The Game Acts.
**CONDITIONS AND RESTRICTIONS RESPECTING THE
 MARKETING OF SKINS OF OPOSSUMS AND
 LICENSING OF DEALERS.**

PROCLAMATION

By His Excellency the Governor of the State of Victoria and its Dependencies in the Commonwealth of Australia, &c., &c., &c.

I THE Governor of the State of Victoria, in the Commonwealth of Australia, by and with the advice of the Executive Council of the said State, and in pursuance of the provisions of the Game Acts, and all other powers me enabling in that behalf, do hereby revoke the Proclamations made the twenty-fourth day of February, 1931, and the third day of August, 1936, and published in the *Victoria Government Gazette* of the twenty-fifth day of February, 1931, and the fifth day of August, 1936, respectively, regarding the marketing of skins of opossums and licensing of dealers in such skins, and do hereby prescribe as follows (that is to say):—

1. In this Proclamation (if not inconsistent with the context)—

- “Chief Inspector” means the Chief Inspector of Fisheries and Game.
- “Official mark” means the official mark hereinafter referred to or mentioned as being affixed to or branded on any opossum skin to notify that the skin has been passed for sale.
- “Opossum” includes the common opossum the ring-tailed opossum and the short-eared or mountain opossum (whether taken or killed or destroyed in Victoria or elsewhere).
- “Licensed dealer” means a person licensed to carry on the business of dealing in the skins of opossums whether taken or killed or destroyed in Victoria or elsewhere.

2. (a) Application for a licence to deal in the skins of opossums shall be made in accordance with Form “A” in Schedule “A” hereto, provided always that it shall be in the discretion of the Minister to grant or to refuse any such licence.

(b) The fee payable by a licensed dealer upon the issue of a licence hereunder shall be One pound.

(c) The licence to be issued to a licensed dealer shall be in accordance with Form “B” in Schedule “A” hereto, and shall, unless previously revoked, remain in force until the thirty-first day of December in the year of issue and no longer.

(d) Any person carrying on the business of dealing in the skins of opossums shall, if so required by the Chief Inspector, or any assistant to such Chief Inspector, or by any member of the Police Force, produce his licence, and if such person fails to produce his licence when so required, or when afforded reasonable opportunity for so doing, he shall be liable to the penalty prescribed herein for a breach of this Proclamation.

3. No person other than the Chief Inspector, or any officer authorized by him, shall perforate or otherwise stamp or mark any opossum skin in such a way as to suggest that the official mark has been affixed thereto.

4. No person shall cure, treat, tan, or preserve, or prepare for tanning or preservation by any method whatsoever any opossum skin, or place any preserving substance thereon, until the official mark shall have been affixed to such skin.

5. (a) Every licensed dealer shall, upon receiving into his possession any unmarked or unstamped skins of opossums or any skins of opossums taken or killed outside the State of Victoria, submit the same to the Chief Inspector within three days of the date of such receipt, who, on being satisfied that the same have been lawfully obtained, shall make his official mark or stamp on each such skin: Provided that in the case of skins of opossums taken or killed outside Victoria, the Chief Inspector shall not so make his official mark or stamp thereon unless he is satisfied by the production of a certificate from the proper authority duly authorized by or under a statute of the State concerned that the same have been lawfully obtained.

(b) No licensed dealer shall permit or allow any opossum skin which has come into his possession to be taken away or removed out of such possession until the official mark has been affixed thereto.

6. No licensed dealer shall sell, consign, market, or store any opossum skins unless such skins shall have first been marked as aforesaid by the Chief Inspector with the official mark or stamp.

7. Every licensed dealer shall keep a true and faithful record of all his transactions relating to opossum skins, and such record shall be open for inspection at all reasonable times by the Chief Inspector, or, with the authority of the said Chief Inspector, any assistant to such Chief Inspector, or any member of the Police Force. All such records shall be kept in a strongly bound book with consecutively numbered pages, and such book shall be used for no other purpose than for

keeping the aforesaid records. The Chief Inspector or any officer authorized by him may take possession of all or any of such records for inspection and checking purposes.

8. (a) Every store where a licensed dealer stores or intends to store opossum skins shall be registered in the office of the Chief Inspector.

(b) No opossum skins shall be stored in any place other than a registered store, where all such skins shall be stored separately from any other skins.

9. Every licensed dealer shall, on the fifteenth and last days of each month, forward to the Chief Inspector a true and correct statement, in writing, setting out the number of opossum skins he has in his possession on the said day, the number purchased and sold since the previous return, and the names and addresses of the persons from whom such skins were bought or to whom they were sold respectively.

10. Any licensed dealer who buys opossum skins on behalf of any other person shall on the fifteenth and last days of each month forward to the Chief Inspector a statement showing the number of opossum skins so bought, and the names and addresses of the persons on whose behalf such skins were purchased.

11. No person except a licensed dealer shall consign any opossum skins to any place outside the State of Victoria. Every licensed dealer so consigning any such skins shall, at least forty-eight hours prior to the day on which it is proposed that such skins shall leave Victoria, give to the Chief Inspector, in writing, full particulars of the number of opossum skins proposed to be so consigned, particulars as to the method of conveyance, the number of bales or other receptacles in the consignment, the identification marks on such bales or other receptacles, the name of the ship (if any) by which the skins will be carried, and the name and address of the consignee. At the same time the licensed dealer shall produce to the Chief Inspector all invoices relating to the purchase of the opossum skins proposed to be so consigned.

12. The provisions of paragraphs 5, 6, 9 and 10 of this Proclamation shall not apply to the licensed dealers named in Schedule “B” hereto, such persons being hereinafter referred to as “brokers” to whom the provisions set out in the following sub-clauses (a), (b), and (c) shall apply:—

(a) Every broker shall, upon receiving into his possession any skins of opossums taken in Victoria, submit to the Chief Inspector prior to the next following sale a list showing the names and addresses of the owners or consignors thereof together with all relevant authorities issued under section 33 of the *Game Act 1928*: Provided that in the case of skins of opossums taken or killed outside Victoria, a list shall be forwarded showing the names and addresses of the owners or consignors thereof together with a certificate or certificates from the proper authority duly authorized by or under a statute of the State concerned that the same have been lawfully obtained.

(b) No broker shall permit or allow any opossum skin which has come into his possession to be taken away or removed out of his possession until the official mark has been affixed thereto.

(c) Every broker shall, within three days of the sale of any skins of opossums, forward to the Chief Inspector statements in writing showing—

(i) the names and addresses of the consignors of all such skins, the amounts of the gross and net proceeds of the sale in each case, and the amount due to Government revenue, as prescribed in the authority issued under section 33 of the *Game Act 1928*, together with a remittance for the total amount of moneys payable to Government revenue; and

(ii) the names and addresses of all buyers of such skins and the number of skins purchased by each such person.

13. Any person committing a breach of any part of this Proclamation shall be liable for every such offence to a penalty of not less than Two pounds (£2) nor more than Twenty pounds (£20).

14. (a) Any licence granted under this Proclamation may be revoked by the Minister if the holder thereof is convicted of any offence against the Game Acts, or any Proclamation made thereunder, or if the Minister is satisfied that the said licensee is not a fit and proper person to hold such a licence.

(b) Notice of the intention to revoke such a licence shall be given to the licensee by delivering it to him personally or by sending it by post in a prepaid registered letter addressed to him at his last known residence or place of business.

(c) On the expiry of three (3) days from the delivery of such notice or the sending of the registered letter as aforesaid, the licence referred to therein shall thereupon be revoked, and all rights and privileges granted thereby shall cease and determine.

WARRACKNABEAL SEWERAGE AUTHORITY.

BY-LAW NO. 1, RELATING TO CONSENTS, LICENCES, ETC., ALSO LEVELS, DIMENSIONS, CONSTRUCTION, MAINTENANCE, VENTILATION, AND CLEANSING OF SEWERS AND OTHER MATTERS RELATING TO HOUSE CONNEXION WORK.

THE Warracknabeal Sewerage Authority, pursuant to and in exercise and execution of the powers and authorities conferred on it by the Sewerage Districts Acts and of any and every other power or authority in any wise enabling it in that behalf, doth hereby make and prescribe the following By-law, that is to say:—

In the construction of this By-law, unless inconsistent with the context or subject-matter—

- “ Acts ” means the Sewerage Districts Act and any amendment thereof, and any Act incorporated therein, or amendment of such Acts.
- “ Anti-syphonage vent ” (or “ back vent ”) means any vent pipe from an individual trap to the open air, or a main or branch vent pipe having for its purpose the prevention of loss of water seal in the trap.
- “ Authority ” means the Warracknabeal Sewerage Authority.
- “ Bore, ” “ diameter, ” or “ size, ” in reference to any pipe, means the nominal diameter thereof, in accordance with accepted trade practice.
- “ Building ” means any building used as a work place, residence, place of business, place of amusement, or place of human habitation, or for the storage of food intended for human consumption, but does not include outbuildings unless such are used for any of the above purposes.
- “ Disconnector trap ” means a trap for isolating or disconnecting waste pipes from the house drain and soil pipes and providing inlet ventilation to the waste pipe or pipes discharging into it.
- “ Drain ” means any drain used for the drainage of one building only or of premises within the same curtilage and includes any drain for draining any group or block of houses by a combined operation under the order of the Authority.
- “ Educt vent ” means an opening or pipe for the exit of air from and the induction of draught in a soil pipe, waste pipe, or house drain.
- “ Fittings ” mean all apparatus or appliances, together with their necessary appurtenances and connexions, for use in connexion with the plumbing or drainage system of any property, with the exception of fixtures and straight piping.
- “ Fixtures ” means all apparatus or appliances, together with their necessary appurtenances and connexions, which may be attached to the plumbing or drainage system of any property, and which are intended for the collection or retention of any wastes or waste waters for ultimate discharge into the sewerage system.
- “ Housemaids’ slop sink ” means any fixture other than a closet pan or urinal used for the discharge of soil waters and provided with a flushing apparatus in accordance with Division 33 of this By-law.
- “ Induct vent ” means an opening or pipe for the admission of air to a soil pipe, waste pipe, or house drain.
- “ Interceptor trap ” (or “ boundary trap ”) means a trap for preventing the passage of air or gases from the sewer to the house drain, and situated on the house drain at some point between the sewer and the lowest inlet to the house drain.
- “ Occupier ” means the person for the time being in actual or constructive occupation of the premises.
- “ Owner ” includes the person for the time being who receives or is entitled to receive the rent of the lands or premises in connexion with which the word is used, whether on his own account or as agent of or as trustee for any other person, or who if such lands or premises were let to a tenant at a rack rent would be entitled to receive the rack rent from the occupier thereof.
- “ Premises ” includes any house and any building whatsoever and any part of any house or building and any garden stable yard or other offices used together or in connexion with any house or building and every part thereof.
- “ Responsible officer ” means any officer authorized by the Authority to act as its representative in the particular matter to which the reference is made.
- “ Sewer ” means any sewer or underground gutter or channel which is not a drain within the meaning of the Acts and any drain or portion of a drain laid between a sewer and the boundary line of any allotment or curtilage.
- “ Sewerage District ” means any portion of the Shire of Warracknabeal to which the Acts apply and which

under the Acts is proclaimed the sewerage district of the Authority and includes any area which is added to and forms part of such sewerage district.

- “ Sewered property ” means as well as any sewered land or premises any land or premises which have been declared by a general notice given by the Authority under the Acts to be deemed and taken to be a sewered property within the meaning of the Acts.
- “ Sewerage system ” includes all sewers, fittings, fixtures, appliances, plant, machinery, and any other sewerage works vested in the Authority.
- “ Soil pipe ” means any pipe which conveys the discharge from water closets, housemaids’ slop sinks, or urinals to the house drain.
- “ Stack ” means any vertical line of soil, waste or vent piping with its offsets, if any.
- “ Trap ” means any fitting designed to retain a quantity of water to arrest the passage of air or gases through such fitting.
- “ Waste pipe ” means any pipe which conveys the discharge from any fixture (except water closets, housemaids’ slop sinks, or urinals), to a disconnector trap.
- “ Water seal ” or “ trap seal ” means the vertical distance between the dip and the crown weir of a trap.

PART 1.

GENERAL REGULATIONS.

Division 1.—Applications for Consents, &c.

Section 1. Application for the Authority’s consent to connect with the sewerage system, or to do plumbing and drainage work connected therewith, must be made in writing by the owner of the property to be so connected, or by his authorized agent.

Section 2. Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be in the form prescribed by the Authority. For any wilful misrepresentation in such application the owner or authorized agent as aforesaid shall be guilty of an offence against this By-law. No consent given by the Authority shall be deemed to authorize anything not stated in the application, nor to confer or grant the right to lay a drain through any land intervening between the sewer of the Authority and the land proposed to be connected, and every owner or agent applying for the Authority’s consent shall satisfy himself as to his legal right to drain through such intervening land, as he shall be solely responsible for any trespass or damage thereon or thereto.

Section 3. Consents to make connexions with the sewerage system will be issued only when the plumbing and draining in the property to be connected is planned to be made in accordance with the rules for plumbing and draining hereinafter prescribed, and after such plan has been inspected and approved of by the responsible officer appointed by the Authority for the purpose, or, in the case of new buildings, when a proper plan of the plumbing and of the drainage of the building into the branch, of which the Authority shall have fixed the position, has been approved of in writing by the Authority. All connexions with drains or sewers, and all plumbing and drainage connexions therewith, shall be made under the direction of the responsible officer of the Authority. Consent will not be given for the performance of any such work except upon condition that no person shall be engaged or employed as a workman in the actual performance of any plumbing or drainage work unless he be the holder of a licence issued by the Authority to do such work. Any person who shall at any time or at any place make up, form, affix, alter, or repair any fitting, pipe, bend, trap, or other thing connected or intended to be connected with the Authority’s sewerage system, unless he be the holder of a licence from the Authority authorizing him to do such work, shall be liable to a penalty not exceeding Ten pounds. Any person, whether licensed as aforesaid or not, who shall alter, remove, or in any way interfere with any drain, fitting, pipe, bend, trap, or other thing connected with the Authority’s sewerage system, unless the Authority’s written consent has been previously issued to do such work at the premises concerned, shall be liable to a penalty not exceeding Ten pounds.

Section 4. Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of or from the Authority is necessary, whether specified in writing or otherwise, with regard to any act, matter, or thing mentioned in the By-law, the same may be given by and under the hand of the chairman of the Authority, or of the responsible officer, personally or through an inspecting officer appointed under him, who severally shall be competent to give the same and authorized on behalf of the Authority, to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given.

Section 5. In any case in which the Authority shall be of the opinion that a compliance with any of the provisions of this By-law would in any particular case be vexatious or be

needless in the interest of public health, it shall be lawful for the Authority, by resolution, to dispense with or forbid such compliance in whole or in part as it shall think fit, or to authorize or direct such a modification or alteration of such provisions as shall, in its opinion, most nearly adapt the principle of those provisions to the particular case. It shall be unlawful to comply with any provision, or part of any provision, of which compliance shall have been forbidden, or to act contrary to or otherwise than as directed by such modification or alteration.

Division 2.—Penalties, Recovery of Cost of Work, &c.

Section 6. Where anything is by this By-law directed to be done, or forbidden to be done, or where any authority is given to the Authority or any of its officers to direct or to forbid anything to be done, and such act so directed to be done remains undone, or such act so forbidden to be done is done, then, and in every such case, the person making default as to the said direction or prohibition respectively shall be guilty of an offence against this By-law.

Section 7. Every person guilty of an offence against this By-law, not otherwise specially provided for by or under the authority hereof, shall be liable for every such offence, besides any costs or expenses which may be incurred in the taking of proceedings against such person guilty of such offence, as well as any costs or expenses which may be incurred in remedying such default, as particularly provided for in this By-law or the Acts, to a penalty not exceeding Ten pounds, and to a further penalty of One pound for each day during which such offence is continued by such person after notice of the offence shall have been given by the Authority to him; and such penalty shall be recoverable, notwithstanding that the Authority may not have chosen to exercise any power given to it by the Acts or by this By-law to remedy such default.

Division 3.—Fees for Plans, Inspections, and Alterations.

Section 8. Copies of the Authority's plans, and for designs of individual house drainage, will be furnished by the Authority upon application on the prescribed form and payment for the same as follows:—

(a) Where the Authority prepares designs and carries out work—

(i) In all cases in which the Authority prepares the plan of drainage, and has the work carried out for the owner, a charge equal to Ten per centum of the capital cost of the work shall be paid to the Authority for the preparation of the design and specification, the letting of the contract, and the supervising of details in connexion with the work.

(ii) For making and/or examining any alterations or additions to a plan previously issued or approved of by the Authority a minimum charge of Five shillings shall be made for each fixture or drain altered or added.

(b) Where the Authority prepares designs and the owner carries out the work—

(i) For a plan of drainage, including surveys, &c., for every house, shop, factory, or other building a charge of Twenty shillings plus Two shillings and six pence for each fixture shall be made.

(ii) For making and/or examining any alterations or additions to a plan previously issued or approved by the Authority a minimum charge of Five shillings shall be made for each fixture or drain altered or added.

(iii) For the inspection and testing of house connexions a further fee of Twenty shillings, plus Two shillings and six pence for each fixture.

(iv) The Authority, through its duly appointed officers, may, during the construction of the work, order the owner to carry out such additions and/or amendments as may be necessary for the satisfactory completion of the work. The house connexion shall not be passed until the installation, together with any amendments and/or additions which may be ordered have been completed to the satisfaction of the Authority.

(c) Where the owner designs and carries out the work—

(i) For the supply of a block plan a minimum charge of Two shillings and six pence shall be made.

(ii) The owner shall submit for examination a properly-drawn design and a typewritten specification. The design and specification shall be supplied to the Authority in

triplicate. The work shall not proceed until the owner's design and specification have been approved by the Authority.

(iii) For examining the owner's plan of design and specification a charge of Two shillings and six pence for each fitting shall be made, with a minimum charge of Ten shillings.

(iv) For examining any alterations or additions to a plan previously issued or approved of by the Authority a minimum charge of Two shillings and six pence shall be made for each fixture or drain altered or added.

(v) For the inspection and testing of house connexions a further fee of Twenty shillings, plus Two shillings and six pence for each fixture.

(vi) For the final inspection by the Authority's Engineer, and charting work on the Authority's plans, a charge of Ten shillings shall be made, plus Five shillings for each additional inspection necessary owing to faulty work.

(vii) The Authority, through its duly appointed officers, may, during the construction of the work, order the owner to carry such additions and/or amendments as may be necessary for the satisfactory completion of the work. The house connexion shall not be passed until the installation, together with any amendments and/or additions, which may be ordered, have been completed to the satisfaction of the Authority.

Division 4.—Maintenance and Defective Work.

Section 9.—Any drain pipe, soil pipe, trap, water closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with this By-law, or which shall in the opinion of the Authority be or become bad or of defective quality, shall, upon notice in writing from the Authority to the owner or occupier of the property, be by such owner or occupier removed or repaired in the manner determined and within the time fixed by the Authority; and in case such owner or occupier fails to comply with the requirements of the notice, he shall be liable to prosecution and penalty for an offence against the Acts, or the Authority will, if it thinks fit, remove or repair the said defective fitting and charge such owner or occupier of the premises with the cost so incurred, and will proceed for recovery of the same in a manner provided by the said Acts.

Division 5.—Licences.

Section 10. No person shall tender for or enter into any contract for or undertake any plumbing work relating to sewerage within the Warracknabeal Sewerage District or connected or to be connected with the sewers of the Authority who does not hold either a master plumber's or a working plumber's licence issued by the Authority.

Section 11. No person shall tender for or enter into any contract for or undertake any draining work relating to sewerage within the Warracknabeal Sewerage District, or connected or to be connected to the sewers of the Authority who does not hold either a master plumber's or working plumber's licence, or a drainer's licence issued by the Authority.

Section 12. No person other than a holder of a working plumber's licence issued by the Authority shall actually do or perform any such plumbing work.

Section 13. No person other than the holder of a working plumber's or a drainer's licence issued by the Authority shall actually do or perform any such draining work.

Section 14. At the discretion of the Authority a master plumber's licence may be granted to any master plumber or master builder, building contractor, or other person, firm, or corporation who is approved by the Authority, but such licence will only entitle the holder to tender for or enter into contracts for or otherwise undertake plumbing and drainage work under these By-laws, but shall not entitle the holder to personally do any actual plumbing or drainage work under these By-laws.

Section 15. Holders of master plumber's licences not themselves licensed plumbers or licensed drainers must continuously employ on all and every plumbing work carried out by them under these By-laws licensed plumbers, and on all and every drainage work, licensed drainers.

Section 16. Working plumber's licences will be issued at the discretion of the Authority to persons who hold and produce to the Authority a certificate of competency issued by the Sanitary Plumber's Examination Board of Victoria. Such licence will permit the holder to do practical work as a working plumber upon all fittings, appliances, and apparatus connected or to be connected with the sewers of the Authority, subject to and in accordance with the Authority's By-laws and Regulations.

Section 17. Drainer's licences will be issued to any person who shall satisfy the Authority by passing an examination by examiners appointed by them or in such other manner as the Authority from time to time or in any particular case may direct that he has a thorough knowledge of the following subjects:—

Plans.—The reading of plans and the meaning of scales and of elevation, plan, and section drawing.

Levelling.—The use of the straight-edge, spirit-level, and boning rods.

Excavation, Timbering, and Refilling.—The use of tools for excavation, the protection of trenches by timbering, the treatment of different soils, tunnelling, and tunnel timbering, precautions near buildings, and manners of refilling of trenches and tunnels.

Drain-laying.—The preparation of the bottom of trenches, the laying and jointing of stone-ware, cement, concrete, and cast-iron pipes, cement, bitumen, lead, and self-fitting joints, laying of drains under houses and in soft ground, and the depth of drains below surface.

Drainage Details.—Junctions to sewers, diminishing of sizes of pipes, yard gullies, grease and other traps, inspection openings, and cast-iron drainage details.

Drainage Work.—Knowledge of the provisions of this By-law and of the Acts, insofar as same relate to the work and duties of drainers in regard to the construction, maintenance, and protection of the sewerage system and the construction and use of drains and drainage traps.

Candidates for drainer's licences shall give notice in writing to the Authority of their intention to submit themselves to examination, and this examination shall be at such a time and at such place as shall be appointed by the Authority. Candidates must provide themselves with their own tools and materials, and pay a fee of 10s. for each examination.

Section 18. The conditions upon which all master plumber's licences, working plumber's licences, and drainer's licences will be issued are—

(1) That every licence will be subject to suspension or cancellation at the will of the Authority, and that all such licences or renewals thereof will expire on the 30th day of September next following.

(2) That every holder of a licence from the Authority who shall have received the consent of the Authority to execute any works in connexion with sewerage or drainage, or who shall (where such consent of the Authority is not required before the execution of any such works) have notified the Authority of his intention to carry out such works—

- (a) shall obtain permission when necessary for the execution of such works on, over, or through any private property, or any streets, roads, parks, reserves or other public places or properties; and
- (b) shall pay any fees demanded by the Council or Authority for opening any street, road, or thoroughfare or otherwise in connexion with the work; and
- (c) shall execute such works in accordance with the provisions of the Acts and of the By-laws made thereunder, and of any special directions or orders given or issued by the Authority or proper officer; and
- (d) shall use materials of good quality only and free from defects; and
- (e) shall employ only competent operatives or assistants; and
- (f) shall execute such works in a thorough and tradesmanlike manner to the satisfaction of the Authority as expeditiously as practicable, and leave site clean and undefaced; and
- (g) shall in the execution of such works take such proper and necessary precautions that no accident or damage or unnecessary inconvenience may be directly or indirectly occasioned thereby; and
- (h) shall restore any part of any street, road, or thoroughfare interfered with by the work to the satisfaction of the municipal authority having control thereof upon the completion of the work; and
- (i) shall restore any other property interfered with by the work to the satisfaction of the responsible officer of the Authority; and
- (j) shall in all cases notify the proper officer immediately upon completion of any work in hand, promptly amend any defects therein, and again at once notify the said officer, and subsequently take steps forthwith to secure the certificate of satisfactory completion and give same to owner; and
- (k) shall, when so directed by the Authority, make good at his own expense any defect found within three months of the date of completion of any such work which, in the opinion of the Authority, is due to bad workmanship or defective material.

Section 19. Prior to the issue of any licence the person to whom the same is to be issued must sign a register containing a declaration that he accepts such licence subject to and in conformity with the conditions of such licence and of this By-law and that he will conform to and comply therewith, and shall pay to the Authority the fee named hereunder:—

	s.	d.
For every master plumber's licence	10	0
For every working plumber's licence	7	6
For every drainer's licence	5	0
For the renewal of any licence	2	6

Division 6.—New Buildings, Additions, &c.

Section 20. Every person who shall intend to erect a building on any property within the Sewerage District, or to rebuild or to make any alterations or additions to any such buildings shall, before commencing such work, give to the Authority seven days' notice in writing of such intention; and such notice shall be accompanied by plans and sections of such intended buildings, alterations, or additions, showing their positions, dimensions, depths, and levels of foundations, cellars, or basements, all appurtenant walls and fences, the intended lines of drainage, and the boundary of the land, which plans, &c., shall become the property of the Authority.

Division 7.—General.

Section 21. Any work or thing in respect of or in connexion with sewerage under the Act that is not specifically mentioned in this By-law shall be performed in accordance with the directions of the Authority.

PART 2.

GENERAL REGULATIONS.

Division 8.—Use of Sewers and Drains—Prohibition of Certain Discharges.

Section 22. *Use of Sewers and Drains.*—The owner and the occupier of any sewerage property shall discharge into the sewerage system all faecal matter, urine, household slops and household liquid refuse from such property, and such other polluted water from stables, washing areas, manure bins, basements, cellars, and roofed yards, and such trade or manufacturing liquid refuse as the Authority may authorize or require, subject in each and every case to such conditions as it may impose.

Section 23. *Prohibited Discharges.*—The deposition or discharge of any of the following substances into any house drain is prohibited:—

- (a) Any animal matter other than is specified in section 22, fleasings, wool, hair, dead animal, grease, dust, ashes, rubbish, garbage, offal, vegetable and fruit or their parings, rags, oil, silt, mud, sand, gravel, or like substances, or any other substance which is, in the opinion of the Authority or its responsible officers, liable to be injurious to any part of the sewerage system or to the employees of the Authority engaged in the operation or maintenance of same.
- (b) Any petrol or other inflammable or explosive substance, whether solid, liquid, or gaseous.
- (c) Any rain, roof, surface, or flood waters.
- (d) The contents of any night-soil cart, cesspool, or privy.
- (e) Any waste water, liquid, trade waste, or other substance which has not been neutralized to the approval of the responsible officer of the Authority, or which is above the temperature of 100 deg. Fahrenheit, or such lower temperature as may be prescribed by the Authority, having regard to the special circumstances of the case.
- (f) Any liquid which contains such percentage of common salt or any other mineral salt, acid, or gas, as is, in the opinion of the responsible officer of the Authority, injurious to, or liable to form compounds injurious to, any part of the sewerage system or to employees of the Authority engaged in the operation or maintenance of same.

Division 9.—Trade Wastes.

Section 24.—*Conditions of Discharge.*—No person shall discharge any trade or manufacturing liquid, refuse, or waste into any sewer, unless and until the following conditions are complied with:—

- (a) Application for permission to discharge any such trade wastes shall be made in writing and accompanied by plans and specifications of the work to be done and of the apparatus to be used, and shall include such details concerning the nature of the waste and the quantity and rates of discharge of the proposed effluent as considered necessary by the responsible officer of the Authority.
- (b) The permission of the Authority in writing shall be obtained and an agreement containing a covenant to comply with the By-law and with any further stipulations required by the Authority, shall be executed.
- (c) The volume of liquid refuse or waste discharged shall if ordered, be measured and determined by meter or by some other approved means of measurement. The

maximum aggregate daily quantity of effluent which may pass from any trade premises into a sewer, the maximum permissible rate of such discharge, the size and capacity of the drain for conveying such effluent from the trade premises to the sewer, and the hours during which such flow will be permitted, shall be determined by the Authority.

- (d) All such liquid refuse or waste shall be passed through such settling, screening, and/or neutralizing chambers and/or such other appliances and/or otherwise treated as ordered or approved by the Authority to ensure that the resulting effluents shall comply with the conditions of the agreement.
- (e) Every settling, screening, neutralizing, or other chamber, appliance, or apparatus for the treatment of trade wastes in accordance with this By-law shall be cleansed and maintained by the occupier at his own expense and at such intervals as may be considered necessary by the Authority or its responsible officer to ensure the efficient operation of such chamber, appliance, or apparatus, and in no case shall such chamber, appliance, or apparatus be altered without the approval in writing of the Authority first obtained.

Division 10.—Sub-soil Water.

Section 25. The discharge of sub-soil water into sewers shall be prohibited.

Division 11.—Inspection Tests.

Section 26. *Notice.*—The owner or his authorized agent, or the plumber, drafter, or contractor, shall give at least forty-eight hours notice to the Authority, in writing, of his intention to commence work and of work ready for inspection. All work shall be left uncovered and accessible for examination until inspected and approved. Inspection shall be made within twenty-four hours of the receipt of such notification except when the notification is received on a Saturday, when seventy-two hours shall be allowed.

The contractor carrying out any work shall, within seven days of the completion of such work, file in the office of the Authority, on forms furnished for this purpose, a correct statement of the work done and the cost thereof. Such statement shall be countersigned by the responsible officer of the Authority, and a certificate embodying such statement shall be forwarded to the contractor.

Section 27. *Inspection.*—All drains, wastes, fittings, joints, fixtures, &c., will be inspected by the responsible officer of the Authority to ensure compliance with the By-law and approved plan.

Section 28. *Tests.*—Drains, whether laid by the Authority's workmen or others, must be thoroughly tested in every case before being passed by the Authority's officers. The responsible officer of the Authority may require the application of the water or smoke test, or such other tests as he may order or approve.

Section 29. *Water Test.*—The water test may be applied to the drainage and/or plumbing systems and their fittings in their entirety or in sections. It shall be applied by hermetically sealing all openings below the top of the section to be tested. The system shall then be filled with water to a height of 6 feet above the highest point of the section, or, if considered necessary, to such additional height as the responsible officer may order, and every joint carefully examined for leaks.

Section 30. *Smoke Test.*—The smoke test shall be applied by hermetically sealing all openings into the section to be tested, and forcing into the system thick smoke to a pressure equivalent to 1 inch of water, by means of a smoke test apparatus. Every joint shall then be carefully examined for leaks.

Section 31. *Equipment, &c.*—The equipment, material, power, and labour necessary for the inspection and tests shall be furnished by the contractor, plumber, or drainer.

Section 32. *Defective Work.*—Any drain, pipe, fixture, fitting, &c., which is laid, used, or constructed otherwise than in accordance with this By-law or with the approved plans, or which, in the opinion of the responsible officer of the Authority, is or has become bad or of defective quality or condition, shall, upon notice, in writing to the owner or occupier of the property, or his authorized agent, be removed and/or repaired by such owner or occupier in the manner determined, and within the time fixed by the Authority. In case the owner or occupier fails to comply with the requirements of that notice he shall be guilty of an offence against this By-law, and the Authority may, if it so think fit, remove and/or repair the defective drain, pipe, fixture, fitting, &c., and charge the said owner or occupier with the cost so incurred, and may proceed for the recovery of the said cost in the manner provided.

Section 33. *Maintenance.*—Every person holding a licence from the Authority who shall execute any work in connexion with sewerage drainage and/or sanitary plumbing shall, when so directed by the Authority, make good at his own expense any defect found within three months of date of completion of any such work due, in the opinion of the Authority, to bad workmanship or defective material.

Division 12.—Materials and Workmanship.

Section 34. *Materials.*—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be of the best of their respective kinds, sound and free from defects, and shall comply with such Australian standard specifications as apply and are accepted by the Authority, otherwise to be approved by the Authority.

Section 35. *Testing.*—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be submitted for examination and/or test, and shall not be placed in position until passed and stamped by the Authority. Such testing of materials shall be paid for by the person submitting same, whether passed or rejected, and shall be done at such time and place, and at such rates, as may from time to time be fixed by the Authority.

Section 36. *Workmanship.*—All work shall be executed in a thorough and workmanlike manner, and to the satisfaction of the Authority.

Section 37. *Precautions.*—Adequate precautions shall be adopted by the person carrying out the work to prevent injury to workmen, property, or public, and the Authority will accept no responsibility for claims for injury arising from the inadequacy of such precautions.

Section 38. *Concrete.*—Concrete, unless otherwise ordered, shall consist of one part Portland cement, two parts clean sharp sand, and four parts hard metal, shingle or gravel not exceeding $\frac{1}{2}$ -in. gauge, and shall be thoroughly mixed with clean water to such consistency as ordered or approved by the responsible officer of the Authority.

Section 39. *Cement Mortar.*—Cement mortar, unless otherwise ordered, shall consist of one part Portland cement and two parts clean sharp sand, properly mixed with an approved proportion of clean water.

PART 3.

DRAINAGE.

Division 13.—Drainage, General.

Section 40. (1) Every premises shall be separately drained unless a combined drain shall have been ordered or approved by the Authority. Owners desiring to have the drainage of their properties combined must sign a request for a combined drain, and obtain the approval of the Authority. In any case in which it appears to the Authority that any properties may be drained more advantageously in combination than separately the Authority may order that those properties be drained by a combined operation.

(2) In any case where a combined drain serves two or more properties the Authority, with the consent of the owners of the properties served by such combined drain, may take over such combined drain, and thereafter such combined drain shall be and remain a sewer of the Authority.

(3) In every case of a combined drain the Authority will determine, as between the respective owners and occupiers of the properties drained thereby, the proportions in which the cost of such combined drain shall be paid. In every case of the occurrence of an obstruction in a combined drain the Authority will also determine by whom and in what proportion the cost of removing such obstruction shall be paid.

(4) Owners and occupiers of premises are responsible for clearing stoppages in drains within their premises, or between their premises and the sewers into which the branches lead, but must employ only licensed plumbers or drainers to clear same.

(5) Before a licensed plumber or drainer commences to clear a stoppage in a drain he must notify the Authority in writing of the time when he intends to clear the stoppage, so that the Authority's proper officer may attend and pass the work in accordance with the provisions of the Act.

Section 41. *Size of Drains.*—Every drain shall be of adequate size for the drainage of the property to be served, in accordance with the requirements of section 84, with a minimum diameter of 4 inches.

Section 42. *Materials.*—All drain pipes, bends, junctions, and fittings used shall be of glazed stoneware, concrete, cast-iron, or other approved material, provided that the responsible officer of the Authority may prohibit the use of any of the above-mentioned where the circumstances or conditions are considered unfavorable.

Section 43. *Cast-iron Pipes.*—Cast-iron drainage pipes and their fittings shall comply with the Australian standard specification, or, in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameters.

Section 44. *Interceptor Traps.*—Where directed by the Authority, an interceptor trap shall be fixed in the drain laid from any property to the sewer. Such trap shall be fixed as near as practicable to the boundary, and wherever practicable shall be within the boundaries of the property. The interceptor trap shall be provided with an inspection cap on the sewer side of the trap. If ordered, an approved manhole shall be provided for the trap.

Section 45. *Inspection Chambers*.—All drains shall, wherever considered necessary by the Authority, join in an inspection chamber at least 3 feet long by 2 feet wide, fitted with a closed cover. The portions of the drains crossing the floor of the inspection chamber shall be connected either in a straight line or by curved junctions in the floor of the chamber.

Section 46. *Inspection Openings*.—Every line of drain shall be provided with an inspection opening at each junction not provided with an inspection chamber, at each change of direction, at each fixture, and in no case at greater than 30 feet intervals, and in paved areas these shall, if considered necessary by the responsible officer of the Authority, be brought to the surface and furnished with approved airtight covers. The area of an inspection opening shall be not less than the area of the drain.

Section 47. *Drain Openings Not in Use*.—The ends of all house drains not immediately connected with the plumbing fixtures and all inspection openings shall be securely closed with watertight imperishable materials.

Section 48. *Replacing or Inserting Pipes*.—Where it becomes necessary to remove a pipe to clear a stoppage or to insert a pipe or branch in an existing drain, such pipe so removed shall be replaced by an inspection pipe or inspection junction of the same length by whichever one of the following methods is approved by the Authority or its proper officer:—

- (a) A length of not less than three pipes may be removed, the centre pipe replaced by an inspection pipe, and the pipes dropped back into place without springing or cutting. Junctions in existing metal pipes shall not be made unless an approved closure pipe is used in each case. Springing pipes into position shall not be resorted to or allowed.
- (b) An approved split pipe with double collar surrounded with concrete 3 inches thick may be used.
- (c) The top half of the socket of the new pipe and of the existing downstream pipe may be removed, but the bottom half shall always be left intact and the joints surrounded with concrete not less than 3 inches thick.

Division 14.—Basement and Cellar Drainage.

Section 49. *Fixtures*.—No water-closet, urinal, and/or other fixture shall be placed in any cellar or basement, or on any floor below ground level, unless by consent of the Authority, and then only when, in the opinion of the Authority, other provision cannot be made. The owner shall submit such plans and/or other information as the Authority may require, and shall undertake in writing to accept all risk of damage that may occur. If satisfied that the ventilation and lighting provided are in accordance with section 151 or 152 of these By-laws, and all other conditions have been complied with, the Authority may give its consent; provided always that such consent may be revoked by the Authority at any time, and that upon 14 days' notice of revocation such fixture shall be abolished by the owner.

Section 50.—*Risk of Back Flow*.—Where such cellar, basement, or floor below ground level is at such a level as may, in the opinion of the Authority, involve risk of back flow in the event of the sewer becoming overcharged, the sewage from all fixtures therein shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered and discharged into the sewer as and where directed.

Section 51. *Seepage Drains*.—In no case shall seepage drains from cellars, basements, or any floor below ground level be discharged into a sewer without the consent of the Authority. Where such discharge is permitted by the Authority the seepage shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered, and discharged into the sewer as and where directed.

Division 15.—Polluted Areas.

Section 52. *Connexion*.—The Authority may, if it thinks fit, authorize or require that any of the following places:—namely, stables, cow-sheds, dairies, market places, areas for washing vehicles, and any other polluted place, be connected with the sewers, subject to such conditions as the Authority may impose.

Section 53. *Conditions Governing Connexion*.—No such connexion shall be made unless the following conditions have been complied with:—

- (a) The place to be connected shall, if required, be so roofed as to prevent the entry of rain water from it to the sewers, and in no case shall rain water be permitted to discharge on to such place from adjoining surfaces.
- (b) The place to be connected shall be paved with approved materials, and graded to the satisfaction of the responsible officer of the Authority.
- (c) The drain from any such place shall be provided with an approved silt trap with a removable grating and connected with the drain above the interceptor trap where such is used.

Division 16.—Pipe Trenches.

Section 54. The trench for the house drain from any property shall be so dug as to meet the Authority's sewer at the position provided or to be provided for the connexion.

The material from the trench shall be so placed as to cause the least possible obstruction and inconvenience to the public.

Proper barriers and lights must be maintained where necessary to guard against accident during the progress of the work.

In refilling the trench selected refilling shall first be deposited around and over the pipe to a depth of 12 inches and carefully consolidated, after which the remainder of the trench shall be filled in layers and rammed or flooded, as ordered or approved.

No stone shall be used in refilling until earth or gravel has been placed over the pipe to a depth of 1 foot, or more if directed.

On no account shall any water, sand, earth, &c., be allowed to enter the sewer during the progress of the work.

On completion of refilling the surface shall be restored as nearly as possible to the same condition as it was in before operations were commenced, unless the owner in writing otherwise requires.

Division 17.—Laying Drains, &c.

Section 55. *Position and Line*.—Every drain and every fitting, &c., connected therewith shall be laid and fixed where directed by the responsible officer of the Authority. As far as possible all drains shall be laid in straight lines; where changes of direction occur they shall be made in manholes, or by a suitably curved pipe with an inspection opening on each straight pipe next adjoining the curve.

Section 56. *Oblique Junctions*.—Where any drain joins another drain the junction shall be made obliquely at an approved angle with the direction of flow of such drain. Right-angled junctions shall not be made.

Section 57. *Connexion to Sewer*.—The position of the Authority's connexion to any premises shall be located prior to the commencement of any drain excavation. The disc stopper at the point of connexion to the sewer shall be carefully removed so as not to injure the socket or allow any debris to enter the sewer.

The first length of the drain at the branch shall be an inspection opening.

Section 58. *Gradients*.—All drains shall be laid on an even grade, and, except by special permission in writing, from the Authority, such gradients shall in no case be less than the following minimum permissible gradients:—

4-in. diameter	1 in 40
6-in. diameter	1 in 60

In cases where the grades of 4-in. and 6-in. drains are steeper than 1 in 10 and 1 in 15, respectively, concrete stops shall be placed as and where directed by the responsible officer of the Authority.

Section 59. *Depth of drains*.—Drains of stoneware or concrete pipe, unless bedded in and encased in concrete of not less than 3 inches thickness over any part of the drain, shall be laid at a depth to the socket of the pipe of not less than the following:—

- (a) In public thoroughfares, rights-of-way, or other open spaces subject to vehicular traffic—2 ft.
- (b) In private property not subject to vehicular traffic—1 foot.

No person shall alter the surface over any drain so as to deprive it of the minimum depth of cover specified by the preceding paragraph, unless approved measures are adopted to protect the drain.

Section 60. *Laying Drains*.—All pipes shall be laid to such lines and grades as may be shown on the plans or directed, and, except where otherwise ordered, holes shall be cut in the bottom of the pipe trench to receive the sockets of the pipes, and all the pipes shall be carefully bedded with the barrel on the solid ground.

In the case of rock-bottomed trench, or where directed, the pipes shall be bedded up to the horizontal diameter upon not less than 2 inches thickness of approved sand or other approved material measured from the barrel of the pipe.

In water-charged ground, or where the foundation is bad, or where directed, the drain shall be formed of cast-iron pipes; or, if of stoneware or concrete pipes, they shall be bedded on and encased in concrete as ordered, and, if ordered, supported upon approved timber foundations as directed.

Drops or bends in vertically-inclined drains shall have a concrete support placed under and around as directed.

Division 18.—Drains Under Buildings.

Section 61. Every drain shall, as far as practicable, be so constructed as not to pass under any building. Where a drain does pass under a building it shall, if practicable, be laid in a direct line for the whole distance beneath such building, and shall have approved means of access for rodding outside the

walls of the building, and also, if directed, beneath the building. The pipes used shall be of stoneware or concrete, surrounded by not less than 4 inches of concrete or 3 inches of cement mortar, or of cast-iron.

In any case in which pipes pass through or under walls, approved provision shall be made to prevent injury to the pipes by settlement, and, in outer walls, to prevent the ingress of vermin.

Division 19.—Joints, Drainage.

Section 62. *Stoneware and Cement Pipes.*—Joints of stoneware and cement pipes shall be filled in solidly with cement mortar neatly splayed off, or with other approved material. After each joint is made the interior of the joint shall be wiped clear of surplus mortar before the next pipe is laid.

Section 63. *Cast-iron Pipes.*—All joints in cast-iron pipes must be stemmed with approved gaskets and so filled and caulked with lead or other approved material as to make them gas and water tight.

All connexions between stoneware or concrete pipes and cast-iron pipes shall be made as for joints in stoneware or concrete pipes.

Division 20.—Drainage Ventilation.

Section 64. *Vents on Main House Drain.*—The main drain shall be ventilated at its upper end by a pipe ventilator erected vertically, and such ventilator may be a soil pipe.

If the drain is provided with an interceptor trap there shall be in addition a ventilator connected to the interceptor trap shaft.

In such cases there shall, wherever practicable, be a difference in height of not less than 6 feet between the tops of the vents at the upper and lower ends of the drains respectively.

Section 65. *Vents on Branch Drains.*—Branch drains need not be vented if the drainage traps are within 20 feet from the main house drain, measured along the line of pipes, including the drop, if any, from the centre line of the main drain to the centre of the outlet side of the water seal of the drainage trap, unless otherwise ordered by the Authority, in which case they must be vented as directed.

Section 66. *Height of Vents.*—Every vent pipe extending upwards from a soil or drain pipe shall be carried not less than 6 feet higher than any window or door within a distance of 30 feet thereof, and in any case at least 18 feet above ground level and 6 feet above the level of the eaves or coping, or to such additional height as may be necessary to prevent effectually the escape of foul air into any building within the vicinity.

Where the vent pipe extends into a gable of the building it shall further be carried at least 2 feet above the point of intersection with the roof.

Such pipes shall, where necessary, be provided with sufficient clips or stays to support them effectively.

Section 67. *Chimneys.*—No chimney shall be used as a ventilator to any drain, soil, or waste pipe.

Section 68. *Vents Near Chimneys.*—Vents must, as far as possible, be kept away from chimneys and ventilating air shafts. Where a ventilator pipe terminates 6 feet or more from a chimney opening or ventilating air shaft, the requirements of section 66 shall apply, but where the distance is less than 6 feet the vent pipe shall, unless otherwise ordered, terminate not less than 2 feet below the top of such chimney or air shaft.

Section 69. *Vents Adjoining High Buildings.*—In any case in which a building is erected next to a previously existing building of less elevation, and any windows of the new building are located within 30 feet of any existing vent stack on the lower building, the owner of such new building shall defray the cost of or shall himself make such alterations to the vents of the previously existing building as necessary to conform with section 66.

The owner of the lower or existing building shall make such alterations upon the receipt of money, or security therefor sufficient for the purpose, from the owner of the new or higher building, or shall permit at the election of the owner of the new or higher building, the making of such alteration by the owner of such new or higher building.

Section 70. *Size of Drainage Vents.*—Drainage vent pipes shall, unless otherwise ordered, be of not less than 4 inches diameter in the case of educt vents and not less than 3 inches diameter in the case of induct vents, with the provision that where more than one educt vent is provided the vent on the longest line of drain shall be of not less than 4 inches diameter and all others of not less than 3 inches diameter; but in no case shall a drainage vent be of smaller diameter than necessary to comply with the requirements of section 85.

Unless otherwise ordered or approved every such vent pipe shall be without return bend and provided with basket end or educt or induct cowls as directed.

Section 71. *Materials, &c.*—Drainage vent pipes situated wholly outside of buildings shall be of cast-iron, galvanized wrought iron, double galvanized sheet iron, or other approved material above ground, and of stoneware or concrete beneath the surface of the ground. Galvanized sheet-iron vent pipes shall not be less gauge than 20 for 3-in. and 4-in. diameter pipes and 18 for 6-in. pipes, and where ordered the first 6 feet above ground shall be of cast-iron or other approved material. Drainage vent pipes inside a building shall, unless otherwise approved, be of cast-iron or of galvanized wrought iron. The circumferential joints of galvanized sheet iron vent pipes shall be riveted and soldered.

Section 72. *Gratings.*—Openings for ventilation shall be effectively protected by approved gratings of ample area. The aggregate area of apertures in any such grating shall not be less than the sectional area of the pipe or drain to which such grating is fixed. Every opening for ventilation shall at all times be kept perfectly free from obstruction.

Section 73. *Pipe Clips, &c.*—There shall be at least one pipe clip to each 6-ft. length of vent pipe.

For cast-iron or wrought-iron pipe approved coated wrought-iron clips and for galvanized sheet iron pipe 1½-in. x 14-gauge galvanized band iron clips shall be provided. Wherever it is necessary to fix pipes clear of the wall approved extension clips shall be used.

Clips in the case of cast-iron pipes must be placed tight up against the head or underside of collar.

Section 74. *Attachment to Walls.*—Where a galvanized sheet iron pipe, with or without offset, is carried up above the brick wall of a building a galvanized wrought-iron clip must be used, leaded into the wall near the top wherever possible and bolted against the vent pipe.

All band iron clips of vent pipes to brick walls shall be fastened with nuts and bolts, leaded in, or by means of T-headed bolts passed through the brick joints and turned at right angles to the joints.

Section 75. *Supporting Vents.*—Wherever a vent pipe with offset is not more than 12 feet long above such offset it need not be stayed; if longer, it shall be stayed as directed with ½-in. galvanized wrought-iron piping.

An unsupported length of 15 feet above highest clip of straight vent pipe without offset will be permitted.

Section 76. *Induct Vents.*—Every induct vent shall be securely supported in an approved manner.

Division 21.—Drainage Traps.

Section 77. *Trapping of Inlets.*—Every inlet to any drain other than inlets provided for ventilation in accordance with the By-law shall be provided with an approved trap. No inlets to any drain connecting directly with a sewer shall be constructed within a building other than such inlets necessary for the apparatus of any water-closet, urinal, or housemaid's slop sink.

Section 78. *Classes of Traps.*—Four classes of traps shall be used—

- (a) "Traps" for intercepting gases only, to be of round section and self-cleansing form, but not such as to empty by momentum or suction.
- (b) "Silt traps" for intercepting both gases and solids, to have slightly tapered sides, flat bottom, and rounded angles, and provided with approved means for catching and removing solids.
- (c) "Grease traps" for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, to be of such form as approved.
- (d) "Oil traps" for collecting all kinds of oil and to be of such form as approved.

The term "yard gully" is applied to traps (a) in cases where they are used externally and fitted with dished tops and gratings.

Section 79. *Water Seal.*—Every drainage trap must have a water seal not less than 2 inches in depth.

Section 80. *Provision of Yard Gullies.*—A yard gully must, wherever practicable, be provided in the yard of every property, as near as practicable to the kitchen or back door, with a tap placed over it at a height of not less than 2 feet. No yard gully shall be situated within a building. Where it is not practicable to provide a yard gully, a slop sink must be provided within the building.

Section 81. *Details of Yard Gullies.*—Yard gullies shall be fitted with dished tops and gratings, the dished top being in one piece with the trap or jointed thereto by spigot and flange, or as otherwise approved.

The depth of the dished top to the grating must be not less than 6 inches, and the grating must be so fixed as to be removable with reasonable facility.

Section 82. *Kerbing, &c., to Yard Gullies.*—Yard gully basins and the dished tops of silt traps must be so surrounded with an approved impervious kerbing as to prevent the access of

surface water to the drains, and, if directed, the wall at the rear of the gully or silt trap, if of brick or stone, must be cement rendered to the height of the tap over same, and if of wood the wall must be provided with an approved galvanized sheet iron apron.

PART 4.

PIPE CAPACITIES.

Division 22.—Capacities of Soil, Waste, Drain, and Vent Pipes.

Section 83. *Fixture Units.*—For the purpose of determining the size of any drain, waste, soil, or vent pipe, the following equivalent fixture units shall be adopted, unless otherwise directed.

Fixture.	Nominal Outlet Diameter.	Fixture Units.
One lavatory basin ...	1½ inch	1
One lavatory basin ...	1½ inch	1½
One kitchen sink (up to 6-in. depth to overflow) ...	2 inches	3½
One bath ...	1½ inch	3½
One bath ...	2 inches	5½
One wash trough set with common trap ...	1½ inch	3½
One wash trough set with common trap ...	2 inches	5½
One urinal ...	1½ inch	3
One slop sink ...	2½ inches	3
One slop sink ...	3 inches	4½
One shower bath ...	2 inches	3
One water closet ...	4 inches	6
One bathroom group, consisting of one lavatory basin, one bath, and one shower	—	7

The equivalent fixture units to be adopted for fixtures other than those shown shall be determined by the Authority. One fixture unit denotes a rate of discharge equal to 1 cubic foot per minute.

Section 84. *Sizes of Soil, Waste, and Drain Pipes.*—Except by special permission the required sizes of soil, waste, and drain pipes shall be determined on the basis of the total number of fixture units drained, or likely to be drained, in accordance with the following table:—

Diameter of Pipe (Inches).	Minimum Permissible Grade.	Permissible Maximum Number of Fixture Units.										Vertical.	Maximum Number of Fixture Units permitted in any 8-ft. length of vertical stack.
		Grade not less than—											
		1 in 60	1 in 40	1 in 30	1 in 25	1 in 20	1 in 15	1 in 12½	1 in 10	1 in 8	1 in 5

6	1 in 60	330	..	370	..	430	..	520	..	590	730	1,100	590

Provided that—

- (a) Waste and soil pipes shall not be diminished in diameter in the direction of flow.
- (b) The diameter of trap, waste, or soil pipe receiving the discharge from any fixture shall in no case be less than the nominal outlet diameter of such fixture.
- (c) No water-closet shall discharge into a drain or soil pipe of less than 4 inches in diameter.
- (d) All connexions between inclined pipes and vertical stacks shall be through 45 degrees junctions.
- (e) Soil and waste stacks shall be as direct as possible and free from sharp bends. Where such are unavoidable approved provision shall, if necessary, be made to safeguard fixtures immediately above and below the bend.

Section 85. *Sizes of Vents.*—(1) *Main Vents.*—Except by special permission, the required sizes of main vents shall be determined from the size of the soil, or waste pipe, or stack to be vented, the total number of fixture units drained into it, and the developed length of the vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table.

MAXIMUM PERMISSIBLE LENGTH OF MAIN VENTS (IN FEET) FOR SOIL AND WASTE PIPES.

	590	9	42	143	300
	730	8	37	137	300
	1,100	7	28	112	260

Provided that—

- (a) No vent shall be less than 1½ inches in diameter, and in no case shall a vent have a diameter less than one half that of the soil or waste pipe which it serves.
- (b) For 2-in. and 2½-in. waste pipes the vent shall have a diameter of not less than 1½ inches.

(2) *Sizes of Branch Vents.*—The required sizes of branch vents shall be determined from the number of fixture units served by the branch vent and the developed length of the vent from the point of connexion of the anti-syphonage vent from the last fixture served by the branch vent to the outlet to the open air at the upper end of the main vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table:—

Provided that—

- (a) Branch vents shall conform to provisions (a), (b), for main vents.
- (b) No branch vent need be larger in diameter than the soil or waste pipe which it serves.

(3) *Individual Anti-syphonage Vents.*—The required sizes of individual anti-syphonage vents shall be determined from the diameter of the fixture trap served in accordance with the following table:—

Diameter of Fixture Trap.	Minimum Permissible Size of Anti-Syphonage Vent.	Diameter of Fixture Trap.	Minimum Permissible Size of Anti-Syphonage Vent.

PART 5:

PLUMBING.

Division 23.—General.

Section 86. *Waste Pipes.*—Separate waste pipes shall be provided for each of the following class of polluted water, viz.:

- (a) Dirty water from baths, sinks, lavatory basins, and wash troughs, and other waters containing a small proportion of soap and/or dirt.
- (b) Greasy water from kitchen and scullery sinks or other fixtures, in such cases where grease traps are ordered or required.

Section 87. *Soil Pipes.*—Soil pipes shall be provided for soil water from closets and other waters containing faecal matter, and for urinal waters from slop sinks and urinals, and, where directed, for discharges from operating theatres and morgues, and in no case shall such waters be discharged into any waste pipe as defined by this By-law.

Section 88. *Connections to Drain.*—All waste pipes shall discharge under the grating of a yard gully or into a disconnector trap. All soil pipes, including those for urinals and housemaids' slop sinks, must be connected direct to the drain. No waste pipe shall be laid in the ground outside any building unless by special permission.

Section 89. *Flashing, &c.*—All troughs, sinks, and other fixtures which are placed less than 3 inches, and all baths fixed less than 6 inches clear from any wall shall be flashed with 5-lb. lead, 24-gauge copper, bronze, brass, nickel, silver, or monel metal, or other approved material. Galvanized sheet iron may be used for fixtures other than sinks.

All such flashings shall be turned up the walls at least 4 inches, except where the walls are tiled, when the flashings shall be carried up at least 1 inch behind the tiles. Baths and other fixtures having turned-up flanges for use against tiled walls in lieu of sheet metal flashing shall be properly supported to prevent settlement, and the flange shall lap at least 1 inch behind the tiles, which shall be brought hard down on to the surface of the fixture. All flashing shall be properly secured and made watertight, and shall be bedded for a width of not less than 1 inch along the edge nearer the fixture in red or white lead.

Section 90. *Fixtures Not to Abut Against Walls.*—Unless otherwise directed or permitted, sinks, tubs, and similar fixtures situated in premises other than private houses where food for human consumption is prepared, manufactured, or stored for sale, and draining boards, slabs, and plates used in connexion with such fixtures, shall not abut against any wall but shall have a clear space of not less than 3 inches between such fixtures and any wall surfaces or obstructions.

Section 91. *Bib-cocks.*—Internal bib-cocks shall not be permitted unless a sink, lavatory basin, or other approved fixtures, or a properly drained impervious floor, is provided underneath.

Division 24.—Soil, Waste, and Vent Pipes.

Section 92. *Materials.*—No material shall be used for soil pipes other than cast-iron, lead or brass, and for waste pipes other than wrought-iron, cast-iron, lead, brass or copper.

Section 93. *Lead Pipes.*—The minimum permissible weight of lead for soil, waste, or vent pipes for water closets, urinals, and slop sinks shall be 7 lb. per square foot, and for all other fixtures 6 lb. per square foot.

Section 94. *Wrought-iron Pipes.*—All wrought-iron pipes and their fittings shall be approved standard weight and quality and galvanized or lined to the approval of the Authority.

Section 95. *Cast-iron Pipes.*—All cast-iron pipes shall be sound, free from holes and cracks, and coated with approved bituminous composition, or lined with glass enamel to the approval of the Authority.

Cast-iron pipes and their fittings, where laid in the ground, shall comply with the Australian standard specifications, or in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameter. Cast-iron pipes for use in other situations shall have a minimum thickness of 3-16 inch measured in the case of glass-enamelled pipes without the enamel, and their fittings shall correspond with them in weight and quality. All junctions shall be curved, right-angled junctions shall not be made.

Section 96. *Galvanized Sheet Iron Pipes.*—External vent pipes of galvanized sheet iron shall be of a gauge not less than the following:—

- 1 1/2 inch, 2 inch, 2 1/2 inch diameter—22-gauge.
- 3 inch and 4 inch diameter—20-gauge.
- 6 inch diameter—18-gauge.

Section 97. Where lead, copper, brass, or cast-iron soil or waste pipes are fixed outside a wall for upstairs fixtures, the lead, copper, brass, or cast-iron pipes, shall be carried at least 2 feet above the level of the highest fixtures attached to the pipe.

Section 98. *Vent Pipes.*—Vent pipes, if inside a building, shall in all cases be of cast-iron, wrought-iron, lead, copper, or brass. Grooved, welded, or riveted double galvanized

sheet iron vent pipes may be used where they are entirely outside a building, and shall be connected with the traps or waste or soil pipes, with brass ferrules or other joints approved by the responsible officer of Authority.

Section 99. *Vents in Shed, &c.*—Galvanized sheet iron vent pipes may be used inside stables or open sheds, except where liable to damage.

Section 100. *Use of Lead Pipes.*—Lead pipes shall not be used, except where exposed to view and/or not liable to damage.

Section 101. *Supporting Lead Pipes.*—Lead pipes shall be supported by cast lead tacks of approved dimensions, welded on to the pipe or by other approved fastenings, and such fastenings shall be arranged as nearly as possible thus—

- 4-in. vertical lead pipes—2 ft. 6 in. centres.
- 4-in. horizontal lead pipes—2 feet centres.
- Less than 4-in. vertical pipe—3 feet centres.
- Less than 4-in. horizontal pipe—2 ft. 3 in. centres.

Two pairs of tacks, fixed opposite, is sufficient for fixing lead flush pipes from cisterns.

Section 102. *Minimum Permissible Gradients.*—The following are the minimum gradients to be adopted for soil and waste pipes:—

Diameter of Pipe.	Minimum Gradient.
1 1/2 inch	1 in 12 1/2
1 3/4 inch	1 in 15
2 inch	1 in 17 1/2
2 1/2 inches	1 in 20
3 inches	1 in 25
4 inches	1 in 30
5 inches	1 in 40
6 inches	1 in 50

Section 103. *Length of Unvented Waste Pipes.*—Waste pipes need not be ventilated unless they exceed 10 feet in inclined length or 12 feet in vertical length, provided that there is only one fixture attached to the waste pipe, and provided that the water seal of the trap is not reduced by syphonage or other cause. Where there is more than one fixture, or the water seal is reduced, a vent pipe shall be supplied to the fixture trap or traps. All fixtures discharging into a sub-drain of greater length than 10 feet shall be vented.

Section 104. *Junctions.*—Where a waste or soil stack is branched into a graded waste, soil, or drain pipe, the branch fitting shall have an angle of not less than 45 degrees to the horizontal, and the length of the branch of the fitting shall be such that the vertical projection of the attached stack will be wholly outside of the area of the junction with the graded pipe.

Section 105. *Sealing of Pipes.*—Wherever a fixture is abolished, the soil, waste, vent, and water supply pipes to such fixture shall be removed, or, if allowed by the Authority to remain, the ends of the pipes shall be sealed with watertight, imperishable materials.

Section 106. *Soil Vent Pipes.*—In all cases the upward extension from the soil pipe for ventilation shall pass in as direct a manner as possible above, and, if necessary, through the roof.

Section 107. *Vent Pipe Grades.*—All vertical lines of vent pipe shall connect, full size, at their bases with a soil, waste, or drain pipe at an angle of not less than 45 degrees to the horizontal, and shall extend in undiminished size above the roof or be connected to the soil, waste, or vent stack, in compliance with the requirements of section 109, on a grade sufficient to avoid the collection of water.

All intermediate bends or offsets shall be at a grade of not less than 45 degrees to the horizontal.

Vent pipes shall not be used as waste or soil pipes.

Section 108. *Anti-syphonage Vents.*—Traps must be prevented from syphoning by proper ventilation, in accordance with the requirements of section 85. Such anti-syphonage vents from fixtures shall be carried above the eaves of the building or joined to the branch or main vent above the level of the fixture, unless special permission to the contrary is granted.

These vent pipes shall be connected to the waste or soil pipe at a point not less than 3 inches nor more than 12 inches from the crown of the trap and on the opposite side of the water seal to the fixture, except in the case of closet pans where the vent pipe shall be not more than 3 feet from the crown of the trap. No other fixture shall be connected to the soil or waste pipe between the anti-syphonage vent and the fixture which it serves.

Section 109. *Combining of Vents.*—The various vents may be combined by branching together those which serve traps of the same class. The vent pipes may be branched into a soil or waste pipe of the same class above the level of the highest fixture.

Section 110. Where a branch is required to a galvanized sheet iron vent pipe, a brass saddle piece bolted and soldered to the vent must be used.

Section 111. *Sheet Metal Bends and Offsets.*—All sheet metal bends and offsets for flush and vent pipes shall be bent or pressed. Mitred elbows will not be permitted.

Section 112. *Pipes to be Accessible.*—All soil, waste, and vent pipes and traps shall, where practicable, be accessible at all times for ready inspection and convenience of repairing. When placed within partitions or recesses of walls they shall be covered with woodwork or other approved material, so fastened as to be readily removable. No junctions shall be built in except with special permission from the Authority in writing.

Section 113. Concealed standing wastes will not be permitted.

Section 114. *Painting.*—All external plumbers' work and all cast-iron cisterns and brackets, woodwork in connexion with plumbing installations, sheet iron flush pipes, and sheet iron storage tanks and trays, shall be painted, after inspection, to the approval of the Authority.

Division 25.—Joints.

Section 115. *Stoneware, Cement, or Cast-iron Pipes.*—Joints of stoneware, cement, or cast-iron pipes shall conform with the requirements of section 62 or 63.

Section 116. *Lead Pipe.*—All joints in lead pipe shall be plumber's wiped joints.

Section 117. *Wrought-iron Pipe.*—The screwed ends and sockets of each particular size of wrought-iron or wrought steel pipe shall be so formed and the threads so cut that the ends of the pipe will butt against each other when screwed home in the sockets; bends, junctions, and similar fittings shall be similarly formed and screwed so that when the pipe ends are screwed home the bore will be continuously uniform and without breaks or pockets. The burr shall be neatly filed off on the inner edge of all pipe ends. All screwed joints shall be made with the approved jointing material.

Section 118. *Wrought-iron Pipe to Lead Pipe.*—All joints between wrought-iron and lead pipes shall be made by means of brass unions screwed to iron and wiped to lead.

Section 119. *Brass or Copper Pipes.*—Joints of brass or copper pipes shall be made in accordance with the Australian standard Specification B36—"Compression joints and copper alloy screwed fittings for standard copper tubes."

Section 120. *Lead Pipe to Cast-iron Pipe.*—The connexion of lead pipes or traps to cast-iron pipes shall be made by means of brass ferrules. The brass ferrules shall be lined with and connected to the lead pipe or trap by means of a wiped joint and connected to the cast-iron by inserting ferrule in socket thereof and making the joint in the same way as in cast-iron pipe.

Section 121. *Sheet-iron Pipe to Cast-iron Pipe.*—All connexions of galvanized sheet iron to cast-iron pipes shall be made with molten lead, lightly but tightly caulked in to cast-iron sockets.

Section 122. *Sheet-iron Pipe to Wrought-iron Pipe.*—Galvanized sheet iron pipes shall be connected to wrought-iron pipes by means of brass unions or sleeves soldered to the sheet iron and screwed to the wrought-iron, or by means of a wrought-iron socket screwed to the wrought-iron pipe, into which the sheet-iron pipe shall be lightly but tightly caulked with molten lead.

Section 123. *Sheet-iron Pipe to Lead Pipe.*—Connexions of sheet-iron pipes to lead pipes shall be made by means of brass sleeves wiped to the lead pipe and soldered to the sheet-iron pipe, or by means of a cast lead collar wiped to the lead pipe, into which the galvanized sheet-iron pipes shall be caulked to approval.

Section 124. *Concrete or Stoneware Pipe and Traps to Lead Pipe.*—Connexions of lead pipe to stoneware or concrete pipe shall be made by means of a brass ferrule connected to the lead pipe by means of a wiped joint and connected to the stoneware or concrete pipe by inserting it in the socket thereof and making a cement mortar joint.

The connexion of a stoneware or concrete trap to a lead pipe shall be by means of a cast lead or brass socket, and the joint made with bitumen or other approved material. The lead pipe shall be connected to the tail end of the brass or lead socket by means of a plumber's wiped joint.

Section 125. *Connexion of Closet Pan Traps to Soil Pipe or Drain.*—Connexion of a closet pan to a soil or drain pipe shall be made by means of a bituminous jointing material, consisting of a mixture of approved bitumen and finely graded inert mineral filler in equal proportions, filled in solidly into faucet of soil or drain pipe and neatly splayed off, or by other approved method. In the case of lead soil pipes, a cast lead or brass faucet shall be used and connected to the lead pipe by means of a wiped joint.

Section 126. *Cistern Flush Pipe to Closet Pan.*—The flushing pipe from cistern shall be connected to the water-closet pan by a lead cap piece of not less than 4-lb. lead, packed with red lead or other approved material. The cap piece shall be jointed to galvanized sheet iron, copper, brass, or drawn steel pipe by means of a soldered joint and to lead flush pipe by wiped or soldered joint. The connexion of the flushing pipe to cistern shall be by means of a brass union, wiped to lead pipe or soldered to sheet-iron pipe. Copper or brass pipe shall be connected to cistern by means of a brass ring, with nut brazed to pipe, or by other approved means.

Section 127. *Vent Pipe to Closet Pan.*—Vent pipe shall be connected to the vent horn of water-closet trap by a lead cap piece with red lead packing or by other approved methods. The cap piece shall be jointed to copper or brass pipe by means of a soldered joint and to lead flush pipe by a soldered or wiped joint.

Section 128. *Outlet Fittings to Fixtures.*—Connexions between outlet fittings and such fixtures as baths, sinks, basins, &c., when the latter are constructed of cast-iron, plate-iron, ceramicware, or concrete, shall be made with lock nuts. The outlet fitting shall in all cases be connected to the waste pipe by means of a union.

When these fixtures are made of sheet metal lighter than 20-gauge soldered connexions may be used in lieu of lock nuts.

Section 129. *Waste Pipes to Troughs.*—Connexions of waste pipes to wash troughs shall be made as under:—

(a) Cement troughs, unless otherwise approved, shall have cast-in outlets.

(b) Sheet-metal troughs shall be connected to the waste pipes in compliance with section 128.

(c) For wooden troughs, lead, copper, or brass, waste pipes shall have flanges connected to the waste in accordance with the provisions of this By-law, and fastened to the underside of the trough with copper tacks. The waste pipe shall then be turned over inside the trough and the plug casting bedded over it with red lead putty and screwed to trough with brass wood screws.

Where wrought-iron or other screwed pipes are used the plug must be connected to the trough by means of a lock nut in lieu of flange.

Division 26.—Fixture Traps.

Section 130. *Fixtures to be Trapped.*—Every water-closet, urinal, slop or other sink, lavatory or wash basin, bath, wash trough or set of wash troughs, and any other fixture, shall be separately and effectively trapped, unless otherwise specially permitted by the Authority.

Section 131. *Position of Traps.*—Traps shall be placed as near the fixtures as possible, and in no case shall a trap be more than 2 feet from its fixture, except as provided in section 179, unless otherwise specially permitted by the Authority.

Section 132. *Depth of Water Seal.*—Every trap shall have a water seal of not less than 2 inches.

Section 133. *Closet Pan Traps.*—Outlets from closet-pan traps shall be of not less than $3\frac{1}{2}$ inches nor more than 4 inches diameter, except in the case of syphonic pans.

Section 134.—*Sealed Disconnecter Traps.*—Where approved by the Authority, sealed disconnecter traps may be fixed outside or inside the building, but in such cases breather pipes or fresh air inlets of the same diameter as disconnecter traps shall be taken above the level of the lowest fixture, or to such other height as directed, and when trap is inside shall be led to the outside of the building. The material for such breather pipes shall be the same as for waste pipes; sheet-iron will not be allowed. Inspection openings to such traps shall be sealed with screwed plugs, or as otherwise approved by the Authority.

Section 135. *Form of Trap.*—The "P" form of trap, with joints visible and accessible all round, must, unless otherwise permitted, be used in preference to the "S" form of trap for all internal fixtures wherever practicable. Where the "S" form of trap is used facilities for periodical inspection must be provided.

Section 136. *Lead Traps.*—All lead traps must be of the weights specified in section 93 for lead pipes of the same diameter.

Division 27.—Gratings.

Section 137. Fixtures discharging into waste pipes and all urinals shall have non-corrodable outlet gratings of approved design and material, in accordance with the Australian standard Specification B.38, "Metal alloy sanitary fittings."

Division 28.—Cleaning Eyes and Inspection Openings.

Section 138.—*Provision for Inspection and Cleaning.*—Sufficient inspection and cleaning eyes shall be provided in such positions on all soil and waste pipes as to be easy of access for proper inspection and cleansing.

Traps for fixtures, other than water closets, urinals and housemaids' slop sinks, shall be provided with approved screwed brass plugs for cleaning purposes fixed under the water line of the trap.

Section 139. *Inspection Openings on Soil Pipes.*—In all cases where the vertical stack of soil pipe provides for closets 4 feet or more above the ground level, measured from floor level of water-closet to ground level at foot of stack, an inspection opening having a cover fixed to a flange with bolts or studs shall be provided in such a position as directed by the responsible officer of the Authority.

Division 29.—Grease Traps.

Section 140. *Provision of Grease Traps.*—Every fixture or area from which grease or any other objectionable matter is likely to be discharged or conveyed into waste or soil pipes, or house drains, and every sink in all such places as food-packing houses, butchers' shops, lard rendering establishments, hotels, restaurants and boarding-houses, and such fixtures, areas, apparatus, or appliances as the Authority may direct, shall first discharge into an approved apparatus for preventing the objectionable matter from reaching the soil pipe or drain. Such apparatus shall be of such dimensions, design, and construction and in such position as the Authority, or its responsible officer, may in each case approve.

Section 141. *External Grease Traps.*—Every grease trap shall be fixed outside the premises whenever practicable, and (if not portable) shall be of glazed stoneware, concrete, slate, or brick in cement, and the outlet should be connected to the drain through a disconnecter trap.

Section 142. *Internal Grease Traps.*—Whenever a grease trap is used inside a building it shall be so fitted as to be easily removable, and, if directed, fixed upon a tray. All internal grease traps shall be of copper or other approved material, provided with a close fitting cover, and shall be independently ventilated as required by the Authority, or its responsible officer.

Section 143. *Grease Trap Ventilation.*—Every grease trap shall have provision made for inlet and outlet ventilation if and as directed by the Authority or its responsible officers.

Section 144. *Size of Grease Trap.*—The dimensions of grease trap to be provided shall be such as to ensure the congealing and retention of all grease entering such trap.

Section 145. *Outlet Pipes.*—The outlet pipe from any grease trap must be at least one size larger than that size of pipe which has a cross sectional area equivalent to the total area of incoming waste pipes. In no case, except by special permission, shall the outlet pipe be less than 3 inches diameter for grease traps of copper or other approved metal and 4 inches for stoneware.

Section 146. *Maintenance.*—Every grease trap shall be maintained by the occupier at his own expense, and shall be cleaned at such intervals as may be necessary to ensure that such trap operates in an efficient and hygienic manner.

Division 30.—Water Closets and Flushing Apparatus.

Section 147. *Water-closets, General.*—At least one water-closet shall be provided for each house or building within a sewerage area, and also in such other cases as may be directed by the Authority.

In every shop, factory, office, flat, or building containing more than one tenement, at least one water-closet shall be provided for the use of the occupier of each tenement, or as otherwise directed by the Authority, and shall be so placed, either within or without such building, as to ensure the due observance of decency and to be easily accessible to the occupiers.

Section 148. *Water-closets at Hotels, Shops, &c.*—In hotels, offices, lodging-houses, shops, and, if so directed, in any other premises, closets for different sexes shall not adjoin each other unless separated by a soundproof wall of such material and of such thickness as shall be approved by the Authority.

Section 149. *Water Closets for Factories.*—The owner of any building which is used for the purpose of a factory shall provide water-closets for the use of employees at such building in accordance with the Factories Act.

Section 150. *Light Ventilation, &c., for Water-closets.*—Except as herein provided in section 151, every water-closet in a building shall comply with the following conditions:—

- (a) One of its sides at least shall be an external wall of such building, abutting on to a street or lane or an open space of not less than 100 square feet in area, such space being portion of the premises.
- (b) It shall not be entered directly from any room used for human habitation or for the manufacture, preparation, or storage of food for human consumption, or used as a factory, workshop, or work place. In cases where otherwise such closet would be directly entered from any such room, an ante-chamber, or airlock having a floor area of not less than 20 square feet shall be provided and effectively lighted, and shall be ventilated by an air shaft or some approved method to the open air. The doors of such closet and ante-chamber or airlock shall be close fitting and self closing, and all internal walls constructed of brick or other approved airtight material, extending the entire height from floor to ceiling. For closets in private residences opening on to a well-lit and well-ventilated hall, passage, lobby, or staircase, no airlock is required, but where these conditions do not exist the airlock as above shall be provided.
- (c) Each water-closet apartment, ante-chamber, or airlock shall be provided with adequate means of constant fresh air ventilation, and shall be lighted by a window or glazed louvres of not less than 2 square

feet of clear light area per water-closet, opening directly into external air. The effective area provided for outlet ventilation of each water-closet apartment, ante-chamber, or airlock shall be not less than 27 square inches, and where the level of the floor of the water-closet apartment is lower than the outside surface of the ground exhaust ventilation shall be provided by means of a tube of at least 6 inches diameter, carried up through the roof and furnished with a cowl. Approved provision for inlet ventilation shall be made as near the floor level as possible.

- d) The floors of all water-closet apartments shall be constructed of concrete of not less than 4 inches thickness, or of other approved impervious material, and graded as directed, or they shall be provided with lead safes in accordance with the requirements of sections 183, 184, and 186. The frame of every wooden closet shall be securely fastened to the floor and made rigid, without attachment to fences.
- (e) Each closet apartment shall be not less than 3 feet wide and 5 feet long, inside measurements, and the walls shall be at least 7 feet high at the lowest part.

Section 151. *Mechanical Ventilation and Artificial Light.*—Subject to the approval of the Authority in writing the requirements of section 150 may be waived, provided that the following conditions be complied with, viz.:—

- (a) In every such case a mechanical system of exhaust ventilation in duplicate, approved by the Authority, and capable of changing the air contents of such water-closet eight times per hour shall be installed in connexion therewith.
- (b) Upon completion the owner or his representative shall carry out such tests of the mechanical system referred to as the Authority may deem necessary.
- (c) Such mechanical system shall at all times be underneath the continuous supervision of one or more properly qualified persons, and shall be continuous in operation.
- (d) Any such mechanical system shall be open to inspection by the Authority at all reasonable times, and shall be subject to such tests as the Authority shall from time to time direct. The air and pipe shafts shall be readily accessible, and shall have a minimum width of 2 ft. 6 in and a minimum area of 12 square feet.
- (e) The failure of any such mechanical system at any time to pass such tests shall be an offence by the owner of such a building against this By-law, and the owner thereof shall also, in respect of such failure, be guilty of an offence against this By-law.
- (f) Every such water-closet shall be provided with an efficient system of electric lighting to the approval of the Authority, and same shall be maintained at all times in good working order.

Section 152. *Wooden Water-closets.*—In wooden water-closets buildings the bottom plates and plinths must be of approved timber. In repairs to studs they shall be cut to sound timber with a new plate, supported on a concrete dwarf wall extended up from the floor level.

Section 153. *Firing Closet Pan.*—On concrete floors, or floors of tiles set in concrete, the closet pan shall be securely bedded upon concrete or cement mortar and fixed with brass screws to approved lead dowels set in the floor. Where the floor is of timber covered with an approved impervious material the closet pan shall be secured to the timber by means of brass screws as directed or by other approved means.

Section 154. *Closet Pans.*—Every water-closet shall be furnished with a pan of non-absorbent material of such shape, capacity, and construction as approved by the Authority. Water-closet pans and fittings thereto shall be entirely open to inspection and without any enclosure. Vent horns shall be provided on all pans, even if no anti-syphonage vent is required. If not used for a vent such vent horn shall be sealed with a lead disc, bituminous filler, and a lead cap piece, or by other approved method.

Section 155. *Closet Pan Seats.*—Except as approved by the Authority, all hinged closet pan seats shall be not less than 1 inch in thickness and constructed of approved material. When constructed of wood, four-piece seats shall be glued and either dowelled or bolted, and one-piece seats shall be reinforced with two wood or brass slips let in flush on the underside.

Section 156. *Flushing Apparatus.*—Approved apparatus shall be provided for the effective application of water to the pan of the water-closet and for the efficient flushing and cleansing of the pan and effective removal therefrom of any solid or liquid matter which may from time to time be deposited therein. Such apparatus shall have a flushing capacity of 2½ gallons, and shall be so constructed, fitted, and placed as to supply water for use in the pan without any direct communication with any service water pipe upon the premises.

Section 157. *Flushing Cisterns*.—Flushing cisterns shall be fixed at such height as will effectively flush the pan; but, except by special permission, no cistern shall be fixed at a less height, measured from top of seat to bottom of cistern, than 5 feet where 1½-in. flush pipe is used or 4 feet where 1¼-in. flush pipe is used. There shall be a distance of at least 9 inches between top of cistern and ceiling of closet.

Every cistern shall have a separate stop-tap and an overflow of ¾-in. internal diameter, and shall be fixed to cistern boards not less than 12 inches deep and 1¼ inch thick, or fixed in other approved manner.

Water supply pipes to cisterns shall be adequate to fill any cistern at the rate of not less than 1 gallon per minute.

Section 158. *Flush Pipes*.—Flush pipes to closet pans shall be of brass, copper, 6-lb. lead, galvanized-iron of not less than 22-gauge, or other approved material, and shall have a minimum diameter of 1¼ inch.

Section 159. *Flushing Apparatus Other Than Cisterns*.—Notwithstanding anything contained in this By-law, closet pans in any building may be flushed by means of any apparatus which—

- (a) automatically controls the amount of water used, and/or
- (b) is approved by the Authority.

Section 160. *Storage Tanks*.—Except where otherwise allowed by the Authority, on request in writing, by the owner accepting all responsibility in the matter, internal water-closets shall be provided with storage tanks capable of holding 6 gallons of water for each occupant of the building, with a minimum of 60 gallons per closet for all buildings except private residences, which shall have a minimum capacity of 30 gallons.

Unless otherwise directed by the Authority, the storage tanks may be placed in the water-closet apartment itself, on the roof over a flat or gutter, or in an accessible place between the ceiling and the roof, in which latter case a safe of galvanized-iron, lead, or other approved impervious material, with overflow, shall be fixed under the storage tank.

Section 161. *Venting Closet Pans*.—Unless otherwise directed or permitted, every closet pan on an upstairs floor shall discharge into a soil-ventilator pipe, except that any closet pan on a floor which is not more than 8 feet in height from the ground surface level may be ventilated by an anti-syphonage vent only, in accordance with the requirements of sections 85 and 108 and discharge into a soil pipe without extension as a ventilator pipe; provided that no fixtures at a lower level are connected to such soil pipe.

Any closet pan where ordered, and also unless otherwise directed every internal closet pan, shall be ventilated by an anti-syphonage vent in accordance with the requirements of section 85 sufficiently close to prevent syphonage, and in no case more than 18 inches from the trap.

The anti-syphonage vent may be omitted under the following conditions:—

- (a) Where the internal closet pan is not more than 4 feet from a fully vented soil pipe as measured along the axis of the pipe between the centre of the soil pipe and the centre of the pan;
- (b) Where no closet pan and/or group of fixtures within a total discharge of more than eight fixture units is connected to such ventilator soil pipe at a higher level; and/or
- (c) No syphonage occurs.

Section 162. *Grouped External Closets*.—Where there are more than three external water-closet pans grouped on the ground floor or in the yard of any premises special provision must be made to prevent syphonage.

Division 31.—Urinals and Flushing Apparatus.

Section 163. *Urinals, General*.—Every urinal on premises licensed for the sale of fermented or spirituous liquors, and on premises used as a factory, workshop, work place, manufactory, shop, office, or school where persons of the male sex are employed or in attendance, shall be of such size as the Authority requires. Provided that when the number of persons of the male sex does not exceed ten, a urinal need not be fixed if the closet has a pedestal pan with a hinged tip-up weighted seat.

Section 164. *Internal Urinals*.—The positions, approaches, arrangement of lighting, ventilation, &c., for internal urinals shall comply as nearly as possible with the provisions as to internal water-closets.

Section 165. *Details of Construction, &c.*—Except by special permission, only round-backed stall type urinals of approved impervious material shall be used. The soil pipes shall be of lead, stoneware or glass enamelled or coated cast-iron, or other approved material, shall be kept as short and free from bends as possible, and shall be trapped. Inspection openings shall be provided on soil pipes as directed, with clamped covers. The urinals shall be provided with approved flushing apparatus and a hose tap shall be provided in a suitable position for hosing down.

Section 166. *Treatment of Floors*.—The floor in front of a urinal shall be covered with approved impervious material for a width of not less than 2 feet, or, if raised above floor level of urinal apartment, not less than 1 ft. 6 in., and graded to drain to urinal.

No. 278.—12989/39—2.

Impervious Materials.—The following materials will be considered impervious:—

- (a) For urinals: glazed fire clay or salt glazed stoneware.
- (b) For floors in front of urinals: Glazed tiles set in cement mortar (composed of equal parts of cement and sand), concrete 6 inches thick rendered with ¾-in. thick cement mortar, slate, marble or asphaltum.

Section 167. *Flushing Apparatus*.—Pull and chain flushing cisterns or other approved apparatus operated by hand shall be fixed on all urinals except where automatic flushing cisterns are permitted or directed by the Authority.

Section 168. *Flushing Cisterns*.—The discharge from a cistern shall be equal to 1 gallon for each urinal stall, except where otherwise allowed by the Authority, but in no case shall larger than a 3-gallon cistern be used.

The height of a cistern shall, unless otherwise allowed by special permission, be at least 8 feet from the floor to the top of the cistern. The cistern shall be so fixed that the ball tap is accessible.

A separate stop tap shall be provided for each urinal cistern.

Section 169. *Flush Pipes*.—Flush pipes for urinals shall be of brass or copper with gunmetal fittings, and shall have a minimum diameter of 1¼ inch, except that flush pipes for automatic flushing cisterns generally shall not exceed—

- for 1-gallon cistern, ¾-in. internal diameter,
- for 2-gallon cistern, 1-in. internal diameter,
- for 3-gallon cistern, 1¼-in. internal diameter,

with branches as directed by the responsible officer of the Authority.

Division 32.—Housemaids' Slop Sinks.

Section 170. *General*.—Housemaids' slop sinks shall be made in one piece of approved impervious material and provided with approved flushing apparatus of 2-gallon capacity.

Section 171. *Ventilation, Light, &c.*—Housemaids' slop sinks shall be so placed and ventilated as to comply with the requirements for water-closets as set out in sections 150 (a), (b), and (c) and 161.

Section 172. *Bibcock over Slop Sink*.—A bibcock shall be fixed directly over a housemaids' slop sink, and at least 18 inches above such sink.

Division 33.—Wash Troughs.

Section 173. *General*.—Wash troughs shall be of approved pattern and material, securely fixed and graded to outlet pipe, fitted with brass strainer sunk to level of bottom of trough.

Section 174. *Support for Lead Waste Pipe*.—Where the distance between outlets on troughs exceeds 21 inches and lead waste pipe is used, the pipe shall be supported either by a lead tack wiped on the top of the pipe or by a wooden block screwed to the bottom of the trough and clamped to the pipe.

Section 175. *Troughs Abutting Against Brick Wash Copers*.—Wherever the end of a wash trough abuts against the brickwork of a wash copper the space between the end of trough and the brickwork shall be filled with approved waterproof material.

Division 34.—Sinks, Baths, Showers, and Lavatory Basins.

Section 176. *Sinks*.—All new sinks shall be fixed on brackets and traps and wastes left readily accessible.

Section 177. *Galvanized Sheet-iron Baths*.—The bottoms of galvanized sheet iron baths shall be effectively supported. Such baths shall not be enclosed. Longitudinal joints in the bottoms of baths shall not be permitted.

Section 178. *Bath Traps*.—Where a bath trap is fixed on the outside of a wall it shall in no case be more than 3 feet from the outlet of the bath, unless by special permission of the Authority.

Section 179. *Showers*.—All showers on the ground floor shall be provided with a 4-in. stoneware or concrete trap, fitted with brass grating. All showers above the ground floor shall be provided with drainage in accordance with the requirements for baths.

The floors of shower compartments shall be well graded to the trapped outlet and shall be constructed of not less than 4 inches of concrete, trowelled smooth or covered with tiles set in cement mortar, or of other approved impervious materials, or if constructed of timber shall be covered with enamelled cast-iron, approved non-corrosive sheet metal or other approved material turned up at the edges and flashed in accordance with the requirements of section 89.

The walls of shower compartments shall be constructed of brickwork or concrete, cement rendered to a smooth finish or covered with tiles set in cement mortar or of other approved impervious materials, or if constructed of timber shall be lined with approved non-corrosive sheet metal or other approved impervious material and with impervious joints.

Section 180. *Venting of Lavatory Basins.*—All lavatory basins shall be provided with anti-syphonage vents.

In ranges of lavatory basins, ventilation by means of a single vent pipe at the upper end of the range will be permitted, provided that the vent and main waste pipe are sufficiently large to prevent syphonage.

Section 181. *Tip-up Basins.*—Tip-up lavatory basins shall not be permitted.

Division 35.—Safes and Overflows.

Section 182. *Safes.*—Safes of lead or other approved impervious material shall be fitted under all housemaids stop sinks, internal water closets, under all fixtures located on the first or higher floors and in such other positions as directed.

Section 183. *Lead Safes in Water-closets.*—All lead safes shall be laid with sheet lead weighing not less than 5 lb. per square foot, and where the whole floor is not covered with lead the safe shall extend 12 inches beyond the sides and 15 inches beyond the front of the pan, measured from the outside of the basin, and shall extend back to and 3 inches up the wall and over flashed, if directed. The roll of such safe shall be 2 inches wide and $\frac{1}{4}$ inch high.

Section 184. *Safe Overflows.*—Unless otherwise permitted, every safe shall be drained by a separate 2-in. diameter pipe, provided at the inlet with a brass grating and at the outlet into the open air with a flap valve of brass or other approved metal, and shall not connect with any waste pipe, soil pipe, drain, or sewer.

Section 185. *Cistern Overflows.*—Every cistern supplied with water shall, unless otherwise approved, have an overflow pipe of adequate size discharging in a position where it will not cause damage, but where it will act as a warning pipe. On ground floors where cisterns are fixed over impervious floors graded to drain outside of the room the overflow may discharge on to such floors, provided no damage is likely to arise therefrom.

Section 186. *Discharges From Overflows.*—Overflows may discharge into the open air above ground floor level only when the discharge will not cause any inconvenience or nuisance. In all other cases the pipes must be brought to the ground surface or be arranged to discharge where they will not prove a source of annoyance or inconvenience.

Section 187. *Existing Floors.*—Where necessary, in the opinion of the responsible officer of the Authority, every existing floor under a fixture shall be regraded and a proper waste pipe, and, if directed, a flap valve fixed.

Division 36.—Existing Fixtures.

Section 188. All existing fixtures, fittings, and appliances not in accordance with this By-law which the owner may desire to retain unaltered, and which, in the opinion of the Authority, will be inoffensive, may at the distinct request in writing of the owner only remain unaltered until such time as the Authority shall otherwise order. Existing fixtures, fittings, and appliances which, in the opinion of the Authority, are offensive shall be removed at once.

PART 6.

WATER SUPPLY.

Section 189. *Supply of Water to Fixtures.*—All water-closets and other plumbing fixtures shall be provided with a sufficient supply of water for flushing purposes to keep them at all times in proper and cleanly conditions.

Every owner of property who desires, or has been ordered by the Authority, to provide sanitary appliances for his own property and to connect his property with the sewers of the Authority, shall before or at the commencement of the work of making such connexion, provide piping approved of by the Authority for the conveyance of water, and shall cause the piping to be joined at the most convenient water supply main, or, with the permission of the Authority, to some pipe already joined to the main. Such piping shall be of capacity sufficient to supply all sanitary fittings on the property freely and continuously, and convey to the flushing cistern, flushing tank, or other flushing apparatus of each water-closet on the property enough water to fill the same at a rate of not less than 1 gallon per minute, and the owner shall cause such piping to be connected with the cistern before the completion of the work.

The water supply to any fixture shall be so arranged that there shall be an actual physical discontinuity between the water stored or used in any such fixture and that in the water service pipe.

Section 190. *Material Condition, Capacity, &c. of Water Supply Piping.*—The entire length of the water supply piping from its connexion with the water supply main to the water-closet flushing cistern or other fixture shall be such as is, in the opinion of the Authority, suitable in regard to material, condition, and capacity to convey a sufficiency of water for the sanitary requirements of the particular tenement.

The owner shall keep the piping from becoming, whether by reason of corrosion or other cause, of insufficient capacity to fill the flushing cistern, storage tank, or other flushing apparatus at the rate of not less than 1 gallon per minute.

Section 191. *Fixtures Not Connected With Sewers.*—No water service pipe shall be laid to supply any fixture in any property in any sewerage area unless such fixture is connected with the sewers of the Authority, or unless special permission in writing has been previously given to lay such service pipe.

Section 192. *Storage Tanks.*—Water supply pipes to storage tanks for internal closets shall be of not less than $\frac{1}{2}$ -in. diameter and be provided with stop taps and high-pressure ball valves, except where the elevation of the storage tank is not sufficient to allow of high-pressure ball valves being used. In such cases the permission of the Authority shall be obtained to fix low-pressure ball valves. Where the head of the water supply of the storage tank to the flushing cistern is less than 20 feet, a low-pressure ball valve shall be provided to the cistern.

Outlets from storage tanks shall not be less than $\frac{1}{2}$ inch for one or two cisterns, and 1 inch for three to six cisterns.

Wherever a larger number than six cisterns is fixed, the size of the outlet shall be proportionally increased. The overflow from a storage tank shall be $1\frac{1}{2}$ inch in diameter, and a stop tap shall be fixed on the rising supply pipe to the tank.

Full way gate valves shall be provided between storage tank and flushing apparatus.

Section 194. *Supply Pipe Connexion With Flushing Cistern.*—In all water-closets, where directed, a piece of lead or copper pipe not less than 12 inches in length shall be used between the flushing cistern and the supply pipe.

The foregoing By-law was made and passed by the Warracknabeal Sewerage Authority at a special meeting held on the 7th day of August, 1939, and confirmed at a subsequent special meeting of the Authority on the 4th day of September, 1939.

In witness whereof the common seal of the said Authority was affixed hereto in the presence of—

(SEAL) T. R. HEWITT, Chairman.
W. T. DALLY, Member.
R. LONG, Secretary.

Approved by the Governor in Council,
18th September, 1939.

C. W. KINSMAN,
Clerk of the Executive Council.

For every additional member of the family unit, there shall be added to the sum of 25s., a sum of 2s. 6d. for each such additional member		And for each unemployed dependant irrespective of age, residing with the applicant, 5s. per week: provided in any instance the total value of sustenance does not exceed £3 17s. 6d. per week		And for each unemployed dependant residing with the applicant, 5s. per week for each male dependant under 21 years of age and each female dependant irrespective of age: provided in any instance the total value of sustenance does not exceed £3 17s. 6d. per week.

(2) "Income" includes the full amount of money earned weekly by the applicant and all members of the family residing with him or with whom he is residing and any pension, allowance, bonus, commission, or other benefit, and money received from all sources except from charitable organizations or societies.

(3) For the purpose of assessing income—

- the sum of seven shillings and sixpence (7s. 6d.) of the total weekly amount paid to the applicant and the members of the family residing with him or with whom he resides by the British Government or the Commonwealth of Australia by way of pension in respect of disabilities caused by war; and
- the sum of seven shillings and sixpence (7s. 6d.) of the total weekly amount paid to members of the family residing with the applicant or with whom he resides by the Commonwealth of Australia by way of an Invalid and/or Old Age Pension; and
- 20 per cent. of the total gross earnings of the applicant and all members of the family residing with him, shall not be taken into account.

(4) In determining the value of weekly sustenance to be granted to any applicant for a family unit of an equivalent to man, wife, and one child or over in accordance with the aforesaid scales, the Registrar shall ascertain if any member of a family unit as aforesaid is in receipt of income amounting to 9s. per week or more, in which case it shall include such income in determining the total weekly amount of income of the family, but shall exclude from the family unit for the purpose of granting sustenance the number of persons receiving such income except persons in receipt of a war pension from the Government of the Commonwealth of Australia.

(5) For the purpose of these Regulations "Income" shall be deemed to include any board and lodging and maintenance or any of them received by any applicant, the value whereof for the purpose of assessing the said income shall be calculated at the actual cost or estimated value thereof to the donor but not exceeding in any case the sum of 12s. 6d. per week for each person.

(6) Sustenance shall not be granted to any applicant or his dependants whilst such applicant is in receipt of payments under the *Workers' Compensation Act 1928* as amended by Act No. 4524, 1937, except where the amount of compensation paid is less than the amount of sustenance that would ordinarily be payable in respect of the particular family unit concerned if no work were performed therefor, in which case orders amounting to the difference between such compensation and the said rate shall be issued by the Public Assistance Committee.

The issue of such orders shall be continued only for a period of four weeks after the commencement of payment of such compensation, but if the case is one of particular hardship, with the approval of the Minister, the period of four weeks may be extended or such further period as the Minister may determine.

(7) In any case where assistance is being received by a family from the Children's Welfare Department in respect of children other than those boarded out to foster parents as wards of the State, and also as sustenance or as a benevolence from a Public Assistance Committee or Benevolent Society (as the case may be) from funds provided by the Victorian Government, the total assistance so received shall not in any instance exceed the total amount of sustenance which such family would ordinarily be entitled to receive in accordance with Regulation 17 (1).

2. The last sentence in Regulation 7 of the above-mentioned Regulations is hereby repealed.

3. Regulation 16 of the said Regulations is hereby repealed and the following substituted therefor:—“Applications for sustenance shall not be granted by any Committee where the gross weekly income from all sources, including gross earnings, any pension, allowance, bonus, commission, or other benefit of the applicant and of all the members of his family residing with him exceeds the amount shown opposite the appropriate family unit in Column 1 of the table appearing in the next succeeding Regulation”.

4. Regulation 46 of the said Regulations is hereby repealed.

5. Paragraph (d) of Regulation 51 of the said Regulations is hereby repealed.

The above-mentioned amendments to Sustenance Regulations come into operation as from the 2nd day of October, 1939.

And the Honorable Edwin Joseph Mackrell, His Majesty's Minister of Labour for the State of Victoria, shall give the necessary directions herein accordingly.

C. W. KINSMAN,
Clerk of the Executive Council.

CITY OF SANDRINGHAM.

BY-LAW No. 114.

A By-law of the City of Sandringham made under sections 197, 198, and 228 of the *Local Government Act 1928*, with the approval of the Governor in Council, and numbered 114, for the purpose of altering By-law No. 76 and By-law No. 83.

IN pursuance of the powers conferred by the *Local Government Act*, and of every other power thereunto them enabling, the Mayor, Councillors, and Citizens of the City of Sandringham hereby order as follows:—

1. By-law No. 76 of the City of Sandringham for prescribing residential areas within the Municipal District is altered in the manner hereinafter appearing:—

(a) The Schedule under the heading "Hampton Ward" is altered by adding after the words and figures "Bayside-crescent, from Linacre-road to Karoola-street, to a depth of 132 feet" therein appearing, the following words and figures, namely: "Beach-road, from New-street to Linacre-road to a depth of 177 feet."

(b) The Schedule under the heading "Sandringham Ward" is altered by adding after the words and figures "Bath-street, from Bamfield-street to Queen's-square to a depth of 140 feet" therein appearing, the following words and figures, namely, "Beach-road, from Bridge-street to Edward-street (including that part of Beach-road known as 'The Crescent' save and except lots 10 and 11 on plan of subdivision No. 654, lodged in the Office of Titles, and being part of Crown portion 22, Parish of Moorabbin, and having a frontage of 115 feet or thereabouts to The Crescent, Sandringham, by depths varying between 149 feet and 298 feet) to a depth of 261 feet."

(c) The Schedule under the heading "Black Rock Ward" is altered by deleting therefrom the words and figures "Beach-road from Edward-street southerly and easterly to Tramway-parade to a depth of 288 feet" added to such Schedule by By-law No. 99 of the City of Sandringham, and by inserting in such Schedule in lieu of such words and figures the following words and figures, namely, "Beach-road, from Edward-street to Sparks-street to a depth of 288 feet, and from Sparks-street to a point 137 feet south of the south building line of Keys-street to a depth of 184 feet, and from the corner of Bodley-street and Beach-road to Cromer-road, to a depth of 133 feet."

2. This By-law shall not preclude the continuance of the use of any land or any building for any purpose for which the same was used immediately before the coming into operation of this By-law, or the enlargement, rebuilding, or extension of any building used for any such purpose, whether or not such enlargement, rebuilding, or extension involve the use of adjoining land which immediately before the coming into operation of this By-law was in the same ownership, or for such other purpose as the Council thinks reasonable in the circumstances.

3. This By-law shall not apply to any lots of land in Beach-road which are set out or shown as shop sites on any plan of subdivision sealed by the Council and lodged at the Office of Titles prior to the coming into operation of this By-law.

4. By-law No. 83 of the City of Sandringham for prescribing residential areas within the Municipal District is altered in the manner hereinafter appearing:—

(a) The First Schedule to such By-law under the heading "Black Rock Ward" is altered by deleting therefrom the following words and figures, namely, "Beach-road from Sparks-street to Tramway-parade to a depth of 188 feet."

(b) The said First Schedule under the heading "Sandringham Ward" is altered by deleting therefrom the following words and figures, namely, "Beach-road, from Bamfield-street to Melrose-street to a depth of 365 feet."

(c) The said First Schedule under the heading "Hampton Ward" is altered by deleting therefrom the following words and figures, namely, "Beach-road, from Small-street to New-street to a depth of 365 feet."

5. By-law No. 89 of the City of Sandringham is hereby repealed.

Resolution for passing this By-law agreed to by the Council the 30th day of May, 1939, and confirmed the 27th day of June, 1939.

The common seal of the Mayor, Councillors, and Citizens of the City of Sandringham was hereto affixed the 27th day of June, 1939, in the presence of—

(SEAL) FRED. L. YOTT, Mayor.
 W. L. SIMPSON, Councillor.
 FRED. G. TRICKS, Town Clerk.

Approved by the Governor in Council, the 4th day of September, 1939.—C. W. KINSMAN, Clerk of the Executive Council. 1847

CITY OF KEW.
BY-LAW No. 65.

A By-law of the City of Kew made under the provisions of the *Local Government Act 1928* as amended by the *Local Government Act 1934*, and numbered 65, for the purpose of regulating traffic on footways, and prohibiting the leaving (whether unattended or not) of motor cars or other vehicles standing in any street or road or part thereof specified in the By-law.

IN pursuance of the powers conferred by the *Local Government Act 1928*, as amended by the *Local Government Act 1934*, the Mayor, Councillors, and Citizens of the City of Kew order as follows:—

1. This By-law save as is otherwise expressed shall apply to and have operation throughout the whole of the Municipal District of the City of Kew.

2. This By-law shall come into operation and have effect immediately upon its publication in the *Government Gazette* of Victoria.

3. In this By-law, unless inconsistent with the context or subject-matter:—

"Child's vehicle" includes box on wheels, hand truck, roller skate, scooter, child's trolley, child's bicycle, and any similar contrivance.

"Council" means the Mayor, Councillors, and Citizens of the City of Kew.

"Cycle" includes bicycle, tricycle, motor cycle, and motor cycle outfit.

"Driver" includes rider of a cycle and person in charge of a vehicle.

"Footway" includes every footpath forming part of any street or highway, every footpath on land owned or leased by the Council or otherwise under its control and every lane, thoroughfare or other public place habitually used by pedestrians and not by vehicular traffic.

"Vehicle" includes every conveyance capable of being propelled, pushed or drawn by human animal mechanical electrical or other power; but does not include tram car or cycle. The singular includes the plural.

4. No person shall upon or along any footpath ride or propel a child's vehicle or cycle.

Provided that this clause shall not prohibit the propelling of a child's vehicle or cycle from the part of a street or highway used by vehicles across any part of a footpath used as a crossing to any land or building or lying immediately opposite any gate, door or entrance leading into any land or building.

5. Every person passing along any footway shall keep, unless for justifiable cause, on the left side thereof.

6. Between the hours of 5.15 p.m. and 6.30 p.m. on Monday, Tuesday, Wednesday, Thursday, or Friday, and between the hours of 12.15 p.m. and 1.30 p.m. on Saturday no driver shall leave or allow to remain standing any vehicle or cycle (whether unattended or not) in the part of High-street in the City of Kew between Princess-street and Walpole-street that lies to the north and west of a line drawn along High-street midway between the two inner tramway rails.

Provided that this clause shall not apply to any driver of a vehicle or cycle stopping for the purpose of setting down or taking up a passenger or in obedience to the direction or signal of a member of the Police Force or officer of the Council or a traffic control signal or in consequence of the stopping of a vehicle in front of him or of any accident or other unavoidable circumstance.

7. If any vehicle or cycle is left or allowed to remain standing contrary to the preceding clause any member of the Police Force or officer of the Council may remove the vehicle or cycle from the place where it has been left or allowed to remain standing, and may deposit the same at some neighbouring place of safe custody.

8. Any person who is guilty of any wilful act or default contrary to the provisions of this By-law shall be liable on conviction to a penalty of not less than Five shillings and not exceeding Five pounds for each and every offence.

Resolution for passing this By-law agreed to by the Council on the twenty-fifth day of July, 1939, and confirmed on the twenty-second day of August, 1939.

The common seal of the Mayor, Councillors, and Citizens of the City of Kew was affixed hereto this twenty-fifth day of August, 1939, in the presence of—

(SEAL) J. T. GAZZARD, Mayor.
W. D. BIRRELL, Town Clerk.

Approved by the Governor in Council the 11th day of September, 1939, in so far as it has regard to prohibiting the leaving of motor cars standing in any street or road and any matter relevant thereto.—C. W. KINSMAN, Clerk of the Executive Council.—1845

CITY OF SANDRINGHAM.
BY-LAW No. 111.

A By-law of the City of Sandringham made under section 228 of the *Local Government Act 1928*, and numbered 111, for the purpose of altering By-laws Nos. 76 and 83.

IN pursuance of the powers conferred by the *Local Government Acts*, and of every other power thereunto them enabling, the Mayor, Councillors, and Citizens of the City of Sandringham hereby order as follows:—

1. By-law No. 76 of the City of Sandringham for prescribing residential areas within the Municipal District is altered to the following extent, namely:—

After the words and figures "Balcombe-road from Ebdon-avenue to Cromer-road to a depth of 290 feet" under the heading "Black Rock Ward" in the schedule to the said By-law No. 76, the following words and figures, namely, "Bluff-road, on the west side to a depth of 210 feet from the south building line of Edward-street to the north building line of Eliza-street, and from the south building line of Love-street to the north building line of Sylvia-crescent; and on the east side to a depth of 210 feet from the south building line of Tulip-street to a point 140 feet south of the south building line of Arkaringa-crescent east, and from a point 140 feet north of the north building line of Ardoyne-street to the north building line of Karrakatta-street", are hereby inserted.

2. By-law No. 83 of the City of Sandringham, for prescribing residential areas within the Municipal District, is altered to the following extent, namely:—

The words and figures "Balcombe-road both sides from Beach-road to George-street, by a depth of 150 feet" in the Second Schedule to the said By-law under the heading "Black Rock Ward", are hereby deleted.

Resolution for passing this By-law agreed to by the Council on the twenty-ninth day of November, One thousand nine hundred and thirty-eight, and confirmed on the seventh day of February, One thousand nine hundred and thirty-nine.

The common seal of the Mayor, Councillors, and Citizens of the City of Sandringham was hereto affixed this 11th day of February, One thousand nine hundred and thirty-nine, in the presence of—

(SEAL) FRED. L. YOTT, Mayor.
R. J. SILLITOE, Councillor.
FRED. G. TRICKS, Town Clerk.

Approved by the Governor in Council, this 4th day of September, 1939.—C. W. KINSMAN, Clerk of the Executive Council. 1846

Dated this 12th day of September, One thousand nine hundred and thirty-nine.

1899 H. E. CLAREY, Town Clerk.

SHIRE OF WODONGA.

BY-LAW No. 25.

A By-law of the Shire of Wodonga made under section 197 of the *Local Government Act 1928* and numbered 25, and also as Rules and Regulations under section 6 of the *Police Offences Act 1928* for regulating street traffic.

IN pursuance of the powers conferred by section 197 of the *Local Government Act 1928*, and section 6 of the *Police Offences Act 1928*, the President, Councillors, and Ratepayers of the Shire of Wodonga order as follows:—

1. In this By-law, unless the context otherwise requires—

“Cattle” includes every animal of the horse, ass, mule, ox, sheep, goat and swine species respectively.

“Shire” means the Shire of Wodonga.

“Council” means the Council of the Shire of Wodonga.

“Driver” means any person in charge of a vehicle.

“Footway” includes every footpath, lane, thoroughfare, or public place within the Township of Wodonga, or any additional area defined by Council habitually used by pedestrians and not by vehicular traffic.

“Horse” includes mule or donkey.

“Motor car” means any conveyance propelled by steam, gas, oil, electricity or any other mechanical power, and includes motor cycle and/or trailer.

“Licensed” means licensed by the Council.

“Rider” means any person in charge of a horse.

“Motor cycle” means a motor car which has only two wheels, but includes a motor cycle having a trailer, forecar or sidecar attached thereto.

“Street” includes every highway, road, carriageway, lane, thoroughfare or other public place within the Shire other than a footway.

“Public place” includes and applies to every highway, road, street, footpath, court, alley, passage, or thoroughfare notwithstanding that such public place, highway, road, street, footpath, court, alley, passage or thoroughfare may be formed on private property and/or on any public park or reserve.

“Vehicle” means any conveyance drawn or propelled by human animal or mechanical power, and includes a motor car.

Words importing the masculine gender include females, and words in the singular include the plural, and words in the plural include the singular.

2. The driver of a vehicle upon any street, or the rider of a horse upon any street, shall, except in so far as shall be necessary for the purpose of avoiding a collision or for other justifiable cause—

(1) Keep the same as near as practicable to the footway on his left or near side.

(2) When meeting a vehicle, horse or a pedestrian keep on the near side of the street.

(3) When passing by any vehicle, horse or pedestrian going in the same direction go on the right or off side of such vehicle, horse or pedestrian.

(4) (a) Before stopping in any street, give ample notice of his intention so to do by holding up his whip or his hand in a vertical position; or

(b) before turning round in any street or turning from one street towards the right into another, give ample notice of his intention so to do by extending his right arm to the right at full length and parallel with his right shoulder so that the same may be seen by any person immediately following, and (in the case of the driver of a vehicle) upon stopping so place his vehicle as to cause as little obstruction as possible to the traffic, and if his stopping prevents the passing of any other vehicle he shall upon being required so to do by the driver of such other vehicle or by any member of the Police Force or Officer of the Council forthwith remove his vehicle so as to permit such other vehicle to pass and if his stopping interrupts or delays traffic, he shall forthwith remove his vehicle so as to discontinue such interruption or delay.

(5) Before turning to the right or off side from one street into another, drive or ride parallel to the footway or boundary upon the left or near side of the street which he is leaving until he is past the Council's traffic disc (if any) and as near as practicable to the left hand side of the street which he is entering.

(6) Not except as is provided in paragraph 14 hereof leave such vehicle stationary or unattended unless the same is left facing the kerb at an angle of 45 degrees therefrom, and as near thereto as practicable, and if required by an officer of the Council or a member of the Police Force, will remove such vehicle to and leave such vehicle in such place in such street or declared parking area as may be indicated by such Officer of the Council or member of the Police Force.

(7) Not leave such vehicle stationary or unattended on the right or off side of any other vehicle or in such a position as to obstruct traffic.

(8) Not leave such vehicle stationary or unattended at the kerb within a distance of thirty feet from an intersection.

(9) Not leave such vehicle stationary or unattended in front of a private entrance or right of way.

(10) When drawing up at any street intersection to await the signal of the Police Officer or Officer of the Council directing the traffic to proceed, if desirous of turning to the left into an intersecting street, stand as near as practicable to the kerb.

(11) When approaching an intersection which he intends to cross, grant the right of way to a vehicle approaching from his right provided that this subsection shall not apply to any intersection where a traffic officer is stationed.

(12) Not stop on any licensed motor-car stand fixed or appointed by the Council unless (being the driver of a licensed motor car and such stand being vacant) for the purpose of taking up his authorized position thereon.

(13) Not stop on any licensed cab stand fixed or appointed by the Council, unless (being the driver of a licensed cab and such stand being vacant) for the purpose of duly taking his authorized position thereon.

(14) Not stop except for the purpose of putting down or taking up passengers between the hours of 8 o'clock in the morning and 8 o'clock in the evening on any day on which cattle are sold or are to be sold in the Wodonga market yards—

(a) In any part of Elgin-street (Sydney-road) between Dick and Smythe streets.

(b) In any part of Market-street between Elgin-street (Sydney-road) and the railway trucking yards.

(c) On the east side of that section of Dick-street between Elgin-street and Stanley-street.

(d) In any part of Smythe-street between Elgin-street (Sydney-road) and Railway Reserve—the area used as approach to pig trucking section of railway yards.

3. The person in charge of any horse shall not suffer or permit the same to stop, stand or remain between the hours of 8 o'clock in the morning and 8 o'clock in the evening on any day on which cattle are sold or to be sold in the Wodonga Market yards—

(a) In any part of Elgin-street (Sydney-road) between Dick-street and Smythe-street.

(b) In any part of Market-street between Elgin-street (Sydney-road) and the railway trucking yards.

(c) On the east side of that section of Dick-street between Elgin-street and Stanley-street.

(d) On the north side of Stanley-street between Dick-street and Smythe-street.

4. The driver of a vehicle upon any street shall—

(1) When stopping for the purpose of taking up or setting down any passengers, do so as near as practicable to the footpath on his left or near side.

(2) Not drive the same in competition with or to the annoyance of any other person so as to block or immediately and closely proceed or follow or intentionally conform to the progress of any other vehicle.

5. No person shall—

(a) Drive a motor car or vehicle in Railway-avenue except in a westerly direction.

(b) Leave any motor car or vehicle (whether unattended or not) stationary in Railway-avenue except for the purpose of picking up or setting down passengers or goods; in the latter case no vehicle shall be left stationary for any length of time in excess of fifteen minutes.

6. No person shall between sunset and sunrise drive any vehicle upon any street unless a good and serviceable lamp suitable to such vehicle is securely fixed at the right or off side of the front of such vehicle and is lighted and so placed that the light thereon is distinctly visible to persons in front of such vehicle as a white light and to persons at the rear of such vehicle as a red light: Provided that in any case where a red tail light is used it shall not be necessary that the lights fixed as aforesaid shall be visible from the rear: Provided further that where any part of a vehicle or its load projects more than three feet beyond the rear wheels of such vehicle a lighted lamp shall be kept attached to the rearward extremity of such part or load respectively in such a position and manner as to show a red light clearly visible to any person approaching such vehicle from the rear or passing such vehicle from the front: Provided also that, in case of a bicycle one front white light shall be sufficient.

7. No person shall drive any vehicle upon any street or permit any vehicle to be driven upon any street unless such vehicle is so constructed as to enable the driver thereof to have a full and uninterrupted view of the street traffic in front of him and abreast of him on each side of such vehicle and no person while driving any vehicle upon any street shall occupy such position as will prevent or interfere with his having full and uninterrupted view as aforesaid.

8. No person shall ride any horse or drive any vehicle along any street in such manner, or in such order that more than two ridden horses, or two vehicles, or a vehicle and a ridden horse are travelling side by side in the same direction. The foregoing provisions of this section shall not apply to horses or vehicles which form part of a duly authorized procession.

9. No person shall ride any horse or other animal or drive any horse or cattle, or drive or impel any vehicle upon any footpath: Provided however that a bicycle or motor bicycle may be taken across any footpath direct to or from any premises abutting therein.

10. Any persons obstructing any carriage-way, footpath, or public place within the Shire of Wodonga by standing or loitering therein or thereon, shall upon being required so to do by any member of the Police Force, discontinue such standing or loitering.

11. The driver of a hire-car, bus or public conveyance shall not, except to pick up or let down passengers or parcels, stand his car or allow the same to remain stationary in any street, except on the authorized hire-car stand, which will be situate as defined by signs "Hire-car Stand" at a position on the west side of Sydney-street, commencing at a point twenty feet from the intersection of that side of that street with the south side of South-street, and extending southwards for a distance of sixty feet.

12. The owner or person apparently in control of any motor car or other vehicle left standing (whether unattended or not) in any street or road shall give information with respect to any person (other than the said owner or person apparently in control) who is or was the driver of such motor car or vehicle which may lead to the identification of any person who is leaving or has left such motor car or vehicle in contravention of any By-law.

13. No person shall leave any motor car or vehicle standing (whether unattended or not) in Sydney-street between Stanley-street and South-street, continuously for a greater length of time than one hour.

14. No person shall leave any vehicle stationary or unattended in Sydney-street—

(a) Between Stanley-street and South-street unless the same is left facing the kerb and at an angle of 30 degrees therefrom and as near as practicable thereto in such manner that no part of the vehicle, its contents or load, shall project more than sixteen feet from the kerb measured in a line at right angles to the kerb.

(b) Between South-street and Osborne-street in such manner that no part of the vehicle, its contents or load, shall project more than sixteen feet from the kerb measured in a line at right angles to the kerb.

15. Every person in the Shire of Wodonga shall—

(1) In respect of all or any of the following matters, that is to say:—

(a) Approaching or departing from any footpath or street;

(b) the manner of taking up or setting down passengers or loading or unloading goods in any footpath or street; or

(c) the regulation of traffic in any footpath or street,

at all times obey and conform to any notice in writing under the hand or by direction of the President or in his absence or in the case of sudden emergency under the hand of the Shire Engineer or the officer in charge of the Wodonga police, and shall at all times observe and comply with any reasonable order of any member of the Police Force or Officer of the Council.

(2) Upon any member of the Police Force or Officer of the Council in order to enforce the due observation of any law, By-law, regulation, or lawful notice, holding up his hand or giving any order or direction, stop for so long or proceed in such manner and direction as such member of the Police Force or Officer of the Council deems necessary to allow free space between any persons, processions, vehicles or for cross traffic or for any other like purpose.

(3) If any vehicle or horse in his charge is causing or likely to cause obstruction to the traffic upon any street, and if he is directed by any member of the Police Force or Officer of the Council to remove any such horse or vehicle, remove the same either from the vicinity or to some adjacent part of that

or some neighbouring street or declared parking area as he is directed by the member of the Police Force or Officer of the Council.

(4) On the request of any member of the Police Force or Officer of the Council produce to him for inspection any order leave licence or other written authority relating to traffic in the Shire held by such person.

(5) Any person who neglects or refuses to immediately comply with or wilfully disobeys any direction or order or request given or made as aforesaid, shall be guilty of an offence against this By-law.

Any person offending against this By-law shall for each offence, upon conviction, forfeit and pay a penalty or sum not exceeding Five pounds.

This By-law shall apply to and have operation throughout the whole of the Township of Wodonga and the Shire of Wodonga.

Resolution for passing this By-law agreed to by this Council of the Shire of Wodonga, on the third day of May, 1939.

Confirmed seventh day of June, 1939.

The common seal of the Shire of Wodonga was hereto affixed this seventh day of June, 1939, in the presence of—

M. MARTIN, President.

(SEAL) G. A. W. BOYES, Councillor.

L. H. SAMBELL, Shire Secretary.

Approved by the Governor in Council this 31st day of July, 1939, in so far as it has regard to prohibiting the leaving of motor cars standing in any street or road and any matter relevant thereto.—C. W. KINSMAN, Clerk of the Executive Council. 1852

SHIRE OF EUROA.

LOAN No. 11.

Notice of Intention to Borrow the Sum of One Thousand three Hundred and Fifty Pounds (£1,350) for Permanent Works and Undertakings in the Shire of Euroa.

TAKE notice that the Council of the Shire of Euroa proposes to borrow, on the credit of the President, Councillors, and Ratepayers of the said Shire, the sum of One thousand three hundred and fifty pounds (£1,350), such sum to be raised by the issue of debentures in accordance with the provisions of the *Local Government Act 1928*.

The maximum rate of interest that may be paid is £4 15s. per centum per annum.

Such moneys shall be repayable by fourteen equal half-yearly instalments of £114 9s. 6d. each, including principal and interest, by providing out of the Municipal Fund such amounts on the first day of November and the first day of May in each respective year during the currency of the loan.

Such moneys shall be repayable at Melbourne, at the National Bank of Australasia Limited, or at the Council's bankers for the time being in Melbourne.

The purposes for which the loan is to be applied are:—

"For the purchase of roadmaking machinery and road works within the Shire," £1,350.

The plans, specifications, and estimate of the cost of the works referred to above, and a statement showing the proposed expenditure of money to be borrowed, are open for inspection at the Shire Office, Euroa.

Dated this 14th day of September, One thousand nine hundred and thirty-nine. 1830 A. L. HEMLEY, Shire Secretary.

SHIRE OF FERNTREE GULLY.

LOAN No. 37.

NOTICE is hereby given that the Council of the Shire of Ferntree Gully, at a meeting held on the 14th August, 1939, did pass, and subsequently, at a meeting held on the 11th September, 1939, did confirm the following Special Order:—

"To borrow the sum of Six thousand pounds (£6,000) by the issue of debentures for such amount upon the credit of the Shire.

The rate of interest to be paid on the money proposed to be borrowed is Four pounds twelve shillings and six pence (£4 12s. 6d.) per centum per annum.

The moneys borrowed and interest thereon shall be repayable by twenty half-yearly instalments, including principal and interest, on the first days of the months of April and October in each year from the year 1940 to the year 1949, the first repayment to be made on the first day of April, 1940.

Such moneys shall be repayable at the English, Scottish, and Australian Bank Limited, Melbourne, or at the Council's bankers for the time being in Melbourne.

The loan shall be applied for the purpose of defraying the cost and expenses of private streets construction in respect of which certain persons are liable to pay by instalments as provided in section 582 of the *Local Government Act 1928*."
