- (5) All delivery cocks and thimbles for connecting the service-pipes and mains to be high-pressure and made of brass of the best quality and workmanship and of approved pattern to screw into elbow bends, &c. All cocks and thimbles to stand the same pressure as the pipes.

9. Every urinal shall be supplied only through a cistern or service-box fitted with waste-preventing apparatus approved by the Trust. No service-pipe shall be suffered to communicate directly with the urinal.

10. Excepting with the permission of the Trust not more than one house or tenement shall be supplied from a single water service. The Trust may in special cases consent to two or more tenements being supplied from one water service, but in such cases the sub-services shall be so arranged that the supply to each house shall be independent of the supply to the remaining houses, and be controlled by a stop-cock on such sub-service.

11. No service-pipe will be allowed to communicate with any cistern, tank, or vessel intended or used for the reception of rain water, whether above or below the surface of the ground, except where water is supplied by measure.

12. No pipe or other apparatus shall be laid through any sewer, drain, ash pit, manure tank, or other place where, in the event of the pipe becoming unsound, the water conveyed through such pipe would be liable to be fouled or to escape without observation, unless such pipe or apparatus be laid through an exterior pipe or box of sufficient length and strength to afford due protection to the same and to bring any leakage or waste within easy detection. In all cases, before being used, the exterior pipe or box must be submitted to and approved by the officer of the Trust appointed for such purpose.

13. If any person shall neglect to repair any service-pipe conveying water from the pipes of the Trust into the premises of such person after having received notice from any officer of the Trust that such service-pipe requires repairing, the Trust may stop the water from flowing into such premises, either by cutting off the service-pipe or otherwise as to the Trust may seem fit until the necessary repairs shall have been effected. The service-pipe from the main being the property of the owners or occupiers of the tenements supplied by such service-pipes, the occupiers (if any), or, if none, the owner, shall in every instance after notice given by an officer of the Trust in its behalf that such service-pipe requires repairing, immediately proceed to repair the same, and shall be responsible for any loss of water, and also for any damage which shall be caused by reason of such service-pipe being leaky or otherwise out of repair or broken, and shall, in the event of his failing to forthwith make such repairs, be guilty of an offence; and in the event of continuing the offence of a continuing offence. In the event of the necessary repairs not being effected forthwith in accordance with the aforesaid notice, the Trust may proceed to make the necessary repairs, and the expenses which may be incurred or paid by it in effecting such repairs shall be paid to it by the occupier or owner, by whom such work ought to have been done, and the Trust may recover the same from such occupier or owner before two justices, or in an action of debt in any court of competent jurisdiction.

14. Subject to previous written consent of the Trust, private fire services will be allowed at expense of owner, but every such service must be sealed, except in cases where the Trust's officer shall have certified, in writing, that sealing is unnecessary. For each such private fire service there shall be paid a sum of Ten shillings upon the fixing thereof and a sum of Ten shillings per annum thereafter. No water shall be taken from any sealed portion of such service except for extinction of fire. Except in case of fire no person shall, without authority of the Trust, wilfully break the seal affixed to any private fire service, and in the event of any such seal having been broken accidentally or otherwise, the occupier of the tenement shall, within twenty-four hours thereafter, give notice, in writing, of the fact at the office of the Trust, and failing to do so shall be guilty of an offence and of continuing offence for every day during which he shall neglect to give such notice.

15. All joints connecting lead pipes must be "wiped" joints, and in no case will "bolt" or "copper-bit" joints be allowed on water service-pipes either in the interior or on the exterior of any building or tenement on pain of cancellation of the licence of the plumber who, by himself or his workmen, shall break this By-law.

16. A high-pressure screw-down stop-cock, properly secured and covered with an approved cast-iron cap, shall be fixed on each water service between the main and the building line at a uniform distance of one foot from the kerbing.

17. No person other than an employee of the Trust or a municipality or member of a fire brigade on duty shall, without the written permission of the Trust, be allowed to take water from the fire plugs for watering the streets or any other purpose (except in case of fire). Any person offending against this section shall be guilty of an offence.

*Licensing of Plumbers.*

18. Before any person shall affix any service-pipe to any pipes of the Trust, or alter or repair, or in any manner interfere with any pipes or service-pipes, cocks, or fittings connected with the pipes of the Trust, he shall obtain from the Trust a licence in that behalf to execute such works, and any unlicensed person affixing, altering, repairing, or in any manner interfering with such pipes, service-pipes, cocks, or fittings as aforesaid shall be guilty of an offence.

19. Before any such licence shall be granted by the Trust the person applying for the same shall satisfy the Trust that he is a competent plumber, and that he is thoroughly conversant with the provisions of the By-laws of the Trust, and with the sections of the *Water Act* affecting his work. The Trust may at any time cancel such licence. The fee for a plumber's licence shall be Ten shillings per annum.

**Meters.**

20. No meter shall be affixed until it shall have been examined, tested, and approved by a duly authorized officer of the Trust, and unless the dial of the same is capable of registering one million (1,000,000) gallons. A separate meter shall in every case be provided for each tenement when the supply is by measure.

21. If any meter in use cease registering, or be reported by any officer of the Trust as out of repair or registering inaccurately, the Trust may estimate and charge for the water consumed during the period such meter was not in working order, and until it is repaired and refixed, either by taking an average of the quantity used during the previous quarter or during the corresponding period of the previous year, or the Trust may insert a check meter on the service-pipe and charge upon estimate from the registering thereof.

**Supply of Water.**

22. The Trust may enter into a special agreement with any person requiring water for any other purposes than domestic at such rates upon such terms and subject to such conditions as the Trust and the person requiring such supply may agree to adopt.

23. The charge for water supplied from any stand-pipe shall be sixpence for any quantity up to 200 gallons, and sixpence for each additional 200 gallons or portion of 200 gallons.

24. The Trust reserves the right to sell water to any person for any purpose whatever other than domestic. If any person (1) not having from the Trust a supply of water for other than domestic purposes uses for other than domestic purposes any water supplied to him by the Trust, or (2) having from the Trust a supply of water for other than domestic purposes uses for any purposes other than those for which he is entitled to use the same, such person shall be guilty of an offence without prejudice to the right of the Trust to recover from him the value of the water misused.

**Waste or Misuse of Water.**

25. No person supplied with water by the Trust shall permit or suffer the same to run to waste.

26. No person receiving water from the Trust shall, without the written permission of the Trust, take or carry away such water, or shall sell the same to any other person.

27. No person not having agreed to be supplied by the Trust shall take or carry away water from the premises of any other person so supplied, or from any drinking tap, trough, or private or public service-pipe.

28. The water supply of all public parks and gardens shall be under the control and direction of the officers of the Trust, and no person, unless duly authorized, shall turn on the water or otherwise interfere with such water supply.

29. (a) Water supplied by the Trust is in all cases subject to the right of the Trust by notice to prohibit or restrict the use of the same for any purpose (other than domestic purposes) during such period or at such time, or from time to time, as may be fixed by the Trust and stated in such notice.

(b) Such notice may be given either by printed posters placed in prominent positions within the Trust district, or by advertisement in some newspaper circulating in such district.

(c) No person shall use or permit or suffer water supplied by the Trust to be used contrary to any such prohibition or restriction.

**Miscellaneous.**

30. In every case in which it is necessary to obtain the consent of the Trust before doing any act or commencing any work, such consent must be asked for by notice, in writing, addressed to the secretary of the Trust and delivered at his office, of such length as is mentioned in the Act or in this By-law, and in no case less than two days prior to the time proposed for the doing of such act or the commencement of such work; and such notice must state clearly the act proposed to be done or work to be commenced, and such act shall not be done or work be commenced save upon the Trust's consent, in writing, and then only subject to and in accordance with such directions or conditions as shall be therein specified. Such consent may be given by and under the hand of the chairman of the Trust, the secretary, or the engineer, who severally shall be competent to give the Trust's consent, and on behalf of the Trust to prescribe any directions or conditions attaching thereto, and subject to and in accordance with which only such consent shall be deemed to have been given. The giver of every such consent shall notify the same to the next following meeting of the Trust for confirmation.

31. In the construction of this By-law the word "person" shall be deemed to extend to and include a corporation, whether aggregate or sole, and the meaning which in the *Water Act 1928* is assigned to any word shall be the meaning of the same word where occurring in this By-law, unless inconsistent with the subject-matter or context.

32. Any person who does, or causes to be done, anything in contravention of this By-law, or fails to do anything which under this By-law ought to be done, shall be guilty of an offence, and for every such offence the offender shall, upon conviction, be liable to a penalty not exceeding Five pounds, and in the case of a continuing offence to a further penalty not exceeding Five pounds for every day after notice of the offence from the Trust.

##### CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 121st section of the *Land Act* 1928, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 123 of the *Land Act* 1928, the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognized.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling or other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all noxious weeds on the land, and on the half-width of the adjoining roads, and shall be responsible for the destruction of noxious weeds under the *Vermin and Noxious Weeds Act* 1928 in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millmen to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. The licensee shall thoroughly and effectively protect the land within the boundaries of his licensed area from fire, and shall extinguish any fire which may break out on such area or may spread to it. In the event of the area being damaged by fire, the licence may be forfeited, unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants, were in any way responsible for such fire.

19. The licensee shall not interfere in any way with any survey marks on the land hereby licensed.

3. Separate tenders must be lodged for each block.

4. *Tenders to be addressed to the Secretary for Lands* (Tender-box), Melbourne.

5. The highest or any tender not necessarily accepted.

This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the ingoing tenant will be held responsible for the care and maintenance of any improvements.

Plans can be seen and information may be obtained in this office.

Section 121, *Land Act* 1928, provides—
