HAMILTON WATERWORKS TRUST.

RATING BY-LAW FOR 1931.

THE Chairman and the Commissioners of the Hamilton Waterworks Trust, the Waterworks District of which was proclaimed an Urban District for the purposes of the *Water Act 1928*, do hereby, pursuant to and in exercise of the powers and authorities conferred by such Act, make the following By-law, viz:—

By-law No. 29.

The following are the rates and charges which the occupiers or owners of lands and tenements liable to be rated, or other persons, shall pay for the year 1931 in respect of water supplied by the Trust in the said Urban District:—

1. For every house or other tenement fronting any street wherein water pipes of the Trust have been laid, and not being occupied land, the rate of Two shillings in the pound on the amount of the municipal valuation of such house or other tenement, and the land (if any) valued therewith, shall be paid, the minimum amount to be paid to be Twenty shillings. In cases where water is supplied to land upon which there is no building, the rate shall be Two shillings in the pound, recording to the municipal valuation of such land. In no case, however, shall a rate of less than Ten shillings (10s.) be paid.

2. For land upon which there is no building and to which water is not laid on, but which land fronts any street wherein water pipes of the Trust have been laid, the rate shall be Two shillings (2s.) in the pound on the amount of the municipal valuation thereof. In no case, however, shall a rate of less than Ten shillings (10s.) be paid.

3. For houses proved to the satisfaction of the Trust to have remained unoccupied for a period of not less than six calendar months, the rate per house shall be two-thirds of

the amount which would be payable (half-yearly in advance) if such house had not been so unoccupied, but in no case shall the rate be less than Thirteen shillings (13s.).

4. The foregoing rates are hereby made payable half-yearly in advance, one moiety on the 1st January, 1931, and one moiety on the 1st July, 1931.

5. For water supplied for domestic and other than domestic purposes by the Trust by measure, the charge shall (except where otherwise agreed by the Trust, and save as hereinafter provided in the By-law) be One shilling and sixpence (1s. 6d.) per 1,000 gallons up to such quantity as would equal the amount of the assessed rate payable in respect of premises so supplied; and for all water consumed in excess of such quantity a charge of Two shillings per 1,000 gallons shall be made.

6. The charge for private water troughs shall be Twenty shillings per annum (to include water rate payable when the value of the property in which such trough is situated does not exceed Ten pounds). When such rate exceeds Ten pounds there shall be no charge additional to the rate assessed on the property, except where, in the opinion of the Trust, a meter is necessary or advisable, in which case the consumer shall be charged and must pay at the rate charge for water supplied by measure. The minimum charge shall be Twenty shillings (20s.).

7. Water supplied to public gardens and parks, Melville Oval, corporation sale-yards, and State School swimming baths shall be charged for by measure at Sixpence per 1,000 gallons; water supplied to the municipal abattoirs shall be charged for by measure at One shilling and threepence per 1,000 gallons; and water supplied to the old cricket ground, bowling green, croquet lawns, and Hughan's Nursery from the low-pressure reservoir shall be charged for by measurement at One shilling and threepence per 1,000 gallons; if supplied from the high-pressure reservoirs, at One shilling and sixpence per 1,000 gallons, with the exception of water supplied to Hughan's Nursery from the high-pressure reservoirs, which shall be charged for at the same rate as stated in clause 5 of this By-law.

8. The charge for water supplied from any stand-pipe or hydrant shall be Sixpence for any quantity up to 200 gallons, and Sixpence for each additional 200 gallons or portion of 200 gallons.

9. For the supply of water during the erection of a new building, or alterations to or additions to existing buildings, the charge shall be, where the water is not supplied through a meter—for a brick, concrete, or stone building, including plastering, Five shillings per centum on the cost of the stone, concrete, or brick building; or the same shall be fixed by agreement with the Trust. All payments to be made in advance. No person shall take or use water for or in connexion with the erection of any buildings of the kind specified under this clause until he has obtained the receipt of the Trust's officer for payment of the amount payable for the use of such water, or the consent, in writing, of the Trust or its officer. Any person offending against the provisions thereof shall be liable to a penalty not exceeding Five pounds for such offence. All charges shall be additional to all rates and other charges payable by the owner or occupier of the premises upon which the building is being erected, and shall, in the first instance, be payable by the builder or contractor, and if unpaid by the builder or contractor, shall be charged to and paid by the owner of the premises whereon such building is being erected; but such charge to the owner shall not prejudice the right of the Trust to proceed at its option against either the builder or the contractor or the owner for the amount payable.

10. The occupier of two or more tenements liable to be rated, one of which is supplied by measure with water, shall be entitled, on the payments of the rates on such tenements respectively, to use, without further charge, such a quantity of water by measure as shall not exceed at the current charge for water supplied for domestic purposes by meter the amount of such rates, provided that the tenement or tenements, if not supplied by measure, shall not be connected with the pipes of the Trust. The occupier of two or more tenements each of which is supplied with water by measure shall be entitled to use, without further charge, such a quantity of water at either or both tenements as shall not exceed, at the current charge for water supplied for domestic purposes by measure, the total amount at which such tenements, if not supplied by measure, would be rated.

11. For water supplied or used for gas engines, oil engines, or steam boilers, the charge shall be by measure, the minimum amount to be charged and paid shall be Twenty shillings (20s.), to be paid and payable in advance in each case.
