## HAMILTON WATERWORKS TRUST.

## BY-LAW NO. 44.

THE Hamilton Waterworks Trust (hereinafter referred to as The Trust) the Waterworks District of which Trust has been proclaimed an Urban District for the purposes of the Water Acts, doth hereby make the following By-law for such Urban District:—

1. No person supplied with water by the Trust shall waste the same, or permit or suffer the same to run to waste.

2. Except for fire fighting purposes no person shall take or carry away, or permit or suffer any other person to take or carry away from any premises, any water supplied by the Trust.

3. No person shall sell any water supplied by the Trust.

4. (i) No person shall, during the period beginning on the sixth day of November, 1940, and ending on the first day of April, 1941, use for the purpose of watering or irrigating any lawn, garden, plantation, or any vegetation whatsoever, any water supplied by the Trust.

(ii) The prohibition contained in the preceding sub-clause shall not apply between the hours of Six and Seven o'clock in the morning, and half-past Six and Eight o'clock in the evening of any day during the period mentioned in the said sub-clause if the water used for any of the purposes mentioned in the said sub-clause is supplied by the Trust by measure, and is so used by means of a garden hose.

5. Any person who shall use, or permit or suffer water supplied by the Trust to be used, contrary to any of the provisions of this By-law, shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds for each such offence, recoverable summarily before any court of competent jurisdiction, and in cases of continuing the offence to a further penalty not exceeding Five pounds for every day after notice of the offence from the Trust.

6. If any person supplied with water by the Trust wrongfully does or causes or permits to be done anything in contravention of any of the provisions of the Water Act or wrongfully fails to do anything which under such provisions ought to be done for the prevention of the waste, misuse, consumption or contamination of the water, the Trust (without prejudice to any remedy against him in respect thereof) may cut off water and cease to supply him so long as the cause of injury remains or is not remedied.

The foregoing By-law was made on the seventeenth day of October, 1940, and the seal of the Trust affixed hereto in the presence of—

(SEAL) GEO. C. SHILCOCK, Chairman.  
R. H. THOMAS, Commissioner.  
A. WALLS, Secretary.

## MAFFRA WATERWORKS TRUST.

## RATING BY-LAW NO. 29 FOR THE YEAR 1941.

THE Maffra Waterworks Trust, in pursuance and exercise of the powers conferred by the Water Acts, doth hereby make a rate for the supply of water for domestic purposes of Sixteen pence in the pound on the annual municipal valuation of lands and tenements liable to be rated in the Maffra Urban District.

Provided that in no case shall the amount of rate payable per annum in respect of any tenement (other than land on which there is no building) be less than Twenty-five shillings, and, in respect of any land on which there is no building, less than Five shillings.

Such rates are made and shall be levied upon the occupiers or owners of the said lands or tenements for the year commencing on the first day of January, 1941, and shall be payable on the first day of January, 1941, at the office of the said Trust.

## MURTOA SEWERAGE AUTHORITY.

BY-LAW No. 1, RELATING TO CONSENTS, LICENCES, ETC., ALSO LEVELS, DIMENSIONS, CONSTRUCTION, MAINTENANCE, VENTILATION, AND CLEANSING OF SEWERS AND OTHER MATTERS RELATING TO HOUSE CONNECTION WORK.

THE Murtoa Sewerage Authority, pursuant to and in exercise and execution of the powers and authorities conferred on it by the Sewerage Districts Acts and of any and every other power or authority in any wise enabling it in that behalf, doth hereby make and prescribe the following By-law, that is to say:—

In the construction of this By-law, unless inconsistent with the context or subject-matter—

“Acts” means the Sewerage District Act and any amendment thereof, and any Act incorporated therein, or amendment of such Acts.

“Anti-syphonage vent” (or “back vent”) means any vent pipe from an individual trap to the open air, or a main or branch vent pipe having for its purpose the prevention of loss of water seal in the trap.

“Authority” means the Murtoa Sewerage Authority.

“Bore,” “diameter,” or “size,” in reference to any pipe, means the nominal diameter thereof, in accordance with accepted trade practice.

“Building” means any building used as a work place, residence, place of business, place of amusement, or place of human habitation, or for the storage of food intended for human consumption, but does not include outbuildings unless such are used for any of the above purposes.

“Disconnecter trap” means a trap for isolating or disconnecting waste pipes from the house drain and soil pipes and providing inlet ventilation to the waste pipe or pipes discharging into it.

“Drain” means any drain used for the drainage of one building only or of premises within the same curtilage and includes any drain for draining any group or block of houses by a combined operation under the order of the Authority.

“Educt vent” means an opening or pipe for the exit of air from and the induction of draught in a soil pipe, waste pipe, or house drain.

“Engineer” means the Engineer of the Authority.

“Fittings” mean all apparatus or appliances, together with their necessary appurtenances and connexions, for use in connexion with the plumbing or drainage system of any property, with the exception of fixtures and straight piping.

“Fixtures” means all apparatus or appliances, together with their necessary appurtenances and connexions, which may be attached to the plumbing or drainage system of any property, and which are intended for the collection or retention of any wastes or waste waters for ultimate discharge into the sewerage system.

“Housemaids’ slop sink” means any fixture other than a closet pan or urinal used for the discharge of soil waters and provided with a flushing apparatus in accordance with Division 32 of this By-law.

“Induct vent” means an opening or pipe for the admission of air to a soil pipe, waste pipe, or house drain.

“Interceptor trap” (or “boundary trap”) means a trap for preventing the passage of air or gases from the sewer to the house drain, and situated on the house drain at some point between the sewer and the lowest inlet to the house drain.

“Occupier” means the person for the time being in actual or constructive occupation of the premises.

“Owner” includes the person for the time being who receives or is entitled to receive the rent of the lands or premises in connexion with which the word is used, whether on his own account or as agent of or as trustee for any other person, or who if such lands or premises were let to a tenant at a rack rent would be entitled to receive the rack rent from the occupier thereof.

“Premises” includes any house and any building whatsoever and any part of any house or building and any garden stable yard or other offices used together or in connexion with any house or building and every part thereof.

“Responsible officer” means any officer authorized by the Authority to act as its representative in the particular matter to which the reference is made.

“Sewer” means any sewer or underground gutter or channel which is not a drain within the meaning of the Acts and any drain or portion of a drain laid between a sewer and the boundary line of any allotment or curtilage.

“Sewerage District” means the Murtoa Sewerage District.

“Sewered property” means as well as any sewered land or premises any land or premises which have been declared by a general notice given by the Authority, under the Acts to be deemed and taken to be a sewered property within the meaning of the Acts.

“Sewerage system” includes all sewers, fittings, fixtures, appliances, plant, machinery, and any other sewerage works vested in the Authority.

“Soil pipe” means any pipe which conveys the discharge from water closets, housemaids’ slop sinks, or urinals to the house drain.

“Stack” means any vertical line of soil, waste or vent piping with its offsets, if any.

“Trap” means any fitting designed to retain a quantity of water to arrest the passage of air or gases through such fitting.

“Waste pipe” means any pipe which conveys the discharge from any fixture (except water closets, housemaids’ slop sinks, or urinals), to a disconnecter trap.

“Water seal” or “trap seal” means the vertical distance between the dip and the crown weir of a trap.

“Waste water” means water from factories or from buildings or premises in connexion with factories, but does not include storm water or ordinary domestic sewage.

## INTERPRETATION.

In the construction of this By-law the meaning which in the Acts, is assigned to any word shall be the meaning of the same word where occurring in this By-law, unless inconsistent with the subject-matter or context.

## PART I.

## GENERAL REGULATIONS.

## COMPULSORY FITTINGS.

Every property, shop and lock-up shop must be provided with at least one water-closet and a gully trap or sink with tap over same, unless by special permission of the Authority. (See Sections 81, 82, and 148.)

## Division 1.—Applications for Consents, &amp;c.

Section 1. Application for the Authority’s consent to connect with the sewerage system, or to do plumbing and drainage work connected therewith, must be made in writing by the owner of the property to be so connected, or by his authorized agent.

Section 2. Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be in the form prescribed by the Authority. For any wilful misrepresentation in such application the owner or authorized agent as aforesaid shall be guilty of an offence against this By-law. No consent given by the Authority shall be deemed to authorize anything not stated in the application, nor to confer or grant the right to lay a drain through any land intervening between the sewer of the Authority and the land proposed to be connected, and every owner or agent applying for the Authority’s consent shall satisfy himself as to his legal right to drain through such intervening land, as he shall be solely responsible for any trespass or damage thereon or thereto.

Section 3. Consents to make connexions with the sewerage system will be issued only when the plumbing and draining in the property to be connected is planned to be made in accordance with the rules for plumbing and draining hereinafter prescribed, and after such plan has been inspected and approved of by the responsible officer appointed by the Authority for the purpose, or, in the case of new buildings, when a proper plan of the plumbing and of the drainage of the building into the branch, of which the Authority shall have fixed the position, has been approved of in writing by the Authority. All connexions with drains or sewers, and all plumbing and drainage connexions therewith, shall be made under the direction of the responsible officer of the Authority. Consent will not be given for the performance of any such work except upon condition that no person shall be engaged or employed as a workman in the actual performance of any plumbing or drainage work unless he be the holder of a licence issued by the Authority to do such work. Any person who shall at any time or at any place make up, form, affix, alter, or repair any fitting, pipe, bend, trap, or other thing connected or intended to be connected with the Authority’s sewerage system, unless he be the holder of a licence from the Authority authorizing him to do such work, shall be liable to a penalty not exceeding Ten pounds. Any person, whether licensed as aforesaid or not, who shall alter, remove, or in any way interfere with any drain, fitting, pipe, bend, trap, or other thing connected with the Authority’s sewerage system, unless the Authority’s written consent has been previously issued to do such work at the premises concerned, shall be liable to a penalty not exceeding Ten pounds.

Section 4. Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of or from the Authority is necessary, whether specified in writing or otherwise, with regard to any act, matter, or thing mentioned in the By-law, the same may be given by and under the hand of the chairman of the Authority, or of the responsible officer, personally or through an inspecting officer appointed under him, who severally shall be competent to give the same and authorized on behalf of the Authority, to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given.

Section 5. In any case in which the Authority shall be of the opinion that a compliance with any of the provisions of this By-law would in any particular case be vexatious or be needless in the interest of public health, it shall be lawful for the Authority, by resolution, to dispense with or forbid such compliance in whole or in part as it shall think fit, or to authorize or direct such a modification or alteration of such provisions as shall, in its opinion, most nearly adapt the principle of those provisions to the particular case. It shall be unlawful to comply with any provision, or part of any provision, of which compliance shall have been forbidden, or to act contrary to or otherwise than as directed by such modification or alteration.

*Division 2.—Penalties, Recovery of Cost of Work, &c.*

Section 6. Where anything is by this By-law directed to be done, or forbidden to be done, or where any authority is given to the Authority or any of its officers to direct or to forbid anything to be done, and such act so directed to be done remains undone, or such act so forbidden to be done is done, then, and in every such case, the person making default as to the said direction or prohibition respectively shall be guilty of an offence against this By-law.

Section 7. Every person guilty of an offence against this By-law, not otherwise specially provided for by or under the authority hereof, shall be liable for every such offence, besides any costs or expenses which may be incurred in the taking of proceedings against such person guilty of such offence, as well as any costs or expenses which may be incurred in remedying such default, as particularly provided for in this By-law or the Acts, to a penalty not exceeding Ten pounds, and to a further penalty of One pound for each day during which such offence is continued by such person after notice of the offence shall have been given by the Authority to him; and such penalty shall be recoverable, notwithstanding that the Authority may not have chosen to exercise any power given to it by the Acts or by this By-law to remedy such default.

*Division 3.—House Drainage Plans—Alterations.*

Section 8. Copies of the Authority's plans of individual house drainage will be furnished by the Authority upon application and payment for the same, as follows:—

- (a) Where owners design and carry out their own work—
  - (i) For the supply of a block plan. Two shillings and sixpence (2s. 6d.).
  - (ii) For the examination of the owner's plan of design, a minimum fee of Seven shillings and sixpence (7s. 6d.).
  - (iii) For making or examining any alterations or additions to a plan previously issued or approved of by the Authority a minimum charge of Five shillings (5s.) shall be made by the Authority.
  - (iv) For the inspection of drains and testing by the Authority's inspector, a minimum of Ten shillings (10s.).
  - (v) For the inspection of plumbing by the Authority's inspector, a minimum of Ten shillings (10s.).
  - (vi) For the final inspection by the Authority's engineer and charting the work on the Authority's plans, a minimum of Ten shillings (10s.).
- (b) Where the Authority designs the work for the owner and the owner then carries out his own work—
  - (i) For plan of design, Ten shillings (10s.). plus Two shillings and sixpence (2s. 6d.) for each fitting.
  - (ii) For making or examining any alterations or additions to a plan previously issued or approved of by the Authority, a minimum charge of Five shillings (5s.) shall be made by the Authority.
  - (iii) For the inspection of drains and testing by the Authority's inspector, a minimum of Ten shillings (10s.).
  - (iv) For the inspection of plumbing by the Authority's inspector, a minimum of Ten shillings (10s.).
  - (v) For the final inspection by the Authority's engineer and charting the work on the Authority's plans, a minimum of Ten shillings (10s.).
- (c) Where the Authority designs the work and has same carried out for the owner, a charge shall be made equal to Ten per centum on the capital cost of the work for the designing and supervizing of all details in connexion with such work.

Consent for additions and/or amendments to approved plans or to works previously approved will be made only on the application of the owner or his authorized agent.

*Division 4.—Maintenance and Defective Work.*

Section 9.—Any drain pipe, soil pipe, trap, water closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with this By-law, or which shall in the opinion of the Authority be or become bad or of defective quality, shall, upon notice in writing from the Authority to the owner or occupier of the property, be by such owner or occupier removed or repaired in the manner determined and within the time fixed by the Authority; and in case such owner or occupier fails to comply with the requirements of the notice, he shall be liable to prosecution and penalty for an offence against the Acts, or the Authority will, if it thinks fit, remove or repair the said defective fitting and charge such owner or occupier of the premises with the cost so incurred, and will proceed for recovery of the same in a manner provided by the said Acts.

*Division 5.—Licences.*

Section 10. No person shall tender for or enter into any contract for or undertake any plumbing work relating to sewerage within the Murtoa Sewerage District or connected or to be connected with the sewers of the Authority who does not hold either a master plumber's licence or a working plumber's licence issued by the Authority.

Section 11. No person shall tender for or enter into any contract for or undertake any draining work relating to sewerage within the Murtoa Sewerage District, or connected or to be connected to the sewers of the Authority who does not hold either a master plumber's or working plumber's licence, or a drainer's licence issued by the Authority.

Section 12. No person other than a holder of a working plumber's licence issued by the Authority shall actually do or perform any such plumbing work.

Section 13. No person other than the holder of a working plumber's or a drainer's licence issued by the Authority shall actually do or perform any such draining work.

Section 14. At the discretion of the Authority a master plumber's licence may be granted to any master plumber or master builder, building contractor, or other person, firm, or corporation who is approved by the Authority, but such licence will only entitle the holder to tender for or enter into contracts for or otherwise undertake plumbing and drainage work under these By-laws, but shall not entitle the holder to personally do any actual plumbing or drainage work under these By-laws.

Section 15. Holders of master plumber's licences not themselves licensed working plumbers or licensed drainers must continuously employ on all and every plumbing work carried out by them under these By-laws licensed working plumbers, and on all and every drainage work, licensed working plumbers or licensed drainers.

Section 16. Working plumber's licences will be issued at the discretion of the Authority to persons who hold and produce to the Authority a certificate of competency issued by the Sanitary Plumber's Examination Board of Victoria. Such licence will permit the holder to do practical work as a working plumber upon all fittings, appliances, and apparatus connected or to be connected with the sewers of the Authority, subject to and in accordance with the Authority's By-laws and Regulations.

Section 17. Drainer's licences will be issued to any person who shall satisfy the Authority by passing an examination by examiners appointed by them or in such other manner as the Authority from time to time or in any particular case may direct that he has a thorough knowledge of the following subjects:—

Plans.—The reading of plans and the meaning of scales and of elevation, plan, and section drawing.

Levelling.—The use of the straight-edge, spirit-level, and boning rods.

Excavation, Timbering, and Refilling.—The use of tools for excavation, the protection of trenches by timbering, the treatment of different soils, tunnelling, and tunnel timbering, precautions near buildings, and manners of refilling of trenches and tunnels.

Drain-laying.—The preparation of the bottom of trenches, the laying and jointing of stone-ware, cement, concrete, and cast-iron pipes, cement, bitumen, lead, and self-fitting joints, laying of drains under houses and in soft ground, and the depth of drains below surface.

Drainage Details.—Junctions to sewers, diminishing of sizes of pipes, yard gullies, grease and other traps, inspection openings, and cast-iron drainage details.

Drainage Work.—Knowledge of the provisions of this By-law and of the Acts, insofar as same relate to the work and duties of drainers in regard to the construction, maintenance, and protection of the sewerage system and the construction and use of drains and drainage traps.

Candidates for drainer's licences shall give notice in writing to the Authority of their intention to submit themselves to examination, and this examination shall be at such a time and at such place as shall be appointed by the Authority. Candidates must provide themselves with their own tools and materials, and pay a fee of 10s. for each examination.

Section 18. The conditions upon which all master plumber's licences, working plumber's licences, and drainer's licences will be issued are—

(1) That every licence will be subject to suspension or cancellation at the will of the Authority, and that all such licences or renewals thereof will expire on the 30th day of June next following.

(2) That every holder of a licence from the Authority who shall have received the consent of the Authority to execute any works in connexion with sewerage or drainage, or who shall (where such consent of the Authority is not required before the execution of any such works) have notified the Authority of his intention to carry out such works—

- (a) shall obtain permission when necessary for the execution of such works on, over, or through any private property, or any streets, roads, parks, reserves or other public places or properties; and
- (b) shall pay any fees demanded by the Council or Authority for opening any street, road, or thoroughfare or otherwise in connexion with the work; and
- (c) shall execute such works in accordance with the provisions of the Acts and of the By-laws made thereunder, and of any special directions or orders given or issued by the Authority or proper officer; and
- (d) shall use materials of good quality only and free from defects; and
- (e) shall employ only competent operatives or assistants; and
- (f) shall execute such works in a thorough and tradesmanlike manner to the satisfaction of the Authority as expeditiously as practicable, and leave site clean and undefaced; and
- (g) shall in the execution of such works take such proper and necessary precautions that no accident or damage or unnecessary inconvenience may be directly or indirectly occasioned thereby; and
- (h) shall restore any part of any street, road, or thoroughfare interfered with by the work to the satisfaction of the municipal authority having control thereof upon the completion of the work; and
- (i) shall restore any other property interfered with by the work to the satisfaction of the responsible officer of the Authority; and
- (j) shall in all cases notify the proper officer immediately upon completion of any work in hand, promptly amend any defects therein, and again at once notify the said officer, and subsequently take steps forthwith to secure the certificate of satisfactory completion and give same to owner; and
- (k) shall, when so directed by the Authority, make good at his own expense any defect found within three months of the date of completion of any such work which, in the opinion of the Authority, is due to bad workmanship or defective material.

Section 19. Prior to the issue of any licence the person to whom the same is to be issued must sign a register containing a declaration that he accepts such licence subject to and in conformity with the conditions of such licence and of this By-law and that he will conform to and comply therewith, and shall pay to the Authority the fee named hereunder:—

	s.	d.
For every master plumber's licence . . . . .	10	0
For every working plumber's licence . . . . .	7	6
For every drainer's licence . . . . .	5	0
For the renewal of any licence . . . . .	2	6

*Division 6.—New Buildings, Additions, &c.*

Section 20. Every person who shall intend to erect a building on any property within the Sewerage District, or to rebuild or to make any alterations or additions to any such buildings shall, before commencing such work, give to the Authority seven days' notice in writing of such intention; and such notice shall be accompanied by plans and sections of such intended buildings, alterations, or additions, showing their positions, dimensions, depths, and levels of foundations, cellars, or basements, all appurtenant walls and fences, the intended lines of drainage, and the boundary of the land, which plans, &c., shall become the property of the Authority.

*Division 7.—General.*

Section 21. Any work or thing in respect of or in connexion with sewerage under the Act that is not specifically mentioned in this By-law shall be performed in accordance with the directions of the Authority.

**PART 2.**

**GENERAL REGULATIONS.**

*Division 8.—Use of Sewers and Drains—Prohibition of Certain Discharges.*

Section 22. *Use of Sewers and Drains.*—The owner and the occupier of any sewered property shall discharge into the sewerage system all faecal matter, urine, household slops and household liquid refuse from such property, and such other polluted water from stables, washing areas, manure bins, basements, cellars, and roofed yards, and such trade, or manufacturing liquid refuse as the Authority may authorize or require, subject in each and every case to such conditions as it may impose.

Section 23. *Prohibited Discharges.*—The deposition or discharge of any of the following substances into any house drain is prohibited:—

- (a) Any animal matter other than is specified in section 22, fleshings, wool, hair, dead animal, grease, dust, ashes, rubbish, garbage, offal, vegetable and fruit or their parings, rags, oil, silt, mud, sand, gravel, or like substances, or any other substance which is, in the opinion of the Authority or its responsible officers, liable to be injurious to any part of the sewerage system or to the employees of the Authority engaged in the operation or maintenance of same.
- (b) Any petrol or other inflammable or explosive substance, whether solid, liquid, or gaseous.
- (c) Any rain, roof, surface, or flood waters, except by special permission of the Authority.
- (d) The contents of any night-soil cart, cesspool, or privy.
- (e) Any waste water, liquid, trade waste, or other substance which has not been neutralized to the approval of the responsible officer of the Authority, or which is above the temperature of 100 deg. Fahrenheit, or such lower temperature as may be prescribed by the Authority, having regard to the special circumstances of the case.
- (f) Any liquid which contains such percentage of common salt or any other mineral salt, acid, or gas, as is, in the opinion of the responsible officer of the Authority, injurious to, or liable to form compounds injurious to, any part of the sewerage system or to employees of the Authority engaged in the operation or maintenance of same.

Section 24. *Fittings to be Above Flood Level.*—No person shall place in position for use any fitting or appliance having an inlet or opening into any drain or into any sewer of the Authority unless the inlet or opening is above the flood level of the year 1934. Where any doubt is raised in connexion with any of the clauses of this By-law as to the highest flood level of the year 1934, the Engineer, after inquiry, shall fix such flood level, and his decision shall be final and conclusive.

Where any buildings or premises are situated in any area liable to flooding at frequent intervals the Authority may suspend the operation of this clause subject to and so long as the following conditions are observed:—

- (a) That the owner applies in writing for permission to fix an approved sluice valve in every drain connecting with a sewer of the Authority on which the inlet or opening is placed, and furnishes the Authority with an undertaking that such sluice valve will be fixed at his risk, and indemnifies the Authority against all damage suffered by such owner or any one claiming under him arising out of and incidental to such valve;
- (b) That the owner undertakes whenever there is danger of flooding to close or cause to be closed every such valve before flooding occurs, and to keep closed or cause to be kept closed every such valve until the flood water shall have subsided to such an extent that there is no longer danger of the flood water entering the sewers;
- (c) That, pursuant to such permission and undertaking an approved sluice valve shall have been fixed in every drain connecting with a sewer of the Authority and approved of by the Engineer;
- (d) That the owner does whenever necessary close and keep closed every such valve and does exclude such flood water.

*Division 9.—Trade Wastes.*

Section 25.—*Conditions of Discharge.*—No person shall discharge any trade or manufacturing liquid, refuse, or waste into any sewer, unless and until the following conditions are complied with:—

- (a) Application for permission to discharge any such trade wastes shall be made in writing and accompanied by plans and specifications of the work to be done and of the apparatus to be used, and shall include such details concerning the nature of the waste and the quantity and rates of discharge of the proposed effluent as considered necessary by the responsible officer of the Authority.

- (b) The permission of the Authority in writing shall be obtained and an agreement containing a covenant to comply with the By-law and with any further stipulations required by the Authority, shall be executed.
- (c) The volume of liquid refuse or waste discharged shall, if ordered, be measured and determined by meter or by some other approved means of measurement. The maximum aggregate daily quantity of effluent which may pass from any trade premises into a sewer, the maximum permissible rate of such discharge, the size and capacity of the drain for conveying such effluent from the trade premises to the sewer, and the hours during which such flow will be permitted, shall be determined by the Authority.
- (d) All such liquid refuse or waste shall be passed through such settling, screening, and/or neutralizing chambers and/or such other appliances and/or otherwise treated as ordered or approved by the Authority to ensure that the resulting effluents shall comply with the conditions of the agreement.
- (e) Every settling, screening, neutralizing, or other chamber, appliance, or apparatus for the treatment of trade wastes in accordance with this By-law shall be cleaned and maintained by the occupier at his own expense and at such intervals as may be considered necessary by the Authority or its responsible officer to ensure the efficient operation of such chamber, appliance, or apparatus, and in no case shall such chamber, appliance, or apparatus be altered without the approval in writing of the Authority first obtained.

**Division 10.—Sub-soil Water.**

Section 26. The discharge of sub-soil water into sewers shall be prohibited except by permission of, and under conditions approved by, the Authority.

**Division 11.—Inspection, Tests, &c.**

Section 27. *Notice.*—The owner or his authorized agent, or the plumber, drainer, or contractor, shall give at least forty-eight hours notice to the Authority, in writing, of his intention to commence work and of work ready for inspection. All work shall be left uncovered and accessible for examination until inspected and approved. Inspection shall be made within twenty-four hours of the receipt of such notification except when the notification is received on a Saturday, when seventy-two hours shall be allowed.

The contractor carrying out any work shall, within seven days of the completion of such work, file in the office of the Authority, on forms furnished for this purpose, a correct statement of the work done and the cost thereof. Such statement shall be countersigned by the responsible officer of the Authority, and a certificate embodying such statement shall be forwarded to the contractor.

Section 28. *Inspection.*—All drains, wastes, fittings, joints, fixtures, &c., will be inspected by the responsible officer of the Authority to ensure compliance with the By-law and approved plan.

Section 29. *Tests.*—Drains, whether laid by the Authority's workmen or others, must be thoroughly tested in every case before being passed by the Authority's officers. The responsible officer of the Authority may require the application of the water or smoke test, or such other tests as he may order or approve.

Section 30. *Water Test.*—The water test may be applied to the drainage and/or plumbing systems and their fittings in their entirety or in sections. It shall be applied by hermetically sealing all openings below the top of the section to be tested. The system shall then be filled with water to a height of 6 feet above the highest point of the section, or, if considered necessary, to such additional height as the responsible officer may order, and every joint carefully examined for leaks.

Section 31. *Smoke Test.*—The smoke test shall be applied by hermetically sealing all openings into the section to be tested, and forcing into the system thick smoke to a pressure equivalent to 1 inch of water, by means of a smoke test apparatus. Every joint shall then be carefully examined for leaks.

Section 32. *Equipment, &c.*—The equipment, material, power, and labour necessary for the inspection and tests shall be furnished by the contractor, plumber, or drainer.

Section 33. *Maintenance.*—Every person holding a licence from the Authority who shall execute any work in connexion with sewerage drainage and/or sanitary plumbing shall, when so directed by the Authority, make good at his own expense any defect found within twelve months of date of completion of any such work due, in the opinion of the Authority, to bad workmanship or defective material.

**Division 12.—Materials and Workmanship.**

Section 34. *Materials.*—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be of the best of their respective kinds, sound and free from defects, and shall comply with such Australian standard specifications as apply and are accepted by the Authority, otherwise to be approved by the Authority.

Section 35. *Testing.*—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be submitted for examination and/or test, and shall not be placed in position until passed and stamped by the Authority. Such testing of materials shall be paid for by the person submitting same, whether passed or rejected, and shall be done at such time and place, and at such rates, as may from time to time be fixed by the Authority.

Section 36. *Workmanship.*—All work shall be executed in a thorough and workmanlike manner, and to the satisfaction of the Authority.

Section 37. *Precautions.*—Adequate precautions shall be adopted by the person carrying out the work to prevent injury to workmen, property, or public, and the Authority will accept no responsibility for claims for injury arising from the inadequacy of such precautions.

Section 38. *Concrete.*—Concrete, unless otherwise ordered, shall consist of one part Portland cement, two parts clean sharp sand, and four parts hard metal, shingle or gravel not exceeding  $\frac{3}{4}$ -in. gauge, and shall be thoroughly mixed with clean water to such consistency as ordered or approved by the responsible officer of the Authority.

Section 39. *Cement Mortar.*—Cement mortar, unless otherwise ordered, shall consist of one part Portland cement and two parts clean sharp sand, properly mixed with an approved proportion of clean water.

**PART 3.**

**DRAINAGE.**

**Division 13.—Drainage, General.**

Section 40. (1) Every premises shall be separately drained unless a combined drain shall have been ordered or approved by the Authority. Owners desiring to have the drainage of their properties combined must sign a request for a combined drain, and obtain the approval of the Authority. In any case in which it appears to the Authority that any properties may be drained more advantageously in combination than separately the Authority may order that those properties be drained by a combined operation.

(2) In any case where a combined drain serves two or more properties the Authority, with the consent of the owners of the properties served by such combined drain, may take over such combined drain, and thereafter such combined drain shall be and remain a sewer of the Authority.

(3) In every case of a combined drain the Authority will determine, as between the respective owners and occupiers of the properties drained thereby, the proportions in which the cost of such combined drain shall be paid. In every case of the occurrence of an obstruction in a combined drain the Authority will also determine by whom and in what proportion the cost of removing such obstruction shall be paid.

(4) Owners and occupiers of premises are responsible for clearing stoppages in drains within their premises, or between their premises and the sewers into which the branches lead, but must employ only licensed plumbers or drainers to clear same.

(5) Before a licensed plumber or drainer commences to clear a stoppage in a drain he must notify the Authority in writing of the time when he intends to clear the stoppage, so that the Authority's proper officer may attend and pass the work in accordance with the provisions of the Act.

Section 41. *Size of Drains.*—Every drain shall be of adequate size for the drainage of the property to be served, in accordance with the requirements of section 85, with a minimum diameter of 4 inches.

Section 42. *Materials.*—All drain pipes, bends, junctions, and fittings used shall be of glazed stoneware, concrete, cast-iron, or other approved material, provided that the responsible officer of the Authority may prohibit the use of any of the above-mentioned where the circumstances or conditions are considered unfavorable.

Section 43. *Cast-iron Pipes.*—Cast-iron drainage pipes and their fittings shall comply with the Australian standard specification, or, in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameters.

Section 44. *Interceptor Traps.*—Where directed by the Authority, but not otherwise, an interceptor trap shall be fixed in the drain laid from any property to the sewer. Such trap shall be fixed as near as practicable to the boundary, and wherever practicable shall be within the boundaries of the property. The interceptor trap shall be provided with an inspection cap on the sewer side of the trap. If ordered, an approved manhole shall be provided for the trap.

Section 45. *Inspection Chambers.*—All drains shall, wherever considered necessary by the Authority, join in an inspection chamber at least 3 feet long by 2 feet wide, fitted with a closed cover. The portions of the drains crossing the floor of the inspection chamber shall be connected either in a straight line or by curved junctions in the floor of the chamber. All inspection chambers to be cement rendered (two parts sand and one part cement) to a smooth surface, and made water-tight. The inspection chamber must be provided with a closed cover, and special ventilation must also be provided if considered necessary by the Engineer.

Section 46. *Inspection Openings.*—Every line of drain shall be provided with an inspection opening—inside and within 5 feet of the boundary line, at each junction not provided with an inspection chamber, at each change of direction, at each fixture, and in no case at greater than 30 feet intervals, and in paved areas these shall, if considered necessary by the responsible officer of the Authority, be brought to the surface and furnished with approved airtight covers. The area of an inspection opening shall be not less than the area of the drain.

Section 47. *Drain Openings Not in Use.*—The ends of all house drains not immediately connected with the plumbing fixtures and all inspection openings shall be securely closed with watertight imperishable materials. If stoneware or cement concrete, a stoneware, cement concrete, or cast-iron disc must be cemented in; if wrought iron, a plug must be screwed on the end; if cast iron, a cast-iron plug must be caulked in with lead.

Section 48. *Replacing or Inserting Pipes.*—Where it becomes necessary to remove a pipe to clear a stoppage or to insert a pipe or branch in an existing drain, such pipe so removed shall be replaced by an inspection pipe or inspection junction of the same length by one of the following methods:—

- (a) The top half of the socket of the new pipe and of the existing downstream pipe may be removed, but the bottom half shall in each case be left intact and the joints surrounded with concrete.
- (b) An approved split pipe with double collar surrounded with concrete may be used.
- (c) A length of not less than three pipes may be removed, the centre pipe replaced by an inspection pipe, and the pipes dropped back into place without springing or cutting.

Junctions in existing metal pipes shall not be made unless an approved closure pipe is used in each case. Springing pipes into position shall not be resorted to or allowed.

#### Division 14.—Basement and Cellar Drainage.

Section 49. *Fixtures.*—No water-closet, urinal, and/or other fixture shall be placed in any cellar or basement, or on any floor below ground level, unless by consent of the Authority, and then only when, in the opinion of the Authority, other provision cannot be made. The owner shall submit such plans and/or other information as the Authority may require, and shall undertake in writing to accept all risk of damage that may occur. If satisfied that the ventilation and lighting provided are in accordance with section 151 or 152 of these By-laws, and all other conditions have been complied with, the Authority may give its consent; provided always that such consent may be revoked by the Authority at any time, and that upon 14 days' notice of revocation such fixture shall be abolished by the owner.

Section 50.—*Risk of Back Flow.*—Where such cellar, basement, or floor below ground level is at such a level as may, in the opinion of the Authority, involve risk of back flow in the event of the sewer becoming overcharged, the sewage from all fixtures therein shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered and discharged into the sewer as and where directed.

Section 51. *Seepage Drains.*—In no case shall seepage drains from cellars, basements, or any floor below ground level be discharged into a sewer without the consent of the Authority. Where such discharge is permitted by the Authority the seepage shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered, and discharged into the sewer or elsewhere as and where directed.

#### Division 15.—Polluted Areas.

Section 52. *Connexion.*—The Authority may, if it thinks fit, authorize or require that any of the following places:—namely, stables, cow-sheds, dairies, market places, areas for washing vehicles, and any other polluted place, be connected with the sewers, subject to such conditions as the Authority may impose.

Section 53. *Conditions Governing Connexion.*—No such connexion shall be made unless the following conditions have been complied with:—

- (a) The place to be connected shall, if required, be so roofed as to prevent the entry of rain water from it to the sewers, and in no case shall rain water be permitted to discharge on to such place from adjoining surfaces.
- (b) The place to be connected shall be paved above the level of the yard with approved materials, and graded to the satisfaction of the responsible officer of the Authority.
- (c) The drain from any such place shall be provided with an approved silt trap with a removable grating and connected with the drain inside the boundary line of the property.

Section 54. *Manure Bins.*—(a) Manure bins must be provided for all stables, or cow-yards where the local Council's By-laws demand their construction, or where the locality is closely built on.

(b) All the manure bins must have the inside surfaces rendered with cement mortar, and must be made impervious throughout, and provided with an approved close-fitting cover. Walls of new manure bins must, unless otherwise approved, be at least 9 inches in thickness, built of brickwork laid in cement mortar. If an outlet pipe be provided for a manure bin, it must be properly connected with the Authority's sewers. Branches in house drains must be provided in all cases where manure bins exist, for their connexion whenever the Authority shall deem it necessary.

#### Division 16.—Pipe Trenches.

Section 55. The trench for the house drain from any property shall be so dug as to meet the Authority's sewer at the position provided or to be provided for the connexion.

The material from the trench shall be so placed as to cause the least possible obstruction and inconvenience to the public.

Proper barriers and lights must be maintained where necessary to guard against accident during the progress of the work.

In refilling the trench selected refilling shall first be deposited around and over the pipe to a depth of 12 inches and carefully consolidated, after which the remainder of the trench shall be filled in layers and rammed or flooded, as ordered or approved.

No stone shall be used in refilling until earth or gravel has been placed over the pipe to a depth of 1 foot, or more if directed.

On no account shall any water, sand, earth, &c., be allowed to enter the sewer during the progress of the work.

On completion of refilling the surface shall be restored as nearly as possible to the same condition as it was in before operations were commenced, unless the owner in writing otherwise requires.

#### Division 17.—Laying Drains, &c.

Section 56. *Position and Line.*—Every drain and every fitting, &c., connected therewith shall be laid and fixed where directed by the responsible officer of the Authority. As far as possible all drains shall be laid in straight lines; where changes of direction occur they shall be made in manholes, or by a suitably curved pipe with an inspection opening on each straight pipe next adjoining the curve.

Section 57. *Oblique Junctions.*—Where any drain joins another drain the junction shall be made obliquely at an approved angle with the direction of flow of such drain. Right-angled junctions shall not be made.

Section 58. *Connexion to Sewer.*—The position of the Authority's connexion to any premises shall be located prior to the commencement of any drain excavation. The disc stopper at the point of connexion to the sewer shall be carefully removed so as not to injure the socket or allow any debris to enter the sewer.

The first length of the drain at the branch shall be an inspection opening.

Section 59. *Gradients.*—All drains shall be laid on an even grade, and, except by special permission in writing, from the Authority, such gradients shall in no case be less than the following minimum permissible gradients:—

4-in. diameter	...	...	...	1 in 40
6-in. diameter	...	...	...	1 in 60

In cases where the grades of 4-in. and 6-in. drains are steeper than 1 in 10 and 1 in 15, respectively, concrete stops shall be placed as and where directed by the responsible officer of the Authority.

Section 60. *Depth of Drains.*—Drains of stoneware or concrete pipe, unless bedded in and encased in concrete of not less than 6 inches thickness over any part of the drain, shall be laid at a depth to the socket of the pipe of not less than the following:—

- (a) In public thoroughfares, rights-of-way, or other open spaces subject to vehicular traffic—2 ft. 6 in.
- (b) In private property not subject to vehicular traffic—1 foot.

No person shall alter the surface over any drain so as to deprive it of the minimum depth of cover specified by the preceding paragraph, unless approved measures are adopted to protect the drain.

Section 61. *Laying Drains.*—All pipes shall be laid to such lines and grades as may be shown on the plans or directed, and, except where otherwise ordered, holes shall be cut in the bottom of the pipe trench to receive the sockets of the pipes, and all the pipes shall be carefully bedded with the barrel on the solid ground.

In the case of rock-bottomed trench, or where directed, the pipes shall be bedded up to the horizontal diameter upon not less than 2 inches thickness of approved sand or other approved material measured from the barrel of the pipe.

In water-charged ground, or where the foundation is bad, or near roots of trees, or where directed, the drain shall be formed of cast-iron pipes; or, if of stoneware or concrete pipes, they shall be bedded on and encased in concrete as ordered, and, if ordered, supported upon approved timber foundations as directed.

Drops or bends in vertically-inclined drains shall have a concrete support placed under and around as directed.

Portland cement concrete brought to a smooth surface must be used in each of the following cases:—

- (i) Around and under gully basins, the exposed surfaces to be rendered in cement mortar, two parts sand, one cement.
- (ii) Around the top and for 6 inches below the surface of the ground of vent pipe sockets where exposed.
- (iii) Around the top and for 6 inches below the surface of the ground of disconnection traps when the surface is exposed.
- (iv) Under and around bends rising vertically off oblique branches, and under all drainage traps.

#### Division 18.—Drains Under Buildings.

Section 62. Every drain shall, as far as practicable, be so constructed as not to pass under any building. Where a drain does pass under a building it shall, if practicable, be laid in a direct line for the whole distance beneath such building, and shall have approved means of access for rodding outside the walls of the building, and also, if directed, beneath the building. The pipes used shall be of stoneware or concrete, surrounded by not less than 6 inches of concrete, or of cast-iron.

In any case in which pipes pass through or under walls, approved provision shall be made to prevent injury to the pipes by settlement, and, in outer walls, to prevent the ingress of vermin.

#### Division 19.—Joints, Drainage.

Section 63. *Stoneware and Cement Pipes.*—Joints of stoneware and cement pipes shall be filled in solidly with cement mortar neatly splayed off, or with other approved material. After each joint is made the interior of the joint shall be wiped clear of surplus mortar before the next pipe is laid.

Section 64. *Cast-iron Pipes.*—All joints in cast-iron pipes must be stemmed with approved gaskets and so filled and caulked with lead or other approved material as to make them gas and water tight.

All connexions between stoneware or concrete pipes and cast-iron pipes shall be made as for joints in stoneware or concrete pipes.

#### Division 20.—Drainage Ventilation.

Section 65. *Vents on Main House Drain.*—The main drain shall be ventilated at its upper end by a pipe ventilator erected vertically, and such ventilator may be a soil pipe.

If the drain is provided with an interceptor trap there shall be in addition a ventilator connected to the interceptor trap shaft: In such cases there shall, wherever practicable, be a difference in height of not less than 6 feet between the tops of the vents at the upper and lower ends of the drains respectively.

Section 66. *Vents on Branch Drains.*—Branch drains need not be vented if the drainage traps are within 15 feet from the main house drain, measured along the line of pipes, including the drop, if any, from the centre line of the main drain to the centre of the outlet side of the water seal of the drainage trap, unless otherwise ordered by the Authority, in which case they must be vented as directed.

Section 67. *Height of Vents.*—Every vent pipe extending upwards from a soil or drain pipe shall be carried not less than 6 feet higher than any window or door within a distance of 30 feet thereof, and in any case at least 21 feet above ground level and 6 feet above the level of the eaves or coping, or to such additional height as may be necessary to prevent effectually the escape of foul air into any building within the vicinity.

Where the vent pipe extends into a gable of the building it shall further be carried at least 2 feet above the point of intersection with the roof.

Such pipes shall, where necessary, be provided with sufficient clips or stays to support them effectively.

Section 68. *Chimneys.*—No chimney shall be used as a ventilator to any drain, soil, or waste pipe.

Section 69. *Vents near Chimneys.*—Vents must, as far as possible, be kept away from chimneys and ventilating air shafts. Where a ventilator pipe terminates 6 feet or more from a chimney opening or ventilating air shaft, the requirements of section 67 shall apply, but where the distance is less than 6 feet the vent pipe shall, unless otherwise ordered, terminate not less than 2 feet below the top of such chimney or air shaft.

Section 70. *Vents Adjoining High Buildings.*—In any case in which a building is erected next to a previously existing building of less elevation, and any windows of the new building are located within 30 feet of any existing vent stack on the lower

building, the owner of such new building shall defray the cost of or shall himself make such alterations to the vents of the previously existing building as necessary to conform with section 67.

The owner of the lower or existing building shall make such alterations upon the receipt of money, or security therefor sufficient for the purpose, from the owner of the new or higher building, or shall permit at the election of the owner of the new or higher building, the making of such alteration by the owner of such new or higher building.

Section 71. *Size of Drainage Vents.*—Drainage vent pipes shall, unless otherwise ordered, be of not less than 4 inches diameter in the case of educt vents and not less than 3 inches diameter in the case of induct vents, with the provision that where more than one educt vent is provided the vent on the longest line of drain shall be of not less than 4 inches diameter and all others of not less than 3 inches diameter; but in no case shall a drainage vent be of smaller diameter than necessary to comply with the requirements of section 88.

Unless otherwise ordered or approved every such vent pipe shall be without return bend and provided with basket end or educt or induct cowls as directed.

Section 72. *Materials, &c.*—Drainage vent pipes situated wholly outside of buildings shall be of cast-iron, galvanized wrought iron, double galvanized sheet iron, or other approved material above ground, and of stoneware or concrete beneath the surface of the ground. Galvanized sheet-iron vent pipes shall not be less gauge than 20 for 3-in. and 4-in. diameter pipes and 18 for 6-in. pipes, and where ordered the first 6 feet above ground shall be of cast-iron or other approved material. Drainage vent pipes inside a building shall, unless otherwise approved, be of cast-iron or of galvanized wrought iron. The circumferential joints of galvanized sheet iron vent pipes shall be riveted and soldered. All galvanized sheet-iron vent pipes used to ventilate the drainage system, or used as anti-siphonage pipes to soil or waste pipes from closets, slop sinks, or urinals, must be coated with hot tar or asphaltum inside before erection.

Section 73. *Gratings.*—Openings for ventilation shall be effectively protected by approved gratings of ample area. The aggregate area of apertures in any such grating shall not be less than the sectional area of the pipe or drain to which such grating is fixed. Every opening for ventilation shall at all times be kept perfectly free from obstruction.

Section 74. *Pipe Clips, &c.*—There shall be at least one pipe clip to each 6-ft. length of vent pipe.

For cast-iron or wrought-iron pipe approved coated wrought-iron clips and for galvanized sheet iron pipe 1½-in. x 14-gauge galvanized band iron clips shall be provided. Wherever it is necessary to fix pipes clear of the wall approved extension clips shall be used.

(Clips in the case of cast-iron pipes must be placed tight up against the head or underside of collar.)

Section 75. *Attachment to Walls.*—Where a galvanized sheet iron pipe, with or without offset, is carried up above the brick wall of a building a galvanized wrought-iron clip must be used, leaded into the wall near the top wherever possible and bolted against the vent pipe.

All band iron clips of vent pipes to brick walls shall be fastened with nuts and bolts, leaded in, or by means of T-headed bolts passed through the brick joints and turned at right angles to the joints.

Section 76. *Supporting Vents.*—Wherever a vent pipe with offset is not more than 9 feet long above such offset it need not be stayed; if longer, it shall be stayed as directed with ½-in. galvanized wrought-iron piping.

An unsupported length of 15 feet above highest clip of straight vent pipe without offset will be permitted.

Section 77. *Induct Vents.*—Every induct vent shall be securely supported in an approved manner.

#### Division 21.—Drainage Traps.

Section 78. *Trapping of Inlets.*—Every inlet to any drain other than inlets provided for ventilation in accordance with the By-law shall be provided with an approved trap. No inlets to any drain connecting directly with a sewer shall be constructed within a building other than such inlets necessary for the apparatus of any water-closet, urinal, or housemaid's slop sink.

Section 79. *Classes of Traps.*—Four classes of traps shall be used—

- (a) "Traps" for intercepting gases only, to be of round section and self-cleansing form, but not such as to be empty by momentum or suction.
- (b) "Silt traps" for intercepting both gases and solids, to have slightly tapered sides, flat bottom, and rounded angles, and provided with approved means for catching and removing solids.
- (c) "Grease traps" for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, to be of such form as approved.
- (d) "Oil traps" for collecting all kinds of oil and to be of such form as approved.

The term "yard gully" is applied to traps (a) in cases where they are used externally and fitted with dished tops and gratings. The tops of inlets of all disconnector traps must be at least 6 inches above the surface of the surrounding ground.

Section 80. *Water Seal*.—All traps must have a water seal of at least half the diameter of the outlet pipe, but in no case of less than 2 inches.

Section 81. *Provision of Yard Gullies*.—A yard gully must wherever practicable, be provided in the yard of every property, as near as practicable to the kitchen or back door, with a tap placed over it at a height of not less than 2 feet. No yard gully shall be situated within a building. Where it is not practicable to provide a yard gully, a slop sink must be provided within the building.

Section 82. *Details of Yard Gullies*.—Yard gullies shall be fitted with dished tops and gratings, the dished top being in one piece with the trap or jointed thereto by spigot and faucet, or as otherwise approved.

The depth of the dished top to the grating must be not less than 6 inches. Grating to gully traps must not be less than 6 1/4 inches over all, and the gratings to all disconnector traps to be convex in section, with openings of suitable outlet capacity. All gratings must be fixed down in an approved manner with bitumen or wedges of lead.

Section 83. *Kerbing, &c., to Yard Gullies*.—Yard gully basins and the dished tops of silt traps must be so surrounded with an approved impervious kerbing as to prevent the access of surface water to the drains, and, if directed, the wall at the rear of the gully or silt trap, if of brick or stone, must be cement rendered to the height of the tap over same, and if of wood the wall must be provided with an approved galvanized sheet iron apron. The internal diameter of kerbing around gully traps measured from face of cement rendering must not be less than 15 inches, and must be neatly rounded to meet the gully top.

PART 4.

PIPE CAPACITIES.

Division 22.—Capacities of Soil, Waste, Drain, and Vent Pipes.

Section 84. *Fixture Units*.—For the purpose of determining the size of any drain, waste, soil, or vent pipe, the following equivalent fixture units shall be adopted, unless otherwise directed, and the nominal outlet diameter shown hereunder shall be the minimum allowed for each of the respective fittings.

Fixture.	Nominal Outlet Diameter.	Fixture Units.
One lavatory basin .. ..	1 1/4 inch	1
One lavatory basin .. ..	1 1/2 inch	1 1/2
One kitchen sink (up to 6-in. depth to overflow) .. ..	2 inches	3 1/2
One bath .. ..	1 1/2 inch	3 1/2
One bath .. ..	2 inches	5 1/2
One wash trough set with common trap .. ..	1 1/2 inch	3 1/2
One wash trough set with common trap .. ..	2 inches	5 1/2
One urinal .. ..	2 inches	4
One slop sink .. ..	2 1/2 inches	3
One slop sink .. ..	3 inches	4 1/2
One shower bath .. ..	2 inches	3
One water closet .. ..	4 inches	6
One bathroom group, consisting of one lavatory basin, one bath, and one shower .. ..		7

The equivalent fixture units to be adopted for fixtures other than those shown shall be determined by the Authority. One fixture unit denotes a rate of discharge equal to 1 cubic foot per minute.

Section 85. *Sizes of Soil, Waste, and Drain Pipes*.—Except by special permission the required sizes of soil, waste, and drain pipes shall be determined on the basis of the total number of fixture units drained, or likely to be drained, in accordance with the following table:—

Diameter of Pipe (Inches).	Minimum Permissible Grade.	Permissible Maximum Number of Fixture Units.										Vertical.	Maximum Number of Fixture Units permitted to be connected in any 8-ft. length of vertical stack.
		Grade not less than—											
		1 in 80	1 in 50	1 in 40	1 in 30	1 in 25	1 in 20	1 in 15	1 in 12 1/2	1 in 10	1 in 8

							620	..	..	..	..	9 1/2	780
								590	..	..	..	10 1/2	1,100

Provided that—

- (a) Waste and soil pipes shall not be diminished in diameter in the direction of flow.
- (b) The diameter of trap, waste, or soil pipe receiving the discharge from any fixture shall in no case be less than the nominal outlet diameter of such fixture.
- (c) No water-closet shall discharge into a drain or soil pipe of less than 4 inches in diameter.
- (d) All connexions between inclined pipes and vertical stacks shall be through 45 degrees junctions.
- (e) Soil and waste stacks shall be as direct as possible and free from sharp bends. Where such are unavoidable approved provision shall, if necessary, be made to safeguard fixtures immediately above and below the bend.

Section 86. *Sizes of Vents*.—(1) Main Vents.—Except by special permission, the required sizes of main vents shall be determined from the size of the soil, or waste pipe, or stack to be vented, the total number of fixture units drained into it, and the developed length of the vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table.

MAXIMUM PERMISSIBLE LENGTH OF MAIN VENTS (IN FEET FOR SOIL AND WASTE PIPES).

	730 .. ..	..	..	..	..	8	37	137	800
	1,100 .. ..	..	..	..	..	7	26	112	260

Provided that—

- (a) No vent shall be less than 1 1/4 inch in diameter, and in no case shall a vent have a diameter less than one half that of the soil or waste pipe which it serves.
- (b) For 2-in. and 2 1/2-in. waste pipes the vent shall have a diameter of not less than 1 1/2 inch.

(2) *Sizes of Branch Vents*.—The required sizes of branch vents shall be determined from the number of fixture units served by the branch vent and the developed length of the vent from the point of connexion of the anti-siphonage vent from the last fixture served by the branch vent to the outlet to the open air at the upper end of the main vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table:—

Diameter of Branch Vent	Number of Fixture Units Served by Branch Vent.	Maximum Permissible Length.	Diameter of Branch Vent.	Number of Fixture Units Served by Branch Vent.	Maximum Permissible Length.
1 1/4	Up to 9 .. ..	55	3	Up to 6 .. ..	800

				40 .. ..	290
				100 .. ..	244

Provided that—

(a) Branch vents shall conform to provisions (a), (b), for main vents.

(b) No branch vent need be larger in diameter than the soil or waste pipe which it serves.

(3) Individual Anti-syphonage Vents.—The required sizes of individual anti-syphonage vents shall be determined from the diameter of the fixture trap served in accordance with the following table:—

Diameter of Fixture Trap.	Minimum Permissible Size of Anti-Syphonage Vent.	Diameter of Fixture Trap.	Minimum Permissible Size of Anti-Syphonage Vent.
Inches.	Inches.	Inches.	Inches.
1½	1½	2½	2

PART 5.

PLUMBING.

Division 23.—General.

Section 87. *Waste Pipes*.—Except by permission of the engineer, separate waste pipes shall be provided for each of the following classes of polluted water, viz:—

(a) Dirty water from baths, sinks, lavatory basins, and wash troughs, and other waters containing a small proportion of soap and/or dirt.

(b) Greasy water from kitchen and scullery sinks or other fixtures, in such cases where grease traps are ordered or required.

Section 88. *Soil Pipes*.—Soil pipes shall be provided for soil water from closets and other waters containing faecal matter, and for urinal waters from slop sinks and urinals, and, where directed, for discharges from operating theatres and morgues, and in no case shall such waters be discharged into any waste pipe as defined by this By-law, except by permission of the Engineer.

Section 89. *Connections to Drain*.—All waste pipes shall discharge under the grating of a yard gully or into a disconnector trap. All soil pipes, including those for urinals and housemaids' slop sinks, must be connected direct to the drain. No waste pipe shall be laid in the ground outside any building unless by special permission.

Section 90. *Flashing, &c.*—All troughs, sinks, and other fixtures which are placed less than 3 inches, and all baths fixed less than 6 inches clear from any wall shall be flashed with 5-lb. lead, 24-gauge copper, bronze, brass, nickel, silver, or monel metal, or other approved material. Galvanized sheet iron may be used for fixtures other than sinks.

All such flashings shall be turned up the walls at least 4 inches, except where the walls are tiled, when the flashings shall be carried up at least 1 inch behind the tiles. Baths and other fixtures having turned-up flanges for use against tiled walls in lieu of sheet metal flashing shall be properly supported to prevent settlement, and the flange shall lap at least 1 inch behind the tiles, which shall be brought hard down on to the surface of the fixture. All flashing shall be properly secured and made watertight, and shall be bedded for a width of not less than 1 inch along the edge nearer the fixture in red or white lead.

Section 91. *Bib-cocks*.—Internal bib-cocks shall not be permitted unless a sink, lavatory basin, or other approved fixtures, or a properly drained impervious floor, is provided underneath.

Division 24.—Soil, Waste, and Vent Pipes.

Section 92. *Materials*.—No material shall be used for soil pipes other than cast-iron, lead or brass, and for waste pipes other than wrought-iron, cast-iron, lead, brass or copper.

Section 93. *Lead Pipes*.—The minimum permissible weight of lead for soil, waste, or vent pipes for water closets, urinals, and slop sinks shall be 7 lb. per square foot, and for all other fixtures 6 lb. per square foot.

Section 94. *Wrought-iron Pipes*.—All wrought-iron pipes and their fittings shall be approved standard weight and quality and galvanized or lined to the approval of the Authority.

Section 95. *Cast-iron Pipes*.—All cast-iron pipes shall be sound, free from holes and cracks, and coated with approved bituminous composition, or lined with glass enamel to the approval of the Authority.

Cast-iron pipes and their fittings, where laid in the ground, shall comply with the Australian standard specifications, or in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameter. Cast-iron pipes for use in other situations shall have a minimum thickness of 3-16 inch measured in the case of glass-enamelled pipes without the enamel, and their fittings shall correspond with them in weight and quality. All junctions shall be curved, right-angled junctions shall not be made.

Section 96. *Galvanized Sheet Iron Pipes*.—External vent pipes of galvanized sheet iron shall be of a gauge not less than the following:—

- 1½ inch, 2 inch, 2½ inch diameter—22-gauge.
- 3 inch and 4 inch diameter—20-gauge.
- 6 inch diameter—18-gauge.

Section 97. Where lead, copper, brass, or cast-iron soil or waste pipes are fixed outside a wall for upstairs fixtures, the lead, copper, brass, or cast-iron pipes shall be carried at least 2 feet above the level of the highest fixtures attached to the pipe.

Section 98. *Vent Pipes*.—Vent pipes, if inside a building shall in all cases be of cast-iron, wrought-iron, lead, copper, or brass. Grooved, welded, or riveted double galvanized sheet iron vent pipes may be used where they are entirely outside a building, and shall be connected with the traps or waste or soil pipes, with brass ferrules or other joints approved by the responsible officer of the Authority.

Section 99. *Vents in Shed, &c.*—Galvanized sheet iron vent pipes may be used inside stables or open sheds, except where liable to damage.

Section 100. *Use of Lead Pipes*.—Lead pipes shall not be used, except where exposed to view and/or not liable to damage.

Section 101. *Supporting Lead Pipes*.—Lead pipes shall be supported by cast lead tacks of approved dimensions, wiped on to the pipe or by other approved fastenings, and such fastenings shall be arranged as nearly as possible thus—

- 4-in. vertical lead pipes—2 ft. 6 in. centres.
- 4-in. horizontal lead pipes—2 feet centres.
- Less than 4-in. vertical pipe—3 feet centres.
- Less than 4-in. horizontal pipe—2 ft. 3 in. centres.

Two pairs of tacks, fixed opposite, is sufficient for fixing lead flush pipes from cisterns.

Section 102. *Minimum Permissible Gradients*.—The following are the minimum gradients to be adopted for soil and waste pipes:—

Diameter of Pipe.	Minimum Gradient.
1½ inch	1 in 12½
1¾ inch	1 in 15
1¾ inch	1 in 17½
2 inches	1 in 20
2½ inches	1 in 25
3 inches	1 in 30
4 inches	1 in 40
5 inches	1 in 50
6 inches	1 in 60

Section 103. *Length of Unvented Waste Pipes*.—Waste pipes need not be ventilated unless they exceed 10 feet in inclined length or 12 feet in vertical length, provided that there is only one fixture attached to the waste pipe, and provided that the water seal of the trap is not reduced by syphonage or other cause. Where there is more than one fixture, or the water seal is reduced, a vent pipe shall be supplied to the fixture trap or traps.

Section 104. *Junctions*.—Where a waste or soil stack is branched into a graded waste, soil, or drain pipe, the branch fitting shall have an angle of not less than 45 degrees to the horizontal, and the length of the branch of the fitting shall be such that the vertical projection of the attached stack will be wholly outside of the area of the junction with the graded pipe.

Section 105. *Sealing of Pipes*.—Wherever a fixture is abolished, the soil, waste, vent, and water supply pipes to such fixture shall be removed, or, if allowed by the Authority to remain, the ends of the pipes shall be sealed with water-tight imperishable materials.

Section 106. *Soil Vent Pipes*.—In all cases the upward extension from the soil pipe for ventilation shall pass in as direct a manner as possible above, and, if necessary, through the roof.

Section 107. *Vent Pipe Grades*.—All vertical lines of vent pipe shall connect, full size, at their bases with a soil, waste, or drain pipe at an angle of not less than 45 degrees to the horizontal, and shall extend in undiminished size above the roof or be connected to the soil, waste, or vent stack, in compliance with the requirements of section 109, on a grade sufficient to avoid the collection of water.

All intermediate bends or offsets shall be at a grade of not less than 45 degrees to the horizontal.

Vent pipes shall not be used as waste or soil pipes.

Section 108. *Anti-syphonage Vents.*—Traps must be prevented from syphoning by proper ventilation, in accordance with the requirements of section 86. Such anti-syphonage vents from fixtures shall be carried above the eaves of the building or joined to the branch or main vent above the level of the fixture, unless special permission to the contrary is granted.

These vent pipes shall be connected to the waste or soil pipe at a point not less than 3 inches nor more than 12 inches from the crown of the trap and on the opposite side of the water seal to the fixture.

Section 109. *Combining of Vents.*—The various vents may be combined by branching together those which serve traps of the same class. The vent pipes may be branched into a soil or waste pipe of the same class above the level of the highest fixture.

Section 110. Where a branch is required to a galvanized sheet iron vent pipe, a brass saddle piece bolted and soldered to the vent must be used.

Section 111. *Sheet Metal Bends and Offsets.*—All sheet metal bends and offsets for flush and vent pipes shall be bent or pressed. Mitred elbows will not be permitted.

Section 112. *Pipes to be Accessible.*—All soil, waste, and vent pipes and traps shall, where practicable, be accessible at all times for ready inspection and convenience of repairing. When placed within partitions or recesses of walls they shall be covered with woodwork or other approved material, so fastened as to be readily removable. No junctions shall be built in except with special permission from the Authority in writing.

Section 113. Concealed standing wastes will not be permitted.

Section 114. *Painting.*—All external plumbers' work and all cast-iron cisterns and brackets, woodwork in connexion with plumbing installations, sheet iron flush pipes, and sheet iron storage tanks and trays, shall be painted, after inspection, to the approval of the Authority.

#### Division 25.—Joints.

Section 115. *Stoneware, Cement, or Cast-iron Pipes.*—Joints of stoneware, cement, or cast-iron pipes shall conform with the requirements of section 63 or 64.

Section 116. *Lead Pipe.*—All joints in lead pipe shall be plumber's wiped joints.

Section 117. *Wrought-iron Pipe.*—The screwed ends and sockets of each particular size of wrought-iron or wrought steel pipe shall be so formed and the threads so cut that the ends of the pipe will butt against each other when screwed home in the sockets; bends, junctions, and similar fittings shall be similarly formed and screwed so that when the pipe ends are screwed home the bore will be continuously uniform and without breaks or pockets. The burr shall be neatly filed off on the inner edge of all pipe ends. All screwed joints shall be made with approved jointing material.

Section 118. *Wrought-iron Pipe to Lead Pipe.*—All joints between wrought-iron and lead pipes shall be made by means of brass unions screwed to iron and wiped to lead.

Section 119. *Brass or Copper Pipes.*—Joints of brass or copper pipes shall be made in accordance with the Australian standard Specification B36—"Compression joints and copper alloy screwed fittings for standard copper tubes."

Section 120. *Lead Pipe to Cast-iron Pipe.*—The connexion of lead pipes or traps to cast-iron pipes shall be made by means of brass ferrules. The brass ferrules shall be lined with and connected to the lead pipe or trap by means of a wiped joint and connected to the cast-iron by inserting ferrule in socket thereof and making the joint in the same way as in cast-iron pipe.

Section 121. *Sheet-iron Pipe to Cast-iron Pipe.*—All connexions of galvanized sheet iron to cast-iron pipes shall be made with molten lead, lightly but tightly caulked in to cast-iron sockets.

Section 122. *Sheet-iron Pipe to Wrought-iron Pipe.*—Galvanized sheet iron pipes shall be connected to wrought-iron pipes by means of brass unions or sleeves soldered to the sheet iron and screwed to the wrought-iron, or by means of a wrought-iron socket screwed to the wrought-iron pipe, into which the sheet-iron pipe shall be lightly but tightly caulked with molten lead.

Section 123. *Sheet-iron Pipe to Lead Pipe.*—Connexions of sheet-iron pipes to lead pipes shall be made by means of brass sleeves wiped to the lead pipe and soldered to the sheet-iron pipe, or by means of a cast lead collar wiped to the lead pipe, into which the galvanized sheet-iron pipes shall be caulked to approval.

Section 124. *Concrete or Stoneware Pipe and Traps to Lead Pipe.*—Connexions of lead pipe to stoneware or concrete pipe shall be made by means of a brass ferrule connected to the lead pipe by means of a wiped joint and connected to the stoneware or concrete pipe by inserting it in the socket thereof and making a cement mortar joint.

The connexion of a stoneware or concrete trap to a lead pipe shall be by means of a cast lead or brass socket, and the joint made with bitumen or other approved material. The lead pipe shall be connected to the tail end of the brass or lead socket by means of a plumber's wiped joint.

Section 125. *Connexion of Closet Pan Traps to Soil Pipe or Drain.*—Connexion of a closet pan to a soil or drain pipe shall be made by means of a bituminous jointing material, consisting of a mixture of approved bitumen and finely graded inert mineral filler in equal proportions, filled in solidly into faucet of soil or drain pipe and neatly splayed off, or by other approved method. In the case of lead soil pipes, a cast lead or brass faucet shall be used and connected to the lead pipe by means of a wiped joint.

Section 126. *Cistern Flush Pipe to Closet Pan.*—The flushing pipe from cistern shall be connected to the water-closet pan by a lead cap piece of not less than 4-lb. lead, packed with red lead or other approved material. The cap piece shall be jointed to galvanized sheet iron, copper, brass, or drawn steel pipe by means of a soldered joint and to lead flush pipe by wiped or soldered joint. The connexion of the flushing pipe to cistern shall be by means of a brass union, wiped to lead pipe or soldered to sheet-iron pipe. Copper or brass pipe shall be connected to cistern by means of a brass ring, with nut brazed to pipe, or by other approved means.

Section 127. *Vent Pipe to Closet Pan.*—Vent pipe shall be connected to the vent horn of water-closet trap by a lead cap piece with red lead packing or by other approved methods. The cap piece shall be jointed to copper or brass pipe by means of a soldered joint and to lead flush pipe by a soldered or wiped joint.

Section 128. *Outlet Fittings to Fixtures.*—Connexions between outlet fittings and such fixtures as baths, sinks, basins, &c., when the latter are constructed of cast-iron, plate-iron, ceramicware, or concrete, shall be made with lock nuts. The outlet fitting shall in all cases be connected to the waste pipe by means of a union.

When these fixtures are made of sheet metal lighter than 20-gauge soldered connexions may be used in lieu of lock nuts.

Section 129. *Waste Pipes to Troughs.*—Connexions of waste pipes to wash troughs shall be made as under:—

(a) Cement troughs, unless otherwise approved, shall have cast-in outlets.

(b) Sheet-metal troughs shall be connected to the waste pipes in compliance with section 128.

(c) For wooden troughs, lead, copper, or brass, waste pipes shall have flanges connected to the waste in accordance with the provisions of this By-law, and fastened to the underside of the trough with round-head brass screws. The waste pipe shall then be turned over inside the trough and the plug casting bedded over it with red lead putty and screwed to trough with brass wood screws.

Where wrought-iron or other screwed pipes are used the plug must be connected to the trough by means of a lock nut in lieu of flange.

#### Division 26.—Fixture Traps.

Section 130. *Fixtures to be Trapped.*—Every water-closet, urinal, slop or other sink, lavatory or wash basin, bath, wash trough or set of wash troughs, and any other fixture, shall be separately and effectively trapped, unless otherwise specially permitted by the Authority.

Section 131. *Omission of Traps.*—Baths, lavatory basins, wash troughs, and sinks may remain untrapped where fixed in the open air or detached outbuildings not used as a living room, workroom, or room for the preparation, cooking, or storage of food, and not connected directly by openings with the main building or residence. Provided that the length of the waste pipe, measured in the case of wash troughs from the centre of furthest inlet to end of waste pipe outlet, does not exceed 6 feet.

Section 132. *Position of Traps.*—Traps shall be placed as near the fixtures as possible, and in no case shall a trap be more than 2 feet from its fixture, except as provided in section 179, unless otherwise specially permitted by the Authority.

Section 133. *Depth of Water Seal.*—Every trap shall have a water seal of not less than 2 inches.

Section 134. *Closet Pan Traps.*—Outlets from closet-pan traps shall be of not less than 3½ inches nor more than 4 inches diameter, except in the case of syphonic pans.

Section 135. *Sealed Disconnector Traps.*—Where approved by the Authority, sealed disconnector traps may be fixed outside or inside the building, but in such cases breather pipes or fresh air inlets of the same diameter as disconnector traps shall be taken above the level of the lowest fixture, or to such other height as directed, and when trap is inside shall be led to the outside of the building. The material for such breather pipes shall be the same as for waste pipes; sheet-iron will not be allowed. Inspection openings to such traps shall be sealed with screwed plugs, or as otherwise approved by the Authority.

Section 136. *Form of Trap.*—The "P" form of trap, with joints visible and accessible all round, must, unless otherwise permitted, be used in preference to the "S" form of trap for all internal fixtures wherever practicable. Where the "S" form of trap is used facilities for periodical inspection must be provided.

Section 137. *Materials.*—Traps for fixtures other than closet pans or slop sinks shall be of copper, brass, or lead. All lead traps must be of the weights specified in section 93 for lead pipes of the same diameter.

*Division 27.—Gratings.*

Section 138. Fixtures discharging into waste pipes and all urinals shall have non-corrodable outlet gratings of approved design and material, in accordance with the Australian standard Specification B.38, "Metal alloy sanitary fittings."

*Division 28.—Cleaning Eyes and Inspection Openings.*

Section 139. *Provision for Inspection and Cleaning.*—Sufficient inspection and cleaning eyes shall be provided in such positions on all soil and waste pipes as to be easy of access for proper inspection and cleansing.

Traps for fixtures, other than water closets, urinals and housemaids' slop sinks, shall be provided with approved brass plugs for cleaning purposes fixed under the water line of the trap, unless by permission of the Engineer.

Section 140. *Inspection Openings on Soil Pipes.*—In all cases where the vertical stack of soil pipe provides for closets 4 feet or more above the ground level, measured from floor level of water-closet to ground level at foot of stack, an inspection opening having a cover fixed to a flange with bolts or studs shall be provided in such a position as directed by the responsible officer of the Authority.

*Division 29.—Grease Traps.*

Section 141. *Provision of Grease Traps.*—Every fixture or area from which grease or any other objectionable matter is likely to be discharged or conveyed into waste or soil pipes, or house drains, and every sink in all such places as food-packing houses, butchers' shops, lard rendering establishments, hotels, restaurants and boarding-houses, and such fixtures, areas, apparatus, or appliances as the Authority may direct, shall first discharge into an approved apparatus for preventing the objectionable matter from reaching the soil pipe or drain. Such apparatus shall be of such dimensions, design, and construction and in such position as the Authority, or its responsible officer, may in each case approve.

Section 142. *External Grease Traps.*—Every grease trap shall be fixed outside the premises whenever practicable, and (if not portable) shall be of glazed stoneware, concrete, slate, or brick in cement, and the outlet should be connected to the drain through a disconnector trap.

Section 143. *Internal Grease Traps.*—Wherever a grease trap is used inside a building it shall be so fitted as to be easily removable, and, if directed, fixed upon a tray. All internal grease traps shall be of copper or other approved material, provided with a close fitting cover, and shall be independently ventilated as required by the Authority, or its responsible officer.

Section 144. *Grease Trap Ventilation.*—Every grease trap shall have provision made for inlet and outlet ventilation if and as directed by the Authority or its responsible officers.

Section 145. *Size of Grease Trap.*—The dimensions of grease trap to be provided shall be such as to ensure the congealing and retention of all grease entering such trap.

The size of grease traps in ordinary cases must be as nearly as possible the following, viz.:—Portable copper, 21 inches in length; stoneware or cement concrete, 27 inches in length; or otherwise as ordered by the Engineer.

Section 146. *Outlet Pipes.*—The outlet pipe from any grease trap must be at least one size larger than that size of pipe which has a cross sectional area equivalent to the total area of incoming waste pipes. In no case, except by special permission, shall the outlet pipe be less than 3 inches diameter for grease traps of copper or other approved metal and 4 inches for stoneware.

Section 147. *Maintenance.*—Every grease trap shall be maintained by the occupier at his own expense, and shall be cleaned at such intervals as may be necessary to ensure that such trap operates in an efficient and hygienic manner.

*Division 30.—Water Closets and Flushing Apparatus.*

Section 148. *Water-closets, General.*—At least one water-closet shall be provided for each house or building within a sewerage area, and also in such other cases as may be directed by the Authority.

In every shop, factory, office, flat, or building containing more than one tenement, at least one water-closet shall be provided for the use of the occupier of each tenement, or as otherwise directed by the Authority, and shall be so placed, either within or without such building, as to ensure the due observance of decency and to be easily accessible to the occupiers.

Section 149. *Water-closets at Hotels, Shops, &c.*—In hotels, offices, lodging-houses, shops, and, if so directed, in any other premises, closets for different sexes shall not adjoin each other unless separated by a soundproof wall of such material and of such thickness as shall be approved by the Authority.

Section 150. *Water Closets for Factories.*—The owner of any building which is used for the purpose of a factory shall provide water-closets for the use of employees at such building in accordance with the Factories Act.

Section 151. *Light, Ventilation, &c., for Water-closets.*—Except as herein provided in section 152, every water-closet in a building shall comply with the following conditions:—

(a) One of its sides at least shall be an external wall of such building, abutting on to a street or lane or an open space of not less than 100 square feet in area, such space being portion of the premises.

(b) It shall not be entered directly from any room used for human habitation or for the manufacture, preparation, or storage of food for human consumption, or used as a factory, workshop, or work place. In cases where otherwise such closet would be directly entered from any such room, an ante-chamber, or airlock having a floor area of not less than 20 square feet shall be provided and effectively lighted, and shall be ventilated by an air shaft or some approved method to the open air. The doors of such closet and ante-chamber or airlock shall be close fitting and self closing, and all internal walls constructed of brick or other approved airtight material, extending the entire height from floor to ceiling. For closets in private residences opening on to a well-lit and well-ventilated hall, passage, lobby, or staircase, no airlock is required, but where these conditions do not exist the airlock as above shall be provided.

(c) Each water-closet apartment, ante-chamber, or airlock shall be provided with adequate means of constant fresh air ventilation, and shall be lighted by a window or glazed louvres of not less than 2 square feet of clear light area per water-closet, opening directly into external air. The effective area provided for outlet ventilation of each water-closet apartment, ante-chamber, or airlock shall be not less than 27 square inches, and where the level of the floor of the water-closet apartment is lower than the outside surface of the ground exhaust ventilation shall be provided by means of a tube of at least 6 inches diameter, carried up through the roof and furnished with a cowl. Approved provision for inlet ventilation shall be made as near the floor level as possible.

(d) The floors of all water-closet apartments shall be constructed of concrete of not less than 4 inches thickness, or of other approved impervious material, and graded as directed, or they shall be provided with lead safes in accordance with the requirements of sections 184, 185, and 187. The frame of every wooden closet shall be securely fastened to the floor and made rigid, without attachment to fences.

(e) Each closet apartment shall be not less than 3 feet wide and 5 feet long, inside measurements, and the walls shall be at least 7 feet high at the lowest part.

Section 152. *Mechanical Ventilation and Artificial Light.*—Subject to the approval of the Authority in writing the requirements of section 151 may be waived, provided that the following conditions be complied with, viz.:—

(a) In every such case a mechanical system of exhaust ventilation in duplicate, approved by the Authority, and capable of changing the air contents of such water-closet eight times per hour shall be installed in connexion therewith.

(b) Upon completion the owner or his representative shall carry out such tests of the mechanical system referred to as the Authority may deem necessary.

(c) Such mechanical system shall at all times be under the continuous supervision of one or more properly qualified persons, and shall be continuous in operation.

(d) Any such mechanical system shall be open to inspection by the Authority at all reasonable times, and shall be subject to such tests as the Authority shall from time to time direct. The air and pipe shafts shall be readily accessible, and shall have a minimum width of 2 ft. 6 in. and a minimum area of 12 square feet.

(e) The failure of any such mechanical system at any time to pass such tests shall be an offence by the owner of such a building against this By-law, and the owner thereof shall also, in respect of such failure, be guilty of an offence against this By-law.

(f) Every such water-closet shall be provided with an efficient system of electric lighting to the approval of the Authority, and same shall be maintained at all times in good working order.

Section 153. *External Water-closets.*—The area of any external water-closet must not be less than 13½ square feet, with a minimum internal dimension of 3 feet inside measurements. The minimum heights to be not less than 8 feet at back and 7 feet at front, measured from the floor to the top of wall plate.

The floors of all water-closets must be constructed of concrete, tiles, or other approved impervious and non-absorbent material. Seats must be either flap or hinged tip-up.

External closet doors to be saw-toothed on top and a space of 3 inches left between bottom of door and floor, or other approved means of ventilation provided.

In wooden water-closets buildings the bottom plates and plinths must be of approved timber. In repairs to studs they shall be cut to sound timber with a new plate, supported on a concrete dwarf wall extended up from the floor level.

Section 154. *Fixing Closet Pan.*—On concrete floors, or floors of tiles set in concrete, the closet pan shall be securely bedded upon concrete or cement mortar and fixed with brass screws to approved lead dowels set in the floor. Where the floor is of timber covered with an approved impervious material the closet pan shall be secured to the timber by means of brass screws as directed or by other approved means.

Section 155. *Closet Pans.*—Every water-closet shall be furnished with a pan of non-absorbent material of such shape, capacity, and construction as approved by the Authority. Water-closet pans and fittings thereto shall be entirely open to inspection and without any enclosure. Vent horns shall be provided on all pans, even if no anti-syphonage vent is required. If not used for a vent such vent horn shall be sealed with a lead disc, bituminous filler, and a lead cap piece, or by other approved method.

Section 156. *Closet Pan Seats.*—Except as approved by the Authority, all hinged closet pan seats shall be not less than 1 inch in thickness and constructed of approved material. When constructed of wood, four-piece seats shall be glued and either dowelled or bolted, and one-piece seats shall be reinforced with two wood or brass slips let in flush on the underside. To prevent fouling of pan, the closet seat openings must not be larger than 10½ inches x 9 inches, and seats with holes so large as to cause fouling of the pan must not be used. Pans must measure at least 12 inches between the lower edge of the front and back faces of flushing rims. Water-closet seats must be provided with approved buffers to prevent damage to the pan, and an approved buffer clip must be fixed to the flush pipe at a suitable height from the pan.

Section 157. *Flushing Apparatus.*—Approved apparatus shall be provided for the effective application of water to the pan of the water-closet and for the efficient flushing and cleansing of the pan and effective removal therefrom of any solid or liquid matter which may from time to time be deposited therein. Such apparatus shall have a flushing capacity of not less than 3 gallons, and shall be so constructed, fitted, and placed as to supply water for use in the pan without any direct communication with any service water pipe upon the premises.

Section 158. *Flushing Cisterns.*—Flushing cisterns shall be fixed at such height as will effectively flush the pan; but, except by special permission, no cistern shall be fixed at a less height, measured from top of seat to bottom of cistern, than 5 feet where ½-in. flush pipe is used or 4 feet where ¾-in. flush pipe is used. There shall be a distance of at least 9 inches between top of cistern and ceiling of closet.

Every cistern shall have a separate stop-tap and an overflow of ¾-in. internal diameter, and shall be fixed to cistern boards not less than 12 inches deep and ½ inch thick, or fixed in other approved manner.

Water supply pipes to cisterns shall be adequate to fill any cistern at the rate of not less than 1 gallon per minute.

Section 159. *Flush Pipes.*—Flush pipes to closet pans shall be of brass, copper, 6-lb. lead, galvanized-iron of not less than 22-gauge, or other approved material, and shall have a minimum diameter of ½ inch.

Section 160. *Flushing Apparatus Other Than Cisterns.*—Notwithstanding anything contained in this By-law, closet pans in any building may be flushed by means of any apparatus which—

- (a) automatically controls the amount of water used, and/or
- (b) is approved by the Authority.

Section 161. *Storage Tanks.*—Except where otherwise allowed by the Authority, on request in writing, by the owner accepting all responsibility in the matter, internal water-closets shall be provided with storage tanks capable of holding 6 gallons of water for each occupant of the building, with a minimum of 60 gallons per closet for all buildings except private residences, which shall have a minimum capacity of 30 gallons. These tanks may be of 22-gauge galvanized sheet iron, or 24-gauge corrugated iron.

Unless otherwise directed by the Authority, the storage tanks may be placed in the water-closet apartment itself, on the roof over a flat or gutter, or in an accessible place between the ceiling and the roof, in which latter case a safe of galvanized-iron, lead, or other approved impervious material, with overflow, shall be fixed under the storage tank.

Section 162. *Venting Closet Pans.*—Unless otherwise directed or permitted, every closet pan on an upstairs floor shall discharge into a soil-ventilator pipe, except that any closet pan on a floor which is not more than 8 feet in height from the ground surface level may be ventilated by an anti-syphonage vent only, in accordance with the requirements of sections 86

and 108 and discharge into a soil pipe without extension as a ventilator pipe; provided that no fixtures at a lower level are connected to such soil pipe.

Any closet pan where ordered, and also unless otherwise directed, every internal closet pan which is more than 3 feet from a fully vented soil pipe drain as measured along the axis of the pipe between the centre of soil pipe and centre of pan, shall be ventilated by an anti-syphonage vent in accordance with the requirements of section 86 sufficiently close to prevent syphonage, and in no case more than 18 inches from the trap. Notwithstanding the above, all "S" trap pans must be provided with anti-syphonage vents.

Section 163. *Grouped External Closets.*—Where there are more than three external water-closet pans grouped on the ground floor or in the yard of any premises special provision must be made to prevent syphonage.

#### Division 31.—Urinals and Flushing Apparatus.

Section 164. *Urinals. General.*—Every urinal on premises licensed for the sale of fermented or spirituous liquors, and on premises used as a factory, workshop, work place, manufactory, shop, office, or school where persons of the male sex are employed or in attendance, shall be of such size as the Authority requires. Provided that when the number of persons of the male sex does not exceed ten, a urinal need not be fixed if the closet has a pedestal pan with a hinged tip-up weighted seat.

Section 165. *Internal Urinals.*—The positions, approaches, arrangement of lighting, ventilation, &c., for internal urinals shall comply as nearly as possible with the provisions as to internal water-closets.

Section 166. *Details of Construction, &c.*—Except by special permission, only round-backed stall type urinals of approved impervious material shall be used. The soil pipes shall be of lead, stoneware or glass enamelled or coated cast-iron, or other approved material, shall be kept as short and free from bends as possible, and shall be trapped. Inspection openings shall be provided on soil pipes as directed, with clamped covers. The urinals shall be provided with approved flushing apparatus and a hose tap shall be provided in a suitable position for hosing down.

Section 167. *Treatment of Floors.*—The floor in front of a urinal shall be covered with approved impervious material for a width of not less than 2 feet, or, if raised above floor level of urinal apartment, not less than 1 ft. 6 in., and graded to drain to urinal.

*Impervious Materials.*—The following materials will be considered impervious:—

- (a) For urinals: glazed fire clay or salt glazed stoneware.
- (b) For floors in front of urinals: Glazed tiles set in cement mortar (composed of equal parts of cement and sand), concrete 6 inches thick rendered with ½-in. thick cement mortar, slate, marble or asphaltum.

Section 168. *Flushing Apparatus.*—Pull and chain flushing cisterns or other approved apparatus operated by hand shall be fixed on all urinals except where automatic flushing cisterns are permitted or directed by the Authority.

Section 169. *Flushing Cisterns.*—The discharge from a cistern shall be equal to 1 gallon for each urinal stall, except where otherwise allowed by the Authority, but in no case shall larger than a 3-gallon cistern be used.

The height of a cistern shall, unless otherwise allowed by special permission, be at least 8 feet from the floor to the top of the cistern. The cistern shall be so fixed that the ball tap is accessible.

A separate stop tap shall be provided for each urinal cistern.

Section 170. *Flush Pipes.*—Flush pipes for urinals shall be of brass or copper with gunmetal fittings, and shall have a minimum diameter of ½ inch, except that flush pipes for automatic flushing cisterns generally shall not exceed—

- for 1-gallon cistern, ¾-in. internal diameter,
- for 2-gallon cistern, 1-in. internal diameter,
- for 3-gallon cistern, 1½-in. internal diameter,

with branches as directed by the responsible officer of the Authority.

#### Division 32.—Housemaids' Slop Sinks.

Section 171. *General.*—Housemaids' slop sinks shall be made in one piece of approved impervious material and provided with approved flushing apparatus of 2-gallon capacity.

Section 172. *Ventilation, Light, &c.*—Housemaids' slop sinks shall be so placed and ventilated as to comply with the requirements for water-closets as set out in sections 151 (a), (b), and (c) and 162.

Section 173. *Bibcock over Slop Sink.*—A bibcock shall be fixed directly over a housemaid's slop sink, and at least 18 inches above such sink. A pedestal pan must be used wherever combined water-closet, housemaid's slop sink, and internal urinals are required, and in such case must be provided with hinged tip-up seat. A lead safe of suitable area must be fixed under the pan.

#### Division 33.—Wash Troughs.

Section 174. *General.*—Wash troughs shall be of approved pattern and material, securely fixed and graded to outlet pipe, fitted with brass strainer sunk to level of bottom of trough.

Section 175. *Support for Lead Waste Pipe.*—Where the distance between outlets on troughs exceeds 21 inches and lead waste pipe is used, the pipe shall be supported either by a lead tack wiped on the top of the pipe or by a wooden block screwed to the bottom of the trough and clamped to the pipe.

Section 176. *Troughs Abutting Against Brick Wash Copers.*—Wherever the end of a wash trough abuts against the brickwork of a wash copper the space between the end of trough and the brickwork shall be filled with approved waterproof material.

**Division 34.—Sinks, Baths, Showers, and Lavatory Basins.**

Section 177. *Sinks.*—All new sinks shall be fixed on brackets and traps and wastes left readily accessible.

Section 178. *Galvanized Sheet-iron Baths.*—The bottoms of galvanized sheet iron baths shall be effectively supported. Such baths shall not be enclosed. Longitudinal joints in the bottoms of baths shall not be permitted. Where it is necessary to fix new wastes to galvanized-iron baths, the bottoms of which are unsupported, efficient supports for the bath must be provided before the wastes are fixed.

Section 179. *Bath Traps.*—Where a bath trap is fixed on the outside of a wall it shall in no case be more than 3 feet from the outlet of the bath, unless by special permission of the Authority.

Section 180. *Showers.*—All showers on the ground floor shall be provided with a 4-in. stoneware or concrete trap, fitted with brass grating. All showers above the ground floor shall be provided with drainage in accordance with the requirements for baths.

The floors of shower compartments shall be well graded to the trapped outlet and shall be constructed of not less than 4 inches of concrete, trowelled smooth or covered with tiles set in cement mortar, or of other approved impervious materials, or if constructed of timber shall be covered with enamelled cast-iron, approved non-corrosive sheet metal, or other approved material turned up at the edges and flashed in accordance with the requirements of section 90.

The walls of shower compartments shall be constructed of brickwork or concrete, cement rendered to a smooth finish or covered with tiles set in cement mortar, or of other approved impervious materials, or if constructed of timber shall be lined with approved non-corrosive sheet metal or other approved impervious material and with impervious joints.

Section 181. *Venting of Lavatory Basins.*—All lavatory basins, placed singly, shall be provided with anti-syphonage vents, except where the length of waste pipe does not exceed 4 feet, measured from crown of trap to outlet of waste pipe and syphonage does not occur.

In ranges of lavatory basins, ventilation by means of a single vent pipe at the upper end of the range will be permitted, provided that the vent and main waste pipe are sufficiently large to prevent syphonage.

Section 182. *Tip-up Basins.*—Tip-up lavatory basins shall not be permitted.

**Division 35.—Safes and Overflows.**

Section 183. *Safes, Where Directed.*—Safes of lead or other approved impervious material shall be fitted under housemaids' slop sinks and internal water-closets, and in such other positions as directed.

Section 184. *Lead Safes in Water-closets, &c.*—All lead safes shall be laid with sheet lead weighing not less than 5 lb. per square foot, and where the whole floor is not covered with lead the safe shall extend 12 inches beyond the sides and 15 inches beyond the front of the pan, measured from the outside of the basin, and shall extend back to and 3 inches up the wall and over flashed, if directed. The roll of such safe shall be 2 inches wide and  $\frac{1}{4}$  inch high. In the case of baths, sinks, and lavatory basins, the lead, where directed, to extend 6 inches beyond the ends or sides, measured from the extreme edge of the fitting, and to be carried back to and up the wall as for closets.

Section 185. *Safe Overflows.*—Unless otherwise permitted, every safe shall be drained by a separate 2-in. diameter pipe, provided at the inlet with a brass grating and at the outlet into the open air with a flap valve of brass or other approved metal, and shall not connect with any waste pipe, soil pipe, drain, or sewer.

Section 186. *Cistern Overflows.*—Every cistern supplied with water shall, unless otherwise approved, have an overflow pipe of adequate size discharging in a position where it will not cause damage, but where it will act as a warning pipe. On ground floors where cisterns are fixed over impervious floors graded to drain outside of the room the overflow may discharge on to such floors, provided no damage is likely to arise therefrom.

Section 187. *Discharges From Overflows.*—Overflows may discharge into the open air above ground floor level only when the discharge will not cause any inconvenience or nuisance. In all other cases the pipes must be brought to the ground surface or be arranged to discharge where they will not prove a source of annoyance or inconvenience.

Section 188. *Existing Floors.*—Where necessary, in the opinion of the responsible officer of the Authority, every existing floor under a fixture shall be regraded and a proper waste pipe, and, if directed, a flap valve fixed.

**Division 36.—Existing Fixtures.**

Section 189. All existing fixtures, fittings, and appliances not in accordance with this By-law which the owner may desire to retain unaltered, and which, in the opinion of the Authority, will be inoffensive, may at the distinct request in writing of the owner only remain unaltered until such time as the Authority shall otherwise order. Existing fixtures, fittings, and appliances which, in the opinion of the Authority, are offensive shall be removed at once.

**PART 6.**

**WATER SUPPLY.**

Section 190. *Supply of Water to Fixtures.*—All water-closets and other plumbing fixtures shall be provided with a sufficient supply of water for flushing purposes to keep them at all times in proper and cleanly conditions.

Every owner of property who desires, or has been ordered by the Authority, to provide sanitary appliances for his own property and to connect his property with the sewers of the Authority, shall before or at the commencement of the work of making such connexion, provide piping approved of by the Authority for the conveyance of water, and shall cause the piping to be joined at the most convenient water supply main, or, with the permission of the Authority, to some pipe already joined to the main. Such piping shall be of capacity sufficient to supply all sanitary fittings on the property freely and continuously, and convey to the flushing cistern, flushing tank, or other flushing apparatus of each water-closet on the property enough water to fill the same at a rate of not less than 1 gallon per minute, and the owner shall cause such piping to be connected with the cistern before the completion of the work.

The water supply to any fixture shall be so arranged that there shall be an actual physical discontinuity between the water stored or used in any such fixture and that in the water service pipe.

Section 191. *Material, Condition, Capacity, &c., of Water Supply Piping.*—The entire length of the water supply piping from its connexion with the water supply main to the water-closet flushing cistern or other fixture shall be such as is, in the opinion of the Authority, suitable in regard to material, condition, and capacity to convey a sufficiency of water for the sanitary requirements of the particular tenement.

The owner shall keep the piping from becoming, whether by reason of corrosion or other cause, of insufficient capacity to fill the flushing cistern, storage tank, or other flushing apparatus at the rate of not less than 1 gallon per minute.

Section 192. *Fixtures Not Connected With Sewers.*—No water service pipe shall be laid to supply any fixture in any property in any sewerage area unless such fixture is connected with the sewers of the Authority, or unless special permission in writing has been previously given to lay such service pipe.

Section 193. *Storage Tanks.*—Water supply pipes to storage tanks for internal closets shall be of not less than  $\frac{1}{2}$ -in. diameter and be provided with stop taps and high-pressure ball valves, except where the elevation of the storage tank is not sufficient to allow of high-pressure ball valves being used. In such cases the permission of the Authority shall be obtained to fix low-pressure ball valves. Where the head of the water supply of the storage tank to the flushing cistern is less than 20 feet, a low-pressure ball valve shall be provided to the cistern.

Outlets from storage tanks shall not be less than  $\frac{1}{2}$  inch for one or two cisterns, and 1 inch for three to six cisterns.

Wherever a larger number than six cisterns is fixed, the size of the outlet shall be proportionally increased. The overflow from a storage tank shall be  $1\frac{1}{2}$  inch in diameter, and a stop tap shall be fixed on the rising supply pipe to the tank.

Full way gate valves shall be provided between storage tanks and flushing apparatus.

Section 194. *Supply Pipe Connexion With Flushing Cistern.*—In all water-closets, where directed, a piece of lead or copper pipe not less than 12 inches in length shall be used between the flushing cistern and the supply pipe.

The foregoing By-law was made and passed by the Murtoa Sewerage Authority at a special meeting held on the 1st October, 1940, and confirmed at a subsequent special meeting of the Authority held on the 23rd October, 1940.

In witness whereof the common seal of the said Authority was affixed hereto in the presence of—

(SEAL) HAROLD H. EVANS, Chairman.  
A. J. NEWTON, Member.  
H. G. CRAM, Secretary.

Approved by the Governor in Council,  
4th November, 1940.

ELECTRIC LIGHT AND POWER ACT 1928 AND STATE  
ELECTRICITY COMMISSION ACTS.

At the Executive Council Chamber, Melbourne, the  
fourth day of November, 1940.

## PRESENT:

His Excellency the Governor of Victoria.  
Mr. Old | Mr. Bailey.

REVOCATION OF THE BOROUGH OF DAYLESFORD  
ELECTRIC LIGHTING ORDER No. 52, 1911.

**W**HEREAS the Council of the Borough of Daylesford (herein referred to as "the Council") are the undertakers named in the Borough of Daylesford Electric Lighting Order No. 52, 1911. And whereas in compliance with the provisions of the *Electric Light and Power Act 1928* the legal powers given to the Council were on the 28th day of June, 1933, transferred for a period expiring on the 30th day of October, 1940, to Florence May Pollard, of 37 Aroona-road, Caulfield, widow, and Stuart Adam Davis, of Temple Court, Collins-street, Melbourne, accountant (herein referred to as "the vendors"). And whereas the vendors are carrying on an undertaking for supply of electricity in the area of supply described in the said Order No. 52, being the municipal district of the said Borough. And whereas on the 9th day of July, 1940, the Governor in Council sanctioned and approved an agreement made the 24th day of May, 1940, between the State Electricity Commission of Victoria (herein referred to as "the Commission") of the first part, the vendors of the second part and the Council of the third part relating to the acquisition by the Commission of assets of the vendors pertaining to the electrical undertaking carried on by the vendors in the said Borough, and approved the agreement by the Commission at the request of the Council to construct the works necessary to make available a supply of electricity in Daylesford. And whereas the Council and the vendors have applied to the Governor in Council for and concurred in the revocation by him of the said Order. And whereas the vendors and the Council will, subject to and after such revocation, have no further use for the said undertaking or the assets agreed to be sold to the Commission as aforesaid, but the Commission will require the said assets for the purpose of supplying electricity in the said municipal district. Now therefore His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby revoke the said Order, such revocation to date from the 30th day of October, 1940.

And the Honorable Francis Edward Old, His Majesty's Minister in Charge of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.

C. W. KINSMAN,  
Clerk of the Executive Council.

## DEPARTMENT OF LANDS AND SURVEY.

At the Executive Council Chamber, Melbourne, the  
fourth day of November, 1940.

## PRESENT:

His Excellency the Governor of Victoria.  
Mr. Old | Mr. Bailey.

## LAND TEMPORARILY RESERVED FROM SALE.

**H**IS Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby, in pursuance of the provisions of the *Land Act 1928*, reserve, temporarily, and also except from occupation for mining purposes under any miner's right, the land hereinafter described:—

## COUNTRY ROADS BOARD.

At the Executive Council Chamber, Melbourne, the fourth day of November, 1940.

PRESENT:

His Excellency the Governor of Victoria.

Mr. Old | Mr. Bailey.

## DECLARATION OF A DEVIATION FROM THE YABBA-ROAD IN THE SHIRE OF TOWONG.

WHEREAS by section 58 of the *Country Roads Act 1928* (No. 3662) it is amongst other things enacted that when the Country Roads Board under the provisions of the Country Roads Act has by Resolution declared a deviation to be a developmental road the said Board may also declare that such deviation shall be in lieu of any existing road or part thereof named in such Resolution and that on publication in the *Government Gazette* of the Order confirming such Resolution the existing road or part thereof shall cease to be a developmental road or be discontinued as provided in the Resolution: And whereas the said Board has by Resolution declared the deviation on the land described in the First Schedule to such Resolution to be a developmental road and has also declared that such deviation shall be in lieu of the part of the existing road being the land described in the Second Schedule to the said Resolution and that such part of the said existing road shall be discontinued: Now therefore His Excellency the Governor of the State of Victoria by and with the advice of the Executive Council thereof doth hereby confirm the said Resolution.

## Resolution for Declaration of a Deviation under the Country Roads Act.

Whereas the land the site of the road the course of which is below set out was taken by the Board under the provisions of the *Country Roads Act 1928* for the purpose of constructing such road deviation which road deviation has now been laid out and formed on the same: And whereas the said Board (being the Country Roads Board incorporated under the said Act) thinks that the road aforesaid is fit to be used as a public highway such Board at a meeting now holden acting under the authority conferred upon it by section 58 of the said Act doth by this present Resolution hereby declare the said road deviation the course of which is described in the First Schedule hereto with the commencing and terminating points thereof respectively specified to be part of a developmental road within the meaning and for the purposes of the *Country Roads Act 1928*: And the said Board doth also declare that such deviation shall be in lieu of the existing road or part thereof described in the Second Schedule hereto and that such part of the said existing road shall be discontinued.

## STATE RIVERS, AND WATER SUPPLY COMMISSION.

At the Executive Council Chamber, Melbourne,  
the fourth day of November, 1940.

PRESENT:

His Excellency the Governor of Victoria.

Mr. Old | Mr. Bailey.

ST. ARNAUD BOROUGH WATERWORKS TRUST.  
ADDITIONAL LOAN OF £1,600.

UNDER the powers conferred by the Water Acts and all other powers enabling him in that behalf, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council of the said State, doth hereby grant an additional loan of One thousand six hundred pounds (£1,600) to the St. Arnaud Borough Waterworks Trust for water meters, as set forth in the detailed statement bearing date the 22nd October, 1940, and verified under the seal of the State Rivers and Water Supply Commission.

The loan hereby granted shall be subject to the provisions of the Water Acts

## TRAFALGAR WATERWORKS TRUST.

## REGULATIONS FOR THE ELECTION OF COMMISSIONERS.

WHEREAS in pursuance of the provisions of the Water Acts, the Governor in Council is empowered to make regulations for the election of Commissioners of Waterworks Trusts; Now therefore His Excellency the Governor of the State of Victoria, acting by and with the advice of the Executive Council thereof, and in pursuance of the provisions of the now in part recited Acts, doth for the purposes aforesaid make the following Regulations for the election of Commissioners of the Trafalgar Waterworks Trust.

1. *Interpretation of Terms.*—In these Regulations "the Trust" or "the said Trust" shall mean the Trafalgar Waterworks Trust. "Minister" shall mean the Minister of Water Supply.

2. *Period for which the Commissioners shall hold Office.*—The period for which the Commissioners shall hold office shall be until the fourth Thursday in the month of October in the third year after the year of their election.

3. *Extraordinary Vacancies, How Filled.*—Should any vacancy in the office of Commissioner be occasioned by death, disqualification, or any other cause whatever, the same shall be filled up by election under these Regulations, within two months after the vacancy has occurred, and the person elected to fill such vacancy shall hold the office of Commissioner during the unexpired portion of the term of office of the Commissioner whose seat shall have become vacant.

4. *Date of First and Subsequent Election of Commissioners.*—The first election of Commissioners under these Regulations shall be held on the twenty-third day of January, in the year 1941, and the ordinary election of Commissioners shall be held on the fourth Thursday in October in each succeeding triennial year.

5. *Voters' List to be Prepared.*—For the purposes of the first election of Commissioners, a voters' list shall be prepared in like manner to that provided by section 117 of the Water Act 1928, as amended by section 2 of the Water Act 1936, in so far as circumstances will admit, on or before the twenty-first day of December, 1940, by the secretary of the Trust, certified by him as correct, and such list shall be the list of voters for the said election of Commissioners, and shall remain in force, and shall be used at any subsequent election of Commissioners that may be held prior to a fresh voters' list being made out as hereinafter provided.

6. *Voters' List to be Prepared Annually.*—Before the twelfth day of September in each year, a voters' list shall be made out in the manner prescribed by section 117 of the Water Act 1928 as amended by section 2 of the Water Act 1936, which shall, after the first revision, upon approval of the Commissioners under the common seal of the Trust, be the list of voters for the election of Commissioners for the twelve months next ensuing.

7. *Form of Voters' List.*—First Schedule.—Such voters' list shall be in the form of the First Schedule hereto, and shall contain in regular numerical sequence and alphabetical order of surname, the christian name or names, surname, and address (so far as these may be known) of every ratepayer within that portion of the municipal district of the Shire of Narracan included within the district of the Waterworks Trust.

In making out such list of voters, if the property in respect of which any ratepayer is entitled to vote is only in part within the waterworks district, then the number of votes of such ratepayer in respect of such property shall be reduced in the proportion which such part bears to the whole property of such ratepayer rated in the municipal district.

8. *Returning Officer.*—The returning officer shall be appointed by the Trust, or in default of such appointment shall be the secretary of the Trust. The returning officer may appoint a

deputy to assist him or to act in his room at any election, and such deputy may do all things which the returning officer is hereby authorized or required to do.

9. *Notice of Election.—Nomination of Candidates.—Deposit.*—Second Schedule.—Fourteen clear days before the election of Commissioners under these Regulations the returning officer shall give public notice of such election by advertisement inserted in some newspaper generally circulating in the Trafalgar Township, and by such notice shall require all candidates at such election to be nominated at some place within the said township to be named in such notice in manner herein-after mentioned between the hours of ten o'clock in the forenoon and four o'clock in the afternoon on some day before a day (hereinafter called the day of nomination) not less than four nor more than seven days after the time of giving such notice and named therein, and every candidate at any such election shall before four o'clock in the afternoon of the day next preceding the nomination day lodge with the returning officer at the place aforesaid a nomination paper in the form of the Second Schedule or to the like effect, stating therein both his christian and surname, together with the other particulars required in and by the said schedule, and such nomination paper shall be signed by the candidate and by at least five persons entitled to vote at the election, and such candidate shall, together with such nomination paper, deposit with the returning officer the sum of Five pounds, which shall be returned to the candidate if he obtains at the election a number of votes equal to at least one-fifth of the votes given to the person declared elected who received the least number of votes, otherwise the said sum shall be paid into and form part of the revenues of the Trust.

And no person who shall not have been so nominated shall within the provisions of these Regulations be deemed to be a candidate at any election of Commissioners.

10. *Qualifications of the Commissioners.*—No person shall be eligible for election as a Commissioner unless he is liable to be rated under the Water Acts in respect of property within the district of the Trust.

11. *Where Number of Candidates does not Exceed Number of Commissioners to be Elected.*—If, at the expiration of the time limited as hereinbefore provided for the nomination of candidates, the number of persons who have become candidates as aforesaid does not exceed the number of Commissioners to be elected, the returning officer shall then declare such candidates to be duly elected, and they shall be deemed to be then duly elected accordingly.

12. *Where Number of Candidates Exceeds the Number of Commissioners to be Elected.*—Third Schedule.—Notice of Poll.—Hours of Polling.—If, at the expiration of the time limited for the nomination of candidates, the number of candidates exceeds the number of Commissioners to be elected, then the returning officer shall forthwith cause the ballot-papers to be printed, with the christian names and surnames of all the candidates in full in the form of the Third Schedule hereto, and shall also give public notice by advertisement in some newspaper circulating in the Trafalgar Township, stating the name of the persons so nominated and that a poll will be taken for the election of such Commissioners upon a day named in such notice at such place within the said township as the returning officer shall in and by such notice appoint; and such poll shall take place accordingly, and shall commence at eight o'clock in the forenoon and close at seven o'clock in the afternoon.

13. *Retirement of Candidates before Polling Day.*—If, at any election, after a poll shall have been appointed as aforesaid any candidate for such election, and two of the persons having signed the paper nominating him as aforesaid, are desirous that he should retire from such candidature, such candidate and the persons aforesaid may sign and deliver to the returning officer, not later than four clear days before the day of polling, a notice in the form of the Fourth Schedule hereto, stating that such candidate so retires; and the said candidate or his agent shall thereupon publish in some newspaper generally circulating in the Trafalgar Township a copy of such notice, and the returning officer, on sufficient proof of such publication aforesaid, if the number of candidates is by such retirement reduced to the number of persons to be elected at such election shall, on the day appointed for the election, declare the remaining candidates duly elected; and, if the said number is not so reduced, shall omit the name of the person so retiring from the ballot-papers to be used at the said election, and if such papers are already printed, shall erase such name therefrom; and such person shall not be capable of being elected at such election.

14. *Polling Booth may be Hired.*—At such election the returning officer shall provide a suitable place for taking a poll, and may, if necessary, cause to be hired and used as a polling booth any room which he may deem to be suitable at the place appointed for taking the poll, and may divide such room into compartments as to him may seem most convenient.

15. *Returning Officer to Preside at Polling Booth.*—The returning officer or his deputy shall preside at the polling booth for taking the poll.

16. *Scrutineers may be Appointed.*—Each candidate shall be entitled to appoint, in writing, one scrutineer to be present in the polling booth, and the said returning officer or his deputy, and the said scrutineers and any voters, not exceeding four in number, actually engaged in voting, shall alone be permitted at any one time to enter or remain in the polling booth.

17. *Pencils to be Provided.*—The returning officer or his deputy shall provide pencils in the polling booth for the use of the voters, and also a locked box, to be called the ballot-box, with a cleft or opening therein capable of receiving the ballot-papers, and such box shall be opened and exhibited to the scrutineers before the polling begins; and the box shall then be locked, and shall stand on a table opposite the returning officer or deputy returning officer, who shall keep the key of such box.

18. *Mode of Voting.*—The returning officer shall deliver to every voter who requires the same a ballot-paper, or if such voter appears by the roll to be entitled to give more votes than one, then so many ballot-papers as may be equal to the number of votes which such voter so appears to be entitled to give, such ballot-papers being in the form of the Third Schedule hereto, and initialled by the returning officer; and every such voter shall, without leaving the booth, strike out from all or any of the such papers the name of every candidate for whom he does not intend to vote. And in case any voter is unable to read or write, the returning officer or his deputy, if so required, shall, in view of such one of the scrutineers as the voter may desire, strike out the name or names of such candidate or candidates as such voter may designate; and after such name or names have been so struck out, the ballot-paper or ballot-papers (as the case may be) shall forthwith be deposited in the said box. Provided that all the ballot-papers to which any person may be entitled at the polling booth shall be demanded and received by him at one and the same time; and no person having once demanded and received any such ballot-paper or papers, and voted by the same, shall at the same election receive any further ballot-papers, or exercise any further right of voting.

19. *Ballot-papers to be Numbered.*—Before delivering any ballot-paper to the voter, the returning officer or his deputy shall write upon the back of each such ballot-paper, as near as practicable to the lower edge thereof, the number set opposite to the voter's name in the roll, and shall thereupon, upon a copy of such roll, check off such voter's name as having voted, and mark against such name the number of ballot-papers delivered to such voter.

20. *Plumping Prohibited.*—Informal Ballot-papers.—At every such election every voter shall strike out from the ballot-paper the names of the candidates for whom he does not desire to vote and if he suffers to remain on the ballot-paper a greater or less number of names not struck out than the number of Commissioners to be elected, the vote given on and by the ballot-paper shall be void and of no effect.

21. *What Question may be Asked.*—At any election of Commissioners the returning officer may, if he see fit, or if required to do so by any candidate or scrutineer, put to any person tendering his vote the question following:—

“Are you the person whose name appears as (A.B.) in the roll now in force for this Trust, being enrolled therein in respect of property described to be situated in (here specify the street or other place described in the roll)?”

And no other question shall be put to any person tendering his vote; and no person who shall refuse to answer such question, or who shall not answer the same absolutely in the affirmative, shall receive a ballot-paper or be permitted to vote.

22. *False Answer, Polling Twice, and Personation.*—Every person who shall wilfully make a false answer to the question aforesaid or who shall poll more than once, or offer to poll more than once at the same election, or who shall depart or attempt to depart from any polling booth after having received a ballot-paper, without having deposited the same in the ballot-box, as hereinbefore provided, or who shall personate any other person for the purpose of polling at such election, shall be guilty of a breach of these Regulations; but nothing contained in this clause shall apply to any person only by reason of his exercising the right of voting as often as it appears by the roll he is entitled so to do.

23. *Result of Polling, how Ascertained.*—Immediately on the close of the poll the returning officer shall, in the presence of and subject to the inspection of so many of the scrutineers of the candidates as please to be present, proceed to ascertain the number of votes for each candidate; and such returning officer shall abstain from inspecting the number written as aforesaid on any ballot-paper, and take care that the same is not seen by any person before sealed up as herein provided; and the returning officer shall seal up the ballot-papers deposited in the booth, and as soon as conveniently may be on or after the day of the poll, publicly declare the candidates, not exceeding the number of vacancies to be filled up, who have received the greatest number of votes to have been duly elected Commissioners of the Trust, and if two or more candidates have received an equal number of votes, the returning officer shall determine by lot the candidate to hold office.

24. *Ballot-papers, how Disposed of.*—The returning officer shall forthwith after the declaration of the poll endorse with a description of the contents thereof, and sign the sealed parcel of ballot-papers, and forward the same to the Secretary of the Trust, to be by him safely and secretly kept for six months then next ensuing, and then by him caused to be destroyed in the presence of three Commissioners of the Trust.

25. *Minister to Determine upon Question arising upon First Election.*—If any question arise as to the due election of any Commissioner at the first election, the returning officer shall, at the request of any voter or candidate, submit such question, in writing, to the Minister, who shall decide the same; and such decision shall be final and binding.

26. *Question arising upon Subsequent Election to be Determined by the Trust.*—If any question arise as to the due election of any Commissioner at any subsequent election (whether ordinary or extraordinary), such question shall be determined by the Commissioners of the Trust at the first ordinary meeting held after the election; but no Commissioner in respect of whose election such question shall have arisen shall act as a Commissioner at such meeting, or be entitled to take any part in the proceedings thereof, or in any manner or at any time to act as a Commissioner until such question shall have been so determined; and the majority of Commissioners whose election is not in dispute shall form a quorum.

27. *Appeal to Minister from Determination of Trust.*—In event of any voter or candidate feeling aggrieved by the determination of the Trust with reference to any such question as last aforesaid, he may appeal therefrom to the Minister within fourteen days from the date upon which the Commissioners shall have determined the question, and the Minister may make such inquiry as to the merits of the question as may appear to him to be necessary, and determine such question in such manner as to him may appear just; and such determination of the Minister shall be final and binding.

28. *Failure to Elect deemed to create Extraordinary Vacancies.*—If at any election of Commissioners any vacancies less than the whole number which should have been filled up at such election are not filled up, then the vacancies which are not so filled shall severally be deemed extraordinary vacancies and to have occurred on the day appointed for such election. Provided always that the Commissioners eventually elected or appointed to fill such vacancies shall go out of office as if elected at such election.

29. *Expenses of Election to be paid by the Trust.*—The expenses incurred by the returning officer, or under his direction, in connexion with any election shall be defrayed by the Trust.

30. *Penalty for Breach of Regulations.*—Any person guilty of a breach of any of the provisions of these Regulations shall be liable to a penalty not exceeding Ten pounds, to be recovered in a summary manner before justices of the peace.

31. *Interpretation.*—In these Regulations words importing the masculine gender shall be deemed and taken to include females, unless there is something in the context repugnant to or inconsistent with this interpretation.

REGULATIONS FOR THE CARE, PROTECTION, AND MANAGEMENT OF THE RESERVE FOR PUBLIC PURPOSES IN THE PARISHES OF MOORABBIN AND MORDIALLOC, KNOWN AS THE "MENTONE AND MORDIALLOC BEACH PARK."

WHEREAS by the 181st section of the *Land Act 1928* power is given to the Board of Land and Works to make Rules and Regulations and to rescind Rules and Regulations for the care, protection, and management of all public parks and reserves not conveyed to and vested in trustees, and for the preservation of good order and decency therein, and also for the collection and receipt of tolls, entrance fees, and other charges for entering therein or thereupon: Now therefore the Board of Land and Works, in pursuance of the powers conferred as aforesaid, doth hereby make the following Regulations in respect of that portion of the Reserve for public purposes in the Parishes of Moorabbin and Mordialloc as is indicated on plan marked A/26.11.20, attached to Lands Department correspondence Rs.1819, and the island near the mouth of the Mordialloc Creek, and together known as the "Mentone and Mordialloc Beach Park" (hereinafter called "The Park"), in lieu of all previous Regulations, which are hereby rescinded:—

## REGULATIONS.

1. No person shall—
    - (a) Enter or leave the Park except by means of the ramps or other openings provided.
    - (b) Enter or remain in the Park whilst in a state of intoxication or who may offend against decency as regards dress, language or conduct, or who may behave in a disorderly, unseemly, or offensive manner, or create or take part in any disturbance.
    - (c) Spit or expectorate on the paths, or on any structure or erection in the Park.
    - (d) Climb the cliffs or jump, get on or over any of the gates or fences in or around the Park, or stick bills or advertisements or cut names thereon, or in any way damage or injure any of the buildings, furniture, fittings, gates, fences, seats, or other structures in the Park.
    - (e) Interfere with, break, or damage in any way any of the trees, shrubs, plants, or other vegetation or walk on the beds or borders in the Park.
    - (f) Bet publicly in the Park.
    - (g) Camp on any portion of the Park.
    - (h) Obstruct, hinder, or interfere with any person employed in the Park.
    - (i) Leave or deposit any bottles, broken glass, paper, orange peel, banana skins, refuse, or rubbish whatever therein except in the receptacles provided for that purpose, nor roll or throw stones or missiles of any kind therein, or leave anything therein that might injure any person.
    - (j) Light a fire in the Park except at such places as are set apart for that purpose by the Committee of Management.
    - (k) Carry or discharge any firearms or air guns in the Park, or shoot, snare, or destroy any game or birds therein, without the consent of the Committee of Management first obtained.
    - (l) Offer any articles of food or drink or any other commodity whatsoever for sale, or bring any intoxicating liquor into the Park without the consent of the Committee of Management first obtained.
    - (m) Erect any building, tent, bathing-box, boat-shed, or other structure in any portion of the Park without permission, in writing, of the Committee of Management first obtained, and then only under such terms and conditions and on payment of such fees as are prescribed by this Regulation.
    - (n) Use or cause to be used any bathing-box or boat-shed for other than bathing or boating purposes.
  2. No assemblies for fêtes or concerts, or for the purpose of public worship, preaching, or public speaking of any kind or meeting of a like character, shall take place in any portion of the Park without permission, in writing, of the Committee of Management first obtained.
  3. No person shall preach, or declaim, harangue, or deliver any address of any kind to members of the public in any portion of the Park without permission, in writing, of the Committee of Management first obtained.
  4. No person shall play at football, cricket, hockey, golf, rounders, or any other similar game in the Park, except in such area or areas as may be from time to time set apart by the Committee of Management for such purpose.
  5. No person shall use the closets or urinals, or any portion of such closets or urinals, for any purpose other than for which the same are constructed, and shall then only use such portion of such closets and urinals as are specially constructed for such purpose.
  6. A sum of One penny may be charged and taken by the Committee of Management or its officers from every person using the closets provided in the Park.
  7. No person, without the consent, in writing, of the Committee of Management, shall—
    - (a) Cause or suffer any dog belonging to him or in his charge to enter or remain in the Park unless such dog be or continue to be under proper control on a chain, cord, or leash, and be effectively restrained from causing annoyance to any person, or from damaging or interfering in any way with the property of the said Committee; or
    - (b) Bring into the Park any dog for swimming or training after the hour of Ten a.m. on any day.
    - (c) Any dog found in the Park, except as provided in this Regulation, shall be liable to be seized and/or destroyed by the officers and/or servants of the Committee, and the owner or any person having the custody of any dog so found shall be guilty of an offence against this Regulation, and shall also make compensation for any damage done to the property of the Committee by such dog.
  8. Except as provided hereinafter in Regulations 9, 10, and 11, no person shall put or cause to be put on any part of the Park any cattle, horses, sheep, goats, pigs, or any other animals, without the permission, in writing, of the Committee of Management first obtained.
 

The Committee of Management shall have power and authority to impound any cattle found trespassing in the Park, and shall be taken to be the occupier of the Park (with all power incidental to that status) within the meaning of any law for the time being in force relating to the impounding of cattle. For the purposes of this clause "cattle" shall mean cattle as interpreted by section 3 of the *Pounds Act 1928*.
  9. Certain portions of the Park may be set apart by the Committee of Management for the accommodation of vehicles and horses in the custody and care of those using the same, provided that the owner or user for the time being shall tie up such horse in such a way as not to cause or permit any damage to fences, trees, seats, or other improvements, and the owner or user for the time being of any horse found wandering without restraint on any portion of the Park shall be guilty of an offence against these Regulations.
  10. No person shall, except within the hours during which the bathing of horses is permitted, ride any horse or lead or bring any horse on to the Park, and no person shall at any time tether any horse or permit any horse to remain on any part of the Park except within the areas set apart by the Committee of Management for the tethering or holding of horses and parking of vehicles.
  11. Certain portions of the Park may be set apart by the Committee of Management for the use of persons desirous of swimming or bathing horses in Port Phillip Bay under certain conditions as the Committee of Management may from time to time determine, and then only before 10 a.m. on Sundays, gazetted public holidays, and days between the 24th, December and the 31st January (both inclusive), and before 11 a.m. and between the hours of 2 p.m. and 4 p.m. on the days between Wednesday immediately following Easter Tuesday and the 31st October (both inclusive), and before 11 a.m. on all other days.
  12. No person shall drive or ride any motor car, motor cycle, bicycle, or other vehicle in the Park except in the areas set aside for the parking of vehicles.
  13. A sum not exceeding One shilling may be charged and taken by such Committee of Management or its officers from the owner or driver of every vehicle entering or remaining in the parking areas referred to in clauses 9 and 10, provided that all moneys received as parking fees shall be expended in the maintenance and improvement of the Park.
  14. The Committee of Management shall have power to let the portion of the Park on which the tennis courts have been erected to any club, association, or person for the purpose of playing tennis, subject to the payment of such rent and/or fees, and on such terms and conditions as it may deem reasonable and consistent with these Regulations.
  15. The Committee of Management may, with the permission of the Board of Land and Works, set apart portions of the Park for the purposes of holding fêtes, carnivals, entertainments, musical performances, shows or sports, and may grant the use of the portions so set apart to any club, association, or person on such terms and conditions as it may deem to be reasonable and consistent with these Regulations.
- The Committee of Management may make a charge of One shilling for admission of each adult person to any of such portions so set apart, or may authorize any club, association, or person to make a similar charge for admission thereto on not more than forty (40) days in any one year.

16. No club, association, or person shall hold or take part in games of any description, fêtes, carnivals, entertainments, musical performances, shows, in any portion of the Park, without the written authority of the Committee of Management first obtained.

17. No club or association of any kind having for its object physical recreation, or any member or members of any club, association, nor any other person shall play, practise, train, or engage in any game or sport or athletic exercise within the Park without the permission, in writing, of the Committee of Management first obtained, unless any such person is at the time of playing a member of any club which is duly authorized to play in the Park at such time; Provided that any person not otherwise offending against these Regulations may enter on the Park and play tennis in the area set aside for the purpose on paying to the club or association for the time being such area or the Committee of Management the fees set out in the agreement between such club or association, the Board of Land and Works, and the Committee of Management, and in the Schedule hereto set out No. 4.

18. No person, except the Committee of Management or its officers and employees on duty, shall enter any part of the Park when a charge is made for admission without first paying the fees chargeable for admission.

19. Any person found in a state of intoxication or behaving in a disorderly manner, or creating or taking part in any disturbance, or committing any act of indecency in the Park, or otherwise offending against these Regulations, or the rules of any club, association, or persons renting any portion of the Park, or refusing to obey those authorized by the Committee of Management, or by any such club, association, or persons renting or having been granted the use of the Park for the time being, to keep order, shall be liable to be forthwith removed therefrom, notwithstanding that such person may have paid the prescribed fee for admission thereto, and shall also be liable to be prosecuted for an offence against these Regulations.

20. For the purpose of maintaining good order, any person authorized by the Committee of Management may refuse admission to any person to the Park.

21. No person shall remain in the Park at any time when lawfully directed by an officer or employee of the Committee of Management to leave same.

22. No licence shall be granted to any person to erect any building on any site within the Beach Park except within the areas set out in the First Schedule hereto.

23. No licence such as referred to in clause 22 shall be granted to any person not being the owner of a dwelling-house within the City of Mordialloc, and not more than one licence shall be granted in respect of any one dwelling-house, provided nevertheless that a licence of a site for the erection of a club-house may be granted to the duly appointed trustees or committee of any approved bona fide swimming or life-saving club duly constituted which has made an application for or was the licensee of a site on or before the 1st day of November, 1921. Provided further that the Committee may grant the renewal of a licence of any site to any person or body holding a licence for such site from the Shire of Moorabbin on the 27th day of May, 1920.

24. All buildings so erected shall have the doorways fronting the sea, and shall be of the following dimensions, namely:—

Single bathing box	..	6 feet x 8 feet.
Double bathing box	..	10 feet x 10 feet.
Boathouse	..	10 feet x 20 feet.

In the event of any building erected prior to the coming into force of these Regulations not complying therewith, the licence thereof shall not be renewed until such building has been altered so as to accord with these Regulations.

25. A distance of 3 feet shall be reserved between all such building sites, and no licence shall be granted to any person to erect any building on the space so reserved.

26. All such buildings hereafter to be erected in pursuance of such licences shall be of the design and of the materials set out in the Second Schedule hereto, save and except swimming and life-saving club-houses, which shall be of the design and of the materials shown, and specified in plans and specifications to be lodged with the application for such licences and approved of by the committee. A copy of the design and of the materials referred to in the Second Schedule shall be attached to every licence when first granted or renewed by the committee, and the licensee shall pay to the said committee the sum of Five shillings therefor.

27. The amount payable under such licence shall be:—

- (a) Single bathing-box site—£1 per annum.
- (b) Double bathing-box site—£2 per annum.
- (c) Boathouse site—£2 per annum.

(d) Club-house site—£1 per square or part thereof of floor area of the building erected or to be erected thereon per annum.

Provided that in any case the minimum fee shall be £2 per annum, and the maximum fee shall be £5 per annum.

A fee of 2s. 6d. shall be payable on every assignment of any such licence.

28. Every licence shall be granted for one year only, and subject to the conditions contained in the Third Schedule thereto.

29. Every licence shall expire on the 30th day of September each year unless the licensee or licensees prior to this date shall have lodged an application for a renewal thereof, together with the fee thereon, with the Town Clerk.

30. The holder or holders of every licence shall permit the duly authorized officers of the committee to enter the bathing box, boathouse, swimming or life-saving club-house erected on the site in respect of which such licence was granted at all reasonable times for the purpose of inspecting the interior thereof.

31. The committee may erect or may grant authority to any other body to erect on any part of the Beach Park seats, fences, drinking fountains, sanitary conveniences, shelter sheds, structures for recreation, amusement, or other similar purposes, provided that such authority shall not be granted unless the works to be erected thereunder are to be for the benefit of the general public, which shall have the use and benefit thereof, with or without charge, as the committee shall determine.

32. The word committee, wherever it appears in these Regulations, shall refer to the Committee of Management, Mentone and Mordialloc Beach Park.

That portion of the Mentone and Mordialloc Beach Park from the foot of Charman-road to the foot of Bay-street, except that no licence will be issued for any site not already built on within 132 feet of the foot of any ramp or steps leading to the beach, and no licence for any such site already built on will be renewed where a licence for another site within reasonable distance can be granted in lieu thereof; further that no site shall be licensed within the area set apart for rolling horses as defined by posts, and no site shall be licensed where, in the opinion of the committee, there is danger of land slip from the cliffs.

##### SECOND SCHEDULE.

###### Plans and Specifications.

As attached.

##### THIRD SCHEDULE.

Conditions under which a Licence of a Site for the Erection of a Bathing Box, Boathouse, or Swimming or Life-saving Club-house is Issued.

(a) The licensee or licensees shall, within three months of the granting of a licence, erect upon such site a bathing box, boathouse, or swimming or life-saving club-house, in a substantial and workmanlike manner, with the best materials of their several kinds, and in accordance with the plans, elevations, sections, and specifications approved of by the committee, and under the inspection and to the satisfaction of the surveyor or other officer of the committee authorized in that behalf.

(b) The licensee or licensees shall not sell or dispose of any earth, clay, gravel, or sand from the site granted to him or them, nor excavate the same, except so far as may be necessary for the erection of the said buildings.

(c) The licensee or licensees shall keep the exterior and interior of the buildings in good and substantial repair and condition, and shall not cut or damage any of the walls or timbers thereof, nor make any alteration therein or addition thereto without first submitting plans and specifications of the proposed alterations or additions, and obtaining the consent of the committee so to do.

(d) The licensee or licensees shall paint all the outside wood and metal work of the buildings with two coats at least of good oil paint, in a workmanlike manner, whenever required by the committee so to do.

(e) The licensee or licensees shall not permit the use of a bathing-box or boathouse for the purpose of carrying on any trade or business, or as a residence, or for any other purpose other than a bathing-box or boathouse, nor a swimming or life-saving club-house for any other purpose than as a club-house, and further shall not permit such club-house to be used for entertainments or meetings other than the ordinary business meetings of the club and its committees.

(f) The licensee or licensees shall not permit any person to use a club-house other than bona fide members of the club, save that members of similar clubs may use the club-house when taking part in contests against or demonstrations with the members of the club.

(g) The licensee or licensees shall not permit or suffer on the site granted anything which may be or become a nuisance or annoyance, or cause damage to the committee or the licensees of adjoining sites.

(h) The licensee or licensees shall not assign, underlet, or part with the possession of the site granted without first obtaining the written consent of the committee.

(i) In the event of the licensee or licensees failing to observe these conditions, or any of them, the committee may, at its discretion, cancel the licence by notice, in writing, posted to the last known address of the licensee, or if there be more than one, to the last known address of the person whose name appears first on the licence.

(j) Within thirty days from the termination of the licence or any renewal thereof, the licensee or licensees shall remove the buildings erected on the site granted by such licence, and shall, as far as may be possible, restore such site to its original condition: Provided that if the licensee or licensees shall not have removed such building; within the time stated, then the committee may, at its discretion, sell such building either with or without removal from such site, and either with or without demolishing the same. In the event of any such sale as aforesaid, the committee shall apply the proceeds thereof, firstly, in discharging the expenses incurred by it in and about such sale and removal, and secondly shall pay the balance (if any) to the licensee or licensees on demand.

wilfully offends against any such Regulations, and who, after he has been warned by any bailiff of Crown lands, or by any member of the Police Force, does not desist from so offending, may be forthwith apprehended by such bailiff or member of the Police Force and taken before some Justice to be dealt with according to law, and shall be liable to a penalty of not more than Ten pounds (£10).

LIST OF CROWN LANDS AVAILABLE.

THE undermentioned areas are available for application as provided by various sections of the Land Act 1928, and all applications received on or before Wednesday, 4th December, 1940, will be deemed to have been simultaneously made, but any application lodged after such date may be considered if received in time for inclusion in the advertisement of the cases to be heard at the Local Land Board.

Applications on proper form, accompanied by 5s. duty stamp uncancelled (registration fee), may be delivered or forwarded by post to the Local Land Officer or to any Crown Lands Office in Victoria.

Applicants may obtain from Local Land Officers, or the Enquiry Office, Lands Department, Melbourne, a certificate authorizing the issue by the Railway Department of a return ticket at concession fares to enable them to inspect available areas or to attend Local Land Boards. When an applicant is granted an allotment he may, if travelling by rail, obtain reduced fares for his family and also freight concessions in regard to some of his effects.

Subject to the approval of the Minister, when the survey fee exceeds £10, a deposit of 25 may be paid, and the balance over six years in half-yearly instalments.

Marked plans of any particular area, application forms, and any further information may be obtained from the Enquiry Office, Lands Department, Melbourne, and Land Officers, Ballarat and Beechworth.

Factories and Shops Acts.

## DETERMINATION OF THE WATCHMEN'S BOARD.]

**NOTE.**—(a) This Determination on the 6th November, 1940, applied to the following parts of Victoria, namely:—The Metropolitan District and the Geelong District as defined in the Factories and Shops Acts and the regulations thereunder; such portions of the City of Sandringham as are not within the said Metropolitan District; the cities of Ballarat, Bendigo and Warrnambool; and the boroughs of Eaglehawk and Sebastopol.

(b) Section 225 of the *Factories and Shops Act 1928* (No. 3677) provides that "every person employed as a watchman shall be granted one holiday in every week".

IN accordance with the provisions of the Factories and Shops Acts, the Wages Board appointed in lieu of the Nightwatchmen's Board to "determine the lowest prices or rates which may be paid to any person or persons or classes of persons employed in the occupation of a watchman" has made the following Determination, namely:—

(1) That on the 6th November, 1940, the last previous Determination of this Board shall be revoked and replaced by this Determination.

(2) **APPRENTICES OR IMPROVERS.**

Experience.	Wages per Week of 48 Hours.	Number (by any Employer).
	<i>s. d.</i>	
1st year .. .. .	44 0	One apprentice and one improver to every three or fraction of three workers receiving not less than the minimum wage per week of 48 hours.
2nd year .. .. .	51 8	
3rd year .. .. .	58 9	
And thereafter the minimum wage.		

**OTHER EMPLOYEES.**

Classes of Employees.	Wages per Week of 48 Hours within—	
	The Metropolitan District and the Geelong District as defined in the Factories and Shops Acts and the regulations thereunder; such portions of the City of Sandringham as are not within the said Metropolitan District; and the City of Warrnambool.	The Cities of Ballarat and Bendigo; and the Boroughs of Eaglehawk and Sebastopol.
	<i>s. d.</i>	<i>s. d.</i>
Watchman, who in addition to watching, performs manual work not subject to the Determination of any other Wages Board, while performing such work, at the rate of	108 2	105 2
All others .. .. .	95 8	92 8

(3) **OVERTIME.**—Any time worked in excess of 48 hours in any one week shall be paid for at the rate of time and a half.

(4) **EMPLOYMENT FOR LESS THAN FULL WEEK.**—(a) Persons who are employed during any week for not more than one-half the maximum number of hours fixed in this Determination as a week's work, shall be paid at the rate of time and a half.

(b) Persons who are employed during any week for more than one-half the maximum number of hours fixed in this Determination as a week's work, but for less than 48 hours, shall be paid not less than the ordinary wages rate calculated pro rata according to the number of hours worked.

(5) **SPECIAL RATES.**—Time and a half shall be the special rate for all work done on New Year's Day, 26th January (Australia Day), Good Friday, Easter Monday, Labour Day (21st April), Anzac Day, King's Birthday, Christmas Day, and Boxing Day; but if any other day be by Act of Parliament or Proclamation substituted for any of the above-named holidays, the special rate shall only be payable for work done on the day so substituted:

Provided that a person who is directed by his employer to absent himself from duty on any of the days above-mentioned shall, if he is unable to complete 48 hours' work in that particular week, be paid ordinary rates for any such day on which he is absent.

(6) **TRAVELLING TIME AND FARES.**—Any watchman employed on wharves, ships, &c., away from the Melbourne wharves and Victoria Dock shall be paid for travelling time at the ordinary rate together with all fares necessarily incurred by the most economical means of travel from and to the place of engagement, to and from the place of employment.

(7) **EMPLOYEE PROVIDING OWN BICYCLE.**—Any patrol watchman required by his employer to provide his own bicycle shall receive 1s. per week extra.

(8) Any watchman called up for duty shall receive at least four hours' pay.

(9) **PAYMENT FOR MEAL TIMES.**—No deduction shall be made in an employee's time for a meal period unless he is permitted to leave his employer's premises for such meal.

(10) **ANNUAL LEAVE.**—Any employee who has been in the service of any employer for a period of not less than twelve months shall be granted 12 days holiday, exclusive of the holidays mentioned in clause (5), in each year on full pay and such holiday shall be given within three months after the completion of twelve months service, provided that, for the purposes of this clause, any service prior to the 20th October, 1937, shall not be taken into account.
