COUNTRY ROADS BOARD.

By-law No. 2, made under section 61 of the *Country Roads Act* 1915 (No. 2635), as amended by section 3 of the *Country Roads Act* 1927 (No. 3568), for Regulating the Exhibition of Advertisements and the Erection of Hoardings on or in the vicinity of State Highways, and for other purposes.

THE Country Roads Board (hereinafter called "The Board"), in pursuance and in exercise of the powers conferred by the said Country Roads Acts (Nos. 2635 and 3568), doth hereby make the By-law following:—

1. This By-law may be cited as the "Hoardings and Advertisements By-law 1927," and shall come into operation upon the date of publication thereof in the *Government Gazette*.

2. "The Board" in this By-law means the Country Roads Board.

3. No person shall, without the consent, in writing, of the Board, erect or construct, or cause to be erected or constructed, on or in the vicinity of any State highway, any hoarding for the exhibition thereon of advertisements of any description, or attach, fix to, or paint any advertisement on any building, fence, rock, cliff, tree, or elsewhere on or in the vicinity of any such highway.

4. The Board may, in its absolute discretion, refuse its consent to the exhibition of advertisements in such places and in such manner and by such means on or in the vicinity of any State highway as in the opinion of the said Board will be an obstruction to the vision of persons using any such highway, or will affect or be likely to affect injuriously the amenities of a public park or pleasure promenade, or to disfigure the natural beauty of a landscape.

5. If the Board is satisfied that any hoarding, whether constructed before or after the passing of this By-law, on or in the vicinity of any State highway is objectionable or unsightly, or is an obstruction to the vision of persons using such highway, or is in such a state of disrepair as to be dangerous to the public, it may by order direct the removal thereof, or the making of such alteration thereof as to the Board seems necessary. A copy of such order may be served upon the owner of the hoarding, and on the owner for the time being of the land on which the same is erected, either personally or by affixing the same to some conspicuous part of such hoarding.

6. If within the time prescribed in the said order the hoarding has not been removed or altered as directed, the Board may, by its agent duly authorized in writing, enter on the land on which such hoarding stands, and pull down and remove, or cause the same to be pulled down and removed, and sell the materials and apply the proceeds in reimbursing the expenses of pulling down and removing such hoarding, and in paying into the Country Roads Board Fund any fee or penalties due by the owner thereof.

7. The Board may also, by its agent authorized as aforesaid, abolish, obliterate, or remove any advertisement attached, fixed to, or printed upon the road surface of any State highway, or upon any hoarding, building, fence, rock, cliff, tree, or elsewhere on or in the vicinity of any such highway, if in its opinion such advertisement is unsightly, objectionable, or otherwise undesirable.

8. Any person who contravenes any of the provisions of this By-law shall be guilty of an offence, and for every such offence shall be liable to a penalty of not more than Twenty pounds.

The foregoing By-law was made by the Country Roads Board, and the common seal of the said Board was hereunto affixed the twenty-seventh day of February, One thousand nine hundred and twenty-eight, in the presence of—

(SEAL) W. McCORMACK, Member.
F. W. FRICKE, Member.

3 inches to the point of commencement, and coloured red on the plan attached to Correspondence No. 27/1362 deposited in the office of the Public Works Department, Melbourne, is situated within the municipal district of the City of South Melbourne, and was proclaimed a public highway by the Governor in Council on 12th August, 1912, and such proclamation was published in the *Government Gazette* of 28th August, 1912.

And whereas it is alleged that the said right-of-way is no longer required for public traffic, and the question whether the said right-of-way is or is not required for public traffic has been referred to the Council of the said City of South Melbourne and to the Honorable John Percy Jones in his capacity as the responsible Minister of the Crown for the time being administering section 504 of the *Local Government Act* 1915.

Now therefore the said Council and the said John Percy Jones, as such Minister as aforesaid, having taken the said question into their consideration, do, under the powers vested in them by this present instrument under the common seal of the City of South Melbourne, and the hand and seal of the said John Percy Jones, as such member as aforesaid, hereby decide that the said right-of-way is not required for public traffic.

Dated the twenty-fourth day of February, in the year of our Lord One thousand nine hundred and twenty-eight.

The common seal of the City of South Melbourne was hereunder affixed in the presence of—

(SEAL) R. WILLIAMS, Mayor.
E. C. CROCKFORD, Town Clerk.

Signed, sealed, and delivered by the said John Percy Jones, in the presence of A. H. MERRIN, Secretary for Public Works.

Local Government Act 1915.

PROPOSED SEVERANCE OF AREA FROM THE SHIRE OF MILDURA AND CONSTITUTION OF A NEW MUNICIPALITY.

IN pursuance of the provisions of the *Local Government Act* 1915 (No. 2686), section 46, the substance and prayer of a petition in accordance with the said Act, which has been presented to His Excellency the Governor in Council, are published, viz.:—

The petitioners purport to constitute a majority of ratepayers in the portion of the Shire of Mildura described in their petition, and they desire that the area so described may be severed from the Shire of Mildura and constituted a new municipality, under the name and title of the Shire of Merbein.

AREA DESCRIBED IN PETITION.

Commencing at a point on the River Murray in a line with the centre of Fourteenth-street; thence south-easterly by the said street to its intersection with Deakin-avenue; thence south-westerly and southerly by the said avenue and a line in continuance thereof to the boundary of the Parish of Gingham; thence westerly to the meridian line; thence southerly along the meridian line to the south boundary of the shire; thence following the shire boundary westerly, northerly, and easterly to the commencing point.

The petitioners state that this area is too large to admit of efficient representation on the Council of the Shire of Mildura. The Lake Riding of the Shire of Mildura embraces the Town of Merbein and the whole of the Merbein Irrigation Settlement and farm lands adjacent thereto, and also a considerable portion of the new farming settlement around the Werrimull-Red Cliffs railway line, and in which are situate the new Townships of Merrimée, Werrimull, and Meringur, together with other small settlements at each railway station along that line. The area of the Lake Riding proposed to be created the new shire is 1,300 square miles, being approximately 56 miles long by 45 miles broad. The area under wheat is 700,000 acres, and under fruit 9,270 acres. It is claimed by the petitioners that the creation of a new shire by severance of the said riding would be of great benefit to Merbein and its fruit settlement, and also to the new farming district before mentioned, as the ratepayers in such riding are inadequately represented at present. It is further claimed that the present annual valuation in the Lake Riding will considerably increase within the next few years as the new settlement advances, and that not only its resources are ample now to warrant the constitution of the new shire, but that there will be a very considerable advance in such resources in the near future.

The petitioners therefore pray that His Excellency the Governor in Council may be pleased to sever the area above described and constitute it a separate municipality under the name and title of the Shire of Merbein, such municipality to be unsubdivided.

Notices for the petitioners may be served on Hugh Stewart Geddes, Merbein.

Commissioner of Public Works.

No omnibus shall be licensed for public use unless in this respect it meets with the satisfaction of the Board.

(d) *Doors*.—Where an omnibus is provided with only one door, and where such door is situated in the forepart of the vehicle, suitable means other than such door shall be provided in that portion of the body of the omnibus which is situated at the rear of the centre line to allow passengers ready means of exit in case of emergency. Such emergency provision shall be approved by the licensing authority.

Every means of access to or exit from an omnibus shall have an effective width between the handrails of not less than twenty-two (22) inches.

(e) *Seats*.—On every seat a width of at least sixteen (16) inches, measured in a straight line, with a depth of not less than fourteen (14) inches shall be allowed for each passenger and shall be fit and proper and convenient for use. When cross or garden seats are fitted they shall be at least twenty-six (26) inches clear from the inside back of one seat to the back of the seat in front, so that there shall be room for the knees of the passengers. The passage-way between cross seats shall be at least fifteen (15) inches wide. The width between seat backs when seats are placed lengthwise must not be less than fifty-six (56) inches.

(g) *Windows*.—Each omnibus shall be fitted with glass side windows or screens approved by the inspector, one-half of the total number whereof shall be capable of being raised or lowered.

(i) *Lighting*.—Each omnibus shall be suitably lighted to the satisfaction of the licensing authority and a step light provided, so located as to throw light on the steps at each entrance to the motor omnibus.

(j) *Noise and Vibration*.—The mechanism and all parts of the omnibus shall be so constructed that no undue noise or vibration arises from its use. Exhaust silencer "cut-outs" shall not be permitted.

(k) *Fire Extinguishers*.—At least two suitable and approved appliances for extinguishing fire shall be carried in such a position as to be readily available for use, and shall always be effectively maintained to the satisfaction of the licensing authority.

(l) *Fuel Tanks*.—Tanks for petrol or other liquid fuel shall be made of suitable material, properly constructed and of sufficient strength, and shall be so placed that any overflow shall not fall upon wood-work or accumulate where it can be readily ignited. The filling nozzle or inlet for the petrol or other liquid fuel shall be brought to the outside of the body of the omnibus and be properly guarded by gauze or other means to limit the effect of accidental ignition. The petrol supply system shall be provided with a cock with tap readily accessible from the outside to shut off the supply of petrol.

(m) *Fuel*.—No petrol or other liquid fuel shall be placed in the tank while any passengers are in the omnibus.

No petrol or other volatile spirit shall be carried on any omnibus except in the operating tanks provided for the purpose.

(n) *Exhaust Pipes*.—The exhaust pipe shall not be led inside the tray or under-shield, or be fixed in such a position that oil, or any vaporizable or inflammable material is likely to be dropped upon it.

(o) *Wiring*.—All wires carrying electric current shall be properly insulated and protected from injury, and so placed that they cannot be a source of danger.

(p) *Heat*.—Effective means shall be adopted for preventing the heat of the motor, generator, or exhaust pipe connexions from injuriously affecting any parts of the vehicle or the comfort of the passengers.

(q) *Signals*.—Each motor omnibus shall be fitted with an approved means for enabling passengers to signal to the driver or the conductor when required.

(r) *Warning Horns*.—A horn or other means of giving due warning of its approach shall be affixed in a convenient position on every omnibus to the satisfaction of the licensing authority.

(s) *Tires*.—The use of any tires other than rubber tires on omnibuses is prohibited.

Pneumatic tires when used shall be maintained continuously in a safe condition and otherwise to the satisfaction of the Board.

When tires other than pneumatic tires are used they shall be of rubber at least one inch thick on the whole circumference of the wheel and shall at all times be maintained in a good condition and in such a manner as to reduce vibration.

(t) *Brakes*.—Each omnibus shall be fitted with at least two independent brakes, one of which must be operated by a pedal. Each brake shall be capable of easy adjustment and of stopping the vehicle and holding the same under all conditions from forward or rearward motion, and shall be fitted, when considered necessary by the Board, with an approved form of compensating device, so that the braking effect is the same on each road wheel. Brakes shall not be deemed independent which operate by the same connexions upon the same brake blocks, or upon the same brake drums. One at least of such brakes shall act directly upon the road wheels, and remain effective even if the driver quits his seat.

In the case of petrol driven omnibuses, other than those licensed to carry not more than twelve persons, the operation of either brake shall in no case disengage the clutch from the transmission gear.

(u) *Steering Gear*.—No omnibus having the steering apparatus fitted upon its left side shall be licensed. The steering arms, and other connexions thereof, shall be of ample strength, and as far as possible protected from damage by collision. Ball and socket joints of steering connexions shall not be pendent, but the longitudinal or transverse rods shall be carried upon and above the ball. The whole of the brake and steering parts of every omnibus shall be maintained in proper condition, and be subject to inspection and test at any time by the Board or its Inspector.

(v) *Nuts and Bolts*.—All brake and steering connexions secured with bolts or pins must have such bolts threaded and fitted with nuts, which latter shall be locked and pinned. All other parts of any omnibus connected by bolts or studs and nuts which may be subject to severe vibration shall be fastened by lock nuts, castellated nuts, or by nuts and approved spring or lock nut washers to prevent their working loose and causing noise.

(w) *Advertisements*.—No advertising matter of any description shall be permitted to be displayed on the outside of any omnibus, except that indicating the route and destination of such omnibus, and the number of passengers such omnibus is licensed to carry.

14. Every omnibus for which a licence is applied for shall be made available for inspection by the Inspector, who shall examine the same for the purpose of ascertaining its suitability in every particular for use as a country omnibus. If the same is approved by him he shall determine the number of passengers which in his opinion the same may, having regard to its construction, safely and conveniently carry, which number, when so determined, shall be the maximum which it shall be lawful to receive and convey in such omnibus at any one and the same time.

15. The owner of every such omnibus shall cause a notice of the number so determined to be carried in some conspicuous place on the outside of such omnibus as may be directed by the Inspector distinctly and legibly painted in words at length and in letters at least one (1) inch high and of proportionate breadth, in the following form, that is to say—"Licensed to carry" (here insert the number fixed) "passengers inside and" (here insert the number fixed) "passengers outside".

16. The said notice shall also be exhibited on the inside of such omnibus in such place, form, and manner as the Inspector may direct. When such omnibus is constructed to carry passengers in different compartments, then such notice shall specify the number of passengers permitted to be carried in each such compartment and shall at all times during the currency of the omnibus licence be kept conspicuous, legible, and undefaced in such place as shall be directed by the Inspector.

17. If the driver or conductor of any such omnibus shall cause or suffer to be conveyed at any one and the same time by any such omnibus, whether inside or outside or in any compartment thereof, a number of passengers greater than the number determined as aforesaid he shall in respect of each passenger so conveyed over and above the said number be deemed guilty of a separate and distinct offence against the provisions of these regulations.

18. Any country motor omnibus licensed as a stage carriage under Part II. of the *Carriages Act* 1915, or licensed as a municipal stage carriage under the *Local Government Act* 1915, the licence for which was in force immediately before the commencement of these Regulations, may be exempted from the provisions of these Regulations as regards its structural arrangements, only as may be determined by the licensing authority, but such exemption shall be entirely at the discretion of the licensing authority, and shall have effect only until the 31st December, 1928.

19. No person shall act as the driver or conductor of any country motor omnibus unless he has been licensed by the Board for that purpose.

20. Before a licence as a country motor omnibus driver or conductor is granted to any person, or renewed, an application shall be made to the Board in the form contained in the Third Schedule hereto, and signed by the applicant who shall submit therewith the licence issued to him under the provisions of the *Motor Car Act* 1915, and any Act amending the same, and such other certificates as the Board may require, and also evidence to the satisfaction of the Board that he is of good fame and character, and a fit and proper person to be so licensed.

21. Licences of drivers and conductors of country motor omnibuses shall be in the form contained in the Fourth Schedule hereto, and numbered in such order as may be determined by the Board.

For every such licence there shall be paid to the Board the sum of Five shillings (5s.)

- No driver of any licensed omnibus shall entrust or hand over such omnibus to any other person unless he shall have received the directions of the owner thereof to that effect.
- Licences not to be lent &c. 25. - Certain dismissals to be notified. 27. When the services of any licensed driver or conductor are dispensed with by an owner on account of any misconduct punishable under these Regulations, such owner shall forthwith notify the Board in writing of the fact and of the nature of such misconduct.
- Effect of false, &c., statements in applications. 28. If subsequent to the issue of any licence or permit in pursuance of the Act and these Regulations the Board finds that an applicant has made false or misleading statements in his formal application therefor, the Board may forthwith cancel such licence or permit and upon receipt of notice of such cancellation the said licence or permit shall forthwith be delivered up to the Board.

MOTOR CAR ACT 1915 AND HIGHWAYS AND VEHICLES
ACT 1927.

*At the Executive Council Chamber, Melbourne, the
sixth day of March, 1928.*

PRESENT:

His Excellency the Governor of Victoria.

Mr. Tunnecliffe | Mr. Webber.

WHEREAS by section 15 of the *Motor Car Act 1915* (No. 2702) and by section 8 of the *Highways and Vehicles Act 1927* (No. 3575) it is provided that the Governor in Council may make Regulations with respect to any matters therein referred to: Now therefore His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby make the following Regulations, that is to say:—

REGULATIONS.

Interpretation.

"Board" means the Country Roads Board, constituted under the Country Roads Act.

"Device" means a portable mechanical device.

"Highway" means any State highway under the Highways and Vehicles Act, and any other public highway, and any street or road, and any main road or developmental road or any portion thereof.

1. These Regulations may be cited as the "Portable Mechanical Devices Regulations 1927," and shall come into force upon the date of their publication in the *Government Gazette*.

2. No device shall be used for determining under or for the purposes of the Motor Car Act the weight of loads carried on the axles of motor cars or trailers on any highway, unless such device has been submitted to and approved by the Country Roads Board.

3. No such device approved by the Board shall be used unless such device has been tested and sealed by the Engineering Department of the University of Melbourne.

4. Every device shall be tested and sealed by the Engineering Department of the University of Melbourne before being first used, and shall thereafter be re-tested and sealed every six (6) months, provided that if at any time subsequent to such sealing any repairs, alterations, or adjustments to the mechanism of the device are effected the device shall be submitted for re-testing and re-sealing before being again used.

5. In testing any device submitted to it, the Engineering Department of the University of Melbourne may allow a limit of error not exceeding five (5) per centum in excess or deficiency of the load applied.

6. The Engineering Department of the University of Melbourne shall seal all devices tested and approved by it with a seal approved by the Board, and shall attach such seal in a manner approved by the Board.

7. No device which has been sealed shall be used for other than official purposes.

8. Any person who wilfully tampers or interferes with the mechanism of any device or the seal affixed to such device shall be guilty of an offence against these Regulations.

9. When any pair of devices have been tested together the limit of error prescribed under these Regulations shall be calculated upon the sum of the indications of the two devices, and both shall be approved or condemned upon such calculations. The pair shall then be appropriately marked to indicate that they have been tested together, and they shall only be used together until required to be re-tested.

10. Full and accurate records of all devices tested or re-tested and sealed shall be kept by the Engineering Department of the University of Melbourne in a book provided for the purpose, giving the number, type, manufacturer's number, date on which tests have been made, and the results of such tests, together with any other particulars that may be required by the Board.

11. In ascertaining the weight carried on an axle, a device shall be placed under each wheel of such axle, and the sum of the two readings as indicated by the devices shall be taken as the weight carried on such axle. The total weight of the vehicle and the load carried thereon shall be the sum of the weights on all the axles of the vehicle as so determined.

12. Any person who contravenes or fails to comply with any of the provisions of these Regulations shall for every such breach be liable to a penalty of not more than Ten pounds (£10), or, in the case of a second or subsequent conviction, to a penalty of not more than Twenty-five pounds (£25).

13. Pursuant to the provisions of section 8 of the *Highways and Vehicles Act 1927* (No. 3575), the Governor in Council, by these Regulations, confers upon the Country Roads Board, the Council of any municipal district, and the Chief Commissioner of Police full power and authority for the carrying into effect of all of the foregoing Regulations, with power to take proceedings for the recovery of the penalties herein referred to.

And the Honorable John Percy Jones, His Majesty's Commissioner of Public Works for the State of Victoria, shall give the necessary directions herein accordingly.

Schedules as above, with full particulars, may be obtained from the Secretary to the Tender Board, by whom also the samples will be shown and any information afforded to persons tendering.

If the tenderer be in a position to supply a suitable substitute of Commonwealth production or manufacture in place of any sample at the Tender Board Office that may be of imported origin he may tender for such substitute under column A in the schedule, but he must submit with his tender a sample of the article offered.

In all cases the country of origin of the articles tendered for must be stated, and the total cost of each item extended in the columns provided.

Preference will be given by the Tender Board, provided the quality of the articles offered is satisfactory, and the prices are considered reasonable—

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

In the event of tenderers withdrawing their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the proscribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender. It is also stipulated that if a tenderer be a member of a firm and such firm be interested in the contract, then his tender is to be in the name of the firm and not in that of the individual; and that for a breach of this condition the preliminary deposit will be forfeited and the tender declared informal.

Tenders, enclosed in a separate envelope, and having the words "Tender for—" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne; or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Pay Office, Treasury, Melbourne, which offices they must reach by first post on the date of closing of tenders.

TENDERS FOR GRAZING LANDS.

FOR THE PERIOD 1ST APRIL, 1928, TO 30TH SEPTEMBER, 1929, EXCEPT WHERE OTHERWISE STATED.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Crown Lands Office Tender-box before Noon on Saturday, 31st March, 1928.

NOTE.—No tender will be accepted unless the fee for the full period and fee of Five shillings for licence are forwarded.

TENDERS will be received before Noon on Saturday, 31st March, 1928, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 121 of the *Land Act* 1915 shall be subject to the conditions set forth in the Schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 121st section of the *Land Act* 1915, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 123 of the *Land Act* 1915 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognized.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling or other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all noxious weeds on the land, and on the half-width of the adjoining roads, and shall be responsible for the destruction of noxious weeds under the *Vermin and Noxious Weeds Act* 1922 in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. The licensee shall thoroughly and effectively protect the land within the boundaries of his licensed area from fire, and shall extinguish any fire which may break out on such area or may spread to it. In the event of the area being damaged by fire, the licence may be forfeited, unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants, were in any way responsible for such fire.

19. The licensee shall not interfere in any way with any survey marks on the land hereby licensed.

SPECIAL CONDITIONS.

1. The period of occupation, except where otherwise specified, will be for eighteen (18) months from 1st April, 1928, to 30th September, 1929.

2. The fee for the full period—for which the licence will be issued, and the fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name, occupation, and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing owned by him within one month, or to require the incoming tenant to pay for it in accordance with the provisions of section 124, *Land Act* 1915.

This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the incoming tenant will be held responsible for the care and maintenance of any improvements.

Plans can be seen and information may be obtained in this office.

Section 121, *Land Act* 1915, provides—

1. Where a licensee under section 121 of the *Land Act* 1915 has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

19.—(1) No person shall drive upon any street a vehicle which is loaded or partly loaded with steel or iron rails, or other material of any sort of description, unless such rails or other material are or is so packed or stowed, either by being separated by sacks or bags or by some other appropriate means, as to prevent such rails or other material from producing a noise calculated to cause annoyance to persons in such street or in any premises abutting or adjacent thereto.
