## Marine Act 1928.

## MARINE BOARD OF VICTORIA.

## REGULATIONS FOR THE INSTALLATION OF WIRELESS EQUIPMENT ON VICTORIAN INTRA-STATE SHIPS.

IN pursuance of the powers conferred upon it by the *Marine Act 1928*, and all other powers it enabling, the Marine Board of Victoria, with the consent of His Excellency the Governor of the State of Victoria, acting by and with the advice of the Executive Council thereof, doth hereby make the following Regulations:—

1. These Regulations may be cited as the Regulations for the Installation of Wireless on Victorian Intra-State ships. Short title.

2. These Regulations shall take effect on, and from the date of publication hereof in the *Government Gazette* from which date all previous Regulations relating to the installation of wireless equipment on intra-state ships shall be and stand repealed. Commencement and repeal.

3. For the purpose of these Regulations, unless the context otherwise requires, the following expressions have the meanings respectively assigned to them:— Definitions.

“Normal Range by Reckoning” means normal range reckoned in relation to power in metre-amperes in the case of spark installations or fully modulated interrupted continuous wave transmitters on the assumption that:—

100 nautical miles corresponds to 60 metre-amperes,

80 nautical miles corresponds to 45 metre-amperes,

50 nautical miles corresponds to 25 metre-amperes,

the number of metre-amperes being determined by multiplying the actual height (in metres) of the aerial at its highest point above the deepest load water line of the ship by the current in amperes measured at the base of the aerial.

“Normal Range by Test” means the prescribed range proved efficient by test during daylight hours between a ship and a station on land having an aerial elevated above the ground to a height not exceeding 200 feet and employing a receiver of the crystal type without amplification devices.

“Passenger Ship” means any ship or boat which is certified or licensed to carry more than twelve (12) passengers.

“Cargo Ship” means any ship which is not a passenger ship or a tugboat.

“Operator” means a person who holds a valid First-class or Second-class Commercial Operator's Certificate of Proficiency issued by the Postmaster-General under Regulations made under the *Wireless Telegraphy Act 1905-1919* or a certificate recognized by him as equivalent thereto.

“Wireless Signaller” means a person who holds a valid Third-class Operator's Certificate of Proficiency issued by the Postmaster-General under Regulations made or to be made under the *Wireless Telegraphy Act 1905-1919* or a certificate recognized by him as equivalent thereto.

“Open sea voyage” means a voyage in open waters beyond the limits of a port.

“Postmaster-General” means the Minister of the Commonwealth of Australia for the time being administering the *Wireless Telegraphy Act* and Regulations, and includes any Minister or member of the Federal Executive Council for the time being acting for or on behalf of the Minister, or any other Federal officer to whom the Minister may delegate his authority.

“Board” means the Marine Board of Victoria.

4. The ships to which these Regulations apply shall for the purpose of these Regulations be divided into two classes, as follows:— Application and classification.

Class “A” shall include—

(1) Passenger ships engaged on open sea voyages.

(2) Cargo ships of 500 tons gross tonnage and upwards engaged on open sea voyages.

(3) Tugboats, steam fishing vessels, and seagoing dredges engaged on open sea voyages exceeding a distance of one hundred (100) miles from the limits of the Port of Port Phillip.

Class "B" shall include—

- (1) Passenger ships on voyages within the limits of a port which are at any time during the voyage more than two miles from land.
- (2) Cargo ships of 200 tons gross tonnage and upwards, but not exceeding 500 tons, engaged on open sea voyages.

**Requirements.**

5. (1) Every ship to which these Regulations apply shall be provided with a wireless telegraph installation which shall, except where a single installation complies with all the requirements of these Regulations relating to both main and emergency (reserve) installations, comprise a main installation, and also an emergency (reserve) installation, both of which shall comply with all the requirements of these Regulations respectively relating thereto, and shall be so constructed as to be capable of—

- (a) transmitting waves of type A2 or type B on a frequency of 500 kilocycles (600 metres) and, if licensed for the exchange of commercial messages, also on a frequency within the band from 500 to 333 kilocycles (600 to 900 metres);
- (b) receiving signals on all frequencies between 1,580 and 300 kilocycles (180 and 1,000 metres) by means of a receiver of the thermionic valve type of such a character as to afford the greatest protection from interference from any source during the reception of signals.
- (c) maintaining reception by means of a rectifier of the crystal type; and
- (d) allowing changes from transmission to reception and changes from reception to transmission and also changes of frequency as rapidly as possible.

(2) In the case of a ship of Class "B," except where an operator is carried on board, the installation shall include a device capable of automatically transmitting the distress signals prescribed by the General Radiocommunication Regulations adopted by the International Telecommunication Convention held at Madrid (1932) or any Regulations prescribed by a subsequent International Telecommunication Convention.

(3) All transmitters installed on ships to which these Regulations apply shall have a note frequency of not less than one hundred (100).

(4) All parts of the installation which are likely to constitute a danger to any person shall be either screened or effectively isolated.

**Range.**

6. The normal range of the transmitters shall be not less than—

- (1) In the case of the main transmitter—
  - (a) a normal range by reckoning of 100 nautical miles; or
  - (b) a normal range by test of 150 nautical miles.
- (2) In the case of the emergency (reserve) transmitter—
  - (a) a normal range by reckoning of 50 nautical miles; or
  - (b) a normal range by test of 75 nautical miles.

**Position of installation.**

7. (1) The installation, whether main or emergency, shall be placed in a position approved by the Board, or an authorized officer of the Board, as high as practicable above the deepest load water line of the ship and shall be housed where it will not affect the ship's compass; and

(2) Where the installation is elsewhere than on the bridge, there shall be provided efficient means of communication with the bridge by means of voice pipe, telephone, or other means equally efficient.

**Power.**

8. (1) There shall be available a supply of electrical power from the ship's dynamo sufficient for—

- (a) operating the main installation over the normal range required by these Regulations at all times when the ship is at sea; and
- (b) charging efficiently all batteries forming part of the main and emergency (reserve) installation when necessary.

(2) The emergency (reserve) installation shall include an independent source of electrical energy sufficient to maintain that installation in operation over the normal range required by these Regulations continuously for a period of at least six hours without recourse to the propelling power of the ship or the main electricity system. The source of energy shall be placed as high above the deepest load water line as is practicable, so that the greatest possible degree of safety may be secured.

(3) All batteries forming part of the wireless installation shall be kept fully charged and in all other respects efficiently maintained and must not be used for any purpose other than supplying energy for the wireless installation.

9. The emergency (reserve) installation shall not be used otherwise than for the purpose for which it is installed, except when it is necessary or desirable that communication should be limited to short range. Restriction  
emergency  
installation.

10. The room in which the wireless installation is placed shall be provided with— Wireless  
room.

- (a) a reliable clock with seconds hand;
- (b) a reliable emergency light (which may be an oil lamp);
- (c) sufficient suitable tools to effect minor adjustments of the installation, together with spare apparatus and parts sufficient to maintain the installation in an efficient working condition.

Provided that, if the hours at sea do not exceed eight (8), then for the whole of the time the ship is at sea.

*Note.*—These times are subject to any variation made in the agreement between the Commonwealth Steamship Owners' Association and others of the one part and the Radiotelegraphists' (Marine) Institute of Australasia of the other part and certified in the Commonwealth Court of Conciliation and Arbitration.

## TENDERS FOR GRAZING LANDS.

FOR THE PERIOD 1ST APRIL, 1936, TO 30TH SEPTEMBER, 1936, EXCEPT WHERE OTHERWISE STATED.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Lands Department Tender-box, State Treasury Buildings, Melbourne, C.2, at or before Noon on Wednesday, 25th March, 1936.

**NOTE.**—No tender will be accepted unless the fee for the full period and fee of Seven shillings and sixpence for licence are forwarded.

**TENDERS** will be accepted at or before Noon on Wednesday, 25th March, 1936, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 121 of the *Land Act 1928* shall be subject to the conditions set forth in the Schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

## CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 121st section of the *Land Act 1928*, or being resumed by order of the Governor or Administrator of the Government of Victoria with the advice of the Executive Council.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miner's rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 123 of the *Land Act 1928* the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognized.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling or other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all noxious weeds on the land, and on the half-width of the adjoining roads, and shall be responsible for the destruction of noxious weeds under the *Vermin and Noxious Weeds Act 1928* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. The licensee shall thoroughly and effectively protect the land within the boundaries of his licensed area from fire, and shall extinguish any fire which may break out on such area or may spread to it. In the event of the area being damaged by fire, the licence may be forfeited, unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants, were in any way responsible for such fire.

19. The licensee shall not interfere in any way with any survey marks on the land hereby licensed.

#### SPECIAL CONDITIONS.

1. The period of occupation, except where otherwise stated, will be for six (6) months from 1st April, 1936, to 30th September, 1936.

2. The fee for the full period—for which the licence will be issued, and the fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name, occupation, and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing owned by him within one month, or he may arrange with the incoming tenant to pay for it in accordance with the provisions of section 124, Land Act 1928.

This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the incoming tenant will be held responsible for the care and maintenance of any improvements.

Plans can be seen and information may be obtained in this office.

Section 121, Land Act 1928, provides—

1. Where a licensee under section 121 of the Land Act 1928 has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.
