4. The foregoing rates are hereby made payable in advance, in one amount on 1st January, 1929.

5. For water supplied for domestic or other than domestic purposes by the Trust by measure the charge shall (except where otherwise agreed by the Trust, and save as hereinafter provided in the By-law) be One shilling and sixpence per 1,000 gallons up to such quantity as would be equal to the amount of the assessed rate payable in respect of the premises so supplied; and for all water consumed in excess of such quantity a charge of Two shillings per 1,000 gallons shall be made.

6. The charge for private water troughs shall be Twenty shillings per annum (to include water rate payable when the value of the property on which such trough is situated does not exceed £10). When such rate exceeds Ten pounds there shall be no charge additional to the rate assessed on the property, except where, in the opinion of the Trust, a meter is necessary or advisable, in which case the consumer shall be charged and must pay at the rate charged for water supplied by measure. The minimum charge shall be Twenty shillings.

Any persons offending against the provisions thereof shall be liable to a penalty not exceeding £5 for such offence. All charges shall be additional to all rates or other charges payable by the owner or occupier of the premises upon which the building is being erected, and shall in the first instance be payable by the builder or contractor, and if unpaid by the builder or contractor shall be charged to and paid by the owner of the premises whereon such building is being erected; but such charge to the owner shall not prejudice the right of the Trust to proceed at its option against either the builder or the contractor, or the owner or occupier for the amount payable.

10. The occupier of two or more tenements liable to be rated, one of which is supplied with water by measure, shall be entitled on the payment of the rates on such tenements respectively, to use without further charge such a quantity of water by meter as shall not exceed at the current charge for water supplied for domestic purposes by measure the amount of such rates, provided that the tenement or tenements, if not supplied by measure shall not be connected with the pipes of the Trust. 12. The minimum quantity of water to be charged for half-yearly in each case where water is supplied by measure other than domesticated purposes shall (except where otherwise provided or implied in this By-law) be 10,000 gallons, and such water shall (where it is not otherwise provided herein in this By-law or otherwise specially agreed by the Trust) be charged at the rate of Two shillings per 1,000 gallons.

13. Supplies of water for purposes not specified herein are to be paid for at such charges as the Trust shall in each case determine, and the preliminary payments appointed by the Trust on account of such charge shall be made at the office of the Trust before a supply shall be taken or used.

14. When water is supplied for use on any land exceeding five acres in area, such water will be supplied by measure only, and the owner or occupier of such land must provide a meter.

15. The service pipes from the main, being the property of the owners or occupiers of the tenements supplied for such service pipes, the owner or occupier shall, in every instance in which damage is caused by reason of such service pipe being leaky or otherwise out of repair or broken, be guilty of an offence. If any person neglect to repair any such service-pipe conveying water from the pipes of the Trust into the premises of such person after having received notice from the proper officer of the Trust that such service-pipe requires repairing, the Trust may stop the water flowing into the premises either by cutting off the service-pipe or otherwise, as the Trust may see fit, until the necessary repairs have been effected.
