NOTE.—Where a female is employed to do any work for which a female rate is not prescribed in items 1, 2, or 3 of Table E, but for which a male rate is prescribed, the female shall be paid the rate which is prescribed for the male.

(3) LIMITATION OF EMPLOYMENT OF FEMALES.—A female employee shall not be employed in the mechanical departments of any office, except as a feeder on a letterpress, lithographic, or ruling machine, or as a copy holder, or on an addressograph machine, or on such work as is now usually done by a female in a bookbinding or printing establishment.

(4) NUMBER AND PROPORTION OF STEREOTYPERS' ASSISTANTS.—Not more than one adult stereotyper's assistant shall be employed in any newspaper office for each stereotyper permanently employed. For the purpose of this clause "permanently employed" means continuously employed for a period of not less than six calendar months.

(5) ORDINARY WEEK'S WORK.—The number of hours which shall constitute an ordinary week's work shall be as follows:—

Day shift	44 hours.
Night shift—	
Machine compositors ..	42 hours.
All others	44 hours.

(6) SHIFTS—

(a) *In Daily Newspaper Offices—*

Day Shift—

The hours of duty on Monday to Saturday inclusive shall not exceed seven hours twenty minutes a day on any five working days and nine hours on one working day. Such hours shall be worked between 8 a.m. and 6 p.m. provided that when work finishes not later than 12.30 p.m. on Saturday up to eight hours a day may be worked from Monday to Friday inclusive.

Provided further that the time of starting work of the linotype mechanic or other male person who attends to arrange the heating of linotype or like metal pots may be 7.30 a.m.

Night Shift (i.e., work, other than overtime work, performed between 6 p.m. and 8 a.m.)—

The hours of duty on Sunday to Friday inclusive shall not exceed seven hours twenty minutes per night on any five working nights and nine hours on any one working night.

(b) *In Any Other Place—*

Day shift—

The hours of duty shall not exceed eight hours on Monday to Friday inclusive, and four hours on Saturday, to be worked between 8 a.m. and 6 p.m. on Monday to Friday inclusive, and between 8 a.m. and 12 noon on Saturday. Provided that by agreement made with the employees the finishing time on Saturday may be extended to not later than 1 p.m., and provided further that the time of starting work of the linotype mechanic or other male person who attends to arrange the heating of linotype or like metal pots may be 7.30 a.m.

Night shift—

Night shift (i.e., work, other than overtime work, performed between 6 p.m. and 8 a.m.) must be worked within ten hours a night on Monday to Friday inclusive.

(c) *In Any Place—*

The hours of duty on night shift or unusual shift shall be arranged between each particular employer and the employees. A female employee or an employee under seventeen years of age shall not perform night shift work. When the hours of any night shift overlap the day shift hours, the night shift hours shall be observed, and the night shift wage shall be paid for such day.

The daily working hours of each office shall be conspicuously displayed in the work-room.

(7) OVERTIME.—(a) The following rates shall be paid for all work done:—

(i) In excess of or outside the hours fixed in clauses (6) or (7)—

(a) *In Daily Newspaper Offices—*

On Saturday after the finishing time of an employee	Double time.
On Sunday before the commencing time of an employee	Double time.
At any other time—	
First three hours	Time and a half.
Thereafter	Double time.

(b) *In Any Other Place—*

On Saturday after 12 noon	Double time.
At any other time—	
First three hours	Time and a half.
Thereafter	Double time.

(ii) On the sixth day or night, where the hours of the ordinary working week are worked within five days or five nights Double time.

(b) Where an employee is called upon to work overtime in excess of one hour after the usual finishing time of any shift, such employee shall be paid for two hours' work at overtime rates at the least. Where notice of overtime in excess of one hour has not been given during the previous shift, 2s. shall be paid as an allowance for tea money, and the same allowance shall be made for each meal reasonably occurring during such overtime work.

(c) Any employee required to work more than six consecutive shifts without a clear interval of 36 hours, after the sixth shift, shall be paid double rates for all work performed by him after the sixth shift until he shall have had such clear interval of 36 hours between shifts.

(d) No improver or juvenile worker under seventeen years of age, nor any female or apprentice, shall be on duty in any event before 8 a.m. or later than 9 p.m. on any working day.

(e) An employer shall not require or permit any female employee to work overtime after 6 p.m. unless at least one other female person is working with her.

(f) An employer shall not require or permit an employee to work overtime, or on night shift in connexion with power-driven machinery, unless he works in company with at least one other person.

(g) In a daily newspaper office two hours shall be paid for as a "call" to any employee brought in on any week-day to issue any special edition or do any work not in the ordinary working hours. Such call, together with the time worked, shall be paid for at the rate of time and a half or rate and a half, except on Sundays. On Sundays double time or double rate shall be paid for the call and the time worked with a minimum of two hours. This clause shall only apply when an employee is not notified before he leaves work that he will be required for special duty. In any case where an employee is brought in without notice because of another employee having unexpectedly absented himself from his work the provisions of this clause shall not apply, but the employee so brought in to work shall be paid double time or double rate for the hours worked by him, should such hours be outside his ordinary working hours for that week.

(h) In any other place one hour's time at the least, in addition to the actual time worked, or the time the employee is required to stand by for work, shall be paid for as a "call" to any employee brought in to do any other work not in the ordinary working hours, such to be paid for at the rate of time and a half, or rate and a half, except on Saturday afternoon and Sunday, when double time or double rate shall be paid.

(i) All overtime rates earned by an employee shall be paid in full, and no deduction shall be made from such overtime rates by reason of any time not worked by such employee.

(8) TERMS OF EMPLOYMENT.—(a) No employee shall be employed other than as a weekly time-work employee, or a weekly piece-work employee, or a temporary time-work employee, or a temporary piece-work employee.

(b) A weekly time-work employee, to become entitled to payment of a weekly wage, shall perform such work as the employer shall from time to time require on the days and during the hours usually worked by such employee, but such work shall be of a similar class to the work usually performed by such employee.

(c) Any weekly time-work employee not attending for duty will lose his pay for the actual time lost, unless he produces or forwards, within 28 hours of the commencement of such absence, evidence satisfactory to the employer that his non-attendance was due to personal ill-health necessitating such absence, but he shall not be entitled to payment for non-attendance on the ground of personal ill-health for more than six days in each year. Such year begins on the 1st day of July each year. An employee is to be entitled to not more than six days' payment in any year under this clause, notwithstanding that he may be employed by different employers.

(d) The following conditions apply to the employment of a weekly piece-worker:—

(i) On each working day or night of the week the weekly piece-worker shall present himself for employment, at the usual time for beginning work at the place of business of the employer, unless informed by the employer that his attendance on any day or any night is not required, but in any case where an employer has no work for a piece-worker to do on the next following shift he shall so inform the employee prior to his terminating work, and in any such case the employee shall not be obliged to present himself for work on the following shift.

(ii) If the weekly piece-worker begins work on any such day or night he shall (subject to the provisions of part (e) of this clause) receive not less than four hours' continuous employment or be paid for such four hours at the rate prescribed for a machine compositor on time-work.

(iii) Subject to the provisions of part (e) of this clause, a weekly piece-worker shall be guaranteed at least 30 hours' employment in any working week. If such employment is not provided for him in any week, and in such week the piece-worker complies with the provisions of paragraph (i) of this sub-clause, and faithfully performs all work provided for him during that week, he shall be paid for any hours short of this guarantee at the rate prescribed for a machine compositor on time-work, and this notwithstanding that any public holiday or holidays occur in such week.

(iv) For six days in any year such weekly piece-worker will be excused for not presenting himself for employment at the proper time and place, and such non-attendance shall not disentitle such piece-worker to payment for such absence if within 28 hours of the commencement of any such absence he produces or forwards to the employer evidence satisfactory to the employer that his non-attendance was due to personal ill-health necessitating such absence. The year begins on the 1st day of July each year. A weekly piece-worker shall be entitled to the benefits of this clause in respect of not more than six days during any such year, notwithstanding that he may be employed by different employers.

(v) A piece-worker shall be paid for five hours for each of the six absences provided for in this clause at the rate prescribed for a machine compositor on time-work. An employer shall be entitled to count such five hours in any week in which a piece-worker has been sick to make up the weekly guarantee of hours in any week in which a piece-worker has worked less than 30 hours.

(vi) In respect of each public holiday referred to in clause (11) of this Determination which occurs in any week, and on which the weekly piece-worker is not required to work by the employer, he shall be paid for five hours at the rate prescribed for a machine compositor on time-work.

(e) The employment of a weekly time-work or piece-work employee may be terminated by one week's notice on either side, and such notice may be given at any time during any week to take effect one week after the day on which it is given. This shall not affect the right of the employer to dismiss any employee without notice for malingering, inefficiency, neglect of duty, or misconduct, and in such cases wages shall be paid up to the time of dismissal only, or to deduct payment for any day the employee cannot usefully be employed because of any strike, or through any breakdown of machinery or any stoppage of work from any cause for which the employer cannot be held responsible.

(f) Where a weekly piece-work employee gives or receives one week's notice of the termination of his employment, he shall, during the one week that such notice runs, be given the same amount of piece-work as it has been customary for him to perform during the period of his engagement.

(g) If an employee's service be terminated during the course of a week he shall be paid all money due to him at the termination of his service, or all money due to such employee shall be forwarded to him by post within twenty-four hours thereafter.

(9) TEMPORARY WORK.—(a) Where a temporary employee (i.e., an employee engaged other than as a weekly employee) commences duty or where the employer expressly agrees to employ a temporary employee on any employment, and the temporary employee, in pursuance of such agreement, actually attends for duty, such employee—

(i) If a time-worker engaged in the publishing department, shall be paid for three hours of employment at the least.

(ii) If a time-worker engaged as a machine compositor, shall be paid for four hours at the least.

(iii) If a time-worker engaged in any other work, shall be paid for four hours at the least.

(iv) If a piece-worker, shall be given four hours' work at the least or paid for four hours at the appropriate rate for a time-worker.

(b) The hourly rate for any work for which a weekly rate is proscribed by this Determination is to be ascertained by dividing the weekly rate by the number of hours which constitute the employee's proscribed working week.

(c) A temporary employee, other than a temporary publishing employee, whether working at piece-work or time-work and working on day shift, shall be paid for such work the piece-work rate or the hourly rate proscribed for such work, with the addition of 10 per cent.

(d) A temporary employee, other than a temporary publishing employee, whether working at piece-work or time-work, and whether working mixed day and night shift, or night shift, or on work extending to not later than six o'clock Sunday morning, shall be paid for such work the piece-work rate or the hourly rate proscribed for night work, with the addition of 10 per cent.

- (e) A temporary publishing employee, working on day shift, shall be paid for such work the hourly rate of 2s. 1d. per hour.
- (f) A temporary publishing employee, whether working mixed day and night shift, or night shift, shall be paid for such work the hourly rate of 2s. 4d. per hour.
- (10) MIXED FUNCTIONS.—Where during any day an employee is employed on work requiring the performance of functions involving different rates of wages prescribed by this Determination, the minimum rate of wage to be paid to the employee for that day shall be calculated as if the employee performed such only of the said functions as involved the highest rate of wage.
- (11) LEAVE OF ABSENCE.—(a) Nothing in this clause has reference to absence occasioned by ill health.
- (b) *In a Daily Newspaper Office*—Every employee shall be entitled to and be allowed twelve consecutive working days' leave on full pay in respect of each completed period of twelve calendar months; and
- (c) *In Any Other Place*—Every employee shall be entitled to and be allowed six consecutive working days' leave and six public holidays on full pay in respect of each completed period of twelve calendar months' service.
- (d) In this Determination, "Public Holiday" means the day observed as any of the following days:—New Year's Day, Good Friday, Easter Saturday, Easter Monday, Labour Day, Christmas Day, Boxing Day, Australia Day (26th January), King's Birthday, or Anzac Day, together with such district or local holidays as may be observed in the district or place in which an employee works.
- (e) An employee, for his own purposes, and with the consent of the employer, may elect to take off an equivalent number of days, in lieu of and substitution for one or more of the public holidays to which this clause entitles him.
- (f) The period of twelve or six (as the case may be) consecutive working days shall include public holidays occurring within the period, but shall not include Sunday occurring within the period or Good Friday or Christmas Day.
- (g) Such leave shall be taken at such time as the employer deems convenient, but within three months of such holidays becoming due. The employer may, at his option, allow an employee to take such annual leave before the completion of such twelve calendar months' service.
- (h) If the employment shall be terminated after any annual leave shall become due, and the annual leave not have been taken, the employee shall be entitled to the payment of two weeks' wages in lieu thereof, the wages to be calculated as of the date when the leave accrued due.
- (i) If during any twelve months of his service the employment of an employee who has been employed for more than three calendar months is terminated, such employee shall be paid the proportion of two weeks' wages which the period of employment bears to twelve calendar months. For the purpose of this clause, "the period of employment" shall mean the period commencing with his first employment or upon the expiration of any twelve months of his employment.
- (j) The wages payable to a piece-worker under this clause shall be the wages fixed for a machine compositor on time-work.
- (k) An employer shall not terminate the employment of a weekly employee for the purpose of evading payment for holidays prescribed by this Determination.
- (l) If during any twelve months of his service an employee entitled under this clause to six public holidays on full pay has not been allowed at least six public holidays, he shall be paid, if a time-worker, an ordinary day's pay, or, if a piece-worker, an ordinary day's pay for a time-work machine compositor, in respect of each public holiday (not exceeding in all the number of six) on which he has been required to work, notwithstanding that for the week including such public holiday he has been paid his full weekly wage or piece-work rate, as the case may be, and such amount may be claimed and recovered after the expiration of such twelve months.
- (m) If in any twelve months of his service an employee entitled under this clause to leave on full pay for six or twelve consecutive working days, as the case may be, has not been allowed such leave, he shall be paid for such days, if a time-worker, at the full rate of payment, or if a piece-worker, at the rate for a time-work machine compositor, notwithstanding that in respect of such days he has already received his wages or piece-work payment, as the case may be, without deduction, and such amount may be claimed and recovered after the expiration of such twelve months.
- (12) PAY DAY.—An employee shall be paid weekly, and not more than two days' pay may be kept in hand by any employer.
- (13) REST INTERVAL FOR FEMALES.—There shall be an interval of ten minutes at a time fixed by the employer between 10 a.m. and 11 a.m. for rest on each day, Monday to Friday inclusive, in each week for a female employee, such time to count as time worked. Reasonable facilities shall be provided by the employer for the employee to have refreshments during such interval if the employee so desires.
- (14) MEAL HOUR.—(a) In daily newspaper offices the time allowance for meals shall be such as may be mutually arranged between each employer and the employees, but shall not exceed one hour.
- (b) In any other place the minimum time allowance for meals shall be three-quarters of an hour, and the maximum allowance one hour. Provided that an employer and a majority of his employees may agree to a reduced period, but not less than half an hour.
- (c) No employee shall be compelled to break shift except for meals, and no shift shall exceed five hours without a break for meals.
- (d) When employees are required to work during a period covering a usual meal period, they shall be paid overtime rates for the work performed by them during such meal period, and, in addition, such employee shall be allowed time for a meal.
- (15) WORK NOT TO BE TAKEN OFF EMPLOYER'S PREMISES.—No work shall be taken off the employer's premises to be executed by any employee.
- (16) PROBATIONERS ON TYPE-CASTING OR SLUG-CASTING MACHINES.—No employee shall be employed as a probationer on the keyboard of a type-casting or slug-casting machine unless he is a compositor who has served a full term of apprenticeship or is an apprentice who has served three years' apprenticeship as a compositor.
- (17) BRONZING OR DUSTING OFF.—(a) Any person employed in bronzing by hand or dusting off by hand shall be paid 6d. an hour in addition to any other money payable under this Determination.
- (b) Where the bronzing surface does not exceed in size large post octavo, females may be employed at bronzing and dusting off for a period not exceeding two hours in any one day, but, except under such conditions, an employer shall not require or permit any female employee to do bronzing or dusting-off work.
- (18) FEMALES NOT TO WASH-UP MACHINES.—Females shall not be required or permitted to wash-up or clean printing machines.
- (19) TIME BOOK.—Each employer shall keep a time and wages book, written up in ink, showing the name of each employee, and his occupation, the hours worked each day or night, and the wages and allowances paid each week.
- (20) DEFINITIONS.—A weekly time-work employee is an employee who is engaged by the week and employed on time-work.
A weekly piece-work employee is an employee who is engaged by the week and employed on piece-work.
A temporary employee is any employee other than a weekly employee.
A daily newspaper office includes every office in which a daily newspaper is printed or published.
- (21) PIECE-WORK.—(a) No work shall be performed by any employee by contract or sub-contract, or other similar system.
- (b) No piece-work shall be performed by an employee other than in respect of work done in connexion with machine composition in daily newspaper offices or in any other newspaper office where four or more slug-casting machines are in use.

The lowest piece-work prices payable for machine composition shall be :—

5½d. per thousand ens when done on day shift, and
5¼d. " " " " night shift.

Provided that the weekly earnings of piece-work machine compositors shall be computed by—

(a) applying the prices or amounts set out in this determination ;
(b) deducting 18s. from the amount so earned.

All piece-work shall be done subject to the provisions of this Determination and of the following Schedule :—

SCHEDULE.

1. *Cast-up and Minimum Multiplier.*

(a) The cast-up shall be according to the point system, but the minimum multiplier for any line shall be 40, and the table of multipliers appended to this Schedule shall be observed. A fraction of an "en" if more than decimal 5, shall count an en for the machine compositor, and if less shall not be counted. If it is decimal 5, it shall count alternately for the house and the machine compositor.

(b) All matter set for advertisements in type larger than 8 point shall carry a minimum multiplier of 45, and, where the type used in the advertisements is larger than the predominant body matter type of the newspaper, it shall also be measured in depth by such predominant body matter type.

2. *Piece-work and Time-work Matter.*

Matter set in type up to and including 8 point shall be reserved to the piece-work machine compositors. Should such be set on time by the house it shall be charged by the piece-workers as plain matter. Matter set in type larger than 8 point may be set on time by the house. Provided that in any morning daily newspaper office display advertisements (that is advertisements in which there are three or more different sizes of type other than public and Government notices) may be set in their entirety by time-workers.

3. *10-Point and Larger Type.*

Matter (other than multiple-bar matter, head lines, display lines, or body matter in advertisements) of 13 ems measure and under composed in 10-point type shall be charged ¼d. extra per thousand ens ; all types above 10-point in size shall be charged ¾d. extra per thousand ens.

4. *Head Lines and Display Lines.*

(a) Head lines to articles when set by the piece-work machine compositor shall be charged according to the depth and multiplier, of the type used in the article to which they belong, with one-third extra for types up to and including 14-point.

(b) Display lines in advertisements larger than body type when set by the piece-work machine compositor shall be charged in accordance with clause 1 (b), with one-third extra for all types up to and including 14-point.

5. *Leaving Machine.*

When a machine compositor has to leave his machine to work on another machine in connexion with his "take" he shall be entitled to charge twelve lines of body matter of the "take" in addition to the value of the matter set.

6. *Bordered Matter.*

Matter having a machine-set border attached to the slug, whether such border is formed of rules, letters, or otherwise, shall be paid for at double rate.

7. *Dialects, &c.*

Matter set in dialectic English or in illiterate spelling, where such matter is of four lines or more, or where the dialectic English or illiterate spelling is recurrent through the matter, shall be paid for at rate and a half. An unintentional error in spelling is not illiterate spelling within the meaning of this clause.

8. *Foreign Languages.*

Matter set in any language other than English shall be paid for at double rate.

9. *"Take" of Copy.*

Twelve lines of 13 ems measure, or their equivalent, shall constitute a machine "take" of copy. Provided that the matter given out at any one time, whether referring to the same or different articles shall constitute one "take," and provided further that during the last fifteen minutes of the work done by the machine compositor when finishing prior to the last forme leaving the composing room, the "take" may be reduced to six lines.

10. *Top and Bottom Rules.*

The top and bottom rules of tables shall be paid for as distinct lines when set or required to be inserted by the machine compositor, but cross rules in the body of a table when set or required to be inserted by the machine compositor are to be reckoned in the depth.

11. *Introductory Lines in Tabular Matter.*

Introductory lines or foot notes or lines between tabular matter, in any case not exceeding six lines, shall be paid for as part of the table.

12. *Column or Tabular Matter.*

Column or tabular matter cast on one bar shall be charged :—Two columns (two justifications or arrangements), rate and a third ; three columns, rate and a half ; four or more columns, double rate. The above rates shall be paid whether the matter is with or without headings or rules. Where there are more than four columns, the machine compositor shall have the option to set the matter at a time rate to be calculated on the weekly machine compositor's rate, with the addition of 12½ per cent.

13. *Headings.*

Column or tabular matter with headings in smaller type than the body shall be cast-up at the value of each body.

14. *Run-out Lists, &c.*

Matter consisting of subscribers' names with the sums of money run out to the end of the lines, names of horses with "st." and "lb." run out, measurements of land, with acres, roods and perches run out and similar matter, shall carry no extra charge, but where there are two columns of figures in the measure such matter shall be paid for at rate and a half ; and where there are three columns of figures, at double rates. In other matter which requires to be cast-off to ascertain the proper widths of columns, or to be ranged, whether such matter consists of words or figures, each column and each group of ranged matter shall be considered a column, whether with or without rules or headings, and shall be paid for accordingly.

15. *Run-on Lists and Similar Matter.*

Run-on matter consisting of mixed figures and words, such as subscription lists, share lists, land sales, wool sales, show prize lists, cargo lists, mixed names and figures, tennis results, egg-laying competition results, pawnbrokers' advertisements, balance-sheets, University or other school lists (other than those which consist of figures), cricket scores, rifle scores, quoit scores, mining and market reports, racing weights, racing results, and similar matter, and also passenger lists, shall be paid for at rate and a third, but lines not containing such run-on matter shall be charged plain. University and other school lists and examination results (consisting of figures), lottery results (consisting of figures), and other run-on figure matter (consisting of figures), shall be paid for at double rate.

16. *Leadere'd Matter.*

All leadere'd matter, if leaders are ranged, shall be paid for at rate and a third.

17. *Small Caps, Italics, or Sorts.*

(a) For small capitals, italic, clarendon, or other faces and sorts of type not on the principal keyboard, but fed in by hand or (except in the case provided for in sub-clauses (d) and (e) of this clause) fed in from an auxiliary keyboard, one line extra shall be allowed for each word of six letters or less, and two lines extra for each word of more than six letters.

(b) Where single lines or intermittent words are set on the keyboard in such faces and sorts, one line extra shall be paid for each line containing such words, except small capitals, which shall be paid one line extra for each word.

(c) One line extra shall be allowed for every two (or fraction of two) two-line initial letters inserted by hand.

(d) One line extra shall be allowed for every three (or fraction of three) two-line initial letters set from an auxiliary keyboard.

(e) One line extra shall be allowed for every five (or fraction of five) two-line letters set from an auxiliary keyboard as display words.

(f) When double-letter matrices are used, and matter is set on the upper tier or by the two-letter or leaf attachment for elevator head elevation, such matter (excluding head lines and display lines) up to 25 continuous lines shall be paid at rate and a half.

18. *Corrections.*

(a) Alterations from copy to the first proof shall be paid for at double rate. House marks or author's proofs shall be paid for at double rate, but six lines shall be the minimum charge where corrections to single proofs are requested and the machine compositor has not to leave his machine. New matter or additions to copy shall be paid for at the ordinary rate if exceeding twelve consecutive lines. The house shall be entitled to correct all author's proofs or revises on time.

(b) A machine compositor shall have a reasonable opportunity to correct his own proofs. Should the exigencies of the work require it, proofs may be corrected on time at the discretion of the printer, and the house shall have the right to correct and deduct from the machine compositor the number of lines requiring correction. The machine compositor shall have the opportunity of seeing the proofs containing any corrections charged against him.

(c) When a reader is not employed on any shift, or is employed for a part of a shift only, and proofs, as a consequence, are not available to a machine compositor for correction, the house shall correct such proofs and make no charge against the machine compositor.

(d) It shall be permissible for a machine compositor to arrange with another machine compositor for the correction of his proofs, where such arrangement will not cause delay.

19. *Slugging, &c.*

The insertion of all display or corrected slugs, cutting, fitting or whiting shall be done by the house.

20. *White Lines, &c., Inserted by the House.*

(a) The machine compositor shall not be paid for white lines, leads, rules, or other matter inserted by the house, except where the same are set or required by the house to be inserted as part of a "take."

(b) Matter set on a larger body than the face size shall be charged the face multiple and body size for number of lines.

21. *Multiple-bar Matter to be Laid Out by the House.*

Where matter is set on two or more bars it shall be laid out by the house, but the machine compositor shall be responsible for any mistakes made by him.

22. *Extra Charge for Multiple-bar Matter.*

Matter requiring two bars to complete one measure (not being tabular matter) shall be paid for at rate and a third; three bars, rate and a half; four or more bars, double rate.

23. *Full Lines.*

Each line cast by the machine shall be paid for as a full line of the width of the standard column of the paper concerned, provided that each line of wider measure than such standard width shall be charged as a full line of the measure to which the vice-jaw is set.

24. *Copy too big for Tray.*

All matter set from copy (including books) that will not go on or cannot be folded or arranged to suit the copy tray, shall be paid for at rate and one-third.

25. *Bad or Indistinct Copy.*

Bad or indistinct copy classed as such by the printer and the father of the chapel, or copy written with an indelible pencil, or matter having to be transposed by the machine compositor (that is, matter which is not to be set up in the order in which it appears in the copy), shall be paid for at rate and a third.

26. *Contractions—Extra Charge.*

Where the machine compositor has to make contractions he shall be paid rate and a half for each line affected. This provision does not apply to ordinary recognized contractions such as "st." for street, "rd." for road, "Co." for Company, "Ltd." for Limited, "lb." for pound, "oz." for ounce, &c. No extra charge shall be made where occasional contractions appear in the copy and are required to be followed by the machine compositor.

27. *Defective Machines.*

The correction of errors resulting from the defective working of the machine, and sunken letters, shall be paid for at double rates provided that where a mechanic is employed on the shift, or some responsible person is present, his attention is called to the defect, and he has failed to remedy the matter, but a machine compositor shall be entitled to this charge for all matter set up to the time when the defect was, or should reasonably have been, observed by him.

28. *Lower Magazine.*

The piece-work rate for machine composition from any lower magazines from which the matrices assemble down the chute (as in the Mergenthaler Model No. 4), shall be such as may be agreed upon between the printer and the father of the chapel in the establishment concerned; and in default of such agreement the machine compositor may, at his option, work such machine at the time rate for machine compositors.

29. *Time Work.*

A machine compositor who may be temporarily required to do hand work shall be paid therefor not less than the time rate for a machine compositor.

30. *Waiting Time.*

All stoppages of five minutes or more at any one time shall be charged as waiting time, and be paid for at the time rate for a machine compositor, provided that such stoppages have not been caused by the fault of the machine compositor.

31. *Changing Magazines.*

The machine compositor shall be entitled to charge—

(a) Each time he has to remove the mould from the machine and replace it by another or insert a fresh mould or change the measure of a mould, 4d.

(b) Each time he changes the magazine of a machine where such change is not accomplished by the manipulation of handle or lever, 4d.

(c) Each time he changes and returns the magazine of a multi-magazine machine or a machine of a similar design where such change and return of the magazine are made by the manipulation of a handle or lever, 1d.

(d) Each time he empties or refills a magazine, 9d.

(e) Each time he empties and refills a magazine, 1s. 3d.

The machine compositor shall be entitled to make any of the foregoing charges where the work is done by a mechanic while the machine compositor is waiting or assisting.

32. Supplied Matter.

Linotype composition supplied to a newspaper office, whether supplied in the form of type, slug, stereotypes, electrotypes, or slugs, shall be charged by the piece-work machine compositors at the prescribed piece-work rates for such class of composition, excepting linotype composition for advertisements supplied to a daily newspaper office from any office outside the area to which this Determination applies.

33. Long Measure.

Slugs of 26 ems pica measure and over set in 6-point or smaller type shall be paid $\frac{1}{2}$ d. per 1,000 ems in addition to the rate.

34. Alterations in Standing Advertisements.

Alterations made in standing advertisements shall be charged as "house marks," provided that more than six consecutive lines shall be charged plain with a minimum charge of twelve lines.

35. Instructions.

Instructions shall be given to the machine compositor with the first "take" of copy of each article.

36. Catch Lines.

All catch lines shall be charged for by the machine compositor when set by him.

37. Full Fount of Matrices.

Each machine shall be provided with at least 25 space bands and such a fount of matrices as will enable the machine compositor to do his work without delay.

38. Repeat Lines of Extra Charge Matter.

The fifth and subsequent repeat lines of extra charge matter shall be charged plain and repeated by re-casting.

39. Cumulative Charges.

Each extra charge under this Schedule shall be computed independently of any other extra charge which the same matter may carry, and on the basis of the same being plain matter. In no cases shall extra charges accumulate beyond the plain rate plus rate and one-half.

40. Attending and Adjusting.

On any shift a machine compositor on piece-work attending or adjusting one machine shall be paid 10s. per week extra, and for two or more machines 20s. per week extra. If the 10s. per week be not paid to a piece-worker all mechanical troubles shall be rectified for him without delay, and he shall be paid for all the time he is kept waiting at the time rate for a machine compositor.

DEPARTMENT OF PUBLIC HEALTH, VICTORIA.

Health Acts.

At the Executive Council Chamber, Melbourne, the 24th day of
December, 1935.

PRESENT:

His Excellency the Governor of Victoria.

Mr. Lind
Mr. Bussau

Mr. Mackrell.

REGULATIONS AMENDING THE FOOD AND DRUG
STANDARDS REGULATIONS 1935.

UNDER the powers conferred by the Health Acts and all other powers enabling him in that behalf, His Excellency the Governor of the State of Victoria, with the advice of the Executive Council of the said State, and on the recommendation of the Food Standards Committee, doth make the Regulations following (that is to say):—

1. These Regulations may be cited as the Amending Food and Drug Standards Regulations 1935, and shall come into operation on publication in the *Government Gazette*:

2. Regulation 26 (4) of the Food and Drug Standards Regulations 1935 is hereby repealed, and the following substituted therefor:—

IMPORTED MEAT.

(4) (a) Every person who exposes for sale imported meat of any description shall affix and keep affixed thereto a label bearing the name of the State or country of origin of such meat in letters of not less than eighteen points; or exhibit or keep exhibited in a prominent position in relation to such meat a placard bearing the name of the State or country of origin in letters of not less than seventy-two points.

(b) Every person who sells any imported meat shall attach thereto, or to the package containing the same, the name of the State or country of origin in letters of not less than eighteen points.

(c) For the purposes of this Regulation "imported" means imported from any place outside the State of Victoria.

And the Honorable John Richards Harris, His Majesty's Minister of Public Health for the State of Victoria, shall give the necessary direction herein accordingly.

C. W. KINSMAN,
Clerk of the Executive Council.

(Published in lieu of Regulations appearing in the *Government Gazette* of the 3rd January, 1936, at page 11.)

LIFTS REGULATION ACT 1928.

At the Executive Council Chamber, Melbourne, the seventh day of January, 1936.

PRESENT:

His Excellency the Governor of Victoria.
Mr. Goudie | Mr. Mackrell.
Mr. Bailey |

REGULATIONS UNDER THE LIFTS REGULATION ACT 1928.

IN pursuance of the powers conferred by the *Lifts Regulation Act 1928* and the *Acts Interpretation Act 1928*, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth by this Order repeal the Regulations made on the fourteenth day of May, 1929, and on the eleventh day of December, 1933 respectively under the provisions of the said *Lifts Regulation Act 1928*, and doth hereby make the following Regulations in lieu thereof (that is to say):—

1. These Regulations shall apply to all lifts in Victoria, provided that any lift which is in use at the date of making these Regulations and which complies with Regulations previously made under the *Lifts Regulation Act* may continue to be used as long as the Chief Inspector considers it safe.

GENERAL RULES APPLYING TO ALL LIFTS.

Fees.

2. The owner, lessee, or occupier of any building in or in connexion with which there is a lift in use shall, on the 1st day of July in each year, or on the day such lift first comes into use, pay the following fees to the Chief Inspector for the inspection and the issue of certificate of inspection:—

For each lift (mechanical or electrical power) running at speed—
not exceeding 450 feet per minute .. 21s.
exceeding 450 feet per minute .. 42s.
For each lift (hand power) .. 12s. 6d.

In the case of a lift which is first used after the 1st day of January in any year, the fee payable in respect of the above matters shall be one-half of such rates.

3. Unless otherwise expressly provided, the owner, lessee, or occupier of any building in or in connexion with which any lift is in use shall be responsible for the observance of these Regulations.

Permit to Erect or Alter Lifts.

4. No lift shall be constructed, erected, re-erected, or altered, unless and until a permit, in the form following, has first been obtained from the Chief Inspector:—

PERMIT.

I hereby authorize the _____ of a lift at _____ in accordance with the plans and specifications filed this day.

Dated at Melbourne this _____ day of _____ 19 ____
Chief Inspector of Factories.

5. Every applicant for such permit shall file at the Department of Labour complete plans, drawings, and specifications, showing correct measurements and describing the details of the machinery of such lift, the lift well enclosures and doors, and the position of the lift in the building.

6. Before granting such permit the Inspector may require any alterations in design to be made which appear to him to be necessary for the safe working and efficiency of the lift, and may upon being so satisfied, grant such permit.

7. All work performed and all machines, apparatus, and material used in connexion with any lift shall be subject to the final approval of the Inspector, who shall, as often as it appears to him necessary, inspect and test the same.

8. No lift which comprises a platform or car shall be erected in such a position as will leave a road for persons to pass under the platform or car.

Lifts in Course of Construction.

9. No person, other than the installing engineer or a person engaged on the installation of a lift under the direction of the installing engineer, shall work, use, or interfere with any lift in the course of construction until such lift has been approved by the Inspector for general use.

10. In order to prevent loss of life or bodily injury, the installing engineer shall protect every well opening of a lift in course of construction with an efficient fence, erected not less than 12 inches from the edge of the opening. Such fence shall include a guard-rail at a height of 3 ft. 6 in. above the floor or stairway and a toe board at least 6 inches in height fixed at the level of the floor or stairway.

Overhead Construction.

11. The machine room of lifts other than service lifts, hand-power lifts, and hydraulic lifts shall be of such size as will permit of free access to all parts of any machines, apparatus, and equipment situated or set up therein for the purposes of inspection, maintenance, and dismantling for repair. On at least two sides there shall be a minimum of 2 feet between any part of the machines and adjoining wall. There shall be sufficient height in such machine room to enable any portion of the machinery, apparatus, or equipment to be raised clear

for dismantling. The headroom from the machine room floor shall not in any case be less than 6 ft. 6 in.

12. The supporting structure, including overhead beams of every lift, shall conform to the S.A.A. Code for Structural Steel in Building (No. C.A. 1) issued on or about the 7th day of March, 1935, and the S.A.A. Code for Concrete in Building (No. C.A. 2) issued on or about the 9th day of March, 1934.

13. The equivalent static load on the supporting structure of a lift shall be assumed to be equal to twice the maximum rope loads obtaining when the lift is stationary, plus all other loads imposed on the supporting structure.

14. In the lift well, immediately under the overhead sheaves of any suspended lift there shall be built a substantial platform or grating with means of access from outside the lift well.

Lift Wells.

15. Every lift well shall be kept clean and free from accumulations of rubbish, dust, dirt, or any other material, and shall be sufficiently lighted.

16. Where the depth of a lift well pit measured from the lower terminal landing exceeds 3 ft. 6 in., and where no other means of access exists, a permanent ladder shall be fixed within reach of a lower enclosure door. Exceptions:—Hand power and service lifts.

17. A permanent light with a switch near the entrance shall be provided in each pit of a lift well the depth of which exceeds 7 ft. 6 in. or where compensating ropes or chains are used. A permanent light controlled by a switch adjacent to it shall be fitted to the underside of the platforms of all lift cars. Exceptions:—Hand power and service lifts.

18. All lift well enclosures shall be complete from floor to ceiling. The counterweights shall be enclosed on the inside of the lift well enclosure, over their full width, to a height of seven (7) feet from the bottom of the lift well, and for a length of seven (7) feet at the position where car and counterweight pass one another.

19. All openings in floors through which a whip hoist is to operate shall be enclosed with a permanent fence not less than 3 ft. 6 in. high.

20. The overrun provided for cars and counterweights shall not be less than that specified in Table I., Minimum Overruns for Cars and Counterweights, and clauses (i), (ii).

TABLE I.—MINIMUM OVERRUNS FOR CARS AND COUNTERWEIGHTS.

Rated Speed, Feet per Minute.	Top Overruns.						Bottom Overruns.			
	Car.			Counterweight.			Car.			
	Traction and Hydraulic.	Drum.		Drum.	Traction.		Drum.	Traction.	Hydraulic.	
0 to 100 ..	3 0	4 0	3 0	1 6	3 0	3 0	6 0	0 9		
101 .. 200 ..	3 0	4 0	3 0	1 6	3 0	2 0	2 0	1 0		
201 .. 300 ..	4 0	5 4	4 0	2 0	4 0	2 6	1 3			
301 .. 400 ..	5 0	2 6	..	3 0	..			
401 .. 500 ..	6 0	3 0	..	3 6	..			
501 .. 600 ..	7 0	3 6	..	4 0	..			

(i) *Traction Drive Lifts.*—The bottom overrun for the counterweight of a traction drive lift shall not be greater than one-half of the top overrun actually provided for the car. The final limit gear of the lift shall operate before the counterweight lands.

(ii) *Drum Drive Lifts.*—The bottom overrun for the counterweight of a drum drive lift shall not be greater than one-quarter of the top overrun actually provided for the lift car. The counterweight of a drum drive lift shall not land in the normal operation of the lift.

Definitions of Overrun.

(a) *Top Overrun for Car.*—“Car Top Overrun” shall mean the distance the car platform could travel above the level of the upper terminal landing before any part of the car or devices attached thereto meets any obstruction.

(b) *Bottom Overrun for Car.*—“Car Bottom Overrun” shall mean the distance the car platform could travel below the level of the lower terminal landing before any part of the car or devices attached thereto meets an obstruction. The working stroke of the buffer shall be deemed to be included in the bottom overrun.

(c) *Top Overrun for Counterweight.*—“Counterweight Top Overrun” shall mean the vertical distance when the car is landed upon its stops or fully compressed buffers between any part of the counterweight or attachment thereto and any obstruction above it.

(d) *Bottom Overrun for Counterweight.*—“Counterweight Bottom Overrun” shall mean the distance the counterweight would require to travel to land, measured when the car platform is at the top terminal landing.

The working stroke of the buffer shall be deemed to be included in the bottom overrun.

21. A clearance of not less than 24 inches shall exist between the lowest point of the car platform and the bottom of the lift well when the car is landed with the springs or buffers fully compressed.

Guides and Shoes.

22. All guides, whether for cars or for counterweights, shall consist of steel sections. Spring shoes of an approved pattern shall be fitted on all cars and counterweights which have a maximum speed exceeding 200 feet per minute.

Ropes.

23. Every suspended lift whose maximum load exceeds 5 cwt. shall be provided with at least four steel lifting ropes.

24. All controlling, lifting, or balance-weight ropes of any lift which show indications of splinterings, stranding or bunching as to constitute a probable danger to person or persons using such lift shall be replaced forthwith.

25. The method of binding all lifting ropes and balance-weight ropes around eyes shall be by splicing only.

26. No steel lifting rope shall be installed in any lift unless and until a certificate setting forth the fact that such rope has been tested, and the breaking load of such rope has been filed in the office of the Chief Inspector.

Factor of Safety of Ropes.

27. The factor of safety of ropes based on maximum static loads for all types of lifts shall be not less than 10.

Diameter of Pulleys, Drums, and Sheaves.

28. The minimum ratio of the diameter of any pulley, drum or sheave to the diameter of the rope wound on it shall be as follows:—

For power-driven lifts, other than service lifts ..	45 to 1
For power-driven service lifts ..	40 to 1
For hand-power lifts ..	8 to 1

Car Floor Framing.

29. All car framing shall be of steel rigidly fixed to the car beam, and all car superstructures shall be rigidly fastened and braced to such car beam and floor framing.

Roof to Car.

30. All lift cars shall be fitted with a substantial roof.

Safety Gear.

31. All lift cars shall be provided with an effective safety gear of a design approved of by the inspector.

Exceptions:—

- (i) Direct acting hydraulic lifts with a travel not exceeding 18 feet.
- (ii) Service lifts and hand power lifts which have a floor area not exceeding 9 square feet and a height not exceeding 4 feet, designed to carry goods or material only not exceeding a maximum load of 5 cwt. and controlled from outside the lift well enclosure.

32. In the case of lifts having a maximum speed not exceeding 200 feet per minute such safety gear may be of the instantaneous type which, in the event of failure of any one of the lifting ropes attached to safety gear and independently of the speed action of the governor, will automatically and with certainty bring the car to rest within a safe distance and with minimum shock.

33. Lifts having a maximum speed exceeding 200 feet per minute shall be fitted with safety gear of such approved pattern that in the event of failure of the lifting ropes or on the lift exceeding a predetermined maximum speed the car will be brought to an easy and gradual stop.

34. With the exception of service lifts and hand-power goods lifts, all lifts with a greater travel than 18 feet shall be fitted with speed governing devices operating on the safety gear.

Testing Safety Gear.

35. The owner, lessee, or occupier of a building within or attached to which there is a lift fitted with cam gripper or other type of safety gear, shall cause such gear to be tested at least once in every three months by some person duly authorized by the Chief Inspector to conduct such tests.

36. Lifts fitted with cam gripper type of safety gear shall be subjected to a drop test. All other types of safety gear shall be tested in such manner as the inspector may direct.

37. The owner, lessee, or occupier of a building within or attached to which there is a lift shall provide and keep a record book in the form set forth hereunder, in which particulars of every test shall be entered and signed by the person conducting such tests:—

Name of owner, lessee, or sole occupier—
Address—
Type of lift—
Result of test—
Date of test—
Test made by—

(Signature of person conducting test) —

38. (1) Every inspector appointed under the Factories and Shops Acts shall be deemed to be qualified to test any safety gear.

(2) Upon being satisfied that any person is qualified and fitted to do so, the Chief Inspector may issue a permit authorizing such person to conduct tests of safety gear.

(3) Every such permit shall expire on the 30th June following the date of the issue thereof.

Interference with Safety Appliances.

39. Any person who wilfully interferes with any safety appliance shall be guilty of a contravention of these Regulations.

Speed.

40. All lifts of the following types shall be constructed so as to be incapable of being driven at a speed exceeding that indicated opposite such type:—

- (1) Electric passenger lifts .. 600 ft. per min.
- (2) Hydraulic passenger lifts .. 300 ft. per min.
- (3) All other lifts .. 200 ft. per min.

Notice as to Load, &c.

41. The car of every passenger lift shall bear a prominent notice stating the maximum number of passengers allowed to be carried in such lift, and such number of passengers shall not at any time be exceeded.

42. Every goods lift shall bear a prominent notice stating—
(a) The maximum load of such lift.
(b) That no person, other than the lift attendant and a person in charge of goods, shall be permitted at any time to enter or travel in such lift.

Such load shall not at any time be exceeded, nor shall any person, other than the lift attendant and a person in charge of goods, be permitted to enter or travel in the lift car.

Signal Bells.

43. Signal bells, or similar apparatus, which may be operated from any floor, and which work in conjunction with an indicator in the car, shall be provided on all passenger lifts in which an attendant is employed.

Maintenance of Lifts.

44. The owner, lessee, or occupier of any building in or in connexion with which there is a lift in use shall—

- (a) maintain such lift strictly in accordance with these Regulations;
- (b) maintain such lift in all respects in a fit and serviceable condition for the purpose for which it is used, and in such condition as not to cause danger, or constitute a danger to any person entering, or on or in such lift;
- (c) keep such lift free from rubbish, dust, dirt, or any other material.

45. No person shall be permitted to maintain any lifts without the approval of the Chief Inspector who, upon being satisfied that any person is qualified and fitted to do so, may issue a permit authorizing such person to maintain lifts.

Inspection of Lifts.

46. Every lift shall be inspected at least once in each year by an inspector and the owners of, or persons using, such lift shall take all necessary measures to facilitate such inspection. If the Inspector considers that the provisions of the said Act and these Regulations have been complied with, he may issue a certificate to that effect.

ELECTRIC LIFTS.

47. The whole electrical installation of lifts and apparatus shall comply with the Standards Association of Australia Publication No. C.A. 3-1935, issued on or about the 7th day of March, 1935, and the provisions of the Wiring Regulations of the State Electricity Commission of Victoria, published in the *Government Gazette* on the 28th day of May, 1934.

48. Every electric lift shall be provided with two separate and independent limits, namely, a control current limit and a main current limit, and each shall automatically stop the lift machine independently of the normal operating devices used by the driver.

49. All lifts shall be fitted with an automatic device so arranged that should the lifting ropes from any cause whatsoever become slack the current shall immediately and automatically be cut off.

50. The electric controlling gear must operate without causing excessive strain in any part of the apparatus, and shall automatically slow down and cut off at either limit of travel, and be arranged so that the rate of acceleration and of retardation may be sufficiently gradual to avoid discomfort to passengers in the car. The electric controllers must so operate as to obviate any excessive sparking. The switch used in the lift car for normal operation of the lift shall automatically return to the "stop" position on the removal of the operator's hand.

51. The opening of interlock contacts shall be positive and not dependent on the action of gravity or springs.

52. All drums shall be grooved to prevent any over-riding or jamming of lifting ropes:

53. The anchoring of the ropes on drum-driven lifts shall be such that not less than one and a half turns of each rope shall be round the drum when the lift cage is at the top or the bottom limit of travel:

54. All lift machines shall be provided with efficient brake gear.

Buffers and Stops.

55. For the purpose of taking the impact upon landing, stops and buffers shall be provided for cars and counterweights of all lifts in accordance with the requirements of the table following:—

TABLE II.—TYPE OF BUFFERS AND STOPS.

Running Speeds.		Type of Stop or Buffer.
Cars.	Counterweights.	
Not exceeding 100 ft. per minute	Not exceeding 200 ft. per minute	Solid stops, spring buffers, or oil buffers
Exceeding 100 ft. per minute, but not exceeding 300 ft. per minute	Exceeding 200 ft. per minute, but not exceeding 300 ft. per minute	Spring buffers or oil buffers
Exceeding 300 ft. per minute	Exceeding 300 ft. per minute	Oil buffers

Exceptions:—Service and hand-power lifts. See clause 82.

Enclosure Doors and Car Gates.

56. Every electrically-driven lift shall be so designed that the car will not move until all enclosure doors and car gates are closed.

Exceptions:—

- (i) A hand-controlled lift which is operated by an attendant from within the car and which is equipped with an approved self-levelling device may move when an enclosure door and car gate are open but only at levelling speed and within the floor levelling zone.
- (ii) An automatically controlled lift may move with car gates open but only when no persons are in the car.

57. All entrances to a lift car, irrespective of the system of control, shall be provided with car gates, electrically interlocked in the control system.

Exceptions:—See clauses 60, 61.

58. Collapsible car gates shall be set back 3 inches from the car floor nosing (measured from the inside face of gate) unless so arranged that a person's foot cannot protrude beyond the edge of the car floor nosing.

59. Every enclosure door of a hand-controlled lift shall be fitted with one combined electrical and mechanical lock so arranged that the doors cannot be opened from outside the enclosure. Provision may be made for the ground floor enclosure door to be opened from the outside with a special key, but only when the lift car is opposite the door.

60. A car gate need not be provided at the principal entrance of a goods lift if the whole width of the enclosure, facing the entrance, forms a flush surface at a distance not exceeding 1½ inch from the path of travel of the car floor nosing.

Hand-controlled Passenger Lifts.

61. A car gate need not be provided at the principal car entrance of every passenger lift operated by car switch control if—

- (i) Such principal entrance does not exceed 42 inches in width.
- (ii) The car control switch is fixed immediately adjacent to one side of the principal car entrance, or is so located that the lift attendant can readily extend one arm across such entrance.
- (iii) The whole face of the lift well enclosure facing the car entrance forms a flush surface at a distance not exceeding 1½ inch from the path of travel of the car floor nosing.

Where a car gate is required on account of the entrance exceeding 42 inches, or the enclosure not being flush across part of the width, such gate shall be considered necessary in respect only of the excess of width of entrance or in respect of the non-flush part of the enclosure, as the case may be.

Automatic Passenger Lifts.

62. Two combined locks (mechanical and electrical) shall be fitted to each enclosure door, and arranged to interlock each door mechanically and electrically.

63. The controlling apparatus shall be so designed that—

- (a) in the case of a lift fitted with button or automatic control, whether the lift is fitted with self-levelling devices or not, an enclosure door may only be unlocked and opened, either from the car or from a landing, when the lift is stationary opposite such landing;

(b) between the stopping of the lift car at any floor and its starting again, there shall be a time interval at least sufficient to allow of the door or gate being opened;

(c) it shall be so controlled that the speed of the lift, when making a stop at any landing, shall not exceed 150 feet per minute.

(d) in respect of lifts which are fitted with automatic control an enclosure door may be considered locked if it is so arranged that the locking operation is completed within the period that the car takes to move not more than 15 inches from any landing level.

Automatic Goods Lifts.

64. All goods lifts operated by a push button shall have a control system to comply with clauses 62 and 63 (a), (b), (c), and (d).

HYDRAULIC LIFTS.

Testing of Apparatus.

65. A certificate, given under the signature of the maker, that all apparatus subject to hydraulic pressure has been tested to three times the proposed working pressure per square inch, shall be furnished to the Chief Inspector before such apparatus is put into use.

66. The whole of the machinery shall be tested to twice the working pressure in the presence of the Inspector after erection and before being used.

67. When any material alteration, addition to, or replacement of existing machinery or pipes is made, a similar test shall be made in the presence of the Inspector before use.

Stops and Valves.

68. Hydraulic machinery having rams working in cylinders shall, in addition to valves or tappet gear, be provided with permanent stops.

69. An independent screw-down pressure stop valve and exhaust cock shall be fitted to every service pipe.

70. A back-pressure valve shall be fitted to every service pipe.

71. All hydraulic cylinders shall be fitted with air cocks.

72. Means shall be provided to prevent water from syphoning out of cylinders.

73. The controlling valve shall cut off automatically at either limit of travel. The valve must also shut off the water in the event of failure of the control rope.

Doors.

74. Each enclosure door of a hydraulic lift shall be interlocked with the control to ensure that the lift car cannot be moved unless every enclosure door is closed.

75. Each enclosure door of a passenger lift shall be unlocked and opened only from inside the car except that the enclosure door, at the ground floor, may be made to open from the outside by means of a special key, but only when the lift car is opposite.

Each enclosure door of a goods lift shall be made to open from outside and inside, but only when the lift car arrives opposite the landing and automatically unlocks the door.

76. Every goods lift operated by a hand rope shall be provided with an appliance whereby the person using the car may be able to lock the rope at any floor, at which the car is stationary.

AUXILIARY AND OTHER POWER LIFTS.

77. Every lift shall be fitted with efficient brake gear, which will automatically operate on the worm shaft when the machine is stopped. Efficient provision shall be made to prevent the car from descending except under power. Two limit stops, one controlled by the hand rope and the other an integral part of the lift gear, shall also be provided.

78. The use of direct spur gearing or direct friction drive is prohibited where any person is to be carried in the lift.

79. Every drum-winding lift shall be fitted with efficient gear to automatically stop the machine should the lifting ropes through any cause become slack.

80. Each enclosure door of every lift shall be interlocked with the control to ensure that the lift car cannot be moved unless all enclosure doors and car gates are closed.

81. Every lift operated by a hand rope shall be provided with an appliance whereby the person using the car may be able to lock the hand rope while the car is stationary at any floor or landing.

SERVICE LIFTS, HAND POWER LIFTS, AND ESCALATORS.

82. Service lifts, hand-power lifts, and escalators shall comply with the provisions of the Standards Association of Australia Lift Code, Publication No. C.A. 3-1935, issued on or about the 7th day of March, 1935.

Exceptions:—Clauses 16, 17, 20, 31, 34 of the above Regulations.

And the Honorable M. W. J. Bouchier, His Majesty's Minister of Labour for the State of Victoria, shall give the necessary directions herein accordingly.

J. W. McINNES,

Acting Clerk of the Executive Council

APPRENTICESHIP ACTS.

APPRENTICESHIP COMMISSION OF VICTORIA.

*At the Executive Council Chamber, Melbourne,
the seventh day of January, 1936.*

PRESENT:

His Excellency the Governor of Victoria.
Mr. Goudie Mr. Mackrell.
Mr. Bailey

FURTHER AMENDMENT OF PLUMBING AND GASFITTING REGULATIONS (No. 2).

IN pursuance of the powers conferred by the Apprenticeship Acts and the *Acts Interpretation Act 1928*, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby make the following amendments to the Plumbing and Gasfitting Regulations (No. 2), that is to say:—

ADDITIONS TO TERMS AND CONDITIONS OF INDENTURES OF APPRENTICESHIP.

At the end of paragraph (c) (iii) of the Employer's Covenants contained in the Second Schedule to the General Regulations (No. 2) as incorporated by Regulation 5 of the Plumbing and Gasfitting Regulations (No. 2), add the following paragraph:—

- (c) (iv) In the event of the employer being unable, owing to lack of orders, or through financial difficulties, to find employment and training for the apprentice or to arrange for the transfer of the apprentice to another employer as provided for under the Act, the Commission may on application made in that behalf by the employer, and after satisfying itself that the circumstances justify such action, arrange for the suspension of the indentures for such period as it determines or for the cancellation of the indentures.

The proviso to paragraph (3) of the Mutual Agreements contained in the said schedule as incorporated by the aforesaid Regulation 5, approved by the Governor in Council on the 20th day of March, 1935, shall be amended in the following manner:—

Provided further—

- (i) That where the apprentice is required under the provisions of the proviso to paragraph (c) (i) hereof

to work for less time than full time in any ordinary working week or month, or

- (ii) that where the indentures of any apprentice are suspended for any period by the Commission, the total period of time not served by an apprentice by reason of either of the above-mentioned provisions shall at the option of the apprentice be included in the term of his apprenticeship or be added to the term of his apprenticeship. In the event of such period being added to the term of his apprenticeship the apprentice shall be paid for such period at the wages rates prescribed in respect of the last year of his apprenticeship.

The amended Regulation shall come into operation on and from the 1st January, 1936.

And the Honorable Murray William James Bouchier, His Majesty's Minister of Labour for the State of Victoria, shall give the necessary directions herein accordingly.

J. W. McINNIS,
Acting Clerk of the Executive Council.

Department of Lands and Survey,
Melbourne, 6th January, 1936.

A. E. LIND,
Commissioner of Crown Lands and Survey.

CROWN LANDS AVAILABLE.

PARISHES OF DEDDICK, TUBBUT, AND JINGALALLA, COUNTY OF CROAJINGOLOGONG.

THE undermentioned areas are available for application under section 44 of the Land Act 1928, and all applications received on or before Wednesday, 5th February, 1936, will be deemed to have been simultaneously made, but any application lodged after such date may be considered if received in time for inclusion in the advertisement of the cases to be heard at the Local Land Board.

Applications on proper form, accompanied by 5s. duty stamp uncancelled (registration fee), may be delivered or forwarded by post to the Land Officer at Bairnsdale, or to any Crown Lands Office in Victoria.

Applicants may obtain from Local Land Officers, or the Enquiry Office, Lands Department, Melbourne, a certificate authorizing the issue by the Railway Department of a return ticket at concession fares to enable them to inspect available areas or to attend Local Land Boards. When an applicant is granted an allotment he may, if travelling by rail, obtain reduced fares for his family, and also freight concessions in regard to some of his effects.

Subject to the approval of the Minister a deposit of £5 on survey fee may be paid, and the balance over six years in half-yearly instalments.

Marked plans of any particular area, application forms, and any further information may be obtained from the Enquiry Office, Lands Department, Melbourne, or the Land Officer at Bairnsdale.

The term of the lease will be 40 years: the first three years being free of any payment of rent or survey fee, excepting £5 deposit on survey fee and £1 lease fee.

Improvements, if any, to be valued and paid for in addition to the price of the land.

No advances will be granted by the Closer Settlement Commission or under the Farmers Advances Act 1935.
