DECLARING THAT EGGS SHALL BECOME THE PROPERTY OF THE EGG AND EGG PULP MARKETING BOARD.

PROCLAMATION

By His Excellency the Lieutenant-Governor of the State of Victoria and its Dependencies in the Commonwealth of Australia, &c., &c., &c.

WHEREAS by sub-section (1) of section 16 of the *Marketing of Primary Products Act 1935* it is enacted that when a product has been declared a commodity and a Board has been appointed in relation thereto the Governor in Council may by Proclamation—

(a) provide and declare that the commodity shall forthwith upon the date of publication of the Proclamation be divested from the producers of the commodity and become vested in and be the absolute property of the Board as the owner thereof and that upon any of the commodity coming into existence within a time specified in the same or a subsequent Proclamation it shall by virtue of this Act become vested in and be the absolute property of the Board as the owner thereof; and

(b) make such further provisions as will enable the Board effectively to obtain possession of the commodity as such owner and to deal with the same:

And whereas by a Proclamation made on the sixteenth day of June, 1936, under the provisions of section 6 of the said Act the Governor in Council declared eggs to be a commodity under and for the purposes of the said Act: And whereas by an Order made on the 8th February, 1937, the Governor in Council appointed a Marketing Board in relation to eggs and egg pulp and assigned to such Board the name of "The Egg and Egg Pulp Marketing Board": Now therefore I, the Lieutenant-Governor of the State of Victoria in the Commonwealth of Australia by and with the advice of the Executive Council of the said State do by this my Proclamation hereby provide and declare that on from and after the sixteenth day of August, 1937, all eggs shall subject to and in accordance with the *Marketing of Primary Products Act 1935* be divested from the producers of eggs and become vested in and be the absolute property of The Egg and Egg Pulp Marketing Board as the owner thereof and that upon any eggs coming into existence within two (2) years from the sixteenth day of August, 1937, they shall by virtue of and subject to and in accordance with the said Act become vested in and be the absolute property of The Egg and Egg Pulp Marketing Board as the owner thereof: And to enable The Egg and Egg Pulp Marketing Board as owners of the above-mentioned commodity effectively to obtain possession thereof and to deal with the same I do further provide that all such eggs shall subject to and in accordance with the provisions of the said Act be delivered by the producers thereof to The Egg and Egg Pulp Marketing Board or its authorized agent within such times at such places and in such manner as The Egg and Egg Pulp Marketing Board by public notice or in a particular case in writing directs or as are prescribed by Regulations made under the said Act.

Given under my Hand and the Seal of the State of Victoria aforesaid, at Melbourne, this second day of August, in the year of our Lord One thousand nine hundred and thirty-seven, and in the first year of the reign of His Majesty King George VI.

SHEPPARTON SEWERAGE AUTHORITY.

BY-LAW No. 1.—RELATING TO CONSENTS, LICENCES, ETC., ALSO LEVELS, DIMENSIONS, CONSTRUCTION, MAINTENANCE, VENTILATION AND CLEANSING OF SEWERS AND OTHER MATTERS RELATING TO HOUSE CONNECTION WORK.

THE Shepparton Sewerage Authority, pursuant to and in exercise of the powers and authorities conferred on it by the Sewerage District Acts and of any and every other power or authority in any wise enabling it in that behalf, doth hereby make and prescribe the following By-law, that is to say:—
In the construction of this By-law, unless inconsistent with the context or subject-matter—

“Acts” means the Sewerage District Act and any amendment thereof, and any Act incorporated therein, or amendment of such Acts.

“Anti-syphonage vent” (or “back vent”) means any vent pipe from an individual trap to the open air, or a main or branch vent pipe having for its purpose the prevention of loss of water seal in the trap.

“Authority” means the Shepparton Sewerage Authority.

“Bore,” “diameter,” or “size,” in reference to any pipe, means the nominal diameter thereof, in accordance with accepted trade practice.

“Building” means any building used as a work place, residence, place of business, place of amusement, or place of human habitation, or for the storage of food intended for human consumption, but does not include outbuildings unless such are used for any of the above purposes.

“Disconnecter trap” means a trap for isolating or disconnecting waste pipes from the house drain and soil pipes and providing inlet ventilation to the waste pipe or pipes discharging into it.

“Drain” means any drain used for the drainage of one building only or of premises within the same curtilage and includes any drain for draining any group or block of houses by a combined operation under the order of the Authority.

“Educt vent” means an opening or pipe for the exit of air from and the induction of draught in a soil pipe, waste pipe, or house drain.

“Engineer” means the Engineer of the Authority, and shall also include any officer or person appointed by the Authority for the purpose of discharging the duties or exercising the powers of the Engineer.

“External closet” means any closet other than an internal closet as herein defined.

“Fittings” mean all apparatus or appliances, together with their necessary appurtenances and connexions, for use in connexion with the plumbing or drainage system of any property, with the exception of fixtures and straight piping.

“Fixtures” means all apparatus or appliances, together with their necessary appurtenances and connexions, which may be attached to the plumbing or drainage system of any property, and which are intended for the collection or retention of any wastes or waste waters for ultimate discharge into the sewerage system.

“Flat” means a suite of rooms used, or intended or adapted for use, as a separate habitation and comprised in a building containing one or more similar suites.

“Induct vent” means an opening or pipe for the admission of air to a soil pipe, waste pipe, or house drain.

“Interceptor trap” (or “boundary trap”) means a trap for preventing the passage of air or gases from the sewer to the house drain at some point between the sewer and the lowest inlet to the house drain.

“Internal closet” means any closet which is entered from or has an opening into, any building.

“Occupier” means the person for the time being in actual or constructive occupation of the premises.

“Owner” includes the person for the time being who receives or is entitled to receive the rent of the lands or premises in connexion with which the word is used, whether on his own account or as an agent of or as trustee for any other person, or who if such lands or premises were let to a tenant at a rack rent would be entitled to receive the rack rent from the occupier thereof.

“Premises” includes any house and any building whatsoever and any part of any house or building and any garden, stable yard or offices used together or in connexion with any house or building and every part thereof.

“Responsible officer” means any officer or person authorized by the Authority to act as its representative in the particular matter to which the reference is made.

“Sewer” means any sewer or underground gutter or channel which is not a drain within the meaning of the Acts and any drain or portion of a drain laid between a sewer and the boundary line of any allotment or curtilage.

“Sewerage district” means any portions of the Township and Parish of Shepparton to which the Acts apply and which under the Acts is proclaimed the sewerage district of the Authority and includes any area which is added to and forms part of such sewerage district.

“Sewerage property” means, as well as any sewered land or premises, any land or premises which have been declared by a general notice given by the Authority under the Acts to be deemed and taken to be a sewered property within the meaning of the Acts.

“Sewerage system” includes all sewers, fittings, fixtures, appliances, plant, machinery, and any other sewerage works vested in the Authority.

“Slop sink” means any fixture other than a closet pan or urinal used for the discharge of soil or urine waters and provided with a flushing apparatus in accordance with Division 32 of this By-law.

“Soil pipe” means any pipe which conveys the discharge from water closets, slop sinks, or urinals to the house drain.

“Stack” means any vertical line of soil, waste or vent piping with its offsets, if any.

“Trap” means any fitting designed to retain a quantity of water to arrest the passage of air or gases through such fitting.

“Waste pipe” means any pipe which conveys the discharge from any fixture (except water closets, slop sinks, or urinals), to a disconnecter trap.

“Water seal” or “trap seal” means the vertical distance between the dip and the crown weir of a trap.

“Waste water” means water from factories or from buildings or premises in connexion with factories, but does not include storm water or ordinary domestic sewage.

INTERPRETATION.

In the construction of this By-law the meaning which, in the Acts, is assigned to any word shall be the meaning of the same word where occurring in this By-law, unless inconsistent with the subject-matter or context.

PART I.—GENERAL REGULATIONS.

DIVISION 1.—APPLICATIONS FOR CONSENTS, ETC.

Section 1.—Application for the Authority's consent to connect with the sewerage system, or to do plumbing and drainage work connected therewith, must be made in writing by the owner of the property to be so connected, or by his authorized agent.

Section 2.—Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be in the form prescribed by the Authority. For any wilful misrepresentation in such application the owner or authorized agent as aforesaid shall be guilty of an offence against this By-law. No consent given by the Authority shall be deemed to authorize anything not stated in the application nor to confer or grant the right to lay a drain through any land intervening between the sewer of the Authority and the land proposed to be connected, and every owner or agent applying for the Authority's consent shall satisfy himself as to his legal right to drain through such intervening land and he shall be solely responsible for any trespass or damage thereon or thereto.

Section 3.—Consents to make connexions with the sewerage system will be issued only when the plumbing and draining in the property to be connected is planned to be made in accordance with the rules for plumbing and draining hereinafter prescribed, and after such plan has been inspected and approved of by the responsible officer appointed by the Authority for the purpose, or, in the case of new buildings, when a proper plan of the plumbing and of the drainage of the building into the branch, of which the Authority shall have fixed the position, has been approved of in writing by the Authority. All connexions with drains or sewers and all plumbing and drainage connexions therewith, shall be made under the direction of the responsible officer of the Authority. No person shall be engaged or employed as a workman in the actual performance of any plumbing or drainage work unless he is the holder of a licence or permit issued by the Authority authorizing him to do such work. Any person who shall at any time or at any place make up, form, affix, alter, or repair, any fitting, pipe, bend, trap, or other thing connected or intended to be connected with the Authority's sewerage system unless he be the holder of a licence or permit from the Authority authorizing him to do such work shall be liable to a penalty not exceeding Ten pounds.

If any person, whether he is or is not the holder of a Plumber's Licence or Permit from the Authority, alters, removes, or in any way interferes with any drain, fitting, pipe, bend, trap, or other thing, which drain, fitting, pipe, bend, trap, or other thing is connected with the Authority's sewerage system, he shall, unless he has previously received consent, in accordance with the provisions of this section for the execution of such work, and such consent is in full force and effect, be guilty of a breach of this By-law and shall be liable to a penalty of not more than Ten pounds.

Section 4.—Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of, or from the Authority is necessary, whether specified in writing or otherwise, with regard to any act, matter, or thing mentioned in the By-law, the same may be

given by and under the hand of the chairman of the Authority, or of the responsible officer, personally or through an inspecting officer appointed under him, who severally shall be competent to give the same and authorized on behalf of the Authority to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given.

Section 5.—In any case in which the Authority shall be of the opinion that a compliance with any of the provisions of this By-law would in any particular case be vexatious or be needless in the interest of public health, it shall be lawful for the Authority, by resolution, to dispense with or forbid such compliance in whole or in part as it shall think fit, or to authorize or direct such a modification or alteration of such provisions as shall, in its opinion, most nearly adapt the principle of those provisions to the particular case. It shall be unlawful to comply with any provision, or part of any provision, with which compliance shall have been forbidden, or to act contrary to or otherwise than as directed by such modification or alteration.

DIVISION 2.—PENALTIES, RECOVERY OF COST OF WORK, ETC.

Section 6.—Where anything is by this By-law directed to be done or forbidden to be done, or where any authority is given to the Authority or any of its officers to direct or forbid anything to be done, and such act so directed to be done remains undone, or such act forbidden to be done is done, then, and in every such case, the person making default as to the said direction or prohibition respectively shall be guilty of an offence against this By-law.

Section 7.—Every person guilty of an offence against this By-law, not otherwise specially provided for by or under the Authority hereof, shall be liable for every such offence, besides any costs or expenses which may be incurred in the taking of proceedings against such person guilty of such offence, as well as any costs or expenses which may be incurred in remedying such default, as particularly provided for in this By-law or the Acts, to a penalty not exceeding Ten pounds, and to a further penalty of One pound for each day during which such offence is continued by such person after notice of the offence shall have been given by the Authority to him; and such penalty shall be recoverable, notwithstanding that the Authority may not have chosen to exercise any power given to it by the Acts or by this By-law to remedy such default.

DIVISION 3.—HOUSE DRAINAGE PLANS—ALTERATIONS.

Section 8.—Copies of the Authority's plans of individual house drainage will be furnished by the Authority upon application and payment for the same, as follows:—

- (a) Where an owner designs and carries out his own work—
 - (i) For the supply of a block plan, Two shillings and sixpence (2s. 6d.).
 - (ii) For the examination of the owner's plan of design a fee of Seven shillings and sixpence (7s. 6d.) for each plan of from one to six fittings, plus Two shillings and sixpence (2s. 6d.) for every fitting over six.
 - (iii) For making or examining any alterations or additions to a plan previously issued or approved of by the Authority, a minimum charge of Five shillings (5s.) shall be made by the Authority.
 - (iv) For the inspection of drains and testing by the Authority's inspector, Ten shillings (10s.).
 - (v) For the inspection of plumbing by the Authority's inspector, Ten shillings (10s.).
 - (vi) For the final inspection by the Authority's engineer and charting work on the Authority's plans, Ten shillings (10s.).
- (b) When the Authority designs the work for the owner and the owner then carries out his own work—
 - (i) For plan of design, Ten shillings (10s.), plus Two shillings and sixpence (2s. 6d.) for each fitting.
 - (ii) For making or examining any alterations or additions to a plan previously issued or approved of by the Authority, a minimum charge of Five shillings (5s.) shall be made by the Authority.
 - (iii) For the inspection of drains and testing by the Authority's inspector, Ten shillings (10s.).
 - (iv) For the inspection of plumbing by the Authority's inspector, Ten shillings (10s.).
 - (v) For the final inspection by the Authority's engineer and charting the work on the Authority's plans, Ten shillings (10s.).
- (c) Where the Authority designs the work and has same carried out for the owner, a charge shall be made equal to Ten per centum on the capital cost of the work for the designing and supervising of all details in connexion with such work.

Consent for additions and/or amendments to approved plans or to works previously approved will be made only on the application of the owner or his authorized agent.

DIVISION 4.—MAINTENANCE AND DEFECTIVE WORK.

Section 9.—Any drain pipe, soil pipe, trap, water closet, urinal, sink, or other fitting laid, used, or constructed otherwise, than in accordance with this By-law, or which shall in the opinion of the Authority, be or become bad or of defective quality, shall, upon notice in writing from the Authority to the owner or occupier of the property, be by such owner or occupier removed or repaired in the manner determined and within the time fixed by the Authority, and in each case such owner or occupier fails to comply with the requirements of the notice, he shall be liable to prosecution and penalty for an offence against the Acts, or the Authority will, if it thinks fit, remove or repair the said defective fitting and charge such owner or occupier of the premises with the cost so incurred, and will proceed for recovery of the same in a manner provided by the said Acts.

DIVISION 5.—LICENCES AND PERMITS.

Section 10.—(1) All plumbing work for sewerage shall be done and carried out only by Licensed Plumbers and/or by the persons in this section 10 hereinafter mentioned, but subject in all things to the conditions and terms of this said section.

(2) The Authority may, if it thinks fit, and subject to the provisions of sub-sections (3), (4), (7), and (8) of this section, issue a Plumber's Licence to any person who:—

- (a) is the holder of a Certificate of Competency issued by the Sanitary Plumbers Examination Board of Victoria; or
- (b) was in possession of a Second Class Plumber's Licence of the Melbourne and Metropolitan Board of Works at the 30th June, 1931; or
- (c) had passed the practical examination of the Sanitary Plumbers Examination Board of Victoria prior to 1st January, 1933.

(3) The Authority, before issuing such Plumber's Licence, may require the applicant to satisfy it that he possesses the requisite knowledge of the Laws, By-laws, and Regulations relating to the sewerage system of the Authority, and it shall appoint officers to examine the said applicant as to his knowledge, and, after the consideration of the report thereon of such officers, may refuse to grant such licence, if, in its opinion, the applicant has not the requisite knowledge of such Laws, By-laws, and Regulations.

(4) Every person to whom a Plumber's Licence is to be issued shall, before the Licence is issued to him, sign in a register, to be kept by the Authority, a declaration that he will conform to and comply with the conditions of the Licence hereinafter contained and the By-laws and Regulations of the Authority.

(5) The Authority may, if it thinks fit, and subject to the provisions of sub-sections (7) and (10) of this section, issue a permit to work as a plumber to any person who has passed the practical examination of the Sanitary Plumbers Examination Board of Victoria.

(6) In the event of the holder of a Permit to work as a plumber being granted a Certificate of Competency by the Sanitary Plumbers Examination Board of Victoria, the Authority may issue a Plumber's Licence to him subject to the provisions of sub-sections (3), (4), (7), of this section and upon his returning his Permit.

(7) The Authority may refuse to grant a Licence or Permit to any person, or may suspend or cancel any Licence or Permit previously granted, if, in its opinion—

- (a) such person has been guilty of an offence against the By-laws and Regulations of the Authority;
- (b) such person has failed to comply with the instructions issued by any responsible officer of the Authority;
- (c) such person at any time or place has so conducted himself as to warrant, in the opinion of the Authority, the refusal, suspension, or cancellation of such Licence or Permit.

(8) On application for renewal, the Authority may renew any such Licence or Permit.

(9) No person, other than a Plumber's Apprentice, Plumber's Improver, the holder of a Permit to work as a Plumber, or the holder of a Plumber's Licence, shall be engaged or employed as a workman in the actual performance of any of the plumbing work for sewerage.

(10) No such Plumber's Apprentice, Plumber's Improver, or holder of a Permit to work as a Plumber, shall be permitted to work in the actual performance of, or to do, any plumbing work for sewerage except under the supervision of a Licensed Plumber, who shall be responsible for such work and for compliance with the By-laws and Regulations of the Authority in respect thereof.

(11) "Drainer's Licence".—The Authority may issue a "Drainer's Licence" to any person who the Authority is satisfied is competent to carry out the work of drainer, and for that purpose may require such person to satisfy it as to his competency by passing an examination conducted by the

Engineer and such other examiners as the Authority may appoint or in such other manner as the Authority may determine, or in any particular case may decide that he has a thorough knowledge of the following subjects:—

Plans.—The reading of plans and the meaning of scales and of elevation, plan, and section drawing.

Levelling.—The use of the straight-edge, spirit-level, and boning rods.

Excavation, Timbering, and Refilling.—The use of tools for excavation, the protection of trenches by timbering, the treatment of different soils, tunnelling, and tunnel timbering, precautions near buildings, and manners of refilling of trenches and tunnels.

Drain-laying.—The preparation of the bottom of trenches, the laying and jointing of stoneware, cement, concrete, and cast-iron pipes, cement, bitumen, lead, and self-fitting joints, laying of drains under houses and in soft ground, and the depth of drains below surface.

Drainage Details.—Junctions to sewers, diminishing of sizes of pipes, yard gullies, grease and other traps, inspection openings, and cast-iron drainage details.

Drainage Works.—Knowledge of the provisions of this By-law and of the Acts, insofar as same relate to the work and duties of drainers in regard to the construction, maintenance, and protection of the sewerage system and the construction and use of drains and drainage traps.

Candidates for Drainers' Licences shall give notice in writing to the Authority of their intention to submit themselves to examination, and this examination shall be at such a time and at such a place as shall be appointed by the Authority. Candidates must provide themselves with their own tools and materials, and pay a fee of 7s. 6d. for each examination.

Section 11.—The conditions upon which all Plumbers' Licences and Permits and Drainers' Licences will be issued are—

- (1) That every Licence and Permit will be subject to suspension or cancellation at the will of the Authority, and that all such Licences or renewals thereof will expire on the 30th day of September next following.
- (2) That every holder of a Licence from the Authority who shall have received the consent of the Authority to execute any works in connexion with sewerage or drainage, or who shall (where such consent of the Authority is not required before the execution of any such works) have notified the Authority of his intention to carry out such works—
 - (a) shall obtain permission when necessary for the execution of such works on, over, or through any private property, or any streets, roads, parks, reserves, or other public places or properties; and
 - (b) shall pay any fees demanded by the Municipal Authority for opening any street, road, or thoroughfare, or otherwise in connexion with the work; and
 - (c) shall execute such works in accordance with the provisions of the Acts and of the By-laws made thereunder, and of any special directions or orders given or issued by the Authority or its responsible officer; and
 - (d) shall use materials of good quality only and free from defects; and
 - (e) shall employ only competent operatives or assistants; and
 - (f) shall execute such works in a thorough and tradesman-like manner to the satisfaction of the Authority as expeditiously as practicable, and leave site clean and undefaced; and
 - (g) shall in the execution of such works take such proper and necessary precautions that no accident or damage or unnecessary inconvenience may be directly or indirectly occasioned thereby; and
 - (h) shall restore any part of any street, road, or thoroughfare interfered with by the work to the satisfaction of the Municipal Authority having control thereof upon the completion of the work; and
 - (i) shall restore any other property interfered with by the work to the satisfaction of the responsible officer of the Authority; and
 - (j) shall in all cases notify the responsible officer immediately upon completion of any work in hand, promptly amend any defects therein, and again at once notify the said officer, and subsequently take steps forthwith to secure the certificate of satisfactory completion, and give the same to owner; and
 - (k) shall in no instance interfere, remove, or cut any portion of an electrical installation. When portion of such installation, including earth wires, connexions, or pipes, interferes with the proper laying of house sewerage plumbing, the plumber shall communicate with the Officer-in-Charge, State Electricity Commission, Shepparton, to arrange for that portion of the electrical installation interfering with the plumbing installation to be so located, as not to cause further interference; and

(l) shall, when so directed by the Authority, make good at his own expense any defect found within twelve months of the date of completing of any such work which, in the opinion of the Engineer is due to faulty workmanship, or defective material.

Section 12.—Prior to the issue of any Licence or Permit the person to whom the same is to be issued shall pay to the Authority the fee named hereunder:—

	<i>s.</i>	<i>d.</i>
For every Plumber's Licence	10	0
For every Permit to Work as a plumber ..	7	6
For every Drainer's Licence	7	6
For the Renewal of any Licence	2	6

DIVISION 6.—NEW BUILDINGS, ADDITIONS, ETC.

Section 13.—Every person who shall intend to erect a building on any property within the Sewerage District, or to rebuild or to make any alterations or additions to any such buildings shall, before commencing such work, give to the Authority seven days' notice in writing of such intention; and such notice shall be accompanied by plans and sections of such intended buildings, alterations, or additions, showing their positions, dimensions, depths, and levels of foundations, cellars, or basements, all appurtenant walls and fences, the intended lines of drainage, and the boundary of the land, which plans, &c., shall become the property of the Authority.

DIVISION 7.—GENERAL.

Section 14.—Any work or thing in respect of or in connexion with sewerage under the Acts that is not specifically mentioned in this By-law shall be performed in accordance with the directions of the Authority.

PART 2.—GENERAL REGULATIONS.

DIVISION 8.—USE OF SEWERS AND DRAINS—PROHIBITION OF CERTAIN DISCHARGES.

Section 15—Use of Sewers and Drains.—The owner and the occupier of any sewered property shall discharge into the sewerage system (a) all faecal matter, urine, household slops and household liquid refuse from such property, and such other polluted water from stables, washing areas, manure bins, basements, cellars, and roofed yards, and

(b) such trade or manufacturing liquid refuse as the Authority may authorize, subject in each and every case to such conditions as it may impose.

Section 16—Prohibited Discharges.—The deposition or discharge of any of the following substances into any drain is prohibited—

- (a) Any animal matter other than is specified in section 15, fleshings, wool, hair, dead animal, grease, dust, ashes, rubbish, garbage, offal, vegetable and fruit or their parings, rags, oil, silt, mud, sand, gravel, or like substances, or any other substance which is in the opinion of the Authority or its responsible officer, liable to be injurious to any part of the sewerage system or to employees of the Authority engaged in the operation or maintenance of same.
- (b) Any petrol or other inflammable or explosive substance, whether solid, liquid, or gaseous.
- (c) Any rain, roof, surface, or flood waters, except by special permission of the Authority.
- (d) The contents of any night-soil cart, cesspool, or privy.
- (e) Any liquid, trade waste or other substance which has not been neutralized to the approval of the responsible officer of the Authority, or which is above the temperature of 100 deg. Fahrenheit, or such lower temperature as may be prescribed by the Authority, having regard to the special circumstances of the case.
- (f) Any liquid which contains such percentage of common salt or any other mineral, salt, acid, or gas, as is, in the opinion of the responsible officer of the Authority, injurious to, or liable to form compounds injurious to, any part of the sewerage system or to employees of the Authority engaged in the operation or maintenance of same.

Section 17—Fittings to be Above Flood Level.—No person shall place in position for use any fitting or appliance having an inlet or opening into any drain or into any sewer of the Authority unless the inlet or opening is above 368.00 R.L. State Rivers and Water Supply Commission datum.

Where any buildings or premises are situated in any area liable to flooding at frequent intervals the Authority may suspend the operation of this clause subject to and so long as the following conditions are observed:—

- (a) That the owner applies in writing for permission to fix an approved sluice valve in every drain connecting with a sewer of the Authority on which the inlet or opening is placed, and furnishes the Authority with an undertaking that such sluice valve will be fixed at his risk, and indemnifies the Authority against all damage suffered by such owner or any one claiming under him arising out of and incidental to such valve;

- (b) That the owner undertakes whenever there is danger of flooding to close or cause to be closed every such valve before flooding occurs, and to keep closed or cause to be kept closed every such valve until the flood water shall have subsided to such an extent that there is no longer danger of the flood water entering the sewers;
- (c) That, pursuant to such permission and undertaking, an approved sluice valve shall have been fixed in every drain connecting with a sewer of the Authority and approved of by the Engineer;
- (d) That the owner does whenever necessary close and keep closed every such valve and does exclude such flood water.

DIVISION 9.—TRADE WASTES.

Section 18—Conditions of Discharge.—No person shall discharge any trade or manufacturing liquid, refuse, or waste into any sewer, unless and until the following conditions are complied with:—

- (a) Application for permission to discharge any such trade wastes shall be made in writing and accompanied by plans and specifications of the work to be done and of the apparatus to be used, and shall include such details concerning the nature of the waste and the quantity and rates of discharge of the proposed effluent as considered necessary by the responsible officer of the Authority.
- (b) The permission of the Authority in writing shall be obtained and an agreement containing a covenant to comply with the By-law and with any further stipulations required by the Authority, shall be executed. The volume of liquid refuse or waste discharged shall, if ordered, be measured and determined by meter or by some other approved means of measurement. The maximum daily aggregate quantity of effluent which may pass from any trade premises into a sewer, the maximum permissible rate of such discharge, the size and capacity of the drain or pipe for conveying such effluent from the trade premises to the sewer, and the hours during which such flow will be permitted shall be determined by the Authority.
- (c) All such liquid refuse or waste shall be passed through such settling, screening, and/or neutralizing chambers and/or such other appliances and/or otherwise treated as ordered or approved by the Authority to ensure that the resulting effluents shall comply with the conditions of the agreement.
- (d) Every settling, screening, neutralizing, or other chamber, appliance, or apparatus for the treatment of trade wastes in accordance with this By-law shall be cleaned and maintained by the occupier at his own expense and at such intervals as may be considered necessary by the Authority or its responsible officer to ensure the efficient operation of such chamber, appliance, or apparatus and in no case shall such chamber, appliance, or apparatus be altered without the approval in writing of the Authority first being obtained.

DIVISION 10.—SUB-SOIL WATER.

Section 19.—The discharge of sub-soil water into sewers shall be prohibited except by permission of, and under conditions approved by, the Authority.

DIVISION 11.—INSPECTION TESTS.

Section 20—Notice.—The owner or his authorized agent, or the plumber, drainer, or contractor, shall give at least 48 hours' notice to the Authority, in writing, of his intention to commence work and of work ready for inspection. All work shall be left uncovered and accessible for examination until inspected and approved.

The contractor carrying out any work shall, within seven days of the completion of such work, file in the office of the Authority on forms furnished for this purpose, a correct statement of the work done and the cost thereof. Such statement shall be countersigned by the responsible officer of the Authority, and a certificate embodying such statement shall be forwarded to the contractor.

Section 21—Inspection.—All drains, wastes, fittings, joints, fixtures, &c., will be inspected by the responsible officer of the Authority to ensure compliance with the By-law and approved plan.

Section 22—Tests.—Drains, whether laid by the Authority's workmen or others, must be thoroughly tested in every case before being passed by the Authority's officers. The responsible officer of the Authority may require the application of the water or smoke test, or such other tests as he may order or approve.

Section 23—Water Test.—The water test may be applied to the drainage and/or plumbing systems and their fittings in their entirety or in sections. It shall be applied by hermetically sealing all openings below the top of the section to be tested. The system shall then be filled with water to a height of 6 feet above the highest point of the section, or,

if considered necessary to such additional height as the responsible officer may order, and every joint carefully examined for leaks.

In testing drains the water shall be maintained at this height for a period of fifteen minutes by the addition of a measured quantity of water as required. The amount of water added in the fifteen minutes shall not exceed 2 gallons for every 50 joints of 4-inch drain or sewer, and must not exceed 3 gallons, for every 50 joints of 6-inch drain or sewer, or proportionately for a lesser or greater number of joints.

Section 24—Smoke Test.—The smoke test shall be applied by hermetically sealing all openings into the section to be tested, and forcing into the system thick smoke to a pressure equivalent to 1 inch of water, by means of a smoke test apparatus. Every joint shall then be carefully examined for leaks.

Section 25—Equipment, &c.—The equipment, material, power and labour necessary for the inspection and tests shall be furnished by the contractor, plumber, or drainer.

DIVISION 12.—MATERIALS AND WORKMANSHIP.

Section 26—Materials.—All materials, pipes, bends, junctions, fittings, fixtures and apparatus shall be of the best of their respective kinds, sound and free from defects, and shall be approved by the responsible officer.

Section 27—Testing.—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be submitted for examination and/or test, and shall not be placed in position until passed and stamped by the Authority. Such testing of materials shall be paid for by the person submitting same, whether passed or rejected, and shall be done at such time and place and at such rates, as may from time to time be fixed by the Authority.

Section 28—Workmanship.—All work shall be executed in a thorough and workmanlike manner and to the satisfaction of the responsible officer.

Section 29—Precautions.—Adequate precautions shall be adopted by the person carrying out the work to prevent injury to workmen, property, or the public, and the Authority will accept no responsibility for claims for injury arising from the inadequacy of such precautions.

Section 30—Concrete.—Concrete, unless otherwise ordered, shall consist of 1 part Portland cement, 2 parts clean, sharp sand, and 4 parts hard metal, shingle, or gravel not exceeding 1-in. gauge, and shall be thoroughly mixed with clean water to such consistency as ordered or approved by the responsible officer of the Authority.

The cement, sand and aggregate shall be thoroughly mixed and the whole batch completely turned over three times in the dry and turned over again at least three times while water is being added. If a concrete mixer is used the minimum time of mixing in the machine after all the materials have been added shall be two minutes. All concrete shall be placed within 20 minutes of the time of mixing.

Section 31—Cement Mortar.—Cement mortar, unless otherwise ordered, shall consist of 1 part Portland cement and 2 parts clean sharp sand, properly mixed with an approved proportion of clean water. Cement mortar shall be used within 20 minutes of the time of mixing. Re-tempering is forbidden.

PART 3. DRAINAGE.

DIVISION 13.—DRAINAGE, GENERAL.

Section 32.—(1) Every premises shall be separately drained unless a combined drain shall have been ordered or approved by the Authority. Owners desiring to have the drainage of their properties combined must sign a request for a combined drain, and obtain the approval of the Authority. In any case in which it appears to the Authority that any properties may be drained more advantageously in combination than separately the Authority may order that those properties be drained by a combined operation.

(2) In any case where a combined drain serves two or more properties the Authority, with the consent of the owners of the properties served by such combined drain, may take over such combined drain, and thereafter such combined drain shall be and remain a sewer of the Authority.

(3) In every case of a combined drain the Authority will determine as between the respective owners and occupiers of the properties drained thereby, the proportions in which the cost of such combined drain shall be paid. In every case of the occurrence of an obstruction in a combined drain the Authority will also determine by whom and in what proportion the cost of removing such obstruction shall be paid.

(4) Owners and occupiers of premises are responsible for clearing stoppages in drains within their premises, or between their premises and the sewers into which the branches lead, but must employ only licensed plumbers or drainers to clear same.

(5) Before a licensed plumber or drainer commences to clear a stoppage in a drain he must notify the Authority in writing of the time when he intends to clear the stoppage, so that the Authority's proper officer may attend and pass the work in accordance with the provisions of the Acts.

Section 33—Size of Drains.—Every drain shall be of adequate size for the drainage of the property to be served, in accordance with the requirements of section 77, with a minimum diameter of 4 inches.

Section 34—Materials.—All drain pipes, bends, junctions, and fittings used shall be of glazed stoneware, concrete, cast iron or other approved material, provided that the responsible officer of the Authority may prohibit the use of any of the above-mentioned where the circumstances or conditions are considered unfavorable.

Section 35—Cast-iron Pipes.—Cast-iron drainage pipes and their fittings shall comply with the standard approved by the Authority for cast-iron water pipes and their fittings.

Section 36—Interceptor Traps.—Where directed by the Authority, but not otherwise, an interceptor trap shall be fixed in the drain laid from any property to the sewer. Such trap shall be fixed as near as practicable to the boundary, and wherever practicable shall be within the boundaries of the property. The interceptor trap shall be provided with an inspection cap on the sewer side of the trap. If ordered, an approved manhole shall be provided for the trap.

Section 37—Inspection Chambers.—All drains shall, wherever considered necessary by the Authority, join in an inspection chamber at least 3 feet long by 2 feet wide, fitted with a closed cover. The portions of the drains crossing the floor of the inspection chamber shall be connected either in a straight line or by curved junctions in the floor of the chamber. All inspection chambers to be cement rendered (two parts sand and one part cement) to a smooth surface, and made watertight. The inspection chamber must be provided with a closed cover, and special ventilation must also be provided if considered necessary by the responsible officer.

Section 38—Inspection Openings.—Every line of drain shall be provided with an inspection opening inside and within 5 feet of the boundary line, at each junction not provided with an inspection chamber, at each change of direction, at each fixture, and in no case at greater than 30-foot intervals, and in paved areas these shall, if considered necessary by the responsible officer of the Authority, be brought to the surface and furnished with approved airtight covers. The area of an inspection opening shall not be less than the area of the drain. Inspection openings, inspection junctions, or branches are to be set in an approved manner to facilitate rodding.

Section 39—Drain Openings Not in Use.—The ends of all house drains and junctions not immediately connected with the plumbing fixtures and all inspection openings shall be securely closed with watertight imperishable materials. If the drain is of stoneware or cement concrete, a stoneware, cement concrete, or cast-iron disc must be cemented in; if wrought iron, a plug must be screwed on the end; if cast iron, a cast-iron plug must be caulked in with lead.

Section 40—Replacing or Inserting Pipes.—Where it becomes necessary to remove a pipe to clear a stoppage or to insert a pipe or branch in an existing drain, such pipe so removed shall be replaced by an inspection pipe or inspection junction of the same length by one of the following methods:—

- (a) The top half of the socket of the new pipe and of the existing down-stream pipe may be removed, but the bottom half shall in each case be left intact and the joints surrounded with concrete.
- (b) An approved split pipe with double collar surrounded with concrete may be used.
- (c) A length of not less than three pipes may be removed, the centre pipe replaced by an inspection pipe, and the pipes dropped back into place without springing or cutting.

Junctions in existing metal pipes shall not be made unless an approved closure pipe is used in each case. Springing pipes into position shall not be resorted to or allowed.

DIVISION 14.—BASEMENT AND CELLAR DRAINAGE.

Section 41—Fixtures.—No water-closet, urinal, and/or other fixture shall be placed in any cellar or basement, or on any floor below ground level, unless by consent of the Authority, and then only when, in the opinion of the responsible officer, other provision cannot be made. The owner shall submit such plans and/or other information as the responsible officer may require, and shall undertake in writing to accept all risk of damage that may occur. If satisfied that the ventilation and lighting provided are in accordance with this By-law, and all other conditions have been complied with, the Authority may give its consent; provided always that such consent may be revoked by the Authority at any time, and that upon fourteen days' notice of revocation such fixture shall be abolished by the owner.

Section 42—Risk of Back Flow.—Where such cellar, basement, or floor below ground level is at such a level as may, in the opinion of the responsible officer, involve risk of back flow in the event of the sewer becoming overcharged, the sewage from all fixtures therein shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered and discharged into the sewer as and where directed.

Section 43—Seepage Drains.—In no case shall seepage drains from cellars, basements, or any floor below ground level be discharged into a sewer without the consent of the Authority.

Where such discharge is permitted, the seepage shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered, and discharged into the sewer or elsewhere as and where directed.

DIVISION 15.—POLLUTED AREAS.

Section 44—Connexion.—The Authority may, if it thinks fit, authorize or require that any of the following places, namely, stables, cow sheds, dairies, market places, areas for washing vehicles, and any other polluted place, be connected with the sewers, subject to such conditions as the Authority may impose.

Section 45—Conditions Governing Connexion.—No such connexion shall be made unless the following conditions have been complied with:—

- (a) The place to be connected shall, if required, be so roofed as to prevent the entry of rain water from it to the sewers, and in no case shall rain water be permitted to discharge on to such place from adjoining surfaces.
- (b) The place to be connected shall be paved above the level of the yard with approved materials, and graded to the satisfaction of the responsible officer of the Authority.
- (c) The drain from any such place shall be provided with an approved silt trap with a removable grating and connected with the drain inside the boundary line of the property.

Section 46—Manure Bins.—(a) Manure bins must be provided for all stables or cow yards, where the local Municipal By-laws demand their construction, or where the locality is closely built on.

(b) All the manure bins must have the inside surfaces rendered with cement mortar, and must be impervious throughout, and provided with an approved close-fitting cover. Walls of new manure bins must, unless otherwise approved by the Engineer, be at least 9 inches in thickness, built of brick-work laid in cement mortar. If an outlet pipe be provided for a manure bin, it must be properly connected with the Authority's sewers. Branches in house drains must be provided in all cases where manure bins exist, for their connexion whenever the Authority shall deem it necessary.

DIVISION 16.—PIPE TRENCHES.

Section 47.—The trench for the house drain from any property shall be so dug as to meet the Authority's sewer at the position provided or to be provided for the connexion. The material from the trench shall be so placed as to cause the least possible obstruction and inconvenience to the public.

Proper barriers and lights shall be maintained where necessary to guard against accident during the progress of the work.

In refilling the trench selected refilling shall first be deposited around and over the pipe to a depth of 12 inches and carefully consolidated, after which the remainder of the trench shall be filled in layers and rammed or flooded, as ordered or approved.

No stone shall be used in refilling until earth or gravel has been placed over the pipe to a depth of 1 foot, or more if directed.

On no account shall any water, sand, earth, &c., be allowed to enter the sewer during the progress of the work.

On completion of refilling the surface shall be restored as nearly as possible to the same condition as it was in before operations were commenced, unless the owner in writing otherwise requires.

DIVISION 17.—LAYING DRAINS, &C.

Section 48—Position and Line.—Every drain and every fitting, &c., connected therewith shall be laid and fixed where directed by the responsible officer of the Authority. As far as possible all drains shall be laid in straight lines; where changes of direction occur they shall be made in manholes, or by a suitably curved pipe with an inspection opening on each straight pipe next adjoining the curve, or by installing an inspection branch in the curve itself, or by such other means as the responsible officer may direct.

Section 49—Oblique Junctions.—Where any drain joins another drain, or a sewer, the junction shall be made obliquely at an angle of not greater than 45 degrees with the direction of flow of such drain or sewer.

Section 50—Connexion to Sewer.—The position of the Authority's connexion to any premises shall be located prior to the commencement of any drain excavation. The disc stopper at the point of connexion to the sewer shall be carefully removed so as not to injure the socket or allow any debris to enter the sewer.

The first length of the drain at the branch shall be an inspection opening.

Section 51—Gradients.—All drains shall be laid on an even grade, and, except by special permission in writing, from the responsible officer, such gradients shall in no case be less than the following:—

4-in. diameter	1 in 40
6-in. diameter	1 in 60
9-in. diameter	1 in 90

In cases where the grades of drains are steeper than 1 in 15, concrete blocks shall be placed at intervals of not more than 30 feet.

Such blocks shall be let into the sides of the trench at least 6 inches on each side and shall extend not less than 3 inches above and below the barrel of the pipe and for a length of 12 inches along the pipe.

Section 52—Depth of Drains.—Drains of stoneware or concrete pipe, unless bedded on and encased in concrete of not less than 6 inches thickness over any part of the drain, shall be laid at a depth to the socket of the pipe of not less than the following:—

- (a) In public thoroughfares, rights-of-way, or other open spaces subject to vehicular traffic—3 feet.
- (b) In private property not subject to vehicular traffic—1 foot 6 inches.

No person shall alter the surface over any drain, so as to deprive it of the minimum depth of cover specified by the preceding paragraph, unless approved measures are adopted to protect the drain.

Section 53—Laying Drains.—All pipes shall be laid to such lines and grades as may be shown on the plans or directed, and, except where otherwise ordered, holes shall be cut in the bottom of the pipe trench to receive the sockets of the pipes, and all the pipes shall be carefully bedded with the barrel on the solid ground.

In the case of rock-bottomed trenches, or where directed by the Inspecting Officer, the pipes shall be bedded up to the horizontal diameter on approved sand or other material, so that there shall be at least three inches of the bedding material below the barrel of the pipe.

In water-charged ground, or where the foundation is bad, or near roots of trees, or where directed, the drain shall be formed of cast-iron pipes; or, if of stoneware or concrete pipes, they shall be bedded on and encased in concrete as ordered, and if ordered, supported upon approved timber foundations as directed. The thickness of concrete encasing and the form of concrete haunching shall be as directed by the responsible officer.

Drops or bends in vertical or inclined drains shall have a concrete support placed under and around as directed.

Portland cement concrete brought to a smooth surface must be used in each of the following cases:—

- (i) Around and under gully basins, the exposed surfaces to be rendered in cement mortar, two parts sand, one part cement.
- (ii) Around the tops of vent pipe sockets and for 6 inches below the surface of the ground.
- (iii) Around the tops of disconnector traps and for 6 inches below the surface of the ground.
- (iv) Under and around bends rising vertically off oblique branches, and under all drainage traps.

DIVISION 18.—DRAINS UNDER BUILDINGS.

Section 54.—Every drain shall, as far as practicable, be so constructed as not to pass under any building or out-building. When a drain does pass under a building or out-building it shall, if practicable, be laid in a direct line for the whole distance beneath such building or out-building, and shall have approved means of access for rodding outside the walls of the building or out-building and also, if directed, beneath the building or out-building. The pipes used shall be of stoneware or concrete, surrounded by not less than 6 inches of concrete, or of cast-iron.

In any case in which pipes pass through or under walls, approved provision shall be made to prevent injury to the pipes by settlement and, in outer walls, to prevent the ingress of vermin.

DIVISION 19.—JOINTS, DRAINAGE.

Section 55—Stoneware and Cement Pipes.—Joints of stoneware and cement pipes shall be filled in solidly with cement mortar neatly splayed off, or with other approved material. After each joint is made the interior of the joint shall be wiped clear of surplus mortar before the next pipe is laid.

Section 56—Cast-iron Pipes.—All joints in cast-iron pipes must be stemmed with approved gaskets and so filled and caulked with lead or other approved material as to make them gas and watertight.

All connexions between stoneware or concrete pipes and cast-iron pipes shall be made as for joints in stoneware or concrete pipes.

DIVISION 20.—DRAINAGE VENTILATION.

Section 57—Vents of Main Drain.—The main drain shall be ventilated at its upper end by a pipe ventilator erected vertically, and such ventilator may be a soil pipe.

If the drain is provided with an interceptor trap there shall be in addition a ventilator connected to the interceptor trap shaft. In such cases there shall, wherever practicable, be a difference in height of not less than 6 feet between the tops of the vents at the upper and lower ends of the drains respectively.

Section 58—Vents of Branch Drains.—Branch drains need not be vented if the drainage traps are within 20 feet from the main house drain, measured along the line of pipes, including the drop, if any, from the centre line of the main drain to the centre of the outlet side of the water seal of the drainage trap, unless otherwise ordered by the responsible officer, in which case they must be vented as directed.

Section 59—Height of Vents.—Every vent pipe extending upwards from a soil or drain pipe shall be carried not less than 6 feet higher than any window or door within a distance of 30 feet thereof, and in any case at least 21 feet above ground level and 6 feet above the level of the eaves or coping, or to such additional height as may be necessary to prevent effectually the escape of foul air into any building or out-building within the vicinity.

Where the vent pipe extends into a gable of the building or out-building, it shall further be carried at least 2 feet above the point of intersection with the roof.

Such pipe shall, where necessary, be provided with sufficient clips or stays to support them effectively.

Section 60—Chimneys.—No chimney shall be used as a ventilator to any drain, soil, or waste pipe.

Section 61—Vents near Chimneys.—Vents must, as far as possible, be kept away from chimneys and ventilating air shafts. Where a ventilator pipe terminates six feet or more from a chimney opening or ventilating air shaft, the requirements of section 59 shall apply, but where the distance is less than six feet the vent pipe shall, unless otherwise ordered, terminate not less than two feet below the top of such chimney or air shaft.

Section 62—Vents Adjoining High Buildings.—In any case in which a building or out-building is erected next to a previously existing building or out-building of less elevation and any windows of the new building or out-building are located within 30 feet of any existing vent stack on the lower building or out-building, the owner of such new building or out-building shall defray the cost of or shall himself make such alterations to the vents of the previously existing building or out-building as necessary, to conform with section 59.

The owner of the lower or existing building or out-building shall make such alterations upon the receipt of money, or security therefor sufficient for the purpose, from the owner of the new or higher building or out-building, or shall permit at the election of the owner of the new or higher building or out-building, the making of such alteration by the owner of such new or higher building or out-building.

Section 63—Size of Drainage Vents.—Drainage vent pipes shall, unless otherwise ordered, be of not less than 4-in. diameter in the case of educt vents and not less than 3-in. diameter in the case of induct vents, with the provision that where more than one educt vent is provided the vent on the longest line of drain shall be of not less than 4-in. diameter and all others of not less than 3-in. diameter; but in no case shall a drainage vent be of small diameter than necessary to comply with the requirements of section 78.

Unless otherwise ordered or approved every such vent pipe shall be without return bend and provided with basket and/or educt or induct cowls as directed.

Section 64—Materials, &c.—Drainage vent pipes situated wholly outside of buildings or outbuildings shall be of cast-iron, galvanized wrought-iron, double galvanized sheet-iron, or other approved material above ground and of stoneware or concrete beneath the surface of the ground. Galvanized sheet-iron vent pipe shall not be less gauge than 20 for 3-in. and 4-in. diameter pipes and 18 for 8-in. pipes, and where ordered the first six feet above ground shall be of cast-iron or other approved material. Drainage vent pipes inside a building or out-building shall, unless otherwise approved, be of cast-iron or of galvanized wrought-iron. The circumferential joints of galvanized sheet-iron vent pipes shall be riveted and soldered. All galvanized sheet-iron vent pipe used to ventilate the drainage system, or used as anti-syphonage pipes to soil or waste pipes from closets, slop sinks, or urinals, must be coated with hot tar or asphaltum inside before erection.

Section 65—Gratings.—Openings for ventilation shall be effectively protected by approved gratings of ample area. The aggregate area of apertures in any such grating shall not be less than the sectional area of the pipe or drain to which such grating is fixed. Every opening for ventilation shall at all times be kept perfectly free from obstruction.

Section 66—Pipe Clips, &c.—There shall be at least one pipe clip to each six feet length of vent pipe.

For cast-iron or wrought-iron pipe approved coated wrought-iron clips and for galvanized sheet-iron pipe 1½-in. x 14-gauge galvanized band iron clips shall be provided. Wherever it is necessary to fix pipes clear of the wall approved extension clips shall be used.

Clips in the case of cast-iron pipes must be placed tight up against the bend or underside of collar.

Section 67—Attachment to Walls.—Where a galvanized sheet-iron pipe, with or without offset, is carried up above the brick wall of a building or out-building a galvanized wrought-iron clip must be used, leaded into the wall near the top wherever possible and bolted against the vent pipe.

All band iron clips of vent pipes to brick walls shall be fastened with nuts and bolts, leaded in, or by means of T-headed bolts passed through the brick joints and turned at right angles to the joints.

Section 68—Supporting Vents.—Wherever a vent pipe with offset is not more than nine feet long above such offset it need not be stayed; if longer, it shall be stayed as directed with ½-in. galvanized wrought-iron piping.

An unsupported length of fifteen feet above highest clip of straight vent pipe without offset will be permitted.

Section 69—Induct Vents.—Every induct vent shall be securely supported in an approved manner.

DIVISION 21.—DRAINAGE TRAPS.

Section 70—Trapping of Inlets.—Every inlet to any drain other than inlets provided for ventilation in accordance with the By-law shall be provided with an approved trap. No inlets to any drain connecting directly with a sewer shall be constructed within a building or out-building other than such inlets necessary for the apparatus of any water-closet, urinal, or slop sink.

Section 71—Classes of Traps.—Four classes of traps shall be used—

- (a) "Traps" for intercepting gases only, to be of round section and self-cleansing form, but not such as to empty by momentum or suction.
- (b) "Silt traps" for intercepting both gases and solids, to have slightly tapered sides, flat bottom and rounded angles, and provided with approved means for catching and removing solids.
- (c) "Grease traps" for solidifying and collecting grease, fatty domestic wastes and other semi-fluid or viscous material liable to foul the pipes. The grease trap shall be designed for the requirements of the particular drain. The design and capacity shall be to the approval of the Engineer. The interior surfaces shall be tiled, and it shall be equipped with non-corrodible baffles, the whole trap being designed for easy cleaning.
- (d) "Oil traps" for collecting all kinds of oil and to be of such form as approved.

The term "yard gully" is applied to traps (a) in cases where they are used externally and fitted with dish tops and gratings. The tops of inlets of all disconnector traps must be at least six inches above the surface of the surrounding ground.

Section 72—Water Seal.—Every trap must have a water seal of at least half the diameter of the outlet pipe, but in no case of less than 2 inches.

Section 73—Provision of Yard Gullies.—A yard gully shall, wherever practicable, be provided in the yard of every property as near as practicable to the kitchen or back door, with a tap placed over it at a height of not less than two feet. No yard gully shall be situated within a building or out-building. Where it is not practicable to provide a yard gully, a slop sink must be provided within the building or out-building.

Section 74—Details of Yard Gullies.—Yard gullies shall be fitted with dished tops and gratings, the dished top being in one piece with the trap or jointed thereto by spigot and faucet, or as otherwise approved.

The depth of the dished top to the grating must not be less than six inches. The grating to every gully trap must not be less than 6½-in. over all, and the grating to every disconnector trap shall be convex in section, with an opening of suitable outlet capacity. Every grating must be fixed down in an approved manner with bitumen or wedges of lead.

Section 75—Kerbing, &c., to Yard Gullies.—Yard gully basins and the dished tops of silt traps must be so surrounded with an approved impervious kerbing as to prevent the access of surface water to the drains, and, if directed, the wall at the rear of the gully or silt trap, if of brick or stone, must be cement rendered to the height of the tap over same, and if of wood the wall must be provided with an approved galvanized sheet-iron apron. The internal diameter of kerbing around gully traps measured from face of cement rendering must not be less than 15 inches, and must be neatly rounded to meet the gully top.

PART 4.—PIPE CAPACITIES.

DIVISION 22.—CAPACITIES OF SOIL, WASTE, DRAIN, AND VENT PIPES.

Section 76—Fixture Units.—For the purpose of determining the size of any drain, waste, soil, or vent pipe, the following equivalent fixture units shall be adopted, unless otherwise directed, and the nominal outlet diameter shown hereunder shall be the minimum allowed for each of the respective fittings.

Fixture.	Nominal Outlet Diameter.	Fixture Units.
One lavatory basin	1½ inches ..	1
For each lavatory basin over twenty served by such pipe	½ for each basin
One kitchen sink (up to 6 inches depth to overflow)	2 inches ..	3
One bath (with or without overhead shower)	1½ inches ..	4
.. .. .	2 inches ..	6
One wash trough, set with common trap	2 inches ..	5
One urinal or group of urinals draining to a common trap	2 inches ..	3
One slop sink	3 inches ..	4
One shower compartment	2 inches ..	3
One water closet	4 inches ..	6
Group of fixtures contained in one apartment—		
Bath and lavatory basin	6
Bath, lavatory basin, and shower	6
Bath, lavatory basin, shower, and water closet	6

For fixtures, other than those shown, the equivalent fixture units to be adopted shall be determined by the Engineer.

Section 77—Sizes of Soil, Waste, and Drain Pipes.—Except by special permission the required sizes of soil, waste, and drain pipes shall be determined on the basis of the total number of fixture units drained, or likely to be drained, in accordance with the following table:—

Diameter of Pipe (Inches)	Minimum Permissible Grade.	Permissible Maximum Number of Fixture Units.										Vertical.	Maximum Number of Fixture Units Permitted to be Connected in any 100 feet of Vertical Stack.	
		Grade not less than—												
		1 in 60	1 in 50	1 in 40	1 in 30	1 in 25	1 in 20	1 in 15	1 in 12½	1 in 10	1 in 5			
1½	1 in 12½	1½	1½	1½	1½
1½	1 in 15	1½	1½	1½	1½

6	1 in 60	380	..	370	..	430	..	520	550	590	730	1,100	890	280
														590

Provided that—

- (a) Waste and soil pipes shall not be diminished in diameter in the direction of flow.
- (b) The diameter of trap, waste, or soil pipe receiving the discharge from any fixture shall in no case be less than the nominal outlet diameter of such fixture, and in no case be less than 1½ inches.
- (c) No water-closet shall discharge into a drain or soil pipe of less than 4 inches in diameter.
- (d) All connexions between inclined pipes and vertical stacks shall be through 45 degrees junctions.
- (e) Soil and waste stacks shall be as direct as possible and free from sharp bends. Where such are unavoidable, approved provision shall, if necessary, be made to safeguard fixtures immediately above and below the bend.

Section 78—Sizes of Vents.—(1) Main Vents.—Except by special permission, the required sizes of main vents shall be determined from the size of the soil, or waste pipe, or stack to be vented, the total number of fixture units drained into

it and the developed length of the vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table.

MAXIMUM PERMISSIBLE LENGTH OF MAIN VENTS (IN FEET) FOR SOIL AND WASTE PIPES.

Diameter of Soil or Waste Pipe (inches).	Number of Fixture Units.	Diameter of Main Vent (in inches).						
		1½	2	2½	3	4	5	6

	590	9	42	148	300
	730	8	37	137	300
	1,100	7	26	112	260

Provided that—

- (a) No vent shall be less than 1½ inches in diameter, and in no case shall a vent have a diameter less than one-half that of the soil or waste pipe which it serves unless otherwise specified.
- (b) For 2-inch and 2½-inch waste pipes the vent shall have a diameter of not less than 1½ inches.

2. *Sizes of Branch Vents.*—The required sizes of branch vents shall be determined from the number of fixture units served by the branch vent and the developed length of the vent from the point of connexion of the anti-siphonage vent from the last fixture served by the branch vent to the outlet to the open air at the upper end of the main vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table:—

Diameter of Branch Vent.	Number of Fixture Units Served by Branch Vent.	Maximum Permissible Length.	Diameter of Branch Vent.	Number of Fixture Units Served by Branch Vent.	Maximum Permissible Length.
1½	Up to 9 ..	55	3	Up to 6 ..	306
		12 ..	272
2	Up to 23 ..	80	..	19 ..	238
				25 ..	204

Provided that—

- (a) Branch vents shall conform to provisions (a), (b) for main vents.
- (b) No branch vent need be larger in diameter than the soil or waste pipe which it serves.
- (3) *Individual Anti-siphonage Vents.*—The required sizes of individual anti-siphonage vents shall be determined from the diameter of the fixture trap served in accordance with the following table:—

Diameter of Fixture Trap.	Minimum Permissible Size of Anti-siphonage Vent.	Diameter of Fixture Trap.	Minimum Permissible Size of Anti-siphonage Vent.

PART 2.—PLUMBING.

DIVISION 23.—GENERAL.

Section 79—*Waste Pipes.*—Except by permission of the Authority, separate waste pipes shall be provided for each of the following classes of polluted water, viz.:—

- (a) Dirty water from baths, sinks, lavatory basins and wash troughs, and other water containing a small proportion of soap and/or dirt.
- (b) Greasy water from kitchen and scullery sinks or other fixtures, in such cases where grease traps are ordered or required.

Section 80—*Soil Pipes.*—Soil pipes shall be provided for soil water from closets and other water containing faecal matter, and for urinal waters from slop sinks and urinals and, where directed, for discharges from operating theatres and mortuaries, and in no case shall such waters be discharged into any waste pipe as defined by this By-law, except by permission of the Authority.

Section 81—*Connections to Drain.*—All waste pipes shall discharge under the grating of a yard gully or into a disconnector trap. All soil pipes, including those for urinals and slop sinks, must be connected direct to the drain. No waste pipe shall be laid in the ground outside any building or outbuilding unless by special permission.

Section 82—*Flashing, &c.*—All troughs, sinks, and other fixtures which are placed less than 3 inches, and all baths fixed less than 6 inches clear from any wall, shall be flashed with 5-lb. sheet lead, 24-gauge copper, bronze, brass, nickel-silver, or monel metal, or other approved material. Twenty-four-gauge sheet galvanized iron may be used for fixtures other than sinks.

All such flashings shall be turned up the walls at least 4 inches, except where the walls are tiled, when the flashings shall be carried up at least 1 inch behind the tiles. Baths and other fixtures having turned-up flanges for use against tiled walls in lieu of sheet-metal flashing shall be properly supported to prevent settlement, and the tiles shall be brought hard down on to the surface of the fixture. Such tiles or sheet materials shall be securely bedded upon cement mortar in an approved manner for a height of at least 3 inches above the fixture. The flange of the fixture shall lap behind the tiles or sheet material not less than ½ inch where the fixture is supported on brick or concrete walls carried up from permanent foundations, and not less than ¾ inch if the fixture is supported on material other than brick or concrete. All flashing shall be properly secured and made watertight, and shall be bedded for a width of not less than 1 inch along the edge nearer the fixture in red or white lead.

Unless otherwise directed or permitted sinks, tubs, and similar fixtures situated in buildings, other than private houses, where food for human consumption is prepared, manufactured, or stored for sale, and draining boards, slabs, and plates used in connexion with such fixtures, shall not abut against any wall, but shall have a clear space not less than 6 inches between such fixtures and any wall surfaces or obstructions.

Section 83—*Bib-cocks.*—Internal bib-cocks shall not be permitted unless a sink, lavatory basin, or other approved fixture, or a properly drained impervious floor, is provided underneath.

DIVISION 24.—SOIL, WASTE, AND VENT PIPES.

Section 84.—Except by permission of the Engineer, no material shall be used for soil pipes, other than cast-iron, 7-lb. lead, brass, stoneware, or ceramic ware, and for waste pipes, other than wrought-iron, cast-iron, 6-lb., lead, brass, copper, stoneware, or ceramic ware.

Section 85—*Wrought-iron Pipes.*—All wrought-iron pipes and their fittings shall be approved standard weight and quality and galvanized or lined to the approval of the Engineer.

Section 86—*Cast-iron Pipes.*—All cast-iron pipes shall be sound, free from holes and cracks, and coated with approved bituminous composition, or lined with glass enamel or other approved material.

Cast-iron pipes and their fittings, where laid in the ground, shall comply with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameter. Cast-iron pipes for use in other situations shall have a minimum thickness of 3-16 inches measured in the case of lined pipes without the lining, and their fittings shall correspond with them in weight and quality. All junctions shall be curved; right-angled junction shall not be made.

Section 87—*Galvanized Sheet-iron Pipes.*—External vent pipes of galvanized sheet-iron shall be of a gauge not less than the following:—

- 1½-in., 2-in., 2½-in. diameter—22-gauge.
- 3-in. and 4-in. diameter—20 gauge.
- 6-in. diameter—18-gauge.

Section 88.—Where lead, copper, brass, or cast-iron, soil or waste pipes are fixed outside a wall for upstairs fixtures, the lead, copper, brass, or cast-iron pipes shall be carried at least 2 feet above the level of the highest fixture attached to the pipe.

Section 89.—Copper or brass pipes for soil, or waste pipes shall be seamless, solid drawn tube connected in accordance with the provisions herein, and shall be of a diameter and thickness not less than those given in the table hereunder.

Nominal Internal Diameter.	Minimum Permissible Actual Internal Diameter.	Minimum Permissible Wall Thickness (S.W.G.)		British Standard Pipe Thread for Screwed Connexions.
		Screwed Connexions.	Brazed or Compression Joints.	
Inches.	Inches.			Inches.
1½	1 5/8	12	10	1½
2	1 7/8	11	10	2
2½	2 1/8	11	14	2½
3	2 3/8	10	14	3
4	3 1/8	8	12	4

Section 90.—Vent Pipes.—Vent pipes, if inside a building or out-building, shall in all cases be of cast-iron, wrought-iron, lead, copper, or brass. Grooved, welded, or riveted double galvanized sheet iron vent pipes may be used where they are entirely outside a building or out-building, and shall be connected with the traps or waste or soil pipes with brass ferrules or other points approved by the responsible officer of the Authority.

Section 91.—Vents in Shed, &c.—Galvanized sheet iron vent pipes may be used inside stables or open sheds, except where liable to damage.

Section 92.—Use of Lead Pipes.—Lead pipes shall not be used where liable to damage.

Section 93.—Supporting Lead Pipes.—Lead pipes shall be supported by cast lead tacks of approved dimensions, wiped on to the pipe or by other approved fastenings, and such fastenings shall be arranged as nearly as possible thus—

- 4-in. vertical lead pipes—2 ft. 6-in. centres.
- 4-in. horizontal lead pipes—2 ft. centres.
- Less than 4-in. vertical pipe—3 ft. centres.
- Less than 4-in. horizontal pipe—2 ft. 3 in. centres.

Two pairs of tacks, fixed opposite, is sufficient for fixing lead flush pipes from cisterns.

Section 94.—Minimum Permissible Gradients.—The following are the minimum gradients to be adopted for soil and waste pipes:—

Diameter of Pipe.	Minimum Gradient.
1½ inch	1 in 15
1¾ inch	1 in 17½
2 inches	1 in 20
2½ inches	1 in 25
3 inches	1 in 30
4 inches	1 in 40
5 inches	1 in 50
6 inches	1 in 60

Section 95.—Length of Unvented Waste Pipes.—Waste pipes need not be ventilated unless they exceed 7 feet in inclined length or 18 feet in vertical length, provided that there is only one fixture attached to the waste pipe, and provided that the water seal of the trap is not reduced by syphonage or other cause. Where there is more than one fixture, or the water seal is reduced, a vent pipe shall be supplied to the fixture trap or traps.

Section 96.—Junctions.—Where a waste or soil stack is branched into a graded waste, soil, or drain pipe, the branch fitting shall have an angle of not less than 45 degrees to the horizontal, and the length of the branch of the fitting shall be such that the vertical projection of the attached stack will be wholly outside of the area of the junction with the graded pipe.

Section 97.—Sealing of Pipes.—Wherever a fixture is abolished, the soil, waste, vent, and water supply pipes to such fixture shall be removed, or, if allowed by the Authority to remain, the ends of the pipes shall be sealed with water-tight imperishable materials.

Section 98.—Soil Vent Pipes.—In all cases the upward extension from the soil pipe for ventilation shall pass in as direct a manner as possible above, and, if necessary, through the roof.

Section 99.—Vent Pipe Grades.—All vertical lines of vent pipes shall connect, full size, at their bases with a soil, waste, or drain pipe at an angle of not less than 45 degrees to the horizontal, and shall extend in undiminished size above the roof, or be connected to the soil, waste, or vent stack, in compliance with the requirements of section 101, on a grade sufficient to avoid the collection of water.

All intermediate bends or offsets shall be at a grade of not less than 45 degrees to the horizontal.

Vent pipes shall not be used as waste or soil pipes.

Section 100.—Anti-syphonage Vents.—Traps must be prevented from syphoning by proper ventilation, in accordance with the requirements of section 78. Such anti-syphonage vents from fixtures shall be carried above the eaves of the building, or joined to the branch or main vent above the level of the fixture, unless special permission to the contrary is granted.

These vent pipes shall be connected to the waste or soil pipe at a point not less than 3 inches, nor more than 12 inches from the crown of the trap, and on the opposite side of the water seal to the fixture.

Section 101.—Combining of Vents.—The various vents may be combined by branching together those which serve traps of

the same class. The vent pipes may be branched into a soil or waste pipe of the same class above the level of the highest fixture.

Section 102.—Where a branch is required to a galvanized sheet iron vent pipe, a brass saddle piece bolted and soldered to the vent shall be used.

Section 103.—Sheet Metal Bends and Offsets.—All sheet metal bends and offsets for flush and vent pipes shall be bent or pressed. Mitred elbows will not be permitted.

Section 104.—Pipes to be Accessible.—All soil, waste, and vent pipes and traps shall, where practicable, be accessible at all times for ready inspection and convenience of repairing. When placed within partitions or recesses of walls, they shall be covered with wood work or other approved material, so fastened as to be readily removable. No junctions shall be built in except with special permission from the Authority in writing.

Section 105.—Concealed standing wastes will not be permitted.

Section 106.—Painting.—All external plumbers' work and all cast-iron cisterns and brackets, woodwork in connexion with plumbing installations, sheet iron flush pipes and sheet iron storage tanks and trays shall be painted, after inspection, to the approval of the responsible officer.

DIVISION 25.—JOINTS.

Section 107.—Stoneware, Cement, or Cast-iron Pipes.—Joints of stoneware, cement, or cast-iron pipes shall conform with the requirements of section 55 or 56.

Section 108.—Lead Pipe.—All joints to lead pipe shall be plumber's wiped joints.

Section 109.—Wrought-iron Pipe.—The screwed ends and sockets of each particular size of wrought-iron or wrought steel pipe shall be so formed and the threads so cut that the ends of the pipe will butt against each other when screwed home in the sockets; bends, junctions, and similar fittings shall be similarly formed and screwed so that when the pipe ends are screwed home the bore will be continuously uniform, and without breaks or pockets. The burr shall be neatly filed off on the inner edge of all pipe ends. All screwed joints shall be made with approved jointing material.

Section 110.—Wrought-iron Pipe to Lead Pipe.—All joints between wrought-iron and lead pipes shall be made by means of brass unions screwed to iron, and wiped to lead.

Section 111.—Brass or Copper Pipes.—Joints of brass or copper pipes shall be made by means of screwed or compression fittings approved, tested, and stamped in accordance with the provisions of section 27, or by means of brazing or other approved method. All brazed work shall be inspected and approved by the Inspecting Officer before installation.

Section 112.—Lead Pipe to Cast-iron Pipe.—The connexion of lead pipes or traps to cast-iron pipes shall be made by means of brass ferrules. The brass ferrules shall be lined with and connected to the lead pipe or trap by means of a wiped joint, and connected to the cast iron by inserting ferrule in socket thereof, and making the joint in the same way as in cast-iron pipe.

Section 113.—Sheet-iron Pipe to Cast-iron Pipe.—All connexions of galvanized sheet-iron to cast-iron pipes shall be made with molten lead, lightly but tightly caulked in to cast-iron sockets, or with other approved material.

Section 114.—Sheet-iron Pipe to Wrought-iron Pipe.—Galvanized sheet iron pipes shall be connected to wrought-iron pipes by means of brass unions or sleeves soldered to the sheet iron and screwed to the wrought iron.

Section 115.—Sheet-iron Pipe to Lead Pipe.—Connexions of sheet-iron pipes to lead pipe shall be made by means of brass sleeves wiped to the lead pipe, and soldered to the sheet-iron pipe.

Section 116.—Concrete or Stoneware Pipe and Traps to Lead Pipe.—Connexions of lead pipe to stoneware or concrete pipe shall be made by means of a brass ferrule connected to the lead pipe by means of a wiped joint, and connected to the stoneware or concrete pipe by inserting it in the socket thereof, and making a cement mortar joint.

The connexion of a stoneware or concrete trap to a lead pipe shall be by means of a cast lead or brass socket, and the joint made with bitumen or other approved material. The lead pipe shall be connected to the tail end of the brass or lead socket by means of a plumber's wiped joint.

Section 117.—Connexion of Closet Pan Traps to Soil Pipe or Drain.—Connexion of a closet pan to a soil or drain pipe shall be made by means of a bituminous jointing material, consisting of a mixture of approved bitumen and finely graded inert mineral filler in equal proportions, filled in solidly into faucet of soil or drain pipe and neatly splayed off, or by other approved method. In the case of lead soil pipes, a cast-lead or brass faucet shall be used and connected to the lead pipe by means of a wiped joint.

Section 118.—Cistern Flush Pipe to Closet Pan.—The flushing pipe from cistern shall be connected to the water-closet pan by a lead cap piece of not less than 4-lb. lead, packed with red lead or other approved material. The cap piece shall be jointed to galvanized sheet-iron, copper, brass, or drawn-steel pipe by means of a soldered joint. The connexion of the flushing pipe to cistern shall be by means of a brass union,

wiped to lead pipe or soldered to sheet-iron pipe. Copper or brass pipe shall be connected to cistern by means of a brass ring, with nut brazed to pipe, or by other approved means.

Section 119—Vent Pipe to Closet Pan.—Vent pipe shall be connected to the vent horn of water-closet trap by a lead cap piece with red lead packing or by other approved methods. The cap piece shall be jointed to copper or brass pipe by means of a soldered joint and to lead flush pipe by a soldered or wiped joint.

Section 120—Outlet Fittings to Fixtures.—Connexions between outlet fittings and such fixtures as baths, sinks, basins, &c., when the latter are constructed of cast-iron, plate-iron, ceramic ware, or concrete, shall be made with lock nuts. The outlet fitting shall in all cases be connected to the waste pipe by means of a union.

When these fixtures are made of sheet-metal lighter than 20 gauge soldered connexions may be used in lieu of lock nuts.

Section 121—Waste Pipes to Troughs.—Connexions of waste pipes to wash troughs shall be made as under:—

- (a) Cement troughs, unless otherwise approved, shall have cast-in outlets.
- (b) Sheet-metal troughs shall be connected to the waste pipes in compliance with section 120.
- (c) For wooden troughs, lead, copper, or brass waste pipes shall have flanges connected to the waste in accordance with the provisions of this By-law, and fastened to the underside of the trough with round-head brass screws, and the waste pipe shall then be turned over inside the trough and the plug-casting bedded over it with red lead putty and screwed to trough with brass-wood screws.

Where wrought-iron or other screwed pipes are used the plug must be connected to the trough by means of a lock nut in lieu of flange.

DIVISION 26.—FIXTURE TRAPS.

Section 122—Fixtures to be Trapped.—Every fixture shall be effectively trapped unless otherwise permitted, in writing, by the Engineer. Separate traps shall be provided for each fixture, except lavatory basins, sinks, or troughs, which may be connected in pairs.

Section 123—Position of Traps.—Traps shall be placed as near the fixtures as possible, and in no case shall a trap be more than two feet from its fixture, except as provided in section 171, unless otherwise specially permitted by the Engineer.

Section 124—Depth of Water Seal.—Every trap shall have a water seal of not less than two inches.

Section 125—Closet-pan Traps.—Outlets from closet-pan traps shall be of not less than 3½-in. nor more than 4-in. in diameter except in the case of syphonic pans.

Section 126—Sealed Disconnector Traps.—Where approved by the Engineer, sealed disconnector traps may be fixed outside or inside the building or out-building, but in such cases breather pipes or fresh air inlets of the same diameter as disconnector traps shall be taken above the level of the lowest fixture, or to such other height as directed, and when the trap is inside shall be led to the outside of the building or out-building. The material for such breather pipes shall be the same as for waste pipes; sheet iron will not be allowed. Inspection openings to such traps shall be sealed with screwed plugs, or as otherwise approved by the Engineer.

Section 127—Form of Trap.—The "P" form of trap shall be used in preference to the "S" form where, in the opinion of the Engineer, it is equally suitable for the situation.

Section 128—Lead Traps.—All lead traps must be of the weights specified in section 84 for lead pipes of the same diameter.

DIVISION 27.—GRATINGS.

Section 129.—Fixtures discharging into waste pipes and all urinals shall have non-corrodable outlet gratings of approved design and material.

DIVISION 28.—CLEANING EYES AND INSPECTION OPENINGS.
Section 130—Provision for Inspection and Cleaning.—Sufficient inspection and cleaning eyes shall be provided in such positions on soil and waste pipes as to be easy of access for proper inspection and cleansing.

Traps for fixtures, other than water closets, urinals, and slop sinks, shall be provided with approved screwed brass plugs for cleaning purposes fixed under the water line of the trap, unless by permission of the Engineer.

Section 131—Inspection Openings on Soil Pipes.—In all cases where the vertical stack of soil pipe provides for closets four feet or more above the ground level, measured from floor level of water-closet to ground level at foot of stack, an inspection opening eight inches in length having a cover fixed to a flange with bolts or studs shall be provided in such a position as directed by the responsible officer of the Authority.

DIVISION 29.—GREASE TRAPS.

Section 132—Provision of Grease Traps.—Every fixture or area from which grease or any other objectionable matter is likely to be discharged or conveyed into waste or soil pipes, or house drains, and every sink in all such places as food-packing houses, butchers' shops, lard-rendering establishments, hotels,

restaurants, and boarding-houses, and such fixtures, areas, apparatus, or appliances as the responsible officer may direct, shall first discharge into an approved apparatus for preventing the objectionable matter from reaching the soil pipe or drain. Such apparatus shall be of such dimension, design, and construction, and in such position as the Engineer may in each case approve.

Section 133—External Grease Traps.—Every grease trap shall be fixed outside the premises whenever practicable and (if not portable) shall be constructed of glazed stoneware, or of concrete, or brick in cement, lined throughout with approved tiling with bronze gunmetal or Muntz-metal baffles, and the outlet shall be connected to the drain through a disconnector trap. The grease trap shall be designed for particular waste to be trapped both as to capacity and type.

Section 134—Internal Grease Traps.—Wherever a grease trap is used inside a building or out-building it shall be so fitted as to be easily removable, and, if directed, fixed upon a tray. All internal grease traps shall be of copper or other approved material, provided with a close fitting cover, and shall be independently ventilated as required by the responsible officer. An internal grease trap which is not removable may be permitted in special circumstances, provided the design permits easy access and cleansing, and special precautions over and above those required for external grease traps are taken.

Section 135—Grease Trap Ventilation.—Every grease trap shall have provision made for inlet and outlet ventilation if and as directed by the responsible officer.

Section 136—Size of Grease Trap.—The dimensions of grease trap to be provided shall be such as to ensure the congealing and retention of all grease entering such trap.

Section 137—Outlet Pipes.—The outlet pipe from any grease trap must be at least one size larger than that size of pipe which has a cross sectional area equivalent to the total area of incoming waste pipes. In no case, except by special permission, shall the outlet pipe be less than 3-in. diameter for grease traps of copper or other approved metal and 4-in. for stoneware.

Section 138—Maintenance.—Every grease trap shall be maintained by the occupier at his own expense, and shall be cleaned daily, to ensure that such trap operates in an efficient and hygienic manner.

DIVISION 30.—WATER-CLOSETS AND FLUSHING APPARATUS.

Section 139—Provision of Water-closets.—(1) At least one water-closet, approved by the Authority, shall be provided for each house, building, out-building, or land required by notice from the Authority to be connected with a sewer of the Authority, and for each flat, as defined in this By-law.

(2) Every licensed victualler's property, restaurant, boarding-house, lodging-house, school, shop, factory, office, public building, or building used for public entertainment, shall be provided with water-closet accommodation in accordance with the requirements of the Health Acts and/or Factories and Shops Acts of the State of Victoria, or of any regulations under any of the said Acts; provided that, in any property other than a house or flat, which is not provided for in any of the aforesaid Acts, separate water-closet accommodation shall be provided for males and females, one water-closet for each ten or portion of ten persons for whom water-closet accommodation is required.

(3) Water-closets shall be so placed, either within or outside the building, as to ensure the due observance of decency and to be easily accessible to the occupiers of such building.

(4) After the date fixed by notice from the Authority to the owner of any house, building, or land, requiring him to connect the same with a sewer of the Authority, or after such further time as shall be allowed by the Authority for the purpose of such connexion, no privy closet, other than a water-closet approved by the Authority, shall be used in such house or building, or upon such land.

Section 140—Airlocks for Water-closets.—(1) Except as provided in sub-section (2) hereunder, no water-closet or urinal apartment within a building shall be entered directly from any room used for human habitation or for the manufacture, preparation, or storage of food for human consumption, or used as a factory, workshop, or work place.

In cases where otherwise such closet or urinal apartment would be directly entered from any such room, an airlock shall be provided, having a floor area of not less than twenty square feet, and lighted and ventilated in accordance with the provisions of section 142.

In private residences a hall, passage, lobby, or stair-case may be considered as an airlock, provided it has a floor area of not less than twenty square feet and complies with the requirements of section 142.

(2) The airlock may be omitted where a water-closet, within any building, is intended solely for the private use of not more than two persons and opens off a room normally occupied by those persons only, provided that such room is not used for the manufacture, preparation, storage, or consumption of food, or as a factory, workshop, or work place.

(3) No airlocks will be required where ventilation, in accordance with section 144, is provided to water-closet or urinal apartments.

Section 141—Lighting and Ventilation of Water-closets.—Except as provided in section 143, every water-closet or urinal apartment within a building shall comply with the following conditions:—

- (a) One of its sides shall be an external wall of such building, abutting on to a street or lane, or an open space within the property, having a width of not less than four feet and an area not less than the following:—

	sq. ft.
For first story above floor level of open space	36
For second story above floor level of open space	72
For all other stories above floor level of open space	100

Each water closet or urinal apartment shall be provided with a window in such external wall having a clear light area of not less than two square feet per closet pan and capable of being opened.

- (b) Each water-closet or urinal apartment shall be provided with direct ventilation to the open air from a point near ceiling level. Such ventilation shall be provided by a vent, or vents, carried as direct to the open air as is practicable, and boxed throughout, and having a minimum clear area at any point of not less than 27 square inches per closet pan.
- (c) Glazed louvres may be used in lieu of windows and ventilators, subject to their providing a clear light area of not less than two square feet per closet pan and a clear ventilating area of not less than 27 square inches per closet pan.

Section 142—Lighting and Ventilation of Airlocks.—(1) Each airlock shall be:—

- (a) Provided with a window made to open or glazed louvres on an external wall, having a clear area of not less than two square feet for each 100 square feet, or part of 100 square feet of floor area of airlock; or
- (b) separately lighted by electricity and provided with a switch within the airlock.

(2) Except as provided in sub-section (3) of this section, every airlock shall be provided with direct ventilation to the open air from a point near ceiling level.

Such ventilation shall be provided by a vent, or vents, carried as direct to the open air as is practicable, and boxed throughout, and having a minimum clear area at any point of not less than 27 square inches for every 100 square feet, or part of 100 square feet of floor area of airlock.

(3) In private residences, the requirements of sub-section (2) of this section may be omitted, provided:—

- (a) That the floor area of the airlock is not less than 100 square feet, and that the doors of water-closets are fitted with approved self-closing devices; or
- (b) that other provisions are made to the approval of the Engineer.

Section 143—Alternative Methods of Lighting and Ventilating Water-closets and Airlocks.—(1) Subject to the approval of the Engineer first obtained, in writing, water-closet and urinal apartments, and airlocks in buildings, other than hospitals and similar institutions, may be ventilated by one of the following methods, instead of by the method set out in sections 141 and 142:—

- (a) (i) In buildings up to four stories in height (measured from the floor of the lowest water-closet or urinal apartment to be so ventilated) the water-closet and urinal apartments and airlocks may abut on to a ventilating shaft, open to the sky and carried to such height as may be necessary to prevent the deflection of wind currents down the shaft by neighbouring structures.

No rooms, other than water-closet and urinal apartments, airlocks, and bathrooms, may open on to such shaft.

The area of such ventilating shafts, and the maximum number of water-closets or urinals to be served by any one such shaft, shall be as shown in the following table:—

Height of Ventilating Shaft in Stories.	Minimum Area of Ventilating Shaft.	Maximum Permissible Number of Closet Pans or Urinals on any Vent Shaft.
1 or 2	16 square feet	4
3 or 4	1st and 2nd stories—16 square feet 3rd story—20 square feet Top story—24 square feet	10

No dimension of such ventilating shaft shall be less than four feet.

- (ii) In buildings in which such ventilating shaft is three or four stories in height, a ventilating duct having a clear area of not less than two square feet, shall be carried from the bottom of the ventilating shaft to an external wall, and shall be boxed throughout.

- (iii) Every water-closet or urinal apartment or airlock which abuts on to a ventilating shaft as aforementioned shall have a window, capable of being opened to such shaft, with an effective glass area at least equal to one-fifth of the floor area of the apartment, with a minimum of four square feet, and shall be provided with ventilating openings to the ventilating shaft, having a total clear area at any point of not less than 50 square inches per closet pan.

- (iv) Where water-closets or urinals are situated in a basement or cellar, in addition to the above-mentioned requirements, there shall be provided a ventilating duct, carried through the roof, and fitted with an approved cowl designed either to give a positive up draught or down draught in the duct, at the option of the owner. Such ventilating duct and cowl shall be capable of changing the air in each water-closet or urinal apartment or airlock served by it, at least six times per hour, when subject to a wind velocity of four miles per hour, the inside and outside temperatures being equal.

Ventilating ducts serving different apartments may be combined, but the minimum area of any ventilating duct shall be 25 square inches for each closet pan or urinal served by the said duct.

- (b) The water-closet or urinal apartment may be ventilated by a mechanical system of exhaust ventilation in compliance with the requirements of section 144.

(2) Every water-closet or urinal compartment permitted by the Authority to be ventilated in accordance with this section shall be separately lighted by electricity and provided with a separate switch within the compartment.

Section 144—Mechanical Ventilation.—(1) Every system of mechanical ventilation shall be approved by the Engineer and be capable of changing the air contents of the water-closets served at least six times per hour.

(2) In every case, the ventilating fan and the power unit operating same shall be in duplicate, unless the main air shaft shall, in the opinion of the Engineer, be designed to act as an efficient natural vent in the event of the mechanical equipment failing.

(3) Upon completion, the owner or his representative shall carry out such tests of the ventilating system as the Authority may deem necessary.

(4) Such mechanical system shall be operated continuously and maintained in good working order and condition, under the direction of a properly qualified person.

(5) Any such mechanical system shall be open to inspection by the officers of the Authority at all reasonable times, and shall be subject to such tests as the Authority shall from time to time direct.

(6) Subject to the requirements of section 104, air shafts may be used also as pipe shafts.

(7) The failure, for a period longer than 48 hours, of any such ventilating system, to operate efficiently, or to fulfil the requirements of this section, shall be an offence against this By-law.

Section 145—Floors, Walls, &c., for Water-closets.—In water-closet apartments within a building, unless the floors are constructed of concrete of not less than 4-in. thickness, or of other approved impervious material, graded as directed, safes of lead, or of other approved impervious material, in accordance with the requirements of this By-law, shall be provided. In water-closets having wooden floors, the stumps, sole plates, bottom plates; and plinths shall be of red gum or jarran.

Section 146—External Water-closets.—The area of any external water-closet must not be less than 13½ square feet, with a minimum internal dimension of 3 feet inside measurements. The minimum heights to be not less than 8 feet at back and 7 feet at front, measured from the floor to the top of wall plate, and the frame of every wooden water-closet building shall be made rigid without attachment to fences. The floors of all water-closets must be constructed of concrete, tiles, or other approved impervious and non-absorbent material. Seats must be either flap or hinged tip-up.

External closet doors shall be saw-toothed on top, and a space of 3 inches shall be left between bottom of door and floor, or other approved means of ventilation provided.

In water-closet buildings, the bottom plates and plinths must be of approved timber. In repairs to studs they shall be cut to sound timber with a new plate, supported on a concrete dwarf wall extended up from the floor level.

Section 147—Fixing Closet Pan.—On concrete floors, or floors of tiles set in concrete, the closet pan shall be securely bedded upon concrete or cement mortar and fixed with brass screws to approved lead dowels set in the floor. Where the floor is of timber covered with an approved impervious material the closet pan shall be secured to the timber by means of brass screws as directed or by other approved means.

Section 148—Closet Pans.—Every water-closet shall be furnished with a pan of non-absorbent material of such shape, capacity, and construction as approved by the responsible officer. Water-closet pans and fittings thereto shall be entirely open to inspection and without any enclosure. Vent horns shall be provided on all pans, even if anti-syphonage vent is required. If not used for a vent such vent horn shall be sealed with a lead disc, bituminous filler and a lead cap piece, or by other approved method.

Section 149—Closet Pan Seats.—Except as approved by the responsible officer, all hinged closet pan seats shall not be less than 1-in. in thickness and constructed of approved material. When constructed of wood, four-piece seats shall be glued and either doweled or bolted, and one-piece seats shall be reinforced with two wood or brass slips let in flush on the underside. To prevent fouling of pan, the closet seat openings must not be larger than 10½-in. x 9-in., and seats with holes so large as to cause fouling of the pan must not be used, provided that open front seats of approved design may be used. Pans must measure at least 12 inches between the lower edge of the front and back faces of flushing rims. Water-closet seats must be provided with approved buffers to prevent damage to the pan, and an approved buffer clip must be fixed to the flush pipe at a suitable height from the pan.

Section 150—Flushing Apparatus.—Approved apparatus shall be provided for the effective application of water to the pan of the water-closet and for the efficient flushing and cleansing of the pan and effective removal therefrom of any solid or liquid matter which may from time to time be deposited therein. Such apparatus shall have a flushing capacity of not less than 2½ gallons, and shall be so constructed, fitted, and placed as to supply water for use in the pan without any direct communication with any service water pipe upon the premises.

Section 151—Flushing Cisterns.—Flushing cisterns shall be fixed at such height as will effectively flush the pan; but, except by special permission, no cistern shall be fixed at a less height, measured from top of seat to bottom of cistern, than 5 feet, where 1½-in. flush pipe is used or 4 ft. 6 in. where 1½-in. flush pipe is used. There shall be a distance of at least 9 inches between top of cistern and ceiling of closet.

Every cistern shall have a separate stop-tap and an overflow of ½-in. internal diameter, and shall be fixed to cistern boards, not less than 12 inches deep and 1½ inch thick, or fixed in other approved manner.

Water supply pipes to cisterns shall be adequate to fill any cistern at the rate of not less than ½ gallon per minute.

Section 152—Flush Pipes.—Flush pipes to closet pans shall be of brass, copper, 6-lb. lead, galvanized-iron of not less than 22-gauge, or other approved material, and shall have a minimum diameter of 1½-in.

Section 153—Flushing Apparatus other than Cisterns.—Notwithstanding anything contained in this By-law, closet pans in any building may be flushed by means of any apparatus which—

- (a) automatically controls the amount of water used, and/or
- (b) is approved by the Authority.

Section 154—Storage Tanks.—Except where otherwise allowed by the Authority, on request, in writing, by the owner accepting all responsibility in the matter, internal water-closets shall be provided with storage tanks capable of holding 6 gallons of water for each occupant of the building, with a minimum of 60 gallons per closet for all buildings except private residences, which shall have a minimum capacity of 30 gallons, and flats with separate external entrances, which shall have a minimum capacity of 30 gallons per tenement. These tanks may be of 22-gauge galvanized iron or 24-gauge corrugated iron.

Unless otherwise directed by the responsible officer, the storage tanks may be placed in the water-closet apartment itself, on the roof over a flat or gutter, or in an accessible place between the ceiling and the roof, in which latter case a safe of galvanized-iron, lead, or other approved impervious material, with over-flow, shall be fixed under the storage tank.

Section 155—Venting Closet Pans.—Unless otherwise directed or permitted, every closet pan on an upstairs floor shall discharge into a soil-ventilator pipe, except that any closet pan on a floor which is not more than 8 feet in height from the ground surface level may be ventilated by an anti-syphonage vent only, in accordance with the requirements of sections 78 and 100, and discharge into a soil pipe without extension as a ventilator pipe; provided that no fixtures at a lower level are connected to such soil pipe.

Any closet pan where ordered, and, also, unless otherwise directed, every internal closet pan which is not more than 4 feet from a fully vented soil-pipe drain as measured along the axis of the pipe between the centre of soil pipe and centre of pan, shall be ventilated by an anti-syphonage vent in accordance with the requirements of section 78, sufficiently close to prevent syphonage, and in no case more than 18 inches from the trap. Notwithstanding the above, all "S" trap pans must be provided with anti-syphonage vents.

Section 156—Grouped External Closets.—Where there are more than three external water-closet pans grouped on the ground floor or in the yard of any premises special provision must be made to prevent syphonage.

DIVISION 31.—URINALS AND FLUSHING APPARATUS.

Section 157—Urinals, General.—In every licensed victualler's property, restaurant, boarding-house, lodging-house, school, shop, factory, office, public building, or building used for public entertainment, urinal accommodation shall be provided in accordance with the requirements of the Health Acts and/or Factories and Shops Acts of the State of Victoria, or of any regulation under any of the said respective Acts.

Section 158—Internal Urinals.—The positions, approaches, arrangement of lighting, ventilation, &c., for internal urinals shall comply as nearly as possible with the provisions set out in this By-law as to internal water-closets.

Section 159—Details of Construction, &c.—Except by special permission, only round-backed stall type urinals of approved impervious material shall be used. The soil pipe shall be of lead, stoneware, or glass, enamelled or coated cast-iron, or other approved material, shall be kept as short and free from bends as possible, and shall be trapped. Inspection openings shall be provided on soil pipes as directed, with clamped covers. The urinals shall be provided with approved flushing apparatus, and a hose tap shall be provided in a suitable position for hosing down.

Section 160—Treatment of Floors.—The floor in front of a urinal shall be covered with approved impervious material for a width of not less than 2 feet, or, if raised above floor level of urinal apartment, not less than 1 ft. 6 in., and graded to drain to urinal.

Impervious Materials.—The following materials will be considered impervious:—

- (a) For urinals: glazed fire clay or salt-glazed stoneware.
- (b) For floors in front of urinals: approved tiles set in cement mortar (composed of equal parts of cement and sand), concrete 4 inches thick rendered with ½-in. thick cement mortar, slate marble, or asphaltum.

Section 161—Flushing Apparatus.—Pull and chain flushing cisterns or other approved apparatus operated by hand shall be fixed on all urinals except where automatic flushing cisterns are permitted or directed by the Engineer.

Section 162—Flushing Cisterns.—The discharge from a cistern shall be equal to 1 gallon for each urinal stall, except where otherwise allowed by the Authority, but in no case shall more than three stalls be served by a single-flushing apparatus.

The height of a cistern shall, unless otherwise allowed by special permission, be at least 6 ft. 6 in. from the floor to the bottom of the cistern. The cistern shall be so fixed that the ball tap is accessible.

A separate stop tap shall be provided for each urinal cistern.

Section 163—Flush Pipes.—Flush pipes for urinals shall be of brass or copper with gunmetal fittings, and shall have a minimum diameter of 1½-in., except that flush pipes for automatic flushing cisterns generally shall not exceed—

For 1-gallon cistern, ¾-in. internal diameter.

For 2-gallon cistern, 1-in. internal diameter.

For 3-gallon cistern, 1¼-in. internal diameter,

with branches as directed by the responsible officer of the Authority.

DIVISION 32.—SLOP SINKS.

Section 164—General.—Slop sinks shall be made in one piece of approved impervious material and provided with approved flushing apparatus of 2½-gallon capacity.

Section 165—Ventilation, Light, &c.—Slop sinks shall be so placed and ventilated as to comply with the requirements for internal water-closets as set out in this By-law.

Section 166—Bibcock over Slop Sink.—A bibcock shall be fixed directly over a slop sink, and at least 18 inches above such sink. A pedestal pan must be used wherever combined water-closet, slop sink, and internal urinals are required, and in such case must be provided with hinged tip-up seat. A lead safe of suitable area must be fixed under the pan.

DIVISION 33.—WASH TROUGHS.

Section 167—General.—Every wash trough shall be of approved pattern and material, securely fixed and graded to outlet pipe, fitted with brass strainer sunk to level of bottom of trough.

Section 168—Support for Lead Waste Pipe.—Where the distance between outlets on troughs exceeds 21 inches and lead waste pipe is used, the pipe shall be supported either by a lead tack wiped on the top of the pipe or by a wooden block screwed to the bottom of the trough and clamped to the pipe.

Section 169—Troughs Abutting Against Brick Wash Coppers.—Wherever the end of a wash trough abuts against the brick-work of a wash copper, the space between the end of trough and the brick-work shall be filled with approved water-proof material, and made water-tight.

DIVISION 34.—SINKS, BATHS, SHOWERS, AND LAVATORY BASINS.

Section 170—Sinks.—All sinks shall be fixed on brackets, and traps and wastes left readily accessible.

Section 171—Galvanized Sheet-iron Baths.—The bottoms of galvanized sheet-iron baths shall be effectively supported. Such baths shall not be enclosed. Longitudinal joints in the bottoms of baths shall not be permitted. Where it is necessary to fix new wastes to galvanized-iron baths, the bottoms of which are unsupported, efficient supports for the bath must be provided before the wastes are fixed.

Section 172—Bath Traps.—Where a bath trap is fixed on the outside of a wall it shall in no case be more than 3 feet from the outlet of the bath, unless by special permission of the Engineer.

Section 173—Showers.—All showers on the ground floor shall be provided with a 4-in. stoneware or concrete trap, fitted with brass grating. All showers above the ground floor shall be provided with drainage in accordance with the requirements for baths.

The floors of shower compartments shall be well graded to the trapped outlet and shall be constructed of not less than 4 inches of concrete, trowelled smooth or covered with tiles set in cement mortar, or of other approved impervious materials, or if constructed of timber shall be covered with enamelled cast-iron, approved non-corrosive sheet-metal, or other approved material turned up at the edges and flashed, in accordance with the requirements of section 82.

The walls of shower compartments shall be constructed of brickwork or concrete, cement rendered to a smooth finish, or covered with tiles set in cement mortar, or of other approved impervious materials, or if constructed of timber shall be lined with approved non-corrosive sheet-metal or other impervious material, and with impervious joints.

Section 174—Venting of Lavatory Basins.—All lavatory basins shall be provided with anti-syphonage vents.

Section 175—Tip-up Basins.—Tip-up lavatory basins shall not be permitted.

DIVISION 35.—SAFES AND OVERFLOWS.

Section 176—Safes, where Directed.—Safes of lead or other approved impervious material shall be fitted under slop sinks and internal water-closets, and in such other positions as directed.

Section 177—Lead Safes in Water-closets, &c.—All lead safes shall be laid with sheet-lead weighing not less than 5 lb. per square foot, and where the whole floor is not covered with lead the safe shall extend 12 inches beyond the sides and 15 inches beyond the front of the pan, measured from the outside of the basin, and shall extend back to and 3 inches up the wall and over-flashed, if directed. The roll of such safe shall be 2-inches wide and $\frac{1}{2}$ inch high. In the case of baths, sinks, and lavatory basin, the lead where directed shall extend 6 inches beyond the ends or sides, measured from the extreme edge of the fitting, and shall be carried back to and up the wall as for closets.

Section 178—Safe Overflows.—Unless otherwise permitted, every safe shall be drained by a separate 2-in. diameter pipe, provided at the inlet with a brass grating and at the outlet into the open air with a flap valve of brass or other approved metal, and shall not connect with any waste pipe, soil pipe, drain, or sewer.

Section 179—Cistern Overflows.—Every cistern supplied with water shall, unless otherwise approved, have an overflow pipe of adequate size, discharging in a position where it will not cause damage, but where it will act as a warning pipe. On ground floors where cisterns are fixed over impervious floors graded to drain outside of the room, the overflow may discharge on to such floors, provided no damage is likely to arise therefrom.

Section 180—Discharges from Overflows.—Overflows may discharge into the open air above ground floor level only when the discharge, in the opinion of the responsible officer, will not cause any inconvenience or nuisance. In all other cases the pipes must be brought to the ground surface or be arranged to discharge where they will not prove a source of annoyance or inconvenience.

Section 181—Steam Exhaust.—No steam exhaust, blow-off condensate, or drip pipe shall be connected with any drain or any soil, or waste pipe.

Section 182—Existing Floors.—Where necessary, in the opinion of the responsible officer of the Authority, every existing floor under a fixture shall be regraded and a proper waste pipe and, if directed, a flap valve fixed.

DIVISION 36.—EXISTING FIXTURES.

Section 183.—All existing fixtures, fittings, and appliances not in accordance with this By-law, which the owner may desire to retain unaltered, and which, in the opinion of the Authority, will be inoffensive, may at the distinct request, in writing of the owner, remain unaltered until such time as the Authority shall otherwise order. Existing fixtures, fittings, and appliances which, in the opinion of the Authority, are offensive shall be removed at once.

PART 6.—WATER SUPPLY.

Section 184—Supply of Water to Fixtures.—All water-closets and other plumbing fixtures shall be provided by the owner with a sufficient supply of water for flushing purposes to keep them at all times in proper and cleanly conditions.

Every owner of property who desires, or has been ordered, to provide sanitary appliances for his own property and to connect his property with the sewers of the Authority, shall before or at the commencement of the work of making such connexion, provide piping approved of by the Authority for the conveyance of water, and shall cause the piping to be joined at the most convenient water supply main, or, with the permission of the responsible officer, to some pipe already joined to the main. Such piping shall be of sufficient capacity to supply all sanitary fittings on the property freely and continuously, and convey to the flushing cistern, flushing tank, or other flushing apparatus of each water-closet on the property enough water to fill the same at a rate of not less than $\frac{1}{2}$ gallon per minute, and the owner shall cause such piping to be connected with the cistern, tank, or other flushing apparatus before the completion of the work.

The water supply to any fixture shall be so arranged that there shall be an actual physical discontinuity between the water stored or used in any such fixture and that in the water service pipe. The water supply for water-closets or urinals shall not be taken from a storage tank serving a hot water service.

Section 185—Material, Condition, Capacity, &c., of Water Supply Piping.—The entire length of the water supply piping from its connexion with the water supply main to the water-closet flushing cistern, or other fixture, shall be such as is, in the opinion of the responsible officer, suitable in regard to material, condition, and capacity, to convey a sufficiency of water for the sanitary requirements of the particular tenement.

The owner shall keep the piping from becoming, whether by reason of corrosion or other cause, of insufficient capacity to fill the flushing cistern, storage tank, or other flushing apparatus at the rate of not less than $\frac{1}{2}$ gallon per minute.

Section 186—Fixtures Not Connected with Sewers.—No water service pipe shall be laid to supply any fixture in any property in any sewerage area unless such fixture is connected with the sewers of the Authority, or unless special permission, in writing, has been previously given to lay such service pipe.

Section 187—Storage Tanks.—Water supply pipes to storage tanks for internal closets shall be not less than $\frac{1}{2}$ -in. diameter, and be provided with stop taps and high-pressure ball valves, except where the water pressure at the storage tank is not sufficient to allow of high-pressure ball valves being used; in such cases the permission of the Engineer shall be obtained to fix low-pressure ball valves. Where the head of the water supply of the storage tank to the flushing cistern is less than 20 feet, a low-pressure ball valve shall be provided to the cistern. Except by special permission of the Engineer the head of water supply shall in no case be less than 10 feet, measured vertically from top water level of storage tank to the level of the point of discharge into the cistern, or to the flush valve, as the case may be.

The water supply pipes from storage tanks to cistern shall not be less than the following diameter:—

- For 1 to 2 cisterns, $\frac{3}{4}$ -in. diameter.
- For 3 to 6 cisterns, 1-in. diameter.
- For 7 to 25 cisterns, 1 $\frac{1}{2}$ -in. diameter.
- For 26 to 50 cisterns, 2-in. diameter.

Except by special permission of the Engineer, more than ten cisterns shall not be subject to a head of less than 20 feet.

Where the number of water-closets or urinals served by any storage tank exceeds two in the case of private residences or flats, or one for any other building, a full-way gate valve shall be provided on the outlet from the storage tank.

The overflow pipe from a storage tank shall not be less than 1 $\frac{1}{2}$ -in. in diameter, and shall lead to a gutter or open drain outside the building or out-building. In all water-closets, a lead or annealed copper connexion not less than 12 inches in length shall be used between the flushing cistern and the supply pipe.

The above By-law was made and passed by the Shepparton Sewerage Authority on the 22nd day of March, 1937, and confirmed on the 7th day of June, 1937.

In witness whereof, the common seal of the Authority was hereto affixed in the presence of—

(SEAL) F. W. GRÜTZNER, Chairman.
W. S. JAMES, Member.
R. WEST, Secretary.

Approved by the Governor in Council, the twenty-sixth day of July, One thousand nine hundred and thirty-seven.—

MARKETING OF PRIMARY PRODUCTS ACT 1935.

PARTICULARS of a petition by producers of potatoes requesting the Governor in Council to declare by Proclamation that such product shall be a commodity under and for the purposes of the *Marketing of Primary Products Act 1935*.

1. That each of the petitioners is a producer of potatoes, which is a product within the meaning of the *Marketing of Primary Products Act 1935*.

2. That the petitioners, in pursuance of the said Act, by this petition request the Governor in Council to declare by Proclamation that potatoes shall be a commodity under and for the purposes of such Act.

3. That the petitioners request that the Marketing Board which may be constituted under the said Act in relation to the said commodity shall consist of five members.

The Minister of Agriculture is of the opinion that the following information with respect to the powers which will be exercisable by the said Marketing Board will sufficiently acquaint producers of the said commodity as to the nature of the said powers:—

Subject to the said Act and for the purposes thereof the Board—

- (a) may sell or arrange for the sale of the said commodity which is vested in or delivered or to be delivered to it, and do all acts, matters, and things necessary or expedient in that behalf accordingly;
- (b) may arrange for financial accommodation with the Government of the Commonwealth or with any bank or with any other institution or person approved by the Governor in Council, and give such securities for advances as are required by the said Government, bank, institution, or person;
- (c) may do all acts, matters, and things necessary for or incidental to and may enter into contracts for or with respect to the transport, treatment, grading, processing, branding, labelling, storage, packing, or preparing for marketing of the commodity;
- (d) may do all acts, matters, and things necessary for or incidental to and may enter into contracts for or with respect to the conversion into goods by process of manufacture of potatoes;
- (e) may deduct from the net proceeds of the sale of the commodity an amount not exceeding One halfpenny in the pound of such proceeds for the purpose of establishing a reserve fund to be used for any purpose in connexion with the operations of the Board;
- (f) may purchase, contract for the use of, or otherwise provide and hold any land required by the Board and any personal property whatsoever;

(g) may contract for the use of or otherwise provide any buildings or structures and repair, equip, furnish, and maintain the same;

(h) (i) The Board shall out of the proceeds of the commodity disposed of by the Board make payments to each producer of the commodity delivered by him to the Board. Such payments shall be on the basis of the net proceeds of the sale of all the commodity of the same quality or standard delivered to the Board during or covering the periods of time as prescribed by Regulations.

(ii) The Board may deduct from the proceeds of sale of the commodity the expenditure incurred in or about the marketing or treatment of the commodity, the costs, charges, and expenses of the administration by the Board of the said Act and any sums necessary to repay any advances made to the Board and interest thereon.

(iii) The Board may deduct from the payment to be made to any producer of the said commodity the freight charges incurred in the conveyance of the commodity from the station or other place of delivery to such other place or places in Victoria as is or are prescribed by Regulations.

(i) The Board, with the approval of the Governor in Council, may from time to time make a levy on and to be paid by the producers of the said commodity such amount or at such rate on and to be paid by such persons and on such basis and for such period or otherwise as the Board, with the approval of the Governor in Council and by notice in the *Government Gazette*, specifies, and may in any case where it thinks fit retain the amount of any such levy out of the funds in its hands arising from sale or pledge of the commodity.

Your petitioners, who constitute the number of producers required by section 6 of the *Marketing of Primary Products Act 1935*, therefore humbly pray that His Excellency the Governor in Council will be pleased to grant their request.

H. A. MULLETT,
Director of Agriculture.

Department of Agriculture,
Melbourne, 2nd August, 1937.

MARKETING OF PRIMARY PRODUCTS ACT 1935 (No. 4337).

At the Executive Council Chamber, Melbourne, the
second day of August, 1937.

PRESENT:

His Excellency the Lieutenant-Governor of Victoria.
Mr. Bussau | Mr. Hyland
Mr. Bailey |

APPOINTMENT OF A DAY FOR A POLL TO BE TAKEN OF THE PRODUCERS OF POTATOES ON THE QUESTION WHETHER A MARKETING BOARD SHALL BE CONSTITUTED IN RELATION TO POTATOES.

IN pursuance of the provisions in that behalf contained in sub-section (3) of section 6 of the *Marketing of Primary Products Act 1935* (No. 4337), I, the Lieutenant-Governor of the State of Victoria, in the Commonwealth of Australia, by and with the advice of the Executive Council of the said State, do by this my Order hereby appoint Tuesday, the fifth day of October, 1937, as the day for a poll to be taken of the producers of potatoes on the question whether a Marketing Board shall be constituted in accordance with the provisions of the said Act in relation to potatoes.

And the Honorable Edmond John Hogan, His Majesty's Minister of Agriculture for the State of Victoria, shall give the necessary directions herein accordingly.

C. W. KINSMAN,
Clerk of the Executive Council.

MOTOR CAR ACTS.

At the Executive Council Chamber, Melbourne, the second day
of August, 1937.

PRESENT:

His Excellency the Lieutenant-Governor of Victoria.
Mr. Bussau | Mr. Hyland
Mr. Bailey |

REGULATION.—LIMIT OF SPEED ON CALDER HIGHWAY IN TOWNSHIP OF WOODEND.

HIS Excellency the Lieutenant-Governor of the State of Victoria, by and with the advice of the Executive Council thereof, and pursuant to the provisions of the Motor Car Acts, doth hereby make the following Regulation, viz.:—

“It is hereby declared that thirty miles per hour is the limit of speed which shall not be exceeded by any motor car while travelling on any portion of the road known as the Calder Highway lying within the boundaries of the Township of Woodend, in the Shire of Newham and Woodend, and that no person in charge of a motor car shall on such portion of the said road drive such motor car or allow the same to be driven at a rate in excess of such limit of speed.”

And the Honorable Henry Stephen Bailey, His Majesty's Chief Secretary for the State of Victoria, shall give the necessary directions herein accordingly.

C. W. KINSMAN,

Tenders to be addressed to the Honorable the Commissioner of Public Works, and envelope containing tender marked "Tender for _____ due _____"

GEO. I. GORDIE,

Commissioner of Public Works.

Melbourne, 4th August, 1937.

TENDERS FOR GRAZING LANDS.

FOR THE PERIOD 1ST SEPTEMBER, 1937, TO 30TH SEPTEMBER, 1938, WITH THE RIGHT OF RENEWAL ANNUALLY FOR A FURTHER PERIOD OF FOUR (4) YEARS, EXCEPT WHERE OTHERWISE STATED.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the Country.

Tenders should be placed in the Lands Department Tender-box, State Treasury Buildings, Melbourne, C.2, at or before Noon on Wednesday, 25th August, 1937.

NOTE.—No tender will be accepted unless the rent for the full period and fee of Seven shillings and sixpence for licence are forwarded.

TENDERS will be accepted at or before Noon on Wednesday, 25th August, 1937, for the right to depasture stock on the following unappropriated portions of lands subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 121 of the *Land Act 1928* shall be subject to the conditions set forth in the Schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 121st section of the *Land Act 1928*, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miner's rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 123 of the *Land Act 1928* the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognized.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette* purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling or other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all noxious weeds on the land, and on the half-width of the adjoining roads, and shall be responsible for the destruction of noxious weeds under the *Vermin and Noxious Weeds Act 1928* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. The licensee shall thoroughly and effectively protect the land within the boundaries of his licensed area from fire, and shall extinguish any fire which may break out on such area or may spread to it. In the event of the area being damaged by fire, the licence may be forfeited, unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants, were in any way responsible for such fire.

19. The licensee shall not interfere in any way with any survey marks on the land hereby licensed.

20. The licensee shall pay shire rates and all other charges for the period of occupation.

SPECIAL CONDITIONS.

1. The period of occupation, except where otherwise stated, will be for thirteen (13) months from 1st September, 1937, to 30th September, 1938, with the right of renewal annually for a further four years.

2. The rent for the full period—for which the licence will be issued, and the fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. Tenders to be addressed to the Secretary for Lands, (Tender-box), Melbourne.

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name, occupation, and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any), within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing owned by him within one month, or he may arrange with the incoming tenant to pay for it in accordance with the provisions of section 124, *Land Act 1928*.

This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the ingoing tenant will be held responsible for the care and maintenance of any improvements.

Plans can be seen and information may be obtained in this office.

Section 121, *Land Act 1928*, provides—

1. Where a licensee under section 121 of the *Land Act 1928* has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

					In the following classes, viz.,
					making purses, wallets, all classes of fancy leather turned edge work, mounting and creasing solid edge fancy leather work, adult female workers may be employed at a wage of 47s. 6d. per week of 44 hours, but there shall be in each workshop a proportion of one male adult and one male apprentice to every ten female workers.

- (3) HOURS.—The weekly hours of employees shall be 44 hours for males and females.
- The regular hours of work shall be not earlier than 7 a.m. and not later than 6 p.m. on five days of the week and not earlier than 7 a.m. and not later than 1 p.m. on Saturday or other day on which a half-holiday is kept. Provided that not more than 9½ hours (except as provided in clause 4 hereof) shall be worked in any one day in each week.
- (4) PAYMENT FOR OVERTIME, SUNDAYS, AND HOLIDAYS.—(a) All time worked on any day before or after the regular working hours shall be paid for at not less than the rate of time and a quarter for the first three hours and double time thereafter.
- (b) All work done on Sundays and holidays shall be paid for at the rate of not less than double time.
- (c) Piece-workers employed before or after the regular working hours shall be paid for the first three hours one-fourth of hourly rates and thereafter full hourly rates in addition to piece-work rates.
- (5) HOLIDAYS.—Employees shall be entitled to the following holidays without pay when no work is done :—The days observed as New Year's Day, Australia Day, Good Friday, Easter Monday, King's Birthday, Christmas Day, Boxing Day, Labour Day (in the metropolis and in any city or town where there is a public celebration of Eight Hours Day), Union Picnic Day once in each year (in the metropolis and in any town or city where such picnic is held) provided that the secretary or branch secretary of the Australian Saddlery Leather Sill Canvas Tanning Leather Dressing and Allied Workers Trades Employees Federation shall give written or printed notice of the intention to hold the picnic, such notice to be sent by pre-paid letter to each employer bound to observe the holiday not less than four weeks nor more than six weeks prior to the date on which the picnic is to be held.
- (6) PAY DAY.—The employer shall pay the employees all moneys due at least once in each week, before knock-off time, and not later than Friday in each week. Any employee dismissed by his employer and who has worked only a portion of a week shall be paid on ceasing work for all time worked during that week.
- (7) WAITING TIME.—Any employee kept waiting for work more than half an hour in any one day shall be paid for the whole of the time such employee is kept waiting on that day at not less than a sum equal to his or her average earnings.
- (8) DEFINITION OF A MALE JOURNEYMAN.—A male journeyman shall mean an employee twenty-one years of age or over, or one who has worked five years or more in connexion with the manufacture of—
- (a) Articles made of leather or a substitute for leather, such as—
Bags, braces, cases, cricket balls, pads, or other sporting goods, garters, pocketbook covers, portmanteaux, purses, trunks, wallets ;
 - (b) Machine belting ;
 - (c) Any other kind of leather goods—
- but not including persons subject to the jurisdiction of the Boot Board, the Rubber Trade Board, or the Saddlery and Harness Board. Provided that the rates prescribed for improvers in their sixth and seventh years shall operate until the apprentice or improver has reached the age of twenty-one years.
- (9) LIMITATION OF EMPLOYER'S LIABILITY.—Where an employer subject to this Determination has made a payment to an employee bound by this Determination which payment purports to be a payment of the wages payable to the employee for any period, such employer shall not be liable to pay to the employee any further sums prescribed by this Determination in respect of any services rendered to such employer during such period unless within a period of nine calendar months after the last day of such period a demand in writing of such further sum claimed has been given to the employer by the employee or some person on his behalf or by the local representative of the Employees Federation.
- (10) EMPLOYER TO FIND WORKSHOP, ETC.—The employer shall find workshops, light, bench room and supply all materials used in connexion with the trade free of charge to the employees.
- (11) CONDITIONS GOVERNING PIECE-WORK.—The lowest prices or rates of payment to any person for wholly or partially preparing or manufacturing any article of the description referred to in the following schedules of rates respectively shall be the price or rate fixed for the article in the said schedules respectively, subject to such extras or deductions as are provided by the said schedules.
- Work shall be taken as completed after passing the inspection of the employer or whoever he may appoint.
- Material for workmen in the bag and leather goods trade shall be cut out. A deduction may be made if the material is cut out.
- Material given out shall be cut to length required.

Machine sewing shall be done for the workman and preparing for same shall be done by the workman.

When length is specified, increase or deduction in quantity of stitching, or stitching or finishing shall be according to scales adopted by the Determination.

Materials, such as hemp, wax, jet, tallow, &c., shall be found for workmen free of charge by the employer.

"Full price" shall mean the price fixed for an article without extras or deductions.

"Extra" or "extras" shall mean any work (not specified in the general description of an article) the price of which is to be added to the full price.

"Deduction" or "deductions" shall mean any work the price of which can be deducted from the full price fixed for an article.

Where a lower price is stated for a specified quantity the materials for the whole number specified shall be given out at one time and the full number shall be finished in one lot or the full single price shall be paid for each article.

Full-time employees shall not engage in trade work for other than their regular employer.

The Board determines, under the provisions of sub-sections (1) and (2) of section 150 of the Factories and Shops Acts that for all work not specified in the Schedule of piece-work rates hereto any employer may fix and pay piece-work rates to any male or female person employed at any work for which the Board has fixed a minimum wage, provided that such an employer shall base such piece-work prices or rates on the earnings of an average worker working under like conditions, and such piece-work prices or rates shall be fixed so that an average worker can earn not less than the wages rate fixed by the Board for such work.

Factories and Shops Acts.

DETERMINATION OF THE PRINTERS BOARD.

NOTE.—(a) This Determination on the 30th July, 1937, applied to the Metropolitan District as defined in the Factories and Shops Acts and the Order in Council thereunder, and such portion of the City of Sandringham as is not included in the said District.

(b) The following Printing Trades were proclaimed on 27th February, 1929, as apprenticeship trades under the *Apprenticeship Act 1928* for the Metropolitan District:—

1. Hand composition.
2. Hand and machine composition, and attending and adjusting slug-casting and type-casting machines.
3. Bookbinding or guillotine machine operating.
4. Paper ruling.
5. Edge gilding.
6. Letter-press printing.
7. Lithographic printing.
8. Stereotyping or electrotyping.

Full particulars of the apprenticeship regulations for these trades may be obtained on application to the Secretary, Apprenticeship Commission, Gisborne-street, Melbourne. (Price 3d.)

IN accordance with the provisions of the Factories and Shops Acts the Wages Board which since the 25th day of May, 1937, has had the power to “determine the lowest prices or rates which may be paid to any person or persons or classes of persons employed in the process, trade, or business of—

- (a) Printing;
- (b) Bookbinding (including making loose sheet covers of any kind);
- (c) Paper ruling;
- (d) Stereotyping or electrotyping;
- (e) Preparing lithographic work by drawing or lettering on a lithographic plate or on any other material;
- (f) Preparing printed matter for sale or distribution;
- (g) Carbonizing, gumming, varnishing, or waxing paper, cardboard, or similar materials;

but not including any process subject to the jurisdiction of the Stationery Board,”

has made the following Determination, namely:—

(1) That on the 30th July, 1937, the last previous Determination of this Board shall be revoked and replaced by this Determination.

7. A female junior entering the industry in her eighteenth year or later shall receive the foregoing rate appropriate to her experience and not less than 5s. per week extra until she reaches the age of 21 years, when she shall be paid the minimum wage prescribed for females for the class of work which she is doing.	
8. In the above provisions as to work performed by females, "experience" means experience in the industry, including experience in the employ of more than one employer, and any female employee mentioned in such provisions on leaving or being discharged from her employment shall be entitled to a certificate from her employer stating the date when such employment began and the date of its termination duly signed or otherwise authenticated by the employer. Such certificate shall be the property of the employee and shall be returned to her by any subsequent employer within seven days of her engagement.	

LIMITATION OF EMPLOYMENT OF JUNIORS.

- (5) (a) No department shall be manned exclusively by juniors.
 - (b) Not more than two male juniors shall be employed to each male adult employed as a weekly employee in each department. For the purposes of this provision an apprentice shall be deemed to be a junior.
 - (c) No junior, unless an apprentice, under 18 years of age, shall be employed on a monotype casting machine or an Elrod or similar casting machine.
 - (d) No junior, unless an apprentice, under 18 years of age, shall be employed on a power-driven guillotine, or on a platen machine or cylinder machine used for carton cutting.
 - (e) In all parts of the industry, juniors shall (except in any branch of the industry in respect of which provision is made for apprenticeship) be given reasonable opportunities to become proficient in different classes of work, and shall be taught higher grade work as they progress in the knowledge of their work.
 - (f) In connexion with any branch of the industry in respect of which provision is made for apprenticeship, no employer shall engage any male persons under the age of 21 years, or continue the employment of any such male person engaged but not indentured before the commencement of this Determination, except as an apprentice or probationer for apprenticeship (provided that the period of such probation shall not exceed six months from the engagement of such male person, and that such person shall not at any time during his probation be more than 18 years of age).
- Nothing in this sub-clause shall affect the employment of boys in such work as going messages, sweeping-up, and cleaning or feeding printing machines.

HOLIDAYS.

(6) (a) An employee shall be entitled to be absent from his employment without deduction of pay on any holiday. In this Determination "holiday" means the day observed as any of the following days: New Year's Day, Good Friday, Easter Saturday, Easter Monday, Labour Day, Christmas Day, Boxing Day, Australia Day, King's Birthday, and Melbourne Cup Day.

(b) An employer shall not terminate the employment of a weekly employee for the purpose of evading payment for the holidays prescribed by this Determination.

(c) Where an employee is dismissed within one week before any holiday (or within one week before the first day of several holidays), his re-engagement by the same employer within one week after such holiday (or, as the case may be, within one week after the last day of such several holidays), shall be prima facie evidence that his employment was terminated in breach of sub-clause (b) hereof.

(d) Where the employer terminates the employment within one week of a day on which a holiday occurs, the employee shall be paid for such holiday or holidays prescribed by this Determination, provided that such employee had been employed by the employer for a period of at least one week prior to the termination of the employment.

(e) Where an employee is absent from his or her employment on the day before or the day after a public holiday without reasonable excuse or without the consent of the employer, the employee shall not be entitled to payment for such holiday.

(f) The wage payable to a weekly piece-worker under this clause shall be that fixed for a time worker in the same occupation. A junior male shall be paid the time wage appropriate to his age and a junior female the time wage appropriate to her years of experience, provided that a female worker of more than five years' experience shall be deemed to be an adult for the purpose of computing the amount payable to her under this clause.

(g) The provisions of this clause (6) shall apply only to weekly employees.

CONSTANT SERVICE LEAVE OR BONUS.

(7) (a) In addition to the holidays provided for by clause (6) hereof, an employee, whether a time-worker or a piece-worker, who remains in the service of the same employer for at least a year, shall, if the employment has not been terminated, be entitled to one day's leave of absence on full pay for every period of two complete consecutive calendar months comprised in his service in respect of which he has not already received leave or bonus hereunder.

(b) The employer shall have the right to fix the time when such leave will be given, but must fix a time so that the leave then accrued due will be wholly given in one continuous period within fifteen months after the beginning of the period of service in respect of which the leave is due, and if he does not so fix the time or so give the leave he shall, for each day of leave then due, forthwith give the employee two days' leave of absence on full pay.

Provided that the employer may, if he think fit, give at any time in advance the period of six or seven days' continuous leave on full pay prospectively due in respect of the six or seven (as the case may be) periods of two months' service comprised within such fifteen months.

Provided further that if the leave be given so that the employee is freed from work for the employer throughout the seven days of a week or throughout a period extended to more than such seven days by reason of holidays as provided in sub-clause (c) hereof, the leave comprised within such seven days or within such extended period shall for the purposes of this clause be deemed to be six days' leave.

(c) Where any of the holidays provided for in clause (6) hereof so falls in the week as in the ordinary course to entitle an employee to be paid in respect of that holiday although he does not work thereon, and that holiday happens to fall within that employee's period of leave of absence, the days in that period shall be reckoned in addition to that holiday.

(d) Any employee who voluntarily leaves or is discharged from his employment after he has been in such employment for at least six complete consecutive calendar months shall be paid a bonus of one day's pay for every period of two complete consecutive calendar months comprised in his service in respect of which he has not already received leave or bonus hereunder, the day's pay to be at the ordinary rate for the class of work usually being done by the employee about the time when he so leaves or is discharged.

Provided that where leave of absence for two instead of one day should have been given in pursuance of sub-clause (b) hereof and has not been so given, such employee shall be paid a bonus of two days' pay in respect of each day of leave of absence that has not been so given.

(e) If the employee is a piece-worker the pay to be given for the period of leave of absence or as a bonus where leave is not given shall be at the rate fixed for a time-worker doing the same class of work as that of the employee.

(f) Where the employer is a successor or assignee or transferee of a business, if an employee was in the employment of the employer's predecessor at the time when he became such successor or assignee or transferee, the employee in respect of the period during which he was in the service of the predecessor shall for the purposes of this clause be deemed to have been in the service of the employer.

(g) In this clause employee means either a male or female employee, and the clause shall be construed accordingly.

(h) For the purposes of this clause the service shall be deemed to have continued and to continue unbroken and constant notwithstanding any interruption or determination of the employment by the employer if such interruption or determination has been or be made merely with the intention of avoiding obligation hereunder in respect of leave of absence or bonus.

(i) For the purposes of this clause, calendar months shall be reckoned as commencing with the beginning of the first day of the employment or period of employment in question, and as ending at the beginning of the day which in the latest month in question has the same date number as that which the commencing day had in its month, and, if there be no such day in such subsequent month, shall be reckoned as ending at the end of such subsequent month.

Provided that persons in employment on the 1st day of January, 1938, shall for the purposes of this clause be deemed to have commenced their service on that date.

(j) This clause shall come into operation on the 1st day of January, 1938.

(k) On application by any employer, this Wages Board, if satisfied that, because of the economic position of any part of the industry to which this Determination applies, injury to such part will be caused by the operation of this clause, may postpone or suspend such operation for such time as it may think fit.

FEMALES NOT TO WASH-UP OR FEED MACHINES, ETC.

(8) A female shall not be required or permitted to wash-up or clean a printing machine; or feed any Armory press or platen machine used for carton cutting; or operate any guillotine machine; or feed a platen printing machine if under the age of eighteen years.

REST INTERVAL FOR FEMALES.

(9) There shall be an interval of ten minutes at a time fixed by the employer between 10 a.m. and 11 a.m. for rest on each day, Monday to Saturday inclusive, in each week for each female employee on time work or on piece-work, such time to count as time worked. Reasonable facilities shall be provided by the employer for the employee to have refreshments during such interval if the employee so desires.

FIVE-DAY WEEK.

(10) When the employer desires to work the ordinary working hours in a five-day week, he may do so. The employer and the employees may thereupon agree upon the hours of commencing and finishing work with a starting time not earlier than 7.30 a.m., and a finishing time not later than 6 p.m., and in the event of such agreement being made, the hours so agreed shall be substituted for the hours fixed by this Determination, notwithstanding anything to the contrary contained in clauses (11) (b), (13) (b) and (c), and (13) (h) hereof. In default of agreement, such hours may be decided by this Wages Board.

HOURS.

(11) (a) The day-work hours of duty of employees shall not exceed eight hours on Monday to Friday inclusive and four hours on Saturday, and shall not exceed 44 hours in any week, to be worked between 8 a.m. and 6 p.m. on Monday to Friday inclusive; and between 8 a.m. and noon on Saturday, provided that the time of starting work of the linotype mechanic or other male person who attends to arrange the heating of linotype or like metal pots may be 7.30 a.m.

(b) The daily working hours of each office shall be conspicuously displayed in each workroom, and shall continue unchanged until altered by agreement between the employer and his employees, and in default of such agreement, as settled by this Wages Board.

NIGHT WORK.

(12) (a) Night-shift work is work other than overtime work done between the hours of 6 p.m. and 8 a.m.

(b) The hours of duty for night-shift workers shall not exceed 44 per week, to be worked within ten hours a shift on Monday to Friday inclusive, provided that for machine compositors on night shift the hours of duty shall not exceed 42 per week.

(c) The hours of commencing and finishing duty on each shift, of all employees on night shift or unusual shift, shall be arranged between each particular employer and his employees, and in default of such agreement, as settled by this Wages Board.

(d) A female employee or an employee under seventeen years of age shall not perform night-shift work.

(e) On any day when the hours of any night shift overlap the day-shift hours, the night-shift hours shall be observed, and the night-shift wage shall be paid for such day.

OVERTIME.

(13) (a) All overtime rates earned by an employee shall be paid in full, and no deduction shall be made from such overtime rates by reason of any time not worked by such employee.

(b) All duty performed by time-workers in excess of or outside the hours mentioned in clauses (11) or (12) hereof, or in excess of the hours of a shift, shall be overtime, and shall be paid for at the rate of time and a half for the first three hours and double time thereafter.

(c) All duty performed by piece-workers in excess of or outside the hours mentioned in clauses (11) or (12) hereof, or in excess of the hours of a shift, shall be overtime, and shall be paid for at the rate of rate and a half for the first three hours and double rate thereafter.

(d) (i) Where a weekly time-worker works on any day of his annual leave or on any public holiday mentioned in clause (6) hereof when he is entitled to be away from his employment, he shall be paid therefor at not less per hour than the hourly rate of his weekly wage, in addition to the weekly wage, and shall be given not less than four hours' work, or pay equivalent thereto.

(ii) Where a weekly piece-worker works on any such day of annual leave, or on any such public holiday, he shall be paid therefor one day's pay of the corresponding time-worker, and the usual piece-work rate or rates for work done by him. He shall also be provided with at least four hours' work, and in the event of insufficient piece-work being provided to keep him continuously employed for such four hours he shall be paid for any non-working time at the time-worker's ordinary hourly rate.

(iii) Should a weekly time-worker, or weekly piece-worker, who has worked on a holiday within the hours of his ordinary working day, work on such holiday before the ordinary hour of commencing work or after the ordinary hour of finishing work, he shall be paid double the ordinary time-work rate or double the ordinary piece-work rate, as the case may be, for the hours worked before the ordinary hour of commencing work or after the ordinary hour of finishing work.

(iv) This sub-clause (d) shall, with the necessary changes, be read to apply equally to a night worker as to a day worker.

(e) (i) Double time or double rate shall be paid for all work done on Saturday afternoon, and (with a minimum of four hours' work or pay equivalent thereto) on Sunday.

(ii) Where the hours of the ordinary working week are worked within five days any work done on the sixth day shall be paid for at time and a half or rate and a half for the first four hours worked before noon and at double time or double rate thereafter.

(iii) Where the hours of the ordinary working week are worked within five night shifts, any work done on the sixth night shift shall be paid for at double time or double rate.

(f) An employee, if called upon to work overtime in excess of one hour after the usual finishing time of any shift, shall be paid for two hours' work at overtime rates at the least. Where notice of overtime in excess of one hour has not been given to an adult male employee during the previous shift, or where notice of overtime has been given to him, but overtime has not been worked, 2s. shall be paid as an allowance for tea money. The same allowance shall be made for each meal reasonably occurring during such overtime work. Where any junior, apprentice or female is required to work overtime, or is given notice of overtime and such overtime is not worked, 1s. shall be paid as an allowance for tea money. The same allowance shall be made for each meal reasonably occurring during such overtime work.

(g) Any employee required to work more than six consecutive shifts without a clear interval of 36 hours after the sixth shift shall be paid double rates for all work performed by him after the sixth shift until he shall have had such clear interval of 36 hours between shifts.

(h) No employee under 16 years of age shall be employed on overtime. No employee under 17 years of age, nor any female or apprentice, shall be on duty in any event before 8 a.m. or later than 9 p.m. on any working day, subject to clauses (10) and (11) (a) hereof.

(i) An employer shall not require or permit any female employee to work overtime after 6 p.m. unless at least one other female person is working with her.

(j) An employer shall not require or permit an employee to work overtime or on night shift in connexion with power-driven machinery unless he works in company with at least one other person.

(k) One hour's time at the least, in addition to the actual time worked and/or the time the employee is required to stand by for work shall be paid for as a "call" to any employee brought in to do any work not in the ordinary working hours, such to be paid for at the rate of time and a half or rate and a half, except on Saturday afternoon, and on Sunday, when double time or double rates shall be paid.

EMPLOYEE MISSING USUAL CONVEYANCE.

(14) Whenever the finishing time of any employee working overtime or working on any temporary night shift is such as to cause him to miss the usual means of conveyance home, he shall be conveyed home in a suitable manner, without delay, at the expense of the employer.

MEAL PERIOD.

(15) (a) The minimum time allowance for meals shall be three-quarters of an hour, and the maximum allowance one hour. Provided that an employer and a majority of not less than three-fourths of his employees may agree to a reduced period, but not less than half an hour.

(b) No employee shall be compelled to break shift except for meals, and no shift shall exceed five hours without a break for meals.

(c) Where an employee is required to work during his usual meal period he shall be paid one-half extra on the hourly rate of his weekly wage for the time so worked, and be allowed his usual meal period as soon as it can be arranged.

(d) The lunch period of any employee shall be between the hours of noon and 2 p.m.

TERMS OF EMPLOYMENT AND SICK PAY.

(16) (a) No person shall be employed except as—

- (i) a weekly time-worker; or
- (ii) a weekly piece-worker; or
- (iii) a casual time-worker; or
- (iv) a casual piece-worker.

(b) A weekly time-worker, to become entitled to payment of a weekly wage, shall perform such work as the employer shall from time to time require on the days and during the hours usually worked by such employee.

(c) (i) A weekly time-worker not attending for duty shall lose his pay for the actual time lost unless he produces or forwards within twenty-eight hours of the commencement of such absence evidence or a message satisfactory to the employer that his non-attendance was due to personal ill-health necessitating such absence, but notwithstanding that he may be employed by different employers he shall not be entitled to payment for non-attendance on the ground of personal ill-health for more than 44 hours in each year. Such year shall begin on the date on which this Determination came into force.

(ii) A weekly piece-worker shall be excused from presenting himself for employment at the proper time and place each day because of personal ill-health and shall be paid at the corresponding time-worker's wage for the period of ill-health in all respects as if during such period he had been a weekly time-worker employed on such days and during such hours as are usually worked by time-workers upon any day, shift, and he shall comply with and be subject to the conditions for time-workers prescribed in paragraph (i) hereof.

(iii) If an employer within 48 hours after the receipt by him of a written message sent by (or on behalf of) an absent employee, alleging that his absence is due to personal ill-health, fails to despatch or give to the employee a written notice that he does not accept the message as satisfactory evidence of the facts alleged by it, it shall be deemed to be prima facie evidence that the absence of the employee was due to personal ill-health.

(iv) If an employer within 48 hours after the receipt by him of such message despatches, or gives to the employee a written notice that he does not accept such message as satisfactory evidence of personal ill-health, but requires further evidence, the employee must within a reasonable time furnish such further evidence. If the employer requires the employee to obtain a medical certificate or other proof of personal ill-health, he shall pay or refund any fee and incidental expenses necessarily paid or incurred by the employee. The employee shall submit to medical examination at the employer's expense if so required, and shall not obstruct or interfere with inquiries deemed to be necessary by the employer.

(v) If an employer rejects a claim for sick pay this Wages Board shall have power, upon application by the Printing Industry Employees Union of Australia, or by the employee concerned, to hear such claim, and to make such order thereon as it thinks appropriate; and the employee, if required to attend this Wages Board on the hearing of his claim, shall, if his claim succeeds, but not otherwise, be entitled to be paid by the employer for the time of his attendance, if a time-worker, at his usual rate, or if a piece-worker, at the corresponding time-worker's rate.

(vi) In any case where the period of 48 hours referred to in paragraphs (iii) and (iv) hereof expires after the finish of the last working day in the calendar week, or on a public holiday, the period shall be deemed to extend to noon of the next ordinary working day, and in any case where illness commences after the finish of such last working day the said period of 48 hours shall be deemed to commence at the starting hour of the next ordinary working day.

(d) A weekly piece-worker is a piece-worker engaged as a weekly employee. The following conditions apply to the employment weekly piece-worker :—

- (i) On each working day or night of the week he shall present himself for employment at the usual time for beginning work at the place of business of the employer unless informed before leaving work by the employer that his attendance on any day or any night is not required.
- (ii) If he has not been informed as provided in the foregoing paragraph, and actually presents himself on any such day or any such night he shall receive not less than four hours' continuous employment or be paid for such four hours (or any part of such four hours as would be non-working time) at the appropriate rate for a time-worker. Provided that a weekly piece-worker on day work working on a Saturday shall receive not less than three hours' work or be paid for such three hours (or any part of such three hours as would be non-working time) at the rate aforesaid, and his shift shall finish not later than noon.
- (iii) (1) The provisions of this paragraph (iii) shall have full force and effect notwithstanding anything contained in this Determination, or in the Schedule thereto.
- (2) In this paragraph the words "the corresponding time-worker" mean—
 - (a) As to an adult male, as defined by clause (34) (f) hereof—an adult male weekly time-worker employed in the same calling as the weekly piece-worker who is concerned;
 - (b) As to an adult female, as defined by clause (34) (f) hereof—an adult female weekly time-worker employed in the same calling as the weekly piece-worker who is concerned; and
 - (c) As to a male junior—a male junior weekly time-worker of the same age employed in the same calling as the weekly piece-worker who is concerned; and
 - (d) As to a female junior or any female of less than five years' experience—a female junior weekly time-worker of corresponding experience employed in the same calling as the weekly piece-worker concerned.
- (3) For any week in which he has worked the full hours of duty, the weekly piece-worker shall be paid at least the corresponding time-workers' wage.
- (4) For any week in which, though he has complied with the provisions of paragraph (i) hereof, he is not required to work the full hours of duty, he shall be paid for that week the corresponding time-workers' wage.
- (5) If in any week there occurs a public holiday, as provided in clause (6) hereof, upon which the weekly piece-worker is not required to work, he shall be paid, in addition to his aggregate piece-work earnings for that week, a sum equivalent to that paid to the corresponding time-worker for such public holiday.
- (iv) Notwithstanding anything in this Determination contained, lateness shall not, except as in this condition provided, affect the right of a piece-worker to the benefits of this sub-clause (d). A piece-worker's earnings shall not be subjected to deduction for lateness or lost time unless such lateness or lost time would cause an employer to make a payment which he otherwise would not be required to make. Subject to this condition, where a piece-worker is late or loses time on any day he shall be subject only to such a deduction from any moneys due to him as is proportionate to the time actually lost by him.
- (e) (i) The employment of a weekly time-worker or piece-worker may be terminated by a week's notice on either side, and such notice may be given on any day of the week to take effect one week after the day on which it is given. This shall not affect the right of the employer to dismiss any employee without notice for malingering, inefficiency, neglect of duty or misconduct, and in such case wages shall be paid up to the time of dismissal only, or to deduct payment for any day the employee cannot usefully be employed because of any strike of the Printing Industry Employees Union of Australia, or any other union, or through any breakdown of machinery or any stoppage of work for any cause for which the employer cannot be held responsible.
- (ii) In the event of work being temporarily stopped by a breakdown of machinery, or by any cause for which the employer cannot be held responsible, and the employee has lost at least two days' pay the employee, whether a weekly time-worker or weekly piece-worker, may inform the employer of his intention to terminate his employment, whereupon the employment shall be terminated without the employee being required to give the week's notice mentioned in paragraph (i) hereof, and he shall be paid such moneys as are due to him under this Determination.
- (f) Where a weekly piece-worker gives or receives a week's notice of the termination of his employment, he shall during the week that such notice runs, be given the same amount of piece-work as it has been customary for him to perform during the period of his engagement.
- (g) If an employee's services be terminated during the course of the week, he shall be paid all money due to him at the termination of his service, or all money due to such employee shall be forwarded to him by post within 24 hours thereafter. Without prejudice to his liability to legal proceedings in respect of such non-observance, an employer not observing this provision shall pay such employee an extra full day's pay for each day after the employer's usual pay day upon which he applies at the employer's place of business for payment of the amount due to him, and does not receive it.

CASUAL EMPLOYEES.

- (17) (a) An employer when engaging a person for casual employment shall inform him then and there that he is to be employed as a casual. Except where this is done the employee shall be a weekly time-worker or weekly piece-worker. A casual employee, after two weeks of continuous employment as a casual employee, shall become a weekly time-worker or weekly piece-worker.
- (b) If a casual employee commences duty on any day, or is directed to attend for duty and actually attends on any day, such employee, if a time-worker, shall in respect of such day be paid at the rate herein provided and for six hours (either day or night) at the least, except on Saturday, when he shall be paid for three hours at the least, and if a piece-worker, shall, in respect of such day, be given four hours' work at the least, or paid for four hours (or any part of such four hours as would be non-working time) at the appropriate rate for a time-worker, except on Saturday, when he shall be given three hours' work at the least or paid for three hours (or any part of such three hours as would be non-working time) at the corresponding time-worker's rate.
- (c) A casual employee, whether working at piece-work or time-work and whether working on day or night shift, shall be paid for such work the piece-work rate or the hourly rate prescribed for such work, with the addition of 12½ per cent.
- (d) A casual employee, when working overtime shall have his rate of pay as a casual employee increased by the same proportion (e.g., one-half, or double as the case may be) as the weekly worker's rate applicable to the class of work done by the casual employees directed to be increased under this Determination for work done on overtime, with the addition of 12½ per cent.

PROBATIONERS ON SLUG-CASTING OR TYPE-CASTING MACHINES.

(18) An employer shall not employ any employee as a probationer on the keyboard of a slug-casting or type-casting machine unless such employee is a compositor who has served a full term of apprenticeship, or is an apprentice who has served three years' apprenticeship as a compositor.

MIXED FUNCTIONS.

(19) Where during any day a time-worker or piece-worker is employed on work requiring the performance of functions involving different rates of wages prescribed by this Determination, the minimum rate of wage to be paid to the employee for that day shall be calculated as if the employee performed such only of the said functions as involved the highest rate of wage.

PIECE-WORK.

(20) (a) Without prejudice to the rights of a weekly piece-worker under clause (16) (d) hereof no piece-work shall be performed by any employee other than in respect of work done in connexion with machine composition.

(b) The minimum piece-work rates payable to an employee by an employer shall be the rates prescribed in the schedule to this Determination.

(c) No undue advantage shall be given to one piece-worker over another. This provision applies to the quantity and to the classes or quality of work to be supplied to the employee.

(d) When piece-workers are kept waiting for work or any materials, all waiting time shall be totalled up when the day's work is finished, and paid for at not less than the corresponding time-worker's rate. A piece-worker shall be deemed to be waiting for work unless directed not to remain on the employer's premises for work.

WAGES AND PAY DAY.

(21) Subject to clause (16) (e) hereof, an employee shall be paid his wages on Thursday or Friday in each week, and not more than two days' pay shall be kept in hand by the employer.

WORK NOT TO BE TAKEN OFF EMPLOYER'S PREMISES.

(22) No work shall be taken off the employer's premises to be executed by any employee.

TIME BOOK.

(23) (a) Each employer shall keep a time and wages book, correctly and fully written in ink, showing the name of each employee, and his occupation, the hours worked (including overtime) each day or night, and in respect of waiting time paid for under clause (20) (d) hereof the time of the commencement and the ending of each period of waiting time, and the wages, overtime and allowance paid each week: provided that the employer may at his option use a mechanical clock in lieu of a time book for the purpose of recording the time of each employee. The book, or, when a clock is installed, the time cards, shall be open for inspection by a duly accredited official of the Printing Industry Employees Union of Australia, or of the employer's employees, during the usual office hours at the office or other convenient place. The inspecting official shall be entitled to take and carry away a copy of any entry in such book or time card, and may in any relevant proceeding tender such copies in evidence. Every book or time card kept or made under this clause shall for at least twelve months after the making of any record thereon be kept by the employer at his place of business and shall be there open for inspection under this clause.

(b) Twenty-four hours' notice of the intention to inspect the time book shall be given to the employer whose book is to be inspected.

AUTHORIZED PERSON MAY ENTER FACTORY.

- (24) (a) (1) The secretary-treasurer of the Printing Industry Employees Union of Australia, and
 (2) The secretary of the appropriate branch or sub-branch thereof of the said union, or
 (3) An officer of the appropriate branch or sub-branch thereof of the said union accredited in writing by the secretary of the branch

shall have power to enter and inspect during working hours any part of a printing factory or workshop in which any piece-work operation is being carried on, and to interview the employees in regard to piece-work rates and conditions of employment.

(b) At least four hours' notice shall be given to the employer or his representative by any such person or persons prior to his or their actual going on the premises, and the employer shall be notified of his or their arrival, and he or his representative shall be entitled to accompany any such person or persons, and shall provide access to the wages book and time sheet and records of any piece-work employee. Upon request of the said person the employer or his representative shall produce any work or part of any work done or in the course of being done by a piece-work employee. The work and duties of the employees shall be interfered with as little as possible by any such person.

UNION OFFICIAL VISITING FACTORY.

(25) Duly accredited representatives of the Printing Industry Employees Union of Australia shall have the right to enter employers' working establishments during the midday meal time for the purpose of interviewing employees on legitimate union business, on the following conditions:—

- (a) That the representative produces his authority to the employer or his representative.
 (b) That the representative interviews employees only at places where they are taking their meals.
 (c) That not more than two such representatives shall at any one time visit or be in any one working establishment, and if there are two representatives they shall both be there at the same time.
 (d) That if a working establishment shall have been visited by any such representative during a week it shall not be visited afterwards during the same week by any such representative.
 (e) That if any employer alleges that a representative is unduly interfering with his working establishment, or is creating disaffection amongst his employees, or is offensive in his methods, or is committing a breach of any of the previous conditions, such employer may refuse the right of entry, but the said union shall have the right to bring such refusal before this Wages Board which may thereupon rescind or otherwise deal with such refusal.

UNION DELEGATE.

(26) Not more than two delegates, chosen by and from the employees of an employer, shall be allowed the necessary time in working hours to interview the employer or his representative for the purpose of submitting grievances. If the members so chosen be piece-workers they shall be paid for such time the time-worker's wage in their branch of the industry.

SEATING PROVISION.

- (27) (a) Any male employee whose work requires him to be seated shall be provided with a reasonably comfortable seat.
 (b) Any female employee whose work permits of her being seated or requires her to be seated shall be provided with a reasonably comfortable seat.

DETERMINATION, ETC., TO BE POSTED.

(28) A copy of this Determination shall be kept posted in a prominent place in each workroom where it may be read by employees. The Printing Industry Employees Union of Australia shall be permitted to post notices as to union meetings on a board at each establishment in a reasonable manner.

HEALTH NOTICES.

(29) Notices containing advice for the preservation of the health and protection of workmen, if provided by the Printing Industry Employees Union of Australia, shall be kept prominently posted and displayed in all workrooms by the employer.

APPRENTICES.

(30) (a) A beginner shall be apprenticed to learn and shall be fully and thoroughly taught and instructed by the employer in one, but not more than one, of the following branches of the printing industry:—

- (i) Hand composition.
 (ii) Hand and machine composition with instruction in the mechanism of slug-casting or type-casting machines.
 (iii) Stereotyping and/or electrotyping.
 (iv) Bookbinding and/or guillotine machine operating.
 (v) Paper ruling and/or guillotine machine operating.
 (vi) Edge gilding.
 (vii) Letterpress printing.
 (viii) Lithographic printing.

BRONZING OR DUSTING-OFF.

(31) (a) Bronzing and dusting-off by machine shall not be done except under such conditions as to prevent, as far as practicable, the escape of dust into the air of any occupied room.

(b) Bronzing or dusting-off by hand shall not be done except in connexion with—

- (i) An efficient exhaust draught which effectively carries away bronze dust in the atmosphere; or
 (ii) An appliance or within a structure of canvas, wood, or other suitable material so constructed as to prevent, as far as practicable, the escape of dust into any occupied room.
 (iii) The foregoing conditions shall not be enforced where bronzing or dusting-off is not done in any workroom for more than two hours in any one day.

(c) There shall be provided—

- (i) Suitable overalls and head coverings for all persons engaged in bronzing or dusting-off, which shall be washed or otherwise effectively cleansed at least once every week when in use.
 (ii) For all persons engaged in bronzing or dusting-off a suitable place or places for clothing put off during working hours.

(d) Every person employed in bronzing or dusting-off shall—

- (i) Wash the face and hands before partaking of any food or leaving the premises;
 (ii) wear the overalls and head coverings supplied as provided herein;
 (iii) deposit clothing put off during working hours in the place or places provided in pursuance of these regulations.

(e) Where bronzing or dusting-off is regularly done there shall be provided and maintained in a clean state and in good repair for the use of all persons employed in bronzing or dusting-off a lavatory with a sufficient supply of clean towels and soap and nail brushes, and having a supply of hot and cold water.

(f) Where bronzing or dusting-off is not done regularly, a reasonable supply of hot water shall be available for each person engaged in bronzing or dusting-off.

(g) Any person employed in bronzing by hand or dusting-off by hand, shall be paid 6d. an hour, in addition to any other money payable under this Determination.

(h) Where the bronzing surface does not exceed in size large post octavo, females may be employed at bronzing or dusting-off for a period not exceeding two hours in any one day, but except under such conditions an employer shall not require or permit any female employee to do bronzing or dusting-off work.

(i) Each person shall be supplied free of charge by the employer with milk each morning and each afternoon where employed in bronzing or dusting-off by hand for two hours or more in any morning or afternoon period.

HEALTH PROVISIONS.

(32) (a) Type metal or type metal shavings shall not be permitted to accumulate on the floor or in the vicinity of slug-casting or type casting machines or on the floor of the stereotyping and/or electrotyping departments.

(b) Dry cleaning shall not be permitted or carried out in any printing factory, workshop, or place. All establishments and workshops shall be efficiently ventilated.

(c) The employer shall provide a suitable place for employees to wash their hands.

(d) Proper facilities shall be provided by the employer so that the clothing of employees taken off during working hours may be protected from the dust of the workroom.

(e) All metal pots, other than those electrically heated, shall be provided with proper and suitable hoods, which shall be so fitted that all fumes and heavy gases are sucked off and conducted into the open air.

(f) The melting down of linotype or stereotype or like metal, or the cleaning of linotype plungers, shall be done away from the workrooms, or, where this is not practicable, shall be done in such a manner as to cause the fumes or dust to be carried away from the workroom into the open air.

(g) Where artificial light is in use, effective shades shall be provided by the employer to prevent eye strain. Artificial light shall be so situated as to enable the employee to work without unnecessary strain to the eyes.

FIRST-AID CHEST.

(33) The employer shall provide a first-aid chest, which shall be a suitable dustproof receptacle, made of either metal or wood, for the use of the employees, in some accessible place. Such chest shall be equipped and supplied with the following articles, namely :—

Article.	Quantities to be Kept in Ambulance Chest in—

INTERPRETATION OF THE DETERMINATION.

(34) (a) A time-worker's hourly rate for any work for which a weekly rate is prescribed by this Determination shall be ascertained by dividing the weekly rate by the number of hours which constitute the employee's ordinary working week.

(b) The word "factory" or the words "factory or workshop" shall include every room or place where work in respect of which wage is prescribed by this Determination is carried out by employees.

(c) A day's work shall mean work done between the usual hours of commencing and finishing work on any day or night shift, or any mixed day and night shift.

(d) "Adult male" shall mean (1) any male employee over 21 years of age, or (2) any employee who has completed his period of apprenticeship but is under 21 years of age; and "adult female" shall mean (1) any female employee over 21 years of age, or (2) any female employee of any age who has had five years' experience in the industry.

(e) A duly accredited or authorized official or person, member of the Printing Industry Employees Union of Australia, shall mean any officer or member of the said union or of the appropriate branch or sub-branch thereof who may be accredited in writing by the secretary-treasurer of the said union or by the appropriate branch secretary, and shall include the said secretary-treasurer and branch secretary. The words "branch secretary" shall mean the secretary of any State Branch of the said union.

(f) A copy-holder, unless an apprentice to hand composition or hand and machine composition, shall not be entitled to do the work of reading, revising, checking, or correcting proofs.

SCHEDULE "A"—MACHINE COMPOSITION.

PIECE-WORK RATES FOR MACHINE COMPOSITION.

1. The piece-work rate for machine composition shall be 4½d. per thousand ems, but where such work is done on a night shift the rate shall be 5½d. per thousand ems, and such piece-work shall be done subject to the provisions of the Determination and of this schedule.

CAST-UP AND MINIMUM MULTIPLIER.

2. The cast-up shall be according to the point system, but the minimum multiplier for any line shall be 40, and the table of multipliers appended to this schedule shall be observed. A fraction of an en, if more than 5, shall count an en for the machine compositor, and if less shall not be counted. If it is 5, it shall count alternately for the house and the machine compositor.

LARGE TYPE.

3. Matter 13 ems and under 13 ems measure, composed in 10-point type, shall be charged ½d. per thousand ems extra, and all types above 10-point in size shall be charged ¾d. per thousand ems extra.

BORDERED MATTER.

4. Matter having a machine-set border attached to the slug, whether such border is formed of rules, letters, or otherwise, shall be paid for at double rate.

DIALECTS, ETC.

5. Matter set in dialectic English or in illiterate spelling, where such matter is of four lines or more, or where the dialectic English or illiterate spelling is recurrent through the matter, shall be paid at rate and a half.

FOREIGN LANGUAGES.

6. Matter set in any language other than English shall be paid for at double rate.

"TAKE" OF COPY.

Twelve lines of 16 ems measure, or their equivalent in wider measures, shall constitute a machine "take" of copy. Provided that the matter given out at any one time, whether referring to the same or different articles, shall constitute one "take".

TOP AND BOTTOM RULES.

8. The top and bottom rules of tables shall be paid for as distinct lines when set or required to be inserted by the machine compositor, but cross rules in the body of a table, when set or required to be inserted by the machine compositor, are reckoned in the depth.

COLUMN OR TABULAR MATTER.

9. Column or tabular matter cast on one bar shall be charged:—Two columns (two justifications or arrangements), rate and a third; three columns, rate and a half; four or more columns, double rate. The above rates shall be paid whether the matter is with or without headings or rules. Where there are more than four columns, the machine compositor shall have the option to set the matter at the machine compositor's time-rate with the addition of 12½ per cent.

HEADINGS.

10. Column or tabular matter with headings in smaller type than the body shall be cast-up at the value of each body.

SMALL CAPITALS, ITALICS OR SORTS NOT ON KEYBOARD.

11. (a) For small capitals, italics, clarendon or other faces and sorts of type or characters of any kind, not on the keyboard but fed in by hand, one line extra shall be allowed for each word of six letters or less and two lines extra for each word of more than six letters.

(b) Where intermittent words are set on the keyboard in such faces and sorts, one line extra shall be paid for each line containing such words, excepting small capitals, which shall be paid one line extra for each word. When double letter matrices are used, and matter is set up on the upper tier or by the two-letter or leaf attachment for elevator head elevation, such matter up to 25 continuous lines shall be paid at rate and a half, and all matter beyond 25 continuous lines shall be paid at rate and a quarter.

RUN-ON LISTS AND SIMILAR MATTER.

12. Run-on subscription lists, share lists, land sales, wool sales, show-prize lists, cargo lists, tennis results, egg-laying competition results, pawnbrokers' advertisements, balance-sheets, University or other school lists (other than those which are figures only), cricket scores, rifle scores, quit scores, mining and market reports, racing weights, racing results and similar matter, shall be paid for at rate and a half. University and other school lists and examination results, consisting of figures only, lottery results, consisting of figures only and other run-on figure matter, consisting of figures only, shall be paid for at double rate.

LEADERED MATTER.

13. All leadered matter, if leaders are ranged, and other leadered matter of 20 ems measure or over, shall be paid for at rate and a third.

INDENTED MATTER.

14. All matter set to 13 ems measure or less in 8-point or over, indented one or more ems each end or two ems or over on one end, shall be paid for at rate and a half.

HOUSE MARKS—AUTHOR'S PROOFS.

15. (a) Alterations from copy to the first proof shall be paid for at double rate. House marks or author's proofs shall be paid for at double rate, but twelve lines shall be the minimum charge. New matter or additions to copy shall be paid for at the ordinary rate if exceeding twelve consecutive lines.

(b) When an author's proof contains matter to be set in various measures, and the appropriate matter for one measure is intermixed with that of other measures necessitating the proof and/or copy being traversed three or more times before being completed, the charge shall be increased by one-third except where the matter makes nine lines or less.

(c) The House shall be entitled to correct all author's proofs or revises on time.

CORRECTION OF PROOFS ON TIME.

16. The House may at any time, in its discretion, correct proofs on time and deduct from the machine compositor the number of lines requiring alteration. The machine compositor shall have the opportunity of seeing proofs containing any correction charged against him.

SLUGGING, ETC.

17. The insertion of all display or corrected slugs, cutting, fitting or whiting, shall be done by the House.

WHITE LINES, ETC., INSERTED BY THE HOUSE.

18. The machine compositor shall not be paid for white lines, rules or other matter, inserted by the House, except where the same are set or are required by the House to be inserted as part of a "take."

MULTIPLE BAR MATTER TO BE LAID OUT BY THE HOUSE.

19. Where matter is set on two or more bars it shall be laid out by the House, but the machine compositor shall be responsible for any mistake made by him.

EXTRA CHARGE FOR MULTIPLE BAR MATTER.

20. Matter requiring two bars to complete one measure (not being tabular matter) shall be paid for at rate and a third; three bars, rate and a half; four or more bars, double rate.

FULL LINES.

21. Each line cast by the machine shall be paid for as a full line, except when the vice jaw is reduced, when the full measure shall be charged for the first twenty lines only.

COPY TOO BIG FOR TRAY.

22. All matter set from copy (including books) that will not go on or cannot be folded or arranged to suit the copy tray, shall be paid for at rate and a third.

BAD OR INDISTINCT COPY.

23. Bad or indistinct copy, or copy written with an indelible pencil, or matter having to be transposed by the machine compositor (that is, matter which is not to be set up in the order in which it appears in the copy), shall be paid for at rate and a third.

CONTRACTIONS—EXTRA CHARGE.

24. Where the machine compositor has to make contractions, he shall be paid rate and a half for each line affected. This provision does not apply to ordinary recognized contractions such as St. for street, Rd. for road, Co. for Company, Ltd. for Limited, lb. for pound, oz. for ounce, &c. Further, this provision does not apply to work done on a directory or a telephone list.

DEFECTIVE MACHINES.

25. The correction of errors resulting from the defective working of the machine, and sunken letters, shall be paid for at double rates, provided that where a mechanic is employed on the shift, or some responsible person is present, his attention is called to the defect and he has failed to remedy the matter, but a machine compositor shall be entitled to this charge for all matter set up to the time when the defect was, or should reasonably have been observed by him.

LOWER MAGAZINE.

26. Where a machine compositor sets from a lower magazine from which the matrices assemble down a chute, the machine compositor may at his option do such work at the time rates for a machine compositor.

TIME-WORK.

27. A machine compositor, who may be temporarily required to do hand work on any day on which he is employed as a machine compositor, shall be paid therefor not less than the time rate for a machine compositor.

WAITING TIME.

28. Waiting time shall be paid for at the time rate for a machine compositor. All stoppages shall be cumulative, and shall be charged as waiting time, provided that such stoppages have not been caused by the fault of the machine compositor.

CHANGING MAGAZINE.

29. For changing magazine or mould in any slug-casting machine, the machine compositor shall be paid 5d., and for emptying or refilling magazine, 1s. 3d. In the case of a multi-magazine machine, or a machine of similar design, he shall be paid 1d. for each change, and 1d. for each return where the change and return of magazine is made by manipulation of handle or lever.

ATTENDING AND ADJUSTING.

30. On any shift a machine compositor on piece-work attending or adjusting one machine shall be paid 10s. per week extra, and for two or more machines 20s. per week extra. If the 10s. per week be not paid to a piece-worker, all mechanical troubles shall be rectified for him without delay, and he shall be paid for all time he is kept waiting at the time rate for a machine compositor.

LONG MEASURE.

31. Slugs of 26-ems pica measure and over set in 6-point or smaller type shall be paid ½d. per 1,000 ems in addition to the rate. Measures of 27-ems pica and over set in type larger than 6-point shall be paid ¾d. per 1,000 ems in addition to the rate.

CHANGING MACHINE OR MAGAZINE.

32. If a machine is changed by order to a different type, the machine compositor shall not be required to change again to make corrections. Such corrections shall be done on a vacant machine if possible, but when they are done by another machine compositor, at the order of the House, one line shall be charged against the machine compositor who set the matter, and one line against the House for each line re-set.

INSTRUCTIONS.

33. Instructions shall be given to the machine compositor with the first "take" in each job.

CATCHLINES.

34. A piece-work machine compositor shall be paid for all catchlines when set by him.

FULL FOUNT OF MATRICES.

35. Each machine shall be provided with at least 25 space bands, and such a fount of matrices as will enable the machine compositor to do his work without delay.

CROSS RULES.

36. All cross rules when set by the machine compositor, whether in reading or advertisements, shall be paid for as separate lines.

Factories and Shops Acts.

DETERMINATION OF THE SHOPS BOARD No. 4 (BUTCHERS, COUNTRY).

NOTE.—(a) This Determination on the 1st August, 1937, applied to the whole of the State of Victoria outside and excepting the Metropolitan District as defined in the *Factories and Shops Act 1928* (No. 3877) and the Order in Council thereunder; such portion of the city of Sandringham as is not included within the said District; the cities of Ballarat, Bendigo, Geelong, Geelong West, and Warrnambool; the town of Newtown and Chilwell; the boroughs of Eaglehawk and Sebastopol; and the Moorpanyal and Peak Ridings of the Shire of Corio.

(b) On the 16th day of March, 1914, the power given to the Country Shop Assistants Board to "determine the lowest prices or rates which may be paid to any person or persons, or classes of persons, employed in or in connexion with a butcher's shop as a shop assistant, packer, storeman, or carter," was conferred exclusively on this Board.

IN accordance with the provisions of the Factories and Shops Acts, the Wages Board appointed to "determine the lowest prices or rates which may be paid to any person or persons, or classes of persons employed in the process, trade, or business of a butcher or seller of meat, or maker or seller of small goods," has made the following Determination, namely:—

(1) That on the 1st August, 1937, the last previous Determination of this Board shall be revoked and replaced by this Determination.

| (a) In excess of four hours on Saturday and eight hours on other days. | } | Where an ordinary week's work is worked on six week days. |
| (b) On Saturdays, and in excess of eight hours on other days. | | |

(6) **CONTRACT OF EMPLOYMENT.**—(a) With the exceptions hereinafter stated, employment may be by the week or by the hour. If by the week it shall be terminable on either side by one week's notice given on any day or (if the employer terminate it without such notice), by payment of one week's wages.

A contract for weekly employment may be terminated by any employer, without liability to pay for more than time actually worked, for misconduct or for absence from work without reasonable excuse.

If an employee engaged by the week absents himself from duty, except on public holidays or on days for which he produces a certificate from a medical practitioner or other proof satisfactory to his employer of sickness (aggregating four days of sickness in each year), a sum proportionate to his time of absence may be deducted from his pay, i.e., one-sixth of the weekly wage for each day of absence, including Saturday in shops working six days and one-fifth in shops working five days per week: Provided that only time actually lost shall be deducted when an employee is absent with leave on a Saturday.

(b) If the contract of employment is for hourly hiring, the total amount of the rates prescribed in clause 3 (a) hereof shall be increased by 5s. per week (with a proportionate amount added to the wages of females and improvers), but such amount shall not be taken into account in computing overtime, Sunday, and holiday rates.

(c) An employee starting work on hourly hiring shall be entitled to a minimum of four consecutive hours work or to four hours' pay for the job—such hours may be deemed to be consecutive if worked in ordinary hours at the end of a day and the beginning of the next succeeding day.

(7) **HOLIDAYS.**—All weekly wage employees shall be granted the following holidays without deduction of pay:—The days observed as New Year's Day, Australia Day, Good Friday, Easter Monday, Labour Day, Anzac Day, King's Birthday, Christmas Day, and Boxing Day.

All employees working on piece-work shall be granted the same holidays as are granted to weekly wage workers, and they shall, subject as hereinafter provided, be paid for such holidays the amount for each holiday based on the minimum weekly wage as set out in this Determination for the class of work performed.

If any of the above holidays occur on a Sunday or Saturday and are not observed on any other day, then employees shall not be paid for such Sunday, and shall be paid for such Saturday as for a half-day, but not otherwise.

Where an employee is absent from his or her employment on the day before or the day after a public holiday without reasonable excuse or without the consent of the employer, the employee shall not be entitled to payment for such holiday.

(8) **MEAL ALLOWANCE.**—Any employee required to work overtime beyond two hours without previous day's notice shall be allowed 1s. 6d. meal money.

(9) **MEAL BREAK.**—The meal-break shall be a period of not less than thirty minutes between noon and 2 p.m.

(10) **REST INTERVAL.**—There shall be an interval of ten minutes at a time fixed by the employer between 10 a.m. and 11 a.m. for rest on each day, Monday to Friday inclusive, in each week for each employee, such time to count as time worked. Reasonable facilities shall be provided by the employer for the employee to have refreshments during such interval if the employee so desires.

(11) **SEATS FOR FEMALES.**—Seats where practicable shall be provided for all female workers whilst on duty.

(12) **PAYMENT OF WAGES.**—(a) Wages shall be paid during working hours not later than Friday in each week.

(b) Where the services of an employee are dispensed with wages shall be paid on the day of dismissal or forwarded by post on the day following.

(13) **PIECE-WORK.**—The Board determines under the provisions of the Factories and Shops Acts that any employer may fix and pay piece-work prices to any person employed at any work for which the Board has fixed a minimum wage, provided that any such employer shall base such piece-work prices on the earnings of an average worker working under like conditions, and such piece-work prices shall be fixed so that an average worker can earn not less than 10 per centum in addition to the wages rates that are fixed by the Board for such work.

DETERMINATION OF THE PLATE GLASS BOARD.

NOTE.—This Determination on the 3rd August, 1937, applied to the whole of the State of Victoria.

IN accordance with the provisions of the Factories and Shops Acts, the Wages Board which since the 5th November, 1924, has had the power to "determine the lowest prices or rates which may be paid to any persons employed in the trade of—

- (a) designing, bevelling, cutting, embossing, glazing, painting, silvering, or otherwise working all kinds of plate, sheet, or stained glass, or glass lenses or prisms;
- (b) fixing in position all kinds of plate, sheet, or stained glass or glass lenses or prisms;
- (c) packing all kinds of plate, sheet, or stained glass, or glass lenses or prisms;

including any labouring work in connexion with any of such operations," has made the following Determination, namely:—

(1) That on the 3rd August, 1937, the adjusted Determination which came into force on the first pay period to commence in June, 1937, shall be revoked and replaced by this Determination.

(4) **TERMS OF ENGAGEMENT.**—Except as herein in this Determination provided, all employees shall be employed by the week. Employees to become entitled to the weekly wage prescribed by this Determination must be available and ready and willing to perform such work as the employer shall from time to time require on the days and during the hours usually worked by the class of employee affected. Where the majority of the employees of any establishment or of any department of such establishment agree to work part time for any period or to close down for any period on days other than the prescribed holidays, the provisions of the weekly wage shall not apply to any employee of such establishment or department during such periods.

Employment for the first two weeks of service at any time shall be from hour to hour at the weekly rate fixed.

(5) **TEMPORARY WORK.**—(a) Temporary employees shall be paid at the hourly rate prescribed for the particular class of work, with the addition of 10 per cent.

(b) The hourly rate for any work for which a weekly rate is prescribed by this Determination is to be ascertained by dividing the weekly rate by the number of hours which constitute the employee's ordinary working week.

(6) **OVERTIME.**—All time worked before or after the usual times of beginning and ending work, or in excess of eight hours on week days and four hours on Saturdays, shall be paid for at the rate of time and one-half for the first four hours and double time thereafter provided that all time worked between the hours of 9 p.m. and 7 a.m. shall be paid for at double time.

All work done outside the times of beginning and ending work on any holiday specified in Clause 13 shall be paid for at the rate of double ordinary time.

No person under the age of seventeen years shall be permitted to work more than four hours' overtime in any week.

(7) **TERMINATING EMPLOYMENT.**—Employment to be terminated only by a week's notice on either side, and such notice may be given at any time during the week. This shall not affect the right of the employer to dismiss any employee without notice for malingering, inefficiency, neglect of duty, or misconduct, or to deduct payment for any time the employee cannot be usefully employed because of any strike, or through any breakdown of machinery, or any stoppage of work by any cause for which the employer cannot reasonably be held responsible.

An employer shall not terminate the employment of an employee for the purpose of evading payment for the holidays prescribed by this Determination.

Where an employee is dismissed within seven days prior to any such holiday, the re-engagement of such employee within seven days after such holiday shall be prima facie evidence that the employment was terminated for the purpose of evading payment for such holiday.

Where the employer terminates the employment within one week of a day on which a holiday occurs, the employee shall be paid for such holiday or holidays prescribed by this Determination, provided that such employee has been employed by the employer for a period of at least one week prior to the termination of the employment.

Should an employee be dismissed during the course of a week any wages due to him shall be paid to him forthwith, or shall be posted to him within 24 hours.

(8) **PAY DAY.**—All employees shall be paid weekly on any other day than Saturday.

No employer shall hold more than two days' pay in hand.

Any employee kept waiting for his pay on pay day for more than a quarter of an hour after the usual time for ceasing work shall be paid overtime rates after that quarter of an hour and as for a quarter of an hour at least.

(9) **MIDDAY MEAL.**—An interval of not less than 30 minutes shall be allowed for the midday meal between the hours of 12 noon and 2 p.m.

(10) **TEA MONEY.**—All employees required to work beyond the usual time of ending work shall be allowed 2s. tea money in addition to overtime rates as prescribed for in this Determination when the usual time of ending work is exceeded by two hours.

(11) **PIECE-WORK.**—The Board determines under the provisions of the Factories and Shops Act that any employer may fix and pay piece-work prices to any person employed at any work for which the Board has fixed a minimum wage, provided that any such employer shall base such piece-work prices on the earnings of an average worker working under like conditions, and such piece-work prices shall be fixed so that an average worker can earn not less than 10 per centum in addition to the wages rates that are fixed by the Board for such work.

(12) **ALLOWANCES FOR TRAVELLING TIME AND BOARD.**—All time reasonably occupied by an employee in travelling to or from work outside the shop and outside ordinary hours and in travelling to and from work in a country district if engaged in the metropolitan district for employment in a country district, shall be treated as time off duty and paid for at ordinary rates up to a maximum of eight hours for the journey, except on Sundays when time and a half rates shall be paid up to a maximum of eight hours for the journey. Provided that, where an employee proceeds direct from his or her home to a job outside the factory, he or she shall be paid for all time reasonably occupied in travelling to the job in excess of the time usually taken to go from his or her home to the factory.

All fares and reasonable travelling expenses incurred by an employee in such travelling, including the cost (if any) incurred for meals—together with the reasonable cost of board and lodging if the employee has to be away from his home for a night—shall be paid to the employee.

The fares allowed shall be first class where the employee has to travel all night in connexion with his employer's business, and in other cases the fares shall be second class.

The foregoing travelling and accommodation allowances shall be paid additional to the usual rates for the time employees are working.

When it is more convenient for the employee to go direct to the job from his home he shall do so, and start and cease work at the usual times customary at the factory, provided that any extra expense incurred by him in travelling shall be borne by the employer.

(13) **HOLIDAYS.**—All weekly wage employees shall be granted the following holidays without deduction of pay:—The days observed as New Year's Day, Australia Day, Good Friday, Easter Monday, Labour Day, Anzac Day, King's Birthday, Christmas Day, and Boxing Day.

All employees working on piece-work or task-work shall be granted the same holidays as are granted to weekly wage workers, and they shall, subject as hereinafter provided, be paid for such holidays the amount for each holiday based on the minimum weekly wage as set out in this Determination for the class of work performed.

If any of the above holidays occur on a Sunday or Saturday and are not observed on any other day, then employees shall not be paid for such Sunday, and shall be paid for such Saturday as for a half-day but not otherwise.

All other weekly employees shall be paid for the above holidays an amount for each holiday based on the actual weekly wages paid to them by the employer.

Any employee absenting himself or herself from work on any portion of the working day preceding a holiday provided for herein other than Boxing Day and New Year's Day without permission from the employer or without having reasonable cause for having absented himself or herself from work shall not be entitled to payment for such holiday.

(14) **SICKNESS, ACCIDENTS.**—Any employee not attending duty shall lose his or her pay for the actual time of non-attendance unless he or she produces or forwards within 24 hours of the beginning of his or her absence evidence satisfactory to the management that his or her non-attendance was due to personal accident arising out of or in the course of his or her employment or to personal ill-health sufficient to incapacitate him or her for his or her usual work.

An employee shall not be entitled to payment for non-attendance on the ground of accident or ill-health for more than six days in each year.

For the purpose of this clause a year shall mean a period of twelve months commencing on the 17th day of August in each year.

(15) **SPECIAL RATES.**—Double time shall be the rate for all work done on Sundays, New Year's Day, Australia Day (26th January), Good Friday, Labour Day (21st April), Easter Monday, Anzac Day, King's Birthday, Boxing Day, or Christmas Day; but if any other day be by Act of Parliament or Proclamation substituted for any of the above-named holidays, the special rate shall only be payable for work done on the day so substituted.
