Mutual Agreements—

10. That the apprentice shall be paid the same allowances as are from time to time paid by the employer to journeymen in the same trade for travelling time, fares, meal money, distant jobs, and other matters, or where such allowances are proportionate to the rates of pay received by journeymen, the apprentice shall be paid only such proportion thereof as the rates of pay of the apprentice bear to such journeymen's minimum rates of pay.

BOROUGH OF STAWELL.

BY-LAW No. 26.

A By-law of the Borough of Stawell made under the provisions of the *Health Act* 1919.

IN pursuance of the powers conferred by the *Health Act* 1919, and of every other power and authority enabling it to do so, the Council of the Borough of Stawell, in the name and on behalf of the Mayor, Councillors, and Burgesses of the said Borough, for the purpose of carrying the said Act into execution within their jurisdiction, make the following By-law (that is to say) :—

1. All former By-laws so far as they relate to the matters and things provided for in this By-law are hereby repealed.

2. This By-law shall come into full force and operation on its approval by the Governor in Council and immediately after its publication in the *Government Gazette*.

3. This By-law shall apply to and have operation throughout the whole of the municipal district, and unless exempted by the Council shall apply to every house, building, and premises therein.

4. The Council may exempt any premises within the municipal boundaries of the Borough of Stawell from the operation of this By-law on the recommendation of the Medical Officer of Health.

5. In this By-law, unless inconsistent with the context or subject-matter—

“Proprietor” means the proprietor of any premises, and includes the owner, the occupier, or any person having management or control thereof.

“Refuse” includes all garbage, (except sewage and manure) produced or accumulated in or about any house or building.

6. The proprietor of every house, building, or premises shall provide, keep and maintain at all times upon his premises a properly constructed receptacle in which he shall from time to time cause to be deposited all refuse produced or accumulated in or about such house or building.

7. Such receptacle shall be constructed of galvanized iron of not less than 24-gauge, or other approved material, in such a manner as to prevent any absorption by any part of such receptacle of any offensive matter which may be deposited therein, or any escape by leakage or otherwise of any part of the contents of such receptacle.

8. Each such receptacle shall have a capacity of not more than 4 cubic feet, and shall be so constructed as to be capable of being easily and conveniently carried by one man.

9. It shall be strongly constructed and provided with properly attached side-lifting handles.

10. Such receptacle shall be provided with a suitable close-fitting lid with a flange overlapping the top of such receptacle, and shall be kept constantly covered (except when such refuse is being deposited therein or discharged therefrom), and a sufficient quantity of some efficient deodorant shall be from time introduced therein when necessary to keep such refuse in an inoffensive condition.

11. No person shall place or cause or permit to be placed any slops or liquid waste in such receptacle.

12. The proprietor shall cause such receptacle to be kept at all times in good order and condition, and shall coat the inside of such receptacle with tar or other suitable substance when deemed necessary by the Council.

13. The proprietor shall cause, at such hours and on such days as may be appointed by the Council for the removal of refuse, such receptacle to be deposited close to and not more than 10 feet distant from and inside of the entrance to such house, building, or premises from the street, lane, or right-of-way on which such house, building, or premises abut in order that the contents of such receptacle may be conveniently removed by the contractor or person authorized or employed in that behalf by the Council.

14. No person shall place or cause to be placed any such receptacle in or upon any street, lane, or right-of-way except in the case of business premises built on the street alignment where such premises do not abut on a suitable right-of-way or land on which such receptacle could be placed for collection and emptying.

15. No person shall deposit, place, or sweep any dust, rubbish, yard or house sweepings, or filth of any kind upon any lane, street, land, drain, water channel, or place other than the depots provided by the Council or the receptacles provided by the householder for the deposit of such dust, rubbish, yard or house sweeping, or filth.

16. The contractor or person authorized or employed by the Council for the removal of such refuse shall be responsible for the complete emptying (without spilling any of the contents) of such receptacle or receptacles directly into a vehicle provided for its reception at such hours and on such days as may be appointed by the Council.

Such contractor or person shall also be responsible for the replacement of such receptacle properly covered with its lid, and shall also close the gate or gates of the premises from which such receptacle is taken.

17. The contractor or person authorized or employed by the Council for the removal of such refuse shall at least once in each week collect and remove such refuse in a suitable covered vehicle in such a manner as not to cause nuisance, danger to health, or offensiveness.

18. Such vehicle shall be provided with a cover and kept covered, except when refuse is being put into or discharged from such vehicle.

19. Such vehicle shall as far as practicable be rendered watertight by means of an impervious lining or by painting the inside thereof with tar, or by other suitable and effective means.

20. Such vehicle when full shall be taken by the quickest possible route to the tip, incinerator, or destructor, where as soon as practicable the refuse shall be rendered innocuous by means of fire, or such other method as may be approved by the Council, and in such manner as not to create a nuisance.

21. The contractor or person authorized or employed by the Council for the removal of such refuse shall cause all vehicles used for the reception and removal of such refuse to be properly constructed, kept clean, and thoroughly disinfected with approved disinfectant, and maintained in a proper state of repair.

22. If any refuse is authorized to be deposited or disposed of in or on any land, hole, quarry, or indentation, such refuse shall be deposited in a regular and orderly manner, and at the conclusion of each day's depositing the contractor, or the person or persons authorized or employed by the Council, shall blind the surface with clean earth, lime, or other approved material so as not to create any nuisance.

23. Land upon which refuse has been deposited shall be seasonably planted or sown with seed or grass or any forage or cereal crops or other such vegetable life as the Council shall direct or approve.

24. If any person or persons commit a breach of this By-law, he or they shall for every such breach be liable to a penalty of not more than Twenty pounds, and in the case of a continuing offence, a further daily penalty of not more than Five pounds.
