## REGULATION 88.

IN the exercise of the powers in that behalf conferred on them by the Railways Acts, the Victorian Railways Commissioners do hereby alter, to the extent set out hereunder, Regulation No. 66 made by them on the sixth day of November, One thousand nine hundred and eighteen, and confirmed by His Excellency the Governor in Council on the nineteenth day of November in that said year.

1. For sub-clause (c) of clause 97 of the said Regulation there shall be substituted the following clause, namely:—

(c) Hand Detonators must be placed as nearly as possible in the centre of the rail and the clasps bent round the upper flange of the rail to prevent them from falling off.

After having fixed the Detonators on the rail at the distance prescribed by any rule, regulation, or instruction, the employee whose duty it is to exhibit the Hand Signal must place himself between the Detonators and the Fixed Signal or obstruction for which he is signalling and so exhibit the Hand Signal that it may be seen by the Driver immediately after the engine or train has exploded the detonators.

2. This amendment shall become effective on the 23rd day of September, One thousand nine hundred and forty.

The common seal of the Victorian Railways Commissioners was hereto affixed this twelfth day of September, One thousand nine hundred and forty, in the presence of—

(SEAL) N. C. HARRIS, } Victorian  
M. J. CANNY, } Railways  
R. G. WISHART, } Commissioners.

Confirmed by the Governor in Council,  
23rd September, 1940.

C. W. KINSMAN,  
Clerk of the Executive Council.

## SHIRE OF TRARALGON.

## ORDER DECLARING A PUBLIC HIGHWAY.

IN pursuance of the powers conferred by sections 521 and 525 of the *Local Government Act 1928*, the Council of the Shire of Traralgon do hereby order that the land next hereunder described shall be a public highway from and after the date of the publication of this Order in the *Government Gazette* of the State of Victoria, namely:—

All that piece or parcel of land in the Parish of Boola Boola, County of Tanjil, which is more particularly defined as follows:—

Commencing at the north-western angle of Crown allotment 25b of the above-named parish, and bounded thence by lines bearing S. 50 deg. 50 min. E. 39.2 links, S. 73 deg. 38 min. E. for 902.5 links, S. 49 deg. 7 min. E. 606.6 links, S. 72 deg. 10 min. E. for 300.4 links, N. 80 deg. 5 min. E. 566 links, N. 78 deg. 11 min. E. for 816.1 links, S. 82 deg. 1 min. E. 384.6 links, S. 30 deg. 41 min. E. for 328.8 links, S. 78 deg. 48 min. E. 210.6 links, N. 76 deg. 24 min. E. for 514.9 links, N. 43 deg. 7 min. E. 80.1 links, S. 83 deg. 56 min. W. for 109.3 links, N. 0 deg. 13 min. E. 42.9 links, S. 78 deg. 24 min. W. for 461.7 links, N. 78 deg. 48 min. W. 144 links, N. 30 deg. 41 min. W. for 332.2 links, N. 82 deg. 1 min. W. 450 links, S. 78 deg. 11 min. W. for 823.9 links, S. 89 deg. 5 min. W. 540 links, N. 72 deg. 10 min. W. for 263.6 links, N. 49 deg. 7 min. W. 607.8 links, N. 73 deg. 38 min. W. for 456.3 links, N. 83 deg. 11 min. W. 511.2 links to the point of commencement.

Again, commencing at the southern end of the common boundary of Crown allotments 22b and 25A of the above-named parish; and bounded thence by the said common boundary bearing N. 0 deg. 13 min. E. 143 links, and by lines bearing S. 78 deg. 14 min. E. 375 links, S. 32 deg. E. 501.6 links, S. 73 deg. 38 min. E. 84.5 links, N. 83 deg. 11 min. W. 80.6 links, N. 50 deg. 50 min. W. 469 links, N. 74 deg. 3 min. W. 281.5 link; to the point of commencement.

The Council further orders that the property above described shall be a public highway in lieu of the portion of the existing surveyed road hereunder described, and which said portion shall cease to be a public highway from and after the above-mentioned date of publication of this Order, namely:—

All that piece and parcel of land in the Parish of Boola Boola, County of Tanjil, which is more particularly described as follows:—Commencing at the southern extremity of the common boundary between Crown allotments 22b and 24A of the above-named parish; and bounded thence by lines of bearing S. 0 deg. 13 min. W. 100.7 links, N. 83 deg. 9 min. W. 240.4 links, S. 81 deg. 16 min. W. 926 links, N. 73 deg. 37 min. W. 832 links, N. 83 deg. 11 min. W. 748 links, N. 73 deg. 38 min. W. 602.7 links, S. 83 deg. 11 min. E. 1,351.4 links, S. 73 deg. 37 min. E. 819 links, N. 81 deg. 16 min. E. 918 links, S. 83 deg. 9 min. E. 246 links to the point of commencement.

The common seal of the President, Councillors, and Rate-payers of the Shire of Traralgon was hereunto attached this tenth day of May, 1940, in the presence of—

(SEAL) A. E. WHATELEY, President.  
J. H. ROGERS, Councillor.  
D. MACCUBBIN, Councillor.  
E. M. WEST, Shire Secretary.

Confirmed by the Governor in Council,  
23rd September, 1940.

C. W. KINSMAN,  
Clerk of the Executive Council.

## SHIRE OF MANSFIELD.

## ROAD DEVIATION.

IN pursuance of the powers conferred by sections 521 and 525 of the *Local Government Act 1928*, the Council of the Shire of Mansfield do hereby order that the lands hereinafter described shall be a public highway from and after the publication of this Order in the *Government Gazette*, namely:—

All that piece of land being part of allotments 108c and 108f, Parish of Doolam, County of Delatite, commencing at a point on the southern boundary line of said allotment 108c, which point is distant 120 links west from the south-east corner or angle of said allotment; thence 153 deg. 43 min. for 274 1/10 links; thence 179

deg. 41 min. for 228 6/10 links; thence 333 deg. 43 min. for 501 links; thence 357 deg. 54 min. for 987 5/10 links; thence 359 deg. 41 min. for 1 5/10 links; thence 89 deg. 41 min. for 100 links; thence 177 deg. 54 min. for 964 5/10 links to the point of commencement.

And the said Council doth hereby further declare that the land above described shall, from the date of publication in the said *Government Gazette*, be a public highway in lieu of the following piece of land, namely:—

All that piece of land being part of a Government road adjoining said Crown allotments 108c and 108f, Parish of Doolam, commencing at the south-east corner of said allotment 108c; thence 359 deg. 41 min. for 964 links; thence 269 deg. 41 min. for 150 links; thence 359 deg. 41 min. for 100 links; thence 89 deg. 41 min. for 250 links; thence 179 deg. 41 min. for 1,515 7/10 links; thence 333 deg. 43 min. for 228 6/10 links; thence 359 deg. 41 min. for 246 4/10 links to the point of commencement.

Dated the fourth day of September, One thousand nine hundred and forty.

The common seal of the President, Councillors, and Rate-payers of the Shire of Mansfield was hereto affixed, in the presence of—

(SEAL) D. P. BEGLEY, Councillor.  
J. LLEWELLYN, Councillor.  
E. W. FINLASON, Secretary.

Confirmed by the Governor in Council,  
23rd September, 1940.

C. W. KINSMAN,  
Clerk of the Executive Council.

FACTORIES AND SHOPS ACTS.

At the Executive Council Chamber, Melbourne, the  
twenty-third day of September, 1940.

PRESENT:

His Excellency the Governor of Victoria.  
Mr. Lind | Mr. Tuckett.  
Mr. Hogan

CONSTITUTION OF A MUSICIANS TRADE TRIBUNAL  
TO HEAR AND DETERMINE PROCEEDINGS TRANS-  
FERRED TO IT BY THE COURT OF PETTY SESSIONS  
AT SUNBURY ON THE SECOND DAY OF AUGUST, 1940.

WHEREAS, pursuant to the *Factories and Shops Act 1934*, the Governor in Council, by a Proclamation made on the 4th day of May, 1937, and published in the *Government Gazette* on the 5th day of May, 1937, declared that section 40 of the said Act shall extend and apply to and in respect of the trade of a person employed—

As a player of any musical instrument.

And whereas by such Proclamation the Governor in Council appointed a Trade Tribunal, styled the Musicians Trade Tribunal, to have, exercise, and perform, in relation to the trade above specified, the powers and duties conferred by section 40 of the said Act, upon the Bread Trade Tribunal: And whereas section 40 of the said Act, *inter alia*, provides that when the provisions thereof are by Proclamation extended to a trade other than the trade of making or baking bread, or the trade of delivering bread, any reference in such section to a Bread Trade Tribunal shall be read and construed as a reference to the Trade Tribunal appointed by such Proclamation: And whereas it is enacted by section 40 of the said Act that the Musicians Trade Tribunal shall consist of a President and two other persons, and shall be constituted from time to time as occasion requires by Order published in the *Government Gazette*: And whereas by the said Act it is further enacted that the President of the said Tribunal shall be such one of the Judges of County Courts as the Governor in Council appoints, that the said President shall be entitled to hold office as President for such period as the Governor in Council thinks fit, and that the said President shall sit in every Musicians Trade Tribunal constituted from time to time: And whereas by section 40 of the said Act it is further enacted that the two other persons constituting a Musicians Trade Tribunal shall be such persons as are appointed by the Governor in Council upon nomination as therein provided, but they shall only act in the Musicians Trade Tribunal for which they are appointed: And whereas the Court of Petty Sessions at Sunbury did, on the second day of August, 1940, pursuant

to section 40 of the said Act, order that proceedings instituted by John Moffatt Whyte, an Inspector of Factories and Shops, against F. Taylor, of Oval Hotel, Diggers Rest, for that at Diggers Rest in the Shire of Melton, in the Central Bailiwick, after the coming into operation of a certain Determination of the Musicians Board, being a Wages Board appointed by the Governor in Council under the powers in that behalf conferred upon him by the Factories and Shops Acts, duly made under the said Act, he did in respect of the week ending the eighth day of March, 1940, employ one Conrad Power within the meaning of the said Determination at a lower rate of wages than the rate determined by the aforesaid Board, be transferred to a Musicians Trade Tribunal: And whereas the Governor in Council by an Order in Council dated the sixth day of March, 1939, appointed Alfred William Foster, Esq., one of the Judges of County Courts, President of the Musicians Trade Tribunal: Now therefore His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council, doth by this Order hereby appoint the following two persons to act in the Musicians Trade Tribunal, constituted by this Order:—

- (1) T. H. MITCHELL, of Comedy Theatre, Melbourne, a person who has been bona fide and actually engaged in the trade concerned for at least six months during the three years immediately preceding nomination, duly nominated by the representatives of employers on the Musicians Board, whose Determination is alleged to have been contravened by the above-mentioned F. Taylor; and
- (2) W. H. S. LAMBLE, of 188 Little Collins-street, Melbourne, a person who has been bona fide and actually engaged in the trade concerned for at least six months during the last three years immediately preceding nomination, duly nominated by the representatives of employees on the Musicians Board, whose Determination is alleged to have been contravened by the above-mentioned F. Taylor.

And doth by this Order hereby constitute a Musicians Trade Tribunal, consisting of Alfred William Foster, Judge of County Courts, the President thereof, and T. H. Mitchell and W. H. S. Lamble, the two persons above mentioned, to hear and determine the proceedings transferred to it by the said Court of Petty Sessions at Sunbury, as aforesaid, on the second day of August, 1940.

And the Honorable Edwin Joseph Mackrell, His Majesty's Minister of Labour for the State of Victoria, shall give the necessary directions herein accordingly.

C. W. KINSMAN,  
Clerk of the Executive Council.

PUBLIC SERVICE ACT 1928.

At the Executive Council Chamber, Melbourne, the  
twenty-third day of September, 1940.

PRESENT:

His Excellency the Governor of Victoria.  
Mr. Lind | Mr. Tuckett.  
Mr. Hogan

PERMISSION FOR AN OFFICER OF THE PUBLIC  
SERVICE TO ENGAGE IN DUTIES UNCONNECTED  
WITH HIS OFFICE AND TO RECEIVE REMUNERATION  
THEREFOR.

UNDER the provisions of section 161 of the *Public Service Act 1928*, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth by this Order grant permission to the under-mentioned officer of the Public Service to engage in the work specified below and to receive remuneration therefor, subject to the conditions that the work be performed by him only during hours outside the ordinary hours fixed for the discharge of his duties in the Public Service:—

J. E. MAMOUNEY, Labour Department, to act as a sporting commentator for a broadcasting station.

And the Honorable Albert Arthur Dunstan, His Majesty's Premier for the State of Victoria, shall give the necessary directions herein accordingly.

C. W. KINSMAN,  
Clerk of the Executive Council.

- "Insulated" shall mean separated from adjacent conducting material or protected from personal contact by a non-conducting substance, or an air-space in either case offering permanently sufficient resistance to the passage of current, or to disruptive discharges through or over the surface of the substance or space to obviate danger of shock and/or injurious leakage of current.
- "Live (alive)"—An object shall be said to be live (alive) when a difference of potential exists or may normally exist between it and earth.
- "Neutral (neutral conductor or mid-wire)" shall mean that conductor of a three-wire or multi-wire system which is maintained at an intermediate and approximately uniform potential in respect to the active or outer conductors.
- "Non-ignitable" shall mean that the material shall neither burn nor give off inflammable vapours in sufficient quantity to ignite a pilot flame when heated for one minute at a temperature of 200°C. in accordance with the method described in British Standard Specification No. 488.
- "Open sparking" shall mean sparking which, owing to lack of adequate provisions, would ignite inflammable gas external to the apparatus.
- "Pressure" shall mean potential differences between conductors of the following values at the point at which the supply is delivered:—
- Extra low—normally not exceeding 32 volts alternating current or 115 volts direct current.
  - Low—normally exceeding 32 volts alternating current or 115 volts direct current, but not exceeding 250 volts in either case.
  - Medium—normally exceeding 250 volts, but not exceeding 650 volts.
  - High—normally exceeding 650 volts, but not exceeding 6,600 volts.
  - Extra high—normally exceeding 6,600 volts.
- "Source of supply" shall mean the generator, converter, or transformer (or group of generators, converters, or transformers) to which the supply mains conveying electricity to any particular mine are connected, and which generates, converts, or transforms the electricity so supplied to that mine.
- "Switch, gear" shall mean apparatus for controlling the distribution of electricity or for controlling and/or protecting circuits, machines, transformers, and/or other apparatus.
- "System" shall mean an electrical system in which all the conductors and apparatus are electrically connected to a common source of supply.
- "Trailing cable" shall mean a cable, the conductors, insulation, and covering of which are such as to afford flexibility, the covering also providing mechanical protection.

## GENERAL REQUIREMENTS AND WORKMANSHIP.

*General.*

5. *Notice of Intention to Use Electricity.*—The Manager shall send to the Inspector for the district notices as follows:—
- (a) Notice of the intention to commence the use of electricity in a mine or in any ventilating district in a mine.
  - (b) Notice of the intention to introduce or re-introduce electricity into a mine where the use of such has been previously prohibited by these Regulations.
  - (c) If the Inspector does not object in writing within one calendar month from the receipt by him of the notice, to the carrying out of either of the intentions specified, the Manager shall be entitled to carry out such intention or intentions.
6. *Notices to be Exhibited.*—(a) The following notices shall be exhibited in every place containing fixed apparatus other than cables, gate-end boxes, telephone and signalling apparatus—
- (i) A notice containing directions as to resuscitation of persons suffering from electric shock;
  - (ii) a notice containing directions as to procedure in case of fire;
  - (iii) a notice prohibiting any person other than an authorized person from handling or interfering with apparatus.
- (b) A notice containing instructions for communicating with the competent person authorized under clause (b) of regulation No. 14 shall be exhibited at the pit bottom or main distributing centre below ground.
- (c) All notices shall be constructed of durable material, and when defaced, obliterated, or destroyed shall be renewed forthwith.
7. *Plan of Electrical System.*—A separate plan to a scale not smaller than 2 chains to 1 inch shall be kept at the mine showing the position, size, and duty of all fixed electrical machinery and cables inside the mine. This plan shall be corrected as often as may be necessary to keep it as nearly as practicable up to date, and shall be never more than three

months in arrears. The Inspector shall be entitled to examine the plan, and for official purposes only to make a copy of every part thereof.

8. *Fire Prevention.*—Fire buckets, filled with clean dry sand or stone dust, or an approved chemical fire extinguisher shall be kept in every place containing fixed apparatus other than cables, gate-end boxes, telephone and signalling apparatus ready for immediate use in extinguishing fires.

9. *Rooms Containing Apparatus.*—(a) Except with the permission of the Manager, no person other than an authorized person shall enter any apparatus room; and no person shall wilfully damage, interfere with, or without proper authority remove or render useless any electrical conductor or apparatus or part thereof used in connexion with the supply or use of electricity.

(b) All apparatus supplied at high or extra high pressure shall be so marked by the use of the words "Danger" and the voltage in large block letters as to clearly indicate that they are at high pressure.

(c) Every room or chamber in which electrical apparatus is housed shall be kept as dry as practicable and free from debris.

(d) Any unattended apparatus room on the surface containing exposed conductors or switch gear that can be interfered with shall be locked.

10. *Insulation of System.*—In every complete lighting and power circuit the insulation resistance between conductors and earth, and the insulation resistance between the case or frame and live metal parts of any apparatus shall be so maintained that when tested with an instrument designed for measuring insulation resistance, and the testing pressure of which is 500 volts, the insulation resistance shall not be lower than 1 megohm, and in the event of that value not being obtained suitable steps shall be taken to localize and remedy the defect.

11. *Precautions During Operation and Repair of Apparatus and Cables.*—(a) Where the live parts of apparatus supplied at a pressure exceeding 32 volts may have to be handled for the purpose of adjustment, or for wiping or oiling, gloves or mats of indiarubber or other non-conducting material shall be supplied by the Manager, and shall be used by the attendants.

(b) Rubber gloves alone shall not be used for work on high or extra high pressure circuits.

(c) With the exception of testing, wiping, and oiling, the maintenance, repair, or alteration of any electrical apparatus shall only be carried out after the disconnection of such apparatus from the source of supply.

(d) Adequate precautions shall be taken by earthing or other suitable means to discharge electrically any conductor or apparatus, or any adjacent apparatus, if there is any risk of shock therefrom, before it is handled, and to prevent any conductor or apparatus from being accidentally or inadvertently electrically charged when persons are working thereon.

*Staff.*

12. *Mine Electrician.*—(a) Where electricity exceeding in the aggregate 30 kilowatts is used in or about any mine for power and/or lighting purposes, a competent person shall be appointed as Mine Electrician, who shall be subject to the authority of the Manager, and in his absence the Under-Manager, and shall have charge of all electrical machinery and apparatus in or about the mine.

(b) For the purposes of determining whether a competent person shall be appointed in accordance with the provisions of clause (a), where the source of supply of electricity is external to a mine, or where in the case of any other installation at a mine the load may be in excess of 30 kilowatts, the Chief Mining Inspector may by order under his hand arrange for a sealed maximum demand meter reading in kilowatts to be installed at the mine for such length of time as he thinks fit in order to determine the load.

13. *Competent Persons.*—The Manager, or in his absence the Under-Manager, shall appoint in writing such competent persons as may be necessary for the efficient supervision, maintenance, and testing of the electrical equipment, and also to ensure compliance with these Regulations.

14. *Attendance of Staff.*—(a) The Mine Electrician, or a duly appointed competent person, shall be in daily attendance at the mine when the electrical apparatus or machinery is in use.

(b) During the time any cable below ground is alive, a competent person authorized to operate the switch gear controlling the electrical energy entering the mine shall be readily available to operate the switch gear in case of emergency.

*Workmanship and Requirements Above Ground.*

15. *Quality of Materials and Workmanship.*—(a) All electrical apparatus and conductors shall be constructed and installed in accordance with the requirements of the relevant Standard Specifications and Wiring Rules of the Standards Association of Australia and in vogue at the time of purchase and installation of the apparatus and conductors.

(b) In the event of a relevant Standard Specification of the Standards Association of Australia not existing, the relevant Standard Specification of the British Standards Institution shall apply in clause (a) of this Regulation.

16. *Switch Gear at Source of Supply.*—Suitable switch gear and instruments shall be provided for the efficient and safe control of each generator, converter, transformer, and/or main feeder supplying electrical energy to the mine.

17. *Lightning Arresters.*—All aerial conductors between the source of supply and the electrical system below ground shall be fitted with lightning arresters (on each pole or phase) placed external to all buildings.

18. *Earthing of System.*—The neutral conductors of all electrical systems shall be earthed by direct connexion to an effective earthing system at the surface of the mine, except that in a concentric system with a bare outer conductor the outer conductor only shall be earthed.

#### *Workmanship and Requirements Below Ground.*

19. *Application of Regulations.*—All the following Regulations, Nos. 20 to 78, shall apply only to apparatus and conductors in use below ground.

20. *Quality of Material and Workmanship.*—(a) All electrical apparatus and conductors shall be adequately constructed, and shall be sufficient in size and power for the work they may be called upon to perform, and efficiently covered or safeguarded, and so installed, worked, and maintained as to minimize the risk of accidental shock, fire, or overheating.

(b) All live parts, including conductors which are connected to circuits operating at high or extra high pressure, shall be enclosed or effectively guarded so as to be accessible only to authorized persons. The enclosures, if of metal, shall be effectively earthed.

(c) All electrical apparatus and conductors shall be constructed in accordance with the requirements of the relevant Standard Specifications of the Standards Association of Australia and in vogue at the time of purchase of the apparatus and conductors. In the event of a relevant Standard Specification of the Standards Association of Australia not existing, the relevant Standard Specification of the British Standards Institution shall apply in this clause.

21. *Location of Apparatus.*—(a) All apparatus shall be so placed as to minimize the risk of fire, shock, or mechanical damage.

(b) Adequate working space and means of access, clear of obstruction and free from danger, shall be provided for all apparatus that has to be worked or attended to by any person, and all handles intended to be operated shall be conveniently placed for that purpose.

(c) All inflammable material placed within 3 feet of any current carrying part of apparatus shall be properly protected unless such apparatus is so constructed, protected, and worked as to obviate the risk of fire.

22. *Permissible Pressure.*—(a) A higher pressure than a medium pressure shall not be used underground except for transmission and for application to switch gear, transformers, and the stationary circuits of motors which are not used on coal-cutting or other portable machines.

(b) A higher pressure than a medium pressure shall not be transmitted in any gassy place. All apparatus connected with such higher pressure supply shall be placed in suitable chambers ventilated by intake air.

23. *Prevention of Excess Pressure.*—Where electricity is transformed, suitable provision shall be made to guard against danger by reason of the lower pressure apparatus becoming charged above its normal pressure by leakage from or contact with higher pressure apparatus.

24. *Capacity of Apparatus Operating at High and Extra High Pressure.*—When installed below ground and supplied with electricity at a pressure higher than medium pressure—

- (i) A transformer other than an instrument transformer shall not be of less normal rating than 1 kilo-volt-ampere per phase for voltages ranging between 650 volts up to 2,300 volts, and not less than 2 kilo-volt-amperes per phase for higher voltages;
- (ii) an instrument transformer shall be enclosed in a suitably constructed metal case, and a potential transformer shall be protected by suitable cutouts;
- (iii) a motor shall not be of less normal rating than 20 brake-horse-power.

#### *Tests.*

25. *Routine Testing and Inspection.*—(a) At intervals of approximately one calendar month, but not exceeding 36 days, or as more often as may be necessary to avoid danger, the following examinations and tests shall be made:—

- (i) The examination and test of all apparatus and enclosures.

(ii) The test of the insulation resistance of every complete lighting or power circuit, including all apparatus forming part of or in connexion with such circuit, either collectively or in parts.

(iii) The examination and test of the electrical continuity of all earthing conductors and metallic coverings, if used as such.

(iv) The test of the insulation of each conductor of every trailing cable. (See Regulation No. 27.) There shall be at least twelve such examinations and/or tests each year.

(b) Each trailing cable in use shall be examined daily for abrasions and other defects by a competent person.

26. *Tests Before Placing in Service.*—(a) All apparatus and cables shall be examined and tested before being put into service—

- (i) For the first time;
- (ii) after re-erection in a new position;
- (iii) after repair; or
- (iv) after being out of service for a longer period than two weeks.

(b) The tests required in clause (a) of this Regulation shall include:—

- (i) The test of the insulation resistance; and
- (ii) the test of the electrical continuity of all earthing conductors and metallic coverings, if used as such.

27. *Testing of Trailing Cables.*—The condition of the insulation of trailing cables shall be tested as follows:—

(a) The insulation resistance between conductors shall not be less than 1 megohm.

(b) (i) In cables having an earth screen or screens the insulation resistance between the conductors and the earth screen or screens shall not be less than 1 megohm.

(ii) In cables having no earth screens, the insulation resistance between the conductors and surrounding water in which the cable has been immersed for at least 6 hours shall not be less than 1 megohm; or the condition of the outer insulation and sheath shall be tested by means of an approved spark testing apparatus.

#### *Reports and Records.*

28. *Record of Electrical Accidents.*—Every personal accident occurring in connexion with the operation of the electrical equipment (such as electric shocks and burns) shall, within 24 hours after the accident occurred, be reported by the person injured, or by some other person acting on his behalf, at the office of the mine, and shall be promptly recorded there in the prescribed book. This record shall be produced to the Inspector on demand.

29. *Record of Electrical Breakdowns.*—In the event of any instance occurring of breakdown of, or damage or injury to, any portion of the electrical equipment in the mine, or of overheating, or of the appearance of sparks or arcs outside the enclosures, or in the event of any portion of the equipment (not being a proper part of the electrical circuit) becoming alive, a report of every such occurrence shall be promptly recorded in the prescribed book kept at the mine, and shall be signed by the person making such report.

30. *Record of Electrical Tests and Examinations.*—The results of the examinations, tests, &c., prescribed in Regulations Nos. 25, 26, and 27, shall be immediately recorded in the log or books prescribed and kept at the mine for the purpose.

31. *Record of Examination for Inflammable Gas.*—A report of every examination for inflammable gas made in accordance with the provisions of Regulation No. 33 shall be made at the end of the shift in the prescribed book kept at the mine for the purpose, and shall be signed by the person making such examination.

#### *Special Requirements for Gassy Places.*

32. *Use of Electricity Prohibited under Certain Conditions.*—Electrical apparatus and/or cables shall not be installed, or remain connected to a source of supply, in any part of a mine where the percentage of inflammable gas in the general body of the air in such part, is in excess of 1½ per cent., provided that this Regulation shall not apply to signalling and telephone equipment approved for operation under such conditions.

33. *Examinations for Inflammable Gas.*—(a) In any gassy place, a safety lamp or other suitable apparatus for the detection of fire-damp shall be provided for the use of the attendant with each fixed machine, when working; and, should any indication of fire-damp appear on the flame of the safety lamp or other apparatus used for the detection of fire-damp, the person in charge shall immediately stop the machine, cut off the pressure at the nearest switch, and report the matter to an official of the mine.

(b) A competent person shall, at least once in the course of each shift, make an examination for inflammable gas in each place in which portable electrical apparatus is or may be employed during that shift.

(c) In any gassy place the machineman in charge for the time being of a coal-cutting machine shall be a competent person, capable of examining the roof and sides and detecting the presence of inflammable gas.

(d) In any gassy place before an electric coal-cutting, boring, or loading machine is brought within 20 yards of the working face, the operator of the machine shall first make an inspection for inflammable gas in the place where the machine is to work, unless such an examination is then made by some other competent person authorized or appointed for that purpose by the manager. If any inflammable gas is found in the place, the machine shall not be taken therein.

No electric coal-cutting, boring, or loading machine shall be continued in operation at the face for a longer period than half an hour without such an examination as above described being made for inflammable gas; and if inflammable gas is found whilst the machine is present, the pressure shall be cut off the trailing cable and not re-connected until the deputy of the district or senior official or other competent person has examined the place and found the conditions safe to resume operations or to withdraw the machine.

A competent person shall not deem a place safe for the normal operation of the machine (i.e., cutting, boring, or loading) if inflammable gas is present; but he shall deem it safe for withdrawal of the machine if the general body of the air in the vicinity of the machine is free from inflammable gas.

(e) The person finding any inflammable gas shall at once erect a danger fence to warn persons against entering the place, and shall forthwith report the finding of the gas to the deputy of the district or senior official, who at the end of the shift shall make and sign a written report in the prescribed book kept at the mine for the purpose.

34. *Flame-proof Enclosures.*—(a) In any gassy place, all apparatus shall have all five parts enclosed in approved flame-proof enclosures made of non-ignitable material; provided that this Regulation shall not apply to signalling, telephone, and electric shot-firing equipment approved for operation in gassy places.

(b) Flame-proof enclosures provided in accordance with clause (a) of this Regulation shall not be permitted to remain open nor shall any such enclosure be opened while the apparatus is alive, except by or in the presence of an authorized person for the purpose of making adjustments, and then only subject to the observance of the conditions and precautions as are laid down under Regulation No. 35.

35. *Use of Blow Lamp and Adjustment of Live Apparatus.*—In any gassy place where a shot may be fired, a blow lamp may be used or a joint may be soldered, or the flame-proof enclosure of live apparatus may be opened for adjustments only by or in the presence of the person authorized for that purpose by the Manager; but the same precautions as are prescribed by clauses (f) and (i) of General Rule 9 of section 51 of the *Coal Mines Regulation Act 1928*, shall be observed in all cases.

#### CABLES AND CONDUCTORS.

##### General.

36. *Specification for Cables.*—All cables shall comply with the specifications and tests adopted by the Standards Association of Australia and in vogue at the time of purchase of the cable.

37. *Size of Cables.*—The size of the cables, with the exception of connexions inside apparatus, shall not be less than that provided in the tables, showing the current carrying capacity of various classes of cable, which tables are appended to the Regulations.

38. *Covering for Conductors.*—All conductors, with the exception of trolley wires and earthing conductors shall be continuously covered with insulating material specially chosen with regard to the circumstances of its proposed use. The material shall be of mechanical strength sufficient for its purpose, and so far as is practicable shall be of such a character or so protected as to maintain fully its insulating properties under working conditions of temperature and moisture.

##### Fixed Cables and Conductors.

39. *Covering for Cables.*—(a) Unless fixed out of reach of injury, all cables shall, in addition to the insulation, be protected by a suitable covering to guard against mechanical damage.

(b) Cables, where buried, shall be adequately protected against damage.

(c) All cables supplied at high or extra high pressure shall be completely enclosed in a lead sheath and strong armouring or other suitable protective covering.

(d) All cables supplied at medium or lower pressure shall be completely enclosed in strong armouring or other suitable protective covering; or they shall be fixed at such a distance apart and at such a height or in such a manner that risk from fire or shock is minimized.

(e) The metallic covering of every cable shall be electrically continuous throughout and of a conductivity at all parts and at all joints at least equal to 50 per cent. of the conductivity of the largest conductor enclosed by the said metallic covering.

(f) Where main or other roads are being repaired or blasting is being carried out, suitable temporary protection shall be used so that the cables are reasonably protected from damage.

40. *Cable Supports.*—(a) All cables, except trailing cables, shall be supported at sufficiently frequent intervals and in such a manner as adequately to prevent danger and damage to the cable.

(b) All cables used in shafts shall be adequately protected and substantially fixed, and if not capable of sustaining their own weight shall be properly supported at intervals varying according to the weight and type of the cable. Where the cables are not completely boxed in and protected from falling material, space shall be left between them and the side of the shaft so that they may yield and thus lessen the effect of a blow from falling material.

(c) All cables, except those installed in shafts, shall be supported by leather or other flexible material or in such other suitable manner as to allow of their readily breaking away when struck, before the cables themselves can be seriously damaged, and sufficient slack cable shall be provided to avoid the risk of damage to connexions. All such cables shall be adequately spaced.

(d) All unarmoured cables shall be properly supported by some non-conducting and readily breakable material to insulators of ample capacity and sufficient mechanical strength.

(e) All unarmoured cables shall be kept clear of the roof, floor, and ribs, and also of any timber or metal supports, and where they pass through any stopping, screen, or apparatus cover, the holes shall be substantially bushed with suitable insulating material.

(f) Where the cables in haulage roads cannot be kept at least 1 foot from any part of the skip and its contents, or other moving transport equipment, they shall be specially protected.

41. *Cable Jointing.*—(a) All joints in cables shall be mechanically and electrically efficient, and shall be suitably soldered, or connected by an approved connector.

Cables, other than those used for shot-firing, shall not be joined by merely twisting together.

(b) The insulation of joints in cables shall be equal to that of the original cable.

(c) Cables, where joined to the terminals of apparatus, shall be—

(i) mechanically protected by securely attaching the metallic covering (if any) to the apparatus;

(ii) properly protected and finished off so that moisture cannot creep along the insulating material within the waterproof sheath, and so that the insulating material, if of an oily nature, cannot leak out of the cable.

##### Trailing Cables.

42. *General.*—(a) Trailing cables shall at all times, where practicable, be kept clear of the rails and traffic except when transporting a portable machine by means of its own power.

(b) All horse traffic shall be suspended on that part of every road along which a trailing cable is extended while transporting a portable machine by means of its own power.

43. *Identification of Cables.*—Each trailing cable shall have a distinguishing number, which shall be clearly indicated on a suitable label securely attached to the cable.

44. *Spare Cables.*—A spare trailing cable shall be kept in each district of the mine where portable electric machines are in use.

45. *Defective Cables.*—(a) Each machineman shall carefully observe the trailing cable, while in service, so as to detect defects.

(b) When any trailing cable becomes defective—

(i) the cable shall be at once put out of service;

(ii) notice of a defect occurring while the cable is in service shall be at once sent to an official of the mine;

(iii) the spare trailing cable shall be substituted for the defective cable.

(c) The defective cable shall not again be used until after it has been repaired and tested in the manner prescribed in Regulation No. 27 at the surface of the mine, or at an approved underground workshop, and passed by some competent person.

46. *Cable Jointing.*—(a) Joints, if any, made in trailing cables, shall be made in an approved manner. Mechanical connectors of any kind shall not be used for jointing the conductors.

(b) Separate lengths of trailing cable shall be coupled together only by means of an approved bolted coupling, except that an approved free plug and socket coupling may be used, provided that the system is protected in such a manner that removal of the plug from the socket shall automatically disconnect the supply from the trailing cable.

(c) The separate conductors of a twin or multicore trailing cable shall be divided only for such a length as is necessary for the making of connexions to apparatus.

(d) The trailing cable, with its outer covering complete, shall be securely held by suitable clamps on the apparatus, to which the cable is connected, in such a manner as to protect the cable from injury and to prevent any mechanical strain at the terminals of the cable and apparatus.

#### CONTROL AND PROTECTION.

##### General.

47. *Control of Electricity to the Mine.*—(a) Where the source of supply is not within 400 yards of the shaft mouth or mine entrance, switchgear shall be provided near the mine entrance suitable for entirely cutting off the supply of electricity to the mine. The switchgear shall be kept in a locked switch box or boxes in a locked switch house or in an approved position in the main engine house.

(b) A record of each instance of the opening of a main cutout or circuit-breaker provided under clause (a) of this Regulation shall be made at the end of the shift in the prescribed book kept at the mine, and shall be signed by the person making the record.

(c) In the event of a failure of the main ventilating system in a safety lamp mine, the electricity supplied below ground shall be cut off within half-an-hour of such failure unless the ventilation has been first restored.

48. *Provision of Switchgear.*—(a) Every circuit shall be protected by one of the following alternative methods:—

(i) By an automatic circuit-breaker controlling each active pole, and equipped with suitable over-current protection;

(ii) By a safety replacement cutout on each active pole;

(iii) By a switch and cutout on each active pole;

except in the case of systems having solidly earthed neutral or outer concentric conductor, in which case no cutout on the earthed conductor shall be required. Cutouts and automatic circuit-breakers shall be so constructed and so adjusted as effectively to interrupt the current in order that the apparatus and circuits may be adequately protected.

(b) (i) At points where the trailing cables are joined to the main cables, a fixed terminal box with switchgear capable of entirely cutting off the pressure to the trailing cables shall be provided. All trailing cables shall be adequately protected with circuit-breakers, thermal relays, or cutouts. The terminal box shall be provided with an interlock to prevent the cable from being connected or disconnected while the pressure is switched on.

(ii) All portable face machinery operating at a pressure above extra-low shall be protected by efficient automatic leakage protection. Hand-held electric boring machines operating at a pressure above extra-low shall, in addition, be protected with automatic earth continuity protection.

(c) Every motor shall be provided with switchgear for starting and stopping, so arranged as to be capable of entirely cutting off the pressure, and placed in a convenient position. Each rope haulage motor shall be provided with a suitable ammeter.

(d) Suitable switchgear and instruments shall be provided for the efficient and safe control of each generator, converter, and/or transformer installed in a machine-room below ground.

(e) All points at which a circuit (other than those for signals) has to be made or broken, shall be fitted with proper switches. The use of hooks or other make-shifts is prohibited.

49. *Adjustments to Switchgear.*—Cutouts and the current setting of circuit-breakers shall only be adjusted and fuse-links shall only be replaced by a competent person authorized by the Manager, and then only after the pressure has been switched off.

Provided that in non-gassy places, fuse-links protecting portable machinery may be replaced by the operator if authorized by the Manager for that purpose, provided that the fuse-links are of the cartridge type, and that they have been adjusted by a competent person at the surface of the mine.

50. *Indication of Leakage.*—Efficient means shall be provided for indicating any defect in the insulation of a system, except in the following cases:—

(i) Circuits which are included within a circle of less than 100 feet radius;

(ii) Circuits having approved automatic earth leakage protection equipment operating on 10 per cent. or less of the normal full load current;

(iii) Signalling and telephone circuits,

##### Switchgear.

51. *Location of Switchgear.*—(a) Unless placed in an engine-room or in a compartment specially arranged for the purpose, all switchgear with exposed live conductors, and supplied at medium or lower pressure shall be enclosed in a protecting case so that no person can accidentally make contact therewith.

(b) All switchgear supplied at high or extra high pressure shall be enclosed in an earthed metal case, which shall be kept locked, and, where practicable, provided with interlocking gear to prevent access to the apparatus while alive.

52. *Enclosures for Switchgear.*—(a) Enclosures for switchgear shall be constructed of non-ignitable, non-hygroscopic material, and shall be either non-conducting or of rigid metal clear of all internal mechanism.

(b) Enclosures for switchgear or other apparatus shall not be used for storing articles of any description.

53. *Circuit-Breakers.*—(a) All circuit-breakers shall be of the trip-free type. Circuit-breakers shall be arranged so that when they operate, no danger exists of the operating lever striking the attendant.

(b) In gassy places the covers of all circuit-breakers shall be so interlocked with the mechanism as to preclude the opening or removal of the cover while the circuit-breaker is in the closed position.

54. *Switchboards.*—(a) Switchboard panels shall consist wholly of durable, non-ignitable, non-hygroscopic materials, which, unless all live parts of apparatus mounted on the panels, or connected thereto, are adequately insulated therefrom, shall also be of insulating material of permanently high electric strength and insulation resistance.

(b) Marble and slate panels shall be used only provided all conducting parts to be mounted thereon are insulated from the panel by a suitable non-hygroscopic insulating material.

55. *Fusible Cutouts.*—(a) Every cutout shall be rated at and marked with the current rating of the circuit in which it is to be used, except that where there is no standard size of cutout of the same rating as the circuit, the cutout shall be rated and marked at the next higher standard rating. Both base and carrier shall be plainly and indelibly marked in such positions that the markings will be legible when the cutout is fixed or mounted in position.

(b) No fusible cutout shall be mounted on any portable apparatus unless housed in an approved enclosure suitably interlocked.

(c) A fuse-link shall be of such size that it would be melted in one minute or less if of tinned copper, or in two minutes or less in the case of lead-tin alloy, by a current equal to twice the maximum current carrying capacity of the smallest conductor protected by it; provided that no fuse-link rated to melt at less than 10 amperes need be inserted in any final sub-circuit.

(d) Where fuse wire is used as the fuse-link, each coil in use shall be stamped or labelled to indicate the normal rated current.

(e) No fuse-link shall be installed in such a manner that it is merely held in position by its connecting wires, nor shall it be mounted on an unprotected inflammable base. Unenclosed fuse-links are prohibited.

(f) All cartridge type cutouts shall be of an approved type. The fuse-link thereof shall only be replaced by a competent person

##### Earthing.

56. *Earthing of System.*—Regulation No. 18 shall also apply to systems below ground.

57. *Earthing of Apparatus Enclosures and Cable Sheaths.*—All metallic cable sheaths and metallic frames and enclosures for apparatus, unless efficiently protected by a non-ignitable insulating material, shall be efficiently connected to an effective earthing system at the surface of the mine, or protected in such a manner as will ensure at all times the isolation of any defective portion of an installation through the operation of a circuit-breaker.

58. *Size of Earthing Conductors.*—Copper earthing conductors shall be—

(i) stranded cable; or

(ii) flat copper strip of not less than  $\frac{1}{2}$ -inch wide by No. 18 gauge; or

(iii) circular or rectangular copper bar not smaller than 0.15 square inch in cross-section.

The minimum cross-sectional area of any stranded copper earthing conductor shall be 0.0045 square inch (7/029 inch), which shall be deemed sufficient for installations or a part of an installation not exceeding 50 amperes connected load. Where the connected load exceeds 50 amperes, the current carrying capacity of any earthing conductor (as determined from the appended tables for a cable of equivalent cross-sectional area), shall be not less than one-third of the current carrying capacity of the largest conductor to be protected thereby, and not less than one-third of the full load current of any apparatus earthed thereby.

If the cross-sectional area of the largest active conductor of a trailing cable used with portable apparatus is smaller than 0.0045 square inch, the cross-sectional area of the earthing conductor in the trailing cable shall not be less than that of such active conductor.

50. *Installation of Earthing Conductors.*—(a) Earthing conductors shall be installed in such a manner that they will not be liable to mechanical damage.

(b) No switch, cutout, or circuit breaker shall be installed in any earth conductor.

#### CONSUMING APPARATUS. General.

60. *Portable Apparatus.*—All portable apparatus shall be provided with the necessary clamps, &c., to comply with the requirements of clause (d) of Regulation No. 46.

#### Lighting.

61. *Permissible Pressure.*—(a) The pressure for lighting circuits shall not exceed the limits of low pressure.

(b) The pressure for electric hand lamps shall not exceed 32 volts.

62. *Installation of Cables.*—(a) Cables for lighting shall be conveyed either in pipes or casings; or they may be suspended from porcelain insulators, or tied to them with some non-conducting material which will not cut the covering, and so that they do not touch any timbering or metal work. On no account shall staples be used. If separate uncased cables are used, they shall be kept at least 2 inches apart, and not brought together except at lamps or switches or fittings.

(b) Not more than ten lamps shall be connected to any final sub-circuit.

63. *Size of Cables.*—(a) The size of the cables shall comply with the requirements of Regulation No. 37.

(b) The minimum size for suspended cables shall be 7/.029-inch stranded copper.

64. *Type of Lamps.*—Electric lamps shall be of the type in which the source of light is hermetically sealed within a transparent or translucent envelope.

65. *Construction of Fittings.*—(a) Flameproof enclosures provided for electric lamps in accordance with Regulation 34 shall be fitted with strong glass to effectively protect the lamp.

(b) Electric hand lamps shall be of robust construction, and arranged to effectively protect the lamp from mechanical damage.

66. *Replacement of Electric Lamps.*—(a) Electric lamps shall be replaced by an authorized person only.

(b) The pressure shall be switched off while the lamps are being replaced.

67. *Emergency Lighting.*—In all machine rooms and other places below ground where a failure of electric light is likely to cause danger, some approved alternative system of lighting shall be provided for use in the event of such failure.

68. *Electric Relighting of Flame Safety Lamps.*—Apparatus for electrically relighting flame safety lamps shall be used only in the appointed lamp stations, and shall not be available for use except by competent persons authorized by the Manager to relight and examine safety lamps.

#### Motors.

69. *Portable Motors.*—(a) Motors of coal-cutting or other portable machines shall not be used at a pressure higher than medium pressure.

(b) In order that the roof may be carefully examined, a coal-cutter motor shall not be kept continuously at work for a length of time exceeding a maximum period of 30 minutes or such less time as may be specified by the Manager.

(c) The person in charge of an electric coal-cutting, boring, or loading machine shall not leave the machine while it is working, and shall, before leaving the working place, see that the pressure is cut off and the trailing cable disconnected from the gate-end box. Special care shall be taken at all times to prevent injury to the trailing cables.

(d) If any electric spark or arc be produced outside a coal-cutting or other portable motor or about the cable or rails, the machine shall be stopped, the pressure cut off, and the trailing cable disconnected from the gate-end box. Every such occurrence shall be reported at once to an official of the mine, and recorded in accordance with the requirements of Regulation No. 29.

The machine shall not be worked again until the defect has been remedied.

(e) A portable machine shall not be repaired until the pressure has been cut off and the trailing cable disconnected from the gate-end box.

(f) In any gassy place, portable motors shall be operated only in accordance with the requirements of Regulation No. 33.

#### Locomotives.

70. *Trolley Wire Type Locomotives.*—An electric locomotive on the trolley wire system shall—

(i) Not be used in any gassy place; and

(ii) Only be operated on main roads ventilated by intake air.

71. *Trolley Wires.*—(a) A trolley wire shall not be used in any road having an immediate roof of coal or inflammable shale.

(b) Where the trolley wire is less than 7 feet above the top of the rails, it shall be effectively guarded to prevent accidental contact therewith.

In cases where a risk of contact with a trolley wire exists, vehicles used for conveying men must be covered.

(c) The current used on the trolley wire shall be at a pressure not exceeding the limits of low pressure.

(d) The trolley wire shall be divided into one or more sections in order to ensure that in the event of a fault developing, the faulty section of the trolley wire shall be immediately disconnected from the supply, and the sectionalizing switches shall be arranged so that they can be locked in the open position.

(e) The trolley wire shall be immediately disconnected from the source of supply in the event of a failure of the main ventilation system in the mine.

(f) The roof, floor, and sides of all roadways containing a trolley wire shall be kept efficiently stone-dusted to such an extent as to render any coal dust, if present, non-inflammable.

(g) No unauthorized person shall travel on foot along any road containing a trolley wire except during such periods as may be ordered by the Manager. Notices shall be prominently exhibited at every entrance to such roadway stating that a trolley wire exists therein, and that unauthorized persons are prohibited from travelling on roads equipped with a trolley wire, except during certain periods, which shall be clearly set out in the notice.

(h) No repair work of any kind shall be carried out in any part of the roadway containing a trolley wire unless such section of the trolley wire is first made dead, or unless the Manager has specially authorized, in writing, that the work be carried out while the trolley wire is alive, and there is present during the whole of the time that such trolley wire is alive a responsible official of the mine.

(i) All proper precautions shall be taken to prevent the trolley wire from coming into contact with other electrical circuits or any metal construction used in the roadway.

(j) Adequate provision shall be made to effectively drain all wet or damp roadways, and any water dripping from the roof shall be conducted clear of trolley wire and track.

72. *Tracks for Trolley Wire Type Locomotives.*—The tracks of all main haulage systems that use a rail return shall be bonded at every rail joint, and cross-bonding shall be placed at intervals not exceeding 200 feet. Special provision shall be made for bonding around all switches, frogs, or openings in the track so as to ensure continuous return.

The bonding shall be regularly tested for continuity in accordance with Regulation No. 25.

73. *Battery Type Locomotives.*—Battery type locomotives may be used in any part of a mine, except that in any gassy place they shall be of an approved flame-proof type and subject to the following conditions:—

(a) The covers of the battery, meter, switch, cutout, lamp, and starter casing shall be securely sealed or locked, and shall not be opened except during the period necessary for purposes of charging, inspecting, or repairing, and then only at the charging station installed in the intake airway, or in a chamber separately ventilated with air from the intake airway: Provided that where approved cutouts are fitted, and in the event of a cutout operating, the driver of the locomotive may break the covering seal and replace the fuse-link, which has operated with a spare fuse-link which has been inspected or prepared by a competent person and supplied to the driver for the purpose. The driver, on his return to the charging station, shall make a written report of the occurrence in the prescribed book kept at the mine for the purpose, and the attendant shall cause the cutout cover to be resealed.

(b) A locomotive shall not enter any place where the percentage of inflammable gas in the general body of air exceeds 1½ per cent. To ensure as far as practicable that this is given effect to, examinations for inflammable gas shall be made at least twice during the course of each shift in accordance with the provisions of clause (b) of Regulation No. 33, and a report of these examinations shall be made in accordance with the provisions of Regulation No. 31.

#### SIGNALLING.

74. *Application of Regulations.*—The foregoing regulations shall not apply to apparatus used for telephone, telegraph, and signalling purposes, which shall comply with the following requirements.

75. *Mines Requiring Communication Systems.*—In every mine where electricity is used below ground for power or lighting purposes, direct telephonic or other equivalent means of communication shall be provided between the surface and the shaft bottom or main distributing centre below ground.

76. *Source of Supply for Signalling Circuits.*—(a) The pressure for signalling circuits shall not exceed 25 volts.

(b) The pressure used for telephony and telegraphy shall not exceed extra-low voltage, except that for ringing by means of a hand-operated magneto or other source of power (not exceeding 1,000 watts rated output) the pressure shall not exceed 115 volts.

(c) Where the source of supply for signalling circuits is a step-down transformer, the transformer shall be of an approved double-wound type, and one terminal of the secondary winding shall be connected to earth. One of the following methods shall be adopted to prevent the secondary windings becoming charged at the higher potential:—

(i) The primary and secondary windings shall be wound on separate legs of the core of the transformer, and the core of the transformer shall be efficiently earthed.

(ii) If the primary and secondary windings are wound on the same leg of the core, an earthed winding or metallic sheath shall be interposed between the two windings, and insulated suitably from both primary and secondary windings.

(d) Where bare conductors have to be handled for the purpose of signalling, a system of automatic excess voltage protection shall, where practicable, be installed and so arranged that the supply likely to cause any excessive pressure will be disconnected when the pressure between the signalling system and earth exceeds 25 volts.

77. *Installation of Conductors.*—All proper precautions shall be taken to prevent conductors from coming into contact with other electric conductors, whether insulated or not.

The conductors shall be kept as far apart from lighting or power cables as possible, and where it is necessary for them to cross the lighting or power cables, they shall be encased in rubber hose or otherwise equally efficiently protected.

78. *Additional Requirements in Gassy Places.*—In any gassy place, the following requirements shall apply in addition to Regulations Nos. 74 to 77:—

(a) All conductors, instruments, and apparatus shall be constructed, installed, protected, worked, and maintained in such a manner that there shall be no risk of open sparking.

(b) All apparatus shall be of an approved type.

\* The current carrying capacity of a conductor having wires of a number or diameter not specified in this table shall be taken to be proportionate to that of the cases specified.

NOTES.

(a) The ratings specified in the table are to be regarded as maxima, and higher ratings are not permitted for any reason whatsoever.

(b) The figures in the table are based on Tables 5 and 6 of the Institution of Electrical Engineer's Regulations for the Electrical Equipment of Buildings, 10th Edition.

(c) In all cases the current of paper insulated and lead covered cables shall be sufficiently reduced to limit the maximum operating temperature of the conductor to 170°F.

(d) The table refers to situations where the temperature of the surroundings in any part of the cable run does not exceed 80°F. Where the temperature of the surroundings in

any part of the cable run exceeds 80°F., the permissible current shall be reduced in accordance with the following factors:—

Initial Ambient Temperature Degrees F.	Amperes permissible to be multiplied by

COUNTRY ROADS BOARD.

At the Executive Council Chamber, Melbourne, the  
twenty-third day of September, 1940.

PRESENT:

His Excellency the Governor of Victoria.  
Mr. Lind | Mr. Tuckett.  
Mr. Hogan

DECLARATION OF THE NEW PRINCES HIGHWAY IN  
THE SHIRE OF CORIO.

WHEREAS by sections 21 and 74 of the *Country Roads Act* 1928 (No. 3662) it is amongst other things enacted that when the Country Roads Board under the provisions of the Country Roads Act has taken the land necessary for constructing a road or deviation it shall as soon as it thinks such road or deviation is fit to be used as a public highway by Resolution declare the road or deviation to be a State highway or part thereof and that upon publication in the *Government Gazette* of the Order of the Governor in Council confirming such Resolution such road or deviation shall thereupon be a State highway or part thereof within the meaning of the said Act: And whereas the said Board has by Resolution declared the road on the land described in the Schedule to such Resolution to be part of a State highway: Now therefore His Excellency the Governor of the State of Victoria by and with the advice of the Executive Council thereof doth hereby confirm the said Resolution.

Resolution for Declaration of a New State Highway under the  
*Country Roads Act*.

Whereas the land the site of the road the course of which is below set out was taken by the Board under the provisions of the Country Roads Act for the purpose of constructing such new road which new road has now been laid out and formed on the same: And whereas the said Board (being the Country Roads Board incorporated under the said Act) thinks that the road aforesaid is fit to be used as a public highway such Board at a meeting now holden acting under the authority conferred upon it by sections 21 and 74 of the *Country Roads Act* 1928 doth hereby declare the said new road the course of which is described in the Schedule hereto with the commencing and terminating points thereof respectively specified to be part of a State highway within the meaning and for the purposes of the Country Roads Act.

SCHEDULE.

## REGULATIONS FOR THE CARE, PROTECTION, AND MANAGEMENT OF THE RESERVE FOR SWIMMING POOL AT OUYEN.

WHEREAS by the 181st section of the *Land Act 1928*, power is given to the Board of Land and Works to make Rules and Regulations for the care, protection, and management of all public parks and reserves not conveyed to and vested in trustees, and for the preservation of good order and decency therein, and also for the collection and receipt of tolls, entrance fees, and other charges for entering therein or thereupon: Now therefore the Board of Land and Works, in pursuance of the powers conferred as aforesaid, doth hereby make the following Regulations in respect of the land temporarily reserved by Order in Council dated 6th May, 1940, as a site for Swimming Pool in the Parish and Township of Ouyen, and known as the "Ouyen Swimming Pool."

1. No person shall enter any of the pools before first washing himself in the shower bath, and every bather after using the latrines shall again wash under the showers without costume before returning to the pools.

2. No person suffering from any infectious or contagious disease or sores shall enter or attempt to enter the baths.

3. No person shall use soap in any of the pools or cause the water therein to be fouled or polluted in any way.

4. No person shall use obscene language within the baths premises.

5. No person shall spit in any of the pools or on any seat or fixture or on the floor or walls or any portion of the buildings or bathing enclosures.

6. No person shall enter or remain in the baths while in a state of intoxication.

7. No person shall cause or allow any dog or other animal to enter the baths.

8. No person shall commit any nuisance in or upon any portion of the premises.

9. No person, unless authorized by the Committee of Management, shall be or remain within the said enclosure unless decently attired in an approved bathing costume, save that the parents or guardians of small children using the pools may be permitted to accompany them within the bathing enclosure in ordinary attire, provided their feet are either bare or their footwear rubber soled.

10. No person shall at any time introduce into the baths premises any spirituous or intoxicating liquor.

11. No person shall at any time carelessly or negligently break or injure or improperly interfere with any locks, taps, or fittings in connexion with the baths, nor carelessly, negligently, or wilfully damage or injure fittings, or other articles supplied for use in the baths, nor write upon or deface the walls or partitions or any other part of the baths.

12. No person not authorized by the Committee of Management shall climb or attempt to climb over, on to, or upon or remain on or upon any fixture, fountain, fence, roof, building, or structure surrounding or appurtenant to the baths.

13. No person not authorized by the Committee of Management shall be or remain upon the baths premises when the pool is being emptied or refilled or at night time when the lighting system is not in operation.

14. Except in the case of accident no person not authorized by the Committee of Management shall use or in any way interfere with the first-aid kits, life-buoys, or other similar apparatus.

15. No person of either sex shall enter or attempt to enter or look into or attempt to look into any portion of the baths premises set apart either permanently or temporarily for the use of the other sex.

16. The Committee of Management shall have power from time to time, by resolution, to fix the hours during which the baths shall be open for the use of females only, or for special purposes only, and no person shall enter or attempt to enter or use or attempt to use the baths or portion thereof contrary to the terms of such resolution.

17. It shall be lawful for the person for the time being in charge of the baths to expel any person or persons from the baths premises who indulge in any boisterous or rough play or unseemly conduct or who in any way commit any breach of these Regulations.

18. No person shall do any act or thing or interfere in any way with any other person or persons or with the spring-board or with any stand, platform, apparatus, fixture, or facility established for use either permanently or temporarily at the baths which will cause or be likely to cause inconvenience, injury, or danger to himself or to any other person within or without the baths.

19. The Committee of Management shall not be responsible for any articles lost by or stolen from any person whilst in the baths.

20. The Committee of Management shall not unreasonably or arbitrarily deny the public the use of the baths, but when it is considered advisable may close the baths for any particular purpose.

21. The Committee of Management shall have the power from time to time, by resolution, to fix and regulate the fees to be paid by the public for admission to the baths, or the use of other facilities, and every person shall, before being admitted to the Reserve, pay to the authorized person the charges so fixed.

22. Any person hiring any towel or bathing gown or other articles from any of the attendants or persons in charge of the Reserve shall return same before leaving the Reserve.

23. Any person finding any article which may have been left in any dressing room or any other part of the Reserve shall immediately after finding such article deliver the same to one of the attendants in charge of the Reserve, who shall thereupon register a description of same and all particulars relating thereto in the book kept for that purpose, and any person who shall have lost such article shall upon giving satisfactory proof thereof receive such article from the attendant in charge, upon writing his or her signature and address in the book referred to, and a receipt for such article in the aforesaid book.

24. No person shall obstruct, hinder, or interfere with the lessee or any person employed at the swimming pools or with any officer of the Committee of Management in the performance of his or her duty thereat.

25. The Committee of Management shall not be held responsible in any way for any accident or injury sustained by or to any person or persons whilst within the boundaries of the enclosure.

26. The said Committee of Management shall have power from time to time, by resolution, to give such directions as it may consider necessary for the proper management of the baths.

The Council of the Shire of Walpeup has been appointed a Committee of Management with power and authority to enforce the foregoing Regulations.

Every person offending against these Regulations shall, in accordance with the provisions of section 181 of the *Land Act 1928*, for each offence be liable to a penalty of not more than Five pounds (£5), and every person who knowingly and wilfully offends against any such Regulations, and who, after he has been warned by any Bailiff of Crown Lands or by any member of the Police Force, does not desist from so offending, may be forthwith apprehended by such bailiff or member of the Police Force and taken before some justice to be dealt with according to law, and shall be liable to a penalty of not more than Ten pounds (£10).

The common seal of the Board of Land and Works was hereunto affixed this 17th day of September, 1940, in the presence of—

LIST OF CROWN LANDS AVAILABLE.

THE under-mentioned areas are available for application as provided by various sections of the *Land Act 1928*, and all applications received on or before Wednesday, 23rd October, 1940, will be deemed to have been simultaneously made, but any application lodged after such date may be considered if received in time for inclusion in the advertisement of the cases to be heard at the Local Land Board.

Applications on proper form, accompanied by 5s. duty stamp uncancelled (registration fee), may be delivered or forwarded by post to the Local Land Officer or to any Crown Lands Office in Victoria.

Applicants may obtain from Local Land Officers, or the Enquiry Office, Lands Department, Melbourne, a certificate authorizing the issue by the Railway Department of a return ticket at concession fares to enable them to inspect available areas or to attend Local Land Boards. When an applicant is granted an allotment he may, if travelling by rail, obtain reduced fares for his family and also freight concessions in regard to some of his effects.

Subject to the approval of the Minister, when the survey fee exceeds £10, a deposit of £5 may be paid, and the balance over six years in half-yearly instalments.

Marked plans of any particular area, application forms, and any further information may be obtained from the Enquiry Office, Lands Department, Melbourne, and Land Officers, Baimsdale, Beechworth, and Sale.

Tenders to be addressed to the Honorable the Commissioner of Public Works, and envelope containing tender marked "Tender for . . . due . . ."

GEO. L. GOUDIE,  
Commissioner of Public Works.

Melbourne, 25th September, 1940.

## TENDERS FOR THE SERVICE, 1941.

## REQUISITES FOR EDUCATION DEPARTMENT.

TENDERS will be received until Eleven o'clock a.m. on Friday, 18th October, 1940, from persons willing to supply the under-mentioned articles, in such quantities as may be ordered by the Victorian Government, from 1st January, 1941, to 31st December, 1941:—

Schedule No.		Preliminary Deposit.
1.	Requisites (Junior School)	£3
2.	Exercise Books and Requisites	3
3.	Chemicals for Science Classes for District High Schools and Higher Elementary Schools, &c.	3
4.	Requisites for Science Classes for District High Schools and Higher Elementary Schools, &c.	3
5.	Utensils and Requisites for Girls' Schools, Cookery, and Needlework Centres	3

The prices tendered must not include sales tax.

Security.—Five per cent. of total amount of tender accepted, but in no case will security of less than £3 be received.

Schedules as above, with full particulars, may be obtained from the Secretary to the Tender Board, by whom also the samples will be shown and any information afforded to persons tendering.

*Should the tenderer be in a position to supply a suitable substitute of Commonwealth production or manufacture in place of any sample exhibited that may be of imported origin he may tender for such substitute under column A in the schedule, but he must submit with his tender a sample of the article offered.*

In all cases the country of origin of the articles tendered must be stated, and the total cost of each item extended in the columns provided.

Tenders must be accompanied by the preliminary deposit, as shown above, by bank draft or marked cheque, in favour of the Secretary to the Tender Board. *Cheques, Savings Bank deposit books, fixed deposit receipts, Commonwealth Treasury bonds, or reference to securities on existing contracts will in no case be received or entertained as preliminary deposits.* Preliminary deposits will be returned within ten days to unsuccessful tenderers on their application.

The amount of the preliminary deposit required with each tender must be enclosed, and the amount must be clearly written in and the designation stated, whether marked cheque or bank draft, as the case may be.

Security will be required, either in bank guarantee (bank to be approved by the Tender Board), Commonwealth Treasury bonds, Savings Bank deposit book or fixed deposit receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The lowest or any tender will not necessarily be accepted.

In the event of tenderers withdrawing or attempting to withdraw their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of one year, such disqualification to date from the notification of acceptance of tender. It is also stipulated that if a tenderer be a member of a firm and such firm be interested in the contract, the tender shall be in the name of the firm and not in that of the individual, and that for a breach of this condition the preliminary deposit will be forfeited and the tender declared informal.

Tenders enclosed in a separate envelope, and having the words "Tender for ———" (as the case may be) written thereon, must be deposited in the Tender-box at the Tender Board Offices, Gisborne-street, Melbourne, or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Tender Board Offices, Gisborne-street, Melbourne. C.2. which office they must reach not later than by first post on the date of closing of tenders.

## CONDITIONS OF CONTRACT.

1. Except where definite quantities are specified the Government will not be bound to order from the contractor all the articles enumerated in the schedule, but only those articles, and such quantities of those articles, as it may be found necessary to order. Should the Government, however, require a larger supply of any article than the estimated quantity stated in the schedules, the contractor will nevertheless be bound to supply the same at contract rates.

The Government reserves the right to purchase other than from the contractor articles of any of the several kinds enumerated in the schedules the purchase of which is, in the opinion of the Tender Board, necessary in order to meet special circumstances or special requirements.

2. The supplies are to be the same as sample where so stated, and of the particular manufacture indicated in the schedule of tenders. In the case of different makers' goods, the contractor will be required to supply the kind ordered. *The supplies are to be the best quality of their several kinds or manufacture.* In the event of the tender having been accepted for goods manufactured within the Commonwealth or manufactured within any other part of the British Empire (as the case may be), all such goods supplied shall, if required by the Government, bear evidence that they are of the particular manufacture tendered for, and, in addition, the contractor may at any time during the currency of the contract be called on to furnish a statutory declaration as to the country of origin of the goods supplied.

3. Except where otherwise stated in the schedule, the value of all packages, cases, casks, &c., whether bulk be broken or not, must be included in the prices stated in the contractor's tender; all such packages, &c., to be considered the property of the Government, and no charges or expenses whatsoever beyond the price tendered and set out in the schedule will be allowed to the contractor for any articles or packages, cases, casks, &c. The net weight or quantity only will be paid for. Contractors must provide, without extra charge, whatever labour may be required in the packing of stores, and the stores shall be packed in such a manner as shall secure them from injury during transit, and until delivery such stores shall be at the risk of the contractor.

4. All orders for supplies will emanate from the Education Department. The goods shall be delivered as may be directed by the officer ordering the supply.

5. Supplies ordered for delivery in the Melbourne District are to be delivered free of all charges (whether cartage, freight, &c.), and, for the purposes of these contracts, Melbourne District will include a radius of 6 miles from the Elizabeth-street Post Office. For supplies outside that radius the goods must be delivered free on rails at Flinders-street or Spencer-street Railway Stations as required.

6. Arrangements as to time of delivery and inspection of goods will be made by the Secretary, Education Department, or such other officer whom he may appoint.

7. Orders must receive prompt execution; and in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order, or within such other time as the order may specify for delivery, it will be competent for the officer named in Clause 6, or the head of the department to whom the goods are to be supplied, on giving the contractor twenty-four hours' notice, to purchase the supplies, or any like supplies that are suitable for the service, at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account or from the security money.

8. Delivery will not be deemed to have been made until the goods have been approved. In case of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the supplies rejected or returned, otherwise purchases will be effected at the contractor's risk and the extra expense deducted as in Clause 7.

9. The official order issued by the Education Department shall be forwarded by the contractor to the officer authorized to accept delivery, who shall acknowledge thereon the receipt of the goods accepted and return the order to the contractor, who will attach same to his claim for payment.

10. All orders, duly receipted, shall be returned to the Education Department at the end of each month, accompanied by an account in the prescribed form for the articles supplied during the month, and, on receipt of same, the contractor shall be entitled to payment, due time to be allowed for the examination and verification of the claim.

11. The acceptance of the supplies shall be subject to the approval of the officer authorized to take delivery of the stores, or such other officer as shall be named in the schedules. Delivery of the articles will not be deemed to have been made until they have been handed in good order and condition to the head teacher of the school or such other person as may be authorized to accept delivery, &c. The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four hours after objection is made, give notice thereof, in writing, to the officer rejecting the goods. If, after the delivery of the supplies has been taken, any deficiency or defect is discovered therein, such deficient or defective stores may be returned to the contractor.

12. The members of Boards of survey will be appointed by the Treasurer of the State for the time being, and the decision of the Board is to be considered as final. If the Board shall decide that the article is not of proper quality it must be immediately replaced by the contractor, failing which it, or any like supply that is suitable for the service, will be procured elsewhere, and the survey fees and extra expense (if any) will be deducted as in Clause 7.

13. All goods forwarded under these contracts shall, where practicable, be forwarded by rail, and all consignments shall bear the number of the consignment notes under which they are forwarded, and also the name of the contractor by whom consigned, on a legibly-written business label.

14. When the contractor is required to make delivery of goods at a railway station for transmission by rail, he shall obtain a receipt for the goods in duplicate on the Stores and Transport consignment note, at the same time handing in a triplicate and quadruplicate of the form as an authority for the Railways to act as agent for, and charge the freight to, the Stores and Transport Office or such other Department as shall be named therein. He shall as soon as possible, and not later than twenty-four hours thereafter, deliver the original at the Tender Board Offices, the duplicate to be forwarded to consignee in accordance with Clause 15, and the quintuplicate to be retained by himself. Should the goods thus forwarded be rejected, the contractor must bear the cost of replacing such goods, for which service the departmental consignment note is not to be used. Any infringement of this condition will subject the contractor to such mulct as the Tender Board may recommend under Clause 17 of these conditions. Such mulct may be deducted as in clause 7.

15. Immediately after the consignment of the goods, the officer to whom they are forwarded shall be notified by the contractor, on the duplicate consignment note provided for the purpose, that the goods have been sent. On receipt of this document, the officer to whom it has been forwarded shall acknowledge thereon the receipt of the goods without delay to the Stores and Transport Office. In the event of loss through failure on the part of the contractor to comply with this condition he will be held responsible, and the amount of the loss incurred for same will be deducted as in Clause 7.

16. Should the order on the contractor specially provide that goods of a fragile character, or such as are liable to suffer loss by leakage, shall be consigned at the risk of the Railways Commissioners under special freight conditions, the contractor shall in such instance provide, in writing, on the consignment note an intimation to that effect, failing which, in the event of loss, he shall bear the whole cost of replacing the goods, the amount being deducted from the contractor's account or the security money.

17. A refusal to execute orders, irregularity in the quantity or quality of the supplies, delay in delivering or replacing them when required, or non-compliance with the terms of Clauses 14 and 15 of these conditions respecting the forwarding of consignment notes, &c., will subject the contractor, upon report from the Tender Board, to such mulct not exceeding Fifty pounds as the said Treasurer may direct and the amount may be deducted as in Clause 7. It will also be in the power of the said Treasurer upon such refusal, irregularity, or delay, to terminate the contract forthwith, and declare forfeit the whole or any portion of the security money; and, in addition, the contractor will be disqualified from tendering or holding any future contract or contracts for a period of one year from the date of such disqualification.

18. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government. If it is found during the currency of the contract that the contractor has not conformed to the condition of advertisement—which stipulates that if a tenderer be a member of a firm, and such firm be interested in the contract, the tender shall be in the name of the firm, and not in that of the individual—then the said Treasurer may, on the recommendation of the Tender Board, determine the contract, and forfeit the security money.

19. The contracts entered into under these conditions are not to be considered as being broken, infringed, or vitiated by the importation of stores for the Government service, or by any contracts or purchases made by the Agent-General for Victoria, or by any contracts or agreements made for supplies to Technical Schools, or by any article being made at any Government establishment and supplied for the use of the Education Department, or by the consumption of the surplus stock of any Government establishment.

20. Notwithstanding anything contained to the contrary in section 152 of the *Customs Act 1901-36*, it is hereby expressly provided that upon any alteration of the duty collected affecting the goods included in this contract, the contract price shall not be altered, and the contract may be terminated at the option of either party by two months' notice in writing from the first day of the calendar month next ensuing, and within the period for which the contract is made. The contract for the unaffected items shall remain in full force and effect. Any notice to be served under this condition shall be deemed to have been duly served if sent to the contractor in a registered letter to his last-known place of business or abode.

21. Under no circumstances, other than those mentioned in Clause 20, will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited; and, in addition, the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

22. Should the Minister of Public Instruction for the time being decide to discontinue the use of any book, map, or any other article in the schedule, or to direct that any book, map, or any other article other than those enumerated therein be taken into use, he shall at any time give six months' notice of such intention or decision to the contractor, and after the expiration of the period of such notice the Education Department shall not be bound to take any further supply of such book, map, or any other article, nor shall the contractor be bound to supply the same, and all books or maps not in the schedule, but which it may be decided to introduce, shall be supplied by the contractor after expiration of such notice at a price to be agreed on between the Minister of Public Instruction for the time being and the contractor.

#### TENDERS FOR THE SERVICE. 1941.

##### STATIONERY, GENERAL.

TENDERS will be received until Eleven o'clock a.m., on Friday, 18th October, 1940, from persons willing to supply the under-mentioned articles, in such quantities as may be ordered by the Victorian Government, during the twelve months commencing on 1st January, 1941:—

Schedule No.	Preliminary Deposit.
69. Stationery, General	£ 3

The prices tendered must not include sales tax.

Security.—Five per cent. of total amount of tender accepted but in no case will security of less than £3 be received.

Schedule as above, with full particulars, may be obtained from the Secretary to the Tender Board, by whom also the samples will be shown and any information afforded to persons tendering.

In all cases the country of origin of the articles tendered must be stated, and the total cost of each item extended in the columns provided.

Tenders must be accompanied by the preliminary deposit, as shown above, by bank draft or marked cheque, in favour of the Secretary to the Tender Board. *Cheques, Savings Bank deposit books, fixed deposit receipts, Commonwealth Treasury bonds, or reference to securities on existing contracts will in no case be received or entertained as preliminary deposits.* Preliminary deposits will be returned within ten days to unsuccessful tenderers on their application.

The amount of the preliminary deposit required with each tender must be enclosed, and the amount must be clearly written in and the designation stated, whether marked cheque or bank draft, as the case may be.

Security will be required, either in bank guarantee (bank to be approved by the Tender Board), Commonwealth Treasury bonds, Savings Bank deposit book or fixed deposit receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The lowest or any tender will not necessarily be accepted.

In the event of tenderers withdrawing or attempting to withdraw their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender. It is also stipulated that if a tenderer be a member of a firm, and such firm be interested in the contract, the tender shall be in the name of the firm and not in that of the individual, and that for a breach of this condition the preliminary deposit will be forfeited and the tender declared informal.

Tenders enclosed in a separate envelope, and having the words "Tender for ————" (as the case may be) written thereon, must be deposited in the Tender-box at the Tender Board Offices, Gisborne-street, Melbourne, or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Tender Board Offices, Gisborne-street, Melbourne, C.2, which office they must reach not later than by first post on the date of closing of tenders.

The conditions of contract are those published in the *Victoria Government Gazette* of 21st February, 1940, pages 885 and 886.

A. A. DUNSTAN,  
Treasurer.

Melbourne, 23rd September, 1940.

## TENDERS FOR GRAZING.

(Section 121, *Land Act* 1928.)

Tender Forms and all particulars can be obtained on application to the Lands Department, Melbourne, or any of the Lands Offices in the Country.

Tenders should be placed in the Lands Department Tender-box, State Treasury Buildings, Melbourne, C.2, at or before Noon on Wednesday, 16th October, 1940.

Before any tender is accepted the provisions of the National Security (Land Transfer) Regulations must be complied with.

**T**ENDERS are invited and must be lodged at the Lands Department, Melbourne, at or before Noon on Wednesday, 16th October, 1940, for the right to depasture stock on the following unappropriated portions of lands subject to the Regulations approved by the Governor in Council and also the subjoined conditions.

## CONDITIONS.

1. The period of occupation will be for eleven (11) months from 1st November, 1940, to 30th September, 1941, except where otherwise stated, with the right of renewal annually for a further period as stated.

2. The rent for eleven months, or twelve months where stated—for which the licence will be issued, and the licence fee of 7s. 6d.—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. The licensee shall pay shire rates and all other charges for the period of occupation.

4. Separate tenders must be lodged for each block.

5. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name, occupation, and ordinary postal address.

8. Where permission to fence has been granted, the outgoing tenant has the option to remove any existing fencing owned by him within one month, or he may arrange with the incoming tenant to pay for it in accordance with the provisions of section 124, *Land Act* 1928.

This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the incoming tenant will be held responsible for the care and maintenance of any improvements.

In addition to the foregoing conditions, the following will apply to lots 57, 58, and 59 only:—

The Minister may grant permission to cultivate.

No advances will be made by the Board of Land and Works with respect to these areas.

Existing improvements, including clearing, to be maintained to the satisfaction of the Minister.

The Board of Land and Works reserves the right to sell or remove from each lot the surplus houses or other buildings not required for the reasonable working of the areas.

The Minister may grant permission to the licensee to remove any internal fencing to complete the boundary fences.

NOTE.—No provision has been made for the supply of water; consequently each licensee will be required to make his own arrangements.

A. E. LIND,  
Commissioner of Crown Lands and Survey.

Department of Lands and Survey,  
Melbourne, 23rd September, 1940.
