SPECIAL PROVISIONS WITH RESPECT TO VESSELS WITH INFLAMMABLE LIQUID OTHERWISE THAN IN BULK.

18. *Watchman at Gangway.*—A watchman shall be stationed at each gangway leading on to the vessel to prevent smoking and unauthorized access to the vessel, and to warn every person that inflammable liquid is being loaded or unloaded on or from the vessel.

19. *Display of Notices.*—Notices warning the crew and all persons on board or coming on board the vessel that smoking or any practice likely to cause fire is prohibited, shall be displayed in conspicuous positions on the vessel and on the gangways of such vessel.

20. *Ventilation of Holds Before Unloading.*—All holds containing inflammable liquid in drums, tins, or other packages shall be thoroughly ventilated before and during the time such inflammable liquid is being unloaded, and no fire or unauthorized light shall be permitted at or near such holds.

21. *Ventilation of Holds After Unloading.*—All holds from which inflammable liquid in drums, tins, or other packages has been unloaded shall be thoroughly ventilated, and no fire or unauthorized light shall be permitted at or near a hold which recently contained inflammable liquid until such hold has been thoroughly ventilated and made free from inflammable vapour.

22. *Stowage.*—All inflammable liquid loaded on the vessel shall be properly and securely stowed to the satisfaction of the Port Officer.

23. *Ventilation of Stowage Spaces.*—Proper and efficient ventilation for the place of stowage shall be provided, and, when required, outlet ventilators passing through the deck and terminating just below such deck and inlet ventilators extending to the bottom of the holds from above the upper deck shall be fixed. All outlet and inlet ventilators shall be covered with wire gauze as defined.

24. *Battening Down Holds.*—After inflammable liquid has been stowed in any hold, such hold shall be securely battened down.

25. *Marking of Packages.*—All inflammable liquid in packages shall be properly marked or branded to indicate the nature of the inflammable liquid, and all inflammable liquid, Group "A," shall be marked "Highly Inflammable."

26. *Hatch Coverings.*—Sufficient hatch coverings and other coverings as may be required by the Port Officer shall be provided.

27. *Holds to be Closed.*—All holds which contain or have recently contained inflammable liquid, when inflammable liquid or other article is not being loaded into or unloaded from such holds, or such holds are not being cleansed and ventilated, shall be closed and made gastight as far as practicable.

28. *Loading or Unloading General Cargo at Night.*—A permit, in writing, shall be obtained from the Port Officer to load or unload general cargo after sunset or from a vessel carrying inflammable liquid, and the following precautions shall be taken:—

- (a) Every hold containing inflammable liquid shall be securely battened down.
- (b) No cargo shall be loaded into or unloaded from any hold unless such hold is separated by watertight and gastight bulkheads, decks, battened-down hatchways, or other means from all places on such vessel where vapour from inflammable liquid is likely to be.

29. *Stowing Inflammable Liquid in Wooden Vessels.*—Stowing inflammable liquid having a flashing point below 110° F. below deck in a wooden vessel is prohibited. A limited quantity thereof, however, may be carried as deck cargo on the weather deck of such a vessel, provided such inflammable liquid is stowed at a safe distance from the galley, crew's quarters, and openings leading into machinery or boiler spaces.

SPECIAL PROVISIONS WITH RESPECT TO TANK SHIPS.

30. *Wharf Barricade.*—The loading or unloading of inflammable liquid from a tank ship shall not commence until a barricade capable of preventing access to the vessel and pipeline hose connexions by any unauthorized person has been erected to the satisfaction of the Port Officer, and until a watchman has been stationed at each opening of the barricade to prevent the entrance of any unauthorized person and to take charge of matches or other means of making a fire or light from all persons entering the barrier.

31. *Matches, &c., Prohibited.*—Before commencing loading or unloading inflammable liquid, all matches shall be collected from members of the crew and other persons on the vessel, and no person shall bring matches or other means of making a fire or light on the vessel during such loading or unloading.

32. *Engineer to Be in Charge.*—In addition to having a responsible officer on duty as required by these rules, a crew to assist such officer and a competent member of the engine-room staff shall be on duty at all times when inflammable liquid is on board and be available in case of emergency to operate the fire-pumps or other fire-extinguishing appliances.

33. *Fires and Lights on Tank Ships.*—From the time when the tank or holds of tank ships carrying inflammable liquid are first unsealed or opened for the purpose of loading or unloading inflammable liquid until such tanks or holds have been closed and sealed down, no fires or lights, other than fires or lights approved by the Port Officer, shall be lit or used, either on board the vessel or on shore, within 50 feet of any place at which inflammable liquid is being loaded or unloaded. Where, however, the Port Officer is satisfied that the construction of the vessel and the situation of the fires are such that no serious hazard will be created thereby, the use of boiler fires for the purpose of supplying power necessary for working the machinery or appliances for the unloading of inflammable liquid, and also for heating galley appliances, may be authorized. No fires or lights of any description shall be permitted on any vessel while the tanks are open or unsealed for the purpose of loading inflammable liquid.

34. *Safety Gauzes on Openings to Tanks.*—Except during inspection or when samples or ullage measurements are being taken, wire gauze as defined shall be fitted over all openings of tanks that contain, or have recently contained, inflammable liquid in bulk.

35. *Pipes, Hoses, &c., to be Free from Leakage.*—Pipes, hoses, pumps, and other appliances used for the transferring or discharging of inflammable liquid shall be maintained gastight and free from leakage, and, unless it is otherwise authorized on the completion of loading or unloading, all gear shall be thoroughly freed from inflammable liquid and the hoses disconnected from the shore pipe lines.

36. *Loading or Unloading in Bulk.*—The following precautions in the loading or unloading of inflammable liquid in bulk shall be taken:—

- (a) Hoses, constructed to be resistant to inflammable liquid and maintained in good order, shall be used for connecting with shore installation.
- (b) A non-return valve shall be placed immediately behind the union of the hose and shore installation pipe, and where required by the Port Officer, at the shore end of the wharf also.
- (c) When pumping ceases temporarily the valves on ship and on shore pipe lines shall be closed.
- (d) On completion of the loading or unloading, pipe lines under any wharf shall be thoroughly cleared of inflammable liquid by flushing with water, and shall be kept full of water.
- (e) All openings in the tanks shall be closed and made gastight immediately on completion of loading or unloading.
- (f) A competent person shall be on duty on the wharf to watch pipe lines and shut down valves whenever necessary to prevent the escape of any inflammable liquid.

37. *Loading or Unloading Inflammable Liquid in Bulk at Night.*—Subject to the approval, in writing, of the Port Officer, inflammable liquid in bulk may be discharged in bulk into a tank ashore after sunset provided that the following conditions and such other conditions as may be imposed by the Port Officer in special cases are complied with:—

- (a) All pipe lines, hoses, valves, and other appliances shall be coupled up and pumping commenced at least one hour before sunset.
- (b) Pipe lines and hoses shall not be coupled or uncoupled or otherwise interfered with except in daylight.
- (c) Sufficient electric flood lighting of a type approved by the Port Officer shall be provided to give ample light for all operations.
- (d) Arrangements shall be made by the master of the tank ship to ensure that a sufficient staff of officers and men is available at all times to ensure the efficient carrying on of the work or to remove the vessel, if so required.

38. *Repairs or Alterations to Tanks.*—Before any repairs or alterations are made to tanks on tank ships in which oil or inflammable liquid is or has been conveyed, involving such operations as welding, cutting, boring, soldering, hammering, which may produce heat or be liable to cause the ignition of inflammable vapours, such measures as are necessary shall be taken to free the tanks from inflammable vapours.

PART V.—INFLAMMABLE LIQUID ON WHARFS.

1. *Inflammable Liquid on Wharfs or in Sheds.*—No person shall deposit any inflammable liquid or cause or allow any inflammable liquid to be deposited on any wharf or in any shed on any wharf, or on or in any place within 50 feet of any wharf, or on any vessel, without the permission of the

Port Officer, and no person shall so deposit any inflammable liquid or allow the same to remain on any such wharf or place at any time between sunset and sunrise, unless he has obtained, in writing, the permission of the Port Officer in that behalf.

2. *Quantity of Inflammable Liquid Permitted on Wharfs or in Sheds.*—Except with the permission of the Port Officer, a greater quantity of inflammable liquid than can reasonably be handled in a period of one hour with the means of transport available shall not be placed on any wharf.

3. *Notice Boards to be Erected.*—No inflammable liquid shall be handled, or deposited upon any wharf, or in any place within 50 feet of any wharf, until notice boards, not less than 5 feet by 3 feet in size, and bearing the words—“*This Vessel Handling Inflammable Liquid—No Smoking.*” have been erected in such conspicuous positions as to be visible from every point of access to such wharf or place.

4. *No Smoking or Matches within 50 feet.*—When inflammable liquid is upon any wharf or in any place within 50 feet thereof, no person shall within 50 feet of such inflammable liquid smoke or have in his possession or under his control any fire or means of ignition or light other than a safety lamp of a type approved by the Port Officer.

PART VI.—PENALTIES.

The penalties for any failure or neglect to observe any of the foregoing Rules shall be such as are prescribed by section 8 of the *Marine Act 1928*.

- (10) If two or more classes of explosives be kept on the premises, they must be separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other, subject nevertheless to the following:—
- (a) Class 1 (Gunpowder), Class 2 (Nitrate Mixture), Class 3 (Nitro Compound) may be kept in the same building or receptacle without any intervening partition or space.
- (b) Detonators shall be kept in a separate receptacle placed at a safe distance from any other explosive.
- (c) Fireworks shall be kept in a separate receptacle placed at a safe distance from any other explosive.
- (d) Safety cartridges and other explosives of the 1st Division of Class 6 (Ammunition) may be kept in packages in a cool and dry place at a safe distance from any article of an inflammable nature.
- (11) With respect to every such building or receptacle, the interior thereof, and the shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel, or similar substance, and such interior, shelves, and fittings shall be kept free from grit and otherwise clean, and due precaution shall be taken to exclude water; the door or lid thereof shall be provided with a substantial lock; and the outside thereof shall have painted thereon in plain and conspicuous characters the word "Explosives," "Detonators," or "Fireworks" (as the case may be).
- (12) Every article of a highly inflammable nature, and every article liable to cause fire or explosion, shall be kept at a safe distance from all explosives, and from all buildings and receptacles containing the same.
- (13) Every licensee and every person employed in and about the premises shall take all due precaution for the prevention of accidents by fire or explosion in the same, and for preventing unauthorized persons having access to the premises or to the explosives therein, and shall abstain from any act whatever which tends to cause fire or explosion, and is not reasonably necessary for the purpose of the work on such premises.
- (14) Wherever in these conditions an explosive is distinguished as belonging to a particular class or division of a class, reference is made to the classification of explosives contained in an Order in Council made in pursuance of section 53 of the *Explosives Act 1928*.

And the Honorable Ian Macfarlan, His Majesty's Chief Secretary for the State of Victoria, shall give the necessary directions herein accordingly.

TENDERS FOR GRAZING LANDS.

FOR THE PERIOD 1ST JANUARY, 1933, TO 30TH SEPTEMBER, 1933, EXCEPT WHERE OTHERWISE ORDERED.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Crown Lands Office Tender-box, State Treasury Buildings, Melbourne, on or before Noon on Friday, 30th December, 1932.

NOTE.—No tender will be accepted unless the fee for the full period and fee of Seven shillings and sixpence for licence are forwarded.

TENDERS will be received before Noon on Friday, 30th December, 1932, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 121 of the *Land Act* 1928 shall be subject to the conditions set forth in the Schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 121st section of the *Land Act* 1928, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miner's rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 123 of the *Land Act* 1928 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognized.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licence shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling or other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all noxious weeds on the land, and on the half-width of the adjoining roads, and shall be responsible for the destruction of noxious weeds under the *Vermis and Noxious Weeds Act 1928* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. The licensee shall thoroughly and effectively protect the land within the boundaries of his licensed area from fire, and shall extinguish any fire which may break out on such area or may spread to it. In the event of the area being damaged by fire, the licence may be forfeited, unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants, were in any way responsible for such fire.

19. The licensee shall not interfere in any way with any survey marks on the land hereby licensed.

SPECIAL CONDITIONS.

1. The period of occupation, except where otherwise specified, will be for nine (9) months from 1st January, 1933, to 30th September, 1933.

2. The fee for the full period—for which the licence will be issued, and the fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. *Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.*

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name, occupation, and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing owned by him within one month, or to require the incoming tenant to pay for it in accordance with the provisions of section 124, *Land Act 1928*.

This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the ingoing tenant will be held responsible for the care and maintenance of any improvements.

Plans can be seen and information may be obtained in this office.

Section 121, *Land Act 1928*, provides—

1. Where a licensee under section 121 of the *Land Act 1928* has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.
