PERIODICAL ADJUSTMENT OF WAGES AND PIECEWORK.

(5) (a) The wages rates set out in Clause (4) are based upon a basic wage rate of 69s. and, pursuant to the provisions of Section 21 of the *Factories and Shops Act 1934*, shall be automatically increased or decreased by the same amount, and at the same time, as such basic wage rate.

The basic wage rate shall be adjusted as prescribed in Clause (6).

(b) The wages of Apprentices, improvers, and juvenile workers in receipt of 20s. per week or more shall be adjusted proportionately to adjustments of the basic wage—such adjustments to be to the nearest 3d., half or less than half of 3d. to be disregarded.

The piecework prices shall also be adjusted proportionately to adjustments in the basic wage.

ADJUSTMENT OF BASIC WAGE.

(6) (a) For work done before the beginning of the first pay period to commence in March, 1937, the amount of the basic wage shall be 69s.

(b) For work done during each future successive period beginning with the first pay period to commence in a March, a June, a September, or a December, the amount of the basic wage shall be adjusted by the following method according to the position and fluctuations (if any) of the Commonwealth Statisticians "All Items" retail price index numbers.

For the purposes of this Determination the expression "Commonwealth Statisticians retail price index numbers" or any like expression means the numbers stated to be such index numbers in any document purporting, and not proved to be wrongly so purporting, to be printed by the Commonwealth Government Printer or to be signed by or on behalf of the Commonwealth Statistician.

(1) Adjustment is to be based upon the equating of index number 1,000 with a wage of 8s., the amount assessed upon that number of the declared ordinary basic wage per week of the Commonwealth Court of Conciliation and Arbitration.

(2) The index number to be applied to any place is that assigned to Melbourne.

(3) The index number for the calendar quarter next preceding the period of thirteen weeks for which the adjustment is made is to be ascertained.

(4) The amount assigned in the following table (or in any extension thereof) to the index number division comprising that number is to be ascertained.

(5) The basic wage shall be of that assigned amount during such successive period.

Provided, however, that if that assigned amount of the basic wage be different by less than 2s. from the last current amount of the basic wage, then that last current amount of such basic wage shall continue unchanged during such period.
