**MELBOURNE AND METROPOLITAN BOARD OF WORKS ACTS, WHICH INCLUDE METROPOLITAN DRAINAGE AND RIVERS ACTS.****BY-LAW No. 30.**

**T**HE Melbourne and Metropolitan Board of Works, pursuant to and in exercise and execution of the powers and authorities conferred on it by the Melbourne and Metropolitan Board of Works Acts, and pursuant to and in exercise and execution of any other powers and authorities in any wise enabling it in that behalf, doth hereby make the following By-law, that is to say:—

1. Clause 58 of By-law No. 29, which was made and passed by the Board on the seventeenth day of December, One thousand nine hundred and twenty-nine, and duly published in the *Government Gazette* on the eighth day of January, One thousand nine hundred and thirty, is hereby repealed as from the date of the coming into operation of this By-law, and the following substituted therefor:—

58. (a) *Buoyancy.*—No motor boat shall be licensed under these Regulations unless such boat is provided with internal buoyancy fittings equal to 25 per cent. in excess of the weight of the propelling machinery, ballast, and all equipments of a non-buoyant nature, either in the form of muntz metal or copper casings, or enclosed watertight air spaces. Sealed oil drums secured in position to the boat will, according to their capacity, nevertheless be accepted as portion or the whole of the buoyancy fittings required, provided they are painted or otherwise prevented from rusting, and are readily removable for periodical inspection and testing.

Air cases not exceeding thirty-nine inches (39 in.) in length shall be constructed of muntz metal or copper of not less than seventeen ounces (17 oz.) to the superficial foot, and those exceeding thirty-nine inches (39 in.) in length shall be constructed of similar metals of not less than eighteen ounces (18 oz.) to the superficial foot.

Any air case exceeding twenty-four inches (24 in.) in length constructed of seventeen-ounce (17 oz.) metal shall be supported by a diaphragm in the middle of its length.

All joints of air cases must be rolled hook joints, and soldered.

(b) *Engine to Stand in Metal Tray.*—The engine of every motor boat and every motor sailing boat shall stand in a metal tray which can be readily cleaned, such tray to project three inches (3 in.) all round the engine, and be turned up at least three inches (3 in.) at the edge in such a manner as to prevent the oil from saturating the woodwork or spreading to the bilges.

The engine and tray shall be enclosed in a well-fitting casing rendered fire-resisting, if of wood, by metal lining throughout. The flooring boards shall be removable in order to facilitate cleaning and inspection.

- (c) *Petrol Pipes and Fittings*.—The pipe conveying the petrol to the carburettor shall be of solid drawn copper, and shall be provided with a flexible bend or bends; a cock or valve shall be fitted to each end of the pipe, one at the tank and the other at the carburettor or float chamber. All joints and couplings must be readily accessible, and shall be such that they can be made and kept perfectly oil-tight. The cock at the carburettor end of the petrol pipe must be outside the motor-casing as near as possible to the carburettor, and easily accessible in the event of fire in the carburettor.

- (d) *Ventilation when Engine is in an Enclosed Space*.—When the engine or petrol tank of any motor boat, or any motor sailing boat, is fitted in an enclosed space, such space shall be ventilated in such a manner as will effectively prevent the accumulation of oil vapour therein.

2. The following sub-clause is hereby added to and from the date of the coming into operation of this By-law shall form part of and be deemed to be included in clause 59 of the said By-law No. 29:—

- (c) An improved chemical fire extinguisher.

3. The above-mentioned repeal and addition shall not affect anything duly done, any rights, privileges, or powers acquired, or any liabilities, penalties, or forfeitures incurred, or any proceedings taken or commenced under the said By-law No. 29 before the coming into operation of this By-law.

The foregoing By-law was made and passed by the Melbourne and Metropolitan Board of Works, and the common seal of the said Board was hereunto affixed the 20th day of October, One thousand nine hundred and thirty-one, in the presence of:—

(SEAL) D. BELL, Chairman.
