2. These Regulations may be cited as the “Country Motor Omnibus Regulations 1930” and shall apply throughout the State of Victoria, and have reference only to the licensing and control of country motor omnibuses under the Acts.

3. Applications for licences and permits in respect of country motor omnibuses under the Acts shall be made to the Board in the form or to the effect of the form contained in the First Schedule hereto and shall, in the case of applications for licences, be accompanied by satisfactory evidence that the applicant is the owner of the motor omnibus in respect of which a licence is sought.

4. Where the applicant is purchasing his motor omnibus on terms under a contract of sale or hire purchase agreement, the application for any licence as aforesaid shall be signed both by the vendor and the purchaser of such motor omnibus as joint owners.

5. No licence shall be granted or renewed in respect of any motor omnibus which, in the opinion of the Board or the inspector, is unsafe, in bad repair, unsuitable for the service proposed, or otherwise unfit for the accommodation and conveyance of passengers.

6. Before or on the granting or the renewal of any licence as aforesaid and forthwith after any further insurance is effected during the currency of the licence, the owner of the motor omnibus shall deposit with the Board the policy of insurance required by the Act to be effected by him, together with a receipt for all premiums payable thereon during the currency of the licence.

(d) <i>Doors</i> .—Where a motor omnibus is provided with only one door, and where such door is situated in the forepart of the vehicle, suitable means other than such door shall be provided in that portion of the body of the omnibus which is situated at the rear of the centre line to allow passengers ready means of exit in case of emergency. Such emergency provision shall be approved by the licensing authority. Every means of access to or exit from a motor omnibus shall have an effective width between the handrails of not less than twenty-two (22) inches. (l) *Fuel Tanks*.—Tanks for petrol or other liquid fuel shall be made of suitable material, properly constructed and of sufficient strength, and shall be so placed that any overflow shall not fall upon wood-work or accumulate where it can be readily ignited. The filling nozzle of inlet for the petrol or other liquid fuel shall be brought to the outside of the body of the motor omnibus and be properly guarded by gauze or other means to limit the effect of accidental ignition. The petrol supply system shall be provided with a cock with tap readily accessible from the outside to shut off the supply of petrol.

(m) *Fuel*.—No petrol or other liquid fuel shall be placed in the tank while any passengers are in the motor omnibus.

No petrol or other volatile spirit shall be carried on any motor omnibus, except in the operating tanks provided for the purpose.

(n) *Exhaust Pipes*.—The exhaust pipe shall not be fixed in such a position that oil or any vaporizable or inflammable material is likely to be dropped upon it.

(o) *Wiring*.—All wires carrying electric current shall be properly insulated and protected from injury, and so placed that they cannot be a source of danger.

(p) *Heat*.—Effective means shall be adopted for preventing the heat of the motor, generator, or exhaust pipe connexions from injuriously affecting any parts of the vehicle or the comfort of the passengers.

(r) *Warning Horns*.—A horn or other means of giving due warning of its approach shall be affixed in a convenient position on every motor omnibus to the satisfaction of the licensing authority.

(s) *Tires*.—The use of any tires other than rubber tires on motor omnibuses is prohibited.

Pneumatic tires when used shall be maintained continuously in a safe condition and otherwise to the satisfaction of the Board.

When tires other than pneumatic tires are used they shall be of rubber at least one inch thick on the whole circumference of the wheel and shall at all times be maintained in a good condition and in such a manner as to reduce vibration.

(t) *Brakes*.—Each motor omnibus shall be fitted with at least two independent brakes, one of which must be operated by a pedal. Each brake shall be capable of easy adjustment and of stopping the vehicle and holding the same under all conditions from forward or rearward motion, and shall be fitted, when considered necessary by the Board, with an approved form of compensating device, so that the braking effect is the same on each road wheel. Brakes shall not be deemed independent which operate by the same connexions upon the same brake blocks, or upon the same brake drums. One at least of such brakes shall act directly upon the road wheels, and remain effective even if the driver quits his seat.

In the case of petrol driven motor omnibuses, other than those licensed to carry not more than twelve persons, the operation of either brake shall in no case disengage the clutch from the transmission gear.

(u) *Steering Gear*.—No motor omnibus having the steering apparatus fitted upon its left side shall be licensed. The steering arms, and other connexions thereof, shall be of ample strength, and as far as possible protected from damage by collision. The whole of the brake and steering parts of every motor omnibus shall be maintained in proper condition, and be subject to inspection and test at any time by the Board or its Inspector.

(v) *Nuts and Bolts*.—All brake and steering connexions secured with bolts or pins must have such bolts threaded and fitted with nuts, which latter shall be locked and pinned. All other parts of any motor omnibus connected by bolts or studs and nuts which may be subject to severe vibration shall be fastened by lock nuts, castellated nuts, or by nuts and approved spring or lock nut washers to prevent their working loose and causing noise.

(w) *Advertisements*.—No advertising matter of any description shall be permitted to be displayed on the outside of any motor omnibus, except that indicating the route and destination of such omnibus, and the number of passengers such motor omnibus is licensed to carry.

Omnibus to be made available for inspection.	13. Every motor omnibus for which a licence is applied for shall be made available for inspection by the Inspector, who shall examine the same for the purpose of ascertaining its suitability in every particular for use as a country motor omnibus. If the same is approved by him he shall determine the number of passengers which in his opinion the same may, having regard to its construction, safely and conveniently carry, which number, when so determined, shall be the maximum which it shall be lawful to receive and convey in such motor omnibus at any one and the same time.
Notice of number of passengers licensed to be carried.	14. The owner of every such motor omnibus shall cause a notice of the number so determined to be carried in some such conspicuous place on the outside of such motor omnibus as may be directed by the Inspector distinctly and legibly painted in words at length and in letters at least one (1) inch high and of proportionate breadth, in the following form, that is to say—"Licensed to carry" (here insert the number fixed) "passengers inside and" (here insert the number fixed) "passengers outside".

When such motor omnibus is constructed to carry passengers in different compartments, then such notice shall specify the number of passengers permitted to be carried in each such compartment and shall at all times during the currency of the motor omnibus licence be kept conspicuous, legible, and undefaced in such place as shall be directed by the Inspector.
Liability for exceeding prescribed number of passengers.	16. If the driver or conductor of any such motor omnibus shall cause or suffer to be conveyed at any one and the same time by any such motor omnibus, whether inside or outside or in any compartment thereof, a number of passengers greater than the number determined as aforesaid he shall in respect of each passenger so conveyed over and above the said number be deemed guilty of a separate and distinct offence against the provisions of these regulations.
Drivers and Conductors to be licensed.	17. No person shall act as the driver or conductor of any country motor omnibus unless he has been licensed by the Board for that purpose.
Applications for drivers' and conductors' licences.	18. Before a licence as a country motor omnibus driver or conductor is granted to any person, or renewed, an application shall be made to the Board in the form contained in the Third Schedule hereto, and signed by the applicant who shall submit therewith the licence issued to him under the provisions of the <i>Motor Car Act</i> 1928, and any Act amending the same, and such other certificates as the Board may require, and also evidence to the satisfaction of the Board that he is of good fame and character, and a fit and proper person to be so licensed.

33. Such number plates may, however, be transferred to any motor omnibus substituted for such licensed motor omnibus by permission of the Board for such period as the Board may direct. In the event of such substituted motor omnibus being capable of carrying a greater number of passengers than that for which the licence was granted, a proportionately increased fee, calculated as provided for under Part II. of the *Motor Omnibus Act* 1928 shall be paid by the owner for the period of such substitution in respect of such additional number of passengers. A lesser period than three months cannot be subscribed for.

Subscribers do not receive the Acts of Parliament with the Gazette.

Signatures (in particular) and proper names must be written very plainly in the text; ONE SIDE ONLY of each slip of paper should be WRITTEN UPON.

ALL COMMUNICATIONS should be addressed to "The Government Printer, Melbourne."

ALL DOCUMENTS illegibly written will be returned unpublished, and, where brands occur unprovided for by the ordinary letters of the alphabet, a worded explanatory description must be furnished.

THE GOVERNMENT GAZETTE is published on WEDNESDAY EVENING in each week, and Notices for insertion will be received by the Government Printer at or before TWO p.m. at ordinary rates, and late advertisements between TWO p.m. and FIVE p.m., at double rates, on the day preceding the day of publication.
