## PRESENT:

His Excellency the Governor of Victoria.

Mr. Lemmon  
Mr. Disney

Mr. Williams  
Mr. Webber.

HIS Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, and in pursuance of the provisions of section 55 (1) of the *Forests Act* 1915, and section 65 (1) of the *Forests Act* 1918, doth by this Order make the amendment and additions to the *Forests Regulations* 1925, as set out in Schedules "A" and "B" respectively hereunder:—

## SCHEDULE "A."

ALTERATIONS AND ADDITIONS TO REGULATIONS GAZETTED ON  
25TH JANUARY, 1928.

Chapter I., paragraph 2.—The word "conditions" to be deleted, and the word "instructions" to be inserted in lieu thereof.

Chapter IV., paragraph 39.—The whole paragraph to be deleted, and the following new paragraph inserted in lieu thereof:—

"All trains working between stations will be worked on one or other of the following systems:—

- (a) Absolute block.
- (b) Train following.
- (c) Train staff and ticket.
- (d) Pilot guard.
- (e) One engine only.

The Regulations for working of trains on the above systems are printed as Appendices A, B, C, D, and E.

## SCHEDULE "B."

## APPENDIX A TO CHAPTER IV.

(Vide General Rule 39.)

REGULATIONS FOR THE WORKING OF TRAINS ON THE ABSOLUTE BLOCK SYSTEM ON SINGLE LINES OF TRAMWAYS BY MEANS OF TELEPHONES.

## 1. Authority to Proceed—Description, Preparation, and Use of—

(a) A train or engine must not be started from any station, unless the driver has in his possession an authority to proceed (Line Clear Ticket).

(b) When permission to approach has been telephoned from the station in advance, the authority to proceed is a Line Clear Ticket, and it shall, except under special instructions, be in the following form:—

## FORESTS COMMISSION OF VICTORIA.

ERICA TRAMWAY.

Pro. No. T.40.  
Up  
Line Clear. Train No.  
(or) Down  
Date 192 Time hrs. mins.  
From  
To Station-master

Driver of No. Up  
(or) Down.

The line is clear and you are hereby authorized to proceed to

Station-master.

Private Code  
Guard

"Up" tickets to be brown (T.40), "Down" tickets (T.41) white.

(c) Each such ticket shall bear a serial number, which shall be recorded in the "Train Register Book," the numbers for the "Down" direction being clearly distinguished from those for the "Up" direction.

(d) An authority to proceed in any of the forms above must not be filled up or signed before the complete receipt of the permission to approach message (line clear) from the station in advance, for the train for which such authority to proceed is to be used.

(e) No authority to proceed to be issued must be written out, either in full or in part, or signed, before it is required for use.

(f) The time on an authority to proceed is the time when the message giving permission to approach (line clear) is completely given and received on the telephone.

(g) An authority to proceed is not valid unless it concludes with a group of private code letters, which must be written thus:—"Private Code B.W.P.D."

(h) All written matter on authorities to proceed must be entered with the greatest care and distinctly, and must be entered in ink by the station-master. Instructions as to special precautions, speed restrictions, &c., to be observed are to be given to drivers as laid down in rules 4 (a)-(g) of this Appendix. Such instructions must not be written on an authority to proceed.

(i) No alteration or correction of any kind is permissible on an authority to proceed, whether such alteration is initiated or otherwise. In no case must an authority to proceed be issued by a station-master, or accepted by a driver, if it contains any erasure or correction.

(j) No abbreviation must be used for any word in the body of an authority to proceed. Station-masters must always write in full, or stamp the names of the stations from and to, in authority to proceed forms given to guards and drivers.

(k) In all cases the authority to proceed must be signed and dated by the station-master. Without such signature in full, or date, an authority to proceed is incomplete, and must not be accepted as valid.

(l) If a mistake is made in filling in an authority to proceed, such must be cancelled, the word "cancelled" being written in large letters in ink across the form. The cancelled form must be preserved by being folded in. Should a cancelled authority to proceed have been detached, it should be carefully pasted in the book in such a way as not to cover any printed matter and then doubled over.

(m) The driver must satisfy himself that the authority to proceed is properly filled up, that the date and time of receipt are noted thereon, that it applies to his particular train, and to the section which he is about to enter, and that private code letters are entered as laid down in rule (g) above.

(n) If the driver discovers that the authority to proceed is incorrect in any particular, he must not start until the station-master gives a correct authority to proceed.

## 2. Delivery of Authority to Proceed to Driver of Trains.—

(a) The station-master must, in all cases when a train has stopped and is to start from the station, personally hand over the authority to proceed to the guard in charge, who must sign for it and make over the authority to proceed to the driver.

(b) If two engines are coupled together, or if one engine is in front and another in rear of the train, the authority to proceed must be delivered to and carried by the driver of the leading engine.

(c) When a train is crossing another train at a station, and a permission to approach (line clear) has been obtained for the first train, the authority to proceed for the first train must not be filled in by the station-master until he has satisfied himself by actual observation that the second train has arrived complete and is clear of the running road for the first train.

## 3. Disposal of Authority to Proceed by Drivers.—

All authorities to proceed received by a driver must be kept carefully in his possession until the end of the journey, when they must be made over, together with any caution orders he may have received, to the guard in charge of the train for submission to the officer in charge with the guard's journal.

## 4. Caution Orders, Description, Preparation, and Use of.—

(a) Whenever, in consequence of the line being under repairs, or for any other reasons, special precautions, restrictions, or instructions have to be observed by drivers, a caution order in Form T.42 must, in addition to the authority to proceed, be given to the driver at the station immediately preceding the section on which the special precautions, restrictions, or instructions are applicable.

(b) Form T.42 is printed on red paper, and consists of an upper and lower foil, the latter being the caution order to be given to a driver.

(c) Caution orders must be written up in ink, and particular attention must be paid in writing carefully and distinctly the special restrictions or precautions to be observed. Abbreviations in any form are not to be used in writing up caution orders. The form must be filled in to clearly show the definite locality, the restriction or precaution necessary, and the reason for enforcing such precaution.

(d) In no case must a caution order be issued by a station-master, or accepted by a driver, if it contains any erasure or correction. Caution orders which have mistakes must be cancelled and kept in the same manner as a cancelled authority to proceed.

(e) A caution order must be signed by both the driver and the station-master. It must be dated, and the station name written on it. The number of the line clear ticket (authority to proceed) for the train must be entered in the space provided in the form before the caution order is made over to the driver. Drivers must not accept caution orders not complete in these respects.

(f) A caution order must be made over to the driver with the authority to proceed for the train.

(g) Drivers of ballast trains required to work on the lines between stations are to receive a caution order in addition to the line clear ticket (authority to proceed). The special instructions to be followed in each case, and the time the line must be clear, are to be entered in the caution order.

#### 5. Private Code—

(a) Every despatched line clear message (permission to approach) must be allotted a group of letters by the station-master who writes and signs such a message. This group of letters is called a private code.

(b) The private code will form part of the body of the line clear message, and will be despatched as the last word in it. It must be duly recorded as a portion of the received line clear of the station to which the line clear message is despatched, and also entered in the authority to proceed as under:—

“Private Code B.W.P.D.”

(c) A private code allotted to a line clear message subsequently cancelled must not be re-allotted. A fresh private code must be given to each line clear message, whether cancelled or not.

(d) No line clear message must be despatched, and no line clear message must be accepted as valid, unless it terminates with a private code.

(e) Capital letters in block form are to be used in writing the private code in line clear tickets.

(f) The station-master of each station will be provided by the officer in charge with two books containing the private code groups of letters. One book only must be in use at a time. These books, together with all train service books, must be kept in the station-master's personal custody under lock and key. No second person should be allowed to see or have access to the private codes. Private codes must be allotted to the successive despatched line clear messages in the order in which they are printed in the book. Each private code as allotted must be marked off with a line drawn horizontally through it, thus:—

B.W.P.D.

and the number of the train to the line clear for which the private code has been allotted must be entered in the column provided for the purpose, thus—

3 B.W.P.D.

At the close of a day the groups of letters which have been allotted are bracketed together and the date entered, thus—

3 B.W.P.D.	} Date
6 A.M.O.T.	
7 S.A.Q.N.	
G.X.F.C.	

and so on until the book is exhausted.

(g) Each book as exhausted must be sent in a sealed envelope or delivered personally to the officer in charge with an application for a fresh book.

(h) The officer in charge will issue two of these private code books in the first instance to the station-master in charge of the station, as per rule (f), and as one book is used up it will be replaced by another, so that there will be no chance of a station-master being without a book.

#### 6. Responsibility of Station-master as to Despatch of Train Messages—

No one except the station-master on duty is to give or ask for line clear messages.

#### 7. Working Trains during Interruption of Telephone—

(a) In the event of interruption of telephone communication on any section, the procedure to be adopted for working trains is to be as follows:—

(b) All ballast trains, light engines, and trains which are not shown in the working time tables or in any time table specially issued, must be detained until telephone communication is restored.

(c) Under no circumstances must a train leave any station if a train running in the opposite direction is timed to arrive at that station before the departure of such train, unless information has been received that the train running in the opposite direction will be detained and that the line is clear.

(d) The first train to run over the section on which an interruption occurs will open up communication. Before starting this train, the station-master will carefully study the time table to see what trains are running, and will send a memorandum by the guard of the train (or by the driver if the load has been detached and the engine is running light) showing clearly the order in which trains are to run until communication is restored. The station-master who opens up communications will be the controlling authority for all trains to run over that section, and the order of running must not be departed from without his written authority. He will send a memorandum to the adjoining station by the guard or the driver, as the case may be, of each train, authorizing a train to start in the opposite direction, or intimating that a train will follow the one by which the memorandum is sent, and a similar memorandum must be sent by other stations with each train despatched under this arrangement in accordance with the authorized programme.

(e) No train must be started in the same direction as the last train on the section between two stations before ten minutes after the due arrival of the previous train at the station in advance.

(f) Subject to compliance with the provisions of rules (a) to (e) above, trains will be started on permission to proceed without line clear form. Full instructions must be written up on “caution” forms signed by the station-master, and a written acknowledgment obtained from both the driver and guard.

The speed of trains started in accordance with the provisions of rules (a) to (e) above will be the booked speed according to time-table regulations, but subject to any restrictions that may be in force at the time.

#### 8. Working Trains in case of Block on Line caused by Accident or other cause—

(a) When the line is obstructed by an accident or other cause, and it is necessary to work trains to and from the site of the obstruction, a permission to proceed without line clear should be made out on the “caution” form.

(b) The form must be signed by both the driver and guard.

(c) Every permission to proceed without line clear should contain clear instructions as to whether the train for which such is issued is to return at once, or by what time, or is to wait at the place of obstruction for the arrival and return of a following train which may be required to be sent out.

(d) In such cases the second train to leave the station or place of obstruction must not be started until ten minutes after the due arrival of the first train at the place of obstruction or station respectively, according to time allowed for the run, and including allowances for any restrictions in speed in each case.

(e) In no case must a second train be started following another under these rules if the permission to proceed without line clear form of the first train has not been endorsed to the effect that another train will follow.

(Vide General Rule 39.)

#### REGULATIONS FOR THE WORKING OF TRAINS ON THE TRAIN FOLLOWING SYSTEM ON SINGLE LINES OF TRAMWAYS BY MEANS OF TELEPHONES.

(a) When trains are worked on the train following system, they may be despatched from one station to the next, following one another in succession, in the same direction, on the same line, at such intervals of time as may be prescribed until it has been mutually arranged by telephone between station-masters at either end of the section, that such succession is to cease. The interval between trains following one another shall not be less than fifteen minutes.

(b) Trains shall not be worked on the train following system unless the station-master of the station ahead has telephoned his readiness to receive the trains, and has given his assurance that no train will be allowed to leave his station for the station from which the following trains are to be despatched until the latter have all arrived at his station, and until he has received permission to despatch trains in the opposite direction.

(c) When the train following system is adopted, the following conditions must be observed, namely:—

(i) No train shall be allowed to start until the engine-driver has been given a written authority to proceed, and a written acknowledgment thereof has been obtained from him.

(ii) The authority to proceed for the train following shall state the time of the actual departure of the preceding train.

(iii) The engine-driver and guard of each preceding train must have been informed of the fact that a train will follow, and of the probable period which will elapse before the following train will be allowed to start.

(iv) A train shall not be allowed to follow another from a station unless there has elapsed, since the departure of the previous train, an interval of not less than fifteen minutes.

- (v) All the trains shall be timed to run at the same speed, and such speed shall not exceed the timetable speed. That is to say, if the first train to enter the section is timed at 6 miles an hour, the train following shall not exceed the booked speed of the train ahead.
- (vi) The actual time of the departure must at once be intimated by telephone to the station ahead, and the actual time of arrival of each train must be recorded.
- (vii) The number of following trains running at the same time between any two stations shall not be more than one for each three miles of station interval.
- (viii) Authority to proceed for these trains will be issued in duplicate, that issued to the first of the two trains will be endorsed at the top in ink in large block letters "TRAIN FOLLOWING," and that for the second train "TRAIN IN FRONT."

## REGULATIONS FOR THE WORKING OF TRAINS ON THE TRAIN-STAFF AND TICKET SYSTEM.

## 1. Where trains are worked between two stations on the train-staff and ticket system—

- (a) A single train-staff must be kept at one of such stations, and
- (b) No train shall be permitted to start from either of such stations to the other unless the said train-staff is at the station from which the train starts, and has either been handed to or shown to the engine-driver by the station-master when giving such permission.

## 2. Trains may be worked on the train-staff and ticket system only when the line is single, and only between such stations as have been declared by special instructions to be staff stations.

## 3. Trains shall not be allowed to follow one another in the same direction between staff stations unless the engine-driver has been properly warned of the time of departure of the preceding train and of the place at which it will next stop, and either—

- (a) an interval of fifteen minutes has elapsed since the departure of the preceding train, or
- (b) it has been ascertained that the preceding train has arrived at the next station in advance.

## 4. No train shall be started from a station unless the engine-driver has in his possession, to be carried with him on the journey, either the train-staff or a train-staff ticket for the section of the line over which the train is about to travel.

## 5. The train-staff or train-staff ticket shall be delivered to the engine-driver by the station-master, or by some tramway employee appointed in this behalf by special instructions.

## 6. (a) When no other train is intended to follow before the train-staff will be required for a train running in the opposite direction, then, subject to the provisions of sub-rule (3), the train-staff shall be delivered to the engine-driver.

## (b) When other trains are intended to follow before the train-staff can be returned, then, subject to the provisions of sub-rule (3), a train-staff ticket, indicating that the train-staff is following, shall be delivered to the driver of each train except the last, and the train-staff shall be delivered to the driver of the last train.

## (c) When a train is assisted by a second engine in the rear, a train-staff ticket shall be delivered to the driver of the front engine, and the train-staff shall be delivered to the driver of the rear engine: Provided that, if both the engines attached to the train are to travel over the entire length of line to which the train-staff applies, and the train is to be followed by other trains, a train-staff ticket shall be delivered to the driver of each of the engines attached to the first-mentioned train.

## (d) When a train is assisted by a second engine in the front, the train-staff or train-staff ticket, as the case may be, must be delivered to the driver of the leading engine.

## (e) When a ballast train has to stop between stations, the train-staff shall be delivered to the engine-driver.

## (f) The train-staff or a train-staff ticket shall not be delivered to the driver of any train until the train is ready to start.

## (g) The engine-driver shall not accept a train-staff ticket unless he sees the train-staff at the same time in the possession of the person who delivers the ticket to him.

## 7. When the train-staff is delivered to the driver of a train, he shall place it in the position provided for the purpose on the engine.

## 8. When the train-staff has been taken away from a station by the driver of a train, no other train shall be started from that station to follow the first-mentioned train until the staff has been returned to the station.

## 9. (a) Upon the arrival of a train at the station to which the train-staff or a train-staff ticket extends, the engine-driver must immediately give the staff or ticket to the station-master, or to some tramway employee appointed by special instructions to receive it.

## (b) The person to whom any such ticket is so delivered must immediately cancel the same.

## 10. (a) If an engine which carries the train-staff breaks down between two stations, the fireman must take the staff to the staff-station in the direction whence assistance can best be obtained, in order that the staff may be available at the station for delivery to the driver of the assisting train.

## (b) If an engine which carries a train-staff ticket breaks down between two stations, assistance must ordinarily be obtained only from the station at which the train-staff has been left; but if assistance can more readily be obtained from another station in the opposite direction, immediate steps must be taken to have the staff transferred to the other end of the section.

## (c) Whenever an engine has broken down between two stations, the fireman must accompany the assisting engine to the spot.

## 11. Train-staff tickets must be kept in a ticket-box provided for the purpose and fastened by an inside spring, the key to open the box being attached to the staff to which the tickets apply.

## 12. The train-staff, when at a station, must be kept in safe custody.

## 13. (a) Each train-staff must have shown upon it the name of the staff-station at each end of the portion of line to which it applies.

## (b) The train-staffs, train-staff tickets, and boxes for the different portions of the line must be distinguished by different colours.

## (c) "Up" and "Down" train-staff tickets must also have distinguishing marks and be in the prescribed form—T.43 and T.44.

## 15. Suspension of Train-staff and Ticket System and Issue of a Line-Clear Ticket—

(a) When the staff for a section is at the opposite end to that from which a train requires to be despatched, and there are no means of transferring the staff in time to avoid serious detention to such train, the staff and ticket system may be suspended, and the train worked forward by a line-clear ticket; but a line-clear ticket must not be issued unless absolutely necessary, and then only in accordance with the following rules:—

- (i) The station-master at the station requiring to despatch a train by line-clear ticket must communicate by telephone with the station-master in possession of the staff, informing him of the circumstances. The station-masters at the respective stations must then apply to the officer-in-charge of the tramway to suspend the staff and ticket system and to authorize the issue of a line-clear ticket.

- (ii) A line-clear ticket must only be issued by the station-master in possession of the staff for the section, and when issued must only be used by the train for which it is authorized.

- (iii) Upon the arrival of the train at the station in advance, the line-clear ticket must be collected from the driver, and the word "Cancelled" written in ink across it, with a remark as to the time the train arrived. The form must be then signed and dated by the station-master.

- (iv) The station-master issuing a line-clear ticket must remain on duty until the train in possession of it arrives at his station, and he must cancel such line-clear ticket before leaving duty.

4. The pilot-guard must be distinguished by a red badge.
  5. (a) No train shall be started from a station unless the engine-driver sees that it is accompanied by, or that the authority to proceed is given personally by, the pilot-guard wearing the badge prescribed by Rule 4.
  - (b) The pilot-guard must accompany every train: Provided that, when it is necessary to start two or more trains from one end of the line before a train has to be started from the other end, the pilot-guard shall accompany only the last of such trains, and shall personally give the authority to proceed for the preceding trains.
  - (c) When accompanying a train, the pilot-guard must ride on the foot-plate of the engine.
  6. (a) When the pilot-guard does not accompany a train, he shall deliver to the guard in charge (or, if there be no guard in charge, to the engine-driver) a pilot-guard's ticket (on a printed form where such are provided), properly filled up and signed, as the authority to proceed.
  - (b) Every such ticket shall apply only to the single journey to the station named on it.
  - (c) If the train is in charge of a guard, he shall, before the train is started, deliver the ticket to the engine-driver.
  - (d) Immediately on the arrival of the train, the engine-driver shall deliver the ticket to the station-master, who shall at once cancel it.

## APPENDIX E TO CHAPTER IV.

## REGULATIONS FOR THE WORKING OF TRAINS ON THE ONE-ENGINE-ONLY SYSTEM.

1. Where trains are worked on the one-engine-only system, only one engine in steam, or two or more engines coupled together, shall be allowed on the line at one and the same time.
2. (a) If a train becomes disabled and requires assistance or, if an accident occurs which renders it impossible for the engine (or, if two or more engines are coupled together, for either or both of such engines) to proceed, the guard in charge of the train must instruct the engine-driver to keep the engine stationary until his return, and must then proceed to the station from which assistance can best be obtained, and must inform the station-master thereof of the circumstances.
- (b) Such station-master may then allow another engine to enter the line.
- (c) Such other engine must be accompanied by the guard in charge of the disabled train, who must explain to the engine-driver where, and under what circumstances, the disabled train is situated.
- (d) Such guard shall be responsible for the safe and proper working of the line until each engine has left it and it is again clear.
- (e) If there be no guard in charge of the disabled train the fireman, or, if necessary, the engine-driver, must perform the duties imposed by this rule on the guard.

(2) The candidate opposite whose name the figure 1 is so placed shall be deemed to be the candidate to whom the elector gives his vote for the purpose of the election.

*Marking of Ballot-paper where only Two Candidates.*

293. Notwithstanding anything contained in this Division, at any election where there are only two candidates—

(2) Except as otherwise expressly provided a ballot-paper shall not be rejected for any reason other than the reasons enumerated in this section but shall be given effect to according to the elector's intention so far as his intention is clear.

(5) The candidate who has received the greatest number of first preference votes shall if such number constitutes an absolute majority of votes (including the casting vote of the returning officer if necessary) be declared by the returning officer duly elected.

*Counting of Votes by Returning Officer.*

(6) If no candidate has an absolute majority of votes the returning officer shall upon receipt of the several sealed parcels from the deputy returning officers declare the candidate who has obtained the fewest first preference votes to be a defeated candidate, and with the assistance of such officers as he deems necessary shall (notwithstanding anything contained in the Act) in the presence and subject to the inspection of such of the scrutineers as choose to be present and the poll clerk (if any) but of no other persons then—

(7) After such distribution the number of votes given to each non-defeated candidate shall again be ascertained.

(8) If no candidate then has an absolute majority of votes the process of declaring the candidate who has the fewest votes to be defeated and distributing his ballot-papers amongst the non-defeated candidates next in order of the voters' preference shall be repeated and the votes recounted after every such redistribution until one candidate has obtained an absolute majority of votes, and such candidate shall then be declared duly elected.

*Casting Vote for Exclusion during Progress of Count.*

(9) If on any count two or more candidates have an equal number of votes and one of them has to be declared defeated the returning officer shall decide which is to be declared defeated.

*Adjournment of Count of Votes to be Announced.*

(10) If on the polling day the count of the votes by the returning officer cannot be completed he shall adjourn such count and inform the scrutineers and the officers appointed to assist him at such count as regards the time and place when and where such count will be continued and conducted by him.

(11) The count of the votes may from time to time be adjourned as the returning officer may deem necessary until it has been duly completed; and each adjournment shall be announced by the returning officer to the scrutineers and the officers assisting him.

*Before Adjournment Ballot-papers, &c., to be Sealed in Ballot-boxes.*

(12) Before every adjournment of the count of the votes—

The moneys paid to the returning officer by or on behalf of the candidates shall be dealt with in manner provided by section 154 of the *Local Government Act 1915* as altered as if in the said section for the word "votes" wherever occurring there were substituted the words "first preference votes."
