WERRIBEE SHIRE COUNCIL.

WATER SUPPLY DISTRICT.

By-law No. 2.

THE Werribee Shire Council (hereinafter called "the Council"), in pursuance and exercise of the powers and authorities conferred by the *Water Act 1928*, doth hereby make the By-law following for its Council's District:—

1. Except with the consent of the Council, one service pipe only for domestic supply to each tenement shall be permitted, and not more than one house or tenement shall be supplied from a single water service. The Council may, in special cases, consent to two or more houses or tenements being supplied from one water service, but in such cases the sub-service shall be so arranged that the supply to each house or tenement shall be independent of the supply to the remaining houses, and be controlled by a stop-cock on such service.

2. No private service shall be extended, except with the consent of the Council.

3. Upon any person giving notice of his desire to lay a pipe to connect with and tap pipes of the Council, he shall be informed, on behalf of the Council, whether it is or is not desired that such tapping should be made by an officer of the Council, and, if it be so desired, such person shall not tap any such pipe, but shall provide for and bear the cost of all labour and material necessary for such connexion, and for the restoration of the ground to the satisfaction of the local authority, and be liable for the consequences of failure in so doing, and shall pay in advance to the Council the expense for such tapping, including the stop-cock and ferrule, as follows:—For $\frac{1}{2}$ -in. pipe, Seven shillings and sixpence; $\frac{3}{4}$ -in. pipe, Ten shillings; 1-in. pipe, Fifteen shillings. All applications for tapping shall be accompanied by an inspection fee of 5s., and no tapping shall be made except under the supervision of a proper officer of the Council.

4. All service pipes laid in the ground on private property shall be laid at a depth of not less than 10 inches below the surface. The portions of the service pipe laid along or across any public street, lane, or right-of-way, or where it may be exposed to wheel traffic, shall be laid not less than 15 inches below the surface of the ground.

5. Connexions with the Council's mains shall (except where otherwise directed) be made with proper stop-cock ferrules, to which, for iron services, a wrought-iron quarter bend or a length of not less than 3 feet of lead pipe must be attached. For houses rated at £20 per annum and under, the bore for such service pipe shall not exceed $\frac{1}{2}$ inch, and for houses rated at over £20, the size of the service pipe shall not exceed $\frac{3}{4}$ inch, unless permission for a larger service shall have been received, in writing, from the Council, and the supply be taken through a meter.

6. The maximum tapping allowed (except by special permit of the Council) for each size of main shall be as follows:—

- For 1½-in. and 2-in. pipes, $\frac{1}{2}$ -in. tapping, with approved clip.
- For 3-in. and 4-in. pipes, $\frac{3}{4}$ -in. tapping.
- For 5-in. and 6-in. pipes, 1-in. tapping.
- For 8-in. pipes, 1½-in. tapping.
- For 9-in. pipes, 1½-in. tapping.
- For over 9-in. pipes, 2-in. tapping.

7. A high-pressure screw-down stop-cock, properly secured and covered with an approved cast-iron top, shall be fixed on each water service between the main and the building line.

8. Lead piping of the following weights:—

- For piping $\frac{1}{2}$ -in. diameter-weight, 6 lb. per yard.
- For piping $\frac{3}{4}$ -in. diameter-weight, 9 lb. per yard.
- For piping 1-in. diameter-weight, 14½ lb. per yard.
- For piping 1½-in. diameter-weight, 22 lb. per yard.
- For piping 1½-in. diameter-weight, 30 lb. per yard,

and galvanized wrought-iron piping of approved quality only will be allowed for external and internal services.

9. The quality of the material required in laying private services shall be as follows:—

- (a) The whole of the pipes, tees, thimbles (excepting those connecting the service pipes and mains), bends, reducing couplings, plugs, and the like shall be of the best galvanized wrought iron.
- (b) All pipes and pieces shall be true in sectional form, straight longitudinally, clear in bore, and properly coated throughout, and of equal strength and thickness throughout the entire body of same.
- (c) All ends of pipes, bends, and the like shall be properly and truly threaded, and capable of being properly screwed into thimbles, tees, or fittings.
- (d) The whole of the pipes, tees, bends, cocks, and fittings shall be sound and free from all defects, and of strength to bear with safety the maximum hydrostatic pressure to which they may be subject, and if required by the Council shall be tested.

10. No person shall use any tap, stop-cock, bib-cock, ball-cock, valve, closet, cistern, service box, waste-not regulator, bath tap or valve or other fittings in connexion with a supply of water of the Council, which is not of the best quality and approved by the Council.

11. No person shall use any stop-cock or bib-cocks which are not screwed-down high-pressure cocks made of hard brass or gun-metal, and in every respect of the best quality and workmanship, and approved by the Council.

12. All connexions between lead and iron pipes shall be made with brass union couplings.

13. All joints connecting lead pipes shall be "wiped joints," and in no case will "bolt" or "copper bit" joints be allowed on water-service pipes, either in the interior or on the exterior of any building or tenement, on pain of cancellation of licence of the plumber, who, by himself or his workmen, shall break these Regulations.

14. No person, whether licensed as hereinafter set out or not, shall connect any service pipe or branch service pipe with any steam boiler for the purpose of feeding or supplying the same with water without first affixing a self acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter.

15. No person shall use any cistern or tank that is not provided with an equilibrium ball-valve, and the overflow pipe laid and fixed in a suitable manner open to inspection, and in a position approved by the Council.

16. No person shall construct or use any urinal or water closet fitting not approved by the Council, nor, unless the same be supplied with water from the service pertaining to a tenement through a proper closet cistern or service-box fitted with approved waste-preventing apparatus. No person shall fix or use any service pipe which communicates directly or indirectly with the basin or tap, or otherwise than with the cistern of a urinal or water closet. Urinals shall be provided with 2-gallon and closets with 3-gallon cisterns.

17. All baths, sinks, lavatory and other basins, closets, and urinals served from the Council's mains shall be of approved sanitary construction, and mounted to the satisfaction of the Council.

18. No bath shall be allowed which has a holding capacity when full of more than 100 gallons, except with the permission of the Council. Overflow pipes to baths will not be permitted except where the supply is by measure.

19. All water troughs supplied from the pipes of the Council shall be lined with metal, so as to be water-tight, and shall have proper and efficient fittings for supplying them automatically and for preventing overflow.

20. Before any person shall affix any service pipe to any pipe of the Council, or alter, repair, or in any manner interfere with any pipe of the Council, or any service pipe, cock, or meter, or fitting connected with the pipes of the Council, he shall obtain from the Council a licence in that behalf to execute such works, and any unlicensed person affixing, altering, repairing, or in any manner interfering with any such pipe, service pipe, cock, meter, or fitting as aforesaid, shall be guilty of an offence.

21. Each licence shall be for the period ending 31st December next ensuing after the issue thereof, but may be renewed by the Council at its discretion from time to time in each case to the following 31st December. The Council shall have power at any time to cancel a licence in the event of the holder thereof performing his work in an unsatisfactory manner, or committing any breach of the *Water Act* or of this By-law, and in such matters the Council shall be sole judge. For each original licence the licensee shall pay to the Council a fee of Five shillings, and for each renewal Two shillings and sixpence.

22. Before any such licence shall be granted by the Council, the person applying for same shall satisfy the Council that he is a competent plumber, and that he is thoroughly conversant with the provisions of the By-laws of the Council relating to water supply, and with the *Water Act* so far as it applies to town supplies. The Council may, if it so sees fit, refuse to grant such licence.

23. Each licensed plumber shall report to the Shire Secretary the completion of any new work, extensions, or repairs in connexion with any service within twenty-four hours of effecting same.

24. No hose or pipe shall be attached to any pipe or tap for the purpose of watering ground or trees, or plants, or washing house walls, or carriages, or horses, or other animals, or for any similar purpose, except the water is charged for by measure. Syphon pumps will not be allowed except where the water is supplied by measure.

25. No meter shall be affixed until it shall have been examined, tested, and approved by a duly authorized officer of the Council, and each meter must be capable of registering at least 1,000,000 gallons, and each $\frac{1}{4}$ -in., $\frac{1}{2}$ -in., and 1-in. meter must be capable of registering any flow not less than 10, 15, and 30 gallons per hour respectively, and each meter must be affixed with approved lead connexions or wrought-iron quarter bends above ground in a conveniently accessible position, and properly connected. Wherever washers are necessary for meter connexion couplings, leather washers shall in all cases be used.

26. If any meter in use cease registering, or be reported by a duly authorized officer of the Council as out of repair, or registering inaccurately, the Council will estimate and charge for the water consumed during the period such meter was not in working order, and until it is repaired and refixed, either by taking an average of the quantity used during the previous quarter, or during the corresponding period of the previous year, on the basis of subsequent consumption after repairing, or the Council may insert a check meter on the service pipe and charge upon estimates from the registering thereof. Every meter removed through being cut of order must be repaired, adjusted, and submitted for test, and refixed with the least possible delay by a licensed plumber employed for this purpose. For any unnecessary delay in refixing the meter, such licensed plumber shall be guilty of an offence.

27. The Council will, if it so thinks fit, but not otherwise, let for hire water meters, the rent for which shall be at the rate per annum of—

For $\frac{1}{4}$ -in. meter	Ten shillings.
For $\frac{1}{2}$ -in. meter	Ten shillings.
For 1-in. meter	Twenty shillings.

For any meter of larger size than 1-in., the rent per annum shall be at the rate of 10 per centum upon the cost of such meter, fixed complete.

Rents shall be payable half-yearly in advance. Such rent shall be exclusive of and in addition to the amount of rate chargeable for the recorded consumption of water, and shall be due and must be paid half-yearly in advance on the 1st day of April and 1st day of October in each year, and first payments to be made as from the date of installation to the end of the then current half-year. Such hired meters shall be kept in repair at the cost of the Council, except as to external injuries, the cost of repairing which shall be borne by the hirer.

28. Meters, other than such as are hired from the Council, will be tested on delivery thereof at the office of the Council. A fee of Five shillings shall be charged for each test.

29. In the event of the hirer being dissatisfied with the registering of a meter hired from the Council, he may, by notice in writing, require the Council to cause such meter to be removed and tested; and, together with such notice, shall forward a sum of Twenty shillings, which, if the meter be found to register correctly, shall be applied in paying the cost of the removing, testing, and replacing, and the balance, if any, shall be returned to him; but if such meter be found to fail to register or be found to register incorrectly, it shall be repaired and replaced, or another meter shall be placed instead thereof, at the cost of the Council, and the amount deposited by the hirer shall be returned to him. Any person so hiring a meter from the Council who shall cease to occupy the premises on which such meter is fixed without having previously given, in writing, at least six days' notice to the Council of his intention to do so shall be guilty of an offence.

30. No person supplied with water by the Council shall permit or suffer the same to run to waste.

31. No person receiving water from the Council shall, without the written permission of the Council, take or carry away such water, or shall sell to any other person.

32. No person not having agreed to be supplied by the Council shall take or carry away water from the premises of any other person so supplied, or from any drinking tap, trough, or private or public service pipe.

33. No person other than an employee of the municipal council shall, without the written permission of the Council, water streets or thoroughfares by means of hydrant and hose attached to fire-plugs.

34. The water supply of all public parks and gardens shall be exclusively under the control and direction of the officers of the Council, and no person, unless duly authorized, shall turn on the water or otherwise interfere with such water supply.

35. Water supplied by the Council is in all cases subject to the right of the Council by notice to prohibit or restrict the use of the same for any purpose (other than domestic purposes) during such period, or at such times, or from time to time as may be fixed by the Council and stated in such notice.

Such notice may be given either by printed posters placed in prominent positions within the Council district, or by advertisement in some newspaper circulating in such district.

No person shall use or permit or suffer water supplied by the Council to be used contrary to any such prohibition or restriction.

36. In every case in which it is necessary to obtain the consent of the Council before doing any act or commencing any work, such consent must be asked for by notice, in writing, addressed to the Shire Secretary and delivered at his office, of such length as is mentioned in the Act or in this By-law, and in no case less than two days prior to the time proposed for the doing of such act or the commencement of such work; and such notice must state clearly the act proposed to be done or work to be commenced; and such act shall not be done or work be commenced save upon the Council's consent in writing, and then only subject to and in accordance with such directions or conditions as shall be therein specified. Such consent may be given by and under the hand of the President of the Council, the Secretary, or the Engineer, who severally shall be competent to give the Council's consent, and on behalf of the Council to prescribe any directions or conditions attaching thereto, and subject to and in accordance with which only such consent shall be deemed to have been given. The giver of every such consent shall notify the same to the next following meeting of the Council for confirmation.

37. In the construction of this By-law, the word "person" shall be deemed to and include a corporation, whether aggregate or sole, and the meaning which in the Water Act is assigned to any word shall be the meaning of the same word where occurring in this By-law, unless inconsistent with the subject-matter or context.

38. Any person who does, or causes to be done, anything in contravention of this By-law, or fails to do anything which under this By-law ought to be done, shall be guilty of an offence, and for every such offence the offender shall, upon conviction, be liable to a penalty not exceeding Five pounds, and in the case of a continuing offence to a further penalty not exceeding Five pounds for every day after notice of the offence from the Council.

The foregoing By-law was made and passed by the Werribee Shire Council on the twelfth day of June, 1930, and the seal of the Council was affixed hereto in the presence of—
