Melbourne, 1st July, 1941.

## PUBLIC SERVICE ACT 1928 (No. 3757), SECTION 172.

IT is hereby notified that a certain charge has been preferred  
against Vernon George Wilson, Fourth Class Clerk,  
Children's Welfare Branch, Department of Chief Secretary,  
under section 170 of the *Public Service Act 1928*, and that  
a registered letter asking him whether he admits or denies  
the truth of the charge has been posted to his last-known  
address, viz., 6 Napier-crescent, North Essendon.

Unless a reply to such communication be received by  
Thursday, the 17th July, 1941, he shall be deemed to deny  
the truth of the charge, and the investigation thereof will  
be proceeded with on Monday, the 21st July, 1941, at  
half-past Two o'clock p.m., at the office of the Public Service  
Board, Public Offices, Treasury-place, Melbourne.

By order,  
J. FRAZER,  
Secretary.

## RAILWAYS CLASSIFICATION BOARD.

## AWARD No. 63 OF 5TH JUNE, 1941.

*Relating to Sunday Duty and Youths Living Away from  
Home.*

THE Railways Classification Board, in pursuance of the  
powers in that behalf conferred by the provisions of the  
*Railways Act 1928* (No. 3759), hereby determines and awards  
as follows (that is to say):—

## AWARD No. 55.—DIVISION 9—SUNDAY DUTY.

By inserting at the end of Clause 1 the following proviso:—  
Provided that whenever a Permanent Way Special Gang  
is required to work between the hours of midnight on  
Saturday and 6 a.m. on Sunday any employee in the gang,  
together with any officer or employee (ordinarily working  
a day shift) engaged in direct association with the gang  
between such hours, shall be paid the penalty rates  
prescribed in Clause 3 of Division 8 for the whole of the  
time worked on the shift.

AWARD No. 31.—DIVISION 17—YOUTHS LIVING AWAY FROM  
HOME.

By deleting Clauses (1) and (2) and substituting therefor  
the following:—

(1) Any Junior Clerk in receipt of a salary at a rate  
of less than £104 per annum who, in the opinion of the  
Commissioners, is obliged to reside away from home  
owing to the requirements of the Department shall be  
granted a board and lodging allowance on the basis of  
the difference between his rate of salary and £104 per  
annum.

(2) Any Lad or Apprentice in receipt of a wage at a  
rate of less than 6s. 6d. per day who, in the opinion of  
the Commissioners, is obliged to reside away from home  
owing to the requirements of the Department shall be  
granted a daily board and lodging allowance for six (6)  
days per week equivalent to the difference between his  
daily rate of wage and 6s. 6d. per day. This clause shall  
not apply to any lad in the Refreshment Services Branch  
who is provided with board and lodging by the  
Department.

Dated this fifth day of June, One thousand nine hundred  
and Forty-one.

H. C. WINNEKE, Chairman,  
Railways Classification Board.

Approved by the Governor in Council  
(to come into operation as from 8th June, 1941),  
30th June, 1941.

C. W. KINSMAN,  
Clerk of the Executive Council.

## YARRAWONGA SEWERAGE AUTHORITY.

BY-LAW No. 1, RELATING TO CONSENTS, LICENCES, ETC., ALSO LEVELS, DIMENSIONS, CONSTRUCTION, MAINTENANCE, VENTILATION, AND CLEANSING OF SEWERS AND OTHER MATTERS RELATING TO HOUSE CONNEXION WORK.

THE Yarrowonga Sewerage Authority, pursuant to and in exercise and execution of the powers and authorities conferred on it by the Sewerage Districts Acts and of any and every other power or authority in any wise enabling it in that behalf, doth hereby make and prescribe the following By-law, that is to say:—

In the construction of this By-law, unless inconsistent with the context or subject-matter—

“Acts” means the Sewerage District Act and any amendment thereof, and any Act incorporated therein, or amendment of such Acts.

“Anti-syphonage vent” (or “back vent”) means any vent pipe from an individual trap to the open air, or a main or branch vent pipe having for its purpose the prevention of loss of water seal in the trap.

“Authority” means the Yarrowonga Sewerage Authority.

“Bore,” “diameter,” or “size,” in reference to any pipe, means the nominal diameter thereof, in accordance with accepted trade practice.

“Building” means any building used as a work place, residence, place of business, place of amusement, or place of human habitation, or for the storage of food intended for human consumption, but does not include outbuildings unless such are used for any of the above purposes.

“Disconnecter trap” means a trap for isolating or disconnecting waste pipes from the house drain and soil pipes and providing inlet ventilation to the waste pipe or pipes discharging into it.

“Drain” means any drain used for the drainage of one building only or of premises within the same curtilage and includes any drain for draining any group or block of houses by a combined operation under the order of the Authority.

“Educt vent” means an opening or pipe for the exit of air from and the induction of draught in a soil pipe, waste pipe, or house drain.

“Engineer” means the Engineer of the Authority.

“Fittings” means all apparatus or appliances, together with their necessary appurtenances and connexions, for use in connexion with the plumbing or drainage system of any property, with the exception of fixtures and straight piping.

“Fixtures” means all apparatus or appliances, together with their necessary appurtenances and connexions, which may be attached to the plumbing or drainage system of any property, and which are intended for the collection or retention of any wastes or waste waters for ultimate discharge into the sewerage system.

“Housemaids’ slop sink” means any fixture other than a closet pan or urinal used for the discharge of soil waters and provided with a flushing apparatus in accordance with Division 32 of this By-law.

“Induct vent” means an opening or pipe for the admission of air to a soil pipe, waste pipe, or house drain.

“Interceptor trap” (or “boundary trap”) means a trap for preventing the passage of air or gases from the sewer to the house drain, and situated on the house drain at some point between the sewer and the lowest inlet to the house drain.

“Occupier” means the person for the time being in actual or constructive occupation of the premises.

“Owner” includes the person for the time being who receives or is entitled to receive the rent of the lands or premises in connexion with which the word is used, whether on his own account or as agent of or as trustee for any other person, or who if such lands or premises were let to a tenant at a rack rent would be entitled to receive the rack rent from the occupier thereof.

“Premises” includes any house and any building whatsoever and any part of any house or building and any garden stable yard or other offices used together or in connexion with any house or building and every part thereof.

“Responsible officer” means any officer authorized by the Authority to act as its representative in the particular matter to which the reference is made.

“Sewer” means any sewer or underground gutter or channel which is not a drain within the meaning of the Acts and any drain or portion of a drain laid between a sewer and the boundary line of any allotment or curtilage.

“Sewerage District” means the Yarrowonga Sewerage District.

“Sewered property” means as well as any sewered land or premises any land or premises which have been declared by a general notice given by the Authority

under the Acts to be deemed and taken to be a sewered property within the meaning of the Acts.

“Sewerage system” includes all sewers, fittings, fixtures, appliances, plant, machinery, and any other sewerage works vested in the Authority.

“Soil pipe” means any pipe which conveys the discharge from water closets, housemaids’ slop sinks, or urinals to the house drain.

“Stack” means any vertical line of soil, waste or vent piping with its offsets, if any.

“Trap” means any fitting designed to retain a quantity of water to arrest the passage of air or gases through such fitting.

“Waste pipe” means any pipe which conveys the discharge from any fixture (except water closets, housemaids’ slop sinks, or urinals), to a disconnecter trap.

“Water seal” or “trap seal” means the vertical distance between the dip and the crown weir of a trap.

“Waste water” means water from factories or from buildings or premises in connexion with factories, but does not include storm water or ordinary domestic sewage.

## INTERPRETATION.

In the construction of this By-law the meaning which, in the Acts, is assigned to any word shall be the meaning of the same word where occurring in this By-law, unless inconsistent with the subject-matter or context.

## PART I.

## GENERAL REGULATIONS.

## Division I.—Applications for Consents, &amp;c.

Section 1. Application for the Authority’s consent to connect with the sewerage system, or to do plumbing and drainage work connected therewith, must be made in writing by the owner of the property to be so connected, or by his authorized agent.

Section 2. Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be in the form prescribed by the Authority. For any wilful misrepresentation in such application the owner or authorized agent as aforesaid shall be guilty of an offence against this By-law. No consent given by the Authority shall be deemed to authorize anything not stated in the application, nor to confer or grant the right to lay a drain through any land intervening between the sewer of the Authority and the land proposed to be connected, and every owner or agent applying for the Authority’s consent shall satisfy himself as to his legal right to drain through such intervening land, as he shall be solely responsible for any trespass or damage thereon or thereto.

Section 3. Consents to make connexions with the sewerage system will be issued only when the plumbing and draining in the property to be connected is planned to be made in accordance with the rules for plumbing and draining hereinafter prescribed, and after such plan has been inspected and approved of by the responsible officer appointed by the Authority for the purpose, or, in the case of new buildings, when a proper plan of the plumbing and of the drainage of the building into the branch, of which the Authority shall have fixed the position, has been approved of in writing by the Authority. All connexions with drains or sewers, and all plumbing and drainage connexions therewith, shall be made under the direction of the responsible officer of the Authority. Consent will not be given for the performance of any such work except upon condition that no person shall be engaged or employed as a workman in the actual performance of any plumbing or drainage work unless he be the holder of a licence issued by the Authority to do such work. Any person who shall at any time or at any place make up, form, affix, alter, or repair any fitting, pipe, bend, trap, or other thing connected or intended to be connected with the Authority’s sewerage system, unless he be the holder of a licence from the Authority authorizing him to do such work, shall be liable to a penalty not exceeding Ten pounds. Any person, whether licensed as aforesaid or not, who shall alter, remove, or in any way interfere with any drain, fitting, pipe, bend, trap, or other thing connected with the Authority’s sewerage system, unless the Authority’s written consent has been previously issued to do such work at the premises concerned, shall be liable to a penalty not exceeding Ten pounds.

Section 4. Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of or from the Authority is necessary, whether specified in writing or otherwise, with regard to any act, matter, or thing mentioned in the By-law, the same may be given by and under the hand of the Chairman of the Authority, or of the responsible officer, personally or through an inspecting officer appointed under him, who severally shall be competent to give the same and authorized on behalf of the Authority to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given.

Section 5. In any case in which the Authority shall be of the opinion that a compliance with any of the provisions of this By-law would in any particular case be vexatious or be

needless in the interest of public health, it shall be lawful for the Authority, by resolution, to dispense with or forbid such compliance in whole or in part as it shall think fit, or to authorize or direct such a modification or alteration of such provisions as shall, in its opinion, most nearly adapt the principle of those provisions to the particular case. It shall be unlawful to comply with any provision, or part of any provision, of which compliance shall have been forbidden, or to act contrary to or otherwise than as directed by such modification or alteration.

*Division 2.—Penalties, Recovery of Cost of Work, &c.*

Section 6. Where anything is by this By-law directed to be done, or forbidden to be done, or where any authority is given to the Authority or any of its officers to direct or to forbid anything to be done, and such act so directed to be done remains undone, or such act so forbidden to be done is done, then, and in every such case, the person making default as to the said direction or prohibition respectively shall be guilty of an offence against this By-law.

Section 7. Every person guilty of an offence against this By-law, not otherwise specially provided for by or under the authority hereof, shall be liable for every such offence, besides any costs or expenses which may be incurred in the taking of proceedings against such person guilty of such offence, as well as any costs or expenses which may be incurred in remedying such default, as particularly provided for in this By-law or the Acts, to a penalty not exceeding Ten pounds, and to a further penalty of One pound for each day during which such offence is continued by such person after notice of the offence shall have been given by the Authority to him; and such penalty shall be recoverable, notwithstanding that the Authority may not have chosen to exercise any power given to it by the Acts or by this By-law to remedy such default.

*Division 3.—House Drainage Plans—Alterations.*

Section 8. Copies of the Authority's plans of individual house drainage will be furnished by the Authority upon application and payment for the same, as follows:—

- (a) Where owners design and carry out their own work—
- (i) For the supply of a block plan, Two shillings and six pence (2s. 6d.).
  - (ii) For the examination of the owner's plan of design, a minimum fee of Seven shillings and six pence (7s. 6d.).
  - (iii) For making or examining any alterations or addition to a plan previously issued or approved of by the Authority, a minimum charge of Five shillings (5s.) shall be made by the Authority.
  - (iv) For the inspection of drains and testing by the Authority's inspector, Ten shillings (10s.).
  - (v) For the inspection of plumbing by the Authority's inspector, Ten shillings (10s.).
  - (vi) For the final inspection by the Authority's engineer and charting the work on the Authority's plans, Ten shillings (10s.).
- (b) Where the Authority designs the work for the owner and the owner then carries out his own work—
- (i) For plan of design, Ten shillings (10s.), plus Two shillings and six pence (2s. 6d.) for each fitting.
  - (ii) For making or examining any alterations or additions to a plan previously issued or approved of by the Authority, a minimum charge of Five shillings (5s.) shall be made by the Authority.
  - (iii) For the inspection of drains and testing by the Authority's inspector, Ten shillings (10s.).
  - (iv) For the inspection of plumbing by the Authority's inspector, Ten shillings (10s.).
  - (v) For the final inspection by the Authority's engineer and charting the work on the Authority's plans, Ten shillings (10s.).
- (c) Where the authority designs the work and has same carried out for the owner, a charge shall be made equal to Ten per centum on the capital cost of the work for the designing and supervising of all details in connexion with such work.

Consent for additions and/or amendments to approved plans or to works previously approved will be made only on the application of the owner or his authorized agent.

*Division 4.—Maintenance and Defective Work.*

Section 9.—Any drain pipe, soil pipe, trap, water closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with this By-law, or which shall in the opinion of the Authority be or become bad or of defective quality, shall, upon notice in writing from the Authority to the owner or occupier of the property, be by such owner or occupier removed or repaired in the manner determined and within the time fixed by the Authority; and in case such owner or occupier fails to comply with the requirements of the notice,

he shall be liable to prosecution and penalty for an offence against the Acts, or the Authority will, if it thinks fit, remove or repair the said defective fitting and charge such owner or occupier of the premises with the cost so incurred, and will proceed for recovery of the same in a manner provided by the said Acts.

*Division 5.—Licences.*

Section 10. No person shall tender for or enter into any contract for or undertake any plumbing work relating to sewerage within the Yarrowonga Sewerage District or connected or to be connected with the sewers of the Authority who does not hold either a master plumber's licence or a working plumber's licence issued by the Authority.

Section 11. No person shall tender for or enter into any contract for or undertake any draining work relating to sewerage within the Yarrowonga Sewerage District, or connected or to be connected to the sewers of the Authority who does not hold either a master plumber's or working plumber's licence, or a drainer's licence issued by the Authority.

Section 12. No person other than a holder of a working plumber's licence issued by the Authority shall actually do or perform any such plumbing work.

Section 13. No person other than the holder of a working plumber's or a drainer's licence issued by the Authority shall actually do or perform any such draining work.

Section 14. At the discretion of the Authority a master plumber's licence may be granted to any master plumber or master builder, building contractor, or other person, firm, or corporation who is approved by the Authority, but such licence will only entitle the holder to tender for or enter into contracts for or otherwise undertake plumbing and drainage work under these By-laws, but shall not entitle the holder to personally do any actual plumbing or drainage work under these By-laws.

Section 15. Holders of master plumbers' licences not themselves licensed working plumbers or licensed drainers must continuously employ on all and every plumbing work carried out by them under these By-laws licensed working plumbers, and on all and every drainage work licensed working plumbers or licensed drainers.

Section 16. Working plumbers' licences will be issued at the discretion of the Authority to persons who hold and produce to the Authority a certificate of competency issued by the Sanitary Plumber's Examination Board of Victoria. Such licence will permit the holder to do practical work as a working plumber upon all fittings, appliances, and apparatus connected or to be connected with the sewers of the Authority, subject to and in accordance with the Authority's By-laws and Regulations.

Section 17. Drainers' licences will be issued to any person who shall satisfy the Authority by passing an examination by examiners appointed by them or in such other manner as the Authority from time to time or in any particular case may direct that he has a thorough knowledge of the following subjects:—

- Plans.—The reading of plans and the meaning of scales and of elevation, plan, and section drawing.
- Levelling.—The use of the straight-edge, spirit-level, and boning rods.
- Excavation, Timbering, and Refilling.—The use of tools for excavation, the protection of trenches by timbering, the treatment of different soils, tunnelling, and tunnel timbering, precautions near buildings, and manners of refilling of trenches and tunnels.
- Drain-laying.—The preparation of the bottom of trenches, the laying and jointing of stone-ware, cement, concrete, and cast-iron pipes, cement, bitumen, lead, and self-fitting joints, laying of drains under houses and in soft ground, and the depth of drains below surface.
- Drainage Details.—Junctions to sewers, diminishing of sizes of pipes, yard gullies, grease and other traps, inspection openings, and cast-iron drainage details.
- Drainage Work.—Knowledge of the provisions of this By-law and of the Acts, insofar as same relate to the work and duties of drainers in regard to the construction, maintenance, and protection of the sewerage system and the construction and use of drains and drainage traps.

Candidates for drainers' licences shall give notice in writing to the Authority of their intention to submit themselves to examination, and this examination shall be at such a time and at such place as shall be appointed by the Authority. Candidates must provide themselves with their own tools and materials, and pay a fee of 10s. for each examination.

Section 18. The conditions upon which all master plumbers' licences, working plumbers' licences, and drainers' licences will be issued are—

- (1) That every licence will be subject to suspension or cancellation at the will of the Authority, and that all such licences or renewals thereof will expire on the 30th day of June next following.

(2) That every holder of a licence from the Authority who shall have received the consent of the Authority to execute any works in connexion with sewerage or drainage, or who shall (where such consent of the Authority is not required before the execution of any such works) have notified the Authority of his intention to carry out such works—

- (a) shall obtain permission when necessary for the execution of such works on, over, or through any private property, or any streets, roads, parks, reserves, or other public places or properties; and
- (b) shall pay any fees demanded by the Council or Authority for opening any street, road, or thoroughfare or otherwise in connexion with the work; and
- (c) shall execute such works in accordance with the provisions of the Acts and of the By-laws made thereunder, and of any special directions or orders given or issued by the Authority or proper officer; and
- (d) shall use materials of good quality only and free from defects; and
- (e) shall employ only competent operatives or assistants; and
- (f) shall execute such works in a thorough and tradesmanlike manner to the satisfaction of the Authority as expeditiously as practicable, and leave site clean and undefaced; and
- (g) shall in the execution of such works take such proper and necessary precautions that no accident or damage or unnecessary inconvenience may be directly or indirectly occasioned thereby; and
- (h) shall restore any part of any street, road, or thoroughfare interfered with by the work to the satisfaction of the municipal authority having control thereof upon the completion of the work; and
- (i) shall restore any other property interfered with by the work to the satisfaction of the responsible officer of the Authority; and
- (j) shall in all cases notify the proper officer immediately upon completion of any work in hand, promptly amend any defects therein, and again at once notify the said officer, and subsequently take steps forthwith to secure the certificate of satisfactory completion and give same to owner; and
- (k) shall, when so directed by the Authority, make good at his own expense any defect found within three months of the date of completion of any such work which, in the opinion of the Authority, is due to bad workmanship or defective material.

Section 19. Prior to the issue of any licence the person to whom the same is to be issued must sign a register containing a declaration that he accepts such licence subject to and in conformity with the conditions of such licence and of this By-law and that he will conform to and comply therewith, and shall pay to the Authority the fee named hereunder:—

	s.	d.
For every master plumber's licence .. .. .	10	0
For every working plumber's licence .. .. .	7	6
For every drainer's licence .. .. .	5	0
For the renewal of any licence .. .. .	2	6

*Division 6.—New Buildings, Additions, &c.*

Section 20. Every person who shall intend to erect a building on any property within the Sewerage District, or to rebuild or to make any alterations or additions to any such buildings shall, before commencing such work, give to the Authority seven days' notice in writing of such intention; and such notice shall be accompanied by plans and sections of such intended buildings, alterations, or additions, showing their positions, dimensions, depths, and levels of foundations, cellars, or basements, all appurtenant walls and fences, the intended lines of drainage, and the boundary of the land, which plans, &c., shall become the property of the Authority.

*Division 7.—General.*

Section 21. Any work or thing in respect of or in connexion with sewerage under the Act that is not specifically mentioned in this By-law shall be performed in accordance with the directions of the Authority.

**PART 2.**

**GENERAL REGULATIONS.**

*Division 8.—Use of Sewers and Drains—Prohibition of Certain Discharges.*

Section 22. *Use of Sewers and Drains.*—The owner and the occupier of any severed property shall discharge into the sewerage system all faecal matter, urine, household slops and household liquid refuse from such property, and such other polluted water from stables, washing areas, manure bins, basements, cellars, and roofed yards, and such trade or manufacturing liquid refuse as the Authority may authorize or require, subject in each and every case to such conditions as it may impose.

Section 23. *Prohibited Discharges.*—The deposition or discharge of any of the following substances into any house drain is prohibited:—

- (a) Any animal matter other than is specified in section 22, fleshings, wool, hair, dead animal, grease, dust, ashes, rubbish, garbage, offal, vegetable and fruit or their parings, rags, oil, silt, mud, sand, gravel, or like substances, or any other substance which is, in the opinion of the Authority or its responsible officers, liable to be injurious to any part of the sewerage system or to the employees of the Authority engaged in the operation or maintenance of same.
- (b) Any petrol or other inflammable or explosive substance, whether solid, liquid, or gaseous.
- (c) Any rain, roof, surface, or flood waters, except by special permission of the Authority.
- (d) The contents of any night-soil cart, cesspool, or privy.
- (e) Any waste water, liquid, trade waste, or other substance which has not been neutralized to the approval of the responsible officer of the Authority, or which is above the temperature of 100 deg. Fahrenheit, or such lower temperature as may be prescribed by the Authority, having regard to the special circumstances of the case.
- (f) Any liquid which contains such percentage of common salt or any other mineral salt, acid, or gas as is, in the opinion of the responsible officer of the Authority, injurious to, or liable to form compounds injurious to, any part of the sewerage system or to employees of the Authority engaged in the operation or maintenance of same.

Section 24. *Fittings to be Above Flood Level.*—No person shall place in position for use any fitting or appliance having an inlet or opening into any drain or into any sewer of the Authority unless the inlet or opening is 1 foot above the flood level of the year 1940. Where any doubt is raised in connexion with any of the clauses of this By-law as to the highest flood level of the year 1940, the Engineer, after inquiry, shall fix such flood level, and his decision shall be final and conclusive.

Where any buildings or premises are situated in any area liable to flooding at frequent intervals the Authority may suspend the operation of this clause subject to and so long as the following conditions are observed:—

- (a) That the owner applies in writing for permission to fix an approved sluice valve in every drain connecting with a sewer of the Authority on which the inlet or opening is placed, and furnishes the Authority with an undertaking that such sluice valve will be fixed at his risk, and indemnifies the Authority against all damage suffered by such owner or any one claiming under him arising out of and incidental to such valve.
- (b) That the owner undertakes whenever there is danger of flooding to close or cause to be closed every such valve before flooding occurs, and to keep closed or cause to be kept closed every such valve until the flood water shall have subsided to such an extent that there is no longer danger of the flood water entering the sewers.
- (c) That, pursuant to such permission and undertaking, an approved sluice valve shall have been fixed in every drain connecting with a sewer of the Authority and approved of by the Engineer.
- (d) That the owner does whenever necessary close and keep closed every such valve and does exclude such flood water.

*Division 9.—Trade Wastes.*

Section 25. *Conditions of Discharge.*—No person shall discharge any trade or manufacturing liquid, refuse, or waste into any sewer, unless and until the following conditions are complied with:—

- (a) Application for permission to discharge any such trade wastes shall be made in writing and accompanied by plans and specifications of the work to be done and of the apparatus to be used, and shall include such details concerning the nature of the waste and the quantity and rates of discharge of the proposed effluent as considered necessary by the responsible officer of the Authority.
- (b) The permission of the Authority in writing shall be obtained, and an agreement containing a covenant to comply with the By-law and with any further stipulations required by the Authority, shall be executed.
- (c) The volume of liquid refuse or waste discharged shall, if ordered, be measured and determined by meter or by some other approved means of measurement. The maximum aggregate daily quantity of effluent which may pass from any trade premises into a sewer, the maximum permissible rate of such discharge, the size and capacity of the drain for conveying such effluent from the trade premises to the sewer, and the hours during which such flow will be permitted, shall be determined by the Authority.

- (d) All such liquid refuse or waste shall be passed through such settling, screening, and/or neutralizing chambers and/or such other appliances and/or otherwise treated as ordered or approved by the Authority to ensure that the resulting effluents shall comply with the conditions of the agreement.
- (e) Every settling, screening, neutralizing, or other chamber, appliance, or apparatus for the treatment of trade wastes in accordance with this By-law shall be cleansed and maintained by the occupier at his own expense and at such intervals as may be considered necessary by the Authority or its responsible officer to ensure the efficient operation of such chamber, appliance, or apparatus, and in no case shall such chamber, appliance, or apparatus be altered without the approval in writing of the Authority first being obtained.

*Division 10.—Sub-soil Water.*

Section 26. The discharge of sub-soil water into sewers shall be prohibited excepted by permission of, and under conditions approved by, the Authority.

*Division 11.—Inspection Tests.*

Section 27. *Notice.*—The owner or his authorized agent, or the plumber, drainer, or contractor, shall give at least forty-eight hours notice to the Authority, in writing, of his intention to commence work and of work ready for inspection. All work shall be left uncovered and accessible for examination until inspected and approved. Inspection shall be made within twenty-four hours of the receipt of such notification except when the notification is received on a Saturday, when seventy-two hours shall be allowed.

The contractor carrying out any work shall, within seven days of the completion of such work, file in the office of the Authority, on forms furnished for this purpose, a correct statement of the work done and the cost thereof. Such statement shall be countersigned by the responsible officer of the Authority, and a certificate embodying such statement shall be forwarded to the contractor.

Section 28. *Inspection.*—All drains, wastes, fittings, joints, fixtures, &c., will be inspected by the responsible officer of the Authority to ensure compliance with the By-law and approved plan.

Section 29. *Tests.*—Drains, whether laid by the Authority's workmen or others, must be thoroughly tested in every case before being passed by the Authority's officers. The responsible officer of the Authority may require the application of the water or smoke test, or such other tests as he may order or approve.

Section 30. *Water Test.*—The water test may be applied to the drainage and/or plumbing systems and their fittings in their entirety or in sections. It shall be applied by hermetically sealing all openings below the top of the section to be tested. The system shall then be filled with water to a height of 6 feet above the highest point of the section, or, if considered necessary, to such additional height as the responsible officer may order, and every joint carefully examined for leaks.

Section 31. *Smoke Test.*—The smoke test shall be applied by hermetically sealing all openings into the section to be tested, and forcing into the system thick smoke to a pressure equivalent to 1 inch of water, by means of a smoke test apparatus. Every joint shall then be carefully examined for leaks.

Section 32. *Equipment, &c.*—The equipment, material, power, and labour necessary for the inspection and tests shall be furnished by the contractor, plumber, or drainer.

Section 33. *Maintenance.*—Every person holding a licence from the Authority who shall execute any work in connexion with sewerage drainage and/or sanitary plumbing shall, when so directed by the Authority, make good at his own expense any defect found within three months of date of completion of any such work due, in the opinion of the Authority, to bad workmanship or defective material.

*Division 12.—Materials and Workmanship.*

Section 34. *Materials.*—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be of the best of their respective kinds, sound and free from defects, and shall comply with such Australian standard specifications as apply and are accepted by the Authority, otherwise to be approved by the Authority.

Section 35. *Testing.*—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be submitted for examination and/or test, and shall not be placed in position until passed and stamped by the Authority. Such testing of materials shall be paid for by the person submitting same, whether passed or rejected, and shall be done at such time and place, and at such rates, as may from time to time be fixed by the Authority.

Section 36. *Workmanship.*—All work shall be executed in a thorough and workmanlike manner, and to the satisfaction of the Authority.

Section 37. *Precautions.*—Adequate precautions shall be adopted by the person carrying out the work to prevent injury to workmen, property, or public, and the Authority will accept no responsibility for claims for injury arising from the inadequacy of such precautions.

Section 38. *Concrete.*—Concrete, unless otherwise ordered, shall consist of one part Portland cement, two parts clean sharp sand, and four parts hard metal, shingle or gravel not exceeding  $\frac{3}{4}$ -in. gauge, and shall be thoroughly mixed with clean water to such consistency as ordered or approved by the responsible officer of the Authority.

Section 39. *Cement Mortar.*—Cement mortar, unless otherwise ordered, shall consist of one part Portland cement and two parts clean sharp sand, properly mixed with an approved proportion of clean water.

PART 3.

DRAINAGE.

*Division 13.—Drainage, General.*

Section 40. (1) Every premises shall be separately drained unless a combined drain shall have been ordered or approved by the Authority. Owners desiring to have the drainage of their properties combined must sign a request for a combined drain, and obtain the approval of the Authority. In any case in which it appears to the Authority that any properties may be drained more advantageously in combination than separately the Authority may order that those properties be drained by a combined operation.

(2) In any case where a combined drain serves two or more properties the Authority, with the consent of the owners of the properties served by such combined drain, may take over such combined drain, and thereafter such combined drain shall be and remain a sewer of the Authority.

(3) In every case of a combined drain the Authority will determine, as between the respective owners and occupiers of the properties drained thereby, the proportions in which the cost of such combined drain shall be paid. In every case of the occurrence of an obstruction in a combined drain the Authority will also determine by whom and in what proportion the cost of removing such obstruction shall be paid.

(4) Owners and occupiers of premises are responsible for clearing stoppages in drains within their premises, or between their premises and the sewers into which the branches lead, but must employ only licensed plumbers or drainers to clear same.

(5) Before a licensed plumber or drainer commences to clear a stoppage in a drain he must notify the Authority in writing of the time when he intends to clear the stoppage, so that the Authority's proper officer may attend and pass the work in accordance with the provisions of the Acts.

Section 41. *Size of Drains.*—Every drain shall be of adequate size for the drainage of the property to be served, in accordance with the requirements of section 85, with a minimum diameter of 4 inches.

Section 42. *Materials.*—All drain pipes, bends, junctions, and fittings used shall be of glazed stoneware, concrete, cast-iron, or other approved material, provided that the responsible officer of the Authority may prohibit the use of any of the above-mentioned where the circumstances or conditions are considered unfavorable.

Section 43. *Cast-iron Pipes.*—Cast-iron drainage pipes and their fittings shall comply with the Australian standard specification, or, in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameters.

Section 44. *Interceptor Traps.*—Where directed by the Authority, but not otherwise, an interceptor trap shall be fixed in the drain laid from any property to the sewer. Such trap shall be fixed as near as practicable to the boundary, and wherever practicable shall be within the boundaries of the property. The interceptor trap shall be provided with an inspection cap on the sewer side of the trap. If ordered, an approved manhole shall be provided for the trap.

Section 45. *Inspection Chambers.*—All drains shall, wherever considered necessary by the Authority, join in an inspection chamber at least 3 feet long by 2 feet wide, fitted with a closed cover. The portions of the drains crossing the floor of the inspection chamber shall be connected either in a straight line or by curved junctions in the floor of the chamber. All inspection chambers to be cement rendered (two parts sand and one part cement) to a smooth surface, and made watertight. The inspection chamber must be provided with a closed cover, and special ventilation must also be provided if considered necessary by the Engineer.

Section 46. *Inspection Openings.*—Every line of drain shall be provided with an inspection opening—inside and within 5 feet of the boundary line, at each junction not provided with an inspection chamber, at each change of direction, at each fixture, and in no case at greater than 30 feet intervals, and in paved areas these shall, if considered necessary by the responsible officer of the Authority, be brought to the surface and furnished with approved airtight covers. The area of an inspection opening shall be not less than the area of the drain.

Section 47. *Drain Openings Not in Use.*—The ends of all house drains not immediately connected with the plumbing fixtures and all inspection openings shall be securely closed with watertight imperishable materials. If stoneware or cement concrete, a stoneware, cement concrete, or cast-iron disk must be cemented in; if wrought iron, a plug must be screwed on the end; if cast iron, a cast-iron plug must be caulked in with lead.

Section 48. *Replacing or Inserting Pipes.*—Where it becomes necessary to remove a pipe to clear a stoppage or to insert a pipe or branch in an existing drain, such pipe so removed shall be replaced by an inspection pipe or inspection junction of the same length by one of the following methods:—

- (a) The top half of the socket of the new pipe and of the existing downstream pipe may be removed, but the bottom half shall in each case be left intact and the joints surrounded with concrete.
- (b) An approved split pipe with double collar surrounded with concrete may be used.
- (c) A length of not less than three pipes may be removed, the centre pipe replaced by an inspection pipe, and the pipes dropped back into place without springing or cutting.

Junctions in existing metal pipes shall not be made unless an approved closure pipe is used in each case. Springing pipes into position shall not be resorted to or allowed.

#### Division 14.—Basement and Cellar Drainage.

Section 49. *Fixtures.*—No water-closet, urinal, and/or other fixture shall be placed in any cellar or basement, or on any floor below ground level, unless by consent of the Authority, and then only when, in the opinion of the Authority, other provision cannot be made. The owner shall submit such plans and/or other information as the Authority may require, and shall undertake in writing to accept all risk of damage that may occur. If satisfied that the ventilation and lighting provided are in accordance with section 151 or 152 of these By-laws, and all other conditions have been complied with, the Authority may give its consent; provided always that such consent may be revoked by the Authority at any time, and that upon 14 days' notice of revocation such fixture shall be abolished by the owner.

Section 50. *Risk of Back Flow.*—Where such cellar, basement, or floor below ground level is at such a level as may, in the opinion of the Authority, involve risk of back flow in the event of the sewer becoming overcharged, the sewage from all fixtures therein shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered and discharged into the sewer as and where directed.

Section 51. *Seepage Drains.*—In no case shall seepage drains from cellars, basements, or any floor below ground level be discharged into a sewer without the consent of the Authority. Where such discharge is permitted by the Authority the seepage shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered, and discharged into the sewer or elsewhere as and where directed.

#### Division 15.—Polluted Areas.

Section 52. *Connexion.*—The Authority may, if it thinks fit, authorize or require that any of the following places:—namely, stables, cow-sheds, dairies, market places, areas for washing vehicles, and any other polluted place, be connected with the sewers, subject to such conditions as the Authority may impose.

Section 53. *Conditions Governing Connexion.*—No such connexion shall be made unless the following conditions have been complied with:—

- (a) The place to be connected shall, if required, be so roofed as to prevent the entry of rain water from it to the sewers, and in no case shall rain water be permitted to discharge on to such place from adjoining surfaces.
- (b) The place to be connected shall be paved above the level of the yard with approved materials, and graded to the satisfaction of the responsible officer of the Authority.
- (c) The drain from any such place shall be provided with an approved silt trap with a removable grating and connected with the drain inside the boundary line of the property.

Section 54. *Manure Bins.*—(a) Manure bins must be provided for all stables, or cow-yards where the local Council's By-laws demand their construction, or where the locality is closely built on.

(b) All the manure bins must have the inside surfaces rendered with cement mortar, and must be made impervious throughout, and provided with an approved close-fitting cover. Walls of new manure bins must, unless otherwise approved, be at least 9 inches in thickness, built of brickwork laid in cement mortar. If an outlet pipe be provided for a manure bin, it must be properly connected with the Authority's sewers. Branches in house drains must be provided in all cases where manure bins exist, for their connexion whenever the Authority shall deem it necessary.

#### Division 16.—Pipe Trenches.

Section 55. The trench for the house drain from any property shall be so dug as to meet the Authority's sewer at the position provided or to be provided for the connexion.

The material from the trench shall be so placed as to cause the least possible obstruction and inconvenience to the public.

Proper barriers and lights must be maintained where necessary to guard against accident during the progress of the work.

In refilling the trench selected refilling shall first be deposited around and over the pipe to a depth of 12 inches and carefully consolidated, after which the remainder of the trench shall be filled in in layers and rammed or flooded, as ordered or approved.

No stone shall be used in refilling until earth or gravel has been placed over the pipe to a depth of 1 foot, or more if directed.

On no account shall any water, sand, earth, &c. be allowed to enter the sewer during the progress of the work.

On completion of refilling the surface shall be restored as nearly as possible to the same condition as it was in before operations were commenced, unless the owner in writing otherwise requires.

#### Division 17.—Laying Drains, &c.

Section 56. *Position and Line.*—Every drain and every fitting, &c., connected therewith shall be laid and fixed where directed by the responsible officer of the Authority. As far as possible all drains shall be laid in straight lines; where changes of direction occur they shall be made in manholes, or by a suitably curved pipe with an inspection opening on each straight pipe next adjoining the curve.

Section 57. *Oblique Junctions.*—Where any drain joins another drain the junction shall be made obliquely at an approved angle with the direction of flow of such drain. Right-angled junctions shall not be made.

Section 58. *Connexion to Sewer.*—The position of the Authority's connexion to any premises shall be located prior to the commencement of any drain excavation. The disk stopper at the point of connexion to the sewer shall be carefully removed so as not to injure the socket or allow any debris to enter the sewer.

The first length of the drain at the branch shall be an inspection opening.

Section 59. *Gradients.*—All drains shall be laid on an even grade, and, except by special permission in writing, from the Authority, such gradients shall in no case be less than the following minimum permissible gradients:—

4-in. diameter	... ..	1 in 40
6-in. diameter	... ..	1 in 60

In cases where the grades of 4-in. and 6-in. drains are steeper than 1 in 40 and 1 in 60, respectively, concrete stops shall be placed as and where directed by the responsible officer of the Authority.

Section 60. *Depth of Drains.*—Drains of stoneware or concrete pipe, unless bedded in and encased in concrete of not less than 6 inches thickness over any part of the drain, shall be laid at a depth to the socket of the pipe of not less than the following:—

- (a) In public thoroughfares, rights-of-way, or other open spaces subject to vehicular traffic—2 ft. 6 in.
- (b) In private property not subject to vehicular traffic—1 foot.

No person shall alter the surface over any drain so as to deprive it of the minimum depth of cover specified by the preceding paragraph, unless approved measures are adopted to protect the drain.

Section 61. *Laying Drains.*—All pipes shall be laid to such lines and grades as may be shown on the plans or directed, and, except where otherwise ordered, holes shall be cut in the bottom of the pipe trench to receive the sockets of the pipes, and all the pipes shall be carefully bedded with the barrel on the solid ground.

In the case of rock-bottomed trench, or where directed, the pipes shall be bedded up to the horizontal diameter upon not less than 3 inches thickness of approved sand or other approved material measured from the barrel of the pipe.

In water-charged ground, or where the foundation is bad, or near roots of trees, or where directed, the drain shall be formed of cast-iron pipes; or, if of stoneware or concrete pipes, they shall be bedded on and encased in concrete as ordered, and, if ordered, supported upon approved timber foundations as directed.

Drops or bends in vertical or inclined drains shall have a concrete support placed under and around as directed.

Portland cement concrete brought to a smooth surface must be used in each of the following cases:—

- (i) Around and under gully basins, the exposed surfaces to be rendered in cement mortar, two parts sand, one cement.
- (ii) Around the top and for 6 inches below the surface of the ground of vent pipe sockets where exposed.
- (iii) Around the top and for 6 inches below the surface of the ground of disconnexion traps when the surface is exposed.

- (iv) Under and around bends rising vertically off oblique branches, and under all drainage traps.

*Division 18.—Drains Under Buildings.*

Section 62. Every drain shall, as far as practicable, be so constructed as not to pass under any building. Where a drain does pass under a building it shall, if practicable, be laid in a direct line for the whole distance beneath such building, and shall have approved means of access for rodding outside the walls of the building, and also, if directed, beneath the building. The pipes used shall be of stoneware or concrete, surrounded by not less than 6 inches of concrete or of cast-iron.

In any case in which pipes pass through or under walls, approved provision shall be made to prevent injury to the pipes by settlement, and, in outer walls, to prevent the ingress of vermin.

*Division 19.—Joints, Drainage.*

Section 63. *Stoneware and Cement Pipes.*—Joints of stoneware and cement pipes shall be filled in solidly with cement mortar neatly splayed off, or with other approved material. After each joint is made the interior of the joint shall be wiped clear of surplus mortar before the next pipe is laid.

Section 64. *Cast-iron Pipes.*—All joints in cast-iron pipes must be stemmed with approved gaskets and so filled and caulked with lead or other approved material as to make them gas and water tight.

All connexions between stoneware or concrete pipes and cast-iron pipes shall be made as for joints in stoneware or concrete pipes.

*Division 20.—Drainage Ventilation.*

Section 65. *Vents on Main House Drain.*—The main drain shall be ventilated at its upper end by a pipe ventilator erected vertically, and such ventilator may be a soil pipe.

If the drain is provided with an interceptor trap there shall be in addition a ventilator connected to the interceptor trap shaft.

In such cases there shall, wherever practicable, be a difference in height of not less than 6 feet between the tops of the vents at the upper and lower ends of the drains respectively.

Section 66. *Vents on Branch Drains.*—Branch drains need not be vented if the drainage traps are within 15 feet from the main house drain, measured along the line of pipes, including the drop, if any, from the centre line of the main drain to the centre of the outlet side of the water seal of the drainage trap, unless otherwise ordered by the Authority, in which case they must be vented as directed.

Section 67. *Height of Vents.*—Every vent pipe extending upwards from a soil or drain pipe shall be carried not less than 6 feet higher than any window or door within a distance of 30 feet thereof, and in any case at least 21 feet above ground level and 6 feet above the level of the eaves or coping, or to such additional height as may be necessary to prevent effectually the escape of foul air into any building within the vicinity.

Where the vent pipe extends into a gable of the building it shall further be carried at least 2 feet above the point of intersection with the roof.

Such pipes shall, where necessary, be provided with sufficient clips or stays to support them effectively.

Section 68. *Chimneys.*—No chimney shall be used as a ventilator to any drain, soil, or waste pipe.

Section 69. *Vents Near Chimneys.*—Vents must, as far as possible, be kept away from chimneys and ventilating air shafts. Where a ventilator pipe terminates 6 feet or more from a chimney opening or ventilating air shaft, the requirements of section 67 shall apply, but where the distance is less than 6 feet the vent pipe shall, unless otherwise ordered, terminate not less than 2 feet below the top of such chimney or air shaft.

Section 70. *Vents Adjoining High Buildings.*—In any case in which a building is erected next to a previously existing building of less elevation, and any windows of the new building are located within 30 feet of any existing vent stack on the lower building, the owner of such new building shall defray the cost of or shall himself make such alterations to the vents of the previously existing building as necessary to conform with section 67.

The owner of the lower or existing building shall make such alterations upon the receipt of money, or security therefor sufficient for the purpose, from the owner of the new or higher building, or shall permit at the election of the owner of the new or higher building, the making of such alteration by the owner of such new or higher building.

Section 71. *Size of Drainage Vents.*—Drainage vent pipes shall, unless otherwise ordered, be of not less than 4 inches diameter in the case of educt vents and not less than 3 inches diameter in the case of induct vents, with the provision that where more than one educt vent is provided the vent on the longest line of drain shall be of not less than 4 inches diameter and all others of not less than 3 inches diameter; but in no case shall a drainage vent be of smaller diameter than necessary to comply with the requirements of section 86.

Unless otherwise ordered or approved every such vent pipe shall be without return bend and provided with basket end or educt or induct cowls as directed.

Section 72. *Materials, &c.*—Drainage vent pipes situated wholly outside of buildings shall be of cast-iron, galvanized wrought iron, double galvanized sheet iron, or other approved material above ground, and of stoneware or concrete beneath the surface of the ground. Galvanized sheet-iron vent pipes shall not be less gauge than 20 for 3-in. and 4-in. diameter pipes and 18 for 6-in. pipes, and where ordered the first 6 feet above ground shall be of cast-iron or other approved material. Drainage vent pipes inside a building shall, unless otherwise approved, be of cast-iron or of galvanized wrought iron. The circumferential joints of galvanized sheet-iron vent pipes shall be riveted and soldered. All galvanized sheet-iron vent pipes used to ventilate the drainage system, or used as anti-siphonage pipes to soil or waste pipes from closets, slop sinks, or urinals, must be coated with hot tar or asphaltum inside before erection.

Section 73. *Gratings.*—Openings for ventilation shall be effectively protected by approved gratings of ample area. The aggregate area of apertures in any such grating shall not be less than the sectional area of the pipe or drain to which such grating is fixed. Every opening for ventilation shall at all times be kept perfectly free from obstruction.

Section 74. *Pipe Clips, &c.*—There shall be at least one pipe clip to each 6-ft. length of vent pipe.

For cast-iron or wrought-iron pipe approved coated wrought-iron clips and for galvanized sheet-iron pipe 1½-in. x 14-gauge galvanized band iron clips shall be provided. Wherever it is necessary to fix pipes clear of the wall approved extension clips shall be used.

Clips in the case of cast-iron pipes must be placed tight up against the head or under side of collar.

Section 75. *Attachment to Walls.*—Where a galvanized sheet-iron pipe, with or without offset, is carried up above the brick wall of a building a galvanized wrought-iron clip must be used, leaded into the wall near the top wherever possible and bolted against the vent pipe.

All band iron clips of vent pipes to brick walls shall be fastened with nuts and bolts, leaded in, or by means of T-headed bolts passed through the brick joints and turned at right angles to the joints.

Section 76. *Supporting Vents.*—Wherever a vent pipe with offset is not more than 9 feet long above such offset it need not be stayed; if longer, it shall be stayed as directed with ½-in. galvanized wrought-iron piping.

An unsupported length of 15 feet above highest clip of straight vent pipe without offset will be permitted.

Section 77. *Induct Vents.*—Every induct vent shall be securely supported in an approved manner.

*Division 21.—Drainage Traps.*

Section 78. *Trapping of Inlets.*—Every inlet to any drain other than inlets provided for ventilation in accordance with the By-law shall be provided with an approved trap. No inlets to any drain connecting directly with a sewer shall be constructed within a building other than such inlets necessary for the apparatus of any water-closet, urinal, or housemaid's slop sink.

Section 79. *Classes of Traps.*—Four classes of traps shall be used—

- "Traps" for intercepting gases only, to be of round section and self-cleansing form, but not such as to empty by momentum or suction.
- "Silt traps" for intercepting both gases and solids, to have slightly tapered sides, flat bottom, and rounded angles, and provided with approved means for catching and removing solids.
- "Grease traps" for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, to be of such form as approved.
- "Oil traps" for collecting all kinds of oil and to be of such form as approved.

The term "yard gully" is applied to traps (a) in cases where they are used externally and fitted with dished tops and gratings. The tops of inlets of all disconnector traps must be at least 6 inches above the surface of the surrounding ground.

Section 80. *Water Seal.*—All traps must have a water seal of at least half the diameter of the outlet pipe, but in no case of less than 2 inches.

Section 81. *Provision of Yard Gullies.*—A yard gully must, wherever practicable, be provided in the yard of every property, as near as practicable to the kitchen or back door, with a tap placed over it at a height of not less than 2 feet. No yard gully shall be situated within a building. Where it is not practicable to provide a yard gully, a slop sink must be provided within the building.

Section 82. *Details of Yard Gullies.*—Yard gullies shall be fitted with dished tops and gratings, the dished top being in one piece with the trap or jointed thereto by spigot and faucet, or as otherwise approved.

The depth of the dished top to the grating must be not less than 6 inches. Grating to gully traps must not be less than 6 1/4 inches over all, and the gratings to all disconnector traps to be convex in section, with openings of suitable outlet capacity. All gratings must be fixed down in an approved manner with bitumen or wedges of lead.

Section 83. *Kerbing, &c. to Yard Gullies.*—Yard gully basins and the dished tops of silt traps must be so surrounded with an approved impervious kerbing as to prevent the access of surface water to the drains, and, if directed, the wall at the rear of the gully or silt trap, if of brick or stone, must be cement rendered to the height of the tap over same, and if of wood the wall must be provided with an approved galvanized sheet iron apron. The internal diameter of kerbing around gully traps measured from face of cement rendering must not be less than 15 inches, and must be neatly rounded to meet the gully top.

PART 4.

PIPE CAPACITIES.

Division 22.—Capacities of Soil, Waste, Drain, and Vent Pipes.

Section 8. *Fixture Units.*—For the purpose of determining the size of any drain, waste, soil, or vent pipe, the following equivalent fixture units shall be adopted, unless otherwise directed, and the nominal outlet diameter shown hereunder shall be the minimum allowed for each of the respective fittings.

Fixture.	Nominal Outlet Diameter.	Fixture Units.
One lavatory basin .. .. .	1 1/4 inch ..	1
One lavatory basin .. .. .	1 1/2 inch ..	1 1/2
One kitchen sink (up to 6-in. depth to overflow) .. .. .	2 inches ..	3 1/2
One bath .. .. .	2 inches ..	5 1/2
One wash trough set with common trap .. .. .	1 1/2 inch ..	3 1/2
One wash trough set with common trap .. .. .	2 inches ..	5 1/2
One urinal .. .. .	2 inches ..	4
One slop sink .. .. .	2 1/2 inches ..	3
One slop sink .. .. .	3 inches ..	4 1/2
One shower bath .. .. .	2 inches ..	3
One water closet .. .. .	4 inches ..	6
One bathroom group, consisting of one lavatory basin, one bath, and one shower .. .. .	—	7

The equivalent fixture units to be adopted for fixtures other than those shown shall be determined by the Authority. One fixture unit denotes a rate of discharge equal to 1 cubic foot per minute.

Section 85. *Sizes of Soil, Waste, and Drain Pipes.*—Except by special permission the required sizes of soil, waste, and drain pipes shall be determined on the basis of the total number of fixture units drained, or likely to be drained, in accordance with the following table:—

Diameter of Pipe (Inches).	Minimum Permissible Grade.	Permissible Maximum Number of Fixture Units.										Vertical	Maximum Number of Fixture Units permitted to be connected in any vertical stack.
		Grade not less than—											
		1 in	1 in	1 in	1 in	1 in	1 in	1 in	1 in	1 in	1 in		
1 1/4	1 in 12 1/2	..	..	..	..	..	..	..	..	..	..	1 1/2	1 1/2
1 1/2	1 in 15	..	..	..	..	..	..	..	..	..	..	2 1/2	2 1/2
2	1 in 20	..	..	..	..	..	..	..	..	..	..	4	4
2 1/2	1 in 25	..	..	..	..	..	..	..	..	..	..	6	6

		350	..	370	..	430	..	520	..	590	730	1,100	590

Provided that—

- (a) Waste and soil pipes shall not be diminished in diameter in the direction of flow.
- (b) The diameter of trap, waste, or soil pipe receiving the discharge from any fixture shall in no case be less than the nominal outlet diameter of such fixture.
- (c) No water-closet shall discharge into a drain or soil pipe of less than 4 inches in diameter.
- (d) All connexions between inclined pipes and vertical stacks shall be through 45 degrees junctions.
- (e) Soil and waste stacks shall be as direct as possible and free from sharp bends. Where such are unavoidable approved provision shall, if necessary, be made to safeguard fixtures immediately above and below the bend.

Section 86. *Sizes of Vents.*—(1) Main Vents.—Except by special permission, the required sizes of main vents shall be determined from the size of the soil, or waste pipe, or stack to be vented, the total number of fixture units drained into it,

and the developed length of the vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table.

MAXIMUM PERMISSIBLE LENGTH OF MAIN VENTS (IN FEET) FOR SOIL AND WASTE PIPES.

Provided that—

- (a) No vent shall be less than 1 1/4 inch in diameter, and in no case shall a vent have a diameter less than one half that of the soil or waste pipe which it serves.
- (b) For 2-in. and 2 1/2-in. waste pipes the vent shall have a diameter of not less than 1 1/2 inch.

(2) *Sizes of Branch Vents.*—The required sizes of branch vents shall be determined from the number of fixture units served by the branch vent and the developed length of the vent from the point of connexion of the anti-siphonage vent from the last fixture served by the branch vent to the outlet to the open air at the upper end of the main vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table:—

Provided that—

- (a) Branch vents shall conform to provisions (a), (b) for main vents.
- (b) No branch vent need be larger in diameter than the soil or waste pipe which it serves.

(3) *Individual Anti-siphonage Vents.*—The required sizes of individual anti-siphonage vents shall be determined from the diameter of the fixture trap served in accordance with the following table:—

Diameter of Fixture Trap.	Minimum Permissible Size of Anti-Siphonage Vent.	Diameter of Fixture Trap.	Minimum Permissible Size of Anti-Siphonage Vent.

PART 5.  
PLUMBING.

Division 23.—General.

Section 87. *Waste Pipes.*—Except by permission of the Engineer, separate waste pipes shall be provided for each of the following classes of polluted water, viz.:—

- (a) Dirty water from baths, sinks, lavatory basins, and wash troughs, and other waters containing a small proportion of soap and/or dirt.  
(b) Greasy water from kitchen and scullery sinks or other fixtures, in such cases where grease traps are ordered or required.

Section 88. *Soil Pipes.*—Soil pipes shall be provided for soil water from closets and other waters containing faecal matter, and for urinal waters from slop sinks and urinals, and, where directed, for discharges from operating theatres and morgues, and in no case shall such waters be discharged into any waste pipe as defined by this By-law, except by permission of the Engineer.

Section 89. *Connections to Drain.*—All waste pipes shall discharge under the grating of a yard gully or into a disconnector trap. All soil pipes, including those for urinals and housemaids' slop sinks, must be connected direct to the drain. No waste pipe shall be laid in the ground outside any building unless by special permission.

Section 90. *Flashing, &c.*—All troughs, sinks, and other fixtures which are placed less than 3 inches, and all baths fixed less than 6 inches clear from any wall shall be flashed with 5-lb. lead, 24-gauge copper, bronze, brass, nickel, silver, or monel metal, or other approved material. Galvanized sheet iron may be used for fixtures other than sinks.

All such flashings shall be turned up the walls at least 4 inches, except where the walls are tiled, when the flashings shall be carried up at least 1 inch behind the tiles. Baths and other fixtures having turned-up flanges for use against tiled walls or walls lined with other approved material in lieu of sheet metal flashing shall be properly supported to prevent settlement, and the flange shall lap at least 1 inch behind the tiles or lining, which shall be brought hard down on to the surface of the fixture. All flashing shall be properly secured and made watertight, and shall be bedded for a width of not less than 1 inch along the edge nearer the fixture in red or white lead.

Section 91. *Bib-cocks.*—Internal bib-cocks shall not be permitted unless a sink, lavatory basin, or other approved fixture, or a properly drained impervious floor, is provided underneath.

Division 24.—Soil, Waste, and Vent Pipes.

Section 92. *Materials.*—No material shall be used for soil pipes other than cast-iron, lead or brass, and for waste pipes other than wrought-iron, cast-iron, lead, brass, or copper.

Section 93. *Lead Pipes.*—The minimum permissible weight of lead for soil, waste, or vent pipes for water closets, urinals, and slop sinks shall be 7 lb. per square foot, and for all other fixtures 6 lb. per square foot.

Section 94. *Wrought-iron Pipes.*—All wrought-iron pipes and their fittings shall be approved standard weight and quality and galvanized or lined to the approval of the Authority.

Section 95. *Cast-iron Pipes.*—All cast-iron pipes shall be sound, free from holes and cracks, and coated with approved bituminous composition, or lined with glass enamel to the approval of the Authority.

Cast-iron pipes and their fittings, where laid in the ground, shall comply with the Australian standard specifications, or in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameter. Cast-iron pipes for use in other situations shall have a minimum thickness of 3/16 inch measured in the case of glass-enamelled pipes without the enamel, and their fittings shall correspond with them in weight and quality. All junctions shall be curved, right-angled junctions shall not be made.

Section 96. *Galvanized Sheet Iron Pipes.*—External vent pipes of galvanized sheet iron shall be of a gauge not less than the following:—

- 1½ inch, 2 inch, 2½ inch diameter—22-gauge.  
3 inch and 4 inch diameter—20-gauge.  
6 inch diameter—18-gauge.

Section 97. Where lead, copper, brass, or cast-iron soil or waste pipes are fixed outside a wall for upstairs fixtures, the lead, copper, brass, or cast-iron pipes shall be carried at least 2 feet above the level of the highest fixture attached to the pipe.

Section 98. *Vent Pipes.*—Vent pipes, if inside a building, shall in all cases be of cast-iron, wrought-iron, lead, copper, or brass. Grooved, welded, or riveted double galvanized sheet iron vent pipes may be used where they are entirely outside a building, and shall be connected with the traps or waste or soil pipes, with brass ferrules or other joints approved by the responsible officer of the Authority.

Section 99. *Vents in Shed, &c.*—Galvanized sheet iron vent pipes may be used inside stables or open sheds, except where liable to damage.

Section 100. *Use of Lead Pipes.*—Lead pipes shall not be used, except where exposed to view and/or not liable to damage.

Section 101. *Supporting Lead Pipes.*—Lead pipes shall be supported by cast lead tacks of approved dimensions, wiped on to the pipe or by other approved fastenings, and such fastenings shall be arranged as nearly as possible thus—

- 4-in. vertical lead pipes—2 ft. 6 in. centres.  
4-in. horizontal lead pipes—2 feet centres.  
Less than 4-in. vertical pipe—3 feet centres.  
Less than 4-in. horizontal pipe—2 ft. 3 in. centres.

Two pairs of tacks, fixed opposite, is sufficient for fixing lead flush pipes from cisterns.

Section 102. *Minimum Permissible Gradients.*—The following are the minimum gradients to be adopted for soil and waste pipes:—

Diameter of Pipe.	Minimum Gradient.
1½ inch .. .. .	1 in 12½
1½ inch .. .. .	1 in 15
1½ inch .. .. .	1 in 17½
2 inches .. .. .	1 in 20
2½ inches .. .. .	1 in 25
3 inches .. .. .	1 in 30
4 inches .. .. .	1 in 40
5 inches .. .. .	1 in 50
6 inches .. .. .	1 in 60

Section 103. *Length of Unvented Waste Pipes.*—Waste pipes need not be ventilated unless they exceed 10 feet in inclined length or 12 feet in vertical length, provided that there is only one fixture attached to the waste pipe, and provided that the water seal of the trap is not reduced by syphonage or other cause. Where there is more than one fixture, or the water seal is reduced, a vent pipe shall be supplied to the fixture trap or traps.

Section 104. *Junctions.*—Where a waste or soil stack is branched into a graded waste, soil, or drain pipe, the branch fitting shall have an angle of not less than 45 degrees to the horizontal, and the length of the branch of the fitting shall be such that the vertical projection of the attached stack will be wholly outside of the area of the junction with the graded pipe.

Section 105. *Sealing of Pipes.*—Wherever a fixture is abolished, the soil, waste, vent, and water supply pipes to such fixture shall be removed, or, if allowed by the Authority to remain, the ends of the pipes shall be sealed with watertight imperishable materials.

Section 106. *Soil Vent Pipes.*—In all cases the upward extension from the soil pipe for ventilation shall pass in as direct a manner as possible above, and, if necessary, through the roof.

Section 107. *Vent Pipe Grades.*—All vertical lines of vent pipe shall connect, full size, at their bases with a soil, waste, or drain pipe at an angle of not less than 45 degrees to the horizontal, and shall extend in undiminished size above the roof or be connected to the soil, waste, or vent stack, in compliance with the requirements of section 109, on a grade sufficient to avoid the collection of water.

All intermediate bends or offsets shall be at a grade of not less than 45 degrees to the horizontal.

Vent pipes shall not be used as waste or soil pipes.

Section 108. *Anti-syphonage Vents.*—Traps must be prevented from syphoning by proper ventilation, in accordance with the requirements of section 86. Such anti-syphonage vents from fixtures shall be carried above the eaves of the building or joined to the branch or main vent above the level of the fixture, unless special permission to the contrary is granted.

Every vent pipe extending upwards from a waste pipe shall be carried 4 feet above any door or window or other opening into a building within 15 feet thereof and carried at least 1 foot above the eaves or coping or intersection with the roof.

These vent pipes shall be connected to the waste or soil pipe at a point not less than 3 inches nor more than 12 inches from the crown of the trap and on the opposite side of the water seal to the fixture.

Section 109. *Combining of Vents.*—The various vents may be combined by branching together those which serve traps of the same class. The vent pipes may be branched into a soil or waste pipe of the same class above the level of the highest fixture.

Section 110. Where a branch is required to a galvanized sheet iron vent pipe, a brass saddle piece bolted and soldered to the vent must be used.

Section 111. *Sheet Metal Bends and Offsets.*—All sheet metal bends and offsets for flush and vent pipes shall be bent or pressed. Mitred elbows will not be permitted.

Section 112. *Pipes to be Accessible.*—All soil, waste, and vent pipes and traps shall, where practicable, be accessible at all times for ready inspection and convenience of repairing. When placed within partitions or recesses of walls they shall be covered with woodwork or other approved material, so fastened as to be readily removable. No junctions shall be built in except with special permission from the Authority in writing.

Section 113. *Concealed standing wastes* will not be permitted.

Section 114. *Painting.*—All external plumbers' work and all cast-iron cisterns and brackets, woodwork in connexion with plumbing installations, sheet iron flush pipes, and sheet iron storage tanks and trays, shall be painted, after inspection, to the approval of the Authority.

#### Division 25.—Joints.

Section 115. *Stoneware, Cement, or Cast-iron Pipes.*—Joints of stoneware, cement, or cast-iron pipes shall conform with the requirements of section 63 or 64.

Section 116. *Lead Pipe.*—All joints in lead pipe shall be plumber's wiped joints.

Section 117. *Wrought-iron Pipe.*—The screwed ends and sockets of each particular size of wrought-iron or wrought steel pipe shall be so formed and the threads so cut that the ends of the pipe will butt against each other when screwed home in the sockets; bends, junctions, and similar fittings shall be similarly formed and screwed so that when the pipe ends are screwed home the bore will be continuously uniform and without breaks or pockets. The burr shall be neatly filed off on the inner edge of all pipe ends. All screwed joints shall be made with approved jointing material.

Section 118. *Wrought-iron Pipe to Lead Pipe.*—All joints between wrought-iron and lead pipes shall be made by means of brass unions screwed to iron and wiped to lead.

Section 119. *Brass or Copper Pipes.*—Joints of brass or copper pipes shall be made in accordance with the Australian standard Specification B36—"Compression joints and copper alloy screwed fittings for standard copper tubes."

Section 120. *Lead Pipe to Cast-iron Pipe.*—The connexion of lead pipes or traps to cast-iron pipes shall be made by means of brass ferrules. The brass ferrules shall be lined with and connected to the lead pipe or trap by means of a wiped joint and connected to the cast-iron by inserting ferrule in socket thereof and making the joint in the same way as in cast-iron pipe.

Section 121. *Sheet-iron Pipe to Cast-iron Pipe.*—All connexions of galvanized sheet iron to cast-iron pipes shall be made with molten lead, lightly but tightly caulked in to cast-iron sockets.

Section 122. *Sheet-iron Pipe to Wrought-iron Pipe.*—Galvanized sheet iron pipes shall be connected to wrought-iron pipes by means of brass unions or sleeves soldered to the sheet iron and screwed to the wrought-iron, or by means of a wrought-iron socket screwed to the wrought-iron pipe, into which the sheet-iron pipe shall be lightly but tightly caulked with molten lead.

Section 123. *Sheet-iron Pipe to Lead Pipe.*—Connexions of sheet-iron pipes to lead pipes shall be made by means of brass sleeves wiped to the lead pipe and soldered to the sheet-iron pipe, or by means of a cast lead collar wiped to the lead pipe, into which the galvanized sheet-iron pipes shall be caulked to approval.

Section 124. *Concrete or Stoneware Pipe and Traps to Lead Pipe.*—Connexions of lead pipe to stoneware or concrete pipe shall be made by means of a brass ferrule connected to the lead pipe by means of a wiped joint and connected to the stoneware or concrete pipe by inserting it in the socket thereof and making a cement mortar joint.

The connexion of a stoneware or concrete trap to a lead pipe shall be by means of a cast lead or brass socket, and the joint made with bitumen or other approved material. The lead pipe shall be connected to the tail end of the brass or lead socket by means of a plumber's wiped joint.

Section 125. *Connexion of Closet Pan Traps to Soil Pipe or Drain.*—Connexion of a closet pan to a soil or drain pipe shall be made by means of a bituminous jointing material, consisting of a mixture of approved bitumen and finely graded inert mineral filler in equal proportions, filled in solidly into faucet of soil or drain pipe and neatly splayed off, or by other approved method. In the case of lead soil pipes, a cast lead or brass faucet shall be used and connected to the lead pipe by means of a wiped joint.

Section 126. *Cistern Flush Pipe to Closet Pan.*—The flushing pipe from cistern shall be connected to the water-closet pan by a lead cap piece of not less than 4-lb. lead, packed with red lead or other approved material. The cap piece shall be jointed to galvanized sheet iron, copper, brass, or drawn steel pipe by means of a soldered joint and to lead flush pipe by wiped or soldered joint. The connexion of the flushing pipe to cistern shall be by means of a brass union, wiped to lead pipe or soldered to sheet-iron pipe. Copper or brass pipe shall be connected to cistern by means of a brass ring, with nut brazed to pipe, or by other approved means.

Section 127. *Vent Pipe to Closet Pan.*—Vent pipe shall be connected to the vent horn of water-closet trap by a lead cap piece with red lead packing or by other approved methods. The cap piece shall be jointed to copper or brass pipe by means of a soldered joint and to lead flush pipe by a soldered or wiped joint.

Section 128. *Outlet Fittings to Fixtures.*—Connexions between outlet fittings and such fixtures as baths, sinks, basins, &c., when the latter are constructed of cast-iron, plate-iron, ceramicware, or concrete, shall be made with lock nuts. The outlet fitting shall in all cases be connected to the waste pipe by means of a union.

When these fixtures are made of sheet metal lighter than 20-gauge soldered connexions may be used in lieu of lock nuts.

Section 129. *Waste Pipes to Troughs.*—Connexions of waste pipes to wash troughs shall be made as under:—

- Cement troughs, unless otherwise approved, shall have cast-in outlets.
- Sheet-metal troughs shall be connected to the waste pipes in compliance with section 128.
- For wooden troughs, lead, copper, or brass, waste pipes shall have flanges connected to the waste in accordance with the provisions of this By-law, and fastened to the underside of the trough with round-head brass screws. The waste pipe shall then be turned over inside the trough and the plug casting bedded over it with red lead putty and screwed to trough with brass wood screws.

Where wrought-iron or other screwed pipes are used the plug must be connected to the trough by means of a lock nut in lieu of flange.

#### Division 26.—Fixture Traps.

Section 130. *Fixtures to be Trapped.*—Every water-closet, urinal, slop or other sink, lavatory or wash basin, bath, wash trough or set of wash troughs, and any other fixture, shall be separately and effectively trapped, unless otherwise specially permitted by the Authority.

Section 131. *Omission of Traps.*—Baths, lavatory basins, wash troughs, and sinks may remain untrapped where fixed in the open air or detached outbuildings not used as a living room, workroom, or room for the preparation, cooking, or storage of food, and not connected directly by openings with the main building or residence. Provided that the length of the waste pipe, measured in the case of wash troughs from the centre of furthest inlet to end of waste pipe outlet, does not exceed 6 feet.

Section 132. *Position of Traps.*—Traps shall be placed as near the fixtures as possible, and in no case shall a trap be more than 2 feet from its fixture, except as provided in section 179, unless otherwise specially permitted by the Authority.

Section 133. *Depth of Water Seal.*—Every trap shall have a water seal of not less than 2 inches.

Section 134. *Closet Pan Traps.*—Outlets from closet-pan traps shall be of not less than 3½ inches nor more than 4 inches diameter, except in the case of syphonic pans.

Section 135. *Sealed Disconnector Traps.*—Where approved by the Authority, sealed disconnector traps may be fixed outside or inside the building, but in such cases breather pipes or fresh air inlets of the same diameter as disconnector traps shall be taken above the level of the lowest fixture, or to such other height as directed, and when trap is inside shall be led to the outside of the building. The material for such breather pipes shall be the same as for waste pipes; sheet-iron will not be allowed. Inspection openings to such traps shall be sealed with screwed plugs, or as otherwise approved by the Authority.

Section 136. *Form of Trap.*—The "P" form of trap, with joints visible and accessible all round, must, unless otherwise permitted, be used in preference to the "S" form of trap for all internal fixtures wherever practicable. Where the "S" form of trap is used facilities for periodical inspection must be provided.

Section 137. *Materials.*—Traps for fixtures other than closet pans or slop sinks shall be of copper, brass, or lead. All lead traps must be of the weights specified in section 93 for lead pipes of the same diameter.

#### Division 27.—Gratings.

Section 138. —Fixtures discharging into waste pipes and all urinals shall have non-corrodible outlet gratings of approved design and material, in accordance with the Australian standard Specification B.38, "Metal alloy sanitary fittings."

#### Division 28.—Cleaning Eyes and Inspection Openings.

Section 139. *Provisions for Inspection and Cleaning.*—Sufficient inspection and cleaning eyes shall be provided in such positions on all soil and waste pipes as to be easy of access for proper inspection and cleansing.

Traps for fixtures, other than water closets, urinals, and housemaids' slop sinks, shall be provided with approved screwed brass plugs for cleaning purposes fixed under the water line of the trap, unless by permission of the Engineer.

Section 140. *Inspection Openings on Soil Pipes.*—In all cases where the vertical stack of soil pipe provides for closets 4 feet or more above the ground level, measured from floor level of water-closet to ground level at foot of stack, an inspection opening having a cover fixed to a flange with bolts or studs shall be provided in such a position as directed by the responsible officer of the Authority.

*Division 29.—Grease Traps.*

Section 141. *Provision of Grease Traps.*—Every fixture or area from which grease or any other objectionable matter is likely to be discharged or conveyed into waste or soil pipes or house drains and every sink in all such places as food-packing houses, butchers' shops, lard rendering establishments, hotels, restaurants and boarding-houses, and such fixtures, areas, apparatus, or appliances as the Authority may direct, shall first discharge into an approved apparatus for preventing the objectionable matter from reaching the soil pipe or drain. Such apparatus shall be of such dimensions, design, and construction and in such position as the Authority, or its responsible officer, may in each case approve.

Section 142. *External Grease Traps.*—Every grease trap shall be fixed outside the premises whenever practicable, and (if not portable) shall be of glazed stoneware, concrete, slate, or brick in cement, and the outlet shall be connected to the drain through a disconnecter trap.

Section 143. *Internal Grease Traps.*—Wherever a grease trap is used inside a building it shall be so fitted as to be easily removable, and, if directed, fixed upon a tray. All internal grease traps shall be of copper or other approved material, provided with a close fitting cover, and shall be independently ventilated as required by the Authority, or its responsible officer.

Section 144. *Grease Trap Ventilation.*—Every grease trap shall have provision made for inlet and outlet ventilation if and as directed by the Authority or its responsible officers.

Section 145. *Size of Grease Trap.*—The dimensions of grease trap to be provided shall be such as to ensure the coagulating and retention of all grease entering such trap.

The minimum size for grease traps serving kitchen sinks and/or mechanical dishwashers shall be as follows:—

- (a) The capacity of the grease trap below the level of the invert of the outlet shall be not less than the total capacity of the sinks and/or dishwashers served.
- (b) The depth from top of grease trap to invert level of outlet shall be not less than half the depth of the trap below the invert of the outlet.
- (c) The difference in level between invert of inlet and invert of outlet shall not be less than one-eighth of the depth of the trap below the invert of the outlet.

The capacity of a sink shall be measured to the overflow level or, in the event of there being no overflow, to the top of the sink.

The capacity of the dishwasher shall be taken as the capacity of the sump or water container.

The size of grease traps in ordinary cases must be as nearly as possible the following, viz.:—Portable copper, 21 inches in length; stoneware or cement concrete, 27 inches in length; or otherwise as ordered by the Engineer.

Section 146. *Outlet Pipes.*—The outlet pipe from any grease trap must be at least one size larger than that size of pipe which has a cross sectional area equivalent to the total area of incoming waste pipes. In no case, except by special permission, shall the outlet pipe be less than 3 inches diameter for grease traps of copper or other approved metal and 4 inches for stoneware.

Section 147. *Maintenance.*—Every grease trap shall be maintained by the occupier at his own expense, and shall be cleaned at such intervals as may be necessary to ensure that such trap operates in an efficient and hygienic manner.

*Division 30.—Water Closets and Flushing Apparatus.*

Section 148. *Water-closets, General.*—At least one water-closet shall be provided for each house or building within a sewerage area, and also in such other cases as may be directed by the Authority.

In every shop, factory, office, flat, or building containing more than one tenement, at least one water-closet shall be provided for the use of the occupier of each tenement, or as otherwise directed by the Authority, and shall be so placed, either within or without such building, as to ensure the due observance of decency and to be easily accessible to the occupiers.

Section 149. *Water-closets at Hotels, Shops, &c.*—In hotels, offices, lodging-houses, shops, and, if so directed, in any other premises, closets for different sexes shall not adjoin each other unless separated by a soundproof wall of such material and of such thickness as shall be approved by the Authority.

Section 150. *Water-closets for Factories.*—The owner of any building which is used for the purpose of a factory shall provide water closets for the use of employees at such building in accordance with the Factories Act.

Section 151. *Light, Ventilation, &c., for Water-closets.*—Except as herein provided in section 152, every water-closet in a building shall comply with the following conditions:—

- (a) One of its sides at least shall be an external wall of such building, abutting on to a street or lane or an open space of not less than 100 square feet in area, such space being portion of the premises.
- (b) It shall not be entered directly from any room used for human habitation or for the manufacture, preparation, or storage of food for human consumption, or used as a factory, workshop, or work place. In cases where otherwise such closet would be directly entered from any such room, an ante-chamber, or airlock having a floor area of not less than 20 square feet shall be provided and effectively lighted, and shall be ventilated by an air shaft or some approved method to the open air. The doors of such closet and ante-chamber or airlock shall be close fitting and self closing, and all internal walls constructed of brick or other approved airtight material, extending the entire height from floor to ceiling. For closets in private residences opening on to a well-lit and well-ventilated hall, passage, lobby, or stair-case, no airlock is required, but where these conditions do not exist the airlock as above shall be provided.
- (c) Each water-closet apartment, ante-chamber, or airlock shall be provided with adequate means of constant fresh air ventilation, and shall be lighted by a window or glazed louvres or not less than 2 square feet of clear light area per water-closet, opening directly into external air. The effective area provided for outlet ventilation of each water-closet apartment, ante-chamber, or airlock shall be not less than 27 square inches, and where the level of the floor of the water-closet apartment is lower than the outside surface of the ground exhaust ventilation shall be provided by means of a tube of at least 6 inches diameter, carried up through the roof and furnished with a cowl. Approved provision for inlet ventilation shall be made as near the floor level as possible.
- (d) The floors of all water-closet apartments shall be constructed of concrete of not less than 4 inches thickness, or of other approved impervious material, and graded as directed, or they shall be provided with lead safes in accordance with the requirements of sections 184, 185, and 187. The frame of every wooden closet shall be securely fastened to the floor and made rigid, without attachment to fences.
- (e) Each closet apartment shall be not less than 3 feet wide and 5 feet long, inside measurements, and the walls shall be at least 7 feet high at the lowest part.

Section 152. *Mechanical Ventilation and Artificial Light.*—Subject to the approval of the Authority in writing the requirements of section 151 may be waived, provided that the following conditions be complied with, viz.:—

- (a) In every such case a mechanical system of exhaust ventilation in duplicate, approved by the Authority, and capable of changing the air contents of such water-closet eight times per hour shall be installed in connexion therewith.
- (b) Upon completion the owner or his representative shall carry out such tests of the mechanical system referred to as the Authority may deem necessary.
- (c) Such mechanical system shall at all times be under the continuous supervision of one or more properly qualified persons, and shall be continuous in operation.
- (d) Any such mechanical system shall be open to inspection by the Authority at all reasonable times, and shall be subject to such tests as the Authority shall from time to time direct. The air and pipe shafts shall be readily accessible, and shall have a minimum width of 2 ft. 6 in. and a minimum area of 12 square feet.
- (e) The failure of any such mechanical system at any time to pass such tests shall be an offence by the owner of such a building against this By-law, and the owner thereof shall also, in respect of such failure, be guilty of an offence against this By-law.
- (f) Every such water-closet shall be provided with an efficient system of electric lighting to the approval of the Authority, and same shall be maintained at all times in good working order.

Section 153. *External Water-closets.*—The area of any external water-closet must not be less than 13½ square feet, with a minimum internal dimension of 3 feet inside measurements. The minimum heights to be not less than 8 feet at back and 7 feet at front, measured from the floor to the top of wall plate. The floors of all water-closets must be constructed of concrete, tiles, or other approved impervious and non-absorbent material. Seats must be either flap or hinged tip-up.

External closet doors to be saw-toothed on top and a space of 3 inches left between bottom of door and floor, or other approved means of ventilation provided.

In wooden water-closet buildings the bottom plates and plinths must be of approved timber. In repairs to studs they shall be cut to sound timber with a new plate, supported on a concrete dwarf wall extended up from the floor level.

Section 154. *Fixing Closet Pan*.—On concrete floors, or floors of tiles set in concrete, the closet pan shall be securely bedded upon concrete or cement mortar and fixed with brass screws to approved lead dowels set in the floor. Where the floor is of timber covered with an approved impervious material the closet pan shall be secured to the timber by means of brass screws as directed or by other approved means.

Section 155. *Closet Pans*.—Every water-closet shall be furnished with a pan of non-absorbent material of such shape, capacity, and construction as approved by the Authority. Water-closet pans and fittings thereto shall be entirely open to inspection and without any enclosure. Vent horns shall be provided on all pans, even if no anti-syphonage vent is required. If not used for a vent such vent horn shall be sealed with a lead disk, bituminous filler, and a lead cap piece, or by other approved method.

Section 156. *Closet Pan Seats*.—Except as approved by the Authority, all hinged closet pan seats shall be not less than 1 inch in thickness and constructed of approved material. When constructed of wood, four-piece seats shall be glued and either doweled or bolted, and one-piece seats shall be reinforced with two wood or brass slips let in flush on the underside. To prevent fouling of pan, the closet seat openings must not be larger than 10½ inches x 9 inches, and seats with holes so large as to cause fouling of the pan must not be used. Pans must measure at least 12 inches between the lower edge of the front and back faces of flushing rims. Water-closet seats must be provided with approved buffers to prevent damage to the pan, and an approved buffer clip must be fixed to the flush pipe at a suitable height from the pan.

Section 157. *Flushing Apparatus*.—Approved apparatus shall be provided for the effective application of water to the pan of the water-closet and for the efficient flushing and cleansing of the pan and effective removal therefrom of any solid or liquid matter which may from time to time be deposited therein. Such apparatus shall have a flushing capacity of not less than 2½ gallons, and shall be so constructed, fitted, and placed as to supply water for use in the pan without any direct communication with any service water pipe upon the premises.

Section 158. *Flushing Cisterns*.—Flushing cisterns shall be fixed at such height as will effectively flush the pan; but, except by special permission, no cistern shall be fixed at a less height, measured from top of seat to bottom of cistern, than 5 feet where 1½-in. flush pipe is used or 4 feet where 1¼-in. flush pipe is used. There shall be a distance of at least 9 inches between top of cistern and ceiling of closet.

Every cistern shall have a separate stop-tap and an overflow of ¼-in. internal diameter, and shall be fixed to cistern boards not less than 12 inches deep and 1½ inch thick, or fixed in other approved manner.

Water supply pipes to cisterns shall be adequate to fill any cistern at the rate of not less than 1 gallon per minute.

Section 159. *Flush Pipes*.—Flush pipes to closet pans shall be of brass, copper, 8-lb. lead, galvanized iron of not less than 22-gauge, or other approved material, and shall have a minimum diameter of 1¼ inch.

Section 160. *Flushing Apparatus Other than Cisterns*.—Notwithstanding anything contained in this By-law, closet pans in any building may be flushed by means of any apparatus which—

- (a) automatically controls the amount of water used, and/or
- (b) is approved by the Authority.

Section 161. *Storage Tanks*.—Except where otherwise allowed by the Authority, on request in writing, by the owner accepting all responsibility in the matter, internal water-closets shall be provided with storage tanks capable of holding 6 gallons of water for each occupant of the building, with a minimum of 60 gallons per closet for all buildings except private residences, which shall have a minimum capacity of 30 gallons. These tanks may be of 22-gauge galvanized sheet iron, or 24-gauge corrugated iron.

Unless otherwise directed by the Authority, the storage tanks may be placed in the water-closet apartment itself, on the roof over a flat or gutter, or in an accessible place between the ceiling and the roof, in which latter case a safe of galvanized iron, lead, or other approved impervious material, with overflow, shall be fixed under the storage tank.

Section 162. *Venting Closet Pans*.—Unless otherwise directed or permitted, every closet pan on an upstairs floor shall discharge into a soil-ventilator pipe, except that any closet pan on a floor which is not more than 8 feet in height from the ground surface level may be ventilated by an anti-syphonage vent only, in accordance with the requirements of sections 86

and 108, and discharge into a soil pipe without extension as a ventilator pipe, provided that no fixtures at a lower level are connected to such soil pipe.

Any closet pan where ordered, and, also, unless otherwise directed, every internal closet pan which is more than 4 feet from a fully vented soil pipe drain as measured along the axis of the pipe between the centre of soil pipe and centre of pan, shall be ventilated by an anti-syphonage vent in accordance with the requirements of section 86 sufficiently close to prevent syphonage, and in no case more than 18 inches from the trap. Notwithstanding the above, all "S" trap pans must be provided with anti-syphonage vents.

Section 163. *Grouped External Closets*.—Where there are more than three external water-closet pans grouped on the ground floor or in the yard of any premises special provision must be made to prevent syphonage.

#### Division 31.—Urinals and Flushing Apparatus.

Section 164. *Urinals, General*.—Every urinal on premises licensed for the sale of fermented or spirituous liquors, and on premises used as a factory, workshop, work place, manufactory, shop, office, or school where persons of the male sex are employed or in attendance, shall be of such size as the Authority requires. Provided that when the number of persons of the male sex does not exceed ten, a urinal need not be fixed if the closet has a pedestal pan with a hinged tip-up weighted seat.

Section 165. *Internal Urinals*.—The positions, approaches, arrangement of lighting, ventilation, &c., for internal urinals shall comply as nearly as possible with the provisions as to internal water-closets.

Section 166. *Details of Construction, &c.*—Except by special permission, only round-backed stall type urinals of approved impervious material shall be used. The soil pipes shall be of lead, stoneware, or glass enamelled or coated cast-iron; or other approved material, shall be kept as short and free from bends as possible, and shall be trapped. Inspection openings shall be provided on soil pipes as directed, with clamped covers. The urinals shall be provided with approved flushing apparatus, and a hose tap shall be provided in a suitable position for hosing down.

Section 167. *Treatment of Floors*.—The floor in front of a urinal shall be covered with approved impervious material for a width of not less than 2 feet, or, if raised above floor level of urinal apartment, not less than 1 ft. 6 in., and graded to drain to urinal.

*Impervious Materials*.—The following materials will be considered impervious:—

- (a) For urinals—glazed fireclay or salt-glazed stoneware.
- (b) For floors in front of urinals—glazed tiles set in cement mortar (composed of equal parts of cement and sand), concrete 6 inches thick rendered with ½-in. thick cement mortar, slate, marble, or asphaltum.

Section 168. *Flushing Apparatus*.—Pull and chain flushing cisterns or other approved apparatus operated by hand shall be fixed on all urinals except where automatic flushing cisterns are permitted or directed by the Authority.

Section 169. *Flushing Cisterns*.—The discharge from a cistern shall be equal to 1 gallon for each urinal stall, except where otherwise allowed by the Authority, but in no case shall larger than a 3-gallon cistern be used.

The height of a cistern shall, unless otherwise allowed by special permission, be at least 8 feet from the floor to the top of the cistern. The cistern shall be so fixed that the ball tap is accessible.

A separate stop tap shall be provided for each urinal cistern.

Section 170. *Flush Pipes*.—Flush pipes for urinals shall be of brass or copper with gunmetal fittings, and shall have a minimum diameter of 1¼ inch, except that flush pipes for automatic flushing cisterns generally shall not exceed—

- for 1-gallon cistern, ¾-in. internal diameter,
- for 2-gallon cistern, 1-in. internal diameter,
- for 3-gallon cistern, 1¼-in. internal diameter,

with branches as directed by the responsible officer of the Authority.

#### Division 32.—Housemaids' Slop Sinks.

Section 171. *General*.—Housemaids' slop sinks shall be made in one piece of approved impervious material and provided with approved flushing apparatus of 2-gallon capacity.

Section 172. *Ventilation, Light, &c.*—Housemaids' slop sinks shall be so placed and ventilated as to comply with the requirements for water-closets as set out in sections 151 (a), (b), and (c), and 162.

Section 173. *Bibcock over Slop Sink*.—A bibcock shall be fixed directly over a housemaid's slop sink, and at least 18 inches above such sink. A pedestal pan must be used wherever combined water-closet, housemaid's slop sink, and internal urinals are required, and in such case must be provided with hinged tip-up seat. A lead safe of suitable area must be fixed under the pan.

*Division 33.—Wash Troughs.*

Section 174. *General.*—Wash troughs shall be of approved pattern and material, securely fixed and graded to outlet pipe, fitted with brass strainer sunk to level of bottom of trough.

Section 175. *Support for Lead Waste Pipe.*—Where the distance between outlets on troughs exceeds 21 inches and lead waste pipe is used, the pipe shall be supported either by a lead tack wiped on the top of the pipe or by a wooden block screwed to the bottom of the trough and clamped to the pipe.

Section 176. *Troughs Abutting Against Brick Wash Coppers.*—Wherever the end of a wash trough abuts against the brickwork of a wash copper the space between the end of trough and the brickwork shall be filled with approved water-proof material.

*Division 34.—Sinks, Baths, Showers, and Lavatory Basins.*

Section 177. *Sinks.*—All new sinks shall be fixed on brackets and traps and wastes left readily accessible.

Section 178. *Galvanized Sheet-iron Baths.*—The bottoms of galvanized sheet-iron baths shall be effectively supported. Such baths shall not be enclosed. Longitudinal joints in the bottoms of baths shall not be permitted. Where it is necessary to fix new wastes to galvanized iron baths, the bottoms of which are unsupported, efficient supports for the bath must be provided before the wastes are fixed.

Section 179. *Bath Traps.*—Where a bath trap is fixed on the outside of a wall it shall in no case be more than 3 feet from the outlet of the bath, unless by special permission of the Authority.

Section 180. *Showers.*—All showers on the ground floor, except in the case of a wooden floor covered with sheet metal, shall be provided with a 4-in. stoneware or concrete trap, fitted with brass grating. All showers above the ground floor and those discharging on to a wooden floor covered with sheet metal shall be provided with drainage in accordance with the requirements for baths.

The floors of shower compartments shall be well graded to the trapped outlet, and shall be constructed of not less than 4 inches of concrete, trowelled smooth, or covered with tiles set in cement mortar, or of other approved impervious materials, or if constructed of timber shall be covered with enamelled cast-iron, approved non-corrosive sheet metal or other approved material turned up at the edges and flashed in accordance with the requirements of section 90.

The walls of shower compartments shall be constructed of brickwork or concrete, cement rendered to a smooth finish or covered with tiles set in cement mortar or of other approved impervious materials, or if constructed of timber shall be lined with approved non-corrosive sheet metal or other approved impervious material and with impervious joints.

Section 181. *Venting of Lavatory Basins.*—All lavatory basins placed singly shall be provided with anti-syphonage vents.

In ranges of lavatory basins, ventilation by means of a single vent pipe at the upper end of the range will be permitted, provided that the vent and main waste pipe are sufficiently large to prevent syphonage.

Section 182. *Tip-up Basins.*—Tip-up lavatory basins shall not be permitted.

*Division 35.—Safes and Overflows.*

Section 183. *Safes, where Directed.*—Safes of lead or other approved impervious material shall be fitted under housemaids' sloop sinks and internal water-closets, and in such other positions as directed.

Section 184. *Lead Safes in Water-closets, &c.*—All lead safes shall be laid with sheet lead weighing not less than 5 lb. per square foot, and where the whole floor is not covered with lead the safe shall extend 12 inches beyond the sides and 15 inches beyond the front of the pan, measured from the outside of the basin, and shall extend back to and 3 inches up the wall and over flashed, if directed. The roll of such safe shall be 2 inches wide and  $\frac{1}{2}$  inch high. In the case of baths, sinks, and lavatory basins, the lead, where directed, to extend 6 inches beyond the ends or sides, measured from the extreme edge of the fitting, and to be carried back to and up the wall as for closets.

Section 185. *Safe Overflows.*—Unless otherwise permitted, every safe shall be drained by a separate 2-in. diameter pipe, provided at the inlet with a brass grating and at the outlet into the open air with a flap valve of brass or other approved metal, and shall not connect with any waste pipe, soil pipe, drain, or sewer.

Section 186. *Cistern Overflows.*—Every cistern supplied with water shall, unless otherwise approved, have an overflow pipe of adequate size discharging in a position where it will not cause damage, but where it will act as a warning pipe. On ground floors where cisterns are fixed over impervious floors graded to drain outside of the room the overflow may discharge on to such floors, provided no damage is likely to arise therefrom.

Section 187. *Discharges from Overflows.*—Overflows may discharge into the open air above ground floor level only when the discharge will not cause any inconvenience or nuisance. In all other cases the pipes must be brought to the ground surface or be arranged to discharge where they will not prove a source of annoyance or inconvenience.

No. 183.—8014/41.—2

Section 188. *Existing Floors.*—Where necessary, in the opinion of the responsible officer of the Authority, every existing floor under a fixture shall be regraded and a proper waste pipe, and, if directed, a flap valve fixed.

*Division 36.—Existing Fixtures.*

Section 189. All existing fixtures, fittings, and appliances not in accordance with this By-law which the owner may desire to retain unaltered, and which, in the opinion of the Authority, will be inoffensive, may at the distinct request in writing of the owner only remain unaltered until such time as the Authority shall otherwise order. Existing fixtures, fittings, and appliances which, in the opinion of the Authority, are offensive shall be removed at once.

## PART 6.

## WATER SUPPLY.

Section 190. *Supply of Water to Fixtures.*—All water-closets, polluted areas, and other plumbing fixtures shall be provided with a sufficient supply of water for flushing purposes to keep them at all times in proper and cleanly conditions.

Every owner of property who desires, or has been ordered by the Authority, to provide sanitary appliances for his own property and to connect his property with the sewers of the Authority, shall, before or at the commencement of the work of making such connexion, provide piping approved of by the Authority for the conveyance of water, and shall cause the piping to be joined at the most convenient water supply main, or, with the permission of the Authority, to some pipe already joined to the main. Such piping shall be of capacity sufficient to supply all sanitary fittings on the property freely and continuously, and convey to the flushing cistern, flushing tank, or other flushing apparatus of each water-closet on the property enough water to fill the same at a rate of not less than 1 gallon per minute, and the owner shall cause such piping to be connected with the cistern before the completion of the work.

The water supply to any fixture shall be so arranged that there shall be an actual physical discontinuity between the water stored or used in any such fixture and that in the water service pipe.

Section 191. *Material, Condition, Capacity, &c., of Water Supply Piping.*—The entire length of the water supply piping from its connexion with the water supply main to the water-closet flushing cistern or other fixture shall be such as is, in the opinion of the Authority, suitable in regard to material, condition, and capacity to convey a sufficiency of water for the sanitary requirements of the particular tenement.

The owner shall keep the piping from becoming, whether by reason of corrosion or other cause, of insufficient capacity to fill the flushing cistern, storage tank, or other flushing apparatus at the rate of not less than 1 gallon per minute.

Section 192. *Fixtures Not Connected with Sewers.*—No water service pipe shall be laid to supply any fixture in any property in any sewerage area unless such fixture is connected with the sewers of the Authority, or unless special permission in writing has been previously given to lay such service pipe.

Section 193. *Storage Tanks.*—Water supply pipes to storage tanks for internal closets shall be of not less than  $\frac{1}{2}$ -in. diameter and be provided with stop taps and high-pressure ball valves, except where the elevation of the storage tank is not sufficient to allow of high-pressure ball valves being used. In such cases the permission of the Authority shall be obtained to fix low-pressure ball valves. Where the head of the water supply of the storage tank to the flushing cistern is less than 20 feet, a low-pressure ball valve shall be provided to the cistern.

Outlets from storage tanks shall not be less than  $\frac{1}{2}$  inch for one or two cisterns, and 1 inch for three to six cisterns.

Wherever a larger number than six cisterns is fixed, the size of the outlet shall be proportionally increased. The overflow from a storage tank shall be  $1\frac{1}{4}$  inch in diameter, and a stop tap shall be fixed on the rising supply pipe to the tank.

Full-way gate valves shall be provided between storage tank and flushing apparatus.

Section 194. *Supply Pipe Connexion with Flushing Cistern.*—In all water-closets, where directed, a piece of lead or copper pipe not less than 12 inches in length shall be used between the flushing cistern and the supply pipe.

The foregoing By-law was made and passed by the Yarrowong Sewerage Authority at a special meeting held on 4th March, 1941, and confirmed at a subsequent special meeting of the Authority held on the 1st April, 1941.

In witness whereof the common seal of the said Authority was affixed hereto in the presence of—

(SEAL) P. MAGUIRE, Chairman.  
CHARLES E. BOTT, Member.  
J. THOMAS SULLIVAN, Secretary.

Approved by the Governor in Council,  
30th June, 1941.

C. W. KINSMAN,  
Clerk of the Executive Council.

## MAFFRA SEWERAGE AUTHORITY.

BY-LAW NO. 1, RELATING TO CONSENTS, LICENCES, ETC., ALSO LEVELS, DIMENSIONS, CONSTRUCTION, MAINTENANCE, VENTILATION, AND CLEANSING OF SEWERS AND OTHER MATTERS RELATING TO HOUSE CONNEXION WORK.

THE Maffra Sewerage Authority, pursuant to and in exercise and execution of the powers and authorities conferred on it by the Sewerage Districts Acts and of any and every other power or authority in any wise enabling it in that behalf, doth hereby make and prescribe the following By-law, that is to say:—

In the construction of this By-law, unless inconsistent with the context or subject-matter—

“Acts” means the Sewerage District Act and any amendment thereof, and any Act incorporated therein, or amendment of such Acts.

“Anti-syphonage vent” (or “back vent”) means any vent pipe from an individual trap to the open air, or a main or branch vent pipe having for its purpose the prevention of loss of water seal in the trap.

“Authority” means the Maffra Sewerage Authority.

“Bore,” “diameter,” or “size,” in reference to any pipe, means the nominal diameter thereof, in accordance with accepted trade practice.

“Building” means any building used as a work place, residence, place of business, place of amusement, or place of human habitation, or for the storage of food intended for human consumption, but does not include outbuildings unless such are used for any of the above purposes.

“Disconnector trap” means a trap for isolating or disconnecting waste pipes from the house drain and soil pipes and providing inlet ventilation to the waste pipe or pipes discharging into it.

“Drain” means any drain used for the drainage of one building only or of premises within the same curtilage and includes any drain for draining any group or block of houses by a combined operation under the order of the Authority.

“Educt vent” means an opening or pipe for the exit of air from and the induction of draught in a soil pipe, waste pipe, or house drain.

“Engineer” means the Engineer of the Authority.

“Fittings” means all apparatus or appliances, together with their necessary appurtenances and connexions, for use in connexion with the plumbing or drainage system of any property, with the exception of fixtures and straight piping.

“Fixtures” means all apparatus or appliances, together with their necessary appurtenances and connexions, which may be attached to the plumbing or drainage system of any property, and which are intended for the collection or retention of any wastes or waste waters for ultimate discharge into the sewerage system.

“Housemaids’ slop sink” means any fixture other than a closet pan or urinal used for the discharge of soil waters and provided with a flushing apparatus in accordance with Division 32 of this By-law.

“Induct vent” means an opening or pipe for the admission of air to a soil pipe, waste pipe, or house drain.

“Interceptor trap” (or “boundary trap”) means a trap for preventing the passage of air or gases from the sewer to the house drain, and situated on the house drain at some point between the sewer and the lowest inlet to the house drain.

“Occupier” means the person for the time being in actual or constructive occupation of the premises.

“Owner” includes the person for the time being who receives or is entitled to receive the rent of the lands or premises in connexion with which the word is used, whether on his own account or as agent of or as trustee for any other person, or who if such lands or premises were let to a tenant at a rack rent would be entitled to receive the rack rent from the occupier thereof.

“Premises” includes any house and any building whatsoever and any part of any house or building and any garden stable yard or other offices used together or in connexion with any house or building and every part thereof.

“Responsible officer” means any officer authorized by the Authority to act as its representative in the particular matter to which the reference is made.

“Sewer” means any sewer or underground gutter or channel which is not a drain within the meaning of the Acts and any drain or portion of a drain laid between a sewer and the boundary line of any allotment or curtilage.

“Sewerage District” means the Maffra Sewerage District.

“Sewered property” means as well as any sewered land or premises any land or premises which have been declared by a general notice given by the Authority under the Acts to be deemed and taken to be a sewered property within the meaning of the Acts.

“Sewerage system” includes all sewers, fittings, fixtures, appliances, plant, machinery, and any other sewerage works vested in the Authority.

“Soil pipe” means any pipe which conveys the discharge from water closets, housemaids’ slop sinks, or urinals to the house drain.

“Stack” means any vertical line of soil, waste or vent piping with its offsets, if any.

“Trap” means any fitting designed to retain a quantity of water to arrest the passage of air or gases through such fitting.

“Waste pipe” means any pipe which conveys the discharge from any fixture (except water closets, housemaids’ slop sinks, or urinals), to a disconnector trap.

“Water seal” or “trap seal” means the vertical distance between the dip and the crown weir of a trap.

“Waste water” means water from factories or from buildings or premises in connexion with factories, but does not include storm water or ordinary domestic sewage.

## INTERPRETATION.

In the construction of this By-law the meaning which, in the Acts, is assigned to any word shall be the meaning of the same word where occurring in this By-law, unless inconsistent with the subject-matter or context.

## PART I.

## GENERAL REGULATIONS.

*Division 1.—Applications for Consents, &c.*

Section 1. Application for the Authority’s consent to connect with the sewerage system, or to do plumbing and drainage work connected therewith, must be made in writing by the owner of the property to be so connected, or by his authorized agent.

Section 2. Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be in the form prescribed by the Authority. For any wilful misrepresentation in such application the owner or authorized agent as aforesaid shall be guilty of an offence against this By-law. No consent given by the Authority shall be deemed to authorize anything not stated in the application, nor to confer or grant the right to lay a drain through any land intervening between the sewer of the Authority and the land proposed to be connected, and every owner or agent applying for the Authority’s consent shall satisfy himself as to his legal right to drain through such intervening land, as he shall be solely responsible for any trespass or damage thereon or thereto.

Section 3. Consents to make connexions with the sewerage system will be issued only when the plumbing and draining in the property to be connected is planned to be made in accordance with the rules for plumbing and draining hereinafter prescribed, and after such plan has been inspected and approved of by the responsible officer appointed by the Authority for the purpose, or, in the case of new buildings, when a proper plan of the plumbing and of the drainage of the building into the branch, of which the Authority shall have fixed the position, has been approved of in writing by the Authority. All connexions with drains or sewers, and all plumbing and drainage connexions therewith, shall be made under the direction of the responsible officer of the Authority. Consent will not be given for the performance of any such work except upon condition that no person shall be engaged or employed as a workman in the actual performance of any plumbing or drainage work unless he be the holder of a licence issued by the Authority to do such work. Any person who shall at any time or at any place make up, form, affix, alter, or repair any fitting, pipe, bend, trap, or other thing connected or intended to be connected with the Authority’s sewerage system, unless he be the holder of a licence from the Authority authorizing him to do such work, shall be liable to a penalty not exceeding Ten pounds. Any person, whether licensed as aforesaid or not, who shall alter, remove, or in any way interfere with any drain, fitting, pipe, bend, trap, or other thing connected with the Authority’s sewerage system, unless the Authority’s written consent has been previously issued to do such work at the premises concerned, shall be liable to a penalty not exceeding Ten pounds.

Section 4. Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of or from the Authority is necessary, whether specified in writing or otherwise, with regard to any act, matter, or thing mentioned in the By-law, the same may be given by and under the hand of the chairman of the Authority, or of the responsible officer, personally or through an inspecting officer appointed under him, who severally shall be competent to give the same and authorized on behalf of the Authority, to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given.

Section 5. In any case in which the Authority shall be of the opinion that a compliance with any of the provisions of this By-law would in any particular case be vexatious or be

needless in the interest of public health, it shall be lawful for the Authority, by resolution, to dispense with or forbid such compliance in whole or in part as it shall think fit, or to authorize or direct such a modification or alteration of such provisions as shall, in its opinion, most nearly adapt the principle of those provisions to the particular case. It shall be unlawful to comply with any provision, or part of any provision, of which compliance shall have been forbidden, or to act contrary to or otherwise than as directed by such modification or alteration.

*Division 2.—Penalties, Recovery of Cost of Work, &c.*

Section 6. Where anything is by this By-law directed to be done, or forbidden to be done, or where any authority is given to the Authority or any of its officers to direct or to forbid anything to be done, and such act so directed to be done remains undone, or such act so forbidden to be done is done, then, and in every such case, the person making default as to the said direction or prohibition respectively shall be guilty of an offence against this By-law.

Section 7. Every person guilty of an offence against this By-law, not otherwise specially provided for by or under the authority hereof, shall be liable for every such offence, besides any costs or expenses which may be incurred in the taking of proceedings against such person guilty of such offence, as well as any costs or expenses which may be incurred in remedying such default, as particularly provided for in this By-law or the Acts, to a penalty not exceeding Ten pounds, and to a further penalty of One pound for each day during which such offence is continued by such person after notice of the offence shall have been given by the Authority to him; and such penalty shall be recoverable, notwithstanding that the Authority may not have chosen to exercise any power given to it by the Acts or by this By-law to remedy such default.

*Division 3.—House Drainage Plans—Alterations.*

Section 8. Copies of the Authority's plans of individual house drainage will be furnished by the Authority upon application and payment for the same, as follows:—

(a) Where owners design and carry out their own work—

(i) For the supply of a block plan, Two shillings and six pence (2s. 6d.).

(ii) For the examination of the owner's plan of design, a minimum fee of Seven shillings and six pence (7s. 6d.).

(iii) For making or examining any alterations or addition to a plan previously issued or approved of by the Authority, a minimum charge of Five shillings (5s.) shall be made by the Authority.

(iv) For the inspection of drains and testing by the Authority's inspector, Ten shillings (10s.).

(v) For the inspection of plumbing by the Authority's inspector, Ten shillings (10s.).

(vi) For the final inspection by the Authority's engineer and charting the work on the Authority's plans, Ten shillings (10s.).

(b) Where the Authority designs the work for the owner, and the owner then carries out his own work—

(i) For plan of design, Ten shillings (10s.), plus Two shillings and six pence (2s. 6d.) for each fitting.

(ii) For making or examining any alterations or additions to a plan previously issued or approved of by the Authority, a minimum charge of Five shillings (5s.) shall be made by the Authority.

(iii) For the inspection of drains and testing by the Authority's inspector, Ten shillings (10s.).

(iv) For the inspection of plumbing by the Authority's inspector, Ten shillings (10s.).

(v) For the final inspection by the Authority's engineer and charting the work on the Authority's plans, Ten shillings (10s.).

(c) Where the authority designs the work and has same carried out for the owner, a charge shall be made equal to Ten per centum on the capital cost of the work for the designing and supervising of all details in connexion with such work.

Consent for additions and/or amendments to approved plans or to works previously approved will be made only on the application of the owner or his authorized agent.

*Division 4.—Maintenance and Defective Work.*

Section 9.—Any drain pipe, soil pipe, trap, water closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with this By-law, or which shall in the opinion of the Authority be or become bad or of defective quality, shall, upon notice in writing from the Authority to the owner or occupier of the property, be by such owner or occupier removed or repaired in the manner determined and within the time fixed by the Authority; and in case such owner or occupier fails to comply with the requirements of the notice,

he shall be liable to prosecution and penalty for an offence against the Acts, or the Authority will, if it thinks fit, remove or repair the said defective fitting and charge such owner or occupier of the premises with the cost so incurred, and will proceed for recovery of the same in a manner provided by the said Acts.

*Division 5.—Licences.*

Section 10. No person shall tender for or enter into any contract for or undertake any plumbing work relating to sewerage within the Maffra Sewerage District or connected or to be connected with the sewers of the Authority who does not hold either a master plumber's licence or a working plumber's licence issued by the Authority.

Section 11. No person shall tender for or enter into any contract for or undertake any draining work relating to sewerage within the Maffra Sewerage District, or connected or to be connected to the sewers of the Authority who does not hold either a master plumber's or working plumber's licence, or a drainer's licence issued by the Authority.

Section 12. No person other than a holder of a working plumber's licence issued by the Authority shall actually do or perform any such plumbing work.

Section 13. No person other than the holder of a working plumber's or a drainer's licence issued by the Authority shall actually do or perform any such draining work.

Section 14. At the discretion of the Authority a master plumber's licence may be granted to any master plumber or master builder, building contractor, or other person, firm, or corporation who is approved by the Authority, but such licence will only entitle the holder to tender for or enter into contracts for or otherwise undertake plumbing and drainage work under these By-laws, but shall not entitle the holder to personally do any actual plumbing or drainage work under these By-laws.

Section 15. Holders of master plumbers' licences not themselves licensed working plumbers or licensed drainers must continuously employ on all and every plumbing work carried out by them under these By-laws licensed working plumbers, and on all and every drainage work, licensed working plumbers or licensed drainers.

Section 16. Working plumbers' licences will be issued at the discretion of the Authority to persons who hold and produce to the Authority a certificate of competency issued by the Sanitary Plumber's Examination Board of Victoria. Such licence will permit the holder to do practical work as a working plumber upon all fittings, appliances, and apparatus connected or to be connected with the sewers of the Authority, subject to and in accordance with the Authority's By-laws and Regulations.

Section 17. Drainers' licences will be issued to any person who shall satisfy the Authority by passing an examination by examiners appointed by them or in such other manner as the Authority from time to time or in any particular case may direct that he has a thorough knowledge of the following subjects:—

Plans.—The reading of plans and the meaning of scales and of elevation, plan, and section drawing.

Levelling.—The use of the straight-edge, spirit-level, and boning rods.

Excavation, Timbering, and Refilling.—The use of tools for excavation, the protection of trenches by timbering, the treatment of different soils, tunnelling, and tunnel timbering, precautions near buildings, and manners of refilling of trenches and tunnels.

Drain-laying.—The preparation of the bottom of trenches, the laying and jointing of stone-ware, cement, concrete, and cast-iron pipes, cement, bitumen, lead, and self-fitting joints, laying of drains under houses and in soft ground, and the depth of drains below surface.

Drainage Details.—Junctions to sewers, diminishing of sizes of pipes, yard gullies, grease and other traps, inspection openings, and cast-iron drainage details.

Drainage Work.—Knowledge of the provisions of this By-law and of the Acts, insofar as same relate to the work and duties of drainers in regard to the construction, maintenance, and protection of the sewerage system and the construction and use of drains and drainage traps.

Candidates for drainers' licences shall give notice in writing to the Authority of their intention to submit themselves to examination, and this examination shall be at such a time and at such place as shall be appointed by the Authority. Candidates must provide themselves with their own tools and materials, and pay a fee of 10s. for each examination.

Section 18. The conditions upon which all master plumbers' licences, working plumbers' licences, and drainers' licences will be issued are—

(1) That every licence will be subject to suspension or cancellation at the will of the Authority, and that all such licences or renewals thereof will expire on the 30th day of June next following.

(2) That every holder of a licence from the Authority who shall have received the consent of the Authority to execute any works in connexion with sewerage or drainage, or who shall (where such consent of the Authority is not required before the execution of any such works) have notified the Authority of his intention to carry out such works—

- (a) shall obtain permission when necessary for the execution of such works on, over, or through any private property, or any streets, roads, parks, reserves or other public places or properties; and
- (b) shall pay any fees demanded by the Council or Authority for opening any street, road, or thoroughfare or otherwise in connexion with the work; and
- (c) shall execute such works in accordance with the provisions of the Acts and of the By-laws made thereunder, and of any special directions or orders given or issued by the Authority or proper officer; and
- (d) shall use materials of good quality only and free from defects; and
- (e) shall employ only competent operatives or assistants; and
- (f) shall execute such works in a thorough and tradesmanlike manner to the satisfaction of the Authority as expeditiously as practicable, and leave site clean and undefaced; and
- (g) shall in the execution of such works take such proper and necessary precautions that no accident or damage or unnecessary inconvenience may be directly or indirectly occasioned thereby; and
- (h) shall restore any part of any street, road, or thoroughfare interfered with by the work to the satisfaction of the municipal authority having control thereof upon the completion of the work; and
- (i) shall restore any other property interfered with by the work to the satisfaction of the responsible officer of the Authority; and
- (j) shall in all cases notify the proper officer immediately upon completion of any work in hand, promptly amend any defects therein, and again at once notify the said officer, and subsequently take steps forthwith to secure the certificate of satisfactory completion and give same to owner; and
- (k) shall, when so directed by the Authority, make good at his own expense any defect found within three months of the date of completion of any such work which, in the opinion of the Authority, is due to bad workmanship or defective material.

Section 19. Prior to the issue of any licence the person to whom the same is to be issued must sign a register containing a declaration that he accepts such licence subject to and in conformity with the conditions of such licence and of this By-law and that he will conform to and comply therewith, and shall pay to the Authority the fee named hereunder:—

#### Division 6.—New Buildings, Additions, &c.

Section 20. Every person who shall intend to erect a building on any property within the Sewerage District, or to rebuild or to make any alterations or additions to any such buildings shall, before commencing such work, give to the Authority seven days' notice in writing of such intention; and such notice shall be accompanied by plans and sections of such intended buildings, alterations, or additions, showing their positions, dimensions, depths, and levels of foundations, cellars, or basements, all appurtenant walls and fences, the intended lines of drainage, and the boundary of the land, which plans, &c., shall become the property of the Authority.

#### Division 7.—General.

Section 21. Any work or thing in respect of or in connexion with sewerage under the Act that is not specifically mentioned in this By-law shall be performed in accordance with the directions of the Authority.

### PART 2.

#### GENERAL REGULATIONS.

#### Division 8.—Use of Sewers and Drains—Prohibition of Certain Discharges.

Section 22. *Use of Sewers and Drains.*—The owner and the occupier of any sewered property shall discharge into the sewerage system all faecal matter, urine, household slops and household liquid refuse from such property, and such other polluted water from stables, washing areas, manure bins, basements, cellars, and roofed yards, and such trade or manufacturing liquid refuse as the Authority may authorize or require, subject in each and every case to such conditions as it may impose.

Section 23. *Prohibited Discharges.*—The deposition or discharge of any of the following substances into any house drain is prohibited:—

- (a) Any animal matter other than is specified in section 22, fleshings, wool, hair, dead animal, grease, dust, ashes, rubbish, garbage, offal, vegetable and fruit or their parings, rags, oil, silt, mud, sand, gravel, or like substances, or any other substance which is, in the opinion of the Authority or its responsible officers, liable to be injurious to any part of the sewerage system or to the employees of the Authority engaged in the operation or maintenance of same.
- (b) Any petrol or other inflammable or explosive substance, whether solid, liquid, or gaseous.
- (c) Any rain, roof, surface, or flood waters, except by special permission of the Authority.
- (d) The contents of any night-soil cart, cesspool, or privy.
- (e) Any waste water, liquid, trade waste, or other substance which has not been neutralized to the approval of the responsible officer of the Authority, or which is above the temperature of 100 deg. Fahrenheit, or such lower temperature as may be prescribed by the Authority, having regard to the special circumstances of the case.
- (f) Any liquid which contains such percentage of common salt or any other mineral salt, acid, or gas, as is, in the opinion of the responsible officer of the Authority, injurious to, or liable to form compounds injurious to, any part of the sewerage system or to employees of the Authority engaged in the operation or maintenance of same.

Section 24. *Fittings to be Above Flood Level.*—No person shall place in position for use any fitting or appliance having an inlet or opening into any drain or into any sewer of the Authority unless the inlet or opening is 1 foot above the flood level of the year 1935. Where any doubt is raised in connexion with any of the clauses of this By-law as to the highest flood level of the year 1935, the Engineer, after inquiry, shall fix such flood level, and his decision shall be final and conclusive.

Where any buildings or premises are situated in any area liable to flooding at frequent intervals the Authority may suspend the operation of this clause subject to and so long as the following conditions are observed:—

- (a) That the owner applies in writing for permission to fix an approved sluice valve in every drain connecting with a sewer of the Authority on which the inlet or opening is placed, and furnishes the Authority with an undertaking that such sluice valve will be fixed at his risk, and indemnifies the Authority against all damage suffered by such owner or any one claiming under him arising out of and incidental to such valve.
- (b) That the owner undertakes whenever there is danger of flooding to close or cause to be closed every such valve before flooding occurs, and to keep closed or cause to be kept closed every such valve until the flood water shall have subsided to such an extent that there is no longer danger of the flood water entering the sewers.
- (c) That, pursuant to such permission and undertaking, an approved sluice valve shall have been fixed in every drain connecting with a sewer of the Authority and approved of by the Engineer.
- (d) That the owner does whenever necessary close and keep closed every such valve and does exclude such flood water.

#### Division 9.—Trade Wastes.

Section 25. *Conditions of Discharge.*—No person shall discharge any trade or manufacturing liquid, refuse, or waste into any sewer, unless and until the following conditions are complied with:—

- (a) Application for permission to discharge any such trade wastes shall be made in writing and accompanied by plans and specifications of the work to be done and of the apparatus to be used, and shall include such details concerning the nature of the waste and the quantity and rates of discharge of the proposed effluent as considered necessary by the responsible officer of the Authority.
- (b) The permission of the Authority in writing shall be obtained and an agreement containing a covenant to comply with the By-law and with any further stipulations required by the Authority, shall be executed.
- (c) The volume of liquid refuse or waste discharged shall, if ordered, be measured and determined by meter or by some other approved means of measurement. The maximum aggregate daily quantity of effluent which may pass from any trade premises into a sewer, the maximum permissible rate of such discharge, the size and capacity of the drain for conveying such effluent from the trade premises to the sewer, and the hours during which such flow will be permitted, shall be determined by the Authority.

- (d) All such liquid refuse or waste shall be passed through such settling, screening, and/or neutralizing chambers, and/or such other appliances and/or otherwise treated as ordered or approved by the Authority to ensure that the resulting effluents shall comply with the conditions of the agreement.
- (e) Every settling, screening, neutralizing, or other chamber, appliance, or apparatus for the treatment of trade wastes in accordance with this By-law shall be cleaned and maintained by the occupier at his own expense and at such intervals as may be considered necessary by the Authority or its responsible officer to ensure the efficient operation of such chamber, appliance, or apparatus, and in no case shall such chamber, appliance, or apparatus be altered without the approval in writing of the Authority first being obtained.

*Division 10.—Sub-soil Water.*

Section 26. The discharge of sub-soil water into sewers shall be prohibited except by permission of, and under conditions approved by, the Authority.

*Division 11.—Inspection Tests.*

Section 27. *Notice.*—The owner or his authorized agent, or the plumber, drainer, or contractor, shall give at least forty-eight hours notice to the Authority, in writing, of his intention to commence work and of work ready for inspection. All work shall be left uncovered and accessible for examination until inspected and approved. Inspection shall be made within twenty-four hours of the receipt of such notification except when the notification is received on a Saturday, when seventy-two hours shall be allowed.

The contractor carrying out any work shall, within seven days of the completion of such work, file in the office of the Authority, on forms furnished for this purpose, a correct statement of the work done and the cost thereof. Such statement shall be countersigned by the responsible officer of the Authority, and a certificate embodying such statement shall be forwarded to the contractor.

Section 28. *Inspection.*—All drains, wastes, fittings, joints, fixtures, &c., will be inspected by the responsible officer of the Authority to ensure compliance with the By-law and approved plan.

Section 29. *Tests.*—Drains, whether laid by the Authority's workmen or others, must be thoroughly tested in every case before being passed by the Authority's officers. The responsible officer of the Authority may require the application of the water or smoke test, or such other tests as he may order or approve.

Section 30. *Water Test.*—The water test may be applied to the drainage and/or plumbing systems and their fittings in their entirety or in sections. It shall be applied by hermetically sealing all openings below the top of the section to be tested. The system shall then be filled with water to a height of 6 feet above the highest point of the section, or, if considered necessary, to such additional height as the responsible officer may order, and every joint carefully examined for leaks.

Section 31. *Smoke Test.*—The smoke test shall be applied by hermetically sealing all openings into the section to be tested, and forcing into the system thick smoke to a pressure equivalent to 1 inch of water, by means of a smoke test apparatus. Every joint shall then be carefully examined for leaks.

Section 32. *Equipment, &c.*—The equipment, material, power, and labour necessary for the inspection and tests shall be furnished by the contractor, plumber, or drainer.

Section 33. *Maintenance.*—Every person holding a licence from the Authority who shall execute any work in connexion with sewerage drainage and/or sanitary plumbing shall, when so directed by the Authority, make good at his own expense any defect found within three months of date of completion of any such work due, in the opinion of the Authority, to bad workmanship or defective material.

*Division 12.—Materials and Workmanship.*

Section 34. *Materials.*—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be of the best of their respective kinds, sound and free from defects, and shall comply with such Australian standard specifications as apply and are accepted by the Authority, otherwise to be approved by the Authority.

Section 35. *Testing.*—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be submitted for examination and/or test, and shall not be placed in position until passed and stamped by the Authority. Such testing of materials shall be paid for by the person submitting same, whether passed or rejected, and shall be done at such time and place, and at such rates, as may from time to time be fixed by the Authority.

Section 36. *Workmanship.*—All work shall be executed in a thorough and workmanlike manner, and to the satisfaction of the Authority.

Section 37. *Precautions.*—Adequate precautions shall be adopted by the person carrying out the work to prevent injury to workmen, property, or public, and the Authority will accept no responsibility for claims for injury arising from the inadequacy of such precautions.

Section 38. *Concrete.*—Concrete, unless otherwise ordered, shall consist of one part Portland cement, two parts clean sharp sand, and four parts hard metal, shingle or gravel not exceeding  $\frac{1}{2}$ -in. gauge, and shall be thoroughly mixed with clean water to such consistency as ordered or approved by the responsible officer of the Authority.

Section 39. *Cement Mortar.*—Cement mortar, unless otherwise ordered, shall consist of one part Portland cement and two parts clean sharp sand, properly mixed with an approved proportion of clean water.

**PART 3.**

**DRAINAGE.**

*Division 13.—Drainage, General.*

Section 40. (1) Every premises shall be separately drained unless a combined drain shall have been ordered or approved by the Authority. Owners desiring to have the drainage of their properties combined must sign a request for a combined drain, and obtain the approval of the Authority. In any case in which it appears to the Authority that any properties may be drained more advantageously in combination than separately the Authority may order that those properties be drained by a combined operation.

(2) In any case where a combined drain serves two or more properties the Authority, with the consent of the owners of the properties served by such combined drain, may take over such combined drain, and thereafter such combined drain shall be and remain a sewer of the Authority.

(3) In every case of a combined drain the Authority will determine, as between the respective owners and occupiers of the properties drained thereby, the proportions in which the cost of such combined drain shall be paid. In every case of the occurrence of an obstruction in a combined drain the Authority will also determine by whom and in what proportion the cost of removing such obstruction shall be paid.

(4) Owners and occupiers of premises are responsible for clearing stoppages in drains within their premises, or between their premises and the sewers into which the branches lead, but must employ only licensed plumbers or drainers to clear same.

(5) Before a licensed plumber or drainer commences to clear a stoppage in a drain he must notify the Authority in writing of the time when he intends to clear the stoppage, so that the Authority's proper officer may attend and pass the work in accordance with the provisions of the Acts.

Section 41. *Size of Drains.*—Every drain shall be of adequate size for the drainage of the property to be served, in accordance with the requirements of section 85, with a minimum diameter of 4 inches.

Section 42. *Materials.*—All drain pipes, bends, junctions, and fittings used shall be of glazed stoneware, concrete, cast-iron, or other approved material, provided that the responsible officer of the Authority may prohibit the use of any of the above-mentioned where the circumstances or conditions are considered unfavorable.

Section 43. *Cast-iron Pipes.*—Cast-iron drainage pipes and their fittings shall comply with the Australian standard specification, or, in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameters.

Section 44. *Interceptor Traps.*—Where directed by the Authority but not otherwise, an interceptor trap shall be fixed in the drain laid from any property to the sewer. Such trap shall be fixed as near as practicable to the boundary, and wherever practicable shall be within the boundaries of the property. The interceptor trap shall be provided with an inspection cap on the sewer side of the trap. If ordered, an approved manhole shall be provided for the trap.

Section 45. *Inspection Chambers.*—All drains shall, wherever considered necessary by the Authority, join in an inspection chamber at least 3 feet long by 2 feet wide, fitted with a closed cover. The portions of the drains crossing the floor of the inspection chamber shall be connected either in a straight line or by curved junctions in the floor of the chamber. All inspection chambers to be cement rendered (two parts sand and one part cement) to a smooth surface, and made watertight. The inspection chamber must be provided with a closed cover, and special ventilation must also be provided if considered necessary by the Engineer.

Section 46. *Inspection Openings.*—Every line of drain shall be provided with an inspection opening—inside and within 5 feet of the boundary line, at each junction not provided with an inspection chamber, at each change of direction, at each fixture, and in no case at greater than 30 feet intervals, and in paved areas these shall, if considered necessary by the responsible officer of the Authority, be brought to the surface and furnished with approved airtight covers. The area of an inspection opening shall be not less than the area of the drain.

Section 47. *Drain Openings Not in Use.*—The ends of all house drains not immediately connected with the plumbing fixtures and all inspection openings shall be securely closed with watertight imperishable materials. If stoneware or cement concrete, a stoneware, cement concrete, or cast-iron disk must be cemented in; if wrought iron, a plug must be screwed on the end; if cast iron, a cast-iron plug must be caulked in with lead.

Section 48. *Replacing or Inserting Pipes.*—Where it becomes necessary to remove a pipe to clear a stoppage or to insert a pipe or branch in an existing drain, such pipe so removed shall be replaced by an inspection pipe or inspection junction of the same length by one of the following methods:—

- (a) The top half of the socket of the new pipe and of the existing downstream pipe may be removed, but the bottom half shall in each case be left intact and the joints surrounded with concrete.
- (b) An approved split pipe with double collar surrounded with concrete may be used.
- (c) A length of not less than three pipes may be removed, the centre pipe replaced by an inspection pipe, and the pipes dropped back into place without springing or cutting.

Junctions in existing metal pipes shall not be made unless an approved closure pipe is used in each case. Springing pipes into position shall not be resorted to or allowed.

#### Division 14.—Basement and Cellar Drainage.

Section 49. *Fixtures.*—No water-closet, urinal, and/or other fixture shall be placed in any cellar or basement, or on any floor below ground level, unless by consent of the Authority, and then only when, in the opinion of the Authority, other provision cannot be made. The owner shall submit such plans and/or other information as the Authority may require, and shall undertake in writing to accept all risk of damage that may occur. If satisfied that the ventilation and lighting provided are in accordance with section 151 or 152 of these By-laws, and all other conditions have been complied with, the Authority may give its consent; provided always that such consent may be revoked by the Authority at any time, and that upon 14 days' notice of revocation such fixture shall be abolished by the owner.

Section 50. *Risk of Back Flow.*—Where such cellar, basement, or floor below ground level is at such a level as may, in the opinion of the Authority, involve risk of back flow in the event of the sewer becoming overcharged, the sewage from all fixtures therein shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered and discharged into the sewer as and where directed.

Section 51. *Seepage Drains.*—In no case shall seepage drains from cellars, basements, or any floor below ground level be discharged into a sewer without the consent of the Authority. Where such discharge is permitted by the Authority the seepage shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered, and discharged into the sewer or elsewhere as and where directed.

#### Division 15.—Polluted Areas.

Section 52. *Connexion.*—The Authority may, if it thinks fit, authorize or require that any of the following places:—namely, stables, cow-sheds, dairies, market places, areas for washing vehicles, and any other polluted place, be connected with the sewers, subject to such conditions as the Authority may impose.

Section 53. *Conditions Governing Connexion.*—No such connexion shall be made unless the following conditions have been complied with:—

- (a) The place to be connected shall, if required, be so roofed as to prevent the entry of rain water from it to the sewers, and in no case shall rain water be permitted to discharge on to such place from adjoining surfaces.
- (b) The place to be connected shall be paved above the level of the yard with approved materials, and graded to the satisfaction of the responsible officer of the Authority.
- (c) The drain from any such place shall be provided with an approved silt trap with a removable grating and connected with the drain inside the boundary line of the property.

Section 54. *Manure Bins.*—(a) Manure bins must be provided for all stables, or cow-yards where the local Council's By-laws demand their construction, or where the locality is closely built on.

(b) All the manure bins must have the inside surfaces rendered with cement mortar, and must be made impervious throughout, and provided with an approved close-fitting cover. Walls of new manure bins must, unless otherwise approved, be at least 9 inches in thickness, built of brickwork laid in cement mortar. If an outlet pipe be provided for a manure bin, it must be properly connected with the Authority's sewers. Branches in house drains must be provided in all cases where manure bins exist, for their connexion whenever the Authority shall deem it necessary.

#### Division 16.—Pipe Trenches.

Section 55. The trench for the house drain from any property shall be so dug as to meet the Authority's sewer at the position provided or to be provided for the connexion.

The material from the trench shall be so placed as to cause the least possible obstruction and inconvenience to the public. Proper barriers and lights must be maintained where necessary to guard against accident during the progress of the work.

In refilling the trench selected refilling shall first be deposited around and over the pipe to a depth of 12 inches and carefully consolidated, after which the remainder of the trench shall be filled in in layers and rammed or flooded, as ordered or approved.

No stone shall be used in refilling until earth or gravel has been placed over the pipe to a depth of 1 foot, or more if directed.

On no account shall any water, sand, earth, &c., be allowed to enter the sewer during the progress of the work.

On completion of refilling the surface shall be restored as nearly as possible to the same condition as it was in before operations were commenced, unless the owner in writing otherwise requires.

#### Division 17.—Laying Drains, &c.

Section 56. *Position and Line.*—Every drain and every fitting, &c., connected therewith shall be laid and fixed where directed by the responsible officer of the Authority. As far as possible all drains shall be laid in straight lines; where changes of direction occur they shall be made in manholes, or by a suitably curved pipe with an inspection opening on each straight pipe next adjoining the curve.

Section 57. *Oblique Junctions.*—Where any drain joins another drain the junction shall be made obliquely at an approved angle with the direction of flow of such drain. Right-angled junctions shall not be made.

Section 58. *Connexion to Sewer.*—The position of the Authority's connexion to any premises shall be located prior to the commencement of any drain excavation. The disk stopper at the point of connexion to the sewer shall be carefully removed so as not to injure the socket or allow any debris to enter the sewer.

The first length of the drain at the branch shall be an inspection opening.

Section 59. *Gradients.*—All drains shall be laid on an even grade, and, except by special permission in writing, from the Authority, such gradients shall in no case be less than the following minimum permissible gradients:—

4-in. diameter . . . . .	1 in 40
6-in. diameter . . . . .	1 in 60

In cases where the grades of 4-in. and 6-in. drains are steeper than 1 in 10 and 1 in 15, respectively, concrete stops shall be placed as and where directed by the responsible officer of the Authority.

Section 60. *Depth of Drains.*—Drains of stoneware or concrete pipe, unless bedded in and encased in concrete of not less than 6 inches thickness over any part of the drain, shall be laid at a depth to the socket of the pipe of not less than the following:—

- (a) In public thoroughfares, rights-of-way, or other open spaces subject to vehicular traffic—2 ft. 6 in.
- (b) In private property not subject to vehicular traffic—1 foot.

No person shall alter the surface over any drain so as to deprive it of the minimum depth of cover specified by the preceding paragraph, unless approved measures are adopted to protect the drain.

Section 61. *Laying Drains.*—All pipes shall be laid to such lines and grades as may be shown on the plans or directed, and, except where otherwise ordered, holes shall be cut in the bottom of the pipe trench to receive the sockets of the pipes, and all the pipes shall be carefully bedded with the barrel on the solid ground.

In the case of rock-bottomed trench, or where directed, the pipes shall be bedded up to the horizontal diameter upon not less than 3 inches thickness of approved sand or other approved material measured from the barrel of the pipe.

In water-charged ground, or where the foundation is bad, or near roots of trees, or where directed, the drain shall be formed of cast-iron pipes; or, if of stoneware or concrete pipes, they shall be bedded on and encased in concrete as ordered, and, if ordered, supported upon approved timber foundations as directed.

Drops or bends in vertical or inclined drains shall have a concrete support placed under and around as directed.

Portland cement concrete brought to a smooth surface must be used in each of the following cases:—

- (i) Around and under gully basins, the exposed surfaces to be rendered in cement mortar, two parts sand, one cement.
- (ii) Around the top and for 6 inches below the surface of the ground of vent pipe sockets where exposed.
- (iii) Around the top and for 6 inches below the surface of the ground of disconnexion traps when the surface is exposed.
- (iv) Under and around bends rising vertically off oblique branches, and under all drainage traps.

#### Division 18.—Drains Under Buildings.

Section 62. Every drain shall, as far as practicable, be so constructed as not to pass under any building. Where a drain does pass under a building it shall, if practicable, be laid in a direct line for the whole distance beneath such building, and shall have approved means of access for rodding outside the

walls of the building, and also, if directed, beneath the building. The pipes used shall be of stoneware or concrete, surrounded by not less than 6 inches of concrete or of cast-iron.

In any case in which pipes pass through or under walls, approved provision shall be made to prevent injury to the pipes by settlement, and, in outer walls, to prevent the ingress of vermin.

#### Division 19.—Joints, Drainage.

Section 63. *Stoneware and Cement Pipes.*—Joints of stoneware and cement pipes shall be filled in solidly with cement mortar neatly splayed off, or with other approved material. After each joint is made the interior of the joint shall be wiped clear of surplus mortar before the next pipe is laid.

Section 64. *Cast-iron Pipes.*—All joints in cast-iron pipes must be stemmed with approved gaskets and so filled and caulked with lead or other approved material as to make them gas and water tight.

All connexions between stoneware or concrete pipes and cast-iron pipes shall be made as for joints in stoneware or concrete pipes.

#### Division 20.—Drainage Ventilation.

Section 65. *Vents on Main House Drain.*—The main drain shall be ventilated at its upper end by a pipe ventilator erected vertically, and such ventilator may be a soil pipe.

If the drain is provided with an interceptor trap there shall be in addition a ventilator connected to the interceptor trap shaft.

In such cases there shall, wherever practicable, be a difference in height of not less than 6 feet between the tops of the vents at the upper and lower ends of the drains respectively.

Section 66. *Vents on Branch Drains.*—Branch drains need not be vented if the drainage traps are within 15 feet from the main house drain, measured along the line of pipes, including the drop, if any, from the centre line of the main drain to the centre of the outlet side of the water seal of the drainage trap, unless otherwise ordered by the Authority, in which case they must be vented as directed.

Section 67. *Height of Vents.*—Every vent pipe extending upwards from a soil or drain pipe shall be carried not less than 6 feet higher than any window or door within a distance of 30 feet thereof, and in any case at least 21 feet above ground level and 6 feet above the level of the eaves or coping, or to such additional height as may be necessary to prevent effectually the escape of foul air into any building within the vicinity.

Where the vent pipe extends into a gable of the building it shall further be carried at least 2 feet above the point of intersection with the roof.

Such pipes shall, where necessary, be provided with sufficient clips or stays to support them effectively.

Section 68. *Chimneys.*—No chimney shall be used as a ventilator to any drain, soil, or waste pipe.

Section 69. *Vents near Chimneys.*—Vents must, as far as possible, be kept away from chimneys and ventilating air shafts. Where a ventilator pipe terminates 6 feet or more from a chimney opening or ventilating air shaft, the requirements of section 67 shall apply, but where the distance is less than 6 feet the vent pipe shall, unless otherwise ordered, terminate not less than 2 feet below the top of such chimney or air shaft.

Section 70. *Vents adjoining High Buildings.*—In any case in which a building is erected next to a previously existing building of less elevation, and any windows of the new building are located within 30 feet of any existing vent stack on the lower building, the owner of such new building shall defray the cost of or shall himself make such alterations to the vents of the previously existing building as necessary to conform with section 67.

The owner of the lower or existing building shall make such alterations upon the receipt of money, or security therefor sufficient for the purpose, from the owner of the new or higher building, or shall permit at the election of the owner of the new or higher building, the making of such alteration by the owner of such new or higher building.

Section 71. *Size of Drainage Vents.*—Drainage vent pipes shall, unless otherwise ordered, be of not less than 4 inches diameter in the case of duct vents and not less than 3 inches diameter in the case of induct vents, with the provision that where more than one duct vent is provided the vent on the longest line of drain shall be of not less than 4 inches diameter and all others of not less than 3 inches diameter; but in no case shall a drainage vent be of smaller diameter than necessary to comply with the requirements of section 86.

Unless otherwise ordered or approved every such vent pipe shall be without return bend and provided with basket end or educt or induct cowls as directed.

Section 72. *Materials, &c.*—Drainage vent pipes situated wholly outside of buildings shall be of cast-iron, galvanized wrought iron, double galvanized sheet iron, or other approved material above ground, and of stoneware or concrete beneath the surface of the ground. Galvanized sheet-iron vent pipes

shall not be less gauge than 20 for 3-in. and 4-in. diameter pipes and 18 for 6-in. pipes, and where ordered the first 6 feet above ground shall be of cast-iron or other approved material. Drainage vent pipes inside a building shall, unless otherwise approved, be of cast-iron or of galvanized wrought iron. The circumferential joints of galvanized sheet iron vent pipes shall be riveted and soldered. All galvanized sheet-iron vent pipes used to ventilate the drainage system, or used as anti-siphonage pipes to soil or waste pipes from closets, slop sinks, or urinals, must be coated with hot tar or asphaltum inside before erection.

Section 73. *Gratings.*—Openings for ventilation shall be effectively protected by approved gratings of ample area. The aggregate area of apertures in any such grating shall not be less than the sectional area of the pipe or drain to which such grating is fixed. Every opening for ventilation shall at all times be kept perfectly free from obstruction.

Section 74. *Pipe Clips, &c.*—There shall be at least one pipe clip to each 6-ft. length of vent pipe.

For cast-iron or wrought-iron pipe approved coated wrought-iron clips and for galvanized sheet iron pipe 1½-in. x 14-gauge galvanized band iron clips shall be provided. Wherever it is necessary to fix pipes clear of the wall approved extension clips shall be used.

Clips in the case of cast-iron pipes must be placed tight up against the bead or underside of collar.

Section 75. *Attachment to Walls.*—Where a galvanized sheet iron pipe, with or without offset, is carried up above the brick wall of a building a galvanized wrought-iron clip must be used, leaded into the wall near the top wherever possible and bolted against the vent pipe.

All band iron clips of vent pipes to brick walls shall be fastened with nuts and bolts, leaded in, or by means of T-headed bolts passed through the brick joints and turned at right angles to the joints.

Section 76. *Supporting Vents.*—Wherever a vent pipe with offset is not more than 9 feet long above such offset it need not be stayed; if longer, it shall be stayed as directed with ½-in. galvanized wrought-iron piping.

An unsupported length of 15 feet above highest clip of straight vent pipe without offset will be permitted.

Section 77. *Induct Vents.*—Every induct vent shall be securely supported in an approved manner.

#### Division 21.—Drainage Traps.

Section 78. *Trapping of Inlets.*—Every inlet to any drain other than inlets provided for ventilation in accordance with the By-law shall be provided with an approved trap. No inlets to any drain connecting directly with a sewer shall be constructed within a building other than such inlets necessary for the apparatus of any water-closet, urinal, or housemaid's slop sink.

Section 79. *Classes of Traps.*—Four classes of traps shall be used—

- (a) "Traps" for intercepting gases only, to be of round section and self-cleansing form, but not such as to be empty by momentum or suction.
- (b) "Silt traps" for intercepting both gases and solids, to have slightly tapered sides, flat bottom, and rounded angles, and provided with approved means for catching and removing solids.
- (c) "Grease traps" for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, to be of such form as approved.
- (d) "Oil traps" for collecting all kinds of oil and to be of such form as approved.

The term "yard gully" is applied to traps (a) in cases where they are used externally and fitted with dished tops and gratings. The tops of inlets of all disconnector traps must be at least 6 inches above the surface of the surrounding ground.

Section 80. *Water Seal.*—All traps must have a water seal of at least half the diameter of the outlet pipe, but in no case of less than 2 inches.

Section 81. *Provision of Yard Gullies.*—A yard gully must, wherever practicable, be provided in the yard of every property, as near as practicable to the kitchen or back door, with a tap placed over it at a height of not less than 2 feet. No yard gully shall be situated within a building. Where it is not practicable to provide a yard gully, a slop sink must be provided within the building.

Section 82. *Details of Yard Gullies.*—Yard gullies shall be fitted with dished tops and gratings, the dished top being in one piece with the trap or jointed thereto by spigot and faucet, or as otherwise approved.

The depth of the dished top to the grating must be not less than 6 inches. Grating to gully traps must not be less than 6½ inches over all, and the gratings to all disconnector traps to be convex in section, with openings of suitable outlet capacity. All gratings must be fixed down in an approved manner with bitumen or wedges of lead.

Section 83. *Kerbing, &c., to Yard Gullies.*—Yard gully basins and the dished tops of silt traps must be so surrounded with an approved impervious kerbing as to prevent the access of

surface water to the drains, and, if directed, the wall at the rear of the gully or silt trap, if of brick or stone, must be cement rendered to the height of the tap over same, and if of wood the wall must be provided with an approved galvanized sheet-iron apron. The internal diameter of kerbing around gully traps measured from face of cement rendering must not be less than 15 inches, and must be neatly rounded to meet the gully top.

**PART 4.**  
**PIPE CAPACITIES.**

**Division 22.—Capacities of Soil, Waste, Drain, and Vent Pipes.**

Section 84. *Fixture Units.*—For the purpose of determining the size of any drain, waste, soil, or vent pipe, the following equivalent fixture units shall be adopted, unless otherwise directed, and the nominal outlet diameter shown hereunder shall be the minimum allowed for each of the respective fittings.

Fixture.	Nominal Outlet Diameter.	Fixture Units.
One lavatory basin .. ..	1½ inch ..	1
One lavatory basin .. ..	1½ inch ..	1½
One kitchen sink (up to 6-in. depth to overflow) ..	2 inches ..	3½
One bath .. ..	2 inches ..	5½
One wash trough set with common trap .. ..	1½ inch ..	3½
One wash trough set with common trap .. ..	2 inches ..	5½
One urinal .. ..	2 inches ..	4
One slop sink .. ..	2½ inches ..	3
One slop sink .. ..	3 inches ..	4½
One shower bath .. ..	2 inches ..	3
One water closet .. ..	4 inches ..	6
One bathroom group, consisting of one lavatory basin, one bath, and one shower .. ..	— ..	7

The equivalent fixture units to be adopted for fixtures other than those shown shall be determined by the Authority. One fixture unit denotes a rate of discharge equal to 1 cubic foot per minute.

Section 85. *Sizes of Soil, Waste, and Drain Pipes.*—Except by special permission the required sizes of soil, waste, and drain pipes shall be determined on the basis of the total number of fixture units drained, or likely to be drained, in accordance with the following table:—

Diameter of Pipe (Inches).	Minimum Permissible Grade.	Permissible Maximum Number of Fixture Units.										Vertical.	Maximum Number of Fixture Units permitted to be connected in any 8-ft. length of vertical stack.	
		Grade not less than—												
		1 in 60	1 in 50	1 in 40	1 in 30	1 in 25	1 in 20	1 in 16	1 in 12½	1 in 10	1 in 8

2	1 in 60	..	330	..	370	..	430	..	520	..	590	730	1,100	590

Provided that—

- (a) Waste and soil pipes shall not be diminished in diameter in the direction of flow.
- (b) The diameter of trap, waste, or soil pipe receiving the discharge from any fixture shall in no case be less than the nominal outlet diameter of such fixture.
- (c) No water-closet shall discharge into a drain or soil pipe of less than 4 inches in diameter.
- (d) All connexions between inclined pipes and vertical stacks shall be through 45 degrees junctions.
- (e) Soil and waste stacks shall be as direct as possible and free from sharp bends. Where such are unavoidable approved provision shall, if necessary, be made to safeguard fixtures immediately above and below the bend.

Section 86. *Sizes of Vents.*—(1) Main Vents.—Except by special permission, the required sizes of main vents shall be determined from the size of the soil, or waste pipe, or stack to be vented, the total number of fixture units drained into it, and the developed length of the vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table.

MAXIMUM PERMISSIBLE LENGTH OF MAIN VENTS (IN FEET) FOR SOIL AND WASTE PIPES.

2	Up to 780 ..	..	..	..	..	..	8	37	137
2	Up to 1,100 ..	..	..	..	..	..	7	28	112

Provided that—

- (a) No vent shall be less than 1½ inch in diameter, and in no case shall a vent have a diameter less than one half that of the soil or waste pipe which it serves.
- (b) For 2-in. and 2½-in. waste pipes the vent shall have a diameter of not less than 1½ inch.

(2) *Sizes of Branch Vents.*—The required sizes of branch vents shall be determined from the number of fixture units served by the branch vent and the developed length of the vent from the point of connexion of the anti-syphonage vent from the last fixture served by the branch vent to the outlet to the open air at the upper end of the main vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table:—

Diameter of Branch Vent.	Number of Fixture Units Served by Branch Vent.	Maximum Permissible Length.	Diameter of Branch Vent.	Number of Fixture Units Served by Branch Vent.	Maximum Permissible Length.
1½	Up to 9 ..	55	3	Up to 6 ..	300

2	Up to 37 ..	..	4	37 ..	290
2	Up to 50 ..	..	4	50 ..	244

Provided that—

- (a) Branch vents shall conform to provisions (a), (b), for main vents.
  - (b) No branch vent need be larger in diameter than the soil or waste pipe which it serves.
- (3) *Individual Anti-syphonage Vents.*—The required sizes of individual anti-syphonage vents shall be determined from the diameter of the fixture trap served in accordance with the following table:—

Diameter of Fixture Trap.	Minimum Permissible Size of Anti-Syphonage Vent.	Diameter of Fixture Trap.	Minimum Permissible Size of Anti-Syphonage Vent.

## PART 5.

## PLUMBING.

## Division 23.—General.

Section 87. *Waste Pipes*.—Except by permission of the Engineer, separate waste pipes shall be provided for each of the following classes of polluted water, viz.:—

- (a) Dirty water from baths, sinks, lavatory basins, and wash troughs, and other waters containing a small proportion of soap and/or dirt.
- (b) Greasy water from kitchen and scullery sinks or other fixtures, in such cases where grease traps are ordered or required.

Section 88. *Soil Pipes*.—Soil pipes shall be provided for soil water from closets and other waters containing faecal matter, and for urinal waters from slop sinks and urinals, and, where directed, for discharges from operating theatres and morgues, and in no case shall such waters be discharged into any waste pipe as defined by this By-law, except by permission of the Engineer.

Section 89. *Connections to Drain*.—All waste pipes shall discharge under the grating of a yard gully or into a disconnector trap. All soil pipes, including those for urinals and housemaids' slop sinks, must be connected direct to the drain. No waste pipe shall be laid in the ground outside any building unless by special permission.

Section 90. *Flashing, &c.*—All trough, sinks, and other fixtures which are placed less than 3 inches, and all baths fixed less than 6 inches clear from any wall shall be flashed with 5-lb. lead, 24-gauge copper, bronze, brass, nickel, silver, or monel metal, or other approved material. Galvanized sheet iron may be used for fixtures other than sinks.

All such flashings shall be turned up the walls at least 4 inches, except where the walls are tiled, when the flashings shall be carried up at least 1 inch behind the tiles. Baths and other fixtures having turned-up flanges for use against tiled walls or walls lined with other approved material in lieu of sheet metal flashing shall be properly supported to prevent settlement, and the flange shall lap at least 1 inch behind the tiles or lining, which shall be brought hard down on to the surface of the fixture. All flashing shall be properly secured and made watertight, and shall be bedded for a width of not less than 1 inch along the edge nearer the fixture in red or white lead.

Section 91. *Bib-cocks*.—Internal bib-cocks shall not be permitted unless a sink, lavatory basin, or other approved fixtures, or a properly drained impervious floor, is provided underneath.

## Division 24.—Soil, Waste, and Vent Pipes.

Section 92. *Materials*.—No material shall be used for soil pipes other than cast-iron, lead or brass, and for waste pipes other than wrought-iron, cast-iron, lead, brass or copper.

Section 93. *Lead Pipes*.—The minimum permissible weight of lead for soil, waste, or vent pipes for water closets, urinals, and slop sinks shall be 7 lb. per square foot, and for all other fixtures 6 lb. per square foot.

Section 94. *Wrought-iron Pipes*.—All wrought-iron pipes and their fittings shall be approved standard weight and quality and galvanized or lined to the approval of the Authority.

Section 95. *Cast-iron Pipes*.—All cast-iron pipes shall be sound, free from holes and cracks, and coated with approved bituminous composition, or lined with glass enamel to the approval of the Authority.

Cast-iron pipes and their fittings, where laid in the ground, shall comply with the Australian standard specifications, or in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameter. Cast-iron pipes for use in other situations shall have a minimum thickness of 3-16 inch measured in the case of glass-enamelled pipes without the enamel, and their fittings shall correspond with them in weight and quality. All junctions shall be curved, right-angled junctions shall not be made.

Section 96. *Galvanized Sheet Iron Pipes*.—External vent pipes of galvanized sheet iron shall be of a gauge not less than the following:—

- 1½ inch, 2 inch, 2½ inch diameter—22-gauge.
- 3 inch and 4 inch diameter—20-gauge.
- 6 inch diameter—18-gauge.

Section 97. Where lead, copper, brass, or cast-iron soil or waste pipes are fixed outside a wall for upstairs fixtures, the lead, copper, brass, or cast-iron pipes shall be carried at least 2 feet above the level of the highest fixture attached to the pipe.

Section 98. *Vent Pipes*.—Vent pipes, if inside a building shall in all cases be of cast-iron, wrought-iron, lead, copper, or brass. Grooved, welded, or riveted double galvanized

sheet iron vent pipes may be used where they are entirely outside a building, and shall be connected with the traps or waste or soil pipes, with brass ferrules or other joints approved by the responsible officer of the Authority.

Section 99. *Vents in Shed, &c.*—Galvanized sheet iron vent pipes may be used inside stables or open sheds, except where liable to damage.

Section 100. *Use of Lead Pipes*.—Lead pipes shall not be used, except where exposed to view and/or not liable to damage.

Section 101. *Supporting Lead Pipes*.—Lead pipes shall be supported by cast lead tacks of approved dimensions, wiped on to the pipe or by other approved fastenings, and such fastenings shall be arranged as nearly as possible thus—

4-in. vertical lead pipes—2 ft. 6 in. centres.

4-in. horizontal lead pipes—2 feet centres.

Less than 4-in. vertical pipe—3 feet centres.

Less than 4-in. horizontal pipe—2 ft. 3 in. centres.

Two pairs of tacks, fixed opposite, is sufficient for fixing lead flush pipes from cisterns.

Section 102. *Minimum Permissible Gradients*.—The following are the minimum gradients to be adopted for soil and waste pipes:—

Diameter of Pipe.	Minimum Gradient.
1½ inch	1 in 12½
1¾ inch	1 in 15
1½ inch	1 in 17½
2 inches	1 in 20
2½ inches	1 in 25
3 inches	1 in 30
4 inches	1 in 40
5 inches	1 in 50
6 inches	1 in 60

Section 103. *Length of Unvented Waste Pipes*.—Waste pipes need not be ventilated unless they exceed 10 feet in inclined length or 12 feet in vertical length, provided that there is only one fixture attached to the waste pipe, and provided that the water seal of the trap is not reduced by syphonage or other cause. Where there is more than one fixture, or the water seal is reduced, a vent pipe shall be supplied to the fixture trap or traps.

Section 104. *Junctions*.—Where a waste or soil stack is branched into a graded waste, soil, or drain pipe, the branch fitting shall have an angle of not less than 45 degrees to the horizontal, and the length of the branch of the fitting shall be such that the vertical projection of the attached stack will be wholly outside of the area of the junction with the graded pipe.

Section 105. *Sealing of Pipes*.—Wherever a fixture is abolished, the soil, waste, vent, and water supply pipes to such fixture shall be removed, or, if allowed by the Authority to remain, the ends of the pipes shall be sealed with watertight imperishable materials.

Section 106. *Soil Vent Pipes*.—In all cases the upward extension from the soil pipe for ventilation shall pass in as direct a manner as possible above, and, if necessary, through the roof.

Section 107. *Vent Pipe Grades*.—All vertical lines of vent pipe shall connect, full size, at their bases with a soil, waste, or drain pipe at an angle of not less than 45 degrees to the horizontal, and shall extend in undiminished size above the roof or be connected to the soil, waste, or vent stack, in compliance with the requirements of section 109, on a grade sufficient to avoid the collection of water.

All intermediate bends or offsets shall be at a grade of not less than 45 degrees to the horizontal.

Vent pipes shall not be used as waste or soil pipes.

Section 108. *Anti-syphonage Vents*.—Traps must be prevented from syphoning by proper ventilation, in accordance with the requirements of section 86. Such anti-syphonage vents from fixtures shall be carried above the eaves of the building or joined to the branch or main vent above the level of the fixture, unless special permission to the contrary is granted.

Every vent pipe extending upwards from a waste pipe shall be carried 4 feet above any door or window or other opening into a building within 15 feet thereof and carried at least 1 foot above the eaves or coping or intersection with the roof.

These vent pipes shall be connected to the waste or soil pipe at a point not less than 3 inches nor more than 12 inches from the crown of the trap and on the opposite side of the water seal to the fixture.

Section 109. *Combining of Vents*.—The various vents may be combined by branching together those which serve traps of the same class. The vent pipes may be branched into a soil or waste pipe of the same class above the level of the highest fixture.

Section 110. Where a branch is required to a galvanized sheet iron vent pipe, a brass saddle piece bolted and soldered to the vent must be used.

Section 111. *Sheet Metal Bends and Offsets*.—All sheet metal bends and offsets for flush and vent pipes shall be bent or pressed. Mitred elbows will not be permitted.

Section 112. *Pipes to be Accessible.*—All soil, waste, and vent pipes and traps shall, where practicable, be accessible at all times for ready inspection and convenience of repairing. When placed within partitions or recesses of walls they shall be covered with woodwork or other approved material, so fastened as to be readily removable. No junctions shall be built in except with special permission from the Authority in writing.

Section 113. Concealed standing wastes will not be permitted.

Section 114. *Painting.*—All external plumbers' work and all cast-iron cisterns and brackets, woodwork in connexion with plumbing installations, sheet iron flush pipes, and sheet iron storage tanks and trays, shall be painted, after inspection, to the approval of the Authority.

#### Division 25.—Joints.

Section 115. *Stoneware, Cement, or Cast-iron Pipes.*—Joints of stoneware, cement, or cast-iron pipes shall conform with the requirements of section 63 or 64.

Section 116. *Lead Pipe.*—All joints in lead pipe shall be plumber's wiped joints.

Section 117. *Wrought-iron Pipe.*—The screwed ends and sockets of each particular size of wrought-iron or wrought steel pipe shall be so formed and the threads so cut that the ends of the pipe will butt against each other when screwed home in the sockets; bends, junctions, and similar fittings shall be similarly formed and screwed so that when the pipe ends are screwed home the bore will be continuously uniform and without breaks or pockets. The burr shall be neatly filed off on the inner edge of all pipe ends. All screwed joints shall be made with approved jointing material.

Section 118. *Wrought-iron Pipe to Lead Pipe.*—All joints between wrought-iron and lead pipes shall be made by means of brass unions screwed to iron and wiped to lead.

Section 119. *Brass or Copper Pipes.*—Joints of brass or copper pipes shall be made in accordance with the Australian standard Specification B36—"Compression joints and copper alloy screwed fittings for standard copper tubes."

Section 120. *Lead Pipe to Cast-iron Pipe.*—The connexion of lead pipes or traps to cast-iron pipes shall be made by means of brass ferrules. The brass ferrules shall be lined with and connected to the lead pipe or trap by means of a wiped joint and connected to the cast-iron by inserting ferrule in socket thereof and making the joint in the same way as in cast-iron pipe.

Section 121. *Sheet-iron Pipe to Cast-iron Pipe.*—All connexions of galvanized sheet iron to cast-iron pipes shall be made with molten lead, lightly but tightly caulked in to cast-iron sockets.

Section 122. *Sheet-iron Pipe to Wrought-iron Pipe.*—Galvanized sheet iron pipes shall be connected to wrought-iron pipes by means of brass unions or sleeves soldered to the sheet iron and screwed to the wrought-iron, or by means of a wrought-iron socket screwed to the wrought-iron pipe, into which the sheet-iron pipe shall be lightly but tightly caulked with molten lead.

Section 123. *Sheet-iron Pipe to Lead Pipe.*—Connexions of sheet-iron pipes to lead pipes shall be made by means of brass sleeves wiped to the lead pipe and soldered to the sheet-iron pipe, or by means of a cast lead collar wiped to the lead pipe, into which the galvanized sheet-iron pipes shall be caulked to approval.

Section 124. *Concrete or Stoneware Pipe and Traps to Lead Pipe.*—Connexions of lead pipe to stoneware or concrete pipe shall be made by means of a brass ferrule connected to the lead pipe by means of a wiped joint and connected to the stoneware or concrete pipe by inserting it in the socket thereof and making a cement mortar joint.

The connexion of a stoneware or concrete trap to a lead pipe shall be by means of a cast lead or brass socket, and the joint made with bitumen or other approved material. The lead pipe shall be connected to the tail end of the brass or lead socket by means of a plumber's wiped joint.

Section 125. *Connexion of Closet Pan Traps to Soil Pipe or Drain.*—Connexion of a closet pan to a soil or drain pipe shall be made by means of a bituminous jointing material, consisting of a mixture of approved bitumen and finely graded inert mineral filler in equal proportions, filled in solidly into faucet of soil or drain pipe and neatly splayed off, or by other approved method. In the case of lead soil pipes, a cast lead or brass faucet shall be used and connected to the lead pipe by means of a wiped joint.

Section 126. *Cistern Flush Pipe to Closet Pan.*—The flushing pipe from cistern shall be connected to the water-closet pan by a lead cap piece of not less than 4-lb. lead, packed with red lead or other approved material. The cap piece shall be jointed to galvanized sheet iron, copper, brass, or drawn steel pipe by means of a soldered joint and to lead flush pipe by wiped or soldered joint. The connexion of the flushing pipe to cistern shall be by means of a brass union, wiped to lead pipe or soldered to sheet-iron pipe. Copper or brass pipe shall be connected to cistern by means of a brass ring, with nut brazed to pipe, or by other approved means.

Section 127. *Vent Pipe to Closet Pan.*—Vent pipe shall be connected to the vent horn of water-closet trap by a lead cap piece with red lead packing or by other approved methods. The cap piece shall be jointed to copper or brass pipe by means of a soldered joint and to lead flush pipe by a soldered or wiped joint.

Section 128. *Outlet Fittings to Fittings.*—Connexions between outlet fittings and such fixtures as baths, sinks, basins, &c., when the latter are constructed of cast-iron, plate-iron, ceramicware, or concrete, shall be made with lock nuts. The outlet fitting shall in all cases be connected to the waste pipe by means of a union.

When these fixtures are made of sheet metal lighter than 20-gauge soldered connexions may be used in lieu of lock nuts.

Section 129. *Waste Pipes to Troughs.*—Connexions of waste pipes to wash troughs shall be made as under:—

- (a) Cement troughs, unless otherwise approved, shall have cast-in outlets.
- (b) Sheet-metal troughs shall be connected to the waste pipes in compliance with section 128.
- (c) For wooden troughs, lead, copper, or brass, waste pipes shall have flanges connected to the waste in accordance with the provisions of this By-law, and fastened to the underside of the trough with round-head brass screws. The waste pipe shall then be turned over inside the trough and the plug casting bedded over it with red lead putty and screwed to trough with brass wood screws.

Where wrought-iron or other screwed pipes are used the plug must be connected to the trough by means of a lock nut in lieu of flange.

#### Division 26.—Fixture Traps.

Section 130. *Fittings to be Trapped.*—Every water-closet, urinal, slop or other sink, lavatory or wash basin, bath, wash trough or set of wash troughs, and any other fixture, shall be separately and effectively trapped, unless otherwise specially permitted by the Authority.

Section 131. *Omission of Traps.*—Baths, lavatory basins, wash troughs, and sinks may remain untrapped where fixed in the open air or detached outbuildings not used as a living room, workroom, or room for the preparation, cooking, or storage of food, and not connected directly by openings with the main building or residence. Provided that the length of the waste pipe, measured in the case of wash troughs from the centre of furthest inlet to end of waste pipe outlet, does not exceed 6 feet.

Section 132. *Position of Traps.*—Traps shall be placed as near the fixtures as possible, and in no case shall a trap be more than 2 feet from its fixture, except as provided in section 179, unless otherwise specially permitted by the Authority.

Section 133. *Depth of Water Seal.*—Every trap shall have a water seal of not less than 2 inches.

Section 134. *Closet Pan Traps.*—Outlets from closet-pan traps shall be of not less than  $3\frac{1}{2}$  inches nor more than 4 inches diameter, except in the case of syphonic pans.

Section 135. *Sealed Disconnector Traps.*—Where approved by the Authority, sealed disconnector traps may be fixed outside or inside the building, but in such cases breather pipes or fresh air inlets of the same diameter as disconnector traps shall be taken above the level of the lowest fixture, or to such other height as directed, and when trap is inside shall be led to the outside of the building. The material for such breather pipes shall be the same as for waste pipes; sheet-iron will not be allowed. Inspection openings to such traps shall be sealed with screwed plugs, or as otherwise approved by the Authority.

Section 136. *Form of Trap.*—The "P" form of trap, with joints visible and accessible all round, must, unless otherwise permitted, be used in preference to the "S" form of trap for all internal fixtures wherever practicable. Where the "S" form of trap is used facilities for periodical inspection must be provided.

Section 137. *Materials.*—Traps for fixtures other than closet pans or slop sinks shall be of copper, brass, or lead. All lead traps must be of the weights specified in section 93 for lead pipes of the same diameter.

#### Division 27.—Gratings.

Section 138. Fixtures discharging into waste pipes and all urinals shall have non-corrodible outlet gratings of approved design and material, in accordance with the Australian standard Specification B.38, "Metal alloy sanitary fittings."

#### Division 28.—Cleaning Eyes and Inspection Openings.

Section 139. *Provision for Inspection and Cleaning.*—Sufficient inspection and cleaning eyes shall be provided in such positions on all soil and waste pipes as to be easy of access for proper inspection and cleansing.

Traps for fixtures, other than water closets, urinals and housemaids' slop sinks, shall be provided with approved screwed brass plugs for cleaning purposes fixed under the water line of the trap, unless by permission of the Engineer.

Section 140. *Inspection Openings on Soil Pipes.*—In all cases where the vertical stack of soil pipe provides for closets 4 feet or more above the ground level, measured from floor level of water-closet to ground level at foot of stack, an inspection opening having a cover fixed to a flange with bolts or studs shall be provided in such a position as directed by the responsible officer of the Authority.

*Division 29.—Grease Traps.*

Section 141. *Provision of Grease Traps.*—Every fixture or area from which grease or any other objectionable matter is likely to be discharged or conveyed into waste or soil pipes, or house drains, and every sink in all such places as food-packing houses, butchers' shops, lard rendering establishments, hotels, restaurants and boarding-houses, and such fixtures, areas, apparatus, or appliances as the Authority may direct, shall first discharge into an approved apparatus for preventing the objectionable matter from reaching the soil pipe or drain. Such apparatus shall be of such dimensions, design, and construction and in such position as the Authority, or its responsible officer, may in each case approve.

Section 142. *External Grease Traps.*—Every grease trap shall be fixed outside the premises whenever practicable, and (if not portable) shall be of glazed stoneware, concrete, slate, or brick in cement, and the outlet shall be connected to the drain through a disconnector trap.

Section 143. *Internal Grease Traps.*—Wherever a grease trap is used inside a building it shall be so fitted as to be easily removable, and, if directed, fixed upon a tray. All internal grease traps shall be of copper or other approved material, provided with a close fitting cover, and shall be independently ventilated as required by the Authority, or its responsible officer.

Section 144. *Grease Trap Ventilation.*—Every grease trap shall have provision made for inlet and outlet ventilation if and as directed by the Authority or its responsible officers.

Section 145. *Size of Grease Trap.*—The dimensions of grease trap to be provided shall be such as to ensure the congealing and retention of all grease entering such trap.

The minimum size for grease traps serving kitchen sinks and/or mechanical dishwashers shall be as follows:—

- (a) The capacity of the grease trap below the level of the invert of the outlet shall be not less than the total capacity of the sinks and/or dishwashers served.
- (b) The depth from top of grease trap to invert level of outlet shall be not less than half the depth of the trap below the invert of the outlet.
- (c) The difference in level between invert of inlet and invert of outlet shall not be less than one-eighth of the depth of the trap below the invert of the outlet.

The capacity of a sink shall be measured to the overflow level or, in the event of there being no overflow, to the top of the sink.

The capacity of the dishwasher shall be taken as the capacity of the sump or water container.

The size of grease traps in ordinary cases must be as nearly as possible the following, viz.:—Portable copper, 21 inches in length; stoneware or cement concrete, 27 inches in length; or otherwise as ordered by the Engineer.

Section 146. *Outlet Pipes.*—The outlet pipe from any grease trap must be at least one size larger than that size of pipe which has a cross sectional area equivalent to the total area of incoming waste pipes. In no case, except by special permission, shall the outlet pipe be less than 3 inches diameter for grease traps of copper or other approved metal and 4 inches for stoneware.

Section 147. *Maintenance.*—Every grease trap shall be maintained by the occupier at his own expense, and shall be cleaned at such intervals as may be necessary to ensure that such trap operates in an efficient and hygienic manner.

*Division 30.—Water Closets and Flushing Apparatus.*

Section 148. *Water-closets, General.*—At least one water-closet shall be provided for each house or building within a sewered area, and also in such other cases as may be directed by the Authority.

In every shop, factory, office, flat, or building containing more than one tenement, at least one water-closet shall be provided for the use of the occupier of each tenement, or as otherwise directed by the Authority, and shall be so placed, either within or without such building, as to ensure the due observance of decency and to be easily accessible to the occupiers.

Section 149. *Water-closets at Hotels, Shops, &c.*—In hotels, offices, lodging-houses, shops, and, if so directed, in any other premises, closets for different sexes shall not adjoin each other unless separated by a soundproof wall of such material and of such thickness as shall be approved by the Authority.

Section 150. *Water-closets for Factories.*—The owner of any building which is used for the purpose of a factory shall provide water-closets for the use of employees at such building in accordance with the Factories Act.

Section 151. *Light, Ventilation, &c., for Water-closets.*—Except as herein provided in section 152, every water-closet in a building shall comply with the following conditions:—

- (a) One of its sides at least shall be an external wall of such building, abutting on to a street or lane or an open space of not less than 100 square feet in area, such space being portion of the premises.
- (b) It shall not be entered directly from any room used for human habitation or for the manufacture, preparation, or storage of food for human consumption, or used as a factory, workshop, or work place. In cases where otherwise such closet would be directly entered from any such room, an ante-chamber, or airlock having a floor area of not less than 20 square feet shall be provided and effectively lighted, and shall be ventilated by an air shaft or some approved method to the open air. The doors of such closet and ante-chamber or airlock shall be close fitting and self closing, and all internal walls constructed of brick or other approved airtight material, extending the entire height from floor to ceiling. For closets in private residences opening on to a well-lit and well-ventilated hall, passage, lobby, or staircase, no airlock is required, but where these conditions do not exist the airlock as above shall be provided.
- (c) Each water-closet apartment, ante-chamber, or airlock shall be provided with adequate means of constant fresh air ventilation, and shall be lighted by a window or glazed louvres of not less than 2 square feet of clear light area per water-closet, opening directly into external air. The effective area provided for outlet ventilation of each water-closet apartment, ante-chamber, or airlock shall be not less than 27 square inches, and where the level of the floor of the water-closet apartment is lower than the outside surface of the ground exhaust ventilation shall be provided by means of a tube of at least 6 inches diameter, carried up through the roof and furnished with a cowl. Approved provision for inlet ventilation shall be made as near the floor level as possible.
- (d) The floors of all water-closet apartments shall be constructed of concrete of not less than 4 inches thickness, or of other approved impervious material, and graded as directed, or they shall be provided with lead safes in accordance with the requirements of sections 184, 185, and 187. The frame of every wooden closet shall be securely fastened to the floor and made rigid, without attachment to fences.
- (e) Each closet apartment shall be not less than 3 feet wide and 5 feet long, inside measurements, and the walls shall be at least 7 feet high at the lowest part.

Section 152. *Mechanical Ventilation and Artificial Light.*—Subject to the approval of the Authority in writing the requirements of section 151 may be waived, provided that the following conditions be complied with, viz.:—

- (a) In every such case a mechanical system of exhaust ventilation in duplicate, approved by the Authority, and capable of changing the air contents of such water-closet eight times per hour shall be installed in connexion therewith.
- (b) Upon completion the owner or his representative shall carry out such tests of the mechanical system referred to as the Authority may deem necessary.
- (c) Such mechanical system shall at all times be under the continuous supervision of one or more properly qualified persons, and shall be continuous in operation.
- (d) Any such mechanical system shall be open to inspection by the Authority at all reasonable times, and shall be subject to such tests as the Authority shall from time to time direct. The air and pipe shafts shall be readily accessible, and shall have a minimum width of 2 ft. 6 in. and a minimum area of 12 square feet.
- (e) The failure of any such mechanical system at any time to pass such tests shall be an offence by the owner of such a building against this By-law, and the owner thereof shall also, in respect of such failure, be guilty of an offence against this By-law.
- (f) Every such water-closet shall be provided with an efficient system of electric lighting to the approval of the Authority, and same shall be maintained at all times in good working order.

Section 153. *External Water-closets.*—The area of any external water-closet must not be less than 13½ square feet, with a minimum internal dimension of 3 feet inside measurements. The minimum heights to be not less than 8 feet at back and 7 feet at front, measured from the floor to the top of wall plate. The floors of all water-closets must be constructed of concrete, tiles, or other approved impervious and non-absorbent material. Seats must be either flap or hinged tip-up.

External closet doors to be saw-toothed on top and a space of 3 inches left between bottom of door and floor, or other approved means of ventilation provided.

In wooden water-closet buildings the bottom plates and plinths must be of approved timber. In repairs to studs they shall be cut to sound timber with a new plate, supported on a concrete dwarf wall extended up from the floor level.

Section 154. *Fixing Closet Pan.*—On concrete floors, or floors of tiles set in concrete, the closet pan shall be securely bedded upon concrete or cement mortar and fixed with brass screws to approved lead dowels set in the floor. Where the floor is of timber covered with an approved impervious material the closet pan shall be secured to the timber by means of brass screws as directed or by other approved means.

Section 155. *Closet Pans.*—Every water-closet shall be furnished with a pan of non-absorbent material of such shape, capacity, and construction as approved by the Authority. Water-closet pans and fittings thereto shall be entirely open to inspection and without any enclosure. Vent horns shall be provided on all pans, even if no anti-syphonage vent is required. If not used for a vent such vent horn shall be sealed with a lead disk, bituminous filler, and a lead cap piece, or by other approved method.

Section 156. *Closet Pan Seats.*—Except as approved by the Authority, all hinged closet pan seats shall be not less than 1 inch in thickness and constructed of approved material. When constructed of wood, four-piece seats shall be glued and either doweled or bolted, and one-piece seats shall be reinforced with two wood or brass slips let in flush on the underside. To prevent fouling of pan, the closet seat openings must not be larger than 10½ inches x 9 inches, and seats with holes so large as to cause fouling of the pan must not be used. Pans must measure at least 12 inches between the lower edge of the front and back faces of flushing rims. Water-closet seats must be provided with approved buffers to prevent damage to the pan, and an approved buffer clip must be fixed to the flush pipe at a suitable height from the pan.

Section 157. *Flushing Apparatus.*—Approved apparatus shall be provided for the effective application of water to the pan of the water-closet and for the efficient flushing and cleansing of the pan and effective removal therefrom of any solid or liquid matter which may from time to time be deposited therein. Such apparatus shall have a flushing capacity of not less than 2½ gallons, and shall be so constructed, fitted, and placed as to supply water for use in the pan without any direct communication with any service water pipe upon the premises.

Section 158. *Flushing Cisterns.*—Flushing cisterns shall be fixed at such height as will effectively flush the pan; but, except by special permission, no cistern shall be fixed at a less height, measured from top of seat to bottom of cistern, than 5 feet where 1½-in. flush pipe is used or 4 feet where 1¼-in. flush pipe is used. There shall be a distance of at least 9 inches between top of cistern and ceiling of closet.

Every cistern shall have a separate stop-tap and an overflow of ½-in. internal diameter, and shall be fixed to cistern boards not less than 12 inches deep and 1½ inch thick, or fixed in other approved manner.

Water supply pipes to cisterns shall be adequate to fill any cistern at the rate of not less than 1 gallon per minute.

Section 159. *Flush Pipes.*—Flush pipes to closet pans shall be of brass, copper, 6-lb. lead, galvanized-iron of not less than 22-gauge, or other approved material, and shall have a minimum diameter of 1¼ inch.

Section 160. *Flushing Apparatus Other than Cisterns.*—Notwithstanding anything contained in this By-law, closet pans in any building may be flushed by means of any apparatus which—

- (a) automatically controls the amount of water used, and/or
- (b) is approved by the Authority.

Section 161. *Storage Tanks.*—Except where otherwise allowed by the Authority, on request in writing, by the owner accepting all responsibility in the matter, internal water-closets shall be provided with storage tanks capable of holding 6 gallons of water for each occupant of the building, with a minimum of 60 gallons per closet for all buildings except private residences, which shall have a minimum capacity of 30 gallons. These tanks may be of 22-gauge galvanized sheet iron, or 24-gauge corrugated iron.

Unless otherwise directed by the Authority, the storage tanks may be placed in the water-closet apartment itself, on the roof over a flat or gutter, or in an accessible place between the ceiling and the roof, in which latter case a safe of galvanized-iron, lead, or other approved impervious material, with overflow, shall be fixed under the storage tank.

Section 162. *Venting Closet Pans.*—Unless otherwise directed or permitted, every closet pan on an upstairs floor shall discharge into a soil-ventilator pipe, except that any closet pan on a floor which is not more than 8 feet in height from the ground surface level may be ventilated by an anti-syphonage vent only, in accordance with the requirements of sections 86 and 108 and discharge into a soil pipe without extension as a ventilator pipe; provided that no fixtures at a lower level are connected to such soil pipe.

Any closet pan where ordered, and, also, unless otherwise directed, every internal closet pan which is more than 4 feet from a fully vented soil pipe drain as measured along the axis of the pipe between the centre of soil pipe and centre of pan, shall be ventilated by an anti-syphonage vent in accordance with the requirements of section 86 sufficiently close to prevent syphonage, and in no case more than 18 inches from the trap. Notwithstanding the above, all "S" trap pans must be provided with anti-syphonage vents.

Section 163. *Grouped External Closets.*—Where there are more than three external water-closet pans grouped on the ground floor or in the yard of any premises special provision must be made to prevent syphonage.

#### Division 31.—Urinals and Flushing Apparatus.

Section 164. *Urinals, General.*—Every urinal on premises licensed for the sale of fermented or spirituous liquors, and on premises used as a factory, workshop, work place, manufactory, shop, office, or school where persons of the male sex are employed or in attendance, shall be of such size as the Authority requires. Provided that when the number of persons of the male sex does not exceed ten, a urinal need not be fixed if the closet has a pedestal pan with a hinged tip-up weighted seat.

Section 165. *Internal Urinals.*—The positions, approaches, arrangement of lighting, ventilation, &c., for internal urinals shall comply as nearly as possible with the provisions as to internal water-closets.

Section 166. *Details of Construction, &c.*—Except by special permission, only round-backed stall type urinals of approved impervious material shall be used. The soil pipes shall be of lead, stoneware or glass enamelled or coated cast-iron, or other approved material, shall be kept as short and free from bends as possible, and shall be trapped. Inspection openings shall be provided on soil pipes as directed, with clamped covers. The urinals shall be provided with approved flushing apparatus and a hose tap shall be provided in a suitable position for hosing down.

Section 167. *Treatment of Floors.*—The floor in front of a urinal shall be covered with approved impervious material for a width of not less than 2 feet, or, if raised above floor level of urinal apartment, not less than 1 ft. 6 in., and graded to drain to urinal.

*Impervious Materials.*—The following materials will be considered impervious:—

- (a) For urinals: Glazed fire clay or salt glazed stoneware.
- (b) For floors in front of urinals: Glazed tiles set in cement mortar (composed of equal parts of cement and sand), concrete 6 inches thick rendered with ½-in. thick cement mortar, slate, marble or asphaltum.

Section 168. *Flushing Apparatus.*—Pull and chain flushing cisterns or other approved apparatus operated by hand shall be fixed on all urinals except where automatic flushing cisterns are permitted or directed by the Authority.

Section 169. *Flushing Cisterns.*—The discharge from a cistern shall be equal to 1 gallon for each urinal stall, except where otherwise allowed by the Authority, but in no case shall larger than a 3-gallon cistern be used.

The height of a cistern shall, unless otherwise allowed by special permission, be at least 8 feet from the floor to the top of the cistern. The cistern shall be so fixed that the ball tap is accessible.

A separate stop tap shall be provided for each urinal cistern.

Section 170. *Flush Pipes.*—Flush pipes for urinals shall be of brass or copper with gunmetal fittings, and shall have a minimum diameter of 1¼ inch, except that flush pipes for automatic flushing cisterns generally shall not exceed—

- for 1-gallon cistern, ¾-in. internal diameter,
- for 2-gallon cistern, 1-in. internal diameter,
- for 3-gallon cistern, 1¼-in. internal diameter,

with branches as directed by the responsible officer of the Authority.

#### Division 32.—Housemaids' Slop Sinks.

Section 171. *General.*—Housemaids' slop sinks shall be made in one piece of approved impervious material and provided with approved flushing apparatus of 2-gallon capacity.

Section 172. *Ventilation, Light, &c.*—Housemaids' slop sinks shall be so placed and ventilated as to comply with the requirements for water-closets as set out in sections 151 (a), (b), and (c), and 162.

Section 173. *Bibcock over Slop Sink.*—A bibcock shall be fixed directly over a housemaid's slop sink and at least 18 inches above such sink. A pedestal pan must be used wherever combined water-closet, housemaid's slop sink, and internal urinals are required, and in such case must be provided with hinged tip-up seat. A lead safe of suitable area must be fixed under the pan.

**Division 33.—Wash Troughs.**

Section 174. *General.*—Wash troughs shall be of approved pattern and material, securely fixed and graded to outlet pipe, fitted with brass strainer sunk to level of bottom of trough.

Section 175. *Support for Lead Waste Pipe.*—Where the distance between outlets on troughs exceeds 21 inches and lead waste pipe is used, the pipe shall be supported either by a lead tack wiped on the top of the pipe or by a wooden block screwed to the bottom of the trough and clamped to the pipe.

Section 176. *Troughs Abutting Against Brick Wash Coppers.*—Wherever the end of a wash trough abuts against the brickwork of a wash copper the space between the end of trough and the brickwork shall be filled with approved water-proof material.

**Division 34.—Sinks, Baths, Showers, and Lavatory Basins.**

Section 177. *Sinks.*—All new sinks shall be fixed on brackets and traps and wastes left readily accessible.

Section 178. *Galvanized Sheet-iron Baths.*—The bottoms of galvanized sheet iron baths shall be effectively supported. Such baths shall not be enclosed. Longitudinal joints in the bottoms of baths shall not be permitted. Where it is necessary to fix new wastes to galvanized-iron baths, the bottoms of which are unsupported, efficient supports for the bath must be provided before the wastes are fixed.

Section 179. *Bath Traps.*—Where a bath trap is fixed on the outside of a wall it shall in no case be more than 3 feet from the outlet of the bath, unless by special permission of the Authority.

Section 180. *Showers.*—All showers on the ground floor, except in the case of a wooden floor covered with sheet metal, shall be provided with a 4-in. stoneware or concrete trap, fitted with brass grating. All showers above the ground floor and those discharging on to a wooden floor covered with sheet metal shall be provided with drainage in accordance with the requirements for baths.

The floors of shower compartments shall be well graded to the trapped outlet and shall be constructed of not less than 4 inches of concrete, trowelled smooth or covered with tiles set in cement mortar, or of other approved impervious materials, or if constructed of timber shall be covered with enamelled cast-iron, approved non-corrosive sheet metal or other approved material turned up at the edges and flashed in accordance with the requirements of section 90.

The walls of shower compartments shall be constructed of brickwork or concrete, cement rendered to a smooth finish or covered with tiles set in cement mortar or of other approved impervious materials, or if constructed of timber shall be lined with approved non-corrosive sheet metal or other approved impervious material and with impervious joints.

Section 181. *Venting of Lavatory Basins.*—All lavatory basins placed singly shall be provided with anti-siphonage vents.

In ranges of lavatory basins, ventilation by means of a single vent pipe at the upper end of the range will be permitted, provided that the vent and main waste pipe are sufficiently large to prevent siphonage.

Section 182. *Tip-up Basins.*—Tip-up lavatory basins shall not be permitted.

**Division 35.—Safes and Overflows.**

Section 183. *Safes, Where Directed.*—Safes of lead or other approved impervious material shall be fitted under housemaids' slop sinks and internal water-closets, and in such other positions as directed.

Section 184. *Lead Safes in Water-closets, &c.*—All lead safes shall be laid with sheet lead weighing not less than 5 lb. per square foot, and where the whole floor is not covered with lead the safe shall extend 12 inches beyond the sides and 15 inches beyond the front of the pan, measured from the outside of the basin, and shall extend back to and 3 inches up the wall and over flashed, if directed. The roll of such safe shall be 2 inches wide and  $\frac{1}{2}$  inch high. In the case of baths, sinks, and lavatory basins, the lead, where directed, to extend 6 inches beyond the ends or sides, measured from the extreme edge of the fitting, and to be carried back to and up the wall as for closets.

Section 185. *Safe Overflows.*—Unless otherwise permitted, every safe shall be drained by a separate 2-in. diameter pipe, provided at the inlet with a brass grating and at the outlet into the open air with a flap valve of brass or other approved metal, and shall not connect with any waste pipe, soil pipe, drain, or sewer.

Section 186. *Cistern Overflows.*—Every cistern supplied with water shall, unless otherwise approved, have an overflow pipe of adequate size discharging in a position where it will not cause damage, but where it will act as a warning pipe. On ground floors where cisterns are fixed over impervious floors graded to drain outside of the room the overflow may discharge on to such floors, provided no damage is likely to arise therefrom.

Section 187. *Discharges from Overflows.*—Overflows may discharge into the open air above ground floor level only when the discharge will not cause any inconvenience or nuisance. In all other cases the pipes must be brought to the ground surface or be arranged to discharge where they will not prove a source of annoyance or inconvenience.

Section 188. *Existing Floors.*—Where necessary, in the opinion of the responsible officer of the Authority, every existing floor under a fixture shall be regraded and a proper waste pipe, and, if directed, a flap valve fixed.

**Division 36.—Existing Fixtures.**

Section 189. All existing fixtures, fittings, and appliances not in accordance with this By-law which the owner may desire to retain unaltered, and which, in the opinion of the Authority, will be inoffensive, may at the distinct request in writing of the owner only remain unaltered until such time as the Authority shall otherwise order. Existing fixtures, fittings, and appliances which, in the opinion of the Authority, are offensive shall be removed at once.

**PART 6.****WATER SUPPLY.**

Section 190. *Supply of Water to Fixtures.*—All water closets, polluted areas, and other plumbing fixtures shall be provided with a sufficient supply of water for flushing purposes to keep them at all times in proper and cleanly conditions.

Every owner of property who desires, or has been ordered by the Authority, to provide sanitary appliances for his own property and to connect his property with the sewers of the Authority, shall before or at the commencement of the work of making such connexion, provide piping approved of by the Authority for the conveyance of water, and shall cause the piping to be joined at the most convenient water supply main, or, with the permission of the Authority, to some pipe already joined to the main. Such piping shall be of capacity sufficient to supply all sanitary fittings on the property freely and continuously, and convey to the flushing cistern, flushing tank, or other flushing apparatus of each water-closet on the property enough water to fill the same at a rate of not less than 1 gallon per minute, and the owner shall cause such piping to be connected with the cistern before the completion of the work.

The water supply to any fixture shall be so arranged that there shall be an actual physical discontinuity between the water stored or used in any such fixture and that in the water service pipe.

Section 191. *Material, Condition, Capacity, &c., of Water Supply Piping.*—The entire length of the water supply piping from its connexion with the water supply main to the water-closet flushing cistern or other fixture shall be such as is, in the opinion of the Authority, suitable in regard to material, condition, and capacity to convey a sufficiency of water for the sanitary requirements of the particular tenement.

The owner shall keep the piping from becoming, whether by reason of corrosion or other cause, of insufficient capacity to fill the flushing cistern, storage tank, or other flushing apparatus at the rate of not less than 1 gallon per minute.

Section 192. *Fixtures Not connected with Sewers.*—No water service pipe shall be laid to supply any fixture in any property in any sewerage area unless such fixture is connected with the sewers of the Authority, or unless special permission in writing has been previously given to lay such service pipe.

Section 193. *Storage Tanks.*—Water supply pipes to storage tanks for internal closets shall be of not less than  $\frac{1}{2}$ -in. diameter and be provided with stop taps and high-pressure ball valves, except where the elevation of the storage tank is not sufficient to allow of high-pressure ball valves being used. In such cases the permission of the Authority shall be obtained to fix low-pressure ball valves. Where the head of the water supply of the storage tank to the flushing cistern is less than 20 feet, a low-pressure ball valve shall be provided to the cistern.

Outlets from storage tanks shall not be less than  $\frac{1}{4}$  inch for one or two cisterns, and 1 inch for three to six cisterns.

Wherever a larger number than six cisterns is fixed, the size of the outlet shall be proportionally increased. The overflow from a storage tank shall be  $1\frac{1}{2}$  inch in diameter, and a stop tap shall be fixed on the rising supply pipe to the tank.

Full way gate valves shall be provided between storage tank and flushing apparatus.

Section 194. *Supply Pipe Connexion with Flushing Cistern.*—In all water-closets, where directed, a piece of lead or copper pipe not less than 12 inches in length shall be used between the flushing cistern and the supply pipe.

The foregoing By-law was made and passed by the Maffra Sewerage Authority at a special meeting held on 18th February, 1941, and confirmed at a subsequent special meeting of the Authority held on the 18th March, 1941.

In witness whereof the common seal of the said Authority was affixed hereto, in the presence of—

(SEAL) A. A. MATTHEW, Chairman.  
A. H. LESLIE, Member.  
H. F. DONALD, Secretary.

Approved by the Governor in Council,  
30th June, 1941.

C. W. KINSMAN,  
Clerk of the Executive Council.

## RULES UNDER THE JUSTICES ACTS.

## SELECTION BY A LAW OFFICER OF THE PLACES AND THE DAYS AND HOURS FOR HOLDING COURTS (WITHIN THE MEANING OF THE SAID ACT).

I, THE undersigned, Henry Stephen Bailey, a Law Officer of the State of Victoria, in pursuance of the powers conferred upon me by Rule 2 of the Justices Act Rules 1936 (No. 2), do hereby select for the remainder of the year 1941, from the places appointed by the Governor in Council for holding Courts of Petty Sessions referred to in Rule 1 of the said Rules the place named in the Schedule below, as a place for holding a Court within the meaning of the said Rule 2: And I do hereby with respect to such place from the days and hours appointed by the Governor-in-Council for holding Courts of Petty Sessions further select the days and hours set forth in the said Schedule opposite the name of the said place as the days and hours at which the said Courts shall be held.

## Transport Regulation Acts.

## TRANSPORT REGULATION BOARD.

## NOTICES OF PUBLIC HEARINGS.

NOTICE is hereby given that the applications made by the persons named below for renewal on expiry on the 26th July, 1941, of full-term licences to operate commercial goods vehicles in the manner provided in the said licences, the numbers of which are set out in each case, will be heard at the Exhibition Buildings, Rathdown-street, Carlton, at 2.15 p.m., on Wednesday, the 9th July, 1941:—

## Name; Licence No.

WILLIAMS, F.; D.877, D.878.  
GLOVER, H.; D.147, D.148.

NOTICE is hereby given that the applications made by the persons named below for licences to operate the commercial goods or passenger vehicles on the route or routes or in the manner set out opposite their names will be heard at a time and place to be communicated to the parties:—

## Name of Applicant; Nature of Application.

MCCANN, N. A. G.; 1 commercial passenger vehicle for the carriage of passengers, mails, and parcels between Picola and Barmah.

HUMPHREY, E. C.; 1 commercial passenger vehicle, with seating capacity for 6 persons, for the carriage of passengers and mails between Piangil and Robinvale.

VAN DAMME, J. M.; 1 commercial goods vehicle as an additional vehicle under the terms of a Group 2 Road Contractor's licence.

REGULATIONS FOR THE CARE, PROTECTION, AND MANAGEMENT OF THE ALEXANDRA PARK RESERVE.

WHEREAS by the 181st section of the *Land Act 1928* power is given to the Board of Land and Works to make Rules and Regulations for the care, protection, and management of all public parks and reserves not conveyed to and vested in trustees, and for the preservation of good order and decency therein, and also for the collection and receipt of tolls, entrance fees, and other charges for entering therein or thereupon: Now therefore the Board of Land and Works, in pursuance of the powers conferred as aforesaid, doth hereby make the following Regulations in respect of the land permanently reserved by Order in Council of 13th April, 1887, as a site for Public Recreation and Water Supply purposes in the Town of Alexandra, and of the land temporarily reserved by Order in Council of 14th June, 1910, as a site for Public Recreation and Water Supply purposes, together known as "Alexandra Park Reserve."

REGULATIONS.

1. The divisions into which the Reserve, with the buildings and other erections and fences thereon, is parcelled out, are as follow:—

- (a) The bathing premises constructed on the Reserve and known as the Alexandra Baths, hereinafter referred to as the Baths.
- (b) The Tennis Court premises constructed on the Reserve.
- (c) The Bowling Club premises.
- (d) The Croquet Club premises.
- (e) The remainder of the Reserve.

2. The Reserve shall remain open to the public from sunrise to sunset, free of charge, except as hereinafter provided.

3. The Committee may set apart the Reserve or any portion thereof on not more than 30 occasions in any one calendar year for the purpose of holding fêtes, carnivals, tennis exhibitions, tennis matches, entertainments, musical performances, shows, sports, or holiday amusements, on any of which occasions the Committee may fix and determine a fee or charge not exceeding 2s. 6d., which may be charged and taken for the admission of any adult person to the Reserve or the portion thereof so set apart as aforesaid.

4. The Committee may on any occasion on which the Reserve or any part thereof is set aside as aforesaid let the Reserve or the portion so set aside as aforesaid (as the case may be) to any club, association, or person for the purpose of holding fêtes, carnivals, tennis exhibitions, tennis matches, entertainments, musical performances, shows, sports, or holiday amusements, subject to the payment of such fees and on such terms and conditions as it may deem reasonable and consistent with these Regulations, and may authorize any such club, association, or person to make a charge not exceeding the amount fixed under clause 3 hereof for admission thereto.

5. No person except the Committee or its officers or employees while on duty shall enter any part of the Reserve when a charge is made for admission without first paying the fees chargeable for admission.

6. The Committee may set apart any portion of the Reserve for the purpose of any game or sports or for athletic training or other physical recreation or for picnics, and grant to any club, association, or person the use of the portion so set apart subject to the payment of such rent and fees and on such terms and conditions as it may deem reasonable and consistent with these Regulations, and may authorize any club, association, or person to make a charge for admission thereto as provided in these Regulations.

7. No club, association, or person shall in the Reserve at any time hold or take part in any organized game, sport, or athletic pastime of any description save with the written consent of the Committee, and in such part (if any) of the Reserve as may from time to time or at any time be set apart by the Committee for that purpose.

8. No club or association of any kind having for its object physical recreation or any member or members of any such club or association, nor any other person, shall play, exercise, train, or engage in any game, sport, or athletic exercise within the Reserve without the permission, in writing, of the Committee first had and obtained, unless any such person is at the time of playing a member of any club or association which is duly authorized by the Committee in that behalf. Provided that any person not otherwise offending against these Regulations may enter on the Reserve and play tennis, bowls, and croquet thereon on paying to the club or association for the time being leasing the Reserve or any portion thereof, or to the Committee, a reasonable amount as a court fee.

9. The Committee may from time to time or at any time fix a scale of fees which may be charged and taken by the Committee or any club, association, or person to whom the Reserve or any part thereof may be let under clause 4 hereof for admission to the Reserve or any part thereof, and/or for playing any game or games in the Reserve. Provided always that the amount payable by any one person hereunder during any one day shall not exceed the sum of Two shillings and six pence.

10. No person shall park any motor car, motor cycle, or other vehicle within the Reserve except at such place or places (if any) as are set apart for the purpose, and any person using

any such place for parking any motor car, motor cycle, or other vehicle shall on demand by any officer authorized by the Committee pay such fee as is from time to time fixed by the Committee, not exceeding Two shillings and six pence per day, in respect of such motor car, motor cycle, or vehicle for the use of such parking area, on such days only as a charge for admission is being made as provided hereinbefore in clause 3, and no person shall take or drive any carriage, cart, or any other vehicle drawn by a horse or horses or other animal or animals into the Reserve without the permission of the Committee, and no horse or other animal drawing any such carriage, cart, or other vehicle shall, whilst in the Reserve, be detached or unharnessed therefrom or left without a person in charge thereof except within the area set aside for the purpose.

11. No person shall take or place or permit or suffer to be taken or placed in or to be in or graze or wander upon the Reserve any cattle, without the consent, in writing, of the Committee first had and obtained. Provided always that any moneys received by the Committee for agistment shall be expended in the maintenance and improvement of the Reserve and that an account thereof shall be furnished annually to the Board of Land and Works. In this and the next succeeding clause the word "cattle" shall have the same meaning as in the *Pounds Act 1923*.

12. The owner of any cattle that are found on any part of the Reserve (with or without any person having charge thereof), save in pursuance of and in accordance with the terms and conditions of any consent, in writing, given by the Committee in that regard, shall be guilty of an offence against these Regulations, and in addition the Committee may impound any such cattle, and shall for the purpose of any law now or hereafter to be in force relating to the impounding of cattle be deemed the owner and occupier of the Reserve.

13. Notwithstanding anything herein contained, the net amount received by the Committee under these Regulations in respect of the Reserve, after providing for any expenses and disbursements in connexion therewith, shall be used and appropriated towards the maintenance and improvement of the Reserve, and an account thereof shall be made annually to the Board of Land and Works.

14. Persons renting or hiring any stand, building, erection, or enclosure on the occasions of any fêtes, carnivals, tennis exhibitions, tennis matches, entertainments, musical performances, shows, sports, or holiday amusements may be required to deposit with the Committee any sum not exceeding £20 which the Committee may at any time determine by way of guarantee that due care shall be taken of such stand, building, erection, or enclosure, or any thing contained therein, during such occupancy or hiring, and deduct the cost of making good any loss or damage from the sum of money deposited by way of guarantee, and all persons so renting or hiring shall abide by these Regulations and by any order given by the Committee.

15. No person shall enter any building in the Reserve without the permission of the Committee, and any person having entered such building shall forthwith leave the same on being requested so to do by any member of the Committee, a member of the Police Force, or a Crown lands bailiff.

16. No person shall—

- (a) in the Reserve, behave in a riotous, indecent, offensive, threatening, insulting, violent, quarrelsome, or disorderly manner, or use any threatening, abusing, obscene, indecent, or insulting words;
- (b) enter into or remain in the Reserve while in a state of intoxication;
- (c) sell or offer for sale in the Reserve any goods, wares, or merchandise, or bring any intoxicating liquor into the Reserve without the consent, in writing, of the Committee first had and obtained;
- (d) obstruct or hinder or do any act in any portion of the Reserve which may be likely to injure, endanger, annoy, inconvenience, or interfere with any person in the Reserve;
- (e) climb, jump on, or get on or over any roof, building, gate, or fence in or around the Reserve, or stick bills or advertisements thereon, or in any way cut, mark, deface, or otherwise damage or injure any of the buildings, furniture, fittings, gates, stiles, fences, seats, or other structures in the Reserve;
- (f) cut, pluck, damage, break, destroy, or in any way interfere with any trees, shrubs, flowers, or plants, or interfere with or enter in or upon or climb, jump, or walk on or over the beds or borders of any garden or garden plot or lawn in the Reserve;
- (g) leave or place any bottle, broken glass, paper, orange peel, banana skin, food, refuse, or rubbish whatsoever in the Reserve except in the receptacles provided for the purpose, or roll or throw stones or missiles of any kind therein, or leave or place anything therein that might be likely to injure any person;
- (h) light or attempt to light any fire or burn or attempt to burn any substance whatsoever in the Reserve, except at such places as are set apart for that purpose by the Committee;

- (i) carry or discharge any firearms or airguns in the Reserve, or shoot, snare, or destroy any game, animals, or birds therein;
- (j) bet in the Reserve without the consent, in writing, of the Committee first had and obtained;
- (k) expectorate on the paths or in or on any building, structure, or erection in the Reserve;
- (l) erect any building, tent, structure, or erection, or camp on any portion of the Reserve, without the consent, in writing, of the Committee first had and obtained;
- (m) bring into the Reserve any dog unless led by a chain or cord, without the permission of the Committee.

17. Any dog or other animal found in the Reserve may be destroyed by any Crown lands bailiff.

18. For the purpose of maintaining good order, any person authorized by the Committee may refuse to any person admission to the Reserve, and no person shall remain in the Reserve at any time when lawfully directed to leave by such authorized person.

19. Any person to whom a ticket has been issued authorizing such person to enter upon the Reserve and/or to play any game therein shall upon demand produce, and if required surrender, such ticket to any person duly authorized to demand the production or surrender of such ticket.

20. In any case where under these Regulations the consent in writing of the Committee is required for any purpose, the Committee may give such consent upon and subject to such terms and conditions as it may deem reasonable and consistent with these Regulations, and any act done or suffered or omitted to be done in breach of or contrary to any such term or condition shall invalidate such consent, and in such case such consent shall for all purposes be conclusively deemed never to have been given, and the purpose in respect of which such consent was given never to have been authorized.

21. Every person who does not do anything directed to be done or does anything forbidden to be done by or under these Regulations shall be guilty of an offence against these Regulations.

22. No male person shall play tennis in the Reserve unless he be clad in clothing completely covering his body from the neck to a point not more than 2 inches above the knee.

23. No female person shall play tennis in the Reserve unless she be clad in clothing completely covering her body from the neck to the waist, and shall be wearing a skirt, divided or otherwise, reaching from the waist to a point not more than 2 inches above the knees.

24. Every person who shall be guilty of an offence against these Regulations, or who shall refuse or neglect to obey the lawful orders or directions of any authorized officer of the Committee may, without prejudice to any penalty to which he may be liable under the Regulations, be forthwith removed from the Reserve, notwithstanding that such person may have purchased a ticket or paid a fee entitling him to admission thereto or to play any game therein.

25. The Baths shall be open as follows:—

From the 1st day of January to the 31st March and from the 1st November to the 31st December in each year for the following hours daily:—

Mondays to Fridays, 7 a.m. to 9 a.m., 3 p.m. to 6.30 p.m., and 7.15 p.m. to 9 p.m.

Saturdays, 7 a.m. to 10 a.m., and from 2 p.m. to 6 p.m.

Sundays, 2 p.m. to 5.30 p.m.

On days gazetted as Public Holidays the hours shall be those as for Saturdays.

The Committee shall have the power to close the Baths during such time as may be necessary for cleaning purposes and also in the case of inclement weather.

26. The amounts set out hereunder shall be paid to the officer of the Committee authorized in that behalf for admission to the Baths, except as provided in clause 3:—

- (a) For every adult—Four pence.
- (b) For every boy or girl under the age of fourteen years—Two pence.
- (c) Family season ticket—15s.
- (d) Single ticket—10s.
- (e) Children's season ticket—5s.

Provided always that the Committee may exempt any school children wholly or partially from the payment of such fees.

27. The Committee may set apart the Baths at stated times for the use of males, females, or children respectively, and for mixed bathing.

28. No person shall enter the swimming bath in the Reserve before immediately previously thereto thoroughly and completely washing his or her whole body under the showers provided at the baths.

29. The bathing pavilion shall be used for dressing and undressing only, and no person shall play games or without reasonable excuse loiter therein.

30. No male over the age of six years shall enter the portion of the said pavilion reserved for the use of females, and no female over the age of six years shall enter any portion thereof reserved for males except for the purpose of rendering assistance in case of accident.

31. Every person shall exercise reasonable and proper care in the use of every portion of the baths, dressing rooms, closets, showers, lockers, and other appurtenances, and shall not damage, disfigure, or write upon any part thereof.

32. No person shall—

- (a) visit or use any portion of the baths while suffering from or appearing to be suffering from any infectious, contagious, or offensive disease or skin complaint;
- (b) use soap or other substance or preparation whereby the water in the baths may be rendered turbid or unfit for the use of bathers;
- (c) bring or deposit any filth or rubbish of any sort in the baths or wilfully or improperly foul or pollute the water from the showers, nor soil, defile, or deface any dressing room, locker, or any portion of the baths;
- (d) break any bottle or any article of glass or earthenware in or upon the baths, but if any article of glass or earthenware be accidentally broken therein the person who caused the breakage thereof shall forthwith collect all of the broken portions of such article and deposit them in such manner and place as shall be directed by an authorized officer of the Committee;
- (e) carelessly or negligently break, injure, or interfere with any portion of the baths or the electrical fittings, showers, conveniences, furniture, fittings, or appliances therein;
- (f) bring any dog or other animal or cause or allow the same to enter or remain in the baths.

33. Any person finding any article which may have been left or lost in any part of the baths shall immediately deliver the same to the authorized officer of the Committee, and the Committee shall not be responsible for the loss or theft of any article brought into the baths.

34. Children shall not be permitted to enter the swimming baths except under proper supervision.

35. The officer of the Committee authorized in that behalf shall have control of the baths, and shall be responsible for the maintenance of good order and conduct therein.

36. In any part of the Reserve used or set apart for a children's playground—

- (a) No person above the age of fourteen years shall use any of the appliances erected thereon.
- (b) Appliances erected shall not be used by the same child or children for a longer period than five minutes if any other child or children is or are waiting to use them.
- (c) No child shall use any of the appliances except for the special purposes for which they are respectively provided.
- (d) Cricket or football shall not be played therein.
- (e) All papers, fruit, peel, or other litter shall be placed in the receptacles provided by the Committee of Management for the purpose.
- (f) Every person in the children's playground shall, in respect to his conduct therein, obey instructions and directions of any bailiff of Crown lands or of any member of the Police Force.
- (g) The Committee of Management shall not be responsible for any accident arising from the use of any of the appliances in the children's playground.
- (h) The children's playground shall not be used after sunset.
- (i) Any bailiff of Crown lands or member of the Police Force shall have the right to remove or exclude from the children's playground any person who commits a breach of the foregoing Regulations, or who wilfully damages any appliances or property in the children's playground, and such person shall, in addition, be liable to the penalty prescribed for a breach of these Regulations.

The Council of the Shire of Alexandra has been appointed a Committee of Management (herein referred to as the Committee) of the Reserve, with power and authority to enforce the foregoing Regulations.

Every person guilty of an offence against these Regulations shall, in accordance with the provisions of section 181 of the Land Act 1928, for each offence be liable to a penalty of not more than £5, and every person who knowingly and wilfully commits any offence against these Regulations, and who, after he has been warned by any bailiff of Crown lands or by any member of the Police Force, does not desist from so offending, may be forthwith apprehended by such bailiff or member of the Police Force and taken before some justice to be dealt with according to law, and shall be liable to a penalty of not more than £10.

The common seal of the Board of Land and Works was hereunto affixed this 25th day of June, 1941, in the presence of—

## CITY OF HAWTHORN.

## BY-LAW No. 134.

A By-law of the City of Hawthorn, made under the provisions of the *Local Government Act 1928* and every other power thereunto enabling, and numbered 134, for repealing By-law No. 132 and for altering By-law numbered 55 as amended by By-law numbered 101, and for the management and use of the Sports Ground, and for imposing, collecting, and receiving charges or entrance fees for clubs, associations, or persons using or entering in or upon the said Sports Ground.

IN pursuance of the powers conferred by the *Local Government Act 1928* and any power it thereunto enabling, the Mayor, Councillors, and Citizens of the City of Hawthorn order as follows:—

1. *Repeal.*—The By-law numbered 132, made by the Council of the City of Hawthorn under the provisions of the *Local Government Act 1928*, passed by the Council on 17th April, 1940, and confirmed on the 15th May, 1940, is hereby repealed.

2. That the By-law of the City of Hawthorn made under section 197, sub-section (7), section 222, and section 604 of the *Local Government Act 1903* and the *Municipal Grounds Act 1905*, and numbered 55, as amended by a By-law of the said city, numbered 101, shall be altered as follows:—

In clause 1, at the end of the paragraph reading "On the occasion of football or cricket matches when a charge is made for admission to the grounds, the revenue derived shall be dealt with in accordance with the Rules of the League, Association, or other organization under which the clubs in such matches play" there shall be added the following words:—

"But this provision shall not apply to matches of the Hawthorn Football Club to be held at the Sports Ground during the year 1941, the revenue from which matches, after paying ground management expenses and administration charges, shall be divided between the Hawthorn Football Club and the visiting clubs by paying to the visiting clubs the amount to which such clubs would ordinarily be entitled and paying to the Hawthorn Football Club the remainder of such revenue less an amount equal to 1s. for each adult person who may pay for admission to the reserve portion of the Sports Ground, and 50 per cent. of the balance of the amount which, but for the provisions of this By-law, would have been payable to the Council, the sum so deducted as representing 1s. for each adult person who may pay for admission to the reserve portion of the Sports Ground and 50 per cent. of the balance of the proportion payable under the rules of the Victorian Football League to the Council as the Grounds Management Committee to be retained by the Council; and, in the event of the amount payable to the Hawthorn Football Club during the year 1941 under the provisions hereof reaching an amount of £225 in excess of the amount to which the Hawthorn Football Club would ordinarily be entitled under the rules of the Victorian Football League, then the arrangements for the division of revenue from matches of the Hawthorn Football Club at the Sports Ground hereunder shall cease, and such revenue shall thereafter be divided in accordance with the rules of the Victorian Football League."

Resolution for passing this By-law agreed to by the Council on the 2nd day of April, 1941, and confirmed the 30th day of April, 1941.

(SEAL) J. B. PRIDMORE, Mayor.  
G. W. SIMPSON, Councillor.  
W. BROAD HALL, Town Clerk.

Confirmed by the Governor in Council, the 10th day of June, 1941.—C. W. KINSMAN, Clerk of the Executive Council.

## BY-LAW No. 81.

A BY-LAW of the Shire of Mildura, under section 197 of the *Local Government Act 1928*, and numbered 81, for regulating the keeping of bees and thereby preventing the same from becoming a nuisance.

1. No person shall, in the months of February, March, and April, within 5 miles of any horticultural block planted with trees or vines in bearing, keep any hive of bees unless the same shall be so covered in as to prevent the bees therein from leaving the premises upon which the hive is situated.

2. The occupier of any premises upon which bees are kept shall, at all reasonable times during the above-mentioned months of February, March, and April, afford free access thereto to the Inspector of Nuisances of the said shire or to any person specially appointed by the said Shire Council in that behalf for the purpose of inspecting any beehives or bees thereon.

3. No person shall, in the months of September, October, November, December, January, February, March, and April, keep in either of the areas defined in clause 6 hereof any hive of bees unless the same shall be so covered in as to prevent the bees therein from leaving the premises upon which the hive is situated.

4. The occupier of any premises situated in the Township of Merbein or the Township of Red Cliffs upon which premises bees are kept shall, at all reasonable times during the above-mentioned months of September, November, December, January, February, March, and April, afford free access thereto to the Inspector of Nuisances of the said shire or to any person specially appointed by the said Shire Council in that behalf for the purpose of inspecting any beehives or bees thereon.

5. Clauses 1 and 2 of this By-law shall have force and effect throughout the Shire of Mildura other than the areas defined in clause 6 hereof.

6. Clauses 3 and 4 hereof shall have force and effect in the Township of Mérébin, the land comprised in plan of subdivision lodged in the Office of Titles, No. 7639, and the Township of Red Cliffs, being the land comprised in plan of subdivision lodged in the Office of Titles, No. 7659.

7. Every person who shall by any wilful act or default be guilty of any breach of the provisions of the foregoing By-law shall be liable for such offence to a penalty not exceeding Five pounds nor less than Two pounds for each such breach.

8. By-law Number 59 is hereby repealed.

9. This By-law shall come into operation and commence to have effect immediately upon its publication in the *Government Gazette* as provided by the *Local Government Act 1928*.

Resolution for passing this By-law agreed to by the Council the third day of April, 1941, and confirmed the first day of May, 1941.

The common seal of the President, Councillors, and Ratepayers of the Shire of Mildura was affixed hereto by order of the Council—

(SEAL) R. R. SKEAT, President.  
JOHN R. GORDON, Councillor.  
S. H. SEMMENS, Secretary.

2. The principal and interest moneys shall be repayable by 40 half-yearly instalments, each covering principal and interest, on the first day of September and the first day of March in each year. Such moneys shall be payable at the National Bank of Australasia Limited, Melbourne.

3. The purpose for which the loan is to be applied is: For the provision of foreshore improvements and conveniences.

4. The plans and specifications and estimate of the cost of the works referred to are open for inspection at the Shire Office, Cowes.

Dated this twenty-seventh day of June, 1941.

9329 E. R. MARCHANT, Shire Secretary.

## SHIRE OF SEYMOUR.

## BY-LAW No. 37.

A By-law of the Shire of Seymour (hereinafter referred to as the Municipality), made under the *Local Government Acts*, and particularly under section 198 of the *Local Government Act 1928* and section 27 of the *Local Government Act 1934* and Part V. of the 13th Schedule to such Act, with the approval of the Governor in Council, and numbered 37, for the purpose of amending By-law No. 32 of the said Municipality.

IN pursuance of the powers conferred by the *Local Government Acts*, the President, Councillors, and Ratepayers of the Shire of Seymour order as follows:—

Clause 1 provides that clause 55 of the By-law No. 32 be amended by striking out the description given therein of the boundaries of the Township of Seymour, and substituting in lieu thereof an entirely new description of the boundary of the Township of Seymour.

Resolution for passing this By-law was agreed to by the Council of the Shire of Seymour on the 10th February, 1941, and confirmed by the said Council on the 10th day of March, 1941.

The common seal of the President, Councillors, and Ratepayers of the Shire of Seymour was affixed in the presence of—

Confirmed by the Governor in Council the 29th day of April, 1941.—C. W. KINSMAN, Clerk of the Executive Council. 9332

## SHIRE OF SEYMOUR.

## BY-LAW No. 38.

A By-law of the Shire of Seymour, and numbered 38, made under section 197 of the *Local Government Act 1928*, for prescribing areas within the municipal district as residential areas, and for the purpose of prohibiting within the whole of such residential areas the erection, adaptation for use, or use of any buildings for the purpose of trades, industries, manufactures, businesses, or public amusements as herein specified.

IN pursuance of the powers conferred by the *Local Government Acts*, the President, Councillors, and Ratepayers of the Shire of Seymour, with the approval of the Governor in Council, do hereby order as follows:—

1. That portion of the Shire of Seymour as hereinafter defined shall be and is hereby prescribed as a residential area.

2. That the allotments and sections referred to in the description of this By-law are in the Township of Seymour, unless otherwise described.

3. The erection (including adaptation for use) or the use of any building for the purposes of any of the classes of trades, industries, manufactures, businesses, or public amusements (as provided and set out in Schedule "A" of this By-law) within such residential area shall be and is hereby prohibited.

4. This By-law shall not preclude any continuance of the use of any building for any purpose for which the same was used immediately before the coming into operation of this By-law, or the enlargement, re-building, or extension of any building used for such purpose, whether or not such enlargement, re-building, or extension involve the use of adjoining land which immediately before coming into operation of the By-law was in the same ownership.

5. This By-law shall apply to and operate throughout that portion of the Shire of Seymour as hereinafter defined.

Clause 6 provides and sets out in full the description of the boundary of the area described therein as portion of the Shire of Seymour over which this By-law is to apply and operate.

Clause 7 provides for penalties for breach of this By-law.

Clause 8. This By-law shall come into operation and have effect immediately upon its publication in the *Victoria Government Gazette*.

## SCHEDULE "A."

## ANNEX TO CONTRACTS.

## ADJUSTMENT OF CONTRACT RATES.

The rates marked (‡) in the following Schedules are subject to adjustment in accordance with the special conditions of the respective contracts.

Notification of such adjustments will be published in the *Government Gazette* as required.

## AVAILABILITY OF SUPPLIES.

As numerous contracts are subject to Force Majeure and War Clauses, or other special stipulations regarding availability of stocks, raw materials, etc., the penal provisions of clause 8 of the Conditions of Contract are not to be enforced by Departments without reference to the Tender Board.

## AGREEMENTS.

Where the name of the supplier opposite any item is shown in italics, with the sign (A), no contract has been executed nor security lodged: requirements of such items are to be purchased from the supplier named, under Tender Board Agreement.

ANNEX TO CONTRACT No. 1941/151

Schedule No. 46.

INDIARUBBER GOODS.

Contract from 1st July, 1941, to 30th June, 1942.

1941/151—Dunlop Perdreau Rubber Co. Ltd. .. Security, £60.

(Except where otherwise stated.)

\* Items 20, 21, 23, 38 and 50 to samples at Tender Board Office.

A sample for quality of 3 feet in length for testing purposes must be submitted with tender for items 1 to 5, which shall, subject to the undermentioned standards for pressure, also be taken, if accepted, for standard quality. The Hose supplied must be made of rubber and cotton fabric each of the best of its kind made for the purpose. The Hose must be soft and pliable, uniformly and smoothly finished, and shall respectively stand a bursting pressure of at least the following lbs. per square inch:—

Item 1,	$\frac{1}{2}$ in. bore	3-ply,	Bursting pressure,	600 lb.
" 2,	$\frac{3}{4}$ in.	" 3 "	" "	500 "
" 3,	1 in.	" 3 "	" "	400 "
" 4,	$\frac{3}{4}$ in.	" 4 "	" "	600 "
" 5,	1 in.	" 4 "	" "	500 "

The officer receiving supplies under this contract may, at his discretion, take indiscriminately a portion of any coil supplied and have same tested as to bursting pressure and other qualities specified above. It is provided, however, that such test must be made immediately on delivery. In the event of such tested sample not complying with the above specification the supply shall be forthwith rejected.

TANKS.

(CORRUGATED, CYLINDRICAL.)

Contract from 1st July, 1941, to 30th June, 1942.

1941/196—John Sharp and Sons Ltd. . . . . Security, £75.

Tanks for use outside the Melbourne District may be purchased locally without infringing this Contract.

SPECIFICATION.

Tanks to be made of 24-gauge galvanized corrugated "Orb" brand iron for side, with bottom of 22-gauge galvanized "Queen's Head" flat iron (or other approved brand) to be lapped not less than 3 inches at all vertical joints and one (1) corrugation for all horizontal joints and bottoms properly seam jointed and well soldered.

All vertical joints to be riveted as shown in appended sketch with galvanized iron rivets and joints soldered on external face of tank only.

All horizontal joints to be riveted with galvanized iron rivets at 9-in. pitch round circumference of tank and joints soldered on external face of tank only.

The whole of the rivets and soldering to be well sweated in.

The junction of side and bottom to be well paned on and thoroughly soldered.

Cover to be 26-gauge galvanized flat iron, conical shaped 9-in. pitch with all joints properly seamed and soldered and paned on to a 3-in. 24-gauge galvanized iron rim and well soldered, the bottom edge of rim to be wired.

Cut a circular hole in cover for and provide and set therein an 18-in. diameter 24-gauge galvanized iron strainer. Strainer to have 1/4-in. diameter holes, cut in sides only in sets of three vertically 1/4-in. apart at 4-in. centres round strainer, lowest hole kept 1/2-in. above bottom of strainer, top edge of strainer flanged and wired and to be moveable.

Provide and securely fix a galvanized wrought iron socket properly bossed and soldered to receive tap. Provide with each tank an approved 1/4-in. brass low-pressure tap, lock-up type.

All tanks to be thoroughly watertight.

The whole of the walls and bottoms internally to be twice coated with "Biturine" or other approved bituminous paint.

Provide with external overflow of 2-in. diameter 24-gauge pop-bossed and soldered on near top and provide with tank 1/6 ft. length of 2-in. 24-gauge overflow pipe with elbow to connect to pop and 1/3 ft. length with shoe to discharge into drain. Provide overflow with galvanized clip to secure to stand.

## CONDITIONS OF CONTRACT FOR GENERAL STORES, 1941-42, ETC.

Published in the *Victoria Government Gazette* of 22nd January, 1941, pages 235, 236 and 237.

1. Except where definite quantities are specified the Government will not be bound to order from the contractor all the articles enumerated in the schedule, but only those articles, and such quantities of those articles, as it may be found necessary to order. Should the Government, however, require a larger supply of any article than the estimated quantity stated in the schedule, the contractor will nevertheless be bound to supply the same at contract rates. The Government reserves the right to purchase otherwise than from the contractor articles of any of the several kinds enumerated in the schedule the purchase of which is, in the opinion of the Tender Board, necessary in order to meet special circumstances or special requirements.

2. Under this contract goods may be ordered by any Department of the Commonwealth, but it shall be optional on the part of the contractor to supply.

3. The supplies are to be the same as sample where so stated, and of the particular manufacture indicated in the schedule. In the case of different makers' goods, the contractor will be required to supply the kind ordered. *The supplies are to be the best quality of their several kinds or manufacture.* In the event of the tender having been accepted for goods manufactured within the Commonwealth or within any other part of the British Empire (as the case may be), all such goods supplied shall, if required by the Government, bear evidence that they are of the particular manufacture tendered for and, in addition, the contractor may at any time during the currency of the contract be called on to furnish a statutory declaration as to the country of origin of the goods supplied.

4. Except where otherwise stated in the schedule, the value of all packages, cases, casks, &c., whether bulk be broken or not, must be included in the prices stated in the contractor's tender; all such packages, &c., shall be considered the property of the Government, and no charges or expenses whatsoever beyond the price tendered and set out in the schedule will be allowed to the contractor for any articles or packages, cases, casks, &c. The net weight or quantity only will be paid for. The contractor must provide, without extra charge, whatever labour may be required in the packing of stores.

5. All orders for supplies will emanate from the Departments requiring the goods, which shall be delivered as may be directed by the officer ordering the supply. At the time of delivering the supplies, the contractor shall produce the order for same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the stores accepted and return the order to the contractor, who will attach it to his claim for payment.

6. Supplies ordered for delivery in the Melbourne District are to be delivered free of all charges (whether cartage, freight, &c.), and, for the purposes of this contract, the Melbourne District will include a radius of 6 miles from the Elizabeth-street Post Office. For supplies outside that radius the goods

must be delivered free on rails at Flinders-street or Spencer-street Railway Stations as required.

7. Arrangements as to time of delivery and inspection of goods will be made by the officer ordering the supply.

8. Orders must receive prompt execution; in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order or within such other time as the order may specify for delivery, it will be competent for the officer named in clause 7, or the head of the department to whom the goods are to be supplied, on giving the contractor twenty-four hours' notice, to purchase the supplies, or any like supplies that are suitable for the service, at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account or from the security money.

9. Delivery will not be deemed to have been made until the goods have been approved of. In the event of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the supplies rejected or returned, otherwise purchases will be effected at the contractor's risk and the extra expense deducted as provided in clause 8.

10. The contractor will be required to furnish his account in the prescribed form as soon as possible after the delivery of the goods, the account to be accompanied by the receipted delivery orders on which it is based. Where practicable, the use of more than one account form for each Department or sub-Department must be avoided. The rates and the quantities quoted in the orders cannot be increased.

11. The acceptance of the supplies shall be subject to the approval of the officer authorized to take delivery of the stores, or such other officer as shall be named in the schedule. The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four hours after objection is made, give notice thereof, in writing, to the officer rejecting the goods. If, after the delivery of the supplies has been taken, any deficiency or defect is discovered therein, such deficient or defective stores may be returned to the contractor.

12. The members of Boards of survey will be appointed by the Treasurer of the State for the time being, and the decision of the Board is to be considered as final. If the Board shall decide that the article is not of proper quality it must be immediately replaced by the contractor, failing which it, or any like supply that is suitable for the service, will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as provided in clause 8.

13. A refusal to execute orders, irregularity in the quantity or quality of the supplies, delay in delivering or replacing them when required, or non-compliance with the terms of clauses 15 and 16 of these Conditions respecting the forwarding of consignment notes, &c., will subject the contractor, upon report from the Tender Board, to such mulct not exceeding Fifty pounds as the Treasurer may direct, and the amount may be

deducted as provided in clause 8. It will also be in the power of the said Treasurer upon such refusal, irregularity, or delay to terminate the contract forthwith and declare forfeit the whole or any portion of the security money; and, in addition, the contractor will be disqualified from tendering or holding any future contract or contracts for a period of twelve months from the date of such disqualification.

14. All goods forwarded under this contract shall, where practicable, be forwarded by rail, and all consignments shall bear the number of the consignment notes under which they are forwarded, and also the name of the contractor by whom consigned, on a legibly-written business label.

15. When the contractor is required to make delivery of goods at a railway station for transmission by rail for any Department excepting Departments of the Commonwealth, he shall obtain a receipt for the goods in duplicate on the Stores and Transport consignment note, at the same time handing in a triplicate and quadruplicate of the form as an authority for the Railways to act as agent for, and charge the freight to, the Stores and Transport Office or such other Department as shall be named therein. He shall as soon as possible, and not later than twenty-four hours thereafter, deliver the original at the Tender Board Offices, the duplicate to be forwarded to the consignee in accordance with clause 16, and the quintuplicate to be retained by himself. (In the case of Commonwealth Departments, however, the Commonwealth consignment note only, which accompanies the order, must be used.) Should the goods thus forwarded be rejected, the contractor must bear the cost of replacing such goods. For which service the departmental consignment note must not be used. Any infringement of this condition will subject the contractor to such mulct as is provided in clause 13.

16. Immediately after the consignment of the goods, the officer to whom they are forwarded shall be notified by the contractor, on the duplicate consignment note provided for the purpose, that the goods have been sent. On receipt of this document, the officer to whom it has been forwarded shall acknowledge thereon the receipt of the goods without delay to the Stores and Transport Office. In the event of loss through failure on the part of the contractor to comply with this condition he will be held responsible, and the amount of the loss incurred thereby will be deducted as provided in clause 8.

17. Should the order on the contractor specially provide that goods of a fragile character, or such as are liable to suffer loss by leakage, shall be consigned at the risk of the Railways Commissioners, under special freight conditions, the contractor shall in such instance provide, in writing on the consignment note, an intimation to that effect, failing which, in the event of loss, he shall bear the whole cost of replacing the goods, the amount thereof to be deducted from the contractor's account or from the security money.

18. The contractor is not at liberty to transfer his contract under cover of power of attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government. Should it be found during the currency of the contract that the contractor has not conformed to the condition of advertisement—which stipulates that if a tenderer be a member of a firm and such firm be interested in the contract, the tender shall be in the name of the firm, and not in that of the individual—then the Treasurer may, on the recommendation of the Tender Board, determine the contract and forfeit the security money.

19. The contract entered into under these conditions is not to be considered as being broken, infringed, or vitiated by the importation of stores for the Government service, or by any contracts or purchases made by the Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Department of Public Works through the Board of Land and Works, or by the State Rivers and Water Supply, Forests, and Electricity Commissioners, or the Country Roads Board, or for the Railways Department, or for supplies for Technical, High, or Higher Elementary Schools, or for connexions and fittings for Drills and Batteries, or by any article being made at and supplied for the use of any Government establishment, or by the consumption of the surplus stock of any Government establishment.

20. Notwithstanding anything to the contrary contained in section 152 of the *Customs Act 1901-36*, it is hereby expressly provided that upon any alteration of the duty collected affecting the goods included in this contract, the contract price shall not be altered, and the contract may be terminated at the option of either party by two months' notice, in writing, from the first day of the calendar month next ensuing and within the period for which the contract is made. The contract for the unaffected items shall remain in full force and effect. Any notice to be served under this condition shall be deemed to have been duly served if sent to the contractor in a registered letter to his last-known place of business or abode.

The foregoing provision shall not apply where the contract is for definite quantities of imported goods to be delivered at stated times, as stipulated in the schedule, and any alteration in the duty of Customs or Telegraphic Transfer rate of exchange affecting the goods included in such contract shall be to the accounts of the Government: adjustments to be based on the F.O.B. and C.I.F. prices of the goods, respectively, and the Telegraphic Transfer rate ruling at the time of delivery of the goods.

21. Under no circumstances, other than those mentioned in clause 20, will the contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited and, in addition, the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

**(4) ORDINARY WEEK'S WORK.**—The number of hours to constitute a week's work shall be as follows:—

Males	..	..	..	..	44 hours	} To be worked between the times of beginning and ending work shown below.
Females	..	..	..	..	44 hours	
Times of beginning.				Times of ending.		
7.30 a.m.	..	..	..	..	6 p.m.	Mondays to Fridays.
7.30 a.m.	..	..	..	..	1 p.m.	Saturdays.

**(5) OVERTIME.**—All time worked—

- (a) Before or after the usual times of beginning and ending work ;  
 (b) In excess of nine hours per day ;  
 (c) In excess of 44 hours in any week ;

shall be paid for at the rate of time and one half for the first four hours and double time thereafter, provided that all time worked between the hours of 9 p.m. and 7.30 a.m. shall be paid for at double time.

All work done outside the times of beginning and ending work on any holiday specified in clause (17) shall be paid for at the rate of double ordinary time.

No person under the age of sixteen years shall be permitted to work more than four hours' overtime in any week.

**(6) SHIFT WORK.**—Shift work may be worked subject to the following conditions:—

- (a) Any afternoon or night shift which does not continue for five successive shifts shall be paid at the rate of time and a half.  
 (b) Except as hereinafter provided, for any afternoon or night shift which has been in operation for five successive shifts or more and less than one month ten per cent. more than ordinary rates shall be paid and after such shifts have continued for more than one month seven and a half per cent. more than ordinary rates shall be paid.  
 (c) Shift workers shall be paid overtime at the rate of time and a half for the first four hours and double time thereafter for all time worked in excess of shift hours.  
 (d) Employees who during a period of engagements work only on night shifts shall be paid at the rate of time and a quarter.  
 (e) When employees are called upon to work afternoon and night shifts only they shall change over week and week about and shall be paid ten per cent. above ordinary rates for both shifts.  
 (f) When employees work day and afternoon shifts only they shall change over week and week about and shall be paid ten per cent. extra for afternoon shifts.  
 (g) The ordinary hours of actual work or duty exclusive of meals break off duty (if any) of employees working on shift shall not exceed—  
 (i) eight in any one day or,  
 (ii) 48 in any one week, or  
 (iii) an average of 44 per week during any period of three weeks of such employment upon such shifts.

**(7) TEA MONEY.**—All employees required to work beyond the usual time of ending work shall be allowed 2s. tea money in addition to overtime rates as prescribed for in this Determination when the usual time of ending work is exceeded by two hours.

**(8) TERMS OF ENGAGEMENT.**—Except as herein in this Determination provided, all employees shall be employed by the week, Employees to become entitled to the weekly wage prescribed by this Determination must be available and ready and willing to perform such work as the employer shall from time to time require on the days and during the hours usually worked by the class of employees affected. Where the majority of the employees of any establishment or of any department of such establishment agree to work part time for any period or to close down for any period on days other than the prescribed holidays, the provisions of the weekly wage shall not apply to any employee of such establishment or department during such periods.

Employment for the first two weeks of service at any time shall be from hour to hour at the weekly rate fixed.

**(9) CASUAL LABOUR.**—Casual labour at hourly rates may be engaged, provided the rates are 10 per cent. higher than those prescribed for weekly hands.

Casual labour means labour where an employer does not provide a full week's work, but does not include a weekly hand whose engagement is terminated in the middle of a week.

**(10) TERMINATING EMPLOYMENT.**—Employment to be terminated only by a week's notice on either side, and such notice may be given at any time during the week. This shall not affect the right of the employer to dismiss any employee without notice for malingering, inefficiency, neglect of duty, or misconduct, or to deduct payment for any time the employee cannot be usefully employed because of any strike, or through any breakdown of machinery, or any stoppage of work by any cause for which the employer cannot reasonably be held responsible.

An employer shall not terminate the employment of an employee for the purpose of evading payment for the holidays prescribed by this Determination.

Where an employee is dismissed within seven days prior to any such holiday the re-engagement of such employee within seven days after such holiday shall be prima facie evidence that the employment was terminated for the purpose of evading payment for such holiday.

Where the employer terminates the employment within one week of a day on which a holiday occurs, the employee shall be paid for such holiday or holidays prescribed by this Determination, provided that such employee had been employed by the employer for a period of at least one week prior to the termination of the employment.

Should an employee be dismissed during the course of a week, any wages due to him or her shall be paid to him or her forthwith, or shall be posted to him or her within 24 hours.

**(11) SPECIAL RATES FOR SUNDAYS AND HOLIDAYS.**—Any employee who is employed on any holiday specified in clause (17) shall be paid at the rate of the ordinary time in addition to the usual rate.

All work done on Sundays shall be paid for at the rate of double time.

**(12) MIDDAY MEAL.**—An interval of not less than 30 minutes shall be allowed for the midday meal between the hours of 12 noon and 2 p.m.

**(13) REST PERIOD.**—When any spell of duty is for more than four hours, an interval of ten minutes, to be selected by the employer, shall be allowed in the third hour to females for refreshment. The interval shall be as part of the time of duty, without deduction of time-work pay. During such rest period the employees may leave their seats, but not the premises.

**(14) MIXED FUNCTIONS.**—Where an employee is engaged in any one week for more than half of such week at work in a higher class than he or she is employed to perform, he or she shall be paid for the full week at the highest rate payable for any such work under this Determination; but if he or she is engaged for less than half of any such week, he or she shall only be paid at the rates fixed by this Determination for the work he or she actually performs.

**(15) MATERIALS TO BE PROVIDED.**—Any person employed in, wholly or partly preparing or manufacturing any article of furniture or in preparing any new or second-hand article of furniture shall be paid 6d. per hour in addition to the lowest rate fixed by this Determination, unless the following are provided by the employer if required in the performance of the work:—Benches, wood or iron clamps over 2 ft. 6 in., hand screws (in excess of four), glue pots, and glue brushes and varnish brushes. Any employee engaged at frenchpolishing shall be supplied with all materials, including rags, brushes, and kit-box.

(16) ALLOWANCES FOR TRAVELLING TIME AND BOARD.—All time reasonably occupied by an employee in travelling to or from work outside the shop and outside ordinary hours and in travelling to and from work in a country district if engaged in the metropolitan district for employment in a country district shall be treated as time of duty and paid for at ordinary rates up to a maximum of eight hours for the journey, except on Sundays, when time and a half rates shall be paid up to a maximum of eight hours for the journey. Provided that, where an employee proceeds direct from his or her home to a job outside the factory, he or she shall be paid for all time reasonably occupied in travelling to the job in excess of the time usually taken to go from his or her home to the factory.

All fares and reasonable travelling expenses incurred by an employee in such travelling, including the cost (if any) incurred for meals—together with the reasonable cost of board and lodging if the employee has to be away from his or her home for a night—shall be paid to the employee.

The fares allowed shall be first class where the employee has to travel all night in connexion with his or her employer's business and in other cases the fares shall be second class.

The foregoing travelling and accommodation allowances shall be paid additional to the usual rates for the time employees are working.

When it is more convenient for the employee to go direct to the job from his or her home he or she shall do so, and start and cease work at the usual times customary at the factory, provided that any extra expense incurred by him or her in travelling shall be borne by the employer.

(17) HOLIDAYS.—All weekly wage employees shall be granted the following holidays without deduction of pay:—The days observed as New Year's Day, Australia Day (26th January), Good Friday, Easter Monday, Labour Day, Anzac Day, King's Birthday, Christmas Day, and Boxing Day.

All employees working on piece-work or task-work shall be granted the same holidays as are granted to weekly wage workers, and they shall, subject as hereinafter provided, be paid for such holidays the amount for each holiday based on the minimum weekly wage as set out in this Determination for the class of work performed.

If any of the above holidays occur on a Sunday or Saturday and are not observed on any other day, then employees shall not be paid for such Sunday, and shall be paid for such Saturday as for a half-day, but not otherwise.

All other weekly employees shall be paid for the above holidays an amount for each holiday based on the actual weekly wage paid to them by the employer.

Any employee absenting himself or herself from work on any portion of the working day preceding a holiday provided for herein other than Boxing Day and New Year's Day without permission from the employer or without having reasonable cause for having absented himself or herself from work shall not be entitled to payment for such holiday.

(18) SICKNESS, ACCIDENTS.—Any employee not attending duty shall lose his or her pay for the actual time of non-attendance unless he or she produces or forwards within 24 hours of the beginning of his or her absence evidence satisfactory to the management that his or her non-attendance was due to personal accident arising out of or in the course of his or her employment or to personal ill-health sufficient to incapacitate him or her for his or her usual work.

An employee shall not be entitled to payment for non-attendance on the ground of accident or ill-health for more than six days in each year.

For the purpose of this clause a year shall mean a period of twelve months commencing on the 17th day of August in each year.

(19) PAY DAY.—All employees shall be paid weekly on any other day than Saturday.

No employer shall hold more than two days' pay in hand.

Any employee kept waiting for his or her pay on pay day for more than a quarter of an hour after the usual time for ceasing work shall be paid overtime rates after that quarter of an hour and as for a quarter of an hour at least.

(20) TIME BOOK OR RECORD.—(a) Employers shall provide at each shop, factory or place where work is being carried on a time book or record which shall contain a correct account of the hours worked and the wages received by each employee. Such time book or record shall be kept correctly entered up in ink and shall be open for inspection by a duly accredited official of the Federated Furnishing Trade Society of Australasia during the usual office hours at the office or other convenient place.

Provided that no inspection shall be demanded unless the accredited official of the said Society suspects that a breach of this Determination has been or is being committed and provided also that only one demand for such inspection shall be made in any one fortnight at the same establishment. The official making such inspection shall be entitled to take a copy of entries in any time and wages book relating to the suspected breach of this Determination.

(b) The time occupied by an employee in filling in any time book or cards, or in making any records, shall be treated as time, of duty; but this clause does not apply to "checking" in or out at beginning or end of duty.

(21) RIGHT OF ENTRY OF UNION OFFICIAL.—A duly accredited representative of the Federated Furnishing Trade Society of Australasia shall have the right to enter employers' workshops during the midday meal hour for the purpose of interviewing employees on legitimate Union business on the following conditions:—

- (a) That he produces his authority to the gatekeeper or such other person as may be appointed by the employer;
- (b) That he interview employees only at the places where they are taking their meal;
- (c) That not more than one representative in all be in any workshop at any one time;
- (d) That no one representative visit a workshop more than once in each week;
- (e) That if any employer alleges that a representative is unduly interfering with his workshop or is creating disaffection amongst his employees or is offensive in his methods or is committing a breach of any of the previous conditions, such employer may refuse the right of entry but the representative shall have the right to bring such refusal before this Wages Board.

(22) PIECE-WORK.—The employer may fix his own piece-work prices or task rates provided such prices or rates enable an employee of average capacity working under like conditions to earn at least 10 per cent. more than the minimum weekly wage prescribed for the class of work performed. The same piece-work prices shall be paid to all piece-workers doing the same operation in the factory, whether they be apprentices or improvers on piece-work, or otherwise.

All piece-workers who are available and ready and willing to work during the ordinary working hours shall be paid in each week in the case of males not less than 90s., and in the case of females not less than 57s. 6d.

(23) PERIODICAL ADJUSTMENT OF WAGES.—The wages rates set out in clause (3) are based upon the following basic wage for adult males and minimum wage for adult females, and, pursuant to the provisions of section 21 of the *Factories and Shops Act 1934* shall be automatically increased or decreased by the same amount and at the same time as such basic wage and minimum wage.

The basic wage rates and minimum wage rates shown hereunder shall be adjusted as prescribed in clause (24).

(24) ADJUSTMENT OF BASIC WAGE FOR ADULT MALES AND MINIMUM WAGE FOR ADULT FEMALES.—(a) Until the beginning of the first pay period to commence in August, 1941, the amounts of the basic wage and the minimum wage for females shall be as prescribed in clause (23).

(b) During each future period of or near a quarter beginning with the first pay period to commence in an August, a November, a February, or a May, the amounts of the needs basic wage shall be adjusted by the following method according to the position and fluctuations (if any) of the Commonwealth Statistician's "All Items" Retail Price Index Numbers.

For the purposes of this Determination the expression "Commonwealth Statistician's Retail Price Index Numbers" or any like expression means the numbers stated to be such Index Numbers in any document purporting, and not proved to be wrongly so purporting, to be printed by the Commonwealth Government Printer or to be signed by or on behalf of the Commonwealth Statistician.

(1) The Index Number set to be applied to a place is that assigned thereto in clause (23).

(2) The Index Number for the calendar quarter next preceding the period of or near a quarter for which the adjustment is made is to be ascertained.

(3) The amounts assigned in the following table (or any extension thereof) to the Index Number Division comprising that Number are to be ascertained.

(4) The needs basic wage and minimum wage for adult females shall be those assigned amounts during such period of or near a quarter.

The Index Number Divisions in this table are based upon the equating of the Index Number 1,000 with a basic wage of 81s. per week and any extension of the table must be of the same construction as the table.

(c) The amounts of the weekly rates for apprentices and improvers shall be adjusted proportionately to the basic wage, and shall accord with the rates payable from time to time under the appropriate Award of the Commonwealth Court of Conciliation and Arbitration.

(d) The rates for piece-workers shall be increased or decreased in the same proportion as the rate for the journeymen or journeywomen in the respective classes.

(4) **DEFINITIONS.**—A varnisher is a person employed solely coating with a brush or dipping parts of or completed articles of furniture of any class covered by this Determination with any oil or spirit varnish, lacquer, or substitute for such oil or spirit varnish or lacquer.

(5) **ORDINARY WEEK'S WORK.**—The number of hours to constitute a week's work shall be as follows:—

Males .. ..	.. 44 hours	} To be worked between the times of beginning and ending work shown below.
Females .. ..	.. 44 hours	
Times of beginning.	Times of ending.	
7.30 a.m. .. ..	.. 5 p.m. Mondays to Fridays.	
7.30 a.m. .. ..	.. 12 noon Saturdays.	

(6) **OVERTIME.**—All time worked—

- (a) Before or after the usual times of beginning and ending work;
- (b) In excess of nine hours per day;
- (c) In excess of 44 hours in any week;

shall be paid for at the rate of time and one half for the first four hours and double time thereafter, provided that all time worked between the hours of 9 p.m. and 7.30 a.m. shall be paid for at double time.

All work done outside the times of beginning and ending work on any holiday specified in clause (18) shall be paid for at the rate of double ordinary time.

No person under the age of seventeen years shall be permitted to work more than four hours overtime in any week.

(7) **SHIFT WORK.**—Shift work may be worked subject to the following conditions:—

- (a) Any afternoon or night shift which does not continue for five successive shifts shall be paid at the rate of time and a half.
- (b) Except as hereinafter provided, for any afternoon or night shift which has been in operation for five successive shifts or more and less than one month ten per cent. more than ordinary rates shall be paid and after such shifts have continued for more than one month seven and one-half per cent. more than ordinary rates shall be paid.
- (c) Shift workers shall be paid overtime at the rate of time and a half for the first four hours and double time thereafter for all time worked in excess of shift hours.
- (d) Employees who during a period of engagements work only on night shifts shall be paid at the rate of time and a quarter.
- (e) When employees are called upon to work afternoon and night shifts only they shall change over week and week about and shall be paid ten per cent. above ordinary rates for both shifts.
- (f) When employees work day and afternoon shifts only they shall change over week and week about and shall be paid ten per cent. extra for afternoon shifts.
- (g) The ordinary hours of actual work or duty exclusive of meal breaks off duty (if any) of employees working on shift shall not exceed—
  - (i) eight in any one day, or
  - (ii) 48 in any one week, or
  - (iii) an average of 44 per week during any period of three weeks of such employment upon such shifts.

(8) **TEA MONEY.**—All employees required to work beyond the usual time of ending work shall be allowed 2s. tea money in addition to overtime rates as prescribed for in this Determination when the usual time of ending work is exceeded by two hours.

(9) **TERMS OF ENGAGEMENT.**—Except as herein in this Determination provided, all employees shall be employed by the week. Employees to become entitled to the weekly wage prescribed by this Determination must be available and ready and willing to perform such work as the employer shall from time to time require on the days and during the hours usually worked by the class of employees affected. Where the majority of the employees of any establishment or of any department of such establishment agree to work part time for any period or to close down for any period on days other than the prescribed holidays, the provisions of the weekly wage shall not apply to any employee of such establishment or department during such periods.

Employment for the first two weeks of service at any time shall be from hour to hour at the weekly rate fixed.

(10) **CASUAL LABOUR.**—Casual labour at hourly rates may be engaged, provided the rates are 10 per cent. higher than those proscribed for weekly hands.

Casual labour means labour where an employer does not provide a full week's work, but does not include a weekly hand whose engagement is terminated in the middle of a week.

(11) **TERMINATING EMPLOYMENT.**—Employment to be terminated only by a week's notice on either side, and such notice may be given at any time during the week. This shall not affect the right of the employer to dismiss any employee without notice for malingering, inefficiency, neglect of duty, or misconduct, or to deduct payment for any time the employee cannot be usefully employed because of any strike, or through any breakdown of machinery, or any stoppage of work by any cause for which the employer cannot reasonably be held responsible.

An employer shall not terminate the employment of an employee for the purpose of evading payment for the holidays proscribed by this Determination.

Where an employee is dismissed within seven days prior to any such holiday the re-engagement of such employee within seven days after such holiday shall be prima facie evidence that the employment was terminated for the purpose of evading payment for such holiday.

Where the employer terminates the employment within one week of a day on which a holiday occurs, the employee shall be paid for such holiday or holidays proscribed by this Determination, provided that such employee had been employed by the employer for a period of at least one week prior to the termination of the employment.

Should an employee be dismissed during the course of a week any wages due to him or her shall be paid to him or her forthwith or shall be posted to him or her within 24 hours.

(12) **SPECIAL RATES FOR SUNDAYS AND HOLIDAYS.**—Any employee who is employed on any holiday specified in clause (18) shall be paid at the rate of the ordinary time in addition to the usual rate.

All work done on Sundays shall be paid for at the rate of double time.

(13) **MIDDAY MEAL.**—An interval of not less than 30 minutes shall be allowed for the midday meal between the hours of 12 noon and 2 p.m.

(14) **REST PERIOD.**—When any spell of duty is for more than four hours an interval of ten minutes, to be selected by the employer, shall be allowed in the third hour to females for refreshment. The interval shall be as part of the time of duty, without deduction of time-work pay. During such rest period the employees may leave their seats, but not the premises.

(15) **MIXED FUNCTIONS.**—(a) Where an employee is engaged in any one week for more than half of such week at work in a higher class than he or she is employed to perform, he or she shall be paid for the full week at the highest rate payable for any such work under this Determination; but if he or she is engaged for less than half of any such week, he or she shall only be paid at the rates fixed by this Determination for the work he or she actually performs.

(b) An assembler engaged up to twenty-five per cent. of his time in trimming straight square edges and making minor adjustments shall be paid the rate proscribed for an assembler. If so engaged more than twenty-five per cent. and not more than fifty per cent. of his time he shall be paid cabinet maker's rates for the time so engaged. If more than fifty per cent. of his time is so occupied he shall be paid cabinet maker's rates for the full time worked.

(16) **MATERIALS TO BE PROVIDED.**—Any person employed in wholly or partly preparing or manufacturing any article of furniture or in preparing any new or second-hand article of furniture shall be paid 6d. per hour in addition to the lowest rate fixed by this Determination, unless the following are provided by the employer if required in the performance of the work:—Benches, wood or iron clamps over 2 ft. 6 in., hand screws (in excess of four), glue pots, and glue brushes and varnish brushes. Any employee engaged at french-polishing shall be supplied with all materials, including rags, brushes, and kit-box.

(17) **ALLOWANCES FOR TRAVELLING TIME AND BOARD.**—All time reasonably occupied by an employee in travelling to or from work outside the factory and outside ordinary hours and in travelling to and from work in a country district if engaged in the Metropolitan District for employment in a country district shall be treated as time of duty and paid for at ordinary rates up to a maximum of eight hours for the journey, except on Sundays, when time and a half rates shall be paid up to a maximum of eight hours for the journey. Provided that, where an employee proceeds direct from his or her home to a job outside the factory, he or she shall be paid for all time reasonably occupied in travelling to the job in excess of the time usually taken to go from his or her home to the factory.

All fares and reasonable travelling expenses incurred by an employee in such travelling, including the cost, if any, incurred for meals, together with the reasonable cost of board and lodging if the employee has to be away from his or her home for a night, shall be paid to the employee.

The fares allowed shall be first class where the employee has to travel all night in connexion with his or her employer's business and in other cases the fares shall be second class.

The foregoing travelling and accommodation allowances shall be paid additional to the usual rates for the time employees are working.

When it is more convenient for the employee to go direct to the job from his or her home he or she shall do so, and start and cease work at the usual times customary at the factory, provided that any extra expense incurred by him or her in travelling shall be borne by the employer.

(18) **HOLIDAYS.**—All weekly wage employees shall be granted the following holidays without deduction of pay:—The days observed as New Year's Day, Australia Day (26th January), Good Friday, Easter Monday, Labour Day, Anzac Day, King's Birthday, Christmas Day, and Boxing Day.

All employees working on piece-work or task-work shall be granted the same holidays as are granted to weekly wage workers, and they shall, subject as hereinafter provided, be paid for such holidays the amount for each holiday based on the minimum weekly wage as set out in this Determination for the class of work performed.

If any of the above holidays occur on a Sunday or Saturday and are not observed on any other day, then employees shall not be paid for such Sunday, and shall be paid for such Saturday as for a half day, but not otherwise.

All other weekly employees shall be paid for the above holidays an amount for each holiday based on the actual weekly wage paid to them by the employer.

Any employee absenting himself or herself from work on any portion of the working day preceding a holiday provided for herein other than Boxing Day and New Year's Day without permission from the employer or without having reasonable cause for having absented himself or herself from work shall not be entitled to payment for such holiday.

(19) **SICKNESS, ACCIDENTS.**—Any employee not attending duty shall lose his or her pay for the actual time of non-attendance unless he or she produces or forwards within 24 hours of the beginning of his or her absence evidence satisfactory to the management that his or her non-attendance was due to personal accident arising out of or in the course of his or her employment or to personal ill-health sufficient to incapacitate him or her for his or her usual work.

An employee shall not be entitled to payment for non-attendance on the ground of accident or ill-health for more than six days in each year.

For the purpose of this clause a year shall mean a period of twelve months commencing on the 17th day of August in each year.

(20) **PAY DAY.**—All employees shall be paid weekly on any other day than Saturday.

No employer shall hold more than two days' pay in hand.

Any employee kept waiting for his or her pay on pay day for more than a quarter of an hour after the usual time for ceasing work shall be paid overtime rates after that quarter of an hour and as for a quarter of an hour at least.

(21) **TIME BOOK OR RECORD.**—(a) Employers shall provide at each shop, factory or place where work is being carried on a time book or record which shall contain a correct account of the hours worked and the wages received by each employee. Such time book or record shall be kept correctly entered up in ink and shall be open for inspection by a duly accredited official of the Federated Furnishing Trade Society of Australasia during the usual office hours at the office or other convenient place.

Provided that no inspection shall be demanded unless the accredited official of the said Society suspects that a breach of this Determination has been or is being committed and provided also that only one demand for such inspection shall be made in any one fortnight at the same establishment. The official making such inspection shall be entitled to take a copy of entries in any time and wages book relating to the suspected breach of this Determination.

(b) The time occupied by an employee in filling in any time book or cards, or in making any records, shall be treated as time of duty; but this clause does not apply to "checking" in or out at beginning or end of duty.

(22) **RIGHT OF ENTRY OF UNION OFFICIAL.**—A duly accredited representative of the Federated Furnishing Trade Society of Australasia shall have the right to enter employers workshops during the midday meal hour for the purpose of interviewing employees on legitimate Union business on the following conditions:—

(a) That he produces his authority to the gatekeeper or such other person as may be appointed by the employer;

(b) That he interview employees only at the places where they are taking their meal;

(c) That not more than one representative in all be in any workshop at any one time.

(d) That no one representative visit a workshop more than once in each week.

(e) That if any employer alleges that a representative is unduly interfering with his workshop or is creating disaffection amongst his employees or is offensive in his methods or is committing a breach of any of the previous conditions, such employer may refuse the right of entry, but the representative shall have the right to bring such refusal before this Wages Board.

(23) **PIECE-WORK.**—The employer may fix his own piece-work prices or task rates, provided such prices or rates enable an employee of average capacity working under like conditions to earn at least 10 per cent. more than the minimum weekly wage prescribed for the class of work performed. The same piece-work prices shall be paid to all piece-workers doing the same operation in the factory whether they be apprentices or improvers on piece-work or otherwise.

All piece-workers who are available and ready and willing to work during the ordinary working hours shall be paid in each week, in the case of males not less than 90s. and in the case of females not less than 57s. 6d.

(24) **PERIODICAL ADJUSTMENT OF WAGES.**—The wages rates set out in clause (3) are based upon the following basic wage for adult males and minimum wage for adult females, and, pursuant to the provisions of section 21 of the *Factories and Shops Act 1934* shall be automatically increased or decreased by the same amount and at the same time as such basic wage and minimum wage.

The basic wage rates and minimum wage rates shown hereunder shall be adjusted as prescribed in clause (25).

(25) ADJUSTMENT OF BASIC WAGE FOR ADULT MALES AND MINIMUM WAGE FOR ADULT FEMALES.—(a) Until the beginning of the first pay period to commence in August, 1941, the amounts of the basic wage and the minimum wage for females shall be as prescribed in clause (24).

(b) During each future period of or near a quarter beginning with the first pay period to commence in an August, a November, a February, or a May, the amounts of the needs basic wage shall be adjusted by the following method according to the position and fluctuations (if any) of the Commonwealth Statistician's "All Items" Retail Price Index Numbers.

For the purposes of this Determination the expression "Commonwealth Statistician's Retail Price Index Numbers" or any like expression means the numbers stated to be such Index Numbers in any document purporting, and not proved to be wrongly so purporting, to be printed by the Commonwealth Government Printer or to be signed by or on behalf of the Commonwealth Statistician.

(1) The Index Number set to be applied to a place is that assigned thereto in Clause (24).

(2) The Index Number for the calendar quarter next preceding the period of or near a quarter for which the adjustment is made is to be ascertained.

(3) The amounts assigned in the following table (or any extension thereof) to the Index Number Division comprising that Number are to be ascertained.

(4) The needs basic wage and minimum wage for adult females shall be those assigned amounts during such period of or near a quarter.

(4) **ORDINARY WEEK'S WORK.**—The number of hours to constitute a week's work shall be 44, to be worked between the times of beginning and ending work shown below:—

Times of beginning.				Times of ending.	
7.30 a.m.	..	..	..	..	5 p.m. Mondays to Fridays.
7.30 a.m.	..	..	..	..	12 noon Saturdays.

(5) **OVERTIME.**—All time worked—

- (a) Before or after the usual times of beginning and ending work;
- (b) In excess of nine hours per day;
- (c) In excess of 44 hours in any week;

shall be paid for at the rate of time and one half for the first four hours and double time thereafter, provided that all time worked between the hours of 9 p.m. and 7.30 a.m. shall be paid for at double time.

All work done outside the times of beginning and ending work on any holiday specified in clause (16) shall be paid for at the rate of double ordinary time.

No person under the age of seventeen years shall be permitted to work more than four hours' overtime in any week.

(6) **SHIFT WORK.**—Shift work may be worked subject to the following conditions:—

- (a) Any afternoon or night shift which does not continue for five successive shifts shall be paid at the rate of time and a half.
- (b) Except as hereinafter provided, for any afternoon or night shift which has been in operation for five successive shifts or more and less than one month ten per cent. more than ordinary rates shall be paid and after such shifts have continued for more than one month seven and one half per cent. more than ordinary rates shall be paid.
- (c) Shift workers shall be paid overtime at the rate of time and a half for the first four hours and double time thereafter for all time worked in excess of shift hours.
- (d) Employees who during a period of engagements work only on night shifts shall be paid at the rate of time and a quarter.
- (e) When employees are called upon to work afternoon and night shifts only they shall change over week and week about and shall be paid ten per cent. above ordinary rates for both shifts.
- (f) When employees work day and afternoon shifts only they shall change over week and week about and shall be paid ten per cent. extra for afternoon shifts.
- (g) The ordinary hours of actual work or duty exclusive of meal breaks off duty (if any) of employees working on shift shall not exceed—
  - (i) eight in any one day, or
  - (ii) 48 in any one week, or
  - (iii) an average of 44 per week during any period of three weeks of such employment upon such shifts.

(7) **TEA MONEY.**—All employees required to work beyond the usual time of ending work shall be allowed 2s. tea money in addition to overtime rates as prescribed for in this Determination when the usual time of ending work is exceeded by two hours.

(8) **TERMS OF ENGAGEMENT.**—Except as herein in this Determination provided, all employees shall be employed by the week. Employees to become entitled to the weekly wage prescribed by this Determination must be available and ready and willing to perform such work as the employer shall from time to time require on the days and during the hours usually worked by the class of employees affected. Where the majority of the employees of any establishment or of any department of such establishment agree to work part time for any period or to close down for any period on days other than the prescribed holidays, the provisions of the weekly wage shall not apply to any employee of such establishment or department during such periods.

Employment for the first two weeks of service at any time shall be from hour to hour at the weekly rate fixed.

(9) **CASUAL LABOUR.**—Casual labour at hourly rates may be engaged, provided the rates are 10 per cent. higher than those prescribed for weekly hands.

Casual labour means labour where an employer does not provide a full week's work, but does not include a weekly hand whose engagement is terminated in the middle of a week.

(10) **TERMINATING EMPLOYMENT.**—Employment to be terminated only by a week's notice on either side, and such notice may be given at any time during the week. This shall not affect the right of the employer to dismiss any employee without notice for malingering, inefficiency, neglect of duty, or misconduct, or to deduct payment for any time the employee cannot be usefully employed because of any strike, or through any breakdown of machinery, or any stoppage of work by any cause for which the employer cannot reasonably be held responsible.

An employer shall not terminate the employment of an employee for the purpose of evading payment for the holidays prescribed by this Determination.

Where an employee is dismissed within seven days prior to any such holiday the re-engagement of such employee within seven days after such holiday shall be prima facie evidence that the employment was terminated for the purpose of evading payment for such holiday.

Where the employer terminates the employment within one week of a day on which a holiday occurs, the employee shall be paid for such holiday or holidays prescribed by this Determination, provided that such employee has been employed by the employer for a period of at least one week prior to the termination of the employment.

Should an employee be dismissed during the course of a week, any wages due to him shall be paid to him forthwith or shall be posted to him within 24 hours.

(11) **SPECIAL RATES FOR SUNDAYS AND HOLIDAYS.**—Any employee who is employed on any holiday specified in clause (16) shall be paid at the rate of the ordinary time in addition to the usual rate.

All work done on Sundays shall be paid for at the rate of double time.

(12) **MIDDAY MEAL.**—An interval of not less than 30 minutes shall be allowed for the midday meal between the hours of 12 noon and 2 p.m.

(13) **MIXED FUNCTIONS.**—Where an employee is engaged in any one week for more than half of such week at work in a higher class than he is employed to perform, he shall be paid for the full week at the highest rate payable for any such work under this Determination; but if he is engaged for less than half of any such week, he shall only be paid at the rates fixed by this Determination for the work he actually performs.

(14) **MATERIALS TO BE PROVIDED.**—Any person employed in wholly or partly preparing or manufacturing any article of furniture or in preparing any new or second-hand article of furniture shall be paid 6d. per hour in addition to the lowest rate fixed by this Determination, unless the following are provided by the employer if required in the performance of the work:—Benches, wood, or iron clamps over 2 ft. 6 in., hand screws (in excess of four), glue pots, and glue brushes and varnish brushes. Any employee engaged at french polishing shall be supplied with all materials, including rags, brushes, and kit-box.

(15) **ALLOWANCES FOR TRAVELLING TIME AND BOARD.**—All time reasonably occupied by an employee in travelling to or from work outside the factory and outside ordinary hours and in travelling to and from work in a country district if engaged in the Metropolitan District for employment in a country district shall be treated as time of duty and paid for at ordinary rates up to a maximum of eight hours for the journey, except on Sundays, when time and a half rates shall be paid up to a maximum of eight hours for the journey. Provided that, where an employee proceeds direct from his home to a job outside the factory, he shall be paid for all time reasonably occupied in travelling to the job in excess of the time usually taken to go from his home to the factory.

All fares and reasonable travelling expenses incurred by an employee in such travelling, including the cost, if any, incurred for meals—together with the reasonable cost of board and lodging if the employee has to be away from his home for a night—shall be paid to the employee.

The fares allowed shall be first class where the employee has to travel all night in connexion with his employer's business and in other cases the fares shall be second class.

The foregoing travelling and accommodation allowances shall be paid additional to the usual rates for the time employees are working.

When it is more convenient for the employee to go direct to the job from his home, he shall do so, and start and cease work at the usual times customary at the factory, provided that any extra expense incurred by him in travelling shall be borne by the employer.

(16) HOLIDAYS.—All weekly wage employees shall be granted the following holidays without deduction of pay :—The days observed as New Year's Day, Australia Day (26th January), Good Friday, Easter Monday, Labour Day, Anzac Day, King's Birthday, Christmas Day, and Boxing Day.

All employees working on piece-work or task-work shall be granted the same holidays as are granted to weekly wage workers, and they shall, subject as hereinafter provided, be paid for such holidays the amount for each holiday based on the minimum weekly wage as set out in this Determination for the class of work performed.

If any of the above holidays occur on a Sunday or Saturday and are not observed on any other day, then employees shall not be paid for such Sunday, and shall be paid for such Saturday as for a half day, but not otherwise.

All other weekly employees shall be paid for the above holidays an amount for each holiday based on the actual weekly wages paid to them by the employer.

Any employee absenting himself from work on any portion of the working day preceding a holiday provided for herein other than Boxing Day and New Year's Day without permission from the employer, or without having reasonable cause for having absented himself from work, shall not be entitled to payment for such holiday.

(17) SICKNESS, ACCIDENTS.—Any employee not attending duty shall lose his pay for the actual time of non-attendance unless he produces or forwards within 24 hours of the beginning of his absence evidence satisfactory to the management that his non-attendance was due to personal accident arising out of or in the course of his employment or to personal ill health sufficient to incapacitate him for his usual work.

An employee shall not be entitled to payment for non-attendance on the ground of accident or ill health for more than six days in each year.

For the purpose of this clause a year shall mean a period of twelve months commencing on the 17th day of August in each year.

(18) PAY DAY.—All employees shall be paid weekly on any other day than Saturday.

No employer shall hold more than two days pay in hand.

Any employee kept waiting for his pay on pay day for more than a quarter of an hour after the usual time for ceasing work shall be paid overtime rates after that quarter of an hour and as for a quarter of an hour at least.

(19) TIME BOOK OR RECORD.—(a) Employers shall provide at each shop, factory or place where work is being carried on a time book or record which shall contain a correct account of the hours worked and the wages received by each employee. Such time book or record shall be kept correctly entered up in ink and shall be open for inspection by a duly accredited official of the Federated Furnishing Trade Society of Australasia during the usual office hours at the office or other convenient place.

Provided that no inspection shall be demanded unless the accredited official of the said society suspects that a breach of this Determination has been or is being committed and provided also that only one demand for such inspection shall be made in any one fortnight at the same establishment. The official making such inspection shall be entitled to take a copy of entries in any time and wages book relating to the suspected breach of this Determination.

(b) The time occupied by an employee in filling in any time book or cards, or in making any records, shall be treated as time of duty: but this clause does not apply to "checking" in or out at beginning or end of duty.

(20) RIGHT OF ENTRY OF UNION OFFICIAL.—A duly accredited representative of the Federated Furnishing Trade Society of Australasia shall have the right to enter employers' workshops during the midday meal hour for the purpose of interviewing employees on legitimate Union business on the following conditions :—

- (a) That he produces his authority to the gatekeeper or such other person as may be appointed by the employer;
- (b) That he interview employees only at the places where they are taking their meals;
- (c) That not more than one representative in all be in any workshop at any one time;
- (d) That no one representative visit a workshop more than once in each week;
- (e) That if any employer alleges that a representative is unduly interfering with his workshop or is creating disaffection amongst his employees or is offensive in his methods or is committing a breach of any of the previous conditions, such employer may refuse the right of entry but the representative shall have the right to bring such refusal before this Wages Board.

(21) PIECE-WORK.—The employer may fix his own piece-work prices or task rates, provided such prices or rates enable an employee of average capacity working under like conditions to earn at least 10 per cent. more than the minimum weekly wage prescribed for the class of work performed. The same piece-work prices shall be paid to all piece-workers doing the same operation in the factory, whether they be apprentices or improvers on piece-work, or otherwise.

All piece-workers who are available and ready and willing to work during the ordinary working hours shall be paid in each week not less than 90s.

(22) PERIODICAL ADJUSTMENT OF WAGES.—The wages rates set out in clause (3) are based upon the following basic wage for adult males and minimum wage for adult females, and, pursuant to the provisions of section 21 of the *Factories and Shops Act 1934* shall be automatically increased or decreased by the same amount and at the same time as such basic wage and minimum wage.

The basic wage rates and minimum wage rates shown hereunder shall be adjusted as prescribed in clause (23).

- (c) In excess of 44 hours in any week;

shall be paid for at the rate of time and one-half for the first four hours and double time thereafter, provided that all time worked between the hours of 9 p.m. and 7.30 a.m. shall be paid for at double time.

All work done outside the times of beginning and ending work on any holiday specified in clause (17) shall be paid for at the rate of double ordinary time.

No person under the age of seventeen years shall be permitted to work more than four hours overtime in any week.

(6) **SHIFT WORK.**—Shift work may be worked subject to the following conditions:—

- (a) Any afternoon or night shift which does not continue for five successive shifts shall be paid at the rate of time and a half.
- (b) Except as hereinafter provided, for any afternoon or night shift which has been in operation for five successive shifts or more and less than one month ten per cent. more than ordinary rates shall be paid and after such shifts have continued for more than one month seven and one half per cent. more than ordinary rates shall be paid.
- (c) Shift workers shall be paid overtime at the rate of time and a half for the first four hours and double time thereafter for all time worked in excess of shift hours.
- (d) Employees who during a period of engagements work only on night shifts shall be paid at the rate of time and a quarter.
- (e) When employees are called upon to work afternoon and night shifts only they shall change over week and week about and shall be paid ten per cent. above ordinary rates for both shifts.
- (f) When employees work day and afternoon shifts only they shall change over week and week about and shall be paid ten per cent. extra for afternoon shifts.
- (g) The ordinary hours of actual work or duty exclusive of meal breaks off duty (if any) of employees working on shift shall not exceed—
  - (i) eight in any one day or,
  - (ii) 48 in any one week, or
  - (iii) an average of 44 per week during any period of three weeks of such employment upon such shifts.

(7) **TEA MONEY.**—All employees required to work beyond the usual time of ending work shall be allowed 2s. tea money in addition to overtime rates as prescribed for in this Determination when the usual time of ending work is exceeded by two hours.

(8) **TERMS OF ENGAGEMENT.**—Except as herein in this Determination provided, all employees shall be employed by the week. Employees to become entitled to the weekly wage prescribed by this Determination must be available and ready and willing to perform such work as the employer shall from time to time require on the days and during the hours usually worked by the class of employees affected. Where the majority of the employees of any establishment or of any department of such establishment agree to work part time for any period or to close down for any period on days other than the prescribed holidays, the provisions of the weekly wage shall not apply to any employee of such establishment or department during such periods.

Employment for the first two weeks of service at any time shall be from hour to hour at the weekly rate fixed.

(9) **CASUAL LABOUR.**—Casual labour at hourly rates may be engaged, provided the rates are 10 per cent. higher than those prescribed for weekly hands.

Casual labour means labour where an employer does not provide a full week's work, but does not include a weekly hand whose engagement is terminated in the middle of a week.

(10) **TERMINATING EMPLOYMENT.**—Employment to be terminated only by a week's notice on either side, and such notice may be given at any time during the week. This shall not affect the right of the employer to dismiss any employee without notice for malingering, inefficiency, neglect of duty, or misconduct, or to deduct payment for any time the employee cannot be usefully employed because of any strike, or through any breakdown of machinery, or any stoppage of work by any cause for which the employer cannot reasonably be held responsible.

An employer shall not terminate the employment of an employee for the purpose of evading payment for the holidays prescribed by this Determination.

Where an employee is dismissed within seven days prior to any such holiday the re-engagement of such employee within seven days after such holiday shall be prima facie evidence that the employment was terminated for the purpose of evading payment for such holiday.

Where the employer terminates the employment within one week of a day on which a holiday occurs, the employee shall be paid for such holiday or holidays prescribed by this Determination, provided that such employee had been employed by the employer for a period of at least one week prior to the termination of the employment.

Should an employee be dismissed during the course of a week any wages due to him or her shall be paid to him or her forthwith or shall be posted to him or her within 24 hours.

(11) **SPECIAL RATES FOR SUNDAYS AND HOLIDAYS.**—Any employee who is employed on any holiday specified in clause (17) shall be paid at the rate of the ordinary time in addition to the usual rate.

All work done on Sundays shall be paid for at the rate of double time.

(12) **MIDDAY MEAL.**—An interval of not less than 30 minutes shall be allowed for the midday meal between the hours of 12 noon and 2 p.m.

(13) **REST PERIOD.**—When any spell of duty is for more than four hours, an interval of ten minutes, to be selected by the employer, shall be allowed in the third hour to females for refreshment. The interval shall be as part of the time of duty, without deduction of time-work pay. During such rest period the employees may leave their seats, but not the premises.

(14) **MIXED FUNCTIONS.**—Where an employee is engaged in any one week for more than half of such week at work in a higher class than he or she is employed to perform, he or she shall be paid for the full week at the highest rate payable for any such work under this Determination; but if he or she is engaged for less than half of any such week, he or she shall only be paid at the rates fixed by this Determination for the work he or she actually performs.

(15) **MATERIALS TO BE PROVIDED.**—Any person employed in wholly or partly preparing or manufacturing any article of furniture or in preparing any new or second-hand article of furniture shall be paid 6d. per hour in addition to the lowest rate fixed by this Determination, unless the following are provided by the employer if required in the performance of the work:—Benches, wood or iron clamps over 2 ft. 6 in., hand screws (in excess of four), glue pots, and glue brushes and varnish brushes. Any employee engaged at frenchpolishing shall be supplied with all materials, including rags, brushes, and kit-box.

(16) **ALLOWANCES FOR TRAVELLING TIME AND BOARD.**—All time reasonably occupied by an employee in travelling to or from work outside the shop and outside ordinary hours, and in travelling to and from work in a country district if engaged in the Metropolitan district for employment in a country district, shall be treated as time of duty and paid for at ordinary rates up to a maximum of eight hours for the journey, except on Sundays, when time and a half rates shall be paid up to a maximum of eight hours for the journey. Provided that, where an employee proceeds direct from his or her home to a job outside the factory, he or she shall be paid for all time reasonably occupied in travelling to the job in excess of the time usually taken to go from his or her home to the factory.

All fares and reasonable travelling expenses incurred by an employee in such travelling, including the cost, if any, incurred for meals, together with the reasonable cost of board and lodging if the employee has to be away from his home for a night, shall be paid to the employee.

The fares allowed shall be first-class where the employee has to travel all night in connexion with his employer's business, and in other cases the fares shall be second-class.

The foregoing travelling and accommodation allowances shall be paid additional to the usual rates for the time employees are working.

When it is more convenient for the employee to go direct to the job from his or her home he or she shall do so, and start and cease work at the usual times customary at the factory, provided that any extra expense incurred by him or her in travelling shall be borne by the employer.

(17) HOLIDAYS.—All weekly wage employees shall be granted the following holidays without deduction of pay:—The days observed as New Year's Day, Australia Day (26th January), Good Friday, Easter Monday, Labour Day, Anzac Day, King's Birthday, Christmas Day, and Boxing Day.

All employees working on piecework or task-work shall be granted the same holidays as are granted to weekly wage workers, and they shall, subject as hereinafter provided, be paid for such holidays the amount for each holiday based on the minimum weekly wage as set out in this Determination for the class of work performed.

If any of the above holidays occur on a Sunday or Saturday and are not observed on any other day, then employees shall not be paid for such Sunday, and shall be paid for such Saturday as for a half day, but not otherwise.

All other weekly employees shall be paid for the above holidays an amount for each holiday based on the actual weekly wage paid to them by the employer.

Any employee absenting himself or herself from work on any portion of the working day preceding a holiday provided for herein, other than Boxing Day and New Year's Day, without permission from the employer, or without having reasonable cause for having absented himself or herself from work, shall not be entitled to payment for such holiday.

(18) SICKNESS, ACCIDENTS.—Any employee not attending duty shall lose his or her pay for the actual time of non-attendance unless he or she produces or forwards within 24 hours of the beginning of his or her absence evidence satisfactory to the management that his or her non-attendance was due to personal accident arising out of or in the course of his or her employment or to personal ill health sufficient to incapacitate him or her for his or her usual work.

An employee shall not be entitled to payment for non-attendance on the ground of accident or ill health for more than six days in each year.

For the purpose of this clause a year shall mean a period of twelve months commencing on the 17th day of August in each year.

(19) PAY DAY.—All employees shall be paid weekly on any other day than Saturday.

No employer shall hold more than two days' pay in hand.

Any employee kept waiting for his or her pay on pay day for more than a quarter of an hour after the usual time for ceasing work shall be paid overtime rates after that quarter of an hour and as for a quarter of an hour at least.

(20) TIME BOOK OR RECORD.—(a) Employers shall provide at each shop, factory, or place where work is being carried on a time book or record which shall contain a correct account of the hours worked and the wages received by each employee. Such time book or record shall be kept correctly entered up in ink and shall be open for inspection by a duly accredited official of the Federated Furnishing Trade Society of Australasia during the usual office hours at the office or other convenient place.

Provided that no inspection shall be demanded unless the accredited official of the said Society suspects that a breach of this Determination has been or is being committed and provided also that only one demand for such inspection shall be made in any one fortnight at the same establishment. The official making such inspection shall be entitled to take a copy of entries in any time and wages book relating to the suspected breach of this Determination.

(b) The time occupied by an employee in filling in any time book or cards, or in making any records, shall be treated as time of duty; but this clause does not apply to "checking" in or out at beginning or end of duty.

(21) RIGHT OF ENTRY OF UNION OFFICIAL.—A duly accredited representative of the Federated Furnishing Trade Society of Australasia shall have the right to enter employers' workshops during the midday meal hour for the purpose of interviewing employees on legitimate Union business on the following conditions:—

(a) That he produces his authority to the gatekeeper or such other person as may be appointed by the employer.

(b) That he interview employees only at the places where they are taking their meal.

(c) That not more than one representative in all be in any workshop at any one time.

(d) That no one representative visit a workshop more than once in each week.

(e) That if any employer alleges that a representative is unduly interfering with his workshop or is creating disaffection amongst his employees or is offensive in his methods or is committing a breach of any of the previous conditions, such employer may refuse the right of entry, but the representative shall have the right to bring such refusal before this Wages Board.

(22) PIECEWORK.—The employer may fix his own piecework prices or task rates provided such prices or rates enable an employee of average capacity working under like conditions to earn at least 10 per cent. more than the minimum weekly wage prescribed for the class of work performed. The same piecework prices shall be paid to all pieceworkers doing the same operation in the factory, whether they be apprentices or improvers on piecework, or otherwise.

All pieceworkers who are available and ready and willing to work during the ordinary working hours shall be paid in each week in the case of males not less than 90s., and in the case of females not less than 57s. 6d.

(23) PERIODICAL ADJUSTMENT OF WAGES.—The wages rates set out in clause (3) are based upon the following basic wage for adult males and minimum wage for adult females, and, pursuant to the provisions of section 21 of the *Factories and Shops Act 1934*, shall be automatically increased or decreased by the same amount and at the same time as such basic wage and minimum wage.

The basic wage rates and minimum wage rates shown hereunder shall be adjusted as prescribed in clause (24).

(24) ADJUSTMENT OF BASIC WAGE FOR ADULT MALES AND MINIMUM WAGE FOR ADULT FEMALES.—(a) Until the beginning of the first pay period to commence in August, 1941, the amounts of the basic wage and the minimum wage for females shall be as proscribed in clause (23).

(b) During each future period of or near a quarter beginning with the first pay period to commence in an August, a November, a February, or a May, the amounts of the needs basic wage shall be adjusted by the following method according to the position and fluctuations (if any) of the Commonwealth Statistician's "All Items" Retail Price Index Numbers.

For the purposes of this Determination the expression "Commonwealth Statistician's Retail Price Index Numbers" or any like expression means the numbers stated to be such Index Numbers in any document purporting, and not proved to be wrongly so purporting, to be printed by the Commonwealth Government Printer or to be signed by or on behalf of the Commonwealth Statistician.

(1) The index Number set to be applied to a place is that assigned thereto in Clause (23).

(2) The Index Number for the calendar quarter next preceding the period of or near a quarter for which the adjustment is made is to be ascertained.

(3) The amounts assigned in the following table (or any extension thereof) to the Index Number Division comprising that Number are to be ascertained.

(4) The needs basic wage and minimum wage for adult females shall be those assigned amounts during such period of or near a quarter.

(15) **MATERIALS TO BE PROVIDED.**—Any person employed in wholly or partly preparing or manufacturing any article of furniture or in preparing any new or second-hand article of furniture shall be paid 6d. per hour in addition to the lowest rate fixed by this Determination, unless the following are provided by the employer if required in the performance of the work:—Benches, wood or iron clamps over 2 ft. 6 in., hand screws (in excess of four), glue pots, and glue brushes and varnish brushes. Any employee engaged at french polishing shall be supplied with all materials, including rags, brushes, and kit-box.

(16) **ALLOWANCES FOR TRAVELLING TIME AND BOARD.**—All time reasonably occupied by an employee in travelling to or from work outside the shop and outside ordinary hours and in travelling to and from work in a country district if engaged in the metropolitan district for employment in a country district shall be treated as time of duty and paid for at ordinary rates up to a maximum of eight hours for the journey, except on Sundays when time and a half rates shall be paid up to a maximum of eight hours for the journey. Provided that, where an employee proceeds direct from his or her home to a job outside the factory, he or she shall be paid for all time reasonably occupied in travelling to the job in excess of the time usually taken to go from his or her home to the factory.

All fares and reasonable travelling expenses incurred by an employee in such travelling, including the cost (if any) incurred for meals—together with the reasonable cost of board and lodging if the employee has to be away from his or her home for a night—shall be paid to the employee.

The fares allowed shall be first class where the employee has to travel all night in connexion with his or her employer's business and in other cases the fares shall be second class.

The foregoing travelling and accommodation allowances shall be paid additional to the usual rates for the time the employees are working.

When it is more convenient for the employee to go direct to the job from his or her home he or she shall do so, and start and cease work at the usual times customary at the factory, provided that any extra expense incurred by him or her in travelling shall be borne by the employer.

(17) **HOLIDAYS.**—All weekly wage employees shall be granted the following holidays without deduction of pay:—The days observed as New Year's Day, Australia Day (26th January), Good Friday, Easter Monday, Labour Day, Anzac Day, King's Birthday, Christmas Day, and Boxing Day.

All employees working on piece-work or task-work shall be granted the same holidays as are granted to weekly wage workers, and they shall, subject as hereinafter provided, be paid for such holidays the amount for each holiday based on the minimum weekly wage as set out in this Determination for the class of work performed.

If any of the above holidays occur on a Sunday or Saturday and are not observed on any other day, then employees shall not be paid for such Sunday, and shall be paid for such Saturday as for a half-day, but not otherwise.

All other weekly employees shall be paid for the above holidays an amount for each holiday based on the actual weekly wage paid to them by the employer.

Any employee absenting himself or herself from work on any portion of the working day preceding a holiday provided for herein other than Boxing Day and New Year's Day without permission from the employer or without having reasonable cause for having absented himself or herself from work shall not be entitled to payment for such holiday.

(18) **SICKNESS, ACCIDENTS.**—Any employee not attending duty shall lose his or her pay for the actual time of non-attendance unless he or she produces or forwards within 24 hours of the beginning of his or her absence evidence satisfactory to the management that his or her non-attendance was due to personal accident arising out of or in the course of his or her employment or to personal ill health sufficient to incapacitate him or her for his or her usual work.

An employee shall not be entitled to payment for non-attendance on the ground of accident or ill health for more than six days in each year.

For the purpose of this clause a year shall mean a period of twelve months commencing on the 17th day of August in each year.

(19) **PAY DAY.**—All employees shall be paid weekly on any other day than Saturday.

No employer shall hold more than two days' pay in hand.

Any employee kept waiting for his or her pay on pay day for more than a quarter of an hour after the usual time for ceasing work shall be paid overtime rates after that quarter of an hour and as for a quarter of an hour at least.

(20) **TIME BOOK OF RECORD.**—(a) Employers shall provide at each shop, factory or place where work is being carried on a time book or record which shall contain a correct account of the hours worked and the wages received by each employee. Such time book or record shall be kept correctly entered up in ink and shall be open for inspection by a duly accredited official of the Federated Furnishing Trade Society of Australasia during the usual office hours at the office or other convenient place.

Provided that no inspection shall be demanded unless the accredited official of the said Society suspects that a breach of this Determination has been or is being committed and provided also that only one demand for such inspection shall be made in any one fortnight at the same establishment. The official making such inspection shall be entitled to take a copy of entries in any time and wages book relating to the suspected breach of this Determination.

(b) The time occupied by an employee in filling in any time book or cards, or in making any records, shall be treated as time of duty; but this clause does not apply to "checking" in or out at beginning or end of duty.

(21) **RIGHT OF ENTRY OF UNION OFFICIAL.**—A duly accredited representative of the Federated Furnishing Trade Society of Australasia shall have the right to enter employers workshops during the midday meal hour for the purpose of interviewing employees on legitimate Union business on the following conditions:—

- (a) That he produces his authority to the gatekeeper or such other person as may be appointed by the employer;
- (b) That he interview employees only at the places where they are taking their meal;
- (c) That not more than one representative in all be in any workshop at any one time.
- (d) That no one representative visit a workshop more than once in each week.
- (e) That if any employer alleges that a representative is unduly interfering with his workshop or is creating disaffection amongst his employees or is offensive in his methods or is committing a breach of any of the previous conditions, such employer may refuse the right of entry, but the representative shall have the right to bring such refusal before this Wages Board.

(22) **PIECEWORK.**—The employer may fix his own piecework prices or task rates, provided such prices or rates enable an employee of average capacity working under like conditions to earn at least 10 per cent. more than the minimum weekly wage prescribed for the class of work performed. The same piecework prices shall be paid to all piece workers doing the same operation in the factory whether they be apprentices or improvers on piecework, or otherwise.

All piece workers who are available and ready and willing to work during the ordinary working hours shall be paid in each week in the case of males not less than 90s. and in the case of females not less than 57s. 6d.

(23) PERIODICAL ADJUSTMENT OF WAGES.—The wages rates set out in clause (3) are based upon the following basic wage for adult males and minimum wage for adult females, and, pursuant to the provisions of section 21 of the *Factories and Shops Act 1934*, shall be automatically increased or decreased by the same amount and at the same time as such basic wage and minimum wage.

(4) DEFINITIONS.—A chairmaker is an employee who makes any class of chairs other than those in which the woodwork is wholly prepared by machines and set up by assemblers.

A stuffer chair and couch frame maker is a person who makes frames on which the upholsterers cover all the woodwork except the legs or feet and of which the woodwork is prepared by machines.

A varnisher is a person employed solely coating with a brush or dipping parts of or completed articles of furniture of any class covered by this Determination with any oil or spirit varnish, lacquer, or substitute for such oil or spirit varnish or lacquer.

(5) ORDINARY WEEK'S WORK.—The number of hours to constitute a week's work shall be as follows:—

Males	.. .. .	44 hours	} To be worked between the times of beginning and ending work shown below.
Females	.. .. .	44 hours	
Times of beginning.		7.30 a.m.	Times of ending.
	.. .. .	7.30 a.m.	5 p.m. Mondays to Fridays.
	.. .. .	7.30 a.m.	12 noon Saturdays.

(6) OVERTIME.—Except in the case of shift work all time worked—

- Before or after the usual times of beginning and ending work;
- In excess of nine hours per day;
- In excess of 44 hours in any week;

shall be paid for at the rate of time and one half for the first four hours and double time thereafter, provided that all time worked between the hours of 9 p.m. and 7.30 a.m. shall be paid for at double time.

All work done outside the times of beginning and ending work on any holiday specified in clause (18) shall be paid for at the rate of double ordinary time.

No person under the age of seventeen years shall be permitted to work more than four hours overtime in any week.

(7) SHIFT WORK.—Shift work may be worked subject to the following conditions:—

- Any afternoon or night shift which does not continue for five successive shifts shall be paid at the rate of time and a half.
- Except as hereinafter provided, for any afternoon or night shift which has been in operation for five successive shifts or more and less than one month ten per cent. more than ordinary rates shall be paid and after such shifts have continued for more than one month seven and one-half per cent. more than ordinary rates shall be paid.
- Shift workers shall be paid overtime at the rate of time and a half for the first four hours and double time thereafter for all time worked in excess of shift hours.
- Employees who during a period of engagements work only on night shifts shall be paid at the rate of time and a quarter.
- When employees are called upon to work afternoon and night shifts only they shall change over week and week about and shall be paid ten per cent. above ordinary rates for both shifts.
- When employees work day and afternoon shifts only they shall change over week and week about and shall be paid ten per cent. extra for afternoon shifts.
- The ordinary hours of actual work or duty exclusive of meal breaks off duty (if any) of employee working on shift shall not exceed—
  - Eight in any one day; or
  - 48 in any one week; or
  - an average of 44 per week during any period of three weeks of such employment upon such shifts.

(8) **TEA MONEY.**—All employees required to work beyond the usual time of ending work shall be allowed 2s. tea money in addition to overtime rates as prescribed for in this Determination when the usual time of ending work is exceeded by two hours.

(9) **TERMS OF ENGAGEMENT.**—Except as herein in this Determination provided, all employees shall be employed by the week. Employees to become entitled to the weekly wage prescribed by this Determination must be available and ready and willing to perform such work as the employer shall from time to time require on the days and during the hours usually worked by the class of employees affected. Where the majority of the employees of any establishment or of any department of such establishment agree to work part time for any period or to close down for any period on days other than the prescribed holidays, the provisions of the weekly wage shall not apply to any employee of such establishment or department during such periods.

Employment for the first two weeks of service at any time shall be from hour to hour at the weekly rate fixed.

Notwithstanding anything herein contained employees engaged on the making of refrigerators may be employed on hourly hiring provided that they are paid at the rate of 5s. per week extra (with a proportionate amount added to the wages of juveniles) when so employed, such payment to be compensation for sick pay and public holiday pay, but such amount shall not be taken into account in computing overtime, Sunday, and holiday rates.

(10) **CASUAL LABOUR.**—Casual labour at hourly rates may be engaged, provided the rates are 10 per cent. higher than those prescribed for weekly hands.

Casual labour means labour where an employer does not provide a full week's work, but does not include a weekly hand whose engagement is terminated in the middle of a week.

(11) **TERMINATING EMPLOYMENT.**—Employment to be terminated only by a week's notice on either side, and such notice may be given at any time during the week. This shall not affect the right of the employer to dismiss any employee without notice for malingering, inefficiency, neglect of duty, or misconduct, or to deduct payment for any time the employee cannot be usefully employed because of any strike, or through any breakdown of machinery, or any stoppage of work by any cause for which the employer cannot reasonably be held responsible.

An employer shall not terminate the employment of an employee for the purpose of evading payment for the holidays prescribed by this Determination.

Where an employee is dismissed within seven days prior to any such holiday the re-engagement of such employee within seven days after such holiday shall be prima facie evidence that the employment was terminated for the purpose of evading payment for such holiday.

Where the employer terminates the employment within one week of a day on which a holiday occurs, the employee shall be paid for such holiday or holidays prescribed by this Determination provided that such employee had been employed by the employer for a period of at least one week prior to the termination of the employment.

Should an employee be dismissed during the course of a week, any wages due to him or her shall be paid to him or her forthwith or shall be posted to him or her within 24 hours.

(12) **SPECIAL RATES FOR SUNDAYS AND HOLIDAYS.**—Any employee who is employed on any holiday specified in clause (18) shall be paid at the rate of the ordinary time in addition to the usual rate.

All work done on Sunday shall be paid for at the rate of double time.

(13) **MIDDAY MEAL.**—An interval of not less than 30 minutes shall be allowed for the midday meal between the hours of 12 noon and 2 p.m.

(14) **REST PERIOD.**—When any spell of duty is for more than four hours, an interval of ten minutes, to be selected by the employer, shall be allowed in the third hour to females for refreshment. The interval shall be as part of the time of duty, without deduction of time-work pay. During such rest period the employees may leave their seats, but not the premises.

(15) **MIXED FUNCTIONS.**—(a) Where an employee is engaged in any one week for more than half of such week at work in a higher class than he or she is employed to perform, he or she shall be paid for the full week at the highest rate payable for any such work under this Determination; but if he or she is engaged for less than half of any such week, he or she shall only be paid at the rates fixed by this Determination for the work he or she actually performs.

(b) An assembler engaged up to twenty-five per cent. of his time in trimming straight square edges and making minor adjustments shall be paid the rate prescribed for an assembler. If so engaged more than twenty-five per cent., and not more than fifty per cent. of his time he shall be paid cabinet makers' rates for the time so engaged. If more than fifty per cent. of his time is so occupied he shall be paid cabinet makers' rates for the full time worked.

(16) **MATERIALS TO BE PROVIDED.**—Any person employed in wholly or partly preparing or manufacturing any article of furniture or in preparing any new or second-hand article of furniture shall be paid 6d. per hour in addition to the lowest rate fixed by this Determination, unless the following are provided by the employer if required in the performance of the work:—Benches, wood or iron clamps over 2 ft. 6 in., hand screws (in excess of four), glue pots, and glue brushes and varnish brushes. Any employee engaged at frenchpolishing shall be supplied with all materials, including rags, brushes, and kit-box.

(17) **ALLOWANCES FOR TRAVELLING TIME AND BOARD.**—All time reasonably occupied by an employee in travelling to or from work outside the factory and outside ordinary hours and in travelling to and from work in a country district if engaged in the metropolitan district for employment in a country district shall be treated as time of duty and paid for at ordinary rates up to a maximum of eight hours for the journey, except on Sundays, when time and a half rates shall be paid up to a maximum of eight hours for the journey. Provided that, where an employee proceeds direct from his or her home to a job outside the factory, he or she shall be paid for all time reasonably occupied in travelling to the job in excess of the time usually taken to go from his or her home to the factory.

All fares and reasonable travelling expenses incurred by an employee in such travelling, including the cost (if any) incurred for meals—together with the reasonable cost of board and lodging if the employee has to be away from his or her home for a night—shall be paid to the employee.

The fares allowed shall be first class where the employee has to travel all night in connexion with his or her employer's business, and in other cases the fares shall be second class.

The foregoing travelling and accommodation allowances shall be paid additional to the usual rates for the time employees are working.

When it is more convenient for the employee to go direct to the job from his or her home, he or she shall do so, and start and cease work at the usual times customary at the factory, provided that any extra expense incurred by him or her in travelling shall be borne by the employer.

(18) **HOLIDAYS.**—All weekly wage employees shall be granted the following holidays without deduction of pay:—The days observed as New Year's Day, Australia Day (26th January), Good Friday, Easter Monday, Labour Day, Anzac Day, King's Birthday, Christmas Day, and Boxing Day.

All employees working on piecework or task-work shall be granted the same holidays as are granted to weekly wage workers, and they shall, subject as hereinafter provided, be paid for such holidays the amount for each holiday based on the minimum weekly wage as set out in this Determination for the class of work performed.

If any of the above holidays occur on a Sunday or Saturday and are not observed on any other day, then employees shall not be paid for such Sunday, and shall be paid for such Saturday as for a half-day, but not otherwise.

All other weekly employees shall be paid for the above holidays an amount for each holiday based on the actual weekly wage paid to them by the employer.

Any employee absenting himself or herself from work on any portion of the working day preceding a holiday provided for herein other than Boxing Day and New Year's Day without permission from the employer or without having reasonable cause for having absented himself or herself from work shall not be entitled to payment for such holiday.

(19) SICKNESS, ACCIDENTS.—Any employee not attending duty shall lose his or her pay for the actual time of non-attendance unless he or she produces or forwards within 24 hours of the beginning of his or her absence evidence satisfactory to the management that his or her non-attendance was due to personal accident arising out of or in the course of his or her employment or to personal ill-health sufficient to incapacitate him or her for his or her usual work.

An employee shall not be entitled to payment for non-attendance on the ground of accident or ill-health for more than six days in each year.

For the purpose of this clause a year shall mean a period of twelve months, commencing on the 17th day of August in each year.

(20) PAY DAY.—All employees shall be paid weekly on any other day than Saturday.

No employer shall hold more than two days' pay in hand.

Any employee kept waiting for his or her pay on pay day for more than a quarter of an hour after the usual time for ceasing work shall be paid overtime rates after that quarter of an hour and as for a quarter of an hour at least.

(21) TIME BOOK OR RECORD.—(a) Employers shall provide at each shop, factory or place where work is being carried on a time book or record which shall contain a correct account of the hours worked and the wages received by each employee. Such time book or record shall be kept correctly entered up in ink and shall be open for inspection by a duly accredited official of the Federated Furnishing Trade Society of Australasia during the usual office hours at the office or other convenient place.

Provided that no inspection shall be demanded unless the accredited official of the said Society suspects that a breach of this Determination has been or is being committed and provided also that only one demand for such inspection shall be made in any one fortnight at the same establishment. The official making such inspection shall be entitled to take a copy of entries in any time and wages book relating to the suspected breach of this Determination.

(b) The time occupied by an employee in filling in any time book or cards, or in making any records, shall be treated as time of duty; but this clause does not apply to "checking" in or out at beginning or end of duty.

(22) RIGHT OF ENTRY OF UNION OFFICIAL.—A duly accredited representative of the Federated Furnishing Trade Society of Australasia shall have the right to enter employers' workshops during the midday meal hour for the purpose of interviewing employees on legitimate Union business on the following conditions:—

(a) That he produces his authority to the gatekeeper or such other person as may be appointed by the employer;

(b) That he interview employees only at the places where they are taking their meal;

(c) That not more than one representative in all be in any workshop at any one time;

(d) That no one representative visit a workshop more than once in each week;

(e) That if any employer alleges that a representative is unduly interfering with his workshop or is creating disaffection amongst his employees or is offensive in his methods or is committing a breach of any of the previous conditions, such employer may refuse the right of entry, but the representative shall have the right to bring such refusal before this Wages Board.

(23) PIECEWORK.—The employer may fix his own piecework prices or task rates, provided such prices or rates enable an employee of average capacity working under like conditions to earn at least 10 per cent. more than the minimum weekly wage prescribed for the class of work performed. The same piecework prices shall be paid to all pieceworkers doing the same operation in the factory, whether they be apprentices or improvers on piece work, or otherwise.

All pieceworkers who are available and ready and willing to work during the ordinary working hours shall be paid in each week, in the case of males not less than 90s., and in the case of females not less than 57s. 6d.

(24) PERIODICAL ADJUSTMENT OF WAGES.—The wages rates set out in clause (3) are based upon the following basic wage for adult males and minimum wage for adult females, and, pursuant to the provisions of section 21 of the *Factories and Shops Act 1934* shall be automatically increased or decreased by the same amount and at the same time as such basic wage and minimum wage.

The basic wage rates and minimum wage rates shown hereunder shall be adjusted as prescribed in clause (25).

(25) ADJUSTMENT OF BASIC WAGE FOR ADULT MALES AND MINIMUM WAGE FOR ADULT FEMALES.—(a) Until the beginning of the first pay period to commence in August, 1941, the amounts of the basic wage and the minimum wage for females shall be as prescribed in clause (24).

(b) During each future period of or near a quarter beginning with the first pay period to commence in an August, a November, a February, or a May, the amounts of the needs basic wage shall be adjusted by the following method according to the position and fluctuations (if any) of the Commonwealth Statistician's "All Items" Retail Price Index Numbers.

For the purposes of this Determination the expression "Commonwealth Statistician's Retail Price Index Numbers" or any like expression means the numbers stated to be such Index Numbers in any document purporting, and not proved to be wrongly so purporting, to be printed by the Commonwealth Government Printer or to be signed by or on behalf of the Commonwealth Statistician.

(1) The Index Number set to be applied to a place is that assigned thereto in Clause (24).

(2) The Index Number for the calendar quarter next preceding the period of or near a quarter for which the adjustment is made is to be ascertained.

(3) The amounts assigned in the following table (or any extension thereof) to the Index Number Division comprising that Number are to be ascertained.

(4) The needs basic wage and minimum wage for adult females shall be those assigned amounts during such period of or near a quarter.

The Index Number Divisions in this table are based upon the equating of the Index Number 1,000 with a basic wage of 81s. per week, and any extension of the table must be of the same construction as the table.

(c) The amounts of the weekly rates for apprentices and improvers shall be adjusted proportionately to the basic wage, and shall accord with the rates payable from time to time under the appropriate Award of the Commonwealth Court of Conciliation and Arbitration.

(d) The rates for pieceworkers shall be increased or decreased in the same proportion as the rate for the journeymen or journeywomen in the respective classes.
