Prices, which must be expressed in words as well as in figures, and without alterations, erasures, or discrepancies, must be per ton of 40 cubic feet, including delivery and all charges.

Tenders, which must be upon the printed form, will be received for one or more of the above-mentioned places, and tenders for such places may be accepted separately; any of the lengths of wood stipulated may be tendered for and may be accepted separately.

Tenderers must specify the kind or kinds of firewood offered.

Telegrams, or tenders not complying with the terms of advertisement, will not be entertained.

No security will be required.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to again hold contracts for Government supplies.

Tenders must be enclosed in an envelope, marked "Tender for Firewood at _____" as the case may be, and deposited in the Tender-Box, Tender Board Offices, Gisborne-street, Melbourne, C.2; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Tender Board Offices, Gisborne-street, Melbourne, C.2.

The lowest or any tender will not necessarily be accepted.

Acceptance of tenders will be notified in the *Government Gazette* and by letter to successful tenderers.

CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. All the firewood supplied under these contracts must be split out of large timber; must be perfectly sound, dry, and of the kind or kinds specified in the tender; neither burnt wood, heartwood, small branches, nor outside-pieces of bark will be received. The billets must be not less than 4 inches nor more than 6 inches in diameter, and the long wood to be not less than 9 inches nor more than 18 inches in diameter. Delivery to be made on the written order of the authorized officer of the Department requiring the supply. The ton of firewood consists of 40 cubic feet. If the firewood be obtained from a State Forest Timber Reserve, or ordinary Crown lands, persons cutting or removing same must be provided with a licence or permit from the Forests Commission. Messmate wood will not be accepted.

3. Orders will be issued half-yearly (except in cases where the storage is small, when they will be issued quarterly).
4. The contractor will be bound to place the firewood in stacks for measurement in such places as may be directed by the officer receiving the supply. The stacks are to be 2 feet wide (or 5 feet for long wood) by 5 feet high, with space between each stack for measuring; and the billets (or lengths) are all to lie the same way, viz., crossways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack, and to the satisfaction of the officer receiving the supply. In the event of any inconvenience being caused, either through delay in delivery or of stacking the wood, or failure to stack the wood in the places directed, the Department concerned will purchase the same or re-stack that delivered, at the risk of the contractor, from whose account any expense incurred thereby will be deducted, provided that the contractor shall be given 48 hours' notice before purchases are made or the wood re-stacked at his risk.
5. The officer receiving the supply shall have full power to reject any wood which he may consider not in accordance with the contract, notice of which will be given to the contractor in writing, stating the reason. The contractor may, however, claim a survey; but in that case he must, within 48 hours after objection is made, give notice thereof in writing to the officer rejecting the wood.
6. The board of survey will be composed of persons appointed by the Tender Board, and the decision of the board of survey is to be considered as final.
7. If the board of survey shall decide that the supply is not of proper quality, it must be immediately replaced by the contractor; failing which, it will be procured elsewhere, and the extra expense incurred thereby, if any, will be deducted from the contractor's account.
8. Accounts for firewood shall be rendered to the Department receiving the supply immediately upon completion of the order, which must be attached to the account. Payment will be made through the Treasury, Melbourne.
9. In the event of any irregularity on the part of the contractor being repeated, it will be competent for the Government, in case such irregularity should be established to the satisfaction of the Tender Board, to cancel the contract forthwith.
10. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.
11. Under no circumstances will a contractor be permitted to abandon his contract.

The Treasury,
Melbourne, 19th June, 1939.

A. A. DUNSTAN,
Treasurer.

CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated in the schedule, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. Under these contracts firewood may be ordered by Commonwealth Government Departments and head teachers of State schools within the areas prescribed, but it shall be optional on the part of the contractor to supply.

3. All the firewood supplied under these contracts must, with the exception of box blocks and wattle, be split out of large timber, and of the kind or kinds specified in the schedule, and must be dry, perfectly sound, and of good burning quality, and cut into billets of the lengths stated in the schedules, such billets to be not less than four inches nor more than six inches

in any diameter. The long wood to be of the diameters as specified in the respective schedules. Neither burnt wood, heart wood, small branches, nor outside pieces of bark will be received. Box blocks must be the best of their kind, dry, and perfectly sound. If the firewood is obtained from a State forest timber reserve or Crown lands, persons cutting and removing same must be provided with a licence or permit from the Forests' Commission.

4. The orders will be issued by the departments requiring the supplies, and the firewood shall be delivered as may be directed by the officer ordering the supply. Should an order not be complied with within forty-eight hours it will be competent for the department concerned to purchase the firewood at the contractor's risk, and the extra expense (if any) over and above the contract price will be deducted from the contractor's account or from the security money.

5. Melbourne District will include a radius of six miles from the Elizabeth-street (Melbourne) Post Office.

6. The contractor will be bound to place the firewood in stacks for measurement on such ground as may be pointed out. The stacks are to be five feet high, and of the width specified in the schedule, with space between each stack for measuring; and the billets or lengths are all to lie the same way, viz., crossways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack, and to the satisfaction of the officer receiving the supply.

7. The acceptance of the firewood shall be subject to the approval of the officer authorized to take delivery. If after the delivery of the firewood has been taken any deficiency or defect is discovered therein, such firewood may be returned to the contractor. In case of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the firewood so rejected or returned.

8. As soon as the orders shall have been completed the contractor will be required to furnish to the department concerned his account in the prescribed form, with the receipted delivery order attached thereto. Accounts will be payable where the contractor may desire.

9. In the event of a difference of opinion as to the quality between the contractor and the officer receiving the firewood, the same shall be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered as final.

10. If the board shall decide that the wood is not of proper quality it must be immediately replaced by the contractor, failing which it will be procured elsewhere and the extra expense (if any) will be deducted as in condition 4.

11. If from any cause injury would accrue to the public service by waiting for a board of survey, the head of the department or the officer authorized to accept delivery will have the power to reject such wood as is deemed of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must supply firewood of satisfactory quality and description in its stead, failing which supplies will be procured elsewhere, and the extra expense (if any) will be charged as in condition 4.

12. A refusal to execute orders, irregularity in the quality or quantity of the firewood, or delay in delivering or replacing it when required, will subject the contractor to such mulct, not exceeding £50, as the Treasurer of the State for the time being may direct; and the amount may be deducted as in condition 4. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith.

13. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.

14. *Under no circumstances will a contractor be permitted to abandon his contract.* In the event of the contractor failing to carry on the contract the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure, and may be disqualified from tendering or holding any future contract or contracts for a period of twelve months from the date of such disqualification.
