† As regards Items Nos. 1065-1067, the rates are based on the price of £44 1s. 3d. per ton, which is the equivalent in Australian currency of the London Metal Exchange price in English currency for E.C. Wire bars at £35 5s. 0d. The rates are to be varied up or down by one-tenth of a penny per lb. of copper for each complete 20s. or part thereof by which the price in Australian currency of E.C. Wire bars, on the date of receipt or order, is greater than £44 19s. 11d., or less than £44 per ton respectively. The equivalent in Australian currency of the London Metal Exchange price of E.C. Wire bars is the London Metal Exchange price for E.C. Wire bars as issued by the Australian Mines and Metals Association on that day increased by the same percentage as is quoted by the Commonwealth Bank or substituted authority as the buying rate for T.T. on London. If no price of Wire bars is issued by the Association on any day, the last price issued prior to that day shall apply. In the event of a dispute concerning the published price of Wire bars the figures advised by the Australian Mines and Metal Association as last received by them from the London Metal Exchange prior to the day of the receipt of the order shall be mutually accepted.

If no buying rate is quoted by the associated banks for T.T. on London on any day, the rate last published earlier shall apply. In the case of a dispute concerning the published buying rate for T.T. on London, the figures advised by the associated banks as last published by them prior to the day of receipt of the order shall be mutually accepted.

† As regards Items 1127 and 1128, rates are based on the price of £36 per ton for Electrolytic Copper Wire Bars. The rates are to be varied up or down by 0.14d. for every £1 or pro rata for part of £1, in the rise or fall in the official London Metal Exchange price for E.C. Wire bars ruling in London on date of receipt of telegraphed order by the factory. It shall be the obligation of the Contractor to advise the Comptroller of Stores the rate at which the order is booked.

As regard Item 1065, the rate is for orders of not less than 3 cwt., and for Items 1066 and 1067 for orders of not less than 2 tons.

**TELEGRAPH AND TELEPHONE MATERIAL.**  
(Schedule No. 53).

8. SPECIFICATION FOR DRY CELLS.—Item No. 1896.

- (a) **General.**—The Cells are required for light intermittent service such as telephone operation, bell ringing and similar work. Except where otherwise specified in this specification cells shall comply with British Standard Specification No. 397 of 1933, and are therein designated as type D.R. 3.
- (b) **Terminals.**—Two knurled brass terminals shall be provided, fixed in an approved manner to the electrodes.
- (c) **Samples.**—The tenderer shall submit with his tender two sample Cells.
- (d) **Tests.**—All of the Cells delivered will be subjected to the following test in addition to the appropriate tests specified in B.S.S. 397 of 1933—  
The current reading at the expiration of one minute will be measured through a resistance of 3 ohms., including the resistance of the ammeter. It shall not be less than 480 milliamperes in the case of a new cell.
- (e) **Branding.**—Cells shall be branded "VICTORIAN RAILWAYS," and the method of branding to be adopted shall be stated by the tenderer in the tender. Cells shall also be branded with the words TESTED BY and DATE, a sufficient space being left at the side of these words to accommodate the signature and date affixed by the Railways Testing Officer.
- (f) **Packing.**—The Cells shall be delivered securely packed in strong cases containing 50 cells in each case. There shall be a moisture proof covering between cells and packing.
- (g) **Efficiency.**—The tenderer shall state the guaranteed capacity in watt. hours of each Cell offered by him, but in no case shall the minimum output be less than 35 watt. hours. The electrical efficiency of a cell offered under this specification shall be the watt. hour output as determined by tests conducted by the Department on sample cells extracted from each delivery. Where the Cells are manufactured in the Commonwealth, 12 cells chosen at random from each delivery shall be taken. Of these, 6 shall be submitted to watt. hour capacity tests as described hereunder. The remaining 6 shall be held for further joint or independent tests in event of the Contractor wishing to dispute the results of the Department's tests. In this event the value of these remaining 6 cells shall be deducted from payments to be made to the Contractor. The watt. hour capacity tests shall be conducted as specified in B.S.S. 397/1933. These tests will be conducted in the Laboratory of the Department. The watt. hour capacity of the Cells supplied will be taken as being the average of the cells so tested and will be the basis upon which the deductions referred to hereunder in regard to deficiencies in watt. hours will be enforced.
- (h) **Deficiency in Watt. Hours.**—Should the watt. hour capacity as determined by the tests set out in the preceding paragraph indicate that the cells are furnishing a watt. hour output of less than 35 watt. hours per cell, the Contractor shall forfeit from the amount withheld, an amount per cell bearing the same proportion to the contract price as the reduction in watt. hour capacity bears to the minimum watt. hour output required, i.e., 35 watt. hours.  
Should the 5% withheld in accordance with paragraph (i) be insufficient to cover the claim of the Department, the Contractor must agree to accept a corresponding reduction in price from payments due for cells delivered. Nothing in this specification or in the conditions of contract shall prejudice the right of the Department to recover from the Contractor any amount exceeding the 5% retained should this amount be insufficient to cover the claim.
- (i) **Acceptance.**—A payment of 95% of the Contract price will be made for Cells accepted as having passed the tests as laid down in this specification and as having been correctly delivered in other respects. The balance of 5% will be withheld until the tests referred to in paragraph (g) have been completed.

9. SPECIFICATION FOR W.P. 2 POROUS POTS.—Items No. 1910.

Pots shall comply with B.S.S. 397/1933 in so far as it applies.

Brass terminals shall be fixed to top of carbon in approved manner so as not to become loose or detached in service.

Maker's name shall be branded on porous pot, also the words "Victorian Railways."

Tenderers shall submit with their tender two (2) sample Pots for testing purposes.

Pots shall be sufficiently porous to pass the following tests:—

Pots shall be filled with water to a depth of 4½ inches, and water maintained at this level for 24 hours with suitable precautions against evaporation. At the end of this period not less than 100 cubic centimeters of water shall have passed through the pot.

10. Item 1913—The components of the Bell set should be those of the B.P.O. Bell set No. 25. The induction coil and antisidetone coil should also be the B.P.O. standard of Bell set No. 25 and telephone 162.

The telephone parts should be those of B.P.O. telephone 162 and the handset should be B.P.O. telephone 164.

The dial shall be B.P.O. type No. 10.

TELEGRAPH AND TELEPHONE MATERIAL—Continued.

Exchange is effective as notified by the Commonwealth Bank. The amount subject to adjustment for item 1913 is 30/- each. The rates for items 1900 and 1901 are firm for Exchange.

**SERGE AND TWILL, ETC.**

(Schedule No. 58).

**7. SPECIFICATION FOR TASMANIAN BLUEY CLOTH.—Item No. 1953.**

The material required under this specification is the woollen cloth known as "Tasmanian Bluey," and is to be used for the manufacture of overalls supplied to employes who handle battery (Sulphuric) acid.

The cloth shall weigh not less than 27 oz. per lineal yard and shall be supplied in rolls not less than 56 inches wide and containing not less than 50 yards.

Not less than six (6) test pieces shall be cut in each direction from the cloth, and these test pieces when tested in a Goodbrand cloth testing machine shall have an average tensile strength of not less than 36 lb. per inch width, the test pieces being two inches wide and exposed nine inches between the grips.

Samples of the cloth shall be completely immersed at room temperature for 24 hours in sulphuric acid of 1.3 sp. gr., then washed in running water until free from acid, and after wringing out surplus water shall be hung up for 24 hours to dry.

The cloth so treated shall not be visibly affected by the acid, and test pieces cut from it, when subjected to the tensile test described above, shall give results not less than 10% lower than those obtained on the untreated cloth.

**SPECIFICATION FOR SERGE AND TWILL.—Items Nos. 1954 to 1957.**

**8. Quality.**—Only new, good, sound wool shall be used.

**9. Finish.**—All materials shall be of good appearance, durable and free from faults, and shall correspond to the contract sample in thickness, color, weight, nature and closeness of the texture of the fabric, raising and shearing on both sides. All material shall be delivered thoroughly dried and clean, scoured free from grease, soap, or other admixture which may be used to give fictitious weight or substance to the goods, and thoroughly shrunk. It shall be free from grass seeds, burrs, and all other imperfections.

**10. Dyeing and Color.**—All material shall be dyed dark blue with indigo dye. The color shall correspond with that of the contract sample, and shall be thoroughly fast and not liable to rub off freely. A portion of the material may be tested by lengthened exposure to the weather or otherwise to determine whether the color is fast.

**11.** The material shall be all Wool, Dark Blue, 58 inches wide, exclusive of selvages.

**12. Selvages and Identification Threads.**—Every piece of material shall have two selvages of not less than three-eighths of an inch in width. There shall be woven into the selvages and also in the full width of the heading and end of each piece of material one thread of pale blue.

**13. Threads per Inch.**—The number of warp and weft threads per square inch shall not be less than that set out under clause 22 of this specification.

**14. Width and Folding.**—All material shall be 58 in. wide without selvages, and shall be correctly folded down the middle with the selvages straight and even. For the purpose of this specification the width shall be measured exclusive of selvages; a variation of one quarter of an inch either way will be accepted.

**15. Weight.**—The weight per yard shall not be less than specified in the schedule. The weight shall be determined by dividing the total weight of each or any piece by the full length of the piece.

**16. Marking.**—Each and every piece of material shall bear the mill number stencilled or marked into the end, and in addition shall have a ticket attached showing the class of cloth, weight, length and piece number.

**17. Inspection during Manufacture.**—The Comptroller of Stores or the Receiving Officer, shall have free access to the works of the manufacturer at all reasonable times. He shall be at liberty to inspect the manufacture at any stage, and to reject any material that does not conform to the terms of this Specification.

**18. Tests.**—The material shall be subjected to such tests as may be deemed necessary to ascertain whether it complies with this Specification. For the purpose of such tests the Comptroller of Stores shall be entitled to cut off and destroy a portion not exceeding eighteen inches in length from the end of as many pieces as may be considered necessary, and shall be further entitled to wash and dry any piece of material supplied under this Specification. In the event of rejection as the results of such tests, the manufacturer shall not be entitled to any payment or compensation for material destroyed or damaged in making the tests. Tensile tests shall be carried out as described in clause 19.

**19. Tensile Strength and Stretch.**—Four specimens shall be cut from each portion of material reserved for test as described in clause 18. Two specimens shall be cut in the direction of the warp, and two in the direction of the weft, in such a manner that no two specimens cut in the same direction shall contain the same longitudinal threads.

The test specimens shall be  $6\frac{1}{2}$  inches wide and the threads shall be frayed out from each side so as to reduce the test width to 6 inches. They shall then be placed evenly in the jaws of a suitable testing machine so that the unstretched length of the fabric between the jaws is 7 inches, and shall be broken without delay. The load shall be applied at the rate of 150 lb. per inch width per minute. If a specimen breaks in the jaws at a load much lower than that required, a duplicate test shall be made on another test piece, including the same threads.

SERGE AND TWILL, ETC.—continued.

20. **Flaws and Deductions.**—All damage or flaws must be clearly marked on each piece of material, and for each and every damage or flaw a deduction of not less than one quarter yard shall be made by the Comptroller of Stores, and the ticket attached in accordance with clause 16 shall be clearly marked with the total amount deducted and the yardage to be paid for. The number of faults in any one piece of material shall not exceed one in every ten yards.

21. **Rejection.**—Should any portion of a delivery fail to satisfy the requirements of this Specification, the whole or portion of the delivery may be rejected. Each and every piece of material so rejected shall have the heading removed, and no piece of material from which the heading has been removed will be accepted.

22. Particulars of the Cloth are:—

The tenderer shall submit a sample of at least one yard of each of the materials which he tenders to supply, and in the event of the tender being accepted, such sample shall become the Contract sample, and all deliveries shall conform thereto in every respect.

1. *Interpretation of Terms.*—In these Regulations “the Trust” or “the said Trust” shall mean the Drouin Waterworks Trust: “Minister” shall mean the Minister of Water Supply.

2. *Period for which Commissioners shall hold Office.*—The period for which the Commissioners shall hold office shall be three years, and shall date on and from the date of election.

3. *Extraordinary Vacancies, How Filled.*—Should any vacancy in the office of Commissioner be occasioned by death, disqualification, or any other cause whatever, the same shall be filled up by election under these Regulations, within one month after the vacancy has occurred, and the person elected to fill such vacancy shall hold the office of Commissioner during the unexpired portion of the term of office of the Commissioner whose seat shall have become vacant.

4. *Date of First and Subsequent Election of Commissioners.*—The first election of Commissioners under these Regulations shall be held on the 31st day of October, 1938, and the ordinary election of Commissioners shall be held on the 31st day of October in each succeeding triennial year. In making out such list of voters, if the property in respect of which any ratepayer is entitled to vote is only in part within the Waterworks District, then the number of votes of such ratepayer in respect of such property shall be reduced in the proportion which such part bears to the whole property of such ratepayers rated in the municipal district.

8. *Returning Officer.*—The Returning Officer shall be appointed by the Trust, or in default of such appointment, shall be the secretary of the Trust.

9. *Notice of Election—Nomination of Candidates—Second Schedule.*—Fourteen clear days before any election of Commissioners under these Regulations, the Returning Officer shall give public notice of such election by advertisement inserted in some newspaper generally circulating in the Drouin township, and by such notice shall require all candidates at such election to be nominated at some place within the said township to be named in such notice in manner hereinafter mentioned, between the hours of Ten o'clock in the forenoon and Four o'clock in the afternoon on some day before a day (hereinafter called the day of nomination) not less than four nor more than seven days after the time of giving such notice and named therein, and every candidate at any such election shall before Four o'clock in the afternoon of the day next preceding the nomination day lodge with the Returning Officer at the place aforesaid a nomination-paper in the form in the Second Schedule or to the like effect stating therein both his christian

11. *Where Number of Candidates Does Not Exceed Number of Commissioners to be Elected.*—If, at the expiration of the time limited as hereinbefore provided for the nomination of candidates, the number of persons who have become candidates as aforesaid does not exceed the number of Commissioners to be elected, the Returning Officer shall then declare such candidates to be duly elected, and they shall be deemed to be then duly elected accordingly.

12. *Where Number of Candidates Exceeds the Number of Commissioners to be Elected—Third Schedule—Notice of Poll—Hours of Polling.*—If, at the expiration of the time limited for the nomination of candidates, the number of candidates exceeds the number of Commissioners to be elected, then the Returning Officer shall forthwith cause the ballot-papers to be printed, with the christian names and surnames of all the candidates in full in the form of the Third Schedule hereto, and shall also give public notice by advertisement in some newspaper circulating in the Drouin township, stating the names of the persons so nominated, and that a poll will be taken for the election of such Commissioners upon a day named in such notice, at such place within the said township as the Returning Officer shall in and by such notice appoint; and such poll shall take place accordingly, and shall commence at Eight o'clock in the forenoon and close at Four o'clock in the afternoon.

13. *Retirement of Candidates Before Polling Day.*—If, at any election, after a poll shall have been appointed as aforesaid any candidate for such election, and two of the persons having signed the paper nominating him as aforesaid, are desirous that he should retire from such candidature, such candidate and the persons aforesaid may sign and deliver to the Returning Officer, not later than four clear days before the day of polling, a notice in the form of the Fourth Schedule hereto, stating that such candidate so retires; and the said candidate or his agent shall thereupon publish in some newspaper generally circulating in the Drouin township a copy of such notice, and the Returning Officer, on sufficient proof of such publication aforesaid, if the number of candidates is by such retirement reduced to the number of persons to be elected at such election shall, on the day appointed for the election, declare the remaining candidates duly elected; and, if the said number is not so reduced, shall omit the name of the person so retiring from the ballot-papers to be used at the said election, and, if such papers are already printed, shall erase such name therefrom; and such person shall not be capable of being elected at such election.

14. *Polling Booth May be Hired.*—At such election the Returning Officer shall provide a suitable place for taking a poll, and may, if necessary, cause to be hired and used as a polling booth any room which he may deem to be suitable at the place appointed for taking the poll, and may divide such room into compartments as to him may seem most convenient.

15. *Returning Officer to Preside at Polling Booth.*—The Returning Officer or his deputy shall preside at the polling booth for taking the poll.

16. *Scrutineers May be Appointed.*—Each candidate shall be entitled to appoint, in writing, one scrutineer to be present in the polling booth, and the said Returning Officer or his deputy, and the said scrutineers, and any voters not exceeding four in number, actually engaged in voting, shall alone be permitted at any one time to enter or remain in the polling booth.

17. *Pencils to be Provided.*—The Returning Officer or his deputy shall provide pencils in the polling booth for the use of the voters, and also a locked box, to be called the ballot-box, with a cleft or opening therein capable of receiving the ballot-papers, and such box shall be opened and exhibited to the scrutineers before the polling begins; and the box shall then be locked, and shall stand on a table opposite the Returning Officer or Deputy Returning Officer, who shall keep the key of such box.

18. *Mode of Voting.*—The Returning Officer shall deliver to every voter who requires the same a ballot-paper, or if such voter appears by the roll to be entitled to give more votes than one, then so many ballot-papers as may be equal to the number of votes which such voter so appears to be entitled to

give; such ballot-papers being in the form of the Third Schedule hereto, and initialed by the Returning Officer; and every such voter shall, without leaving the booth, strike out from all or any of such papers the name of every candidate for whom he does not intend to vote. And in case any voter is unable to read or write, the Returning Officer or his deputy, if so required, shall, in view of such one of the scrutineers as the voter may desire, strike out the name or names of such candidate or candidates as such voter may designate; and after such name or names have been so struck out, the ballot-paper or ballot-papers (as the case may be) shall forthwith be deposited in the said box. Provided that all the ballot-papers to which any person may be entitled at the polling booth shall be demanded and received by him at one and the same time; and no person having once demanded and received any such ballot-paper or papers, and voted by the same, shall at the same election receive any further ballot-papers, or exercise any further right of voting.

19. *Ballot-papers to be Numbered.*—Before delivering any ballot-paper to the voter, the Returning Officer or his deputy shall write upon the back of each such ballot-paper, as near as practicable to the lower edge thereof, the number set opposite to the voter's name in the roll, and shall thereupon, upon a copy of such roll, check off such voter's name as having voted, and mark against such name the number of ballot-papers delivered to such voter.

20. *Plumping Prohibited.*—At every such election every voter shall strike out from the ballot-paper the names of the candidates for whom he does not desire to vote, and if he suffers to remain on the ballot-paper a greater or less number of names not struck out than the number of Commissioners to be elected the vote given on and by the ballot-paper shall be void and of no effect.

21. *What Question May be Asked.*—At any election of Commissioners the Returning Officer may, if he see fit, or if required to do so by any candidate or scrutineer, put to any person tendering his vote the question following:—

"Are you the person whose name appears as (A.B.) in the roll now in force for this Trust, being enrolled therein in respect of property described to be situated in (here specify the street or other place described in the roll)?"

And no other question shall be put to any person tendering his vote; and no person who shall refuse to answer such question, or who shall not answer the same absolutely in the affirmative, shall receive a ballot-paper or be permitted to vote.

22. *False Answer, Polling Twice, and Personation.*—Every person who shall wilfully make a false answer to the question aforesaid, or who shall poll more than once, or offer to poll more than once at the same election, or who shall depart or attempt to depart from any polling booth after having received a ballot-paper without having deposited the same in the ballot-box, as hereinbefore provided, or who shall personate any other person for the purpose of polling at such election, shall be guilty of a breach of these Regulations; but nothing contained in this clause shall apply to any person only by reason of his exercising the right of voting as often as it appears by the roll he is entitled so to do.

23. *Result of Polling—How Ascertained.*—Immediately on the close of the poll, the Returning Officer shall, in the presence of and subject to the inspection of so many of the scrutineers of the candidates as please to be present, proceed to ascertain the number of votes for each candidate; and such Returning Officer shall abstain from inspecting the number written as aforesaid on any ballot-paper, and take care that the same is not seen by any person before being sealed up as herein provided; and the Returning Officer shall seal up the ballot-papers deposited in the booth, and as soon as conveniently may be on or after the day of the poll, publicly declare the candidates, not exceeding the number of vacancies to be filled up, who have received the greatest number of votes to have been duly elected Commissioners of the Trust and if two or more candidates have received an equal number of votes, the Returning Officer shall determine by lot the candidate to hold office.

24. *Ballot-papers, How Disposed of.*—The Returning Officer shall forthwith after the declaration of the poll endorse with a description of the contents thereof, and sign the sealed parcel of ballot-papers, and forward the same to the secretary of the Trust, to be by him safely and secretly kept for six months then next ensuing, and then by him caused to be destroyed in the presence of three Commissioners of the Trust.

25. *Minister to Determine Question Arising Upon First Election.*—If any question arise as to the due election of any Commissioner at the first election, the Returning Officer shall, at the request of any voter or candidate, submit such question, in writing, to the Minister, who shall decide the same; and such decision shall be final and binding.

26. *Questions Arising Upon Subsequent Election to be Determined by the Trust.*—If any question arise as to the due election of any Commissioner at any subsequent election (whether ordinary or extraordinary), such question shall be determined by the Commissioners of the Trust at the first ordinary meeting held after the election; but no Commissioner in respect of whose election such question shall have arisen shall act as

a Commissioner at such meeting, or be entitled to take any part in the proceedings thereof, or in any manner or at any time to act as a Commissioner until such question shall have been so determined; and the majority of the Commissioners whose election is not in dispute shall form a quorum.

27. *Appeal to Minister from Determination of Trust.*—In event of any voter or candidate feeling aggrieved by the determination of the Trust with reference to any such question as last aforesaid, he may appeal therefrom to the Minister within fourteen days from the date upon which the Commissioners shall have determined the question and the Minister may make such inquiry as to the merits of the question as may appear to him to be necessary, and determine such question in such manner as to him may appear just; and such determination of the Minister shall be final and binding.

28. *Failure to Elect Deemed to Create Extraordinary Vacancies.*—If at any election of Commissioners any vacancies less than the whole number which should have been filled up at such election are not filled up, then the vacancies which are not so filled shall severally be deemed extraordinary vacancies and to have occurred on the day appointed for such election. Provided always that the Commissioners eventually elected or appointed to fill such vacancies shall go out of office as if elected at such election.

29. *Expenses of Election to be Paid by Trust.*—The expenses incurred by the Returning Officer, or under his direction, in connexion with any election shall be defrayed by the Trust.

30. *Penalty for Breach of Regulations.*—Any person guilty of a breach of any of the provisions of these Regulations shall be liable to a penalty not exceeding Ten pounds, to be recovered in a summary manner before justices of the peace.
