## Division 8.—Overtime.

In the case of Telephone Attendants at Spencer-street, the "custom" referred to in clause 2 was for such employees to work 8½ hours per fortnight prior to 7th June, 1923, but there is no provision in Division 8 authorizing payment for overtime worked as the result of a departure being made from such custom.

The provisions of this Division are not applicable in respect of the shift worked by Guard T. Valle on 28th August, 1929.

A Travelling Stationmaster is not entitled to the conditions under these Divisions applicable to employees on the running staff when he is travelling by a train on which there is a Guard on duty.

## Division 8.—Overtime.

(1) The clerks engaged at the Newport Workshops in the preparation of pay-rolls are not entitled to payment for overtime under this Division for the period of two and a half hours per fortnight beyond their ordinary hours of duty which they have been obliged to work, inasmuch as the case does not comply with the provisions of the clause governing such instances, i.e., sub-clause (f) of clause 1 of this Division.

(2) In the case of Relieving Stationmaster J. F. Myles, who, in June, 1929, worked at Casterton a shift extending from 6.45 a.m. till 8.30 p.m., with the following breaks for meals:—from 7.30 a.m. to 8 a.m., from noon to 1 p.m., and from 5.45 p.m. to 7.15 p.m., the provisions of sub-clause (g) of clause 1 of this Division are not applicable.

## RAILWAYS CLASSIFICATION BOARD.

## ORDERS OF 5TH FEBRUARY, 1930, RELATING TO—

## CERTAIN MATTERS ARISING OUT OF AWARD No. 8.

In the matter of the Railways Classification Board Acts and in the matter of references by the Victorian Branch of the Australian Railways Union, and the Victorian Branch of the Electrical Trades Union of Australasia, for interpretations of certain matters arising out of Award No. 8 of the Railways Classification Board.

THESE references having come on for hearing before the Railways Classification Board, and the said Board having heard the representations made on behalf of the parties concerned, it is ordered that the matters referred to be, and the same are hereby, interpreted as follows:—

## AWARD No. 8.

## Division 7.—Minimum Allowances.

## Division 20.—Conditions Associated with the Running of Trains.

The provisions of these Divisions are not applicable in the case of a Travelling Stationmaster travelling on a train on which there is not a Guard on duty.

## Division 9.—Sunday Duty.

Clause 9 of this Division does not authorize or provide for—

- (1) The booking off of a shift in the week preceding that in which a Sunday shift is worked.
- (2) The booking off of a shift unless a shift of at least eight hours is worked on a Sunday.
- (3) The booking off of more than one shift in the same week.

## Division 14.—Travelling and Incidental Expenses.

(1) The higher rate of expenses prescribed "for the first seven days at the same place" in clause 1 of this Division is payable to any officer or employee coming within such provision in respect of the first seven days at each place to which he is required to travel on duty away from his headquarters, subject to the provisions of clause 6, that a single officer or employee is not entitled to be paid expenses under clause 1 for any period beyond one month during which he is required to undertake duty away from his headquarters.

(2) In the case of Electrical Mechanic R. Irwin, who, on 19th October, 1929, travelled from Melbourne to Bendigo, and on 8th November, 1929, proceeded to Ballarat, the higher rate of expenses provided in clause 1 of this Division is payable in respect of the first seven days during which he was on duty at Ballarat, as well as for a similar period during which he was on duty at Bendigo.

He is, however, not entitled to such higher rate for a further period of seven days on his return to Ballarat after testing the "Mount Lofty" dining-car on 13th November, 1929, during the trip from Ballarat to Melbourne and return.

(3) In the case of Electrical Mechanic E. G. Le Petit, who left Melbourne on 9th December, 1929, and travelled to Ouyen, where he remained until 18th December, 1929, when he proceeded to Mildura, the higher rate of expenses provided in clause 1 is payable in respect of the first seven days at Mildura, as well as for a similar period at Ouyen.

## Division 20.—Relieving in Higher Positions.

In view of the fact that Ticket Collector D. Webb did not perform the duties of an Electric Suburban Guard for the prescribed period of twelve calendar months, either continuously or non-continuously, within the preceding two years, he is not entitled to the higher subdivisional rate prescribed in clause 3 (b) of this Division. (In this connexion, attention is directed to Orders made under this Division by the Railways Classification Board on 2nd June, 1925, and 2nd December, 1927.)

Dated this fifth day of February, One thousand nine hundred and thirty.

## STATE RIVERS AND WATER SUPPLY COMMISSION.

By-LAW No. 2373.—DOOEN URBAN DISTRICT WITHIN THE WESTERN WIMMERA WATERWORKS DISTRICT.

**T**HE State Rivers and Water Supply Commission, in pursuance and in exercise of the powers conferred by the Water Act 1928, doth hereby make the By-law following for the Dooen Urban District within the Western Wimmera Waterworks District:—

1. All previous By-laws and Regulations relating to the subject-matter herein shall be and the same are hereby revoked, but not so as to relieve, discharge, or absolve any person from liability to pay any rate or charge made in accordance with the provisions of the revoked By-laws or Regulations for payment of which rate or charge such person may have become liable prior to or at the date of this By-law coming into operation; or to abrogate or diminish the power of the said Commission to recover and enforce payment of any such rate or charge, or to annul or stay any proceedings taken or business initiated as in conformity with the provisions of the By-laws or Regulations hereby revoked prior to the date of this By-law coming into operation, but the same respectively may be continued and carried to completion.

2. Every person using or supplied with water for other than domestic purposes solely shall, at his own expense, provide a meter, and keep and maintain the same in good working condition to the satisfaction of the Commission or its proper officer.

3. No hose or pipe shall be attached to any pipe or tap for the purpose of watering ground, or trees, or plants, or washing house walls or carriages, or for any similar purpose, except where the water is charged for by measure. Syphon pumps will not be allowed except where the water is supplied by measure.

4. Before any plumber, workman, or other person affix any meter or any service-pipe to any pipe of the Commission, or alter, repair, or in any manner interfere with any meter or pipe of the Commission, or any service-pipe, cock, or fitting connected with the pipes of the Commission, he shall obtain from the Commission a licence to execute such works; and any unlicensed person affixing, altering, repairing, or in any manner interfering with any such meter, pipe, service-pipe, cock, or fitting as aforesaid, shall be guilty of an offence.

5. Any person, whether licensed as aforesaid or not, who shall open any ground so as to uncover any pipe the property of the Commission, without giving three days' notice to the Commission or its proper officer of his intention so to do, or who shall in any way tamper with or alter any pipe the property of the Commission, without the permission, in writing, of the Commission or its proper officer being first obtained, or who shall wilfully or carelessly break, injure, or open any lock, valve, pipe or other work the property of the Commission, shall be guilty of an offence.

6. Any person, whether licensed as aforesaid or not, who shall lay any pipe to communicate with the pipes of the Commission, or with any service-pipe connected therewith, without giving three days' notice of the day and hour when such pipe is intended to be made to communicate with such pipes, or who shall make such communication except under the superintendence and according to the directions of the proper officer of the Commission, or who shall lay any leaden or other pipe to communicate with the pipes of the Commission of a strength and material not sanctioned by the Commission or its proper officer, shall be guilty of an offence.

7. No meter for measuring the water supplied to any tenement shall be affixed until it shall have been examined, tested, and approved by the proper officer of the Commission. Every such meter shall be capable of registering at least 1,000,000 gallons.

8. The Commission, notwithstanding anything contained in this By-law, may, if it so think fit, but not otherwise, affix and let for hire water meters, the rent for which shall be at the rate per annum of—

For 2-inch meter, or meter of smaller size, Ten shillings.

For any meter of larger size than 2 inch the rent per annum shall be at the rate of 12½ per centum upon the cost of such meter, fixed complete.

Such rents shall be exclusive of and in addition to the amount chargeable for the recorded consumption of water, and shall become due and be paid yearly, in advance, on the first day of the month of September in each year. Such hired meters shall be kept in repair at the cost of the Commission, except as to external injuries, the cost of repairing which shall be borne by the hirer.

9. In the event of the hirer being dissatisfied with the registering of a meter hired from the Commission, he may, by notice in writing, require the Commission to cause such meter to be removed and tested; and, together with such notice, shall forward a sum of Ten shillings, which, if the meter be found to register correctly, shall be applied in paying the cost of the removing, testing, and replacing, and the balance, if any, shall be returned to him; but if such meter be found to fail to register, or be found to register in-

correctly, it shall be repaired and replaced, or another meter shall be placed instead thereof at the cost of the Commission, and the amount deposited by the hirer shall be returned to him. Any person so hiring a meter from the Commission who shall cease to occupy the premises on which such meter is fixed without having previously given, in writing, at least six days' notice to the Commission of his intention to do so, shall be guilty of an offence.

10. If any meter cease registering, or be found to be out of repair or registering inaccurately, the Commission may estimate and charge for the water consumed during the period such meter was not in working order and until repaired and refixed, either by taking an average of the quantity used during the previous quarter, or during the corresponding period of the previous year.

11. Meters, other than such as are hired from the Commission, will be tested on delivery thereof at the office of the Commission, at Horsham, and a fee of One shilling shall be charged for each test.

12. The Commission, by its officers, may, at any time after six days' notice, in writing, of its intention, attach a check meter to the service-pipes of any consumer, either inside or outside the premises of such consumer; and may, for such purpose, enter such premises at any time between the hours of Ten in the forenoon and Four in the afternoon, and then and there do all things necessary therefor.

13. Any person supplied with water by the Commission who shall wilfully or negligently allow such water to run to waste shall be guilty of an offence; and, in the event of continuing the same, shall be guilty of a further offence for each day, after notice from the Commission, on which such waste is continued.

14. All water troughs supplied from the pipes of the Commission shall be lined with metal, so as to be watertight, and shall have proper and efficient fittings for supplying them automatically and for preventing overflow. All such troughs and fittings shall be kept in proper order and repair. No water trough shall be of greater capacity than twenty-five gallons. Should any trough or fitting thereof be out of repair or leaking, the supply thereto may be cut off until efficiently repaired.

15. If any person supplied with water by the Commission does, or causes to be done, anything in contravention of this By-law, or fails to pay any rates or charges lawfully due by him, or fails to do anything which under this By-law ought to be done, or wilfully or negligently allows water to run to waste, the Commission may, in addition to any other remedy, cut off the supply of water from the premises of such person, either by cutting the pipes by or through which water is supplied or otherwise, and may cease to supply him with water so long as the cause of complaint remains or is not remedied.

16. The charge to be paid for water supplied by measure from the pipes of the Commission shall be Eighteen pence per 1,000 gallons.

17. The minimum quantity of water to be charged for by measure in each case where water is supplied from the pipes of the Commission shall be as follows:—

(1) Where the supply is for domestic as well as for other than domestic purposes, the quantity which, if charged for at Eighteen pence per 1,000 gallons, would give an amount equal to that payable in respect of the premises so supplied under the provisions of any By-law of the Commission for making and levying rates, if such premises were supplied otherwise than by measure.

(2) Where the supply is solely for other than domestic purposes, a quantity which, if charged as provided by the last preceding clause, would give a sum of Twenty shillings for any continuous period of three months.

18. In the construction of this By-law the word "person" shall extend to and include a corporation, whether aggregate or sole; the expression "proper officer" shall mean an officer or servant of the Commission authorized to perform any act or to accept service of any notice or to execute any function on behalf of the Commission.

19. Any person guilty of an offence against this By-law shall be liable to a penalty not exceeding Five pounds, recoverable summarily before any Court of competent jurisdiction.

The foregoing By-law was made by the State Rivers and Water Supply Commission on the 10th day of February, 1930, and the common seal of the said Commission was hereunto affixed the 24th day of February, 1930, in the presence of—

8. The Commission, notwithstanding anything contained in this By-law, may, if it so think fit, but not otherwise, affix and let for hire water meters, the rent for which shall be at the rate per annum of—

For  $\frac{1}{2}$ -in. meter, or meter of smaller size, Ten shillings.

For any meter of larger size than  $\frac{1}{2}$  inch the rent per annum shall be at the rate of 12 $\frac{1}{2}$  per centum upon the cost of such meter, fixed complete.

Such rents shall be exclusive of and in addition to the amount chargeable for the recorded consumption of water, and shall become due and be paid yearly, in advance, on the first day of the month of September in each year. Such hired meters shall be kept in repair at the cost of the Commission, except as to external injuries, the cost of repairing which shall be borne by the hirer.

9. In the event of the hirer being dissatisfied with the registering of a meter hired from the Commission, he may, by notice in writing, require the Commission to cause such meter to be removed and tested; and, together with such notice, shall forward a sum of Ten shillings, which, if the meter be found to register correctly, shall be applied in paying the cost of the removing, testing, and replacing, and the balance, if any, shall be returned to him; but if such meter be found to fail to register, or be found to register in-

correctly, it shall be repaired and replaced, or another meter shall be placed instead thereof at the cost of the Commission, and the amount deposited by the hirer shall be returned to him. Any person so hiring a meter from the Commission who shall cease to occupy the premises on which such meter is fixed without having previously given, in writing, at least six days' notice to the Commission of his intention to do so, shall be guilty of an offence.

10. If any meter cease registering, or be found to be out of repair or registering inaccurately, the Commission may estimate and charge for the water consumed during the period such meter was not in working order and until repaired and refixed, either by taking an average of the quantity used during the previous quarter, or during the corresponding period of the previous year.

11. Meters, other than such as are hired from the Commission, will be tested on delivery thereof at the office of the Commission, at Horsham, and a fee of One shilling shall be charged for each test.

12. The Commission, by its officers, may, at any time after six days' notice, in writing, of its intention, attach a check meter to the service-pipes of any consumer, either inside or outside the premises of such consumer; and may, for such purpose, enter such premises at any time between the hours of Ten in the forenoon and Four in the afternoon, and then and there do all things necessary therefor.

13. Any person supplied with water by the Commission who shall wilfully or negligently allow such water to run to waste shall be guilty of an offence; and, in the event of continuing the same, shall be guilty of a further offence for each day, after notice from the Commission, on which such waste is continued.

14. All water troughs supplied from the pipes of the Commission shall be lined with metal, so as to be watertight, and shall have proper and efficient fittings for supplying them automatically and for preventing overflow. All such troughs and fittings shall be kept in proper order and repair. No water trough shall be of greater capacity than twenty-five gallons. Should any trough or fitting thereof be out of repair or leaking, the supply thereto may be cut off until efficiently repaired.

15. If any person supplied with water by the Commission does, or causes to be done, anything in contravention of this By-law, or fails to pay any rates or charges lawfully due by him, or fails to do anything which under this By-law ought to be done, or wilfully or negligently allows water to run to waste, the Commission may, in addition to any other remedy, cut off the supply of water from the premises of such person, either by cutting the pipes by or through which water is supplied or otherwise, and may cease to supply him with water so long as the cause of complaint remains or is not remedied.

16. The charge to be paid for water supplied by measure from the pipes of the Commission shall be twenty-four pence per 1,000 gallons.

17. The minimum quantity of water to be charged for by measure in each case where water is supplied from the pipes of the Commission shall be as follows:—

(1) Where the supply is for domestic as well as for other than domestic purposes, the quantity which, if charged for at Twenty-four pence for 1,000 gallons, would give an amount equal to that payable in respect of the premises so supplied under the provisions of any By-law of the Commission for making and levying rates, if such premises were supplied otherwise than by measure.

(2) Where the supply is solely for other than domestic purposes, a quantity which, if charged as provided by the last preceding clause, would give a sum of Twenty shillings for any continuous period of three months.

18. In the construction of this By-law the word "person" shall extend to and include a corporation, whether aggregate or sole; the expression "proper officer" shall mean an officer or servant of the Commission authorized to perform any act or to accept service of any notice or to execute any function on behalf of the Commission.

- (10) Film when not actually in use shall be kept wholly enclosed in incombustible cases or boxes.
- (11) A metal receptacle for carbon ends that may be removed from the arc lamp shall be provided, and so constructed as to prevent heated carbon from coming into contact with any inflammable material.
- (12) Limelight plant shall be safeguarded, and cylinders, jets, saturators, and gauges shall be maintained in good order and safe working condition.
- (13) No naked gas, oil, or other flame or matches shall be used in the projection cabin.
