CONDITIONS OF CONTRACT FOR GENERAL STORES, 1946-47, ETC.

Published in the *Victoria Government Gazette*, No. 50, dated 20th March, 1946, pages 1030 to 1032.

1. Except where definite quantities are specified the Government will not be bound to order from the contractor all the articles enumerated in the schedule, but only those articles, and such quantities of those articles, as it may be found necessary to order. Should the Government, however, require a larger supply of any article than the estimated quantity stated in the schedule, the contractor will nevertheless be bound to supply the same at contract rates. The Government reserves the right to purchase otherwise than from the contractor articles of any of the several kinds enumerated in the schedule the purchase of which is, in the opinion of the Tender Board, necessary in order to meet special circumstances or special requirements.

2. Under this contract goods may be ordered by any Department of the Commonwealth, but it shall be optional on the part of the contractor to supply.

3. The supplies are to be the same as sample where so stated, and of the particular manufacture indicated in the schedule. In the case of different makers' goods, the contractor will be required to supply the kind ordered. *The supplies are to be the best quality of their several kinds or manufacture.* In the event of the tender having been accepted for goods manufactured within the Commonwealth or within any other part of the British Empire (as the case may be), all such goods supplied shall, if required by the Government, bear evidence that they are of the particular manufacture tendered for and, in addition, the contractor may at any time during the currency of the contract be called on to furnish a statutory declaration as to the country of origin of the goods supplied.

4. Except where otherwise stated in the schedule, the value of all packages, cases, casks, &c., whether bulk be broken or not, must be included in the prices stated in the contractor's tender; all such packages, &c., shall be considered the property of the Government, and no charges or expenses whatsoever beyond the price tendered and set out in the schedule will be allowed to the contractor for any articles or packages, cases, casks, &c. The net weight or quantity only will be paid for. The contractor must provide, without extra charge, whatever labour may be required in the packing of stores.

5. All orders for supplies will emanate from the Departments requiring the goods, which shall be delivered as may be directed by the officer ordering the supply. At the time of delivering the supplies, the contractor shall produce the order for same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the stores accepted and return the order to the contractor, who will attach it to his claim for payment.

6. Supplies ordered for delivery in the Melbourne District are to be delivered free of all charges (whether cartage, freight, &c.), and, for the purposes of this contract, the Melbourne District will include a radius of 6 miles from the Elizabeth-street Post Office. For supplies outside that radius the goods must be delivered free on rails at Flinders-street or Spencer-street Railway Stations as required.

7. Arrangements as to time of delivery and inspection of goods will be made by the officer ordering the supply.

8. Orders must receive prompt execution; in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order or within such other time as the order may specify for delivery, it will be competent for the officer named in clause 7, or the head of the department to whom the goods are to be supplied, on giving the contractor twenty-four hours' notice, to purchase the supplies, or any like supplies that are suitable for the service, at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account or from the security money.

9. Delivery will not be deemed to have been made until the goods have been approved of. In the event of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the supplies rejected or returned, otherwise purchases will be effected at the contractor's risk and the extra expense deducted as provided in clause 8.

10. The contractor will be required to furnish his account in the prescribed form as soon as possible after the delivery of the goods, the account to be accompanied by the receipted delivery orders on which it is based. Where practicable, the use of more than one account form for each Department or sub-Department must be avoided. The rates and the quantities quoted in the orders cannot be increased.

11. The acceptance of the supplies shall be subject to the approval of the officer authorized to take delivery of the stores, or such other officer as shall be named in the schedule.

The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four hours after objection is made, give notice thereof, in writing, to the officer rejecting the goods. If, after the delivery of the supplies has been taken, any deficiency or defect is discovered therein, such deficient or defective stores may be returned to the contractor.

12. The members of Boards of survey will be appointed by the Treasurer of the State for the time being, and the decision of the Board is to be considered as final. If the Board shall decide that the article is not of proper quality it must be immediately replaced by the contractor, failing which it, or any like supply that is suitable for the service, will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as provided in clause 8.

13. A refusal to execute orders, irregularity in the quantity or quality of the supplies, delay in delivering or replacing them when required, or non-compliance with the terms of clauses 15 and 16 of these Conditions respecting the forwarding of consignment notes, &c., will subject the contractor, upon report from the Tender Board, to such mulct not exceeding Fifty pounds as the Treasurer may direct, and the amount may be deducted as provided in clause 8. It will also be in the power of the said Treasurer upon such refusal, irregularity, or delay to terminate the contract forthwith and declare forfeit the whole or any portion of the security money; and, in addition, the contractor will be disqualified from tendering or holding any future contract or contracts for a period of twelve months from the date of such disqualification.

14. All goods forwarded under this contract shall, where practicable, be forwarded by rail, and all consignments shall bear the number of the consignment notes under which they are forwarded, and also the name of the contractor by whom consigned, on a legibly-written business label.

15. When the contractor is required to make delivery of goods at a railway station for transmission by rail for any Department excepting Departments of the Commonwealth, he shall obtain a receipt for the goods in duplicate on the Stores and Transport consignment note, at the same time handing in a triplicate and quadruplicate of the form as an authority for the Railways to act as agent for, and charge the freight to, the Stores and Transport Office or such other Department as shall be named therein. He shall as soon as possible, and not later than twenty-four hours thereafter, deliver the original at the Tender Board Offices, the duplicate to be forwarded to the consignee in accordance with clause 16, and the quintuplicate to be retained by himself. (In the case of Commonwealth Departments, however, the Commonwealth consignment note only, which accompanies the order, must be used.) Should the goods thus forwarded be rejected, the contractor must bear the cost of replacing such goods, for which service the departmental consignment note must not be used. Any infringement of this condition will subject the contractor to such mulct as is provided in clause 13.

16. *Immediately after the consignment of the goods, the officer to whom they are forwarded shall be notified by the contractor, on the duplicate consignment note provided for the purpose, that the goods have been sent. On receipt of this document, the officer to whom it has been forwarded shall acknowledge thereon the receipt of the goods without delay to the Stores and Transport Office. In the event of loss through failure on the part of the contractor to comply with this condition he will be held responsible, and the amount of the loss incurred thereby will be deducted as provided in clause 8.*

17. Should the order on the contractor specially provide that goods of a fragile character, or such as are liable to suffer loss by leakage, shall be consigned at the risk of the Railways Commissioners, under special freight conditions, the contractor shall in such instance provide, in writing on the consignment note, an intimation to that effect, failing which, in the event of loss, he shall bear the whole cost of replacing the goods, the amount thereof to be deducted from the contractor's account or from the security money.

18. The contractor is not at liberty to transfer his contract under cover of power of attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government. Should it be found during the currency of the contract that the contractor has not conformed to the condition of advertisement—which stipulates that if a tenderer be a member of a firm and such firm be interested in the contract, the tender shall be in the name of the firm, and not in that of the individual—then the Treasurer may, on the recommendation of the Tender Board, determine the contract and forfeit the security money.

19. The contract entered into under these conditions is not to be considered as being broken, infringed, or vitiated by the importation of stores for the Government service, or by any contracts or purchases made by the Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Department of Public Works through the Board of Land and Works, or by the State Rivers and Water Supply, Forests, and Electricity Commissioners, or the Country Roads Board, or for the Railways Department, or for supplies for Technical, High, or Higher Elementary Schools, or for connexions and fittings for Drills and Batteries, or by any article being made at and supplied for the use of any Government establishment, or by the consumption of the surplus stock of any Government establishment.

20. Notwithstanding anything to the contrary contained in section 152 of the *Customs Act* 1901-36, it is hereby expressly provided that upon any alteration of the duty collected affecting the goods included in this contract, the contract price shall not be altered, and the contract may be terminated at the option of either party by two months' notice, in writing, from the first day of the calendar month next ensuing and within

the period for which the contract is made. The contract for the unaffected items shall remain in full force and effect. Any notice to be served under this condition shall be deemed to have been duly served if sent to the contractor in a registered letter to his last-known place of business or abode.

The foregoing provision shall not apply where the contract is for definite quantities of imported goods to be delivered at stated times, as stipulated in the schedule, and any alteration in the duty of Customs or Telegraphic Transfer rate of exchange affecting the goods included in such contract shall be to the accounts of the Government; adjustments to be based on the F.O.B. and C.I.F. prices of the goods, respectively, and the Telegraphic Transfer rate ruling at the time of delivery of the goods.

21. *Under no circumstances, other than those mentioned in clause 20, will the contractor be permitted to abandon his contract.* In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited and, in addition, the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

(b) Except in the case of employees in foundries, the minimum rate payable to a junior male of eighteen years or more with less than six months' experience under this Determination shall, until he has had six months' experience, be 10 per cent. less than the amount represented by the percentage of the needs basic wage hereby prescribed for a junior employee of his age and in addition thereto the constant loading prescribed for such an employee.

Prohibited Occupations.

(c) Junior employees shall not be employed—

Wet Places.

(a) An employee working in any place where his clothing or boots become saturated, whether by water, oil, or otherwise, shall be paid 2d. per hour extra: Provided that this extra rate shall not be payable to an employee who is provided by the employer with suitable and effective protective clothing and/or footwear: And provided further that any employee who becomes entitled to this extra rate shall be paid such extra rate for such part of the day or shift as he is required to work in wet clothing or boots.

Where work continues for more than two hours in temperatures exceeding 130 degrees Fahrenheit, employees shall also be entitled to twenty minutes' rest after every two hours' work without deduction of pay. The temperature shall be decided by the foreman of the work after consultation with the employees who claim the extra rate.

In case of disagreement between the foreman and workman, the workman, or a shop steward on his behalf, shall be entitled, within 24 hours, to ask for a decision on the workman's claim by the employer's industrial officer (if there be one), or otherwise by the employer or the executive officer responsible for the management or superintendence of the plant concerned. In such case a decision shall be given on the workman's claim within 48 hours of its being asked for (unless that time expires on a non-working day, in which case it shall be given during the next working day), or else the said allowance shall be paid.

In any case where an organization alleges that an employer or his representative is persistently unreasonable or capricious in relation to such claims, it may bring such case before the Wages Board.

HOURS OF WORK.

Day Workers.

5. (a) Subject to the exceptions hereinafter provided the ordinary hours of work shall be 44 per week to be worked in five days of 8 hours (Monday to Friday inclusive) and one day (Saturday) of 4 hours; or five days (Monday to Friday inclusive) of 8 hours 48 minutes each continuously except for meal breaks at the discretion of the employer, between 7 a.m. and 5.30 p.m. on Monday to Friday inclusive, and 7 a.m. and noon on Saturday.

In localities where the recognized half-holiday is on a day other than Saturday, the day so recognized may be substituted for Saturday for all the purposes of this Determination.

Provided that the spread of hours herein prescribed may be altered as to all or a section of the employees by mutual agreement between an employer and the representative of the union in that shop.

Five-Days' Week.

(b) In any case in which the ordinary week's work of 44 hours can be performed in five days as aforesaid without—

- (i) detriment to the public interest;
- (ii) loss in the value of goods handled or to be handled;
- (iii) reducing the efficiency of production; or
- (iv) reducing the efficacy of the necessary service,

the employer shall on or before the 1st July, 1946, allow those employees who so desire to do so to work their ordinary hours in five days as aforesaid. Any dispute as to whether the ordinary hours of work can in any case or cases be worked in five days without detriment, loss, or reduction as aforesaid shall be determined by the Wages Board upon application made by or on behalf of the employees. Upon such an application proof that the working of a five-days' week will result in such detriment, loss, or reduction as aforesaid shall be upon the employer.

This sub-clause shall not apply to employees engaged on the maintenance and servicing of plant.

It is a condition of the allowing of a five-days' week hereunder that if required employees shall comply with the reasonable and lawful orders of the employer as to working overtime, including the working of overtime on Saturday.

SHIFT WORK.

6. (a) For the purposes of this clause—

- "Afternoon shift" means any shift finishing after 6 p.m., and at or before midnight.
- "Continuous work" means work carried on with consecutive shifts of men throughout the twenty-four hours of each of at least six consecutive days without interruption, except during breakdowns or meal breaks, or due to unavoidable causes beyond the control of the employer.
- "Night shift" means any shift finishing subsequent to midnight, and at or before 8 a.m.
- "Rostered shift" means a shift of which the employee concerned has had at least 48 hours' notice.

Hours—Continuous Work Shifts.

(b) This sub-clause shall apply to shift workers on continuous work as hereinbefore defined.

The ordinary hours of such shift workers shall not exceed—

- (i) 8 in any one day; nor
- (ii) 48 in any one week; nor
- (iii) 88 in 14 consecutive days; nor
- (iv) 176 in 28 consecutive days.

Subject to the following conditions such shift workers shall work at such times as the employer may require—

- (i) a shift shall consist of 8 hours, inclusive of crib time;
- (ii) except at the regular change-over of shifts an employee shall not be required to work more than one shift in each 24 hours;
- (iii) twenty minutes shall be allowed to shift workers each shift for crib, which shall be counted as time worked.

Hours—Other Than Continuous Work.

(c) This sub-clause shall apply to shift workers not upon continuous work as hereinbefore defined. The ordinary hours of such shift workers shall not exceed—

- (i) 44 in any week to be worked in five shifts of 8 hours 48 minutes on Monday to Friday inclusive, or five shifts of 8 hours and one shift (Saturday) of four hours; or
- (ii) 88 in 14 consecutive days, in which case an employee shall not, without payment for overtime, be required to work more than 8 consecutive hours on any shift or more than six shifts in any week.
- (iii) 132 in 21 consecutive days, in which case an employee shall not, without payment of overtime, be required to work more than 8 consecutive hours on any shift or more than six shifts in any week.

Such ordinary hours shall be worked continuously, except for meal breaks, at the discretion of the employer. An employee shall not be required to work for more than six hours without a break for a meal.

Except at regular change-over of shifts an employee shall not be required to work more than one shift in each 24 hours.

Rosters.

(d) Shift rosters shall specify the commencing and finishing times of ordinary working hours of the respective shifts.

Variation by Agreement.

(e) The method of working shifts may in any case be varied by agreement between the employer and the accredited representative of the union to suit the circumstances of the establishment.

The time of commencing and finishing shifts once having been determined may be varied by agreement between the employer and the accredited representative of the union to suit the circumstances of the establishment, or in the absence of agreement by seven days' notice of alteration given by the employer to the employees.

Afternoon or Night Shift Allowances.

(f) Shift workers on continuous work whilst on afternoon or night shifts shall be paid $7\frac{1}{2}$ per cent. more than the ordinary rates for such shifts.

Shift workers on other than continuous work whilst on afternoon or night shifts shall be paid 10 per cent. more than the ordinary rates for such shifts.

Shift workers who work on any afternoon or night shift which does not continue for at least five successive afternoons or nights in a five-day workshop or for at least six successive afternoons or nights in a six-day workshop shall be paid at the rate of time and a half.

An employee who—

- (i) during a period of engagement on shift works night shift only; or
- (ii) remains on night shift for a longer period than four consecutive weeks; or

(iii) works on a night shift which does not rotate or alternate with another shift or with day work so as to give him at least one-third of his working time off night shift in each shift cycle, shall during such engagement, period or cycle, be paid at the rate of time and a quarter for all time worked during ordinary working hours on such night shifts.

Overtime.

(g) Shift workers for all time worked in excess of or outside the ordinary working hours prescribed by this Determination or on a shift other than a rostered shift shall—

- (i) if employed on continuous work be paid at the rate of double time; or
- (ii) if employed on other shift work at the rate of time and a half for the first four hours and double time thereafter, except in each case when the time is worked—
- (iii) by arrangement between the employees themselves;
- (iv) for the purpose of effecting the customary rotation of shifts; or
- (v) is due to the fact that the relief man does not come on duty at the proper time; or
- (vi) on a shift to which an employee is transferred on short notice as an alternative to standing the employee off in circumstances which would entitle the employer to deduct payment for a day in accordance with clause 12 (b) hereof.

Provided that when not less than 8 hours' notice has been given to the employer by the relief man that he will be absent from work and the employee whom he should relieve is not relieved the unrelieved employee shall be paid at the rate of time and a half for the first 4 hours on duty after he has finished his ordinary shift and at the rate of double time thereafter except where the employee is required to continue to work on his rostered day off when he shall be paid double time.

Sundays and Holidays.

(h) Shift workers on continuous work shifts for work done on a rostered shift the major portion of which is performed on a Sunday or holiday shall be paid at the rate of time and a half.

Shift workers on other than continuous work for all time worked on a Sunday or holiday shall be paid at the rates prescribed by clause 9 of this Determination. Where shifts commence between 11 p.m. and midnight on a Sunday or holiday the time so worked before midnight shall not entitle the employee to the Sunday or holiday rate; provided that the time worked by an employee on a shift commencing before midnight on the day preceding a Sunday or holiday and extending into a Sunday or holiday shall be regarded as time worked on such Sunday or holiday.

Junior Employees.

(i) Juniors whilst on afternoon or night shifts shall be paid not less than the rates hereinbefore prescribed or 1s. per shift whichever is the higher.

MIXED FUNCTIONS.

7. An employee engaged for more than half of one day or shift on duties carrying a higher rate than his ordinary classification shall be paid the higher rate for such day or shift. If for less than half of one day or shift, he shall be paid the higher rate for the time so worked.

OVERTIME.

8. (a) For all work done outside ordinary hours the rates of pay shall be time and a half for the first four hours and double time thereafter, such double time to continue until the completion of the overtime work; provided that in the case of an apprentice or a junior the rate for overtime shall be not less than the rate herein prescribed or 1s. 6d. per hour whichever is the higher. Except as provided in this sub-clause or sub-clause (b) hereof in computing overtime each day's work shall stand alone.

Rest Period After Overtime.

(b) When overtime work is necessary it shall, wherever reasonably practicable, be so arranged that employees have at least eight consecutive hours off duty between the work of successive days.

An employee (other than a casual employee) who works so much overtime between the termination of his ordinary work on one day and the commencement of his ordinary work on the next day that he has not at least eight consecutive hours off duty between those times shall, subject to this sub-clause, be released after completion of such overtime until he has had eight consecutive hours off duty without loss of pay for ordinary working time occurring during such absence.

If on the instructions of his employer such an employee resumes or continues work without having had such eight consecutive hours off duty he shall be paid at double rates until he is released from duty for such period and he shall then be entitled to be absent until he has had eight consecutive hours off duty without loss of pay for ordinary working time occurring during such absence.

Call Back.

(c) An employee recalled to work overtime after leaving his employer's business premises (whether notified before or after leaving the premises) shall be paid for a minimum of three hours' work at the appropriate rate for each time he is so recalled; provided that, except in the case of unforeseen circumstances arising, the employee shall not be required to work the full three hours if the job he was recalled to perform is completed within a shorter period. This sub-clause shall not apply in cases where it is customary for an employee to return to his employer's premises to perform a specific job outside his ordinary working hours, or where the overtime is continuous (subject to a reasonable meal break) with the completion or commencement of ordinary working time.

Overtime work in the circumstances specified in this sub-clause shall not be regarded as overtime for the purposes of sub-clause (b) of this clause where the actual time worked is less than three hours on such recall or on each of such recalls.

Saturday Work—Five-Days' Week.

(d) A day worker on a five-days' week required to work overtime on a Saturday shall be afforded at least three hours' work or paid for three hours at the appropriate rate except where such overtime is continuous with overtime commenced on the day previous.

Standing By.

(e) Subject to any custom now prevailing under which an employee is required regularly to hold himself in readiness for a call back, an employee required to hold himself in readiness to work after ordinary hours shall until released be paid standing-by time at ordinary rates from the time from which he is so to hold himself in readiness.

Crib Time.

(h) An employee working overtime shall be allowed a crib time of twenty minutes without deduction of pay after each four hours of overtime worked if the employee continues work after such crib time.

Provided that where a day worker on a five-days' week is required to work overtime on a Saturday the first prescribed crib time shall, if occurring between 10 a.m. and 1 p.m., be paid at ordinary rates.

Unless the period of overtime is less than one and a half hours an employee before starting overtime after working ordinary hours shall be allowed a meal break of twenty minutes which shall be paid for at ordinary rates. An employer and employee may agree to any variation of this provision to meet the circumstances of the work in hand provided that the employer shall not be required to make any payment in respect of any time allowed in excess of twenty minutes.

Tea Money.

(i) An employee required to work overtime for more than two hours without being notified on the previous day or earlier that he will be so required to work shall either be supplied with a meal by the employer or paid 2s., and 1s. 3d. for each subsequent meal, but such payment need not be made to employees living in the same locality as their workshops who can reasonably return home for meals.

Unless the employer advises an employee on the previous day or earlier that the amount of overtime to be worked will necessitate the partaking of a second or subsequent meal (as the case may be) the employer shall provide such second and/or subsequent meals or make payment in lieu thereof as above prescribed.

If an employee pursuant to notice has provided a meal or meals and is not required to work overtime or is required to work less than the amount advised he shall be paid as above prescribed for meals which he has provided, but which are surplus.

Transport of Employees.

By agreement between any employer and his employees, other days may be substituted for the said days, or any of them, as to such employer's undertaking.

Exceptions.

(b) An employee not engaged on continuous work shall be paid at the rate of double time for work done on Sundays and public holidays, such double time to continue until he is relieved from duty.

Provided that where employees are necessarily engaged in repairs to or renewals of their employer's plant and machinery necessary for resumption of work the next following working day (not including the installation of new machinery), work done on Sundays and holidays shall be paid for at the rate of time and a half for the first eight hours, and double time thereafter.

(c) An employee, other than a casual employee, not engaged in continuous work, who works on a Sunday or a public holiday and (except for meal breaks) immediately thereafter continues such work, shall on being relieved from duty be entitled to be absent until he has had eight consecutive hours off duty, without deduction of pay for ordinary time of duty occurring during such absence.

(e) On or prior to pay day, the employer shall state to each employee, in writing, the amount of wages to which he is entitled, the amount of deductions made therefrom, and the net amount being paid to him.

CONTRACT OF EMPLOYMENT.

Weekly Employment.

12. (a) Except as hereinafter provided employment shall be by the week. Any employee not specifically engaged as a casual employee shall be deemed to be employed by the week.

(b) Employment shall be terminated by a week's notice on either side given at any time during the week, or by the payment or forfeiture of a week's wages, as the case may be. This shall not affect the right of the employer to dismiss any employees without notice for malingering, inefficiency, neglect of duty, or misconduct, and in such cases the wages shall be paid up to the time of dismissal only; or to deduct payment for any day the employee cannot be usefully employed because of any strike or through any breakdown in machinery, or any stoppage of work by any cause for which the employer cannot reasonably be held responsible.

(c) An employee not attending for duty shall, except as provided by clause 13 hereof, lose his pay for the actual time of such non-attendance.

(e) Notwithstanding anything elsewhere contained in this Determination an employer may select and utilize for time-keeping purposes any fractional or decimal proportion of an hour (not exceeding a quarter of an hour) and may apply such proportion in the calculation of the working time of employees who without reasonable cause promptly communicated to the employer, report for duty after their appointed starting times or cease duty before their appointed finishing times.

An employer who adopts a proportion for the aforesaid purpose shall apply the same proportion for the calculation of overtime.

SICK LEAVE.

13. (a) An employee on weekly hiring who is absent from his work on account of personal illness, or on account of injury by accident arising out of and in the course of his employment, shall be entitled to leave of absence, without deduction of pay, subject to the following conditions and limitations:—

(i) He shall not be entitled to paid leave of absence for any period in respect of which he is entitled to workers' compensation.

(ii) He shall, within 24 hours of the commencement of such absence, inform the employer of his inability to attend for duty and, as far as practicable, state the nature of the injury or illness and the estimated duration of the absence.

(iii) He shall prove to the satisfaction of his employer (or in the event of dispute, the Wages Board) that he was unable on account of such illness or injury to attend for duty on the day or days for which sick leave is claimed.

(iv) He shall not be entitled in any year (whether in the employ of one employer or of several) to leave in excess of 44 hours of working time.

For the purpose of administering paragraph (iv) of this sub-clause an employer may, within one month of this Determination coming into operation or within two weeks of the employee entering his employment, require an employee to make a sworn declaration or other written statement as to what paid leave of absence he has had from any employer during the then current year; and upon such statement the employer shall be entitled to rely and act.

Single Day Absences.

(b) In the case of an employee who claims to be allowed paid sick leave in accordance with this clause for an absence of one day only, such employee, if in the year he has already been allowed paid sick leave on more than one occasion for one day only, shall not be entitled to payment for the day claimed unless he produces to the employer a certificate of a duly-qualified medical practitioner that in his, the medical practitioner's, opinion the employee was unable to attend for duty on account of personal illness or on account of injury by accident. Nothing in this sub-clause shall limit the employer's rights under sub-clause (a) (iii) hereof.

Cumulative Sick Leave.

(c) Sick leave shall accumulate from year to year so that any balance of the period specified in sub-clause (a) (iv) of this clause which has in any year not been allowed to an employee by an employer as paid sick leave may be claimed by the employee and subject to the conditions hereinbefore prescribed shall be allowed by that employer in a subsequent year without diminution of the sick leave prescribed in respect of that year. Provided that sick leave which accumulates pursuant to this sub-clause shall be available to the employee for a period of two years, but for no longer from the end of the year in which it accrues.

Attendance at Hospital, &c.

(d) Notwithstanding anything contained in sub-clause (a) hereof an employee suffering injury through an accident arising out of and in the course of his employment (not being an injury in respect of which he is entitled to workers' compensation) necessitating his attendance during working hours on a doctor, chemist, or trained nurse, or at a hospital, shall not suffer any deduction from his pay for the time (not exceeding four hours) so occupied on the day of the accident, and shall be reimbursed by the employer all expenses reasonably incurred in connexion with such attendance.

ANNUAL LEAVE.

Period of Leave.

14. (a) A period of fourteen consecutive days' leave shall be allowed annually to an employee after twelve months' continuous service (less the period of annual leave) as an employee on weekly hiring in any one or more of the occupations to which this Determination applies.

Seven-Day Shift Workers.

(b) In addition to the leave hereinbefore prescribed, seven-day shift workers, that is shift workers who are rostered to work regularly on Sundays and holidays shall be allowed seven consecutive days' leave including non-working days.

Annual Leave Exclusive of Public Holidays.

(c) Subject to this sub-clause the annual leave prescribed by this clause shall be exclusive of any of the holidays prescribed by clause 9 of this Determination and if any such holiday falls within an employee's period of annual leave and is observed on a day which in the case of that employee would have been an ordinary working day there shall be added to the period of annual leave time equivalent to the ordinary time which the employee would have worked if such day had not been a holiday.

Where a holiday falls as aforesaid and the employee fails without reasonable cause proof whereof shall be upon him to attend for work at his ordinary starting time on the working day immediately following the last day of the period of his annual leave he shall not be entitled to be paid for any such holiday.

- (iii) any absence with reasonable cause proof whereof shall be upon the employee.

In cases of personal sickness or accident or absence with reasonable cause the employee to become entitled to the benefit of this sub-clause shall inform the employer in writing if practicable within 24 hours of the commencement of such absence of his inability to attend for duty and as far as practicable the nature of the illness, injury, or cause, and the estimated duration of his absence. A notification given by an employee pursuant to clause 13 shall be accepted as a notification under this sub-clause.

Any absence from work by reason of any cause not being a cause specified in this sub-clause shall not be deemed to break the continuity of service for the purposes of this clause unless the employer during the absence or within fourteen days of the termination of the absence notifies the employee in writing that such absence will be regarded as having broken the continuity of service.

In cases of individual absenteeism, such notice shall be given in writing to the employee concerned, but in cases of concerted or collective absenteeism, notice may be given to employees by the posting up of a notification in the plant, in the manner in which general notification to employees are usually made in that plant and by posting to the union whose members have participated in such concerted or collective absenteeism a copy of same not later than the day it is posted up in the plant.

A notice to an individual employee may be given by delivering same to him personally or by posting it to his last recorded address, in which case it shall be deemed to have reached him in due course of post.

In calculating the period of twelve months' continuous service any such absence as aforesaid shall not, except to the extent of not more than fourteen days in a twelve-monthly period in the case of sickness or accident, be taken into account in calculating the period of twelve months' continuous service.

Calculation of Service.

(f) Service before the date of operation of this Determination shall be taken into consideration for the purpose of calculating annual leave, but an employee shall not be entitled to leave or payment in lieu thereof for any period in respect of which leave or a payment in lieu thereof has been allowed or made under the appropriate clause of the Determination of the Engineers and Brassworkers (Unskilled) Board which was revoked as from the beginning of the first pay period to commence on or after the 23rd February, 1946. Provided however, that in respect of service before the 1st January, 1946, the annual leave shall be allowed at the rate of 3½ hours for each completed one month of continuous service and in respect of service after that date at the rate of 7½ hours for each completed one month of continuous service. Any broken part of a month served before the 1st January, 1946, shall for the purposes of this clause be deemed to be service after the 1st January, 1946. The period of annual leave to be allowed under this sub-clause shall be calculated to the nearest day any broken part of a day in the result not exceeding half a day to be disregarded.

Where the employer is a successor or assignee or transferee of a business if an employee was in the employment of the employer's predecessor at the time when he became such successor or assignee or transferee the employee in respect of the period during which he was in the service of the predecessor shall for the purpose of this clause be deemed to be in the service of the employer.

Calculation of Month.

(g) For the purpose of this clause a month shall be reckoned as commencing with the beginning of the first day of the employment or period of employment in question and as ending at the beginning of the day which in the latest month in question has the same date number as that which the commencing day had in its month and if there be no such day in such subsequent month shall be reckoned as ending at the end of such subsequent month.

Where leave has been granted to an employee pursuant to this sub-clause before the right thereto has accrued due and the employee subsequently leaves or is discharged from the service of the employer before completing the twelve months' continuous service in respect of which the leave was granted the employer may for each one complete month of the qualifying period of twelve months not served by the employee deduct from whatever remuneration is payable upon the termination of the employment one-twelfth of the amount of wage paid on account of the annual leave, which amount shall not include any sums paid for any of the holidays prescribed by clause 9 of this Determination.

Payment for Period of Leave.

(k) Each employee before going on leave shall be paid two weeks' wages, except a shift worker or an employee taking his leave pursuant to sub-clause (d) of this clause either of whom shall be paid the amount of wage he would have received in respect of the ordinary time which he would have worked had he not been on leave during the relevant periods. For the purposes of this sub-clause and sub-clause (l) hereof wages shall be at the rate prescribed by clauses 2 and 3 of this Determination for the occupation in which the employee was ordinarily employed immediately prior to the commencement of his leave or the termination of his employment, as the case may be. Payment in the case of employees employed on piece or bonus work or any other system of payment by results shall be at time rates.

Proportionate Leave on Dismissal.

(l) If after one month's continuous service in any qualifying twelve-monthly period an employee lawfully leaves his employment or his employment is terminated by the employer through no fault of the employee, the employee shall be paid at his ordinary rate of wage for 3½ hours in respect of each completed one month of continuous service before the 1st January, 1946, and for 7½ hours at the same rate in respect of each completed month of continuous service after that date, the service in each case being service in respect of which leave has not been granted hereunder.
