upward within the thickness of the wall to a higher level on the outside, but such stepped vertical course shall not exceed 2 ft. 3 in. in height.

26. *Damp Course in Hollow Walls*.—In hollow or cavity walls there shall be two damp-proof courses, the lower one to be the base of the hollow wall, and the upper one in each of the walls enclosing the cavity at the height of the top of the floor joists, or at such other height as is directed by the surveyor.

27. *Damp Course to Parapet Walls*.—Every parapet wall shall be provided with a damp-proof course at the level of the roof or gutter. Such damp-proof courses shall extend for the full length and width of every wall, fireplace, and parapet wall, and shall extend over the bearings of all plates and bearers. Where, owing to changes of level, it is not practicable to lay damp-proof courses on one level plane throughout, the same may be laid on two or more level planes, provided the ends of the different courses overlap and are connected vertically with the same class of material.

28. *Beams, &c.*—Walls over the opening of shop fronts shall be carried on steel girders, rolled-steel joists or beams of reinforced concrete of sufficient strength to carry the super-incumbent loads.

29. *Timber in Party Walls*.—Bond timbers or wood plates shall not be built into any party wall, and the ends of any wooden beams or joists bearing on such walls shall be at least  $\frac{1}{4}$  inches distant from the centre line of the party wall, and not less than  $\frac{1}{4}$  inches laterally from beams or joists on the opposite side of the walls. Where the beams are not within  $\frac{1}{4}$  inches of the centre of the party wall no lateral separation shall be necessary.

The end of any timber not permitted to be placed in or to have a bearing on a party wall may be carried on a corbel or templet tailed into the wall at least  $\frac{1}{4}$  inches, but in no case less than the amount of its projection, or may be otherwise supported to the approval of the surveyor.

30. *Trimmer Joists*.—Every trimmer joist receiving or carrying more than four common joists, and every trimming joist receiving or carrying such trimmer joist at a distance greater than 3 feet from its bearing on the wall, shall be increased  $\frac{1}{2}$  inches in thickness in buildings of the warehouse class, and 1 inch in buildings of the domestic class. Every trimmer joist over 6 feet in length in buildings of the warehouse class, or 7 feet in length in buildings of the domestic class, shall be hung in stirrup irons of a sufficient thickness to carry same.

31. *Flooring*.—Joists shall be covered with flooring boards of the dimensions set out in the Fourth Schedule hereto.

32. *Girders*.—Every girder or beam shall have a bearing in the direction of its length of 4 inches at least at each end upon a sufficient wall, pier of brick, stone or reinforced concrete, or upon an iron story post fixed on a solid foundation, and the surveyor shall have power in his discretion to require that every girder or beam shall be supported by such story posts, iron columns, stanchions or piers of brick, stone, or reinforced concrete or corbels, as may be sufficient to secure the stability of the superstructure. All metal girders, stanchions, or columns supporting a wall, floor, or roof of fire-resisting construction shall be protected from fire to the satisfaction of the surveyor. Provided, however, that the bearing of wood joists on girders supporting a wall may be allowed by the surveyor.

At each end of every metallic girder a space shall be left equal to  $\frac{1}{4}$  inch for every 10 feet, and also for any fractional part of 10 feet of the length of such girder to allow for expansion.

Every girder bearing upon a wall shall be borne by a templet or corbel of stone or iron tailed through at least half the thickness of the wall and of the full breadth of the girder.

33. *Arches and Lintels*.—Openings for doors and windows in all brick or stone buildings shall have good and sufficient external arches of stone, brick, or terra-cotta, well built and keyed, and with good and sufficient abutments, or the openings shall have lintels of stone, iron, steel, or reinforced concrete of sufficient strength, which shall have a bearing at each end of not less than 4 inches on the wall. On the inside of all openings in which lintels are less than the thickness of the wall to be supported there shall be timber lintels with ends cut to camber of circle, and which shall rest at each end not more than 3 inches on any wall, and shall have a suitable internal arch turned over the timber lintels. Or the inside lintels may be of cast-iron, wrought-iron, or steel, and in such cases templates shall not be required at the ends where the lintels rest on the walls, provided the opening does not exceed 8 feet in width. Tie rods shall be used where necessary to secure stability, to the approval of the surveyor.

34. *Fire-resisting Floors*.—Every floor of fire-resisting construction shall be formed of brick, stone, or other incombustible material.

35. *Thickness of Arches of Brick or Stone.*—If an arch of brick or stone is used; it shall be of the following thickness:—

- (a) Span not exceeding 6 feet—4½ inches in thickness.
- (b) Span exceeding 6 feet, but not exceeding 10 feet—9 inches in thickness.
- (c) Span exceeding 10 feet—of such thickness as may be approved by the surveyor.

The centre of such arch shall be higher than the springing at the rate of 1 inch at least for every foot or fractional part of a foot of span.

36. *Arches or Floors of Other Material.*—If an arch or floor of other incombustible material is used, it shall be constructed in such manner as may be approved by the surveyor.

37. *Use of Floor Boards.*—Nothing herein contained shall prevent the use of wood flooring board to cover floors of fire-resisting materials, provided that the space occupied by battens or sleepers to which such boards may be secured is filled solid with concrete to within 2 inches of the underside of such flooring boards.

#### PART XI.

##### MATERIALS.

1. *Surveyor may Object to Materials.*—All materials used in the construction of any building erection, structure, addition, or alteration shall be sound, free from defects, and of good quality; and any materials which, in the opinion of the surveyor, do not comply with this provision, shall be immediately removed by the builder from the site of the building.

2. *Bricks.*—All bricks used in any building shall be whole, sound, hard, and well burnt: Old bricks, when re-used in the construction of any wall, shall be thoroughly cleaned before being so used; but no old bricks, or bricks that have been previously used, shall show on the outer face of any external wall, unless the external face of such wall is to be rendered or plastered in cement mortar. All bricks shall be wetted before being laid.

3. *Sand.*—All sand used for mortar shall be clean, sharp grit, free from saline, vegetable, or other extraneous matter.

4. *Lime Mortar.*—Lime mortar shall be composed of one part hydraulic lime and not more than three parts sand by measure. All lime used for mortar shall be of good quality, freshly burnt, and properly slaked before being mixed with the sand. Cement mortar, gauged one part cement to five parts of sand, may be substituted for lime mortar.

5. *Lime Concrete.*—Concrete for foundations of domestic buildings not exceeding two stories in height may be composed of one part hydraulic lime, not more than two parts sand, and not more than four parts stone, well-burnt brick, or approved clinker of gauge dimensions not more than 2 inches.

6. *Cement Mortar.*—Cement mortar shall be composed of one part of good Portland cement, approved by the surveyor, and not more than four parts of sand. The cement and sand shall be measured and thoroughly mixed together before water is added, and used before initial setting has commenced.

7. *Cement Concrete.*—Cement concrete shall be composed of good Portland cement approved by the surveyor, clean, sharp sand, and broken stone or other approved aggregate, mixed in the following proportions:—

- (a) For foundations and solid walls—one part Portland cement, not more than three parts of sand, and five parts hard stone, hard-burnt brick, or other approved aggregate broken to gauge not exceeding 2 inches.

- (b) For hollow blocks, floors, backing of ashlar, slabs, fire-proofing, and reinforced concrete—one part good Portland cement, not more than three parts sand, and four parts hard stone or other approved aggregate broken to gauge not exceeding 2 inches.

8. *Timber.*—All structural timber work used in any building shall be good, sound material, free from insect pests, rot, sapwood, large and loose knots, shakes, and other imperfections whereby the strength may be impaired, and shall be of such sizes and dimensions and spacings as are set forth in the Fourth Schedule hereto, or, if not so set out, then of such sizes, dimensions and spacings as the surveyor may, in the particular circumstances, direct.

9. No old or second-hand timber, bricks, iron, or other material that has been previously used for any purpose shall be used in the construction of any building, erection, or structure, unless the same has been first inspected and permission for its use granted by the surveyor; and any timber, bricks, iron or other material that is, in the opinion of the surveyor, unsound, defective, or otherwise unsuitable, shall not be used in any building, erection, or structure.

#### PART XII.

##### VENTILATION AND LIGHTING.

Every person who shall erect, construct, or alter any building shall comply with the following requirements in regard to ventilation and lighting:—

1. *Space under Floors.*—Every building having a boarded floor immediately above the surface of the ground shall have a sufficient space, not being in any case less than 6 inches

between the surface of the ground and the underside of every joist, sleeper, or plate on which such floor is laid, provided, however, that the surveyor may sanction a less space in cases where the surface of the ground is covered with tar-paving, asphalt, or concrete to his satisfaction.

2. *Method of Ventilation.*—Such space shall be ventilated by sufficient openings in the external walls, and in all cross or sleeper walls; to permit of a continuous circulation of air passing beneath the whole area of the flooring. The openings in the external walls shall be properly protected by air-bricks or gratings.

3. *Inlet and Outlet Ventilation.*—The interior of every room shall be efficiently ventilated to the satisfaction of the surveyor.

4. *Windows, Dormer Window, and Lantern Light.*—Every dwelling room shall have one or more windows opening directly into the external air or into a conservatory with a total superficies clear of sash frames, free from any obstruction to the light, equal to at least one-tenth of the floor area of the room, and so constructed that a portion equal to at least one-twentieth of such floor area can be opened. Such opening in every case shall extend to at least 7 feet above the floor level; but a room that does not abut on an external wall, or a room constructed wholly or partially in the roof, may be lighted through the roof by a dormer window with a total superficies clear of the sash frames free from any obstruction to the light equal to at least one-twelfth of the floor area of the room, and so constructed that a portion of such window equal to at least one-twenty-fifth of such floor area can be opened, and the opening in each case shall extend to at least 5 feet above the floor level; or, alternatively, such rooms may be lighted by a lantern light or skylight, of which a portion equal to at least one-twenty-fifth of the floor area can be opened.

5. *Exemption.*—The Council may, by resolution, dispense with the requirements of the foregoing provisions, in any particular case, so far as they regulate and/or restrain the erection and construction of buildings, provided the same can be sufficiently lighted, and can also be ventilated by mechanical means to the satisfaction of the surveyor.

6. *Basement Rooms.*—Rooms in basements which are used or intended to be used for any business purpose shall be efficiently lighted, and, where considered necessary by the surveyor, shall be ventilated by mechanical means.

7. *Pavement Lights.*—Pavement lights and gratings to areas extending under footways shall be enclosed by solid walls of masonry, brickwork, or other approved materials, surmounted by a proper stone kerb, and covered with an approved iron grating or fitted with floor lights not exceeding 4 inches square, or less than 2 inch thick, set in metal frames level with the surface of the footway, and secured to the kerbing by being run in with lead, zinc, or other approved material. Prisms set in reinforced concrete may be used, subject to the approval of the surveyor. No such light or area shall extend from the building line under the footway more than 1 ft. 6 in., or be more than 4 feet in length, unless supported by iron or steel joists.

#### PART XIII.

##### CHIMNEYS, FLUES, FIREPLACES, AND HEATING APPARATUS

1. *Foundations, Footings, &c.*—All chimneys shall be built on a foundation of cement concrete, not less than 6 inches in thickness, laid on a solid bottom; and extending 4 inches wider than the chimney breast, and 2 inches wider back and front than the fender walls and hearth, but may be carried on steel or iron girders having a direct bearing upon external party or cross walls to the satisfaction of the surveyor, or on corbels of brick, stone, or other incombustible material, provided the work so corbelled out does not project from the wall more than the thickness of the wall measured immediately below such corbel. Chimneys may be corbelled out 14 inches from walls 9 inches in thickness on corbels of stone or other incombustible material, not less than 10 inches in depth, and of the full width of the jambs.

2. *Damp Courses, &c.*—The space between the concrete foundation and the underside of the hearth on the ground floor shall be filled in solid with concrete, or, where permitted by the surveyor, the superstructure may be carried on trimmer arches, and a damp course of approved materials shall be laid throughout the whole of the brickwork and underneath the hearth between the floor and the surface of the ground.

3. *Arches.*—An arch of brick or stone or a lintel of reinforced concrete of sufficient strength shall be built over the opening of every chimney to support the breast thereof. Every camber arch shall have the abutments tied in by a wrought-iron or steel bar not less than 3 inches in width and ½ inch in thickness, split at both ends, and turned up and down, and built in to the jambs for at least 4½ inches on each side of the opening. Double openings shall have a continuous bar.

4. *Jambs.*—The jambs of every fireplace opening shall be not less than 8½ inches in thickness on each side of such opening.

5. *Chimney Back.*—The back of every fireplace, from the hearth up to a height of 12 inches above the lintel or arch, shall be—if of brickwork, 8½ inches in thickness; or if of reinforced concrete, 6 inches in thickness.

6. *Chimney Breast.*—The breast of every chimney shall be of incombustible material, not less than 4½ inches in thickness.

7. *Hearth or Slab.*—There shall be laid, level with the floor of every story, before the opening of every chimney, a hearth of stone, slate, tiles, or cement at the least 6 inches longer on each side than the width of such opening and at least 14 inches wide in front of the breast thereof. Hearth to open and kitchen fireplaces shall be not less than 18 inches wide.

The hearth, or slab of every chimney shall be bedded wholly on brick, stone, or other incombustible material, and shall, together with such substance, be solid for a thickness of not less than 6 inches beneath the upper surface of such hearth or slab.

On every floor, except the lowest floor, such hearth or slab shall be laid wholly on stone or iron bearers, brick trimmer, or other incombustible materials; but on the ground floor it shall be bedded on the concrete covering the site.

8. *Height of Chimneys.*—The brick or stonework of every chimney (except such as pertain to furnaces of steam boilers or to manufactories) shall be carried up above the roof, flat, or gutter adjoining thereto, measured at the highest point in the line of junction of the chimney with such roof, flat, or gutter, to a height of not less than 3 feet, nor a height greater than 8 feet, unless built and stayed in such manner as may be approved by the surveyor.

The six highest courses of every chimney stack or flue shall be built in cement mortar.

9. *Flashing.*—Every chimney stack or flue at its junction with the roof shall be flashed with 4 lb. lead.

10. *Flues.*—Flues and chimneys having proper soot doors of not less than 40 square inches may be constructed at such angle as may be approved of by the surveyor, but in no other case shall any flue be inclined at a less angle than 45 degrees to the horizon, and every angle shall be properly rounded. The thickness of the upper side of every flue when it has an inclination of less than 45 degrees shall be not less than 8½ inches.

No flue shall be used as a smoke flue which is of a less internal dimensions than 8½ inches by 8½ inches, except in the case of flues to coppers or sculleries, which may be of any dimensions approved by the surveyor.

Every flue shall have such inclination as will obscure the light when looking up it from the fireplace. The inside of every flue, and also the outside where passing through any floor or space enclosed by the roof or behind or against any woodwork, shall be rendered or parge-tted or lined with fire-resisting stoneware. Every chimney or flue shall be carried up in brick or stone work not less than 4½ inches in thickness throughout.

11. *Woodwork Near Flues, &c.*—No soot doors shall be placed closer to any woodwork than 15 inches.

No timber or woodwork shall be placed under any hearth or chimney opening within 6 inches from the upper surface of such hearth.

No timber or woodwork shall be placed within a distance of 2 inches of the face of the brickwork or stonework of any chimney or flue unless the face of such brick or stonework is rendered.

Wooden plugs shall not be driven nearer than 3 inches to the inside of any flue or chimney opening.

12. *Flues in Hotels, &c.*—A flue shall not be adapted to, or used for, any new oven, furnace, steam boiler, or other fire used for any purpose of trade or business, or to or for the range or cooking apparatus of any hotel, restaurant, or eating-house, unless such flue is surrounded with brickwork not less than 8½ inches in thickness, or reinforced concrete 6 inches in thickness from the floor of the story on which such oven, furnace, steam boiler, or other fire is situated, to a height of 12 inches above the roof.

13. *Flue in Party Wall.*—A flue shall not be built in or against any party structure or existing wall unless it is surrounded with good, sound brickwork or other approved material not less than 4½ inches in thickness, properly bonded to the satisfaction of the surveyor.

14. *Ironwork in Flues.*—No iron or steel joists or other ironwork shall be placed in any flue except in so far as the same may be required for insuring stability, or is allowed by or under any other regulation under this division of this part of this By-law.

15. *Cutting into Chimneys, &c.*—A chimney shaft, jamb, breast, or flue shall not be cut into, except for the purpose of repair or doing some one or more of the following things:—

- (a) Setting in, removing, or altering flues, pipes, or funnels for the conveyance of smoke, hot air, or steam.
- (b) Forming openings for soot doors, each opening to be fitted with a closed iron door and frames.
- (c) Making openings for the insertion of ventilating valves, provided such openings are not made nearer than 12 inches to any timber or combustible substance.

16. *Cutting Away in Party Walls.*—No chimney shaft or breast built with or in any party wall shall be cut away unless the surveyor certifies that it can be done without injuriously affecting the stability of any building.

17. *Floor Under Coppers, Ovens, &c.*—Under every oven, copper, steam boiler, or stove heated by other means than gas or electricity, there shall be formed a floor of fire-resisting non-conducting material, not less than 6 inches in thickness, extending 18 inches in front of, and 9 inches on all other sides of, such oven, copper, steam boiler, or stove.

18. *Gas Stoves.*—Where gas stoves are installed in recesses, such recesses shall be not less than 18 inches in depth, and, if built of brickwork, the jambs shall be not less than 8½ inches, and the back 4½ inches in thickness. Such recesses shall be adequately ventilated by means of a stove pipe not less than 3 inches in diameter connected directly with the open air or to some adjoining chimney. It shall, however, not be compulsory to provide such recesses, provided that where such gas stove is placed within 1 foot of any wall (other than a wall of brick or stone) such wall is protected by some approved non-combustible material secured to the wall and extending at least 1 foot on each side and 1 foot above the level of top of the stove, and, if the floor is of wood, a sheet of plain iron, not less than 24-gauge, is interposed between the stove and the floor.

Every gas fire, gas cooking stove, and bath heater shall be provided with a vent pipe not less than 3 inches in diameter, extending at least 12 inches above the roof, and fitted with an approved hood or cowl. All such vent pipes shall be surrounded by a clear air space of 1½ inches.

19. *Floors Above Furnaces, &c.*—The floor or roof over any room or enclosed space in which a furnace is fixed and any floor within 18 inches from the crown of any oven shall be constructed of fire-resisting materials.

20. *Furnace.*—The expression "furnace" shall include any closed fire place, fire box, or fire chamber used for generating steam at a gauge pressure exceeding 15 lb. per square inch (above that of the atmosphere), or hot air, or hot water at a temperature exceeding 250 degrees Fahrenheit, or for smelting or manufacturing purposes.

21. *Setting of Stoves and Grates.*—Every stove and fire grate, other than a self-setting range, shall be set in solid brickwork or concrete, so as to leave no cavities where soot may accumulate, except in such cases as, in the opinion of the surveyor, such construction is impracticable.

22. *Steam Boilers, &c.*—No boiler used for generating steam at a gauge pressure exceeding 15 lb. per square inch shall be set or fixed inside any dwelling-house, nor within a distance of 5 feet from the external wall of any dwelling-house, or from the boundary of land not in the same occupation or ownership. Such distance shall be measured from the external face of such boiler or its setting, whichever is nearer to the said boundary.

23. *Smoke Pipes Against Walls.*—No pipe for conveying smoke or other products of combustion shall be fixed against any building on the face adjoining any street, road, or lane, except by special permission by resolution of the Council.

24. *Distance from Combustible Material.*—No pipe for conveying smoke or other products of combustion shall be fixed nearer than 9 inches to any combustible material.

No pipe for conveying steam or heated air or hot water shall be fixed nearer than 9 inches to any combustible material.

All lagging to pipes for conveying smoke or other products of combustion or steam, heated air, or hot water, shall be of incombustible materials.

25. *Low-pressure Pipes.*—The restrictions imposed with respect to the distance at which pipes conveying steam, hot air, or hot water, and the lagging of such pipes, may be placed from any combustible materials, shall not apply in the case of pipes conveying steam or hot water at a low pressure, nor shall clause 24 hereof apply to vents from gas stoves or bath heaters.

Steam shall be deemed to be at low pressure when its pressure is not greater than 15 lb. per square inch above that of the atmosphere, and hot water and hot air shall be deemed to be at low pressure when its temperature does not exceed 250 degrees Fahrenheit.

26. *Furnace Chimneys.*—Every chimney shaft for the furnace of a steam engine, mill, brewery, distillery, or manufactory shall be constructed in conformity with the following provisions, unless the Council, by resolution, or the surveyor, by writing, expressly permit a variation therefrom:—

(a) *Height.*—Every shaft shall be at least 50 feet in height from the natural surface of the ground at the base of such shaft.

(b) *Brickwork.*—Every shaft shall be carried up throughout in brickwork or masonry and mortar of the best quality, and, if detached, shall be built with a batter from the base to the top of the shaft at the rate of not less than 1½ inches in every 10 feet of height.

(c) *Dimensions.*—If the external dimensions of such stack do not exceed (5) feet, the thickness of the brickwork at the top of the shaft, and for 25 feet below the top, shall be not less than 8½ inches. For chimney shafts of greater dimensions, the thickness shall be not less than 13½ inches, and every chimney shaft shall be increased in thickness at least one-half brick for every additional 25 feet measured downwards.

- (d) *Caps, Cornices, &c.*—Every cap, cornice, pedestal, plinth, string-course, or other variation from plain brickwork or masonry shall be provided as additional to the thickness required under this provision, and every cap shall be constructed and secured, to the approval of the surveyor.
- (e) *Foundations.*—The foundation of every chimney shaft shall in every case be constructed, to the approval of the surveyor, on a concrete or other sufficient foundation.
- (f) *Footings.*—The footings inside and outside the shaft shall spread all round the base, by regular offsets, to a projection equal to the thickness of the enclosing brickwork or masonry at the base of the shaft.
- (g) The width of the base of the shaft, if rectangular, shall be at least one-tenth of the proposed height of the shaft, or, if the same is circular or of any other shape, then one-twelfth of the height, unless otherwise permitted by the surveyor.
- (h) *Fire-brick Lining.*—The lower portion of the shaft, when considered necessary by the surveyor, shall be lined by fire bricks, to such height as he may direct, but such lining shall be additional to, and independent of, the thickness hereinbefore provided, and shall not be bonded thereto.
- (i) *Small Furnaces, Forges, &c.*—Chimney stacks and flues to small steam boilers and forges may be constructed of metal piping, provided they are of such height, and are secured and stayed in such manner as may be directed by the surveyor; but such chimneys or flues shall not be fixed in front of any building in any street or nearer than 18 inches to any combustible material.

Where the Council or the surveyor permits a variation from the foregoing requirements, the conditions of such variation shall be complied with.

#### PART XIV.

##### *Buildings Wholly or Partly of Wood.*

For the purposes of this part, all buildings whereof the framework of the external walls is of wood shall be deemed to be wooden buildings.

Subject to the provisions of this By-law dwelling-houses may be built in wood or partly of wood and partly of other materials in any part of the municipal district, except those parts of the municipal district which are specified in the Third Schedule to this By-law, provided that:—

- Height of Walls.*—The external walls of such buildings shall not exceed in height fifteen (15) feet measured from the floor level to the top of the wall plate, nor be more than one story in height, except that attic rooms may be provided in the roof of such buildings.
- Buildings Shall be Detached.*—Every such building shall be detached, and shall comply with the provisions of Part VI. as to distance from boundaries.
- External Walls.*—External walls of such buildings may be screen walls of brickwork not less than 4½ inches in thickness, or may be covered with weatherboards or other approved class of boarding not less than ¾ inch in thickness; or with rough-cast, asbestos, or cement sheets not less than 5-16ths of an inch in thickness, or other similar material approved by the surveyor.
- Roughcast.*—Where stucco or roughcast is by this By-law permitted to be used, either wholly or in part, it shall be applied on galvanized iron lathing of not less than 22 gauge or on properly seasoned wood lathing, the laths to be not less than 1 inch in width by ½ inch in thickness, backed with some waterproof material approved by the surveyor. Such stucco or roughcast shall consist of 3 coats. The first, or scratch, coat to be lime mortar gauged with cement and mixed with sufficient hair to bind same, second coat to be of cement mortar in the proportion of one part Portland cement to three parts sand. Final coat to consist of one part Portland cement, one part lime, and three parts coke, stone, or gravel.
- Sheet Material.*—Where asbestos and cement sheets are by this By-law permitted to be used, they shall be well secured to the framework.
- Joints* shall be battened over, and soakers provided where necessary.
- Brick Screen Wall.*—Where the external walls are by this By-law permitted to be formed as 4½-inch brick screen walls, with an internal lining of panelled hardwood, such external wall shall be securely tied to the internal lining, to the approval of the surveyor.
- Internal Linings.*—The internal lining of all walls and ceilings shall be lath and plaster finished to a hard surface, hardwood panelling, plaster sheets, or asbestos and cement sheets, or other similar material approved by the surveyor. But it shall be in the discretion of the surveyor to permit the use of tongued and grooved boards not less than ¾ inch in thickness, for lining the underside of rafters in skillion roofs, or to form a dado not exceeding 5 feet in height in any room.

8. *Vermin Plates, Skirtings, &c.*—In the construction of all wooden buildings except sheds vermin plates shall be provided, and the flooring shall be close jointed against such plates. In all dwelling rooms, where the walls are finished in lath and plaster, skirting boards not less than 6 inches in height shall be fixed, with a base mould at junction of floor and skirting.

9. *Foundations.*—The framework of all wooden buildings shall rest upon sleeper walls 8½ inches in thickness, or upon piers not less than 8½ inches square of either brickwork or concrete provided with proper footings, or on redgum or jarrah stumps, not less than 4 inches square, spaced to 4 feet centres, sunk to a depth below the natural surface of the ground equal to one-fourth of their length, but in no case less than 18 inches, and resting upon a base of cement-concrete, 8 inches square and 4 inches in thickness, or on brickwork in cement mortar 8½ inches square by 6 inches in thickness, or on a sole plate of redgum or jarrah 9 inches by 6 inches, by 2 inches in thickness, rammed to a solid bearing before stumps are fixed thereon. All stumps projecting more than ¼ feet above the surface of the ground shall be securely braced, to the approval of the surveyor.

10. *Damp-proof Course.*—If the foundation of the building consists of brick or concrete sleeper walls, there shall be provided below the level of all sleepers or plates a course of some approved damp-resisting material, which shall be continuous throughout the whole length of the wall, and where brick or concrete piers are used, a similar course of damp-resisting material shall be provided to every pier. And all sleepers or plates laid on brick or concrete walls or piers shall be of redgum, jarrah, or other approved hardwood.

11. *Churches, &c.*—Buildings to be used as churches, chapels, schools, or for similar purposes may, subject to the approval of the Council, be built in wood, subject to the following conditions:—

That such building is not nearer than 20 feet to the building line of any street or road, and is not nearer to any other building or to the boundaries of land, not in the same possession or occupation than 10 feet, and otherwise complies with all the foregoing provisions as to wooden buildings.

12. *Additions to Wooden Buildings.*—Wooden buildings erected prior to this By-law coming into force may be added to in wood, subject to the conditions and limitations of this By-law.

13. *Sizes and Spacing of Material.*—In the construction of all wooden buildings, or other buildings of the dwelling-house class, the minimum sizes, dimensions, and spacings of timbers shall be as set out in the Fourth Schedule to this By-law.

#### PART XV.

##### REMOVAL AND RE-ERECTION OF WOODEN BUILDINGS.

1. Where any person desires to remove or transport, or cause to be removed or transported, any wooden building, or erection, from any place either within or without the Municipality, to any place within the Municipality, for the purpose of erecting or using such building or erection within the Municipality, he shall give notice of his intention to the Council in writing, 7 days at least before the date of intended removal or transportation, and shall therein set out the following particulars:—

- The situation of building or erection proposed to be removed.
- The situation of the land on which it is proposed to re-erect or place such building or erection.
- The external dimensions and height of such building or erection.
- The purpose for which such building or erection is to be used when re-erected.
- The purpose for which it was being used prior to its removal.

The Council, on receipt of such notice, and on payment of the hereinafter-mentioned fee for inspection, may cause the building or erection to be inspected by its surveyor before removal, in order to ascertain whether the said building or erection is erected or constructed in accordance with the requirements of this By-law, having regard to the place at which it is intended to re-erect or use such building.

2. *Exemption.*—The foregoing requirements shall, however, not apply to temporary offices or sheds used by builders on or about the site of any building being erected, repaired, or altered or used by contractors in carrying out works for any public body or corporation, provided that such offices or sheds are used exclusively for the purpose of such building or works. Such exemption shall, however, only continue during the time occupied in completing such building or work, and, in any case, shall not exceed a period of six months except by special permission of the Council.

3. *Building to Comply with By-law.*—Every building or erection removed or transported into the Municipality from any place outside the Municipality, or from any one place to another within the Municipality, shall, when re-erected, comply with all the provisions of this By-law.

4. *Wooden Buildings Defined.*—For the purpose of this Part, wooden buildings shall be deemed to include every building or erection, the framework of which is of wood, whether covered with timber, iron, or other material.

5. Nothing, however, contained in the preceding clauses of this Part shall prevent the alteration of the position of any building or erection within the boundaries of the land on which the same stands, provided that such building or erection, when so altered, is otherwise in compliance with the provisions of this By-law.

6. *Pulling Down and Removal of Buildings.*—If the surveyor shall certify in writing that any building or erection has been removed into and/or re-erected within the Municipality contrary to any of the provisions of this By-law, or that any removed building or erection has been left in such dilapidated, ruinous, or unsafe condition as to be unsightly or dangerous to the public, the owner of such building or erection, upon receiving from the Council, its town clerk, or its surveyor, a notice in writing requiring him to alter or repair or pull down or remove the said building or erection, shall alter or repair or remove or pull down such building or erection within the time limited by such notice. And if default shall be made in complying with such notice, the Council may, on the expiration of the time therein limited, cause such building or erection to be pulled down or removed, and may sell any of the materials thereof, and apply the proceeds of such sale in reimbursing the costs and expenses of pulling down, removing, and selling such building or erection, and in paying into the municipal fund any fees or penalties due by the owner thereof.

#### PART XVI.

##### RUINOUS OR DANGEROUS BUILDINGS AND STRUCTURES.

1. *Survey and Report.*—When the Council has reason to believe that any building, erection, structure, or hoarding, or any part thereof, is in a ruinous, dilapidated, or dangerous condition, it may require a survey of such building, erection, structure, or hoarding to be made by the surveyor, who shall have power to enter upon any premises for the purpose of making such survey.

If the surveyor reports that such building, erection, structure, or hoarding is in a ruinous, dilapidated, or dangerous condition, the Council may—

- (a) Cause such building, erection, structure, or hoarding to be secured, to the satisfaction of the surveyor.
- (b) Cause an order in writing to be served on the owner of such building, erection, structure, or hoarding, requiring such owner to take down, secure, or repair such building, erection, structure, or hoarding, to the satisfaction of the surveyor forthwith. Or if such owner cannot be traced, or his name and address is not known by the Council, then such order may be affixed to some conspicuous part of such building, erection, structure, or hoarding, which, in the absence of personal service, shall be held to be sufficient legal intimation.
- (c) Provided that in any case where, in the opinion of the surveyor, any building, erection, structure, or hoarding is in such a ruinous or dangerous state that immediate action is necessary for the public safety, the surveyor may cause such building, erection, structure, or hoarding to be shored up, secured, or wholly or partly taken down to his satisfaction, and shall report such action to the Council.

2. If such owner does not begin to take down, repair, or secure such building, erection, structure, or hoarding within three days after the service of such notice, and complete such work as speedily as the nature of the case will admit, the Council may cause all or so much of the building, erection, structure, or hoarding as is in a ruinous, dangerous, or dilapidated condition to be taken down, repaired, or otherwise made secure in such manner as may be requisite, and may, where such building, erection, structure, or hoarding is pulled down, sell the materials thereof, and apply the proceeds in reimbursing the expenses of such pulling down, and/or removal of such materials, and in paying into the municipal fund any fees or penalties due by the owner of such building, erection, structure, or hoarding.

#### PART XVII.

##### 1. STREET VERANDAHS.

*Cantilever Type Verandah.*—Every verandah hereafter built, erected, or constructed, in connexion with any shop or other building, so as to project over the footpath of any street or road within the municipal district, shall be of the cantilever type, and shall conform to the following conditions:—

1. *Height and Dimensions.*—The fascia of the verandah shall finish flush with the kerb line in all cases. The depth of the cantilever and fascia girders shall be not less than 7 inches, nor more than 8 inches for verandahs 12 feet or less in width. The minimum height of the face girder shall be 10 feet above the kerb line, measured from the level of the kerb to the underside of the face girder, and such face girder shall be built in a true horizontal line, but no part of such face girder shall exceed a height of 12 feet above the kerb level.

2. Cantilever girders shall be rolled-steel joists, or other construction approved by the surveyor, securely anchored into the walls of the building, and sufficiently loaded at the inner ends.

3. Purlins may be of oregon, jarrah, or other timber approved by the surveyor.

3. The roof shall have a pitch of  $\frac{1}{4}$ -inch per foot away from the building, and shall be covered with 24-gauge galvanized corrugated iron, secured to purlins with galvanized iron screws, bolts, or clips, and washers at top of corrugations. The iron shall be lapped, two corrugations at sides, and not less than 9 inches at ends of sheets, and shall be riveted every 12 inches along the sides, and at every third corrugation at ends.

4. *Gutters.*—Gutters of 24-gauge galvanized iron or cast-iron of sufficient capacity to efficiently carry off all rain water falling on the roof, shall be provided at the outer edge of the verandah and securely fastened thereto.

5. *Down Pipes.*—Roof water shall be disposed of by means of pipes of the following construction:—

Down pipes shall be of wrought or cast iron, of sufficient capacity to efficiently discharge all rain water falling on the roof, and shall be carried from the gutter on the outer edge of the verandah back to the wall of the building, thence down the wall to the footpath level, and be there connected to 4-inch stoneware drain pipes laid under the footpath to the street channel.

The pipes down the face of the wall of the building shall be set in chases for a height of not less than 9 feet above the level of the footpath, or otherwise set back, so as not to project beyond the face of the building.

6. *Exception.*—Notwithstanding anything contained in clause 3 of this Part, in cases where existing cantilever verandahs have been erected, with the pitch of the roof towards the building, the surveyor shall have power, for the purpose of obtaining uniformity of design, to permit this form of construction to be continued for such further distance as he may deem advisable, in which case the gutter on the outside of the verandah, as provided in clause 4, will be dispensed with, and the following condition shall apply in lieu thereof:—

*Box Gutters.*—Box gutters made of 24-gauge galvanized iron, well lapped, riveted, and soldered at all joints, and supported on metal straps, shall be formed at or near the face of the building. Such gutters shall be of ample capacity to efficiently carry off all rain water falling on the roof, and shall be connected to the street channel with down pipes, as provided in clause 5 of this Part.

7. *Opening in Roof.*—No opening shall be made in the roof of any verandah for the purpose of affording light, unless such opening is properly framed and glazed with wire-rolled plate-glass in single lengths set in approved glazing bars, to the approval of the surveyor.

8. *Metal Ceilings.*—Metal ceilings may be fixed to jarrah or red pine joists and furrings.

9. *Supervision.*—All the works shall be carried out in compliance with the provisions of this Part of the By-law and of any instructions that may be given by the surveyor from time to time, and should the builder erecting any verandah fail to carry out any instructions so given, the surveyor may have such objectionable work removed at the risk and expense of such person.

10. *Exemption.*—In the case of any shop erected prior to the date of this By-law coming into force, the Council may, by resolution, exempt such shop from the provisions of this Part, and permit of the erection of an old-type verandah with posts or supports on the kerb line.

11. *Repairs.*—Nothing, however, herein contained shall be deemed to apply to necessary repairs to any existing verandah of any type, provided such repairs do not involve any structural alteration.

##### 2. HOARDINGS, SIGNBOARDS, ETC.

1. Six days at least before the commencement of the erection or construction of any hoarding or structure that is to be used, or that is adapted to be used, for advertising or other purposes in any part of the municipal district, the builder shall deliver at the surveyor's office notice of his intention to erect or construct such hoarding or structure, together with plans and specifications of such hoarding or structure, setting out full details of the proposed method of construction and the nature and sizes of the materials to be used. He shall also give particulars of the place at which he proposes to erect or construct such hoarding or structure.

2. The Council shall cause its surveyor to examine such plans and specifications, and report to it upon the suitability of the proposed hoarding or structure, having regard to the amenities of the surroundings and the natural beauty of the landscape.

3. No person shall erect, or construct, or alter or add to any such hoarding or structure in any part of the municipal district without having first obtained the consent in writing of the Council to the erection or construction of such hoarding or structure.

4. Every such hoarding or structure to the erection of which the Council has given its consent, shall comply with the following conditions:—

- (a) Such hoarding or structure shall not be erected nearer to the building line of any street or road than a distance equal by measurement to the height of such hoarding from the level of the ground to the top of such hoarding or structure.

- (b) Between the bottom of the closed-in portion of such hoarding or structure and the surface of the ground there shall be left an open space, 3 feet in height, free from all obstruction other than the main supports of such hoarding or structure.
- (c) No such hoarding or structure shall be built over or in the front of any building used as a dwelling-house.

5. *Signboards*.—The foregoing provisions shall not be deemed to apply to any signboard not exceeding 30 square feet in area, nor to signboards attached to the front of any building or over any verandah, provided that the materials to be used and the manner of construction and securing same are submitted to and approved by the surveyor, and his permission for the erection of such signboard is obtained. Such signboards, where attached to the front of any building or over any verandah, shall not exceed 2 ft. 6 in. in depth, and shall in no part be less than 10 feet above the level of the footpath, but no such signboard shall project over or across any footpath unless it forms part of or is attached to a verandah.

6. *Boards under Verandahs*.—Signboards fixed beneath verandah roofs shall not exceed 9 inches in width, and no part thereof shall be less than 9 feet above the level of the footpath immediately beneath it.

7. *Hanging Lamps, &c.*—Hanging lamps, electric lamps, and gas fittings may be erected underneath verandah roofs or attached to the front of any building or over gateways, provided the permission of the surveyor has been first obtained, and he has approved of the material, design, and construction of such fittings. No part of such lamps or fittings shall, however, be less than 8 feet above the level of the footpath immediately beneath it.

8. *Show-cases, Mirrors, &c.*—Show-cases, mirrors, or tiling shall be securely fixed flat against a wall, pier, or pilaster, but in no case shall such show-case, mirror, or tiling project beyond the building line of the street or road.

9. No person shall write, paint, print, stencil, place, or affix any letter, figure, device, poster, sign, or advertisement upon any footpath, street, or road, or upon any building, fence, or other property vested in the Municipality or under the control and management of the Council thereof.

### 3. FENCES, ETC.

1. No person shall erect or cause to be erected any fence abutting on or within 10 feet of any street or road, except subject to the following conditions:—

- (a) *Timber*.—All timber used in posts, rails, plinths, and strutting shall be of redgum, jarrah, or other approved hardwood.
- (b) *Gate and Corner Posts*.—Gate posts and corner posts shall be not less than 5 inches by 5 inches in sectional area, plated and strutted on all four sides, unless otherwise allowed by the surveyor.
- (c) *Intermediate Posts*.—Intermediate posts shall be not less than 5 inches by 3 inches in sectional area, spaced not more than 9 feet apart, and every post shall be plated and strutted on two sides.
- (d) *Sole Plates and Struts*.—Sole plates shall be not less than 4 inches by 2 inches, housed  $\frac{1}{2}$ -inch for post, and not less than 3 feet in length. Struts shall be not less than 3 inches by 2 inches, and not less than 2 feet in length, cut to correct bevells, and securely nailed to posts and plates.
- (e) *Depth in Ground*.—Posts shall be fixed vertical, and shall be sunk below the surface of the ground not less than 2 feet in the case of fences under 5 ft. 6 in. in height, and 2 ft. 6 in. in the case of fences 5 ft. 6 in. or over in height.
- (f) *Rails*.—Rails for paling or corrugated iron fences shall be not less than 3 inches by 2 inches, spaced not less than 2 ft. 6 in. apart centre to centre, except in the case of fences 5 feet or under in height, where the centre rail may be a 3-inch by 1-inch batten. Rails shall be in lengths sufficient to span two panels, and shall break joint on alternate posts.
- (g) *Plinths*.—Where a plinth is used at the bottom of a fence it shall be not less than 6 inches by 1 inch (full), shall be in lengths to span two panels, and be securely nailed to posts and supported on the inner side by a short upright, driven 15 inches into the ground, halved on to the bottom rail and nailed thereto. One such upright shall be provided in the centre of each panel of fencing.
- (h) *Palings*.—Split palings used as a covering shall not be less than  $\frac{3}{4}$  inch in thickness on the back, fixed vertically with a side lap of not less than 1 inch. Sawn palings shall not be less than  $\frac{3}{4}$  inch in thickness, and shall be fixed vertically. The tops of all paling fences shall be cut off to a regular line.
- (i) *Corrugated Iron*.—Where corrugated iron is used as a covering it shall be fixed with the corrugations vertical, be of not less than 26 gauge, and finish to a regular line along the top.

(j) *Special Fences*.—The design and methods of construction of ornamental wire fences, picket fences, brick fences, concrete fences, or other fences of special design, must be approved by the surveyor before being erected.

(k) *Cyclone and Wire Fences*.—The condition as to spacing of posts hereinbefore mentioned shall not, however, apply to cyclone or plain wire fences which may, in the discretion of the surveyor, have the posts spaced at longer intervals, provided that metal or timber droppers are fixed at such intervals as may be directed by the surveyor, and the wires are tightly strained. In this class of fence the gate posts and corner posts must be specially braced.

(l) *Short Lengths*.—The use of short lengths of timber in posts, rails, pickets, or palings will not be permitted.

2. *Gates*.—All gates in boundary fences must be properly framed, braced, and constructed, to the satisfaction of the surveyor, and hung with suitable hinges, but in no case must any gate be so hung as to swing out over any adjoining footpath.

3. *Hoods, &c.*—Hoods, pergolas, and ornamental heads to gateways must not project beyond the building line of the street or road on which they abut.

4. *Dilapidated Fences*.—The owner or occupier of land on which there exists any fence abutting on or within 10 feet of any street or road, that is in a damaged, dilapidated, or dangerous condition, shall, on receiving from the surveyor a written notice to that effect, proceed within the time limited by the surveyor to pull down or repair such fence. If such owner or occupier fails or neglects to pull down such fence within such time, the Council may cause such fence to be pulled down and removed, and may sell the materials thereof and apply the proceeds in or towards reimbursing the expenses of pulling down and removing such fence, and in paying into the municipal fund any fees or penalties due by the owner thereof.

5. *Barbed Wire*.—No person shall erect or affix, or allow to continue upon any building, fence, or land owned or occupied by him, any barbed wire, or other wire with spiked or jagged projections, unless such wire is distant horizontally not less than 12 inches from the building line of the street, road, or right-of-way, or unless such wire is not less than 7 feet vertically above the level of any street, road, or right-of-way.

### 4. RESIDENTIAL FLATS.

No person shall erect or construct, or cause to be erected or constructed, any building, or alter or adapt any existing building to be used or occupied as residential flats, except subject to the following special conditions, in addition to the general provisions of this By-law:—

- (a) The Council may make such inquiries as it deems proper in order to ascertain that such building, erection, alteration, or adaptation will comply with the requirements of this By-law, and no person shall proceed with such erection, construction, alteration or adaptation until the Council has had a reasonable opportunity of making such inquiries, or has consented in writing to the erection or construction or alteration or adaptation of such building or proposed building.
- (b) That such building or erection is built of brick, stone, concrete, or other fire-resisting material approved by the surveyor.
- (c) That the height of such building shall not exceed three stories.
- (d) That the distance of such building from the building line of the street shall be not less than 20 feet, and not less than 8 feet from any other boundary. Such distances shall be measured from the point of the greatest projection of the building (including eaves), and not from the wall.
- (e) That no such building shall be built or erected on any allotment of land having an area less than 8,000 square feet for a two-flat building, and 10,000 square feet for a three-flat building.
- (f) Every suite of rooms shall have on all sides thereof an open space, free to light and air, and no suite of rooms shall be attached on any side thereof to any other suite of rooms separately occupied or intended for separate occupation.
- (g) Every flat or suite of rooms shall be in itself a complete dwelling of not less than 1,000 square feet in floor area, and shall be provided with all necessary lavatory, sanitary, and kitchen accommodation as hereinbefore provided in regard to dwelling-houses.
- (h) Every flat or suite of rooms shall be fire isolated from any other part of the building to be used or intended to be used for separate occupation, and every such flat or suite of rooms shall have a separate means of entrance or exit to the open air for the use of the occupants thereof.
- (i) Notwithstanding anything hereinbefore contained, no such building shall be built or erected in any unsewered portion of the Municipality.

## PART XVIII.

## ENFORCEMENT OF BY-LAW AND PENALTIES.

1. *Enforcement of By-law.*—If any person, after the coming into force of this By-law, erects or constructs, adds to or alters, or causes to be erected, constructed, added to or altered, any building, erection, or structure that is erected, or used, or adapted for use, contrary to the provisions of this By-law, the Council may:—

- (a) Give to the owner of such building a notice in writing, under the seal of the Council, requiring the owner, builder or occupier to bring such building, erection or structure into conformity with the provisions of this By-law, or alternatively, requiring the pulling-down or removal of such building, erection or structure within a reasonable time, limited in such notice.
- (b) Should default be made in complying with such notice within the time limited, and notwithstanding the imposition or recovery of any penalty, it shall be lawful for the Council, by its surveyor, to enter upon such building and upon the site thereof, or upon any part thereof, with a sufficient number of workmen, and to demolish and pull down the said building, erection, or structure, and to do any other act that may be necessary for the purpose, and to remove the materials thereof to some convenient place, and to sell the materials and apply the proceeds in reimbursing the expenses of pulling down and removing such building, erection, or structure.
- (c) All expenses incurred by the Council or its surveyor in doing such acts as are hereby authorized, together with all fees and/or penalties due to the Council by the owners of such building, erection or structure, may be deducted and retained by the Council out of the proceeds of such sale.

2. Should the surveyor find that any material that is being used in the building, erection, or construction of any building, erection, structure, or fence is unsound or defective, or is not adapted for the purpose for which it is being used or is intended to be used, the builder, on being notified by the surveyor to that effect, shall discontinue the use of such material, and shall, if so required by the surveyor, have such material at once removed from the site of the building.

3. *Penalties.*—Any person who is guilty of any wilful act or default contrary to any of the provisions of this By-law shall be liable on conviction to a penalty of not less than Twenty shillings, and not exceeding Twenty pounds, for each and every offence, and in the case of a continuing offence, to a further penalty of not more than Ten pounds for each day on which an offence against the By-law is continued after written notice has been given to the offender by the Council of the commission of the offence, or after a conviction or order of any court (as the case may be).

## PART XIX.

## DISPENSING WITH REQUIREMENTS OF BY-LAW, ETC.

The Council, by resolution, may from time to time, either generally or for any class of cases, or in any particular case, dispense with any of the requirements of this By-law, in so far as they regulate and/or restrain the erection or construction of buildings.

## FIRST SCHEDULE.

## FEES PAYABLE UNDER THIS BY-LAW.

For the purposes of determining the fees to be paid under this By-law, the following directions shall be followed:—

- (a) The fee for buildings of the domestic class shall be determined by the number of squares contained in the floor areas.
- (b) The fee for buildings of the warehouse class shall be determined by the cubical content thereof, the height being taken to the top of the external walls.
- (c) Public buildings, special buildings, and temporary buildings shall be classed by the surveyor either under the domestic class or the warehouse class, according to their design, and the fee shall be determined accordingly.

## FEES.

## TOWN OF SALE.

## BY-LAW NUMBER 28.

A By-law of the Town of Sale, made under Part VII., Division 1, of the *Local Government Act* 1915, and under Part I. of the *Carriages Act* 1915, and numbered twenty-eight, to regulate traffic, and to provide for parking areas for motor cars and other vehicles.

IN pursuance of the powers conferred by the *Local Government Act* 1915, and of every other Act or power enabling it in that behalf, the Mayor, Councillors, and Burgesses of the Town of Sale doth hereby order as follows:—

1. In this By-law unless the context otherwise requires—

"Town" means the Town of Sale.

"Council" means the Council of the Town of Sale.

"Motor car" means any conveyance propelled by mechanical power, and includes a motor cycle, but does not include a tram or other car running on fixed rails.

"Vehicle" means any conveyance drawn or propelled by human, animal, or mechanical power, and includes a motor car.

"Driver" means any person in charge of a vehicle.

"Footway" includes every footpath, lane, thoroughfare, or other public place within the town habitually used by pedestrians, and not vehicular traffic.

"Street" includes every highway, road, carriageway, lane, thoroughfare, or other public place within the town other than a footway.

"Writing" includes printing, lithography, and other modes of representing or reproducing words in a visible form.

Words importing the masculine gender include females, and words in the singular include the plural, and words in the plural include the singular.

2. The By-law of the Borough of Sale numbered IV. is hereby repealed.

3. It shall be lawful for the Council, by notice in writing under the hand or by the direction of the Mayor, or in his absence of the Town Clerk from time to time as may be convenient or necessary to fix or appoint in any street—

(a) One or more parking areas for motor cars and other vehicles.

(b) One or more public stands for licensed vehicles plying for hire, which said stands may be in addition to or in substitution for all or any of the public stands for licensed vehicles heretofore fixed or appointed by the Council.

4. Any such parking area or public stand whether fixed or appointed under this or any other By-law may be discontinued or abolished at any time by the discontinuance or the removal by the Council of the notice relating thereto.

5. The Council hereby fixes and appoints the following sites as parking areas for motor cars and other vehicles:—

Raymond-street.—Foster to Macarthur streets in the centre of the street.

Cunninghame-street.—Raymond-street to York-street, both sides.

Raymond-street to Desailly-street.—The whole of the south side, and for a distance of three chains eight feet westward on the north side.

All vehicles to be run into the street channels on the slant.

Maqalister-street.—Raymond-street to Desailly-street both sides.

All vehicles to be run into the street channels on the slant.

6. All vehicles not parked within the above areas shall draw up close to the kerb, and shall not remain in such position except for a few minutes only, and then not so as in any way to obstruct the traffic in such streets.

7. The driver of a vehicle upon any street, or the rider of a horse upon any street, shall, except in so far as shall be necessary for the purpose of avoiding a collision, or for other justifiable cause—

(a) Keep the same as near as practicable to the footway on his left or near side.

(b) When meeting a vehicle, tram car, horse, or pedestrian, keep on the left or near side of the street.

(c) When passing by any vehicle, horse, or pedestrian going in the same direction, go on the right or off side of such vehicle, horse, or pedestrian.

(d) Before stopping or turning round in any street, or turning from one street into another, give notice of his intention so to do by holding up his whip or his hand so that the same may be seen by any person immediately following, and (in the case of the driver of a vehicle) upon stopping so place his

vehicle so as to cause as little obstruction as possible to the traffic, and if his stopping prevents the passing of any other vehicle he shall, upon being required so to do by the driver of such other vehicle, or by any member of the Police Force or officer of the Council, remove his vehicle so as to permit such other vehicle to pass, and if his stopping interrupts or delays traffic, he shall remove his vehicle so as to discontinue such interruption or delay.

(e) Before turning to the right or off side from one street into another drive, or ride parallel to the footway upon the left, or near side of the street which he is leaving until he is as near as practicable to the left hand side of the street which he is entering as shown in the subjoined diagram.

(f) When drawing up at any street intersection to await the signal of the police officer or officer of the Council directing the traffic to proceed if desirous of turning to the left into an intersecting street, stand as near as practicable to the kerb.

(g) When approaching an intersection which he intends to cross grant the right of way to a vehicle approaching from his right. Provided that this subsection shall not apply at an intersection where a traffic officer is stationed.

(h) Not stop on any licensed motor car stand fixed or appointed by the Council under this or any other By-law unless (being the driver of a licensed motor car, and such stand being vacant) for the purpose of duly taking up his authorized position thereon.

(i) Not to stop on any licensed cab stand fixed or appointed by the Council under this or any other By-law unless (being the driver of a licensed cab, and such stand being vacant) for the purpose of duly taking up his authorized position thereon.

(j) Not leave such vehicle stationary at the kerb within a distance of thirty feet of an intersection.

(k) Not leave the same unattended except for a few minutes only, and except it is left in such a position as not to obstruct traffic.

(l) Cause the same to be drawn as near as practicable to the footway on his left or near side of the street and parallel thereto, and brought to a stand-still on the approach of and during the passing of any fire engine or other vehicle apparently proceeding in charge of a fireman to the scene of any fire.

(m) When crossing from one side to the other side of such street make the complete turn, so that when stationary at the kerb his vehicle shall be headed in the same direction as the traffic is proceeding as shown in the subjoined diagram.

8. The driver of a vehicle upon any street shall—

(a) When stopping for the purpose of taking up or setting down any passengers do so as near as may be to the footway on his left or near side.

(b) Not drive the same in competition with or to the annoyance of any other person so as to block or immediately and closely precede or follow or intentionally conform to the progress of any other vehicle.

9. Every driver of a motor car or bicycle upon any street shall, within reasonable distance, and before passing any other vehicle, horse, or pedestrian, or when approaching any intersection, give audible and sufficient warning of his approach by sounding a horn, bell, or other instrument.

10. No person shall between sunset and sunrise drive any vehicle upon any street, or permit any vehicle to be upon any street unless a good and serviceable lamp suitable to such vehicle is securely fixed at the right or off side of the front of such vehicle, and is lighted and is so placed that the light therefrom is distinctly visible to persons in front of such vehicle as a white light, and to persons at the rear of such vehicle as a red light. Provided that in any case where a red tail light is used it shall not be necessary that the lights fixed as aforesaid shall be visible from the rear. Provided further that where any part of a vehicle or any load on a vehicle projects more than three feet beyond the rear wheels of such vehicle, a lighted lamp shall be kept attached to the rearward extremity of such part or load respectively in such a position and manner as to show a red light clearly visible to any person approaching such vehicle from the rear or passing such vehicle from the front.

11. No person shall drive any vehicle upon any street, or permit any vehicle to be driven upon any street, unless such vehicle is so constructed as to enable the driver thereof to have a full and uninterrupted view of the street traffic in front of him and abreast of him on each side of such vehicle, and no person while driving any vehicle upon any street shall occupy such a position as will prevent or interfere with his having such full and uninterrupted view as aforesaid.

12. No person shall ride any horse or drive any vehicle along any street in such a manner, or in such order, that more than two horses or vehicles are travelling side by side in the same direction. The foregoing provisions of this section shall not apply to horses or vehicles which form part of a duly authorized parade or procession.

13. Any wilful contravention of the foregoing sections by act or omission shall be an offence against this By-law.

14. Every person who is guilty of an offence against this By-law shall be liable, on conviction, to a penalty not exceeding Ten pounds.

Resolution for passing this By-law agreed to by the Council at a meeting held on the seventh day of June, One thousand nine hundred and twenty-seven, and confirmed at a meeting of the Council held on the fourth day of July, One thousand nine hundred and twenty-seven.

(SEAL) WILLIAM STEVENS, Mayor.  
M. T. CULLINAN, Councillor.  
A. G. HOLT, Town Clerk.

# BY-LAWS. WYCHEPROOF GENERAL HOSPITAL.

N.B.—The following By-laws shall commence from January the 24th, 1927:—

1. All By-laws made prior to the date of the making of these By-laws shall be and are hereby repealed.

## DEFINITION CLAUSE.

2. The word "Governor" means and is equivalent to the word "Contributor" in the Act of Parliament of Victoria, No. 3260.

"Board" means the Board of Management for the time being.

## OBJECT.

3. To afford surgical and medical attention to persons who are not able to pay for private attention, except in cases of accident.

4. Surgical and medical aid may also be afforded to persons able to pay for such aid, at the rate of 6s. per day, or at such other rate as the Board may fix, according to the actual cost of maintenance, attendance, and relief.

5. Should the applications for admission, at any time, be in excess of the accommodation, the poor shall be admitted, in preference to those who are able to pay.

## COMMON SEAL.

5. The common seal of the Corporation shall be kept by the Treasurer, and shall not be affixed to any deed, instrument, or writing, except by order of the Board at a meeting at which five members at least are present at the time of making such order.

## GOVERNORS AND THEIR PRIVILEGES.

6. Any person who was a life governor prior these By-laws shall continue to be such life governor.

7. Any person who has at any time on his or her own behalf contributed not less than £50, or any one whose service to the Hospital has a special merit, may be elected a life governor, irrespective of subscription, on the recommendation of the Board, at any meeting of the Board, by a majority of the members of the Board attending, at a duly convened meeting; notice of motion being given to that effect one month prior to the meeting at which the appointment is made.

8. Any person who has at any time on his or her own behalf contributed not less than £25, shall be entitled to be elected a governor for five years, under the same conditions of recommendation and election by the Board as pertains to life governors.

9. Any person nominated as a contributor or subscriber of not less than £1 per annum by the employees of any corporation, company, society, firm, or club, which at any time has contributed not less than £25 to the institution, out of the moneys of the corporation, company, firm, society, or club, shall be entitled to be elected a governor for one year, under the same conditions and rules by the Board as apply to the election of life governor.

10. Any person nominated as a contributor by the executors or trustees under any will who have allocated not less than £25 to the institution in one donation of any moneys of the testator, shall be entitled to be elected a life governor.

11. In no case shall any person be a life governor, unless he or she shall have made application to the Board for enrolment as such within one year from the date of payment in respect of which he or she is entitled to such a privilege.

12. Any person who at any time within the twelve months next preceding the date of any meeting or election, or any other date, in respect of which the question of his being a contributor arises, has on his or her own behalf contributed to the institution not less than £1 in one donation, or produces evidence to the Board that he or she has contributed to the institution, on his or her own behalf, not less than £1 in donations of a less amount, shall be deemed a subscriber, with the privilege of voting at any general meeting or special meeting of the governors and subscribers.

## Voting Powers of Governors and Subscribers.

13. Life governors, two votes; governors for five years: two votes; governors for one year, one vote; subscribers of not less than £1 per annum, one vote.

14. Every yearly subscription shall be calculated from the date of such payment, but no such yearly payment shall entitle to a vote at a general meeting within three months from the date of such payment.

15. Every firm or partnership subscribing may exercise their privilege through some one member of such firm.

16. No voting by proxy shall be allowed.

## BOARD OF MANAGEMENT.

17. A Board of twenty-four subscribers of not less than £1 shall direct the affairs of the institution, and they shall be elected by the governors and subscribers at the annual meeting. The president, vice-president, and treasurer shall be elected by the governors and subscribers at the annual meeting. The

president of the Wycheproof Shire shall be a vice-president, and shall be entitled to sit on the Board during his term of office. The president, vice-president, and treasurer shall be ex-officio members of all sub-committees.

18. Except as hereinafter provided, all governors of the Hospital shall be capable of being elected, as members of the corporation, or as members of the Board, but no paid, nor any medical officer of the institution shall be capable of being on the Board.

19. No person who shall hold any office or place of profit continuously, the term of service being defined, shall be capable of being a member, or of continuing to be a member of the Board. No person under contract to the Hospital shall be eligible to sit on the Board, or any special committee, during the consideration of his tender.

20. The authority of the Board is final in all matters which come within its purview. It shall direct the collection and distribution of funds, appoint and dismiss all paid officers and servants, frame rules for the conduct of its meetings, and regulations for the internal management of the Hospital (the same being in accord with the By-laws, and not contrary to the general rules), and present a report to the annual meeting (this report must be presented to the Board before the annual meeting for approval); and manage the affairs of the institution generally.

21. Five members shall form a quorum.

22. The members of the Board shall be elected for three years; one-third shall demit office at the annual meeting in each consecutive year, but are eligible for re-election. If any member of the Board has been elected to fill a vacancy occurring during the year, he shall serve for the same time as the appointment which he fills.

23. If any member die or resign, or become insolvent, or compound with his creditors, or be absent from four consecutive meetings of the Board without permission, the other members may declare his office vacant, and temporarily appoint in his place one subscriber until the next annual meeting of the Board, when the one so appointed shall retire according to the provisions of the Act.

## SPECIAL COMMITTEES.

24. The Board may appoint from its members from time to time house and other committees, with full power to perform special duties, not contrary to the Act of incorporation; and may also from time to time alter or discontinue such committees.

25. The House Committee, consisting of two members, shall be elected for a period of three months by and from the Board, and they shall meet not later than the Friday preceding the monthly meeting of the Board.

26. It shall be the duty of the House Committee or one of its members to visit the Hospital at least once a week to inspect the several wards and officers, and to report to the monthly meeting of the Board; also to offer any suggestions as to the necessary repairs, alterations, and improvements of the institution, and give a monthly report to the Board at its monthly meeting.

## FINANCE.

26A. A Finance Committee shall be elected annually by and from the Board. This committee shall be elected at the first meeting of the Board after each annual meeting of the life governors and subscribers. The members to be the president (chairman), treasurer, and three members of the Board: Three to form a quorum.

27. This committee shall meet at least once a month, at each monthly meeting of the Board, and present a report of the financial position of the Hospital. It shall present all accounts for payment, initialed by at least one of its members, passed by the Board, and duly initialed by the chairman then present.

## TREASURER.

28. He shall receive all moneys on behalf of the Hospital as the Board may direct, and deposit same in such bank or banks as the Board may determine, to the credit of the Hospital. He shall pay all accounts after they have been approved by the Board. Payment shall be by cheque on any bank or banks, signed by any two of the following:—The president, vice-president, or chairman of any particular meeting, and countersigned by the secretary.

## THE SECRETARY.

29. The secretary shall attend all meetings, conduct correspondence, place all business before the meeting, keep the minutes, accounts, and records of the Hospital, prepare all reports, and perform clerical and other duties that may be ordered by the Board. He shall convene the annual general meeting of each year as directed by the Act of incorporation; also special meetings of ten duly qualified subscribers of not less than £1 each, the object of such meeting to be stated in the advertisement, and a special written notice to be sent to each member of the Board of such meeting.

**AUDITOR.**

30. The annual general meeting of the governors and subscribers shall elect two competent auditors, not members of the Board, to act for the year. At the end of the year the auditors shall examine the financial report, with all accounts, vouchers, and relative documents, and furnish a report to the annual meeting.

**HONORARY MEDICAL OFFICERS.**

31. The honorary medical officers shall be elected by the Board; they shall be members of the British Medical Association practising within the bounds of the Wycheproof Hospital district.

32. Any of the honorary medical officers who may be available shall, when required, attend at the Hospital and co-operate with the Medical Superintendent at operations, and in the medical care of the patients.

33. The honorary medical officers shall abide by such regulations of the Board for the time being in force concerning any matter which the Board may prescribe.

**MEDICAL SUPERINTENDENT.**

34. The Medical Superintendent shall be a duly qualified medical practitioner, and a member of the British Medical Association, with the right to private practice, appointed at an honorarium fixed in the terms of his appointment, and the amount of the honorarium being fixed by the Board.

35. The Medical Superintendent shall receive tickets for admission, examine the nature of each case, and decide if it is a case for admission, and shall discharge such duties as he considers necessary for the welfare and comfort of the patients.

36. He shall superintend and control all members of the medical and nursing staff. In case of insubordination or neglect of duty, he may suspend the offender, but report promptly to the House Committee, who, after consultation with the president and secretary, may discharge or reinstate the offender.

37. He shall be responsible under the honorary medical officers for the carrying out of such instructions as are given in regard to the treatment of cases, and shall at once report to the honorary medical officer in charge of a case any special circumstances or conditions which may arise, and act to the best of his judgment pending the attendance of the honorary medical officer.

In the absence of a dispenser he shall discharge such duties as would devolve on that officer. He shall have charge and keep account of all surgical instruments, drugs, dressings, and appliances, and be responsible for the economic use of drugs, dressings, and all surgical supplies, to the Board, and keep an inventory, to be the property of the Board.

39. He shall supervise all matters connected with the care of the patients and the sanitary arrangements of the Hospital. He shall be responsible for the cleanliness and good order of the wards and rooms.

40. He shall present to each meeting of the Board, and at any other time when requested, such information concerning the institution and the working thereof as the Board may from time to time decide, and shall advise thereon.

**Trainees.**

41. He shall lecture to the nurses at such times, and regularly in such a way as to serve the best interests of the nurses, and suit the special circumstances of the Hospital as the Board may approve.

**Admission of Patients.**

42. Accident and such cases as may be deemed urgent may be received at any time. No female for purpose of confinement, insane person, or one affected with primary syphilis, or any that may be a menace to the health of other patients, or any person who, in the opinion of the medical superintendent, is unfit to be an in-door patient, shall be received, except with the express permission of the Board, in concurrence with the medical superintendent.

43. If an application to the Hospital be refused, the reasons for refusal shall be indorsed by the medical superintendent on the back of the order presented, and every such case with the indorsement shall be presented at the next subsequent meeting of the Board.

44. The Board shall appoint a sub-committee of three to act in concurrence with the medical superintendent, to decide whether and what amount the patients are able to pay. This committee may also discharge any patient refusing to pay.

45. Cases of accident shall be received without recommendation, being admitted at once, and those suitable for out-door treatment receiving aid as may be necessary; but in other class of cases the aid shall not be continued when the patient may be able to obtain medical treatment at his own expense, except as provided for, in By-law 4.

46. Cases of disease may be admitted on the recommendation of a governor, or when the recommendation of a governor cannot be obtained in writing, a report of the circumstances from the officer in charge of the police, a minister of religion, or the President of the Shire. Life governors may nominate five patients; governors for five years, five patients; governors for one year, two patients; and subscribers of not less than £1, one patient per annum.

47. All patients (when able to do so) shall supply the particulars required on the admission form, and shall sign the declaration thereon.

48. All property found on persons who may die in the Hospital shall be appropriated to defray the expenses for their maintenance and burial; the residue, if any, to be handed over to their legal representatives.

49. In the event of any person being able to pay for surgical or medical treatment being detected in the receipt of the charity of the institution, such persons shall be held accountable for all expenses incurred in his or her behalf, and shall be liable for prosecution under the Hospital and Charities Act.

**VISITORS AND PATIENTS.**

50. Persons wishing to visit patients or to inspect the Hospital shall be admitted subject to such regulations as the Board may make, and ministers of religion shall have, subject to the discretion of the medical officer, access to the Hospital at all hours.

Visiting hours are:—Tuesdays, Fridays, Sundays, between the hours of Two p.m. and half past Four p.m. in the afternoon, except persons from a distance or special cases of visitors, who may be admitted at any time by the permission of the medical superintendent, or a member of the Board; but all visitors must retire when requested.

51. Visitors shall not give to, nor leave with patients, medicines, food, liquor of any kind, tobacco, nor any other thing, without the permission of the medical superintendent or matron, nor interfere with a nurse, nor disturb the patients with loud talking or unnecessary noise.

52. Patients are requested not to give any fee, reward, or gratuity to any officer, nurse, or any other person connected with the Hospital. Any one connected with the Hospital who shall receive a fee, reward, or gratuity directly or indirectly, without the permission of the Board, shall be dismissed, and disqualified from holding any office or appointment to the Hospital in the future.

53. A visitor or patient violating any of the rules of the Hospital, or behaving with impropriety, will be compelled to retire, or be dismissed, and will not be admitted at any time, without the special permission of the medical superintendent or the Board.

**REGULATIONS FOR OUT-DOOR PATIENTS.**

54. A written certificate of a governor or subscriber of not less than £1 will be required to be produced by each applicant for relief. Subscribers will be expected to give every care before giving such certificates, that the persons to whom they are given are in really destitute circumstances.

**MEETINGS IN GENERAL.**

55. At all meetings of the governors and subscribers, the president of the Board, or, in his absence, one of the vice-presidents, shall take the chair; but in the absence of all those officers, the meeting shall choose its own chairman. Ten members constitute a quorum.

**Voting.**

56. At all meetings the voting shall be by show of hands, ballot, or division.

57. All questions, other than elections, at meetings of governors and subscribers, shall be decided by show of hands; and if it be demanded by any member, either by a ballot or a division.

58. At all meetings the chairman shall have a deliberative and also a casting vote whenever the numbers are equal.

**Annual Meeting.**

59. In the month of July of each year a meeting of the governors and subscribers shall be held for the reception and adoption of the balance-sheet, and for the transaction of any other business of which notice has been given in the advertisement convening the meeting.

60. At all meetings of the governors and subscribers ten shall constitute a quorum; but if no quorum be present within half an hour of the time named, such meeting shall stand adjourned to the following week at the same day and hour.

61. Every meeting of governors and subscribers shall be called by advertisement in a newspaper or newspapers published within the Hospital district, at least fourteen days before the date of meeting.

**Meetings of the Board.**

62. The Board shall meet for general business at such time and place as the Board may by resolution decide, and for special business at such time and place as may be requisite.

63. Five members at any meeting shall form a quorum. In the absence of the president or a vice-president, the meeting shall elect a chairman, who, as a member of the Board, shall have his own vote and the casting vote.

64. The Board shall commence business as soon after there is a sufficient number of members present to form a quorum; but if at the end of twenty minutes from the time specified there is not a quorum present, the meeting shall stand adjourned to such a day as the members then present may direct, not more than fourteen days from the date of the meeting adjourned.

65. No business shall be entered upon until the minutes of the previous meeting have been confirmed, and no discussion shall be permitted, except as to their accuracy.

66. No proposition to enact or amend a By-law, nor make nor vary any rule shall be entertained unless one month's previous notice has been given and carried at a special meeting of governors and subscribers duly convened.

67. No resolution of the Board shall be varied or rescinded for one month after such resolution has been passed, and then only at a special meeting of the Board, and by an absolute majority of the Board.

#### ADOPTION.

68. Adopted at a special meeting of governors and subscribers of not less than £1 per annum, at a meeting held in the Shire Hall, Wycheproof, on the 24th day of January, 1927.

WILLIAM LOBLEY, President.

### REGULATIONS.

#### INTERNAL MANAGEMENT.

##### *The Matron.*

1. The matron shall reside at the Hospital, and have full control and authority therein, subject to the general control of the doctor. She may, with the approval of the doctor, be absent for several consecutive hours, when duty permits.

2. All orders and instructions of the doctor must be promptly carried out. Information on all matters affecting the welfare of the patients, and any neglect by nurses, must be reported to the doctor, as need determines. The matron shall act herself as head nurse, and be responsible for the cleanliness of the patients.

##### *Patients.*

The matron shall receive patients entitled to be admitted and make arrangements for the proper care of their clothing and effects. The name, age, date of admission, and religion, shall be entered on a card, to be placed at the head of each bed. When requested by a patient, she shall procure the attendance of a clergyman. An account shall be kept of the admission and discharge of patients. The matron shall hold in trust all money and other property belonging to patients, and account for it to the House Committee.

##### *Property.*

In the month of June, in conjunction with the secretary, an inventory of all property in the Hospital, including furniture, bedding, and effects, shall be prepared and presented to the Board of Management.

##### *Provision Register.*

1. The matron shall have charge of all goods belonging to the Hospital, and shall examine everything as to quantity and quality of supplies received, and enter an account, posted regularly in the Provision Register, for the guidance of the House Committee. An account must be given of wine, or spirits, ale or stout, which may be prescribed by the doctor and used for any patient.

2. The matron shall attend to the laundry, the sanitary condition of the wards and other parts of the Hospital premises; proper cooking and serving of food.

##### *Domestic Staff.*

1. Each member of the staff shall perform such duties as may be requested, and shall carry out strictly the instructions of the doctor and matron; also conform with a special set of rules for regular and smooth working, as drawn up by the matron and approved by the Board.

2. Two weeks' holiday in each year may be granted, with the approval of the House Committee, to each member of the staff; but only one member of the staff to be absent at any one time.

##### *The Matron's Leave.*

The Board may, when the needs of the Hospital permit, grant to the matron leave of absence for not more than three weeks in each year, or a longer period, as special consideration may require, on full pay.

### NURSES.

#### *Nursing.*

1. Nurses shall live at the Hospital, nurse the sick, and strictly conform to the instructions of the doctor and matron in the treatment of patients.

2. When not engaged with patients, in the regular hours of duty, the matron may employ the nurses in doing other work for the benefit of the Hospital, but not for her own personal benefit, except in case of sickness.

3. In time of emergency, and in the spirit of the service, the nurses shall assist the matron and the doctor, who have power to make such arrangements as they may think fit to meet the needs of special circumstances.

#### *Nursing Hours.*

4. Nurses certificated, or trainees, shall commence duty at 8 a.m. and continue till 8 p.m. The hours of duty for night nurses shall be from 8 p.m. to 7 a.m. Not more than two nurses can be absent from the Hospital at the same time, nor, if living at the hospital, be away later than 10.30 p.m., unless by the matron's special permission.

5. When changing duty, each relieving nurse must become acquainted with the state, and treatment, of the patients. The retiring nurse must advise the relieving nurse of the state and treatment of the patients during her period of duty.

#### *Daily Leave.*

6. Each nurse shall have three hours each day off duty, and one day per week.

#### *Annual Leave.*

7. Each nurse shall be entitled to two weeks' leave of absence, unless in cases of great emergency, subject to the approval of the doctor and the matron, and with the consent of the Board, on full pay. No two nurses to be absent on leave at the same time.

### TRAINEES.

#### *Terms of Training.*

1. The term shall be for three years, in accordance with the requirements of the Nurses Board of Victoria, for accepted probationers, who must give a personal pledge to remain at the Hospital for the full time. The Board of Management may allow the trainee to withdraw if a satisfactory reason is given.

2. Trainees will be under the authority of the doctor, the matron, and the Board of Management. They will be subject to the By-laws and Rules which regulate nursing duties, and be subject to dismissal by the Board in case of misconduct, or should the doctor or matron consider any one of them inefficient or neglectful of duty.

#### *Nursing.*

3. They shall serve as assistant nurses in such wards of the Hospital as the doctor or matron may direct, and when considered competent shall take night duty.

### PROBATIONERS.

#### *Qualifications.*

1. The Probationer must be eighteen years of age, of sober, truthful, honest, and cheerful character, with the spirit and purpose of one who desires to honour the nursing profession. A doctor's certificate must be furnished by each applicant as to health and physical fitness.

#### *Education.*

2. The standard of education required is: the merit certificate of the State School, the intermediate certificate or school leaving certificate, or their equivalent, as required by the Nurses Board of Victoria. These certificates, or the equivalent, must be attained before the probationer can be received as a trainee.

#### *Duties.*

3. Such duties shall be performed as the doctor and matron may think necessary to prove the aptness and suitability of the applicant to enter the full nursing curriculum. At the end of three months from the date of entry, every accepted probationer shall be required to sign the trainees' agreement with the Hospital Board.

#### *Rules.*

4. The same Rules shall apply during probation as to nurses and trainees on the regular staff in so far as they can be applied, subject to the approval of the doctor and matron.

N.B.—SPECIAL NOTICE.—All members of the nursing staff must exercise a wise reserve in their close, personal relations with the patients and their friends, and strictly forbear to disclose any information acquired in the discharge of their duties.

"Courteous to all."

*In the matter of BEVAN AND EDWARDS PROPRIETARY LIMITED.*

**AT** an Extraordinary Meeting of the above-named company, duly convened and held at No. 117 King-street, Melbourne, on the fifteenth day of June, 1927, the following resolutions were duly passed, and at a subsequent Extraordinary General Meeting of the members of the said company, also duly convened and held at the same place on the first day of July, 1927, the same resolutions were duly confirmed as special resolutions, namely:—

1. That it is desirable to re-construct the company and, accordingly, that the company be wound up voluntarily, and that Philip Bevan, of No. 117 King-street, Melbourne, machinery merchant, be hereby appointed liquidator for the purposes of such winding-up.

2. That the said liquidator be hereby authorized to consent to the registration of the new company, to be named "E. P. Bevan and Son Proprietary Limited," with the memorandum and articles of association which have already been prepared with the privity and approval of the directors of this company.

3. That the draft agreement submitted to this meeting and expressed to be made between this company and its liquidator of the one part, and E. P. Bevan and Son Proprietary Limited of the other part, be hereby approved, and that the said liquidator be hereby authorized pursuant to section 193 of the *Companies Act 1915* to enter into an agreement with such new company (when incorporated) in the terms of the said draft, and to carry the same into effect with such (if any) modifications as they think expedient.

4. That the liquidator be and he is hereby authorized to do any of the things mentioned in section 22 of the *Companies Act 1915*, which a liquidator is authorized to do with the sanction of an extraordinary resolution of the company.

Dated the first day of July, 1927.

A. CAPPER, Secretary.

**NOTE**—Bevan and Edwards Proprietary Limited is in course of reconstruction. In order to carry the reconstruction into effect it is necessary to liquidate the existing company and to form a new company. The new company, which will acquire the whole of the assets (with the exception of the real estate) and liabilities of the present company, has already been incorporated.

Notice of the Resolution is advertised to comply with the *Companies Act 1915*.

## THE "VICTORIA GOVERNMENT GAZETTE."

SUBSCRIPTIONS.—The Subscription, including Postage, is £1 10s. 4d. per annum, or 7s. 7d. per quarter, payable in advance.

Subscriptions are required to commence and terminate with a month.

A lesser period than three months cannot be subscribed for.

Subscribers do not receive the Acts of Parliament with the Gazette.

ADVERTISEMENTS are charged at the rate of EIGHTPENCE per line throughout.

The title (£5 Reward, Dissolution of Partnership, &c.) forms one or more lines, as a heading.

On an average, eleven words make a line, but for the description of a brand consisting of more than one letter, &c., placed perpendicularly, thus B, each additional letter under

the first is charged as a line.

All communications should be addressed to "The Government Printer, Melbourne."

Every signature must likewise be counted as a line.

The final words of a paragraph, though only portion of a line, must be counted as one line.

Signatures (in particular) and proper names must be written very plainly in the text, ONE SIDE ONLY of each slip of paper should be WRITTEN UPON.

ALL DOCUMENTS illegibly written will be returned unpublished, and, where brands occur unprovided for by the ordinary letters of the alphabet, a worded explanatory description must be furnished.

THE GOVERNMENT GAZETTE is published on WEDNESDAY EVENING in each week, and Notices for insertion will be received by the Government Printer at or before TWO p.m. at ordinary rates, and late advertisements between TWO p.m. and FIVE p.m. at double rates, on the day preceding the day of publication.

Single copies of the GOVERNMENT GAZETTE are Sixpence, posted Sevenpence, each.

No GAZETTES prior to January, 1908, in stock.

\* \* ALL PAYMENTS ARE REQUIRED IN ADVANCE. Remittances should be made by postal note, money order, or draft in favour of the Government Printer. Advertisements unaccompanied by a remittance sufficient to cover the cost of insertion will be returned unpublished.
