THE State Rivers and Water Supply Commission, in pursuance and in exercise of the powers conferred by the Water Act 1928, doth hereby make the By-law following for the Newstead Urban District within the Newstead Waterworks District.

1. All previous By-laws and Regulations relating to the subject-matter herein shall be and the same are hereby revoked, but not so as to relieve, discharge, or absolve any person from liability to pay any rate or charge made in accordance with the provisions of the revoked By-laws or Regulations for payment of which rate or charge such person may have become liable prior to or at the date of this By-law coming into operation; or to abrogate or diminish the power of the said Commission to recover and enforce payment of any such rate or charge, or to annul or stay any proceedings taken or business initiated as in conformity with the provisions of the By-laws or Regulations hereby revoked prior to the date of this By-law coming into operation, but the same respectively may be continued and carried to completion.

2. Every person using or supplied with water for other than domestic purposes solely shall, at his own expense, provide a meter and keep and maintain the same in good working condition to the satisfaction of the Commission or its proper officer.

3. No hose or pipe shall be attached to any pipe or tap for the purpose of watering ground, or trees, or plants, or washing house walls or carriages, or for any similar purpose, except where the water is charged for by measure. Syphon pumps will not be allowed except where the water is supplied by measure.

4. Before any plumber, workman, or other person affix any meter or any service-pipe to any pipe of the Commission, or alter, repair, or in any manner interfere with any meter or pipe of the Commission, or any service-pipe, cock, or fitting connected with the pipes of the Commission, he shall obtain from the Commission a licence to execute such works; and any unlicensed person affixing, altering, repairing, or in any manner interfering with any such meter, pipe, service-pipe, cock, or fitting as aforesaid shall be guilty of an offence.

5. Any person, whether licensed as aforesaid or not, who shall open any ground so as to uncover any pipe the property of the Commission, without giving three days' notice to the Commission or its proper officer of his intention so to do, or who shall in any way tamper with or alter any pipe the property of the Commission, without the permission, in writing, of the Commission or its proper officer being first obtained, or who shall wilfully or carelessly break, injure, or open any lock, valve, pipe, or other work the property of the Commission, shall be guilty of an offence.

6. Any person, whether licensed as aforesaid or not, who shall lay any pipe to communicate with the pipes of the Commission, or with any service-pipe connected therewith, without giving three days' notice of the day and hour when such pipe is intended to be made to communicate with such pipes, or who shall make such communication except under the superintendence and according to the directions of the proper officer of the Commission, or who shall lay any leaden or other pipe to communicate with the pipes of the Commission of a strength and material not sanctioned by the Commission or its proper officer, shall be guilty of an offence.

7. No meter for measuring the water supplied to any tenement shall be affixed until it shall have been examined, tested, and approved by the proper officer of the Commission. Every such meter shall be capable of registering at least 1,000,000 gallons.

8. The Commission, notwithstanding anything contained in this By-law, may, if it so think fit, but not otherwise, affix and let for hire water meters, the rent for which shall be at the rate per annum of—

For $\frac{1}{2}$ -inch meter, or meter of smaller size, Ten shillings.

For any meter of larger size than $\frac{1}{2}$ inch, 12 $\frac{1}{2}$ per centum upon the cost of such meter, fixed complete.

Such rents shall be exclusive of and in addition to the amount chargeable for the recorded consumption of water, and shall become due and paid yearly, in advance, on the first day of the month of September in each year. Such hired meters shall be kept in repair at the cost of the Commission, except as to external injuries, the cost of repairing which shall be borne by the hirer.

9. In the event of the hirer being dissatisfied with the registering of any meter hired from the Commission, he may, by notice in writing, require the Commission to cause such meter to be removed and tested; and, together with such notice, shall forward a sum of Ten shillings, which, if the meter be found to register correctly, shall be applied in paying the cost of the removing, testing, and replacing, and the balance, if any, shall be returned to him; but if such meter be found to fail to register, or be found to register incorrectly, it shall be repaired and replaced, or another meter shall be

placed instead thereof at the cost of the Commission, and the amount deposited by the hirer shall be returned to him. Any person so hiring a meter from the Commission who shall cease to occupy the premises on which such meter is fixed without having previously given, in writing, at least six days' notice to the Commission of his intention to do so, shall be guilty of an offence.

10. If any meter cease registering, or be found to be out of repair or registering inaccurately, the Commission may estimate and charge for the water consumed during the period such meter was not in working order and until repaired and refixed, either by taking an average of the quantity used during the previous quarter, or during the corresponding period of the previous year.

11. Meters, other than such as are hired from the Commission, will be tested on delivery thereof at the office of the Commission, at Castlemaine, and a fee of One shilling shall be charged for each test.

12. 14. All water troughs supplied from the pipes of the Commission shall be lined with metal, so as to be watertight, and shall have proper and efficient fittings for supplying them automatically and for preventing overflow. All such troughs and fittings shall be kept in proper order and repair. No water trough shall be of greater capacity than twenty-five gallons. Should any trough or fitting thereof be out of repair or leaking, the supply thereto may be cut off until efficiently repaired.

15. If any person supplied with water by the Commission does, or causes to be done, anything in contravention of this By-law, or fails to pay any rates or charges lawfully due by him, or fails to do anything which under this By-law ought to be done, or wilfully or negligently allows water to run to waste, the Commission may, in addition to any other remedy, cut off the supply of water from the premises of such person, either by cutting the pipes by or through which water is supplied or otherwise, and may cease to supply him with water so long as the cause of complaint remains or is not remedied.

16. Except as hereinafter provided, the charge to be paid for water supplied by measure from the pipes of the Commission shall be Twelve pence per 1,000 gallons.

17. The minimum quantity of water to be charged for by measure in each case where water is supplied from the pipes of the Commission shall be as follows:—

- (1) Where the supply is for domestic as well as for other than domestic purposes, the quantity which, if charged for at Twelve pence per 1,000 gallons, would give an amount equal to that payable in respect of the premises so supplied under the provisions of any By-law of the Commission for making and levying rates, if such premises were supplied otherwise than by measure; for all quantities in excess of such minimum quantity the charge shall be Sixpence per 1,000 gallons.

- (2) Where the supply is solely for other than domestic purposes, a quantity which, if charged for as provided by the last preceding clause, would give a sum of Five shillings for any continuous period of three months.

18. In the construction of this By-law the word "person" shall extend to and include a corporation, whether aggregate or sole; the expression "proper officer" shall mean an officer or servant of the Commission, authorized to perform any act or to accept service of any notice or to execute any function on behalf of the Commission.
